American Consular Officer in Sweden Reports Capture of Important Cities in Dispatch to State Department

BOLSHEVIKI CONCENTRATE FOR DECISIVE STRUGGLE

Soviet Armies Assembling to Oppose Advance of General Denikin's Cossacks Coming from South

WASHINGTON, (AP)—Reports of the capture of Petrograd and Kronstadt by Northwestern forces under General Yudenich were received at the state department today from an American consular officer in Sweden on the Finnish border. Confirmation of the reports had been received when the dispatch was sent, but it was said they generally were credited in Sweden.

Bolsheviks Concentrating

Reports from Stockholm today said the Bolsheviks were concentrating the bulk of their troops for a decisive struggle with General Denikin's Cossack forces in the south. Denikin's penetration of Yaroslavl and the fall of Kursk were regarded as threatening seriously the central soviet government at Moscow. At a recent soviets meeting in Petrograd, Chief Commissary Vinogradoff described the situation as of the utmost seriousness.

Siberian Army on Tobe

An official dispatch from Omsk, dated October 14, said that the whole of the southern Siberian army resting on the Tobol river and that the other two armies were an average of only five miles from the same river. On the Semiretche front, Admiral Kolchak's forces have advanced, capturing 5,000 prisoners.

BRITISH PARLIAMENTS AT KRONSTADT UNCONTINUED

LONDON, (AP)—Confirmation of reports that British naval forces have taken the fortress of Kronstadt, on the gulf of Finland, west of Petrograd, has not been received at the admiralty offices here. Dispatches telling of the capture of Kronstadt are not credited, it being said the British have only light cruisers in the vicinity which are incapable of successfully challenging the Russian fleet. Admiralty officials state there was no reason for a British attack on the place.

Gomel Denikin's Goal

The latest authoritative news regarding the military situation in eastern Russia is that the army of General Denikin on the extreme left of the line has taken Chernigov and is advancing northward along the east bank of the Dnieper river toward Gomel. (The right of the Polish army, it was stated last week, rests on the Dnieper at Gomel, about seventy miles from Chernigov, so that a junction of the two armies would be effective should Denikin reach Gomel.)

On the right flank, the forces of General Denikin have crossed the Don on a 200-mile front. Everywhere (Continued on Page Four)

SHOPMEN VOTE TO QUIT WORK

Auto Mechanics Recorded in Favor of Walkout Next Monday

A strike of members of Victory Lodge No. 1207, International Association of Mechanics, has been ordered for next Monday. Nearly 100 men are affected.

Notice that a strike had been voted was served on shop and garage men during the present week by Secretary C. E. Spencer, of the local lodge. The strike vote followed close upon heels of ballots taken last week in many of the service shops in Twin Falls. During the week the reported sentiment was unanimously favorable to a remaining at work.

Operators admit having, in some instances, dismissed mechanics who had threatened to strike. Other men are said to be on the way to take their places.

Yesterday one shop discharged 17 mechanics and machinists out of 17 employed. Other workers, it is said, have been informed that if they persist in being connected with the strike movement they will be paid off on Saturday at the end of the day.

One owner today declared threats of a walkout had been made against him. Last night this owner had his business place patrolled by a guard.

Workers make no statements, other than that the order has been issued to strike on Monday.

The union has asked an 8-hour working day for mechanics, at the present rate of pay, which is 85 cents an hour.

Allies' Net Bag of Submarines is 200 of 370 Mad

LONDON, (AP)—The net bag of German submarines destroyed by the Allies since the outbreak of the war during the war was 200 out of a total of 370 completed by the enemy up to the armistice, according to a new cabinet Blue Book. Each of the three parties developed entirely different systems of submarine detection apparatus, and their results were constantly exchanged.

Hunger Strike Wins Prisoners' Freedom

DUBLIN, (AP)—The lord mayor has been informed that all the British prisoners today held in Mount Joy prison will be liberated immediately. This is the outcome of their hunger strike, it was explained.

Lenine Seems Alive And Out of Prison

LONDON, (AP)—A Bolshevik wireless message from Moscow today reports that Premier Lenine received an Afghan delegation in that city October 15. This would appear to dispose of the recent reports regarding Lenine, one of whose captivities and another of his imprisonment.

Austria Ratifies Allies' Peace Terms

VIENNA, (AP)—The Austrian national assembly today ratified the peace treaty of St. Germain. The ratification was voted with, out debate. The German party alone opposed the ratification, that party being a unit in opposition.

Lecturer Describes Bolshevik Butchery

STOCKHOLM, (AP)—Prof. Guido Schneller, of Riga, in a lecture here stated that the Bolsheviks kill 25,000 men, women and children in Riga. The executioners, intoxicated and unable to aim straight, wounded their victims time and again, laughing at their agonies which some times lasted a whole day and night, he said. "I was given to understand that they were to act as executioners."

Germans Indignant Over Entente Costs

BERLIN, (AP)—Indignation was expressed today by members of the budget commission of the national assembly when the national treasurer announced the cost of maintaining the entente armies of occupation and various military commissions would be from 2,500,000,000 to 3,000,000,000 marks annually. The speaker said that the drain on the national finances would "eventually react on the entente" and expressed the hope that the cost of the occupying armies would be gradually reduced.

WORLD NEWS EVENTS

MONTREAL, (AP)—The Canadian railway war board announced today that Canadian railway time will be moved back an hour at two o'clock Sunday morning, October 26, to conform to the winter time standard of United States railroads.

VLADIVOSTOK, (AP)—The political situation in eastern Siberia is quiet after a month of rumors relative to plots and intrigues by social revolutionaries and Zestemov groups for the overthrow of Admiral Kolchak, head of the Russian government. Manifestations on behalf of the government have in fact resulted.

PARIS, (AP)—Brig. General Sherwood A. Cheney has been designated as the American member of the international military commission to go to the Baltic states to inspect and supervise the evacuation of the German troops, lately under the command of General von Goltz.

BASEL, Switzerland, (AP)—The Austrian government, says a Vienna dispatch, has introduced in the national assembly a bill stipulating that the territory assigned Austria by the treaty of St. Germain shall be a democratic republic under the name of "the republic of Austria." Another provision in the bill abrogates the law of November, 1918, declaring Austria to be an organic part of the German empire.

