JOHNSON URGES AMENDMENT TO PEACE TREATY

Lead in Senate that Question of Equalizing Voting Power in League Be Considered from National Standpoint

LENROOT OFFERS DRAFT OF STRONG RESERVATION

Disagrees with California Senator Over Procedure to Be Adopted in Safeguarding the American Interests

WASHINGTON, (AP)—Urging his amendment to equalize voting power in the league assembly, Senator Johnson, republican, California, today

Under the treaty, he said, British colonies might secure places on the league council as well as the assembly, the way having been provided in the statute that the question be considered from a national standpoint only.

Why Is Fear? "What is this unholy thing" asked the speaker, "that makes us fear to claim for our country the thing that is best? Almost everywhere it is resented as many votes as any power in the world. It isn't denied in Europe; it isn't denied in Canada, and it is denied in the United States senate alone."

Senator Johnson assailed what he called the "Anglo-Japanese press" in this country, which he declared was ready to "snub and bludgeon" any one who spoke for American interests against the interest of the British or Japanese empire.

Reservations in Debate The committee's new reservation program got into the debate when Senator Lenroot, republican, Wisconsin, took exception to a reported statement by Senator Hiltner, republican, administration leader, that the committee preamble requiring specific acceptance of the reservations by three of the principal powers would require negotiation of the treaty.

Attacking the Johnson amendment Senator Lenroot declared it did not provide a single American interest in safeguarding any American interests" and urged, instead, a strong reservation regarding equality of voting in the league.

Lenroot Offers Reservation Senator Lenroot presented a draft of a reservation which would provide that the United States should not be bound by any league decision in which any nation and its dominions had had more than one vote.

Senator Colt, republican, Rhode Island, declared the Johnson amendment absolutely unworkable, impracticable and unjust.

PRODUCTION OF COAL TO STOP WITHOUT NEW OFFER

President of Employees' Organization Says Suggestion is Indefinite, Inadequate and Fails to Meet Situation

WASHINGTON, (AP)—The United Mine Workers of America today formally rejected the proposal by Secretary Wilson for limiting the coal strike called for November 1.

Officers of the United Mine Workers of America, in a formal statement, declared "Secretary Wilson's proposition and the proposition of the operators are not only alike, but both follow exactly the lines laid down by Secretary Frothingham in his speech in the senate in which he undertook to disclose the basis on which the operators would deal with the miners."

That Secretary Wilson's proposal for settlement of the coal strike would be rejected by the miners, officers of the United Mine Workers of America announced today, on their way to a meeting called to formulate an answer.

John L. Lewis, president of the United Mine Workers of America, reiterated that the union would consider an offer of settlement that failed to grant the demand by the miners for a five-day week.

Woolens Remain High

LONDON, (AP)—No reduction in prices of British woolens is to be expected for at least two years, according to a report at the department of commerce today.

BRITISH EXPENSES LOWER

LONDON, (AP)—In discussing national finances in the house of commons today, J. Austen Chamberlain, chancellor of the exchequer, said the average daily expenditure from April 1907 to September 30, 1909, was £1,225,000 pounds and from October 1 to October 19, 1910, it was 3,753 pounds.

It is the hope of the president and other administration officials that the public delegates, who were appointed by Mr. Wilson and who represent both employers and workers, can formulate a program which will be acceptable to capital and labor.

CAPITAL'S ASSENT DOUBTFUL

Whether capital's representatives would assent to the arrangement proposed in a development of their spokesmen said, that they had stood for what they regarded as just principles and were content to rest their case before the public on the conference record.

Lano Explains Change

Secretary Lano told the delegates that withdrawal of the labor group had changed the nature of the conference. He said he had been commissioned by the president to explain to the employers group the changed nature of the conference and to say that the president desired the public group to remain in session to carry on its work inasmuch as the burden of the results of industrial disputes fall ultimately on the public.

"I know that the people of the United States are greater than any part of that people," said Mr. Lano, "and as a body they will move forward regardless of class or sectional interests."

