D'ANNUNZIO IS STILL MASTER OF SITUATION

Leader of Insurgent Italian Forces Refuses to Obey Government Order to Return with Men from Fiume

BRITISH AND AMERICANS JEERED AS THEY LEAVE

French Contingent Remains Barricaded in Barracks; Scene of Action Isolated by Censorship

LONDON.—It is understood here that the Italian government intends to institute a blockade of Fiume in an effort to starve out the insurgent forces who seized the town under command of Gabriele D'Annunzio.

GENEVA, (AP)—Gabriele D'Annunzio is still master of the situation at Fiume, of which he took possession recently at the head of insurgent Italian forces, refusing to obey the Italian government's order to return with his troops...

The British and American contingents in the city were jeered and hissed by the population as they marched to their warships, the advice state, but embarked safely on their vessels without further incident.

ITALIAN REGULAR TROOPS REPORTED MOVING ON CITY

LONDON, (AP)—Fiume has been isolated from the world by the Italian government, which is apparently taking steps to meet the situation that has arisen through the action of Captain Gabriele D'Annunzio in forcibly taking possession of the city and forcing all the Italian garrison forces to leave.

The Italian regular troops are moving on the city. The Italian battleship Duca degli Abruzzi is said to have been damaged by her crew and has been unable to leave the port of Fiume.

DECISION ON STEEL STRIKE IS WITHHELD

No Announcement Made When National Committee, Meeting for Definite Action, Adjourns for Recess

POSTPONEMENT CALLED DREAM BY FITZPATRICK

Chairman of Steel Corporation Gives Out Letter, Sets Out Reasons for Refusing to Deal with Union

PITTSBURGH, (AP)—The national committee for organizing iron and steel workers went into session here shortly before noon today to take definite action on the matter of postponing the strike of iron and steel workers called for September 22.

Before going into the meeting John Fitzpatrick, Chicago chairman of the national committee, said that unless there was a "last minute" telegram from Elbert M. Gary, chairman of the board of the United States Steel corporation, no postponement of the strike, as requested by President Wilson until after the industrial conference at Washington, October 9, would be considered.

Ready to Walk Out—Fitzpatrick said the men were fully organized and prepared to walk out next Monday.

At 2 o'clock the national committee of the steel workers took a recess until 4 o'clock. No announcement was given out after the meeting.

It was reported that a telegram had been sent to President Gompers of the American Federation of Labor asking him to attend the meeting of the national committee here tomorrow afternoon.

GARY GIVES REASON—The Carnegie Steel company today gave out a letter from E. H. Gary, the chairman of the United States Steel Corporation, addressed to the president of the steel workers' union.

He stated that the corporation does not combat labor unions as such and that it does not negotiate with unions because it would indicate the closing of the shops against non-union labor.

It is the settled determination of the United States Steel Corporation and its subsidiaries, the letter states, that the wages and working conditions of their employees shall be fixed favorably with the highest standard of propriety and justice.

JAPAN PARLEY REPORT DENIED

Uchida Statement Declared Last Exchange Between Washington and Tokio

WASHINGTON, (AP)—Despite a general impression here that the United States and Japan have been in communication over fixing an exact date for the treaty of Commerce with China, an authoritative statement was made here today that there have been no exchanges of record between Washington and Tokio since the formal statement made by Foreign Minister Uchida on August 2.

Japanese dispatches to Honolulu yesterday said the United States had made a request that a definite time be announced for the signing of the treaty of Commerce with China.

It was stated here today that Uchida went to Washington to comment upon them as far as he thought possible in indicating just when Japan was prepared to leave the peninsula.

It also will be necessary for Japan to enter into negotiations with China as arranged for the transfer, and China has not yet indicated her willingness to negotiate on the conference on the points the Japanese government is said to feel it cannot yet specify the date when the transfer will be made.

PALMER ADVISES RESISTANCE TO "BUY NOW" APPEAL TO CUT COSTS

ALBANY, N. Y. (AP)—Attorney General Palmer said today that if the people over all the country would act forcibly against the "buy now" campaign, they would help materially in solving the problem of high prices.

"It is a despicable thing," he said, "for merchants to urge you to buy now in anticipation of prices going higher when they know they will not."

OFFICIALS IN MEXICO FACE THEFT CHARGE

General Murgua Orders Arrest of Tuxpan Chief of Police and Lieut. Col. Rodriguez for the Complicity in Robbery

WASHINGTON, (AP)—Chief of Police Agapito Perez, of Tuxpan, Mexico, and Lieut. Col. Rodriguez, of the Mexican federal army, have been arrested on orders of Gen. Murgua, accused of complicity in the recent robbery of the Tuxpan office of the Penn-Mex Oil company, an American corporation. It was announced in official advices reaching Washington today. Practically all the members of the robber band, numbering 28 in all, have been arrested, and the prisoners without exception, the dispatches said, have declared under oath that Lieutenant Rodriguez was in command of the band at the time of the robbery and personally directed the work.

The robbers secured about \$40,000 in gold of which it is said Chief of Police Perez received \$2,500. The arrests were the result of General Murgua's promise of support to the oil men if they could prove that any soldier or official participated in any way in the frequent robberies of Americans in the oil regions. A number of officials of the oil companies in the Tampico and Tuxpan districts quickly rounded up the robbers, most of them soldiers, and turned them over to Murgua. They then told him of the complicity of the police chief and the army officers who were then confronted by the arrested robbers. The latter did not retract their charges when brought face to face with the accused and General Murgua placed, both of them under arrest.

CONDITION OF EXCHANGE TROUBLES FRENCH SOLONS

Discussion of Peace Treaty Interrupted by Claim of Domestic Affairs

PARIS, (AP)—In the chamber of deputies Tuesday during discussion of the peace treaty with Germany, J. L. Barthou, former foreign minister and L. J. Puch, former minister of public works, demanded a statement from Louis Klotz, finance minister, on what they termed the extremely precarious condition of exchange. This demand was supported by numerous other deputies.

