

# BRITAIN ESSAYS WORK TO SPEED UP PRODUCTION

### Commercial and Trade Circles Face Greatest Industrial Crisis in History is View Taken Through England

LONDON, (AP) (Correspondence)—Confronted by what is described as perhaps the greatest industrial and trade crisis in the history of the country, the commercial leaders of Great Britain are bending every effort to speed up production, says the American Chamber of Commerce in London. One movement undertaken to head off the difficulties foreseen is an effort to induce the workers to increase production by showing them the "dangerously critical position" in which Great Britain is now placed by the "balance of trade against her."

### Adverse Balance of Trade.

For July, the adverse balance of trade amounted to about \$380,000,000, according to figures given out by the American Chamber of Commerce. The month increased about \$150,000,000 while exports increased only about \$2,500,000.

The American Chamber points out that this discloses a serious situation and says that while it may seem very well for Great Britain to buy from America more than she sells to America, that is "fool's paradise" for Americans.

The Chamber explains that an excessive adverse balance against Great Britain would force down sterling exchange on New York and compel Great Britain to buy elsewhere, where exchange is higher.

### Only Way Out.

"The only way out of this," continues the statement of the American Chamber, "is for America to invest in British securities and to buy generously of British materials, and goods that can be used to produce goods which will give Great Britain the wherewithal to pay for her imports from the United States until she builds up her exports to pay for them. If this is done it is obvious that the United States' exports to Great Britain must drop off."

### Informing Employees.

To induce increased production, employers are endeavoring to show their employees the need of an expansion in exports which are characterized as "the life blood of British trade."

At the same time, the American Chamber says, the government itself "being severely criticized because of national extravagance. THE TIMES is scolding daily about "The Road to Ruin" under which the huge outlay of government funds is analyzed and given publicity.

# FAST WEALTH IN OIL OF MEXICO

### Stupendous Array of Figures Greeted Investigator Studying Subject

MEXICO CITY, (Correspondence of Associated Press).—A stupendous array of figures greets the investigator who attempts to ascertain how rich oil has been conveyed from Mexico during the past few years and what the profits are to those who have ventured to sink fortunes in an effort to tap the petroleum deposits which are known to underlie certain portions of the republic.

A statement recently furnished to the Associated Press by the department of commerce and industry graphically portrays the growth of this industry which now, as during the war, has its wells furnished much of the five power that took troops and planes to France and victory, even such a prominent place in the regions between Mexico and the United States.

From 1901 to 1918, inclusive, the production of crude petroleum in the republic amounted to 2,258,179,794 barrels, every year showing a consistent increase over that previous. In 1901 only 42 barrels were produced. In 1918, production reached 26,235,403 barrels, and in 1918 63,823,326 barrels.

During the year of 1918 out of 63,823,326 barrels of petroleum produced, companies (El Aguila and Huasteca) produced 37,107,104, according to statement's figures.

Export data indicates that Tampico all ports, in 1918 more than 1,012 tons of petroleum having that harbor. Approximately half amount left via Tampico.

According to the statement there 299 producing wells in Mexico.

# PRESIDENT INTERPRETS COVENANT PROVISIONS

### Declares Great Britain Cannot Outvote United States in the League

SAN FRANCISCO, (AP)—Replying in statement today to a list of questions put to him by a San Francisco League of unions organization, President Wilson declared Great Britain could not out-vote the United States in the League, that foreign governments could not under the covenant order American troops abroad; that the League would have a powerful influence toward restoration of Shantung to China; that the United States would not be obligated by article 10 to assist Great Britain in suppressing a revolt in Ireland, and that under article 11 there would be created a new forum for questions of self-determination.

# TURKS RESUME ARMENIAN WAR

### Surrender of One Province is Reported to American Organization

NEW YORK, (AP)—The Turks have resumed their attacks upon the Armenians and the very existence of a stable mesopotamia, according to a cable message received by the American committee for the independence of Armenia and made public here today. The message was sent by a representative of the Armenian republic transmitting information received from his government.

Forces of Turks, Tartars and Kurds are surrounding Armenia, the message says, and the Armenian soldiers have been forced to surrender one province.