Probable Organization

The public representatives probably will name sub-committees to study and report on various phases of the industrial situation, and then consolidate their findings into the pronouncement of the conference, Mr. Lano said. This course is similar to that urged on the original conference by the chairman.

Gompers Makes Statement

Samuel Gompers, president of the American Federation of Labor, in a formal statement today, reiterated that unless the employers' group accepted the program agreed to by the conference, the workers without discrimination had the right to organize it was worse than useless for labor's representatives to continue the declarations.

WORKERS URGE SPECIAL MEET OF A. F. OF L.

Illinois Federation of Labor Requests Gompers to Convene Convention to Deal with Industrial Problems

PEORIA, Ill., (AP)—Following the withdrawal of the labor group from the industrial conference at Washington, the Illinois Federation of Labor in convention this morning, authorized the sending of a message to Samuel Gompers, president of the American Federation of Labor, and to members of the executive council, urging the immediate issuance of a call for a special convention of the American Federation of Labor in Washington.

World Unity Brotherhoods

The message urges that the official representatives of the railway brotherhoods be invited to participate, the object of the meeting to be "perfecting of an offensive and defensive alliance of the international unions of the United States and Canada and the railway brotherhoods more effectively to fight out the life and death struggle of the workers now in progress and impending."

Propose Assessments

The message also asks that included in the call as one of the objects of the proposed meeting be "the levying of an assessment upon every organized worker in the United States and Canada of not less than one-fourth of his net earnings and upon every officer of organized labor not less than fifty per cent of his salary and the objects of this drive be accomplished."

GOMPERS DECLINES TO COMMENT ON PROPOSAL

WASHINGTON, (AP)—Samuel Gompers, president of the American Federation of Labor, declined to comment on the action of the Illinois Federation of Labor in urging a special convention of the national organization to deal with industrial problems.

# ALFONSO VISITS BATTLEFIELD OF WORLD CONFLICT

## France Was Not Surprised by German Offensive Against Verdun, Marshall Foch Tells King of Spain

**PARIS, (AP)—**King Alfonso, concluding his brief visit to France, left here at 11:50 o'clock this morning on a special train bound for London.

**VERDUN, FRANCE, (AP)—**Over the battlefields of Verdun, King Alfonso, of Spain, walked yesterday with Marshal Foch, chief defender of the "sainted" during the tremendous struggle fought in February and March, 1916.

Along roads lined by thousands of white crosses marking the graves of the fallen and the numerous terraced passageways where the defenders were marshaled preparatory to counter attacking the foe, the king walked. He is reported to have his distinctive guide with him.

### Deposits Floral Tribute

Upon his arrival at Verdun King Alfonso at once proceeded to the military cemetery where he deposited a wreath of orange flowers with ribbons forming the Spanish colors, upon which was painted a tribute from the royal visitor.

France was not surprised with the German offensive against Verdun, Marshal Foch told the king during their walk over the field. The latter expressed surprise when advised this information, as it has been generally believed the Germans attacked almost without warning.

"We knew of the enemy's plan," said the marshal, "six weeks before we had received our first information from learning of the construction of a firable system of railroads leading to Verdun."

### Critical Day of Battle

"As proof that we were not surprised, I may say we sent for the twentieth corps, which reached Verdun on February 23. When the battle of Verdun began we had on the right bank of the Meuse only two divisions opposing five German army corps. These two divisions held their positions for five days."

February 25 was the most critical day of the battle. The enemy by sacrificing his best troops had succeeded in capturing Fort Douaumont the day before and the situation was grave. On February 25 the troops which had been occupying the West bank (to the east of Verdun) were ordered to fall back to the heights of the Meuse. The order was criticized then but its wisdom was later recognized.

### French Takes Command

"Since I had received an order from great headquarters to establish contact with General Castelnau's division which had been defending Fort Douaumont and now was falling to the Germans, I met General Castelnau at Souilly. All he said was: 'Take command of the army.' Thus on the evening of February 26, I assumed command. I distributed the commands among Generals Gaillaumat, Duchesne and De Balfourier; ordered that not another inch of ground be given up and that the defenders should reply to every attack by a counter offensive."