M. Klotz said the exchange situation was due to France permitting free importation. "The only remedy," he said, "is to show America and Great Britain that we can go to other countries with a growing volume of colonial and national production. Otherwise exchange will continue to rise."

Former Emperor is Almost Forgotten in Land of Exile

William Hohenzollern Seldom Figures in Amerongen Conversations

AMERONGEN, HOLLAND, (Correspondence of the Associated Press). A few bicycling tourists occasionally stop and pass through the gates of the Bentinck estate in hopes of catching a glimpse of the former German Emperor, but were it not for them and for the presence of the state police and guards who languidly pace up and down the road about the castle walls, Amerongen would seem to have completely forgotten that William Hohenzollern was in voluntary exile there.

The doings of the former ruler and his small "court" inside the castle have ceased even to be a topic of village gossip.

Once a week, perhaps, some one may mention him, wondering how long he will be in Holland, and then ensues a series of weightily expressed, judicial opinions, the gist of which is that Amerongen doesn't believe the Allies will ever attempt to bring him to trial at all, and that William Hohenzollern will settle down and become a Dutch country gentleman. It is seldom that real information regarding his doings trickles out from the walls and moats of the estate.

POULTRY THRIVES HIGH ABOVE LONDON AVENUE

Roof of Institute of Civil Engineers is One of the Most Prosperous Farms

LONDON, (AP)—One hundred feet above one of London's busiest streets, and within 200 yards of Big Ben, on the roof of the institute of Civil Engineers, there is one of the best kept and most prosperous poultry farms in the city.

It comprises 36 hens, housed in three spacious coops, but during the greater part of the day the hens are allowed to roam about the roof at will. Although the coping is not more than eighteen inches high the hens never attempt to reach the ground, contenting themselves with mounting the top and there announcing their satisfaction after an egg has been added to the record they have been making.

JAPANESE HAVE NO OIL RIGHTS MEXICO AFFIRMS

Nipponese Geologists Explore and Locate Deposits on the Coast, Department of Industry Declares

MEXICO CITY, (AP)—The department of industry and commerce denies emphatically that Japanese interests have acquired any petroleum holdings in Mexico, but says parties of Japanese geologists have visited the republic recently on a tour of exploration and have located oil deposits on the Pacific coast.

The departmental denial came as the result of stories emanating from the United States that Japanese capitalists were negotiating for the transfer of large petroleum holdings in the Tampico district.

El Monitor recently interviewed a Japanese, R. E. Douart, who was sent to be a member of the oriental exploration party. He asserted that the Pacific coast had been thoroughly covered in the search for oil and that large deposits of the latter had been found. He also asserted that Japan needs Mexican oil for commercial purposes and will attempt to acquire that product, but it has no intention of buying leases, developed or undeveloped, on the Atlantic coast.

CONFERENCE CONSIDERS FEDERATION FOR BALTIC

Peace with Soviet Government Only One of Propositions Before Sessions

COPENHAGEN, (AP)—An important conference has been in session at Riggs considering not only peace with the soviet government of Russia but the formation of a Baltic federation, according to advices from London sources. It is understood that there has been no actual acceptance of the soviet government's terms but on the other hand it appears that the Baltic federation idea has materialized to the extent that an agreement has been reached for a common currency and a common union of Latvia, Estonia and Lithuania.

PLEBISCITE TO DETERMINE LUXEMBOURG RULE FORM

Economic Union with France or Belgium Another Question to Be Settled

LUXEMBOURG, (Correspondence of the Associated Press.)—A plebiscite is to be held in the Grand Duchy of Luxembourg after the ratification of the treaty of peace to determine whether the form of government shall be chosen and also to determine whether the duchy shall join France or Belgium economically. At present the grand duchy is governed by a council of fifteen members and a chamber of deputies of fifty.

UKRAINIANS PROTESTING AGAINST DENEKINE PLAN

Delegation at Paris Says Re-establishment of Russian Empire is Aim

PARIS, (AP)—The president of the Ukrainian delegation to the peace conference has written to M. Clemenceau protesting against attacks by General Denekine's volunteers upon the Ukrainian army which was in pursuit of Bolshevik forces after the recent capture of Kiev. The letter says that the Ukrainian committee is making use of Denekine's assistance which was intended to enable him to fight the Bolsheviks, to penetrate Ukrainian territory with the object of reestablishing the Russian empire. It also declares that the attack on the Ukrainian army permitted the fleeing Bolsheviks to make their escape.

PRINTERS WILL ARBITRATE

New York Union Men Will Debate Higher Pay Claim; Demand Shorter Hours

NEW YORK, (AP)—Officials of the "Big Six," the local union of printers, whose demands for an increase of 21 1/2 percent in all present wage scales in books and the establishment by October 1 of a 44 hour week have been met by a threat on the part of the publishers to curtail publication or to move their plants to western cities where they will be free of labor "radicalism," announced today their willingness to arbitrate the question of higher pay. They declared they were determined, however, to insist on their demand for shorter hours, refusal of which would mean a strike.

Declaration of War Starts Conscription

WASHINGTON, (AP)—Under the war re-organization law as the war department is making congress to pass it chief of staff March told the house military committee today, conscription of men between 18 and 45 would begin automatically on declaration of war without any other action by congress. Volunteering would be wiped out but the national guard would be "re-started." The chief of staff also told the committee the war department considered universal military training of young men without actually enrolling them in the army, constitutional.

Today's Sporting News

Brief Sport Bits

That settles it. The Reds will be the White Sox foe in diamond debate for the hunting.

We kinda thought it would be so, but, unlike those rabid Rhinelead supporters, refrained from appearing pernickily about it.

At that the Cincinnati populace could not depend upon its own kind to win the flag—had to import an Irishman to do it.

Muggsy McGraw, the minute his team lost to the Reds yesterday, hid himself to Texas to look after land (not landed) interests.

