LETJISH ARMS PUSHING BACK GERMANO-RUSS

Advance Along Entire Line Against Forces of Col. Bernandt, Conferees at Baltic States Conference Learn

ATTACK RESULTS IN RIGA BEING FREED OF MENACE

Battery of Heavy Artillery and Numerous Guns Fall into Hands of Successful Army

DORPAT, LIVONIA, (AP)—Lettish troops in the region near Riga attacked the German-Russian forces of Colonel Bernandt yesterday and pushed them back several miles along the entire line, the Lettish conferees at the Baltic states conference here were advised today.

ROMANIAN REPLY UNSATISFACTORY

Note Under Consideration of Peace Council Called Extremely Evasive

PARIS, (AP)—The reply of Rumania to the allied note recently presented, in which it was again demanded that Hungary be evacuated, is regarded in peace conference circles as wholly unsatisfactory.

The reply which was considered by the supreme council today, is characterized as extremely evasive. The Rumanian indicates a willingness to retire to the river Thesus, but they decline to respect the original armistice line, and also decline to comply with the allied request that they name a member of the inter-allied commission to compile the value of the Greek military in Hungary by the Rumanians, so that this amount can be deducted from the total of the reparations due to Rumania. The allied note is held to indicate continued defiance of the supreme council.

Approve Report on Smyrna
The council approved the report of the commission which had investigated the incidents which occurred the landing of the Greek troops which were declared to have been caused by lack of protection on the part of the Greek military authorities, the Greek authorities are asked to insure that order be maintained in the future and that there be no recurrence of similar incidents. It is pointed out that the military occupation of Smyrna by the Greeks must be understood by them to be merely provisional.

Work End in Sight
The American delegation to the peace conference has informed the supreme council of its intention to leave France during the first days of December, according to dispatches from information from the French foreign office.

The British peace delegation has also expressed the same intention. Only four of the 200 mines in the district being worked early today. Only four of the 200 mines in the district being worked early today.

DUM-DUMS IN SHIPMENT OF MUNITIONS TO MINER
West Virginia Officials by the Governor's Order, Seize a Quantity of Arms

CHARLESTON, W. Va., (AP)—Careful examination of the ammunition seized with nine military rifles at Dawson, W. Va., by deputy sheriff today disclosed the presence of some 300 soft ended dum-dum bullets among the regular cartridges. It was announced at Governor Campbell's office this afternoon.

DAHO WEATHER
Tonight fair and warm; Thursday fair in south, rain or snow in west portion.

Argues for Smaller Papers with Higher Advertising Rates

Publishers' Association President Points Out Need for New Policies

NEW YORK, (AP)—Increased advertising rates and reduction in the number of pages, both week day and Sunday, by a considerable percentage and then hold its advertising volume to a fixed number of pages, this will probably result in at least an arbitrary reduction of at least 33 per cent in volume of business.

Radical advances should be made in advertising rates. The percentage of increase should be such that they will hold back the sluice of advertising that has poured in on our offices and has not yet continued during the next year.

Declaring that English newspapers during the war reduced their size by one third, but so advanced rates that most of them earned more than before the war, Mr. Glass said:

It is plain that proper restriction of advertising space will not work any financial hardship here. Mr. Glass said newspaper advertising rates always have been too low and an advance of 25 or 30 per cent would not be enough because cost of production had increased 100 per cent in the last year.

DECLARES MARTIAL LAW IN NORTH DAKOTA FIELD

Governor Frazier Orders Adjutant General to Take Charge of Mines

BISMARCK, N. D., (AP)—Governor Lynn J. Frazier today declared martial law in the historic Black Hills of North Dakota and announced he would take over the lignite coal mines of the state which have been closed several days by a strike of miners.

In a proclamation, the governor ordered Adjutant General Frazier to assume charge of the mining industry in the Black Hills. The mines were reopened at once and that the people of the state are supplied with coal as soon as possible. All persons entering the mines are to be arrested and kept under guard until the operators and miners reach an agreement in their dispute.

Adjutant General Frazier was instructed to call all male persons of the state between the ages of 18 and 45 to the aid of the state in controlling the situation and to enforce the provisions of the proclamation.

Word reached the capitol late last night that the miners would not return to work, though the strike had been officially called off by national officers, but that they would return to work under the orders of Governor Frazier by a strike of miners.

WORLD NEWS EVENTS

TULCAN, Ecuador, (AP)—A plot has been discovered here to overthrow the government. A store of arms and ammunition has been captured by the authorities. The headquarters of the conspiracy is believed to be in Colombia.

LONDON, (AP)—A special congress comprising representatives of all organized labor was called today to meet in London Dec. 9 to discuss the nationalization of the mines.

BERLIN, (AP)—Reports that municipal elections in upper Silesia were favorable to the Poles were officially confirmed here today. The Poles secured sixty-four per cent of the votes in Hindenberg district; seventy-eight per cent on the average in the Beuthen, and eighty-nine per cent in the Tarnowitz districts.

BERLIN, (AP)—The metal workers' strike, which had entered upon its eighth week, was virtually called off Monday night, when the committee of fifteen directing it ordered the strikers to make necessary arrangements for the immediate resumption of work. The seven weeks' holiday cost a big sum lost in wages and also drained the strike treasury.

CONTINUE WAGE DEBATES

Hines Resumes Negotiations with Railroad Brotherhoods Representatives

WASHINGTON, (AP)—Representatives of the four railroad brotherhoods and Director General Hines resumed negotiations today on the brotherhoods demands of wage increases and revision of working conditions after they had failed to come anywhere near an agreement yesterday.

LEGION MEN OF TWIN FALLS ASK LOAN OF RIFLES

Post Commander Proposes Resolution Calling Upon Congress for Arms for Presentation at Convention

ACTION TAKEN IN VIEW OF CENTRALIA OUTRAGE

Local Organization World War Veterans Moves Promptly on Receipt of News of I. W. W. Attack

Congress will be requested to furnish rifles and equipment to American Legion posts throughout the country in anticipation of other outrages similar to the one perpetrated yesterday at Centralia, Washington, if a resolution proposed by Tom Bergrington, commander of the Twin Falls post, is adopted by the American Legion at its national convention now in session at Minneapolis.

The course is proposed by Mr. Bergrington in the following telegram which he dispatched today to Taylor Cummins of Twin Falls, a representative from Idaho at the Minneapolis convention: "Twin Falls post suggests that the Idaho delegation secure a resolution urging congress to pass a bill providing for the loan of rifles and other equipment to any American Legion post in the United States. This in view of the Centralia outrage."

Immediately upon receipt of telegraphic information of the I. W. W. trouble in Centralia, last night, Mr. Bergrington, in the name of and for the local post, dispatched a telegram to the centralia legion offering its services in any way required. The message was terse but decidedly to the point, reading:

Twin Falls post, American Legion, offers you financial, physical, and moral aid in any way required, that Centralia post may need.

SENATOR MARTIN SUBPORNED TO ILLNESS OF LONG DURATION
CHARLOTTESVILLE, Va., (AP)—Senator Thomas S. Martin, the democratic leader in the senate, died here today after an illness of several months. He was 72 years old.

Senator Martin had been confined to his bed since last July when he was expected to give up active work in the senate. His condition had been critical for more than two weeks, and he died rather unexpectedly.

IOWA MINES DEPENDENT ON UNION LABOR ILL
DES MOINES, Ia., (AP)—Not a ton of coal is being mined in Iowa today, reports to the headquarters of the state operators association said. Operators reported none of the union men had gone to the mines, and what information was available to the owners was to the effect the men intended to remain idle for the time being, at least.

I. W. W. ASSAULT UPON VETERANS OF WORLD WAR STIRS NATION'S WRATH

National Guardsmen Patrol Streets and Three Separate Investigations are Under Way While Washington Town Engages in Grim Task of Burying Her Dead, Ascertain Causes of Clash in Which They Were Killed and Finding Guilty Ones

FOUR DEATHS OF AMERICAN LEGION MEN RESULT IN ATTACK ON PARADE

CONGRESS HEARS SHOOTING OF EX-SERVICE MEN FIRST STEP IN ATTEMPT AT REVOLUTION

WASHINGTON, (AP)—The shooting of four ex-service men in an armistice day parade in Centralia, Wash., was described in the house today by Representative Johnson, republican, Washington, chairman of the immigration committee, as "an attempt at revolution with bullets and rifles which the country has long feared." Mr. Johnson sent a telegram to Mayor Rogers of Centralia saying the country "must be purged of seditionists and revolutionists, to the last one and if this means war, the quicker it is declared the better."

"We have been patient, have avoided bloodshed under every provocation, only to see these young men murdered. Their death would arouse the loyal people of the United States as nothing else has done. History will record these heroes as among the first to fall in an attempt at a revolution against the United States and for which every man who has been preaching syndicalism, communism and class hatred, is responsible."

CENTRALIA, Wash., (AP)—The grim task of burying her dead, ascertaining the causes of the clash in which they were killed and finding the guilty ones occupied Centralia today.

Persons said to be Industrial Workers of the World fired on an armistice day parade here yesterday, killing one member of the American Legion outright and wounding two others so that they died soon after; a fourth Legion man dropped his rifle and was killed in the piling with one of those accused of the firing. Today the body of this man, "Bric" Smith, secretary of local Industrial Workers of the World, is hanging from a bridge near here, from which Smith was thrown by a mob last night.

One of the men arrested yesterday last night, George Stevens, was said to have confessed plans were made months ago to "get" Warren Grimm and Arthur McElroy, I. W. W. leaders in Centralia. Stevens and Captain David Livingston. The four had been active in suppressing radical activities in this community.

Fire Without Warning
Without warning bursts of rifle fire swept the parade as it marched past the I. W. W. headquarters. From that building and the roof of a building across the street bullets came flying. The returned heroes also pulled weapons and began firing.

Grimm, leading a company of men, dropped his rifle and fled. McElroy, marching in the ranks, was killed instantly. Ben Casagrande died later from his wounds.

John Earl Ward, George Stevens, Jacob Philiter, Christ Coleman, and E. Zubanks also fell wounded, the first named probably fatally. Stevens was shot while trying to disarm an I. W. W. standing on the street.

The fourth death of a parader was added when Dale Hubbard, recently returned overseas, was shot and killed. The shooting started for the I. W. W. secretary, Hubbard and the fugitive grappled after a chase in which Smith fired repeatedly at his pursuers. According to Earl Hubbard received four wounds in the body.

Citizens Take Vengeance
Another pursuer overpowered Smith and he was taken to jail, later to be removed and hanged after citizens seemed that the I. W. W. members had had. An attempt to lynch Smith was made before he was lodged in the jail.

"You fellows can't hang me," he said. "I was sent to do my duty and I did it."

