SOVIET FORCES FALLING BACK ON PETROGRAD

Bolshevik Offer Stubborn Resistance to Advancing Army of Northwest Under General Yudenitch

REDS HOLD POSITIONS IN LAST DEFENSE LINE

Denekine's Cossacks Force the Evacuation of Kiev; Kolchak Troops on Siberian Front Meet with Reverse

HELSINKI, FINLAND, (AP)—General Yudenitch has encountered strong Bolshevik resistance beyond Pulkovo, about seven miles south of Petrograd. He has, therefore, halted his advance to concentrate his forces while awaiting reinforcements and heavy artillery. One hundred guns reached his army today.

The Bolshevik forces concentrated at Odoff, on Lake Peipus, which constituted a last serious threat to the rear of General Yudenitch, have been dispersed. This removes the menace of an advance against the communications of the anti-Bolshevik forces now before Petrograd which War Minister Trotsky was reported to have declared recently would decide the fate of the city, making the defense of the old capital futile.

LONDON, (AP)—Forces of the Soviet Russian government are being slowly driven back to their last defenses in front of Petrograd. General Yudenitch has captured Pulkovo, about seven miles south of the city, and Ligova, less than eight miles to the southwest, according to official reports.

Bolshevik troops are apparently formed along the Petrograd-Luga-Pavlov railroad, where they are stubbornly resisting each attempt of the Yudenitch forces to drive eastward. The anti-Bolshevik reached a point near Luga last week but since that time there has been no indication that the railroad has been crossed at any point south of Gatchina, which is admitted to be in the hands of the Yudenitch army.

Bolshevik Hold Coast
Soviet forces seem still to be holding the coastal region west of Petrograd, a Heligoland dispatch telling of a line between Bolshoi Island, the island and the fort at Kransnia Gorka. A great fire, accompanied by an explosion, was observed after the battle but it may have been at Oranienbaum, a village about 12 miles east of Kransnia Gorka.

Kiev, which was occupied by Bolshevik troops last week, has been retaken by Denekine's Cossacks, who have forced the Reds out of most of the city. Fighting was still going on there last Friday.

Nearer the center of General Denekine's line the Soviet armies have advanced.

SMITH ARRIVES AT FLIGHT END

Record to be Compared with Log of Maynard, First at All Terminals

CHICAGO, (AP)—Captain Lowell H. Smith, the third aviator to finish in the trans-continental army air race, arrived at San Francisco from Reno today at 9:50.

Lieut. R. S. Worthington, who expects to be the next flyer to reach San Francisco, arrived in Rock Island at 9:15 a. m.

Lieut. Earl Manselmann spent the night at Cleveland where he is held up by bad weather and engine trouble.

Lieut. Alexander Pearson Jr., also arrested at Cleveland, was forced to stop because of the adverse weather.

There was unfavorable flying weather over a large part of the route today, which materially interfered with the schedules of the aviators.

SAN FRANCISCO, (AP)—Captain Lowell H. Smith, a Marine field flyer in the army's trans-continental air derby, arrived here at 9:50 (official time), being the first of the fliers who crossed from San Francisco to return here.

Captain Smith had as his observer Sergeant Emmett Tanner, who made the flight from here to New York with Major Carl Spaatz. Major Spaatz continued the race at Buffalo, handling his machine over to Captain Smith, whose De Havilland "biscuit" had been hurriedly altered after the flight which prevented Captain Smith from being the first of the San Francisco fliers to reach New York.

Captain Smith was tendered a reception by Mayor Joseph P. Hill, General Hunter Liggett and Col. H. H. Arnold, chief of the air service here, today in the city hall.

WILSON TAKES HAND IN ATTEMPT TO AVERT BREAK IN CONFERENCE

President Addresses Six Hundred Word Letter to Chairman Lane Declaring Imperative Necessity for Holding Conference Together Until Purpose for Which Meeting was Called is Accomplished

WASHINGTON, (AP)—A declaration of the imperative necessity of holding the national industrial conference together until it has accomplished the purposes for which it was called is understood to form the keynote of a six hundred word letter which President Wilson sent today to Secretary Lane, of the interior department, chairman of the conference.

"Powerful Document"
The president was said to have outlined these purposes at some length. The letter was drafted by those who had read it as "an extremely powerful document," written in the vigorous style which characterized the executive's writings before his illness.

Secretary Lane said he would not lay the letter before the conference except as a last resort to prevent dissolution of the gathering. He added that though the conference should work out its own destiny if possible and be its own master.

Lane Approves Recession
Some leaders in the conference said it was possible that a recess of a week would be taken in order to give the various groups and the committees an opportunity to work out a new program in an effort to reconcile the differences between the capital and labor groups.

Mr. Lane approved the course on the capital group is represented as favorably disposed toward this plan.

Dictates From Sick Bed
In a 600-word letter to Secretary Lane, chairman of the conference, dictated from his sick bed, the president outlined his views as to the conference situation. The letter was immediately dispatched to Mr. Lane, who, it was explained, was to use it at his discretion.

The conference was not in session when Mr. Lane received the communication, having met at 10:15 a. m. and adjourned at the request of the labor group after two resolutions had been presented. It was said the letter might be presented to the conference immediately, but it was explained, it would only when danger of the conference breaking up became acute.

Situation is Critical
The letter stated that the conference was reported to the president today after a conference between Chairman Lane, Secretary Wilson of the labor group, and M. H. Harsh, chairman of the public group; Thomas L. Chadbourne, chairman of the committee of fifteen and Secretary

of the conference, and other members of the labor group, who were confident that the labor representatives would not leave the conference, but would seek to press the advantage gained through having succeeded in bringing the public representatives in line with them on every important issue thus far introduced.

Employers Disagree
It developed today that the employers are far from agreement among themselves on a declaration regarding collective bargaining despite their efforts to reach a common understanding at conferences yesterday and last night. Some members of the group were said to favor standing by the subscription already introduced, others argued that a new proposal be submitted.

Among the resolutions introduced at the session of the conference, the one favoring was one by L. A. Logg, of the capital group, urging a declaration in favor of employers furnishing insurance policies covering the firm's employment, superannuation and death.

Mr. Logg said such policies "would enable the insured to set up an estate for his family, and would relieve from the fear of want, would

Will Frame New Program
Before the brief session today, Chairman Lane said that the leaders of the three groups, capital, labor and the public, had decided to frame a new program, involving all industrial issues of a general nature. It was understood that reference to the specific situation which caused the present situation would be avoided.

Several members of the labor group plainly were impatient. Delegates in the public group, however, were confident that the labor representatives would not leave the conference, but would seek to press the advantage gained through having succeeded in bringing the public representatives in line with them on every important issue thus far introduced.

NO COMPROMISE IS ACCEPTABLE TO COAL MINERS

President of Union Threatening Strike Says Granting of All Demands Only Basis for Settlement

FINAL EFFORT TO AVERT STRIKE CONFERENCE AIM

Representatives of Miners and Operators Meet with Secretary of Labor in Attempt to Settle Dispute

WASHINGTON, (AP)—Representatives of miners and operators met today with Secretary of Labor Wilson in a final effort to settle wage disputes and thus avert the strike of 200,000 bituminous coal miners called for November 1.

John Mine Workers, president of the United Mine Workers of America, and Thomas T. Browster, chairman of the operators committee, headed the two delegations comprising in all nearly 100 members.

