WILSON LEADS AID IN TRY TO AVERT STRIKE

Agrees to Undertake to Bring About Conference of Workers and of United States Steel Corporation

ASSISTANCE IS ASKED IN GOMPER'S TELEGRAM

Would Get Employers and Men Together Before Meeting of Presidents of Unions to Take Action Deemed Necessary

WASHINGTON, (AP)—President Wilson has agreed to undertake to bring about a conference between representatives of the steel workers and of the United States Steel corporation in an effort to avert a threatened strike. The president was asked in a telegram sent him today by Samuel Gompers, president of the American Federation of Labor, and other leaders of steel men, to say whether a conference could be arranged before next Tuesday when the presidents of the 24 international unions in the steel industry will meet here to take such action as they might deem necessary.

Consider "Awful Situation"
The telegram to the president follows: "The executive committee representing various international unions in the iron and steel industry met today to consider the awful situation which exists in many of the iron and steel industry centers. The committee has decided to employ to prevent men and unions from meeting in halls engaged upon private property in the open air, the thuggery of the corporation and the wholesale discharge of numbers of men for no reason than the one assigned, that they have become members of the union have brought about a situation that is exceedingly difficult to withhold or restrain the indignation of the men and the resistance that they declare it is their purpose to prevent."
"Hold Off General Strike"
"The executive committee relying upon the case as presented to you last week and your consent to mediation to bring about a conference of workers and of the United States Steel corporation in an effort to avert a general strike. We can not afford to have the general strike in controversy, have thus far been enabled to prevail upon the men not to engage in a general strike. We can not afford to have the general strike. We shall be able to exert that influence, but we urge you, even in the great work in which you are engaged to give prompt attention to this most vital of issues."

"A meeting of all presidents of the 24 international unions in the steel industry has been called for next Tuesday, September 9, in Washington, D. C., to take such action as they may deem necessary. May we not have your reply on or before that time as to whether or not a conference with the steel corporation is possible?"

WILL CONTINUE FIGHT IN UNIONS

National Socialist Party Votes to Carry on Effort to Convert Workers

CHICAGO, (AP)—Members of the national socialist party voted today to continue its fight in the ranks of organized labor with the object of obtaining ultimate control of trades union bodies. The plan is to form groups of socialists in every city and town local which will be used for propaganda work to convert the mass of the trade unions.

The proposition was vigorously opposed by G. A. Hoehn, of St. Louis and other who insisted the movement had proven a failure in the past.

The convention abandoned the principle of the referendum to the extent of amending the party constitution so as to provide for the election of the national executive committee by the annual national convention of the party instead of by vote of the membership. The size of the national executive committee was reduced from 15 to 7.

Another amendment to the constitution which was adopted requires applicants for membership in the party to take out citizenship papers.

The communist labor party of America adopted a resolution calling on all wage earners to refuse to fight in this country gone to war with Mexico.

Another unsuccessful effort was made today to unite the communist labor party of America with the communist party. The constitution of the latter party provides for autonomous state federations and delegates from New York, Massachusetts and other states, threatened to join the communist labor party of America. This organization issued another invitation for the communist party to unite with them but it was said the offer would be rejected.

Terms of Peace Are Received in Vienna With Indignation

Death to Hopes of Return of Hapsburgs Conceded by Monarchists

GENEVA, (AP)—The Austrian peace terms have been received in Vienna with the greatest surprise and indignation, according to advice reaching here. It is believed that the Renner ministry will fall as a consequence. Monarchist circles consider that the terms have definitely killed any hope of the return of the Hapsburgs. Former Emperor Charles, who received the news from Paris has decided to leave Switzerland.

Belgium Prohibits Exportation of Coal

ANTWERP, (AP)—M. Jaspers, minister of economics, announced today that exportations of coal from Belgium had been strictly prohibited, the step being taken to safeguard Belgian industries.

Betrayer of Cavell Condemned to Death

PARIS, (AP)—Georges Gaston Quien, on trial before a court martial charged with having had treasonable dealings with the Germans and of having betrayed Edith Cavell to them, was today convicted and condemned to death.

MORE TREATIES TO BE SIGNED

Agreements Regulation Relations Between New States Near Completion

PARIS, (AP)—Probably a half a dozen other minor treaties will be signed at the same time as the Austro-Hungarian treaty. These will be chiefly treaties regulating relations between new states created out of the former Austro-Hungarian empire, and defining the rights of minorities.

The Bulgarian peace treaty has been virtually completed. Apparently the problem concerning Thrace will be left unadvised except that a commission will be named to study the granting of Bulgarian access to the Aegean sea. The American delegation favors the return of Dobruja to Bulgaria but in this they are virtually unopposed. The supreme council of the peace conference will not meet again before Monday.

SCANDINAVIANS DISCUSS COVENANT OF THE LEAGUE

STOCKHOLM, (AP)—The international congress representing Sweden, Norway and Denmark opened here Tuesday, the discussion of the league covenant the league of nations. All the speakers argued in favor of affiliating with the league although there was some adverse criticism relative to the some of the stipulations of the league covenant.

GERMANS DENY ALLIES RIGHT TO PROTEST CLAIM

Reply to Note with Regard to Representation of Austria in Reichsrath Says Notice Was Given

DISCLAIMS INTENTION TO USE FORCE TO GAIN END

Will Not Undertake to Oppose a German-Austrian Spontaneous Desire for Union with Germany

BREILIN, (AP)—The German reply to the note of the allies with regard to representation of Austria in the German Reichsrath says the German peace delegation informed the allies May 27 that Germany had no intention to maintain Austria to German boundaries by violence but could not undertake to oppose a German-Austrian spontaneous desire for union with Germany. The allies acknowledged receipt of this communication on June 16, the reply says, and therefore Germany felt authorized to insert article 61 in the constitution.

The supreme council of the peace conference on September 2 sent a note pointing out that article 61 of the German constitution conflicted with article 80 of the German peace treaty forbidding German interference in Austrian affairs. The article in the German constitution referred to provided for the representation of Austria in the German Reichsrath. The allies demanded suppression of this article within a fortnight, declaring that otherwise the allies would be compelled to undertake further occupation of the right bank of the Rhine.

German Government Representative Attempts to Explain Fleet Scuttling

VERSAILLES, (AP)—Baron Kurt von Lersner, the German government representative here, told the British foreign office Thursday a note in which an attempt was made to justify the action of the Germans in scuttling their warships at Scapa Flow last June. The German delegation appointed to deal with the subject of the exportation of German deadstuffs reached here Thursday.