CHARGES PEACE DELAYS TO AMERICAN ATTITUDE

British Premier Says Turkish Treaty Waits on Decision of United States as to Accepting Surrender

LONDON, (AP)—In his speech at Sheffield last night, Prime Minister Lloyd George attributed the delay in the conclusion of the peace treaty with Turkey to the uncertainty as to the attitude of the United States. It was impossible, he said, to settle the destiny of Turkey before knowing whether the United States was going to share the burdens of civilization outside of the United States.

Dispatch of Additional American Troops for Policing of Silesia During Plebiscite Occasions Discussion

BRANDAGEE QUESTIONS WAR OFFICE AUTHORITY

Scarcity of Information Available to Senate is Deplored by Chairman of Military Committee

WASHINGTON, (AP)—A resolution giving it as the sense of the senate that whenever the United States becomes a member of the league of nations, it should present to the council or assembly "the state of affairs in Europe and the right of its people to self government" was introduced today by Senator Walsh, democrat, Montana. It went over until tomorrow under the rules.

WASHINGTON, (AP)—Dispatch of additional American troops to Europe for the ultimate purpose of policing Silesia during the plebiscite proposed in the peace treaty formed the text of another chapter of senate debate today on the treaty.

Defends Department

The authority of the war department to take such a step was questioned by Senator Brandagee, republican, Connecticut, and the scarcity of information available to the senate on such subjects was deplored by Chairman Wadsworth, of the military committee. The department's action was defended by Senator Nelson, republican, Minnesota, and others.

Senator Nelson Interjected to suggest that the plebiscite was to determine whether upper Silesia should be given to Poland or to Germany.

Explains Plebiscite

Senator Wadsworth stated: "It was given to understand that the dispatch of this force was due to some arrangement made by the American peace commission at Paris."

Defines President's Power

Senator Hitchcock, democrat, Nebraska, said the president had the power to reinforce the American expeditionary force in Poland as a free country, he ought not object to this.

SPRIT OF CONCILIATION IS MANIFEST IN NATIONAL INDUSTRIAL CONFERENCE

Employers' Declaration Recognizing Right of Workers to Organize and Bargain Collectively is Called Sincere Effort at Closer Co-operation Between Capital and Labor by Head of Railway Conductors' Brotherhood

IMPATIENCE OF LABOR GROUP GIVES WAY BEFORE ADJUSTMENT PROSPECT

WASHINGTON, (AP)—With the introduction of a resolution by the capital group giving its views as to the right of collective bargaining, a spirit of conciliation was manifest today in the national industrial conference.

L. E. Sheppard, head of the railway conductors' brotherhood, said he saw in the resolution a sincere effort at a closer co-operation between capital and labor in the meeting and declared that in his opinion the gathering was "just getting down to business."

Announcing that the Impugnator movement had been given up, Sheppard had now given way to a willingness to wait any reasonable length of time, Mr. Sheppard said his group saw every prospect of a harmonious adjustment of the differences existing between the right and left wings of the conference as a result of the employers' resolution.

Employers' Declaration

The resolution by the capital group which Chairman Harry A. Wheeler said had been assented to by eleven of the fourteen members present, follows:

Resolved, that, without in any way limiting the right of a worker to refrain from joining any association or to deal directly with his employer as he chooses, the right of workers in private as distinguished from government employment to organize in trade and labor unions, in shop industrial councils, or other lawful form of association to bargain collectively, to be represented by representatives of their own choosing in negotiations and adjustments with employers, and their workers, in matters of labor, and other conditions of employment, is recognized; and the right of the employer to deal or not to deal with men or groups of men as he chooses, in matters of labor, and other conditions of employment, is recognized; no general is intended of the right of an employer to refuse to employ any person, or to refuse to agree upon the form of their representative relations.

Opposition

This was understood to be the gist of the opposition which the capital group was prepared to make. J. W. O'Leary, of Chicago, a member of the group, told the conference no one knew better than the employer the value of

MAYNARD AGAIN TAKES PLACE IN AERIAL VOYAGE

Mechanics Work All Night Installing New Motor and the Derby Leader Hops Off in Early Morning

SMITH ACCEPTS SPATZ PLANE; RESUMES FLIGHT

Pearson, Second in Race, Drops Out at North Platte with a Damaged Motor; Trailers to Be Eliminated

CHICAGO, (AP)—Lieutenant J. W. Maynard, the "flying parson," bound next in the aerial derby, arrived at Grant park today at 1:50:57.

At 2:30 p. m. Lieutenant Maynard took off for Bryan. He dashed the usual course around the rock of Lake Michigan and cut across the lake, heading for Michigan. A mail plane which left the ground a few seconds later took the safer route.

CHICAGO, (AP)—Lieut. E. W. Maynard, will lead in the transcontinental air race, in an airplane course somewhere between Chicago and Bryan, Ohio, after his crash-landed yesterday noon and forced his way back into the air. He worked all last night in the airplane headlights to put a Liberty motor salvaged from a wrecked mail bomber into his D.H.4 and carried this morning the "parson" left for Omaha.

Spatz Turns Over Ship

Major Carl Spatz arrived in Buffalo, N. Y., this morning and turned his ship over to Captain L. H. Smith, whose plans burned there yesterday. The fight for fourth place now have between Spatz and Pearson.

Trenton on Constants

Trenton on constants now have made the trans-continental trip, 15 having landed at San Francisco and six at Mincola. Seventeen are nearing the last stages of the journey into San Francisco.

Three Leave Mincola

Lieut. E. C. Kiel started on the route today from Mincola at 9:45 a. m. this morning and at 2:57:08 was reported to have left Rochester for Cleveland.

Lieut. H. E. Queens, westbound, left Mincola at 11:25:30 and left Birmingham for Rochester at 1:56. Lieut. Robert B. Worthington, piloting an E. E.-5, a one-seater, started on his return journey from Buffalo at 1:50. Captain C. H. Drayton and Lieut. H. W. Sheridan were ready this morning to start from San Francisco.

