Reds Take Advantage of Wil-
liams' Weak Spell in Sixth
Inning and Pile Up Four Runs
After Hod's Smash

FINALS	
Cincinnati Nationals	5 4 0
Chicago Americans	3 3 0

THE BIG PRIZE
The attendance at today's game was 34,570. The receipts exclusive of war tax was \$97,839. The players' share \$35,232.04. Commission's share \$9,785.50.

COMISKEY PARK, CHICAGO, (AP)—Cincinnati won the fifth game of the world's series from the Chicago Americans here today by a score of 5 to 0. Elmer Ellers pitched for the visitors and almost a perfect exhibition of twirling skill. He allowed the American leaguers three hits scattered into as many innings, retired nine of them by the strike-out route and was himself in the plays in the sixth inning that noted Cincinnati's runs. In this round he got a double and had base running handed on third. His support recorded him was flawless. On the other hand Williams, while he allowed but four hits was slightly better as a pitcher. He did not support him as well as Elmer. Reds supported Ellers and the visitors succeeded in hitting at appropriate times. The series now stands Cincinnati four won, one lost; Chicago one won, four lost.

FIRST INNING

First Half—Bath started the game by drawing a pass off Williams. Daubert laid down a sacrifice. Schalk pitched him out at first. Bath easily made second. The play. Grob sent a high fly to Daubert, and Bath held second. Roush's Gandil to Williams. No runs, no hits, no errors.

SECOND INNING

First Half—Duncan fanned. Schalk backed up and made an easy put-out on Kopf's high fly. Neale fanned. No runs, no hits, no errors.

THIRD INNING

First Half—Gandil took Bardeen's grounder in back of first and beat him to his bag. Ellers pitched to Weaver. Bath popped an easy foul to Gandil. No runs, no hits, no errors.

FOURTH INNING

First Half—Daubert hoisted an easy one to Felch. Grob hit to Felch. Ellers pitched to Weaver. Bath drove through Bierberg. The latter was charged with an error. Roush stole second. Schalk allowed the ball to get away from the pitcher and was charged with a passed ball also. Duncan popped to Jackson. No runs, no hits, one error.

FIFTH INNING

First Half—Kopf singled to left center. Neale forced Kopf at second. Bierberg to Eddie Collins; but he arrived safe at first. Neale was out stealing. Bardeen flied to Felch. No runs, one hit, no errors.

Paderewski Makes Sacrifice of Art To Poland's Cause

PARIS, (AP)—(Correspondence of the A. P.)—Interviewed after the signature of the Austrian treaty, Ignace Jan Paderewski, the Polish patriot, declared that he had quite forgotten how to play the piano. The journalist, after asking the Polish composer numerous questions relating to the political situation in Poland, finally queried: "And your art, Mr. Paderewski, have you given it up completely?" "Yes," replied the former artist, "I have forgotten it. I have little time to think of it. I have not played a piano for two years and three months. I do not regret it." "Then he added with a tinge of pride: "I am happy to have sacrificed to the cause of my country what I held most dear."

BLACKS LYNCHED BY GEORGIA MOB

Victims Charged with Having
Shot Deputy Sheriff; Offi-
cial Yields One

LINCOLNTON, GA., (AP)—Jack Gordon and Will Brown, negroes, were lynched by a mob here early today and their bodies burned. The victims of the mob were charged with having shot Deputy Sheriff Roy Freeman and Mayor Fortson near here late Saturday. Freeman is not expected to live. —Mose Martin, another negro, was killed by a posse late yesterday during the hunt for Gordon and several other blacks were whipped for refusing to give information as to Gordon's whereabouts. The lynching took place about four o'clock this morning after Gordon had been taken from the custody of Sheriff Kelly, of Wilkes county, by a mob said to number approximately one thousand persons. The other negro, Brown, was being held by the mob awaiting the arrival of Gordon. The two were strung up on the outskirts of the town and after their bodies were riddled with bullets, they were cut down and placed on a pile of burning pine wood.

WORLD NEWS EVENTS

PARIS, (AP)—The Duke of Aosta has gone to Fiume, being charged by the government to ask Captain D'Annunzio not to extend his operations about that city but to await a decision by the allies relative to the situation, according to advices from Rome.

COPENHAGEN, (AP)—Polish forces have carried the fortifications of Dvinsk, between Old Russia and Poland, after two days of hard fighting, according to Berlin advices. All the city except a portion south of the Duna river, now is held by the Poles, it is said.

COPENHAGEN, (AP)—General Denkinke's troops are within thirty miles of Orel on the road to Moscow, and the Bolsheviks who have been opposing him are surrendering in great numbers, according to a wireless dispatch from the Cossacks' anti-Bolshevik commander received here.

CHRISTIANIA, (AP)—A plebiscite to determine the question of national prohibition of alcohol in Norway was begun today throughout the entire country. During the war, measures limiting the manufacture of beer, spirits and other alcoholic drinks on account of the shortage of grain, had been in effect.

LEAGUE IN DANGER OF GETTING INTO POLITICS

Borah Comments on Hitchcock Presentation of Telegram from League to Enforce Peace
WASHINGTON, (AP)—Senator Hitchcock of Nebraska, presented to the senate today a telegram from the Los Angeles branch of the league to enforce peace saying among other things that "the people of California were overwhelmingly in favor of the league."
References in the telegram to Senator Johnson, republican, drew sharp comment from Senator Borah, republican, Idaho.
"I wish the senators from California will be able to recount his republican losses in Massachusetts," said Senator Borah, in asking that the platform adopted by the democrats of Massachusetts, opposing the league covenant as framed, be put in the record.
Senator Borah commented that notwithstanding the president's wish, there seemed to be a danger of getting the league in every political arena.

POLITICAL MOVE IN TURKEY MAY CAUSE TROUBLE

New Cabinet is Formed in Succession to Ministry Overthrown Following Occupation of Konieh

ASIA MINOR SITUATION IS CONSIDERED GRAVE

Development of Another Difficult Problem for Peace Conference Seen by French in Constantinople Report

PARIS, (AP)—A new cabinet has been formed in Turkey in succession to the ministry of Damad Ferid Pasha which resigned recently, the new grand vizier being General Ali Hiza Tash, according to a Constantinople dispatch. The receipt of the cabinet defines the mission of the new cabinet as being to arrange for the holding of elections and to convene the parliament. The downfall of the Turkish cabinet following the occupation by Turkish nationalist troops of Konieh, is considered in French circles as creating a grave situation in Asia Minor and the development of another difficult problem for the peace conference. The young Turks are thought to be regaining the upper hand in Turkey.

SERBIAN SAILOR HELD GUILTY OF FIRING SHOT

Attack on Steamship Epiro Resolves Itself into Matter of Small Moment in View of Troops

ROME, (AP)—According to reports received by the ministry of the navy there was only one shot fired at the steamship Epiro when she was entering the winding channel leading to Cattaro, last week. This shot, it is said, was fired by a Serbian sailor volunteer from the Rock of Bondi, situated on an island in the channel. Italy has obtained the punishment of the guilty sailor and the substitution of Serbian regular troops for volunteer sailors as guards of the forts along the channel.

TROOPS PATROL STREETS OF GARY WHERE RENEWAL OF DISORDERS IS FEARED

Situation in Indiana Steel Strike Sector Seems Quiet Following Rioting Provoking Mayor's Call for Soldiers; Clashes in Chicago District Do Not Prevent Mill Heads from Attempting to Start Additional Plants

UNION LEADERS INCREASE PICKETS IN EFFORT TO PREVENT DESERTIONS

GARY, Ind., (AP)—State troops today patrolled the avenues leading to steel plants and parts of the city where disorders were liable to develop, four companies having been brought here last night from Indiana Harbor and East Chicago, Ind., where twelve companies were quartered, after rioting was resumed here by strike sympathizers.