Muggsy turned the reins of management over to Matty Mathewson. Perhaps Matty can lick his old team, the Reds, while his boss isn't looking.

At that the Giants have been laboring under a sort of landlady's grip all week. Heine Zimmerman, one of the most obstreperous as well as one of the best players in the country, had been suspended because he only obeys club orders when his coach is present. He gets no pay for the vacation.

Although reports from Rupert indicate there is no possibility that Babe Evans will never again pitch ball, we will venture a wager that he will twirl winning ball before the close of the 1919 season.

The accident, which is presumed to deprive the pitcher of the service of his left arm, sounds more or less croaky to us. May be a year to effect getting in the big game to come.

"Nothing" to us," quoths "Tully" Spencer, president of the C. C. League, "the White Sox will win the world's series in a cinch."

Big leagues of last week's play in the big analysis puts the Sox "way ahead of all the other 15 clubs."

"Tully" Spencer says "Lefty" Williams will win every game he starts against the Reds, and Gienie will win his. Kerr, Lowmilk, Bill James or the recruit, Lindemann, should win one against them, thus giving the series to the Sox.

Pennant winners in the American Association and the winning club in the Coast league will play a series in Los Angeles after the regular league season in both circuits has closed.

The Cincinnati Reds have seven more games to play, while the Giants have 11. Even though each team should win all the Reds' work still have a margin lead in the race.

The baseball commission meets next Monday to discuss the world's series program. By that time the question of supremacy in the American league will be definitely determined.

A coterie of Buhl residents have formed an athletic association for the purpose of holding wrestling and football matches. The company is capitalized for \$1000.

GARRY DOESN'T CARE; REDS HAVE WON FLAG

Herrmann Not Worrying About Chairmanship of National Ball Commission

CINCINNATI, O., (AP)—While "disturbing" reports were being received concerning the chairmanship of the national commission in which Judge Garry of Chicago, was mentioned as a successor to Chairman Herrmann, Mr. Herrmann, president of the National league pennant winning club, seemed not at all interested and spent a quiet evening with friends, following the victory of the Cincinnati team over the Giants yesterday.

"It's a great day for Cincinnati. We won the pennant with the best team in the league. Pat Moran deserves a world of credit, as do all the players. I do not want to mention the world series till I read of the boys' duty to winning the pennant," Mr. Herrmann said.

Today is an "off-day" in the schedule of the Reds, which is a complete holiday. The Brooklyn team will open a three game series here Thursday, which is Captain Greb's birthday. The Giants play an exhibition game in Toledo today.

LEAGUE GETS AFTER BAN JOHNSON RIGHT

Heads of American Ball Clubs Order Audit—President is Assailed

CHICAGO, (AP)—A complete investigation of the financial affairs of the American league was ordered yesterday at an executive session of a majority of the board of directors. Charles A. Conviser, president of the Chicago American league club was authorized to proceed with the inquiry. Byron Mansour, president of the Cleveland league was requested last month to furnish this information to the board but he has failed to do so.

The question of gambling at baseball games also was considered and Mr. Johnson was bitterly assailed for his failure to give the board of directors information which he is said to have in his possession in regard to gambling at the games. The board declared that everything possible has been done by club owners to stamp out this evil and it is left to the league executive for his failure to cooperate.

Time 2:07 1-4.

The 2:07 class race was won by John Quirk, best time 2:03 1-4.

CHAMPION WINS WITH KNOCKOUT

Johnny Kilbane Gives Burns First 'Sleep' Potion in the Latter's Career

JERSEY CITY, (AP)—Johnny Kilbane of Cleveland, world's feather weight boxing champion, knocked out Frankie Burns of Jersey City, in the fifth round of an eight round match at the Jersey City baseball park last night. Burns arose before the count of ten, but the referee stopped the contest as Burns was helpless.

It was the first time the Jersey City boxer was ever knocked out. Burns was on the aggressive in the first four rounds, the champion apparently taking things easy. As the count left their corners at the start of the fifth round, Kilbane feinted cleverly and quickly sent a hard right across to the point of the jaw, Burns dropping to the floor. He got up at the count of four but was in no condition to defend himself.

Burns weighed 124 pounds and Kilbane 125. More than 10,000 persons viewed the contest, which was held in connection with a political rally.

Joe Lynch of New York outfought Patsy Johnson of Trenton in an 8 round bout.

IRISH CASE MAY COME BEFORE LEAGUE FORUM

Wilson Gives Interpretation of Covenant as It Affects Ireland

ON BOARD PRESIDENT WILSON'S SPECIAL, (AP)—Setting forth publicly for the first time his interpretation of the league of nation covenant as it affects Ireland, President Wilson said in a statement today that the league would constitute a forum before which could be brought all cases for self-determination which are likely to affect the peace of the world. "The covenant would not bind the United States to assist in putting down rebellion in any foreign country," he asserted, "nor would it limit the power of this country to recognize the independence of any people who seek to secure freedom." He said Ireland's case was not heard at Versailles because it did not come within the jurisdiction of the peace conference.

AMERICAN GIRL IS VICTIM

Arrest in Naples Develops Alleged Murder Case Following Elopement

NAPLES, (AP)—The arrest by the police here of a man named Luxemburg, thirty years old, has developed an alleged murder case in which an American girl was the victim, according to the authorities. The police say the prisoner has confessed that in 1909 he eloped with a Miss Ellis, an American girl then living in Geneva, and that shortly afterwards he murdered her.

Further detail of the alleged confession was not available.

NEWARK, N. J., (AP)—Benney Leonard, world's lightweight boxing champion, and Johnny Dundee, of New York, will meet for the seventh time in an eight round bout here tonight. All of the previous bouts were the limit.

Summit Town and Country Leather Coat

It won't "hold you back" when working and needs no "breaking in." Although warm and close fitting, it allows the easy action of the body that is so necessary to men who "do things."

It is made for your convenience. The soft and pliable leather keeps out the cold and breaks the wind. This common sense coat is an ideal combination of comfort, good looks and practicality. The Universal Garment for out o'door.

