### JAPAN AWAITING FINAL ACTION OF THE SENATE

Developments in Relation to Shantung Question Form the Principal Subject of Discussion in Tokio

### WILL AMERICA WAGE WAR QUERY OF ANXIOUS ONES

Wave of Elation and Confidence in Nippon's Future Sweeps Empire; Ultimate Transfer of World Leadership Claim

TOKIO, (AP)—Developments in relation to the Shantung question from the general attitude of the Japanese is to calmly await the final action by the United States senate.

Some of the members of the diet are reported to be offering inquiries to the government regarding the situation. They ask whether the United States is likely to enforce by arms a possible treaty with Germany returning Shantung directly to China. Those who have addressed the inquiries to the government are said to be profoundly impressed by the assignment of half the United States navy to the Pacific and to be inclined to establish a connection between the coming of the fleet and the Shantung agitation.

### Promoting Empire Interests

The end of the war finds the Japanese striving with traditional unity to expand the nation's interests in Asia. Premier Hara speaking yesterday at a luncheon in honor of former Premier Saloni, head of the Japanese peace delegation at Paris said: "Japan's prestige has been greatly enhanced by the peace conference. The nation should realize and be thankful for the fact that all Japan's proposals were favorably received with the exception of the one relating to racial equality."

A wave of elation and confidence in Japan's future greatness seems to be sweeping over the empire. In a recent address Ikuo Ooka, president of the house of representatives said: "Japan's future greatness seems to be sweeping over the empire. Koch, who observes for the immediate district of Twin Falls. Low for the day ending last sundown was 42 degrees.

There is more water at this period in the Snake river than has been observed since grateful flow of the Minidoka project folks sent this in July. Recent rains in the hills are swelling the tide of the big stream. The Boise weatherworks is not functioning today, or else it is on a vacation. No report from that end.

### FULFILLMENT OF PLEDGE IS QUESTION INVOLVED

Tells Citizens of Billings Basis of Pact is that Territory Everywhere Belongs to Its Inhabitants

BILLINGS, MONT., (AP)—Laying his appeal for the peace treaty before the people of Montana today, President Wilson declared the question of its ratification was a question whether the United States would fulfill its pledges to its people and to the world. Billings and thousands of visitors from a 500-mile radius were here today to greet President Wilson. Eight thousand or more persons filled the fair grounds auditorium within an hour after the doors were opened at 8 o'clock, and the streets were lined from the detouring place to the fair grounds gate by many who were unable to enter the building.

### CONFIRMATION OF TREATY IS URGED

Report of Minority Members of Foreign Relations Committee Declares Adoption of Reservations Tatamount to Rejection of Pact and League of Nations Treaty Involving Sacrifice of the Concessions Obtained from Germany

WASHINGTON.—Rejection of the peace treaty with its league of nations covenant, or adoption of amendments would mean sacrifice by the United States of all concessions obtained from Germany under a dictated peace, minority members of the foreign relations committee declared in a report presented today to the senate.

The report, prepared by Senator Hitchcock, of Nebraska, ranking democratic member of the committee, urged a speedy ratification of the treaty without amendments or reservations. It declared "the long and unnecessary delay to which the treaty has been subjected while locked in the committee whose recommendations were from the start a foregone conclusion," and asserted these recommendations could have been made in July.

Shields Withholds Signature Senator Shields, democrat, Tennessee, did not sign the report, having announced that he favored league covenant reservations prepared by Chairman Lodge. It was stated that he would not present a separate report. Those signing in addition to Senator Hitchcock were Senators Williams, Mississippi; Swanson, Virginia; Pomeroy, Ohio; Smith, Arizona; and Pittman, Nevada, all democrats.

The minority denied the claim put forward by Chairman Lodge's report that the peace conference still was in session and has power "to bring German representatives to Paris," saying a power of compulsion had been exhausted.

"If an amended treaty is not signed by Germany," the report added, "then it is in none of its parts binding on her."

### Reservations to Destroy League

Reservations proposed by the majority, the report said, were "for the purpose of destroying the league of nations and the best of world-wide criticism unlimited attack."