BRICKS AND STONES—The situation and asserted that they looked for no material reduction in their ranks. John Fitzpatrick, chairman of the national committee conducting the strike, said many members were being taken into the union every day.

NO STAMPEDE BACK TO WORK IN PITTSBURGH

PITTSBURGH, Pa., (AP)—While a number of plants in different parts of the Pittsburgh district started operations today in various degrees, there was no stampede back to work by steel mill strikers. In the Donora-Monaca area, where there has been a virtually 100 per cent shutdown since the strike began, five small mills had sufficient men on hand to make a start. Company officials said. None of the plants is claimed to be working anywhere near full capacity. About twenty pickets were arrested in the vicinity of steel mills in Monaca charged with unlawful assembly, and five shots were fired at a street car filled with men on their way to work. No one was injured.

DISORDERS IN CHICAGO DO NOT DETER EMPLOYEES

CHICAGO, (AP)—Clashes between strike sympathizers and the police and special deputies during the last thirty-six hours in the Chicago district did not deter heads of steel mills from attempting to start additional plants today, the beginning of the third week of the walkout. Company officials claimed the had assurance that large numbers of men who have been on strike for two weeks would return to work during the day and that many plants which have been idle for two weeks would start up today. Union leaders increased their picket lines in an effort to prevent deser-

PRESIDENT EVIDENCES IMPROVEMENT OPTIMISM PREVADES WHITE HOUSE

Physician Stands Firm in Opposition to Chief Executive's Desire to Attend to Public Matters and Insists Upon Absolute Quiet; Fears Excessive Activity Might Cause Reaction and Continues to Watch Patient Carefully

WASHINGTON, (AP)—President Wilson continues to improve and passed a satisfactory night, said a bulletin issued at 11 a. m. today and signed by Dr. Albert Grayson, the president's personal physician. Rear Admiral Fitzhugh, of the naval medical school here, Dr. Sterling Ruffin, of this city, and White House, Oct. 6, 11 a. m. "The improvement in the president's condition noted yesterday has continued. He had a satisfactory night. (Signed) "GRAYSON, "FITZING, "RUFFIN."

This was the first time Doctors Fitz and Ruffin, who have been assisting Dr. Grayson, have signed the bulletin, which was issued after a consultation between the doctors. Amplifying the bulletin, Dr. Grayson said there was a slight improvement in the president's condition and that he again insisted upon attending to public matters he considered pressing. The president particularly desired to write a message to the industrial conference to be read at the opening session today. Dr. Grayson said he was not yet ready for the president to do any work and would continue to insist that he have absolute quiet. The physician fears that any excessive activity on the part of the president might cause a reaction.

AREO CLUBS PLAN FIRST AIR RACE AROUND WORLD

Appointments of Commission to Arrange for Aerial Derby to Circle Globe Announced
NEW YORK, (AP)—The Aero Club of America and the Aerial League of America today announced the appointment of a commission to arrange for the first aerial derby around the world to be held in 1920. The commission, which is to arrange the air race, is composed of Commodore Louis B. Beaumont, president; Major Charles J. Glidden, executive secretary, and Benjamin Hillman. The members will leave New York, October 10, for a trip around the world to arrange for the race, and will sail from San Francisco November 3. The route for the race around the world, it is said, be announced later.

CONFERENCE TO HUNT CURE FOR PROBLEMS OPEN

Secretary of Labor Tells Delegates Road to Stable Relationship Between Capital and Labor Must Be Found

RAILROAD MEN RECENT DECISION TO STAY OUT

Accept Compromise Proposal of President Giving Representatives to Brotherhoods and Voice to Others Through A. F. L.

WASHINGTON, (AP)—Opening the industrial conference called here today by President Wilson, Secretary William C. Miller of the department of labor told the delegates that a splendid opportunity for service to mankind lay before them. A road to stable relationships between capital and labor must be found, he said.

Mr. Wilson said the world faced the most difficult peace time problem it had ever had to deal with because of the wreckage of war. This, with industrial inflation in all commercial countries, had "plunged have with the relative values of money, wages and commodities," he added. "The effect of these things has been reflected in the high cost of living," Mr. Wilson continued.

Accept Compromise
Representatives of all the railroad brotherhoods, including the four big brotherhoods, participated in the conference. The railroad men accepted the compromise proposal of President Wilson that the four brotherhoods have one delegate each and the fourteen unions affiliated with the American Federation of Labor be represented through the federation's delegates.

Spokesman for Public

The revised list of delegates announced today follows:
Bernard M. Baruch, New York; Robert S. Brookings, St. Louis; John D. Rockefeller, Jr., New York; Judge Elmer H. Gary, New York; Dr. Charles W. Eliot, Cambridge, Mass.; John Spargo, New York; O. E. Bradford, Xenia, Ohio; Ward M. Burgess, Omaha, Neb.; F. C. Coudert, St. Paul, Minn.; G. A. Thomas I. Chubburne, New York; H. B. Endicott, Dedham, Mass.; Paul L. Felix, Cleveland; Henry B. Dennison, Mass.; J. P. Morgan, New York; E. James, Memphis, Tenn.; Thomas D. Jones, Chicago; A. A. Landon, Buffalo, N. Y.; E. T. Meredith, Des Moines, Iowa; J. M. Smith, San Francisco; J. D. Sweet, Cambridge, Mass.; Edward Titus, San Carlos; Charles Lewis Russell, New York; Bert M. Jewell, Washington, D. C.; Lillian Van, New York; George B. Barton, Berkeley, Cal.; Ida M. Tarbell, New York. Chamber of Commerce of the United States:
Harry A. Wheeler, Chicago; Ernest T. Trigg, Philadelphia; Herbert F. Perkins, Chicago; John J. Raskob, Wilmington, Del.; Homer L. Ferguson, New York; J. M. Titterton, Omro, Wisconsin; T. A. Atkinson, Washington, D. C.; U. Barrett, Union City, Ga.

(Continued on Page Five)

DISCOVER PLOT TO KILL WHITES

Arkansas Committee Finds the
Blacks Were to Take Land
After Massacre

BLAINE, ARK., (AP)—Discovery of what is believed to have been a wide spread plot on the part of organized negroes for a general killing of whites in this locality and possibly in other parts of the south led officials today to tighten up on emergency measures and redouble their efforts to apprehend leaders of the alleged organization. The existence of the supposed conspiracy was brought to light by the committee of seven appointed by civil and military authorities following the race disorders there last week through the questioning of negro prisoners. According to committee members the negro captives readily revealed to them the intricate workings of the plot. On Tuesday, October 6, the negroes declared they were day set for the uprising. Women were said to have been members of the organization, led by the attorney, who was known as the Progressive Farmers and Household Union of America. Twenty-one white planters in the area, according to the committee, had been killed in the past. It was asserted, was to be followed immediately by a general massacre of whites, negroes and negroes, led by the negroes over the land and still it. Efforts were being made to connect white men with the propaganda to arouse the negroes and lead them to killing the white residents.

SUPREME COURT OPENS SESSION OF IMPORTANCE

Announced Intention of Government to Push Prosecution of Anti-Trust Suits Draws Interest to Proceedings

WASHINGTON, (AP)—Because of the announced intention of the government to push prosecution of anti-trust cases held in abeyance during the war, the session of the supreme court which began today is expected to prove one of the most important in the history of the court.

Cases pending include those against the alleged Anthracite coal trust, the United States Stevedoring Corporation, Eastman Kodak Company, the Associated Billposters and Distributors of the United States and Canada, the American tin company, the Quaker Oats company and also the Southern Pacific merger case.

Goal Case Comes First

Following the usual custom, the court did no business immediately today. Arguments in pending cases will be heard beginning tomorrow with the first to be heard. The steel case probably will be the second to be argued. Others will be argued at intervals, but under an agreement between the attorneys an ante Quaker Oats company case that case will not be heard until January.

General public interest attaches to another case before the court, that of the right of brewers to continue the manufacture of beer containing 2.75 percent alcohol. Appeals from the lower court, decrees at the time and New Orleans already have been filed.

