AMERICANS ARE KEEPING ORDER FOR DALMATIA

Role of Policemen Is Assigned to Marines or Bluejackets Intervening Between Italians and Jugo-Slavs

FIUME ISSUE IS TO BE LAID BEFORE ITALIANS

Inflamed Condition in Adriatic Region and Dissolution of Parliament at Rome Gives Faris Council Concern

ROME, (AP)—American marines or bluejackets are maintaining order in the city of Spalato, Dalmatia, where Rear Admiral Phillip Andrews is at command of the insurgent garrison of the city, according to reports reaching this city. It is indicated in reports that feeling is running high in Spalato and that the Americans have been forced to intervene between the Italians and Jugo-Slavs.

The Fiume issue will be laid before the Italian people on November 16, according to reports from Rome, on which the government wishes to obtain a mandate. The parliament was dissolved yesterday and will reassemble in December.

D'Annunzio Recognizes War Telegraphic advices from Fiume report that Gabriele D'Annunzio in command of the insurgent garrison of the city, has stated that he considered himself in a state of war with Jugo-Slavs. His declaration was made last night in a public mission and demanded that D'Annunzio restore telegraphic communication with Agram, the Croatian capital, which D'Annunzio had interrupted.

ITALIAN REQUESTS AMERICAN MARINES ACTION AT TRAU

PARIS, (AP)—Landing of American marines at Trau by Rear Admiral Andrews was not directed by the supreme council here, according to the American peace delegation. It was explained that the marines entered Trau and it was feared a clash might occur between the Italians and the Serbians, the Italian admiral on the scene appealed to the American admiral to intervene for the maintenance of peace. This, it was added, Rear Admiral Andrews did as part of his regular duties as a peace officer in the Adriatic and without any instructions from Paris.

War in Balkans Looms The inflamed conditions in the Adriatic region are causing concern in the Balkans.

GRAND JURY TO PROBE RIOTING

Several Alleged Offenders in Custody in Connection with Omaha Disorders

OMAHA, (AP)—Grand jury investigation of a riot in Omaha, Neb., responsible for race rioting here last Sunday, will be started within a short time.

Judges of the district court here decried today to call a special grand jury to make the probe. At the same time, it was announced by R. T. Coffey, chief deputy county attorney, who has been investigating the riot, that men and boys arrested Sunday in connection with the rioting would be held by police court for the grand jury already at large men and boys were taken into custody on the day the riot occurred.

Federal Troops on Scene More than 1000 federal soldiers from camps Grant, Hill, Funston, Kan., Dodge, Iowa, and Fort Crook and Omaha, Neb., are being sent to Omaha from Camp Grant, and 350 men and 11 officers from Camp Funston arrived here today by passenger car.

Several hundred federal troops are already at large men and boys were taken into custody on the day the riot occurred. Governor Samuel R. McKelvie, who arrived here early today, issued a statement today declaring that "one who is acquainted with conditions in Omaha during the past few months could not be very much surprised at what has happened. It has been a matter of every day occurrence," the statement continued, "that those who have named to do with the rioting and public opinion have constantly engaged in petty bickering and a criticism of the local officials which could not result in anything but a stir of the law. I deem it of utmost importance that the good people of Omaha should at once organize all citizens and join in the activities of those who are constantly attempting to bring reproach upon public officials and join in a common support of those who have been duly elected to responsible public positions."

Imperial Crown Taken Off From New German Eagle

BERLIN, (Correspondence of the Associated Press)—Germany has now a new emblem, from which the Hohenzollern arms have been eliminated. It consists of a black one-headed eagle on a golden yellow field. The "new" eagle, which has shed its erstwhile imperial crown and collar in a rampant bird and would look adequate enough in its sitting posture but for the color of its beak, tongue and talons, which are red.

BRITAIN MAKES HEADWAY WITH RAILS STRIKE

Service Improving with More Trains Running, the Official Communique Says; Derailment Attempts Unsuccessful

LONDON, (AP)—Great Britain is making headway in dealing with the national strike of her railway men, the government reported today. The official communique from Downing Street announced that the railway service was improving, more trains having been run than called for under the schedules prepared by the companies yesterday. This was in line with forecasts that restoration of conditions in this respect might be expected today.

Prepared for Sabotage Attempts to derail trains, which occurred yesterday, were referred to by the Downing Street statement as "some minor acts of sabotage." These, it was explained, had caused no loss of life and the necessary steps had been taken to deal with this phase of the situation.

Meanwhile the distribution of food is proceeding satisfactorily, the authorities declared. The activities of the strikers, however, are pressing on, and it is expected that the strikers will be unable to carry the struggle through. James Henry Thomas, secretary of the National Union of Railway Men, indicated that the casting of fire from other labor bodies was contemplated.

Trams and Buses May Stop It is anticipated in government circles that the service of street cars and omnibuses will cease today. The order stopping service is it possible may be issued at any moment.

IDAHO WEATHER Tonight and Wednesday probably rain; warmer north portion tonight.

COSSACKS MUST APOLOGIZE FOR TAKING SOLDIER

Commander of American Forces in Siberia Takes Action in Case of Alleged Mistreatment of Yanks

ACCUSES JAPANESE OF COMPLICITY IN AFFAIR

Incident Considered Most Serious Since Allies Landed in Russia Referred to State Department

VLADIVOSTOK, (AP)—Major General William S. Graves, commander of American forces in Siberia, has demanded an apology from General Rozanoff, in command of Russian troops in Primorje province, for the arrest of Captain L. P. Johns of the Twenty-seventh regiment and Corporal Benjamin Sperling of the Thirty-first and the flogging of the latter by Cossacks, commanded by General Kalnikoff. An investigation of the conduct of a Japanese officer at Iman, the place where the arrests took place has also been begun by the Japanese high command. The incident which occurred September 5, is considered one of the most serious since the allies landed in Siberia.

Holds Cossacks Hostages The two Americans, in uniform and on official business went to Iman, a town 170 miles north of this city, on the section of the railroad guarded by Chinese troops, passports being unnecessary by agreement between the allies. While they were at a hotel there, a detachment of Cossacks entered and arrested the Americans, claiming they were not provided with identification papers. Captain Johns managed to escape, and taking a moving train, went to Spassko, where he reported to the American officer in command. A detachment of 150 Americans from the Twenty-seventh regiment at once entered and went to Iman to effect Sperling's release and on arriving there took three Cossacks as hostages.

Japanese Major Intercedes They found General Kalnikoff's camp entrenched near the station and were prepared to use force against them when a Japanese major interceded for the Cossacks, stating, it is alleged, that in the event of hostilities between the Americans and Cossacks, the Japanese troops at Iman would side with the latter. He at last told the Americans that Sperling had been taken to Khabarovsk.

GERMANS RECALL VON DER GOLTZ FROM BALTIC AS ALLEGED THREAT OF BLOCKADE TAKES EFFECT

PARIS, (AP)—The blockade of Germany which was threatened by the allies in case the German troops of General von der Goltz were not removed from the Baltic region, will begin today, according to the Intrants. No food ships, it is stated, will be permitted to start for Germany until further orders are issued.

Vessels now on the way to German ports, however, will be permitted to proceed to their destinations.

RASLE, SWEDEN, (AP)—The efforts of General von der Goltz, "to make his troops evacuate the Baltic, having failed," says a Berlin dispatch received here today, the German government has decided to "recall him definitely."

PERFECTION OF PREPARATIONS GREET'S EXPOSITION GET-AWAY

Elaborate Program of Entries and Events, of Horse Racing and Aerial Stunts, is Complete When Gates Open on First Day of County's Greatest Fall Fair

In superlatives only can the plans for and the promise of the fourth annual Twin Falls county fair be expressed. If the exposition fails to proceed, it can be laid to the door of the management, or the board of directors, for nothing has been left undone that was possibly the doing of man. The most successful exposition southern Idaho has ever had.

This is get-away-day at the fair. Yesterday was entry day and it spelled business from early dawn to long after the evening shadows had fallen and the flowers and birds had gone to sleep. Even an ambitious rooster, strutting in an illuminated show booth, mistaking the lustrolyly diffused rays of a high power electric lamp for the light of the sun at its meridian height, stood his wings and neck to slumber some time before Secretary J. M. Markel and his harried aides de camps were able to close their books and offices and call it a day.

Wireless Attention It is such wireless attention to duty that has brought about the extraordinary promise of the biggest and best fair yet. That success is assured and that the physical effort of man can make it assured. The rest remains with the weather and the weather man.

Thousands will attend the 1919 county fair, and the fair will be a featured similar exposition in this county before," said Secretary J. M. Markel yesterday as he summed up the prospects. He declared the exhibit entries in all departments to be a considerably higher order than in the past three years, and added, too, that even the extra areas devoted this year to exhibits will accommodate the demand to its full extent.

"We could have added an much more space and been able to fill every inch of it," he declared, "but the assumption was based, he said, upon the calls that have been received for space since the areas of the fair were closed.

Entries of Class While not all the entries were in last evening there was a sufficient number to provide a pretty general idea of the character and extent of the entries will be. Livestock of all sorts poured through the gates in stately cavalcade during the late hours of the evening and past which will be assigned berths in the various buildings to which they had been allocated. There were some extra fine appearing horses and clean cattle, while there, graded among the best in the state, occupied pens in the main livestock exhibit hall.