# TRANS-PACIFIC FLIGHT PLANS ARE ANNOUNCED

### Australian Aviator to Hop Off from San Francisco on Path Through Air to Native Land

VANCOUVER, B. C., (AP)—Plans for a trans-Pacific flight from America to Australia were announced here yesterday by Captain Eric Donaldson, an Australian aviator, who arrived here Tuesday on a trans-Pacific steamship.

Donaldson intends to hop off from San Francisco and fly via the Hawaiian islands, thence to an island in the South Pacific archipelago and from there to Australia. A stop-over will be made at the tiny island of Harry Hawke in the trans-Pacific flight is the plane chosen by Captain Donaldson for the trip.

The machine, Captain Donaldson says, is now on its way to America from England and will be housed in an airframe he contemplates constructing near San Francisco. The flight, the aviator declares, will be attempted as soon as a navigator has been chosen and the necessary preparations have been completed. Captain Donaldson believes the flight will be easily made with a good engine and proper weather conditions.

# CANADIAN TRAIN HELD UP

### Masked Men Enter Mail Car and Take \$75,000 in Paper and Silver

QUEBEC, Canada, (AP)—Five masked men bound and gagged the mail clerks on the Ocean Limited Express of the Canadian National Railway near Harville early today and robbed the mail car of \$75,000 in paper and silver. The money was being shipped from Montreal to Halifax.

Shortly after midnight when the train left Harville the five masked bandits smashed in the rear door of the mail car and at the point of revolvers ordered the mail clerks to hold up their hands. The five clerks were then gagged and bound.

The bandits, seizing the bags containing the currency, jumped from the train as it slowed down in approaching St. Thomas. Posses were organized at once to search the surrounding country.

The stolen money was soldiers' pay sent to Halifax for troops who are to land there this week.

# CLEMENCEAU IN SEARCH OF REST

### French Premier Leaves Cares of Government Behind in a Trip to Country

LA TRANCHE, VENDEE, France, (Press).—Premier Clemenceau arrived here the other day in search of peace and quietness. The premier looked as if he needed rest and there was nothing suggestive of the "Tiger" as he descended from the dusty automobile which had borne him from Paris to La Tranche. He appeared old and worn and tired and heaved a sigh of relief as he sat on an old wooden bench in the shady garden of the villa Philippe, wiped the perspiration from his brow and enjoyed the ocean breeze.

The premier does not like public functions and probably the only one of the past few months, excepting those of the retirement of Alsace-Lorraine at which he did not appear bored was the Victory Day parade. He has lost touch of his good humor, however, and when asked how he had enjoyed the trip from the capital, replied: "Somewhat tiresome, but the country is so beautiful. Yesterday we visited several chateaux on the Loire. I should have enjoyed greatly having a little sleep at Nantes but the crowd, after midnight commenced to acclam and cheer me under my very windows at the Central Hotel. What a funny idea."

### Comiskey Has Four .300 Hitters; Three Among the Cincinnatians

Chicago's White Sox, leaders of the American league, top the Cincinnati Reds, National League pace makers, in club batting, but the Reds have a shade the best of it in club fielding, according to recent averages, including game of last Wednesday.

The White Sox, in 124 games, have batted for an average of 283, while the Reds, in 127 games, have a batting mark of 294. In club fielding, the Reds' mark is .873, while that of the White Sox is .869.

**Four Sox Over .300**

Four members of the White Sox who have played in twenty or more games are hitting more than .300. They are led by Eddie Murphy, star fourth hitter, who in twenty-four games has hung up a mark of .478. Joe Jackson, slugging outfielder, is hitting .382. Eddie Collins has a mark of .316 and Chick Gandil is batting .305.

For the Reds Eddie Roush is leading his mates with an average of .319. Heinie Groh is the runner up to Roush with an average of .311, and Hal Eitz, pitcher, is batting .310.

COLUMBUS, O. (AP)—One of the most important stake races of the grand circuit meeting here was decided yesterday when Direct C. Burnett won the Hartman hotel 2:11 pacing event in a hard four heat race, dropping the second heat to Eva Abbie. Eva's mile in 2:03 flat was the fastest of the race. Goldie Todd and Direct C. Burnett met today for the first time this season. Goldie was no up to best form and she never was able to get her nose ahead. The betting was heavy, many tickets being worth \$1,500 with Goldie Todd selling favorite at \$7.50. Direct C. Burnett brought \$500 at the same time.