Smith was tossed from a bridge over the Chehalis river after a rope was tied around his neck and he was pulled into his body. The lynching party worked silently and in darkness while taking him from jail.

Little was known of Smith. He came here a short time ago. Smith's body, which was hanging from a bridge after two undertakers refused to handle it, was driven to the morgue this morning and it was said the rope had been cut allowing the body to drop into the river.

Heads were posted by Centralia authorities in all parts of the city asking residents to report any knowledge of the shooting of any I. W. W. member. The drive to lynch Smith was launched to clear the I. W. W. from Centralia, it was said, and former service men, who came here during the night, were known to towns, are to be used in the work.

One Woman Prisoner
One woman is among the prisoners in the jail. She conducted a hotel in which the I. W. W. hall was located. She was arrested with her husband, when the paraders started to ransack the place, ran out carrying small American flags and demanding that the I. W. W. be allowed to stay. She took the flags from them.

Centralia has been combatting a radical element here for several years and yesterday's attack was the climax of a series of conflicts. Two years ago when the first Red Cross bazaar was held here, it was reported before the

ORDER TO END STRIKE EFFECT IS INDEFINITE

Reports on Number of Men Returning to Work Slow in Reaching International Headquarters of Mine Workers

ORIGINAL DEMANDS WILL BE PRESSED SAYS LEADER

Chairman of Miners' Scale Committee Declares Impression that Slate is Wiped Clean Not Justified

INDIANAPOLIS, IND., (AP)—The outstanding points of interest in the coal-mining industry today were the reception by the members of the United Mine Workers of America of the order calling off the strike, and the probable outcome of the conference of miners' representatives and representatives of Secretary of Labor Wilson in Washington Friday.

Reports on the slow number of men returning to work were slow in reaching international headquarters of the mine workers here, chiefly because the order rescinding the call of October 15 had not yet been received in many districts and because many local unions were reluctant to return to the mines. It was pointed out by miners' officials that several days had been required to determine to what extent their order had been obeyed.

Accept Union Invitation
The miners' executives needed but a few minutes to reach a decision to accept a telegraphic invitation by Secretary of Labor Wilson to meet the operators in Washington Friday and resume wage negotiations. The message of the miners' union during a meeting yesterday simultaneously with the telegram sent to acting President John L. Lewis by Thomas L. Brewster, chairman of the operators scale committee, was accepted by the miners in Washington Monday to "negotiate a contract to be in force upon expiration of the contract now in effect."

Union leaders were equally prompt in their decision to disregard the offer of the operators and immediately sent a reply to Mr. Brewster stating that the contract now in effect was the invitation of the secretary of labor.

According to union officials they saw in the operators' offer a deliberate attempt to entrap the miners into tacit acknowledgment of the existing wage agreement which the coal workers contend has expired. They also read into the Brewster message an effort to bring about a new wage agreement which the central competitive field scale committee only meet the operators.

On Former Basis
The controversy now is where it was when the conference of miners and operators was held with Secretary Wilson present. It is expected that the miners, except that there will be no threat of a strike hanging over the country as an argument for the miners.

MINERS OWNERS ACCEPT INVITATION
WASHINGTON, (AP)—Thomas T. Brewster, chairman of the coal operators scale committee, announced today that the mine owners had accepted Secretary Wilson's invitation to meet representatives of the miners here Friday to negotiate a new wage agreement.

"We will be there," said he. John L. Lewis, acting president of the United Mine Workers of America, already had notified Secretary Wilson of his acceptance.

Harry N. Taylor, president of the National Coal Operators Association, also accepted Secretary Wilson's invitation.

Release of coal to meet emergency needs was begun today by the railroad administration's central committee as Secretary Wilson's conference with the miners and operators to meet Secretary Wilson for a conference on their differences. Director General Hines has instructed regional coal committees to increase the quantity released as rapidly as production is correspondingly restored.

There is some shortage of coal in the West and it is feared that the situation will not be moving in that direction the emergency will soon be met.

Orders also have gone out from the railroad administration in all federal territories to turn back the wheels of empty coal cars again towards the mines so that there will be ample cars available for the coal fields.

WAR VETERANS ORGANIZATION GOES ON RECORD AGAINST DISLOYALTY
MINNEAPOLIS, (AP)—Declarations opposing the American Legion on record against anti-American propaganda and sedition were adopted at the American Legion convention here this morning. Resolutions adopted include:

A demanding adoption of a federal constitutional amendment limiting the citizenship of the American-born children of Orientals and others not eligible for citizenship.

Authorizing denunciation of alien slanders and enemy aliens interested during the war, with selective administration of the law.

Warning appointment of a legion committee to spread the teaching of the legion's doctrine of "100 per cent Americanism" among veterans of the war and in this country.

CITIZENS OF JUNEAU TO TRY TO INFLUENCE ALASKA OF RADICALS
JUNEAU, Alaska, (AP)—Citizens of Juneau and vicinity have formed an organization called the "Americans for the Preservation of the Republic" to try to oust radicals from Alaska, to defend Americanism and to combat Bolshevism and Industrial Workers of the World.

NEW YORK, (AP)—Danger of a general strike of hotel employees, with its ultimate effect the "flocking over" of the hotel properties, was discussed today at the 34th annual convention of the New York State Hotel Association.

Warns Against General Strike of Hotel Employes with Soviet Aims
"You men may not realize it," he said, "but a secret movement to take over the hotels is on foot. Don't feel any sense of security. It is dangerous just now, and the movement is general throughout the state."

John J. Boland, president of the hotel association, said he had already had the opportunity in hand. Mr. Boland urged hotel men to "take faith full employes into your confidence, and do not be caught off guard."

REFUGEES OF OMSK ENVIRONS MAKE PROBLEM

American Red Cross Practically the Only Organization from Which Help May Be Expected; Conditions Depicted

OMSK, (AP)—Several thousand dwelling refugees in the outskirts of Omsk, facing a Siberian winter, living in a hand-to-mouth fashion with nothing in the way of clothing but the rags in which they stand, constitute a problem for the American Red Cross, practically the only organization from which they can look with any hope of relief. The Associated Press correspondent accompanied Major Charles McDonald and Dr. A. F. Jackson, Red Cross managers, on a day of inspection recently. They were trying to gauge the necessities and match them against their relief work among refugees and troops.

Living in Mere Burrows

The first group of boys visited numbered a hundred and forty, covering perhaps an acre of ground and averaging five persons to a hut. There were two other similar settlements in the neighborhood. Most of the huts were mere burrows, sometimes with a little window peeping out close under the clay covered roof. Crude steps led down into the dark interiors which one entered by doubling up like a knife. Stoves contrived out of bricks and stones and scraps of sheet iron, a wild bunk or platform which served as sleeping accommodation for the entire family, a table made out of odds and ends and a stool or two constituted the usual furnishings. To be sure there were more pretentious ones here and there with wood sheathing against the clay walls, whitewashed or papered with newspapers, and having board floors; but these were the "bourgeoisie" among the refugee proletariat.

One cave about eight feet by ten feet had originally housed seven people. Today there were two; the others had died during eighteen months in the settlement. Most of those living in these huts have been refugees since 1916 when they were driven from their homes in Poland and Lithuania by the Russian army during its first advance against the Germans. Many of them had been farmers, prosperous in a small way, or factory workmen or tradesmen. Nearly all of them find employment enough to eke out an existence and the Omsk government provides food for those who are not able to work.

The government also has established a hospital in an adjoining barracks; but such a hospital! Typhus and typhoid patients, men and women lay in a row on a long plank platform in a dingy room. There are no separate beds nor beds of any sort, just places to lie down.

Only Ray of Sunshine

The only ray of sunshine in all the gloomy surroundings was furnished by some five hundred children, wards of the Red Cross, studying in school rooms in the barracks. Five hundred nearly smiling children from the Red Cross and the Russian authorities report fifteen hundred more for whom assistance is needed.

Argues for Sharing Burdens of League

LONDON, (AP)—Arthur J. Balfour, former foreign minister and now lord president of the council, opening the league of nations campaign Tuesday, declared that the future of the league would be dark indeed unless all the powers, and particularly the Great Powers, were prepared to take an equal share in the burdens the league cast upon them.

JAPANESE FEAR FOR RELATIONS

Nipponese Protest Against Turn of Sentiment in the United States

TOKIO, (AP)—Anti-Japanese agitation is, says the Nichi-Nichi, a continuation of the agitation in the United States and it is not astonishing that there should be a feeling of uneasiness in the Pacific states. It is high time, says the paper, to appeal to thoughtful Americans when legislative bills are constantly directed against Japanese and resulting from such agitation are proposed; and these go the length of impugning the good name of the Japanese empire.

Former Senator Theodore E. Burton, of Ohio, now staying in Tokio, is quoted as saying the agitation is engineered for purposes of American domestic politics, and has nothing to do with racial prejudices. The Nichi-Nichi disagrees with Mr. Burton and expresses the bitterest radical prejudice played an important part in the agitation with the danger of imperiling the friendly relations between Japan and the United States.

Discussing the Japanese-American relations, the Yordoku says that when the United States entered the war in 1917, the Japanese in America gave their most hearty support to it in the American cause, and even the Pacific states became pro-Japanese, all their former anti-Japanese agitation being completely shelved for the time being. But from about the time when the armistice was signed last year, and especially after the introduction of the racial equality proposition at the Paris conference by Japan, the pendulum again began to swing backward and since more anti-Japanese movements, in the form of legislative and other measures, are being introduced in California and other western states.

"In short," says the paper, "the United States is now seized by Japanese-American relations, and it is a shame to American intelligence."

AMERICAN BANK BUYS WHITE METAL IN SALVADOR

NEW YORK, (AP)—The Mercantile Bank of America has bought 1,000,000 ounces of coined silver worth nearly \$1,300,000 from the Salvadorean Bank. The money is being shipped from San Salvador to the United States. Further importation of silver coin from nearby countries is expected by bankers because the increased value of the coin as metal will more than make up for the cost of transporting it here.

A profiteer could not make averting his pay more than a burger could popularize his calling through advertising it.

SENATE CALLS FOR FULL ACCOUNT IN ABDUCTION

Requests Information from State Department in Case of American Taken by Bandits in Mexico

WASHINGTON, (AP)—Full information about the abduction of William O. Jenkins, American consular agent at Puebla, Mexico, is requested in a resolution adopted unanimously Tuesday by the senate.

Without making specific reference to the \$150,000 ransom paid for Mr. Jenkins' release, the resolution asks the state department for all the facts including "the means employed by said Jenkins to effectuate his liberation, together with the representations that have been made to the Mexican government for the purpose of obtaining indemnification and reparation in the premises."