TIME LIMIT SET FOR ARRIVAL AT TERMINALS

MINNEOLA, N. Y., (AP)—Air service officials received word from Washington today that all machines entered in the race to reach the terminal at San Francisco or Mincola on the first half of their journey before sunset tomorrow or they will not be permitted to make the trip. The officials will probably eliminate several flyers now at control stations in the Middle West.

SMITH GATHERS SPEED IN BORROWED PLANE

CLEVELAND, O., (AP)—Captain L. H. Smith, driving the Havilland airplane No. 61 flying from Mincola, N. Y., to San Francisco on his return flight in the army transcontinental air race, took off from Buffalo at 1:05:20 p. m. making the 187 miles in 96 minutes.

PEARSON OUT OF RACE WITH DAMAGED MOTOR

LINCOLN, NEB., (AP)—Lieut. Alexander Pearson, flying the Havilland airplane No. 61, probably out of the race because of damage to the motor which occurred at North Platte, Neb., today. Pearson is still at North Platte. Captain O. Donaldson, plane No. 50 has reached and departed from there for the east.

The damage to Lieutenant Pearson's engine allowed Captain Donaldson to take second place in the contest. Captain Donaldson arrived at North Platte at 11:53:05 and left at 12:23:05. Pearson reached North Platte at 12:23:05.

PROPOSES AFFIDAVIT REQUIREMENT OF PROSPECTIVE ARMY BUREAUMEN

WASHINGTON, (AP)—At the request of the state, war and navy departments, Chairman Wadsworth, of the senate military committee, today introduced a bill designed to regulate the marriage of American soldiers or civilians attached to the army while on foreign service. It would require the filing of affidavits before marriage by the naval or military authorities showing that both the man and the woman were of legal age and unmarried, with heavy sentences for conviction of violations.

The French government is in accord with the provisions of the bill and anxious that some expedient be worked out with an accompanying note from the war department.

VOTE IN SENATE AMENDMENT TO CHEERS WILSON PACT REJECTED

Physicians Qualify Improvement Report; Operation May Be Required

WASHINGTON, (AP)—President Wilson continued to show improvement today, but his condition is still serious, it was reported. He is said to be much cheered by the defeat of the Shantung amendment to the peace treaty.

WASHINGTON, (AP)—The long debated Shantung amendment to the peace treaty, presented by Senator Lodge and approved by the foreign relations committee, finally was rejected in the senate Thursday by an even score against it.

In the vote of 35 to 35, fourteen republicans swung over to the pro-treaty forces, while three democrats lined up with those supporting the proposal. Of the six senators absent, two republicans were out on record as in favor of the amendment and one republican and three democrats as opposing it.

Roll Call Follows Debate

The roll call, which came at the end of another six and a half hours of sharp debate, in reality swung away six amendments instead of seven, each change in the treaty text having been numbered separately by the committee in its drafting of the amendment, and substitute the word "China" throughout the sections relating to the province of Shantung. By unanimous consent, however, the six changes were debated and voted on as one.

Only three of the committee's forty-five amendments now remain to be acted on by the senate, thirty-six of which have been rejected. Of those remaining one relates to American representation on the reparations commission and two to equalization of voting.

COAL FAMINE DANGER AT VLADIVOSTOK ELIMINATED

Prospective Shipping of Railway Line to Suchan Mines Region Eases Situation, is Believed

VLADIVOSTOK, (AP)—Danger of the expected coal famine at Vladivostok has been eliminated, it is believed, by the prospective reopening of the branch railway line to the Suchan coal mines within a few weeks. Freight traffic along this line has been impossible since early last summer, having been interrupted at the time the hostilities between American troops and the Bolsheviks.

REPORT SHOWS GROWTH OF THE PACKER TRADE

Federal Trade Commission Reiterates Claim Five Chicago Firms Dominate Wholesale Grocery Trade

WASHINGTON, (AP)—Reiteration of the claim that the five big packing companies of Chicago bid fair to dominate the wholesale grocery trade and already handle more than 500 foods unadmitted to the retail packing industry, many of them directly competitive in most substitutes, is made in Part IV of the federal trade commission's report on the industry, published Thursday.

Two Economic Questions
"The extent to which the packer should be permitted to enter unrelated food lines," the report said, "is a matter which the public interest alone should determine."
"Two questions, primarily economic, are involved:
"Does this widening of activity result in additional economies of production and distribution?
"Does it result and will it continue to reach to the public in lower prices and better quality of product and service?"

Included in the list of commodities said to be falling under control of the "big five" are poultry and game, dairy products, lard and lard substitutes, canned and dried vegetables and fruit, canned, cured and frozen fish, cocoa, coffee, molasses and cane, corn and meal, and other staples. The Armour and Company is said to be handling extensively soula fountain preparations and utensils.

Secrecy Involves Operations
"Coming to the more and accuracy of the packer's methods of conducting much of his business," it adds, "exact statistics on many of these commodities are not available for the country as a whole."
"Many companies manufacturing or handling these commodities are controlled by the interests, no hint of which is disclosed in the reports, which they operate and even a thorough-going examination may fail to uncover the packer connection in every case."

Four of the packers, Swift, Wilson, Armour and Cudahy, the report states, through their subsidiaries and not including family and other companies, handled in 1918, 49.5 per cent of the estimated total of shipped dressed poultry and 33 per cent of shipped eggs.

The same four handled 49 per cent of all factory made cheese in 1918, the report says, and adds:

"That the big five are in a position to control 75 to 80 per cent of the cheese of the state (Wisconsin) is generally conceded."
Libby, McNeill and Libby, a Swift concern, alone handled 10.7 per cent of all evaporated and condensed milk in 1918, according to the report.

Factor in Grain Trade
The Armour Grain company, a factor in the cereal and breakfast food business, reported surplus undivided profits for the year 1917 of \$5,426,830 after deducting a 78 per cent dividend on capital stock, the report says, adding:

"The year's net earnings amounted to 290 per cent on the capital stock and 67 per cent on the net worth of the company, including the capital, surplus and undivided profits as reported at the close of the fiscal year 1916."
Production of hard compounds and substitutes by the five packers during the first six months of 1917 was placed at 49.4 per cent of the total, and oleomargarine at 51 per cent.