The Horas' Review futurity for 3 year old pacers was won by John Deforest in straight heats from the favorite, Goldie King. Peter Terhill won the 2:15 trot without trouble. The 2:09 pace went to Peter Elliott.

## MONTANA GRID TEAM ITS BEST

### Outlook for Bruins' Championship Football Eleven Was Never So Good

MISSOULA, MONT. (AP)—The best football season in the history of the university of Montana is expected to be open here with the assembly of 35 athletes for the first practice September 15. According to the information received by Physical Director W. E. Schreiber among the men who appear at that time will be twelve winners of the university's block letter for football.

Coach B. W. Bierman, captain and half back of the Minnesota Gophers of 1915, will direct the work of the local gridiron warriors this year. Schreiber is a Lincoln varsity football man. Among the athletes who are to lead the molefinks for the coming season are Frank Dreta, regarded as one of the fastest players in the west and a star in the famous 5 to 6 game played between the University of Montana and Stanford in 1915; Van Horn, Dalber, Jack Layton, the captain-elect; "Gussie" Scherck, "Butter" Driscoll, the quarterback of the 1917 season, Sullivan, Donhue, Lamb, Harris Knight, Leiby and Carver.

In addition to these men a number of excellent prospects are seen in the men who have entered in the last two years of the university not engaging in football in 1918.

## COMMITTEE IS READY TO DEPOSE HERRMANN

### Baseball Magnates Ready to Put New Man in Chairmanship

CHICAGO, (AP)—The joint committee from the American and National leagues appointed recently in New York to select a successor to Garry Herrmann, owner of the Cincinnati Nationals, chairman of the national commission, had before them names of four men, and the statement of Mr. Herrmann that he would step out as soon as a man to replace him had been chosen. The four names were not announced. It was stated, however, that in a few days another meeting will be held and the committee's choice made public.

Disatisfaction with Mr. Herrmann's tenure of the chairmanship, as expressed by President Baker of the Philadelphia Nationals, hinges about him being owner of a club of the two leagues. It is maintained he should not sit as a judge on the commission when his club will be a contestant in the world series.

ALL TRUE, PROVIDED

President Wilson's replies to a list of questions put to him by a San Francisco league of nations organization, made public today, are interesting not because they offer any new ideas or interpretations with respect to the covenant and its operation, but because they set forth only the best side of the case for the proposed league.

The president declares that Great Britain could not out-vote the United States in the league. The truth of this assertion is evident to all who have intelligently read the covenant; provided the question at issue were confined to the action of that body of the league organization known as the council, which is composed of one representative of each of nine powers, five of whom have been named; and provided further, that the United States did not appear to be one of the parties to the dispute.

The president advises further that the United States would not be obligated by article 10 to aid Great Britain in suppressing a revolt in Ireland, touching upon the question which undoubtedly of greatest interest to the American people, the president says that foreign governments could not under the covenant order American troops abroad. And these assertions, he says, are true.

It best or worst—foreign governments affiliated with the league could not "advise" that American troops be sent abroad and our obligation under the covenant to comply with this advice, as the president has heretofore claimed, would be merely a "moral" one, which might or might not be cast depending upon our regard for integrity and the value of the league.

Furthermore, as in the case of the five voting power of powers affiliated with the league, there could be no advice issued so long as the council dealt with the matter and so long as we were not party to the dispute.

The president's replies to the list of questions put to him today will prove very convincing to those who are already irrevocably committed to the side of the covenant as it stands. They will carry no weight at all as regards those who are appreciative of provisions of the treaty as it stands who are not altogether satisfied. It is a desirable thing for this country.

OPPORTUNITY FOR SERVICE... A solution of one of the crying needs with which the farmer is beset, has been suggested not by a theorist but by at least one of the farmers

ers who has looked around his condition for a way out.

It is not to be considered that the government would send its agents to one man to tell him to grow so many acres of potatoes and to another to advise growing so much wheat. The burden of responsibility imposed by such procedure would be too great even for the government to bear, and it is extremely doubtful if the farmer himself would take kindly to the proposal.

All he wants is an even break.