A case of importance to business interests is the Mechemer stock dividend proceedings which involve the constitutionality of the provisions of the 1918 income tax acts taxing stock dividends as income.

Espionage Cases Pending

Although the supreme court at its last term upheld the constitutionality of the espionage act, a large number of appeals are still pending in cases growing out of convictions under that act. Among these is the case of James Peterson, candidate for the republican nomination in opposition to Senator Nelson, of Minnesota, in 1918, and who was sentenced to five years imprisonment because of newspaper articles he wrote.

James D. Maher, clerk of the court, announces that the number of appeals filed this term is less than during the last term. While there is no explanation of this decrease in the number of appeals, Mr. Maher said he believes it was due to the fact that the lawyers generally are becoming more inclined not to appeal cases of only minor importance.

ANXIETY OVER FATE OF BALLOON CREWS LESSENS

Word from Pilot and Aide of Third Bag Rescued in Case of Ontario to Basis Confidence

ST. LOUIS, MO., (AP)—Although two balloon crews in the national championship race have been missing for four days and a half, anxiety over their fate was considerably lessened last night when it was learned that the pilot and aide of a third balloon reported missing, had landed Thursday and spent three days penetrating the unsettled Parry sound region of Ontario.

The two remaining craft to be heard from are the St. Louis Y, and the Wichita, Kan., entry, both of which took a northeasterly course with slight other competitors upon taking the air here last Wednesday night. Two of the balloons reporting so far landed in the Parry sound region and race officials are confident that the pilots yet to be heard from have landed safely and are now making their way to some point of communication with the outside world.

WOMEN IN UNIFORM BUTT OF BRITISH CRITICISM

Commentators Would Restore Feminine War Work to Respectable and Estimable Service Men

LONDON, (AP)—Woman in uniform is being made the butt of much criticism throughout England. It is the noble of her to get out into it—and now she ought to get out into it on the double-quick" is a commentary by one critic which may be taken as representative of widespread opinion.

Restoration of women to their normal sphere and reinstatement of ex-servicemen in their old positions is urged as reasons for the elimination of uniformed women from public service and welfare organizations.

Brazil Not Fear Prohibition

Brazilian Cares Little for the Strong Drink; But is Fond of Coffee

RIO DE JANEIRO, BRAZIL, (Correspondence of the Associated Press).—Should prohibition ever become effective in Brazil it is probable that few Brazilians would be greatly affected by it. The Brazilian apparently does not care for strong drink.

Coffee is the national beverage and the coffee shops are among the interesting sights of the city. They are to be found everywhere, but are especially numerous in the downtown section and along the principal avenues. The shops are on the street floor, are wide open and contain numerous small tables. Excellent coffee, generally very strong, is served in tin cups at the uniform price equivalent to about 2 1/2 cents a cup.

It is in these shops and while sitting at the coffee table that many Brazilians discuss business and financial affairs, and also watch the passing throng. Many of the shops remain open all night and are well patronized. In fact some of them contain more patrons at night than at any other time. Nearly all of the coffee shops carry an abundant stock of alcoholic liquors, but there is little call for it.

PROPOSED CANON BARS MARRIAGE

Clergymen of Episcopal Church Would Be Prohibited from Marrying any Divorces

DETROIT, MICH., (AP)—Clergymen of the Episcopal church will be prohibited from officiating at the marriages of any person who has been divorced, if the general convention of the denomination to open here, October 8, adopts the report of a joint committee of bishops, clergy and laymen. The report, signed by the bishops of North Carolina, Chicago, Long Island, Lexington and Vermont, proposes a new canon which reads:

"No marriage shall be solemnized in this church between parties, either of whom has a husband or wife still living, who has been divorced for any cause arising after marriage."
A minority report, signed by St. Bartholomew's church, New York, and a member of the commission, would make the canon read:

"No minister, knowingly, after the enquiry, shall solemnize the marriage of any person who has been or is the husband or wife of any other person then living from whom he or she has been divorced."

A similar proposal before the general convention of 1916 was adopted by a majority of the clerical votes in the house of deputies but was defeated by a narrow margin of lay votes. The house of bishops did not vote on the matter.

Under the present canon law of the church the innocent party to a divorce may be married by an Episcopal clergyman if the bishop, after an examination of the court records and consultation with his legal adviser, gives his consent. But even then no clergyman is compelled to officiate at such a marriage.

The proposed legislation makes no distinction between the innocent and the guilty, absolutely prohibiting Episcopal clergyman from solemnizing the marriage of divorced persons.

LAUDS JAPANESE ENVOYS FOR CONFERENCE EFFORT

Premier Hara Praises Delegation for Obtaining Approval of Conventions

TOKIO, (AP)—The day of Marchivian diplomacy was passed and a new era of open diplomacy is arrived, with international affairs managed by cooperation of the powers whether old or new, declared Premier Hara Saturday at a luncheon given in honor of Baron Makino, former minister of foreign affairs and one of Japan's delegates to the peace conference. In view of the struggle going on between the militarists and liberals of Japan, considerable interest has been aroused by the premier's words.

M. Hara praised Baron Makino and his colleagues for obtaining approval of all Japanese conventions except that relative to equality of races, adding: "The fact that some misunderstandings existed in foreign countries concerning the real intention of Japan made the task of the Japanese delegates more severe."

The premier said the new post-war era means that "militarism has been almost entirely discarded and that world peace."

M. Hara expressed the belief that the treaty of peace with Germany would be ratified by the powers at no distant date, although he thought it probable the operation of the treaty would bring up new problems which would require the exercise of care and consideration.

In replying, Baron Makino said Japan must "fall in with the new order of things if she wished to maintain her position as one of the great powers."

CO-OPERATIVE BUYING PAYS

PARIS, (AP)—To combat the high cost of living, the inhabitants of the western suburbs of Paris have hit upon a plan of co-operative buying of food. First results showed a saving of over 30 per cent.

GERMANS COUNTING COST OF WORKING MEN COST

Ninety Million Marks Unaccounted for as the Collectors and Spenders Have Disappeared

BERLIN, (Correspondence of the Associated Press).—Revolutionary financing, as practiced by German soldiers, sailors and working men's councils will be exposed in a forthcoming memorial from the ministry of finance.

According to trustworthy estimates the sums disposed of by local revolutionary tribunals amounted to ninety million marks but the bulk of it is unaccounted for as the men who collected the money and disbursed it, have either disappeared from view or kept no intelligible record of their receipts and expenditures.

Cultivate Worthy Thoughts.

Such are the habitual thoughts, such also will be the character of the mind; for the soul is dyed by the thoughts. Dye it, then, with a continuous series of such thoughts as these: for instance, that where a man can live, there he can also live well. But he must live in a palace; well then he can also live well in a palace.—Exchange.

SIXTY DIE IN MEXICAN PASSENGER TRAIN WRECK

Deaths Limited to Second Class Travelers Composing Most of Load; Derailment Caused Accident

MEXICO CITY, (AP)—Sixty persons were killed Sunday in the wreck of the Laredo-Mexico City passenger train which was derailed between Venegras and Saltillo. Belier expressed that a complete survey of the wreckage will show that at least fifteen more were killed in the accident.

The train left Laredo Saturday and was very heavily loaded, especially with second class passengers, among whom all the deaths occurred. The casualties among the first class passengers were limited to more or less serious injuries. The wreck occurred on the national line and information regarding it was given out here last night at the Mexican Central railway offices.

LONG DISTANCE AERIAL TOURS PROVING POPULAR

Passengers Eagerly Await Establishment of Airplane Routes to Far Reaches of Empire

LONDON, (AP)—That passengers are eagerly awaiting the establishment of airplane routes to distant points in the British empire is shown by the requests for tickets received by a company which operates an airplane line from Folkestone to Paris. On the day when the service opened, the office of the company was besieged by inquiries seeking bookings for all parts of the world. One wanted to make a trip to Venice and another demanded a ticket to Cairo.

