ZARA EXTENDS WARM WELCOME TO D'ANNUNZIO

Insurgent Italian Commander of Fiume Engages in Another Adventure Along Dalmatian Coast

LEAVES CONQUEST SCENE WITH 300 SHOCK TROOPS

Peace Conference Attaches Importance to Move in View of Coming Elections with Fiume Issue

TRIESTE, (AP)—Gabriele D'Annunzio, who left Fiume Thursday night on a new expedition, has landed at Zara, on the Dalmatian coast, according to news received here late last night.

D'Annunzio made a triumphant entry into Zara, receiving an enthusiastic welcome from the Italians who had been awaiting his coming.

Commander Luigi Bizzo is the commander-in-chief of the D'Annunzio sea forces.

PARIS, (AP)—Gabriele D'Annunzio, the insurgent Italian commander of Fiume, is engaged in another adventure along the Dalmatian coast, according to advice reaching the peace conference here.

He was said to have been followed by a torpedo boat, which was merely observing his movements. The debarcation point on the Dalmatian coast is not known, but it is thought likely that he has been selected for a landing on the southern Russian front.

Importance is attached in peace conference circles to D'Annunzio's movements because Sunday is election day in Italy, with Fiume the chief issue. It is generally thought that he is seeking to carry out a spectacular operation to strike when the Fiume party, which is reported in Paris to have lost considerable ground in Italy during the past three weeks, the Italian navy in its support of D'Annunzio.

OMSK OCCUPIED BY BOLSHIEVIKS

Soviets Claim Capture of Capital of All-Russian Government

LONDON, (AP)—Omsk, capital of the All-Russian government, has been captured by the Russian Bolsheviks, a Moscow official communique received here today asserts.

The eastern coast of the Black sea from Sebastopol to Sochi, has been seized by an insurgent army of 70,000 men operating in the rear of the forces of General Denikin, the anti-Bolshevik leader on the southern Russian front, according to a wireless dispatch from Moscow.

Local Man Branded I. W. W. in McKaig Libel Suit Trial

Foreman of Twin Falls Times Figures in Testimony of the League Organizer

BOISE, (Special)—Testifying in the McKaig libel suit against E. R. Gooding and the Idaho Statesman George H. Stoll, of Pocatello, yesterday stated on oath that A. A. Dimmitt of Twin Falls was a rank socialist and an I. W. W. according to Dimmitt's own confession.

Stoll declared Dimmitt made this confession to him in the Edway hotel, at Bigby, Idaho, on Sunday, December 23, 1917, when Dimmitt was employed as a Non-Partisan League organizer.

A. A. Dimmitt for the past two years has been employed as foreman of the Twin Falls Times. F. J. Mallet, whose name also figured in the Stoll testimony was the league organizer for Twin Falls county and was well known in and around Twin Falls.

RAIL SESSIONS ARE CALLED OFF

Hope for Immediate Settlement of Brotherhoods' Demands Vanished

WASHINGTON, (AP)—Hope for an immediate settlement of demands of the four great railroad brotherhoods today when further sessions of the conference between Director General Hines and the brotherhood heads were postponed indefinitely.

No official statement was made but it was understood no agreement could be reached on the principle of time and a meeting for overtime in road service of trainmen and conductors, which so remained uninvolved because they have a direct bearing on the overtime question.

WORLD NEWS EVENTS

BERLIN, (AP)—The formation of a coalition ministry in Hungary headed by Count Julius Wlaszczyk, and including former Premier Friedrich, and with Count Ozaky as foreign minister, is reported in a wireless dispatch from Budapest. The ministry requires the sanction of the entente to be effective.

BUDAPEST, via Basle, (AP)—The Rumanian troops began evacuating Budapest Friday morning, the national army holding the bridgehead as they left. Pest had been evacuated by ten o'clock and the national army was occupying it.

PANAMA, (AP)—Announcement today that prohibition had gone into effect in the Canal zone through the Volstead act created consternation. It had been expected that prohibition would not become effective until January.

ANTWERP, (AP)—The prize court has decided that fifty-three German boats aggregating 150,000 tons, seized by the Belgian authorities in 1914 in the port of Antwerp, are lawful prizes.

MINERS AND OPERATORS IN ACCORD ON PROCEDURE

Agreement to Take Up Wage and Labor Conditions in Central Competitive Field Reached after Long and Acrimonious Wrangle and Failure to Join in Consideration of National Wage Scale First Proposed and Accepted by Union Men

GENERAL CONFERENCE ADJOURNS TO PERMIT OF MEETING OF COMMITTEE

WASHINGTON, (AP)—After a long and acrimonious wrangle today representatives of the coal operators and miners in conference here agreed to take up settlement of wage and labor conditions in the central competitive field after they had failed to agree on considering a national scale as first proposed.

Adjourning the general conference Secretary William Luckens announced the wage scale committees of the central competitive field to meet at 2:30 p. m. today to negotiate a new wage agreement.

Operators from outside the central competitive field will meet at the same hour to determine whether the agreement arrived at by the wage scale committee of the central competitive field will be accepted as a basis for the contracts in the outlying districts.

Mr. Luckens inquired whether the agreement arrived at by the conference of the central competitive field wage scale committee would apply in basic form to outlying districts, and assure men in a position to return to work with that understanding.

Miners Accept Proposal

Charges Bad Faith

Mr. Luckens' statement immediately brought from Mr. Lewis a charge of bad faith.