The department also is asked to "report the senate what degree of protection for official representatives and other citizens of the United States in Mexico the United States has demanded from the government of that republic and what response has been made thereto."

Senator King, democrat, Utah, is the author of the measure.

NEW LARGEST WARCRAFT IS NEARING COMPLETION

Battle Cruiser for British Navy is the Largest Ever Constructed, Builders Declare

GLASGOW, (AP)—A new "largest battleship in the world" will soon slip down the ways, to establish new records in the annals of naval construction.

The ship, a battle cruiser, is the Hood. She will be launched in November, it is announced. Her builders say she is not only the largest in the British navy, but the largest warship ever constructed. Not even the four super-dreadnaughts being built for the United States navy, which displace about 44,000 tons and, at full load, about 48,000.

Fitted with oil-fired boilers and geared turbines, which develop 144,000 shaft horse-power, the Hood is expected to show a speed of thirty-one knots in her trials. Her armament and anti-aircraft protection is so elaborate she is said to be the nearest approach to the "non-sinkable" ideal which constructors have been endeavoring for years to attain.

Details of the Hood's gun-power, it is claimed, will cause a sensation when made public.

SHOWS EXTENT OF CANCER

LONDON, (AP)—"If the present death rate from cancer is allowed to go unchecked no fewer than 25,000,000 people out of the present population of the world must die of this scourge," says Dr. Robert Bell, vice president of the International Cancer Research society. He makes a plan for the treatment of cancer without operation.

AUSTRALIANS PROTEST WAGNER

SYDNEY, AUSTRALIA, (AP)—Devotion of a whole program to the renditions of Wagner's compositions at a concert here has elicited a tremendous protest.

Special Sale of Ranges

Finding ourselves overstocked with Peninsular and Reynolds Brothers' Special Ranges, we are offering for a limited time only these Ranges at 20 Per Cent Discount

An Excellent Opportunity to Get a High Grade Range at a Great Saving.

These High Grade Cast Ranges are carefully built throughout; they meet the requirement and fit the purposes of the majority of people, and above all, they are guaranteed to give satisfaction.

THESE PRICES SPEAK FOR THEMSELVES---NOTE THE REDUCTIONS

\$95.00 Cast Ranges	\$76.00	\$87.50 Cast Ranges	\$70.00
\$92.50 Cast Ranges	\$74.00	\$85.00 Cast Ranges	\$68.00
\$90.00 Cast Ranges	\$72.00	\$80.00 Cast Ranges	\$64.00
\$132.50 Diamond Gray-Enameled Ranges	\$106.00		
\$115.00 Diamond Blue-Enameled Ranges	\$92.00		

The New Liberty Peninsular High Oven Cabinet Range

This Specialty Range was designed by a woman and built strictly in accordance with her plans.

It gives the housewife who out of necessity has to use coal or wood to do her cooking and baking with, all the comforts and ease that are enjoyed by her city cousin who uses gas.

You should examine this range carefully; it is not a bit like any coal or wood range you ever saw.

Some of the special distinct new features are—**HIGH OVEN** is light and roomy. **WARMING OVEN** is just like a second oven, very handy for boiling and baking beans. **THE BAKING OVEN** being a standard height, lessens the work and weariness on baking days by doing away with all stooping. **POTS AND PANS** can be kept right at hand but out of sight in the extra storage or warming oven. This warming closet is heated, which makes it a wonderful place to keep warm foods.

\$150 New Liberty Peninsular Range \$120

5 Per Cent Discount from Regular Price Given on all Ranges that are sold on time.

RETURNS TO OLD HOME TO END CHECKERED LIFE

Former Millionaire and Political Light-Moon Man Down in Man and House Charge

DAKOTA, N. Y., (AP)—Albion J. Whitman, former millionaire, statesman of Minnesota and mayor of Duluth, whose business and political reverses more than 25 years ago led to his entry upon a swindling career which made him known to the police of the entire country, has come back to his old home town, Danville, a broken-down "old man" of 58, to end his days in the county almshouse. Although sentenced to prison terms aggregating fifty years, he has served only two sentences, a brief one in Chicago and one of five years in this state.

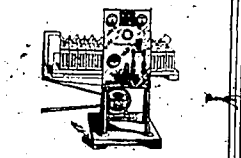

After graduating from college and a law school in New York State, he went west to work in a bank and look after his father's lumber interests in Minnesota. Successful in politics, in 1888 he made one of the speeches securing the nomination of Grover Cleveland for the presidency.

RESERVE BOARD AIDS IN STABILIZING MARKET STATES

NEW YORK, (AP)—Liquidation of stocks was resumed at the opening of today's session but declines were orderly in contrast to yesterday's demoralized close.

Measures taken by local financial interests, supplemented by the federal reserve board, were effective in stabilizing general market conditions.

Another drop of 1 to 4 points marked the first sales of stocks, metals, oils and several other industrial and specialty stocks which yesterday were more severe recessions. United States Steel, which withstood the sweeping reactions of the previous session, opened at a moderate advance and standard rails reflected substantial support.

NEGLECTING THAT GOLD OR COUGH?

Why, when Dr. King's New Discovery so promptly checks it

IT'S natural you don't want to be criticised for not having tried a cough drug on or that new attack develop seriously. Not when you can get such a prompt, successful remedy as Dr. King's New Discovery.

Cold, cough, croup, croup does not resist this standard remedy very long. Its quality is as high today as it always has been. It's best growing steadily in popularity for more than fifty years. Get and \$1.20 a bottle at all drug stores. Give it a trial.

Tardy Bowels, Inert Liver

They just won't let you put "pop" into your work or play. Sick bowels and inert liver are the result of indigestion and impurities in the body.

Feel right for anything—make the liver lively, the bowels function readily, with Dr. King's New Life Pills. Smoothly yet positively they produce results that cleanse the system and make it fit for an ideal life. Respond to the demands of a strong, healthy body. Still 25¢ at all druggists. Try them tonight.

COST OF LIVING WORLD PROBLEM

Increases in Europe Particularly High but Latin-America is Anxious

WASHINGTON, (AP)—That the whole world is struggling with the increased cost of living, is indicated in reports to the state department. The increase in Europe are particularly high although in Latin-America the governments are anxious over the situation and are trying to find means of combating the difficulties presented by the high prices of commodities deemed essential.

In Portugal the government, in an attempt to lower the cost of living, has placed through the minister of finance a part of its gold reserves in the banks of Lisbon.

In England, the cost of living above pre-war level is figured at 115 per cent for September and 150 per cent for October, as to actual necessities of life and based upon average living conditions of wage earners. A more distinct rise has occurred in the cost of commodities as far as the other elements of population in England are concerned, being unofficially estimated by some at approximately 135 per cent with a steady upward trend.

In Sweden, figures furnished by the Swedish government indicate that the cost of living has increased 157 per cent over the cost in June, 1914. In the cities the increase has been very much greater than the average for the country.

The Argentine government has suggested to other South American countries and discussed with them an international agreement which would be to do away with import duties on unmanufactured food products as one means of cutting down the high cost of living. Information regarding this plan is to the effect that a suggestion has been made that a conference be called by the Argentine minister for foreign affairs to discuss the possibility of exchange of real necessities of life free of customs charges.

In Brazil the tariff is being revised with a view to reducing the cost of living in that country. In Uruguay the percentage of increase of present cost of living over the cost in June, 1914, is estimated by the Uruguayan government at food 62 per cent, fuel 48 per cent, light 76 per cent, rent no increase.

TO DEVELOP LADS AND LASSIES IN GOLFING

Championship Matches for Those Under 16 Will Be Staged This Month

DEL MONTE, Cal., (AP)—Interest of state golf enthusiasts is centered on the California Junior Golf Championship which will be staged here November 27 to 30. The tournament will be limited to boys and girls under the age of 16 and golf followers see in it the means of developing young players to the ultimate good of the game.

Although no large number of entries are expected, inquiries have been received from various sections of the state. The tournament has the sanction of the California Golf association with the annual Thanksgiving Day Handicap Tournament for men and women, which will be run in conjunction on Thanksgiving Day, several warm contests are expected.

Incidentally, the coaches here are very much in favor of the junior tournament. They will not be permitted to play but their sanction of the affair comes from the fact that the boys and girls will be much lighter than they usually shoulder.

PRESIDENT OF PORTUGAL CALLS RADICALS' HANDS

Issues Official Notice that Attempts to Create Public Disturbances Will Be Put Down Sternly

LISBON, Portugal, (AP)—Induction into office of the new president, Sr. Antonio Jose de Almeida, was accompanied by an official notice in the newspapers that any attempts at creating public disturbances would be put down with a strong hand. It is common knowledge that certain republican factions are working against the new president while not openly preaching Bolshevism.

Hundreds of syndicalists marched in the streets recently singing the "International" and gave a special performance outside the prisons where their companions were in duress. Troops were called out and the streets were cleared and a great number of manifestants arrested.

DEVELOPED IN ARMY

ST. LOUIS, (AP)—Johnny Asher of this city, bantam champion of the A. E. F. was awarded the newspaper decision over Zulu Kid of Brooklyn in an eight round bout here last night.

DECISION ON FOUL TUCSON, Ariz., (AP)—Danny Kramer of Los Angeles was awarded the decision on a foul in the eighth round of his scheduled 10 round bout here last night with Ralph Lincoln of Tucson. In the semi-final Young Hechler of Tucson was completely outclassed by Sammy Morris of San Francisco.

ELECTIONS DATE TO STAND BERLIN, (AP)—The cabinet has not proposed to put ahead the date for the national elections which are now expected to occur next January, according to a semi-official announcement.

BRUINS' HOPES DASHED TO PIECES IN 33 TO 13 BATTLE AT GOODING

Northsiders Another Time This Year Slip Over Game on Twin Falls, Being Accorded Advantage on Favorable Decisions by Referee—Forward Pass Helps Locals' Score

"Grampa Bill" Boelter and his associates yesterday smashed all Twin Falls hopes of a state championship by defeating the local high school grid team on the Gooding lot by the score of 33 to 13. Gooding scored within the first six minutes of play and kept the lead throughout the game. The locals put two touchdowns over in the last quarter on a forward pass when Epler crossed the line and Phipps kicked the ball on Gooding's fumble and scored another.

Twin Falls' defeat is attributed to playing the Gooding game so soon after the Burley contest and bad decisions on the part of the referee of the second half of the game. The defeat is a great surprise to close followers of the team, which was beaten by Gooding nearly a month ago by the small score of 14-6, and which defeated Burley and Rupert recently by overwhelming scores. No doubt the Gooding game was too strenuous immediately following the affair at Burley.