Growing Business Growing
Complete figures to show the packer's interest in canned foods such as fruits and fish, were not available, the report says, but business of the "big five" was shown to be large and growing. The Libby company's canned food sales alone showed a 225 per cent increase in 1918 over 1915. Libby sales of canned salmon increased 4.6 per cent of the world pack in 1915 to 9.7 per cent in 1918, the report shows.

"It completely has become the control, especially by Libby, McNeill and Libby, of the pineapple supply," the report reads, "that one of the largest wholesale grocers in the country was unable in the summer of 1918 to secure any supply whatever."

"Big Five" Divide Field
There is sufficient evidence, the report continues, that the "big five" are dividing the field among themselves.

If Armour's grocery specialties are largely concentrated along such lines as rice, cereals, certain kinds of canned foods and cheese, and each of the other of the five great packers concentrates his specialties along a few well chosen lines, the profitable fields become pretty well covered and pretty well ruled by the five."

The report declares the meat packers "are large speculators" and that their control of capital and credit enables them to buy in such a way as to resell "upon a market in which their purchases have forced up the price. It also asserts the packers have extraordinary buying and marketing power, "due to certain advantages, perhaps not always unlawful but certainly often unobtainable."
Get Favorable Rates
Among these advantages are enumerated packer control of 44.8 per cent of all cold storage facilities, their refrigerator car service, the "highly favorable rates" obtained by the packers for mixed shipments of fresh meats and packing-house products, permitting them to include a great variety of goods "foreign to their slaughtering business" with "resulting discriminations not alone in service, but also in rates."
"Until the packers are shorn of the transportation advantages," the report says, "there is no way of measuring their true industrial efficiency."

SWIFT DENIES THREAT TO CONTROL GROCERY BUSINESS
CHICAGO, (AP)—Louis F. Swift, president of Swift and Company, Thursday issued a statement denying the charges that the five big packers, by enlarging the scope of their business, threaten to control the wholesale grocery trade of the country which are contained in the latest report of the federal trade commission. Mr. Swift's statement reads in part:
"In the first place the packers do not control anything. Swift and company is in active competition with all other packers in the production and sale of every product bought and sold."
"The charge that the five packers have divided the field, each specializing in a certain line, is also untrue. Swift and Company handles only such products as logically result from being in the packing business and such other products as can be handled efficiently through its sales organization and refrigerating equipment. Swift and Company's sale of grocery products amount to only a little over one per cent of the total wholesale grocery business. The five large packers together handle not to exceed three per cent."
"The trade commission's figures showing the percentage of poultry, butter and eggs handled by the large packers are greatly exaggerated."
"We have issued figures based on department and agriculture reports showing that Swift and Company handles only about six per cent of the total quantity of these products sold in the United States."
"There is no combination or agreement with other packers in the handling of these products or to divide territory in their purchase or sale."

TURKS COMPLAIN OF ABUSE BY ARMENIANS
American Investigating Mission is Appealed To by Many Moslems.
KARS, RUSSIAN TRANS-Caucasia, (AP)—The American mission headed by Major General James G. Harbord, on arriving in Kars, found the same line of contention existing throughout Turkey, except for less intensity of fighting and lawlessness.
Proceeding from Sivas to Erzurum and thence to Erzurum, over the old Turkish-Russian frontier, the mission met with many contentees at the hands of the Turks. Few Armenians were found in these regions.
As the frontier was approached General Harbord was appealed to by hundreds of Moslem families who were reviling the Armenians, arising from the regions partly controlled by the Armenians. These Turks attempted to show that they had been much abused in the past by the Armenians, and that the same line of contention and terrible signs of desolation as this and it seemed evident that if some outside help which the Turks are pleading for could be given, the country cannot recover.

America a Fairyland, Says Belgium King

New York city, for America, gave King Albert of Belgium, Queen Elizabeth and Crown Prince Leopold such a welcome to our shores that it brought tears of joy to the royal eyes. Fifty thousand school children waved flags and sang national songs, the king remarking—"Why America is a fairyland."

BELGIUM BEARS SCARS OF GIGANTIC CONFLICT

Effects of Hard Fought Struggle Plain to Be Seen Along Banks of Yser Contrasted in Happiness of People Working with Smiles and Laughter Restoring Their Homes

Lining the banks of the Yser river, far as the eye can see, are the trenches which for so many months during the war were occupied by the Belgian and German armies, the Belgians on the south bank and the Germans on the north. They still bear many marks of shell and rifle fire and many stray lying on the damp floors still convey some idea of the hardships to which the soldiers were subjected.
Dugout Now Reorganized
On the German side of the river is a dugout, built to resist the heavy projectiles, and cool even on a hot day. It was a favorite gathering spot for the Germans when the fighting was fiercest, but now serves the more useful purpose of a refrigerator. Instead of the benches and chairs which once lined its sides one now sees pile upon pile of beer cases, filled with refreshment for the soldier guard at work cleaning up the ground.
Behind the dugout, the bodies of three soldiers—two Belgians and one German—were buried on the bank of a tiny pond, made by bursting shells. Little crosses marking the resting places and over them poppies and flowers.

Along the Yser one may plainly see the effects of the hard fought struggle. Here and there the top of a dugout has been crushed in, and further

along the duckboards from an abandoned trench may be seen sticking through the mud. Within sight of the bridge, the mangle of a fire piece, rusted and useless, points to the sky.
Much Debris Collected
Much of the debris of the battlefield has already been collected. Miles upon miles of barbed wire have been re-estimated from the entanglements, German and allied, which stretched in front of the lines but at some points along the river bank the old entanglements still remain, rusted and twisted on stakes which are fast falling to the ground. There are great piles of coiled wire which has not been un-rouned since it left the wire mills, while the military telephone systems are still stretched upon short stakes.
Dismayed Citizens Returning
The people of Dixmude, like the people of every other destroyed Belgian town, are gradually returning to the ruins of their homes. The help being given them by the government is giving them heart and strength to begin life over again. Here one may see a man patching a shell hole in his home with a few bricks taken from the ruins of his neighbor's home, and in another place men, and women too, are patching a roof.

But these instances are few. In most cases the destruction was so com-

plete that nothing is left for the poor Belgian but to build a new house. But the people are happy and cheerful. They go about their work with smiling faces and merry laughter. They are back home.