SENATE SPEEDS ACTION ON TREATY

NEW TREATY REQUIRED IS OPINION IN LONDON

SENATE ACTION CONSIDERED INSUFFICIENT TO DRAW OFFICIAL STATEMENT

LONDON, (AP)—The adoption by the United States senate of the reservation to article ten of the league of nations covenant is considered insufficient to draw an official declaration from the British government as to its attitude.

It is pointed out that the reservation has not been signed by President Wilson.

GOVERNMENT ATTORNEY ALLEGES CONSPIRACY

TACOMA, Wash., (AP)—First federal action against alleged I. W. W. members following the Centralia armistice day massacre was taken today when United States Commissioner E. B. Brannan issued warrants charging eighty-eight men now in custody in Tacoma and Centralia with conspiracy to overthrow the government.

ESSENTIALS

Opening a conference at Washington
of bituminous coal mine owners, and
operatives at which, it is hoped, a speedy
end may be brought to the situation
which is resulting in the daily reduc-
tion of the nation's fuel supply. Sec-
retary of Labor Wilson voiced the views
of most Americans when he declared he
realized that some of the operators were
ready to call the miners "reds, bolshe-
vists and bandits", and that some of
the miners would accuse operators of
being "snak matters, coal barons and
profiteers." But, he said, "having as-
sumed that, consider your rock quar-
ries exhausted and got down to consid-
er what is fair and just to the unions,
the operators and the public."

Mr. Wilson proceeded then to a con-
sideration of the demands of the min-
ers, in which he spared neither the min-
ers nor the operators and shed much
needed light on the situation. In this
connection, it is significant that Mr.
Wilson is a former member of the United
Mine Workers of America, and as
such, it is quite likely that his views
and conclusions strike close to the bulls-
eye.

The miners' conference demanded a
30 hour week, a 60 per cent increase
in wages and some other things. Ref-
erring to these demands Mr. Wilson
said both were impossible.

A 30 hour week in the present indus-
trial condition of the world is impos-
sible, he said, because of the seasonal
demand for coal in many districts and
mine accidents and breakdowns and
the impossibility of furnishing trans-
portation equipment to keep all of the
mines working regularly. Expressing
realization of the fact that miners ac-
cording have an opportunity to work a 30
hour week now when the maximum is
48 hours, a maximum of 30 hours under
the conditions surrounding the mining
industry, he said, means an effective
working week of very much fewer work-
ing hours than that.

Referring to the miners' demands for
a 60 per cent increase in wages, the
secretary said such an increase was an
impossibility as it would give the min-
ers wages out of proportion to those
in other industries.

The secretary said "the standpoint
position taken by the operators hereto-
fore is also an impossibility."

But the secretary's conclusions were
not all of negative character. He gave
statistics, which, if substantiated, seem
to offer fair and equitable grounds for
settlement. "Figures reveal," he said,
"that the cost of living on the basis
of a family budget has increased from
73 to 79 per cent while the wages of
the miners during the same period have
increased only from 34 to 50 per cent."

There can, and will be no particular
objection on the part of American con-
sumers who, in the long run, will have
to pay the increase, to a settlement
which will provide increased wages to
the miners to a point where the increase
overtakes the advanced cost of living
and perhaps, a little bit more, because
it is the American policy to provide al-
ways for a progressively higher stand-
ard of living.

MEXICO COGNIZANT OF
PRESENCE OF RADICALS

Officials at Ports of Entry Or-
dered to Increase Their
Vigilance

MEXICO CITY, (AP)—In a con-
nection with charges that propaganda
is going into the United States by way
of Mexico, it is known here that the
government has been aware that rad-
icals of various sorts have inclined to
include Mexico in their field of oper-
ations.

Officials in all ports of entry have
been ordered to increase their vigil-
ance against the entry of these unde-
sirable. Deportation by the authori-
ties here of many radicals within the
last few months is taken as evidence
that the government has not inclined to
temporize with an element regarded as
dangerous.

Newspaper reports recently said a
group of 120 radicals, expelled from
the United States and Argentina were
expected at Tampico and Vera Cruz,
and precautions to bar them were tak-
en.

No official statement could be ob-
tained today with regard to the United
States state department disclosure
of the placing by Mexico of large or-
ders for arms and ammunition in Bel-
gium and Spain.

MINERS AND OPERATORS
IN ACCORD ON PRODUCTION

(Continued from Page One.)

question but that they had valid and
binding agreements. "I deny that statement," President
Lewis interrupted, "and I challenge
the truth of your assertion."

"Give us your proof"
from the mining workers' representative
followed and Secretary Wilson called
for order.

Points Out Difficulties

"It is one thing to make a state or
a district contract," Mr. Luckens con-
firmed, "and another and more diffi-
cult thing to make a national agree-
ment. The people of the United States
would freeze to death before a national
wage scale agreement would be made,
an Mr. Lewis well knows. His state-
ments are intended to cloud the issue
and hoodwink the public. The opera-
tors are acting in good faith, that is
shown by the fact that the government
is with us."

Gives Operators' Position

Replying to Green's inquiry as to the
attitude of the government toward the
operators, P. H. Penna, of Terra
Haute, replied that the operators' po-
sition got beyond the pale of federal law
the government will bring us back."

"We think, Mr. Secretary, that you
have made a mistake in talking about
the old question of enlarging the cen-
tral competitive field," Penna said.

"We of the central competitive dis-
trict are opposed to any enlargement
of the field."

Mr. Penna disclaimed any desire to
impose his own viewpoint as to the
issue, but he pointed out that what the
government wanted was a
speedy and general settlement.