The minority urged that the work of a peace conference be confirmed and the most of it would be the ratification of the treaty described as the best hope of the world "even if like all instrumentalities it be not divinely perfect in every detail." The report contended that it is industrial world was "in ferment," financial world in doubt and conservative nations delayed the treaty because of "the majority of a committee known to be out of harmony with the majority of the senate and the majority of the people," who were urged to "bring about the construction as well as by minority."

### Unite in Condemnation

"Referring to the action of the majority of the committee," said the report, "we unite in expressing our condemning the recommendations both as to textual amendments and as to proposed reservations. As far as the proposed textual amendments are concerned, we see no reason to discuss their character at length. In our opinion they have no merit and will do but to prolong the session and their adoption would have no possible effect except to defeat the participation of the United States in the league of nations."

The governor previously had made a similar request of the secretary of the navy. With six regiments of state guards under orders to restore lawfulness, the third day of the police strike opened with a casualty list of three persons killed and nearly a score, including four women, injured as a result of the activities of state troops in policing the city last night. The military forces, 5,000 in number were under orders to restore lawfulness to the point of using ammunition with which they were provided, if necessary.

The sight of well armed soldiers and cavalry men on the street gave a sense of security today. Another death occurred when Raymond Bayers of Cambridge tried to escape from state guards who had rounded up a group of 75 participants in a demonstration of the American Federation of Labor in ordering a sympathetic strike vote of the Boston unions tonight, was discussed by all sides in the streets by telephone workers and several other delegates to the central body. # PERSHING WILL RETURN TO HIS BOYHOOD HOME

### Promises Visit to Old Friends and Neighbors at LaCleda, Missouri; Reunions Figure in Entertainment Plans

LA CLEDE, Mo., (AP)—General Pershing is coming back to his boyhood home. He will return a full fledged general, the hero of America, but to the boyhood companions with whom he stole apples, and played at the old swimming hole, it will be the "Johnnie" Pershing who spent his early life here before going away to West Point to embark on a military career.

Cables Promise to Visit  
A cablegram received by Mayor Edmund B. Allen promises a visit by the general shortly after his arrival in the United States.

Some time ago when LaCleda learned that General Pershing was returning from Europe the following cablegram was sent to him by Mayor Allen: "LaCleda, your old home, your boyhood friends and Linn County are calling you. When may we expect you home?"

General Pershing called in reply: "I have heard the call. I will be here soon after my arrival in the United States. Can't give you definite date now but will let you know later."

Old Fashioned Homecoming  
LaCleda will pay tribute to General Pershing on his arrival, not with the pomp and ceremony that marked his reception in European capitals, but with a "good old fashioned Missouri homecoming," according to the committee arranging for his reception.

Plans for the general's entertainment include reunions with old schoolmates and chums, trips to the old swimming hole of Monday Creek and to the old Pershing farm.

The home coming will also mark a reunion of the Pershing family. James Pershing of Chicago, the general's brother, and Miss May Pershing and Mrs. Bessie Butler of Lincoln, Neb., his two sisters, will gather at the former Pershing home during the general's stay.

Heroes to Be Honor Guard  
The reception will be about a military side. Decorated heroes of Missouri will form an honor guard. Adjutant General H. C. Clark, of Missouri, will have charge of the military reception.

Governor Frederick D. Gardner will deliver an address at the celebration and other state and national officials have been invited to attend. Among old acquaintances who will greet General Pershing are "Aunt" Susan Howell, who made pies for him when he romped barefoot around the countryside and "Aunt" Louisa Warren, who claims to have been present when the future military leader was born in a railroad section house several miles from here. Both are negroes.

# JUST WHAT IS SIMPLE LIFE?

### Interesting Question Often Asked is Here Answered by One Who Claims to Know.

Most of us are inclined to hold to the opinion that a man leading a simple life is a creature who necessarily has to walk barefooted or without the full outfit of modern clothes, and that it is only country folk who can lead that sort of life, by virtue of their contact with nature. Nothing could be further from the truth. A millionaire occupying a mansion on Fifth avenue can lead simple life. In his discharge of daily duties he looks upon his fellow man as his brother, and does not enlarge in his own eyes his importance, due to his palatial residence or his expensive clothes. On the other hand, the farmer or the man who walks around barefooted from necessity, or who wears the simplest kind of clothes because he cannot afford others, and goes about with envy in his heart toward every being who possesses more than he does, is far from living the simple life in thought or deed or in any other manner.