BURLESON TELLS OF HIS TROUBLES AS AN OFFICIAL

Points with Pride to Seven Years' Record as Compared with Average Tenure of Postmasters General

ATLANTIC CITY, N. J., (AP)—In the first public account of his stewardship after nearly seven years as postmaster general, Mr. Burleson, speaking before the National Hardware Association and the American Hardware Manufacturers Association here Wednesday, said the average tenure of postmaster generals had been only two years.

"When the entire weight was reacting itself to war," he asked, "when our splendid railroad system broke down completely, is it any wonder that there was some slight disarrangement of the postal service? Yet there were people who complained they didn't receive their mail with regularity and dependability. I don't blame them for complaining. It is human, but it was unjust."

Meets War Work Demands

As the only government department with a national-wide organization, the postal service has called upon all other departments to aid in the war work. Mr. Burleson continued, "and this in spite of the fact that tens of thousands of trained postal employees had been called here, or been put in cantonments to give soldiers efficient mail service."

In one month, also, there were 97,000 mail trains canceled. For the treasury, Mr. Burleson said his department distributed tens of thousands of tons of liberty loan propaganda, sold 88 per cent of all savings stamps, sold and distributed new six stamps which included the auditing of fifty thousand accounts. The postal service also distributed millions of questionnaires and secured a recruiting service for the war department, aided in making the food conservation measure effective and played a leading part in administering the espionage act and registering alien enemies.

Censor's Job Distasteful

"Exclusion of seditious matter from the mails was a very heavy task," Mr. Burleson said feelingly. "I was denounced as suppressing free speech, an autocrat and prussian, but I moved on in the even tenor of my way, performing my duty with moderation, exercising no arbitrary power whatever, but enforcing the law as written. It is a great satisfaction that in every case where my action was contested the courts have upheld me."

"Declaring he was not going to be harrassed, the postmaster general turned to the solicitor for advice he had been attacked. In reducing parcel post rates and increasing the weight limit of parcels, he said he turned a deficit into a surplus but encountered opposition from the express companies which came within one vote in the senate of repealing the law. He declared he met a similar situation in changing the basis of payment for railroad mail from weight to space. Fifteen railroad presidents called on him to ask an annual instead of a quadrannual weighting.

Light Against Railroads

"I never indulge in waeal words," Mr. Burleson said, "so I told them I was going to change to the fairer basis of paying by space occupied. They laughed and told me to forget it, but I put it over although they were powerful enough to strangle my department's appropriation and are operated under a continuing resolution for the first time in history."

Much time was devoted by Mr. Burleson to the fight on second class mail rates, which he laughingly said had made him "the idol of the newspapers and the hero of the magazines." He declared it had cost the government \$100,000,000 above the post office to carry one edition of a well known weekly which averaged \$1,600,000 in advertisements.

"That deficit was paid by you," he told the business men who were his auditors, "until my fight forced a change, and now I'm before the interstate commerce commission trying to raise still further the rates congress fixed which I know are too low."

Attitude Toward Labor

Explaining his opposition to affiliation of government employes with the American Federation of Labor, Mr. Burleson said he believed it was a public danger for any federal, state or municipal worker to be allied to an organization that uses the strike.

"ONLY ONE THING BREAKS MY GOLD!"

"That's Dr. King's New Discovery for fifty years a cold-breaker"

NOTHING but sustained quality and unflinching effectiveness can arouse such enthusiasm. Nothing but sure relief from stubborn colds and crushing new ones, gripe, throat-irritating coughs, and croup could have made Dr. King's New Discovery the nationally popular and standard remedy it is today. Fifty years old and always reliable. Good for the whole family. A bottle in the medicine cabinet means a shorted and a cold-free, 60c. and \$1.20. All druggists.

Stubborn Bowels Tamed

Positive in action, yet natural, comfortable, pleasant, Dr. King's New Life Pills are a beautiful, safe remedy for constipation. They eliminate fermenting waste and put the system in normal shape. All druggists—50c. a bottle.

WILL HOLD TOURNEY ON INGLISIDE LINKS

Northern California Golf Club To Be Active After Thanksgiving

SAN FRANCISCO, CAL., (AP)—The Northern California open golf championship tournament is to be held on the Ingleside links here immediately after the Thanksgiving invitation tourney of the San Francisco Golf and Country Club.

It was first proposed to make this only a "36-hole" event, but the "pros" were unanimous in preferring that the open championship of the State should be decided by the regulation 72 holes, which is the supreme test of the game.

Business was so good in all barrel lines this past season that many nations are said to be "rolling in wealth."

Having heard this good news the Baseball Buyers' association is preparing a new schedule of demands for the future year.

The Rockford club of the Three I league has sold Catcher Frank Withrow to the Philadelphia Nationals for \$1,500.

And Frank feels so big over it that he has refused to report to the Phillies unless Rockford forks over a half the lump figure.

Baseball is going to be a popular sport on the coast this winter. Judging from reports. Thirty clubs are lined up for play.

From Manila come reports of a revival of boxing, with natives taking to the zistic art as a ducking takes to a pond. It is said Denece Cabanero, a featherweight, is one of the most promising exponents of the mitt game. Four round bouts are held once each week.

MUST HAVE MADE MONEY

SASKATOON, SASK., (AP)—The Western Canada league, which had a successful season, has decided to expand to a six club circuit in 1920. Calgary and Edmonton have been added and it is rumored that if this circuit is a success, an eight club league with Vancouver and Victoria in the fold may be arranged for 1921. Baseball came back with a roar in the Canadian Northwest this year.

LEAGUE BERTHS EAGERLY SOUGHT

Many Applicants are Seeking Places in the Three I Ball Circuit

BLOOMINGTON, Ill., (Special)—In order to permit the various cities which are seeking berths in the Three Eyes league for 1920 ample time to prepare applications and organize an association, President A. R. Tearney has postponed the fall meeting of the league, usually held during the first week of October, until the second week of November, immediately following the annual meeting of the National Association of Professional Baseball clubs, to be held at Springfield, Mass.

It is expected that the session of the minor league magnates at Springfield next month will transact some business which will directly affect the Three Eyes and the territory of the middle west, and Tearney believes that it would be unwise to hold the league meeting at this time.