Gooding kicked off and soon recovered the ball. Steady gains were made to within three yards of the goal and then the North Siders were penalized. Men Epler and Boelter over with the first touchdown a few minutes later and he kicked goal. Phipps got the kickoff and made six yards after receiving the ball. More gains were made and Epler's two passes were fumbled. The pigskin went to Gooding on its 30 yard line. The enemy then got as far as the 38 yard line when Epler made a good tackle and downed Boelter. Gooding went no further that period and Twin Falls gained back to the 30 yard line. Gooding was penalized ten yards just before the quarter ended. Score 7-0.

Watson went in for Epler and Renfrow replaced Cagle. The locals by a series of gains made 20 yards, only to be penalized 15. The ball went to Gooding, gained steadily, and Epler getting away with a 25 yard run which took him within a yard of the local's goal. He then scored but failed to kick. Score 13-0. Denny replaced Renfrow.

Another touchdown was accomplished by Gooding, who scored on Twin Falls' punt from the locals' 25 yard line. Goal was kicked. Score 20-0. A little gain before the quarter ended, but did not come near scoring. The count, 20-0.

Trouble arose during the intermission when Epler made a good tackle and seized a Twin Falls flag and attempted to carry it off. It was recovered by the local owner, though outnumbered by Gooding's men.

Little was done in the third period excepting another touchdown and goal by Gooding, bringing their total to 27. This was made on a fumble by the locals. Gooding made his last score in the final period on a run around right end for ten yards. Goal was not kicked and the score stood 33 to 0.

Here the Bruins escaped a shut-out when Phipps got the ball on Gooding's fumble and scored. Goal was kicked. A few minutes later Twin Falls successfully completed a neat forward pass and Epler went over for a touch down, but goal was not made. Forward then assumed the offensive and managed in several attempts to get the ball as far as the locals' 35 yard line, where the game ended.

Twin Falls expects to top off the scholastic season with a big victory over Bull on Lake Friday of a week from next Friday and the next ten days will give them ample practice to be in good condition. Should yesterday's game have been won, Twin Falls would probably arrange for a Thanksgiving Day game with Blackfoot. Caldwell of Nampa, but their defeat by Gooding, leaves them only a possible contest with the local slugs on that date.

Yesterday's line-ups: Gooding—Coons, c; Carter, Brown, rt; Stanwood, re; Cagle, lc; Eubanks, lg; Renfrow, lb; Boelter, qb; Huddleston, qb; Keith, rh; Veneman, fb. Substitutes: Renfrow for Cagle; Denny for Renfrow.

Twin Falls—Strobeck, c; Putzier, qb; Bailey, rt; Newman, re; Deaton, lg; Kuhns, lb; Hasenbalg, lb; Epler, qb; Kregel, rh; King, rh; Phipps, fb. Substitutes: Watson for Epler; Epler for Putzier.

Referee: First half, Benoit. Twin Falls; Second half, Cady, Gooding. Score by quarters: Total. Twin Falls 0 0 0 33 33. Gooding 6 7 0 0 13 7.

Brief Bits of Sport

Some shock, 33-13.

And you really hadn't expected it, either, now had you?

'Smatter, Denman!

Razz Berry says the international yacht races were suspended in 1917—Dig a little further into sport history, Razz. They've been going on ever since the United States participated.

Comes now Caldwell to bite on the hard moral of wrestling in an effort to satisfy the craving for sport.

Bull, Boise, Gooding and one or two others have done the same thing and lost at the game.

But you know what P. T. Barnum said a long time ago. P. T. was right then, and his truism is more true now.

Caldwell is to stage a bout between August Sipp and Ad Gustavo on the night of November 26.

Wonder on which side these fellows were in the recent war? Names have a somewhat suspicious sound; hey!

Billy Evans, big league umpire, says Dicky Kerr, of the White Sox is the smallest pitcher in the major leagues, and the best of all the southpaws.

Inquisitive—This col is perfectly willing to answer any old question you may ask. But don't come too often, and don't make 'em too hard.

For "Inquisitive's" information here's the dope: Bantamweight champion Pete Ferraro, New Orleans; Featherweight, Johnny Kilbane, Cleveland; Lightweight, Benny Leonard, New York; welterweight, Jack Britton, New York; former of Chicago; middleweight, Jack O'Dea, St. Paul; light-heavyweight, Battling Levinsky, New York; heavyweight, Jack Dempsey, Salt Lake.

Because he won the billiard championship in the recent eastern cue encounters Willie Hoppe has been awarded the valuable trophy emblematic of the title and a salary of \$4000 as long as he retains the crown.

Lucky Bill

G. W. Axelson, a baseball writer of Chicago, has written a biography of Charles S. Comiskey, owner of the Sox.

But "G" does not say, as far as we can find in the book, what language "Comiskey" used when his team frittered away the world's championship.

Jimmy Wilde, flyweight champion boxer of the world, had landed on these shores looking for trouble.

Somehow we like these Brits here fine, but when they come over here looking for fights we always hope they will get what they seek, and plenty of it.

A match between Wilde and Pat Moore is the first thing on the tapis, or in case that cannot be then Joe Burman, who is coming along rapidly in the bantam class.

PLAYS SENSATIONALLY

CLEVELAND, (AP)—Playing sensational billiards, Clarence Jackson of Detroit, last night, defeated Charles McCourt of Cleveland, 50 to 38 in 33 innings and took the lead in three cushion billiard championship tournaments of America. It was the first game of the tournament. Jackson scored twenty-six points in ten innings. His high run was six, while the average was 2.53. McCourt's high run was ten, also a record for the tournament. Pierre Maupoux, of Milwaukee, was from Hugh Heal of Toledo 50 to 46 in 74 innings.

WOMEN MAY BOOT

SEATTLE, (AP)—Women of the University of Washington, long barred from the varsity rooting sections, at last have come into their own. Varsity yell leaders now have the women form a huge party at U. alongside the men's golden "W" of the men's rooting section.

FOOTBALL IS SPOILED BY WEIGHT OF RULES

Celebrated Yale Man of Former Years Sees Changes for the Worse

DEL MONTE, Cal., (AP)—Too many rules have spoiled football, in the opinion of Jim Rodgers, Yale's celebrated tackle in 1907, who recently visited here. His opinion was concurred in by B. L. Thane, quarter-back for the California eleven which defeated Stanford in 1908 and Sam Morse, who captained Yale's team in 1906, who were here at the time. The trouble is so many rules have been made that opportunities for a variety of plays are limited and the initiative in a player is curtailed, Rodgers said. "When I was playing, we were permitted more latitude and I believe we put on more attractive contests for the spectators."

Only Five Plays in Grid Battles Maxwell's Dope

Football Official from the East Laughs at Talk of Greater Number, Explains

In the gridiron sport, says Bob Maxwell, the Philadelphia writer and referee, we have five fundamental plays, and, although disguised occasionally, they are used constantly. They are the punt, drop kick, which also includes placement kicking, forward pass, end run, and plays through the line.

Every attack is built around those plays, because that's all there are. You read about teams which have fifty or sixty different signals, but that gets them nothing. No team ever has used more than a dozen different plays in a big game, and the majority use but four or five.

I remember one championship game in which I officiated where only three plays were used by the winning team. They were a buck off tackle, and end run, and forward pass. The quarter-back was a good field general, discovered the plays which were most effective and used them. And that, by the way, is the secret of successful football. Find the weakness of your opponent and play it. Nothing could be more simple than that.

Involved intricate plays seldom are successful. That is because they can be used only once in a game and also because the quarter-back sometimes is afraid to call the signal.

The team pilot favors the plays he and his teammates are acquainted with and lets it go at that. Too many tricker plays have ruined many a football game. The best play is the one that is simple instead of the real, old ground gaining, dependable one. One good trick play is enough for a team.

WHERE IS BANY?

NEW YORK, (AP)—Contrary to expectations no meetings of the National Baseball commission was held here yesterday. Despite rumors to the contrary, it was stated that President Johnson of the American league is in Chicago and is not expected to arrive here until the end of the week.

1919 Shutouts Lower Than in Former Seasons

BY I. E. SANBORN

CHICAGO, (Special)—Further evidence that National league pitchers excelled those of the American league in effectiveness this year is found in the record of shutout games for the season, which closed in a blaze of Red.

Slabbin in the veteran circuit whitewashed their opponents in 100 games this year, while those of the junior organization pitched only 37 shutouts. This is a total of 137 for the two leagues, which is considerably below the records of previous years. In 1913, in spite of the fact that the schedule was curtailed for a month, there were 202 whitesashes in the two circuits, and in 1917, with a schedule of 151 games for each team, there were 231 blanks pitched in both circuits.

These figures for recent years do not come anywhere near the earlier records in the matter of shutouts, and it would seem to indicate the batman is gradually gaining on the pitcher in spite of the freak burling that has become fashionable in the last few seasons.

YOUNG GETS DECISION

OGDEN, Utah, (AP)—Al Young of Ogden obtained the decision last night over Willie St. Clair of Salt Lake, who claims the light weight boxing championship of the Pacific coast, in twelve rounds. In the semi-windup Jack Ryan of Ogden was given the decision over Joe "Top" Flynn of Chicago in six rounds.

UNIVERSITY SCULLERS START SHELL PRACTICE

Washington "U" Men, 200 - Strong Candidates for the Rowing Teams

SEATTLE, (AP)—Over 200 crew aspirants turned out at the University of Washington here in response to Coach Ed Leader's call for fall practice. One of the 200 was "Tony" Brandenthal, captain of last year's crew and captain-elect of next year's shell. Every one of the 200 wants to pull an oar in the varsity boat, Leader declared after conferring with the men. Hard work will be necessary, he said, to turn out a shell here to defeat Stanford and California next spring. Last spring Washington won the three oared race on the Oakland Estuary.

TEARING ASIDE THE VEIL

Those who believe that there is no such thing as Bolshevism in the United States, that I. W. W. is a thing of the past and that, in fact, property rights and human life are as safe in America as they were before the war, are invited to sit up and take notice.

It doesn't make a bit of difference what name is applied to the movement. In New York and other large eastern cities soviet rule is openly advocated by a political party organized in open convention for the purpose of compelling the acceptance of Bolshevism, and blind and deluded men and women are accepting the teachings of the men heading the movement and working tooth and tongue to establish that form of government for which the soviet of Russian Bolshevism stands.

Over America as a whole a wave of horror sweeps into oblivion the silly and vicious chatter of the Bolshevist and clean American manhood rises as one man to denounce the diabolical outrage at Centralia together with those agencies which have kept alive the line of thought which yesterday resulted directly in deliberate and wholesale murder.

Some day, possibly not further, the Delaware Indians made salt from brine springs in New York state and sold it to settlers as early as 1670, making probably the first commercial production of salt in this country.