To lead a simple life one has but to realize that it is the spirit in which things are done, and the spirit in which life is lived. That is the essential thing. This is applicable to dress, to work, to education, thoughts and measures and I might say that which I should have said first, to material dealings between a man and his fellow being.—Misha Appelbaum in the Humanitarian.

# The Reason Why.

This difference in the complexion of people is due to the varying amount of pigment or coloring material in the cells of which the skins of all animals are made. Very light people have very little pigment; very dark people, those with dark eyes and black hair, have a great deal of this coloring material in their cells.

A great many people are neither light nor very dark. They have less than the dark complexioned people and more than the light complexioned people. When the hair turns gray it is because the pigment has disappeared. As this is due to the loss of this coloring material, dark complexioned people turn gray sooner than light complexioned people. The structure of the skin showing how these cells are made in layers can be seen by examining the skin with a microscope.

# CALIFORNIA IS GYPSIES' GOAL

### Romany Tribes Purpose Building Permanent Sacred Encampment on Coast

SAN FRANCISCO, (AP)—Romany tribes, commonly known as "gypsies," are traveling toward California from all parts of the United States with the avowed purpose of establishing a "sacred encampment" or permanent sacred encampment at Emeryville, across the bay from San Francisco, officials of east bay cities believe. In possession of tribal legends, who came to the coast to attend the recent marriage of George Adams, head of one tribe, and "Gypsy" Mary, who said she was an Egyptian princess, were found telegrams from headquarters of six tribes scattered through out their country, and others are estimated to be on their way here. Lesko Amehia, head of a Greek gypsy band, and others have made inquiries as to state laws on municipal organization and the residents of Emeryville are said to be apprehensive that the gypsies will have sufficient voting power to take over control of the town, now a city of 2,000 population.

# Meteorite of Great Age.

Meteorites of indicated great age are conspicuous by their absence from our museum collections, and it is suggested that such specimens may disintegrate and disappear from the rocks within a relatively short time after falling.

The British museum, however, has lately acquired a slice of somewhat less than a pound from a meteorite iron that is believed to represent an ancient fall. The slice is from one of two similar masses that were found in January, 1905, within a few miles of Dawson, Klondike, and that, from their position deep in the oldest gravel of the district, are thought to have rested there since the Pliocene age or before.

From his study of the original specimens in the museum of the geological survey at Ottawa, R. A. A. Johnson has concluded that they are part of a single meteorite shower of Tertiary time.—Newark News.

# GERMAN RAILWAY OUTLOOK GLOOMY

### Herr Besser Paints Dark Picture of Affairs of State Owned Lines

BERLIN, (AP)—Herr Besser, the Prussian railway minister, in a statement to the members of the Berlin club that is believed to represent a picture of affairs on the state railroads. Every day he said a subsidy of 10,000,000 marks is required from the treasury. Passenger traffic at present amounts to only fifteen per cent of normal, he said, and express service has dropped to four per cent. Higher tariffs for goods and passengers are believed inevitable.

# Coal Shortage Factor

The continuous strike and coal shortage are responsible for these conditions, according to the minister, who says that apart from the severe traffic restrictions which have already been enforced, very far reaching stipulations for the winter are unavoidable and the German coal industry must be put on a new footing. If possible, the use of coal in its present form, whereby the greater part of the heating units pass up the chimney, must be prohibited by law.

# INCREASE OF PRODUCTIVITY VITAL PROBLEM

## Political, Moral and Economic Chaos Entailing Unprecedented Loss of Life Alternative, Hoover Declares

LONDON (Correspondence of The Associated Press)—Following European productivity can be rapidly increased, there can be nothing but political, moral and economic chaos finally in a short period. In loss of life on a scale hitherto undreamed of, says Herbert Hoover, head of the Inter-Allied Relief Commission in an analysis of the economic situation in Europe just published in the British National Food Journal.

