## WILSON'S CONFERENCE REFUSES TO MODIFY STRIKE ORDER

### LAST PROPOSED AMENDMENT TO PACT REJECTED

Senate Votes Down Moses Proposal for Alteration of Treaty Text to Equalize Voting Power in League

### MENTION OF DEITY IN PREAMBLE ALSO FAILS

Debate Preceding Test Centers Around Treaty Provision for International Labor Organization

WASHINGTON, (AP)—The Moses amendment to the peace treaty, last of those proposed by the foreign relations committee, was rejected today by the senate. Like the Johnson amendment defeated last Monday, it dealt with voting power in the league of nations.

The vote was 36 to 47. Of those supporting the Moses amendment, three were democrats—Cure, Shields and Walsh, Massachusetts; Nine republicans—Cott, Edge, Hale, Hogg, Keyes, McHenry, Nelson and Sterling voted with the democrats in opposition.

### Sherman Amendment Falls

By a vote of 57 to 27 the senate laid on the table an amendment by Senator Sherman, republican, which would refer to the deity by written in the preamble of the peace treaty. The end of the senate battle over the amendment to the peace treaty resumed in eight today, the leaders hoping that a vote on the last of the group could be had. The amendment was presented by Senator Sherman, republican, New Hampshire, and would exclude all of the British dominions from voting in any league of nations.

### SOVIETS HOLD TO PETROGRAD

Yudenitch Attack on Former Russian Capital Declared Unsuccessful

BRISLAV, (AP)—The anti-Bolshevik paper Pripyr (apparently an Estonian paper) prints a communication from General Yudenitch, dated October 27, declaring that the attack on Petrograd was unsuccessful.

Reports from Reval state that General Yudenitch is falling back along the entire line. General Yudenitch has been compelled to abandon Gatchina and to remove staff headquarters to Yamburg, sixty-eight miles from Petrograd on the road to Reval and there is consequently little hope of retaining a base for the advance against Petrograd.

### PETROGRAD FALL UNLIKELY, SAYS BRITISH INVESTIGATOR

HELSINKI, (AP)—Lieut. Col. Lehtinen, a liberal member of the British house of commons, has returned after a daring unofficial visit to Petrograd. He told friends here that he was convinced after an investigation of the Bolsheviks that the attack on Petrograd will fall this winter. He said that reports of disintegration among the Bolsheviks were untrue and that Lenin and Trotsky appeared to be working in entire accord.

### ENGLAND MAKES DEMAND FOR SAFOUARD OF CITIZENS

LONDON, (AP)—In the House of Commons yesterday, Cecil Harcourt, parliamentary secretary for foreign affairs, stated in reply to a question asked by the government he notified Leon Trotsky, the Bolshevik war minister, and others in soviet Russia that they would be held personally responsible for the treatment of British citizens and other British citizens in Russia.

### LUXEMBOURG RULER WILL BECOME PRINCE'S BRIDE

Grand Duchess Charlotte Swings Subjects to Acquisition in Her Matrimonial Choice

LUXEMBOURG, (AP)—Grand Duchess Charlotte of Luxembourg and Prince Felix of Belgium, who will be married on November 6 by Bishop of Metz, were seen at the wedding.

### IDAHO WEATHER

Tough and Thursday falls; gentle southwesterly winds.

### Turks Disapprove U. S. Attitude on Mandates

CONSTANTINOPLE, (AP)—Unfavorable criticism, both caused here by dispatches from English and American sources to the effect that the United States will not accept either the Armenian or Turkish mandates.

In commenting on the situation, the newspaper Vahki says: "President Wilson's illness is a disaster for us, as he is unable to carry out his plans. He has been apprised of our wishes for American help in maintaining the integrity of our territory."

### Former Emperor Buys Ill Omened Residence

DOORN, Holland, (AP)—There is a superstition at Doorn, which, because of incomplete records, is somewhat difficult to bear out, that the house at Doorn, recently purchased by the former kaiser, is unlucky for its male occupants. It is said that the house has generally been occupied by widows, the men having died after a few years except the Baroness Van Heemstra, who sold the house to the kaiser, was a widow.

### England Prepares for Influenza Recurrence

LONDON, (AP)—England is preparing for a recurrence of last winter's epidemic of influenza. A variety of being prepared in large quantities at St. Mary's hospital and other bacteriological centers in London for distribution throughout the United Kingdom. Incubation with this vaccine against influenza and common colds is now being widely practiced by doctors all over the British Isles.

### Plan Ratification of Treaty Armistice Day

LONDON, (AP)—The German peace treaty may come into effect on the anniversary of armistice day. It was announced by Cecil Harcourt, secretary for foreign affairs, in the house of commons today that the government hoped the treaty would be brought into force on Nov. 11 and come into force the same day.

## WORLD NEWS EVENTS

BERLIN, (AP)—The league for the protection of German emigrants learns that the German colony in Mexico is taking measures to assist countrymen who desire to settle in Mexico. A committee formed by members of the league is working with the German consul general at Mexico City.

LONDON, (AP)—Sir Horace Plunkett, in an address before the national liberal club today declared that the path of wisdom for the government was to make the Irish people an offer of the fullest measure of self government. He advocated giving to Ireland the status of a self governing dominion with certain reservations covering the problem of national defense, leaving it to the Irish people to settle their internal difficulties themselves.

PARIS, (AP)—Governmental and municipal authorities and coal merchants virtually admit the impossibility of finding a remedy for the situation which has arisen here because of the coal shortage. Although cold weather has not yet really begun, Paris is already feeling the pinch and there is some suffering in the poorer quarters of the city. Coal stocks in Paris amount to approximately twenty thousand tons with only three thousand tons arriving daily. The city needs ten thousand tons per day in cold weather.

### LUXEMBOURG RULER WILL BECOME PRINCE'S BRIDE

Grand Duchess Charlotte Swings Subjects to Acquisition in Her Matrimonial Choice

LUXEMBOURG, (AP)—Grand Duchess Charlotte of Luxembourg and Prince Felix of Belgium, who will be married on November 6 by Bishop of Metz, were seen at the wedding.

### POLES RECOGNIZE LETTS

Warsaw, (AP)—Ignace Jan Paderewski, premier of Poland, has received M. Mcjnowitz, foreign minister of Latvia, and has accorded recognition to the Lettish government as at present constituted until such time as the peace conference at Paris gives Latvia a status in accordance with the wishes of the Lettish people. A Polish mission will be sent to Riga to get in touch with members of the Lettish cabinet.

### MOTHER CUTS THROATS OF CHILDREN AND SUICIDES

NIGHT FALLS, S. D. (AP)—Cutting the throats of her three children, all under five years of age, Mrs. N. F. Soderberg, wife of the state's attorney at Madison, Minn., just across the state line from South Dakota, ended her own life in the same manner late yesterday, according to word received here today.

### WORLD WORKERS CONFERENCE IN FIRST SESSION

Secretary Wilson Convenes International Meeting in Washington with Delegates of 36 Countries Present

### AMERICAN CAPITAL AND LABOR ARE REPRESENTED

Pioneer Concerted Effort to Deal with Problem Progressively, Chairman Calls Convention

WASHINGTON, (AP)—Representatives of labor and capital in the United States will participate unofficially in the international labor conference which began its sessions here today, and Secretary Wilson, of the labor department who called the conference to order, will be named president.

### AMERICANS INVITED

The invitation for the United States to be unofficially represented in the conference was extended by the delegation from the countries and motion of the Italian delegation. Secretary Wilson later announced he had requested the American Federation of Labor to appoint the labor delegation and the chamber of commerce of the United States to choose representatives of the employers.

Mr. Wilson was agreed upon by the delegates for president of the conference. The secretary explained that, as the conference still is "being organized" he was authorized to preside as the representative of the United States which is charged under the terms of the treaty of Versailles with the organization of the conference.