The great industries that make up our economic structure, and to treat as one of the vital parts of that structure.

Events such as that of yesterday cannot be glossed over as mere sporadic outbreaks on the part of irresponsible groups of lawless murderers. The evidence is too strongly against any such light-minded fancy. Too much radical literature has been unceremoniously many printing presses are cluttering up dark passages—too many men are thinking and dreaming of the day when the soviet shall rule—too many newspapers are poisoning the public mind with heroic stories of the underlying good of conditions as they exist in Russia.

and the duty of loyal Americans everywhere. All honor to the members of the American Legion who looked upon their dead and still remained true to the highest duty of citizenship, that of preserving order and upholding the law.

NATIONAL GRANGE HEAD DENOUNCES RADICALISM

Points Out Perils Confronting Nation and Pleads for New Line of Action

GRAND RAPIDS, MICH., (AP)—Radicalism, un-Americanism and reckless extravagance were denounced by Oliver Wilson, national master, today at the opening session of the fifty-third annual National Grange meeting. Perils that confront the nation were pointed out and a plea was made for new lines of thought and action.

Speaking specifically of agriculture, the national master said that the greatest need was neither subsidies, nor campaigns of investigations, but the classification of agriculture as "one of the great industries that make up our economic structure" and to treat as one of the vital parts of that structure.

The cook of a certain family had been in the same situation for years. One afternoon the mistress of the house visited the kitchen and said, "You know, cook, we are all very fond of you. I hope you like your present room and are content with your wages? I am thinking of giving you one of my silk petticoats."

First Salt Merchants. The Delaware Indians made salt from brine springs in New York state and sold it to settlers as early as 1670, making probably the first commercial production of salt in this country.

forney for the I. W. W. Smith was arrested in his office by W. H. Gray, principal of the high school, and a member of the Boy Scouts.

All night long the jailed radicals paced their cells, jailers said, fearful of the lynch law that was applied in their case of their secretary, "Farmers' soldiers" stood on duty outside the jail throughout the night. Lamb, who made the alleged confession, was taken to the Chehalis jail last night.

COMMUNISTS' HEADQUARTERS - WRECK LITTEBES OAKLAND ST.

OAKLAND, Cal., (AP)—Oakland's street cleaning department blasted its way today with clearing away the remnants of the Communist labor party's office furniture, which was burned last night in a raid by former service men as a climax to an Armistice day collaboration with the military, radical literature and a red flag were thrown from the windows of the building and consumed in a big bonfire, a great crowd gathered and cheered on the raiders. Part of the headquarters equipment destroyed belonged to "The World," a radical newspaper.

A declaration that Oakland would be an unsafe place hereafter for radicals and anti-American government propagandists was made in a note left in the headquarters and cleared on the American Legion, who took part in the raid. The former service men made the raid, they said today, because they had confirmed reports that members of the Communist labor party had shouldered the American colors with red flags and had applauded speeches advocating the overthrow of the government and the substitution of soviet.

FEDERAL AGENTS PROBE ANECDOTES OF SAID BAG

PORTLAND, O., (AP)—Federal officials are investigating the antecedents and activities of 53 men taken into custody by the police on a rail on headquarters of the "Council of Workers, Soldiers and Sailors" last night. Reports that speakers at a meeting of the council were denouncing the American legion and spreading reports that members of the legion had been responsible for the shooting at Centralia, Wash., yesterday, caused Mayor Baker to order the raid. The men arrested were attending a lecture in the hall. They were charged with vagrancy.

DECLARES MARTIAL LAW IN NORTH DAKOTA

BORAH EXPLAINS VOTE UPON VETO

Idaho Senator Concur with the President in View as to Validity of Dry Law

United States Senator W. E. Borah of Idaho, voted against overriding President Wilson's veto of the prohibition enforcement law because of his belief that the measure was of doubtful constitutionality and justified only by the war emergency which he considered past.

Senator Borah explains his attitude in the matter in a letter addressed to former Senator S. P. Atchison of Twin Falls in response to a telegraphed inquiry. His letter follows:

October 31, 1919.

My Dear Atchison:

I have your telegram and I appreciate very much the spirit and purpose of the same. The war is over, however, I voted against overriding the president's veto.

The bill which the president vetoed was not for the enforcement of the prohibition law. It covered by its terms prohibition under the constitution and also what is known as the time prohibition. There was no necessity and no occasion in my judgment, for including war time prohibition.

I voted for war time prohibition but I did it with a great deal of hesitation for the reason that I think the law was always of doubtful constitutionality. I doubt very much whether we had the power to pass such a law. But I resolved the doubt in favor of the law. I have no doubt, however, at all that the war time prohibition law was constitutional. It was an act depending entirely upon the war powers of the government for its constitutionality. If it had any validity and that validity depended on the war, it was not when the treaty of peace was signed, but when war was over, that is the test under our constitution as to the validity of the law.

I urged earnestly that they not include the war time prohibition in this enforcement act, but they saw fit to do so. I had but little to say in the consideration at the time of its passage because I was engaged in other matters. But the more I looked into the matter the more I became absolutely satisfied that the war time prohibition law fell with the ending of actual war. I could not, therefore, Atchison, vote to override the president's veto when I felt that it was utterly right as to the constitutional proposition.

I never have and I never can under any circumstances knowingly violate or contravene the constitution which I have taken an oath to uphold. I have voted since I have been here for every prohibition measure that has been up, twice as a member of the committee. I assisted in reporting a prohibition constitutional amendment and of course I voted for it. But strong prohibitionist as I am I am still a true believer in the constitution and our form of government. In addition to this there was no real necessity for including war time prohibition in the law violating the constitution because the people had in a proper way amended the constitution and we would have had prohibition permanently abroved.

So, Atchison, the press will correct and these were my reasons. I want to tell people of my state to know that never under any circumstances or conditions will I for the sake of a party support or favor undertake to establish precedents which will destroy our constitutional government by voting for unconstitutional laws.

A bolshevist is a gentleman and a sage and reliable citizen compared with the moral coward who takes an oath to support the constitution of the United States and then violates that oath simply because he thinks it is a popular thing to do. He draws a salary and has sworn allegiance which he daily stabs for his own personal benefit.

You will understand, Atchison, how I feel about it and yet I appreciate sincerely the object of your sending the telegram.

I might add that when the war closed I early took the position that all war power legislation should remain in effect that it was not within the power of congress to extend war power legislation after the war had actually ceased. I took this position with reference to the food and fuel administration, the espionage act, war time prohibition and all other similar measures. This vote, therefore, was simply in accord with the position which I have contended for from the beginning and for a principle which I think absolutely essential to democratic government. If that principle were not correct, congress could extend war time acts indefinitely.

Very respectfully,
WM. E. BORAH.

COMMUNITY MEETING CALLED
Call has been issued for a general meeting of residents of the Poplar Grove district to be held in the Poplar Grove schoolhouse Friday evening of this week. The purpose of the session is a discussion of community projects to be taken up during the coming year through the farm bureau. Short talks will be given by W. F. Alworth, president of the county farm bureau, and J. C. Wheeler, manager of the Poplar Grove canal company. Refreshments will be served.

Work Makes Them Immune.
Men who toil in lamphack works are owing, it is said, to the large amount of carbon they inhale—immune from the white plague, and many sufferers in the early stages of phthisis make considerable sacrifices to obtain employment of this kind. These grimy workers further resemble colliers in that they are remarkably free from diseases of the nervous system, observes a writer in London Tit-Bits.

Personals

Miss Marie Summers, of Filer, attended the Armistice day celebration and ball in Twin Falls.

J. W. Hays is in Nampa on business.

H. E. Vogel of Pocatello is transacting business in Twin Falls.

Mrs. J. H. Murphy and Mrs. Bees Reynolds of Bull, visited friends in Twin Falls yesterday.

Miss Lucille Wolfe was at home from Burley yesterday for the celebration.

Albert and Emory Benoit motored to Gooding yesterday for the football game.

F. W. Bronnagh has purchased the H. M. Skeels home on Seventh avenue north.

G. K. Hunt of Boise is a business visitor in Twin Falls.

Mans H. Coffin, a pioneer of Boise, and southern Idaho is in Twin Falls on business. Mr. Coffin is located in Salt Lake at present.

P. H. Hurley of Boise is transacting business in Twin Falls.

T. W. Holmes of Ogden, is a Twin Falls visitor.

ORDER TO END STRIKE EFFECT IS INDEFINITE
(Continued from Page One.)

on hand when the miners return to work.

DEGLARERS MINERS WILL STAND ON ORIGINAL DEMAND
SPRINGFIELD, ILL., (AP)—Original demands for a sixty per cent increase in wages, a six-hour day and a five-day week will be presented to operators by mine workers in the joint scale conferences called for Friday in Washington, at the instance of Secretary of Labor Wilson, according to Frank Farrington, chairman of the miners' scale committee, who came here today en route to the national capital.

Asked whether the miners would obey the strike rescinding order of Acting President Lewis, Farrington said: "In my judgment the miners will not return to work," he added, however, that he spoke only for the Illinois district, of which he is president.

Farrington said the impression that the "scale had been wiped clean" as far as demands were concerned had not been in fact, although the miners stood ready to negotiate a new scale without reservations.

"The old demands will stand," Mr. Farrington said. "They were formulated by the Cleveland convention. All of them, however, are subject to negotiation."

Miners' representatives will insist, he declared, that any new agreement be effective at once and not on March 31, 1920, as operators formerly contended.

Mr. Farrington, who will leave late today for Washington, said he was hopeful that the scale conferences would be productive of speedy results. He will be accompanied by Vice President Harry Fishwick and Secretary Treasurer Walter Nesbit of the Illinois district.

You may rest assured of this: If a merchant uses a full page of space in what he tells store news which could have been told in a column, he fails either to serve or to profit. If he uses a column when he needed a page he makes an even greater blunder.

GERMANS PROBE U-BOAT FAILURE

Former Minister of Navy Bombarded with Questions at Investigation

BERLIN, (AP)—Vice Admiral Eduard von Capelle, former minister of the navy, was bombarded with questions Tuesday as to why the submarine campaign was so unsuccessful, changed their tactics to questioning the former minister of the navy on submarine construction. A summary of his contribution to U-boat construction was read by Von Capelle at the start of the session.

"Eight hundred and ten submarines were built before and during the war," said the former minister of the navy. "Of these 45 were constructed before the war, 150 were built during the administration of Admiral von Tirpitz and 579 were built by me in the two and a half years I was in office."

"I took office in April, 1916, and in the nine months remaining in that year I ordered built 90 U-boats. In 1917 I ordered 209; and in the nine months I was in office in 1918 I ordered 201."