During the eight days that followed, the village of Douaumont changed hands ten times but the Germans held the fort."

"I understand now," said King Alfonso, "why during those three weeks I knew nothing of what was going on here."

### Ready for Attack

"At last, on March 11, Marshal Foch resumed, "the village was definitely ours, and on March 6, when the Germans attacked on the left bank of the Meuse I was ready to receive them. It had always appeared strange to me that an attack had not been launched on the left bank of the river and everything was prepared in view of such an assault. It was because the enemy deferred that attack too long that we were able to restore the situation. That delay saved us."

"Then came the gigantic struggle for Hill 204 and Deadman's hill. It was then I issued my order of the day: 'Courage, we will get them.'"

### Story of Mangin's Offensive

Marshal Foch then told the story of General Mangin's offensive on May 22 by which Douaumont village was stormed, adding that the Germans put five new divisions into the line during the preceding fifteen days and from May 22 to June 23 buried eight other divisions into the fight, only to gain but 500 yards.

"The enemy after this fighting was shouting: 'Victory!' said the marshal disheartenfully.

### Regain Original Lines

General Mangin's offensive on October 26 when Fort Douaumont was recaptured and the Germans were evacuated the village and fort of Vaux, with the loss of 11,000 prisoners, was then described.

"At the end of 1916," the French chief said, "our situation was favorable on the right bank of the Meuse, but bad on the left. On August 26, 1918, however, our offensive on both banks of the Meuse brought us back to our original lines of February, 1916, and on that day we gained everything we wished."

Marshal Foch and King Alfonso walked out over what was once No Man's land and which now shows no sign of life.

The party returned to Verdun shortly before noon.

# CARRANZA STILL GOOD HORSEMAN

## Correspondents with Mexican President on Tour Express Admiration

**MEXICO CITY, (AP)—**Correspondents accompanying President Carranza on his trip to the northern part of the republic are willing to concede him first honors as a hardy and tireless horseman despite his sixty years. The president has visited several ranches in Coahuila and Nuevo Leon, making those trips on horseback.

One correspondent tells of a forty-five mile ride across the desert, without water and through vision-obscuring dust. At the end of this strenuous ride the president clattered into the little village where he was to spend the night, yards ahead of several of his hardest military men. He apparently suffered no ill effects from the unusual exercise.

Several times the party was caught by darkness on the desert. Camp was pitched and by the light of a log fire, the chief executive of Mexico ate his supper and then rolled into his blankets for a night's rest. Inasmuch as President Carranza has scarcely been away from the national palace for a year, surprise is expressed at his endurance. It is said that the former rancher, for he was a prosperous rancher before revolution made him a president, still finds his keenest pleasures out-of-doors, and is looking forward to the time when he can return to his farm interests in Coahuila and live again the bucolic life.

# GOES AFTER MORTGAGE BROKER TO CUT COSTS

## Cleveland Building Trades Council Stops Work on the Jobs Under Ban

**CLEVELAND, (AP)—**Direct action to cut the cost of home building here by eliminating what is known as the "second mortgage broker" has been taken by the Cleveland Building Trades Council. Already all workmen have been withdrawn from four homes in course of construction, Charles Smith, business agent of the council announced, and he added that the jobs would be tied up until the owners and contractors removed the mortgage operators.

Smith estimated the second mortgage broker adds from \$500 to \$600 to the cost of an \$8,000 home.

"The second mortgage broker is a by-product of the war and 25,000 building operators have determined that for the good of the community he must be eliminated. He is a man who arranges the loan to the man who is building, starts them off and then gets a 'kick off' from contractors and the people who supply the materials," Smith declared.

James O. Devitt, treasurer of a large trust and title company, said the action of the trades council was "revolutionary" but admitted the second mortgage business unquestionably added to building costs. He places the blame on the people, who he says, borrow the money to build homes before they are prepared.

