GARY DECLARES UNION CONTROL CAUSES DECAY

Steel Corporation Chairman Defends Policies Before the Senate Committee Investigating Strike

DENIES ALLEGATION OF MISTREATING EMPLOYEES

No Basic Industry in the World Has Paid Higher Wages than His Company is His Opinion Given to Questioner

WASHINGTON, (AP)—If unions control industries in the United States, "it means decay and the dropping of production," Judge Elbert H. Gary, chairman of the board of the United States Steel corporation declared today in presenting the corporation's side of the steel strike to the senate investigating committee.

"It means this country cannot keep up in the race with the world," said Mr. Gary. "It means the condition of England is in today."

Denies Mistreatment of Men

Denying that the United States Steel corporation had mistreated its men, as charged by union labor leaders, Judge Elbert H. Gary, chairman of the corporation, told the committee that, in his opinion there was no basic industry in the world which had paid larger wages than his company.

"It has been charged that during the pending strike the subsidiary companies have been guilty of attacking and mistreating employees," said Mr. Gary.

"There isn't a vestige of truth in that statement. Photographs were displayed here, and it was said a woman was killed. This photograph has been posted all over America, with a line over it, 'Mrs. Fannie Sellens' body shamefully mistreated by the steel trust's fiendish crew.' Breckencreek, Pa. We have no works there, no men there. If she was killed, it was without even the knowledge of the steel corporation or any of its employees."

Like Other Strikes

"This strike has been conducted in many respects like other strikes," Mr. Gary continued. "The large majority of our workmen were not desirous of continuing in a strike. They were members of any labor union, having declined to become such year after year."

"Throughout the war, our workmen were loyal. While it is true that there is a radical element of foreigners at the present time, it is only doing justice to say that in my opinion the majority of the foreigners were good citizens."

Business Wages

Senator McKellar, democrat, Tennessee, said it was contended that the wages in the steel mills were unusually long.

STRIKE CLAIMS STILL CONFLICT

Employers Dispute Labor Leaders Statements that Industry is Hard Hit

PITTSBURGH, Pa. (AP)—With labor leaders advancing the claim that all plants in the Pittsburgh district have been crippled by the steel workers' strike, and the employers maintaining that more men are returning to work each day and that the mills are operating at nearly full capacity, the situation today remained as it has been for several days past, virtually unchanged.

TENTH DAY BRINGS NO CHANGE IN CHICAGO

CHICAGO, (AP)—No extensive change in the general situation in the steel strike in the Chicago district was noted as the walkout today entered its tenth day. Company officials at some of the plants in the area, notably at Gary, Ind., claimed that work was being resumed on an increasing scale, but union leaders asserted their ranks were unbroken.

FOUR HUNDRED STRIKERS RESUME WORK AT GARY

GARY, Ind. (AP)—About 400 strikers returned to work today at the Indiana Steel company. The streets leading to the plant were thronged with workers during the early morning hours. The corporation is said to have more than 4000 men at work and is operating units in nearly every department.

British Nobility Takes Places of Striking Workers

LONDON, (AP)—Social lines, which in the past have been rigidly held in England have broken down, for the time being at least as a result of the railroad strike which this morning entered on its fifth day. A duke was seen driving a motor trolley through the streets yesterday while during the day an earl was in the chauffeur's seat in the motor heading a convoy of fish from Billingsgate.

The Sixth Earl of Portarlington was among those whose names are found in the Social Register who were engaged in unloading perishable goods, milk and chums from a train, while at Paddington station, Earl and Lady Drogheda were among the workers. Frederick Henry Smith, son and heir of the First Baron of Colwyn, was the firm on the Liverpool-London express when it rolled into this city today.

Government Announces Improvement while Transport Federation Meets to Decide on Sympathetic Walkout

LONDON, (AP)—While the delegates of the transport federation were assembling today to decide whether the 225,000 workers they represented should go out in sympathy with the striking railroad men of Great Britain, the government's official report on the situation, issued at noon, announced a continued improvement in actual conditions.

The train service had been bettered, the communique asserted, more than 500 trains having been run yesterday, inclusive of those in operation in the subway service. Additional railroad men had returned to work, it was declared.

"Arrangements have been made to replace the bus men and the tramway men should they strike," the communique announced. It was added that the movement of food was proceeding remarkably well.

It was expected that the transport workers would demand a general strike by all trades, but J. H. Thomas, the railway men's leader, on entering the meeting, said he is still using all his influence to confine the dispute to the original participants, the government and the railway men.

WORLD NEWS EVENTS

COPENHAGEN, (AP)—The breaking of the Bolshevik lines at Bulata by the troops of the Finnish General Bakalovitch, is reported by the Noxo Rossiya, says a dispatch from Helsinki received here. Whole divisions of the Bolsheviks are declared to have surrendered.

BERLIN, (AP)—The German national assembly re-opened here Tuesday and adopted the emergency budget through all its stages without debate. Gustav Noske, minister of defense, told the committee on military affairs that German forces which were recently about four hundred thousand, are being rapidly reduced, as enlistments are forbidden.