In opening the conference, Secretary Wilson urged that the differences be adjusted in some way so as to save the coal output during the closing of the mines in winter.

Lewis and Brewster on their way to the meeting, which was secret, each declared that miners and operators were standing firm.

"There will be no settlement unless all our demands including the five-day work are granted," Lewis said, while Brewster announced that operators would not open peace negotiations unless the strike order was withdrawn.

COMPROMISE ON TREATY LIKELY

Democratic Leaders Call Meeting after Republicans Are Convened

WASHINGTON, (AP)—Possibility of a compromise between Senate and House on the German peace treaty was said to have received serious consideration today at a conference of democratic leaders in the senate.

Senator McCumber, republican, North Dakota, a leader of the so-called "mild" reservation group, introduced in the senate a number of what he termed "compromise" reservations. He said they represented the efforts of republicans desiring to reach an agreement on reservations.

Seven reservations were presented by Senator McCumber. They dealt with the questions of withdrawal, article 10, domestic affairs, Monroe doctrine, Shantung and the inequality of voting strength in the league assembly.

It was said that the foreign relations committee proposed to report out the German peace treaty to the senate tomorrow, after the committee had heard the views of the reservationists.

Hitchcock May Retain
Senator Hitchcock of Nebraska, and others participating in the democratic conference today, said the question of whether differences between reservationists and opponents of reservations had been discussed.

While it was said no agreement was reached in the senate, it is noted that he might be disposed to accept reservations which would not require negotiation of the treaty. Other prominent democrats, however, were said to still oppose to any reservations, until President Wilson had indicated what reservations he would be willing to accept.

Republicans Agreed
Chairman Lodge, it was said, would present to the committee tomorrow, a complete program of reservations upon which the republicans had agreed. A majority of forty-nine was said to be practically in accord. The program also was said to have the support of half a dozen senators.

In presenting his reservations, Senator McCumber said that while there had been no final agreement regarding the German peace treaty, the differences on some, while only "slight differences" existed as to the others, as presented, he said, the reservationists represented the "mild" and "strong" reservationists to get together pending action by the foreign relations committee tomorrow.

ALASKA AND AVIATION BENEFIT BY AGREEMENT

WASHINGTON, (AP)—The senate today adopted the committee amendment to the deficiency appropriation bill providing \$17,000,000 additional for completing the Alaskan railroad.

Without debate or record vote, the senate today agreed to the appropriation committee amendment to the bill providing \$17,000,000 for the army air service.

RIOTING BREAKS OUT IN PITTSBURGH STRIKE AREA WITH 1000 TAKING PART

Fighting at Braddock Results in Injury of Several Rioters and Serious Wounding of One State Trooper; Police Reserves are Rushed to the Scene

STRIKERS ASK GOVERNMENT TO SEND FEDERAL TROOPS TO EAST DISTRICT

PITTSBURGH, (AP)—Rioting broke out in the steel district at Braddock shortly before noon. According to reports received by the police here, a mob of 1,000 persons gathered in the vicinity of the plants and fighting resulted in which a number of rioters were injured. One state trooper was seriously hurt and brought to a hospital here. A troop of state police was rushed to the scene from Rankin, nearby.

CONDUCT OF TROOPS AT GARY PLEASING STRIKERS

WASHINGTON, (AP)—Leaders in the steel strike are so pleased with the conduct of the federal troops at Gary, Ind., that the government has been asked to send soldiers in to the Pittsburgh strike district, John Fitzpatrick, chairman of the strikers' committee, said today.

Mr. Fitzpatrick said the troops at Gary had guaranteed the constitutional rights of the men of the corporation and thus had relieved the "tension" there. In this connection he denounced the "brutality" of the Pennsylvania state constabulary.

Mr. Fitzpatrick charged that publicity agents of the steel corporation had "manufactured" the "red" propaganda found in Gary for the purpose of bringing suspicion on the strikers. He said that most of the "dangerous documents" when translated were found to be nothing more than excerpts from "Tom Sawyer."

While the strikers would welcome arbitration by the industrial conference, they would not accept arbitration to win with or without assistance.

FEARS CLASS GOVERNMENT MOTIVE FOR COAL STRIKE

WASHINGTON, (AP)—Unionism urged by its present leadership was attacked today by the senate in a speech by Senator Frelinghuysen, republican, New Jersey, as a "new autocracy" tending toward Bolshevism.

Criticizing the demands of the bituminous coal miners for a five-day week and increased wages, Senator Frelinghuysen, who is chairman of the senate committee on investigating the coal strike, called upon American public opinion to scotch a movement which he feared would result in class government.

"There is a determined movement throughout the land to assume control of all government functions in behalf of a class," continued Senator Frelinghuysen.

"Labor has come to a bad end of the ways. The country is not ready to be dictated to by a horde of alien. Any citizen who seeks to advance the power of the labor and his associates at the expense of the general public is not a patriotic citizen. Sovietism means class rule. We cannot permit that in America."

"Labor unionism should be upheld for one primary principle, to obtain and maintain justice for the man who earns his bread by the sweat of his brow; but when the power of organized labor is employed to impose injustice against all other classes of society, the law of the land should be invoked to prevent the abuse of such power, or laws enacted that will do this."

Digging Own Grave
"When labor defies law and order through the power of its union it is sounding its own death knell and digging its own grave."

"There are thousands of law abiding citizens members of these unions who do not desire to strike. The terrorism spread by the radical and lawless in these unions creates fear for the safety of their homes, their wives, and their children."

"Labor has risen to a high degree but, if, through improper influence and disloyal leadership the labor group attempts to place its fetters upon an unwilling public it must be dealt with accordingly."

Demands Inordinate
The New Jersey senator said the demands of the miners, half of them unemployed, were inordinate.

CO-OPERATIVE MANAGEMENT WILL BE GIVEN TRIAL IN NEW YORK FACTORY

NEW YORK, (AP)—Co-operative management by employer and employee will be inaugurated as an experimental test by Sweet, Orr and company, manufacturers of overalls, on November 1, one of their plants in Yonkers, it was announced today.

Under the new system, the employees, all of whom are women, will elect their own foremen, establish their own minimum standards, and their own take over all matters of shop management. They will receive the standard wage agreed upon by the United Garment Workers of America. Under the union made garment manufacturers association and in addition those who have aided in production and assisted in solving business will receive a monthly bonus.

The co-operative plan, if successful, will be extended to 17 other plants operated by the corporation.

STRIKE CRISIS ON NEW YORK'S DOCKS REACHED

Strikebreakers Put to Work Moving Cargoes While Soldiers Begin Labors at New York Army Piers

NEW YORK, (AP)—A crisis in the strike of 40,000 New York longshoremen was reached today. The International Mercantile Marine, which has forty ships tied up in the port, put strike breakers at work moving cargoes on 500 United States troops were sent to work in duplicate at many places where transports to and from Europe have been held up.

Army officials made it plain that troops sent from Newport News would be used solely as workmen at army piers and would not appear at private or shipping board docks. Heavy police guards, however, were on duty at other piers.

B. N. Squires, secretary of the national adjustment commission, announced today that he had been officially notified that the longshoremen employed on the Chelsea piers, comprising the largest local in the port, would return to work tomorrow.