The farmer is the greatest gambler in the world... He plays in a game not only against the uncertain forces of nature but against varying conditions of supply and demand whose exact status is to him a more or less veiled mystery, and for the most part, he has at stake not a few more or less dollars but the difference between a living and bankruptcy.

Alongside the farmer, the speculator in the stock exchange is a piker. Where the farmer is ignorant of conditions of supply and demand for his product, the speculator has at hand the most accurate information humanly attainable on this subject.

At least this information should be shared with the farmer, and since it is not to be expected that the speculator is going to volunteer such an abatement, it is manifestly up to the government to see that this is done.

This is what the farmer means when he asks the government to tell him what to grow.

Something along this line was done through an agency established some years ago known as the international institute of agriculture of which an American, the late David Lubin, was the head for a long time.

The work of this institute was good as far as it went, but it didn't go far enough and it is an exceptional farmer even now who knows of the existence of such an institution.

Work of this nature is less than usual—it is a positive menace—so long as the information it gets and disseminates does not reach the hands of the farmer who is entitled to it most of all.

Through the farm bureau organization the government possesses the machinery through which this work might be done most advantageously.

A wide field of usefulness lies in this direction.

"What's in a Name?" The French island of Reunion has changed its name four times in 50 years. In 1763 it was Bourbon, as it had been for a century and a half, but the convention changed it to Reunion. Under the empire it became Isle Bourbon; at the Restoration it reverted to Bourbon. Finally, in 1848, it became Reunion once more.

Grain and Provisions... CHICAGO, (AP)—Nervousness over the labor situation, especially the steel strike, resulted in an irregular opening today in the corn market.

Speculators who took a bearish view of the likelihood of a steel strike found difficulty later in covering their sales. Scarcity of rural offerings tended to lift the market after every dip.

Scarcity of arrivals gave independence to the market. After opening 1-9 off to 3-8 advance, including December at 68 to 68 1-8, the market scored a substantial advance.

High School News

Wednesday's assembly program, the first of the year, included a short session of selections by the band and an address, "Prevention of Fire," by J. W. Schively of the Fire Prevention Bureau of the Pacific Northwest.

The season's first football game will probably be played a week from today with the local high school eleven. The scene of the encounter has not yet been determined, but will more than likely be at the local stadium.

Class organization will take place next week, with election of officers and students to the student executive being the chief feature.

Social Notes

Miss Amy Bowen was hostess at dinner served at her home at 7:30 last night. Pink and white asters, white chrysanthemums formed the table decorations. Candles were used for table illumination, these being shaded with pink covers, while pink and white streamers were festooned from the lights to the center flower basket. Place cards in pink and white were at each plate. Covers were laid for six. These present, besides the hostess, were: Misses Edna Bennochamp, Elva Bowen, Meara, Perry Knuffman, Chillon Holliday and William Rose.

JEWELS STOLEN HERE ARE WELL SCATTERED

Jack McGinnis Tells of Disposal of Robinson Gems—Some Are Lost

Shirley A. N. Sprague has a letter from the Pinkerton Detective Agency in Baltimore, telling some interesting details concerning Jack McGinnis's disposal of the jewels he stole from the Robinson residence in Twin Falls some weeks ago.

According to this letter McGinnis is not able to give full information relating to the disposal he made of all the jewels, but it appears that pawn shops in various parts of the country got most of them. He denies having stolen a certain small diamond setting and also claims to have lost an emerald ring, to which he attached little value. McGinnis says he had the band of one diamond ring cut off at Ogden, and then had the set made into a scarf pin, which he wore until it was pawned in Baltimore.

So many pawnbrokers were patronized by McGinnis, and so many false names entered for these transactions that the Baltimore prisoner says he cannot remember all of the names he gave, and in many instances does not recall the name of the broking firm.

# DEPORTATION IS PRESCRIBED FOR EMMA GOLDMAN

### Warrant is Served at Jefferson City Penitentiary Where the Woman Anarchist is Finishing Two Years' Term

ST. LOUIS, (AP)—It became known today that a warrant for the deportation of Emma Goldman was served on her last Friday in the Jefferson City penitentiary where she has finished serving a one-year sentence for attempting obstruction of the army draft. Her release from the penitentiary is set for September 27.