"May I ask the operators if they
will insist on that viewpoint?" he
asked.

Mr. Penna reaffirmed his position.

Production Most Important

The important question was, he said,
which will resumption of production
be resumed if the conference adopts a
basic scale for the whole country and
then allows the operators to go home
and work out the details in each dis-
trict."

Penna predicted that there would
not be a general resumption of pro-
duction under such circumstances be-
fore the end of 1920 and then only
after insurmountable strikes.

RAISES MINISTERS' PAY

Methodist Conservation Committee An-
nounces New Scale for Pastors

NEW YORK, (AP)—An average in-
crease of forty per cent in the sal-
aries of ministers throughout the
country to meet the mounting cost
of living and establishment of "mini-
mum salaries" were announced Friday
by the conservation committee of
the Methodist Episcopal church. The
new scale of pay will be in
effect generally by January 1, it
was stated.

Those ministers whose pay has been
increased by their congregations to a
sufficient amount will receive no ad-
ditional remuneration from the church or
organization.

The average salary for Methodist
ministers was \$1,111 in 1918. The new
average will be approximately \$1,700.

OFFICERS MOVE TO NORTH

Royal Northwest Mounted Police Opens
Station on Arctic Ocean

SEATTLE, Wash., (AP)—Royal North-
west mounted police, the noted Cana-
dian force that patrols western Cana-
da, last summer established a station
at the mouth of the Coppermine river,
which flows into the Arctic ocean 550
miles east of the mouth of the Macken-
zie river, according to word brought
here from the north.

The new Coppermine station is the
"farthest eastern" station of the west-
ern Arctic posts of the police. The
new post will work with the station at
Herschel Island, near the mouth of the
Mackenzie and also with the post on the
east of Baker's lake on the Hudson bay
side of the Arctic region.

Today's Markets

Table with columns for Cash Quotations, Chicago Produce, Kansas City Produce, and Liberty Bonds.

Potatoes

CHICAGO, (AP)—Potatoes steady; ar-
rivals 91 cars; Northern Whites sack-
ed and bulk \$2.80 to 2.95; western Rus-
sets \$3.25 to 3.35.

Chicago Livestock

CHICAGO, (AP)—Hog receipts 7,000;
steady to 15c lower; top \$14.55; bulk
\$14.10 to 14.50; heavy \$14.10 to 14.50;
medium \$14.10 to 14.55; light \$14.10 to
14.55; light \$14.25 to 14.50; heavy
packing sows, smooth \$13.00 to 14;
packing sows, rough \$13.25 to 13.50;
pigs \$14.25 to 14.75.

Cattle receipts 4,000; compared with
week ago; beef steers mostly 50 to 75
higher; stock 25 to 50c higher; but-
tleg bones 50c higher; butcher bulls
steady; canners and cutters mostly 25c
higher; veal calves mostly 50c higher;
sheep steady; lambs mostly 25c higher;
cows and heifers steady; 50 to 75
up; common grade stockers steady
to 25c higher; western 25 to 50c higher.

Grain and Provisions

CHICAGO, (AP)—Fresh liquidation,
which found support poor, developed
today in the corn market. Breaks in
foreign exchange, resulting in a new
low record had a decided bearish in-
fluence, and so too did larger receipts.
Besides it was expected that Monday's
arrivals would be liberal. Opening
quotations ranged from 3d to 1d
1/8 lower, with December \$1.29 1/4
to \$1.29 1/2 and May \$1.24 to 1.24 1/2,
were followed by a material further set-
back.

Toward the last, week-end adjustment
of trades steadied the market some-
what. The close, however, was weak,
1 1/4 to 3 3/4 net lower, with December
\$1.27 3/4 to 1.27 3/4 and May \$1.23 3/4
to 1.23 1/2.

In the later dealings, the market dis-
played but little power to rally. Vir-
tually no business at all in pork was
done.

Oats descended with corn. After
opening 1 1/8 to 1 1/4 to 3 1/2 down, in-
cluding December at 72 1/2c, the mar-
ket continued to sag.

Provisions were easier as a result of
the grain weakness. Big shipments of
meats failed to act as a check on the
decline.

Omaha Livestock

OMAHA, (AP)—Hog receipts 3,000;
market steady to 10c lower; top \$14.80;
bulk \$14.40 to 14.65; heavy weight
\$14.60 to 14.85; medium weight \$14.70
to 14.85; light weight \$14.50 to 14.65;
heavy packing sows, smooth \$14.35
to 14.50; packing sows, rough \$13.10
to 14.25; pigs \$14 to 35.

TRADE REACHES
INTO FAR NORTH

Arctic Winter Halts Expedition
to Establish Chain of Trad-
ing Posts

NOME, Alaska, (AP)—Early Arctic
winter has halted the summer work
of an expedition, headed by Captain Louis
Lutz, of Nome, sent by Boston, Mass.,
interests into the Canadian Arctic to
establish a string of twenty-eight trad-
ing posts.

The new company plans to operate
in a section of the continent in which
the British Hudson's Bay company has
worked for more than two centuries in
trading supplies for the furs caught by
the natives. A big Boston fur com-
pany, it is said, is behind the enter-
prise.

The expedition went into the north
overland through Calgary, Canada, last
summer with approximately eight car-
loads of goods and supplies, said to be
worth \$250,000. The company also set
in a river power boat to navigate the
Mackenzie river, which drains northern
Canada and along which the company
intends to operate. The boat was sent
in sections and was assembled when it
reached the headwaters of the river.