Persons with relatives or interests in India have made numerous inquiries to learn how soon it will be possible for them to go there by airplane.

Efficiency

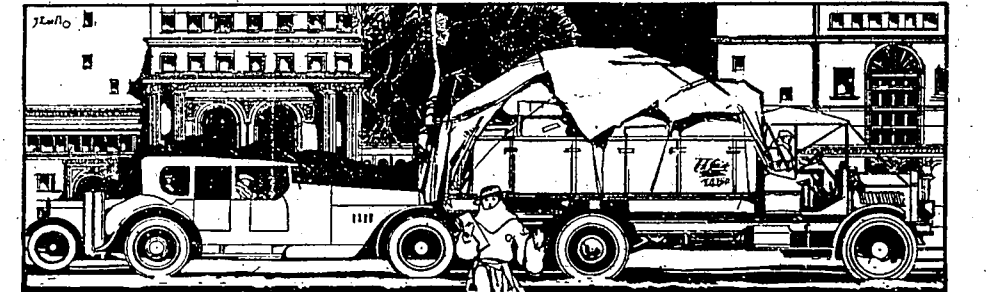

In men and nations means no lost motion—no waste. The efficient man buys without stint the things he wants but he does not waste on things which give no real pleasure or use.

The earlier a man starts to save, the less likely he is to indulge in wasteful habits. Habits are easy to acquire—hard to break.

The habit of putting away what you can spare into a savings account at the First National Bank is a good habit to start. \$1.00 or more as an initial deposit will open an account.

BRITISH RAILROAD LEADERS BOOST BIGGER OUTPUT

Trades Union Officials Take Active Part in Suggestions to Make for Increased Production

LONDON, (AP)—Great Britain's railway system was again in operation today as the result of the settlement yesterday of the great railway strike, averting what threatened to develop into an ominous spread of the nation's labor troubles.

LONDON, (Correspondence) (AP)—British labor leaders have begun a general movement to increase production of industrial workers. Complaints have been made for several months of a decline in the amount of material produced.

LONDON, (Correspondence) (AP)—John Hodge, a member of Parliament and labor leader, expressed the belief that the adoption of the piece system has already applied to the iron and steel industries, would solve the problem.

General A. Appleton, secretary of the W. A. of Trade Unions, urged the men to refrain from political strikes, as the first move toward increased production.

M. Hubbard, a Sheffield leader said: "The surest way of increasing production is to give payment by results."

J. T. Brownlie, chairman of the executive council of the Amalgamated Society of Engineers, was the first trade unionist to advance the idea that workmen must increase production.

ENGLISH RAILROAD MEN SATISFIED

National Union Leaders Declare Settlement is Victory for Labor

LONDON, (AP)—Leaders of the national union of railwaymen who directed the strike which was settled yesterday, declare their satisfaction with the agreement, and their desire to see the Herold, organ of union labor.

"The men stood four square, determined to secure victory or go down together," declared H. Thomas, secretary of the union and leader of the strike.

J. Bromley, secretary of the society of firemen and engine drivers, said the settlement is highly satisfactory. There is greater value in it than appears at first sight.

EMBARGO ON BRITISH SHIPPING IS LIFTED

All Vessels Now Completely Loaded to Be Cleared and Dispatched and Loading Resumed

WASHINGTON, (AP)—The embargo against the sailing of shipping board vessels to Great Britain was partially lifted today by the shipping board as a result of the ending of the railroad strike here.

Agents of the board at Atlantic and Gulf ports were instructed to clear and dispatch the vessels. The vessels now completely loaded and to proceed with the loading of vessels for which the cargo is at the docks or booked.

BUHL TO HOLD GRAPPLE MATCH

Romonoff and Howard, Heavyweights, Will Go to Mat October 10

BUHL, (Special).—K. R. Romonoff, champion heavyweight wrestler of the Pacific coast, and Mike Howard, champion of Denmark, will tangle in a final wrestling match, best two falls out of three, Stone Center, Twin Falls, night of October 10. Tom Parks of Buhl will referee.

As a semi-final, "Young Leonard" of Seattle and Eddie Young of Buhl, lightweights, will box five fast rounds. These boys are both two-fisted ringsters and the match will be a clamorous affair from start to finish.

Howard is one of the nation's great matmen, and conceded to have greater knowledge of wrestling holds than any wrestler living. He has met some of the world's best men in the ring, and his victories over many to his credit. He met Champion Joe Stecher one hour and 17 minutes to a draw. He wrestled Al Sandoz, San Francisco, three hours and 45 minutes to a draw.

NOTED LECTURER SPEAKS TONIGHT

Fred G. Balo, Jurist, Will Open Season's Lyceum Course at Lavinger

Tonight at the Lavinger theatre, Fred G. Balo, lecturer, will inaugurate the season's Lyceum course for Twin Falls. He will speak on "The Fourth Line of Defense."
Fred Balo, although one of the more recent crop of public speakers, is nevertheless, a man of nationwide reputation. He is particularly interested in welfare and reform work, the latter chiefly among the young elements of the country's population.

DENVER HEARS REED ADDRESS

Missouri Senator Holds Close Attention Despite Attempts at Heckling

DENVER, Colo., (AP)—Senator James A. Reed of Missouri, speaking here tonight, read from the earlier writings of Woodrow Wilson and presented a mass of statistical and quoted matter in support of his argument against the league of nations covenant of the peace treaty. Senator Reed held his audience in close attention, and with numerous applause, despite one or two abortive attempts at heckling which were soon suppressed.

His arguments were those he has been presenting throughout his present tour. Senator Reed's audience comfortably filled the main floor of the municipal auditorium here, which seated 14,000 persons and overflowed into the first balcony. He was given an excellent reception when he appeared on the platform.

Governor Oliver H. Shoup spoke briefly, referring to the address of President Wilson, in support of the league of nations, about which age-old he said he believed no Colorado audience would be other than courteous and hoped all those present might learn something of the other side of the question.

Senator Reed opened his address by likening his voice to "a buzz saw going through a pine knot," as the result of constant speaking. He said his audience would be the best evidence of the interest American people take in public questions and elaborated the doctrine that power rests in the people. "This is a democracy," he said, "but it is a 110,000,000 men country." Persons in the crowd started to heckle the senator and were greeted with cries of "put him out." Confusion ensued but ended with laughter when the speaker said "the braying of an ass might not to break up a great meeting."

Referring to the Oklahoma incident, he said, "I never voted for suffrage but at that meeting when one thousand women sat around the lights were turned off it about came to the conclusion that they were good enough to vote." The speaker paid personal tribute to earnest workers for his early recollections. Senator Reed said he desired that Germany enter the war either to regenerate or demoralize the world, but that Germany acts of aggression drew it in.

Brief Bits of Sport

Rain saved somebody yesterday, anyway. Without Cicotte's errors Saturday the teams might have been playing a 0-0 game yet.

Sam Smiley, agobursh sage, says: "Effin the prayers of the Jews for the president ain't any more avail than our folks'." Sox said Hellows mought 'swell save their applications."

Immediately after installing a board of commerce to boost the town Buhl folks go and hang a handicap on the executives of the club by pulling off a heavyweight professional "rasslin" match.

Too bad about that Chicago weather, eh? The weather at the Twin Falls county fair board.

Going, too, is going to have a sport even more than the middleweight boxers, one from Boise and the other from Filer, are to stage a short show.

The series is not over yet, and we have an abiding faith in the White Sox, as well as in the adage, "There's many a Slip 'twixt the Cup and the Lip."

And any slip that would slip the Sox into a world championship now would be some slip, we admit.

By winning two games yesterday from Los Angeles Vernon won the Pacific Coast League title for 1919. The season is over, thanks be.

