PRICE FIVE CENTS

## PEACE CONFERENCE CALLS GERMANY TO ACCOUNT MEXICANS FIRE ON AMERICAN AVIATION OFFICERS

### TREATY TERMS ARE DELIVERED TO AUSTRIANS

Peace Conference, Wearied by Discussions, Reaches Agreement on Practically All Sections of Pact Terms

### PROBLEMS LEFT LARGELY TO LEAGUE OF NATIONS

Accompanying Letter to Set Forth Responsibility in War But Recognizes Responsibility of Allies to Aid

PARIS, (AP)—Bismarck will not sign the peace treaty with Austria, according to intramural, because of a clause introduced at the formal request of the American delegates concerning ethnic minorities.

PARIS, (AP)—The revised text of the peace treaty for Austria, according to the peace conference was handed to the Austrian plenipotentiary at St. Germain this afternoon.

### Allies Ready to Help

The treaty was presented to the Austrian delegates by Paul Dussane, general secretary of the peace conference. He also handed them the allied reply to the Austrian counter proposals and a covering letter reiterating that Austria had precipitated the war by an ultimatum unacceptable to Serbia. It was set forth, however, that the allies were willing to assist Austria to a point herself to her new situation and to admit her in the near future to the league of nations. The treaty was presented in French, English and Italian.

As to the political future of Austria, it is known that under the treaty the league of nations is to have a very large say. For allowing the Austrians to join Germany would be left with the league. Of such permission being given, however, there would appear to be little chance, as France is known to be opposed to such a union, as are Switzerland and many other countries.

There seems to be a general feeling of dissatisfaction with the peace conference circles with the treaty, but the council had agreed today on virtually all sections because there is a general weariness with discussion.

### Vienna Loses Prestige

Under the terms of the treaty Vienna with its 2,000,000 inhabitants, seemed doomed to lapse into comparative commercial insignificance, as there is a population of only 4,000,000 within the country outside the city to support the capital, while with Yugoslavia, Czechoslovakia and Hungary existing as separate powers, Vienna can hardly hope to recover the business formerly drawn from their territories. If the internationalization of peace were provided for, as is expected by many quarters, it is pointed out Austria's shrunken commercial interests would thereby be paid to some extent but it is generally thought that Vienna is doomed as a great capital and must inevitably relapse into a residential city.

### AMERICAN ARMY FOR LITHUANIA

Released Officers and Enlisted Men Make Up Foreign Army Brigade

PARIS, (AP)—An American brigade for service in the Lithuanian army has been formed, the work being a complete success, according to an announcement from the Lithuanian delegation to the peace conference. Enough demobilized American officers to form the staff have applied for commissions and many discharged enlisted men have entered the ranks, it is said.

### BOLSHEVIKI SUPPRESSED ON LITHUANIAN FRONT

Copenhagen, (AP)—The Lithuanian delegation announced that the Bolsheviks have been surrounded on the Lithuanian front. They are offering to make peace with the Lithuanians whose advance continues.

### ESTONIANS ANNOUNCE LOAN OBTAINED IN U. S.

Copenhagen, (AP)—The United States has granted a loan of \$20,000,000 to Estonia to be used chiefly to pay for American goods sent to that country, according to an announcement made here by the Estonian press bureau.

### SPONSOR FOR RAILROAD BILL

Albert B. Cummins, Senator from Iowa, who, as chairman of the senate committee on interstate commerce, today introduced proposed legislation embodying recommendations of the committee after months of study of the railroad problem.

## CUMMINS RAILROAD BILL IN SENATE PUTS BAN ON STRIKE AND LOCKOUTS

Private Ownership and Operation in Several Regional Systems is Plan for Permanent Regulations Submitted by Interstate Commerce Sub-Committee; Termination of Government Control on Last Day of Month of Enactment Provided For

WASHINGTON, (AP)—Private ownership and operation of railroads in a number of regional systems under strict government control, with strikes and lockouts of railroad employees prohibited, is the plan for permanent railroad regulations submitted to the senate today by the interstate commerce subcommittee.

A tentative bill embodying the subcommittee's recommendations had been introduced by Chairman Cummins and referred to the full interstate commerce committee. The bill is the result of many months work by the subcommittee which, besides Mr. Cummins, includes Senators Kellogg, of Minnesota and Pennington of Washington, republicans, and Pomeroy of Ohio, and Robinson of Arkansas, democrats.

### Salient Provisions

Termination of government control and return of the railroads to private ownership on the last day of the month of enactment.

Establishing the interstate commerce commission with greatly increased powers, as the supreme body over railroad affairs. Supervisor and control of virtually all railroad affairs, including rates,

wages, operation and financing, by the government.

Creation of a new railway transportation board of five members appointed by the president to supervise railway development and operations, subject to final action of the interstate commerce commission.

Creation of a new committee on wages and working conditions, composed equally of representative employees and employers, with wide authority in settling labor questions, subject to decision of the transportation board and interstate commerce commission.

Prohibiting strikes and lockouts on railroad employees under fine and imprisonment penalties.

Defining a new policy for concentration in ownership and operation of railroads, with federal incorporation into not less than 20, nor more than 35 regional systems.

No guarantee by the government of future railroad income, but limitations made upon revenue to "fair" divide based on value of properties fixed by the interstate commerce commission.

The bill provides that existing

(Continued on Page Four)

### AIR PATROLMEN ON BORDER MEET WITH FUSILLADE

Captain Davis B. McNabb is Wounded in Head when Attackers Pour Repeated Volleys into Plane

### COMPANION GUIDES HIS MACHINE SAFE TO LAND

Statement of Southern Department Army Headquarters is Held Up Pending Receipt of Fuller Information

LAREDO, TEXAS, (AP)—Two American aviation officers, on border patrol duty, were fired upon today by a group of Mexicans while flying up the Rio Grande, near here, and one of the officers, Captain Davis B. McNabb, was the officer wounded, and his companion, Lieut. Johnson, brought the machine safely to earth on the American side.

McNabb was put to bed at a farm house and an airplane with a surgeon and medical supplies was rushed to his aid from headquarters here.

The officers were flying low about 10 miles up the Rio Grande from here near Santa Isabel creek, when suddenly on the Mexican side about twenty-five Mexicans came out from the brush and poured volley after volley into the plane. It was reported several hundred shots were fired.

### Series of Complaints

Many bullets pierced the wings of the plane and before it could rise, Captain McNabb was struck near the ear, the bullet lodging in his head. Word was sent promptly to headquarters at Fort Meador today.

The attack today, which took place shortly after 3 a. m., followed complaints for some time past that Mexicans occasionally had fired at the border guard.

### FULL DETAILS LACKING AT ARMY HEADQUARTERS

SAN ANTONIO, TEX., (AP)—At southern department headquarters, Capt. W. T. Johnson, chief of staff, said the department did not yet have full details of the report from Laredo that a band of Mexican fire on the border was averted and the department had no statement to give out on the affair.

### CHIHUAHUA IS STIRRED BY PLANE VISIT REPORT

CHIHUAHUA CITY, MEX., (AP)—Two airplanes flying high over this city Friday caused a sensation here when they were reported to be carrying American aircraft and not the Mexican planes which have been flying near here. The aviators flew from Palomar station, on the border railroad northwest of Chihuahua City, passed over Altamira and reached here at five o'clock in the afternoon. The planes passed over the city, circled and flew toward Palomar and Presidio, Texas.

### HOOVER FAVORS FURTHER EXTENSION OF CREDITS

Says United States Must Advance from Three to Four Billion Dollars to Make American Markets

PARIS, (AP)—Appearing today before the subcommittee of the congressional committee on war expenditures, Herbert Hoover, director general of international trade, said he believed it imperative for the United States to extend to Europe credits of from \$3,000,000,000 to \$4,000,000,000 for a year and a half or two years in order to create a market for the American surplus and save Europe from disaster. The credits, Mr. Hoover declared, should be issued to established European merchants, under guarantee of their governments, and a guarantee in turn should be given by the United States to the American merchants in interest. He discouragingly stated that the extension of the transactions by the governments, urging the necessity of preserving the regular commercial organizations.