The poultry promises to be shown in abundance this year, judging from the flocks already received. There were some of the finest grades of domestic fowls already occupying exhibit pens. The entire area is swarming with turkeys and geese, as well as ducks and guinea fowls, have been received. Today found all exhibits in place, with some judging of quality for prizes already done.

Track Is Fast That extra effort has been expended to put the grounds in general in the best of condition for the comfort and convenience of the visitors, as expected on the four days of the fair, is amply exemplified in the appearance of the roadways, walks and race tracks. The entire area is swarming with level and quite ready for the reception of visitors.

Yesterday the race track was given a real test and proved to be the best of its kind. A matched horserace was conducted, the operators at the conclusion being loud in the praise of the oval, declaring it to be the equal of any in the west and predicting some records during the present meet. The track is to be rolled and dragged before the big races are held today.

The athletic and carnival shows reached Filer early yesterday afternoon, and before sunset the company's main tent was up, and big crews were busy erecting the various structures. This company, it is said, is one of the most important festival and carnival show concerns now doing fairs and amusements in the west. The company was at Boise and is said to have proven a great entertainment power. The opening day at the fair, and though it is a generally conceded rule that the first day of such affairs is the best, the Twin Falls county fair has not been an exception. The convention

STEEL STRIKE BECOMES TEST OF ENDURANCE

Companies Prepare to Begin Wearing Down Process when Attempts on Each Side to Make Breach Fail

SENATE COMMITTEE WILL VISIT PITTSBURGH SOON

Gary Leaves for Washington to Appear Before Inquisitorial Board; Strikers' Secretary Also to Attend

PITTSBURGH, Pa., (AP)—To all appearance the steel workers strike is virtually settled down to a test of endurance. Yesterday's efforts by each side to make a breach in the ranks of the others having failed, the steel companies are now preparing to send officials, to begin a wearing down process on the side of the strikers.

Strike Leaders Confident Strike leaders today expressed confidence that the efforts of the strikers would not only remain solid but would be increased as the campaign of the army of organizers in the Pittsburgh district continues.

All steel companies that made public reports of operations today, claimed men are steadily returning to work. Tonnage, it was also claimed, is steadily mounting. No figures, however, are obtainable.

Bethlehem Reports Conflicting Union headquarters had few early reports today. The absence of information, it was said, indicated that was not much change in the situation from the strikers' standpoint. An early telegram from the east, it was claimed, indicated that the Bethlehem company was 85 per cent down and that the Bethlehem works of the same concern near Harrisburg were crippled.

Officials of the Bethlehem company, however, strongly assert that the strike has not interfered materially with their production.

NO IMPORTANT CHANGES IN CHICAGO SITUATION

CHICAGO, (AP)—There were no important changes in the steel-strike situation in Chicago today. A serious disturbance occurred at the authorities at Waukegan, Ill., denied a report that they planned to make another appeal to Governor Lowden for aid.

Rain dampened the activity of union pickets at most of the plants. At Gary, Ind., three hundred laborers went to work at the American Steel company's plant. Union labor leaders declared that this development was unimportant for the reason that the plant had been operated without skilled workmen and they added that this class was standing firm and would refuse to go back. Officials of the company, however, are operating on the basis of 25 per cent of its capacity.

There appeared to be less activity in the plant of the Illinois Steel company at East Chicago, although both sides claimed to be gaining ground.

COMMITTEE'S VISIT DEPENDENT ON DATE

PITTSBURGH, (AP)—Senator Kenyon, chairman of the senate labor committee investigating the steel strike, will visit the city of Pittsburgh, Pa., the committee hoped to visit the Pittsburgh district the latter part of this week or the first of next, depending upon the cutting on amendments to the peace treaty.

The committee requested Wm. Z. Foster, secretary of the steel workers' union, to appear before the committee in Washington Thursday morning at 10 o'clock. Mr. Foster said he would appear.

GARY GOES TO WASHINGTON TO APPEAR BEFORE BOARD

NEW YORK, (AP)—At the office of the Federal Reserve board, a statement was issued today saying that the steel strike situation showed improvement over that of yesterday. E. B. Gary, chairman of the board of directors of the United States Steel corporation, left today for Washington where he will appear tomorrow before the senate labor committee which resumes its investigation of the strike.

WORLD NEWS EVENTS

VIENNA, (AP)—Troops from the British fleet in the Black Sea have been landed at Odessa and have occupied the city, according to advices received in Budapest.

CONSTANTINOPEL, (AP)—The troops under the nationalist leader Mustafa Kemal Pasha, who recently set up a separatist government in Asia Minor, have occupied the city of Koniuh, in Southern Asia Minor, and expelled the authorities.

PARIS, (AP)—The Clemenceau government was sustained on a question of confidence in the chamber of deputies today. The premier's demand for postponement of discussion of the motion of Deputy Andre Lefevre, instructing the government to seek the adding of a rider to the Versailles treaty for the further disarmament of Germany, was agreed to by a vote of 262 to 188.

OMSK, (AP)—Coinciding with the issuance of a decree calling for the convening of a Zemstvo congress, Admiral Kolchak, head of the all-Russian government, made an appeal to the population to drop party struggles and unite around the government. He asked that people through the work of the congress to help make ready for the replacing of the military regime by one fitted to deal with peace conditions.

SENATE ASKS WILSON TO REPORT ON TRAU AFFAIR

Resolution Causes Lively Row when Hitchcock Charges Republicans with "Heckling" President

WASHINGTON, (AP)—After further sharp criticism of republicans in the senate and house today of the landing of American sailors at Trau after Italian forces had taken possession of the port, the senate adopted a resolution by Senator New, republican, Indiana, requesting President Wilson to transmit a report of the incident to the senate. The resolution caused a lively row in which Senator Hitchcock, democrat, Nebraska, charged the republicans with "heckling" President Wilson and also with deliberately filibustering to delay action on the peace treaty. Republican Leader Lodge denied there had been any filibustering and said there would be none.

SHIPYARD MEN THREATEN SUSPENSION OF LABOR

Workers' Representatives at Conference Declare Cessation of Work Follows Unless Demands are Met

WASHINGTON, (AP)—While avoiding the term strike, representatives of the unions of shipyard workers meeting with officials of the navy department today at the shipyard at the present time demands that the orders of the department and the board cancelling any wage increases after October 1 be withdrawn, asserted that there would be a "mutual suspension" of work tomorrow morning at practically all Pacific coast shipyards unless their demands were granted. The men also are asking for a 44 hour week, but Secretary Daniels said today that he had no authority under the law to grant such a week with 48 hours pay.

LIFTING OF WAR TIME PROHIBITION AWAITS PEACE TREATY RATIFICATION

WASHINGTON, (AP)—Although the war department today issued a statement that the accidents of war and the progress of demobilization are at an end, war time prohibition cannot be lifted until the ratification of the peace treaty, in the opinion of Attorney General Palmer. The prohibition law provides that it shall remain in force until after the termination of the war and the demobilization of the army. Mr. Palmer has held that the state of war does not end until the peace treaty has been ratified. President Wilson took a similar position in making the early in the war to support the war time prohibition law in order as it affected light wines and beer. The war department's statement is in connection with an assurance that officers of the regular army who are about to be returned to their normal positions must be in the army must be discharged in order to be commissioned personnel to the 100 authorized by a recent act of congress.

BORAH INVESTIGATES AGAINST MENACE TO AMERICANISM

Idaho Senator Declares Fundamental Principles Attacked from Both Top and Bottom of Society

DEPLORES LAWLESSNESS EVIDENCED IN OUTRAGE

Draws Fire from Mississipp Solon who Justifies Action of Mob in Omaha While Arguing for Nations' League

WASHINGTON, (AP)—Addressing the senate Monday in opposition to the league of nations, which he said would cause entanglement of this country in European politics, Senator Borah, republican, Idaho, declared that fundamental principles and institutions were being attacked both from the top and the bottom of society.

During his investigation, evidenced in lynching, bomb outrages and scoundrelous propaganda, Senator Borah declared that persons in responsible positions were agitating "doctrines which he regarded as inimical to American institutions."

Cites Gary's Statement

Senator Borah called attention to an alleged statement by Judge E. H. Gary, chairman of the house select committee of the United States Steel Corporation, that "the principle of Washington and Jefferson are old fashioned."

Attacking the league to enforce peace, Senator Borah said he was perfectly aware its membership included thousands of loyal and patriotic Americans, but that they were leaving it faster than they joined some months ago. He challenged anybody to cite one paragraph from the league's literature that appealed for American institutions.

Oalis Lowell by Name

Calling President Lowell, of Harvard by name, Senator Borah declared that the league was not to arouse enthusiasm for American traditions and American history. Senator Hitchcock, democrat, Nebraska, denied that Dr. Lowell was the speaker and declared his attitude was not correctly stated.

"What Dr. Lowell said is no surprise to one who has examined his books," Senator Borah replied. Senator Poindexter, republican, Washington, interrupted to say President Wilson had spoken of the declaration of independence at the Lowell address.

False Teachings Dangerous

Senator Borah declared it was possible to destroy American traditions by false teachings "as easily as by bomb and red flag."

Referring to the May day bomb outrages Senator Borah said the manner in which explosives were mailed to men prominent in public and industrial life and the concert of action directed beyond the city limits "somewhere 'in our country, there was an organized force to accomplish its ends through riots, disorder and bloodshed."