VIENNA, (AP)—Bucharest dispatches announce that General Vaitoiannu, former minister of public works, has completed a new cabinet of which every member but one has announced his adherence to the policy of former Premier J. J. C. Bratianu in refusing to sign the treaty of peace in its present form. The meeting of the constituent assembly has been postponed a fortnight.

SAN FRANCISCO-OAKLAND RAILWAY MEN ON STRIKE

Walkout Follows Refusal of Company's Offer to Arbitrate the Wage Demands

OAKLAND, Cal. (AP)—Employees of the San Francisco-Oakland Terminal railway which operates traction lines at Oakland and Berkeley struck today to enforce their demands for higher wages. The walkout followed a meeting at which the company's offer of arbitration of the wage demands was refused. Three hundred thousand passengers travel on the lines daily, it is said.

FOREIGN TRADE GROWING

Statistics for Year Show Big Balance in Favor of United States

WASHINGTON, (AP)—The United States trade with foreign nations has grown enormously and reached ten and one-half billion dollars a year with a balance in favor of this country amounting to \$4,132,000,000. Statistics for the year ending August 31, just issued by the department of commerce, show that the year's commerce exceeded that of last year by more than one and one-half billion dollars. Exports for the year were \$7,415,000,000 and imports \$3,283,000,000.

PACIFIC COAST SHIPYARD WORKERS WALK OUT AS SHIPPING BOARD SUSPENDS WAGE AGREEMENT

SAN FRANCISCO, (AP)—Shipyards workers in San Francisco, Tacoma, Portland and Los Angeles struck today following the proposed suspension of a wage agreement by the United States shipping board. The shipping board in a later announcement said the advanced wage might be paid if the government were not forced to meet it in any way. The shipyard workers at Seattle did not strike. They received word from James O'Connell, vice-president of the metal trades division of the American Federation of Labor to remain at work. The number of men on strike in the shipyards had not been determined early today.

In Portland workers in two wooden shipbuilding yards struck, but steel shipyards were operating as usual.

DRENCHING RAINS CANNOT DAMPEN ENTHUSIASM FOR THE COUNTY FAIR

Promoters and Supporters of Annual Farm Exposition Not Dejected Over the Unpropitious Weather First Day—Sure of Better Conditions—Wonderful Display of Produce and Stock—Air Flight Big Feature

Despite drenching showers, visiting the county fair area intermittently yesterday, diminishing attendance perceptibly, enthusiasm in the exposition stands at peak, while optimism for unbounded success for the 1918 enterprise is in the air. The promoters and commissioners are confident that the weather will clear and provide opportunity for the extraordinary attendance anticipated.

Keeps Attendance Down

Attendance figures for yesterday are available, but the sum total is unfortunately a lamentably small, that fact is self-evident. During the morning hours threatening weather kept people away in expectation of clearer skies later in the day. At noon there was a show of better weather and folks began to flock through the turnstile, only to be caught in spiteful showers later.

Weather was fair, but showers prove it has muddled up the areas and made walking unenjoyable. The race track was closed by heavy showers and races were not at all satisfactory.

Notwithstanding all these deplorable circumstances, the interest in livestock, produce, machinery and work exhibits continues.

RESERVATIONS FRENCH ISSUE

Official Count Shows Slight Majority for Vote of Confidence

PARIS, (AP)—Opponents of Premier Clemenceau were jubilant for a few moments in the session of the chamber of deputies yesterday when an unofficial count on the vote of confidence he had asked, showed 301 votes against the government and only 292 in its favor. The cheering, however, revealed that there had been a stuffing of the ballot box, the official count showing the adverse vote reduced to 188, so that the government's majority although relatively slight, seemed satisfactory to the ministry benches.

The chief argument of Deputy Lefevre, in presenting his resolution was that he was not proposing an amendment to the peace treaty but that it was a motion that was proposed in the American senate and which was voted by the British parliament. His resolution would instruct the government to seek the addition of a rider to the Versailles treaty, calling for the farther disarmament of Germany. He disclosed any intention of playing politics, but government supporters expressed their opinion today that there was a mere tactical move in the "general offensive" against the Clemenceau cabinet.

It was plain that an active lobby campaign was in progress before the opening of the session. When the final figures were proclaimed the opposition to the French usage counted against the government and made M. Clemenceau's majority exactly 113.

Debate on the treaty now has been going on for six weeks and minutes of the session cover 700 columns in the official journals of which only 200 have been used by government orators.

Reds 0 2 1 1

REDLAND FIELD, CINCINNATI, O. (AP)—The Cincinnati Reds won the initial game of the world's series of 1918 today by the overwhelming score of 9 to 1. The heavy hitting of the National leaguers combined with the fast ball of Eddie Cicotte, the White Sox star twirler, was forced to retire stood out as the features of the opening contest. The hitting of Walter Reuther was the outstanding brilliant performance of the Reds, the score being getting three hits out of three times at bat, including two triples. Reuther's pitching was also of the highest class.

Umpire Higler announced the batter as Reuther and Wings for Cincinnati and Cicotte and Schalk for Chicago.

The ground rules were announced as two bases on a ball hit into left field crowd and three bases in the right field crowd.