### Western Surplus Inadequate

"The only surplus productivity of the western hemisphere is totally incapable of meeting the present deficiency in European production if it is long continued," the analyst asserts. "Nor could credits be mobilized for this purpose for more than a short period because the world must necessarily be simply an advanced against the return of commodities in exchange and credits will break down the instant that the return of commodities becomes impracticable. Sure, if such credits be obtained for more than temporary purposes, it would be war again."

### Statelessness Needed

Mr. Hoover points out this solution of the European production if it is a vigorous realization of the actual situation in each country of Europe and a resolute statelessness based on such a realization. "The only way Europe must be brought to a realization that productivity must be instantly increased."

In the present any European ferment, Mr. Hoover says, "over economic patent medicine" has floundered under the banner of socialism or communism which has claimed to speak for all the downtrodden—all alone heep of human sympathy."

### Human Factor Important

Europe's threatened coal famine, the analyst says is due "in the largest degree to the human factor of the limitation of effort."

### Galveston Is Closed To Wheat Shipments

#### Temporary Embargo Fixed Against Further Receipts—Port Is Blocked

Owing to the enormous rush of wheat to Galveston, the United States railroad administration has decided to place a temporary embargo on all shipments to that port, according to M. H. House of the grain corporation. Excessive shipments were made from various sections of the west. Information furnished by individual railroads as to the amount of grain transported, prior to the date that the Permit Control System became effective, Sept. 1, 1914. Shipments are now handled entirely under the Control System, each shipper being required to obtain a permit from the proper grain control committee, making application through the local railroad agent. By means of this plan, future congestion will be avoided. Every possible effort is being made by the United States grain corporations to furnish extra tonnage for Gulf ports, Mr. House says, and a large additional amount of foreign tonnage will be available as soon as the various European governments complete their financial arrangements regarding payment for this wheat. The blanket freight rate on wheat of 56c per cwt., now effective in the Intermountain country to Galveston is being extended to include New Orleans, thus making this port available at an early date.

## Brief Sport Bits

"Kid" Gleason says the Reds are not in the White Sox class.

Creet, Kid; quite crett.

The White Sox as a club bats .281; the Reds .266, and the Sox field proportionately better than their prospective rivals for the rag.

Of course, there is always a chance for an upset. For instance, Cleveland yesterday whipped the Yankees twice in the same place, and did it on the Yanks' home lot.

And the Athletics whipped the Tigers right and proper.

Garry Herrmann must think the Reds are better for a long haul than for a short one; he has managed to get the world's series changed from seven to nine games.

"Slim" Caldwell was once a fairly good pitcher for the New York Yankees.

"Slim" yesterday proved that he is a durned good pitcher against his old team-mates, for he dropped a gem with many a hit or run in nine innings.

"Bill" Lavin licked Willie Meehan; Willie lost two decisions over Champion Jack Dempsey. Carl Morris ambles, along and knocks out Larus.

Now is it a question of how good the Tulsa engine is, or how bad is Jack Dempsey.

The Gooding, Idaho, Athletic club has abandoned its plan of a battle between Frank Barricau of Canada and Frank Duff of Salt Lake because of a rather rank odor arising from a recent encounter between the Canadian and King, the Antipodes middleweight champion.

This battle was conducted in Boise and the ruling of the court was that King stalled all the way through.

But the people of Ontario, Oregon, are glad, and have signed Frank Barricau for a bout against Gordon McKay, late of the U. S. Army, on the night of September 11.

Even Connie Mack is with Slim Simey in picking the White Sox to represent the American-league in the fight for the world's baseball title.

Connie is a bit slower than Slim, but just as sure.

Jim Smiley, agebrush sage, says: "The Twin Falls baseball players should be strong champs, judgment from the odor of the quarters they loiter in at the park."

When the Paul club comes here next Sunday it will find a team of Greys worthy its steel. In other words the local team is to be braced from leadoff to the last man.

Those are Maanor George Hart's own words, for which we truly thank him.

## BURLESON MAKES DEFENSE

Denies Attempt at Improper Control of Postoffice Appointments

WASHINGTON, (P)—Postmaster General Burleson denied that he had sought at any time to "improperly" control post office appointments by the civil service commission in a statement replying to recent charges made by former Civil Service Commissioner Galloway that Mr. Burleson was attempting to "detach the civil service and make a sham of the merit system."