#### Out of Jail and in Again

It was announced that the warrant had been served by a deputy from the St. Louis immigration office and that Miss Goldman will be arrested as soon as she leaves prison and unless she can provide a \$15,000 bond she will be placed in jail to await a deportation hearing.

When Miss Goldman entered the prison at Jefferson City in July 1917, she said she was born in Russia and in case the deportation is ordered the immigration authorities were under the impression that Russia would be the country to which she would be deported.

#### Claims Citizenship

Miss Goldman said upon entering the prison that she was 48 years old and was an American citizen. She said she had been in the United States for 31 years and that her father, now dead, was a naturalized American citizen.

Charles A. Lich, deputy inspector of the St. Louis immigration office, said today that he was not ready to announce the details of the government's case against Miss Goldman, but that he was confident of proving to the points essential to deportation, namely, that Miss Goldman is an alien, and that she is an anarchist, and therefore an undesirable alien.

She is a native of Russia, he said, and has never been naturalized in this country.

#### GOLDMAN AND BERKMAN BOTH TO BE RE-ARRESTED

NEW YORK, (AP)—The department of labor has notified Harry Weisberger, counsel for Emma Goldman and Alexander Berkman, serving prison sentences for obstructing the draft, that upon their release they will be re-arrested immediately and held for deportation hearings. The term of Miss Goldman, who is held in Jefferson City, Mo., expires September 27, and that of Berkman, who is confined in the federal penitentiary in Atlanta, Ga., October 5.

#### ITALY THROWS GORDON ABOUT CITY OF FIUME

(Continued from page one) previous communication on the subject. The government, declared Signor Nitti, would support General Badoglio, who was on the scene in dealing, as he believed best with the delicate task. He appealed to the army to maintain its discipline and not to undo the work it had previously accomplished.

#### D'ANNUNZIO APPEALS TO ALL FRIENDS OF FREEDOM

ROME, (AP)—"I, a war volunteer and a mutilated fighter, appeal to Hugo's Friends to Milton's England and Lincoln's America, and, speaking as an interpreter of the valorous sentiments of the whole Italian people, proclamation of the city of Fiume to Italy," said Captain Gabriele d'Annunzio, speaking to an immense throng the day his "irregular" forces marched into Fiume, according to reports reaching this city.

#### Buffets From Fever

Captain d'Annunzio who is reported to have been quite ill and suffering a high fever when he reached Fiume, went to the commander's palace being borne along by a crowd that seemed crazed with patriotic fervor. After entering the palace he was asked to speak, and at once went to the balcony overlooking the crowd.

"I am so ill that I will say but a few words," he began, with a simple gesture. "In the present mail, cowardly world there is one pure thing—our love for Fiume. Fiume stands like a lighthouse over the sea of degradation. The people of Fiume, do you confirm your vote of October 30, last, when you decided for annexation to Italy?"

#### Unfurled Tri-Color

Captain d'Annunzio then unfurled the tri-colored flag of Trieste, which he bore with him throughout the war and which was consecrated in Rome, pressing it to his lips while the people responded with wild cheers. Captain d'Annunzio has a force of more than ten thousand men, which has occupied the line separating Fiume from Jugoslav territory. This line has been strongly fortified.

# MURDERER'S VICTIM WAS TWIN FALLS GIRL

### Body Found Near Salt Lake is Identified as that of Mrs. Fred Atkins

The woman first identified as Yelma Green, found murdered on the Lincoln highway near Tooele, Utah, is now positively identified as Mrs. Fred Atkins of Twin Falls, is the statement made this morning by Sheriff A. N. Sprague. The woman left Twin Falls late last week for a visit in Salt Lake, taking two children, aged 5 and 3 respectively, with her.

The dead woman is the wife of a teamster, Fred Atkins, employed by William Harkins, a local contractor. The pair are said to have had some domestic difficulties. She was the daughter of Mrs. Fred Woods, of 317 Third street west. The Atkins' lived at 600 Second street south.

Believing that news reports of the murder of a woman believed to be Yelma Green, near Salt Lake, had some connection with her daughter, Mrs. Woods yesterday afternoon called upon Sheriff Sprague in an effort to get definite details of the tragedy and, if possible, procure positive identification of the dead woman. While she was conversing with the sheriff, she later received a long distance call from a man named Bush, living at 518 Gale street, Salt Lake, where Mrs. Atkins had been visiting, urging the officer to get in touch with Mrs. Woods and inform her of the death of her daughter. This statement dissolved the mystery and fixed positive identification.