The Chelsea piers are the headquarters of the Cunard, White Star, American line, French Line, Red Star and other large trans-ocean companies.

The Swedish-American Steamship company announced today that sailings of its ships would be immediately resumed in view of improved port conditions.

J. J. GUHEEN REPORTED SUICIDE AT PORTLAND

Former Circuit Judge at Pocatello, Prominent in Idaho Politics, Dead

PORTLAND, ORE, (AP)—J. J. Guheen, former circuit judge at Pocatello, Idaho, and prominent for many years in Idaho politics, shot himself today while taking his morning walk according to witnesses. Death was almost instantaneous.

Guheen was a patient in a hospital, receiving treatment for a nervous breakdown. He was 58 years of age and is survived by a widow and two children and a brother, in Portland.

An attorney general of Idaho during the administration of former Governor Frank R. Gooding, Judge Guheen, whose death is reported today, was author of the contract under which the Twin Falls-Salmon River irrigation project was built. He retired from official position to practice law in Pocatello, and subsequently was appointed judge of the district court there to succeed James Biersack, resigned.

Judge Guheen was well known throughout Idaho and in the Twin Falls country in particular. His brother, Maurice Guheen, formerly resided at Pocatello, but he acted for some time as Carey act land commissioner.

Minister of Finance Says Borrowing of Big Sum Annually Necessary

PARIS, (AP)—Figures furnished by M. Klott, minister of finance, in a concluding debate on France in the French chamber of deputies, show that it will be necessary for France to borrow about two billion francs a year in the course of the next few years in order to meet the requirements of the bill authorizing the first loan. M. Klott stated, would be presented in January or February.

The speaker declared that government receipts were showing an encouraging increase above the budget estimates for revenue in 1919, roughly ten billion francs, and that there was no doubt that the country could support an increase of fifty per cent over present taxation.

CHINA'S EXPORT TRADE TOUCHES HIGHEST TOTAL

Commercial Relations Prosper Despite Post War Reconstruction Obstacle and Internal Strife

SHANGHAI, (AP)—Despite all the obstacles imposed by post-war reconstruction throughout the world and by the internal strife which has afflicted the country, China's export trade in 1918 touched the highest total it has ever attained, according to the annual report of the inspector general of customs. The exports totalled in value 485,883,031 Halkwan taels, an increase of 22,951,401 taels over the total for 1917 and of 4,985,062 taels over the total of 1916, which was the previous record. The average value of the Halkwan tael in 1918 was \$1.28 in American money; in 1917, \$1.03 and in 1916, \$0.70.

Japan Best Customer

The report shows that Japan continued to be China's best customer in 1918, as exports to Japan for the year amounted to 163,394,092 Halkwan taels. The British colony of Hongkong holds second place while the United States was third in the list with exports totalling 77,134,205 taels. Russia formerly was China's best customer for furs, besides consuming large quantities of other Chinese products. How the disturbed conditions in Russia have affected the country's credit may be seen from the fact that Chinese exports to European ports of Russia fell from 4,222,617 Halkwan taels in 1916 to 83 taels in the year covered by the report.

War Effects Apparent

All through the report the direct effects of the war in Europe are to be seen. In 1910 China shipped goods having a value of 1,105,998 Halkwan taels to the Netherlands. With the blockade against the northern neutrals became effective the following year China's exports to the Netherlands dropped to 150,330 taels and they reached the vanishing point in 1918. It is seen that the bulk of China's trade with the rest of the world comes out of the northern part of the country. Exports to the Netherlands from Shanghai, the country's principal commercial center, amounted in 1918 to 175,089,478 while the exports from the principal southern center of Canton were 59,793. From a northern port of Hangkow, Shanghai's closest competitor, exports in 1918 were valued at 102,825,228 taels.

Trade Becoming Diversified

It is apparent in the report that export trade in China is becoming diversified and the record total of 1918 is due to increases made in many lesser shipping centers, for the large export port like Shanghai, Hankow, Tientsin and Canton made but slight increases.

LEAGUE WILL NOT WAIT ON U. S. RATIFICATION

Unsettled Conditions in German Territory Require Immediate Functioning, Council Holds

PARIS, (AP)—The supreme council Monday discussed the possible date for the call for a meeting of the council of the league of nations. The question will again be taken up next week when the date probably will be determined. It is considered entirely impossible to wait for the United States to ratify the treaty before the formal announcement of ratification is issued, because of the unsettled conditions in German territory.

Evidently the council of the league at its first meeting will dispose only of the Barre Valley question and other matters which cannot be postponed.

VISCOUNT IS A BANKRUPT

British Nobleman's Financial Resources May Improve Through Legacy

LONDON, (AP)—Viscount Liffington, whose name appears in the list of "receiving orders" in bankruptcy, is the heir to the estates of his mother and maternal grandmother was Mrs. Bradley Martin, of New York.

The newspapers express the opinion that the young viscount's embarrassments can be only temporary, since he is said to be heir to much of the wealth of his American grandmother, and in addition is heir to his father's lands and three manors. Viscount Liffington came of age in 1917. He was wounded while fighting in France, it being necessary to amputate his right leg above the knee.

CHINESE DRIVEN FROM MEXICO WOULD GO HOME

Government Appeals to United States for Assistance in Returning Exiles to China

WASHINGTON, (AP)—Approximately one thousand Chinese driven out of Mexico into Guatemalan territory as the result of an appeal made by the Chinese government to the United States to assist them in returning to their homes in China. The Chinese legation here has explained their predicament to the state department which is considering the suggestion that a government vessel be used to transport them.

Expulsion of the Chinese from Mexico was a result of the campaign being made in that country against the immigration of Asiatic labor. They were driven across the Guatemalan frontier by native laborers.

DETROIT LEADS AMERICAN CITIES IN CUT OF FAMILY EXPENDITURES

WASHINGTON, (AP)—While Detroit was the only city to show a 5 per cent decrease in average family expenditure for 22 staple food articles in September according to figures compiled by the bureau of labor statistics, seven showed four per cent decrease and eight decreases of three per cent. Those in the four per cent group included Denver, Dulles, Indianapolis and Peoria; in the three per cent group; Butte, Chicago, Cincinnati, Kansas City, Manchester and Springfield; in the two per cent group; Boston, Buffalo, Cleveland, Milwaukee, Minneapolis, Omaha, Pittsburgh, St. Louis, St. Paul, Washington and Wichita.

In Portland, Ore., and San Francisco there was an increase of two per cent, in Los Angeles an increase of one per cent and in Seattle and Salt Lake, and increases of less than five tenths of one per cent.

GERMANS MUST SECURE COTTON

Textile Experts Declare American Product Must Be Had at Any Price

BERLIN, (AP)—American cotton must be bought by Germans at any cost in the opinion of German textile experts, though they groan when they think of the price. These experts estimate that American cotton will cost in Germany about nine and one-half marks for the German pound which is somewhat heavier than the American. This price is in part owing to the low exchange value of the German mark which before the war normally worth about 24 cents.

Regulations Galling

Some little American cotton has been landed at Bremen, especially since it has become possible to send orders by wireless and thus avoid delay of a day or two in sailing by the way of England. Exports say the Americans are anxious to do business directly with Germany and to avoid any interference by the British, but the German regulations limiting bills of exchange is a serious handicap for it prevents the importation of much cotton from America through fear of losses by exchange.