### Waits on Congress

The United States cannot be officially represented in the conference because the peace treaty has not been ratified and because of congressional prohibition. Mr. Wilson, however, told the delegates that while the league of nations had not technically come into existence, it was an "assured fact" and that consequently it was the duty of the United States to organize the conference.

### WILSON'S PRONOUNCEMENT HAS NO DEFENDERS AMONG UNION LEADERS AT MEET

Announcement that Strike Call Effective Friday Midnight Stands is Made after Two Hours' Discussion of Executives of United Mine Workers as Final Word of Prospective Strikers Precipitating Threatened Industrial War

### COMMITTEE IS NAMED TO PRESENT CLAIMS OF MINERS BEFORE PUBLIC

INDIANAPOLIS, Ind., (AP)—The strike order of the United Mine Workers effective Friday midnight stands. After two hours of discussion, the conference here today of officials of the big union, it was announced, had no idea of modifying the call for a cessation of work. President Wilson's pronouncement on the threatened industrial war had no defender in the conference, it was stated.

The grounds on which this decision was reached will be explained in a statement to the public which probably will be issued late today. A committee to draw up this statement was appointed and given three hours in which to prepare it, the conference adjourning until 4 P. M.

As explained by Ellis Starles, editor of the union's magazine and official spokesman for the conference, the statement will "set before the American people the exact situation from the miners' standpoint. It will probably be lengthy he said, and will cover all aspects of the problem. He brought out that it will not be specifically an answer to the executive's stand, but the chief executive's stand as one of the incidents of the strike situation.

### Official Word Lacking

"As a matter of fact," he added, "this organization does not know officially that President Wilson ever uttered such a statement. No copy of it has come to us, but we have accepted the newspaper version of it as substantially correct."

"Not one. On the contrary every speaker who touched on it expressed the thought that President Wilson's action was calculated to embitter rather than mollify the mine workers."

### Personnel of Committee

The committee which is to draw up the statement consists of Wm. Green, secretary-treasurer of the union; and the following district presidents: Philip Murray, Pennsylvania; John Moore, Ohio; Edward Stewart, Indiana; and Wm. W. Brown, Illinois. These districts comprise the bulk of the central competitive field. Their executives reported to the conference that the conference was in favor of 100 per cent in favor of the Cleveland wage policy and similar reports came from other districts.

"In view of this unanimity of opinion, it would be folly for any party to expect out of this conference any action tending to change the present policy of the United Mine Workers," said Mr. Starles.

When the conference was opened John L. Lewis, acting president of the organization, explained developments since the Cleveland convention for the benefit of the union leaders who had been out of direct touch with their officers. This presentation of the case included a reading of President Wilson's message. A big stick telegraphed to the president from parts of the country, urging the conference to stand firm, was exhibited and a general discussion ensued.

### Business Quickly Dispatched

It was indicated by several members of the conference that its business probably would be wound up tonight. The executive board of the union will meet in separate session tomorrow.

### PREPARING FOR AERIAL DERBY ROUND THE WORLD

LOS ANGELES, (AP)—The commission to organize the first round-the-world aerial derby, which investigated the feasibility of the feat, has an aircraft here, planned to leave today for San Diego.

### WRECK VICTIMS' BODIES OAST UP ON LAKE SHORE

ROCHESTER, N. Y. (AP)—The wreckage at daybreak today of two bodies "the shore of Lake Ontario, wearing life preservers bearing the name of the steam barge 'Hawkeye' of Toronto, revealed the total loss of that vessel with her crew of eight. The shore was strewn with wreckage.

### CALLS LABOR'S CHIEFS TO MEET AT CONFERENCE

American Federation of Labor General Council and Heads of Railroad Brotherhoods Join in Summons

### OVERTURES ARE MADE TO FARMERS' ORGANIZATIONS

No Specific Topics for Discussion Outlined but Anti-Strike Legislation is Known to Figure

WASHINGTON, (AP)—Chiefs of the national and international unions affiliated with the American Federation of Labor were called today to meet here December 13, "to formulate such action as may be essential to safeguard and promote the rights, interests and freedom of the wage earners."

The call issued by the federation's executive council and by the heads of the four railroad brotherhoods, declared labor was confronted with "grave dangers affecting the very foundation of its structure. It was imperative that the responsible representatives of the workers agree upon fundamental principles which will maintain the 'right of free men'."

### Probable Discussion Themes

No specific topics for discussion were outlined, but it is known that pending anti-strike legislation will be one of the principal subjects. Other matters expected to be taken up include collective bargaining and the right of organized labor to choose its own spokesman as it sees fit, subjects which finally resulted in the dissolution of the national industrial conference called by President Wilson.

### Text of Call

The text of the call follows: "Nearly a month before the declaration of war by the United States government, the executive of the national and international unions met in conference in Washington and then there declared labor's attitude to ward any attempt to participate in peace or war, an labor might become a party to the overthrow of democracy and freedom, seem to have subsided.

### Confronted by Dangers

"In this critical reconstruction period labor is confronted with grave dangers affecting the very foundation of its structure. So grave is the situation regarded that at its recent meeting, the executive council of the American Federation of Labor and the representatives of the railroad brotherhoods agreed that the executives of the national and international unions should meet here to discuss and take action to formulate such action as may be essential to safeguard and promote the rights, interests and freedom of the wage earners and to participate in the great march of the people of our republic.

### Canada Puts Embargo on Sugar to United States

OTTAWA, (AP)—All contracts for the shipment of sugar to the United States were cancelled today by the Canadian Trade commission and some 50,000 bags of sugar are being held in Canada. The report also suggests that the commission has been permitted to some extent has also been stopped.

### NO MORE BULLETINS TO BE ISSUED ON WILSON HEALTH

WASHINGTON, (AP)—President Wilson's improvement has reached a point where his physicians have decided to issue no more daily bulletins.

### HOOVER ATTRIBUTES HIGH COSTS TO PSYCHOLOGY OF EXPENSIVE BUYING

WASHINGTON, (AP)—Sixteen to twenty million tons of food more than necessary for American consumption will be the yield from this year's crop, Herbert Hoover, former food administrator, told a house war investigating committee today that the continuing high retail prices were due largely to the "appalling psychology of the public to buy expensive things."

### HOOPER ATTRIBUTES HIGH COSTS TO PSYCHOLOGY OF EXPENSIVE BUYING

Instead of buying, the Germans tightened up their belts," he said. Mr. Hoover said that while the wholesale price of pork had "gone part of the way it ought to fall," retail prices had not been reduced to any appreciable extent.

# UNTAH BASIN RICH GOAL OF RAIL BUILDERS

### Foundations Laid for Race Promising to Rival in Interest Contests for First Transcontinental Lines

DENVER, Colo., (AP)—With the rich Utah basin as their prize, men interested in the commercial and industrial development of Colorado and Utah are laying the foundations for a railroad building race that promises to rival in interest the contests for completion of the first transcontinental lines in America.

Utah basin straddles the Colorado-Utah boundary line. It is a virgin country and it is said to be rich in minerals and to have almost invaluable agricultural possibilities.

Coloradoans have launched a campaign to raise capital to complete a tunnel under James Peak, thus giving the Denver & Salt Lake (Moffat) railroad an easy grade and short cut into the Basin country.

Backed by Governor Bamberger, the Utah capitalists are working on plans for a \$10,000,000 railroad extension from Craig, Colo., to Provo, Utah. This proposed line would intersect the Utah country, and, if completed before James Peak is summited, would give the Utah group first call on freight and settlement of the Basin.

## PERSHING TO SIFT WAR INDUSTRIES OF NATION

### Purpose of Tour to Form Recommendations for Maintenance of Some

WASHINGTON, (AP)—General Pershing announced Tuesday he was planning a tour of inspection of war industries built up during his absence in France for the purpose of formulating recommendations to Secretary Baker as to what portion should be maintained against another national emergency. His trip will take him as far as the Pacific coast, and while away he will visit his home in Missouri.