At no time has the postmaster general addressed a communication to the civil service commission with a view of improperly controlling a post office appointment," said Mr. Burleson.

Replying to Mr. Burleson, Mr. Galloway declared the postmaster general "avoids the issue and resorts to mud slinging."

## Grand Circuit Races

SYRACUSE, N. Y., (P)—"A new world" record for four year old geldings was written into racing history yesterday at the New York state fair grand circuit meeting, when in the 2:07 trot, Echo Direct, the sturdy son of St. Echo and Victoria Direct, trotted the third heat in 2:05.1-4.

"In the fourth heat Ben White piloted the big roan, Eaton, around the course in 2:06.3-4, thus bettering the mark which had stood until Echo Direct's performance today."

Chief interest in the day's events appeared to center in the three or four races held in the 2:10 pace for the Syracuse stake of \$3,000 in which Goldie Todd vanquished Senardo and Frank Dewey after three sensational heats.

The Kah-Noo-No three year old trot for a purse of \$2,012.50 went to Brother Peter.

Irish Yote won the 2:12 pace in straight heats in hard stretch drives.

### BARNES GOLF CHAMP

ATLANTA, GA., (P)—Jim Barnes, Sunset Hill, St. Louis, western open champion yesterday won the southern open golf championship. Robert T. Jones Jr., Atlanta, runner-up in the national amateur championship, finished second.

Senator Norris Says President Spent Money Like Drunken Sailor

WASHINGTON, (P)—During a side debate on the league of nations Wednesday, Senator Norris, republican of Nebraska, charged that President Wilson "spent money like a drunken sailor" in Europe and "swarting around with the representatives of foreign monarchies."

In reply to a question as to what he would have done, Senator Norris replied: "I would not have taken 1,500 people to Europe unless I had needed to take their advice. I would not have had a ship go in advance of me to receive me when I arrived. I would not have taken the chefs and cooks from the Baltimore hotel."

GOODING, Idaho—(Special)—The fall term at Gooding College is opening this week and the students already present indicate an enrollment that will break all previous records. ## DEPARTMENT OFFICER LAUDS THIS DISTRICT

Major Emery, of Recruiting Department Tolls of Western Record

For an inspection of the local army recruiting office, Major A. F. Emery spent Tuesday in Twin Falls. He is completing an inspection of recruiting offices in Idaho. On this trip Major Emery established an enlistment station at Nampa, with Corporal John J. Wiseman in charge.

Major Emery presented an exceptionally fine report of work done in the Salt Lake recruiting department, saying that district no. 10 holds sixth place of all enlistment departments in the United States. This record Major Emery considers remarkable considering the densely populated sections of the east, where recruiting should be comparatively easy as compared with the sparsely settled countries of the west. Only such cities as New York, San Francisco and Chicago are ahead of this district.

LET'S SETTLE IT

At the time the old Twin Falls Commercial Club was disbanded it was generally conceded that the move was in line with correct business principles.

Matters had come to such a pass that the passing of the club looked to be a good thing for all concerned.

But surely there has been a change. Today, unless all symptoms fail, a commercial club of some sort is one of the things which Twin Falls stands most in need of.

There are a dozen pressing topics up today for civic discussion, and there is no means of discussion. The matter of another City park or recreation grounds must be settled soon unless it is the intention to wait until such time as property for this purpose is no longer available.

At the end of the eight dances they soayed together, Wallie ventured: "Dot, slow Dot, but how about you through the streets tonight to your home, would it be agreeable to you for me to escort you to your door?"

At the end of their journey home, which came too soon for both concerned, Dot in her excitement invited Wallie to call the next day.

TWO LETTERS

By ELIZABETH I. SAUNDERS.

"Now, Dot, for goodness' sake pocket your pride and plan to go to that dance with us. Even if Wallie is there you won't be obliged to notice him, although I think you are just men to treat him that way. Now, please, Dot, just this once," pleaded Helen.

It was now just four months since the two offensive letters had caused so many sleepless nights for two young people, and even four months would not wear away the pain and jealousy that was wound to get the best of both concerned.

Wallie had gone to France, leaving behind him a little girl who had promised to be true to him only. It had made the parting easier to know that she was all his as soon as his duty had been accomplished over there.