# OPENING TRADE WITH SIBERIAN

## Establishment of Mail and Wire Communication from Alaska Considered

**NOME, Alaska, (AP)—**Establishment of direct mail and telegraphic communication between Nome and Anadyr, Siberia, is now under investigation by two inspectors of the post office in partnership.

The proposition, if carried out, bears large possibilities for this once wealthy gold camp. In northeast Siberia there are approximately 50,000 people who must provide the bulk of their supplies either from Nome, one hundred miles away, or from Petropavlovsk, nearly a thousand miles distant. Nome, it is argued by officials interested in the government's inquiry, should be the logical market for all of the vast arctic world of Kamchatka peninsula.

By the close of this year's navigation period, it is estimated, nearly \$500,000 worth of American goods will have been carried from Nome to the Siberian coast and that with only a few small vessels engaged in the trade.

Siberian furs in return for American goods seems to be the possibility of the future should the government's service be established. In addition, it is pointed out, this will result in the closer relations between Siberians and residents of Seward peninsula.

# BANDITS HOLD AMERICAN AGENT FOR BIG RANSOM

## Representative of United States Consular Service in Mexico Captive

**WASHINGTON, (AP)—**William O. Jenkins, American consular agent at Puebla, Mexico, was kidnaped by three masked bandits last Friday at Puebla and is being held for \$150,000 ransom, the state department was advised today.

Urgent representations have been sent to the Mexican government by the state department as a result of the kidnaping of William O. Jenkins, American consular agent at Puebla, Mexico, who is being held by bandits for \$125,000 ransom.

No additional details regarding the kidnaping had been received this morning from the American embassy at Mexico City, which has been instructed to keep the department fully advised as to developments in the case.

It was learned today that about the time Mr. Jenkins was kidnaped last summer and held for \$25,000 ransom, which was paid, his name at Puebla was raised by bandits, the manager murdered and considerable stock stolen. The bandits were reported to have been part of a band under Carlo Bava.

# GERMANS FEAR CAR SMUGGLING

## Express Concern Over Possible Invasion of American Machines from France

**BERLIN, (AP)—**The Germans are fearful that thousands of the American automobiles sold by the American expeditionary force to the French will be smuggled across the German border, constituting an undesirable invasion of the German automobile industry. It is said here that 80,000 American cars were sold to the French.

Germany is reported to be very short of tires and tubes for automobiles and bicycles. Experts say that Americans have stored up quantities of tires in the occupied territory which can be sent over into unoccupied Germany and sold on the market at prices which the German manufacturer cannot meet.

There is no question in the minds of the Germans that there is an adequate supply of rubber in the world and the financial papers state that rubber production was more than doubled from 1913 to 1918. They say that lack of transportation prevented some of the rubber crop from being transported from South America to the industrial centers where it is manufactured into tires and predict that this difficulty soon will be overcome.

# DID YOU EVER SEE ASBESTOS SWEAT?

## Is There a Doubt in Your Mind?

Come then and see for yourself. See the sweat roll up in beads on the iron body. See the sweat that causes Sweat-Rust, a disease that eats up and rusts out range bodies from the inside. Then, see how good, old, everlasting copper is placed between the asbestos and range body. See the domes on the sheet of copper. See the air spaces formed by the domes. See the thermos bottle principle actually applied to ranges.

### A Week of Daily Demonstration NOW GOING ON

## The Copper-Clad Range is as Plain as an Automobile Body

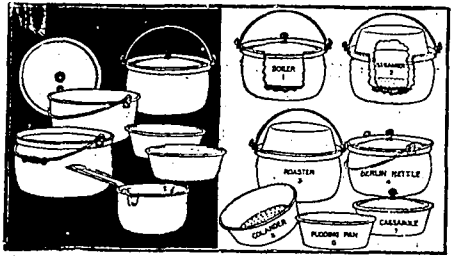

The first automobiles made were fussy, full of ornaments, hinges, catches and latches, but the men who cleaned the automobiles kicked on those things that made so much work and trouble. Then the hinges and latches and catches were put on the inside of the body, clear out of sight—clear out of the way. If men cleaned ranges, the frills and ornaments and fussy and feathers all over the average range would have disappeared 40 years ago.