The route and time of departure have not been fixed. General Pershing expects to appear before the congressional military committees during the current week. He said he may be preferred not to discuss military matters in advance of the hearings.

The general has already prepared recommendations dealing with the reorganization of the army and other phases of the military establishment including the question of increased pay for all ranks to meet the high cost of living.

General Pershing's report as commander-in-chief of the American expeditionary force is nearing completion. It will be an official history of the war, taking in not only all military operations and movement from the departure of General Pershing from Washington in April, 1917, to his return, but also the hundred of international conferences and diplomatic negotiations conducted overseas.

The report will be very detailed as to military information, General Pershing said, including reports of regimental commanders.

## BOX CAR TRAVEL SERVES RED CROSS WORKER

### Kentucky Girl Carries Condemned of Supplies under Difficulties Through Rumanian Mountains

CRAIOVA, Rumania, (AP)—Hiding on the roof of a box car through 160 miles of Rumanian mountains, Miss Georgia Watts of Lexington, Ky., carried a consignment of much-needed medicine and surgical supplies from Bucharest to the American Red Cross hospital here.

The outbreak of a sudden epidemic of typhus demanded the immediate receipt of certain supplies which could only be obtained from the American warehouses in Bucharest. Miss Watts traveled to make the trip. There was not an inch of space left in any one of the freight cars. Miss Watts, who had carefully packed her supplies in small cases with an eye to some such contingency, obtained the immediate permissionmaster, the crates were tied to the roof of a boxcar and Miss Watts mounted to a place beside them, where she clung as the train climbed tortuously up a crooked mountain trail, across many bridges and through numerous tunnels. She arrived safe and sound at her destination with her precious freight.

## BERRY CROP RECORD BREAKER

### DAWSON, Y. T., (AP)—The Yukon berry crop this year, particularly the blueberries, is a record breaker, according to the Dawson News.

## EXONERATES BLIMP OWNER

### Chicago Jury Holds Goodyear Company Not to Blame for Accident

CHICAGO, (AP)—The Goodyear Tire and Rubber Company, of Akron, O., owner of the dirigible balloon, which crashed in flames through the roof of a bank building July 21, causing death to thirteen persons, Tuesday was exonerated by a jury of technical experts and a coroner's jury which investigated the disaster. The jury recommended that flying over cities be prohibited.

The jury was unable to determine the exact cause of the accident because of the conflicting testimony and the lack of material evidence as to the conditions of the dirigible and the complete destruction of the dirigible. The action of the Goodyear company in adjusting civil liability was commended.

## BETTER RELATIONS WITH MEXICO IS WOMEN'S AIM

### Representatives of Border States and of Southern Agency, to Meet in Conference

GALVESTON, Tex., (AP)—Plans are being made for a conference of prominent women of Texas, New Mexico, Arizona and California, the Mexican border states, and representative women of Mexico, some time in November, primarily with a view to furthering good relations between the United States and the southern republic.

The proposed conference is being planned by the Pan-American Round table, a well-known organization with headquarters in San Antonio, according to Meade Fiero, Mexican consul here, who has been asked by the organization to interest the women of Mexico in the meeting.

Mrs. Florence T. Griswold of San Antonio, director-general of the women's organization, Informel Consul Fiero said she has written the governors of the Mexican border states asking them to select unofficial delegates to the conference. The co-operation of the governors of the four states in this country also is being asked.

Mrs. Griswold explains the viewpoint of the Round Table as that women of the two countries have been the chief sufferers through the misunderstanding of the men, and that the women, having no grievance against each other, are in better position to provide means for continued good relations between the peoples of the two countries.

The date for the conference has not been set nor has the city where it will be held been designated.

## AIR OF PERMANENCY IS INHERENT IN NEW TOWN

### Hyder is Alaska's Newest Municipal. It Called into Being by Railroad Construction

RETROTKAN, Alaska, (AP)—Like many of the towns and "camps" of Alaska, which have sprung into being overnight, has the town of Hyder, an tide water near Kotzebuk, developed. But differing from the "mushroom" camps of early days, there seems to be a certain air of permanency about the new town.

Forty buildings are under construction in Hyder, including two \$6,000 hotels. Business is being sold around \$500. The population is variously estimated at between 300 and 600, while Stewart, close by on the other side of the Canadian boundary, numbers one hundred residents. The townsite is level with considerable timber. Construction of a railroad up the Salmon river to connect the mines of the Portland canal district with tide water at Hyder is assured by the Portland Canal Railroad and Terminal company. This company recently filed articles of incorporation with the territorial secretary.

## PARROT SAVES WIDOW

### How About Compensation?

PARIS, (AP)—The widow Giraud's parrot saved her from robbery and perhaps death yesterday morning. A burly young man, who entered the shop to rob it, seized Mrs. Giraud by the throat, she was choking her to death when cries of "Help! Help!" were heard from the kitchen in the rear of the store. Terrified, the robber released his hold on the widow's throat and fled. The alarm had been given by the parrot.

The American Red Cross is making every effort to get in touch with all men who were in any way disabled in the recent war. Some do not understand what their rights are in regard to compensation, training, and after care. These men should report at the Home Service office in Cullifton Hall building.

The Red Cross—universal mother to the distressed children of men.

## Egypt Scene of Demonstration

### Casualties Result from Interference of Police with Alexandria Gathering

ALEXANDRIA, EGYPT, (AP)—Two rioters were killed and ten others injured and twenty-seven policemen were hurt in a serious nationalist demonstration Friday. The trouble arose when the police attempted to suppress a peaceable demonstration such as have recently been a weekly feature of political activity in Alexandria. Sticks, stones, bottles and police batons were first used.

The arrival of the governor of Alexandria restored order for a time. Then two more large mobs appeared on the scene and eventually shots were fired at the crowd.

Today there was some recurrence of the trouble, at the harbor side, but it was of a comparatively minor character.

## CIVIL AUTHORITIES AT CAIRO QUELL ANOTHER DISTURBANCE

CAIRO, EGYPT, (AP)—Shouts of "We don't want the Milner commission" interrupted the playing of "God Save the King" at the public gardens Friday, giving the signal for a nationalist demonstration. The trouble was quelled by the authorities who placed a number of students under arrest.

It was announced in London some time ago that the government was considering sending to Egypt a special commission headed by Viscount Milner, secretary of the colonies, in order to ascertain what changes were necessary in the constitution of the protectorate.

## DECLARES STRIKE IS WON REGARDLESS OF OUTCOME

### Chairman of National Committee Directing Steel Strike Makes Statement

CHICAGO, (AP)—Following a statement to the effect that the steel workers had lost the strike, made to military leaders in Gary by L. E. Titus, a member of the steel workers' council there, John Fitzpatrick, chairman of the national committee directing the strike, said: "The strike is won, no matter what its outcome may be."

"There is no use pretending," Titus had said to Colonel W. S. Mages, commanding the regular troops. "The men are going back to work. The strike is won. The United States government is in explaining his statement, Mr. Fitzpatrick said:

"The steel worker may be starved into going back to work, but he has learned this: He knows now that the steel corporation is not bigger than the will of the men working for it. He knows that he can close down the entire works. Knowing this, he will never again submit abjectly to the conditions under which he has labored for years. For twenty or more years the steel worker had been of the opinion that the United States Steel corporation was the biggest thing on earth. He believed that its power was even greater than that of the United States government. He did not know that the worker is the greatest power. Now he knows that he can tip up the plants. He has done it. The next time he tries he will tip it up even more effectively than he has done on this occasion."

## SWISS BOURGEOIS VICTORS

### Results of Election to National Council Show Only 39 Socialists

BERNE, SWITZERLAND, (AP)—Satisfaction with the results of the election to the national council which show only 39 socialists chosen on the final count, is expressed by the bourgeois press today. The Swiss democracy, these newspapers comment, withstood victoriously a strong attack on the part of the extremists who had been boasting that the bourgeois party would be snowed under. The final results show that the council with a total of 188 members will be made up as follows: Radical democrats 63; Catholic conservatives 42; socialists 39; the non-peasant party 27; liberal democrats 4; central Swiss democrats 4; Christian democrats 3; progressive bourgeois 4; evangelists 0.

## LAUNCH RADICAL REFORM PLANS

### New Order in Japanese Affairs is Proposed by New Association

TOKIO, (AP)—Japanese newspapermen recently returned from Paris, politicians, labor leaders and business men have just organized a reform association known as the "Reconstruction Alliance" with the object of carrying out radical reforms in the war, in accordance with the age, and especially with the object of having a universal suffrage law passed at the next session of the Diet.

The program also includes abolition of all class distinctions, abolition of bureaucratic diplomacy, establishment of a democratic political system, public recognition of labor organizations, reform of the tax system, "purification" of the imperial household department, and absolute freedom of speech and of the press.

Speakers basing their remarks on the backwardness of Japan as compared with other leading countries.

The suffrage resolution, adopted unanimously, was supported by three of the younger members of the Diet who were present. One of them, Representative Ueyehara, said: "Japan is a constitutional country in name but not in reality."

## CABINET CALLS FOR ECONOMIES

### British Government Asks for Support on Basis of Expenditures Reduction

LONDON, (AP)—The program before the house of commons called for the introduction this afternoon by Winston Churchill, chancellor of the exchequer, of the official resolution drafted by the cabinet at Monday's meeting. The motion declares that in this house, realizing the serious effects upon the trade and industry of the nation, of the enormous financial burdens resulting from the war, it pronounces its hearty support to the government in all reasonable proposals, however drastic, for the reduction of expenditures and the diminution of debt.

This is counted as equivalent to a demand for a vote of confidence. Donald MacLennan for the independent liberals, and W. G. Anderson, for the labor party, have tabled amendments which are virtually equivalent to votes of censure.

Both Premier Lloyd George and Mr. Bonar Law, the government leader, will speak in the government's defense. Winston Churchill, the war secretary, will defend the war office against which some of the strongest charges of extravagance have been launched. Others of the ministers probably will offer defenses of their respective departments.

## WILL NOT FIGHT TREATY

### Prohibition Forces Pledge Non-Interference to Technical End of War

WASHINGTON, (AP)—Prohibition forces in and out of the senate will not attempt to delay ratification of the peace treaty because of the White House announcement that war time prohibition will end with formal ratification of the pact, officers of the Anti-Saloon league announced Tuesday.

E. C. Diawiddle, in charge of the anti-saloon league fight before congress said dry forces adhered to the belief that war time prohibition would stand until the senate had ratified the Austrian treaty, but regardless of that "the league will not attempt to block consideration of the treaty."

The St. Paul and San Francisco ball clubs are still playing on the coast. To make it interesting and warrant good attendance at games the clubs manage to make it a 50-50 split on contests won.

The Pittsburgh Pirates are still functioning as a ball club in Cuba, playing anybody who can scrape a team together. The Buccaneers each are guaranteed \$400 a month with all expenses paid for the vacation period.

Looks like Ernie took over a bunch of trouble when he signed to manage the club, what with this dissentation and the looming need of reconstruction, especially in the pitching department.

There is a well defined rumor racing around the coast to the effect that Mike Kelley, manager of the St. Paul club, and John Gantch, another American association club leader, are negotiating for a big block of stock in the Seattle club.

The Pacific Coast league has a new proxy. It is William H. McCarthy, a San Francisco club and business man.

Before the balloting for president started the league directors made the salary for the job \$5000 a year, and then there was sure a lively scramble for the post.

Besides electing a head for the league coast magnates turned a deaf ear to the pleas of Bob Brown who asked a place for Vancouver in the circuit. Tacoma also was denied a place.

The Red Cross—the best antidote for the poison of war.

OUTFITTING FOOTBALL PLAYERS COMES HIGH

Cost of Moleskins and Everything 100 Per Cent Up from 1914... NEW YORK, (AP)—The United States Steel corporation at its quarterly meeting Tuesday failed to declare an extra dividend on its common stock. The last extra dividend, one per cent, was declared nine months ago. The regular dividends of 1 1/4 per cent on common and 1 3/4 per cent on preferred stocks were authorized.

SEATTLE, WASH., (AP)—Varsity football equipment has soared in price during the past few years but tickets have remained almost the same, according to estimates made at the University of Washington here. In the "old days" of 1914 it cost the student body \$14.88 to outfit a player. This year the uniform of the varsity players cost \$29.49 apiece.

AKRON, O., (AP)—Bob Martin of Akron, heavyweight champion of the American expeditious and allied forces, won his first professional bout when he won from Joe Bonds of New York, at the end of the tenth round of a scheduled 15-round contest last night, when the referee stopped the bout.

MOORE TO MEET CHAMP NEW ORLEANS, (AP)—Pete Hornman of New Orleans, bantamweight champion and Pal Moore of Memphis, will meet in a 20-round bout for the title here December 15, Dominick Torstich, a local promoter, announced last night. Both boys were said, had agreed to the proposed bout.

STEEL CORPORATION FAILS TO DECLARE DIVIDEND

NEW YORK, (AP)—The United States Steel corporation at its quarterly meeting Tuesday failed to declare an extra dividend on its common stock. The last extra dividend, one per cent, was declared nine months ago. The regular dividends of 1 1/4 per cent on common and 1 3/4 per cent on preferred stocks were authorized. Total earnings of the quarter ending September 30 were \$40,177,238, as compared with \$34,331,351 in the previous three months. The total net income was \$29,111,429 as compared with \$23,324,106. The surplus totalled \$11,105,167 as compared with \$5,308,587 at the close of the previous quarter.

GRAIN CORPORATION GIVES WHEAT MOVEMENT FIGURES

NEW YORK, (AP)—Receipts of wheat for farms of the country for the week ending October 17 totalled 12,263,000 bushels as compared with 19,455,000 bushels the previous week. It was announced here Tuesday by the United States Grain corporation. Flour produced during the same week amounted to 3,394,000 barrels, a decrease of 109,000 barrels as compared with the previous week. Exports of wheat from July 1 to October 17 totalled 53,284,000 bushels. The exports of flour during the same period totalled 5,475,000 barrels. Merchants buy at the best markets that they may best serve your interests watch the news.

A Service to the Nation Saving is no longer only a personal or family matter—it is a service to the nation. The war has shown everyone that there is only so much wheat, meat or wool in the world and that by wasting these things someone is obliged to go without them. It is the same with all material resources—Every dollar deposited in this bank goes to build up business and prosperity for all. THE FIRST NATIONAL BANK TWIN FALLS, IDAHO

THE ONE WAY OUT

There is no justification in fact for the notion that "the common people of this and every other country upon the face of the earth are crying out for relief from the most deplorable and indefensible economic conditions ever known in the history of mankind..."

LAST PROPOSED AMENDMENT TO PAST IS REJECTED

(Continued from page one) controversy to which one of them was a party.

Gore Proposes Alteration

Senators Gore, Democrat, Oklahoma, presented an amendment today to article 12 proposing that under this longer, no nation would go to war "until an advisory vote of the people shall have been taken..."

Davis Would Release Supply of Idaho Coal

BOISE, (Special).—Governor D. W. Davis Tuesday asked the railroad administration to complete a spur track of the Oregon Short Line at Driggs to make available thousands of tons of Idaho coal for use in the impending emergency.

Offended the Heaving.

In the fifteenth and sixteenth centuries Heugoland was a center of the North sea herring fisheries. Then the herring came back to Scotland coast and the islanders banded down a tale of the implicity by which they forfeited the boon.

Watch the Sun's Halo.

The sun's halos are good weather signs. Many weather proverbs based upon the observation of halos are founded upon sound scientific principles. Studies of the relation of halos to rainfall show that during the summer months 53 to 60 per cent of all halos are followed by rain within 36 hours.

Crocodile's Agility.

The moment that a young crocodile breathes its shell it is at all talents and purposes as active as it is at any time during its life. It will make straight for the water, even if it be out of sight and a good distance off, and it will pursue its prey with eagerness and agility during the first week of its free existence.

Truth Hard to Down.

Truth is tough; it will not break like a bubble, at a touch; nay, you may kick it about all day like a football, and it will be round and full at evening.

KEEP THE SPIRIT ALIVE

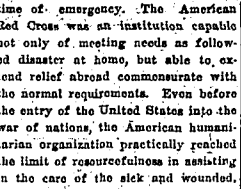

Before there was any world war the Red Cross was an agency of relief in time of emergency. The American Red Cross was an institution capable not only of meeting needs as follows of disaster at home, but able to extend relief abroad commensurate with the normal requirements.

Washington City Sidelights

WASHINGTON.—Ocean fog has been tamed by the navy, so that it will no longer be necessary for battleships and liners to lie outside harbors waiting a chance to creep in when the weather lightens.

Thunder and Lightning.

Thunder is caused by electric discharge of lightning. This discharge, in forcing its way through the atmosphere, heats the air and vapor flying in its path to a high temperature, causing a violent expansion along the whole length of the flash. The result is a deep compression wave, or what is the same, a noise. Lightning is the flash of the electric explosion.

# POLICE REVEAL TERRORIST PLOT

### Cleveland Authorities Uncover Nation Wide Bomb Explosion Preparations

CLEVELAND, O., (AP)—Discovery of a national plot to spread terror throughout the nation by another series of bomb explosions next spring was announced by the police here today following the arrest last night of five men and one woman, suspected of having planned the destruction of the central police station. Believing they are members of an anarchist circle that has been working in more than one hundred cities, the police questioned the group all night in an effort to learn details of their plans or the extent of their organization.

The arrested men were taken to the police station where they were held until they were taken to the county jail. The woman was taken to a hospital where she is recovering from injuries sustained during the explosion.

Chicago police, it was said, are on the trail of one man, believed to be the "brains" of the Cleveland terrorists and expected to arrest him shortly.

The campaign of terrorism was to have culminated next May day in a series of bombings, suggesting and shaking that the conspirators have planned to work on the city would leave the city at their mercy.

To this end huge knives and steel bludgeons were to be provided, the plotters planning to make five thousand copies each. Specimens of these were seized in last night's raids.

Plans Rapidly Maturing. Hundreds of automatic pistols were ordered, it was said, and each gun folder was to have six extra cartridge magazines.

That plans were being rapidly matured was indicated by the fact that several bombs had already been tested, according to police captain Martin.

World Workers Conference In Their First Session

(Continued from page one)

The opening session continued until one hour, the conference recessing until this afternoon when the report of Arthur Fontaine, of France, chairman of the organizing committee, will be received.

Wilson Welcomes Delegates. Speaking on behalf of the people of the United States and in the name of President Wilson, Secretary of Labor Wilson formally opened today the International labor conference provided for in the treaty of Versailles.

Welcoming delegates from all parts of the world, the secretary declared that the conference represented the greatest concerted effort to deal with labor problems progressively.

Representatives of thirty-six countries, seated in alphabetical order in a large circle in the same hall in the Pan-American building, were at 7:30 a. m. for the industrial conference came to grief, heard the secretary's address, which was translated into French.

Ambassadors and ministers of many nations occupied the honor on either side of the chairman's platform. Forms Conference Problem.

Germany and Austria also were without delegates, but their representatives are now en route and the question of seating them will be for the conference to decide.

Countries having delegates present today included Great Britain, France, Japan, Italy, Belgium, Spain, Holland, Sweden, Canada, China, Czechoslovakia, Switzerland, Denmark, Greece, Norway and practically all other Central and South American republics.

Gives Conclusions Premise. "Any conclusion that this conference arrives at that does not give full consideration to the fact that the world is being, scientific being, will fail of its purpose," said Secretary Wilson in welcoming the delegates.

Declaring that the problem of the relations between labor and capital was the oldest in the world Mr. Wilson said that "from the days of Moses, when the Biblical leader set out as a walking delegate for the brickmakers of Israel, the best means of obtaining a fair adjustment between employers and employees and of securing the acme of production while at the same time protecting the workers, has been an ever present question."

Future Prosperity Depends. "On the proper solution of this question depends the future prosperity of the world," he continued, adding a warning that all social experiments should be conducted so carefully that no "explosions could take place."

While declining to enter into the technical questions involved in the legality of the conference proceedings, Secretary Wilson held that the organization of the meeting, with which the United States was charged in the treaty, was a "continuing process" which was not yet completed.

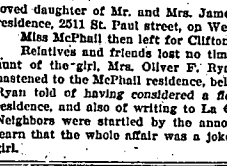

German Found Guilty of Dynamiting Bridge

FREDERICTON, N. B., (AP)—Werner Horn was found guilty today of dynamiting the railway bridge between the Canadian end of the international bridge at St. Croix, N. H., February 2, 1915. The jury was out only 13 minutes. The defendant, who conducted his own defense, said he was a German officer and was acting under orders of the German government in war time.

# STORIES From the BIG CITIES

## To See What Her Own Death Notice Looked Like

BALTIMORE—Human nature may not have changed in all the ages, but some queer people bob up nowadays. Katharine McPhail of Baltimore would get the Maryland record for queerness, provided it came to a vote in the state. Inserting, or causing to have inserted, notice of her own death in an afternoon paper just to see how it looked in print and to find out the actual number of friends who cared for her, Katharine, the daughter of Mr. and Mrs. James McPhail, 2515 St. Paul street, Baltimore, caused her parents considerable worry. Katharine inserted the following advertisement in an afternoon paper:

"McPhail—On August 18, 1910, Katharine, aged nineteen years, deceased, 2515 St. Paul street, on Wednesday afternoon at 2 P. M."

Miss McPhail then left for Clifton Park and went in bathing. Relatives and friends lost no time in calling up the McPhail home. An aunt of the girl, Mrs. Oliver F. Ryan of Beseburg, who read the notice hastened to the McPhail residence, believing her niece had actually died. Mrs. Ryan said she had considered a floral design to be sent to the McPhail residence, and also of writing to La Crescent, Minn., to an uncle of the girl. Neighbors were startled by the announcement, but they only learned that the whole affair was a joke—or at least was so considered by the girl.

## German Culprits List Approved by Belgians

BRUSSELS, (AP)—The Belgian cabinet has given its approval to a list of 1,150 Germans, soldiers and civilians, who will be prosecuted on charges arising from violations of the laws of war at the time of the invasion of Belgium or during the occupation of this country by German troops, according to the independence Belge. The list will be sent to the peace conference in Paris.

## Local Brevities

Licensed to Wed—A marriage license was issued yesterday afternoon to Richard McFarland, aged 24, and Fern Woolthier, 19, both of Hanscom.

Mother is Ill in Boise—Mrs. R. C. Cole and little son Billy are leaving today for Boise where Mrs. Cole is called by the illness of her mother.

Invite Families — Families of Odd Fellows and Rebekahs are invited to hobnob next Friday evening at eight o'clock with the hobgoblins at the I. O. O. F. hall.

Permit to Build—C. J. Stevens has been granted a permit to construct a residence to cost \$4000. J. E. Johnson held a \$100 garage and James A. Ryberg's permission from the city to make improvements on his property to cost \$600.

Alleges Wife is Jealous—in the district court yesterday afternoon Thomas E. Weyl instituted proceedings in divorce from Minnie Jones Wyle. The chief charges lodged are: "Inhuman jealousy; incompatibility of temper and continual nagging."

Will Refuse City Assessment Rolls—County Auditor C. C. Higgins announced he will not accept assessment rolls submitted by the city administration. The rolls are part of the city's records recently ordered struck from the county assessment rolls by Judge Esgar at Shoshone.

To Confer Masonic Degrees—Tonight Twin Falls lodge No. 45, A. E. and A. M. will hold special convocations for the purpose of administering the third degree. Work will be at 7:30 o'clock, under the auspices of Master R. A. Parrott in charge. The Temple Music will provide ritual and special music for the occasion.

Value of Quick Decision. As a rule the man who has trained himself to quick decisions and prompt actions follows close to the right. He does not need to debate questions as does the man who has become a master of deliberation. His mental faculties seem to work automatically and they are generally right. I'm not sure but that they are more often right than that they are with the man who is constantly weighing pros and cons and becoming confused with the issues. He saves time because he acts quickly and he saves everybody the uncertainty of indecision.

Whales That Walked. Whales used to walk. That is the statement of Prof. Percy Thompson, authority on fishes of the sea, in a lecture on that subject at the Royal Institution, London. He said the whale originally had four feet or fins, but that the two hind ones had simply dwindled away. In bygone ages ancestors of the present family of whales walked about just as seals do.

An Inch of Rain. An inch of rain ascending on an acre of land would fill more than 500 barrels of 42-gallons each.

Give yourself a Christmas present in November before the rush. Join the Red Cross.

## HINES DELAYS DECISION ON TRAINMEN'S DEMANDS

Officials Discuss Scales of Recommendations with Strike Committee

WASHINGTON, (AP)—Director General Hines has not reached a decision on the wage demand of the Brotherhood of Railway Trainmen. Scales of recommendations made by the union of railway workers were discussed today by officials of the railroad administration with President Lee and the strike committee. The scales show how the recommendations would work in practical application.

Mr. Hines hopes to make an award in the case in the near future.

## Sheridan Suffers Keen Disappointment when Forcer Out of Derby

CHICAGO, (AP)—Better flying weather today was promised the five aviators remaining in the army twice transcontinental airplane race although none of them apparently would be able to complete the race. The only aviator who could be a contender was in the air yesterday for the first time in several days and added better distances than during any flying period since the unfavorable weather.

Lieut. H. W. Sheridan suffered a keen disappointment when he was forced out of the race at Oswego, N. Y. He had been flying for several hours but a cold, snow storm and whiteout by across the continent. His plane in the van of the returning flyers was taken by Lieutenant Col. H. E. Hart and Lieut. P. S. Fortington. The only westbound flyer, today was at Omaha, Neb.

Neither Lieutenant Sheridan nor his observer, Lieut. Fredrick Nelson, were injured when they made their forced landing. A leaking radiator put them down and the plane was damaged beyond repair.

## Social Notes

Mrs. Charles Ambrose was the recipient of a jolly surprise party Saturday evening. The hostesses had decorated the house in Halloween emblems and were all in costume. Those present were Messrs. and Mesdames C. R. Grady, John Vicker, Frank Ellis, C. A. Miller, Fitzwater, Mrs. A. P. Senior, Misses Inez Vicker and Mildred Jenkins, Messrs. Reynolds Lewis and Will Rowberry. Delicious refreshments were served and the evening was spent with music and games.

Chapter "D" P. E. O. met at the home of Miss Jane Maxwell last evening. Nineteen members responded to roll call. The program was in honor of Theodore Roosevelt. A motion was made and carried that the time of meeting be changed to the first and third Tuesdays in the month so they will not conflict with the meetings of the Eastern Star. Light refreshments were served.

The M. S. and R. club will have a Hard Time mask party Friday evening, October 31 at the old Woodhead ranch. All members and their families are expected to dress in appropriate costume, and a prize for the best will be given.

Mrs. Asher B. Wilson and Mrs. Leon Smith have issued clever invitations for a character party to be given at the home of the former Thursday evening. This is to be the first of a series.

The Episcopal Guild will meet in the church study tomorrow at 2:30. The afternoon will be spent in repairing the choir vestments.

The older girls and boys of the Episcopal Sunday school will give a Halloween play Friday night in the Parish hall.

## Petroleum's Discovery.

In 1859, on the 28th of August, petroleum was discovered at Watson's Flat, Pa., near the head of the Allegheny river. Edwin Drake bored the first oil well, and before the end of the year Drake, under the firm name of Drake & Bowditch, bored through the rock at Titusville to a depth of 70 feet and struck an oil well that yielded 1000 gallons a day. This discovery started the enormous oil industry in northwestern Pennsylvania.

After Thirty-Four Years. A Bath man has just received dividend checks from some shares of a silver mine which he bought 34 years ago and had forgotten all about. A friend who remembered the purchase told him of a notice in some paper that the mine was about to pay its first dividend and he began to cut coupons.

—Ort.

You've waited in the hope that the price would be lowered. Today's ads may bring you the good thing!

# STRINGENT DRY LAW IN EFFECT

### Government Agents Take Up Task of Making Absolute Ban on Liquor

WASHINGTON, (AP)—Armed with the drastic provision of the prohibition act, which became effective as late as wartime prohibition with passage by the senate of the measure over the bitter opposition of the house, the troops of federal agents took up the task of enforcing the ban on the manufacture and sale of liquor.

The few remaining saloons in the United States were legally open today for the sale only of beverages containing less than one half of one per cent of alcohol. Sale was also manufacture of beverages of more than that amount of alcoholic content, laid the saloon keeper as well as the brewer or distiller liable to heavy penalties. The law enforces its drastic provision, the law enforces its ban, and the federal agents supply in his own home for his own use.

## BETTER FLYING WEATHER PROMISED ARMY AVIATORS

WASHINGTON, (AP)—The historic American flag which flew over the capital during the war seasons of courage, was sent to Governor Halcott of Connecticut today by Secretary Hines as a reward for the state being first in over-subscriptions to the Victory Liberty Loan. Connecticut over-subscribed its quota 40.95 per cent. Alaska was second with 40.86 per cent, according to revised figures, and the District of Columbia third with 39.66 per cent.

Among the states Michigan ranked second with an over-subscription of 35.70 per cent.

## CONNECTICUT RECEIVES WAR SESSIONS FLAG

WASHINGTON, (AP)—The historic American flag which flew over the capital during the war seasons of courage, was sent to Governor Halcott of Connecticut today by Secretary Hines as a reward for the state being first in over-subscriptions to the Victory Liberty Loan. Connecticut over-subscribed its quota 40.95 per cent. Alaska was second with 40.86 per cent, according to revised figures, and the District of Columbia third with 39.66 per cent.

Among the states Michigan ranked second with an over-subscription of 35.70 per cent.

## "Life-Plant"

There is a creeping moss found in Britain called the "life-plant." It is so called because it is absolutely indestructible by any means except immersion in boiling water or the application of a red-hot iron. It may be cut up and divided in any manner, and the smallest strands will throw out roots, grow and bud.

You wouldn't feel quite safe in a store whose business ledger. Buy where ADVERTISING keeps things moving.

# Car Shortage is Blamed for Lack of Fuel

### RESPONSIBILITY for the prevailing shortage of coal rests with the Federal railroad administration and not with the mine operators or mine laborers.

Failure of the government to provide coal cars at the mines has brought about the present stringency of fuel. Mine operators and miners are ready to do their bit to relieve the stress, but their good intentions come to naught because of lack of rolling stock in which to move their product.

These, and similar statements were made during Monday evening's city council meeting, but were extraneous as a part of the official proceedings. The statements were the upshot of talk concerning shortage of cars in which to move commodities and materials emanating from a debate about sewer pipe.

A large proportion of open coal cars are now being used for the moving of sugar beets to sugar factories, and it is this due a considerable item of the shortage at the mines, it was said.

## Chinese Wheelbarrow

Probably more freight and mail passengers are transported in China by the wheelbarrow than by any other land method. The wheelbarrow there, however, differs from that used here in the fact that the wheel is set in the center, and thus supports practically the entire load, while the handles are supported in part by a strap or rope over the shoulders of the man who operates it. As a result, the wheelbarrow used in China will transport nearly a half-ton on its vehicle.

## Origin of "Eleventh Hour"

The "eleventh hour" means figuratively the last minute, or, as we sometimes express it, "just in the nick of time." The expression now in general use, comes from the parable narrated in the gospel according to St. Matthew of the laborers hired for the harvest.

**Mrs. Maude White Named Head of Temperance Workers in Neighboring Town**

**KIMBERLY**—(Special)—At an annual meeting of the W. C. T. U., held at the home of Mrs. Ollie Matthews recently, the following officers were elected: President, Mrs. Maude White; vice-president at large, Mrs. Ada Phelps; corresponding secretary, Mrs. Carolyn Mangin; recording secretary, Mrs. Isabel Martin; treasurer, Miss Gertrude Sampson. Superintendents of departments were named as follows: superintendent, Mrs. Ida Steelmidt; Americanization, Mrs. Isabel Martin; medical temperance work, Mrs. Clara McDowell; social and red letter days, Mrs. Mary Scott; essay contest, Miss Arvilla Wood; purity literature and art, Mrs. W. H. Mand; mother day, Mrs. Bernice Koke; evangelistic work, Mrs. Sampson; anti-smoking, Mrs. Agnes Fisher; Christian citizenship, Mrs. Luella Combs. Mrs. Isabel Martin was elected delegate to represent this unit at the state convention to be held in Boise this week.

**DISPOSES OF OLD ERROR**

**Carnegie Only Quoted "Fat King Eddy" in Presence of Monarch**

**EDINBURGH**, (AP)—Lord Guthrie, the Scottish judge, has just made public some reminiscences of the late Andrew Carnegie, in which he disposes of a story which has long been current that Mr. Carnegie received the late King Edward at Skibo with the adulation, "Hi! hi! fat King Eddy." Lord Guthrie tells what the story is based on as follows: "At Dunrobin, not at Skibo, his late majesty asked Mr. Carnegie to tell him about a great banquet given at Mr. Carnegie's honor at Pittsburgh. Mr. Carnegie mentioned at Joaquin Miller, the American poet, had recited a poem in which he made free with Carnegie's own name and had the names of many much more illustrious persons. "The king asked: 'What did Miller say about me?' "Mr. Carnegie replied that he was afraid the poet's reference had not been very respectful. "What was it?" said his majesty, and he laughed when he learned Carnegie had admitted that King Edward had been referred to as 'Fat King Eddy.'"

**OPENS NARCOTIC CLINICS**

**Internal Revenue Bureau Directs Furnishing of Aid to Drug Victims**

**SAN DIEGO, CAL.**, (AP)—As a part of the national movement and under orders issued by the committee of internal revenue, J. P. Carter, collector of internal revenue for the southern district, will begin a campaign for the establishment of narcotic clinics in the larger cities in his district. Among the cities named where Collector Carter expects to have clinics in operation are Los Angeles, San Diego, Bakersfield, San Bernardino and San Luis Obispo, Cal. The clinics will be established for the purpose of attempting a cure of those persons addicted to the use of narcotics, without leaving them subject to the machinations of unscrupulous physicians and dealers of the narcotic who maintain a large traffic in the narcotic drug. The clinic plan is to administer doses in gradually diminishing amounts until the patient can do without the drug entirely.

**STAND FOR WOMAN SMOKER**

**London Tobaccoists Declare Englishmen Go Further than Failure to Disapprove**

**LONDON**, (AP)—West End tobaccoists assert that Englishmen generally not only do not condemn women smoking but encourage their wives in the practice. "We sell almost as many cigarettes to women as to men," frequently men customers, after buying cigars and tobacco for themselves, ask for cigarettes for their wives. Clergymen who do not themselves smoke come in and ask for a hundred Turkish cigarettes for their womenfolk. "Cigarette smoking has not yet become fashionable among working-class women, but in the middle and upper classes I imagine that the husband who quarrels with his wife because she smokes must be a rare bird."

**GALVESTON CAMPAIGNS FOR BONDS TO RAISE CITY LEVEL**

**GALVESTON, TEX.**, (AP)—Commercial interests of Galveston and city and county officials are making an energetic state-wide campaign in support of a constitutional amendment to be voted on November 4 under which \$5,000,000 public improvement bonds would be issued to raise the grade level in the city. The project is to lift the buildings off their foundations and build a drastically pumped mud and sand from the gulf of Mexico under them until the entire business section of the city would be established three to five feet above its present level.

**ENGLAND PROPOSES TRIBUTE TO UNKNOWN DEAD IN WAR**

**LONDON**, (AP)—A national funeral service and the interment of the body of an unknown British soldier in the crypt of St. Paul's cathedral has been suggested as a fitting tribute to the unknown dead who fell while serving with the British forces in the war. It is recalled that the French have erected a monument inscribed "To the Unknown Dead."

**Go long as there's nothing, suffering, disaster, the Red Cross must stand by.**

**Wood as Substitute For Coal Unlikely**

**WASHINGTON**, (AP)—With a coal famine looming imminently above the horizon of the American public as a result of the threatened coal strike, headquarters of the American forestry association in this city are receiving inquiries from all parts of the country seeking advice as to what trees should preferably be used as a substitute for fuel during the anticipated emergency. A cord of either oak or hickory, declares Charles Lathrop Pack, president of the association, is equal in calorific value to that of a ton of anthracite and these are, therefore, much to be preferred to any other trees. With wood, however, at the present prices, a substitute, it is almost prohibitive.

**PROTEST AGAINST PAYING ALL DANCE ENTRANCE FEE**

**German Youths Declare Women Wage Earners Should Bear Share of Expense Involved**

**STETTIN**, Germany, (AP)—The workers of Stettin and suburbs have struck against paying all the entrance fees into dances, and the reformers for their girl or woman partners at dances. Women, they assert, are now earning about as much as men, and should bear their share. They insist they will not dance with any woman who does not pay her own way. The ultimatum was published in a Stettin paper, and reads:

"The dancing ladies' world should pay for itself. The Revolution brought the same rights for man and woman. As a result we demand that the young people of Stettin no longer pay the entrance fees. We should we male workers who have to earn money with our hands dance away three or four marks, perhaps a bottle of wine and other things, in order to show ourselves as cavaliers to ladies. If the ladies are willing to amuse themselves with us Sunday afternoons, then they should bear the expense in full, since we earn our money by the sweat of our brows. Therefore, open your pocketbook, or remain at home."

The appeal is signed by "many young Stettiners, which have acquired good sense."

**ROBBERS TAKE LIBERTY BONDS IN ILLINOIS BANK**

**ROCK ISLAND, ILL.**, (AP)—Blowing the door off the safety deposit box vault and breaking open the individual deposit boxes, robbers today made a haul of \$100,000 in Liberty bonds from the State bank of Sherrard, Ill., near here. Because of the similarity of the Sherrard robbery to the one at Mason City, Iowa, the night before, in which \$100,000 in Liberty bonds was taken, the authorities are trying to link them together in an attempt to run down the robbers.

**BULLARD SUCCEEDS BARRY IN COMMAND IN EAST**

**WASHINGTON**, (AP)—Major General Robert L. Bullard, who commanded the second army in France, has been assigned to command the department of the East with headquarters at New York. Secretary Baker announced Tuesday he will succeed Major General Thomas H. Barry, retired.

**FRIENDS WATCH DOBIE**

**SEATTLE, WASH.**, (AP)—University of Washington students are watching reports from the east and are hoping that "G.I." Dobie, former football coach here, will turn out a victorious Naval Academy team this year. Under Dobie's guidance, the navy defeated Johns Hopkins recently, 47-0. At the same time the army lost to Syracuse 7-2. When Dobie was coach here the University of Washington teams never lost a game.

**SEEKS COURT JUDGMENT**

Declaring that the defendants are indebted to her in the sum of \$4,070, Lucretia R. Power has instituted proceedings for recovery of this sum and costs, in the district court against Edwin Burke and Ona R. Burke. The amount, according to the complaint, is due on a promissory note.

**Wraps Distinguished by Elegance**

Whether as the result of more general prosperity or the better education in styles of the buying public, coats and other outer garments, for the coming fall and winter are distinguished by unusual elegance. That is, the fabrics used for them are appropriate and beautiful, the lines on which they are cut are graceful and dignified, and they are not overtrimmed or freakish in any particular. There are several new cloths, including many pile fabrics, used by the manufacturers of wraps. Each has its own name and it would be burdensome to undertake to memorize them all. But they are soft, with velvet or suede finish, resembling drevylin and Bolivia cloth which have made themselves familiar. Besides these there are the wool-torn and fur fabrics that have become important among materials for wraps. All of them are soft and rich looking and of a texture that accommodates itself to the swinging

lines of the present styles in wraps. The short jacket which has the effect of a cape, shown in the picture, is made of a taupe colored fur-fabric that resembles molenkin and is quite as warm and rich looking. The jacket fits closely to the figure and is belted in with a belt of the material that slips through slides at each side of the back and front. It fastens at the front, holding the garment snugly in place. To accomplish a graceful wrap the designer has set in shaped pieces instead of sleeves to give the cape-like effect and used a shawl collar, widened at the back to further his aims. He has turned out a charming and cozy wrap that is warm and durable, which can be bought at a price that is within reason for the woman of average means.

THE KITCHEN CABINET Is it rainy, little dove? Be glad of rain; Too much sun would wither these. 'Twill shine again; The clouds are very thick, 'tis true. But just and kind smiles the blue.

SOME SIMPLE SALADS. An ear of corn and a potato or two, with French dressing, makes a tasty small salad. If this does not make enough to serve, cut a small tomato for each salad into the form of a flower and sprinkle the salad over this...

Eggs and Cabbage Salad—Cook six eggs hard; when cold, cut in two lengthwise and take out the yolks. Rub the yolks through a sieve, season with salt and pepper until grated onion and mix to a paste with mayonnaise. Mold into small balls and set aside.

Shred the whites of the eggs with a sharp knife and add twice as much shredded cabbage. Mix with mayonnaise; arrange on a bed of lettuce and drop the egg balls on the salad.

Cabbage Salad—Chop a firm head of cabbage very fine, with one pound of salt pork, cut in small dice, onion and brown. Pour the smoking fat fat over the cabbage; stir and mix well, adding salt and cayenne; taste and sure it is well seasoned, then pour a third of a cupful of boiling hot vinegar over all and garnish the top with the bits of brown cubes. Serve at once.

Shredded Cabbage With Cream—Shred crisp, firm cabbage as fine as possible, let stand in ice water to clear, then drain; add sweet cream, sugar and enough vinegar to give it a snappy flavor and serve as a salad. Sour cream, if not too highly flavored, may be used, omitting the vinegar.

Neer Maxwell Jap Breweries. Japanese breweries produce about 210,000,000 gallons of sake, the national alcoholic beverage, from rice annually.

MAN ON COAST IS NOT RICHMOND, PHOTO PROVES MISTAKEN IDENTITY

Mrs. Wagner Says Picture of the Missing Twin Falls Man, Submitted for Scrutiny, Does Not Represent the Man She Converses With and Called "Dad" at Long Beach

That she was mistaken in the identity of the man met and conversed with at Long Beach, whom she reported to be J. J. Richmond, missing from Twin Falls since June, was the gist of an explanation made by Mrs. W. H. Wagner, Jr., yesterday...

About a fortnight ago Mrs. Wagner wrote from Shreveport, Louisiana, to a friend in Twin Falls telling of having met and talked to J. J. Richmond, news dealer at Twin Falls, while she was in Long Beach...

Immediately upon receipt of this letter, Dr. John F. Coughlin communicated with Mrs. Wagner in behalf of Mrs. Richmond, enclosing a photograph for purposes of identification...

"Dear Doctor:
>Your communication in regard to

Mr. J. J. Richmond was received today, together with his picture.
'A short time ago while in Long Beach, I ran across that old gentleman who sold papers on the bank corner, the real old man with chin whiskers whom we all called "Dad." Now that was the gentleman that I understood was Mr. Richmond...

That gentleman was not the one pictured on the card that you sent me. I regret exceedingly my mistake and the worry it must have caused Mrs. Richmond but you can readily understand how it was no easy for me to have thought that it was the party in question...

Again let me assure you of my deepest regret, and with the hope that it has done no irreparable harm."

Rain and Snow Flag Mercury Going Upward

THE north winds do blow and if the robin doesn't hide his head under his wing at something, he will get his ears nipped. The coldest weather of the year was recorded Monday night, being 15 above zero, which in these parts is considered nippy enough...

SCHOOL ATTENDANCE PERFECT PERCENTAGE

Murtaugh, Hansen and Kimberly Report No Truancies in Academics

There are no truancies recorded on the school enrollments of Murtaugh, Hansen or Kimberly. The schools of these three places enroll a total of 908 pupils, the records showing a perfect attendance.

This report is made by juvenile officer John R. Ault, who yesterday visited the town in pursuance of his duties in connection with the juvenile court. Kimberly has a total school enrollment of 245, of which number 325 are grade pupils...

The regular weekly meeting of the Twin Falls Rotary club was held in the Masonic temple dining room at noon today. Business of a routine nature held attention.

STRIKE AFFECTS WORK ON LIND GARAGE ANNEX

All Union Men Lay Aside Tools and Quit Big Construction Job

Alleged to be due to pernicious activity by labor union officials, all the workers have been called off the construction of the Lind garage annex. Work on this structure ceased yesterday. It is said the men gave no excuse for quitting.

According to C. E. Lind, owner of the Lind Auto Institution, suspension of construction operations on his building results from the present strike of auto mechanics which has been in progress since October 29. He declares the men were induced to leave the job when other occupations were provided for them by the officials of the local trades and labor council...

SISTER PROTESTS WILL FAVORING FORMER WIFE

Request of George Holmes is Made Subject of Court Contest

Protest has been filed in the probate court by Elizabeth H. Hill of Los Angeles, against the probating of the will of George R. Holmes, whose death was reported last spring. Protestant is a sister of decedent and contests the application for probate on the ground that the only beneficiary named in the will is a divorced wife and therefore, not legally entitled to the benefits accruing from the will.

George B. Holmes for a number of years was engaged in the drug business in Iowa, but at the time of death was retired. His estate is appraised at \$25,000 valuation. The bequest in question was drawn up and signed 15 years prior to death, his wife being made his sole heir. Soon after making the will, trouble entered the Holmes home, resulting in a divorce. The terms of the bequest were never changed. The beneficiary has never been located.

DOVE DEER TO HAY
Deputy Sheriff H. G. Dietrich returned yesterday from Nevada where, in company of others, he spent some days tracking deer to their lair. Dietrich brought down a fat buck and then came home.

Kiddies' Hunger For the Apples Going to Waste

Two hundred carloads of Idaho apples will freeze on the trees, according to Milton Cannon, state commissioner of agriculture, who makes the statement to members of the state agricultural board.

Mr. Cannon declares help is needed in the orchard sections to pick the fruit if it is to be saved. In the Twin Falls district alone scores of carloads of apples will be destroyed by freezing, according to local reports. Even in the town itself there are many trees still laden with luscious red-ripe fruit.

And there are scores of families unable to pay the regular market price for apples, and hundreds of city children hungry for just one apple.

"Highgate" Derived from Gate Erected over 400 Years Ago to Receive Tolls for the Bishop of London