FOUR RESERVATIONS AND 40 AMENDMENTS REPORTED OUT WITH GERMAN TREATY

Senate Committee Stipulates United States Reserves Unconditional Right to Quit League, Decision in Internal Affairs and Interpretation of Monroe Doctrine; Not Bound by Article Ten or to Accept Mandates

LODGE BEGINS WORK ON REPORT OF MAJORITY; DEMOCRATS TO ANSWER

WASHINGTON, (AP)—The treaty of peace with Germany, ordered reported out last evening by the foreign relations committee will include four reservations and about forty amendments, when it reaches the floor of the senate about September 15. The reservations, adopted in committee in the form of a resolution of conditional ratification, provide that: 1. The United States reserves the unconditional right to withdraw from the league. 2. The United States is not bound by article ten and accepts no mandates except by joint resolution of congress. 3. All United States of the United States are removed from the league's consideration. 4. The Monroe doctrine is declared null and void insofar as it applies to the United States shall be its interpreter.

Taken Shantung From Japan
The amendments include the provision that Shantung shall be returned to China and substitutes "China" for "Japan" in the wording of the Shantung sections provide withdrawal of the United States from representation on the numerous international commissions; limit the authority of American representatives on the reparations commission; provide that no vote of the United States and Great Britain shall prohibit British colonies voting in league deliberations on matters not between Great Britain and the United States. Most of the other amendments simply are changes in wording.

Action Follows Debate
The action of the committee in ordering the treaty reported out yesterday came sooner than expected and before the great majority of the membership of both republicans and democrats were divided. The reservations were offered by Chairman Lodge and were regarded as representing the views of the majority of the committee. Each was strenuously opposed by democratic members of the committee with the exception of Senator Shively, of Tennessee. No vote was taken on the provisions requiring acceptance of the reservations by Great Britain, France, Italy and Japan.

At Work on Report
Chairman Lodge planned to begin work today of drafting his report. It was not believed the report could be in shape for presentation to the senate for at least ten days. The democratic members of the committee will be allowed three days thereafter in which to file a minority report, which they will do. Weeks of debate, membership of the committee will follow submission of the report.

Italians Get Hearing
The foreign relations committee today held Chairman Lodge had announced would be the last hearing on the Italian case. Representatives of the Italian societies and others presented Italy's claims on Shantung. Representative La Guardia, republican, New York, the first witness and the people of Shantung were Italian by blood, tradition and language, and were anxious to be reunited to Italy. He said he spoke from three years experience as American consul agent there and later service with the American army in the same region. Representative La Guardia said the president of "Italy" would be the so-called "Italian compromise" regarding Shantung and that a subsequent agreement reached by France, Great Britain and Italy had been forwarded recently to Washington for the president's approval.

WILSON WELCOMES FREEDOM TO TALK

DISCUSSION DIFFICULT AT CAPITAL

President, Entering on Real Beginning of Western Speaking Tour, Tells St. Louis Chamber of Commerce America Cannot Attain Full Measure of Nationalism Without Fulfilling Its Part in the Family of Nations

ST. LOUIS, MO., (AP)—Speaking today at a chamber of commerce luncheon, President Wilson said that this nation could not attain the full measure of nationalism without fulfilling its part in the family of nations. The great nation, the president said, is the man who wanted his nation to be a great nation. And a great nation, he added, "was that which protected the honor of its duty among the nations of the world."

Received With Cheers
"The luncheon was held at a hotel garden and all of the 1,700 people were taken. At the president's table were Charles W. Groves, governor of Missouri, and Henry W. Kiel, mayor of St. Louis. The president and Mrs. Wilson were received with cheers and applause as they entered the room, when he arose to speak.

The president was introduced by Mayor Kiel, a republican. He said that in honor of the visit, "honorary citizenship" had been conferred on the president and his wife. The crowd gave three cheers for the "benefactor of the world" proposed by one of the diners.

"Politics Adjourned"
The president said he was glad to see "politics adjourned" because politics had nothing to do with the great work of the president. The president said that he was glad to get away from Washington to discuss the league treaty because it was "apparently difficult to discuss it in Washington."

The people, Mr. Wilson said, seemed to have gathered from previous discussions of the treaty that there was a "clash" in it and "something about Shantung." As a matter of fact, he asserted, it was "a chart for a new system of the world."

Our Business to Prevent War
To establish and safeguard the small nations of the world was the purpose of the treaty. Objection that was made to this, the president said, that it was "house of our business."

"But it is our business," continued the president, "in present war, and it is not take care of the weak nations of the world, then we will have war." Those who objected, Mr. Wilson said, should now show how else peace can be guaranteed. Let them show by action that they are not absolutely contemptible traitors but if they don't see this game through."

Senator McCumber Presents Less Drastic Proposals than Those Adopted by Foreign Relations Committee

SHERMAN FLAYS WILSON FOR DISREGARD OF LAW

Attacks President's Statement that International Labor Council Will Be Convened Regardless of Senate

WASHINGTON, (AP)—Senator McCumber, republican, North Dakota, today made public and later discussed in the senate the reservation to article ten of the league of nations adopted by the republican senators favoring less drastic reservations than those adopted yesterday by the foreign relations committee. It would meet certain limitations of congress to undertake territorial guarantees.

Sherman Launches Attack

President Wilson's declaration in his address yesterday at Columbus, Ohio, that the international labor conference provided for in the peace treaty would be held next month regardless of whether the senate had ratified the peace treaty in the meantime was attacked in the senate today by Senator Sherman, republican, Illinois.

Declaring the president's declaration indicated "contemptuous disregard" for the law, the Illinois senator said: "Public officials have been impudently for flagrant violation of the laws of our country than this."

"Next month," said Senator Sherman, "we are notified the president proposes to assemble in this country representatives of various countries under the labor articles of a treaty unratified by our country. It is his declared purpose to convene an American labor meeting in St. Louis, Missouri, with our own regardless of whether the treaty has become the law of this republic or not."

"The president has already played with fire brand sufficiently to have informed him of the danger. He has yoked himself up with resolutions of the law of our country than this."

WANT MARINES TO POLICE FIUME

Allied Generals Reported to Have Advised American and British Occupation

PARIS, (AP)—It is understood that the commission of allied generals sent to France to investigate disturbances there in which French soldiers were killed has made recommendations to the American government, which include maintenance of a strong force in Fiume by American and British police force, marines forming the American contingent.

INVESTIGATORS' CONCLUSIONS ENORMOUS, ITALIANS SAY

ROME, (AP)—The conclusions attributed to the inter-allied commission's inquiry into the Fiume incident are so enormous," says the Giornale d'Italia, "that they seem impossible as coming from a commission of men whose reports are true, are blows which would be hardly comprehensible even if the commission instead of being from allied generals had been composed of officials of the old Austrian empire."

Late in June there were several clashes between Italian and French troops in the city of Fiume, it being alleged by the Italians that the French soldiers in the city had trampled upon the flag which had been wrested from Italians in the street.

PADEREWSKI'S WITNESS AGAINST GERMANY'S AIM

Polish Premier Declares Huns, Defeated on West, Turn to East in Hope of Achieving Victory Deprived of

PARIS, (AP)—Germany defeated on the west, has turned to the east where she is waging a battle with the hope of achieving the victory she could not win on the west, said Jan Paderewski, Polish premier declared today to the Associated Press while discussing the Polish condition. M. Paderewski will appear before the supreme council of the peace conference Friday to discuss the critical situation in Teschen and Silesia.