Must Have Cotton

Nevertheless, the trade writers point out that English factories already are producing cotton goods in the occupied district of Germany and they agree that if Germany is not to be overwhelmed by expensive English goods which thus would obtain an opening foothold in German markets, Germany must have American cotton no matter what it pays.

SCRAMBLED CONDITION OF CURRENCY JUGO-SLAV ILL

Paper Money of Half Dozen Countries Circulates with Varying Value

BELOGRADE, (AP)—Not the least of the ills that beset Jugo-Slavia is the scrambled condition of its paper currency. The paper money of half a dozen countries is in circulation in various parts of the kingdom of the Serbs, Croats and Slovenes. In Belgrade itself the "krona" of Austria-Hungary is still the unit in which all commodities are priced. The situation is further complicated by the fact that the ratio of exchange between the different moneys varies from day to day. Indirectly, the chaotic currency situation has aggravated the problem of provisioning the country by impeding the movement of surplus foodstuffs from one section to another. Farmers who possess a surplus which they would willingly sell under stable money conditions decline to barter their produce for paper whose value is one thing today and another thing tomorrow.

RED-CROSS TO SEND BALKANS

Native Women Trained to Continue Relief After Emergency is Passed

BUCHAREST, RUMANIA, (AP)—When the American Red Cross quits the Balkans, when its work there is completed, the people are not to be left entirely alone. This was the promise made to the Balkan people by Colonel Robert E. Olds, commissioner for Europe of the American Red Cross, at the inauguration here of the Red Cross program of medical and reconstruction work which is to follow the work of emergency relief now drawing to a close.

Ending Work in Balkans

"The great work done in the Balkans," said Colonel Olds, "is not over. The work of feeding and clothing the helpless peoples of the Near East is drawing to a close. But we shall not leave these nations without substantial legacies and permanent reminders of the work already done here.

Hundreds of Red Cross women and men have left the Balkans for their homes in the states, but small groups will remain to continue their work. In Serbia, Bosnia, Herzegovina, Albania, Montenegro, Greece, and Rumania, children's hospitals, district nurses' services, infant welfare work, nurses' training schools, the reconstruction of hospitals and the medical fight against tuberculosis, malaria, typhoid, and other too prevalent diseases, will be carried on.

Training Native Women

In all this work native women will be trained to take up the work when Red Cross workers leave six months or a year from now. The emergency relief work in the Balkans is ended, but the constructive work will still go on.

SAYS MINERS' DEMANDS ARE PURELY ECONOMIC

President of Organization Threatening Strike Disclaims Radical Intentions

WASHINGTON, (AP)—Demands of miners for higher wages and a five day week are purely economic and "have no relation to any radical or ultra-radical political reforms being advocated by certain elements in our nation," John L. Lewis, president of the United Mine Workers of America said Monday in a statement discussing the strike of half a million bituminous miners called for November 1. "We are neither Bolsheviks nor the advocates of any 'isms,'" Lewis said. "The position of the miners has been dictated by the elements of physical necessity and we shall not be deterred by any false issues which may be raised by coal operators or interests which may be in opposition to our demands."

Lewis asserted that these demands "could be applied in toto without any material increase in the price of coal to the consuming public."

GERMANS PLAN IRRIGATION OF MEXICAN LAND

Evidence of Teuton Colonization Scheme Revealed in Announcement of Reclamation Enterprise in Sinaloa

MEXICO CITY, (AP)—Concrete evidence of German colonization plans for Mexico was revealed here Monday with the announcement of an enterprise for the irrigation of 200,000 hectares of land in the Fuerte river valley, in the state of Sinaloa, where thousands of German emigrants are expected to buy small parcels of land on a twenty-year payment plan.

The corporation is being floated by Jose Menkany, a Mexico City capitalist, with the support of General Ramon Iturbide, governor of Sinaloa. It is proposed to construct a dam at Saltillo, Blas, securing from the government a concession for the use of enough water from the Fuerte river for the proposed colony. The land is declared to be extremely fertile and the plan is being backed by German banks here.

Until a few months ago the water concession for the Fuerte valley was held by the United Sugar companies of Los Mochis, Sinaloa, headed by Benjamin F. Johnson of Chicago, Ill. The concession of the sugar companies granted twenty years ago, was for the use of 75 per cent of the river's flow, but it is declared to have been decreased to eight cubic metres per second.

Gluck approves her Victorrola Records

No master record shall be considered as satisfactory and complete and perfect until it has been approved in totality by an authorized representative of the Victor Company, Inc. as by the artist.

The Victor contract demands that every Victorrola Record be approved by the artist who made it before it is listed in the Victor Record catalog.

You can be doubly sure that every Victorrola Record you play on the Victorrola portrays the interpretation of the artist with absolute fidelity. Every Gluck record, for instance, must meet the approval of the Victor Recording Laboratory and also the approval of Alma Gluck herself.

When you hear her beautiful interpretations on the Victorrola in your own home, you can be absolutely certain that you hear Alma Gluck exactly as she herself heard and approved her own work.

Come in and hear Alma Gluck on the Victorrola. You can also hear any of the other famous and exclusive Victor artists.

CARRANZA IDEA REGARDING OIL DEBATE CENTER

Mexican Senate Engages in a Sharp Conflict over Proposal for Nationalization of Petroleum Properties

MEXICO CITY, (AP)—A sharp conflict is being waged in the Mexican senate over the nationalization of oil lands as provided in the decree of President Carranza which were in the Mexican constitution article 27 of the Mexican constitution. The decrees have been the object of bitter attack by the foreign oil interests which declare that both they and article 27 of the constitution would be confiscated.

Deputies Delay Action
Disappointed over the inactivity of the chamber of deputies which has delayed action on the nationalization question, the senate brought up a new oil initiative based on that of the president but differing from it in the vital point that it makes the retroactive. If adopted this law would not nationalize oil lands to which the title was perfected before the present constitution became operative which was on May 31, 1917.

Debate on this measure, however, soon became complicated as a result of attempts to amend the complete redrafting of the 27th article. In the senate discussions, Luis Cabrera, secretary of the treasury, and Leon Salinas, sub-secretary of agriculture and commerce, have presented the government's side in support of nationalization.

Says Time Is Wasted
Secretary Cabrera also quoted in newspapers as asserting that the senate is only wasting time in discussing the oil question since the oil interests would be satisfied with the senate's decision.

The foreign oil companies have brought suit in the Mexican courts to prevent the president from taking effect, and these have been appealed to the supreme court. Secretary Cabrera has opposed action of the supreme court in this case, suggesting to delay action until the executive department of the Mexican government and representatives of the oil interests can reach an understanding. What, if any, progress has been made in reaching such an agreement is unknown.

Besides playing Mahler, the Eurasians in "The Red Lantern," which comes to the theatre in the form of a talking effect, and these have been appealed to the supreme court. Secretary Cabrera has opposed action of the supreme court in this case, suggesting to delay action until the executive department of the Mexican government and representatives of the oil interests can reach an understanding. What, if any, progress has been made in reaching such an agreement is unknown.

In "Oh Baby" the 1919-20 edition of the perennial series of Marcus extravaganzas which comes to the Laverling Theatre on Friday, October 24, the effort has been made to amalgamate every known form of stage entertainment from grand opera to travesty. If there is anything missing to make this melange complete no doubt Impresario Marcus will estimate to the personal favor if the lack is pointed out.