Member Audit Bureau of Circulations

A VITAL QUESTION

Much has been said by way of an
allusion between the adoption of the con-
stitution of the United States to sup-
pend the articles of confederation and
the proposed ratification of the peace
treaty with its covenant for the league
of nations to bind the nations of the
earth together in a manner, it is claim-
ed, comparable with the union of the
several commonwealths making up the
United States.

More or less cursory examination of
the covenant itself will serve to con-
firm the opinion that the only possible
analogy in these instances is that
each proposed a new order of govern-
mental affairs.

It is to be remembered that under
the constitution only certain very spe-
cifically defined powers are exercised
by the federal government, whereas in
the case of the covenant the situation
is reversed and we have a government
of governments exercising powers that
are by no means limited but which rather
are, so to speak, by design, left in-
definite and elastic in the extreme,
while the powers left to the member
nations are circumscribed in greater or
less extent by the instrument.

If there were remaining any ques-
tion as to the practically limitless ex-
tent of the jurisdiction of the proposed
league of nations, the statement to-
day of the president in relation to the
case of Ireland would tend to dispel an
opinion that it is not vested with
plenary powers.

The league will constitute a forum
before which could be brought all the
claims for self-determination which
are likely to affect the peace of the
world, the president said.

He was speaking in this instance
specifically as regarded a claim for
self-determination "likely to affect
the peace of the world."

It requires no stretch of the imag-
ination or straining of logical pro-
gression to apply this proposition to
any situation or circumstance which
might be "likely to affect the peace
of the world."

The covenant, at the instance of its
critics in this country last February,
was altered to safeguard, in theory,
the supremacy of member nations in
relation to domestic affairs; but with
a situation existing where a question
of internal policy such as an immigra-
tion restriction or even a tariff law
might be interpreted as affecting the
peace of the world and so a proper sub-
ject for the consideration of the league,
it becomes increasingly difficult to de-
termine, under the proposed covenant,
just where the rights of the member
nations leave off and where the pow-
ers of the league begin.

It took the bloodiest war in history,
up to that time, to determine the rela-
tionship of the states to the federal
government under the constitution of
the United States.

Your needs and your request is answer-
ed before it is voiced.
It is not surprising then, although
none the less commendable, that Gov-
ernor Coolidge, chief executive in a
state that has been lately a heavy suf-
ferer through the violence of man, has
promptly responded to an appeal for
assistance from Mayor Boone of Cor-
pus Christi, the town that has been
hardest hit by turbulent forces of na-
ture.

The rule still holds good—when in
trouble it is best to turn to the fellow
who has troubles of his own.

Daily Thought.
Worth makes the man, and what is
it the fellow.—Pope.

Spasmoidic Sermon.
Next to the woman who will slap a
baby, the most disgusting creature is
the one who will talk baby talk to a
dog.—Indianapolis Star.

Perplexing.
One of the mysteries of this life is
why they call it a tanning when every
kid knows that the area affected by
the performance doesn't get tan at all.

Beware First False Step.
Honor like an island, rugged and
without a landing place; we can never
more re-enter when we are once out-
side of it.—Silver Threads.

Reason for Optimism.
"Some men are optimistic," said Uncle
Eben, "for the reason that it's most
convenient to tell a man 'sun' when he
is in a funny story than it is to
tell him 'de truth'."

Life Much as We Make It.
No person is ever condemned to a
small life. Many are assigned to
small circumstances, but one can live
as large as we want them to be.
For the only limits of life are aspira-
tion, sympathy and interest.—Selected.

Prison His Safety.
When the West Indian city of St.
Pierre was destroyed by the eruption
of Mount Pelée, scarcely two of its
inhabitants except one lost their lives.
The sole survivor was a prisoner in an
underground dungeon.

First Private English Phone.
The first telephone ever placed in a
private English residence is still to be
seen at Marlborough house. It was
used in 1878 on the board the warship
Thunder and was subsequently set up
between the schoolroom and the
boudoir of the princess of Wales.

Laying a Carpet.
In laying a carpet in a room where
there is a fireplace, the section cover-
ing the fireplace or hearth should be
cut down first by the shears, and
then the carpet should be cut toward
the sides, so as to form two flaps,
which should be turned under.

One Value of Silence.
Silence doesn't mean wisdom, but
the fellow who keeps his mouth closed
can at least hold in what he doesn't
know.

New Labor Saver.
An inventor has patented an elec-
trically driven machine, which makes
the rough clay boxes in which pottery
is subjected to heat in kilns, work
heretofore done by hand.

Life's Little Peaves.
Life is just one thing after another,
but chiefly it is getting up to do some-
thing you have forgotten after being
comfortably settled in your chair for
work or reading.

Some Grownups Have Same Idea.
Miriam had been over to a neighbor's
to see the new baby, and on her
return I asked her what she thought
of it. She replied: "Oh, I don't like
'em so fresh; I like 'em better after-
ward."

Most Valuable Plant.
No plant renders man greater service
than does the wheat, because it sup-
plies to the greater part—and the bet-
ter part, too—of the western world its
staff of life. From wheat the leading
nations of the earth obtain their bread.

New York's First Railroad.
The first railroad in New York state
and one of the first passenger railroads
in the United States was constructed
of wooden rails from Albany to Sche-
nectady, a distance of 17 miles, in 1831.
Ten years later the Erie railroad was
opened from Piermont to Goshen.

No Race Suicide There.
Jean, who had always lived in the
city, was going to the country for the
summer. As she sat gazing out of the
car window a flock of blackbirds,
frightened by the train, rose from the
ground and flew away. "O, my," ex-
claimed Jean excitedly, "look what a
large family those birds have."

Water and the Human Body.
The specific gravity of water and the
human body is virtually the same.
A body in the water is supported by
equal pressure at all points. It is
more likely to be at ease than under
other circumstances. It is, therefore,
more likely that it may move without
pain. So cripples are often given their
exercise in the water.