BASEBALLS COST HEAP THIS YEAR

Globules, Like Everything Else, in Upward Romp—Average \$30 Game

CHICAGO, (AP)—Eighty dollars for baseballs for each game played in the World's series! That sounds big, but nevertheless, that is approximately what it will cost to furnish the principal item for the baseball episode this year.

As in other things, the high cost has hit baseballs, which now bring \$20 a dozen. It is estimated four dozen balls will be used in each game. On this basis, if it becomes necessary to play the entire string of nine games, before the winner is decided, it will cost close to \$1,000 for balls alone.

The reason that so many are used is because balls fouled into the stands or over the fence are returned. During an ordinary game, however, most of the balls which leave the playing field, find their way back.

Manufacturers blame increased prices paid for materials and the high cost of labor for the present price. Horseshoe used in covering the baseballs has increased in cost during the past three years about 250 per cent. The wool yarn has jumped 200 per cent in three years.

The cork center ball was patented August 31, 1906. It weighs 5 ounces and is 8 inches in circumference. This ball will be used in all contests in the National League ball park during the series. Another ball, similarly made, and adopted by the American League, will be used in all contests in the junior league park.

Price of Bread is Boosted in Chicago

CHICAGO, (AP)—Retail dealers today increased the price of bread one cent a loaf. The present price is 11 cents a loaf or two loaves for 21 cents. The bakers raised the price one half a cent a loaf and the retailers added a full cent to the price charged consumers.

Store advertising serves the people who buy. It is not interesting of itself, to those who rarely buy anything. It is not merely interesting, but vital to the buyers for the home. For it is a guide and a service to them.

Ford THE UNIVERSAL CAR

The Ford Motor Company have instructed us to sell the genuine Ford Parts to any and every reliable Garage who will pledge their use in the repair of Ford cars. The genuine Ford Parts are absolutely necessary to the owner of Ford cars that he may get full service from his car. We carry them and so, we hope, in a short time will every reliable Garage. We solicit your service business because we have the Ford Methods, the Ford Parts, the Ford Mechanics and the Ford Prices. Incidentally you will be glad to get your order for one or more Ford cars.

WESTERN AUTO CO. TWIN FALLS, IDAHO

TEUTONS VOICE COMPLAINTS ON FOOD SITUATION

Insistent Protests Against Government Control, Profiteers and Speculators Fill Periodical Columns

COBLENTZ, (Correspondence) (AP)—More insistent protests than ever before against government food control the host of food profiteers and food brokers and the ever increasing speculation in foreign exchange now fill the columns of the food journals and farm magazines of Germany.

Food prices continue very high. This is attributed partly to the low valuation of the mark. The official exchange rate for the mark for September at headquarters of the American force in Germany was 22 marks to the dollar.

Since Germany resumed commercial relations with the outside world, she has been able to import only meagre quantities of necessary and staple foodstuffs, with the exception of fish and milk, the food journals say. There has been a good crop of fruits and vegetables, throughout Germany. Livestock is reported to be about twenty percent below normal with little prospect of enough food to stimulate breeding except possibly of hogs.

WOMEN RAIL WORKERS NUMBERS DECREASING

Practically All Female Employees of Railroad Administration Occupy Clerical Positions

WASHINGTON, (AP)—The number of women employed by railroads in heavy work while the war was on and when men could not be obtained is being reduced steadily, Director General Elmes announced. Women employed in all occupations on federal coal-mining roads July 1, were 4.9 per cent fewer than on April 1, but those working in roundhouses had been reduced 23.6 per cent and in shop work 19 per cent. The total number of women working on railroads July 1, was 89,294, most of them in clerical positions.

You may rest assured of this: If a merchant uses a full page of space in which to tell store news which could have been told in a column, he fails either to serve or to profit. If he uses a column when he needed a page, he makes an even greater blunder.

Member Audit Bureau of Circulations

WITHOUT CAMOUFLAGE

A committee of seven appointed by
civil and military authorities to investi-
gate the race disorders of last week
in the vicinity of Elaine and Helena,
Arkansas, has reported the discovery
of what is believed to have been a
widespread plot on the part of organ-
ized negroes for a general killing of
whites in that locality and possibly in
other parts of the south.

Questioning of negro captives, it is
said, has revealed the purpose of the
plot. Killing of twenty-one white
planters of that district, singled out to
be killed first, was to be the signal
for a general massacre of the whites,
after which the negroes were to take
over the land and till it.

Efforts are being made to connect
white men with the propaganda to
arouse the negroes and incite them to
killing the white residents.

Efforts to connect white men with
the plot may or may not be successful;
but it is certain; if the disclosures of
the committee are true, that propaga-
nda has been employed and that the
propagandists are close kin in spirit to
Lenine and Trotsky in Russia and to
Bela Kun in Hungary.

Such a conclusion is inevitable in
view of a consideration of the aims
and purposes of the bolshevik regime,
the essential elements of which are the
overthrow of all except the proletariat
and the turning over of industry to
those who work with their hands.

Not much danger attends plots such
as have been discovered back of the
Arkansas disorders. The nation is not
ready to accept a bolshevik regime
coming through such channels.

The case in Arkansas is rendered
easy to deal with because of its lack
of camouflage.

Other tendencies toward the en-
thronement of bolshevik ideals in
America exist, but they are not always
to be discerned as readily. They are
more menacing than the abortive at-
tempts in Arkansas. They are harder
to fight, but it is not less necessary
to fight them.

They have, in common with the Ar-
kansas plot, the bolshevik aim to ele-
vate one class at the cost of the de-
struction of another. Wherever this
purpose is to be found there also are
to be discovered the proponents of bol-
shevism; and they must be fought on
their own ground, whether on streets
running red with rioting, in the coun-
cils of the nation or at the polls.

Today's Markets

Grain and Provisions
CHICAGO, (AP)—Corn rose in price
today owing largely to the settlement
of the British railway strike and to
the lifting of restrictions on sailings
from the United States to British ports.
Higher quotations on corn, which has
likewise as a strengthening factor, and
so, too, did the heavy rainfall of Sat-
urday and Sunday. Besides, offerings
were light. Opening prices, which
ranged from 1.14 to 1.16 higher, with
December \$1.25 to 1.26 and May \$1.23
to 1.24, were followed by only a
moderate reaction.
Profit taking sales weakened the
market toward the last. Prices closed
unsettled at the same as Saturday's
1.23 to 1.24 lower, with December
\$1.23 to 1.24 and May \$1.23 to
1.24 1/4.
Oats ascended with corn. Nothing,
however, was heard of any fresh de-
mand from the seaboard. After open-
ing \$4 to 7/8 higher, including De-
cember at 71 1/8 to 71 7/8, the market
ended to sag.
Provisions were sharply higher, fol-
lowing hog and grain. The best bid
was for January lard.

\$1.45 to 1.47; No. 2 yellow \$1.48 to
\$1.50 1/2.
Oats No. 2 white 78 1/4 to 78; No.
3 white 69 to 72.
Rye No. 2 \$1.42 3/4 to 1.48 1/2.
Barley, \$1.37 to 1.33.
Timothy \$8.50 to 11.25.
Clover nominal.
Pork nominal.
Lard \$23.03.
Butte \$15.75 to 19.50.

Chicago Livestock
higher, closing slow; heavy \$18.50 to
10.50; light \$16 to 17.15; heavy pack-
ing sows, smooth \$14.75 to 16.50; pack-
ing sows, rough \$14.25 to 14.75; pigs
\$16 to 18.

Cattle receipts 28,000; slow; beef
steers, medium and heavy, choice and
prime \$16.50 to 18.25; common \$8.75 to
11.25; heifers \$6.50 to 14.75; cows \$6.50
to 11.50; canners and cullers \$5.50 to
6.50; calves \$18.50 to 20; feeder steers
\$7.25 to 12.50; stocker steers \$5.50 to
10.25; western range steers \$8 to 15;
cows and heifers \$6.50 to 12.

Sheep receipts 45,000; weak; lambs
\$13.50 to 16; culls and common \$9 to
13.25; ewes, medium, good and choice
\$6.75 to 8; culls and common \$3 to
6.25; breeding \$7 to 13.55.