To enumerate the various forms of entertainment represented in "Oh Baby" would be to mention every known style past and present. An idea of the gamut of "Oh Baby" may be gathered when one sees Mike Sacks and his assistants engaged in a comic game of poker, employing the most nonsensical of material, and the next instance the ridiculous gives place to the sublime as they play the Yvonne Valli, Mona-Roland Zermain and the corps de ballet in the Dresden china divertissement, "The Artist's Model."

As one laughs at Mike Sacks and Charlie Abbate so does one marvel at the acrobatics of Marie Gerard or relish the airy banter of droll Ristic Cover, while they Dale reminds one of that master of song, the late "Prits" Emmett. Then there is the instrumental melody of the Morette Sisters, to please the sensually inclined, and of all emotions evoked none can be more potent than those engendered by the frequent appearance of the chorus and the frequent appearance of the chorus and the frequent appearance of the chorus.

Brief Bits of Sport

Salt Lake sports believe they have another champion in their midst. This is Ira Dern, a middleweight grappler, who is making a sensational showing in the east.

In England there have a law to compel married men to wear wedding rings. Some curb that for wild sport Lotharios of the benedict order.

A curious observation of secret practice on Lincoln field encourages the impression that different teams to be recorded of the next prize game's result.

Snap, pop, ringer, co-operative team play, a determined and over increasing disposition to perfect playing smacking, a definite scheme of coaching, backed by hardihood, speed and bucking strength, make the high eleven look more like the real thing.

One of the pleasing improvements displayed in practice is the system of tackling. Heretofore the lads have displayed an apparent fear of injury when going after a fleeing opponent, usually attempting to stop him with a bunny hug. Now the lads are going to the knees, which has an altogether different effect.

Benny Leonard, champion lightweight boxer, is soon to meet Johnny Dundee for the crown. Benny has been doing fairly well in his recent and on the tour has met all comers, as well as making some regular stands against boxes of merit. He is said to be in great shape, and expects to dispose of Dundee in his first time.

DRINKING A GLASS OF HOT WATER IS A SPLENDID HABIT

Cleanse and Sweeten the System Each Morning and Wash Away Poisonous, Stagnant Matter

Those of us who are accustomed to feel dull and heavy when we arise; splitting headache, stuffy from a cold, foul tongue, nasty breath, acid stomach, lank back, can, instead, both look and feel as fresh as a daisy always by washing the poisons and toxins from the body with phosphated hot water each morning.

We should drink, before breakfast, a glass of hot water with a teaspoonful of limestone phosphate in it to flush from the stomach, liver, kidneys and bowels the previous day's indigestible waste, sour bile and poisonous toxins; thus cleansing, sweetening and purifying the entire alimentary tract before eating more food.

The action of limestone phosphate and hot water on an empty stomach is wonderfully invigorating. It cleans out all the sour fermentations, gases, waste and acidity and gives one a fine appetite for breakfast. A quarter pound of limestone phosphate costs very little at the drug store, but is enough to make anyone who is bothered with biliousness, constipation, stomach trouble or rheumatism an enthusiast on internal sanitation.—Adv.

Indigestion, Biliousness, Constipation, Chamberlain's Tablets have restored to health and happiness hundreds who were afflicted with indigestion, biliousness and constipation. If you are troubled in this way give them a trial. You are certain to be pleased for they will benefit you.—Adv.

WILLIE HOPPE STILL MASTER

The Chicago Billiardist Demonstrates He Retains Deftness with One

NEW YORK, (AP)—Willie Hoppe last night eclipsed all other contestants in the opening matches of the American National 18.2 ball line championship billiard tournament at the Hotel Astor. The former title holder made two phenomenal runs of 149 and 128, mastering Welker Cochran by the score of 400 to 118. The result furnished the answer to the efforts Cochran made a year ago to match Hoppe's average was 44.9. At all stages he played close billiards, his deftness in controlling the sphere being unusually good.

The victories of Ora Morningstar and George B. Sutton were not so brilliant as that of Hoppe, although they played well and made a fine showing. Hoppe, 400, average 44.9. High runs 149, 128 and 79. Cochran: 118; average 13.1-9. High runs 54, 44, and 10.

GRID ELEVEN READY TO EAT 'EM ALIVE

High School First Team Goes to Buhl Friday to Win Its First Scalp

Twin Falls high school's big squad travels to Buhl next Friday, determined to make the west end eleven its first victim of the season. Between the Gooding game last week and the coming melee the Demons will have had sufficient practice to enable them to be in first class shape for this week's battle.

While the first team is engaging Buhl, the second team will tackle the Wendell varsity here at Lincoln field. Though high class ball cannot be guaranteed for that game, it will no doubt be hotly contested, both teams being evenly matched.

COLDRED FIGHT LEAGUE BEGINS NEW SCHEDULE

Harry Willis Starts Off Giving Joe Jeanette a Bare Lacing

JERSEY CITY, N. J., (AP)—Harry Willis, negro heavyweight of New Orleans, outfought Joe Jeanette, the local negro heavyweight, every round of an eight-round bout last night. Willis weighed 200 pounds and Jeanette 204. Bill Brennan, Chicago, weighing 196 pounds, gave Dan O'Dowd of Boston 171 pounds, a bad beating in every round of another 8 round go.

Dave Rosenberg of New York, last year's national amateur welterweight champion, knocked out Babe Landy of New York, in the third round.

An Agreeable Surprise
"About three years ago when I was suffering from a severe cold on my lungs and coughed most of the time night and day I tried a bottle of Chamberlain's Cough Remedy and was surprised at the promptness with which it gave me relief," writes Mrs. James Brown, Clark Mills, N. Y. Many another has been surprised and pleased with the prompt relief afforded by this remedy.—Adv.

THE BUSINESS AGENT

Organized labor, through its repre-
sentatives at the national industrial
conference now in session in Washing-
ton seeking a way out of existing vex-
atious industrial problems, is contending
for recognition of its right to be heard
through representatives chosen by
itself, and it is difficult to see
wherein opposition to its claims in this
particular is justified.

Labor is more than a commodity;
but it is a commodity, too, being sub-
ject to the operation of the economic
law of supply and demand and requir-
ing salariness in its disposition on the
market.

It does not follow, because a man is
a good workman that he is a skilled
salesman, and so he is impelled to call
to his assistance those who are skilled
in the art of salesmanship, just as you
and I, when venturing upon an under-
taking involving a contract, are
prompted to call in expert advice and
assistance to safeguard our interests.

Denial of this right to labor is not
more justified than would be the denial
of the right to anyone to consult
an attorney.

The representatives chosen by or-
ganized labor for this business—organ-
izers, business agents, "walking dele-
gates" or whatever they may be styl-
ed, are supposed to be skilled in the
art of marketing labor to the best ad-
vantage and it is to labor's interests
to see that they are.

But they are supposed to be more
than that. Since labor is more than a
commodity, the successful discharge of
the duties of labor's business agents
calls for a high degree of diplomacy
which, quite often, is exerted as well
in the interests of the employer of la-
bor as in the interests of labor itself.

Generally labor's business agent has
a sympathetic appreciation of the po-
sition of the employer and it is because
of his exercise of this perception that
many disputes and misunderstandings
between employer and employe have
been prevented from developing into
open rupture.