BELGIAN KING ONLY REPORTER TO BE MONARCH

Previous Experience of Visiting Ruler When He Worked on American Newspapers is Recalled

SPIRIT DISPLAYED WHEN GERMAN HORDES INVADE

Long Record of Acts of Bravery and Benevolence Endear Royal Pair to Their Subjects

NEW YORK, (AP)—Albert I, King of the Belgians, the only newspaper reporter who ever became a monarch, is 44 years old and is one of the most picturesque figures of the Great War. The king took a post-graduate course in "newspaper" training in 1908 when, somewhat like Peter the Great, he visited the alps of France, Great Britain, Italy, Germany and Scandinavia, to learn everything possible regarding ocean carriers with the expectation at some future time of putting Belgium high in the class of maritime powers. Several years previously, it is said, when merely the son of the Count of Flanders, a nephew of King Leopold, he came to the United States and worked as a reporter on one or two newspapers in the northwest.

Clears Family Record
Succeeding to the crown on December 23, 1909, Albert I. endeared himself to the 7,000,000 people of his little kingdom. The abuses of the Congo, which had brought upon the head of his great uncle Leopold the condemnation of the civilized world, were abolished and the king and his beautiful consort faced the prospect of a long and happy reign in a country where "tramp, 101ers and soup houses are unknown."

Then came the war. The king of the Belgians might have yielded and escaped much of the hardship and suffering that was the lot of himself and his people for more than four years. Honoring not the specious promises of the Germans to pay Belgium huge sums for

the privilege of crossing her soil to attack France, the gallant king rallied his army of 300,000 men and placed himself at their head to fight the invader. When the German armies violated at Ypres the neutrality of the little nation they were pledged to protect and with the most stubborn resistance from the valiant but numerically inferior Belgians at the forts of Liege and Namur.

Spares Not No Rigors
During the great conflict King Albert spared himself none of the rigors of the soldier. Often he exposed himself to shell fire and aviators' bombs hurled about him. Once a German shell tore off the wheel of the automobile in which he was riding. At another time a chauffeur who had been promised \$200,000 for the king's escape, was shot dead as he endeavored to drive the royal car into the German lines. Hardly a day passed that he was not in jeopardy of his life and kille of others were the constant threat to injure him not to expose himself.

"My skin is of no more value than yours," he told his heroic soldiers as they retreated from Antwerp. "My place is on the firing line!"

Ancestry is German
Although his mother was a Hohenzollern princess and his wife a Bavarian princess, and although in his youth he had been educated in Germany, he maintained an independence of character that irritated the former Emperor of Germany. The latter, among other honors before the war, conferred upon Albert I the title of honorary colonel of the Mecklenburg regiment, an act which the Belgian press construed as an effort of the German ruler to gain an influence over the young king.

An indication of Albert's spirit came when Belgium was invaded. In taking command of his troops on August 9, 1914, he said: "My neighbor, humanity in its strength, without the slightest provocation, has torn up a treaty bearing its signature and has violated the territory of our fathers because we refused to forfeit our honor. It has attacked us. Being its independence threatened, the nation trembled and its children sprang to the frontier, valiant soldiers in a sacred cause. I greet you in the name of Belgium, a fellow citizen who is proud of you!"

Paris Shows Appreciation
One year after Belgium's heroic resistance to the German flood, the people of Paris, in gratitude and affection for King Albert presented to him a gift sword of Sainte-Etienne steel, the design of which was wrought by the sculptor, Fetsu. Upon the band ornamented with panoplies of steel upon gold, was a tribute written by Jean Richepin.

"No thoroughfare" is the inscription upon the guard at the foot of the statue of the king, a statue of brass five gold representing a young athlete upon the defensive, brandishing a club.

On Friday, November 15, 1918, after years of bitter privations, King Albert returned to his native Belgium, his devastated but beloved capital amid the loud acclamation of the people.

Queen is Talented
Queen Elisabeth, who was married to King Albert in 1906, as the Duchess Elizabeth of Bavaria, was described at the time as "a strikingly handsome woman." The marriage was quite generally supposed to have been a genuine love match. Three children have been born to them, the heir apparent, Prince Leopold Duke of Brabant, born November 3, 1916; a second son, Prince Charles Theodore, born in 1913; and a daughter, the Princess Marie Jose, born in 1916.

The queen is highly educated and fond of music, literature and art. Music is said to be a passion with her and she is an accomplished violinist. She also plays the piano and mandolin with much ability. It is said that she has a marked preference for the old repertoire but confesses to abominating Wagner. Some years ago she developed a talent for dramatic art. She wrote "Rosamund," a play which was produced in Brussels in March of that year and caused a decided stir in the Belgian capital. She is also a skilled horsewoman.

During the war the Queen nursed many wounded soldiers. A daughter of Duke Charles Theodore of Bavaria, a renowned expert, has often the study of medicine herself at the age of sixteen and took her degree of M. D. at Leipzig just before her marriage. Excitingly, food of horses and dogs the Queen before the war, frequently attended the weekly inspection of the royal stables at Laeken when the hundred or more animals were attended by the veterinarians and often gave the most experienced attendants instructions as to proper treatment. Havana Griffons are her favorite dogs and two of them usually stand guard in the royal drawing room.