"With these disturbances," he continued, "came race riots, the like of which this country had never known in magnitude and extent."

"There were but the manifestations of the spirit underlying the situation with which we have to deal. They indicate a deep feeling on the part of a vast class of the masses who feel that the way to settle their difficulties is by taking the law into their own hands."

Refers to Omaha

Referring to the Omaha riots as "another fearful lynching in, as orderly a community as you could find in the country," Senator Borah said the manifestations of lawlessness at disregard for American institutions had not been confined to one class or one community.

"They have been one continued manifestation, from all phases and classes," he said. "It is not a mere surface indication. It is a disease deep seated. It is at war with every thing we have heretofore believed to be characteristic of American government."

"There must be an arousing of public sentiment and a feeling on the part of the people that these conditions cannot be permitted."

"While some men are digging away with pick axes at the foundations of the government, there are those in responsible places seeking to undermine and destroy the principles of our existence."

World Be Seditions

If Judge Gary's statement had been written in a "red" pamphlet and circulated by one of lesser position, Senator Borah said, it would have been challenged as sedition and subjected to his authority to prosecution under the espionage act.

"Just one month later," he continued, "Secretary Foster of the steel workers organization appeared at Judge Gary's door and advised Mr. Gary that the soviet government had taken effect."

"My idea in calling attention to the discontent and the disrespect and disregard for law and order and our established policies is that we are losing faith in our own system of government," continued Mr. Borah. "America is no longer the America we have known and loved. Why should I admit it and set about to redeem it?"

Quotes Wilson Assertion

"When our honored president in Kansas City asserted that the league of nations was greater than the American republic, he stated the issue just as it is. Those who believe in the league of nations believe the American

EMPLOYING PRINTERS IN NEW YORK FORCE ISSUE

Pressmen and Feeders Must Affiliate with International Union to Secure Employment

NEW YORK, (AP)—Employing printers operating 250 union book and job offices in New York City today forced an issue on the controversy with their pressmen and feeders over the latter's demands for a 44-hour week and a \$11 a week wage increase. The pressmen and feeders were notified that they will not be given employment tomorrow when their contracts expire unless they are affiliated with the international pressmen's union. The two local unions which have seceded from the international, have 4000 members employed in the 250 shops. In addition the employing printers' notice will affect 10,000 printers, stereotypers, electrotypes, photo engravers, binders and mailers. Officials of the local typographical union, and the international pressmen's union, attempted to devise a plan to prevent the closing of the shops.

INCREASED SALARIES FOR CLERGYMEN CONSIDERED

Meeting of Episcopal Clergymen Gives Attention to Problem of Getting Men for Field

DETROIT, MICH., (AP)—Increased salaries for the Episcopal clergy and missionary workers was to come before the council of Domestic Missionary Bishops which opened here today. The meeting is preliminary to the triennial general council of the Protestant Episcopal church of the United States which begins next week.

"At present," said Bishop Herman Page of Spokane, Wash., "salaries are so low that it is becoming difficult to obtain an adequate supply of men for these fields. Salaries of Episcopal clergymen have not been raised for three years."

Bishops attending the council represent practically every missionary district in the United States.

It is just as certain that SOME of today's ads will appeal directly to you as it is certain that some of today's news will do so.

system has failed. They believe it necessary to erect a super-government, greater and more perfect than our republic. The president has accepted that doctrine and reported it to the American people."

Referring to a statement that Secretary Daniels had stated in a speech that the league of nations "would be remembered long after the American declaration of independence and constitution are forgotten," Senator Borah continued:

"That is the thought, consciously, or unconsciously, lying back in the brains of those who are advocating this league."

Williams Essays Reply

Answering Senator Borah's Senator Williams, democrat, Mississippi, declared it was too far fetched to attempt to connect the league of nations with race riots.

Race clashes, he said, were all due to attempted outrages on white women by negroes.

"I will go in the pathways of peace as far as any man—I would be willing to arbitrate almost anything except outrages on a white woman by black or white. I would surrender him as a criminal beyond the pale to the first crowd that came to get him."

"The conduct of the criminal at Omaha deprives me of all inclination beyond the pale to the first crowd against the crowd that captured the criminal and punished the crime. Race is greater than law now and then, and protection of women transcends all law, human and divine."

"This miserable beast in Omaha paid a just debt for his crime. When it comes to violating innocent women it is no time to go to court. But here we have men pleading for law and order while helpless women are being treated by beasts as they please, and yet these same men don't want any international law."

"The senator speaks of established law in the land and yet he is unwilling to stand for established law in the world."

"Washington and Jefferson sought a just and enduring peace. That is what I seek in advocating the league of nations."

Borah Rejoinder Sharp

Senator Borah made sharp reply to Senator Williams, discussing particularly what the latter said concerning lynchings. If lynching were confined, the Idaho senator contended, to those incidents mentioned by the senator from Mississippi, the human race might be disposed to pass them by on that reason.

GOVERNOR TAKES HAND IN DEALING WITH LYNCHINGS

Three Negroes Shot to Death in Alabama Capital within Period of Twelve Hours; Another Wounded

MONTGOMERY, ALA., (AP)—Gov. Kilby intervened today in the situation growing out of the lynching here yesterday of three negroes shot to death by mobs. Judges of the circuit court and the sheriff were called into conference to determine action to be taken by the court or state officials.

A fourth negro, Ben Miller, a former soldier, was shot and wounded early today on a downtown street. He reported four white men had attempted to get him into an automobile and he was shot when he refused to go with them.

John Temple, negro, who last night shot and fatally wounded Policeman John Barbare and who was wounded by the officer, was shot to death in a hospital early today by a small band of white men. He was the third negro to die by lynch law within a period of twelve hours, Miles Pfifer and Herbert Crosby, the latter a discharged soldier, having been shot to death by a mob, about five miles from the city yesterday. Still another negro, Bird Astor, who was with Temple when Barbare was shot, was being sought by a posse and it was believed his capture would result in more mob lynchings.

Use Spanish Methods

There was no connection between the lynching of Pfifer and Crosby and the killing of Temple. The first named two, charged with crimes against white women, were taken from three deputy sheriffs by a mob of about 25 men five miles from the city. The Spanish method of execution "lay de fuge" was used. The negroes were told to run for their lives and as they started they were shot.

Police Save Falls

Last night Policeman Barbare arrested Temple, Astor and a negroess on a charge of disorderly conduct. Temple shot the officer, but not after he himself had been wounded. In the meantime Astor fled. The police to prevent possible lynching, announced that Temple and Astor were dead. Later it became known that this was only a ruse and that Temple had been taken to a hospital. A small band organized and led by a half dozen men entered the hospital, overpowered the guards and shot the negro to death as he lay in bed.

BELGIAN WAR HERO TO LEARN MINING IN U. S.

Jose Wagemans, Winner of Decorations, Takes Up Work in Arizona

SAN FRANCISCO, CAL., (AP)—When Jose Wagemans, 22 years old, stopped here recently en route to Douglas, Arizona, where he will learn mining from the ground up, he was hailed as one of the men most distinguished for personal valor among all of Belgium's valiant fighting men.

He was only a private when he was mustered out at Antwerp, August 13, but he had almost enough decorations for bravery to cover his entire chest. Among these are the Belgian military medal with six lions and five palms, indicating distinguished bravery in six great battles and meriting the cross on five separate occasions; the Keresk medal of the Battalion of Death, said to be the rarest military decoration; the Yser cross; three crosses of St. George, the Russian honor correspondent in the British Victoria Cross; the Belgian Commemorative War Cross, with the volunteer crown and eight bars, and the Belgian Medal of Victory.

Wagemans belongs to an influential Belgian family, but said he knew and liked many Americans and chose to live in the United States.

"Henceforth America is my country," he said. "Here I will make my home."

SOCIALISTS PROTEST IN CASE OF VICTOR BERGER

Adopt Resolution Declaring Effort to Unseat Milwaukee Blow at Representative Government

CHICAGO, (AP)—The resignation of Adolph Germer as national secretary was accepted at a meeting here yesterday of the executive committee of the American Socialist party, at which also was adopted a resolution characterizing the effort to unseat Victor Berger as congressman from Wisconsin as a direct blow at "representative government."

Otto Banastetter, Chicago, was chosen to succeed Germer. Under instructions from the recent national convention, a committee consisting of Morris Hillquit, James O'Neal, Victor Berger, H. A. Hoehn and Joseph E. Cohen was named to prepare a declaration of principles to be the working program for 1940.

The name of the party's official organ was changed from the "Eye Opener" to the "socialist's call."

The month commencing November 16 was set aside for a "campaign of agitation" for the freeing from prison of Eugene V. Debs, Kate Richards O'Hara and "all other class war prisoners."

BILLION DOLLAR GOLD YIELD ALASKAN SLUMP

Reduced Output of Iditarod District Attributed to Non-Operation of Dredge and Labor Shortage

NENANA, ALASKA, (AP)—Approximately one million dollars will represent the gold output of the Iditarod district this year, arrivals here from that district report. The slump in the annual yield was attributed to the fact that one of the big dredges formerly operated was idle this season.