Clean, smooth, plain, elegant, lined with copper to prevent Sweat-Rust—with four walls and an air space to confine the heat like a thermos bottle—the Copper-Clad is King of the range world. No range compares in any way at any point.

### COPPER-CLAD MEANS

Pure Sheet Copper is placed between the sweaty asbestos and the range body. To place it elsewhere would be like climbing on top of a root to get out of the wet.

### NOYE GETS DECISION ON CLAIM OF FOUL

DENVER, COL., (AP)—The decision, 12-round bout between Johnny Noye, St. Paul lightweight and Lew Tendler of Philadelphia, came to an end in the third round Tuesday night when the referee declared Noye had been fouled.

Tendler was unable to reach Noye until the second round when he forced Noye into his own corner and showered him with rights and lefts to the head and body almost at will.

In the third Tendler again took the aggressive and after a severe beating from Noye, Noye fell to the floor in pain, asserting that he had been fouled. The decision was awarded to Noye after a reexamination by a physician.

The fight was scheduled to have been a 12-round no-decision affair.

At the conclusion of the bout Phil Glasman, manager of Tendler, emphatically refuted the claims of a foul. Glasman maintained that every blow struck by the Philadelphia man was fair.

Asked to tell the secret of his success as a batter, Babe Ruth told his instructors, "Keep your eye on the ball."

### HOPPE IS STILL LEADING CUEMAN

### Chicagoan Defeats Sutton by a Wide Margin in Eleventh Game of Tourney

NEW YORK, (AP)—Willis Hoppe still leads the players who are competing for the 1919 balk line championship in the national tournament here. He defeated George Sutton in last night's game, the eleventh of the tournament, by 400 to 298 in five innings. This is the third winning bracket for Hoppe, who has won all his games so far.

Morningstar and Schaefer have won two and lost one game each while Sutton has won 2 and lost 2. Cochran and Yamada have each won a single game and lost 2 and Slosson has been defeated in all three of the starts he has made.

Hoppe and Schaefer shared the honors for brilliant work yesterday, each having won out in five innings for an average of eighty which is high for the tournament.

Years of last night's match: Hoppe, 80, 110, 1, 100, 91; total 400; average 80. Sutton, 23, 2, 2, 148, 123; total 298; average 59.3.

The schedule for today follows: Slosson vs. Schaefer; Morningstar vs. Sutton; Cochran vs. Yamada; Hoppe vs. Morningstar.

### BAD TEETH CAUSE MUCH SICKNESS

Next to fresh air, nothing is more necessary to good health than sound teeth and a clean mouth. The dentist is as necessary in fighting disease and establishing health as the physician. It is now admitted by doctors that many diseases are caused by bad teeth and can only be cured by good dentists.

Accesess and ulcers at the roots of teeth are dangerous poisons, and these poisons are carried through the system in the blood. Many diseases of the stomach, heart, liver, kidneys, nerves and other organs come from diseased teeth.

Parents as well as children ought to have their teeth examined by dentists to see if anything is wrong with them.

Registered dentists using the E. R. Parker System are glad to make such examinations and give dental advice free to everybody. If disease is found, they will tell you, and they will also tell you what ought to be done to your teeth to put them in good shape again.

Come in and have your teeth examined right away.

do its fighting. Wars are now national contests in the true sense. Until national and international conditions have changed far beyond the limit of anything now in sight, the principle must be accepted that every citizen ought to devote whatever portion of his life is necessary to keep his country in constant readiness to meet any situation it may be called upon to face.

But he ought not to be called upon to do the routine work of a standing military establishment.

On the whole, the Chamberlain-Kahn bill is the one likely to make the most general appeal. It could be improved, perhaps, by providing for a moderate sized standing army instead of an army of drafted citizens; but as contrasted with the Wadsworth-Kahn bill, which would provide an army unnecessarily big and expensive in times of peace and yet unable to save the situation in event of a major war it offers by far the most feasible working basis on which plans for the national defense should be built.