AIM IS EDUCATION FOR WAR VETERANS

Act Offering Nine Months' Training for Service Men Now Before House

The war service educational act which was introduced in the U. S. senate with the support of the American Legion by Senator Irvine L. Lenon of Wisconsin and which offers to all veterans of the war with Germany nine months educational and apprenticeship training at government expense, has been introduced in the house in identical form by Congressman S. D. Fess, of Ohio, and has been referred to the committee on education of which Congressman Fess is chairman.

As senate bill No. 3000, this measure has been referred to the senate committee on military affairs. Under this proposed legislation, vocational facilities heretofore available only for disabled soldiers, sailors and marines are extended to all veterans honorably discharged after at least six days actual service in the military and naval forces of the United States in the war with Germany.

Veterans who apply for this training are to receive transportation to the college, school, business or apprenticeship institution which they select and sixty dollars a month compensation for a period not to exceed six months. A list of approved institutions for the attendance of veterans is to be prepared by a federal board for war service educational facilities composed of the secretary of war, the secretary of the navy, and four citizens, all ex-service men, appointed by the president with the advice and consent of the senate.

APATHY OF MEXICANS IS SOURCE OF WONDER

Absence of Public Utification in Face of Reported Imminence of Invasion Called Phenomenon

MEXICO CITY, (Correspondence of The Associated Press)—The Mexican people's lack of a spirit of protest and the absence of public utification in the face of the reported imminence of armed intervention is a phenomenon never before encountered in Mexico's history, according to an account of an interview given to representatives of the capital city press by Luis Cabrera, secretary of the treasury, as printed by the Excelsior.

The secretary blamed the press for this seeming lack of patriotism but agreed, in response to the interviewers' suggestions, that the silence of the foreign office in regard to international questions might be the cause for the Mexican papers' failure to give this country's attitude sufficient publicity.

The Biggest Little Word

in the vocabulary of hosts of successful people is the word "thrift."

At first it signifies effort, determination, self-denial—later it means progress, prosperity, affluence.

The sooner you become familiar with the sterner nature of thrift, the earlier will you learn of its beneficent side.

Our officers sound a call to thrifty people traveling success-ward to utilize our savings facilities.

Correcting an Ancient Error

"Certain names always awaken certain prejudices" said the great Frenchman, Joseph Roux. In bidden times, the word "Mangle" was a source of prejudice against laundries. The name is really a misnomer.

Visit our laundry and you will look in vain for any such device as a "mangle". It doesn't exist, for the name is but the unwelcome survivor of a time that is past—something like the superstition that "thirteen" is unlucky, and that passing under a ladder is a harbinger of ill fortune.

Our ironing—the ironing that gives such an attractive and dainty finish to your linens—is all done by special presses and flat work ironers. Each is an improvement over the ironing methods of other days, for there is no rubbing and none of the excessive heat that scorches.

Our washing methods, too, are similarly modern. We secure cleanliness by a clothes-saving process of sousing and rinsing in water of velvety softness, and fluffy suds of a mild, pure soap.

Visit us and you will find much that will please you; much that will dispel old mistaken impressions that have come down from a day now past.

If the heat of summer wears you down, just pack your family washing in a laundry bag and turn it over to us.

You will ask yourself after the first trial why you didn't think of it earlier.

REDS AS CHAMPIONS BRING FAME TO GARRY HERRMANN, THE OBSCURE

Finding of a Baseball Pennant Winning Team Brings Owner of Cincinnati Club into the Public Eye with a Vengeance—Known Now Far and Wide

CINCINNATI, (AP)—Sixteen years ago, on September 11, 1903, the name of August Herrmann was heralded throughout the width and breadth of the land where baseball flourishes as the chief justice of the national pastime. At that time he was incidentally known as the new owner of the Cincinnati Reds. This condition of public mind had not changed until late in July of this year when the Reds assumed a lead in the National league race.

Today "Garry" as he is known, not only to his intimates but to the baseball public in general, is chiefly recognized as president of the Reds, champions of the National league, and only incidentally as chairman of the national baseball commission.

Has Many Friends

In this city Herrmann numbers his friends by the tens of thousands and there are a large majority of those who do not hesitate in saying that when baseball gained a leader in August Herrmann, politics lost one. He was associated with the late George B. Cox, as a member of the executive board of the republican party in Hamilton county, and while in late years he has taken no active interest in guiding the destinies of the G. O. P., he still is able to wield an influential arm in the party conferences.

was born and raised in Cincinnati and during his early career was a printer on the Cincinnati Enquirer. He still belongs to this union.

While Garry Herrmann never has been accused of being superstitious he let it be known during the latter part of July that all plans of the fans to do wonderful things for the Reds if they won the pennant, would most certainly be frowned upon by the club management. This brought to mind a little sidelight to the league race of two years ago when the Reds were almost daily alternating between "first and second positions during the middle of July. At that time a bunch of enthusiastic rooters started out subscription lists to have money pledged to send the team on a trip around the world and it had hardly been started before \$35,000 had been pledged. No one ever will know to what proportion this post would have grown, for at this stage the team began to lose and on their return from disastrous eastern invasion they were practically out of the race and the pledgers never were troubled for the money.