This summer was spent by the ex-
pedition in working down the Macken-
zie river with the station at Her-
schel Island, near the mouth, by win-
ter. Instead, they reached the vicinity
of Fort McPherson, on the lower reach-
es of the river, and proceeded into the
Arctic ocean in the spring.

After getting established the com-
pany will supply its trading posts from
Nome. Boats with goods and supplies
will be sent from here around Point
Barrow and along the Arctic coast to
the company's stations on the Macken-
zie.

COMMUNISTS DEAL WITH
STRIKES EFFECTIVELY

Government at Petrograd Kills
Leaders and Leaves Work-
men Helpless

LONDON, (AP)—The Communist gov-
ernment at Petrograd has a rather
primitive but exceedingly effective
method of settling strikes within its
control. Paul Dulac, a British secret
agent, told The Associated Press. They
kill the leader and without leaders
probably no workman in the world is
so help as the Russian.

"Labor leaders involved in a strike
have employed many ingenious meth-
ods to hide their identity but a large
number of them have failed and have
been seen no more," Mr. Dulac said.
"Whenever a strike is called the Commu-
nist government tries to find the hid-
den leader. In most cases he finally
is ferreted out and some morning the
striker awoke to find their leader
gone. Without their organization they
are ineffective and generally go back
to work under worse conditions than
when they left."

NORTH DAKOTA ACCEDES
TO DEMANDS OF UNIONS

Adjutant General Orders Eje-
ction of Non-Union Men from
Noonan Mine

BISMARCK, N. D., (AP)—Because
union leaders at Noonan are said
to have declined to return to work un-
less non-union men joined their union
or quit work, Adjutant General Francis
Lutz, yesterday wired military authori-
ties in charge of the mine at Noonan
to eject non-union men.

In a telegram to Sergeant Hunter
Patrick, in charge of the mines at
Noonan, General Francis says in "such
an emergency as can arise only when
martial law is declared, the individual
has no rights that can be exercised in
opposition to the will of the entire
state and citizenry." All private desires
or feelings must subordinate them-
selves to the greater—the state as a
whole. For those reasons and these
only, you are instructed to take the
non-union men out of the mines, under
your positive statement that there are
plenty of union men that will operate
the mines."

Reports received from various parts
of the state last night indicated that
the striking miners were generally re-
suming work following the taking over
of the mines by the state. The Wilton
miners, the first to resume operators, re-
ported that the day's output was 25
cars.

Store advertising serves the people
who buy. It is not interesting, of it-
self, to those who rarely buy any-
thing. It is not merely interesting
but vital to the buyers for the homes.
For it is a guide and a service to them.

DEATHS

Scott W. Murray, aged 70, died last
evening at his home, near Eden. The
body is at Grossman's chapel where
funeral services will be held Monday
afternoon. Burial will be in Twin
Falls cemetery.

GREAT BETTERMENT MOVEMENT IS PLANNED BY STATE WOMEN

Mrs. M. J. Sweeley, of Federated Clubs, Tells of Sweeping Enthusiasm in Idaho for Program Involving Improvement Along Civic Lines—Tour of Country Reveals Interest

That a tour of the state of Idaho in the interest of State Federation of Women's clubs, made by Mrs. M. J. Sweeley, and just completed, was a prominent success from a double standpoint, is the statement of Mrs. Sweeley herself. The Twin Falls woman for the women's federation speaks with pointed enthusiasm concerning the tour, telling of the intense interest in the work at all points.

To a Twin Falls News representative, Mrs. Sweeley made the following detailed statement of the trip this week:

"The trip in spite of the weather which was for the most part cold and stormy was a wonderful one from a federation standpoint. The clubs of the north are just beginning to take up the club work and the winter strenuous months given to war work, for they like all federated women made the winning of the war their first work."

"The Third District meeting at St. Maries was the first one held by that district since the one held at Kellogg two years ago. It was a splendid meeting, full of enthusiasm and big plans for future work in Idaho."

Federation Platform

"There is a tendency to leave the study of many things to the future and take up with work in the immediate future. We must stand for the real progress which our state must make. Let us try to learn everything possible for our needs, that we may be a real factor in the betterment of our state during the reconstruction period which is upon us; that we take unusual interest in all civic matters, look into the needs of our girls, and yes, our boys, who are among us carrying their daily bread; find out where there is a place that they can rest at noon, where their evenings can be pleasantly spent. The markets we need are keenly alive to these needs, and intend to make them and their solving a matter of great interest to federated clubs."

Aid for Tourists

"As I visited each club they resolved to pay special attention to the right kind of camping places for the tourists who have become a mighty and wide throng through our state. Nature has seemed to intend that thousands can find camp grounds in the north, so much beauty, such sparkling mountain streams, and leafy lakes and wonderful forests, yet there seems need to be some real preparation if tourists are to be made comfortable. Boise, with her wonderful park and which has shamed us all, and Boise is known everywhere, in every state, as a desirable place to stop."

"They told me at Bonners Ferry that last summer tourists from New York said eaters who came through reported that Boise had the only decent camping place in Idaho. I have visited that camp ground and while I cannot go so far as to say that Boise had the only camp ground in Idaho, I must say that Boise deserves great praise. But from tourists that she will not be alone in her glory next year as Weiser, Payette, Caldwell, Nampa, Jerome, Gooding and other towns of the district are planning that wonderful results are expected. These towns do not intend that tourists shall pass them by another season."