### Fines Assessed Against Cudahys

MILWAUKEE, WIS., (AP)—Cudahys, a Milwaukee merchant, packed today pleaded guilty in district court to 23 violations of the cold storage law and was fined the maximum amount on each charge, totaling \$2,500.

### Shopmen's Vote Count Indicates Strike Defeat

WASHINGTON, (AP)—Partial returns from the strike vote now in progress among the railroad shopmen indicate, union officials said today, that the men will accept the advice of their officers and leave the matter of a strike in their hands, pending the result of governmental efforts to reduce the cost of living.

This was the day originally set for a strike and it was feared that some of the more restless element might act hastily.

### KNOX PRESENTS ANOTHER PACT

Treaty Between England and Persia is Discussed by Committee

WASHINGTON, (AP)—Discussion of the treaty recently negotiated between Great Britain and Persia was presided over by Senator Knox, republican of Pennsylvania, during the session today of the senate foreign relations committee. At the senator's suggestion, W. Russell, minister plenipotentiary during President Taft's administration was heard. He asked that the senate make a "written protest" against the pact.

### British in Control

The treaty as quoted by Mr. Russell, provides for control of Persian financial and military matters by joint British-Persian commissions, but Senator Knox declared that by the terms of the treaty the decisions of the British members would be final.

Mr. Russell told the committee he had obtained the copy he said "confidentially" and would not disclose the source, but added that it was authentic.

Senator Swanson, democrat of Virginia, asked if it was a secret treaty. Mr. Russell said it could not be under the Persian constitution, nor, for that matter, could it be constitutional in any way.

Mr. Russell declared the treaty gave Great Britain absolute power over the purse and the sword of Persia.

The committee today also heard representatives of the Hungarian-American organizations and Albanian-American organizations and tomorrow will hear Swedish views as to the peace settlement.

### MARYLAND RAIL SHOPMEN REJECT SETTLEMENT PLAN

Walkouts of Railroad Employees at Various Points are Reported

CUMBERLAND, MD., (AP)—All the Baltimore and Ohio railroad shopmen here, including machinists, boiler-makers, sheetmetal workers, electrical workers, blacksmiths, car repair men and foremen, about 1500 in all, struck today in response to a president Wilson's plan of settlement.

### NEBRASKA SHOPMEN QUIT WITHOUT NOTICE

LINCOLN, NEB., (AP)—A majority of the shopmen employed at the shops in Chicago, Burlington and Quincy railroad company at Havelock near here walked out today for higher wages, a report from the Havelock shopmen today was said.

Boiler-makers, machinists and blacksmiths with few exceptions went on strike, Thomas Hoop, the road's superintendent at Havelock, said. The woodworkers and electricians, he said, remained at work. Mr. Hoop added that the men who stayed on the job said they had received authorization from their union officials to "quit work". No notice that the men were to strike was given the company, he said, nor did the men make known to the company their demands.

### IDAHO WEATHER

Tonight and Wednesday fair.

### PROHIBITION PARTY URGED TO WAGE CAMPAIGN FOR ENFORCEMENT OF LAW

CHICAGO, (AP)—Declarations that law enforcement is the greatest issue in the United States today and that the prohibition party should be re-entitled with law enforcement as the dominant feature of its policy were loudly applauded today by members of the national committee of the party in session here.

Replying to assertions that adoption of the eighteenth amendment had ended the usefulness of the party, Robert Dayton, Springfield, Ill., declared that "Bolshevism and disregard of law con-

### FURTHER MOVE ON RHINE BANK IS THREATENED

Council Demands Suppression of Constitutional Provision for Representation of Austria in Reichsrath

### POINTS OUT VIOLATION OF TERMS IN STERN NOTE

Fortnight is Given for Teuton Compliance with Allied Demand for Strict Adherence to Treaty Terms

PARIS, (AP)—The supreme council of the peace conference decided today to send a note in forceful terms to the German government pointing out the contradiction with the Versailles treaty of the provision in the new German constitution providing for the representation of Austria in the German Reichsrath.

The council demands the suppression of the article within a fortnight declaring that otherwise the allies will be compelled to undertake a further occupation of the left bank of the Rhine. The article objected to is article 61 of the German constitution, as in conflict with article 80 of the German peace treaty forbidding German interference in Austria affairs. Article 80 of the Versailles treaty reads: "Germany acknowledges and will respect strictly the independence of Austria within the frontiers which may be fixed in a treaty between that state and the principal allied and associated powers; she agrees that his independence shall be inalienable, except with the consent of the council of the league of nations."

### GERMANY GETS REDUCTION IN COAL QUOTA TO FRANKS

COPENHAGEN, (AP)—As a result of new talks at Versailles, it has been decided that Germany within the next six months shall deliver 20,000,000 tons of coal to France, as compared with the 43,000,000 tons provided for by the terms of the peace treaty, a German official statement received here says. If Germany's total production exceeds the present level of about 105,000,000 tons annually, 10 per cent of the production, up to 125,000,000 shall be delivered to the entente, and 50 per cent of any extra production beyond that amount will be the share provided for in the peace treaty is reached.

### RUMANIANS TO BE ADMONISHED

Peace Council Discusses Failure to Receive Replies to Its Notes

PARIS, (AP)—The supreme council today discussed the failure of Rumania to receive replies to the council's notes. It is likely the council will send an admiral in the near future with an emphatic note demanding an immediate response by Rumania to the council's recommendations. The supreme council, according to the Echo de Paris considered the question of racial minorities in Serbia and their equality with others in economic and political life. The question of interference in their internal affairs has been raised by some of the smaller nations in this connection.

In order to avoid affronting Serbia in this respect, France, the newspaper adds, has proposed that such protection apply only to new Serbian territory and not to Serbia as constituted before the war.

## WORLD NEWS EVENTS

PARIS, (AP)—The Aegean seaport, access to which the allies have decided to give Bulgaria under the peace treaty, is Dedegatch, together with the railway leading to that port.

BELGRADE, (AP)—Numbers of Italian soldiers have been massacred in severe attacks by Albanian clansmen, according to the Politika of this city. The remainder of the Italian troops retired toward Durazzo and other strong points.

WASHINGTON, (AP)—The allied blockade against Hungary was lifted today. Restrictions remain, however, on dyes and certain other commodities which will be under the control of the reparations commission as was the case when the German blockade was lifted.

BERLIN, (AP)—German reports from Riga declare that General Gough of the British army has proclaimed to the population of Petrograd that an attack is about to be made upon that city. The reports quote the proclamation as containing, "As soon as Petrograd has been freed from Bolshevik tyranny, food will be sent."

# GERMANS ADOPT NEW POLICY IN TRADE REVIVAL

## Contemplate Abandonment of Flooding of Foreign Countries with Trashy Goods; Admit Outlook Unpromising

"Through improvement of our set-up we are planning to rehabilitate the world trade by a new policy," according to a writer in the Dentscher Handel Warte of Nuremberg. It contemplates nothing less, he says, than abandonment of the flooding of foreign countries with trashy goods. "Admitting that the outlook for German exports is 'unfortunate,' in view of the progress in manufacturing made by Japan, America, England and other countries, the help is expected that those nations are so busy trying to increase their industrial production that they are becoming lax in the matters of beauty, quality and price.

**See Enemy in America**  
"America seeks to drive Germany from the world markets," says the article. "The Entente concerns itself also with working against our exports in neutral countries. Yet all this cannot scare us. It is thereby made clear what thoughtful enemies of German manufacturers in enemy countries. The goods which are best, most beautiful and cheapest will find their way into other lands.  
"The improvement of our scientific methods our government must promote German export business. The means are already at hand. We possess research institutes for rubber, leather, textiles and food chemistry. They must step farther along this road. Besides, professional schools are to be improved in order to raise the general level of labor. Technique and science must work together to save the raw material.