As has been the case in all Iditarod Alaska camps, the population of the Iditarod district has shown a considerable decline. It now is estimated that not more than 400 persons remain in the district and these scattered over a large area. Demand for labor, it is said by returning miners, has been greater than the supply.

COLORADO TEAM DON'S MOLESKINS

Grizzlies Get Into Practice for the Season's Grid Activities

BOULDER, Colo., (P)—The University of Colorado started football practice last week, under the direction of Coach Joe Mills.

"Our chances of winning the early games are not very good," said Mills. "There is plenty of material—but most of it is raw."

Experienced players returning to the University of Colorado are not many. Among those counted on are: Tom Freeman, Walter Franklin, the Adams brothers, Polign, Willard, Schrepferman and Jim Brown.

GOOD CITIZENS OF TWIN FALLS 600 TEACHERS

will be your guests during Institute week, beginning

October 13th

You are kindly asked to open your homes to these visitors.

A committee of Twin Falls teachers will call upon you soon.

Today's Sporting News

BRIEF SPORT BITS

"Kid" Gleason, winner of the American league pennant, was formerly a member of the Phillies.

That, however, should not be held against him.

Cincinnati fans went wild and gave their fans a rousing blowout last Saturday.

It is still altruism that when you win you are a hero; it is different when you lose. Wait for the end of this week.

"Rabbit" Muranville, shortstop of the Boston Braves, went through the present schedule season with many a hurt. Yesterday, though, he started to play against an amateur team and fell, breaking his collarbone.

The St. Paul club, winner of the American association flag, and looked up for a championship series with the winners of the gonfalon in the Pacific Coast league, is talking.

The Saints want to set up a new set of rules governing play and, naturally, want said rules to be all against the opposing club.

Principally the St. Paul club is fearing freak deliveries such as the so-called plant, carborundum, curve, shimmy, slin, shove and submariner, and, naturally, all of which are said to be made on the coast.

Pacific Coast league managers are treating the major-league and the coaches for likely baseball talent, while the majors, for the most part, have been trying out their season's purchases during the closing week of the season.

Jack Miller, who has been a sort of straw boss to the regular manager of the Cardinals, has been sold to the Phillies.

Fats and Leans of Duhl were to have played a match game for the city pram yesterday. The game failed to come off when several of the leans reported inability to get into condition in time for the tilt.

PHILADELPHIA CHANGES JOB PORTLAND, Ore., (P)—George W. Philbrick, for three years coach of the Notre Dame University football team, is coaching the football squad this season for the Multnomah Athletic Club of Portland.

COACHING NEVADA RENO, Nev., (P)—Raymond C. Cronright, formerly of the University of Oklahoma, is coaching the football squad this year at the University of Nevada. Veterans who will appear on the gridiron for Nevada this year include Malone, Joe Hill, Burkman, Tam, James, Al and Ed Reed, Martin, Richard Bryan, Harker, Jones and John Patterson.

Just What He Needed "I used a bottle of Chamberlain's Tablets some time ago and they proved to be just what I needed," writes Mrs. Volva Hanson, Chillicothe, Mo. "They not only relieved me of indigestion but toned up my liver and rid me of headache and dizziness that I had been subject to for some time. They did me a world of good and I will always speak a good word for them."—Adv.

SOX OUTFIELDERS HAVE EDGE OVER THEIR RED OPPONENTS

Expert Analysis of Playing Abilities of World Championship Competitors Give American Leaguers a Shade in the Back Works—Better Subs, Too

CHICAGO, (P)—Collectively and individually the outfield of the Chicago White Sox and the Cincinnati Reds, which will put their prowess in the world's series, rank among the best in the major leagues and their work undoubtedly will be watched with keen interest during the championship contests.

Considered broadly, the men will form the last lines of defense for the contending teams measure up to all the requirements sought in outer defenders.

If the records made by the various men this season may be taken as an accurate criterion of their ability, the White Sox gardeners have the edge on their opponents.

The mention of such men as Felch Jackson and Liebold, veterans of the 1917 world's series against the New York Giants, coupled with those of Roush, the leading slugger of the Red aggregation, Neale, Magee and Duncan, a newcomer, is sufficient to start controversy among the fans regarding the latter part of the season. Duncan has been hitting about .255, while his fielding average has been around .902. That of Jackson has been around .971.

There should be an interesting struggle between the veteran Jackson and the White Sox and Duncan, Moran's rookie. Duncan never has been under fire in a series of this kind but his work since joining the Red aggregation has been of such a nature that he has displaced the veteran Magee, and he may give Jackson a good run. Jackson's batting has been one of the big assets of the Glenn tribe. He has the knack of getting a base, which has cut many a run off at the plate. He can cover more ground than his younger rival, and is holding around .971 to do it.

Roush will be pitted against Felch in the center garden. Both these players have thousands of admirers for each is one of the averages in the national league, having an average of more than .300 almost the entire season. He is a good fielder, with a mark around .937, has a strong arm and covers a lot of ground. This will be his first world's series.

Felch, on the other hand, suffered a slump in his batting this year, but has been a dangerous man in the field and has posted his fielding mark to about .250 while his fielding average for the greater part of the year is .974. He is rated by many experts as the greatest outfielder in the American league. He has a lot of speed and a powerful arm. Toward the close of the season Felch showed signs of remark during the first part of September was .310.

The right field position seems to favor the Chicago aggregation. Liebold, Chicago's "lead off" is one of the hardest men in the league to pitch to, and is a patient waiter at the plate. He is fast, has a strong arm and is a brainy player and a clever base runner. Neale, on the other hand, while excelling in the right field garden may experience some difficulty fielding, especially in the White Sox park, owing to the shadows which have afflicted many American players in his home grounds, however, he will have the advantage over his White Sox rival, Liebold, has been hitting at a .293 clip while Neale's mark has been around .247. In fielding Neale has hung up an average for the greater part of the

Scalpers Can't Dodge War Tax on Ball Passes

CHICAGO, (P)—Forty inter-nal revenue officers have been put to work to see that "scalpers" of world series baseball tickets turn over to the government fifty per cent war tax on every ticket disposed of at above its face value.

Despite all precautions taken to prevent "scalpers" obtaining the tickets a number have fallen into their hands.

CHAMP O'DOWD WHIPS RATNER

St. Paul Middleweight Has All the Best of Sight Round New Jersey Tilt

JERSEY CITY, N. J., (P)—Miko O'Dowd of St. Paul, middleweight boxing champion out-fought Augie Ratner of New York, former national A. U. middleweight title holder, in an 8-round bout last night. The ringable weights were announced as O'Dowd 164 pounds and Ratner 151. O'Dowd took the honors in five rounds, Ratner two, with one even.

With a snappy left Ratner withstood the champion's rushes in the first and second rounds, making him miss frequently. Ratner had the best of these rounds. O'Dowd started the third with a straight left that sent his opponent's head back and then forced Ratner to break ground. The fourth was even.

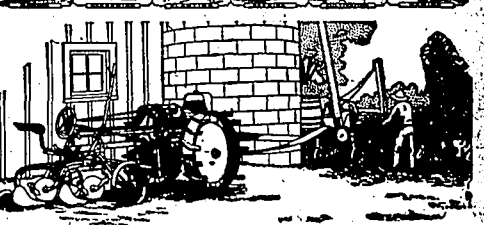

In the fifth, after O'Dowd scored two hard rights to the head, Ratner landed his best blow of the contest, a hard right cross to the point of the jaw. O'Dowd, however, kept boxing in and with a right uppercut, opened a gash over Ratner's right eye. The next 3 rounds also went to O'Dowd, who forced his man all around the ring. Ratner's eyes showed the effect of the blows at the final bell.

LYNCH HAS A SHADE

PHILADELPHIA, (P)—Joe Lynch of New York had a shade the better of Joe Burman-nee Chicago, in a 10-round bout here last night, who fought was about even until the last round when Lynch closed Burman's eye with a vicious blow. The men are bantam-weights.

ONE MAN OPERATES BOTH TRACTOR AND IMPLEMENT

Electrically Governed 18 Horse Power with the New

MOLINE UNIVERSAL TRACTOR

It Solves The Farm Help Problem

The perfected 4-cylinder overhead-valve engine of the new Moline-Universal Tractor, Model D, develops 18-horsepower on one belt, pulling a 24-inch grain separator or 16-inch engine-coupler, with a belt speed of between 2400 and 3000 feet a minute.

The real superiority of the Moline-Universal Tractor, however, lies in its field work. Here it enables one man to perform every field operation, including planting, harvesting and cultivating. Its universal adaptability makes it the most valuable machine on the farm.

CONSISTENCY THOU ART

The position taken yesterday by Senator Williams of Mississippi, in respect both to law observance and to the proposed league of nations is rather extraordinary

Taking issue with Senator Borah, who, in an address in opposition to the league of nations, referred to the Omaha riot as a manifestation of lawlessness and disregard for American institutions not confined to one class or community, the Mississippi senator relieved himself of the egregious declaration that "The conduct of the criminal at Omaha deprives me of all illumination and power to say one word against the crowd that captured the criminal and punished the crime. Race is greater than law now and then, and protection of women transcending all law, human and divine."

Overlooking the fact that the miserable individual branded by the Mississippi as a "criminal" in this instance had not yet been accorded his constitutional rights for trial on the offense with which he was charged, the remarkable declaration on the part of Senator Williams might be excused on the grounds of temperament or something like that.