Urges Bolshewiki Forward

"In Upper Silesia, east Prussia, Lithuania, along the Czech front in the vicinity of Minsk and along the Ukrainian front Polish armies are forced to face armed enemies," he continued. "Where these enemies are not Germans they are not Bolshewiki, who are urging the Bolshewiki forward in every way to embarrass Poland. Our new government with limited supplies and little fighting for its army, finds the situation desperate.

Fomenting Disorders

"In the Baltic states of Russia the German are fomenting disorder and leading assistance to the Bolshewiki. On all sides we are forced to face this war that Germany is waging against the allied cause. She has determined to conquer Russia at any cost and is making every effort to hamper our fighting against disorder. German propagandists are twisting every clash between our troops and the Bolshewiki into Jewish pogroms.

Limit to Endurance

"Our people have resisted blameworthy Bolshewism so far but there is a limit to our endurance. We pray for a speedy ratification of the treaty and pray for the speedy influence of allied troops in harassed districts where Bolshewism is to be determined the future status of those regions."

SALVATION ARMY GETS PRAISE FROM SOLDIER

Service Man Tells of Service Performed by "Angels of Mercy" During War

SEATTLE, (Special)—"The Salvation Army stands first with a capital F, too, among the organizations that helped overseas," was the statement of Sergeant James Lowmy upon his arrival in Seattle this week.

"Thus Salvation lassies did great work over there and are deserving the support of every true American citizen. "Angels of Mercy" they are called. "Doughnut Girl" and "Apple Pie," and the names meant all they imply. For they certainly could make doughnuts and pies of the regular kind, but rather use to make, and they surely tasted fine after being in the front line for eight or ten days. It makes no difference whether we had money or whether it was paid for them and if we didn't we got them just the same. Talk about carrying. Why, I've seen those lassies with two or three miles of the firing line trying doughnuts and making pies with the big ones having all around as easily as though they were back home in mother's kitchen. You can put me down strong for the Salvation Army and I believe I was the strongest of all the lads that were over there."

Sergeant Lowmy served overseas eighteen months in the first instance with the 26th Yankee division. He fought in the battle of Cantigny, which was the first battle won by an American contingent, at Chateau-Thierry, Verdun, in the Argonne woods and on the St. Mihiel sector. He was gassed at St. Mihiel but has fully recovered and is back home ready to back the Salvation Army to the limit in their coming campaign "Opportunity Week" September 22 to 26th.

EVACUATION UNCONFIRMED

British War Office Reluctant to Believe Report of Kolchak Move

LONDON, (AP)—The war office has received no confirmation of Wednesday's soviet government wireless dispatch from Moscow reporting that Adolph Kolchak, head of the all-Russian government had evacuated Omsk and transferred his headquarters to Irkutsk. Unwillingness was expressed to accept the report at this time as true, it is pointed out that the Bolshewiki advance has slowed up materially in the last fortnight.

AUSTRIANS ARE APPREHENSIVE

Trend of Events in Hungary Has Grave Bearing on Austria's Future

VIENNA, (AP)—Austria is watching the trend of events in Hungary with growing apprehension. The future of that former part of the Austro-Hungary is freely said must have a grave bearing on Austria's future, which itself is admittedly uncertain. The present uncertainty of the Austro-Hungary is feared here to point the way to a monarchical government either by the reestablishment of Hungary as a kingdom or the fruition of the so-called Rumanian scheme for a dual Rumanian-Hungarian empire under a Rumanian king.

The activity of the royalist elements of Hungary, outside of the immediate house of Hapsburg is indicated by reports from apparently good sources. "The" approaches have recently been made to a certain high personage with the intention that he would be regarded as either king or emperor of Hungary.

According to information here the former king of Hungary is regarded as strongly toward a monarchical system. It is said openly that the Rumanians are diligently assisting this movement in order to their own ambition of union of the two countries.

ALLIES MOVING IN RHINELAND

French Temporarily Occupy Zone Left Vacant by First Division Men

COBLENZ, (AP)—With the departure of the first division of the United States expeditionary force on August 15, the northern half of the bridgehead zone on the east bank of the Rhine was turned over to the French, who are now preparing to withdraw as soon as the eighth American division is ready to relieve them.

On the west bank of the Rhine the American men has been extended about forty kilometers, taking in the large towns of Coochem on the Moselle, Mayen and Andernach.

On the east bank of the Rhine the Americans will continue to occupy the fortress of Ehrenbreitstein, Noyerd and Montauban. The headquarters of the American force will remain at Coblenz.

The German territory to be controlled by American forces in conformity with the decision of Marshal Foch, an honored Wednesday, comprises an area of about 2,400 square kilometers. This territory is virtually the same as when Pershing some weeks ago recommended an allotment of an equal of being handled by the Americans without an increase of their forces. The total area occupied by the allies is 37,900 square kilometers.

Genes in Supercation

There is often a common-sense reason underlying what, at first sight, seems merely a superstitious. Take, for instance, the old belief amongst colliers, that a mine that is struck by lightning is a lucky mine. We know that lightning is particularly susceptible to foul gases, and the presence of unusually large numbers of these little animals, therefore, is proof positive of the absence of any danger. Hence the alleged "luck."

DECLINE FROM LEVEL OF WAR'S PRICES NOTED

Federal Reserve Board Says Not Only are Some Foodstuffs Declining in Cost But Wearing Apparel is Affected

WASHINGTON, (AP)—Reaction from the high price level established during the war has set in, says the federal reserve board's review of business conditions in August.

Not only are some foodstuffs declining in cost to the consumer, but the price of wearing apparel, such as textiles and shoes, also has been affected, the review says. Business continues at an "extremely high level, and confidence of a satisfactory solution of the wage and price problems was reported from all sections of the country.

Trend Toward Lower Prices

A movement toward lower prices appears to be in process in certain districts, prices of certain foodstuffs are declining in certain lines, such as the textile and shoe industries, in which price advances had previously been unmarked, "resales at some concession in price being reported.

Reports from the federal reserve agents generally indicate a feeling of confidence that a satisfactory solution of the wage and price problems will be reached. The actual volume of business transacted continues at an extremely high level for the present season of the year. The agricultural outlook on the whole is distinctly less favorable than a month ago, although the large average sown in certain cases will compensate for decreased yield per acre. Cotton in particular is in poor condition.

Speculation Volume Lower

"Reflecting the feeling of uncertainty which prevails, the volume of speculation has declined, and declines in the price of securities have occurred. The general business situation, however, is at bottom strong."

Dismissing labor conditions, the board reports that reports from the majority of districts designate the situation as "unsettled."