Chicago Produce
CHICAGO, Ill. (AP)—Butter steady;
creamery 49 to 51 1/2; eggs steady;
receipts 4,867 cases; first 64 1/2 to 56
1/2; ordinary firsts 46 to 47; at mark,
cases included 47 to 55; storage pack-
ed first 68 to 69 1/2.
Poultry alive, higher; springs 23 1/2-30;
fowls 23 to 24 1/2-26.

Potatoes
CHICAGO, (AP)—Potatoes steady; ar-
rivals 77 cars; Northern Early Ohio,
sacked, \$2.70 to 2.90; Round Whites
\$2.25 to 2.30.

The Wonders of America
By T. T. MAXEY

THE MOUNTAIN KINGDOM OF COLORADO.

AMONG all the mountain kingdoms.
A Colorado — "the Ferdinand state"
stands easily first in physical
adornment. In Colorado 100,000 square
miles contain 155 mountain peaks that
are more than 13,000 feet high. Colo-
rado contains 103,925 square miles.
Of this vast area, as big as all New
England with Indiana added, two
thirds is mountainous.
The state is traversed by the main
chain of the Rocky mountains, the oft-
quoted "backbone of the continent,"
the huge roof-tree of our republic.
Frolic mother of rivers, this great
watershed gives rise to the Rio
Grande, the two Plattes, the Arkansas,
many "meser lights" and the Colorado.
That, in Arizona, passes for 200 miles
between those sheer red walls that con-
stitute one of the scenic wonders of
the world, and flows at last into for-
getfulness, a meagreness of the passing
race that first Europeans saw these
serene, reddish-brown peaks leaning
against the sky. The name means red,
light brown, ruddy, florid and may
even be a synonym for joyousness.
Life is more than an existence in Colo-
rado. It is a scene, ever beckoning
one to come and romp with her. The
sun shines with almost the same regu-
larity as the dawn appears. Colorado
is one of the greatest heritages of the
American people.

He Wanted to Know.
A well-known St. Louis society wom-
an has some very interesting and in-
telligent grandchildren, and this is the
story she tells upon herself. Her little
grandson, looking puzzled, said to her:
"Grandmother, how does it come that
your name is Brown and father's name
is Smith, when you are his mother?"
These are, of course, not the names,
but they will do for the story.

"It explains dear," said grandmoth-
er. "You see, I had several names.
First my name was White, then I mar-
ried your father's father, Mr. Smith,
and I became Mrs. Smith, and that is
your father's name. Then he died and
I married Mr. Brown."
"Ah! where is Mr. Brown?" asked
the child.
"He is dead, too," said grandmother.
"Then what will be the name of the
next man you will marry?"
"Well, I couldn't say right off," said
grandmother. "I'll have to think about
that."

Why Not Raise More Sheep?
The fur that warms a monarch
warmed the bear. But the wool that
warms a sheep makes two good spits
for a man.

Only one sheep in twelve living to-
day is an American sheep, although
Americans require a quarter of all the
fleeces every year.
Farmers and ranchers could double
their flocks and still they would not
supply enough wool for our home use,
declares "Wool" in the Philadelphia
Press. We need in the United States
more than a sheep for every person,
and that accounts partly for your dear
lamb chops and leg of mutton.
But it isn't expensive wool alone
that boosts the price of your new
spring suit.
The wool in a \$50 suit stands the
maker less than a tenth of what you
pay for it.
No, you do not pay ANY of the cost
of advertising. The patrons of non-
advertised stores always pay penalties
for the old-fashioned policies of the
merchant.

Advertisement for Blankets featuring a large 'BLANKETS' graphic and text: 'The cool, nippy nights are calling to the housewife to look after her blanket supply. No other form of bed coverings are as ideal or satisfactory as Wool or the Woolnap blankets because they give the greatest possible warmth without much weight.'

This is Blanket Week At The Big White Store

OUR large, attractive stock of all kinds of Blankets priced right gives you an excellent opportunity to supply your needs now.

Try Grandmother's Old Favorite Recipe of Sage Tea and Sulphur. Almost everyone knows that Sage Tea and Sulphur, properly compounded, brings back the natural color and lustre to the hair when faded, streaked or gray.

TEA FOR THREE

On Thursday, Oct. 3 at the Lavering Theatre "Tea for Three", one of the greatest comedy plays of the past New York season will be offered by The Selwyns, producers.

The play has three acts and a prologue through three changes of scene, the first and third acts being set in the interior of Doris' home. The prologue represents a restaurant scene and the second act bachelor apartments of the leading character, the hero.

"Pals First", which will be the feature at the Gem theatre tonight and Tuesday, revolves around a first-class young man known as Danny Rowland, a criminal, who finds refuge with his underworld pal, Dominic, in an aristocratic Tennessee home.

Indian Games. Although the natives of India do not operate on the stock market, they have adopted a unique form of gambling for which the cotton market reports are responsible.

Antiquity of Gloves. Gloves are of great antiquity, having been worn in England as long ago as in Saxons times. Practically the only change which there has been in their decoration, has been in their decoration. Sometimes they were richly adorned with jewels.

The Wonders of America

By T. T. MAXEY

MEGA VERDE NATIONAL PARK.

In 1888 there was discovered in Montezuma county, southwestern Colorado, the greatest prehistoric ruins in this country. A thorough examination of the canyon of the Mancos river disclosed the fact that it contained extensive examples of the mysterious remains of an extinct race. Uncle Sam decided to preserve and set aside nearly 50,000 acres as a national park—Mesa (Spanish for high tableland) and Verde (meaning green, from the cedar trees).

Many narrow canyons with high, sheer walls open into the valley. In their sides are many of the best-preserved specimens of cliff dwellings, known. A large human population lived in these caves upon the edges of these sandstone cliffs. They believed that they were dependent upon the rains to make the rainfall so their crops would grow and worshipped the sun as the father of all and the earth as the mother who brought all material blessings. Apparently they possessed an written language and recorded their thoughts only by means of symbols.

Cliff Palace, the largest dwelling—a community house—had over 200 dwelling rooms, in addition to many sacred rooms called kivas. Sun Temple, a mysterious sun-shrine like a letter D, is over 120 feet long and 64 feet wide.

As the population of this community increased the floor of the caves was covered with rooms, and finally they emerged from the caves altogether and built their pueblos on top of the mesas in the open country.

A visit to these ruins is like being going back into another world.

Age of Cedars of Lebanon.

Several efforts to calculate the age of the famous cedars of Lebanon now standing have been made by counting the rings in the heart wood of those that have fallen. These estimates, according to Prof. A. Henry of the Royal College of Science for Ireland, in an article in Country Life, vary from 2,230 years to 2,500 years, although it may be that they are of slower growth than the specimens tested in other countries. The largest of the cedars is 13 feet in diameter.

NOTICE TO CONTRACTORS

Notice is hereby given that the Mayor and City Council of the City of Twin Falls, Idaho, will, on the 13th day of October, 1918, at the hour of 8 o'clock P. M., of said day, at the office of the City Clerk of said City in the Water Works Building at the corner of Second Street North in the said City of Twin Falls, receive sealed bids and proposals for the work of performing the labor and furnishing the material for the construction of a five foot in width concrete sidewalk, upon the sidewalk space in front of the lots embraced in Local Improvement District No. 36 of the said City of Twin Falls, which lots and the boundaries of which district are mentioned and set forth in Ordinance No. 271 of the said City of Twin Falls, passed September 8th, 1910.