Wise Relaxation.
The wise know that a judicious
amount of wasting is, in the end, not
wasting at all; for those who have
learned to relax and to forget at the
right moment, to lay aside care and
thought and time completely, when
they do labor do it with a fresh and
light power that the weary slaves of
time service never know. To lose time
profitably is an exquisite art.

Honesty First Requisite.
It would be an unpardonable advan-
tage, both to the public and private; if
men would consider that great truth,
that no man is wise or safe but he
that is honest.—Sir Walter Raleigh.

Peruvian Flower Festival.
Perez celebrates a custom which
dates from soon after the Spanish con-
quest. All soldiers' graves alike are
decorated, including those of peons
and Indians, individuals little regarded
in Peru, at all events during life. In
the evening the populace gives itself
over to feasting and merry-making.
This particular flower festival is held
annually on November 1.

Jolly Little Chipmunk.
The place the chipmunk fills is
small and inconspicuous but his sylvan
"chirrup" plays a minor strain in the
wilderness diapason which the mighty
blue soul of nature is forever singing
in her forests; solemn and consoling
to lend cheer to the weary; jubilant and glad
for the free of heart. Intoning ever
some clear sweet note of mystic melody
for those who listen, to awaken a
dreaming bliss or to thrill an untried
flier into quivering life.

Centipede a Fly Killer.
The centipede is found pretty much
all over the world. The species com-
mon in the United States Scutigera
forceps, was reported over
twenty years ago as devoting the
nights to killing house flies. Later
an observer detected one in the
act of capturing a butterfly much
larger than itself. The insect
remains concealed during the day un-
der doorsteps or window frames, or
in any crevice sufficiently large to
hide its numerous appendages.

Outspoken Athenian.
More than twenty-three hundred
years ago a young Athenian, speak-
ing of his wife, said to Socrates:
"When I saw that she had powder on
her face to make it whiter and rouge
to make it redder, and that she wore
high-heeled shoes to appear taller, I
told her it was an dishonorable for her
to try to deceive me about her beauty
as for me to try to deceive her about
my property, I added that she should
be ashamed to impose upon others,
but she could not impose upon me, who
saw her at all times."—Youth's Com-
panion.

Japanese Gala Day.
Of all floral festivities, Japan's Feast
of the Cherry Blossom is the most
generally observed. Practically every
town and village throughout the land
honors at this great occasion, but
the most famous of them all is that
at Kioto. Here early in April is to
be seen such a sight as can be wit-
nessed nowhere else in all the world.
There are seldom fewer than 1,000,000
persons present, who gather from all
parts of the empire. Everywhere is
feasting, dancing and merry-making.—
"Finance," in Indianapolis Star.

Battles on Sundays.
The date of the battle of Salambona
was Sunday, July 2, 1812; Vimiero,
Fontenoy, O'Connell, Toulouse and
Vitoria were also contested on what
were known as "Wellington's Red Sun-
days." Waterloo was won on a Sun-
day and the greatest attack on Cron-
gle's trenches at Marlbrough was made
on a Sunday—Feb. 18, 1900.

Waiting in Agony.
At a recent wedding the bride was
delayed a little in making her appear-
ance. When at last she did appear
she breathlessly ran up to the em-
barrassed bridegroom, who had been
waiting for her in agony and putting
her arms around his neck exclaimed:
"Oh, John, dear, I am so sorry I am
late."

Satisfaction in Doing Right.
Imagination is the father and mother
of trouble when we let it run loose in
a line of stress. But in the end the
will and the heart are what determine
our fate. After all, when we do right
we have some satisfaction even if we
suffer. But if we do nothing but drift
along we have not even the satisfac-
tion of knowing we deserve to come
out right.

Paste for Brown Leather.
An excellent paste for brown leather
is made of two ounces of soft soap,
four ounces of beeswax, two ounces of
turpentine and half an ounce of neat's
foot oil. Melt soap, wax and oil to-
gether, then remove from fire and add
the turpentine. Stir well. When cold
apply with a brush.

First Translation of Bible.
The first translation of any part of
the Bible was that by Bede of the
Fourth Gospel, in 735. The first com-
plete translation was that of Wycliffe
about 1388. Luther was not born un-
til 1483.

Confidential Communication.
"Unscrupulous Mattie" got to nation
this to anyone, because she got it in
strictest confidence from some one who
was pledged to absolute secrecy, so be-
fore I tell you you must give me your
word of honor you won't even breathe
a hint of it."

Floor Bleach.
If an unfilled or undressed hard-
wood floor becomes gray apply a solu-
tion of two ounces of oxalic acid dis-
solved in just enough water to wet it
well all over. Let stand fifteen or
twenty minutes; then rinse in cold wa-
ter and proceed to wash without soda
as usual.

Value of Uncooked Food.
Man cannot digest and assimilate
the mineral elements in rock; hence
it is necessary for him to get the ele-
ments for structural work from fruits
and vegetables. In their fresh, uncook-
ed state; for cooking destroys the
chemistry—the chemical synthesis
with albumin is lost.—J. H. Tilden, M.
D.

Waiting Till After the Show.
The bridegroom was a big, bashful
looking country boy. Immediately
after the ceremony he disappeared
from the scene, and after a long
search was found calmly smoking his
pipe in the hay loft in the barn. In
his shirt sleeves and his collar off.
When asked for an explanation he
said: "My collar is so darn high I
can't wear it. Tell her I'll wait till
here till the show is over and I'll take
her home."

Really Not Their Fault.
Marjorie and Clea are prim little
sisters, and as there is a baby brother
mamma has some trouble putting on
his last touches and getting them
away to school mornings. In the in-
terest of discipline their teacher was
obliged to lecture them on tardiness
and, next morning they were late as
usual. She waited for them at the
door, trying to look stern, but Clea
upset all her dignity and, out her lec-
ture short by observing: "Well, we
can't help it if you ring the bell too
soon."