Great Season in 1919

The great success of the circuit during the season recently closed has had the effect of arousing interest in many other cities which were skeptical concerning the game last winter. Among these are Danville, Davenport, Rock Island, Hannibal, Des Moines and Springfield. In the event that the central association of Iowa is not reorganized this fall Waterloo, Dubuque, and Cedar Rapids would welcome assistance to the Three Eyes.

The Iowa cities can not be considered, however, except in the event that Terre Haute and Evansville elect to join the Central League again in preference to the Three Eyes.

Davenport is Anxious

Danville has launched a fans' association. A park is available. It is the property of the recently organized fair and racing association. Davenport has been anxious to join the Western league, but can not do so, as the Three Eyes controls the territory, due to the proximity of Moline. As Davenport has been without the national game for five years, there is a general desire to return to the Three Eyes.

Hannibal and Quincy are also anxious for a franchise again and may be accommodated if a substantial organization can be effected in each city.

Seattle Boxing Commission Has New Notion About Conducting Fights

SEATTLE, (AP)—To speed up boxing bouts and to relieve the boxers from undue strain, promoters of shows here will be permitted to stage matches of six two-minute rounds instead of the customary four three-minute rounds. It has been announced by Charles Hulen, secretary of the Seattle boxing commission.

ONE GAME MORE TO SETTLE THE TITLE

Ownership of Minor League Flag Demands Limit of Series to Decide

LOS ANGELES, CAL.,—The west coast minor league baseball championship will be decided here today when the Vernon club of the Pacific coast league and the St. Paul club of the American association meet in the last of a nine-game series.

Three runs in the first inning gave the Vernon club the lead in the west coast minor league championship series at Washington Park here yesterday 3 to 1. The series now stands four and four and the final game will be played today. The Tigers need four pitchers today in an effort to stop the visitors but to no avail.

The heavy hitting visitors knocked Pletcher Dell of Vernon out of the box in the first frame and hit W. Mitchell who replaced him, badly.

MAYOR INTERFERES FOR IMPRISONED SINN FEINS

DUBLIN, (AP)—The lord mayor of Dublin, Laurence O'Neill, alarmed at the condition of imprisoned Sinn Fein prisoners, has ordered the "death door" from their hunger strike. AMERICAN AND ENGLISH GUARDS PROTECT PREMIER

Prevent Attempted Arrest of Hungarian Official by Rumanians

VIENNA, (AP)—The motive for the attempted arrest of Premier Stephan Friedrich of Hungary by Rumanians on Monday was the discovery, it is said, that he was planning a "coup d'etat" with the object of placing former Emperor Charles of Austria on the Hungarian throne. This information is given in a Budapest dispatch to the Abendblatt.

Advisers to The Associated Press from Budapest say the arrest of the premier was prevented only by American and British guards, which fired bayonets and prepared for battle. British officers in command of the guard forces ordered the Rumanians to continue their withdrawal from the city.

TEACHERS' CONCLAVE WILL CONCLUDE TODAY

Week's Educational and Instruction Session Closes This Afternoon

Without naming executives for the coming year, and not selecting a place for the next annual convalescence, the South Central District Teachers' Institute will close this afternoon. Failure to elect officers or choose a meeting place was due to a desire on the part of the executives to have present some of the important personages connected with the educational life of the state, not attending this convalescence when the nominations are made.

Arrangements were completed, however, for a postponed session of the institute to be held later in the year in Jerome. At that time officers and a convalescence city will be named. Temporary officers now in charge of the institute will supervise the business of the association meanwhile.

The last important lecture of the present convalescence was delivered this afternoon by Dr. Byron W. King, of Pittsburgh, his subject being "Under the Shadows—The Glory of Sacrifice." During the morning session Dr. C. W. Toney, of Gooding, Idaho, and Dr. King spoke. The institute closed at 3:44 o'clock this afternoon after a week of success.

Social Notes

The home of Mrs. P. J. Costello was the scene of a beautiful wedding yesterday afternoon when Miss Florence North became the bride of P. J. Costello. The house was charming with decorations of smilax, asparagus ferns, and marigolds. A W. Peck sang "Be loved it is more than a blessing."

Then to the strains of the wedding march played by Mrs. Martin Bentley the bride party led by the best man, Charles North, brother of the groom and the bridesmaid, Miss Florence Costello, sister of the bride, entered the room, followed by the groom, and the bride on the arm of her uncle, Thomas Costello. The bride couple stood under an arch of green and white and the beautiful ring ceremony of the Presbyterian church was read, the Rev. Asher H. Brand officiating. The bride's gown was white crepe over liberty satin with trimmings of val lace, and satin buttons, a cap veil of tulle was worn, and she carried a shower bouquet of bride's roses and sweet peas. The bridesmaid wore white braided elanese, and carried a bouquet of pink roses. The bride's bouquet was carried by Miss Elsie Shaw, immediately after the ceremony the wedding party, numbering forty, went to the Hotel Perrine where a six-course dinner was served. The table was lovely with rustic baskets of pink roses and the same lovely flowers were scattered over the cloth. In front of the bride and groom a miniature bride was placed. The places were marked with pink ribbons. The happy couple left on the evening train for Denver, Col., for a ten days' honeymoon trip. The bride is going away with a suit of navy blue tulle, braided in black, with a hat of blue metallic cloth trimmed in taupe ostrich tips. She also wore taupe slippers and an Ipa bella for fur, the gift of the groom. The bride is the eldest daughter of Mrs. P. J. Costello and has a host of friends. Mr. North is a well known, and popular young man.

The Episcopal Guild met at the home of Mrs. D. D. Alvord yesterday. The afternoon was spent in discussing wares and means for meeting the budget for the coming year. Dainty refreshments were served. If the weather permits the next meeting will be held at the country home of Mrs. H. P. Laird.

Mrs. Lem Chapin was hostess to the "Penelope" club yesterday. Four tables were set after afternoon playing bridge. Mesdames A. H. Corbett, Irene Wood and Frank Rudolph of Paetello and Miss Esther MacFarlane were guests of the club. A hearty tea and luncheon was served at the close of the afternoon.