But when he coupled this assertion with an attempt at reproach upon the Idaho senator who, he said, "speaks of established law in the land and yet is unwilling to stand for established law in the world," and further declared his own allegiance to the league of nations proposal, Mr. Williams laid himself open to criticism on the grounds of inconsistency.

It is not an impossible conception that law observance, like charity, begins at home.

It would be interesting to observe the attitude of the Mississippi senator toward the practical operation of the proposed league of nations where, insofar as the right to decide matters of international concern, race is by no means greater than law—rather, not greater than the decisions of the league in which representatives of the colored races sit on a plane of equality with the whites.

It might be observed, however, that the senator's ability to find justification in some instances for infraction of established law might make it possible for him to be not greatly concerned over questions of observance of laws laid down by an international government, when observance of such laws were inconvenient or contrary to the dictates of prejudice.

Certain it is that although the votes of those of Senator Williams' ideas may make possible the establishment of the league of nations, the successful operation of such league must depend upon those for whom an apology for evasion or infraction of the law is not so easy.

CRITICISM AND ORDEAL

The diagnosis made by Governor Samuel R. McKelvie of Nebraska, of the situation in Omaha which developed Sunday night into demonstrations of lawlessness shocking the national consciousness, is one which might be applied pretty generally with beneficial results.

"One who is acquainted with conditions in Omaha during the past few months could not be very much surprised at what has happened," Governor McKelvie said. "It has been a matter of every-day occurrence that those who have most to do with the handling of public opinion have consistently engaged in petty bickering

and a criticism of the local officials which could not result in anything but utter disregard of the law. I deem it of utmost importance that the good people of Omaha should organize their minds to discourage the activities of those who are constantly attempting to bring reproach upon public officials and join in common support of those who have been duly elected to responsible public positions."

It is not to be assumed that Governor McKelvie has in mind the purpose or desire to put a stop to criticism of public officials of whatsoever nature; but he has very clearly set the limit on how far that criticism ought to be permitted to go. When the result can be nothing but disregard of the law it is time to call a halt; and it would be well for critics in any position to consider carefully just what the result of their criticisms may be before launching their shafts.

GRAND JURY TO PROBE RIOTING

(Continued from page one)

One of the most alarming features of the situation, the governor said, "is the delay in which young boys were engaged in the destruction of property and the violence that characterized the riot."

The governor declared he could not attempt to fix the blame for what happened saying he thought it would "perhaps be as fair to criticize the one who applauded the actions of the riotous assembly, as those who actually did the work."

The condition of Mayor Ed P. Smith, injured when the rioters attempted to lynch him, continued to improve today but he is still confined to his bed.

H. J. Hysell, shot during the early hours of the rioting in this city Sunday, while traveling through a crowd of persons assembled at 17th and Douglas streets, the heart of the business district, died today of his injuries. He is the third victim of the riot, the first being the negro, Brown, who was lynched by the rioters, and Louis Young, who was shot by police officers while trying to effect an entrance into the court house.

Myrtle, the wife of the man whose wife was driving in an automobile at the time of the shooting, which occurred while the mob was beating the negro.

Social Notes

The Business Women had their initial meeting for the year at the home of Mrs. H. J. Youngs on Fifth avenue north last evening. A nominating committee was appointed and election will be held at the home of the next meeting. Thirty-five members enjoyed the evening.

Mrs. Granville Haight assisted by her mother, Mrs. L. B. Perrin, entertained at luncheon at the Hotel Perrin yesterday, honoring Miss Leah Chapman of Baxter Springs, Kansas. The table was most attractive with a centerpiece of beautiful asters. Covers were laid for eight.

At the next meeting of the Salmon Social club, October 9, Miss Edna M. Ludwig, of the home demonstration department of the county farm bureau, will be present to inaugurate a class work in dressmaking forms. The meeting scheduled for Thursday of this week, has been postponed to October 9 on account of the fair. Mrs. Ludwig will entertain on that occasion.

A surprise party was given recently by Mrs. John Thieton, who is soon to leave for a visit in the east prior to going to California to live. The party was given at the home of Mrs. Thieton by the Epworth Society. Mrs. Thieton was presented with a set of sash glasses.

Local Brevities

Goes to School—Paul McKinley left Monday for Walla Walla, Washington, to enter upon his second year's study at Whitman college.

Return Here to Live—Mr. and Mrs. Wright Davis have returned from Alhambra, where they have spent the past eight months to again make their home in Twin Falls.

Masons to Meet—A regularly scheduled session of Twin Falls Lodge No. 45, A. F. and A. M., will be held at the Masonic temple tomorrow night. The meeting will open at 7:30.

Concludes Visit—Miss Leah Chapman who has been spending the summer with her friends, left today for Baxter Springs, Kan. Her return here will be held at the home of the Epworth Society.

Meeting Postponed—The Episcopal Guild will not hold a meeting this week as Thursday will be Twin Falls day. The meeting will be held on Thursday next.

Deaths and Funerals—Funeral services will be held at Ascension church this afternoon for Mrs. Edith Purdy. Burial was in Twin Falls cemetery.

Obsequies were conducted in the church and at the grave by the Rev. Archibald Howard Stoy of Pocatello, with Undertaker J. E. De Witt in charge of burial arrangements. Music was provided by the Episcopal church choir.

Americans Are Keeping—ORDEE FOR DALMATIA (Continued from Page One.)

Today's Markets

Grains and Provisions

CHICAGO, (AP)—More weakness in the corn market resulted today from declines in foreign exchange rates and from a sharp break in quotations on logs. Rains, however, which might have the effect of increasing the crop, had afterward considerable buying and brought about rallies. Houses with eastern connections were the chief sellers. Opening prices, which varied from 1.22 to 1.23 1/2, were followed by additional setbacks in December and May deliveries but then by something of an upturn all around.

Covering by shorts forced numerous rallies later, but not of a lasting character so far as the September delivery was concerned. The market closed unsettled at the same as yesterday's final to be lower, with December \$2.24 5/8 to 1.24 3/4 and May \$1.22 1/2 to 1.22 5/8.

Month-end attempts to sell a small quantity of pork for September delivery caused the price of that month to drop \$0.17 1/2, a decrease of \$0.75 a barrel. The market as a whole was not seriously affected.

Oats sympathized with the weakness of corn. After opening 1/2 cent to a shade above, including December at 69 3/4 to 70c, the market underwent a moderate general sag.

Provisions were depressed by the heaviest action of the grain and hog markets. On the decline, more power to recover was shown by lard than by pork or ribs.

Cash Quotations

CHICAGO, (AP)—Corn No. 2 mixed \$1.42 to 1.43; No. 2 yellow \$1.49 to 1.44 1/2; Oats No. 2 white 71 1/2c; No. 3 white 68 to 71c; Barley \$1.23 to 1.36; Timothy \$1.05 to 1.125; Clover nominal; Pork nominal; Lard \$17.55; Ribs \$18.50.

Chicago Livestock

CHICAGO, (AP)—Hog receipts 27,000; lower; heavy \$15.00 to 16.00; light \$10 to 10 1/2; heavy packing sows, smooth \$14.75 to 15; packing sows, rough \$14.25 to 14.75; pigs \$15 to 16; Cattle receipts 10,000; slow; beef steers, medium and heavy, choice and good \$10.25 to 12; common \$8.50 to 11.25; heifers \$9.50 to 14.75; cows \$6.50 to 13.50; canners and cutters \$5.50 to 6.50; veal calves \$20 to 21.25; feeder steers \$7 to 12.50; stockers \$8 to 15; western range, steers \$8 to 15; cows and heifers \$6.50 to 13; Sheep receipts 25,000; strong; lambs \$12.25 to 15.75; culls and common \$2.75 to 12; ewes, medium, good and choice \$6.50 to 7.50; culls and common \$2.75 to 6; breeding \$7 to 12.25.

Potatoes

CHICAGO, (AP)—Potatoes firm; arrivals 68 cars; Minnesota sacked, Early Ohio, \$2.56 to 2.65; bulk \$2.50 to 2.60; Wisconsin and Minnesota bulk, Round White, \$2.55 to 2.65; sacked \$2.10 to 2.60.

Liberty Bonds

NEW YORK, (AP)—Liberty bond final prices today were: 3 1/2's \$100; first 4 1/4's \$95.50; second 4 1/4's \$94.18; third 4 1/4's \$94.20; fourth 4 1/4's \$94.22; Victory 3 3/4's \$99.98; Victory 4 1/4's \$99.94.

PREMIER BENEFITS AS RESULT OF REST

WASHINGTON, (AP)—President Wilson after two days of quiet and rest at the White House showed further improvement today. Rear Admiral Cary T. Grayson, his personal physician, issued the following bulletin at 11 a. m.: "The president had a good night's rest and is improving."

As Rome dispatches announced yesterday is giving the supreme council much concern, in view of the possibility of all the Balkans becoming involved in the future.

In peace conference circles the approaching Italian elections are regarded as a struggle between the war and peace parties, or rather between the forces of the military and those of socialistic and pacifist tendencies. While it appears that D'Annunzio and Fiume will be chiefly in issue, the feeling is growing in Paris that as D'Annunzio has indicated that his aspirations include far more than Fiume, the Italian situation is daily becoming more and more complicated. In view of the conditions, the view is expressed here that the agitation might flame into war any day, if, for instance, a Yugoslav should happen to be killed by Italian troops.