It was while Herrmann was one of Sox's chief lieutenants that the question of purchasing the Cincinnati baseball club from the late John T. Brush, was broached to him. While he had always been interested in baseball, purely from a fan's viewpoint, he never had been interested in the club financially. The plea that the club should be owned by Cincinnati people only (Brush being from Indianapolis), appeared to Mr. Herrmann and he was induced to form a company with the object in view of purchasing the Reds. He succeeded in putting through the deal and this led to his study of baseball political conditions as they then existed, the celebrated war between the National and American leagues springing up in his mind to him that he had by no means anticipated.

He's a Pacifist

Mr. Herrmann was really the prime mover in bringing about peace between the two leagues and he was the man who suggested and did the most work on the now renowned peace agreement which really put baseball on an organized basis.

For years both Mr. Herrmann and his associates in the Cincinnati club staunchly supported a losing proposition but despite this they erected a magnificent concrete grandstand which is known as Redland field. While numerous fans have insisted that the men would do better with Herrmann off the national commission no one ever has accused the Reds' president of not doing all in his power to gather together a pennant winning combination. During his presidency, he obtained such men as Did McPhee, Joe Kelley, Clarke Griffith, Hank O'Day, John Gausel, Joe Finkler and Christy Mathewson to lead his team, but it remained for Pat Moran to succeed where the others had failed.

Once a Printer

Herrmann probably is the best known man to baseball men, inasmuch as he has had much to do with both major leagues as well as having become familiar with the owners and players of every minor league in organized baseball through his position as chairman of the commission. He

TWIN FALLS DAILY NEWS

Gary Declares Union Control Causes Decay

(Continued from page one)
said Judge Gary, "The lowest wages paid by the corporation to unskilled labor working ten hours a day are 42 cents per hour in our basic eight-hour day plan..."

"The highest earnings of rollers is \$2.00 per day. They roll the hot metal into sheets."

"No, that is the highest," said Mr. Gary. "The general average wage of all manufacturing plants, not including executives, employees and salesman on July 1, 1918, was 96.57 per cent."

Hours Question Important
He explained that some men work eight, some ten and some twelve hours a day. Men are permitted to work only eight hours, he said, when the labor is unusually hard.

"This question of hours is important," he observed, "and I desire to go into it fully later."

The present average wage of unskilled laborers of the corporation, the witness said, is 85 per cent and of the skilled \$3.70.

"Under the open-shop practice," he said, "the man is treated according to his merits."

Judge Gary said 69,284 of the corporation's employees worked a twelve-hour day; 109,896 a ten-hour day and that \$5,904 averaged an eight-hour day.

The witness said the general average of wages in manufacturing plants of the corporation was \$2.33 in 1914 and \$3.27 in 1918. In the coal and coke works, the average in 1914 was \$2.74 and in 1918 \$5.20; in the iron works the averages were \$2.75 and \$3.71 while in the corporation's ship-bulldozing yards this year the average was \$3.53.

In transportation work of the corporation, he said, the 1914 rate was \$2.11 against \$3.57 per year. Miscellaneous employees received \$2.26 in 1914 and \$4.48 this year.

"How much do you pay superintendents?" asked Senator Kenyon. "As high as \$7,000 or \$8,000 a year."

One Man Gets \$32
"How many rollers have you at \$3?"
"I believe there's only one, but there are many at \$20, \$28 and \$27 a day."

"Ten or twelve?"
"Of, more than that."

"Is it not the fact that up-to-date rolling mills are automatic?" Senator Phelps interposed, "and that the rollers' main job is to keep that his rolls are properly adjusted?"

"You're right," said Judge Gary. "The high pay is for his skill. None of these men perform manual labor. He touches a button, or pulls a lever."

"What I'd like to know is what caused this strike," interrupted Senator Walsh, Democrat, Massachusetts.

Cause of Strike
"Judge Gary, Mr. Gompers and Mr. Fitzpatrick told us the cause of this strike was your refusal to meet the men's demands," Senator Kenyon said. "That ought to bring us to the point."

"They ought to know, they called it a strike," he said. "There was no reason for this strike. The men didn't want it. It was the union leaders who wanted the strike."

"How do you know the men were satisfied?" asked Senator Johnson, Republican of South Dakota. "You were not in the mills, among the men, were you?"

"They have told the officers of our corporation so," Judge Gary said. "Our foremen and superintendents know well. Our men are not content with foremen and superintendents at any time and make complaints and get adjustment. They can even come before the chairman of the board, if they desire. It is always our practice and they know how the men feel."

Election of secretary-treasurers yesterday resulted in the following selections: Secretaries, Helen Lind; Juniors, Wilbra Stearns; Sophomores, Vera Cook; Freshmen, Alma Baker. Some delay was caused by the presence of three candidates in both sophomore and junior classes.