Boise Home Section

"Our section of the country has the very worst reputation along these lines, but even we are beginning to see a light and our federated women in this district are determining that we will no district to outdo the first, and that we will make the land south of the Snake famous for her splendid camp grounds."

"We in Twin Falls are very much behind the times in raising to this new need and we must take up this branch of the work in earnest. We can get out everywhere in Twin Falls out as it has no camp ground of merit. It is not enough that a small space of dirt with no trees be set apart for the use of tourists. We need ample service stations, decently kept grounds strung with electric lights, an ample building with a roof and floor containing electric stoves, laundry tubs, refrigerators, telephones, shade, grass, space and oh! so many things, and the women must help in bringing this about. Boise has all this and then some."

Outposts for Roads

"The women of the north are also going to lead a helping hand to have every road throughout the state marked by plain signs so the tourist may know exactly where he is and need not spend precious hours trying to find his way. We certainly need that also, and the Second district needs it, too. We need here to take up in no uncertain terms."

UTAH ON COAST

LOS ANGELES, Cal., (AP)—The University of Utah and the University of Southern California will meet their opening football teams to Harvard field here today for their annual gridiron struggle. Both elevens were reported in good shape.

SENATE SPEEDS THE ACTION ON TREATY

(Continued from Page One)

Endorsed With Amendments

The committee reservation relating to domestic questions then was adopted.

An amendment to the committee reservation so as to make it include questions regarding boundaries of the United States and its possessions, was adopted 52 to 40, with party lines on both sides, recorded.

Defeats Substitute

Taking up the committee's Monroe doctrine reservation the senate voted down 51 to 53 a substitute by democratic leader Hitchcock to declare the doctrine in no way "impaired or affected" by the treaty. Only two democrats, Senator Reed, Missouri, and Senator Chamberlain, Oregon, stood with the republicans for the committee draft.

Another substitute for the committee's Monroe doctrine reservation, offered by Senator Pittman, Democrat, Nevada, proposing that the United States reserve for its disposal any question raised under the Monroe doctrine, also was voted down 52 to 42.

Receives Democratic Support

The roll call revealed the greatest democratic strength yet shown for any part of the reserved program, since democrats voting for adoption. They were:

Chamberlain, Oregon; Gore, Oklahoma; Hoke, Arkansas; Owen, Oklahoma; Reed, Missouri; Shields, Tennessee; Thomas, Colorado; Trammell, Florida; and Walsh, Massachusetts.

The Shantung reservation was adopted without change. A substitute by Senator Pittman, Democrat, Nevada, was defeated 50 to 39.

On the Shantung reservation the vote was 53 to 41. Five democrats, Gore, Reed, Shields, Thomas and Walsh, Massachusetts, voted with the republicans for adoption and one republican, Chamberlain, voted with the opposing democrats.

Only Democrats Opposed

The vote adopting the reservation of domestic questions was 59 to 39, all opponents being democrats. The republicans in favor of that reservation were joined by nine democrats, Chamberlain, Gore, King, Reed, Shields, Smith, Georgia; Thomas, Trammell and Walsh, Massachusetts.

The reservation follows: "The United States reserves to itself exclusively the right to decide what questions are within its domestic jurisdiction and declares that all domestic and political questions relating wholly or in part to its internal affairs, including immigration, labor, commerce, traffic, the tariff, commerce, the suppression of traffic in women and children and in opium and other dangerous drugs and all other domestic questions affecting the present boundaries of the United States and its insular and other possessions are solely within the jurisdiction of the United States and are not under this treaty to be submitted in any way either to arbitration or to consideration of the council or of the assembly of the league of nations, or any agency thereof, or to the decision or recommendation of any other power."

The reservation giving congress authority to regulate appointment of American delegates to the league and to international commissions, also was adopted.

The tie on the reservation was 53 to 40, Senators Gore, Reed, Shields, Smith, Georgia; and Walsh, Massachusetts, democrats, voting with the republicans.

Leaves Reparation Commission

Without debate the next reservation was agreed to. It reads: "The United States understands that the reparation commission will

regulate or interfere with exports from the United States to Germany or from Germany to the United States only when the United States by act or joint resolution of congress approves such regulation or interference."

The Monroe doctrine reservation as adopted follows: "The United States will not submit to arbitration or to inquiry by the assembly or by the council of the league of nations, provided for in said treaty of peace, any questions which in the judgment of the United States depend upon or relate to its long established policy, commonly known as the Monroe doctrine, and declare to be wholly outside the jurisdiction of said league of nations and entirely unaffected by any provision contained in the said treaty of peace with Germany."

The text of the Shantung reservation follows: "The United States withholds its assent to articles 156, 157 and 158 and reserves full liberty of action with respect to any controversy which may arise under said articles between the republic of China and the empire of Japan."

Hitchcock Within Rules

When the senate met today, democratic leader, Hitchcock, presented several substitutes for committee reservations to the peace treaty so as to have them within the rules, which provided that no amendments or substitutes can be offered once closure becomes effective. His move was taken by some senators to forestall democratic support of the closure motion.

Among the measures Senator Hitchcock presented was a resolution for ratification without reservations. He put in also a ratification resolution embodying "as part of the ratification" the five substitute reservations offered by him several days ago. Those reservations provided:

"That the United States would be the sole judge whether its obligations were fulfilled if it withdrew from league membership.

"That no question which the United States considers domestic in character could come before the league.

"That the Monroe doctrine should not in any way be impaired or affected."

That the council's recommendations under article ten shall be considered as "merely advice."