Pleas

Sarah Bernhardt is credited with having said: "Pretentious does not matter. If a woman has charm and energy, she can secure whatever else she desires—love, success, power." There is a distinction between pretentious and beauty. A duff-coated, lightly powdered and rouged woman may be pretty, but the beautiful woman has to have wholesomeness, cleanliness, neatness and charm. And the latter is the permanently thought.

CONVENTION OF ZIONISTS MARKS RISING HOPES

Forthcoming Sessions in Chicago Claim Interest Because of Imminent Realization of Jews' Age Long Dream

CHICAGO, @.—Because of the impending realization of the age-long dream of the Jews, the world's homeland, the coming Zionist convention here, which will begin September 12 in Palestine, is attracting world-wide attention. The convention, the foremost members of the race will attend, including Justice Brandeis of the United States supreme court; Dr. Chayin Weitzman of London, England; a member of the Palestine committee, Judge Julian Mack of the United States circuit court, president of the Zionist organization and many others.

Features of the convention will be a mass meeting at the Auditorium theatre where all the session of the convention will be held; a "restoration parade" through the streets of Chicago in which it is estimated more than 30,000 Zionists will participate; a ball at the First Regiment armory, and speeches throughout the city to be addressed by prominent delegates.

Plans for the "renewal" of the distinctive Hebrew culture in its cradle—"Palestine"—are to be outlined, it is announced. These include provision for centers of such culture, a Jewish university and school system; a great printing establishment designed to be the center of the world's Hebrew literary effort; and other cultural agencies. By these means it is hoped to stimulate Jewish culture to again exert a wide and beneficial influence and bring about another golden age of Jewish literary and artistic life.

On Practical Side
On the more practical side, the convention will take up the questions of financing the massing of the funds for its agricultural and industrial development and the provision of homes for Jewish refugees and the oppressed from many lands.

A feature of the parade will be a detachment of the Jewish Legion which fought for the restoration of the Jewish homeland in the Legion of David, which formed a part of General Allenby's conquering army.

SITUATION IN HUNGARY HINGES ON THE ENTENTE

Socialist Element Reluctant to Accept Office without Assurance of Stability

BUDAPEST, @.—The political situation in Hungary is marking time pending approval by the entente of the proposed new government, and, while it is considered by the leaders more important, approval of the stipulations attached to the resignation of Premier Friedrich and his cabinet. There is an evident reluctance on the part of the socialist element to accept office without a clear understanding of its position before the entente and the consequent assurance of some degree of stability and permanence for the proposed regime.

Equalization Board President Says the Shortage Cannot be Relied on Once

WASHINGTON, (P)—Sugar short-ages now experienced in many parts of the country cannot be relieved for some time to come, George A. Zabriskie, president of the United States Equalization board, said in a letter received Thursday by Senator Hitchcock, democrat, Nebraska.

"The demand is enormous and largely in excess of refinery ability to supply it at this time," said Mr. Zabriskie.

WESTERN IS NET CHAMPION

William Johnston, of San Francisco, Reaches Pinnacle in Tennis Play

FOREST MILLS, N. Y., (P)—California is again supreme as the home of the world's greatest tennis player for the season of 1919. On the courts of the West Side club here yesterday afternoon William M. Johnston of San Francisco defeated William T. Tilden of Philadelphia in straight sets in the final match for the national turf singles championship.

In eliminating the towering Philadelphia, by scores of 6-4, 6-4, 6-3, Johnston played himself upon a tennis pinnacle seldom reached by great masters. With Tilden new as the sole survivor of 128 players who began the struggle for top title on August 25. This field contained the famous Australian team, winners of the English championships at Wimbledon, as well as American players conquerors in the A. E. F. tournaments abroad. Thus Johnston's victory this afternoon stamps him unquestionably as the best player competing in the game in any part of the world this year.

Spiders and Gold.
One of the many quaint superstitions of the sixteenth century was that "spiders" were best signs of great stores of gold. The saying arose in this way: "When a passage to Cathay (the China of today) was being sought by the Northwest, a man brought home a stone which was pronounced to be gold, and caused such a ferment that several vessels were fitted out for the express purpose of collecting gold. Frohberg, in 1577, found in one of the islands on which he landed, similar stones, and an enormous number of spiders."

Warm and Cool Colors.
The warm or advancing colors, which arouse the senses quickly, are those having yellow or red predominating, as yellow green, red orange, orange, red orange, and red red violet. The cool or receding colors, which soothe the nerve senses, are blue and the colors in which blue predominates, as blue green, green violet and blue violet. They are called cool colors because of their association with water, ice and the sky.

The Sleep Ration.

John Wesley experimented in sleep rationing as a cure for insomnia. Finding he woke every night about twelve and lay sleepless for some hours, he decided to go to bed later and rise earlier. The first day he rose at seven instead of eight, the next at six, the next at five, the next at four. By rising at that hour he found he slept without waking throughout his "ration," and thereafter rose at four for good.

Family Pride.

Family pride, as it exists in society, seems to involve an absurdity, inasmuch as the honor of being descended from a great man increases exactly as the degree of consanguinity to him diminishes; for his immediate descendants are as mere upstarts compared to such of his remote posterity as can trace their origin to their great progenitor, back through a period of many years.—John Malcolm.

Brief Sport Bits

The Seattle club, under Charlie Mullen, certainly is delivering: Two games won in yesterday's mark.

Bill Johnson, of San Francisco, is the country's champion tennis player. Johnson won the title yesterday because, as the esteemed P. E. says, he is unquestionably the best player competing in the game this year.

And, naturally, the best man should always win, but does not always.

We are developing an abiding sentiment of pity for these Cubs. Seems as though the old machine is in need of repairs of a heavy sort.

In Minneapolis last night Johnny Timmon, who has lightweight championship aspirations, went a draw with Jack Malone. The battle went ten rounds and was a terrific slugfest; match throughout, 'tis said.

Charlie Comiskey says there is no sense in this Herriman suggestion of a nine-game series.

And when it comes to figuring out the details of the right sort of baseball "Commy" is usually 99 per cent correct.

Having seen the Burley club whip the home outfit to a finish Boise fans now have an opportunity of seeing another fast lot of ball tossers from this end of the state in action. Report is over there.

Sam Smiley, anti-furrah sage, says: "I'm inclined to think that he wusses things nor our ball club, but I ain't aed any."

But, then, Sam never has been accused of totting an overabundant load of optimism.

Changes are that a number of promising youngsters of the Southern League Baseball league will get a chance in the Pacific coast league before that circuit closes its 1919 activities.

Reugs of Burley. Kerns of Burley. Cuts of the sun club, Bourg and Hiepl of Paul should be given a chance.

NEW YORK AFTER PLAYER'S MONEY

Baseball Men who Function at Any Time in Gotham Must Pay Income Tax

ALBANY, N. Y., @.—Professional baseball players and umpires, no matter what their club affiliations may be, who participate in games played in New York state this year, will be subject to the provisions of New York's new income tax law, Comptroller Eugene M. Travis ruled today.