Mrs. Woods has explained that her daughter had a man friend named Green in Salt Lake, and when she read first accounts of the tragedy became impressed that Green was responsible for her daughter's death. Green is said to have confessed to shooting the woman while they were out driving, then throwing the body to the side of the highway.

Whether the body will be brought here for burial has not yet been definitely determined.

# Johnson Summoned From Speaking Trip

WASHINGTON, (AP)—After a conference with republican Leader Lodge late today Senator Borah, of Idaho, announced that he had telegraphed Senator Johnson, of California, to return immediately to Washington so that the senate might vote next week on his proposed amendment to the league of nations covenant to organize the United States and Great Britain and the United States.

# IRON AND STEEL WORKERS HEAD, SAY STRIKE

(Continued from page one) representatives in conference. This the employes have decided to do Monday morning, September 22.

#### Situation Deplored

"It is unfortunate that the employes are compelled to resort to a strike in order to return immediately to the selected representatives to prevent grievances. But as there is no other way, the proof, in the form of a strike will effectually remove all doubt in Judge Gary's mind.

"In the second place, Judge Gary sets up the question of the 'closed shop' which has absolutely no basis whatsoever in the present controversy. It is simply dragged in here by Judge Gary as a bugaboo to becloud the real issue.

"There is one and only one question at issue and that is the question of a conference. The employes have exhausted every avenue of approach to the corporation of the purpose of securing a conference and every avenue has been closed to them. Their last and only hope is to strike and now the employes declare that they will cease work on next Monday morning until such time as the corporation will meet their representatives in conference for the purpose of establishing humanistic and reasonable methods of dealing with the very problems which affect their lives, their homes, and their future.

### Difficulty with Withdrawal of German Troops Complicates the Problem

PARIS, (AP)—The situation in the Baltic region which has been complicated by various factors, notably, the withdrawal of General von Goltz's German troops, desired by the allies, was taken up by the supreme council at its session today.

The council met at the ministry of foreign affairs. There were present Stephen Pichon, the French foreign minister; Sir Eyre Crowe, the new British representative on the council; Frank L. Polk, American undersecretary of state; Viterio Scialoja, representing Italy and Baron Matsui, for Japan. Marshal Koch also attended the session.

Regarding the Baltic situation the council heard the report of Major General Sir Hubert Gough, of the British army, allied military representative in the region.

Before the session of the council Premier Clemenceau was in conference at the foreign office with Under-Secretary Polk and Signor Scialoja.

### TWIN FALLS COUNTRY IS GIVEN MUCH ATTENTION

#### New West Magazine Issues a Bruneau Number, Featuring Idaho Attractions

The "Bruneau" number of The New West Magazine which has appeared after some delay caused by a pressmen's strike in Salt Lake City, is perhaps the most interesting to the people of the Twin Falls country, of any number of the magazine since its headquarters was removed from Twin Falls four years ago.

The "five reasons why" this number should be read, as given in a display advertisement are alone sufficient to cause the Twin Falls citizens to want it, but there are also about a dozen pages devoted to the Twin Falls country alone, together with a report on the crops produced this year. Among the illustrations are the proposed Elks club, St. Edwards church, the new high school and a panorama of the Hansen bridge, covering two pages. In the story, "Jimmy in the Sawtooth Mountains," by Helen Taylor, Blue Lakes and Shoshone falls are given extensive mention, and Jimmy takes a ride up the river from Shoshone falls to Twin Falls. "Ankly," the ferryman, The "Home maker's" tour conducted by the farm bureau last month, which was accompanied by Mrs. Robert W. Spangler, editor of the "Western Women" department, and Mrs. Helen W. Taylor, editor of the "Homemaking" department, is featured in a lengthy illustrated article.

### Markets Bulletin To Be Given Free

Publication Issued by State Agricultural Department for Farmers

The Idaho Department of Agriculture at Boise is now issuing a weekly market bulletin, covering all phases of markets, as these affect the producers of this state. The bulletin is controlled by the bureau of markets and is published under authority of the commissioner of agriculture.