Reichstag Against U-Boat
"Why was there such a discrepancy between 1916 and the two following years?" demanded Herr Gothein. Von Capelle replied sharply: "These are a number of reasons why so small a number was ordered in 1916—first, the reichstag took an overwhelming stand against the submarine, and I could not start to build, because I saw myself in opposition to the government; second, I had been out of the naval service and was unaware of the technical improvements in U-boat building; and third, the Englishra had caused serious damages to our boats. Their repair held up the construction of other boats."

Germany had decided to live up to international law and not sink merchantmen without warning, continued Von Capelle, but he said he thought that in the fall of 1915 the admiralty had issued a second order to attack British ships because England, "in polemic against us," had made the work of U-boats very difficult by mines which covered the entire North sea. There was a demand for mine searchers, torpedo boats and motor boats, which further reduced U-boat construction," he added.

Campaign Against England
Herr Simmlinger attempted to elicit the exact purpose of the submarine campaign against England. Von Capelle replied: "We believed we could force England to a 'unabstain peace' in five months."

"Was the submarine war planned to make feeding of England impossible and therefore make impossible the reaching by England of her goal?" asked Herr David.

"There was no hope in the navy that food or ammunition could be kept from England," replied Von Capelle sarcastically. "We should have been more suspicious of England."

City loans that cost you less and get you out of debt, on completed properties and to assist in building.

Local Brevities

To Meet Construction Officials—For consultation with the Lynch-Gannon Engineering company relative to equipment for the local stone quarry, W. L. Johnson, chief engineer of the Twin Falls highway district, left yesterday for Salt Lake.

Requiem Mass Celebrated—At St. Edward's church yesterday the Requiem Mass for Charles L. Des Rosiers, who was the only member of St. Edward's parish who failed to return from overseas. Death occurred in France November 10, 1918 of pneumonia.

Selling Garage—H. F. Dietrich, deputy sheriff, is today in Buhl disposing under foreclosure procedure a garage and stock.

Boise School Fund—At the Mountain View school recently the sum of \$411 was raised through a box supper. The money will be used to purchase library books, musical records and general school supplies. The supper was conducted by the teachers, Mes. Nettie Whinery and Miss Alviria Oler.

Building Permits—The following persons have prepared permits to build or alter structures—H. B. Belden, 14 by 24 building in Golden Rule addition, to be built on east 4300; L. O. Evans, alterations to Bartlett's garage, to east 1575.

Excavations were started today for the cellar of the municipal college, the filtration plant. This building was conducted by the teachers, Mes. E. Byers, superintendent of the filtration institution.

Will Meet Friday—The Blue Lagoon Boulevard club will meet with Mrs. William Rowland Friday afternoon.

Calling on Friends—Frank Brown, a former resident of Twin Falls and now located at Cherry Creek, Nev., is a visitor here.

Going to Coast—Mr. and Mrs. A. L. Houghtelin and son, Clair, left Monday by auto for Santa Monica, Cal., where their eldest son is attending school. Mr. Houghtelin will return soon for a short stay here, while Mrs. Houghtelin and sons will remain for the winter.

Social Notes

Mistakes Charles Macaulay and Harry Benoit and the Misses Eva Inglish, Harriet Warner and Alma Benoit entertained the following gentlemen at dinner at the home of Mr. and Mrs. Harry Benoit last evening: Charles Macaulay, Harry Benoit, Clyde Shinn, son, Charles Hill and Andy Myers. Pink roses in a silver basket formed the centerpiece for the table and cut glass candlesticks with pink candles and shades were also used for decorations. After dinner the party attended the American Legion hall.

TO REPEAT SHOW
The play, "The Young Mrs. Winthrop" given here last week under the direction of Mrs. Wilfrid McKay Olson, will be repeated in Filer Friday evening, November 14.

TO MEET ON FRIDAY
The members of Woodcraft will hold a regular meeting Friday evening at the I. O. O. F. hall at 8 o'clock. Special business is to be transacted.

NO UNION MINERS AT WORK IN OHIO IS REPORTED
COLUMBUS, O., (AP)—Reports from all mining districts in Ohio today were that none of the 40,000 miners had returned to work.

MODEL SHOE COMPANY, Inc.

H. E. BARBER, President
"The Store That Sells Dependable Footwear"

Pick your overcoat from these 4 models and you won't go wrong

To be sure, we have more styles but we feel safe in saying that 75 per cent of the O'coat business of America will be done on the four models pictured above—and we always believe in placing our money on favorites.

Reading from left to right: No. 1 is a semi conservative Chesterfield that 99 out of every 100 men over 50 like, look, and feel well in.

No. 2 is that new FLARE BACK coat for young men that you'll like the minute you see it if you are full of vim, vigor and vitality.

No. 3 is a Belt all around creation that comes back from France with new laurels in it's lines, and No. 4 is that famous Mich-aels-Stern Ulsterette that combines the warmth of a seal skin with the grace of an antelope.

Prices from \$35 to \$55 and at every price and in every model we have the material and color—the pattern and the preference that you had in mind before you left home.

RESTORATION IN BOSNIA IS SLOW

Abundant Crops Bright Contrast to Industrial Stagnation of Nation

SARAJEVO, Bosnia, (AP)—Bosnia may be a long time recovering from the effects of the war. Factory production is almost at a standstill, railroad transport is irregular and uncertain, stores are bare of stocks, imports are much reduced, clothing and food are high in price, and there is much idleness among the people. The crops this year, however, are abundant and it is sufficient food to meet all needs.

The German and Hungarian signs which formerly appeared above the store windows have given place to placards in Serbian, and Sarajevo has taken on quite the appearance of a Serbian town. The Serbian inhabitants meet of course quite with the new Serbian government, but the Germans, Austrians and Turks are not quite so happy. There is a disposition, however, to accept conditions as they are and to hope for a resumption of the commercial activity and advantages which the people enjoyed at the hands of the Austrians. The friends of the Serbs and Jugoslavs hope that with time the Serbian government will be able to match the prosperity and progress which the Austrians and Germans brought to the country.

Among the population American enjoys great prestige and respect. This is largely due to the timely help rendered by the center by the Red Cross and the United States food administration. Until the arrival of these relief agencies, Americans had never before appeared in Bosnia in any considerable numbers. The presence of the officers of the Red Cross and the food administration has had a splendid moral and educational effect among the Bosnians. Much of the horror and harsh feeling engendered by the war has been removed, and through the work of these Americans the larger part of the people now look upon the United States as a friend, not as a foe.

WAR EXPERTS PREDICT BOLSHEVIKI DOWNFALL

Declare Something Definite is Likely to Happen in Russian Campaign Soon

LONDON, (AP)—British military experts believe the Russian Bolsheviki cannot withstand the onslaughts of their enemies longer than two months, and that something definite is likely to happen in the Russian campaign by December 1.

It is pointed out that the Bolsheviki have employed German tactics in moving men from one front to another with more or less success but that recently such success has been a little less marked than in the past. It is considered that it is reasonable to suppose that such tactics in the end must break down unless one enemy is completely subdued. When the Bolsheviki centered against Koltak some months ago and drove him back 700 miles, their southern front was left weak whereupon General Denikin started his advance which resulted in clearing up south Russia.

MILITARY FORCES CLASH WITH CIVILIANS IN CORK

Many Collisions Between Conflicting Elements of Population Culminate in Rioting

CORK, (AP)—Constant collisions between the military and civilians here culminated in serious rioting Monday night when soldiers, enraged in consequence of frequent attacks upon them, broke through the police lines and came into conflict with the crowd. Sticks and stones were freely used, and belts were removed and forcefully swung. There also were a few revolver shots. A captain and a private of the troops were badly wounded.

KOLCHAK IS AT SERVICES

Head of All-Russian Government Spends Hour on Inspection Trip in Church

OMSK, via Vladivostok, (AP)—A lighted church in a little village four miles behind the lines attracted the attention of Admiral Kolchak, head of the all-Russian government, as he passed by in his train during a recent inspection of the territory just cleared of Bolsheviki. That his presence there, thanksgiving was in progress, he alighted with his staff, made his way through the crowd of peasants to the altar, received the hosts with a churchman and for an hour participated in the service.

ATTENTION SERVICE MEN

The Home Service Section is in receipt of the following information printed in United States Bulletin of Monday, October 20: No matter when a man was discharged, even though 18 months have elapsed, he may re-enlist before December 31, 1919, on his own statement of health and by paying only two months' premium. The man who was discharged prior to April, 1918, still another chance to become re-enlisted, and is an opportunity that ought not to be allowed to pass.

Pouring Houses, a Flying Daddy, Remodeled Opinions

Points of Interest in news pictures of the day are varied.

At Union, N. J., C. H. Ingersoll, manufacturer, and Thomas Edison, famous inventor, are "pouring" concrete houses, the total cost about \$2000, which is believed will help relieve the national shortage all over the nation. They can be completed in less than one month's time.

The woman and two children are waiting at Roosevelt field, N. Y., for return of "their daddy," Lieut. Maynard, the "flying parson," who leads in the first of the great airplane derby across the continent.

The two men represent a "dream come true." It is a literal "Garden of Labor" talking it over. It's Frank Morrison, secretary of the American Federation of Labor, and John D. Rockefeller, Jr., as they were snapped at Washington outside the "Round Table Conference" session—on the steps of the Pan-American building. They wore in earnest discussion.

PIONEER TELLS OF FUEL DEPOSIT EASILY ACCESSIBLE TO THIS CITY

Mose Jones Reveals History of a Mine Worked to Advantage 10 Years Ago and Which Could Be Employed in Relieving Present Coal Shortage Locally

That there is an abundant supply of a good substitute of bituminous coal within hailing distance of Twin Falls; such a supply as would materially relieve the shortage in this district, is the statement of Mose Jones, a pioneer resident of this section.

Mr. Jones, speaking with personal knowledge of the fuel deposit, tells of having worked the property, of having taken considerable quantities of the fuel from the workings ten years ago, and of having to close down the mine because of a hauling demand that made operations unprofitable. Mr. Jones admits the coal is not bituminous coal and does not classify it as lignite. He says it is free-burning, has intense heat and lasts well, but produces an inordinately quantity of water ash.

Have, however, that the mine can again be worked to relieve the present pressure in the coal market. On this topic he says:

"In 1904 and 1905 Thomas Lang, Matt Fitzpatrick and myself formed a company to open up and work one of these properties. At that time Sammie Worthington, of Oakley, and associates were working on one but taking out only enough for their own use. We thought it would be a paying proposition to open this property up for the country, so sent an incline down 875 feet following the vein of coal, as we called it, on a 10 per cent grade.