ITALIANS IN FIUME ARE CONFIDENT OF WINNING

FIUME, (AP)—Fiume is ablaze with flags, her streets are filled with marching soldiers and her air is vibrant with the enthusiasm of the men who, under the command of Captain Gabriele D'Annunzio marched into the city and still firmly hold it. The city of Fiume, predominates. Pennants bearing the words "Viva Italia!" and Captain D'Annunzio's slogan "Fiume or Death" are everywhere. The colors of green and green of Italy and the violet blue and yellow of Fiume.

The correspondent reached Fiume Saturday. The first train being buried in the coal in the tender of a locomotive for the last part of the journey to avoid quagmires along the way. Among the first arrivals in the city were thousands of veterans of the great war, a majority of the men wearing three or four service medals as well as those indicating they volunteered for the fighting here. Captain D'Annunzio's headquarters are established in the governor's palace which has been converted into a veritable general staff building, filled with different departments. The building is the finest in Fiume, having beautiful sculptures, elaborate staircases and magnificent furniture.

ADDS TO FOREST AREA

PHOENIX, Ariz., (AP)—President Wilson has signed a proclamation adding 29,440 acres to the Crook National Forest, Ariz. The lands added are located in the Wheeler Mountains and southeast of the Galileo division of the Crook forest. They are rough and broken in character and are not suitable for agricultural purposes. Practically the entire tract is covered with a stand of oak, juniper, and cedar timber of fair quality. Considerable of the area along the canyon is covered with a good stand of western yellow pine.

Personals

Harry L. Yost, of Boise, is a visitor in Twin Falls.

B. P. Logau spent yesterday in Filer at the fair.

S. S. Naylor left Saturday for Iowa to visit relatives.

J. C. Doyle of Boise is a business visitor in Twin Falls.

Mr. and Mrs. Reed Moody are in the city from Nampa.

Jack Peronioux of Gooding, is in Twin Falls for a few days.

R. H. Denton of Kimberly motored to Twin Falls yesterday.

Mrs. Stuart Govers of Hansen was a Twin Falls shopper yesterday.

W. J. Dean of Rogerson, is spending a short time in Twin Falls.

Mr. and Mrs. C. H. Whitney of Shoshone are visiting in Twin Falls.

Mrs. Whitfield McKay Olson of Filer was a Twin Falls visitor yesterday.

Miss Clara Bell Patrie motored to Twin Falls Sunday to visit friends.

E. W. Schubert of Gooding is looking after business interests in this city.

C. W. Stoddard is transacting business in this city from his home in Pocatello.

Dr. and Mrs. J. F. Johnston are the proud parents of a baby born this morning.

Jas. A. Walker was a business visitor in Twin Falls from his home at Brook Creek yesterday.

Mr. and Mrs. I. E. Jexley returned Sunday from a month's visit in Vermont, with Mr. Jexley's mother.

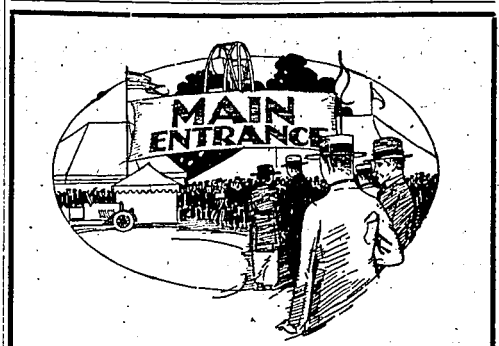

Mrs. E. E. Salladay and little son left the last of the week for La Grande, Oregon, to visit relatives and friends.

Dr. and Mrs. J. E. White returned Sunday from Wood River where they have been superintending the building of a summer home.

Mr. and Mrs. Wendell J. Allen returned yesterday from Boise, where they spent several days visiting friends and attending the state fair.

Mr. and Mrs. L. L. Brockbridge,

Mr. and Mrs. J. P. McClure, and Miss Bess Glenn spent Sunday afternoon at the John Gourley home on Snake river. W. R. Green, an attorney of Buhl, motored to Twin Falls yesterday. He was accompanied by Walter Jackson, who is one of the appraisers for the reservoir site of the Idaho Farm and Development company.

It's high time to get the new togs for the Fair. The sun shines brighter and life looks gayer when you are dressed up for some special celebration.

So come along and get a few new togs, if it's no more than a new tie or a new hat.

Have you seen the new models for Fall in Suits and Topcoats? They're great—there's the nifty double-breasted models, so popular this year and waist seam models, as well as many other styles. The materials and patterns you must see to appreciate.

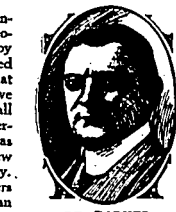

All Wool Suits \$25 to \$50. New Falls Hats—\$4.50 to \$8. Shirts and Ties Galore.

The Story of Painless Parker Dentist

By Himself

When I started practicing twenty-seven years ago, only a few people had their teeth looked after by dentists. Nearly everybody waited until an aching tooth got so bad that he had to go to a dentist and have it pulled out. That was about all there was to dentistry for the average man or woman. Something was wrong. Millions of people knew nothing of the benefits of dentistry. They were ignorant of the dangers of diseased teeth and unclean mouths. I got to wondering how the many benefits of good teeth could be made known to everybody. All I could see was just one way—advertising.

DR. PARKER

And so I advertised. Having no money to buy advertising sent out on the streets and took dentistry to the people with me. I told them that good teeth were a blessing and bad teeth a calamity. I explained dentistry to them in language they could understand. I had been taught in college that dentistry was a noble profession, and that a dentist's first thought should be to benefit the public and to make the health of the masses better. I was encouraged to go on with my work when I found that the more good I did for the people, the more good I did for myself. Business grew so fast that I had to get other dentists to help care for the patients. To properly look after such a large practice, I had to put my affairs on a business basis, and so I came to see that dentistry was as much a business as it was a profession. The college did not teach this, but my experience did. There was no escape from it. If dentistry was to be enjoyed by everybody, its cost must be brought down to a point where everybody could afford it. Money must be saved wherever possible.

only a few people could afford it before. One office after another was opened, until now there are twenty-four complete offices where the system is used, and these offices make up the largest organization in the world practicing dentistry. The plan under which dentistry is practiced in all these offices is now called the E. R. Parker System, and the trade mark of this System is shown below.

Under the E. R. Parker System dentistry has been put where it belongs. It is no longer a luxury for the few, but a benefit for the many. It has made dentistry better and it has made the prices lower. It saves a patient's time and makes fewer visits unnecessary. It has to a large extent put an end to the fear of pain. Offices using the E. R. Parker System are finely fitted up with new and useful dental appliances. The reception rooms are cheerful and homelike. Visitors are welcome every week day from 8:30 A. M. to 6:30 P. M. Under the System no charge is made for examinations and advice. Patients are plainly told in advance the price for having such work done as their teeth need, so there may be no misunderstanding. Work is done under the E. R. Parker System. This means that each dentist in the Parker System offices does that kind of work in which he is most skilled.

Being the founder of the E. R. Parker System, and through it having built up the largest dental practice in the world, and put dentistry before all the people, I feel a natural pride in seeing that the name "Parker" has now become the dominant name in dentistry. It stands for dental work that is satisfactory in every respect, and it stands for moderate prices. Parker dental offices serve the same purpose in dentistry as department stores serve in wearing apparel and other human needs. They are able to properly care for the teeth of all.

Many people have had work done under the E. R. Parker System. They know that this work is as good as science, skill and experience can make it. Those who do not know about Parker methods and economies are particularly invited to call and see how, from a very small beginning and from preaching dentistry on the streets, the Parker ideas have grown into a system that is used by more Registered Dentists than any other plan in existence.

NEW MILK LAW RIGID MEASURE

Requirements for Safeguarding Health Inflexible in City's Ruling

Probably one of the most inflexible and binding municipal laws ever read into the code of city operation went into effect in Twin Falls yesterday. It is the new milk ordinance, adopted by the city council to govern the milk and cream industry in Twin Falls. If all the terms and requirements of the law are enforced the milk supply distributed here should be absolutely pure and handled in a most highly approved sanitary fashion.

The law permits absolutely no adulteration or contamination of milk or milk products. Dairy cattle providing any part of the city's milk supply must be fed and housed in the most approved fashion. There must be no consumption of putrified feed served those cows, and the water supplied must stand a certain test as to purity. Housing conditions for these cattle must be sanitary, and there must be no overcrowding.

Skimmed milk offered for sale must be so noted in letters that "he who runs may read." Cream must come up to a certain standard or be condemned.

Away With Can
All milk or cream vented in Twin Falls must be bottled, thus disposing of the ancient and honored custom of one family serving another through the medium of a tin pail, can or pitcher having an open or exposed top. In fact the ordinance strictly prohibits the private city dairy, or one-cow stand, through the drastic conditions set forth in its various sections.

Milk and cream must be cooled by a prescribed and recognized cooling device within 30 minutes after milking. After it is once bottled for sale it shall not be transferred from the original receptacle by any vendor or in any exposed place, except in a creamery or in the enclosed premises of the customer.