The primary purpose of the paper is to provide such information as will be of advantage to all Idahoans in general, but is supplied as a chief aid to the producer in handling his crops. The director in charge is a young man who has sent out a coupon with the last copy of the bulletin which is to be signed and mailed back to the bureau by such persons as wish to have their name placed on the circulation list. The weekly Markets Bulletin is supplied free of cost.

FUGITIVE BREAKS OUT JAIL

Escaped Enemy Alien is Confined for Short Time at Helper, Utah. SALT LAKE CITY, Utah, (AP)-One of the thirteen enemy aliens who have eluded officers since their sensational break from the war prison barracks at Fort Douglas near here Monday morning, was taken at Helper, Utah, early today but escaped again from the Helper jail while officers there were awaiting the arrival of a federal officer. Only four of the original 17 who dug their way from the prison compound have been captured.

Americans in Seat of Kolchak Government Say Bolshevik 200 Miles Away

OMSK, SIBERIA: (AP)-The "more than thirty Americans who still are in Omsk expressed surprise Tuesday when they learned that reports had been widely circulated abroad that Omsk had been evacuated. Ernest W. Harris was advised that a telegram had been received from the United States asking that the Russian consulate locate him, it evidently being assumed that he had left his post of consul at Omsk.

Tuesday's news indicating a further advance by the anti-Bolshevik troops west of Petropavlovsk. Along the Tobolsk-Tiumen railway, the Siberians for several days have ground but at present they are holding ten miles west of Ishim. The rails have occupied Tobolsk.

# SELL POOR BEEF IN TWIN FALLS

Inspector Says Cow Meat Bulk of Supply, so Municipal Council is Told

Making an oral report to the board of health inspectors last night, statements attributed to Dr. W. A. Faloon, federal inspector connected with the bureau of animal industry in this section, W. A. Minnick, city clerk, made the interesting and somewhat startling announcement that Twin Falls meat dealers sell little, other than cow beef over the retail blocks.

The announcement was made in connection with certain recommendations made to the municipal board on questions pertaining to the sale of meat, milk and other commodities distributed here for human consumption. The council has requested Dr. Faloon to make the regular report September 19 to offer his recommendations in person.

That cows are particularly susceptible to tubercular affections, is one of the statements attributed to the bureau representative. He pointed out the danger of prevailing against possibility of distribution of tuberculous contaminated meat that Dr. Faloon is said to have been most urgent in requesting close inspection be had.

# STANDARD OIL COMING HERE

# PLUMBING INSPECTOR ENGAGES PIPE MANUFACTURER IN DEBATE

A. W. Murray and Representative of Sewer Tile Firm of Salt Lake, Have Long and Lively Forensic Tilt at Council Session—No Decision

Injecting a show of animation into an otherwise spiritless and uninteresting meeting of the town administration last night, H. S. Smith, assistant manager of the Utah Fire Clay company of Salt Lake, and A. W. Murray, plumbing inspector and sanitation officer, engaged in a lively forensic tilt which lasted the better part of an hour. The bout was declared a draw at the conclusion.

The argumentative engagement revolved over the qualities of certain types of sewer pipe, the company representative claiming that his product was equally as good as that of a competitor even though it bore no gloss—coating outside or glazed finish on the interior. He contended that in all respects, with the exception of contents and lustrated exterior his goods contained all the elements required in standard specifications covering a first class job of sewer building.

Point of Contention. The sample length of pipe submitted by Mr. Smith presented a dulled finish, to which the city engineer has heretofore objected, and when at a prior date caused rejection of the Utah company's product. The plumbing inspector analytically explained that unless there is a glazed finish clay pipe cannot be entirely water or air tight. He said examination of the Utah pipe under strong magnifying glasses had proved it to be porous, and on that account he could not personally recommend it for sewer purposes.

Change Wiring Ordinance. Another more or less important matter to which the attention of the council was directed was that of need for changes in the present ordinance covering methods to be employed in the electrical wiring of large structures in this city. The old ordinance failed to meet all the demands, and it has been found necessary to reconstruct certain clauses. These principally cover the manner of installation, requiring that conduits shall be used in all large structures, such as churches, school houses, apartments, hotels and banks.

It was ordered that the city engineer be granted more time in which to

complete specifications of the paving improvement district now in contemplation. He will have until November 3 to present these.