"Dear Wallie," one had started. "Helen has brought me the dearest little fellow. I call him Duke as he is so polite and gentle. He is a little white, and so cunning. I know you will love him when you see him."

At the same time a little, blond, freckled boy tossed uneasily on the pillow and two nervous eyelids seemed to be having a hard fight to keep closed, then all at once she sat straight up in bed.

"Another man's wife," indeed, "so don't be jealous." "I didn't think Wallie would love another man's wife. He never seemed like that kind. But she can have him, that is if her husband doesn't object," and with an angry tug at the sheet she threw herself back on the pillow for a restless sleep.

Saturday dawned bright and clear for all with the exception of Duke, who had discovered that too much sweet and misery that too much sweet were not good for little fellows like himself.

"Beg pardon, Dot, but would it be asking too much if I asked for just one dance?" attempted Wallie. "Not at all, or even two wouldn't be a slight favor," sweetly answered Dot.

"What could be the matter with Wallie? What was he talking about?" "Why, Wallie, I don't understand what you are saying. Poor Duke couldn't protect me."

At the end of their journey home, which came too soon for both concerned, Dot in her excitement invited Wallie to call the next day.

WILSON IS SURE PEOPLE DESIRE WORLD PEACE

(Continued from page one)

Wilson work of many minds, he added, and "this very few compromises in it. It would be impossible to get together again the elements necessary to make a new settlement. The United States either must take the treaty, he said, or play a lone hand in world affairs."

"If you were going to play a lone hand," said he, "the hand that you play must have a weapon in it. And the weapon must be all the coming work of the country, and the business of the 'radicalism' pervaded the west, Mr. Wilson continued.

"There's only one way to beat radicalism, and that is to deprive it of food. The only way to keep men from agitation against a grievance is to remove the grievance."

He added that as long as there were things that should be corrected he did not ask that men stop agitating, but require that they do it in an orderly manner.

Mr. Wilson said he "repudiated" the suggestion that the other nations were not acting in good faith in forming the league and asked that any instance be cited in which France, Great Britain or Japan had not fulfilled their promises.

Justified Japan. "Japan has kept her engagements," said the president, adding that he had the fullest confidence that all the

whatever happens will "steadfastly adhere to the program of restoration of the province to China." Pressed for an estimate as to the time that will be required for this restoration, officials have said to the correspondents: "If China will take up the discussion in a fair spirit restoration can probably be accomplished in a few months. Japan would want arrangements for an international settlement providing for joint operation of the Shantung railway with Japanese instructors for the Chinese railroad and agreement concerning Shantung enterprises in which the Japanese have already invested capital."

They have added that no demands will be submitted to China as a condition to restoration. "How can we fix the exact date for restoration?" said one official. # THRILLS SURE FOR THE FAIR

### County Exposition Secretary Gets Signed Contracts with Birdmen

Whether or not the Twin Falls county fair attractions this year will be augmented by daily airplane flights remains to be seen, but the contract for such program has been daily signed, carried singly or en masse, according to the carrying capacity of the craft and the will of the public in the matter of trying out the game. It has been a good many years in every airplane has been seen over the Twin Falls country and the popularity of flyers as a feature of fair programs may be accepted as an established fact.

**New Sensations**  
Not only this, but those desiring to indulge in new thrills will be given every opportunity. Passengers will be carried singly or en masse, according to the carrying capacity of the craft and the will of the public in the matter of trying out the game. It has been a good many years in every airplane has been seen over the Twin Falls country and the popularity of flyers as a feature of fair programs may be accepted as an established fact.

Secretary Markel says the planes will arrive overland, and if the wheels stay on there will be daily flights during the fair, although having in mind the disappointments of past years as hostesses to risk his reputation on an airplane plane. Therefore as an advice to the public, he has included in the Twin Falls county fair program, there will be an evening fly play of fireworks which may be looked forward to as distinctly different and thoroughly up to date in every respect.

**Maker of History**  
Prospects for this year's fair are better than ever before in the history of the institution. There will be big gun and better exhibits in every line and there is building space enough for all. One more new building remains to be built for this year. Work will start in a few days.