Plans and specifications of said sidewalk, can be seen and obtained at the office of the City Engineer of said City of Twin Falls in the Water Works Building at the location heretofore described. The said work must be commenced at once upon the letting of the contract and must be completed during the fall of 1918. There must be accompanied with each bid a certified check upon some reliable bank in an amount equal to ten per cent of the amount of the bid, which check shall be made payable to the City of Twin Falls, or order, in case of the failure of the successful bidder to enter into a contract for the performance of said work with the said City upon the terms of his bid and proposal, then the said check shall be forfeited to the said City and become its property. The check of the unsuccessful bidder will be returned to them upon the rejection of their bids and proposals. Payment for said work will be made in the warrants or bonds of the said City, which warrants or bonds shall not be a general obligation of the City but will be a lien upon the property benefited by the said improvement as shown by the assessment for said improvement. Payment for said work shall be as follows: 50 per cent of the amount earned during any calendar month, as shown by the estimate of the City Engineer of said City, will be paid on the 1st day after the 1st Monday of the following month, and so on until the work is completed. The 10 per cent withheld each month will be retained until the work is completed and all bills are paid. The Mayor and Council reserve the right to reject any and all bids.

E. J. OSTRANDER,
 Acting Mayor.

Attest:
 W. A. MINNICK,
 City Clerk.

The Wonders of America

By T. T. MAXEY

OUR MIGHTIEST HOT SPRING.

ALMOST in the center of Wyoming a near a bend in the Big Horn river and 4,350 feet above sea level, nature brought to the surface, for the benefit of all humanity, her most notable work in the hot-spring line. Here, from rough-cut opening approximately 25 feet in diameter, and which may come through from China for all anybody knows—since it has been sounded to a depth of 1,000 feet and so bottom found, there bubbles forth about 18,000,000 gallons of 135-degree hot water, possessing untold medicinal value, every 24 hours.

This health factor was discovered by a wandering band of Indians. When the white man came he named it "Big Horn Hot Spring," because the water was thickly mingled over a 40-foot cliff in a beautiful waterfall to the river below. A city was built by the river. They called it Thermopsis (Hot City), because of its nearness to the spring.

The government purchased the tract on which the spring is located in 1887. It was made a part of the Shoshone, agreed only on condition that a portion of the water be reserved forever free for public use. Later, when the government ceded the land to the state, the same clause was inserted in the patent. Thus this great nature-made artifice for many ill, which has been preserved for the use of everybody for all time. A natural admixture of sulphur, lime, magnesia, iron and silica, this water possesses exceptional restorative properties in the treatment of blood and skin diseases and rheumatism.

Nineveh's Pathetic Ruins.

That Mount Nimrod's cliffs its ancient, almost legendary waters and opposite on the left bank, the dream of antiquity continues undisturbed. There in the blazing sun or in the shimmering Persian moonlight, lie the ruins of Nineveh, the last and greatest capital of the Assyrian empire. The wall of the disappearing city still stands to a height of 60 feet and is 12 miles in circumference. Close by the bank of the river are the still imposing remains of two citadels.

Famous Caves Change Owners.

The Tillywhin caves and the Great Globe at Swinley were offered by auction at Bournemouth, England, but failed to find a purchaser, although the Great Globe and Dorsetton Head Castle were knocked down for \$10,000. The Dorsetton Park estate, on which these landmarks are the Assyrian empire, had previously been offered as a whole, but had failed to find a purchaser.

BLAME PARENTS FOR TRUANCIES

Juvenile Officers Charge Youthful Delinquencies to Home Failure

Seventy-five per cent of school truancies come out of families not numbered among the dependable taxpayers, according to John Ault, local juvenile officer.

Ault declares truancies, as a rule, are the result of shiftless habits in the house; habits that result from a lack of ambition and a "no care for the morrow" attitude.

Concrete Examples

During the past week the juvenile court was called upon to take corrective measures against three delinquent boys who had been found guilty of truancy. One of these was 10 years of age, the other two 15 and 16. Another lad, said to have been one of the prime movers in the crime, has not been apprehended, having fled the town when the officers picked up his trail. He is 15 or 16 years of age, and when he left his mother went with him, officers say.

The other lads are years behind in their studies, one in particular, not having passed the fourth grade. The 10-year-old boy has little scholastic knowledge.

In each instance investigation fixed the burden of responsibility more upon the shoulders of the parents than those of the delinquents themselves. Indifference of an extravagant character by the parents is given as the stimulus to waywardness of one lad. This boy has been permitted to indulge in the steady use of tobacco around the house since he was seven years old, more than half his life. He has been sent to the reformatory.

Parents Is Nominadic

In another case brought to the attention of juvenile authorities last week the father proved to be of a nomadic character. He follows the business of horse-trading, and scarcely ever stays long enough in one place to give his two lads school advantages. These boys were truants from school because the parents did not provide them with books, and, as the boys said, there was no money for them to learn in school. The elder lad said he felt ally sitting among a lot of little fellows half his age who were better educated than he. He played hooky and induced his smaller brother to follow his footsteps. Free text books are not supplied in Idaho. Scores of instances here recorded in the city of books being supplied worthily by individual and institutional charity.

HUNTED WRONG GAMES

Albert Schroeder, 18 years of age, was arrested yesterday by Deputy Game Warden Joseph Fitzsimmons, on charge of shooting pheasant out of season. The young man was found guilty when arraigned before W. S. Mallory, justice of the peace, and paid a fine of \$25 with costs.

Flamingo Nesting Extinction

The flamingo's happy nesting ground used to be throughout Florida and many lovely members of its family could be met with in the other hot countries. Very few of them are left now, however, anywhere in this country and many bird lovers predict that in a few years more they will have been killed off until they will be extinct.

Up-to-Date Youth.

Bobby's father asked him when Moses lived. Bobby said he did not know. His father then read from a book: "Moses 4,000 B. C." and then asked Bobby why he did not know when Moses lived. Bobby replied: "Oh, I thought that was his telephone number."

There's little profit in following the policy of "shopping around" in search of the best price quoted on a commodity. Read the ads.

You're waited in the hope that the price would be lowered. Today's ads show the good tidings.

With Icy Hand Jack Scatters Frost Around

LIKE a whitened specter the grassed area of Twin Falls looked early this morning. Jack Frost, during the night, called, and scattered hoar frost like ashes.

Sunday's mantle, though, was only a whitener than this morning, there being but two degrees variance in the temperature of the two nights. Sunday night the mercury fell to 27 degrees, while last night it was two degrees warmer for the coldest, if you get the meaning.

The high point reached Saturday was 60 degrees, with 30 for low during the 24 hours completed at sundown Saturday, the coldest of the season up to that time. The record has been cracked today. Sunday's high was 64 degrees.

The climatological pedant in Boise says fair tonight and Tuesday.

UP GOES COST OF LOWLY EGG

Scarcity of Product Said to Be Reason for Latest Price Boost

Eggs have joined the high cost parade.

The product of the lowly barnyard rucker is costing more today in Twin Falls than a week ago.

And will be still higher before it is lower.

Assurance that eggs will continue to advance is given by local middlemen who attribute the high price of cost to scarcity of product.

Since the month of July eggs have taken two decided steps forward. During the month mentioned they sold at \$11.50 per case of 30 dozens. The first boost was to \$13.50 a case. This week they are \$15 a case with the sky the limit for the future.

Held Too Long

And eggs that are not guaranteed to the purchaser. In fact the manager of a local commission house has said the average hen-house produce reaching his plant is of decidedly poor quality and of color. Farmers appear to have been so busy with their crops this year, and selling land at the present price apex, that they have had no time to bring fresh eggs to town. The result of holding is said to be very noticeable.

No one can have confidence in an egg these days; and everybody is complaining.

A commission dealer in produce tells of receiving one large batch of hen fruit from a nearby town recently which entailed out 50 per cent, meaning that upon inspection every other egg was found to be unfit for human food. He admits that this is unusual, declaring that eggs produced in this district average much higher in quality than that percentage would indicate. A restaurant man says he cracked three dozen eggs the other day and found four in the 36 fit to use.

Looking Upward

The prediction is that eggs will be very scarce by the middle of fall and winter. In fact they have been scarce more or less since August, the rather low cost in dozen lots being attributed to the known poor quality of the product.