This means, it was explained at the comptroller's office, that players and umpires of the National, American and International leagues, and others similarly situated, whose residences and home teams are located in other states, will be required to pay an income tax on the money earned while they are playing in New York if this amounts to more than \$1,000.

Coincidentally, players and umpires of New York clubs will not be required to pay a tax on their salaries earned in games played outside the state.

Grand Circuit Races

HARTFORD, Conn., (P)—Marion Dale, Tommy Murphy's trotter, captured the Charter Oak stake of \$10,000 in the feature event of a five race card at Charter Oak park yesterday. Mignola, Cox's noted stallion, came lame from his stable this afternoon and his hitherto unbeaten trotter was unable to cope with the speed of Mariondale. Mignola broke badly in the first heat and finished fifth. In the second heat Cox was sent away in the pole position and was never headed, Mignola registering the best time of the race, 2:07. The rush of Mariondale was great in the third heat, Mignola finishing fifth.

LEONARD WINNER OVER BARTFIELD

Lightweight Champion Has the Welterweight All But Out in the Sixth Round

PHILADELPHIA, (P)—Benny Leonard, world's light weight champion, won a newspaper decision over Boddier Bartfield in a six round bout at the Philadelphia National league baseball park last night.

It was a very rough bout and there was action from bell to bell. Bartfield started with a rush in the first round and led several times without a reverse. Before the bout was a minute old Leonard had Bartfield covering up and there were frequent changes and clinches. The first round was Leonard's by a shade. Leonard did most of the fighting in the second round although Bartfield did not seem to fear the champion. In the third round Bartfield cut loose. He rushed Leonard all over the ring, landing frequent rights and lefts to Leonard's face. Leonard took the fourth and fifth rounds and in the sixth almost had Bartfield out.

IN THE BALANCE

If Woodrow Wilson is successful in securing American ratification of the peace treaty and the league of nations covenant...

"I wish you success on your trip," this man said. "It means a great deal to me. I lost two boys in the war and have only one left. I am looking to you to prevent future wars so he won't have to go."

The speaker correctly stated the sentiment, it is safe to assume, of a vast majority of those who are lending their support to the treaty and covenant.

Decision as to whether the treaty and covenant are desirable or not does not rest, so far as these people are concerned, upon the outcome of discussions in the floor of the senate or elsewhere.

The real test of the agreement, for them, is a matter of the future. Efficacy of the treaty and covenant to "keep us out of war" would justify every term of the agreement...

The first draft of American men to fight a foreign war waged in pursuance of the terms of the treaty and covenant would make the agreement an abomination and would give to the author and chief proponent of the article, a rank in a category with which none would choose to be identified.

ON SOLID GROUND

In his argument today before the American Bar association for the establishment of an international court is modeled by the Hague convention and founded in the principle of strict legal justice for the settlement of disputes between nations...

Without an international court and codified laws, Secretary Lansing predicts a return to diplomatic anarchy, in "nations today are influenced more by selfishness than by an altruistic sentiment of justice."

"We should not deceive ourselves by assuming that the policies of other governments are founded on selfishness or on a constant purpose to be just even though the consequences be contrary to their immediate interests."

Says he, "Let us then wait a little delay as possible, establish an international tribunal or tribunals of justice with the Hague court as a foundation; let us provide an easier, a cheaper and better procedure than now exists, and let us draft a simple and concise body of legal principles to be applied to the questions to be adjudicated."

The suggestion of the secretary of state is one that has the ring of sincerity and it is, moreover, one that would seem to promise more for the effective establishment of the peace of the world than any proposition in his direction that has been projected heretofore.

As contrasted with other notable proposals for the attainment of world peace, the working out of Secretary Lansing's proposal might bring about a situation where the forces of the nations subscribing to it would appear in the role of policemen rather than in that of crusaders, but, in view of the manifest truth of the statement that

nations are influenced more by selfishness than by altruistic sentiment, it must be apparent that more effective support can be rallied to the enforcement of an accepted principle of international law that safeguards the interests of all alike, than could be mustered in the interests of an altruistic decision reached by an organization created as a law unto itself.

The essential point of variance between the proposal of Secretary Lansing and that of some other seekers after the same end is that Lansing sees and accepts things as they are rather than as he thinks they ought to be, and builds upon this premise.

FOOLING THE FARMER?

Delegates representing 110,000 farmers in central and western France, in session at Blois Thursday, protested against arbitrary measures to reduce the cost of living of which the farmers are alone the victims...

Wherein it would appear that the protagonists of some high cost weapons in France are not dissimilar from laborers in a similar field in America, and also that their effect, if not the purpose of some of their proposals is as timely velled from the farmers of France as are some of the rulings of the grain corporation from the farmers of America.

REDFIELD WILL LEAVE CABINET

Resignation of Secretary of Commerce is Accepted by President.

WASHINGTON, (AP)—William C. Redfield, secretary of commerce, has tendered his resignation to President Wilson and it has been accepted effective November 1. This was announced today officially.

Secretary Redfield, in announcing his resignation said he found it necessary to give immediate attention to personal business affairs, adding that he was anxious to return to private life after spending more than eight years in Washington.

Leave Taking Deferred.

The secretary said he wrote President Wilson on August 1 asking him to delay on his speaking tour during September, however, he agreed to remain until the last of October. Announcement of Mr. Redfield's resignation did not come as a surprise. Since his disagreement with Director General of Railroads Hines regarding prices for steel several months ago it had been almost common gossip that he contemplated early retirement from the president's cabinet.

President Wilson was in Europe when Mr. Redfield with the approval of the executive set up a board to agree upon fair prices for necessities with a view to stimulating production. Mr. Redfield, however, he agreed to price steel agreed upon between the board and the industry, contending that it was too high. The controversy finally was referred to the president in Paris. His formal announcement of the resignation was made, but soon afterwards the board was dissolved and Mr. Hines proceeded to buy steel for the railroad administration in the open market in competitive bids.

Donies Result of Friction

Mr. Redfield, however, denied that his resignation was the result of friction between himself and other administration officials. "My resignation," he said, "is not the result of any quarrel, disagreement, enmity or any other unpleasant occurrence, but is caused solely and entirely by my desire to return to business and give my attention once more to my personal affairs, which for more than eight years have been subordinated to the public interests."

At the sixth week to leave the cabinet during the six years of President Wilson's administration.

Grain and Provisions

CHICAGO, (AP)—Although the corn market showed considerable weakness at the outset today, exports in price later became the rule. On the initial decline, September delivery sagged the lowest point since July 10. Non-tent was much more mixed than has been the rule of late, and a strong belief was expressed in some quarters that liquidation had run its course for the time being. Opening prices which were unchanged to 1-3-4 lower with September \$1.50 and December \$1.27 1/2 to 1-28 1/2, were followed by a general advance well above yesterday's finish.

The recent break of 40c from the high point on the December delivery was talked of as having discouraged a great deal of the agitation over the high cost of living. Prices closed strong, 1-1-4 to 3-1-8 net higher with September \$1.02 and December \$1.31 5-8 to 1-31 3-4.