**Markets Opening Already**  
"Already foreign firms are seeking German goods. In Berlin a German-American Merchandise Exchange has been organized. A number of American chambers of commerce have raised the demand to renew business with Germany as soon as possible. It is known that in South America there is also heavy need for German goods, sharp competition which is already apparent between England and America will be profitable for our exports. The ten year long relations of our merchants with other countries can build the bridge for our export trade.  
"We shall lay emphasis on goods of quality for only the best value products will henceforth gain entrance to the world's markets. If peace and order can be restored in the fatherland then we need not be uneasy about the outlook for the future."

### WILSON REFUSES SENATE REQUEST FOR TREATIES

Without Drafts on Grounds of Protecting Executive's Power to Negotiate Peace Terms

WASHINGTON, (AP)—President Wilson declined Monday to give the senate foreign relations committee the tentative drafts of treaties with Austria, Hungary, Turkey and Bulgaria, as requested by the committee, on the ground that "it would tend to take the function of negotiating treaties out of the hands of the executive."  
"In a letter to Chairman Lodge, President Wilson said that as the treaties will be in process of negotiation, he considered it "out of the question" to give the tentative drafts. Senator Lodge wrote in reply that the committee had asked only for such information as it would be compatible with the public interest to give, and added that the decision as to whether it was expedient to give any information about them at all undoubtedly rested with the president.  
At the same time the president refused the committee's request for the declaration of June 17 signed by the United States and other powers to cover military occupation of the Rhine. "A certain degree of embarrassment would be caused, President Wilson wrote if the declaration were made public now.  
Senator Lodge replied that the declaration already had been printed in the congressional record, having reached members of the committee through British sources, and also had been submitted to the house of commons July 4.  
The treaty with Poland, and another Rhine agreement, that of June 28, which also were asked for were sent to the senate by the president last Friday.

### FISHING LEAVES FRANCE

BRENT, (AP)—General John J. Pershing, commander of the American expeditionary forces, sailed from here Monday on the transport Leviathan for the United States. The steamer left port at 3 o'clock this afternoon.

### OMAHA MILKMEN TO CUT PRICE OF THEIR WARES

Co-Operate with Water District and Use Fire Stations as Distributing Points

OMAHA, Neb., (AP)—Milk is to be sold here by the Mid-West Milk Producers association, with the co-operation of the metropolitan water district and using the city fire stations as distributing points. The price is to be either 10 or 11 cents a quart. Milk now sells at 15 cents a quart.  
"The new distribution system will have no expense for rent of the distributing stations or for clerks, the city firemen to act in that capacity.  
"The milk producers' association will bring the milk into the city and to pasteurize it, using steam from the water plant, now wasted," said R. B. Howell, general manager of the water board. "The city firemen will then distribute the milk to the fire stations, where it will install refrigerators."

### FEDERATION SANCTIONS CIGARMAKERS' STRIKE

Executive Council Approves Appeal to Workers and Friends for Moral and Financial Support

WASHINGTON, (AP)—Formal approval of the strike of cigarmakers over the new district system will then be given to all workers and friends for moral and financial support" of the strikers.  
"It was said at the federation's headquarters that the strike will last several weeks, mostly women and children were in New York, Chicago and other cities.  
"This strike was only one of many matters considered today by the executive council, but no announcement as to other decisions was made.

### FRAZIER FOR PRESIDENT

North Dakota Workers Pledge Support to Non-Partisan League

FARGO, N. D., (AP)—The North Dakota workers non-partisan political alliance organized here last night, the session continuing all one week this morning.  
Resolutions adopted by the new organization pledged support to the non-partisan league, and recommended to the national labor party the nomination of Governor Lynn J. Frazier of North Dakota as the party candidate for president of the United States.  
The plan was endorsed and the United States was asked to recall all troops from Russia, and to give no further aid to the fight on the soviet republic.  
John Hickey, Burlington, representing the miners, was elected president of the party for the coming year.  
Special attention will be given in the next election to the naming of members of the state legislature, activities to be centered in districts where the city vote is a big factor.

### Bantam Champion Downed by Lynch

New York Fighter Easily Wins Decision Over Pete Herman in Ten Rounds

WATERBURY, Conn., (AP)—Pete Herman of New Orleans, bantam weight champion of the world, was defeated in 10 rounds on decision here by Joe Lynch of New York, at the driving park here yesterday afternoon. Newspaper critics gave Lynch eight of the ten rounds, the other two being even.  
Lynch forced the fighting from the start to the finish, while the champion fought on the defensive most of the time, showing only occasional flashes of the four-potential of him. In the third round Herman landed two hard rights to Lynch's body, but the New Yorker came back strong and captured honors in all of the ensuing rounds. Herman was never in danger, however, as Lynch's blows seemed to lack power.

# POLITICS HOLD PARIS INTEREST

## Prospects Indicate Neither Poincare nor Clemenceau Be Candidates

PARIS, (AP)—While debate on the ratification of the peace treaty with Germany is going on in the chamber of deputies before virtually empty benches, most of the members gather in the lobbies discussing the coming election.  
President Poincare, it is declared, will not be a candidate for a second term, and it seems improbable that Premier Clemenceau will stand for the office. Some days ago when asked if he would be a candidate he is quoted as having replied:  
"I would think if I should be elected and then run afoul of another Clemenceau as premier."  
Prominent among the candidates is Paul Deschanel, president of the chamber of deputies. It is expected that nearly 300 members of the chamber will be returned, and he is reported to be certain of four-fifths of their votes.  
Antoine Dubouché, president of the senate also has followers.  
Alexandre Ribot, former premier, seems to be expected to present the most formidable opposition to M. Deschanel. The name of former Foreign Minister Louis Barthou is also mentioned, but many of the deputies appear to think he is too young.

# BOAT RESERVE PLAN FOR WAR

## Army Reorganization Scheme Contemplates Holding Ships for Emergency Use

WASHINGTON, (AP)—Organization of a permanent "transport reserve" of ships carrying 112,000 troops is proposed by the war department as a part of the army reorganization plan. This reserve, with the regular army transport fleet would make it possible to move an expeditionary force of nearly 200,000 men immediately on the outbreak of war.  
The plan as outlined by Brig. Gen. Frank T. Howe, in charge of the army transport services, contemplates reserving 10 to 15 of the former German passenger ships and a number of cargo carriers with their allocation to some foreign lines on the conditions that the crews be enlisted in the transport reserve and that no structural changes in the vessels be made by the operating lines. All of the ships are now in perfect shape for army use and General Howe would have them subject to periodical inspection by army engineers.  
The Leviathan, George Washington, Mount Vernon and Savannah are among the ships listed to be retained if congress approves the plan.

### WILSON TO CALL MEETING OF LABOR AND INDUSTRY

President Appeals for Increased Production in Message to Labor Day Gatherings

WASHINGTON, (AP)—In a message to be read at Labor day meetings throughout the country Monday and in which he announced he soon would call a conference of representatives of labor and industry, President Wilson appealed to every citizen to promote production and to refrain from strikes which would tend to increase the cost of living; expressed gratification with the manner in which leaders of organized labor had received his plan to meet the wage situation and hoped the workers would move with the government instead of against it, in the solution of the domestic problem.  
In discussing the proposed conference which likely will be called within a few days, Mr. Wilson said the fundamental means of bettering the whole relationship of capital and labor "and putting the whole question of wages upon another footing" would be discussed. Plans for such a conference have been urged by both members of congress and cabinet members.  
**Measures Human Vibrations.**  
Utilizing a galvanometer, a French scientist has invented apparatus for measuring vibrations of human bones and tissues, with which, among other things, he treats a person's pulse more accurately than by hand.  
**Checks Mine Fires.**  
To check the spread of flames in mine explosions an automatic device has been invented that scatters rock dust into the rushing air that precedes them.  
**What Makes One Old?**  
According to a Romaninan scientist, old age is due solely to a decrease in the amount of water in the human system.  
**Store advertising serves the people who buy.** It is not merely of itself, to those who rarely buy anything, it is not merely interesting but vital to the buyers for the homes. For it is a guide and a service to them.