BET SUGAR PRODUCERS AGREE TO PRICE FIXED

Concurrence Representative of Ministry For Gen. of American Output Received by Palmer

WASHINGTON, (P)—Concurrence of producers representing ninety per cent of the beet sugar output in this country has been received by Attorney General Palmer in reply to his suggestion that 10 cents a pound to wholesalers was a fair price for the new crop.

This is an increase of one cent over the old price. With the price question thus settled, officials expect that great quantities of sugar withheld from the market until the situation became stabilized will now be released to relieve the shortage.

ing the threatened strike of coal miners from 7-8c off to 1-8c up, with Recovery. Opening prices, which ranged from \$1.24 1/2 to \$1.24 1/2 and May \$1.22 1/2 to 1-8 to 1-8, were followed by a material decline all around, and then something of a reaction.

In the last part of the day rallies were checked after the mine workers had refused Secretary Wilson's strike settlement proposal and after the industrial conference as originally constituted had quit. The market closed nervous 1-32 net lower, to 1 1/8 advance, with December \$1.24 1/2 to \$1.22 1/2.

Oats weakened with corn. After opening 1-8 to 2-8c down, including December at 71 1/2 to 71 1/4, the market continued to sag: 1-4 to 1-4, 1-4 to 1-4. Provisions parted company with the hog market, and rallied after an initial downturn.

The strength in provisions was chiefly based on expectation that hog receipts would be curtailed by the recent big shrinkage of values.

Cash Quotations CHICAGO, (P)—Corn No. 2 mixed \$1.22 3/4 to 1.23; No. 3 yellow \$1.18 to 1.19. Oats No. 3 white 60 to 75c; standard nominal. Bye No. 2 \$1.25 1/2. Bantley \$1.25 to 1.26. Timothy \$2.50 to 11.55. Clover nominal. Pork nominal. Lard \$27.50. Hibs \$10 to 13.75.

# MOSCOW HUNGRY SAYS PRINCESS

Pathetic Scenes in Russian Metropolis Recounted; Bread Not Money, Wanted

PARIS, (AP)—Wired pictures of Moscow's hunger are given in the Figaro as a Russian princess arriving from Russia. "I will not speak of the terrible, revolting and odious things that passed in the streets of Moscow," she said, "but only of the hunger incidents I saw with my own eyes and which were repeated day after day. I met a woman and a child, ragged and thin as skeletons, and the child crying constantly with an unchanging expression of terror. The mother said that the child was hungry and asked for a piece of bread as they had not eaten for 24 hours. I opened my purse, but the woman turned away saying, 'No, not money, but bread!'"

"Another time I saw a blond haired young girl with arms outstretched, leaning like a living crucifix against a wall and murmuring 'I am hungry.' Next day she died. "I have seen in the middle of a side street a great yellow, hollow-sided dog, carrying a bone with a little meat attached, while a crowd of long-haired men on his face watched the dog as if hypnotized. With neck outstretched, mouth open and fetid clenched, he looked at the dog with hate and ferocity. "I have seen children hardly clothed, hollow cheeks and with forms like skeletons, on their knees in the street, trying to pick from between the paving stones grains of wheat that had fallen from a torn sack. I have seen before hundreds of men, women and children stretched on the cold stones, awaiting through days and nights their turn to get their meagre ration of bread and then often a falling exhausted and dying at the door steps before they received it."

COLOGNE, (AP)—The German Trade Association for South and Central America announced recently that its special representative in Mexico reported conditions as being particularly favorable in view of the opportunities open to German trade. The Mexican agent reported that there was an urgent demand for German goods which were exported by Germany before the war and consequently a splendid opening.

## MEDICOS OFFER THEORIES ON HICCOUGH CAUSES

SAN FRANCISCO, (AP)—San Francisco newspapers have given space recently to a discussion among medical men here as to the cause of a local epidemic of hiccoughs. Some physicians attributed it to the too emphatic "kick" in substitutes for liquor and others said the paroxysms were caused by an "attenuated influenza virus."