October first, the second day of the fair, will be Bull day; October 2, Twin Falls day and October 3 children's day, when all children under 14 years of age will be admitted free. Evening flights and fireworks in the evening will be features of each of these three days.

If the hater (that was) should be kidnapped and your newspaper should give you the news in two lines of space you would feel that there had been a failure of service to you. You would demand the details, the whole story. And when a store has big news to tell and fails to tell it adequately or fully you have a right to feel that poor service has been rendered to you.

Stevens was recently convicted in Washington for check forgery. His term is from 1 to 15 years.

Stevens last February was tried in the district court for forgery and sentenced to from 1 to 14 years service. The lad forged his father's name in checks amounting to \$317.50, the checks being drawn on a local bank. Through the clemency of the court the lad was paroled to John R. Aull, juvenile officer, who placed him in a position on a farm, with the understanding that he was to pay \$25 monthly to reimburse the bank. The boy worked four months, paying \$100 on this plan, then he stole the money and after floating more worthless checks, left the country.

Several weeks ago county officials here heard that Stevens had been arrested at Cofax, Wash., for forgery, checks bearing the name of farmers where he had been working being used. The forgery was reported to any of the men working paid and the young man was placed under arrest.

# M'GINNIS CONFESSES TWIN FALLS ROBBERY

### Baltimore Police Tell of Alleged Acknowledgment of Diamond Theft Here

Telling of a confession made by John J. McGinnis, who several weeks ago conducted nefarious business in Twin Falls, a police officer in Baltimore, Md., has told his superiors the confession in detail.

ROCK CREEK was committed in the case, in which he was given an opportunity to "go straight."

"I visited a Twin Falls, Idaho, party of \$5,000 worth of jewelry. You have got me right and I'll hide nothing. Maybe I'll have a chance to start life over again in a clean way when I get out of the jail," McGinnis is said to have confessed. He is also credited with declaring he recently passed bogus checks in many cases in this vicinity.

While in Twin Falls McGinnis posed as Samuel C. Hiltbreth, Jr., son of a prominent eastern horseman. Among the jewels stolen here were some set rings, one of which McGinnis says he pawned in Ogden.

The Baltimore American gives the following interesting account of McGinnis' capture, and what purports to be a confession subsequently made:

"Louis Snelman, who is a jockey and who is a son of Mr. Snelman who was fleeced by McGinnis, recognized the man yesterday at the Timonium fair and notified one of the officials. As this official was approaching McGinnis he turned and fled toward a board fence in the rear of a cattle shed. Vaulting the fence he got into an open field and made his way toward the railroad tracks, where he hid in some bushes. Detective George C. Frazier, a veterinarian at Glenview saw a crowd riding chase and he joined. He found McGinnis hiding and held him until Constable Grayson arrived. His cuffs were quickly slipped about his wrists and he was taken to Towson where he was turned over to the officials.

Both the American and the Baltimore Sun give in detail many of the activities of the man. In speaking of his activities in Twin Falls the Sun states that he "had obtained the confidence of a member of the family, passed a check for \$200 on her and that night I got away with a lot of jewelry. I sold a big three-stone diamond ring in Philadelphia for \$500."

According to the Baltimore police McGinnis stated that he pawned a small ring for \$25 at a shop about three blocks from the depot under the name of F. Jones.

# WILL NOT DISTURB STATE ROUTE ON SOUTH SIDE OF SNAKE RIVER

### Highway Representatives from Twin Falls District Obtain Assurance from Idaho Road Commissioners that Abandonment of Integral Part of Evergreen Road is Not Considered

That there is to be no interference whatever with that portion of the state highway lying south of the Snake river in Idaho from American Falls through Twin Falls and on to Bliss, is the candid assurance given S. L. Hodgins, commissioner of Public Works, by State Commissioner of Public Works Hall.

The section of the state road from American Falls, through Burley, Twin Falls, Piler, Buhl, and into the Finger-pan valley to Bliss, which forms an integral portion of the Pacific-Evergreen national highway, is no way to be disturbed, Commissioner Hall is said to have assured during a conference of delegates from the Twin Falls country, which included members of the Piler and the Buhl highway districts.