### SOVIET SAYS UKRAINIANS GIVE UP INDEPENDENCE

Decision Reached as Result of Negotiations of Petlura and Anti-Bolshevik Leader

LONDON, (AP)—As the result of negotiations which are in progress between General Denikin, the anti-Bolshevik leader in southern Russia and General Petlura, the Ukrainian commander, it has been decided that the Ukraine shall abandon its political independence, although retaining its position as a state, a Bolshevik wireless message from Moscow today asserts.  
An all-Russian constituent assembly, it is declared, will decide upon the final form of government for the Ukraine.  
The message attributes the most active negotiations to a "Russo-American" named Marton, representing the Ukrainian directorate.  
A lapse in rental income will take all of the profit and satisfaction out of property-owning—so use the classified.

## Brief Sport Bits

Hart! hart! hart!

That for you Razz Berry!

Lookout what happened to your old Roubt three in a row lost. Saturday, Sunday and one yesterday.

Our White Sox won a pair yesterday, which is something to crow about.

There's another new fight champion today. Joe Lynch, a real Irishman, of New York, whipped Pete Herman of New Orleans yesterday and thereby won the bantamweight crown.

Also, how can a motorboat win a golf cup, we'd like to know?

'Babe' Ruth made his 24th home of the season. One more and he will tie the record made by Buck Freeman many, many years since.

Eddie Gheis yesterday fanned Ty Cobb in the final game of the White Sox-Detroit double header. Which, we claim, is a considerable feat.

A telegraph operator in this office, soiled because the conditions of his job withheld from him the glory and dignity of a place in the line of peasant yesterday morning, says, 'Eddie's stunt was 'only accident.'

That isn't the way it will be written in the book Mr. Spaulding compiles.

We take credit to ourself for getting Babe Evans out of this league. On our recommendation to Rupert southpaw left today for Salt Lake where he will continue to help the management in winning some of the remaining games of the Pacific Coast league season.

With our recommendation, made to the Big Bosses three weeks ago went a guarantee that Babe would win the big majority of games he pitches for Salt Lake.

## CURSORY COMMENT CONCERNING CONTEST

Some smiles, sagebrush sage, says: 'Some critics are prosecuted, whilst others are condoned, but we believe they should be some general arrests and prosecutions for what was done at the ball park yesterday.'

The box score is compiled as we saw it; not as the game was really played. All eye witnesses who saw anything different are cordially and respectfully invited to make their own corrections.

We are in favor of enforcing the law in all things, especially where fraud is perpetrated and money is thus obtained.

Some ultra-level fans remained away from the advertised circus purposely to pay to see the 'monkey' show.

We give you our guarantee that no matter what the management of the ball club advertises for the Bull show next Sunday, even should Ty Cobb, Eric Spenser, Joe Jean, Babe Ruth and the rest of the big league celebrities, be billed, we will not be there.

This's how we feel about it, and we offer in wager our last dime that few there are who were humbled among these present spectators who do not entertain the same feeling.

At that it would take a strong club to beat that Paul outfit.

## Grand Circuit Races

HARTFORD, CONN., (P)—McGregor the Great, Walter Cox's trotter, defeated a field of seven horses in the feature event, the Challenge, for 2:19 in the opening card of the grand circuit, racing at Charter Oak park yesterday. The best time was 2:07.24. Echo Three, piloted by Bruce, took second place in each heat. The 2:09 trot furnished the most thrilling finish of the day, when in the first heat Babe Hillbill, Tera's Hall and Country 14, tore down the stretch neck to neck, less than a head separating the three trotters at the finish. The best time was 2:10, made by Tera's Hall in the second heat. Later Hillbill won the other two and the race.

Auto Guy was not in condition for the scheduled match race with La Princeton and Mabel Trank vs. La Stunt; La Princeton defeated the famous mare in both heats. Best time 2:06 1-2.

Pocket Thief Alarm. A thief alarm invented in Europe is small enough to be carried in a vest pocket and explodes a cartridge when any object under which it is laid is moved.

## CIRCUS HAD NOTHING ON THE BALL CONTEST

### Greys Spill One of the Weirdest Hippodromes in History of Local Baseball

There were two circuses in town yesterday. Folks who did not see the one at the ball park missed the biggest and most stupendous hippodrome of the season, the biggest of the history of the country. It was all of that, with Paul playing 'tee-you-tee-it' all the way. It was really laughable—for Paul, and even Stu Smiley, sagebrush sage who is a dignified chap, rarely losing his dignity for the shortest instant, found himself in the throes of exclamation on two occasions.

It wasn't a ball game—not even the most enthusiastic fan in the world could have found anything resembling baseball in the thing. Men on the local staff hippodrome from the big start to the bitter end. Everybody, nearly, took a hand in attempts at entertainment extraneous from the national game. There was comedy of all kinds, burlesque in looks, and tragedy in technique, but never a bit of baseball, never.

Manager Hart started 'Lefty' Oliver in the box, and after trying out all the available pitching material inserted himself to finish the game. He finished, and so did the circus.

Aided by the kindly efforts of Smiley the underpaid official scorekeeper compiled some statistics in the form of a box score. It is not claimed this is a correct survey of yesterday's scene; such a thing could not be. Even the names and positions played are wrong, because the umpire did not consider it necessary to announce changes in the team lineup. He merely told when Oliver was taken from the box and Christian went in. After that the fan was supposed to know, and so was the scorekeeper. All of which is quite in keeping and accord with the hippodrome trend of the fete affair.

## SOUTHPAW EVANS DEFEATS CHAMPS

### Great Pitching by Star of the League Responsible for Rupert's 6-1 Win

BURLEY, (Special)—With Babe Evans tilting in big league style on Labor Day, Rupert defeated the state baseball champions 6 to 1. The result of the contest was never in doubt. Evans was master of every situation, and let the champs down with only six hits, while his mates made 12 holes behind him. Evans himself contributed a homer to the doings.

Evans has concluded to report to the Salt Lake team and will leave immediately to join the club at Salt Lake. The southpaw has been the property of that club several years, but jumped the Bees a couple of years ago. He never displayed more 'chutz' than in yesterday's game against Burley, and goes to the big show confident of succeeding. The offer of a position on the twirling staff of the Bees came to Evans through a recommendation made to the club management at Salt Lake by a Twin Falls sports writer.

MEMBER OF ASSOCIATED PRESS. The Associated Press is exclusively entitled to the use of news dispatches...

PROPAGANDA

Use of stereotype plate matter in the furtherance of a propaganda is not new, but it is doubtful whether this particular practice has ever been more extravagantly employed than in the interests enlisted in the furtherance of the ratification of the peace treaty...

Today's quota, in three columns, bears the headings, "Treaty Cannot Be Amended," and "League Will Prevent War" - titles which make unnecessary further perusal of the articles to reveal their purpose.

SCHOOLS START WITH BIG RUSH

Enrollment in High and Grade Departments Gratifying. Officials Say. Twin Falls schools, grades and high, opened for the year this morning with gratifying enrollment in all buildings...

Today's Markets

Grain and Provisions. CHICAGO, (AP)—Bullish crop estimates and other factors today to the corn market except for the September delivery. Liberal receipts here tended to make the September delivery weak.

Cash Quotations. CHICAGO, (AP)—Corn No. 2 mixed nominal, No. 2 yellow \$1.70 to 1.82; white No. 2 white \$1.67 to 1.70; white No. 2 \$1.44 to 1.45.

Chicago Livestock. CHICAGO, (AP)—Hog receipts 13,000; lower; top \$20.80; heavy \$17.50 to 19.50; light \$19 to 20.40; heavy packing sows, smooth \$10.25 to 12.25; packing sows, rough \$15.50 to 16.25; pigs \$16 to 18.75.

Chicago Produce. CHICAGO, (AP)—Butter continued steady; receipts 7,010 tons. Creamery grades 54 2/3¢; firsts 50 1/2¢ to 53 1/2¢; seconds 49 to 50¢; standards 52 1/2¢ to 53¢.

Potatoes. CHICAGO, (AP)—Potatoes firm; arrivals 122 cars; Minnesota Early Onions, sacked carlots \$2.70 to 2.80 cwt.; Wisconsin Early Onions, sacked carlots \$2.75 cwt.; Idaho and Colorado Round Whites, sacked, carlots \$3.25 cwt.