## GERMAN AND AUSTRIAN GOVERNMENTS REPRESENTED

BERLIN, (AP)—The German and Austrian governments, it is learned, have decided to send delegates to the Washington labor conference inasmuch as the supreme council of the allies has recommended their admittance, as fully qualified members. The delegates of the two nations probably will leave together for Washington at the end of this week.

# PARISIAN FUEL SUPPLY SHORT

American Tourists in French Capital Bewail the Lack of Heat

PARIS, (AP)—American tourists who have recently reached Paris with that they might have brought their own fuel supply with them. October has been unusually cold and damp, but there is an official prohibition against the use of coal for central heating purposes before November 1, so that only those hotels able to obtain a supply of wood are heated. Most hotels have no coal.

Travelers just arrived from Berlin and Vienna say that prices there are much higher and heat also is lacking. Although it was believed that Paris hotels would have an abundance of rooms for a camera at the departure of the armies of allied war workers, Paris seems just as badly crowded as at this time last year and tourists are walking the streets, seeking accommodations. Paris is still filled with refugees from the devastated areas and from countries upset by war, accounting for the great demand for shelter.

A centrally located hotel now charges 25 to 50 francs daily for single rooms without heat. Wood for use in fireplaces costs sixteen francs a basket when available. Factors are running on short time because of the lack of coal and the fuel administration is on this account curtailing the supply for hotels and households so sharply that heating will be limited even after November 1.

## Labor Saving.

A boy was in the act of taking a short run through a plowed field when the farmer, observing him, shouted: "Hi, there's no road there!" The boy turned around, and, feeling that as twenty yards lay between him and his frate's accusor he was safe, coolly replied: "So I see; but you need not trouble to make one. I shall not come back this way!"

## His Fellow-Feeling.

Henry had been severely scalded for not turning off the water after he had been playing in the bath tub. Some time later there was a cloudburst near his home, and as he was watching the flooded streets his mother heard him say to himself: "I bet some angel is catching it for forgetting to turn off the water!"

SEUL, Korea, (AP)—Commenting on the attempted assassination of Governor-General Gaido, the semi-official Seoul Press expresses the opinion that by this act the Korean agitators have sealed their doom. Japan is determined to hold the peninsula at all cost and will not let it go, no matter what things Korean agitators may do. ### KEEN INTEREST SHOWN IN SHORTHORN AUCTION

Extraordinary Quality of Livestock Offered for Sale Elicits Praise

At 1 o'clock this afternoon one of the most important cattle sales of the year opened at the C. A. McManor & Son sales barn at the corner of Third avenue and Second street west. The livestock in Shorthorn breed from the Model Farms Stock Ranch herd numbering 55 animals of top stock.

The sale is in charge of E. O. Walter of Piler in the block, an auctioneer with Z. B. Branson, of Twin Falls, Amos Miller of Caldwell in the ring with Harry Cranke, of Nez Perce, Idaho.

The herd offered at auction will include 25 Scotch cows and heifers, declared to be the best this company has ever offered at public or private sale; 25 Scotch top cows, with some calves by the side, and other cows to freshen soon; six Scotch and Scotch top bulls, registered as prime herd-heading animals.

This morning's interest among prospective buyers centered in some of the cows to be offered on the block. Much attention was paid to Golden, Plumo III, a roan cow with calf at side. This animal was calved January 22, 1915, and is regarded by connoisseurs of cattle, as one of the most typical Shorthorn cows in this section of the country. Lady Rosa III is another cow that has attracted a lot of comment today. The animal is a well-spoken roan, calved in 1912. Lady Myrtle II, calved in October, 1913, a cow of exceptional Shorthorn points and qualities, is expected to bring a high figure as is also Fossie Ramdon, a red with streaks of white. Victoria Marshall, a roan two-year-old cow is a good representative of Shorthorn stock, experts declare, and is expected to be the subject of some smart bidding when she is put in the ring.