Oats rallied after opening, unchanged to 3-4c lower, including December at 70 3-8 to 70 3-4c, the market made a moderate advance all around.

Provisions sympathized with the strength of grain. Transactions, however, lacked volume. In the later dealing demand increased from shorts and commission houses. Sharp gains ensued.

LANSING WOULD END DISPUTES BY WORLD LAW

Secretary of State Urges Establishment of International Court in Address to American Barristers

BOSTON, MASS., (AP)—Secretary Lansing, before the American Bar association here today in his first public speech since returning from the conference gave a warning that the theory of internationalism, of "Mundania," which received great impetus during the war, and grave danger to world order, but expressed his conviction that democratic nationalism, as sanctioned by the peace conference would survive as the basis of society.

Urges International Court.
Secretary Lansing urged strongly the establishment of an international court as modeled by the Hague convention and founded in the principle of strict legal justice, for the settlement of disputes between states, and the codification of international law into an exact system. He paid tribute to The Hague convention of 1907.

Without an international court and codified laws, Secretary Lansing predicted a return to diplomatic anarchy, "where nations are influenced more by selfishness than by an altruistic sentiment of justice." He gave warning that "we should not deceive ourselves by assuming that the peace conference governments are founded on usefulness or on a constant purpose to be just even though the consequences be contrary to their immediate interests."

For Simpler Laws.
"Let us then with as little delay as possible," said he, "establish an international tribunal or tribunals of justice with the Hague convention; let us provide an easier, a deeper and a better procedure than now exists; and let us draft a simple and complete body of legal principles to be applied to the questions to be adjudicated."

Speaking of the plans of the peace conference to place on trial in a judicial court the former German emperor, Mr. Lansing recalled that it was the commissioners of the United States who stood opposed to such trial, although "it was recognized that he had committed a great and a culpable offense against humanity."

Must Maintain Nationalism.
In concluding Mr. Lansing reiterated that "nationalism must be maintained at all hazards," and that "it is equally imperative that within the nation individualism must not be supplanted by classism."

True peace between nations would come, he said, only when the conduct of nations toward another was governed by just laws which they submitted their controversies to an impartial judiciary.

WILSON WELCOMES FREEDOM TO TALK

(Continued from page one)

state. Arriving in St. Louis early this morning he arranged to sleep late on his special train and then to keep most of the day free.

Early in the afternoon, however, he was to attend a luncheon at a downtown hotel where it was expected he would make a brief talk on the treaty and the evening on the treaty and the "Coliseum" which in 1916 he was nominated for the presidency. A part of the day's program was a forenoon automobile ride through the principal streets of the city from his train to the hotel.

Finds Peculiar Situation.
In Missouri the president found a situation as regards ratification of the peace treaty without an exact parallel in any other state. In the treaty ratifying body at Washington, the state is represented by Senator Reel, the only democratic senator who has taken a definite stand for the treaty's rejection, and Senator Spencer, one of the republican senators who have declared themselves generally friendly to it, and have agreed on a set of reservations as a basis for its acceptance.

In St. Louis Senator Reed recently made an address bitterly attacking the treaty, and within the next few weeks, Senator Johnson, of California, a republican member of the foreign relations committee and others, are expected to address opposing messages here. In addition to his address here tonight the president is to make one address in Kansas City tomorrow morning.

In his keynote addresses yesterday, the president also made plain his intention to take up various features of the treaty in an explanatory way during the trip and to refrain from engaging in a debate about the issues raised in public discussion of the treaty hereafter.

The league of nations, the labor section, the provision for self-determination for various territories in Europe, and the separate treaties established by the treaty, he attaches particular importance. He characterized the league yesterday as meaning that American soldiers would be sent across the seas and the labor section constituting a Magna Charta for labor the world over.

Challenges Opponents.
At Indianapolis the president called on the opponents of the covenant to produce a plan to secure the peace of the world, if not willing to accept the league of nations, "it is a case of war or shut up," he said. "If the gentlemen who don't like what was done in Paris think they can do something better, I beg that they will hold

Under Hammer Thoroughbred Animal Fetches \$700—Heifer Sold at \$250

Seven hundred dollars for a milk cow is the record established at a sale of livestock and farm stock at the home of the David Brown place two miles northwest of town yesterday. The cow, full-blood Shorthorn, was sold by the hammer, along with other stock of this class and breed.

The Brown farm of 20 acres was sold recently for \$612.50 and without crop, a price believed to constitute a record for similar property in this section. All livestock sold at the Brown place yesterday brought prices comparable with the quality of the stock, which is reported to be of the highest grade. Another cow was sold at \$500 while a yearling heifer brought \$250.

Mr. Brown will go to his old home in Wisconsin for a short visit with relatives and friends in his youth, and after that will return to Twin Falls to stay to settle up business matters. With the members of his family he will spend the winter in California.

their convention soon, and do it now."

Besides his two principal addresses that gathered around his car during short stops at several small cities in Ohio and Indiana. Mrs. Wilson who sat on the platform at the two scheduled meetings, also stood beside the president when he appeared at the shorter stops. In three places, the crowds asked for her and the president smilingly presented her with the remark that she was better to look at than himself.

Social Notes

The wedding of Miss Mattie Coster and C. A. Miller took place at 10 o'clock yesterday afternoon at the country home of the bride's sister, Mrs. J. A. Campbell with the Rev. W. A. Moore officiating. The wedding party stood before a bank of palms, and under an umbrella of pink and white flowers. The bride and groom were being decorated in pink and white asters. Mrs. O. P. Davall played the wedding march and Miss Lucille Wolfe sang just before the ceremony. "I Love You Truly." The bride's gown was white charmeuse and georgette crepe, and she carried a shower bouquet of roses and gladioli. The groom wore a gown of pale green taffeta with a corsage bouquet of pink and white sweet peas. The bridesmaid, Miss Evelyn Ingalls, wore a gown of georgette crepe with a corsage bouquet of pink and white asters. Clyde Simpson was best man. After the ceremony dainty refreshments were served. The guests numbered between 40 and 50, and consisted of relatives and close friends. The happy couple motored to the home of the bride's sister, Mrs. C. W. Ward at Wendouville, where there will go to Guyer Hot Springs for about two weeks. The bride is well known in Twin Falls and highly esteemed by all, while the groom is one of our finest young men. They will reside in their own home on Sixth avenue north.

Mrs. John Wood Dodge Smith, was hostess at an informal dinner last evening honoring Miss Helen L. Weeks of Omaha, Neb., who is her hospi-

guest. Those present were the Misses Benoit, Fern Costello, Messrs. Albert Benoit, Andy Myers and Zack North.