Liberty Bonds. NEW YORK, (AP)—Final prices on Liberty Bonds today were: 3 1/2's \$99.84; first 4's \$94.50; second 4's \$92.90; 4 1/2's \$91.90; fourth 4 1/2's \$93.28; Victory 3 1/4's \$99.52; Victory 4 3/4's \$99.54.

INTEREST IS MEAGRE IN SCHOOL ELECTION

Two City Board Members to Be Chosen at Polls This Afternoon. At 1 o'clock this afternoon an election of school board members for District No. 1 was opened. Polls will be open at the high school until 5 this evening. Interest in the election is meagre.

I want to employ several persons for the apple picking season. Active workers can make good money. Make arrangements at once by calling at my office or phoning. C. A. ROBINSON, Trust Bldg. Phone 621

SAY JOHNSON IS TRAINING

Reports from Mexico Indicate Former Champion is Preparing for Ring

PHOENIX, ARIZ., (AP)—Jack Johnson, world and more than 5 years a fugitive from justice from the United States, is now in Nogales, Sonora, according to reports brought to Phoenix by J. G. Kelly, scout for the Detroit American league baseball team. Kelly, who claims personal acquaintance with Johnson, stated that Johnson flew to Nogales, Sonora, for a 15-round bout to be held with Tom Crowler in Mexico City September 16.

EASY FOR MIKE SYMAUSNE

MIKE SYMAUSNE, N. V. (AP)—Mike Symausne, St. Paul, middleweight champion, fought Ted (Kid) Lewis of New York in a 10-round bout last night. O'Dowd was the aggressor throughout and had Lewis in trouble in the sixth, eighth and tenth rounds. Lewis was pinned in the eighth to the head and body. O'Dowd weighed 154 pounds and Lewis 145 pounds.

TWAS A ROUGH GO

GRAND RAPIDS, MICH., (AP)—In a fast and rough match here yesterday afternoon, Rough Sammie Hesse, Gary, Wis., and earned the referee's decision over Ray Rivers of Los Angeles in ten rounds. The bout was stopped in the third when Rivers hit Hesse on the head again in the 7th when the ropes broke and Rivers fell through on to the spectators.

BROWNING MEETS DEATH IN AUTOMOBILE WRECK

President of United States Postmasters' Association and Inspector at Denver Killed in Accident. OGDEN, UTAH, (AP)—Postmaster W. W. Browning, president of the Utah State Postmaster's association, and George O. Daniels, chief postoffice inspector at Denver, Colo., were killed, and three other postal officials of Utah were injured last evening when an automobile in which they were riding from Logan to Ogden over a mountain road skidded on a steep incline and fell over a cliff, struck a bridge and turned a somersault into a swollen mountain stream. Browning and Daniels were drowned, according to reports reaching here. Mrs. A. S. Browning, wife of the president, was injured and postmistress of Huntsville, was only slightly hurt. Two other officials, reportedly to be Mr. Inves of Salt Lake and Mr. Blake of Provo, were seriously injured. They have been attending the state convention held at Logan Monday. Postmaster Browning was a brother of T. Samuel Browning, mayor of Ogden; John M. Browning, first inventor of Brown's brewing sugar manufacturer; M. B. Browning, capitalist, and J. Edward Browning, fireman expert.

WILSON ENDORSES AIMS OF NEW ERA MOVEMENT

President, as Elder of Church, Avers Deep Interest in New Era Movement. LAKE GENNEVA, WIS., (AP)—In a message read before the new era conference today, President Wilson, an elder in the church, declared himself "deeply interested" in the character and purposes of the New Era movement, which is designed to formulate a five-year program to meet new conditions and problems. "That the church should devote itself to these great purposes of service and enlightenment is an evidence, it seems to me, of its true interpretation of the spirit of the gospel and of its ability to meet the needs of high public service in the nation," the message said.

MEXICAN BANDIT SLAYER OF AMERICAN IS KILLED

Outlaw who Murdered Adam Schaefer Meets Death at Hands of Federal Troops. Advances State. WASHINGTON, (AP)—The bandit who murdered Adam Schaefer, an American citizen, in Zacatecas, August 28, has been killed by Mexican federal troops, according to advices to the state department today from Mexico City. A dispatch from the American consul at Salina Cruz said Schaefer was a naturalized American, thus clearing up the question of his citizenship. When attacked Schaefer was reported to have had a heavy coat for a shield, and he was killed by the mother lives at Shripington, Tex.

WOULD UNITE SOCIETIES

G. A. E. Commander to Recommend Federation of Organizations. OMAHA, (AP)—E. Adams, commander in chief of the G. A. E., announced today that he will recommend at the national encampment at Columbus next week that steps be taken to unite the G. A. E. with other patriotic organizations. "This would not mean amalgamation, Commander Adams pointed out today. The purpose of the federation, Commander Adams said, would be to foster Americanism and insure united, harmonious action against influences seeking to disrupt the government. He is in touch, through the classified news, with you. You know, a prospect is a possible buyer. Advertise in the Classified columns.

Chooses Death With Wife to Life Alone

Three Children Orphans Because of Fatal Decision of Chicago Man

CHICAGO, (AP)—"I'll stay with you Mary." With these words William F. Tanner, a cashier in the office of the Baltimore and Ohio railroad here, closed his eyes, embraced his wife, whose foot was caught in a railroad track and was killed with her when a limited train of the Chicago and North Western railroad crashed into them last night. John Miller, a fireman, in attempting to rescue the couple lost his life and sustained a fracture of the right arm. Three little children are orphans today because of the fateful decision of Tanner to die with his wife.

COMMUNIST RAILROAD BILL IN SENATE

(Continued from page one) railroad payment contracts with the government shall be continued not longer than four months. Keynote of the bill, Chairman Cummins stated in an explanation in the Senate, is the elimination of 20 to 25 regional rail systems. The new method for settling labor disputes is a proposed committee on wages and working conditions, Senator Cummins said. "It creates a committee of wages and working conditions which is to be composed of eight members, four representing labor and four representing the railroads. The committee is to judge all complaints submitted by representatives of the employees or of the carriers. The committee and transportation board will consider the scale of wages paid for similar kinds of work in other industries; the relation between wages and the cost of living; the hazards of the employment; the training and skill required; the degree of responsibility and the character and regularity of the employment. Representation for Employees. Another provision of the bill requires that railroad corporations must have among their directors two representatives of their "classified employees" and also two directors representing the government. Another clause would create, through the new transportation board, an employees advisory council composed of representatives of the organized craft of railroad employees" to use one-half of excess earnings of companies above their "fair" dividends for the benefit of their employees. The other half of excess earnings would be used by the transportation board to buy equipment for lease to the companies or for equipment loans. Upon passage of the act, the bill provides that the interstate commerce commission shall divide the country into rate-making districts, hold regional hearings and fix new rates with regard to public and shipping costs, wages of labor, cost of maintenance and operation, and a fair return upon the value of property" to be fixed by physical valuations of the commission. Makes Competitive Conditions. The transportation board would establish the policy of establishing 20 to 25 regional railway systems, under federal incorporation, for distinct operation under competitive conditions. Street cars, street railways, and trolley cars would be exempted from such consolidation, which would have to be approved by the interstate commerce committee. Upon passage of the act, the bill would give the commission authority to exercise supervision of operating and financing of railroads, diversion of traffic, pooling of equipment, joint use of terminals and other matters. For seven years, under the bill, voluntary combinations of the carriers in conformance with the board's plan would be permitted. If not voluntarily combined in seven years, the board would require compulsory consolidation under federal charter and based upon actual physical valuation. Division of companies' traffic and earnings also is authorized by the bill under authority of the commission which would be empowered to require connections between water and rail carriers.

Another provision of the bill requires that railroad corporations must have among their directors two representatives of their "classified employees" and also two directors representing the government. Another clause would create, through the new transportation board, an employees advisory council composed of representatives of the organized craft of railroad employees" to use one-half of excess earnings of companies above their "fair" dividends for the benefit of their employees. The other half of excess earnings would be used by the transportation board to buy equipment for lease to the companies or for equipment loans. # SAVS GAMBLING IN FOODSTUFFS INFLATES COSTS

## Herbert Hoover Gives Views on Causes of Prevailing High Prices; Not Due to Shortages, He Declares

PARIS, (AP)—A distressing era of speculation in foodstuffs in the United States and throughout the world's primary food markets is largely responsible for high food costs, in the opinion of Herbert Hoover, director of the inter-allied relief organization, who on the eve of his departure for the United States, granted the Associated Press an interview Monday.