Livingstone Memorial.
One of the most curious memorials
of Livingston is the "Name Tree,"
near Victoria falls, on the Zambesi. On
the trunk Livingston cut his initial
and the date 1853 on the day of his
first visit to the falls. In his book, giv-
ing an account of this, Livingston
says: "This was the only instance in
which I indulged in this piece of van-
ity."

BEAT GOVERNMENT. JOHNSON'S PLEA

Hurried Action Only Hope of Friends of League, Californians

OMAHA, Neb., (AP)—At a luncheon given by Omaha business men today Senator Hiram W. Johnson of California made a plea for the defeat of the league of nations...

"The only hope of the friends of the league of nations is to rush it through the senate before the people understand it," said Senator Johnson...

Among those present at the luncheon were Victor Rosewater, E. A. Honson and R. B. Howell, republican national committeemen for Nebraska.

Pulque Trains in Mexico. Pulque, the national drink of Mexico, is made from the juice of the maguey plant. Large tracts of which are cultivated outside the City of Mexico.

Good Taste. Good taste is the conscience of the mind. Lowell's definition is compact of thought and is worth dwelling upon. Good taste is a trait we all agree in valuing, though its meaning as a rule is rather vaguely felt...

You may rest assured of this. If a man has a full page of space in which to tell some news which could have been told in a column, he falls either to serve or to profit. If he uses a column when he could tell a page he makes an even greater blunder.

ALL BOW TO MY LORD TIGER

Natives of the East Most Willingly Accord Him Royal Rank—Is Sacred From Attack.

Of all the animals deified in the East none is regarded with more awe than my lord tiger. Especially throughout Siam and Indo-China, the tiger is king.

If there are fewer tigers in this part of the East today, it is due largely to the efforts of western sportsmen who occasionally can persuade, bribe, or threaten a few natives to aid them in a hunt.

Native reverence goes so far as to allow a tiger to grow undisturbed about a village night after night, attacking and sometimes killing those so unfortunate as to cross his path.

It is obvious that the royal tiger rules centrally by fear. Awe-inspiring he is himself, and his supremacy is helped along by the attitude of the natives.

Jack Broughton, Englishman, Nearly Two Hundred Years Ago. Formulated Rules to Govern Sport.

Jack Broughton, the father of pugilism, fought his first fight on July 9, 1725. He was engaged in many rough-and-tumble fights with other lads, but at that time he knew nothing of boxing, which was just being introduced by James Figg.

The Printing business of the Twin Falls News is second only in importance to the publication of the Daily News. In the program of activity which the News has mapped out for itself the Daily News must come first, but, The printing business of the News, always of heavy volume, grows steadily day by day— This was the reason why The News found it necessary to double its floor space. The growth of the printing and publishing business of the Twin Falls News could no longer be confined to the quarters of the past four years. In speculating upon the reason for this growth one fact stands out with startling clearness. It is this: The product of the Twin Falls News, both newspaper and printing, is Quality Product. It is never cheap, never hurried, never slighted, no matter how few the dollars of actual cost to the buyer. News products in the way of printing, vie with the Daily Editions of the Daily News in point of quality and workmanship. We give the utmost for the money that it is possible to give, and we invite and compete for business on this basis and on this basis only. Added to which, be it eternally remembered, "We Never Disappoint"

MASONS PREPARE FOR SEASON OF HARD WORK

Special Convocation Tonight Will Usher in Busy Year for Lodge

Tonight Twin Falls lodge No. 45, will meet in special convocation to confer initiatory degrees upon several candidates. Work will start promptly at 7:30 o'clock.

This will be the first meeting of the lodge since last June for the conferring of degrees, and an urgent invitation to attend has been sent out to all members of the order. Robert A. Parrott, worshipful master, announces the lodge has the busiest season of its history ahead, and has made arrangements for degree work on every Wednesday night throughout the working year.

Calling attention to the duty members owe their lodge, M. Parrott has addressed a letter to each person enrolled on the membership books recently asking that every Wednesday night in the season be devoted to the affairs of the Masonic lodge.

TWO-CENT COIN PROPOSED

NEW YORK, (AP)—A campaign urging the government to issue a two-cent coin withdrawn from circulation in 1874, the new coin to bear on the obverse side a bas relief portrait of the late President Roosevelt, was inaugurated today by the women's Roosevelt memorial association.

AIRPLANE COMMUNICATES WITH SUBMERGED SUBMARINE

NEW LONDON, CONN. (AP)—A radio by the experiment station, naval section, established communication, both telephonic and telegraphic between a hydroplane flying nearly two thousand feet in the air and a submerged submarine several fathoms in the water. This is said to be the first time that an airplane and a submerged submarine have communicated with each other directly.

PRIZE IS OFFERED TO ESSAYISTS OF STATE

As Part of Patriotic Education Papers are to be Written on "Constitution"

A cash prize of \$25, is offered by Mrs. C. A. Mann of Boise, state chairman of patriotic education, D. A. R., for the best essay on the constitution of the United States. This offer is open to all pupils enrolled in the high schools of the state, preparatory schools, grades, public or private educational institutions and parochial schools.

Teachers are asked to send in the three best essays. Each county is to be given credit for the number of competitors. The winner of this competition will be published in this state and will also be sent to Continental Hall, Washington, D. C., and published there. All essays must be sent to Mrs. Mann by May 1, 1920. They may take the form of pre-knowledge of the constitution; the powers of the house and senate, may discuss the divisions of government, the amendments, main objection to its adoption, the compromise.

Footscap paper must be used, employing one side only of the sheet. Competitors must write name, age, scholastic attainment, county, number of district, name of school and teachers' name.

THRIFT---and Something More!

Numberless tales have been told of goodly sums accumulated through the practice of thrift.

Too many end disappointingly by telling of the loss—through fire, theft or accident—of such savings.

These oft' recited stories emphasize this thought:

Thrift and common sense should go hand in hand. To save is commendable, but not enough—a reliable depository must be provided for savings.