"We all thought at the time that it was a good prospect, but the winter when we had the coal, it was a bituminous coal and aged enough by a few million years. That did not appeal to me because never saw a coal yet that would not form smoke, whereas the which were mining made no soot or smoke but burned with a bright blue flame which made a very hot fire and one that lasted as long as the ordinary coal fire if not longer.

"The only drawback to it was the ashes. You would have to take out as much ashes in volume as you put fuel in. In our case during the winter when we kept a good fire going night and day we took out the ashes three times during the 24 hours, and others had about the same experience.

"We sold a considerable quantity of the coal during the winter and fall of 1905, and were just getting things going in good shape when the teamsters handling the fuel made a demand for \$6.50 a ton for hauling. As we were selling the coal then for \$6.50 delivered, that would leave nothing for our work, so we stopped work and the property has remained shut down ever since.

"We developed our claim, though, enough to prove that we could supply the whole of southern Idaho with fuel that is equal to any soft coal for domestic purposes and the fact that many of those who use it preferred it to any other, whereas that which was being used is a fuel not to be despised.

"It therefore looks strange to me that we in southern Idaho, having this immense supply of fuel right at our feet, should still be dependent upon Utah and Wyoming for coal.

"In connection with this I might mention the plight of Twin Falls and the whole of southern Idaho with winter, as far as I can remember. The coal situation 10 years ago was free from strikes with the mines working under normal conditions. This year we are just entering into the winter with

VIENNA REDUCES SCHOOL HOURS TO ECONOMIZE FUEL

VIENNA, (AP)—To economize in fuel and light the ministry of education has ordered that the public schools be limited to three-hour sessions daily.

RELIANTS QUIET REFUGEES

LONDON, (AP)—Of some 250,000 Belgian refugees who fled to this country during the war, the ministry of health estimates that there are less than 20,000 here today, the rest having returned to their own land on to France. To care for Belgian refugees has cost England by private means an government support 29,500,000.

EVEN GREAT COATS ARE SHORT IN WAIST

"This simply means that those of us who have not got our winter supply of coal will go without coal this winter, so it is up to us to find a substitute. The coal, lignite or shale, or whatever you have a mind to call it, would relieve us of all fear of freezing, if we can get it.

"From reports which I have received the roads will have to be put in shape before any hauling could be done. I do not know just how many miles would have to be re-made or how much it would cost. Then, again, our prospect would have to be timbered and cleaned out of a new incline sunk in this work takes time and money. I have plenty of time, but no money; but I think I have shown my faith in the proposition when I spent \$1,000 to prove the worth of this property."

FORBIDS ADVANCE IN FERTILIZER MATERIAL PRICE

WASHINGTON, (AP)—An order for bidding an advance in price of raw fertilizer materials over prices of October 7 was announced Tuesday by the department of agriculture. Materials affected are supplies of ammoniac dried, blood, tankage, fish scrap and cotton seed meal.

HOUSE OF LORDS WOULD BAR WOMEN MEMBERS

LONDON, (AP)—The house of lords Tuesday rejected the clause in the bill for the removal of qualifications which would permit women to sit in the house of lords. The clause in the form of an amendment, was added to the bill by the house of commons October 27.

WINTER COAT DAYS ARE HERE AGAIN

Winter coat days are here again and fur still retains its place of importance. The great collar on the dark green coat of bolina, shown at the top suffices without fur. But the wine-maroon velour in the center calls upon the yellow fur for its collar and with a new to match.

MEAT CAUSE OF KIDNEY TROUBLE

Take Salts to Flush Kidneys if Back Hurts or Bladder Bothers

If you must have your meat every day, eat it, but flush your kidneys with salts occasionally, says a noted authority who tells us that most forms of acid which almost paralyze the kidneys in their efforts to expel it from the blood. They become sluggish and weaken, then you suffer with a dull misery in the kidney region, sharp pains in the back or sick headache, dizziness, your stomach sour, tongue is coated and when the weather is bad you have rheumatic twinges. The urine gets cloudy, full of sediment, the channels often get sore and irritated, obliging you to seek relief two or three times during the night.

To neutralize these irritating acids, to cleanse the kidneys and flush out of the body's urinous waste get four ounces of Jad Salts from any pharmacy here; take a tablespoonful in a glass of water before breakfast for a few days and your kidneys will then act fine. This famous salt is made from the acid of grapes and lemon juice, combined with lithium and has been used for generations to flush and stimulate sluggish kidneys, also to neutralize the acids in urine, so it no longer irritates, thus ending bladder weakness.

Jad Salts is inexpensive; cannot injure, and makes a delightful effervescent lithia-water drink.

JAPANESE LAUNCH THIRD SHIP FOR UNITED STATES

TOKYO, (AP)—The mercantile steamer Eastern Merchant, built for the United States emergency fleet corporation, was successfully launched Oct. 11 at Tsurumi, near Tokio. This is the third vessel launched in Japan for the American corporation. She is of 13,000 net tons. SHIRADU UPU UPU UP 900 tons dead weight.

FRENCH AVIATOR PUSHES ON IN FLIGHT TO AUSTRALIA

PARIS, (AP)—Etienne Poesche, French aviator, has already covered more than three thousand miles—one-third of his flight from Paris to Melbourne, Australia. He arrived at Bagdad on Nov. 5 and the next day flew without a stop to Bushrah, a distance of 600 miles in six hours and 50 minutes. November 7 he started for India, skirting the Persian gulf.

DISCONTENT IN PORTUGAL

Newspapers Take Lead in Decrying Disappointment with Congress

LISBON, (AP)—Congress has closed after a three months' session and the leading newspapers accuse the new parliament on which great hopes were being set of being no better than the old, and of falling far short of the nation's expectations. The Diario Do Noticias, a leading organ, complains that only petty party politics are being given attention when the country is on the brink of a financial catastrophe. The Seculid exhorts the government to turn its attention to the huge budget deficit; the floating debt of \$40,000,000 and the fall in the rate of exchange. Virtually, all gold and silver money has disappeared and gold is quoted at a premium of 135 per cent.

History Repeats Itself.

Briggs and Fowler were talking of the great wars fought in the days when the world was considerably younger. "You know," said Briggs "it always seems to me that those old warriors were very much like our modern financiers." "What do you mean?" asked Fowler. "Well, they were always investing some one else's capital, weren't they?"

Store advertising serves the people who buy. It is not interesting, of itself, to those who rarely buy anything. It is not merely interesting; the floating debt of \$40,000,000 and the fall in the rate of exchange. Virtually, all gold and silver money has disappeared and gold is quoted at a premium of 135 per cent.

Bananas.

The banana is a perennial herbaceous plant, growing from year to year from an underground root stock with a stem of stalks from 10 to 15 feet high above the ground. The plant has drooping leaves, but no branches like fruit trees of the north countries. Each stalk produces one large cluster of fruit. After fruiting, the stalk is cut down to the surface of the ground and grows up again from the root.

Palm Sugar.

Sugar is extracted from sixteen varieties of palms that grow in Ceylon.

NO SHORTAGE IN WORLD MEAT SUPPLY

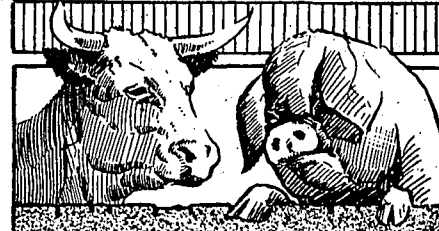

Table with columns: Country, Before War, After War, Before War, After War. Rows include England, France, Italy, Switzerland, Belgium, Netherlands, Denmark, Sweden, Germany, United States, Canada, Argentina, Australia, New Zealand.

The fact that a world meat shortage would follow in the wake of the war was unfounded. There are still considerable stocks of cattle and swine are the two principal meat animals. All of the European countries show a decrease but the United States, Canada and other countries show an increase to offset such losses.

THE KITCHEN CABINET

"Oh, sun and skies and clouds of June And days of June together, Ye cannot find for one hour October's bright blue weather."

—Helen Thiel Jackson.

HINTS FOR THE HOMEMAKER.

A useful article for the kitchen is a small microscope. One may be informed as to the condition of many things which do not show up on the natural eye. Dates, figs, raisins, as well as cereals, are safest examined with a stronger lens than that of the eye. Such foods may be returned at once when found to be unfit.

A rubber plunger should be washed with milk once or twice a month. This will keep the leaves glossy and handsome.

Use the discarded tooth-brushes and old underwear for cleaning and polishing silver. A clean, dry brush is the best kind of a cleaner to brush the whitening from chased silver. Use the soft underwear for the hard rubbing, and finish the polishing with a chamomile skin.

If silver is rubbed after a sunny bath with a chinolin skin once a week, the hard cleaning will not need to be done so often.

The French way of making tough meat tender is one worth remembering. Lay the steak in a mixture of three tablespoonfuls of olive oil and one and one-half of vinegar; let stand four hours in ice, turning frequently to be sure that both sides are treated then broil as usual.

When cooking a pudding either by steam or in boiling water, take care to replenish the water by boiling water, or the pudding will fall or be soggy.

A cut lemon dipped in salt or bath-brick makes a fine cleaner for copper or brass. It is also good to remove stains from the coffee and tea pots.

A nice laundry bag may be made of two bordered towels, using a drawing string at the top. For holding scraps and pieces, a circular bag, which may be held flat on the floor will be found convenient, as then any bundle can be quickly found.

A good tonic which may be brewed at home is ananasras ton. This is an old remedy used by our grandmothers, and one which is perfectly reliable.

Steep a small handful of ananasras root by covering with a quart of boiling water. Strain and drink half a cupful night and morning. It purifies the blood and acts as a tonic.

PETITION CARRANZA TO RESTORE BULL FIGHTING

Staging of Exhibitions in Mexico City During Absence of Executive Shows Trend of Sentiment

MEXICO CITY, (AP)—An energetic effort is being made to restore bull-fighting, which has been in eclipse since President Carranza in 1915 prohibited such spectacles in the federal district and officials elsewhere frowned upon the sport. A petition asking that the presidential decree be revoked, signed by more than one thousand citizens of the city of Orizaba, is now in the hands of the chamber of Deputies and action upon it by the lower house is expected shortly. A similar petition last year failed in its purpose by a single vote. Many persons believe that, with stronger pressure brought to bear this year, a favorable decision will be reached.

Indicative of a desire to see how far they may go without a revival of interest, is the staging of several exhibitions in Mexico City and its suburbs within the past few weeks, with President Carranza was away on vacation. Advertised as mere exhibitions in which well-known matadors would "play with the bull," they developed into the real thing and once again the "peludos" had cheap meat on Monday, the poor class of natives always by custom being given the carcasses of the bull after he is slain.