**European Warehouses Full**  
Whenever and wherever in northern European ports are overflowing with foodstuffs, sent by merchants all over the world, Mr. Hoover said. These merchants he declared had "gamblled" on the high food prices. In the Baltic states and Germany, he said, prices but these have only a depreciated local currency and many commodities are in danger of spoiling as the European market for foodstuffs is likely to be unable to absorb the surplus.

"This year's speculation," Mr. Hoover said, "is due, in my opinion, chiefly to the belief of food merchants and manufacturers that when the blockade was removed there would be an enormous demand for foodstuffs and other commodities in central and eastern Europe. This speculation was not due to any important shortages or to a lack of actual supply. This speculative fever which was not confined to foods was greatly stimulated by the long delay in the removal of the blockade until the peace treaty was signed at Versailles."

**Palmer on Right Track**  
Responding to an inquiry as to how food speculation could be checked in America, Mr. Hoover replied: "Attorney General A. Mitchell Palmer is on the right track when he endeavors to break down speculation. The situation is one that may well cause anxiety also from another point of view. We are coming into a flood of production of foodstuffs from the northern hemisphere and will again have a great surplus in the United States. If, in the meantime, Europe has not found credits to purchase the coming year's supplies, we are likely to have a glut and prices may fall below the cost of production to American farmers."

"The present high prices of food are not due to overproduction in Europe from the United States during the past year. That can be demonstrated by the fact that we enter a new harvest with a larger stock of previous years' production than at this time of year."

**Economic Law Not Working**  
"The law of supply and demand," he continued, "is not working normally and probably will not for another year."

"We will have a large surplus next year and must have a prosperous growing community if we are to have the world fed in the future and maintain stability at home and abroad."

"It could also have been possible to have prevented great speculation had we retained an embargo on exports and thus kept the world's speculators puzzled as to the government's action."

**DEATHS AND FUNERALS**  
Mrs. Charles L. Dingler of Twin Falls died Monday morning at La Porte, Ind., following an illness of a year or more. Word of Mrs. Dingler's death was received in Twin Falls last night by E. J. Ostrander, Mrs. Ostrander who is now in La Porte being a sister of the deceased.

Mr. and Mrs. Dingler came to Twin Falls from Wendell some six months ago, the former becoming connected with the Hunt jewelry store here. Mrs. Dingler left some two months ago for the east to prepare for an operation at Rochester, Minn., which was to have been performed within the next few weeks.

Another sister of Mrs. Dingler, Mrs. William Howard resides at Wendell. There are two children, both of whom are with their father at La Porte.

**Storms Again Shun District; Fair Tomorrow**  
Remember the story of the kid who offered a hungry dog a piece of bread and when the dog reached out to get the morsel the kid rapped him on the nose with the weather man did to us yesterday and again today. He tempted us with all sorts of rain promises, then pulled the coverlids away and left us with our mouths wide open.

Monday and most of today the sky was loaded with dense and apparently dripping clouds. Wednesday three drops of rain fell, and not a drop today. The clouds, mostly, have passed away, veering to one side or the other, and leaving this district just as dry as it ever has been.

Fair tonight and Wednesday is the promise of the weatherman.

Yesterday's high mark was 83 with 51 for low. On Sunday the top was 84 and at night 64 was low. During the month just closed one-one-hundredth of an inch of rain fell here.

# FARMERS' FILE DISTRICT FAVOR CO-OP SUGAR FACTORY

## Unanimous Support Pledged Profit-Sharing Scheme for Operation of Important Beet Development Industry at Near-By Town—Spirit of Unity Developed at Meeting

Out of 18 representative landowners of the Filer district attending a general meeting of farmers and business men with executive members and fiscal agents of the Idaho Co-operative Beet Sugar company 17 gave pledges to support the co-operative, profit-sharing sugar factory to be erected at Filer in the near future. The one farmer who did not pledge support for the factory because he is about to sell his holdings, and will not be operating a farm next year.

The meeting was held in L. O. O. hall at Filer last Saturday night and attracted approximately 50 business men of that place and district farmers. All expressed confidence in the ultimate success of the proposed plan of operation through co-operation, and a unity of sentiment toward financial aid was developed during the session.

Those attending the meeting from Twin Falls, taking an active part in the deliberations, were: Oswald Wilson, president of the Idaho Beet Sugar company; J. H. DeKlotz, secretary; J. H. Dale, employed as field man for the fiscal agency; Attorney James W. Porter and Leo E. Bracken, of the Idaho State bank. All these, along with Frank De Klotz, a local farmer, and several other farmers, E. Anderson, who was recently elected to this district from Rockford, Ill., addressed the assemblage.

The meeting was called to order by Frank De Klotz, secretary of the Idaho Co-operative Beet Sugar company, during his opening statement to the Filer people.

Dealing with the necessity for wider development of the beet sugar industry in this country, he stated that the beet sugar industry in this country is now in a position where it can be developed to a point where it can produce a ton of the finished product from beets at an infinitely lower figure than the raw material can be had down here from Colorado.

**Foreigners in Control**  
Speaking of his co-operative plan of sugar factory operation, Mr. Wilson said that only through the co-operative, profit-sharing plan, could the beet sugar industry be finally brought to the perfection it deserves. He contended, introducing figures to support the contention, that 75 per cent of the beet sugar factories now in existence are controlled by the foreign cane sugar interests, who entertain no wish to see the beet plan prosper.

"The co-operative plan is one of the natural outcome of a problem that has confronted this country some time," he said, adding that it is the plan favored by the government in the line of investigation of producing and marketing methods. "The government's investigations have proved that the producer of raw materials gets the least and while the factory operators reap the big benefit," the speaker averred.

The plan of the co-operative company is to give the growers a fair price for beets in the field, and after paying 8 per cent interest on the capital stock to divide the profits, retaining a sufficient amount for the necessary operating fund.

**What Is Needed**  
During the discussion attention was brought out that on the Twin Falls tract, comprising some 350,000 to 400,000 acres, capable of growing not less than one beet sugar factory, while the state of Utah has 19 such factories. Mr. Wilson explained that

it would be necessary to have 4,000 acres growing sugar beets to maintain a factory such as is proposed for the Filer district. He also declared that with a truck delivery system the hauling problem would be solved, with a saving of about \$2 per ton to the farmer for moving his crop to the factory.

According to Mr. Wilson it will cost \$1,000,000 for the construction of the factory, establishment of the haulage system and to fund the plan for necessary operating capital. The plant itself will cost \$500,000 for construction. The factory, he said, was planned to produce one million dollars' worth of sugar annually, and to provide employment for a considerable corps of inside and outside workers the year around. He declared that the by-product of the plant alone would pay the cost of construction in three years.

He also called attention to fertility, building qualities of beets for the soil on which they are grown, saying that crop leaves are a complete supply of humus, and a fertilizer.

The question of colonizing to solve the labor question was given considerable consideration as was that of keeping the money at home rather than send it to Hawaii, Cuba, Puerto Rico and the Philippines. He said beets grow in the Filer district had established a record of 40 tons to the acre.

A. H. Hittell made an especially convincing talk on the financial aspect, explaining that his company had made arrangements for paying \$750,000 of the \$1,000,000 stock to be divided among the subscribers.

J. H. Dale spoke at length upon the question of co-operation and of the co-operative factories connected with the Filer factory as an institution. Intensive cultivation and the benefits accruing from this modern method of farm operation, came in for commendation by Attorney Porter while Mr. Bracken spoke of the vast enhancement of land through the growing of beets for the support of a factory.

Mr. Anderson addressed the assemblage upon the labor problem, stating, declaring faith in the colonization plan, and asserting the belief that Illinois could furnish families needing far-work in the factories.