The Catholic Women's League met yesterday afternoon at the home of Mrs. M. B. Corcoran, on Ninth avenue north. After a business meeting, a short program was given. The league will meet on October 30 at the same place.

"DOUGHT THE UNITED STATES JOIN THE LEAGUE OF NATIONS?"

It is reasonable to assume that within a short time a vote will be taken by our national legislative bodies on the question of the acceptance or rejection of the covenant of the League of Nations.

The American people rarely, if ever, have been called upon to decide a more momentous question. Every intelligent and loyal American citizen is interested in the issue.

Should the United States take this step?

If we do not, what effect will it have upon our nation and likewise, the world?

IS THE SO-CALLED WASHINGTON POLICY OF NON-INTERFERENCE IN EUROPEAN AFFAIRS THE CORRECT PRESENT DAY AMERICAN POLICY?

It is believed today that the Gospel of Jesus Christ has something to contribute toward the solution of social questions.

MINISTERS MAY OR MAY NOT KNOW THE LAW; THEY SHOULD KNOW THE GOSPEL.

If you are at the Presbyterian Church Sunday evening, 7:30, you will hear a FRANK, HONEST DISCUSSION of the most vital topic, "DOUGHT THE UNITED STATES JOIN THE LEAGUE OF NATIONS."

Should the United States take this step?

Should the United States take this step?

GERMANS SEEK PLACE IN LATE ENEMY'S ARMY

Embassy in Charge of American Affairs Receives Many Applications in Berlin from Military "Instructors"

BERLIN, (AP)—The Spanish embassy in Berlin, which is in charge of American affairs pending the ratification of the peace treaty, has received so many applications from regular German army officers who want to serve in the American army that it has posted a big sign on the outer wall announcing that such applications will not be accepted and that it is useless to apply. The number of applicants since has somewhat decreased but still there are some.

Would Teach Americans

Some of those seeking commissions in the American army urged that they could be of value in "teaching the Americans how to fight."

There has been a rush also of German officers to join other former enemy or neutral armies. The applicants were ready to serve in either the American, British, or Argentine or even the French forces.

Every correspondent in Germany, regardless of his nationality, has been bombarded with queries and personal applications. In vain did they assure the officers that their armies would under no circumstances accept German officers. In vain the explanation was made that all the Entente armies were overburdened with officers and were making every effort to demobilize them. Argentina has become more or less the mecca of the would-be emigrants from Germany because it has advertised through its consulate for agricultural laborers and has offered inducements in the way of free land. However, those who want most to leave Germany want least to go to farming. For those who really want to take up agriculture the Argentine invitation is still attractive.

Argentina an Opportunity

Others determined to reach the United States by a roundabout way, saw in Argentina an opportunity to realize their ambition by first going to Argentina and then taking a chance of going on to the United States.

Those who contemplate this route overlook the possibility of trouble both in Argentina and the first American port they reach. A young German woman said in a Berlin hotel yesterday night telling her companions in a voice loud enough for by-standers to hear that she intended to get to America through the Argentine. It is necessary by agreement that she had been in the United States before. She admitted that this was untrue but added that "a little white lie could do no harm."

Emigration Bill Spared

Many German writers on immigration urge that Germany can ill spare a single man, the taxes he pays or the labor he does. They also point out that hotel keepers in Belgium and Italy have resolved not to employ Germans for 10 years and that 5 years must elapse before the German may live in China or Singapore. They declare that the American workmen will oppose the German immigration to the utmost because of the possible effect of wages and say a similar inimical spirit exists in Australian and other British dominions.

BOISE TEACHERS ASK INCREASE OF SALARY

More Money Needed to Meet Living Cost—Board Cannot Allow Demand

BOISE, (Special)—Teachers in the Boise schools have petitioned Superintendent Rose for an increase in salary. An application was given much consideration at a recent meeting of the board.

Teachers at first desired a 10% increase of \$200 per year, but later with a merely asked for raising the amount to the board.

The board offered a raise of \$220 for grade and \$200 for high school teachers, and this was after consideration of cities of the same size all over the west. The maximum salary in the grades at the present time it was disclosed is \$1250 and there are only three teachers receiving the minimum of \$1000 and they are young, inexperienced teachers and live at home.

While the board recognizes facts of high cost of board and room in Boise it does not at this time see a clear course to granting the new demand.

You may feel assured of this: If a merchant uses a full page of space in which to tell store news which could have been told in a column, he fails either to leave or to profit. If he uses a column when he needed a page he makes an even greater blunder.

BOISE, (Special)—Corporations operating public utilities in Idaho are not to be permitted to abandon branches of their utility departments because these are not at present paying dividends. The state public utilities board decided in a finding upon the application of a railroad for changes in the schedule between Wallace and Burke.

In the decision the commission says: "We do not regard it as of prime or even particular importance that a given unit of service, representing only a part of the entire business done by a utility, operates at a loss, for we deem that every utility owes the public the maximum service which the income as a whole will justify."

PROPOSES CHANGES IN DIPLOMATIC SERVICES

American Manufacturers' Export Association World Trade Admissions Requirements and Pay

NEW YORK, (AP)—Sweeping changes in the diplomatic and consular services of the United States were suggested in resolutions adopted here today at the annual convention of the American Manufacturers' Export Association. The principal resolutions called for placing the entire diplomatic and consular systems, with the exception of ambassadors and ministers, under proper civil service regulations; substantially increasing salaries; annually providing for living expenses and purchasing and maintaining "appropriate official residences."

It also was suggested in the resolutions, which the association plans to bring to the attention of congress, that a first secretary be permanently attached to each embassy or legation with life tenure and that applicants for minor positions be required to pass "a severe examination" in international law, history, economics and politics.