Considerable pep has been injected into the football practices of the past few days by Coach Nafziger, who has donned gridiron togs and "smashed the line." Stronuous work has resulted in the crippling of several of the boys, a few of whom will be unable to participate in the game at Rupert Friday.

men of the big plant on a basis of about 25 per cent capacity. Officials of the company report the tin plate mill running, six-blast furnaces and twelve open hearth furnaces in operation. Union leaders dispute these claims and insist that the plant is not producing more than ten per cent of its capacity.

There was a report in circulation that the steel company was considering a plan of shutting down the Joliet, Ill., and Milwaukee, Wis., plants and bringing the men in those cities who desire to work to the Gary plant.

No disturbances were reported. Although there was a large force of union pickets on duty, no attempt was made to interfere with the men returning to work.

Bedbugs Get Gas Intended for Hun

PARIS, (AP)—The days of the bedbug are numbered as a result of the discovery that poison gas intended for use against the Germans can be utilized to kill vermin, according to Professor Roux, director of Pastour Institute.

It is suggested that the gas or chemicals that form the gas can be sprayed into a closed room and left to asphyxiate the bugs.

WHITLEY COUNCILS

One of the interesting possibilities of the labor and industrial conference called by President Wilson to meet on Monday in Washington is the adoption of some means of removing causes of dispute and of conferring a larger degree of participation by labor in the management of industry along the lines of the Whitley councils of England.

Whitley councils, so-called after the Scotch manufacturer and member of a British ministry of reconstruction committee who proposed them, have been established in more than fifty important British industries. There is a separate joint standing industrial council, as they are officially named, for each industry accepting the plan.

In addition to the national council, district and local boards are created to handle problems arising within their jurisdiction. Both employees and workers are represented on the boards which deal with the general policy of the factory, the efficiency of the plant and similar matters, as well as with possible sources of friction between capital and labor.

That those who work with their hands ought to be encouraged to assume a larger share in the management of the industry in which they are employed cannot be denied by anyone who has given the subject any consideration in the light of possible improvement.

Whether the Whitley plan or some other is best adapted to this end, remains very largely a matter yet to be determined.

It has the advantage of having been tried out to some extent; and certainly is worthy of all due consideration.

JOHNSON GIVEN GREAT OVATION

Vociferous Welcome Greets the California Senator in His Home State

SAN FRANCISCO, (AP)—Senator Hiram Johnson was acclaimed vociferously by hundreds of his townpeople who met him as he arrived in San Francisco last night to combat the league of nations covenant, in his home city and native state.

Senator Johnson's train was more than three hours late, but notwithstanding this the ferry building and the Embarcadero surrounding it was black with friends and townspeople who had waited to receive him.

At the reception stand Senator Johnson again was greeted with long cheering from those who had waited outside the building. Here he thanked the crowd for its welcome, expressed his pleasure at being home and briefly told the object of his visit.

"I am here, my friends," said the senator, "to preach to you the doctrine that this country of ours is for Americans, and to ask you to unite with me and with the other men in Washington who are making the good fight here, with us that there shall be no khaki-clad boys of ours sent to fight on foreign lands, what are no concern of ours."

Senator Johnson often was interrupted by cheers and he was applauded and cheered for a long period after he completed his talk. The demonstration delayed considerably the start of the automobile that was waiting to take him home.

The senator will leave San Francisco for southern California Thursday night to make further addresses.

Following his California tour Senator Johnson is to speak in Portland, Ore., and Seattle and Spokane, Wash., from Salt Lake City, if time is found. Senator Johnson plans to attempt to return to Reno, Nev., another city visited by President Wilson, to speak against the league. Denver, Col., also is on his itinerary.

WOMAN PRESIDES IN UTAH HOUSE VOTING SUFFRAGE

Senate Bill Makes Appropriation for High Costs Investigation

SALT LAKE CITY, UTAH, (AP)—A woman member of the Utah house of representatives, Mrs. Anna T. Pierce, officiated as speaker Tuesday when the resolution providing for ratification of the national suffrage amendment was unanimously passed. Another woman member of the house, Dr. Grace Stratton Airey, moved the adoption of the resolution, which was passed in the senate Monday.

Initial introduction of the resolution in the senate yesterday also was by a woman member of that body.

Today's action completes ratification of the resolution, which was legislative.

Six bills were introduced in the senate Tuesday. What is considered the most important of these is one providing for an appropriation of \$10,000 for an investigation of the high cost of living in this state.

A resolution favoring the league of nations covenant and memorializing congress to adopt the peace treaty without reservation, was adopted in the house 30 to 14.

ENGLISH MOTOR MAKERS FEARFUL OF COMPETITION

Government Import Policy Opening Doors to American Manufacturers Arouses British to Sense of Danger

LONDON, (Sp) — Announcement of the government's import policy, by which it is possible for American automobile manufacturers to once more operate in the British market, has aroused English manufacturers to a sense of their danger, with the probability that the Society of British Motor Manufacturers will make representations to the government.

Fears Flooded Market. "If imports are unrestricted," said Mr. McCormick, one of the leading members of the society, "there is grave danger of the British market being flooded next season, and the efforts of British manufacturers toward mass production will be frustrated. Thousands of people who might have found employment in the motor industry will thus be idle, and British manufacturers will be compelled to revert to the present practice of making small quantities and consequent high costs. It was American legislation that built up the American trade. Why can't British legislation build up the trade here?"