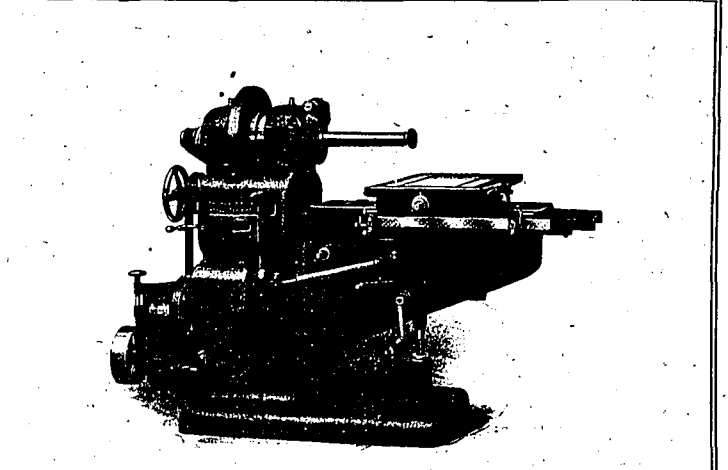

"That no dominion or colony shall vote in any league dispute to which any sister dominion or colony is a party.

In addition Senator Hitchcock presented a new substitute for the article ten reservation already adopted by the senate. It proposes that the United States "does not assume any obligations" regarding the article's guarantee until in any particular case congress shall so provide. The language is much the same as that of the reservation adopted.

Notice was given by Mr. Hitchcock that he would later move to strike out the preamble requirement that the reservation must be accepted by three great powers.

Denekine Gives Orders For Evacuation of Kiev

LONDON, (AP)—General Denekine has given orders for the evacuation of Kiev, the Ukrainian press bureau announced this afternoon. The Ukrainians, it was asserted, had cut Denekine's railway communications with the city.

The Head Cylinder Grinder, universally conceded to be the most accurate and efficient machine of the kind in the world. The German experts figured it would take two years to repair the Vaterland, in fact it never had given good service. Uncle Sam's machinists fixed it in seven months. They use the best machines. This is the machine they indorse.

Do It Now!

Have you a car? If so, you are interested in getting perfect service for the least expenditure, adequate for inspection and repairs. The little troubles are the costly ones in the long run. Now is the time of the year when you can best afford to lay up your car for a thorough inspection and have those little adjustments made that will serve to avoid trouble leading to serious breakdowns liable to lay up your car for a longer period when you need it most.

If your car is new and needs only a little attention you need the best of mechanics to inspect and diagnose your trouble. WE HAVE THEM. If your car is loose and needs repairs, WE KEEP THEM.

When a car needs overhauling of a critical type, when the motor throws oil, the plugs foul constantly, and you feel like satan every time you try to run it, we have the latest improved machinery to do an up-to-date job of regrinding and fitting new pistons, etc. This is where it pays to patronize a big garage. We have the necessary equipment to DO IT RIGHT.

Come in and look us over and see for yourself. The following sales and deliveries have been made by us this week:

North Side Canal Co., Jerome, Dodge Touring Car.

H. H. Fisher, Kimberly, Dodge Brothers Sedan.

Karl Patrick, Three Creek, 7-Passenger Buick.

TWIN FALLS IDAHO

TRUCKS NOW IN USE ARE ABOUT 700,000

Official Tabulation of 24 States Produces Some Startling Figures

There are 314,029 motor trucks in the twenty-four states which make a separate tabulation of commercial vehicles, according to statistics just compiled by the U. S. Goodrich-Rubber company. The other states no distinction between passenger cars and trucks in their registration records, making a national total impossible to compile. However, it is estimated that the grand total will reach more than 700,000.

This estimate is based on average estimates for all states which keep records of trucks. Among the states with heavy truck registry are: New York, Illinois, California, Iowa, Indiana, Minnesota and Missouri.
The states which record trucks separately and their registration follow:
Ohio..... 57,000
Massachusetts..... 38,149
Pennsylvania..... 36,619
Michigan..... 30,673
New Jersey..... 16,600
Connecticut..... 16,340
Kansas..... 10,000
Tennessee..... 10,000
Maryland..... 9,810
Wisconsin..... 9,700
Alabama..... 9,270
Illah..... 9,000
South Carolina..... 7,780
Kentucky..... 6,600
North Carolina..... 6,600
Rhode Island..... 6,172
Georgia..... 6,000
Maine..... 5,210
West Virginia..... 4,670
Utah..... 3,000
New Hampshire..... 2,110
Vermont..... 1,900
Mississippi..... 1,900
Total..... 314,029

It is estimated by American motor truck manufacturers that more than 125,000 trucks will be made during 1920, and H. G. Hilth, Goodrich truck tire sales manager for the northwest territory, says that more trucks will be sold and used in this territory during 1920.

BLAMES FOREIGN HOLDING FOR MARK'S VALUE FALL

Dresdener Bank of Berlin Reports Circulation of Paper Currency Largely Increased

BERLIN, (P)—The Dresdener bank of Berlin states that circulation of paper currency in Germany amounted to 40,225,000,000 marks on September 23 last, as compared to 22,000,000,000 marks in June this year. The bank estimates that 15,000,000,000 marks of German paper money is held abroad and that about 25,000,000,000 remains in Germany.

German industry, according to the bank, has been held in check by the revolution, political unrest, strikes and unwillingness to work. Many firms and industries are said to have been able to keep going only by using their reserve funds.