Frank De Klotz, one of the substantial farmers of the Filer section, declared himself in favor of the co-operative plan, and against all schemes that did not contemplate profit-sharing with the grower. Mr. DeKlotz is identified with farm bureau interests.

It is the intention of the company executives to make a thorough survey of the Twin Falls country immediately, especially about Filer, for the purpose of interesting the growers in the Filer sugar factory, and in other factories which are contemplated to comprise a string of such plants in this district.

Local estate maps were presented, distributed, if it is to yield you a return on your investment.

# Local Brevities

**Change in Management**—Frank Putnam, better known as "Cyke," and John Kendall, have taken over the soda fountain at the Sikes-Weber Drug store.

**Child Is Recovering**—Little Margaret Magel, who is recovering rapidly from an operation for appendicitis which she recently underwent at the Boyd hospital was removed to her home Saturday.

**Back From the East**—F. W. Kobs, manager of the Big White Store, has returned from eastern points, where he spent some time purchasing fall and winter goods for the Twin Falls store. While away he visited the markets of Chicago, New York, Omaha, Kansas City and Denver.

**Leaving for School**—Miss Faithie and Miss Glen De Witt will leave tomorrow for Boise where they will enter an academy for special school instruction. Mr. and Mrs. J. E. DeWitt, parents, will accompany the young ladies, the trip to be made by automobile.

**May Locate Here**—Mrs. Orbenne S. Mahard, who resided in Twin Falls, Idaho, where she will enter a school at Waterloo, Iowa, on a trip of inspection, and may decide to again locate here. Her son Mitchell, who has been in business here for over two years, is expected home soon. Her youngest son, Edmund, may join her later.

**Return to Twin Falls**—Dr. H. W. Sawyer and family returned Sunday after an absence of almost a year. Mrs. Sawyer and the children visited her parents at Waldport, North Dakota, while the doctor spent the time in clinics at Kansas City, and the hospital of the city of New York, and the post graduate school, where he specialized in obstetrics for over two years. He will be in his old office over the Model Blue store the last of the week.

**Will Go to Paris**—The Rev. and Mrs. J. G. Wilson, nee Miss Fern Wilson, spent the weekend at the home of Mr. and Mrs. Paul H. Taber. They will sail in about a month for Taber, Paris and Constantinople and the southern part of Russia. Mr. Wilson will be engaged in missionary work for the Presbyterian church, and expects to return to America only once in every eight years.

**DUNDEE TAKES BEATING**  
JERSEY CITY, N. J. (AP)—Willie Jackson of New York outgated Johnny Dundee of New York, in an 8 round bout at the Army Athletic association last night. Jackson who weighed 137 1/2 pounds, Dundee 132 3/4, earned the honors in six rounds.

**The Best Advertisement**  
The best advertisement any merchant can have is a satisfied customer. No greater recommendation can be given an article than the following by E. B. Milburn, Prop., Gunton Drug Store, Guilford, Ark.: "We have sold Chamberlain's Cough Remedy for years and have always found that it gives perfect satisfaction."—Adv.

# COOGAN IS WINNER

SOUTH BEND, Ind., (AP)—Mel Coogan of Brooklyn outpointed Barney Adair of New York in their ten round bout yesterday.

**SHARKEY GOES EAST**  
DETROIT, (AP)—Newspapermen gave Jack Sharkey every round of his 10 round bout with John White, of Albany here last night. The winner is to meet Pete Herman here September 15.

**SLASHING FIGHT**  
TULSA, Okla., (AP)—Frankie Mason of Port Wayne, Ind., won from Bobby Hughes, New Orleans, in a slashing 15 round bout last night. Mason forced the going in a majority of the rounds.

**POOE COME BACK**  
MILWAUKEE, Wis., (AP)—Pinkie Mitchell, Milwaukee lightweight, outboxed Evy Hammer, Chicago, in an easy session of a ten round no-decision wind-up bout last night, sporting writers unanimously agreed.

**WHITE GETS DECISION**  
DENVER, Colo., (AP)—Charlie White of Chicago won a referee's decision over Johnny New of St. Paul in his 12 round bout at the gymnasium stadium here last night. White was credited with seven rounds, Noye with four and one was even.

**OREB BEATS SMITH**  
YOUNGSTOWN, O., (AP)—Harry Oreb, of Pittsburgh, outpointed Jeff Smith of Bayonne, N. J., in a twelve round bout here last night, according to the newspaper decision. The men are middleweights.

**Deaths**  
At the Catholic church yesterday morning respiration ceased with Jacob Minkus, who died at a local hospital Friday. Burial arrangements were in charge of Undertaker J. P. DeWitt.

# Social Notes

The Presbyterian Ladies' Aid will give a social in the church parlors this evening, in honor of Mr. and Mrs. Austin D. Thomas, who are leaving soon for an extended visit to Mr. Thomas' old home in Wales.

Honoring Dr. and Mrs. J. F. Shepherd of Trinidad, Col., about fifty of their friends arranged an impromptu picnic at the home of Mr. and Mrs. D. R. Churchill, Saturday evening. After supper, music and a general social time was enjoyed by all present. Dr. and Mrs. Shepherd left for home Monday morning.

**SANDS BENT BACK**  
SEATTLE, WASH., (AP)—Henry Sands, an infiler of the Blooming-ton club of the Three I league has been obtained by the Seattle club of the Pacific Coast league, it was announced today. Herbert Murphy, Seattle utility player, has been released. Harry Miller, manager of the Seattle team, was married just before he left with the club for Oakland, Cal., last night.

**NAVY SECRETARY ACCEPTS INVITATION OF CANADIANS**  
WASHINGTON, (AP)—Secretary Daniels has accepted the invitation of Canadian officials to visit Victoria, B. C., on September 11. The navy department announced today that Mr. Daniels and Admiral Hugh Rodman, commander of the Pacific fleet, would make the trip on the Incaught New York. A division of destroyers will accompany the battleship from San Francisco.

# PUSSYFEETIS NAME GIVEN TO DRY ADVOCATES

### British Newspapers and Liquor Interests Apply Sobriquet to Workers in Campaign to Create Drought

LONDON, (Correspondence of The Associated Press.)—"Pussyfooting" is the term the newspapers and British liquor interests have given the campaign to make England dry, and "pussyfoot" is the title they have given those members of parliament and American Anti-Saloon League workers who are pressing the movement.

It has been announced that there is abundant money behind the movement, and the nucleus of a parliamentary prohibition party has been formed by nine members of the house of commons to first fight for the retention of war time liquor regulations while forming their lines for more drastic action.

Harrgate, a health resort with some 80 mineral springs, was selected as the first object of attack, and a number of speakers were sent there to spread the "dry" doctrine. It was also decided to pay particular attention to Scotland where, under new regulations, local option is possible. Other plans, it was announced, are in the making, and within a year the campaign will be in full swing.

Most of the newspapers have done nothing but ridicule the movement, and are going to continue to do so. Fish men and women needed stimulants and would never voluntarily relinquish their alcohol.

**Export Experiment Failure**  
Lady Henry Somerset, late president of the British Woman's Temperance association, is quoted as expressing the opinion that the prohibition and campaign will have a negative result by making prohibition appear to be the sole alternative to a return to the pre-war position.

The liquor interests say they have not given the question much attention, preferring to believe that the prohibition experiment in the United States will fail, and that there will be no need for action in England.

**Spoke a Little Hastily.**  
John Brougher tells this one: One colored gent said to another: "Ev'ry time I bump my forehead and knock my head, she just giggles and squirms nimbly." To which the other responded: "I say she does." "Huh?" asked the belligerent swain, as his eye took on a glitter. "I say, does she?" was the eager change in the response. —Houston Post.

**Endire Village of Wood.**  
The Russian village is built principally of wood and roofed with wood, or with straw and staves. For this reason there are so many fires that, according to statistics, one-fifth of all the peasant cottages burn down every year, or butting it in another way, every house burns down after five years. This seems improbable, but it is reliable information.