The ordinance even regulates the position of the milk house, building or other place where milk or cream is prepared or sold, and requires that such house or building shall not be within 50 feet of any structure or installation likely to contaminate. The milk house cannot be within the prescribed distance of a chicken coop, barn, stable, cesspool, water closet or similar installation.

All receptacles or handling devices shall be sterilized with boiling water or live steam each time they are used, as soon as they are empty.

All refrigerators or compartments where milk and cream is kept, stored or handled must be kept "scrupulously" clean and free from the presence or vicinity of any article or thing likely to contaminate or injuriously affect the quality or sweetness of the milk or cream.

All cattle from which is drawn milk for the city's supply must be regularly approved as being free from tuberculosis or other disease that will affect the quality of the milk.
Dairy men must procure a regularly adopted license for which they will be required to pay the sum of \$1 annually. The city health inspector is authorized to seize for inspection and examination any milk, cream or other dairy products for test or examination by a duly authorized chemist. Penalties will be applied for violations of any section, parts or portions of the milk ordinance.

Best Fruits of Romance.

A speaker was taken aback during a Sunday school session. He had been commenting on the blessing of matrimony, and just to see whether or not the class was really paying attention, asked one girl what she considered to be the best fruits of romance. The girl pondered a moment and then answered: "I should say the wedding date and the bridal pair."

The Best Advertisement

The best advertisement any merchant can have is a satisfied customer. No greater recommendation can be given an article than the following by E. B. Millburn, Prop., Guion Drug Store, Guion, Ark. "We have sold Chamberlain's Cough Remedy for years and have always found that it gives perfect satisfaction."—Ads.

STAGE SET FOR WORLD'S SERIES

(Continued from Page Three)

do to put a sent in every available space. I never saw so much interest and enthusiasm shown in a world's series as is being displayed in this one. If the interest is the same in Chicago, the series ought to surpass any ever fought between major league clubs."

White Sox on Hand

Members of the White Sox, under the leadership of Manager "Kid" Gleason, arrived from Chicago early today and went directly to their hotel. The White Sox will take a light workout at Rodland field this afternoon at the invitation of "Pat" Moran, manager of the Reds. The Reds also will have a light practice to keep their muscles limbered up.

All members of the Cincinnati club were reported to be in perfect condition with the exception of Heinie Groh, the fiery captain and third baseman, whose broken finger is still bothering him to a certain extent. The injury, however, will not keep him from starting the series and he hopes to be able to play all the way through.

While Manager Moran has not definitely picked his pitcher for tomorrow and did not care to make any official announcement, it is generally accepted that he will start either Walter Ruether or "Slim" Sallee. Sallee

pitched two games against Chicago in the world's series of two years ago and Moran believes that his style will give the White Sox the most trouble.

Gleotte to Start

That Eddie Gleotte, the pitching "ace" of the White Sox staff, will be Manager Gleason's selection for the opener, is accepted as a certainty. The remarkable little "knuckle-ball" pitcher with more than twenty-five victories to his credit this season, is reported to be primed to face the Reds in the initial combat. Manager Gleason, however, expects to make no announcement of his selection until the time for starting the game tomorrow.

All arrangements for the series were being completed today. The press headquarters at the hotel Sinton will be opened at 1 o'clock this afternoon at which time tickets to the press stand will be issued to those entitled to them. Accommodations have been made for four hundred writers.

Despondency

Sufferers from indigestion are apt to become discouraged and feel that complete recovery is not to be hoped for. No one could make a greater mistake. Hundreds have been permanently cured by taking Chamberlain's Tablets and can now eat anything that they crave. These tablets strengthen the stomach and enable it to perform its functions naturally. If you have not tried them do so at once.—Adv.

Products that Packers Sell

Their Number Grossly Exaggerated

The Federal Trade Commission has published a list of some 640 articles said to be sold by the packers.

This list is ridiculously padded in order to scare people into the belief that the packers are getting control of the food supply of the nation.

For example, the list includes not only "beef sides" and "beef cuts," but also over 60 other items of beef products and by-products.

Over 90 articles listed are not sold to the outside trade but are raw materials and supplies, such as brick, cement, etc., used by Swift & Company in carrying on its business.

Glaring duplications appear, such as "sardines" and "canned sardines"; "butterine" and "oleomargarine"; "dried sausages" and "dry sausage," etc.

The list includes 37 kinds of sausage; 4 different kinds or preparations of beef tongue, etc., etc.

Simmered down, Swift & Company handles in addition to meats and meat by-products, only butter, eggs, cheese, poultry, canned goods, lard substitutes, and to a very small extent, dried and salt fish. And the proportion which we handle of the total supply of any one of these is absurdly small.

Do you want to be fooled by such misleading and ridiculous statements of the Trade Commission? Do you want radical legislation based on such absurd evidence?

Let us send you a "Swift Dollar." It will interest you.

ALBERTA LANDS

530,000 Dry and Irrigable Acres

Lands are located in Southern Alberta and are among the best in that famous district, 200,000 acres will be under irrigation, the balance is being sold for grain growing.

The lands are being put on the market for the first time and the company is looking for bona fide settlers. All lands within a radius of ten miles or less to shipping point.

Dry lands are being sold at \$15 to \$30 per acre—irrigable lands \$40 to \$60 per acre which includes water rights and water charges \$1.50 per irrigable acre per year—easy payments and low interest. Alfalfa, grain, field peas, potatoes and root crops can be successfully grown.

Write direct to the company for full particulars and pamphlets.

Canada Land & Irrigation Company, Ltd.
 Lethbridge, Alberta, Canada. Medicine Hat

(30) feet in width over all and four hundred thirty-two (432) feet in length, consisting of seven (7) spans of forty-eight (48) feet in length, across Rock Creek upon, Shoshone Street at or about the location of the present bridge across said stream upon said Shoshone Street in the City of Twin Falls, Idaho. Plans and specifications of said bridge are on file in the office of the City Clerk in the Water Works Building at the corner of Second Avenue North and Second Street North in said City of Twin Falls. Copies of said plans and specifications can be obtained from the said City Clerk upon application therefor and the depositing of the sum of Fifteen (\$15.00) Dollars, which amount will be refunded upon the return to the City Clerk of the copies of said plans and specifications so obtained. In the event no work is started on the bridge crossing said Rock Creek upon said Shoshone Street must not be closed for a length of time greater than ten (10) days in any one period. The cost of the construction of said bridge must not exceed Fifty Thousand (\$50,000.00) Dollars.

All bids and proposals must be accompanied by a certified check upon some local bank in an amount equal to ten (10) per cent of the amount of the entire bid and proposal, which check shall be made payable to the City of Twin Falls, or order. Said check, in case of a failure or default of the successful bidder to enter into a contract for the construction and completion of said bridge, shall be returned to the successful bidder. Said contract shall be made in accordance with the terms of said bid and proposal and the terms of this notice shall be forfeited to the City of Twin Falls and shall become its property.

The successful bidder shall enter into a contract for the construction and completion of said bridge and the delivery of this contract, the contractor shall execute and deliver to the City of Twin Falls, Idaho, bond in an amount equal to sixty (60) per cent of the amount to be paid by the City of Twin Falls, Idaho, under the terms and conditions of the said contract and conditioned for the faithful performance of the terms and conditions of the said contract and the terms and conditions of the said contract made and provided.

Immediately upon being awarded the contract the successful bidder shall enter into a written contract with the said City of Twin Falls for the construction and completion of said bridge which contract shall be delivered to the said contractor upon receiving the bond hereinbefore provided.

Work shall commence under the said contract within ten (10) days after the delivery of the contract and the work of construction shall be completed or before six (6) months after commencing work.

For the work performed and the material furnished under the contract the contractor shall be paid as follows: Ninety (90) per cent, per cent of the amount earned thereon, upon the estimate of the engineer in charge, during the month prior to the first of the month next shall be paid to the contractor on the first Tuesday after the first Monday in each month and so on until completion, the ten (10) per cent amount earned under the contract will be paid.

The City reserves the right to reject any and all bids.

ATTEST:
 W. A. MINNICK, Acting Mayor.
 City Clerk.

DOINGS OF THE VAN LOONS

IT'S LOVELY OF YOU TO ESCORT ME, MR. VAN LOON!

OH, IT'S ONLY THE DUTY OF A FELLOW JUROR.

HOW DO YOU LIKE BEING ON THE JURY, MISS FAYRE?

I'M NOT WILD ABOUT IT, BUT THE ONLY EXCUSE I CAN THINK OF FOR QUITTING A JUROR WAS IN A HOSPITAL.

I GUESS THAT TRAVE!

Mother is quick to act on suggestions

WHO'S THAT! THE WESTERN HOSPITAL! YOU SAY JUROR VAN LOON IS THERE. ALL THANKS, BUT OH WELL, WE'LL HAVE TO EXCUSE HIM FROM HIS DUTY THEN!

SCHOOL BOARD HAS COMPLAINT

Proposal to Open Street Near Bickel Finds Opposition—Appeal to Council

Objection has been officially interposed by a representative of the local district against the city's opening of a portion of street near the Bickel school, closed some years ago when the board required property opposite the school grounds.

The objection was made by W. E. Nixon, a member of the school board at that night's gathering of the city administrators. His explanation being that the opening of the street would cramp and seriously affect the board's recreation plans for the Bickel school pupils.

When taken, though the city administrators considered continued closing of the street a public benefit.