The unfavorable status of the mark in the world exchanges is attributed to the flood of German money that has gone abroad to pay for imports estimated at 1,000,000,000 marks since the revolution. At present the bank sees a tendency toward a decrease in the number of strikes and toward an increase in coal production.

HERE'S AUTOMOBILE LAWS FOR THE STATE

No person shall operate or drive a motor vehicle on the public highways of this state after January 1, 1919, unless such vehicle shall have such number plate attached conspicuously to both the front and rear of such vehicle, and each number plate shall be kept clean so as to be plainly seen and read at all times.

Every motor vehicle operated or driven upon the public highways of this state shall be provided with adequate brakes in good working order and sufficient to control such vehicle at all times when the same is in use, and an adequate horn or other device for signaling sufficient under all conditions to give timely warning of the approach of the motor vehicle, and shall, during the period from one hour after sunset to one hour before sunrise display at least two lighted lamps on the front, and one on the rear of such vehicle, which shall also display a red light visible from the rear; the white light of such rear lamp shall shine upon and illuminate the number plate carried on the rear of such vehicle so that the said number will be clearly visible at a distance of one hundred feet. The light of the front lamps shall be visible at least two hundred feet in the direction in which the motor vehicle is proceeding. Every person operating or driving a motor vehicle on the public highways of this state shall also, when approaching a cross road outside of the limits of a city or incorporated village, or another intersecting highway or street or curve or corner in a highway or street, where the operator's view is obstructed, slow down speed of the motor vehicle, and shall sound his horn or other device for signaling in such a manner as to give notice and warning of his approach.

Provided, That a motorcycle or bicycle shall be considered to have complied with the provisions of this section by carrying one front lamp visible for a distance of one hundred feet. Every person operating a motor vehicle on the public highways of this state shall drive the same in a careful and prudent manner and at a rate of speed so as not to endanger the property of another or the life or limb of any person; Provided, That a rate of speed in excess of thirty miles an hour for not less than one-fourth of a mile shall be presumptive evidence of driving at a rate of speed which is not careful or prudent.

Any person violating any of the provisions of this act shall be guilty of a misdemeanor. No person under sixteen years of age shall operate or drive a motor vehicle upon the public highways.

It shall be the duty of sheriffs, deputy sheriffs, constables, policemen, game warden and deputy game warden within the State of Idaho to enforce the provisions of this Act and make arrests for the violation thereof.

Patronize the largest local cash buying organization in this part of the state when you have hay, grain, potatoes, beans or onions to sell. We are here 12 months in the year.—Adams Produce company, Newton O. Hall, Mr. Telephone me at the residence or warehouse. Adv.

ELECTRICAL EXPERT PRAISES LIGHT PLANT

Charles B. Watson Considers "Kewanee" System Model in Design and Utility

The writer has carefully examined the mechanisms handled by The Modern Farm Utilities company, of Omaha, Neb., known as the "Kewanee Private Utilities" for application to lighting and water service requirements, and have compared the various details with equipment purchased in the last twelve years by the Union Pacific railroad under the writer's specifications for similar service.

I find these lighting and pumping units designed and manufactured in accordance with the latest conservative engineering practice and modern shop methods. The designer of this class of machinery has the choice of two fundamental methods, viz: A light weight slow-speed mechanism with semi-automatic features. The latter is the most conservative practice and has been followed by the designer of the "Kewanee Private Utilities" as applied to lighting and water service.

The general rules made standard by the American Institute of Electrical Engineers have been followed in the design of the generator which is the heart of the system with the well known rising voltage characteristics, particularly adapted to storage battery charging. Accessibility for repairs and renewals is very important in machinery designed more or less for isolated locations. I find these features carefully considered in the design of all parts.

The absence of vibration in operating machinery indicates that proper proportioning of rotating parts has been given much attention, vibration being almost entirely eliminated. In general, the above observations apply equally well to the pumping equipment as the same general conservative fundamentals have been consistently followed throughout both lines of apparatus. I can consistently approve these plants from mechanical, electrical and manufacturing standpoint.

(Signed) CHARLES B. WATSON. Four years, Electrical Engineer, Western Electric Company. Four years, Mechanical Engineer, Link-Belt Machinery Company.

Twelve years, Assistant Engineer, Union Pacific Railroad. Only property which is undesirable or too high priced should ever be tenantless. Tenants are found through classified advertising for GOOD HOUSES OR APARTMENTS, rightly priced.

Law to Check Stealing of Automobiles

"The Dyer Bill, providing a \$5000 fine or five year imprisonment or both—for taking stolen cars or trucks from one state to another has become a federal law," says L.D. Foreman of the Intermountain Motor Car company, local Kiesel distributor.

"That this law will materially lessen the evil of interstate traffic in stolen cars, is a foregone conclusion, provided automobile dealers and owners cooperate not only with each other but with officers of the law as well as the judges before whom the criminals are tried. "It won't take many imprisonments of offenders, to show that the public is in earnest and that stealing a motor car is as bad a crime as stealing any other article, necessary or otherwise."

MUST HAVE LICENSE FOR ANY IDLE AUTO

Stored Machine Is Not Exempt from Taxation, State Attorney Rules

BOISE, (Special)—If a resident of Idaho owns an automobile, even though it is shut up and unused, said citizen must pay a license fee. This is the ruling of the state attorney, who explains that failure to utilize a car does not exempt the owner from taxation. The ruling is made in the case of a resident of Drangeville, who failed to purchase a license this year because the car was stored in a garage and not used. The case was reported by an assessor.