**Marilyn Nominal Right.**  
The freedom of the city of London carries with it, nominally, at any rate, the right to keep in the parish of St. James, Piccadilly. But even were any one disposed to avail himself of this liberty, and if the sanitary authorities failed to object, find it that part of London is somewhat too costly for profitable pig-farming.

**What is Man?**  
Break the shells of two eggs into a huge tub of broth, and you have the contents to make a man from his toenails to the most delicate tissues of his brain. And this is the scientific answer to the question, "What is man?"

**Building.**  
Our lives are like buildings going up, and every one who comes to an old one for a prolonged stay, or only for a few moments, puts something into the walls or into the stonework. Our friends, if they are worthy, exert a measureless influence over us.

**Early Sewing Machine.**  
Thomas Saint, Englishman, obtained a patent for the first sewing machine in 1790 in London. The mechanism of the machine was made of wood.

**Buying opportunities are not for the few.** The stores advertise their offerings.

**Telephone**  
**COAL**  
Nibley-Channel  
LUMBER COMPANY

# COUNTRY'S DISTRIBUTION PLAN ALL WRONG LABOR SPEAKER SAYS

### E. F. Caton, Addressing Union Assemblage, Berates Profiteers and Urges Unity of Workers to Bring System Change—Minister Pleads for Brotherhood of Man—Parade Was Worthy Spectacle

That laboring people are not receiving compensation in proportion to the cost of those things "essential to life, was the burden of a statistical address delivered to a labor day gathering at the city park yesterday by E. F. Caton, of Nampa, Idaho. Mr. Caton's address, having for its theme the equality of mankind, insofar as equality is fitting and right.

Mr. Caton's address followed, and along similar lines given by the Rev. W. A. Moore, who spoke for the "Brotherhood of Man," throughout the world. The speaking exercises were held in the city park, and after the street pavement, in which all union labor men of this city, and women too, participated.

**Wages Inadequate**  
"We are facing a condition in this country that requires serious consideration and attention, and spells wages versus commodities," Mr. Caton said. He vigorously denied that wages are in any way commensurate with the cost of life's essential commodities, and introduced statistics designed to prove this contention. By these figures he showed that pre-war purchases for \$1 were held the rate paid for \$10, and more. He said that at his class of work a day's wage five years ago was \$5. To be proportionate to the new cost of living, he said, the wage now should be \$9 per day, but is not that much by several dollars.

"I do not know who all of the profiteers are, but I know well that there are many," he said. "I know this, too, that while the retailer denies he is a profiteer he could cut down on his charges and still make a better livelihood than the average worker is making. Here is a concrete example. In Nampa a circumstance came to my notice last week that pretty nearly proves the case against the retailer. I was in a retail store where the son of the proprietor is employed.

"Dad," called out the youngster, "what shall we charge for these green peppers? You know we paid 15 cents a dozen for them; better make it 65 cents a dozen hadn't we?"

"No, son, sell 'em at three for a quarter," magnanimously authorized the proprietor.

"There you have a pretty general example of where the profits are being made."

**Decrees Distribution System**  
"I am here to make a plea for just a fair deal for the working classes, the masses who have built this country and who stand ready and willing to construct to make another 17,000 millionaires in the next five years as was done in the past five. The distribution system is wrong, and must be corrected. The laboring man must be accorded a part in this correction. We have been furnished a pretty fair outline of how the worker can participate in his plan by the Plumb scheme proposed for the operation of the country's railroads, wherein the workers will have one-third voice and part in the management of the rail lines which, if the Plumb plan is accepted finally, means the railroads operated in the interest of the public instead of the capitalist. The railroads, managed under the present system, comprise one of the great agencies involved in the creating of the

17,000 millionaires in the past five years. **Artificial Values**  
"I want to see a system inaugurated that will do most of these wretched stock speculations so that the water will run out, take the blast from the stock, and leave the real stock value and nothing more. The country is paying too much interest on artificial and imaginary stock values. The stock valuation of this country is given by the owners at \$21,000,000,000, whereas the actual physical valuation is \$12,000,000,000. We have got to get down to brass tacks and let the water out of these railroad stocks so that the people will be no longer gouged by paying interest in nearly 100 per cent."

"I want to say a few words about the compensation act of the state, an act brought about through the activities of labor unions. It is a good act at the base but is operated perniciously. It allows guarantee casualty companies too much chance for rake-off by writing policies covering compensation casualties. This expense should be eliminated, but can only be disposed of through another enactment which will create a state fund for compensation. The compulsory state fund must come some time, and the quicker the better."

Following Mr. Caton made an urgent appeal for anti-labor unions, and urged every worker to get under the protective banner of his craft.

H. H. Freedholm, as master of ceremonies, introduced the speakers of the day, and offered brief but salient remarks upon the importance of the day to labor, and urged for unity of action in all things tending to make for the advancement of labor's cause.

**The New Day.**  
The Rev. W. A. Moore, pastor of the Twin Falls Christian Church, was the first speaker, making his theme "The New Day." He spoke liberally and literally upon the questions of the day and offered suggestions for their solution favorable to the worker, dwelling with special emphasis upon the need of more brotherliness in the world, and begged for the adoption of the creed of the Brotherhood of Man. The minister quoted liberally from the scriptures in support of his contentions and demands, denouncing the profiteer and hoarder in a passage from Proverbs: "He that withholdeth his grain shall be accused; but he that selleth it shall be blessed."

His address in part follows: **Man Must Work**  
To pray for daily bread is not enough. God cares for the sparrows but the sparrow is a hustler. He does not worry but he is everlastingly at work all the day. God helps men who help themselves. Pray for your daily bread and at the same time go out into the field and tinkle good natured old mother earth with plow and harrow and scratch her high hills, hills, beans and potatoes. The Bible commands men to work six days and to rest on the seventh. The man who does not work during the six days violates God's law as certainly as the man who does not observe the seventh day of rest. The Bible also says, "If any man will not work neither shall he eat." Therefore the man who never works must never eat. He who hoards the nation's food supply must

have his own supply of food cut off," it is written, "He that withholdeth grain, the people shall curse him; but blessing shall be on the head of him that selleth it."

Our country, during the war, justly required our money, our food and the very lives of our citizens. We insist that this was a just demand. Citizenship in our great country is worth the price we pay for it. In return, our good government must guarantee to every law-abiding energetic citizen an opportunity to work; sufficient income to marry and maintain a home. The income must provide for necessities, contingency and recreation. There must also be remuneration for special preparation, skill and for service in places of danger.

**Release Stranglehold**  
The few must release the stranglehold upon the majority. Our government says that \$1500 is required for the average family to live in keeping with American standards. It is also reported that 20 per cent of our families live on \$400 or less per year. The federal commissioner recently reported that from three to six million children in America were being underfed. This in the face of the fact that the last five years have added 17,000 millionaires to the already large number in the United States. By some of these the average man is asked, "What are you going to do about it?" The knifer asked that same question when he sank America's ships a couple of years ago. In reply America took a few days off and did a few practical things. Some of these days our people will take a day off and do a few practical things here at home. We are all home folk and no violence will be required but by penanceable means the millions of underfed children will be fed, clothed and educated, the bill being paid from the bank accounts of those who have profited so enormously during the war. The process will be continued until the

# Two Kinds of Everything —the Good and the Bad

By DR. PARKER  
Founder and Executive Head of the E. R. Parker System

THERE are only two kinds of dentists—the good and the others, and it is the easiest thing in the world to separate them. The distinguishing mark of the unworthy dentist is his fire-sale methods of getting you into his office, for when a man can not establish a business by doing good work, he claims that he does it cheap.

Dentists using the E. R. Parker System do not quote prices off-hand in the newspapers, because it is utter nonsense to tell in advance what any dental work will cost until an examination is made to see what needs to be done.

Under the Parker System, a Registered Dentist thoroughly examines your teeth without cost, sometimes including the X-Ray, and when it is determined what dental work your teeth require, you are told in advance as plainly as the English language permits how little the price will be to have that work done.

The price is often less than you expect, for the dentists using the System effect savings in many ways and this saving is shared with you.

If this seems fair and reasonable to you, why not learn the price for putting your teeth in a condition so that when you laugh you will take a pride in having your teeth show?