Council President E. J. Ostrander urged postponement of work until spring, when he stated, the royalty on bituminous paving material will expire, thus permitting a saving of about \$14,000 on the entire contract.

Murray Heard From. A communication from R. M. Murray, bridge engineer, was read, advising that plans and specifications for the Shoshone street bridge over Rock Creek had been mailed and should reach the city clerk's office not later than today. On the strength of this assurance bids will be called for to be read October 3.

W. G. Reed, building contractor, appeared with an application for right to use a part of Third avenue north, between Shoshone and Second street for the purpose of storing building material during the construction of a large building. The permit was granted covering half the street.

FRATERNAL MEETING CALLED. The Royal Neighbors of America will hold their next regular meeting in Odd Fellows hall, tomorrow, Friday evening, beginning at 8 o'clock. All members are urged to attend.

RURAL FEDERATION TO MEET. The Rural Federation of Clubs will hold its regular business meeting on Saturday afternoon, September 20, at 2:30, at the former city office. It is expected that every club will be represented as there will be important business to be transacted.

# Sun's Fervent Rays Cheering to Beer Lungs

CONCERN that spread among beer crop growers after the storm of Tuesday night, was dispelled late yesterday and today when the sun shone with sufficient fervor to dry out beans sufficiently to give warrant that there was small possibility of damage through mold.

When the big rain came beans were in just that state which is neither "too nor green," and most susceptible to damage through excessive moisture. They are said to be safe now, at least until more rain comes.

Comforting the growers of beans somewhat the weather foreman predicts "fair and warmer" for tomorrow, but he does not add a note of cheer for the grower of tomatoes and like susceptible plants when he tells of cooler for tonight.

Yesterday's high temperature was comfortably low, being 63 degrees, while the low for the preceding 24 hours was 49. No rain yesterday.

# IDAHO STATE BANK HAS ADDITION TO PERSONNEL

C. N. Beatty Assumes Position of Vice President of Local Institution

Clarence N. Beatty, formerly assistant cashier of the First National bank here today assumes the position of vice president of the Idaho State bank. Mr. Beatty will be the active head of the institution, Leo P. Brackon continuing to serve as cashier.

Mr. Beatty has been a resident of Twin Falls since the latter part of 1908. He joined the First National bank in 1909 and continued with that institution until January first of this year. Since the severance of this connection Mr. Beatty has interested himself in sheep with excellent success and will continue to care for thousands of other outside interests.

He is one of the best known business men in this part of the state and is exceptionally well posted on commercial and industrial conditions in Southern Idaho.

# CHOLERA SWEEPS HERDS NEAR AMERICAN FALLS

Hogs Die Fast Before Malady is Reported to Authorities, Official Says

Out of a herd of 130 fine hogs one farmer near American Falls has already lost 26; 38 more are sure to die, and there is every chance of other fatalities in his herd before cholera, which has existed some days, is stamped out.

This is the report brought back by Dr. W. A. Sullivan, head of the local department of animal industry giving special attention to the eradication of hog cholera.

Hog herds numbering altogether 250 animals, on three farms near American Falls, were affected when I reached there early this week. Of this total number 50 were dead when I got there. Many others will die before the disease is eradicated," says the state veterinarian.

Doctor Sullivan says the disease had scourged three farms before his attention was called to its existence. A large proportion of the swine were affected when he reached the scene, some so far along that vaccination was useless. In the herd where the malady started 104 swine were inoculated. Of this number 67 were slightly infected. At least 15 of those

# SERVICE MEN INVITED TO BE GUESTS OF FAIR

District Farmers Arrange Day for Army and Navy at the Filer Exposition

Through the efforts of farmers of the Filer district service men will be provided an opportunity to attend the Filer exposition and enjoy all of its entertainment and educational advantages without cost. Soldiers, sailors and marines may attend the fair on Thursday, October 2, as the guests of the farmers who, at a recent meeting held in Filer, decided to take over the project of entrance to the grounds and entertainment throughout the day themselves and defray all the expense that might be incurred.

Announcement to this effect was made yesterday by D. F. Detweiler, it is proposed to have a delegation at the main entrance to the fair grounds on the day set apart for the entertainment of the army and navy men, this committee to take care of the guests immediately upon arrival.