CRITICISES INTERFERING WITH LAWS OF ECONOMY

Governor McKelvie Cites Injury to Nobraska Producers from Agitation

LINCOLN, Neb., (AP)—Announcing a letter to United States Attorney General A. Mitchell Palmer that he had decided to postpone, probably indefinitely, a conference requested by Mr. Palmer between federal state and other officials on the high cost of living problem, Governor Samuel R. McKelvie said there was no way of telling "the amount of injury that has been done by the agitation of those who would lead the country to believe that it is possible to effect an artificial regulation of the laws of economy."

GERMANS FEAR SECRETS LOSS

Uneasy Over Possibility of Leak Through Allied Economic Missions

COBLENZ, (AP)—German business men have been worrying more than usual recently for fear their trade secrets will become known to the allies through "the gap in the west," as the occupied area is called.

TAX HITS CHILD LABOR

Reports Show Greatest Decrease in Cotton Mill Industry of South

WASHINGTON, (AP)—Child labor in the United States has decreased more than forty per cent since the child labor tax provision of the revenue act went into effect April 25 last. This act levied a tax of ten per cent on the net earnings of plants employing children under 14 years or between 14 and 16 for more than eight hours in the production of commodities entering interstate commerce.

Fall has brought back the oyster from his salty vacation, and now comes the game that makes these days the favorite in the epicure's calendar. Simplicity is the keynote in cookery these days; there is not a game bird or fish that will be improved in flavor by stuffing, or the addition of many seasonings. The charm of any dish is to keep its characteristic flavor, accentuating it, not covering it with seasonings. The old-fashioned method of stuffing all kinds of fowl and game is no longer considered desirable by the best diners.

The conference was to have been held here November 15 and the governor's letter was in reply to a telegram from Mr. Palmer asking if the meeting could be postponed until December 2 to permit his attendance. Answering Palmer's inquiry Governor McKelvie said that "it was largely with the people themselves to bring about a more satisfactory condition in solving the cost of living, and that he thought it was a mistake to have a meeting apparent to the people that the question of the high cost of living is one that will be solved economically and not through the activities of legislators or prosecutors."

Recent instructions published by the Inter-Allied Rhine-land high commission provide that no obstacles shall be placed in the way of commercial and other missions authorized by the allied and associated governments entering German factories "with the owners' consent."

Westbound	No. 81.....Depart 4:45 p. m.
Eastbound	No. 83.....Depart 11:45 a. m.
Westbound	No. 155.....Depart 3:45 p. m.

Rogerson Branch Trains

Southbound	No. 309a.....Depart 11:45 a. m.
Northbound	No. 310.....Arrive 3:20 p. m.

Mail Makeup

No. 156 at 5 a. m.
 No. 83 at 11 a. m.
 No. 155 at 3 p. m.
 No. 84 at 4 p. m.

Rogerson branch at 11 a. m. The foregoing mail makeup is operative and effective under ordinary conditions; if a great amount of mail should be dropped or about the regular closing time it would be impossible to dispatch the mail on the precise hour.

ACHES AND PAINS SLOAN'S GETS 'EM!

Famous pain and ache liniment. kept handy, brings gratifying relief.

RHEUMATIC twinges ease up soon. So do stiff joints, lame back, neuralgia, overtaxed muscles, and those pains from weather changes. Low-tar, don't hurt you! Point the counter-irritant Sloan's Liniment produces.

Keep this old family friend handy for instant use—a little *prevents* without rubbing, leaving no skin stains, mess, or clogged pores. You ought to keep a bottle handy always.

All druggists. Three sizes—35c., 70c., \$1.50.

ALBERTA LANDS

530,000 Dry and Irrigable Acres

Lands are located in Southern Alberta and are among the best in that famous district, 200,000 acres will be under irrigation; the balance is being sold for grain growing.

The lands are being put on the market for the first time and the company is looking for bona fide settlers. All lands within a radius of ten miles or less to shipping point.

Dry lands are being sold at \$15 to \$20 per acre—irrigable lands \$40 to \$60 per acre, which includes water right—operation and maintenance charge \$1.50 per irrigable acre per year—easy payments and low interest.

Alfalfa, grain, field peas, potatoes and root crops can be successfully grown.

Write direct to the company for full particulars and pamphlets.

DOINGS OF THE VAN LOONS

"I, I WANT TO TELL YOU HOW I GOT THE MOTH AND THE FLAME."

"YES! I SUPPOSE IT IS A STORY OF SOME KIND. BUT I'D LIKE TO HEAR IT. I'D LIKE TO BE CALLED BY THE NAME OF THE MOTH AND THE FLAME."

"NO, DON'T TRY IT AT ALL. THIS SAD STORY REFERS TO MY PUNS AND WORDS. YOU WILL NEVER FORGET WHEN I WANTED TO BUY MY FIRST MOTOR CAR. I WAS BROKE AND I HAD TO PAY FOUR DOLLARS BY WRITING MY NAMES IN RED INK."

"I'M AT HOME. I'M HERE. I'M SEVENTY-FIVE DOLLARS. I'M SCARED YOU GAVE ME LAST NIGHT. I'M HATEFUL. NOW WHERE IS YOUR ECONOMY?"

"IT IS INDEED A SAD, SAD STORY OF THE MOTH AND THE FLAME."

"I SAY, COME TO THINK OF IT, YOU SAID THE MOTH GOT TO AND THE FLAME. WHAT ABOUT THE FLAME?"

"OH, YES, I FORGOT."