Olson Speaks

Mr. Hodgins adds that the assurance favorable to the south side route was given by Colonel D. P. Olson, of the state highway commission during the conference. Both members of the commission are credited with the statement that the project statement, covering the Twin Falls highway district was at the time of the meeting ready for transmission to the district offices of the federal government at Portland for approval. Also that the highway district statement was practically ready and that the Buhl highway district statement would be ready in a few days.

Assurance was also given, according to Attorney Hodgins, that when the bill is introduced to the legislature, the state highway department would send a messenger with them to Portland, whose business it will be to undertake to get the approval of that department and have a federal aid appropriation set aside for them.

A further report is expected to come from Boise in the next few days, Mr. Hodgins says.

# Spark of Life Revived After Child Drowns

Immediate application of resuscitatory measures saved the life of Chester, the three-year-old son of Mr. and Mrs. Henry Temple of Rupert, according to word reaching Twin Falls from this place.

The child, reports indicate, was visiting at the residence of his grandparents, Mr. and Mrs. Chester Titus, one mile north-west of Paul. It wandered away from the house at about 1 o'clock in the afternoon and was found, sometime afterwards, in an open canal by Dean Wilson of Paul, to all intents and purposes, lifeless.

Although the child had been in the water at least five minutes, the measures applied revived the spark of life, and the infant is now reported well and showing little effects from the experience.

# Deaths

The death of Mrs. Parish, aged mother of County Commissioner W. W. Parish, occurred yesterday at the family home of P. W. Parish, three miles east of Paul, Idaho. The body was cared for by Undertaker J. E. DeWitt. Funeral service will be held today at the home of P. W. Parish, three miles east of Paul, the Rev. W. A. Moore, of the Twin Falls Christian church, officiating.

Funeral service are being held this afternoon for Mrs. Mina Peters, who died Tuesday at a local hospital from typhoid fever. The services are to be held in the DeWitt chapel, with the Rev. Asher Brand, of the Presbyterian church in charge. Burial will be in the Twin Falls cemetery.

Real property valuation, \$24,559,382; personal property \$2,120,000.

In funds the levy is distributed as follows:

|                          |      |
|--------------------------|------|
| County expense           | 005  |
| General school           | 0045 |
| Road                     | 0015 |
| Agricultural fair        | 0005 |
| Bond redemption and int. | 0015 |
| Warrant redemption       | 0005 |
| County hospital          | 0015 |

There is no bridge fund this year, thus reducing that expense. The general school fund levy is reduced half mill, the fair fund levy is reduced two-tenths mill, and the county hospital levy is one mill less than last year.

The predatory annual bounty fund is .003 for damage to sheep, and the predatory animal fund for all other animals is .0005, which will be assessed against the livestock holdings of the county.

# FORGERY CHARGE AGAINST YOUTH

### Axel Beaton is in Custody Accused of Issuing False Bank Check

The county jail population has increased. Only the addition to be sure, but increase nevertheless. Yesterday evening Axel Beaton, 18 years of age, the son of a farmer and stockman on Three Creek, was brought to Twin Falls for incarceration in the local prison to await trial on charge of forgery. The arrest was made yesterday afternoon on Three Creek by Deputy Sheriff R. F. Raymond.

According to the complaint Beaton recently wrote and circulated a check calling for \$125, using the name of C. S. Danne for the signature. Mr. Danne is a stockman and farmer, and the check might have gone through had it not been for the fact that the name was spelled without the final "e."

The lad is also accused, but not in this complaint, with having stolen an automobile belonging to a new named Frazier at Buhl. Interrogated on this point the boy is said to have admitted having had possession of the machine, but said he paid \$125 for it. The car has been returned to the rightful owner.

Young Beaton's mother died several weeks ago, leaving a considerable family of boys and girls, the oldest of which, besides the lad under arrest, being 14 years of age.

# FIFTEEN MILLS IS COUNTY LEVY

### Commissioners Agree on One Point Less Taxation than Last Year

The county tax levy for the coming year is 15 mills, a reduction of one mill over the year 1910-19. The state's tax against Twin Falls county property is 16 mills.

The county's levy is based on an estimated total valuation of all property in the county of approximately \$29,779,382. This is divided as follows:
