COURT DIRECTS WITHDRAWAL OF STRIKE ORDER

Judge Anderson Issues Mandate after Hearing in Which Union Representatives Try to Argue Right to Strike

ATTORNEYS SAY UNION LEADERS WILL COMPLY

Motion to Dissolve Injunction is Taken Up after Mine Workers' Counsel is Refused Postponement

INDIANAPOLIS, Ind., (AP)—The United Mine Workers of America were today ordered to withdraw the strike order under which 400,000 men quit work November 1.

The mandate was issued by Judge A. B. Anderson, of the United States district court after a hearing which lasted for several hours.

The attorneys for the miners sought only for a chance to present arguments on the right to strike.

The union was given until November 11 at 6 p. m. to issue the cancellation. This date was selected because so many defendants were absent. The union attorneys explained the absences must be summoned by telegraph from many parts of the country to issue the cancellation order.

The attorneys announced that President Lewis and Secretary Green of the union purpose obeying the court order but that they could not speak for their fellow officials.

Union Calls Meeting

Call for a meeting here Monday of the executive board district president and central committee of the United Mine Workers was issued by union headquarters this afternoon. This action was in conformity with the orders of Judge Anderson, who directed that the cancellation of the strike be submitted to him by 10 a. m. Tuesday, and issued by six p. m. that day.

Indicates Procedure

Judge Anderson indicated he would issue the injunction by the afternoon if he held that miners and their agents are guilty of conspiracy.

His order after that is to be more or less as follows: "The United Mine Workers of America through their attorney, Henry Warrum, asked at the opening of the United States district court today that the proceeding be postponed a week or two days in the hope that meanwhile the strike might be settled. The government, through C. B. Ames, assistant attorney general, objected and the court thereupon took up the motion to dissolve the injunction. The government position was that the case was too important to be postponed."

Asserts Legality of Case

The defense read the motion to dissolve the injunction as a libel. The document asserted the legality of the strike and that the sole object was to better the living conditions of the miners by increasing wages and shorter hours. This was explained as designed to combat the government action of a conspiracy to violate the Lever food-and fuel control act.

JAPANESE COUNT UPON DIPLOMACY

TOKIO, (AP)—The conciliatory and dignified nature of Japan's reply to the American note of last September complaining of lack of co-operation of Japanese troops in the operation of the frame of the Manchurian railways here to have removed any danger of serious complications between Japan and the United States over conducting the railroads.

In effect the reply ratifies the arrangement reached at Vladivostok by Toland S. Morris, the United States ambassador, General Okuma, commander of Japanese forces in eastern Siberia, and commits Japan to co-operation in the future. Under the circumstances it is considered unlikely here that the United States will further pursue the matter.

The Chinese consular question, however, has come strongly to the fore, pronounced as a problem requiring immediate and frank negotiations. The Washington government has recently informed the government of Japan that the United States is quite unable to accept Japan's proposal to exclude certain districts of eastern Inner Mongolia and South Manchuria from the frame of the Manchurian railways.

Announcement of an independent loan to China of \$10,000,000 by a Chicago bank was made simultaneously. The loan is secured by a tobacco and wine monopoly.

WORLD NEWS EVENTS

DUBLIN, (AP)—A proclamation has been issued by the commander in chief of the forces, forbidding the owning or keeping of an automobile or motorcycle in Ireland except by special permit. The order will become operative November 15.

GENEVA, (AP)—A cablegram has been sent to President Wilson and Vice President Marshall by the Swiss Federation of Friends of Armenia, urging that the United States accept the mandate for Armenia, in order that "Armenia may not perish from the earth."

LONDON, (AP)—Occupation of a series of villages seventeen miles southwest of Peterhof, in the Petrograd district, is claimed in a Bolshevik communication received here by wireless. In the direction of Yamburg the Bolsheviks say they have advanced to Kikarino, west of Gatchina, but admit retirement to the right bank of the Duna river in the Polotsk region owing to enemy pressure.

FIFTY-TWO RADICALS IN NEW YORK FACE DEPORTATION

NEW YORK, (AP)—Fifty-two radicals arrested in raids here faced deportation proceedings today.

The raids, personally directed by Chief Wm. J. Flynn, head of the bureau of investigation of the department, came as a surprise to the 200 or more persons assembled in the Russian people's house in the lower East Side.

A class was listening to what the police termed a radical lecture; but the students hastened to inform the officers they were "learning English."

When the prisoners with several women among them, and been herded together, it was found that many had received severe beatings.

Several train loads of radical literature were found in the building.

STRIKE INVESTIGATION COMMITTEE PROPOSES AGENCY OF MEDIATION

WASHINGTON, (AP)—Characterizing all strikes as "industrial barbarism" and declaring that there is no place in this country either for industrial despotism or labor despotism, the senate committee which investigated the steel strike, today proposed its report. The committee's main conclusion was expressed in the statement that "the public has a right to demand that capital shall not arrogate to itself the right to determine in its own way those industrial questions, and it is the same as to labor, and the duty is upon congress to provide some way of adjusting these difficulties."

RESERVATIONS STANDING FAST UNDER ATTACK

First Attempt to Alter Withdrawal Qualification Fails in Senate by Vote of Sixty-eight to Eighteen

ROLL CALL IS ON MOTION OF GORE FOR MODIFYING

Proposed Alteration of Committee Proposal Gets Only Scattering Support from Both Sides of House

WASHINGTON, (AP)—The first attempt to alter the foreign relations committee's withdrawal reservation to the peace treaty failed in the senate today by a vote of 68 to 18.

The roll call was on a motion by Senator Gore, Democrat, Oklahoma, to modify the provision empowering congress to give or withhold by concurrent resolution, at its discretion, support from both democratic and republican senators.

Nelson Motion Fails

The senate then rejected by a vote of 45 to 39 a motion by Senator Nelson, Republican, Minnesota, to permit such a notice by joint resolution in lieu of concurrent resolution, so the signature of the president would be required.

The motion commanded the support of only two republicans, Senators Nelson and Chamberlain, of North Dakota, while three democrats, Senators Gore of Oklahoma and Smith of Georgia voted with the majority.

The first of the foreign relations committee's fourteen reservations to the peace treaty, relating to withdrawal from the league of nations, was adopted today by the senate.

The vote stood 50 to 35, five democrats joining the republicans who lined up solely for the proposed amendment.

The second reservation, an affirmative vote for Gore, Oklahoma, Reid, Missouri, Walsh, Massachusetts, Smith, Georgia and Chamberlain, Oregon.

By a vote of 40 to 37 the senate refused to strike out entirely the provision for congressional notice of withdrawal.

Another amendment by Senator King, Democrat, Utah, extending the withdrawal provisions to all members of the league was rejected, 52 to 30.

MRS. ADKINS' SLAYER TO BE SHOT DEC. 19

John Borich Found Guilty of Killing Twin Falls Woman — Accepts Calmly

SALT LAKE, (Special)—John Borich has been found guilty of the murder of Velma Adkins, of Twin Falls, Idaho, on December 19.

Borich killed Mrs. Adkins near Torrance several weeks ago, and when arrested claimed the deed had been done by a man he called "Red."

He was found guilty in the Third District Court, Judge J. H. Bramel presiding, Borich accepted the verdict calmly and was unharmed when the death penalty was pronounced.

TRIO HELD FOR MURDER OF AUTOMOBILE OWNER

Ogden Police Say Suspects in Custody Used Hammer to Kill San Francisco Man and Taxi Cab

OGDEN, Utah, (AP)—Carl Cole, Fred Cole and James Kendall, alias James M. Helm, Jr., arrested here yesterday charged with the murder of M. J. Needham, of San Francisco, in San Francisco, according to Sheriff Peterson confessed their crime to him today.

According to the sheriff, the trio were last seen in Ogden on December 2, in the Intah basin where they expected to winter spending their time at trap line. In order to make the journey, it is stated, they needed a car and after a conference in Ogden, Needham was murdered after Needham had driven them twenty miles from San Francisco, with the aid of a hamper.

DEPORTATION OF ALIENS IN "RED" ACTIVITIES IS PALMER'S DETERMINATION

Attorney General Asks Department of Labor to Ship Out More than Two Hundred Radicals Arrested in 18 Cities in Wide-spread Cleanup Conducted by Government Agents on Eve of Projected Celebration of Russian Soviet Rule Establishment

SEIZURES IN RAIDS INCLUDE RED FLAGS AND BOMB MAKING MATERIAL

WASHINGTON, (AP)—Deportation of all aliens engaged in "red" activities has been determined upon by the department of justice, Attorney General Palmer announced today.

Details of the wide spread cleanup of radicals last night and today show that more than 200 were arrested in 18 cities. Mr. Palmer has asked the department of labor to deport all of them.

Included among the material and literature seized by government agents in the raids were quantities of articles used in making bombs, a complete counterfeiting plant, a large supply of counterfeit money, notes, thousands of pieces of literature, and scores of red flags, rifles and revolvers.

RAIDS CURTAIL CELEBRATION OF SOVIETS' RULE

More Than Two Hundred Taken in Chicago District with Other Hundreds Arrested Elsewhere

CHICAGO, (AP)—Activity in planning and celebration of the second anniversary of the establishment of the Russian soviet government, curtailed by raids on alleged radicals in many cities by federal department of justice operatives, centered in Chicago, operative of the bureau here said today. More than 200 prisoners were taken in the Chicago district at the same time other hundreds were arrested elsewhere, Edward J. Brennan, chief of the Chicago office, said.

Most of the prisoners taken here were arrested at their homes, as was those at Gary, and Indiana Harbor, Ind.; Milwaukee, Wis., and South Chicago, Ill. Chicago policemen were assigned to take the seized officers.

Circulars Give Details

From circulars, pamphlets and letters sent through the mails and seized by the department of justice agents, it can be seen that the movement for the celebration received its impetus here. The circulars seized gave details of the proposed celebrations in various parts of the country, operatives said, and that the movement for the celebration received its impetus here.

In addition to their efforts to check the raids, it was indicated the federal officers also were seeking persons engaged in promoting a proposed German branch of the Russian soviet government. The circulars sent out were written in German and called attention to the campaign to forward a new branch of the I. W. W. starting in the east and working westward.

Russian Workers Implicated

Government agents, according to Mr. Palmer's announcement, have found that the union of Russian workers is conducting an active propaganda for a "social revolution." The aliens arrested were all leaders of this union, which was described as the worst, an anarchist organization in America. Its membership numbers more than 7,000 with many locals scattered throughout the country.

Last night's raids, however, included only the leaders of the organization in the following cities: New York, Chicago, Pittsburgh, Philadelphia, Cleveland, Detroit, Buffalo, Akron, Youngstown, Ohio; Baltimore, Newark and Elizabeth, N. J., and Hartford, Waterbury, Ansonia, Bridgeport, New Haven, and Seymour, Conn.

The activities of members of the union of Russian workers, Mr. Palmer's statement said: "The union of Russian workers is even more radical than the Bolshevik. It was organized in New York in 1917 by a group of exiles from the city of St. Petersburg. The purpose of the society was to annihilate all of the Russian groups in the United States into one organization."

Organizes Immigrants

"The various locals are organized for the sole purpose of spreading the doctrine of the organization along the Russian immigrants working in the brick and stone industry, in camp and saw mills and other centers of labor and the propaganda is conducted by means of literature and lectures as well as through the radio-organizing system of exiles, headed by Wm. Szwarc, at present the chief of office of Petrograd. The purpose of the society was to annihilate all of the Russian groups in the United States into one organization."

Mostly "small fry" were arrested in the raids in the Chicago district, some of the operatives said. It was reported that national leaders of the I. W. W. had been arrested but Mr. Brennan denied that Wm. D. Haywood, national secretary of the organization, was among the prisoners seized. Meetings for last night at half a dozen places in Chicago had been planned as part of the celebration, which was called off today, but the raids stopped them.

The officers working in Chicago used a fleet of taxicabs. As fast as the prisoners were questioned by Mr. Brennan, P. J. Rooney, his aid, and three Chicago city detectives, they were removed to outlying police stations. There they were held for further action.

Information regarding plans for a "reign of terror" in Chicago in connection with the celebration was ascertained by the federal government through a department of justice agent who ingratiated himself into the radicals' councils.

Circulars distributed called upon the members of the organization to join the movement. "Fellow workers, leave your children at home," advised the announcement of the meeting.

"We are proud to have you here," leaders came to Chicago from New York yesterday, announcing themselves as representatives of the press committee of the German soviet soviet branch, I. W. W.

Crop Estimates

WASHINGTON, (AP)—Crop production estimates issued today by the department of agriculture, showed a corn crop report include: Corn 2,910,220,000 bushels. Buckwheat 50,120,000. Potatoes 402,000,000. Sweet potatoes 102,946,000. Tobacco 1,316,553,000 pounds. Flax 3,450,000 bushels.

VOTERS ENDORSE RATIFICATION OF PROHIBITION AMENDMENT BY OHIO

COLUMBIUS, O., (AP)—Complete returns from all but two precincts in the state including official returns from 85 of the 88 counties tabulated at 1:30 p. m. today in the office of the secretary of state gave the drys a majority of 1,480 votes in favor of ratification of federal prohibition. The vote was: For ratification 499,776; against 498,295.

MAKES CHARGES AGAINST UNION

State Attorney Accuses Clothing Workers Representatives Hinder Probe

CHICAGO, (AP)—Assistant State Attorney Nicholas Mitchell announced that persons believed to be representatives of the Amalgamated Clothing Workers of America had attempted to intimidate state witnesses in the investigation of charges that clothing manufacturers had been compelled to pay the organization and its officers \$500,000 during the last year.

"While I was interviewing a clothing manufacturer at his home last night in regard to a charge that he had paid \$5,000 to the union for the settlement of a strike, a man called on the telephone and told the manufacturer that he would be given 48 hours to leave the city," said Mr. Mitchell. "We are having great difficulty in getting the clothing manufacturers to tell their stories but satisfactory progress is made in the inquiry."

Mr. Mitchell said that after examining evidence seized yesterday in a raid on the union headquarters in Chicago that 10 or 12 officials of the organization will be indicted when the case is presented next week to the grand jury. He said three clothing manufacturers have stated that they paid money to the officials of the labor organization.

Among the papers taken in the raid are a number of unopened checks which Mr. Mitchell says clothing manufacturers had given the officials of the Amalgamated Clothing Workers of America.

PLAN INVESTIGATION OF FARM MANAGEMENT

University Extension Department to Make Survey of Conditions Here

The University of Idaho, in cooperation with the office of farm management of the United States department of agriculture, is undertaking an investigation of farming in the Twin Falls district. The investigation will deal with some 200 to 300 farms and will show which farms are getting the best yields and are paying best. Reasons for high and low yields will be studied and in this way the types of farming best adapted to the district, the relative profitability of the different types of farming, different crops and classes of livestock will be determined.

The information gathered from the individual farms will be held strictly confidential and will have nothing to do with income tax reports. The data gathered is tabulated in groups of 40 to 50 farms, as the individual farm appearing in the reports.

Byron Hunter, who represents both the university and the federal department of agriculture, is here to begin the preliminary work of the investigation. Other men are to come a little later to assist in gathering the information. The methods of study to be used have been thoroughly tested elsewhere and there can be no doubt that the investigation will be of great benefit to the Twin Falls district. In addition to this the university wishes to put itself in a position to efficiently assist in directing the agricultural development of new districts.

The farm bureau is endorsing this investigation and urges the farmers visited to cooperate in the undertaking.

STRIKE LEADER ACCUSED OF FURTHERING COMMUNISM

LAWRENCE, MASS. (AP)—The captain, leader of the last textile strikers, was arrested Friday after the police had been informed by young boys found distributing revolutionary handbills on the streets that Kaplan had employed them. He was charged with violating the city ordinance.

The handbills were signed "Local Lawrence, communist party of America," and urged the "workers of the world to unite" with the assertion, "you have nothing to lose but your chains."

The circuit court refers to the second anniversary of the Russian revolution and urges the workers of Lawrence to show their solidarity with the workers of Russia by wearing the red emblem of the soviet government.

SAYS MINIMUM LIMIT OF WORKING HOURS NEEDED

Canadian Delegate at International Labor Conference Gives Views on the Coal Miners' Demands

WASHINGTON, (AP)—Referring to the demand of striking coal miners in this country for a 30-hour week, F. M. Parsons, of Canada, an employers delegate, told the international labor conference Friday that there was greater need for a minimum limit of hours of work per week to ensure increased production than for a reduction in the maximum number of hours.

"The world is not suffering on an account of long hours," he said. "It is suffering on account of lack of food and clothing. There are a hundred million people in the old world on the verge of starvation. Not one third of the industries of the world are producing to full capacity. Since the introduction of the eight-hour day in France there has been a 20 per cent reduction in production."

Mr. Parsons took issue with the majority report of the employers group on the 48-hour week submitted Wednesday by D. S. Marjoribanks, of Great Britain. He said the project for international labor legislation was like trying to fit "a ready-made suit of clothes on all the countries of the earth, irrespective of sizes."

ALL LANDLORDS ARE NOT ALIKE

Two Instances are Cited of the Treatment Accorded House Tenants

Two extremes of human nature—the grasping and the generous—are delineated in the following paragraphs.

On an Addison avenue—some distance out, too—there stands a three-roomed shack, unmodern in all its stanzas except that it is electrically lighted. Occupants get water from outside, and sanitation facilities are on a very old-fashioned and quite impossible—in these modern days—order.

The shack has been renting for \$15 per month, which the owner has considered sufficient.

During the week the property has been sold. The new owner called upon his tenants after acquiring the deed and served notice that hereafter the rent for the three-roomed shack will be \$30 per month.

The tenant said he could not pay it and was told to vacate.

Discussion following the order to vacate brought out the fact that the new landlord rents a five-room modern house on the north side, paying \$30 per month therefor. He announced when he made the raise that should his landlord rent a five-room modern apartment house where they will pay the same rent. Upon leaving the house the question was asked if the landlord would raise the rent.

"Certainly not," he vigorously replied. "The amount I am getting returns me satisfactory interest on my investment. I want no more."

ATTENTION SERVICE MEN

The Home Service Section is in receipt of the following information printed in United States Bulletin of Monday, October 20: "No matter when a man was discharged, even though 18 months have elapsed, he may re-enlist before December 31, 1919, on his own statement of health and by paying only two months' premiums." This gives to the man who was discharged prior to April, 1918, still another chance to become re-enlisted, and is an opportunity that ought not to be allowed to pass.

The woman who studies the ads or too high priced should ever be too KNOWS the right now offerings of the store. She doesn't have to spend hours in "shopping." She does her buying in a businesslike way.

TRANSCONTINENTAL AIR MAIL ROUTES PLANNED

WASHINGTON, (AP)—Transcontinental air mail routes will be established in the near future, possibly as early as January 1, Otto Praeger, second assistant postmaster general, told the house postoffice committee today, adding that the department also contemplates an aerial mail route to Alaska.

Mr. Praeger said a number of cities had offered free landing fields and other facilities.

Only property which is undestructible or too high priced should ever be too antless. Tenants are found through classified advertising for GOOD HOUSES OR APARTMENTS, rightly priced.

American Troops Serve in Plebiscite

CORLENZ, (AP)—Troops of the fifth infantry which arrived at Brest recently from the United States, reached the Rhine Wednesday from Brest. These are the first units of a provisional infantry brigade to form a part of the army of occupation until it may be detached for its proposed service in upper Silesia in connection with the plebiscite there.

Drafts Final Lists of German Offenders

PARIS, (AP)—The supreme council Friday decided to appoint a commission to draft a final list of individuals charged with violations of the laws of war whom Germany must surrender for trial. The commission will compare the lists furnished by the various allies, formulate a method of procedure for the trials and designate the places where the various tribunals will sit.

ENTHUSIASM SHOWN OVER STREET PAVING

Belief Expressed Buhl Will Yet Be Best Paved City in Idaho

BULLH, (Special)—With one block completed, citizens of Bullh are now participating one of the best paved cities in Idaho, another fall. The Warren Construction company is pushing the work and providing the weather permits promises the work will be rushed and much accomplished this winter.

The paving is of bituminous asphaltum and the work has been started on Main avenue west. In all single-block blocks will be paved, which includes all of the business section, portions of the residential area and the main highways, which lead into the city. Cluster lights will follow the paving.

COURT DENIES PETITION OF STRIKING POLICEMEN

Refuses Writ to Compel Boston Constables to Restore Positions

BOSTON, Mass., (AP)—The supreme court Friday denied the petition of the officers of the Boston policemen's union who sought restoration to the positions from which they were removed by Commissioner Edwin Curtis because of their affiliation with the American Federation of Labor. The court acted on the request of the former policemen, headed by John F. McInnis, president of the union, for a writ of mandamus to compel the restoration to restore them. Judge Carroll held that they were not entitled to reinstatement because they had failed to avail themselves of remedies contained in the anti-coercion act.

It was the suspension of the 19 officers of the union by Commissioner Curtis that precipitated the strike of policemen September 7.

BRUINS INTERCEPT BURLEY PLAYS AND CARRY BALL OVER FOR 33-12

Speed of Twin Falls Grid Coterie Dazzles Cassia's Best on Latter's Field—Newman Bright Particular Star for Denman's Aggregation Which Continues Improvement

BURLEY, (Special)—Twin Falls played a spectacular game here yesterday and defeated Burley 33 to 12. The locals did not score until the end of the second quarter when "Hank" Canine made a touchdown.

King opened, kicking off to Burley. Twin Falls recovered the ball and scored a touchdown, but through an error in the rules it was not allowed.

Newman made another spectacular play when he again intercepted a Burley pass and ran 85 yards for the victory.

Boxing appears to be more profitable in England than America. Charles Cochran, premier promoter of the British Isles, cleared \$90,000 in two hours.

Tex Rickard worked a year on the Willard Dempsey affair and his profit did not come near reaching the sum netted by the Englishman, who appears to be the premier fistie promoter of the world.

Next week Gooding. Let's do the job right this time.

POOR 'RUNT' KERR, DRAWS A SMILE DOWN IN TEXAS

DALLAS, Tex., (P)—They smile broadly in Texas when one speaks of the performance of "Little Dick" Kerr, the Chicago White Sox pitcher in the recent world's series, for it was not long ago that "big time" sours, viewing Kerr's work in the Texas league, laughingly asked:

"What runt of a little runt like that do in the big league? That kid can't stand the gaff in the big time. It takes real men to get up there."

The two victories Kerr gained for the White Sox over the slugging Cincinnati Reds were just about what Texas expected, for fans who observed the work when he was in the Texas league felt he should have been in the big league long ago.

Kerr whose home is in Paris, Tex., was pitching on the "lots" when he got a chance with the Fort Worth Panthers in the Texas league. He made good from the start, and was sold to a Southern league team and later went into the American association.

At Brookings—North Dakota university 9, South Dakota college 7.

Touchdowns—Twin Falls: Newman

CHICAGO MEETS WOLVES TODAY

First Real Struggle Since 1905 by Stagg and Yost Gridiron Charges

CHICAGO, (P)—Michigan and Chicago football eleven today were ready for their first real struggle since the famous 2-0 Chicago victory of 1905. With indications that a crowd of more than 25,000 would witness the contest it was apparent that everything was in readiness for a return of the intense rivalry that featured the games between the two universities in the years before Michigan temporarily withdrew from the western conference.

While not the formidable eleven of former years, Michigan was represented by a team regarded as a fighting aggregation. Chicago, like Michigan, until today had lost no conference game.

READY FOR IOWA CHICAGO, (P)—Northwestern University's football eleven was ready for a hard fight against the Iowa team in an effort to take its first victory in the "Big Ten" conference race.

GOPIER STARTS OUT MINNEAPOLIS, MINN., (P)—The University of Minnesota eleven clashed with the Fort Belknap of Illinois yesterday in one of the two important conference games of the day.

HERE'S CLASSIC PRINCETON, N. J., (P)—The first of the center gridiron classics of the season today between Princeton and Harvard attracted thousands of alumni from all parts of the country.

COLD AT SALT LAKE SALT LAKE CITY, Utah, (P)—Snow and cold weather prevailed here today for the game between the football eleven of the universities of Colorado and Utah.

THE ULTIMATE

That the Nonpartisan League in Idaho is not regarded as an unmitigated blessing is to be gathered from the action of the Twin Falls County Farmers' Association of a day or two ago when a resolution of protest was drawn and passed setting forth very clearly indeed that the signers and those farmers which they represent are not in with the Townley-McKaig program.

The News has always believed that, properly organized, much good would come out of a farmers' organization. Organization is the order of the day. No man should deny the right of any class of men to organize for collective bargaining with purchasing agencies, employers, or among themselves. But that every single quasi-public institution can be operated to better advantage through public ownership than under private ownership is simply asking too much of a step for the average man to take, be he farmer or anything else.

There is nothing new in the Townley program. Ray McKaig may justly declare that he is not a Socialist and is not in sympathy with the tenets upon which Socialism is based, but he is advocating the Socialist policy in effect and in fact when he endorses the Nonpartisan League program. There isn't any difference. Nonpartisanism stands for state ownership for the benefit of the farmer, Socialism for state ownership for the benefit of the worker. Neither program takes into consideration the

rights of any other class or, for that matter, the rights of each other.

State ownership in America was given on a very, thorough try-out fifty or a hundred years ago. A dozen Eastern States made the experiment of attempting to operate banks, saw mills, post roads, canals and other similar utilities of the times with the people as owners and the upkeep to be met out of taxation. Millions of dollars worth of bonds issued by these states for the benefit of these institutions are still drawing interest, millions more have been repudiated. The institutions themselves long ago gave up the struggle and were reorganized on different lines. The economic factors were the same then as they are today, only the times have changed. These facts must be well known to both Townley and McKaig.

The Twin Falls County Farmers' Association declines to accept the preconditions of these men as providing a way out of all the difficulties of the business of the farmer. But they go farther than that; they decline forcefully and fully to be bound to a program of co-operation between the farmers as a whole and organized labor as a whole. They announce themselves as honestly, in sympathy with honest organized labor, but they make it very plain indeed that they are not in sympathy with the brand of leadership which unfortunately appears to control a very large element of labor throughout the country and which has for its object, not the improvement of the condition of the worker but the destruction of the American government.

It is idle to deny the truth of this view or attempt to argue away the proof of the contention. Radical agitators of all kinds, many of them utterly ignorant of the traditions of American history, without respect for law and order and actuated by motives which in the last analysis are based upon the proposition that the very fabric of government must be in their hands before they will be satisfied, gain a ready hearing by the more radical in every walk. The resistance to the program is more or less passive and the result is that the Bolshevik is sometimes to be found in high places, very frequently indeed occupying the position of secretary or president of

one or another of the thousands of labor unions scattered over the country.

Nonpartisanism would use this element to further Townley control of America. First North Dakota, then Nebraska, Montana and Idaho, and other States as the system might be extended. The success of the move is based upon the setting up of class barriers, class mistrust and finally class hatred. It contains nothing of the elements of democracy, merely government by class, which, when all is said and done, was exactly the kind of government which Russia enjoyed under the gentle ministrations of the late Czar and his myrmidons and is enjoying today under Trotsky and Lenin.

That very many Idaho farmers are willing to subscribe to such a program, understanding it to be such, cannot be accepted for a moment, and the action of the Twin Falls County Farmers' Association, if it does nothing more than call attention to the trend of events with respect to the ultimate fate of American institutions, is a sound move and one well calculated to promote study and thought upon a subject than which there can be none of more vital importance to the whole country.

SUBS ON NOTE

J. W. Shotton was investigated judgment proceedings in the district court for the recovery of \$525 alleged to be due from A. R. Wilson on a promissory note.

KNIGHTS TEMPLAR ATTENTION!

You are urgently requested to meet with the members of Twin Falls Commandery No. 10 on Monday, November 10th, 1919. The conferring of the Orders of Knighthood will commence at one-thirty and continue throughout the afternoon and evening. A special dinner will be served at the Asylum at six-thirty. Please make a special effort to be present, as this will be the last afternoon session called by the present officers for the conferring of the Orders.

J. B. SWAN, Commandery Commander.

ARMISTICE DAY

Proclamation of the Mayor of Twin Falls, Idaho, Recommending that the Citizens of Said City Observe the 11th of November, 1919, as a Holiday.

A year ago at this time the nation was in the throes of a world war. Victory, we all felt, was about to perch upon the standards of our army and navy. Millions of our boys were across the waters in foreign lands and upon the billows of the deep contending with the minions of ancient feudalism that the principles of democracy might live. Other millions of our boys were in training camps in our country and only waiting and anxiously listening for the word of their government to go to the front. Thousands of our boys made the supreme sacrifice and are now sleeping the long sleep in foreign lands, and are awaiting the sound of the trumpet note of the last call.

On the 11th day of November, 1918, and on the eleventh hour of said day, victory crowned the efforts of our people and the principles of democracy prevail. Our sons who entered the service of the government in that great cause have returned to private life and have entered again the civil walks of the nation. The first anniversary of the 11th day of November, 1918, is now upon us. As the chief executive officer of Twin Falls I have thought "Lest we forget," that it would be eminently fitting for the people and citizens of our city to observe this day as a holiday.

I, therefore, recommend that the people and citizens of Twin Falls, Idaho, laying aside secular business, do observe, in a fitting and becoming manner, the 11th day of November, 1919, as the first anniversary of the victory for right obtained in the greatest conflict between right and wrong of all historic times.

Dated at Twin Falls, Idaho, this 5th day of November, 1919.

W. H. ELDRIDGE, Mayor of Twin Falls, Idaho.

Nov. 11 is a Holiday

A PROCLAMATION

By the Governor

From the commencement of our history as a people, by the designation of special anniversary days, it has been the custom to commemorate events and achievements marking the progress of the nation, or in grateful and loving tribute to citizens who by their lives of nobility and patriotism have upheld the honor and glory of their country.

As the story of the Liberty Bell brings to each generation of Americans feelings of gratitude, pride and joy, so will history give to future generations the story of the signing of the armistice on November 11, 1918. That outburst of joy as recorded throughout the land may never be repeated, but as long as time shall last every American on the anniversary of that triumphant day will pay grateful, joyful tribute to the victorious heroes of the Great World War.

The American Legion has suggested that November 11th be known as Armistice Day and requests that it be set aside as a legal holiday.

As Governor of the State of Idaho, I am glad to comply with this suggestion and request.

NOW, THEREFORE, I, D. W. Davis, Governor of the State of Idaho, do hereby designate Tuesday, November 11, 1919, Armistice Day, and proclaim it a holiday throughout the State of Idaho, to be observed by the people in a spirit of thankfulness and joy and prayer that Divine Providence may continue to guide our nation to righteous victories.

IN WITNESS WHEREOF, I have hereunto set my hand and caused the Great Seal of the State of Idaho to be affixed.

Done at Boise, the capital of the State, this 29th day of October, 1919.

(Signed) D. W. DAVIS, Governor of Idaho.

Attest: (Signed) ROBERT O. JONES, Secretary of State.

It Will Be Celebrated In Twin Falls Under the Auspices of the American Legion Twin Falls Post Number 7. Everybody Invited.

MISSING MEN SEARCHED FOR

Home Service Department Reports Many Former Soldiers Being Sought

The following list contains the names of former service men whom the government is trying to locate through the Home Service sections of the American Red Cross. They are all men who have received some disability in the late war, and the liberal opportunities offered them through the Home Service section, located in Cotton Hall building will appreciate information that will enable them to go to their homes...

Local Brevities

Gives Good Address - Lieutenant Weir-Biekie, of the French high commission, gave a splendid address at the entertainment under the auspices of the local post American Legion and was well attended. The subject, principally, was "Peace." Officers Chosen - Officers of the Idaho State Teachers' association have been named with Mrs. Leah Burnside, of Shoshone, president...

Today's Markets

Chicago Produce - BUTTER - Higher; creamery 55 to 67c. Eggs - Higher; receipts 2,944 cases; firsts 50 1/2 to 60 1/2c; ordinary firsts 53 to 55c; at mark; cases included, 53 to 55c; storage packed firsts 62 1/2c. poultry unchanged. Kansas City Produce - BUTTER and poultry unchanged; Eggs 1c higher; firsts 60c; seconds 56c. Grain and Provisions - CHICAGO, (P) - Suspension of the railway permit system led to general selling of corn today and to material break in prices. Increased receipts were looked for, especially as a cold wave was predicted. Weakness in sterling exchange and prospects that the government crop report this afternoon would be heavily topped also weighed down values. The opening, which ranged from 1.34 to 1.34 1/2 lower, with December 1.34 to 1.34 3/4 and May 1.32 1/2 to 1.32 1/2, was followed by something of a rally, but then by declines lower than before.

Personals

Mrs. T. E. Moore of Filer visited friends in Twin Falls yesterday. J. C. Griffin, of Jarbridge, is a visitor in this city. H. B. Connell of Boise is in Twin Falls on a business trip. L. L. Ormsby, a sheep owner, of Boise, is a Twin Falls visitor. D. Campbell of Jerome was a business visitor in this city yesterday. C. C. Dadd, a resident of Jerome is in Twin Falls for a brief visit. Mrs. Robert Flood and daughter of Kimberly were among the out of town shoppers in Twin Falls yesterday. Miss Lillian Barrett was a Twin Falls visitor yesterday from her home near Filer. M. J. Sweezy motored to Three Forks yesterday to look after business affairs. Mrs. Snyder and daughter, of Filer, made a brief visit to Twin Falls yesterday. Anna M. Larson of Kimberly was in Twin Falls yesterday shopping and visiting friends. Mrs. A. F. MacLeod of Wendell was among the out of town shoppers in Twin Falls yesterday. Mr. and Mrs. Joy B. Taylor of Hansen motored to Twin Falls yesterday for a brief business trip. H. P. Gianfield is in the city from Salt Lake looking after business affairs. Attorney James Wise spent yesterday at Burley looking after business interests. Attorney Harry Hazel and Postmaster M. A. Stronk spent yesterday looking after business interests on the north side. Cattle receipts 4,000; compared with week ago, strictly good to prime steers mostly 50c higher; common and medium grades steady; calves and best sheebs 25c higher; other grades mostly steady; veal calves 25 to 50c higher; best feeders steady; others mostly 25c lower; westerns steady.

High School News

The newly organized Spanish club elected its officers yesterday and made the following selections: President, Gwen Watson; vice president, Carl Edwards; secretary, Ellis Jensen. The office of treasurer was not filled because of a tie and another vote will be taken later. The French club elected Dwight Kuhn as president. He, with Miss Gochel, teacher of French, will appoint students to the other offices. The membership of this club is sixty. There are 20 pupils in the Spanish club. FOR CLASSES SOCIAL Committees to make preparations for the Senior class social Friday evening are appointed are: Entertainment, Constance White, Lewis Herriman, Blanche Long and June Wood. Decorations, Lacey Law, Mae Goodrich, Eleanor Finch and Carl Edwards. Refreshments, Margie Baker, Elton Lewis, Marion Parzar and Maxine Hillings. Store advertising serves the people who buy. It is not interesting of itself, to those who rarely buy anything. It is not merely interesting but vital to the buyers for the homes. For it is a guide and a service to them. There's no disaster too big for Red Cross relief.

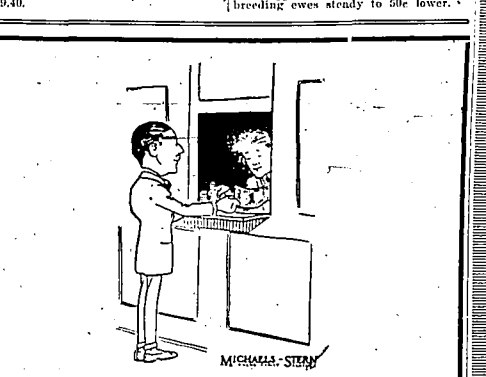

Social Notes

Mrs. Charles R. Scott entertained Mrs. J. E. Joylin's Sunday School class of the Presbyterian church at her home on Seventh north last evening. The time was spent with a very exciting track meet, book and other games were played and most delicious refreshments were served. Those present were: Tamsin Carlson, Eugene Giffin, Fred Hall, Elsworth McRoberts, Arthur Prewley, George Johnson, Richard King, Kenneth Mann, Orveta Scott, Marjorie Somerville, Dudley Swain, John Noh, Christopher Ramon, Maurice Robinson and Lowell Mickelwait were guests. James A. Wilson is a guest at the home of his brother, G. C. Wilson; Mr. Wilson is on his way to the oil fields in Oklahoma. RAID ON RADICALS IN AKRON, OHIO, BAGS FORTY AKRON, Ohio, (P) - Department of justice operatives, led by W. H. Kisco, special agent, arrested forty men here early today in raids on alleged radical and I. W. W. headquarters. You're in mighty good company when you belong to the Red Cross.

ATTENTION, MEN

Things are booming in the Men's Class of the Methodist church. Everything is on the upgrade and going great. So, when Sunday morning rolls around and finds some of you wondering where you can go to spend a happy, helpful hour—an hour full of music, good talks and fellowship—just stroll down to the church and make yourselves right at home. You will find the Men's Class in the church building and just the minute you step into the room where the class has its regular Sunday morning meeting, Charley Patter and Elmer Patterman will be right there to give you a regular Methodist welcome and see that you meet the rest of the fellows. The hour when the "big doings" start is 9:35. On no time, because George Hiew is going to start the music off on the job. Billy Baker, the busy president of the class, has something mighty interesting up his sleeve and he is going to spring it next Sunday morning. So, if you see Harry Driskel, the membership rustler, just tip him off to the fact that you will be there. The subject for the lesson program will be "Peter's Great Confession." This is one of a series of interesting lessons on the life of Peter. Supp. Hall, G. Blum, the class teacher, will discuss the lesson in the light of some of the serious problems facing America. Now, you are asked to remember two things relative to the announcement. One is that the class begins its Sunday morning work at 9:35 and the other is that you will receive a very cordial welcome. Don't forget to tell you that right after the meeting of the class Dr. Bennett will preach another of his mighty good sermons. Better hear him. It's a fine way to top off your Sunday morning. Committee. (Adv.)

NEED TRUCKS IN MANY INDUSTRIES

Distributor of Large Concern Lists Various Uses for Motor Vehicles.

MEDIUM CAPACITY IN FAVOR

Truck Gardener is Included in Long List of Logical Users of Cars for Hauling Products to Market—Much Time Saved.

A. J. Banta, Chicago manager of a large sales company, has been working on a list of different kinds of business that can profit by the use of trucks of medium capacity, for instance in the neighborhood of 3,000-pound loads.

The average business house does not have funds of such magnitude as to have trucks more than a 3,000-pound capacity, according to Mr. Banta, and he also finds one of this size is about as economical to operate as one of smaller capacity and also that the initial cost and upkeep is not materially greater.

Need Trucks in Many Industries. "I have found so many different kinds of business that can use a 3,000-pound truck that it would be almost impossible to publish them," said Mr. Banta. "Express companies, public utility corporations, dairy concerns, furniture dealers, contractors, fire departments, coal concerns, the grocer, the butcher, the baker, the light manufacturers and last, but by no means the least, the truck farmer, are the logical users of trucks of this size."

"Out of Chicago in almost every direction except the east and for a distance ranging around 16 to 25 miles there are hundreds of truck gardeners who must haul their products to the South Water street market and have it there at a certain early hour of the morning."

"By the use of horses it means a six or seven-hour journey in either direction, whereas a small truck could easily make the journey in two hours, unload and get back to the garden with a loss not to exceed five hours."

"The roads in and about Cook county are today being rapidly improved and plans have already been laid for a great extension of this work for the

Loading Sacked Potatoes Into Motor-truck.

year 1920. Even today a motortruck is available for use from almost any farming section with the present road conditions, but when Cook county has anywhere nearly completed this road system any truck gardener within a radius of 50 miles will find himself by necessity a purchaser of a motortruck."

AUTOMOBILE NOTES

Combine with neighbors and friends in use of cars.

MUTUAL COAL COMPANY PROCURES EASEMENTS

Other Fuel Concerns Give Right of Way to Facilitate Deliveries

SALT LAKE, (Special).—Arrangements in just completed, as announced in the Salt Lake newspaper, and confirmed at the headquarters of both interested companies, that the Mutual Coal company and the Morton Coal company have entered into contracts with the Mutual Coal company for rights of way and trackage easements that will facilitate the delivery of coal from the Mutual company's property in Spring Canyon, near Price and Helper, and make it possible to increase the output of the other properties, the Carbon and the Morton, which are both under the same management.

The Utah mines will not be seriously affected by the strike at least for some time, but the output will likely be requisitioned for strike-stricken industries in the east. The Mutual company, operating constantly to supply its own stockholders, which include practically enough miners to man the property, will likely not come under the government requisition order so far as its stockholders are concerned. The arrangements just completed, it is announced, will result in opening the property, according to present plans, much more than had been expected and in time to relieve the company's stockholders who may be short of coal before the situation becomes acute later in the winter, if the eastern strike runs that long.

THE FUTURE SPELLED IN COLE AUTO TODAY

Slogan of Factory is Founded on Vision of What is Yet to Come About.

Probably no factor in the remarkable growth of the Cole Motor Car company, of Indianapolis, has had a more important part than the spirit expressed in the company's slogan: "There's a Touch of Tomorrow in All Cole Does Today."

That slogan is not made up of idle words. It is substantiated by the organization achievement. It spells "Vision"—that rare quality as necessary to the success of the automobile industry as well as to every other business. It bespeaks ability to sense and to anticipate the demands of the future in the automobile world. It goes even beyond that, because, with the Cole company, it means a creative policy, the production of original standards, original designs, and original refinements, says L. T. Wright, local Cole agent.

The Cole Motor Car company stands today the largest manufacturer of eight-cylinder cars, with one exception in the world. That enviable record has been established in a little more than five years. This has not been accomplished as a matter of chance or luck. Behind that record are years of painstaking endeavor, careful selection, and exhaustive tests of materials, engineering skill that stands without a peer in the automobile industry, conscientious treatment of the trade, service and all of the other elements that go to make up a definite, tangible, business-getting, and business-holding policy. And, one of the strongest features of that Cole policy is "Vision."

The Cole, for example, was one of

CADILLAC PRESIDENT LOOKS INTO NEXT YEAR

R. H. Collins Forecasts Conditions Closely Approximating Affairs in 1919

"One of the reasons why so many people are disappointed in getting things they want and need, is that they do not prepare," said R. H. Collins, president of the Cadillac Motor Car company, in discussing the motor car outlook for 1920. "The fact that I knew I would want a rifle in November, caused me to order it last spring. As a result, I was not disappointed. I got the rifle when I wanted it."

"Neither the Cadillac company nor its distributors wants to be placed in the position of disappointing so many people as were unable to provide themselves with our cars this year."

"It may be remembered that a year ago, immediately following the armistice, this company announced that it would resume normal production of motor cars as rapidly as conditions would permit. At the same time, we expressed our belief that it would not be possible to build in 1919 all the Cadillac cars the world would want."

"The prediction was well-founded, as many people can testify. During the last few months our distributors have been compelled to decline many orders for motor cars, simply because the forlorned buyers had already placed orders sufficient to absorb the year's production."

"It appears now, to be reasonably certain that the same conditions will obtain next year. Undoubtedly the Cadillac's war record has measurably lightened the public's appreciation of the car, which means that the Cadillac market is much wider than heretofore—and even before the war it never was fully supplied. We can do no more than present the facts as we see them."

"Patronize the largest local cash buy organization in this part of the state, when you have any car parts, tires, lamps or other accessories. We are here 12 months in the year—Adams Produce company, Newton O. Hill, Mr. Telephone me at the residence of ARTHUR L. SWIM."

the two first manufacturers in this country to build an eight-cylinder car. It was among the first to concentrate on an eight-cylinder car. A new era in automobile construction was marked when the Cole company applied to its eight-cylinder cars the advanced principle of rotary design and construction which produce a higher state of automotive efficiency.

Another example of Cole's vision: Anticipating the demand made apparent by the utility of the all-year car, the Cole has produced its all-season Cole Aero-Eights which establish a marked advance in enclosed equipages.

AUTO TRUCK IS COMING INTO ITS OWN--WILLIAMS

President of Garford Draws a Lesson from New York Boatman's Strike

"The motor truck certainly is coming into its own," E. A. Williams Jr., president of the Garford Motor Truck company, said recently. "I have been very much impressed with the seriousness of the situation that confronted New York City because of the strike of boatmen in New York harbor."

"New York, because of its position on a long, narrow island, can be entered only on the north and east by bridges. The really important approach to the city is from the west and, in this direction, there are no bridges or tunnels to take care of freight. The result is that all of the freight must be lightered. The city of New York therefore, is always at the mercy of lightering."

"In normal times, where there are no strikes, there is much congestion along this material has been lightered across the river. It is unloaded in long, narrow piers which have not kept pace in growth with New York City. Long lines of horse drays block entrances to the piers. These horse drays begin to arrive at midnight so that they will be well up in line for the opening of the piers which occurs anywhere from 3 to 7 o'clock in the morning."

"The loss of time is enormous and the congestion and confusion are such that traffic police are obliged to divide those long lines into groups and sections before any progress can be made. Oftentimes it takes hours to un-

complish what might be done in one hour. "Motor trucks, instead of these horse-drawn vehicles, would eliminate nine-tenths of the vehicles now used, and avert that much congestion. Motor trucks embody greater endurance, more speed, greater carrying capacity, travel longer distances and the cost, per ton mile, of course, is much less."

Readers of store advertising understand and appreciate the fact that a merchant, in announcing price concessions, assumes a direct and inescapable ethical responsibility. No merchant who values the reputation of his store will permit the use of exaggerated claims. The people are educated as to values. Classified Ads are cheap-effective

Oldsmobile

The following description of a trip taken by Dr. and Mrs. W. C. Ralston in their Oldsmobile Six Cylinder Car was handed us the other day. It is an interesting story as well as an excellent advertisement for the OLDSMOBILE CAR:

Dr. and Mrs. W. C. Ralston have just returned in their Oldsmobile Six Cylinder Car after a tour of 5,614 miles—the above distance was covered in 31 days, actual travel, making an average of 181 miles a day, over all sorts and conditions of roads in the Middle West and Mountain Regions.

The log of the Doctor's trip is one of great interest to motorists as well as others and shows the stamina of Oldsmobile Cars. It shows remarkable traveling when you take into consideration the age of the Doctor as he has passed his seventy-first year.

When he left Twin Falls, May 13th, he fully intended to go East as far as Pittsburg, near which place he spent his boyhood days, but he was detained in Illinois by sickness. For over nine weeks he was kept here under the care of a specialist, and was forced to discontinue his trip Eastward altogether.

Finally he set out on his return trip, crossing the Mississippi River at Keokuk, where a few years ago that much talked of dam was built. He went west through Chillicothe to St. Joseph where he crossed the Missouri River, continuing westward through Hiawatha and Belleville; then south through Salina to McPherson, then west to Eads, Pueblo, Florence, Canon City to Salida.

He intended to go over the Monarch Pass—one of the highest passes on that route, over eleven thousand feet—but was told when he arrived at Salida that the big blizzard and snow a few days previous had blocked the pass and that it would very likely remain closed until spring.

So he took a route south as far as Saguache, crossing over the Ochocho Pass to Gunnison, then on to Montrose where he remained a week, visiting his nephew, Dr. James B. Parks, who has a fine practice in that city. From there he went to Grand Junction, west through Mack, Green River, Colton, Provo to Salt Lake where he stopped for a few days with an old friend, Mr. George Saxman. While there almost a foot of snow fell. Tuesday morning he started for Twin Falls going through Ogden, Pocatello and Burley.

Just a word in regard to our Oldsmobile Car—in the 5,614 miles traveled not over three gallons of oil was used and 291 gallons of gasoline. This makes an average of a little better than 19 miles to a gallon of gasoline. Can you beat that with any other car of that price?

MODERN FARM IS NOW ELECTRICALLY LIGHTED

Kerosene Lamp and Lantern No Longer Have Place on American Ranches

Farming is supposed to be a sun-time business, an occupation that is carried on according to the amount of daylight available. Witness the recent alteration over the matter of daylight saving. And of course it is true that the farmer is dependent to a great extent upon daylight for the completion of his field work.

During the busy season he must be in the fields at daybreak and must stay there until dark if he is to get the necessary amount of work done. Before and after these field hours he must feed and water the stock and do a lot of other work at the barn and house. Both summer and winter are pretty likely to do these chores before daylight and after dark.

In the house the situation is somewhat different. There, in summer time, comparatively little light is needed, but when winter comes with its short days and long, still evenings the whole farm family becomes interested in the matter of light.

It is a rather strange thing that with tremendous improvement along every other line of agricultural activity the provision of good modern lighting systems should have been so long in coming. Until the last three or four years the great majority of farm houses still got along with the old kerosene lantern for barn and yard work and with the lamp for the house.

What a difference there is now in many country homes. Instead of the coal oil lamp lighting just the corner of the living room, corded from room to room when light is needed, and cleaned and filled every day, is found handsome electric fixtures. On the living room table is a reading lamp with a shade that softens the bright rays of the electric bulbs, but allows them to reach the farthest corners of the room. Bracket lights on the walls and a special lamp on the piano give plenty of extra light whenever it is needed.

In the barn the old lantern is left out in the open. Electric lamps are strung there that they will do the most good and the switches are conveniently located.

The farm of today is enjoying just as complete electric service as the city home, because electricity so far exceeds power as well as light. Even the yard is electrically lighted. On top of a pole in the center of the area is a powerful lamp with a reflector, and when this is turned on the whole premises are flooded with light.

This service is developed right on the farm by a small electric plant consisting of a generating unit and a set of storage batteries. So great has been the development of these farm electric plants in the last few years that today they are much more costly in cost than the average farm implement. They incorporate the best features of mechanical and electrical design.

With the coming of the winter days this year there is a greatly increased number of farm homes enjoying the advantages of electric light and power, and reports from the dealers in farm electric supplies indicate that country people are turning toward the modern servant, electricity, more rapidly every day.

HOUSE COMMITTEE AGREES ON GUARANTEE TO RAILWAYS

WASHINGTON, (AP)—Government guarantee of the standard return to the railroads for six months after the carriers are released from private control was agreed upon Thursday by the house interstate commerce committee. Continuing its work on permanent legislation, the committee wrote in a provision for government loans for a period of 15 years. The loan would be at 6 per cent and would be under the supervision of the interstate commerce commission.

Only property which is undeatable or too high priced should ever be tenanted. Total advertising for GOOD HOMES OR APARTMENTS, rightly priced.

Kansas City Teachers Ask for Union Charter

KANSAS CITY, (AP)—Forty high school teachers of Kansas City, Kan., have applied for a charter from the American Federation of Teachers which is affiliated with the American Federation of Labor.

The teachers now are temporarily organized "to interest the public in the necessity of increasing teachers' salaries, make teachers more independent and to determine working conditions." The school board made no objection, it was said, three of its members having been elected on a labor ticket.

INCLOSED CARS HELP SOCIAL ACTIVITIES

W. E. Smith, Chevrolet Man, Tells of Advantages of Sedan and Coupe

"The Sedan and Coupe are especially suitable for the wider range of advantages they afford to all women," says W. E. Smith, of W. E. Smith Motor company, local dealer in Chevrolet passenger and commercial cars.

With either of these two styles the woman who has many interests outside her home is able to increase the field of her activities—to get to more places in less time and with greater comfort. It conserves her mental and physical energy and helps her to accomplish more without sacrificing domestic responsibilities.

For the same reasons closed cars do away with the most unpleasant phase of shopping—the getting to stores and back—especially in inclement weather.

In such a car more shops can be visited and a wider selection made in every purchase. It enables the housewife to seek out the best values in all supplies, and to get things home she really needs—just when she needs them.

The Sedan and Coupe have proven particularly adaptable for feminine requirements, in driving comfort as well as practical convenience. By eliminating all the disagreeable effects of travel and supplying every refinement possible in a personal equipage, they satisfy the ideals of feminine taste. They make women independent of every other mode of travel. And their permanent protection enables her to enjoy all the benefits of individual transportation for all occasions and in any weather or climate.

Older women, particularly appreciate the comforts of closed cars, and they are the ideal means of taking the children to school and on their daily outings. They enable women of every age to see more of her friends more often, to keep in more intimate touch with the world about her, to leave rushing by interesting trips of any desired length. Every woman new or is continually discovering new advantages that contribute to the complete satisfaction afforded by closed cars everywhere.

HELENA BANK MESSENGER ADMITS GUILT OF THEFT

Confesses to Stealing \$40,000 Worth of Securities Entrusted to His Care

HELENA, Mont., (AP)—Charles Stevens, an 18-year-old messenger for the Union Bank and Trust company, confessed today, the authorities announced, that he stole \$40,000 worth of securities from a registered package which he was conveying last Wednesday from the postoffice to the bank.

Stevens, the authorities asserted, admitted that he had two accomplices in the robbery. After the money package had been opened and its contents divided, Stevens' two accomplices bound and gagged him, the confession alleged, to make it appear that he had been held up and robbed.

James Ford and George Hodgett, who were arrested Wednesday and later released, have been re-arrested and are being held for alleged complicity in the robbery. The money has not been recovered.

FIRESIDE COMFORTS IN HEATER FOR CAR

Twenty Prominent Manufacturers Now Supply Products with Warmers

One of the outstanding features of motor car production this season is the trend toward car heaters. Twenty motor car manufacturers are equipping all or part of their line of closed cars with car heaters.

This may be regarded as an indication that before long a heater will be considered as a necessary part of standard equipment to the same extent as a starter.

Comfort being one of the principal features of owner interest, car heaters are certain to have a strong appeal to car owners and influence their decision in purchasing a car.

Closed cars particularly have always been sold on the basis of comfort and all-year use. Inasmuch as warmth is essential to comfort in fall and winter, the argument is advanced that a heated automobile is very much like a house without a furnace and dependent only on its walls and roof for protection.

Nor is the car owner the only one to gain by increased use of motor car heaters. Automobile manufacturer and dealer alike reap benefits.

Starting with mid-winter or earlier, manufacturers and dealers are obliged to store cars in order to be in position to take care of the spring demand. This is a decided hardship on all concerned, and has ever been a handicap to production and sales. An enormous amount of capital is tied up for a considerable period, not to mention the item of storage charges, an item of no mean proportion in itself.

LOADS OF COAL ATTRACT BOURGEOISIE OF VIENNA

VIENNA, (AP)—Well dressed men and women in Vienna were attracted recently by trucks filled with coal. They demanded to know for whom the fuel was intended. When they learned it was for the use of a private citizen, they surrounded the cars and began unloading them, the women tearing up their skirts and filling them with coal, while the men crammed their overcoat pockets and dispatch cases.

ENGLISH WOMEN AFFECT MONOCLES IN PUBLIC

LONDON, (AP)—English women are beginning to wear monocles. Not only are they adopting them for home wear but are appearing on the streets unadorned.

A member of a firm of opticians defended the innovation by saying that in the case of every inquiry he had had from women recently there was a genuine "double-eyed, one eye only."

America needs the Red Cross. The Red Cross needs YOU.

INCREASED DEMAND FOR CRUDE OIL BOOSTS PRICES

PITTSBURGH, PA., (AP)—The principal oil purchasing agencies here today announced new prices for crude oil as follows: Pennsylvania crude \$4.50 a barrel;

Ontario \$3.10; czech \$3.02; Somerset \$2.85; Ragland \$1.25.

The advance which is due entirely, the agencies said, to increased demand largely foreign, amounts to 25 cents a barrel for Pennsylvania crude, fifteen cents for Ontario, Cahell and Somerset; and ten cents for Ragland.

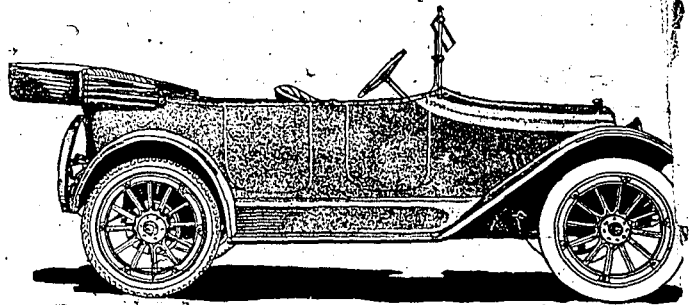

The woman who KNOWS the right-how stores. She doesn't buy in "shopping" hours in a businesslike membership in the Red Cross against regret.

Chevrolet

The Chevrolet "Four-Ninety" Touring Car possesses all the necessary qualifications and ability to satisfy those who, although desiring to spend a limited amount of money for a car, wish to possess an automobile having sufficient power and all round capabilities to do all that can be expected of any motor car.

You Love Her of Course

Then what would you do to stop the drudgery she has to contend with every day?

The wrinkles come soon enough. Don't let her become old before her time. Give her modern conveniences in the Home—electrically operated labor-saving appliances to reduce her work.

DELCO-LIGHT offers a practicable means for taking the drudgery of household duties from her shoulders.

DELCO-LIGHT furnishes power for running the washing machine, cream separator, churn, vacuum cleaner, heat for the electric iron, and power to operate over two hundred time and labor saving devices.

Think of the great saving in time and labor which would result from having running water in the house, at the turn of a faucet.

DELCO-LIGHT operates the water pressure system. Give this matter a little thought, then communicate with us, ask for a demonstration in your home.

It is no experiment, because thousands of farmers—some of them close neighbors to you—have installed them and operated them satisfactorily for years. Ask us their names.

DELCO-LIGHT

The complete Electric Light and Power Plant soon pays for itself in time and labor saved.

Nov. 8 10 15 17

Pretiness. Many persons arrogantly suppose that they have found beauty when they have taken pleasure in what is merely pretty, and this is unfortunate, for it makes it necessary to differentiate between what is pretty and what is beautiful.

To Acquire Greatness

The best guarantee to greatness is an intense interest in a great program. Then it is that the fellow becomes so full of the job that he hasn't time to think about whether he's great or not.

Perverse Critics

"I can't help thinking sometimes," said the discouraged farmer, "that the worse you treat your hens the more eggs you will get from them. I remember an old joke where one man asked another: 'How do you get so many eggs?' 'Why,' said the other, 'I treat my hens so unscientifically they're all laying for me.'"

You may rest assured of this: If a merchant uses a full page of space in which to tell store news which could have been told in a column, he falls either to serve or to profit. If he uses a column when a needed page he makes an even greater blunder.

ORDINANCE NO. 274

An Ordinance establishing Local Improvement District No. 37 for the purpose of grading, paving, curbing and surface draining certain streets and parts of streets within the City of Twin Falls, Idaho, ordering the making of said street improvements; providing for the payment of the expense thereof by special assessments to be levied against the contiguous and abutting property and defining the duties and powers of the street committee in connection therewith.

Section 1. That thereby, and hereby is, established within the City of Twin Falls, Idaho, local improvement district No. 37, consisting of the streets and parts of streets and alleys in said City as follows, to-wit: Third Avenue North, one block, from Shoshone Street to Second Street North.

Section 2. That said streets, avenues and alleys in said Local Improvement District No. 37, shall be improved by grading, paving, curbing and surface draining in proportion to the number of feet fronting thereon and in proportion to the benefits that would accrue to said property so assessed by reason of the proposed grading, paving, curbing and surface draining thereof.

Section 3. The said assessment roll prepared by said street committee shall contain, among other things, the names of the property owners affected by the proposed improvement, the description of the expense of the improvement, and the amount assessed against the same.

Section 4. That any assessments hereinafter specified shall be known as special assessments for improvements, and shall be levied and collected as separate taxes in addition to the taxes for general revenue, and to be placed on the tax roll for collection, subject to the same penalties and collected in the same manner as other City taxes.

Section 5. That the Mayor and Council of the City of Twin Falls may in their discretion, provide for the payment of the expense of making the improvements herein ordered in installments by the issuance of improvement bonds of said district, said installments being in equal annual payments at not to exceed seven per cent per annum interest and to be payable on or before ten years.

Section 6. That the Mayor and Council of the City of Twin Falls may in their discretion, provide for the payment of the expense of making the improvements herein ordered in installments by the issuance of improvement bonds of said district, said installments being in equal annual payments at not to exceed seven per cent per annum interest and to be payable on or before ten years.

Section 7. That the Mayor and Council of the City of Twin Falls may in their discretion, provide for the payment of the expense of making the improvements herein ordered in installments by the issuance of improvement bonds of said district, said installments being in equal annual payments at not to exceed seven per cent per annum interest and to be payable on or before ten years.

That the Mayor and Council of the City of Twin Falls may in their discretion, provide for the payment of the expense of making the improvements herein ordered in installments by the issuance of improvement bonds of said district, said installments being in equal annual payments at not to exceed seven per cent per annum interest and to be payable on or before ten years.

Section 7. That the Mayor and Council of the City of Twin Falls may in their discretion, provide for the payment of the expense of making the improvements herein ordered in installments by the issuance of improvement bonds of said district, said installments being in equal annual payments at not to exceed seven per cent per annum interest and to be payable on or before ten years.

LEGAL ADVERTISEMENTS

ORDINANCE NO. 274

An Ordinance establishing Local Improvement District No. 37 for the purpose of grading, paving, curbing and surface draining certain streets and parts of streets within the City of Twin Falls, Idaho, ordering the making of said street improvements; providing for the payment of the expense thereof by special assessments to be levied against the contiguous and abutting property and defining the duties and powers of the street committee in connection therewith.

Section 1. That thereby, and hereby is, established within the City of Twin Falls, Idaho, local improvement district No. 37, consisting of the streets and parts of streets and alleys in said City as follows, to-wit: Third Avenue North, one block, from Shoshone Street to Second Street North.

Section 2. That said streets, avenues and alleys in said Local Improvement District No. 37, shall be improved by grading, paving, curbing and surface draining in proportion to the number of feet fronting thereon and in proportion to the benefits that would accrue to said property so assessed by reason of the proposed grading, paving, curbing and surface draining thereof.

Section 3. The said assessment roll prepared by said street committee shall contain, among other things, the names of the property owners affected by the proposed improvement, the description of the expense of the improvement, and the amount assessed against the same.

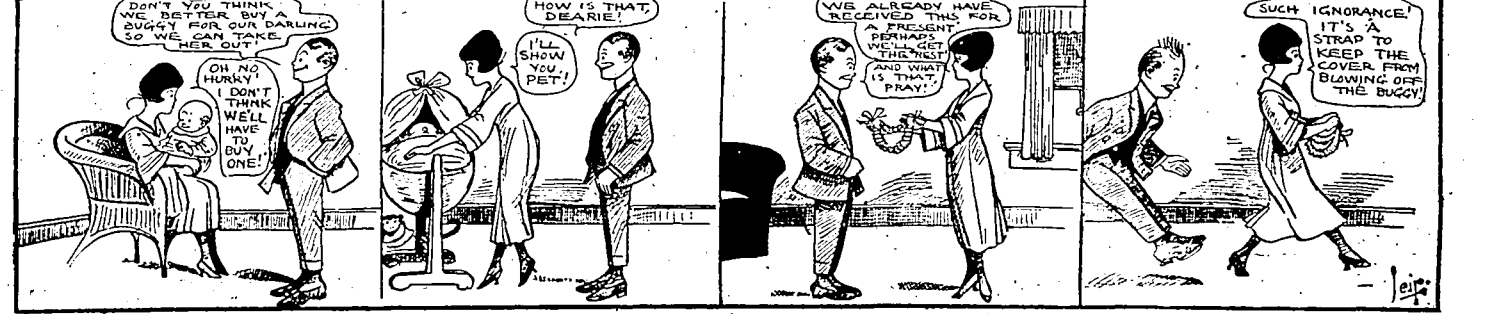

Section 4. That any assessments hereinafter specified shall be known as special assessments for improvements, and shall be levied and collected as separate taxes in addition to the taxes for general revenue, and to be placed on the tax roll for collection, subject to the same penalties and collected in the same manner as other City taxes.

Section 5. That the Mayor and Council of the City of Twin Falls may in their discretion, provide for the payment of the expense of making the improvements herein ordered in installments by the issuance of improvement bonds of said district, said installments being in equal annual payments at not to exceed seven per cent per annum interest and to be payable on or before ten years.

Section 6. That the Mayor and Council of the City of Twin Falls may in their discretion, provide for the payment of the expense of making the improvements herein ordered in installments by the issuance of improvement bonds of said district, said installments being in equal annual payments at not to exceed seven per cent per annum interest and to be payable on or before ten years.

Section 7. That the Mayor and Council of the City of Twin Falls may in their discretion, provide for the payment of the expense of making the improvements herein ordered in installments by the issuance of improvement bonds of said district, said installments being in equal annual payments at not to exceed seven per cent per annum interest and to be payable on or before ten years.

CANTEENS WILL WORK TUESDAY

Red Cross Will Serve Refreshments Near City Park During Celebration

Red Cross canteen service is to appear in operation on Tuesday. The service will be installed near the city park during Armistice Day commemoration, and will be in charge of women of this department of the American Red Cross. Coffee and food refreshment will be served during the entire day.

Announcement to this effect was made today by Red Cross officials in charge of the celebration. The canteens will be open from early morning to the close of the celebration. Speaking of the membership work Miss Beatrice Osterlander, general chairman in charge, told of a slightly increased interest in the crusade, both among the block committee women and the purchasing public.

"This being 'Button Day,' and Saturday, too, results from the campaign were more noticeable than at any time during the week. White-crowned girls appeared on the streets during the morning as 'rush' committees, their efforts being markedly successful, although there were many reports of 'slackers,' who offered many cogent reasons for not taking membership in the national merry militia.

That most of the excuses are unavailing, and apparently invented to cover up an unwillingness to support the Red Cross, is found in the following statement of one man approached during the present membership drive. "Was I ever had a membership in the Red Cross?" a winsome worker pleaded of a fairly well dressed man who seemed to take delight in jingling coin in his pocket while the girl pleaded.

"No!" he replied. "I ain't got no money for the Red Cross to steal. They stole \$100,000,000 during the war and built eight hotels in London. I ain't got no time for 'em."

Apparently the fellow had a more or less hazy recollection of a charge made by a certain war working institution against another some months ago, and which charges have been proven, in the main, groundless. Certainly they applied in no sense to the American Red Cross.

GIVES HIMSELF UP; NOW OUT ON BONDS

Frank Clark, Accused of Misdemeanor, Surrenders to Sheriff Sprague

Frank Clark, employed in the sheep business in the Three Creeks country, last night appeared at the office of the county sheriff explaining he understood there was a warrant out for his arrest. He was informed the surmise was correct and was placed under bond to appear for examination in the probate court.

The specific charge against Clark is larceny, the case being based upon an alleged theft of a large quantity of wool belonging to Joe Haggan. Clark is said to have taken place last summer. Two arrests in this connection were made immediately after the initial complaint was lodged. On arraignment this morning Clark entered a plea of not guilty and was released on bonds of \$2500.

CHURCH YOUNG FOLKS TO HAVE OPEN HOUSE

Pictures and Afternoon Party Will Feature Methodist Afternoon

"Open house" for all young people, especially any who have a bit of a lonely feeling in their hearts, is announced by Dr. Alexander Bennett, for the Methodist church Sunday afternoon, 3 to 5:30. The plan will be ready for music and happy singing; reading matter—edifying, cheerful; friendly talks; beautiful stereoscopic pictures about fur o'clock; hot chocolate at five o'clock.

Doctor Bennett and some of his brightest young folks will be the hosts tomorrow. Any young folks just come to Twin Falls are especially invited. No collections. No set programs. "Come on over and have a good time," is the slogan.

WANTS TENANT EJECTED

J. E. Mulvihill has brought eminent domain against H. F. Hayden in the probate court. Hayden, it is alleged, occupies premises at 740 Washington street on an oral lease and refuses to vacate the place. The complainant asks \$20 damages.

Old Sol Comes Back; So Does Weather Dealer

With the re-appearance of Old Sol the dispenser of gloomy weather tidings today emerged from his hole of retreat long enough to issue a warning that "heavy" wraps will be needed tonight. Cooler, he says, but promises fair weather for the church folks tomorrow. Pretty chilly again last night, the mercury flopping to a point where hard freezing was the general order. If it had kept up the gait started there would have been a chance to use the skates by tomorrow. Pot-roven was high yesterday.

FORD TAKES FLIGHT

During the progress of the dramatic production at the Lavinger theatre last night microcants made off with W. B. Wall's motor car. The machine is a Ford and bears the state license number 2277.

"JOHN FERGUSON" STORY OF MAN'S GREAT FAITH

Lavinger Play Sets New Standard of Drama Here—On Again Tonight

"John Ferguson," presented at the Lavinger theatre last night, proved quite up to the standard fixed in advance notices of the drama. In fact the play sets a new standard for dramatic features in Twin Falls that is quite certain to be found difficult to maintain. The story bears a spell of human truth both moral to aspect and of a tone not the least overdrawn in the moral it points. In fact there are points in the dramatically related story that closely approach commonplace, but this adds to rather than detracts from the general greatness of the play. The quality of "John Ferguson" provides plenty of material for the mind, and is not, by any means, the least important item in the great success won by the play. It casts a spell of hypnotism over the auditor, a spell that is lasting in the dramatic fulfillment. One might hear this play

off without the truth of its appeal losing its power of fragrance. It would be unjust to the people who saw the play at the Lavinger last night, and to those who will see its repeat tonight, as well as an insult to intelligence to say the play is without flaw. There are some such, but they are of minor importance—just mere discrepancies that are unrelated to the totality of the play's truth, and they can be easily and very well overlooked in the general beauty of theme and presentation. The critic might say that were John Ferguson's faith to crack and his confidence in the kindness of an all-seeing and all-kind providence to be shattered, it would have been at the moment when his sobbing daughter, superb and splendid Hannah, lay broken in his arms. One would think that if ever the passion of hate and the capacity for murder would possess a father's soul it would be then. But the aged man sustains the shock, the clutch of his faith remains unshaken and he can still find it in his heart to conserve the welfare of the brute that despoiled his home—a triumph in self-abnegation unequalled in the printed history of the human soul. This is "John Ferguson," the drama. Hundreds saw it last night and were thrilled to deepest and sustained emotion; other hundreds will see the final presentation tonight.

Theatres

"The End of the Road," starring Richard Bennett and Claire Adams, which comes to the Lavinger Theatre next Monday is a tale that brings home the law "an eye for an eye and a tooth for a tooth" and there is no respecting of persons. What man brings upon himself and his helpless offspring, is part of this valuable lesson and it is a fact that the larger portion of humanity has to be startled or shocked into a finer state of mind. "The End of the Road" can never be forgotten and it is offered in such attractive story form, with a cast of characters such as every person knows, that the picture is actually entertaining even though it deals with the subject of one of life's most unpleasant problems. In the opinion of those who have seen the picture, no young man or woman can see "The End of the Road" and not pause and consider their conduct, and their sympathy will go out to all unfortunate. The picture was directed by E. H. Griffith who collaborated with Dr. Katherine Bennett Davis on the story.

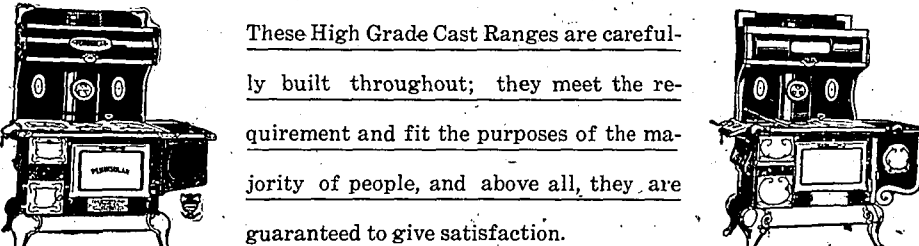

Special Sale of Ranges

Finding ourselves overstocked with Peninsular and Reynolds Brothers' Special Ranges, we are offering for a limited time only these Ranges at

20 Per Cent Discount

An Excellent Opportunity to Get a High Grade Range at a Great Saving.

These High Grade Cast Ranges are carefully built throughout; they meet the requirement and fit the purposes of the majority of people, and above all, they are guaranteed to give satisfaction.

The New Liberty Peninsular High Oven Cabinet Range

This Specialty Range was designed by a woman and built strictly in accordance with her plans.

It gives the housewife who out of necessity has to use coal or wood to do her cooking and baking with, all the comforts and ease that are enjoyed by her city cousin who uses gas.

You should examine this range carefully; it is not a bit like any coal or wood range you ever saw.

Some of the special distinct new features are—HIGH OVEN is light and roomy. WARMING OVEN is just like a second oven, very handy for boiling and baking beans. THE BAKING OVEN being a standard height, lessens the work and weariness on baking days by doing away with all stooping. POTS AND PANS can be kept right at hand but out of sight in the extra storage or warming oven. This warming closet is heated, which makes it a wonderful place to keep warm foods.

\$150 New Liberty Peninsular Range \$120

5 Per Cent Discount from Regular Price Given on all Ranges that are sold on time.

IN TWILIGHT OF LIFE

Thomas L. Childers and Emma J. Hawkins, both of Twin Falls, were united in matrimony by Judge O. P. Duval this morning. The ceremony was conducted in the probate court chambers immediately following issuance of license by County Clerk C. C. Sigurdson. The groom is 65 years of age while his bride is 55.

DEMANDS \$200 DAMAGES

Claiming he was damaged to the amount of \$200 in an automobile collision, and charging Arthur Hawk with responsibility through negligence, Harry A. Stearns has brought damage action in the probate court of Twin Falls county. The accident referred to occurred on October 16 between Bull and Castleford.

The Red Cross—the heartiest of annually.