That eggs are being gathered up in heavy quantities for storage in Twin Falls is admitted by at least one commission merchant representing a large eastern concern. This house already has 1200 filled cases on hand, which will be placed on the market probably during the coming winter at a price already fixed for their sale.

Due to the higher cost of eggs restaurant men have considered the probable necessity of raising the cost of that breakfast delectable, ham and eggs to the customer.

COUNTY HARVEST FESTIVAL GOES INTO HISTORY A LOSING VENTURE

Stock and Produce Exposition Closed Saturday with Little More than a Race Meet and Aerial Flight the Recessional Feature—Weather is Disappointing Factor

Visualizing from the point of extent and quality the 1919 Twin Falls County fair was a huge success; from a viewpoint of attendance and weather it was a failure.

Just how much in cash the county stands to lose on the exposition venture is not known at this moment. Secretary J. M. Markel submits no estimate and other officials connected with the management are equally without information. The fact will not be known until a complete audit of receipts and expenditures has been made. This will not be for some days. The deficit, however, will be several thousand dollars or more.

The fair closed Saturday in an great burst of display as conditions warranted. During the morning the carnival features were moved to shipment to another point, and following this the booths and stalls were soon bereft of their display features. Paid admissions for the closing day are estimated at about \$2000.

Aerial Day-Deviltry

The events of Saturday lay chiefly in the races and aerial evolutions, the latter being especially pleasing. Birdman Bruce turned loose everything he had in a few extra trials and thrills for good measure. His command of the machine was superb, at times extremely daring.

Tail spins and loops were the specialties on the edge with excitement. It was when he dropped from a great altitude to within a few feet of the race-track closure, however, that he created the great sensation of the day. It was not a volplane performance, this fall from the clouds, but a regular almost perpendicular drop that gave all the appearance of a "big" dive. The plane fell sheer to within almost touching distance of the field, then gently spread out and swam across the park with grace and the lifted folks from their frenzy and composure lapsed and their cheering. Bruce made out for disengagement occasioned by failure to appear on Thursday.

As on other days when aerial navigation was found feasible Bruce called from the fair grounds to Twin Falls and gave a thrilling exhibition over the city, returning to the fair grounds, whence a flight will be made down Snake River canyon to Boise.

Naturally the fair board and county commissioners are suffering pangs of poignant disappointment concerning the outcome of the exposition. Blame attaches to no individual, or to anybody of persons connected with staging the great autumn produce and stock display. Bad weather, probably the worst encountered by any fair this county has ever attempted, alone is responsible for this disastrous outcome. The misfortunes of this year, however, will not deter the county or the fair administrators in making plans for another season's display. Conditions will change for the better, commissioners and administrators believe, and they are willing to test the theory to the limit.

As far as exhibits at the county fair are concerned there can be no complaint. Stock of all sorts was judged to be par excellence by experts chosen to award prizes for the best, and by those experts not employed in this capacity. Horses and cattle were accorded at all times during the week extraordinary praise, the only complaint heard being against the scarcity of variety in breeds of dairy kind, and the rather short display of poultry. As a matter of truth Twin Falls county farmers and poultry fanciers are as yet pioneers in the industry, the district at large not yet having settled to any definite poultry raising purpose. This, those who are in the breeding business say, will come with time. During the coming winter plans are to be made for stimulating interest in the raising of domestic fowl flocks, which plans may result in a poultry show at some point in the district in the year to come.

The produce of the district, presented in the various booths and buildings for inspection, stood the test of close scrutiny and came through the hands of the judges with every possible honor. Wheat, other grains, grasses; root crops of all sorts, and cereals were evidenced in an extraordinary bearing and yielding quality of the Twin Falls district land. This evidence is not confined solely to the water-courses of the country. The dry areas sent contributions of high class produce to the exposition and won plaudits for quality, even though the quantity might be considered limited.

Fruit Gets Better

The fruit display received a lot of attention during the period of the fair, probably because sentiment is again leaning toward the more intensive cultivation of tree and bush crops. Apples this year showed better quality than in seasons gone by, with a disposition toward a building up of varieties. Peaches and pears, too, were improved this year, while plums and prunes did not show up so well, on account of shriveling, most having been picked in time for the State Fair, to be brought here later.

The fair had its usual "largest" number in the "largest" square and its frank vegetables, all of which created more or less wonderment.

In the handwork department evidence of perfection in workmanship was displayed on every hand, while the club features were more than a merely interesting feature.

The track events were by reason of rain and mud, curtailed considerably, but were eminently satisfactory and gratifying when conditions permitted racing. One of the prime features of the racing program was a "mill" between an automobile and the air machine, the latter outdistancing its terra firma rival in the run.

The Twin Falls band provided music during the period of the fair, closing on Saturday with a concert program.

ON BUSINESS JAUNT

Ernest White and Stuart H. Taylor left this morning for Ogden, Salt Lake and other points in Utah. They will be absent several days on business.

GOES TO BURL

John E. Ault, juvenile officer, left this afternoon for Burl, called there on business connected with the juvenile department.

INSTALLING WASTE CANS

Under direction of the city street commissioner galvanized receptacles are being installed at various street intersections for the receipt of waste paper and similar matter.

FOR DISTURBANCE

Alleged to have thrown a stone through the kitchen window of the Palace Cafe, Russell Cavender, aged 17, and Robert Lawson, 15, have been arrested, and are now confined in the county jail.

Superb Exhibits

As far as exhibits at the county fair are concerned there can be no complaint. Stock of all sorts was judged to be par excellence by experts chosen to award prizes for the best, and by those experts not employed in this capacity. Horses and cattle were accorded at all times during the week extraordinary praise, the only complaint heard being against the scarcity of variety in breeds of dairy kind, and the rather short display of poultry. As a matter of truth Twin Falls county farmers and poultry fanciers are as yet pioneers in the industry, the district at large not yet having settled to any definite poultry raising purpose. This, those who are in the breeding business say, will come with time. During the coming winter plans are to be made for stimulating interest in the raising of domestic fowl flocks, which plans may result in a poultry show at some point in the district in the year to come.

Ranch Excels in Display of Its Products

COTTONWOOD RANCH managers have every reason to be joyful over the result of their ranch production efforts this year. The company, Harrison & Huffman, won big at the county fair.

The Cottonwood ranch is located four miles east of Hollister. Three first premiums and one second is the record established for the ranch at the district exposition held last week in Filor.

For the general grain exhibit the farm carried off first prize; first again for its all-vegetable exhibit and first again in the all grasses display.

Second place was taken in the wheat exhibit.

PERMIT TO BUILD

For the construction of a three-story brick school addition structure Ernest White, contractor, has taken out a building permit. The building is to be erected in connection with the high school, and is to cost \$174,625.

WARNING IS GIVEN

Complaint has been lodged in the police court against the Daily Chronicle, B. H. Stevenson editor, by the city street commissioner, alleging violation of the streets and alleys ordinance. Specifically the charge is cluttering the alley in the rear of the Chronicle premises with waste paper. Official warning has been served.

BRINGS UNUSUAL CHARGE

Declaring his wife, Laura Hart, adopted fraudulent measures to induce him to marry her, Edward J. Hart has filed action in the district court for marriage annulment, alleging the defendant is a chronic opiate, and was such prior to and at the time of marriage. They were married October 2, 1918.

DR. WILSON EJECTED

At a meeting in Boise of the state medical association, Dr. P. W. Wilson, Twin Falls, was elected vice president of the organization, and Dr. C. B. Scott, Twin Falls, was elected a member of the house of delegates of the American Medical association.

GOES AFTER PRISONERS

Deputy Sheriff R. F. Redmon has gone to Caldwell to take possession of certain fraudulent measures to induce Carl Olson and H. E. Wilson, who recently broke jail here after assaulting a deputy sheriff, while the latter was serving them supper. The men were captured Saturday while making their way north in a stolen automobile.