Mrs. Madeline Williams Mcauliffe and G. Denton Shaw were hostesses at a prettily set party yesterday afternoon, honoring Miss Lesley Williams. Miss Alma Benoit won the honors for high score, a pair of silk hose, and Miss Williams was given a set of handsome cut glass shorted glasses. The house was most attractive with decorations of garden flowers. At the close of the card games dainty refreshments were served. The models were Madeline Frank Marth, Taber, Glomer, Halght, Hatley, W. Allen, Alexander, Carl Lutzow, Peter Harstal, John Green, M. Betty, A. M. Gehlert, A. Sullivan, C. Painter, T. James, G. Steiner, of Kimberly, Wilbur Holton of Buhl, Claude Oliver of Filer, Wayne Johnston, E. Sheneberger, T. Cummins, W. Hance, Jr., E. W. Davis, W. H. Greenhow, E. E. Williams, Misses Frances Bailey and Juliette, H. Warner, Gertrude Mcauliffe, B. Ostrander, Margaret Gourley, Nellie Teasdale, Alma Benoit, Miss Schrader, Cronkston, Miss, Agnes Hart, Leah Chapman.

Mrs. Henry J. Wall entertained at a charmingly appointed 10 o'clock breakfast for Miss Lesley Williams yesterday. The guests were seated at two tables, baskets of golden glow formed the table decoration, and the guests found their places by watching the leaf which was laid at each place by the flower that went with it. After breakfast a clever musical guessing contest was enjoyed. Mrs. Wilton Cook winning first prize, a lovely china plate. The guest of honor was honored with a beautiful hand painted water pitcher. The invited guests were Madeline W. Allen Alexander, Taber, Peck, John W. D. Smith, Betty, Shaw, Halght, Mcauliffe, Painter, Glomer, Bailey and Williams, Misses Benoit, Ostrander, Putnam, Warner, Teasdale, Fern and Florence Costello, and Miss Helen Weeks of Omaha, Neb.

The Penelope Club met at the home of Mrs. E. Van Hemert, on Tenth avenue north yesterday. This being the first meeting for this season a dainty lunch was laid at each place by the which 500 was played. The following ladies are members of the club: Madeline W. DuPresne, L. Chapin, H. Alma, Foltz, Wick, Paris, Kall, E. Stotler, Parsons, J. B. White and E. Van Hemert. The guests for the afternoon were the Mesdames E. L. Turner, Irbly McFarlan and H. O. Brown, and the Misses McFarlan. A delicious two course luncheon was served at the close of the afternoon and the home was charming with vases and baskets of flowers.

BRITISH WAITERS PROFIT DENOUNCE PRICE FIXING

Disappearance of Germans and Austrians Leaves Field to Home Talent

LONDON, (AP)—The disappearance of German and Austrian waiters from the hotels and restaurants of fashionable London with the beginning of the war has left the field open to English waiters who are said to have been reaping a harvest.

One Piccadilly waiter says he earns \$8,000 a year, a considerable amount above the average; but investigation shows that it is not unusual for a good waiter to gather, in salary and tips, \$10,000 annually.

French Farmers Protest Against Arbitrary High Cost Measures

BLOIS, FRANCE, (AP)—Delegates representing 110,000 farmers in central and western France, in session here Thursday, protested against "arbitrary measures to reduce the cost of living of which the farmers are alone the victims," denounced all "measures for fixing prices, real or disguised." The delegates condemned any limitation of the hours of work in farming.

Collins Says Everybody Who Knows Him is Talking About His Improvement Since Taking Tanlac

"Tanlac has made such a big improvement in my condition that I feel as well in every way now, as I ever did in my life, and I have actually gained thirty pounds since I commenced taking it," said E. T. Collins, who lives at 572 Bortwell St., Portland, Ore., a few days ago.

"I began to have indigestion about three years ago," continued Mr. Collins, "and this condition just kept on getting worse all the time until it finally became chronic.

"I didn't think any medicine would do me any good, but I thought I would try Tanlac anyway, and to my surprise I began to improve by the time I had finished my first bottle.

"I Think that Crescent Baking Powder Is Fine"

Crescent produces light, sweet, wholesome, fluffy baking.

The above statement was made by a user of Crescent Baking Powder in a letter of request for our Cook Book:

I always worried to get things into the oven, she writes, "as soon as possible before the rise of the powder was over. But with Crescent I find this is not necessary. Another good thing in favor of your Baking Powder is that I use only about half as much as other baking powders, and by buying the 5-pound tin for one dollar I save 25c on every dollar's worth I purchase, and I find it keeps as good as ever. I think that Crescent Baking Powder is first."

VISITOR FINDS WEST PLEASING

Simon Straus Idaho is Champion in Everything—Twin Falls Wins Applause

"Idaho is champion in everything, land, cattle, grain, fruit and all kinds of produce, and its people, as well as its livestock, are thoroughbred."
Thus is the Gem state's population epitomized by Simon Straus, a Memphis business man who is here for a visit with his brother, Sol Straus, for an indefinite period. Mr. Straus, with Mrs. Straus, came here a fortnight ago for a vacation visit, the brothers not having met for 17 years. Simon Straus has been occupied in meeting the business men of the country for many years. He is virtually a native of the southland, and he thoroughly knows the south with all of its traditions and trade standards. He knows the east and the central states equally well and, heretofore, has based his general opinion of the country at large upon the knowledge of those sections. He has never been "west" before.

Idaho a Revelation

"I thought I knew all about this country from one end to the other before I came west, but this trip has broadened my perspective a whole lot. I have learned of a country I knew nothing of prior to coming here. The knowledge is like a revelation to me, and certainly has inspired in me a most enthusiastic disposition toward Idaho, and the west in general. It is a grand country, people here are broad-chested folks with hearty hearts and generous hospitality have entirely won me to them," Mr. Straus says.

"Crop conditions in the south are fair according to Mr. Straus. He has seen thousands of acres of cotton land laid waste early in the spring by floods. He says the cotton crop of South Carolina will be about half yield."

Southern Bread Methods

"The people down there are beginning to realize that their soil is adapted to something more than the growing of cotton and wheat. Mr. Straus avows. He tells of a disposition on the part of land-owners to widen their scope of crops, and are going in for corn in large acreages, as well as other crops. He considers the climate suited only to more northern and western climates."

"That Mississippi delta, considered for many years as the best crop-growing section in the country, must take second rank to the Twin Falls country for its uses in comparison to this section," Mr. Straus says. He avows that he has spent much time traveling around this district in the fortnight he has been here and returns from every visit with a considerable amount of enthusiasm for Twin Falls and its contiguous territory.

Mr. Straus has a son, Julian, who won a captaincy in the army. He visited in Twin Falls about three years ago.

MAN WANTED HERE IS TAKEN IN BALTIMORE

Alleged Hildreth, who Victimized Ed Robinson Family, Finally Captured

That the county of Twin Falls is to be saved the trouble and expense of one important trial, for some time at least, is indicated in a telegram received last evening by Sheriff N. N. Sprague from Baltimore. The message tells of the arrest in the Maryland city of "Jack" McGinnis, alias Samuel C. Hildreth, Jr., who is wanted here for alleged grand larceny.