LITTLE CHANGE IN BRITANNY

Land of Romance Today Much the Same as It Has Been Through the Centuries.
Brittany since the early times of history has been the land of romance, saints and archbishops, knights and ladies, hobgoblins and wizards, crusaders and fanatics. All of these are with beautiful impartiality scattered throughout the antique records of L'Armorique as this region used to be called. Even the fabled sunken city of Is and the lost continent of Atlantis are supposed to lie off its coast.

First colonies of the Irish and the Welsh, the inhabitants are by tradition, birth and blood a race apart, sturdy, superior in statures and devout and obstinate; Fine sailors and tillers of the soil, the Britons have remained much as their earlier ancestors were. Their native costumes prevail throughout all villages and farmhouses. The men in blue blouses and straw hats trimmed with long black velvet ribbons, and longcloth waistcoats, embroidered in bright colors, loaded with buttons, sit beside many a wayside tavern, and the white headresses of heavy black serge costumes of the women are the same in cut and quality as in the days of the famous Queen Anne of Brittany.

Stone Age Theory Disproved.
The means of manufacture at the disposal of savages were so small that archeologists were formerly of opinion that a stone axe must be the product of a race apart, distinct of one generation but of several, being handed down from father to son, and taking shape gradually, so that an implement begun by an individual might be finished by his grandchild.

This idea is pure nonsense was proved by the late J. D. McGuire of the United States bureau of ethnology, who, developing a high expertise in such work, made first-class axes in a day or two, chipping them out of hard stone and polishing them by rubbing with sand and water. He even produced sculptures in relief after the pattern of those of ancient Mexico, using no other tools than stone hammer for "pecking" at the rock.

It was the employment of tools, say anthropologists, that made man what he is. His brain was educated through the use of his hands.

See Caterpillars.
The caterpillars you war against when whitewashing your fruit trees are not the only caterpillars. Caterpillars populate the ocean in billions, and grow into crabs if the Greenland whale does not eat them first.

They are minute little things, about the size of salt-grains. As children pick before they walk, so crab-caterpillars begin by literally looping the loop from one spot to another.
Greenland whales like them on account of their diminutive size. Having no teeth and very small throats, the whales find them the most convenient form of diet. They with their mouth open, squirt out the water, and then swallow.

You may rest assured of this: If a merchant uses a full page of space in which to tell store news which could have been told in a column, he falls either to serve or to profit. If he uses a column when he needed a page he makes an even greater blunder.

HORSE RACING FAIR FEATURE

Best "Bangtails" in Country Coming to County Exposition—Stalls in Demand

Indications are positively the best for the greatest racing program ever held in this section, according to Secretary J. M. Markel, of the Twin Falls County fair. Mr. Markel announced that the barns at the Flinor fair grounds are rapidly filling with racing wags from various places. He says practically all the horses that race at Logan, Utah, will be here for the fair program.

Every mail brings further entries for the livestock department, Mr. Markel announces, telling of a great rush for housing space for horses, cows, sheep and swine. A large hay and grain storage barn has been erected for the benefit of those persons who have animal exhibits. The building is located close to the stock stables and barns.

Music and Pyrotechnics

Arrangements are being made with the Twin Falls band to furnish music on each afternoon and evening. With the best of music and fireworks on the three evenings, beginning Wednesday, the evening programs promise to be fully as entertaining as those covering the day. The races will consume much of the afternoons time.

Monday, September 20, is entry day for the fair, and all bookings must be on that night. Tuesday, September 23 will see the inauguration of the biggest, best and most important fair Twin Falls county has ever known. The program of the first day will be just as interesting as any other day of the fair period, Mr. Markel promises.

With respect to the general line of exhibits the secretary makes the following statement:

"There will be more than twice the exhibits to see than have ever been shown at a local fair. Exhibitors are requested to make entries early. This is especially true in the livestock departments. Drop a request to the secretary for entry blanks and then send the entries in. The secretary will reserve stalls and pens but the superintendents of department will assign the particular stalls to each exhibitor. Early entries are assured of clean, well lighted and comfortable quarters."

Concessions Go Fast

All concessions for the county fair are being handled by C. W. Case, as superintendent. A considerable number of applications for these have been received and many have been disposed of. Ladies who operated booths at the fair last fall will be in charge of similar departments again this year. The

same entries of women who operated the large dining hall will look after that section again, and promise a good service this year as last, if not better.

An exit gate is being constructed so that lively autos may discharge their passengers at the produce building instead of the main entrance, as was done last year. This, it is expected, will materially relieve traffic congestion at the main gate.

FARMER BADLY INJURED IN RUNAWAY ACCIDENT

J. E. Bellville is Caught Under Overtaken Machinery—Bones Broken

Caught under a hayrake when his team suddenly turned, as they ran away, J. E. Bellville, 62 years of age, sustained injuries of so serious a character that he will be confined to his home for some time.

The accident happened on the Bellville ranch some distance from Twin Falls. The hayrake, when overtaken, ran into a fractured arm and leg, as well as many more or less serious injuries about the body.

According to word reaching town today Mr. Bellville was driving a hayrake during haying operations yesterday. The team he drove became excited when an automobile engine was suddenly started near them, and he was thrown from the seat directly under the rake as it overturned, being dragged some distance before he was released.

May Hold School in Parish Hall

Board Contemplates Temporary Use of Auditorium for the Class Purposes

Plans are being considered by members of the school board for temporary occupation of the parish hall for school purposes. A proposal was recently made by the vestry of the Episcopal church with a view to having the room prepared to be used for class purposes, and if proper equipment can be obtained it is quite probable that the auditorium will be devoted to school uses during daylight hours.

RETURNS FROM EAST

Mrs. E. J. Ostrander returned yesterday from La Porte, Ind., where she was called by the death of her sister, Mrs. Dingler, formerly of Twin Falls.