MRS. EMMA RICE WAS ASTONISHED

Thirty Years' Trouble Ends in a Few Weeks After She Takes Tanlac

Remarkable, indeed, was the statement made recently by Mrs. Emma Rice, who resides at 207 Madison Cross, Los Angeles, Cal. Mrs. Rice declares that four bottles of Tanlac have completely relieved her of a rheumatic trouble which she has been trying for thirty years to overcome. Here is her statement:

"Some astonishing things happen in this world and what Tanlac has done for me in the past few weeks is one of them. I had suffered with a severe pain, like rheumatism, in my back for thirty years, and while I was under treatment a number of times and tried many different kinds of medicines, I got no relief. Then in January of this year I caught a severe cold and my hands became so affected with rheumatism that I was unable to use them to do my work. I was also badly run down and so weak I could scarcely keep up and about:

"After reading in my home paper where so many friends and neighbors had received such good results from Tanlac I decided to try it myself and words can't express my gratitude for what it has done for me. The pain disappeared from my back before my first bottle of Tanlac was gone. I am now on my fourth bottle and feel better than I have in thirty years. The rheumatism has also left my hands completely and I am now able to do my housework and attend to my chickens and little garden without any trouble whatever. Tanlac certainly is a grand medicine and I can recommend it to everyone, especially those suffering from rheumatism and a run down condition."

Tanlac is sold in Twin Falls by City Pharmacy, in Bogart by Thompson Drug Co., in Murtagh by Murtagh Drug Co., in Filer by A. B. Wood, in Buhl by C. D. Boring Brothers Co., and in Kimberly by A. L. Stone—adv.

RECORD OF SLOW MAIL DELIVERY COMES TO LIGHT

"Here's a Friendly Tip" says the Good Judge

Men who know tobacco, chew the best without its costing them any more. They take a little chew and it's amazing how the good taste stays in a rich, high grade chewing tobacco. For lasting tobacco satisfaction, there's nothing like a small chew of that rich-tasting tobacco.

Privileged Characters.

The old saying "a bull in a china shop" is not an idle one when the bull referred to is one of the tribe of sacred cattle of India. In the streets of Calcutta members of the sacred herd roam at will. In the case of the orthodox Hindu it is sacrilegious to interfere with the cattle's liberty, even when it takes them into the city shops and crowded bazaars.

NOT STRIKERS—BUT KING AND QUEEN

Copies of the plans and specifications of an addition to be attached to said engine by application therefor and the deposit of the sum of ten dollars, which sum will be returned upon the return of the said plans and specifications.

The person, firm or corporation securing the contract for the doing said work and furnishing the said material will be required to guarantee the performance of the terms and conditions of the said contract by him or it to be performed at once upon entering into said contract, and must pursue the performance of the terms and conditions of said contract by him or it to be performed with dispatch and diligence until completion.

Each bid and proposal must be accompanied by a certified check upon some reliable bank, payable to the City of Twin Falls, or order, in an amount equal to ten per cent of the amount bid. In the event that the successful bidder does not enter into a contract with the City of Twin Falls for the performance of the said work and the furnishing of the said material the said check will be retained by the City and the said bidder shall forfeit the same to the City. The checks of the unsuccessful bidders will be returned to them at the time of the rejection of their bids and proposals.

The person, firm or corporation obtaining the contract for constructing the said conduit will be required to furnish the City with a good and sufficient bond in some reliable surety company in an amount equal to sixty per cent of the amount of the contract price, and to guarantee the performance of all the terms and conditions of the contract by him or it to be performed and conditioned further for the faithful performance of the terms and provisions of the statutes of the State of Idaho, in such case made and provided.

Payments upon said contract will be made in a package of brown paper. The City Engineer's estimate of the amount earned under said contract during each calendar month will be paid on the first Tuesday after the first Monday of the following month and on each month; the 10 per cent earned during each month will be retained until the completion of the contract and the acceptance of the said material. Said conduit will be enclosed and the material used, in its construction will be concrete.

The Council reserves the right to reject any or all bids.

W. A. MINNICK, City Clerk.

NOTICE TO CONTRACTORS

Notice is hereby given that the Mayor and City Council of the City of Twin Falls, Idaho, will, on the 27th day of October, 1919, at the hour of 2 o'clock p. m. of said day, at the office of the City Clerk of said City in the waterworks building at the corner of Second Avenue North and Second Street North in the said City of Twin Falls, receive sealed bids and proposals for the work of performing the labor and furnishing the material for the construction of five (5) concrete sidewalks upon the sidewalk space in front of the lots embraced in Local Improvement District No. 36 of the said City of Twin Falls, which lots and the boundaries of which district are mentioned and set forth in Ordinance No. 271 of the said City of Twin Falls, passed September 8th, 1919.

The said work must be commenced at once upon the letting of the contract and prosecuted to completion during the fall of 1919. There must be accompanied with each bid a certified check upon some reliable bank in an amount equal to ten per cent of the amount of the bid, which check shall be made payable to the City of Twin Falls, or order. In case of the failure of the successful bidder to enter into a contract for the performance of said work with the said City upon the terms of his bid and proposal, then the said check shall be forfeited to the said City and become its property. The check of the unsuccessful bidders will be returned to them upon the rejection of their bids and proposals. Payment for said work will be made in the warrants or bonds of the said City, which warrants or bonds shall not be a general obligation of the City but will be a lien upon the property benefited by the said improvement as shown by the assessment for said improvement. Payment for said work will be as follows: 90 per cent of the amount earned during any calendar month as shown by the estimate of the City Engineer of said City, will be paid on the 1st Tuesday after the 1st Monday of the following month, and so on until the work is completed. The 10 per cent withheld each month will be retained until the work is completed.

ROCK CREEK

ROCK CREEK—Dr. G. F. Baker of Twin Falls, his mother, Mrs. Ed Baker, Morris Nixon and Mr. Parsons, father of Mrs. G. F. Baker, all of Hydeville, Cal., spent Saturday afternoon visiting with Mrs. C. J. Dromore and Mrs. D. P. Albee.

T. O. Jones and Herman Brose who have spent the winter at the Stanley Basin, came home for a short visit Sunday. Mrs. and Mrs. Jones left Monday for their home at the Big Flat ranch near Three Creek, to attend to some work before Mr. Jones returns to the Basin.

Miss Gladie Hyde who since early June has been caring for the wife of her brother, left Wednesday for Twin Falls, where she will visit for a time with relatives and friends, before going to her home in Metropolis, Missouri.

Al Jones of Gost Springs spent several days of the first of the week visiting with friends here. Mr. Jones is one of the few miners having built his home here more than thirty years ago. Miss Nora Dromore is visiting with her sister, Mrs. George Henry of Murtaugh, during the vacation this week.