World Setback. One motor car company announced it would retaliate by selling cars in the United States. It believes there is a good market there for high grade British cars, that shipping facilities will soon be available and that it will then be practicable to "carry the war into the enemy's country."

Makers of smaller and cheaper cars will have a more awkward position to face, for falling government protection, they must bear the full brunt of the enemy onslaught.

REFERENDUM VOTE ON PROHIBITION HELD VALID

COLUMBUS, O., (Sp) — The state supreme court Tuesday affirmed the lower state courts in holding valid a proposed referendum on action of the state legislature in ratifying the federal prohibition amendment. Petitions calling for the referendum which have been filed with the secretary of state for a vote at the November election.

MINE WAGE CONFERENCE IS WITHOUT RESULT

BUFFALO, N. Y., (Sp) — The fourth day of the wage conference between operators and miners of the central soft coal field began with none of the vital questions solved and with the strike of 400,000 miners on November 1 still a possibility.

The issue raised over the war time contract was brought squarely before the joint conference this morning by Acting President Lewis of the miners, who had begun with none of the vital questions solved and with the strike of 400,000 miners on November 1 still a possibility.

MEXICANS SEND ORDER TO FIRE ON AVIATORS

NOGALES, ARIZ., (Sp) — Gov. Adolfo de La Huerta of Sonora, received a telegram from Mexico City Tuesday authorizing him officially to deny the report received by El Nacional, a New Mexican paper published in El Paso, Mexican port published in El Paso, Mexican port published in El Paso, Mexican port published in El Paso.

PROPOSES ABRIGATION OF STREET CAR FARES

Massachusetts Man Tells Federal Commission Free Operation of Moving Highways Good Business

WASHINGTON, (Sp) — Street cars and trolleys run by cities as elevators are operated by owners of skyscrapers, without charge to passengers, Ralph S. Bauer, president of the Associated Boards of Trade of Essex county, Mass., told the federal electric railways commission Tuesday. The business community should be glad to buy the cars, he said, because car owners are "messengers of prosperity."

NOTICE TO CONTRACTORS

Notice is hereby given that the Mayor and Council of the City of Twin Falls, Idaho, will receive sealed bids and proposals on the 13th day of October, 1919, at the hour of 8 o'clock p. m., of said day, at the Council Chambers in the office of the City Clerk of said City.

City Clerk of said City in the Water Works Building, at the corner of Second Avenue North and Second Street North in said City, for the work and furnishing the material in the construction of a conduit to connect the waters of the canal of the Twin Falls Canal Company in 8th Avenue East and Eighth Avenue North in the City of Twin Falls, Idaho, from Blue Lakes Avenue on the Southeast to Addison Avenue on the Northwest.

The data as to the exact location of the said work and the plans and specifications of said conduit can be ascertained from the City Engineer of the said City of Twin Falls, at his office in the Water Works Building at the corner of Second Avenue North and Second Street North in the said City. Copies of the plans and specifications of said conduit can be obtained from said engineer by application therefor and the deposit of the sum of ten dollars which sum will be returned upon the return of the said plans and specifications.

The person, firm or corporation securing the contract for the doing said work and furnishing the said material will be required to commence the performance of the terms and conditions of the said contract by him or it to be performed at once upon entering into said contract, and must insure the performance of the terms and conditions of said contract by him or it to be performed with dispatch and diligence until completion.

Each bid and proposal must be accompanied by a certified check upon some reliable bank, payable to the City of Twin Falls, Idaho, in an amount equal to ten per cent of the amount bid. In the event that the successful bidder does not enter into a contract with the City of Twin Falls for the performance of the said work and the furnishing of the said material the said check will be retained by the City and the said bidder shall forfeit the same to the City. The checks of the unsuccessful bidders will be returned to them at the time of the rejection of their bids and proposals.

The person, firm or corporation obtaining the contract for the construction of the said conduit will be required to furnish the City with a good and sufficient bond in some reliable surety company in an amount equal to sixty per cent of the amount of the contract price, conditioned for the faithful performance of all the terms and conditions of the contract by him or it to be performed, and conditioned further for the faithful performance of the terms and provisions of the statutes of the State of Idaho, in such case made and provided.

Payments upon said contract will be made as follows: 90 per cent of the City Engineer's estimate of the amount earned under said contract during each calendar month will be paid on the first Tuesday after the first Monday of the following month and so on each month; the 10 per cent earned during each month will be retained until the completion of the contract and the acceptance of the work by the City Engineer. Said conduit will be enclosed and the material used in its construction will be concrete.

The Council reserves the right to reject any or all bids.
E. J. OSTRANDER, Acting Mayor.
W. A. MINNICK, City Clerk.

Falls, which lists and the boundaries of which district are mentioned and set forth in Ordinance No. 271 of the said City of Twin Falls, passed September 8th, 1919.