TWIN FALLS DISTRICT FEELS FURY OF RAGING STORM KING

Today's Reports Indicate Good Rains, Accompanied by Heavy Electrical Flashes, Visited Entire Section Last Night—Communication Interrupted

Rain, lots of it, fell over practically the entire Twin Falls country last night. The storm is said to have been general in this section, but heavier in some spots than in others. Reports coming from Payson today tell of various amounts of precipitation, from half inch to two inches.

The section immediately northeast of town appears to have been most lightly hit by the storm king. To the extreme north rain was abundant, while from the south and west came some reports of excessively violent storms.

Bull got good rains yesterday evening and during the night, the same storm clouds passing over Flinor. The entire north side is said to have fallen more than rain, but there was more precipitation last night.

PREVENTION OF FIRES SUBJECT FOR PUPILS

Bureau Expert of San Francisco Delivers Interesting Addresses

Pupils of the Twin Falls schools today are hearing talks made by J. W. Schively, of San Francisco, public agent for the Pacific Fire Prevention bureau, in a campaign now being conducted through the schools of Idaho to bring about an appreciation of the extent of fire losses and familiarity with means of fire prevention. Mr. Schively was for 11 years insurance commissioner for the state of Washington. He is now on duty on his present trip through Idaho by O. H. Barber, state commissioner of immigration, labor and statistics, who, at the request of Governor Davis, is making arrangements for the speaker at each town visited.

Fire losses in Idaho have increased 60 per cent since the close of the war, Mr. Barber stated. "Under the statistics," he is making arrangements for the speaker at each town visited. Fire losses in Idaho have increased 60 per cent since the close of the war when we were exercising vigilance in all things, and then jumped to and beyond normal when hostilities ceased.

As a result of a campaign through the schools similar to the one now being conducted by Mr. Schively in Idaho, it is stated, fire losses in the city of Portland dropped from \$1,800,000 in 1911 to \$280,000 in 1918.

NORTH SIDE PLANNING FOR PERMANENT FAIR

First Segregation Exposition Succeeds, Better Things Contemplated

Returning from Eden, where yesterday afternoon they attended the First Segregation Fair, county commissioners and Frank L. Stephan, district attorney, have reported to a most excellent showing, all things considered. They tell of plans already in the making for playing the Eden fair on a permanent basis.

"It is not a big fair, but for quality of exhibits it can scarcely be beaten," said Mr. Stephan this morning. He told of excellent livestock, poultry, fruit and vegetables on display, and a domestic department, containing all manner of handwork that was hard to rival.

The Eden fair closes tonight and is held in a temporary enclosure just on the edge of town. Attendance was gratifying throughout and is the primary cause of the directors' laying their plans now for the permanency of the institution.

GET PURIFIED WATER TODAY

Filtration Plant Started Full Blast Last Midnight—Continuous Operation

Twin Falls residents today got their first taste of filtered water. Last midnight the new filtration plant of the city waterworks was opened for operation, and since then every drop of water passing into the city supply mains is filtered.

"The plan runs like charm," said Superintendent J. J. Pilgerim this morning. Mr. Pilgerim was at the plant all of last night superintending operations. No filtered water went in to the city supply pipes yesterday. He explains it will probably be 24 hours before the mains are free of the former water supply, but after that time there should be nothing but filtered water flowing. Clearing of the mains of the old water will take longer now because of reduction of lawn and street watering following the rain storm.

The filtration plant is being operated on three shifts, giving continuous service. J. E. Byers is in charge.

DIVERT WATER NORTH

Water for domestic purposes was this morning diverted from the southern section of the Twin Falls district to relieve the want on the north side. The water was diverted at the Milner dam and will continue to flow to the north side for a period of three days.

APPEAL CASE TO BE HEARD

Canal Company Officials Go To Boise for Dammon Injunction Case

J. C. Wheelon, general manager, and W. O. Taylor, secretary of the Twin Falls Canal company, leave today for Boise to attend a hearing of an injunction suit appealed from the Twin Falls district court.

The case in question is that of the canal company against Edwin Dammon, who last summer was subject to an injunction to restrain him from taking water to which the canal company claimed title. The injunction, according to a later hearing, was violated, and the local court assessed a fine of \$100, which was paid. The case was then appealed to the federal court at Boise on the plea that the Twin Falls court had no jurisdiction. It is this hearing the Twin Falls Canal company's representatives will attend. The case is expected to last several days.

NOTICE—Exhibitors are requested to make entries early for the Twin Falls County Fair, in order that space may be provided and reserved.

Last Night's Rain Was Not on the Books

AN electrical and rain storm, bringing a great volume of precipitation, called on this district last evening.

The storm was not on the weather boss' books, or else he skipped the chapter in compiling his reports yesterday.

Anyhow, it was the biggest storm of the year, bringing with it more water than any other similar climatological visitation. At the district kiosk, operated by O. C. Koch, the rainfall, by government measurement, was slightly more than half an inch of water, 53-100.

The kiosk is located six miles northeast of town, and does not accurately indicate the amount of precipitation in town. As a matter of truth, the impression prevails among local observers that the fall in town was more than one inch. This seems more nearly correct since the ground, which was powder dry before last night's rain, has saturated to a depth of about four inches.

High temperature yesterday was 84, with low 48. Predictions are for fair and cooler tonight; Thursday fair and warmer.

MURDERED GIRL NOT KNOWN HERE

Body Found on Utah Road that of Velma Green—Killing Confessed, Claim

Telephone reports reaching the office of the county sheriff late last night from Salt Lake indicate that the body of a Twin Falls girl was yesterday found on the Lincoln highway some distance from that city. Articles of clothing worn by the girl are said to have given the impression that she belonged in Twin Falls.

Late this afternoon telegrams reached Twin Falls contradicting first impressions that the girl belonged here. It has been learned that the woman is Velma Green, wife of John Green, and not belonging here. John Mallico, a Greek, who is said to have posed as the woman's husband, is declared to have confessed to the killing. He is said to be in Tooele, Utah.