The newspapers were not inclined to ensure, this technical infraction of law. Instead they devoted columns to descriptions of the fights, comparing them with similar exhibitions before the prohibitive decree.

Inflamed Eyes.

Nothing brings surer relief to inflamed eyes than a wash with boric acid water. And one thing that its use may remember is to have the preparation free from any foreign particles, however minute, or they will cause irritation. The boric acid should be thoroughly dissolved in water that has been boiled and cooled.

The Meaneast Man.

The meaneast man in the world, regardless of previous conclusions, is the man of our acquaintance—you know him, too—who took out a card in the American Society of Astronomy and now doesn't have to give excuses when he gets in at 4 a. m.—Tampa Tribune.

Have Wrong Idea.

People are often more concerned about creating a favorable impression than about the kind of person they wish to be considered. It is like desiring a beautiful photograph without regard to the features of the original.

AUSTRIAN EMBASSY IN PARIS IS ON MARKETS

Impoverished Government Can No Longer Afford Upkeep of Sumptuous Establishment

PARIS, (AP)—The sumptuous former Austrian embassy in Paris, known as the Galleries Palais, is for sale, as the present impoverished Austrian government can no longer afford its upkeep.

The embassy building, where Austrian princes used to entertain royalty, is situated on the Rue de Valenciennes, on the south side of the river Seine, and boasts the last private park that is worthy of the name in the French capital.

Baron Von Lerner, the German charge d'affaires and his staff, have just gone into furnished apartments in the more fashionable part of the Champ de Mars quarter. Germany is keeping on her luxuriously appointed ambassadorial home on the Rue de Lille for at least another year, when the Germans expect that a full ambassador will again represent them in Paris.

"Booster Time" is Cheerful.

The term a "booster time" which the Australians use to describe a cheerful leave, comes home to its birthplace, little altered, "Boozy" with a similar meaning, was an English colloquialism in the eighteenth century. And "boozy" is still current slang with us, but implying too generous use of the wine cup. There is one phrase in the book of slang which is decidedly pleasing, "Australian grip." It stands for that best of greetings, the honest, hearty hand shake.—London Chronicle.

CHURCH HEAD COMING SOON

Bishop Touret Expected to Take Up Episcopal Affairs Before Jan. 1

Frank Hild Touret, who has been designated bishop of the Episcopal diocese in Idaho, is to take up his duties immediately upon being relieved of the work he has been conducting in western Colorado. This information comes in a report from the office which intimates that the successor to the late Bishop Funsten will probably be in active charge of his field before the opening of the year 1920.

Bishop Touret was recently appointed to have charge of this work at the Detroit meeting of the Episcopal house of bishops. He has been engaged in ecclesiastical work in Colorado since February 2, 1917, and in addition on the work in the western Colorado district has been supervisor in charge of the Utah see.

Speaking of Bishop Touret and his ecclesiastical work, the Rev. Edwin T. Lewis, rector of an Episcopal church in Logan, Utah, and a life-long acquaintance of Bishop Touret, in a letter to *The News*, speaks in terms of highest praise of the new church dignitary for Idaho. He says:

"Bishop Touret is an earnest and vigorous worker, of keen insight and sound judgment, of magnetic personality and enthusiastic leadership. He possesses rare preaching gifts and a fine spiritual vision. Idaho will find him a most worthy successor to Bishop Funsten."

"Nor should it be forgotten to say that Mrs. Touret is a most capable and charming companion, widely popular for her delightful personality and for her able leadership in Sunday school and in Missionary affairs. It is safe to say she will speedily win a large place in the affections of the people of Idaho."

Frank Hild Touret is a native of St. Salem, Mass., where he was born on March 25, 1875. He is therefore 44 years of age. His parents were Benjamin Augustus Touret and Lucy Hatch. He was unable to tell you whether or not they are living at the present time. He graduated at Harvard in 1897, later taking his A. M. from that institution in 1901. His theological course was taken at the Episcopal Theological School at Cambridge, Mass., where he graduated with the degree of B. D. in 1903. He was made deacon by Bishop Lawrence of Massachusetts the same year and at the close of the year was advanced to the priesthood by Bishop McVicker of Rhode Island.

He began his ministry as curate of St. John's Church, Providence, R. I., under Rev. Dr. Lester Bradlee. He remained here for one year and then

ARE SATISFIED WITH RESULTS OF CAMPAIGN

Red Cross Executives Say that Membership Push Had Pleasing Termination

Yesterday, the closing day of the Red Cross membership push, netted Twin Falls chapter \$175, equivalent to 175 memberships. The drive finished without mishap.

According to statements made by officers of the campaign taken together, the crusade was quite successful. The total additional enrollments will not sum as much as was recorded during the second push, but Twin Falls chapter executives express satisfaction in the general outcome, especially for the closing days of the campaign. A complete report of the push will be made as soon as outlying precincts return results.

SEED CORPORATION ACCUSES SINCLAIR

Alleging that F. C. Sinclair has through fraud become possessed of clover seed valued at \$329,800, which is said to be the lawful property of the company, the Buhl Seed and Grain company, of Buhl, has caused the arrest of the alleged culprit. Sinclair is to be tried in Twin Falls.

Arrest of Sinclair was made yesterday in Boise, and B. E. Holman, deputy sheriff went to that place immediately upon receipt of advices to the effect that the apprehension had been effected. Sinclair will be brought here today for preliminary hearing.

Loss of the seed is said to have been discovered on October 22. According to reports received here Sinclair is a seed purchasing agent.

became curate at Christ Church, Detroit, where he served for two years. On account of impaired health, he then withdrew from active work for upwards of a year, resuming his ministry with fully restored health and vigor in 1908, when he became rector of St. Luke's Church, Fort Collins, Colorado. After two years in this capacity he was called to be rector of Grace Church, Colorado Springs, Colo., where he remained until chosen in 1917 to be Bishop of Western Colorado. He was consecrated in his parish church February 2, 1917, by Bishops Capora, Faber, Johnson and Tuttle. In addition to his duties in his district of western Colorado, he has for over a year past been acting Bishop of Utah as well.

Bishop Touret was married May 19, 1909, to Irena Chittens Farquhar of Detroit. They have one child (adopted), a boy two years of age.

Weather Man Jams Mercury To Low Point

Did your milk freeze this morning? Ours did.

Anyhow the climatological publisher batted 500 in the weather gauging league in the past 24 hours. Made two prognostications; one was right, one wrong. Makes a fifty-fifty split, which is pretty fair for him.

One prediction was for rain yesterday. Of course it didn't. That's where the bureaucrat fanned. The other was for "much colder" last night. He rammed a bit on that, thus evening up for the period's prognosticating.

The mercury last night ran down to the low of the season, making a mark of 14 degrees above zero. The other best low record was 15. High yesterday was 45, but it sure didn't seem that warm. There was better than a trace of precipitation.

Going to be warmer tonight and tomorrow in the southern section of the state. Thus with the hired hotkicker from the mosque at Boise.

Only property which is undesirable or too high priced should ever be tenantless. Tenants are found through classified advertising for GOOD HOUSES OR APARTMENTS, rightly priced.

CIVIL WAR VETERANS START FLAG MOVEMENT

Will Gather Subscriptions to Provide Legion with National Colors

Originating with members of Dan McCook post, Twin Falls, and Army of the Republic, a movement was launched here today to raise by popular subscription a fund for the purchase of an American flag to be presented to Twin Falls post, American Legion.

The legion men's lack of a flag has been observed by the civil war veterans, with the result that the public will be invited to assist in supplying the lack. The movement is in charge of J. M. Rice, adjutant of the G. A. R. post.

Chicago Divine to Speak Here

Nation's Campaign Will Be the Subject of Minister's Address Tomorrow

The Rev. Frederick Fleming, of Chicago, will be in Twin Falls tomorrow, Thursday, in the interest of the nation-wide campaign undertaken by the Episcopal church, and will conduct service in Ascension church at eight o'clock p. m.

The members of the vestry, and of the local campaign committee are requested to meet with Doctor Fleming at the church at 7 o'clock. The attendance at the service of the entire congregation and of the public generally is invited.

BUILDERS AND MOVERS ARE TO BE REGULATED

City Council Wrestles with Couple of Most Problems—Plan Action

What shall be done upon the man who promiscuously moves a building hither and yon about town without permission?

Likewise, what shall be done to the property owner who builds a shack for commercial purposes snugly against the sidewalk to the utter disadvantage of his neighbors and the ruin of their property values?

They are questions that give pause to the average citizen in Twin Falls, and alight to problems that are confronting the members of the municipal legislature.

It was Mayor W. H. Eldridge who brought these questions to the notice of the city administrators at Monday night's meeting of the city council. The mayor had complaints from citizens in the residence district against commercially inclined folks placing shop buildings against the sidewalks, thus rendering unsightly property on either side, and allegedly appreciably tending to depreciate the value of the contiguous or confluent property.

This question developed considerable discussion, which brought consideration to the habit folks are acquiring of moving light frame structures from one location to another, also to the detriment of abutting property. A concerted attempt to stop this was made in the recent shifting of a building from the city market site to a point

almost across the street, and almost attached to a modern dwelling. While the questions were not utterly disposed of Monday night the administrative body displayed a unanimous inclination to draft legislation to prevent further extremes of this sort. Movers of buildings will be required to procure a permit for operations, while it is probable the city building ordinance will be revised sufficiently to make mandatory construction of buildings a specific distance from walks.

MAXWELL PURCHASES TRACT NEAR JEROME

John M. Maxwell, of the First National bank of Twin Falls, recently made the purchase of 80 acres two miles south of Jerome. The purchase was made of the Jonathan Valley orchard company.

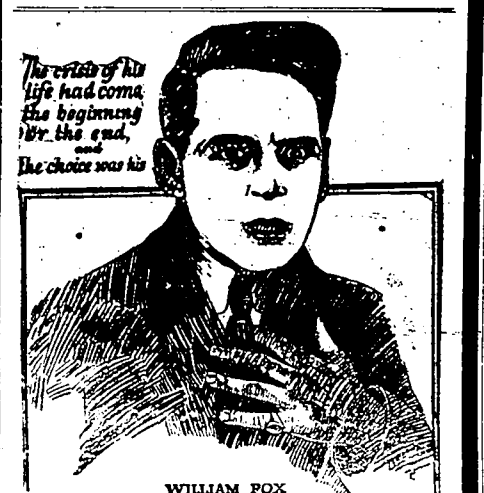

The land lies slightly west of the road leading south of Jerome and south of the railroad track and is one big orchard, most of the acres being devoted to apple culture. Mr. Maxwell expects to remove most of the trees and devote the land to the growing of alfalfa and the production of alfalfa seed.

FEW MINERS RETURN TO WORK IN INDIANA