"Village Silver," year old; "Red Chief," two and a half years old; "Jesse," 18 months old; "Crimson Lad," 18 months old; "White Pete," 10 months old; "Horn" and "Proud Lad" are the bulls offered for sale. Yesterday's Shorthorn sale at Buhl was well attended and the stock offered went well at good prices. Thirty-three head, owned by Nat. Holmes, of Buhl, brought an aggregate amount of \$10,000, the average price being \$305 per head. Classman, a bull which has been at the head of the Holmes herd, was sold to W. C. Brown, of 2315, for \$650, the highest point of the day. Two yearling heifers, each a roan, brought \$1000, being \$545 each.

Mayor C. H. McQuinn opened the sale with a happy talk, being followed by David C. Patton, of Chicago; E. F. Rinehart of Moscow and others.

## FARMERS HELD RESPONSIBLE FOR PREVAILING LABOR PREDICAMENT

### Men Decline to Engage in Important Produce Gathering Pursuits Because of Failure by the Employers to Provide Adequate Housing Facilities, is Claim Made by Bureau

That farmers themselves are largely responsible for their inability to procure workers when farm work requires is the intimation contained in a general statement issued today from the Twin Falls County Farm bureau. The statement, based upon an announcement by L. G. Kirkman, of the Amalgamated Beet Sugar company, recommends better housing accommodations on many district farms in order to make living conditions more attractive.

#### Shortage Explained

Following is the bureau's statement in this respect: "During the last three or four weeks there has been a big demand for men in this county both on the farms and in construction work. They have been using a good many men on the Cedar Creek dam and a number have been short of men at that place for the last two or three weeks. Also there is a demand for more men on the city work at Buhl. Farmers, at this time of the year, have been employing large contingents in the potato digging, beet topping, threshing of beans, and similar farm pursuits.

"We feel that the labor situation could be much improved and the chance for getting men on the farms would be much better if the farmers requiring men would provide bunk houses or good figured tents with beds and bedding. Most men who go out on short jobs work do not require to furnish a bed. In many cases men are expected to buy a bed for just a few days' work and this often keeps the men from going to work. Also in many places there are not suitable quarters for the men and they have to make the best of it. Sleeping on the ground which is not very satisfactory at this time of the year.

#### No Sleeping Facilities

L. G. Kirkman, of the Amalgamated Sugar company, who has been looking out for a supply of men for the farmers in the beet topping, stated we would not have difficulty in sending out men to the farmers if they were properly equipped to provide beds and bunk houses when the men might stay. He said he had 20 men who could be sent out to work on the beets who were unable to go to work for the reason that they did not have beds of their own and could not afford to buy a bed outfit for such short jobs. We have had this difficulty all summer long in taking care of the labor situation at the farm bureau office.

"Often times we have had good men whom we could send out to work provided they had been furnished good sleeping quarters and bedding but would not go for the reason that they did not have bedding of their own.

"We feel that the farmers of this county would go a long way toward relieving the shortage of labor and the difficulty of getting men if they would make a small expenditure in the way of a bunk house or floored tents provided with beds and bedding."

## STUDENT DELEGATION FOR Y. M. C. A. CONCLAVE

### Plans are Being Laid to Send High School Men to Pocatello

Six students will represent the Twin Falls high school at the annual Y. M. C. A. conference to be held this year at Pocatello on October 31, November 1 and 2, if present plans of the school authorities materialize. It is proposed that the junior and senior classes each send three to the conference, all expenses to be paid from the school activity fund.

At a meeting of the two types classes yesterday this proposition received the approval of all present, expression by some of these present tending to show that the absence of a Twin Falls high school delegation would not be a good advertisement for the school, and that Twin Falls should not be backward in assisting in this constructive movement.

The high school orchestra provided the assembly entertainment yesterday by rendering several selections under the direction of J. T. Bainbridge. In addition, Miss Ida Brown gave a reading, "The Homes of the People."

#### OFFICER MAKES CHARGE

Accusing Harold Thompson, a resident of Twin Falls, of failure to provide for the support of his wife and two children, John R. Ault, juvenile officer, has preferred charges, which were regularly filed in the probate court this morning. This is said to be Thompson's second offense of this nature.