McGinnis is the affable and sleek fellow who, representing himself to be a son of Samuel C. Hildreth, noted eastern business man, came to Twin Falls, Robinson, of Twin Falls, and is believed to have stolen jewels of considerable value from the Robinson home. In addition he obtained endorsement by Mrs. Robinson's mother-in-law, which he obtained \$300 in cash at a local bank. McGinnis and Mr. Robinson, who is a local merchant, became acquainted on a train coming to Twin Falls several weeks ago.

According to the telegram in the hands of Sheriff Sprague, sent out by the Pinkerton detective agency, McGinnis has a considerable record as a criminal, and was arrested in Baltimore on charge of robbery and larceny, for which offenses he was sentenced to the State Penitentiary. McGinnis was convicted he will serve sentence in Maryland, and at the expiration of the penal term may be extradited to Idaho for another trial.

McGinnis' criminal convictions are said to include many high crimes as well as petty offenses. He operated largely among the race-track habitués of the track, bilking many horse men during his career.

A free trip to the International Livestock exposition, to be held in Portland this fall, is offered the county club member who has raised the best pig in the fat class in this county.

This offer, with details of the agreement and requirement is mentioned in a letter received from the county club secretary, A. L. O'Reilly, of the Twin Falls farm bureau. The date of the meeting has not been definitely fixed out of George A. Pierson has been selected to take charge of the boys who win the trip. Mr. Pierson is president of the Portland Union Stockyards and has assumed responsibility for the guests of the exposition.

Followed in part, is the letter, which comes from William Kerr, state swine specialist received by Mr. O'Reilly. It reads in part: "I have just received the Pacific International Livestock exposition at Portland this fall is offered club members exhibiting the best pig in the fat class. Pigs in this class may be pure bred, grade or crosses, but hams are barred. Pigs weighing over 250 pounds will be handicapped in this contest on account of the fact that a spring pig weighing less than 250 pounds could not have been grown at a profit.

"The trip is given by the Portland Union Stockyards company, Swift & Company, Livestock Exchange and Livestock Show, of Portland. Each guest will be entertained by George A. Pierson, president of the Portland Union Stockyards, so parents need not be anxious about the cost of the offer, my feel assured that they will be perfectly safe in sending their children to the exposition."

Tales of Rain Vary Greatly; Mercury Falls

Eighty-two in the shade was high yesterday with varying, and sometimes contradictory, reports concerning the amount of rainfall and extent of territory covered. The temperature last night got down to 38 degrees, which is below the mark of the night before.

From the upper reaches of the Snake river reports come of heavy rain during the greater part of the week. Some of these statements indicate that the flow in the river will be increased as the result of the storm. Local water officials, however, are skeptical, believing that nothing but continued cloud-bursts for days at a stretch will materially add to the Snake flow. They point out that all of the country in the hills is particularly dry, and will readily absorb such amounts as have visited this district.

Locally yesterday's rainfall was 2.100 inch, bringing the total for the week to 54.100 inch. Today gives indication of a general clearing up. The state forecast of the weatherworks has nothing to say today.

GREAT BUSINESS DONE IN RECORDER'S OFFICE

Increased Receipts Bespeak Many Property Transfers and Incidental Filings

Indicating a big increase in business at the office of the county recorder, receipts up to the present time for this quarter of the fiscal year amount to \$2000. The quarter is only about half over. Last year the receipts for the corresponding period amounted to \$3,229.96. At the present rate receipts for the entire quarter should run about \$5,000.

"We have enjoyed steadily increasing business for some years, but no quarter since I have known a quarter as big as the present one for business transacted. The work has been steadily heavy all summer, as is shown by the amount of work we have taken in," said Recorder C. C. Siggins, this morning.

CHANGE WATER MAIN SYSTEM

City Supply in Some Sections Now Flows Through Alleys—Street Lines Cut Off

Changes are being made daily in the flow of the city water supply from the old main system to the new, which is located in the alleys. This afternoon with the record office of the city main street was changed over, and tomorrow a shift will be made on Shoshone street, both north and east.

Workers employed by the Canal company to connect the service main through the low line canal with the filtration plant, have encountered rock in their operations and the job has been necessarily retarded somewhat. Coupling should be completed some time next week, unless other obstacles are encountered.

RAILROADS SEND OUT SOME DRASTIC ORDERS

Farm Bureau is Advised of Stringent Regulations for Exhibit Stock Shipments

Providing information he of value to owners of animals to be shown at the state fair, P. Henselhorst, secretary of the Idaho State fair, has written C. H. Bohrer, Twin Falls county agent, a letter explaining new rules of the transportation companies governing the movement of exhibit livestock over the railroads.

The new regulations are more than commonly stringent, and provide that livestock shipped to shows be released at the values of common stock. They also provide that satisfactory evidence that pure bred stock has been insured for the full value, otherwise full tariff rates will be charged both ways. The letter in full follows:

"In order to secure the reduced rates on railroads, owners of livestock exhibiting same through the Intermountain Fair and Racing Circuit, or the State Fair of Idaho will be obliged to release the value of their animals to the regular scheduled values of common stock, stated in the rate books for shipping livestock; and will also be obliged to furnish satisfactory evidence that the pure bred stock worth more than common grade stock has been insured for their full value, otherwise the railroad agents are instructed to charge full tariff rates both ways. This is an important matter and should have prompt attention.

"We are writing you regarding this in order that you will have ample time to have your exhibit stock properly insured and have the bills of lading and policies showing the amount of insurance carried on each and every animal.

"Pure bred sheep and hogs for exhibition purposes will be admitted to the state upon affidavit of the owner. Forms will be supplied from the office of the bureau of animal industry, Boise, Idaho.

"We also wish to call your attention to the rule adopted by the American Association of Fairs and Expositions requiring all exhibit entries to have their full value stated within six months of the opening day of the Intermountain Fair and Racing Circuit, of which we are a member.

"If you will communicate with this office or with your nearest freight agent, you will be able to obtain the necessary information to aid you."

REAL PITCHER COMES SUNDAY

Manager Hart Has Contracted Dick Davis to Twirl for the Greys Against Buhl

Real pitching should be the marking feature of the game between the Greys and Buhl next Sunday afternoon. The tilt will be staged on the home lot, with both clubs sturdily strengthened for the contest.

Manager George Hart, of the home coterie this morning announced that Dick Davis, one of the premier twirlers of the state, has been signed to pitch for the Greys on this occasion. On the result of this affair hangs the championship of the Sharon end of the Southern Idaho Baseball league. The team that wins this game loses the championship. That's a paradox, 'tis true, but a fact, nevertheless.

For the coming conflict the local lineup will be:

Whitzel, cf; Neumann, 1b; Hart, 2b; Miller, ss; Bell, 1f; Fix, rf; Watson, 3b; Eubanks, c; Davis, p.