How Acquired

The school district recently disposed of the holdings across from the Bickel school to private persons for commercial purposes. The question has been taken under advisement.

Ernest White, contractor, who is to construct the high school annex, was granted permission to use a portion of second street north, and Sixth avenue north, for material storage purposes. He was granted 10 feet on Second street and 15 feet on the avenue.

A contract, for the construction of a water extension main, with the installation of a four-inch water meter, was received from the O. S. L. railroad company for the signature of the city authorities. The document was duly signed. The city will retain the extension and assumes its maintenance. The city will also install the water meter. The railroad is to reimburse the city for all expense, but will assume proprietorship of the water meter and will look after its care.

Walton Makes Call

E. F. Walton appeared with a request for the removal of some building materials stored behind his premises, the Elite Millinery store on Main avenue, and also with a request that a closed portion of sidewalk in the front of his store be remedied. The city has promised to investigate the latter part of the complaint, but has no jurisdiction or control over materials stored on private property, it was explained.

Although last night was the date prescribed for receiving and reading proposals for the construction of a sidewalk only one bid showed up. This was returned to the contractor submitting it, and orders were given for a further advertising for the job. These bids, together with those covering construction of the Eighth avenue lateral conduit, will be received and read on October 13.

Fever in Home But Comes To Peddle Milk

Health Officer Hears of Dairyman Whose Home is Infected with Typhoid

While it was not a part of the official proceedings of last night's council meeting a warning was sounded in the interest of milk consumers.

The warning came as a quasi by-product during discussion of the terms and conditions of the new milk ordinance. It was in the nature of recommendation to the city health officer to watch particularly the sources from which the city's milk supply is derived.

That persons delivering milk in Twin Falls for sale and consumption are not always particular as to sanitation and prevention of the spread of disease through the handling of milk was glaringly manifested in a sub rosa statement to the health officer in effect that a dairyman, located not far from Twin Falls, in whose home there is now at least one case of typhoid, continues to supply a local dealer with the product of his dairy.

WILL EAT LATER

The Rally Banquet of the B. Y. P. U. of the Baptist church has been postponed from October 3 to Friday evening, October 10.

STOLEN CARS \$25 REWARD

Tune Aircraft For Thrills at Farmers' Fair

LIKE a great gull, rising, dipping, gliding, an airplane turned up over the grounds themselves and the back areas of the county exposition field at Filer, yesterday. The machine arrived during the day from Boise and will be one of the most entertaining and thrilling-appearing features of the county fair this week.

That the machine is in the hands of a competent air navigator was amply proven in the aerial capers which formed an impromptu program yesterday afternoon. The immense craft, controlled by a master touch, gave a rare exhibition of airplane maneuvers. The program lasted some time and the birdman sailed off to Twin Falls, where some time was spent deluging the streets with handbills telling of the opening of the exposition. The car then sped back to Filer where a like office was performed. Every farmyard between the fairgrounds and the two towns was strewn with the same sort of printed pronouncements.

Arrangements have been made by the owners of the machine to make regular passenger flights as to start today.

HOUSING TALKS OPEN CONCLAVE

(Continued from page one)

One of the features of this afternoon's assembly was a discussion of the topic, "The Interechurch World Missionary Movement," by W. H. Hertzog. The speaker explained that the interdenominational movement, no matter organic union, as is generally believed, but is, in fact, a closer fellowship between the churches, each to retain its denominational integrity.

The Rev. A. V. Willey, state evangelist, had for his subject "Simultaneous Evangelism," in which he explained the plans of 50 churches and out-stations in Idaho for a simultaneous evangelistic campaign this year. This is a preliminary move to the crusade for \$100,000,000 of the Baptist convention.

Among the church men of national repute attending the convention are Dr. Alonzo M. Petty, of Portland, Ore.; Dr. Bruce Kinney, of Denver; Dr. S. G. Neil of Philadelphia.

BOSSAQUES MUST APOLOGIZE FOR TAKING SOLDIER

borovak, where General Kalmikoff has his headquarters. A telegraphic demand for Sprigling was sent to Khabarovsk and a reply was received that he would be released at once. The Americans then returned to Spassk, taking their hostages with them.

Examination Shows Flogging

A preliminary investigation of the incident shows, it is said, that Sprigling was flogged by a recruitant Cosack.

MEETING HELD OVER

The Shamrock club has postponed its meeting from October 3 to October 10 on account of the county fair.

Weather Boss Tries to Crab Folks' Party

TONIGHT and Wednesday, probably rain.

Pleasant prospect that for the success of the biggest and best county fair this season has ever planned.

'Tis the weather despot's prediction, but if it is no nearer than his face prognosticated all summer the folks are safe from a wetting.

Rain! When it was needed last summer the word was not in the lexicon of the false prophet of the weatherworks. Now he promises to quench the fires of ardor for the success of the fair, burning within the breast of the board of fair directors with rain tonight and tomorrow.

Warmer up north, he says, which is much harm for the wounds inflicted on this district.

High yesterday was 67, with the mercury getting within the danger zone of the frost line during the night. There was no precipitation.

TALK ON MILK, OVERLOOK MEAT

City Selectmen Oathchise Stock Surgeon on Lactal Fluid Law Only

So earnest was the cathexis over certain phases of the city's milk ordinance, recently adopted, that the city council last night entirely overlooked the primary motive of Dr. W. A. Faloon's visit and forgot to let him make a scheduled address on the question of the city's meat supply, how obtained, and the need for inspection.

Dr. Faloon a fortnight ago, in a communication to the city clerk, stated that the city meat supply was four-fifths cow beef which, he said, is most susceptible to tubercular contamination. It was upon the question of rigid inspection of this supply that the veterinary representative of the federal department of animal industry was asked to appear and address the council. Interest in the "fourteen milk ordinance points" became so intense that the meat question was forgotten entirely and the veterinarian got away without making the recommendations previously suggested.

Is Helpful Anyway

The milk ordinance cathexis brought out many points designed to help, aid and assist the sanitation officer in the performance of his duty. One of the suggestions with particular fervor upon the clause in the ordinance requiring milk houses to be 50 feet from "any building." Discussion on this point was dropped when it was pointed out that the ordinance dealt only with location near buildings and corrals carrying contamination.

Dr. Faloon explained many features of federal requirements in the matter and manner of testing dairy herds for tuberculosis. He explained also that in the case of destruction of a grade animal the state will pay \$25 and the federal government \$25, thus reimbursing the owner to the amount of \$50. In the case of destruction of a pure bred animal the two departments pay \$50 each, making a reimbursement of \$100.

To Assume Expense

Requiring the city to assume all expense of operations Dr. J. G. Adams, director of animal industry at Boise, has offered to come to Twin Falls and inaugurate a dairy cattle testing campaign.

During the discussion in which the council questioned and Dr. Faloon gave replies, the question was set out pertaining to the possibility of penalizing mechanics of unscrupulous persons who might, through subterfuge, dodge the state law and flood the state with diseased cattle. Dr. Faloon told of rigid requirements both by the state department and the transportation commission, which, in a very grave man-

City Streets No Place For Incompetents

FEW but well chosen and full of salient meaning were the words used by Alderman L. L. Breckenridge last night with respect to the sort of men being employed in some departments of municipal operation. The selection from the first ward denounced the type as thoroughly incompetent and 'not worth salt.'

The denunciation was directed against the superintendent of streets to whom it was explained the city's streets department was not intended to be a "pension bureau." He recommended cury and drastic changes in the system of employment.

"I watched a fellow waste minutes on one ordinary weed yesterday; any other man would have disposed of it in a small fraction of a second," Mr. Breckenridge declared. In subsequent expressions he recommended the discharge of the man in question and all others who are incapable of doing a day's work.

In explanation of the particular case at issue the superintendent of streets and alleys told the council the man in question was not employed as a regular street laborer, being an artisan, suffering from a sort of paralysis, but really a competent worker in his particular line.

TAKES BOY TO ST. ANTHONY

Sheriff A. N. Sprague left today with Leroy Largo for the state industrial school at St. Anthony. The boy was yesterday committed to the institution by Judge O. P. Duvall, of the probate court, after being found guilty of burglary yesterday morning.

TEMPLARS TO EAT CHICKEN

Chicken dinner will be served for Knights Templar in the Masonic dining room at 6:30 this evening. The dinner will follow an afternoon session when degree work will be exemplified. Both the banquet and lodge work are open to all Commandery men.

are tend to prevent such illegal operations. He admitted, however, that there are some instances of law dodging on record. Dr. Faloon, concluding the inquiry said he stood ready at any time to give the city his services for the purpose of improving the city's supply of milk.

TO OFFICIATE AT FAIR

Professor Ezra Feldsted, of the Oregon state bureau of animal industry at Portland, reached Twin Falls yesterday to attend the Twin Falls county fair at Filer. He will officiate as judge of swine and sheep.

TO ATTEND CONFERENCE

Judge O. P. Duvall, of the probate court left today for Weiser, where he will attend an annual conference of state probate judges.

PERMITS TO BUILD

Three building permits were issued by the city clerk this morning. They are: To Arthur L. Swin for erection of two one-story frame structures in Buena Vista addition. One is to cost \$1,500 and the other \$3000. To E. O. Gain for erection of a 32 by 38 foot frame dwelling on lot 14, block 3, Twin Falls townsite, to cost \$3600.