It is the unusual that has news value.
If the results of negotiations conducted
by labor's business agents were more
often productive of strikes than of the
adjudication and settlement of disputes,
the successful arbitration rather than
the contrary would be featured from
the standpoint of news.

It is because of this fact, very large-
ly, that the radical among labor's busi-
ness agents, the "walking delegate"
who exercises arbitrary powers and
makes trouble generally has come to
be regarded, perhaps rather commonly,
as the typical business agent.

As well might the professions of
law, medicine and the clergy be dis-
credited because of the occasional
shyster, quack or renegade in them.

Twin Falls heretofore has had oc-
casion to witness the manner in which
labor's business agents perform their
work. Invariably here as a result of
their intervention, strikes have been
prevented, and in some instances not
only has the dispute been settled sat-
isfactorily after the failure of negotia-
tions conducted without such inter-
vention, but employer and employe have
been brought into closer relationships
of bettered mutual understanding.

The business agent is not always
right, but his record of achievement
thus far has justified his position.
The present necessity is not for the
abolition of the business agent as an
institution, but for the weeding from
his ranks of those who do not truly rep-

AGAINST "JIM CROW" RAILROAD CARS

Federal legislation prohibiting
Jim Crow cars or other legislation dis-
criminating against negroes on rail-
roads or steamships within the United
States was urged by Representative
Madden of Chicago (portrait herewith)
before the house committee on inter-
state and foreign commerce the other
day. Mr. Madden advocated the in-
clusion of the provisions of a bill in-
troduced by him in general railroad
legislation. A delegation from the
Colored American council, which sponsors
the bill, was present.

Representative Sanders of Louisi-
ana was the most outspoken in oppo-
sition to the bill among members of
the committee. "We contend that the
negro prefers separate accommodations,"
said Mr. Sanders. "Our negroes
down South, knowing they aren't wel-
come in the white man's coach, don't
go in."

Mr. Sanders asked Mr. Madden if
it was not true that a great majority of
the negroes now live in the South.
"Yes," replied Mr. Madden, "but I don't
see what that has to do with this
bill. We think they should be treated in
the South the same as in the North."

Competitions Add Interest to Cultivation;
Many Small Exhibits Build the Best Shows

An organized competition among
neighbors helps create added interest
in vegetables, fruit, and flower grow-
ing in a community. To add those who
desire to have a horticultural show or
a garden competition, but who do not
know exactly how to conduct one, is
the purpose of a circular recently in-
sured by the department of agricul-
ture. The methods given in it are
those which experience has proved to
be the easiest and best. Among the sub-
jects treated are selection of an en-
trier, the arrangement of the hall and
of the exhibits, the points observed in
judging various horticultural exhibits,
and the prizes offered.

Quality Essential
A large number of small exhibits in-
stead of a few large ones favor a suc-
cessful show. An important point is to
have the premiums made up early,
preferably before seeds are ordered.
Exhibits should be attractively staged,
the entries for a class being kept to-
gether. Both class and individual en-
tries should be plainly and appropri-
ately labeled.

An organization already in existence,
such as a county or state fair, a farm-
er's club, a grange, a garden or hor-
ticultural club, or a boys' and girls'
club, may father a horticultural ex-
hibit or a group may be brought to-
gether especially for the purpose. Once
organized, this circular suggests the
first step in the preparation of the
exhibit. Competitions to be in-
teresting must be fair and equitable.
In order to make them so, competitors
with similar opportunities should be
matched against one another. The ex-
hibits should be divided into as small
units as possible, so that the person
with only a few square feet of ground
may show such products as he may
grow, in even competition with like
products from a large garden.

No Changing of Dates
When the time of the show ap-
proaches the exact date must be fixed,
and this should not be changed. If it
is done it may provoke a feeling of
unfairness.

Recent the best aims of labor.

The same might be said of any of
the established professions or occupa-
tions in which men find employment.

SOVIET FORCES FALLING
BACK ON PETROGRAD

(Continued from page one)
sawed a counter offensive, launching
an attack at Krona, 17 miles southwest
of Orel. This attack was completely
defeated, according to an official re-
port.

Reds Defeated at Orel
Southeast of Orel, the Bolsheviks
have suffered a disastrous defeat, an
official report says. This battle took
place west of the Khopor river, the
most important tributary of the Don.
It is said that volunteer troops of the
Denikin army are following up their
advantage in this region.

It is generally felt to be well
worth while, even by those upon whom
the heaviest burden falls.

Where competitions of any of the
types discussed in the department's
circular 62 have been held, they have
been found not only to stimulate in-
terest in gardening and home adorn-
ment, but even more to get neighbors
acquainted with one another and develop
community spirit.

An exhibition requires considerable
effort, but it is usually felt to be well
worth while, even by those upon whom
the heaviest burden falls.

The fortress of Kronstadt was still
in the hands of the Bolsheviks Sun-
day, according to a dispatch to the
Daily Mail from the Terjoki, Finland,
from which place the red flag was
then visible at the masthead of the
battleship Petropavlovsk, which is re-
ported to have been raised since she
was torpedoed by the British in August
and now is lying in the Kronstadt har-
bor.

The dispatch to the Mail states that
factories at Kronstadt were working
Sunday and that airplanes which
bombed the fortress that day were
fired on by anti-aircraft guns. The re-
ported raising of the white flag at
Kronstadt Friday is as yet unexplained.

Petrograd Isolated
It is pretty generally assumed here
that Petrograd is isolated and its fall
is a matter of a short time but the po-
sition is obscure with the exception of
official statement that the railroad to

Moscow has been cut and that be-
diggers are within only a few miles of
the city. It is said they are holding
among other places, Pulkovo, the site
of the famous imperial observatory
which overlooks Petrograd.

YUDENITCH ASKS U. S.

STOCKHOLM, (AP)—The United
States minister here, I. N. Morris, has
received a request by telegram from
General Yudenitch and Premier Lia-
zov of the government of Northwest
Russia to ask the United States to fur-
nish food and other necessities for
Petrograd; which General Yudenitch
said, he expected to take today. The
request was forwarded to Washington.

Premier Liazov's dispatch asserted
that General Yudenitch's troops on
Saturday last were only five miles
from Petrograd.

AMERICAN ACTION ON
REQUEST PROMISED SOON

WASHINGTON, (AP)—The request
from General Yudenitch that the United
States undertake the shipment of
supplies to Petrograd as soon as it has
been captured has been received from
American Minister Morris at Stock-
holm and probably will be acted upon
very soon, it was said today at the
state department.

ing to reports to the German govern-

is declared, have been taken to Moscow.

REDS CLAIM RECAPTURE OF

sent out by the soviet government in
Moscow.

Grain and Provisions

CHICAGO, (AP)—Corn jumped up in
price today as a result of action by
the railroad administration putting in
to force the permit system of moving
grain. As a consequence of the change
of railroad methods, the arrivals of
corn at primary markets were expect-
ed to be minimized. Such curtailment
would especially tend to do away with
the increased supplies which many corn
traders had relied upon to fill contracts
for December delivery. Opening prices
ranged from half to 1 3/8c higher, with
December \$1.20 to 1.28 1/8c and May
\$1.24 to 1.24 3/8c, but were followed by
a reaction after the initial rush of
buyers had been satisfied.