Plans and specifications of said sidewalk can be seen and obtained at the office of the City Engineer of said City of Twin Falls, in the Water Works Building at the location hereinafter described. The said work must be commenced at once upon the letting of the contract and proceeded to completion during the fall of 1919. There must be accompanied with each bid a certified check upon some reliable bank in an amount equal to ten per cent of the amount of the bid, which check shall be made payable to the City of Twin Falls, Idaho, in the case of the failure of the successful bidder to enter in a contract for the performance of said work with the said City upon the terms of his bid and proposal, then the said check shall be forfeited to the said City and become its property. The check of the unsuccessful bidders will be returned to them upon the rejection of their bids and proposals.

to them upon the rejection of their bids and proposals. Payment for said work will be made in the warrants or bonds of the said City, which warrants or bonds shall not be a general obligation of the City but will be a lien upon the property benefited by the said improvement as shown by the assessment for said improvement. Payment for said work will be as follows: 90 per cent of the amount earned during any calendar month, as shown by the estimate of the City Engineer of said City, will be paid on the 1st Tuesday after the 1st Monday of the following month, and so on until the work is completed. The 10 per cent withheld each month will be retained until the work is completed and accepted at which time the whole amount due will be paid.

The Mayor and Council reserve the right to reject any and all bids.
E. J. OSTRANDER, Acting Mayor.
W. A. MINNICK, City Clerk.

AERIAL STUNTS

THREE THROUG

Birdman Bruce Gives Rare Exhibition of Flight at the County Fair

Birdman Bruce moved to the gathering at the county fair yesterday and no lot of "hunk" has been contained in the press accounts of his aerial prowess preceding him here.

A goodly percentage of persons attending the county exposition of the opening day have seen air flights before, and are quite familiar with the details accompanying the general performance of these. They were not prepared for an exhibition under the auspicious conditions such as prevailed yesterday over the flying field, as was given by Bruce.

Full wings that carried nose tines that dangled, and that created wonderful and flops that forced almost suspended audience and thrilled the watching element, as well as straight away "dive" formed the program of the afternoon. Bruce won the admiration of all who saw the performance. Three prizes in more elaborate apparatus than if the weather clouds.

Fair Features

Tomorrow is Twin Falls Day. Should bring out the crowd of the season.

A spongy track captured partialment of track events yesterday.

The fair association will publish newsboys representing Twin Falls papers in the grounds today. The carnival features will be as free as the gate to these. They must be accompanied by a sponsor.

One of the most interesting features of the fair is found in the War-Guide department. Every conceivable relic of war fighting is to be found here. Even an old iron, said to have been worn by Bill Tipton, is on display. A well covered helmet, once the property of Von Hohenzollern, is on display, together with a gold engraved award.

Don't lose anything of value in your automobiles. Yesterday, a Elter doctor lost an instrument case from his car. A man on the fair ground announced finding it and demanded a reward. The doctor refused for the return of the case and that applied to a policeman. The money was returned and the "finder" was told not to find anything more.

The Catholic Ladies society is helping meet the demand for dining service. This society has a large hall fitted with long tables and equipped with a culinary department. Many hungry ones were served yesterday.

The horse exhibit is declared to be the most complete in the history of southern Idaho.

A full acre is devoted to showing of farm machinery and farm household auxiliaries.

Bull is represented at the fair this afternoon.

Fun is Feature of Exposition

Carnival Company Maintains a "Festive City" of Entertainment

Twenty-five cars were required to bring the Barnard Carnival company's outfit into Ellor for the county fair.

This company has 15 separate and distinct shows; carries a military band and is known on the grounds as the "Festive City." It is a veritable carnival caravan.

The company includes in its entertainment features a wild animal show, with regular stunts; clowns and vaudeville; newly-wed show, where troupe has the smallest family in the state; native Hawaiians; Hen house; Emporium of wonders, displaying athletes in many lines; Indian village, typical of the west; merry-go-round; "The Whip," a new feature of entertainment; Ferris wheel and similar fun phases.

Disposition of General Lee House & Holiday on Twin Falls Day

A general movement has been set on foot for closing tomorrow afternoon, thus providing an opportunity for all Twin Falls people to attend the county fair on Twin Falls Day, October 2.

Thus far response to the urge for closing has been liberal, and by tomorrow it is expected plans will be completed for general closing. The day is to be one of the biggest of the fair, and its program of entertainment commands the attention of every person in the immediate vicinity.

Those who have signed to close tomorrow afternoon are mostly grocers. Others are calling in line today. The following stores will observe the general closing: Shagan Grocery, Anderson, Marked, Conant, Marked, American Grocery, City Marketing, Marked, Prater Grocery, Liberty Market, Star Grocery.

Twin Falls Pioneers are Signally Honored

Mr. and Mrs. Kennedy Packard Accorded Reception on Golden Wedding Eve

A large number of the friends of Mr. and Mrs. Kennedy Packard gathered at the Elks' hall last evening to extend their congratulations and show their love and esteem for these pioneers of the Twin Falls country upon their golden wedding anniversary. Seated with Mr. and Mrs. Packard were their daughter, Mrs. Gus Johnson and her husband, Mrs. Packard wore her wedding gown of lavender grosgrain silk, which was