Later the demand proved to have far
less energy than had been looked for,
and the market weakened owing more
or less to the depressing effect of a big
drop in the price of hogs. The close
was heavy, 1 1/4 to 2 1/8c net lower,
with December \$1.23 3/4 to 1.23 7/8c and
May \$1.21 3/4 to 1.21 7/8c.

Subsequently, additional breaks in
the hog market rendered any import-
ant rally by provisions impossible.
Oats sympathized with the fluctua-
tions in corn. Trade, though, lacked
volume. After opening a shade to 1-4c
up, including December at 71 1/2c, the
market made a slight further gain,
and then began to sag.

Weakness in hog values pulled down
provisions. Strength of cereals was
virtually ignored.

TWELVE MILLION
TEETH LOST
It is estimated that twelve million decayed teeth are
pulled out every year by dentists in the United States.
Every one of the twelve million teeth had to be taken
out because of neglect. If the people who lost these
teeth had gone to a dentist soon enough, every one
could have been saved.
Think how many kinds of aches there must have been
in these twelve million teeth! Think how much suffer-
ing and sickness were caused by neglect!
Why not have Registered Dentist members of the E.
R. Parker System examine your teeth and tell you
what ought to be done to save them? It will cost you
nothing to find out.

REVIEWS STAR CHAMBER COURT

The Government Proclamations Provide for Quick Action Against Sinn Fein

DUBLIN, (AP)—The general effect of the government proclamations suppressing the Sinn Fein parliament and the Sinn Fein organizations throughout Ireland is to make these organizations illegal. It will be an offense to hold a meeting of these bodies in the proclaimed areas or to publish reports of any such meetings.

As these organizations declare their purpose to be the overthrow of British rule in Ireland and the establishment of an independent Irish republic, and as that purpose has long been illegal under the ordinary law, the proclamation merely provides a speedier means for the trial of offenders and a greater probability of their conviction. They can now be tried by two resident magistrates instead of by the usual petty sessions bench and there is in every case an appeal from the decision to the county court judge.

The proclamation of Dublin, Tipperary, Limerick, Clare and Cork under the first section of the crimes act of 1897 has a different purpose. It is aimed at the discovery of offenders who have escaped detection. It gives power to a resident magistrate to hear a case and take evidence. Witnesses can be examined on oath and bound over to appear at the trial of the offender. The evidence implicates.

The inquiries authorized by the new proclamation may, it is apparently expected, facilitate the collection of conclusive evidence and lead to the arrest of offenders who have escaped. The inquiries are to be held in secret, but a shorthand writer will be present and in case any prisoner is apprehended, a copy of the depositions taken is to be supplied to him before his trial.

The plan revives what was known in the English as the "Star Chamber Court." It was under this system that the inquiries were held which resulted in the capture and execution of the Phoenix Park murderers on May 6, 1882, assassinated the secretary, Lord Frederick Cavendish, and the under secretary, Thomas Burke.

PLANS FOR REVOLT IN ALSACE ARE UNEARTHED

Straasbour Engineer Under Arrest as Leader; Others Implicated

PARIS, (AP)—Plans for a revolt in Alsace that have been held up waiting have been discovered at Straasbour, according to the Echo de Paris. The alleged rebel conspirator, an engineer named Koesler, has been arrested. Two accomplices, and it is said that a member of a socialist union, a former Alsatian deputy and a French socialist are believed to be implicated in the plot. Koesler's residence is reported to have revealed a large number of propaganda pamphlets and a fund of \$5,000 marks. The revolt was planned to break out in a communist uprising in Germany is said to be planned.

RIBBON PRODUCTION AWAY BELOW NORMAL

Eastern Manufacturer Tells of Decreased Output Due to Strike

Many manufacturers insist that the production of ribbons is away below normal due to the dyers' strike. At the Pelgram and Meyer mill in Paterson, N. J., one of the largest making the highest grade of ribbons, one of the representatives said their production has been cut to fifty per cent, but that they have been receiving orders for silk ribbons, although not in the quantities that they would like.

They have some looms running on pieces that have been held up waiting for certain colors, but that is often the case, even when no one is on a strike, and with the sixty per cent cut in production, it is not believed that the strike will hold them up any longer.

There is some complaint that blues are not coming through as they should do, but other colors are coming from the dyers right along. Grades of silk and dyeing are given in the order, and there is little complaint from the workers. The manufacturers say they are unable to get any stock ahead with some months' lead, and it takes them longer to fill an order.

CHURCH CONVENTION GRATEFUL TO PRESS

Episcopalians Declare Enterprise Success Due to Newspaper Publicity

DETROIT, (Special).—Without the aid of the American press no large institution may hope to secure a well-informed public opinion on any great undertaking, according to enthusiastic members of the convention of the Episcopal church, who are cooperating with Episcopal church leaders in the general convention of the church.

Resolutions were unanimously passed thanking the newspapermen of the country for acquainting the public with the program of the church in the nationwide campaign for extending the church influence and for national social reconstruction. The Episcopal church plans an "Every Name" enrollment by December 7, the end of the campaign.

SMITH ARRIVES AT FLIGHT END

(Continued from page one)

The flight of Captain Smith marks the first time that an airplane has made the round trip to New York from San Francisco.

Encountering various difficulties in his own airplane, Captain Smith was forced to install a new engine in Major Spatz' ship at Rawlins, Wyo., Sunday.

Captain Smith's elapsed flying time and other features of the trip were to be copied from his log today in order that they might be compared with the log of Lieutenant E. B. Hayward, who was the first to reach all terminals in the great derby.

Later Captain Smith's official landing time was given as 2:42. Both Captain Smith and Sergeant Tanner appeared to be in good condition despite the rigors of the flight.

Captain Smith's "Bluebird" arrived with Second Lieutenant H. H. Hyman was turning up his De Havilland 4 for the return flight to Mineola.

Social Notes

The box supper held at the Community Church recently for the purpose of obtaining funds for a heating plant for the church, was a splendid success, the total receipts of the evening being \$465.25. The supper was given by Mrs. Peter Peterson, was auctioned, bringing \$46.50, the cake being then presented by the purchaser to the musician, Dr. H. M. Mearns, and the soloist, Henry Mulder, all of Twin Falls. Two violin selections were given by Mr. Blackmer with accompaniment on the piano by Mrs. Varney. Two solos were sung by Mr. Mulder, with violin and piano accompaniment. The selections were very much appreciated. Mr. Wendt, the auctioneer, proved himself to be a master of the occasion, as his efforts helped very much toward the success of the evening.

Mr. and Mrs. M. C. Ware entertained at dinner on Sunday, their guests being Dr. H. Mearns and family, Yarn Bull, Mrs. Stett and daughter of Chicago, who are house guests of the Murphys, Mr. and Mrs. W. F. Botson, and their guest, Mrs. R. W. Bell of Chicago.

The War Mothers' meeting in the parlors of the Presbyterian church yesterday afternoon entertained a small group of friends of their daughter, Helen Lead Minnick, on the occasion of her return from the military. There were about a dozen guests. Refreshments were served.

This evening in the parlors of the Presbyterian church Dr. Frank Howard will address the men's club of the church on the question of "Internationalism." Mrs. E. Duval and Zenna Smith will be the feature of the musical program.

The Twentieth Century club meets this afternoon in Odd Fellows' hall. The afternoon's schedule is in charge of Mrs. Edwyls. There is to be demonstrations in domestic science.

BURY BOX OR BARREL TO SAVE VEGETABLES

Federal Department Tells How to Make Good Cheap Storage Plant

Jack Frost soon will kill most of the tender garden crops, even in the South, and home gardeners have been advised not to delay in caring for vegetables now in the garden.

A storage cellar or outdoor pit is, of course, the most desirable place to store vegetables, but not every home gardener has a storage cellar or pit at his disposal and some simple and inexpensive method must be provided. A very effective storage, recommended by the United States department of agriculture, may be made by partially burying a wooden box or a large barrel on its side in a well-drained spot in the garden. Irish potatoes, carrots, pars nips, celery, turnips, beets, and winter radishes can be stored in this manner. Cabbage, as a rule, can be stored to best advantage by burying it in the ground, while celery can be placed in a trench and covered with boards and straw or leaves, with an outer layer of soil to keep out frost. Sweet potatoes should always be stored in a warm, dry place, such as a room over the kitchen where there will be plenty of both heat and ventilation.

If no cellar or storage pit is available, temporary storage should be provided at once and various vegetables that are adapted to storage should be cared for before it gets cold enough to injure them.

Scotland Yard
Scotland Yard, so often mentioned in connection with London police items, was a building at the southeastern corner of Charing Cross, long famous as the headquarters of the metropolitan police force. It was so called because it was once a palace set apart from the time of Henry II (1154) as the residence of Scottish kings on the Thames embankment.

Wives for Colonists.
In 1621 on August 21 certain consisting of marriageable women was consigned at London to the colony of Virginia. The market price of these ladies, eleven maids and one widow, was set at 120 pounds of the best leaf tobacco for each maid. No reduction in price was mentioned for the widow.

The woman who studies the ads KNOWS the right now offerings of the stores. She doesn't have to spend hours in "shopping." She does her buying in a businesslike way.

Notice is hereby given that the Mayor and Council of the City of Twin Falls, Idaho, will receive and consider sealed bids and proposals on the 27th day of October, 1919, at the hour of 8 o'clock p. m. of said day, at the Council Chambers in the office of the City Clerk of said City, in the Water Works Building, at the corner of Second Avenue North and Second Street North in said City, for the work and furnishing the material in the construction of a conduit to conduct the water from the Canal of the Twin Falls Canal Company in 8th Avenue East and 8th Avenue North in the City of Twin Falls, Idaho, from Blue Lakes Avenue on the Southeast to Addison Avenue on the Northwest.

The data as to the exact location of the said work and the plans and specifications of said conduit can be ascertained from the City Engineer of the said City of Twin Falls, at his office in the Water Works Building at the corner of Second Avenue North and Second Street North in the said City.

Copies of the plans and specifications of said conduit can be obtained from said engineer by application therefor and the deposit of the sum of ten dollars, which sum will be returned upon the return of the said plans and specifications.

The person, firm or corporation, securing the contract for the doing said work and furnishing the said material shall be required to guarantee the performance of the terms and conditions of the said contract by him or it to be performed at once upon entering into said contract, and must pursue the performance of the terms and conditions of said contract by him or it to be performed with dispatch and diligence until completion.

The bid and proposal must be accompanied by a certified check upon some reliable bank, payable to the City of Twin Falls, or order, in an amount equal to ten per cent of the amount of the following terms and conditions. Bidder does not enter into a contract with the City of Twin Falls for the performance of the said work and the furnishing of the said material until a check will be retained by the City and the said bidder shall forfeit the same to the City. The checks of the unsuccessful bidders will be returned to the following month of the rejection of their bids and proposals.

The person, firm or corporation obtaining the contract for constructing the said conduit will be required to furnish the City with a good and sufficient bond in some reliable surety company in an amount equal to sixty per cent of the amount of the contract, conditioned for the faithful performance of all the terms and conditions of the contract by him or it to be performed and conditioned further for the faithful performance of the terms and provisions of the statute of the State of Idaho, in such cases made and provided.

Payments upon said contract will be made as follows: 50 per cent of the City Engineer's estimate of the amount earned under said contract during each calendar month will be paid on the first Tuesday after the first Monday of the following month, and so on each month; the 10 per cent earned during each month will be retained until the completion of the contract and the acceptance of the same by the City Engineer. Said conduit will be enclosed and the material used in its construction will be concrete.

The Council reserves the right to reject any or all bids with the approval of C. B. CHANNEL, Acting Mayor.

HEAD STUFFED FROM CATARRH OR A COLD
Says Cream Applied in Months Opens Air Passages Eight Up

Instant relief—no waiting. Your clogged nostrils open right up; the oiliness of your head clears and you can breathe freely. No more hawking, snuffling, blowing, headache drowns. No struggling for breath at night; your cold or catarrh disappears.

Get a small bottle of Ely's Cream Balm from your druggist now. Apply a little of this fragrant, antiseptic, healing cream in your nostrils. It penetrates through every air passage of the head, soothes the inflamed or swollen mucous membrane and relief comes instantly. It's just fine. Don't stay stuffed up with a cold or nasty catarrh.—adv.

Beauty.
Talk as we may of beauty as a thing to be chased from marble or wrought out on canvas; speculate as we may upon its colors and outlines; what is it but an intellectual abstraction, after all? The heart feels a beauty of another kind; looking through the outward environment, it discovers a deeper and more real loveliness.—Whittier.

SHADE WAS ENOUGH
PITTSBURGH, (AP)—Jack Perry, of Pittsburgh, won by a slight edge over Joe Welch, Philadelphia, in a ten round bout last night, according to a majority of local sport writers. Both men are welterweights.

NOTICE TO CONTRACTORS
Sealed proposals will be received by the Commissioner of Public Works of the State of Idaho, at the office of the Commissioner, Boise, Idaho, until 3 o'clock P. M. of the 27th day of November, 1919, for the construction of 8.4 miles of the Sawtooth Park Highway between Shoshone and Richfield, in Lincoln county.

Bids will be opened and publicly read at the above stated hour. Plans, specifications, form of contract, proposal forms and other information may be obtained at the office of D. P. Olson, Director of Highways, Boise, Idaho, and from the Division Engineer's Office at Burley, Idaho.

All proposals must be made on the forms furnished, and must be signed by the bidder with his address. The right is reserved to reject any or all bids or to accept the bid or bids deemed best for the State of Idaho.

No bid will be considered unless accompanied by a certified check, on some bank in the State of Idaho, made payable to the Commissioner of Public Works, in the amount of five per cent of the total amount of the bid. This certified check is to be held as security by the State of Idaho, and as penalty but as liquidated damages if the bidder, upon acceptance of his bid, fails or refuses to enter into a contract of performance of the contract, within ten days (not including Sunday) after presentation of the contract by the Commissioner of Public Works to the bidder.

A bond with a surety company, authorized to do business in the State of Idaho, and satisfactory to the Commissioner, will be required for the faithful performance of the contract, in the sum of fifty per cent (50 per cent) of the total amount of the contract price to be furnished by the bidder.

It is the purpose of the Commissioner to build the road in the shortest time consistent with good construction, and complete and well designed equipment and effective organization will be insisted upon.

W. J. HALL, Commissioner of Public Works.
