

ATTITUDE OF GOVERNMENT CRITIC THEME

American Mining Congress Takes Administration to Task for Dealings with Mexico and Labor's Demands

ST. LOUIS, Mo., (AP)—The government was criticized for its attitude towards Mexico, and for its handling of a thirty-hour week were denounced at the convention of the American Mining Congress here Tuesday.

George Otis Smith, director of the United States geological survey, urged increased production, asserting that there can be no return to Garden of Eden conditions of consumption without productive industry.

Protests Mexican Situation
A resolution presented by Walter Douglas of New York, protested to the state department against "further disregard by the American government of conditions in Mexico that make it unsafe for American citizens there."

Rebelling that forty-five Americans engaged in mining in Mexico were murdered since 1910, and that eighteen of these murders occurred since 1916, "after the United States recognized the present Mexican government," the resolution declared that the United States has provided protection to its citizens.

Welfare Dominant Note
Welfare, rather than the wage, should be the dominant note of the mining industry, according to Mr. Smith. "Wealth may be defined as provision for the welfare of the worker as much as it is the surplus beyond present needs. To the day problem of industrial unrest then, what is the answer, except to create a larger surplus?" No protective tariff is taken by the home market for industries based on a thirty hour week, nor can our industries expect to win or hold a place in the foreign market on any protective program, unless there is some international agreement making for universal indolence, and even then we may think that there can be no return to Garden of Eden conditions of consumption without productive industry.

SAN FRANCISCO TO BE HOST TO SUFFRAGISTS

Conference of Women Voters of America is Expected to Draw Big Attendance to Coast City

SAN FRANCISCO, (AP)—Leading suffragists from all parts of the United States are expected here November 24 for a conference of the Women Voters of America.

Plans to unite all women for better citizenship, and consideration of amendments, child labor and legislation for women will be taken up.

Carrie Chapman Catt, president of the National American Woman Suffrage Association, Mrs. J. C. Brannan, secretary, and Mrs. E. P. Costigan of Washington, D. C., have been asked to speak.

The high cost of living and the proposed organization of a league of women voters in California will be discussed.

Mrs. Robert J. Burdette and Mrs. Robert Armstrong Dean, chairman of the California suffrage ratification committee of the American Woman Suffrage Association, are assisting in arranging for the conference.

STANFORD AT CROSSROADS

Must Choose Between Present System and Higher Standard, Says Jordan

STANFORD UNIVERSITY, Cal., (AP)—This institution must choose before long whether it will continue its present system of education or devote itself to higher education, said David Starr Jordan, chancellor emeritus of Stanford university, speaking at Stanford before a meeting of the Cosmopolitan club here recently.

Doctor Jordan said it is his wish to see Stanford specialize in higher education. By this plan, the first two years of preliminary work may be taken elsewhere, preferably at a junior college.

Finding a position is sometimes a most disheartening task. Just to rely upon friends, or upon going about and making personal applications, often leads to utter discouragement. The quick road to a position is through the classified. Sometimes this road requires more than one day to travel—but it leads inevitably to the desired goal if followed.

Classified Ads are cheap-effective.

ex-Emperor's Guest Returns to Germany

AMBRONGEN, (AP)—Countess Erbach, sister of the Queen mother of Holland, who has been the guest of former Emperor William of Germany, returned to Germany Monday. Passenger train traffic between Germany and Holland, which was stopped two weeks ago, was resumed today and hundreds of persons crossed the frontier.

The erstwhile emperor was prevented by cold weather from sailing in his yacht, but a special shed has been erected and Count Hohenzollern Sunday sawed his 12,000th log.

WOULD PROHIBIT MELTING OF GOLD COIN FOR ARTS

New York Banker Argues for Legislation to Protect Coin Stock

ST. LOUIS, Mo., (AP)—Prohibition of the melting of gold coin for use in the arts to aid the mining industry and help preserve the gold standard, was suggested by George E. Roberts, vice president of the National City Bank of New York, in an address received before the American Mining Congress Tuesday.

"It has been the policy of the United States to sell gold bullion in small bars through the mint service in order to discourage the melting of coin," he said. "We have no law against the melting of coin, as in the case in England and Australia, where the melting of coin with our great store of gold coin freely available, it is impossible to raise the price of gold bullion, but if our coin stock could be effectively protected bullion would immediately cease going to the mints and be salable at a premium."

Mr. Roberts said that the gold mining industry in the United States has been seriously affected by advancing costs while its income had been held down by the fixed coinage value of gold, \$20.67 an ounce. Meanwhile the consumption of gold for manufactures has been larger than ever before.

The United States is almost the only country in which gold producers are not paid a premium above the mint price, he added.

GERMAN FORTIFICATIONS BECOME BUILDING SITES

French Supervise Work of Dismantling and Destroying Twelve Forts Near Mayence

MAYENCE, (AP)—Apartment houses, private homes and schools, factories and other institutions of a commercial nature are planned for the future on the ground in and near Mayence, which has been seriously affected by German fortifications. The task of dismantling and destroying the twelve forts in the vicinity of Mayence began several weeks ago, the work being done by German and under supervision of the French army of occupation. The work will require a year or more.

ASKS EXCURSION RATES

Alaskan Official Points Out Need for Swelling Population of Territory

NENANA, Alaska, (AP)—(By Mail)—Granting of a special immigrant passenger rate to Alaska is the suggestion emphasized by Attorney General J. C. Murphy of Alaska for swelling the population of the territory, which, Alaska papers bitterly point out, has shown hardly any growth during the more than fifty years under American rule.

Mr. Murphy has embodied his views in a statement presented to the territorial shipping board. He believes transportation companies operating to Alaska should first meet Alaska's demand for special immigrant rates, and that, failing that, the federal government should take up the matter.

GERMAN NAVY LEAGUE IS GIVEN NEW NAME

BERLIN, (AP)—The German Navy League is to be rechristened the "German Sea League" and is to work for the development of the German merchant marine and the resumption of German maritime trade and shipping.

DENMARK KEEPS BOLSHEVISM OFF

Russian Radical Idea Gains Little Headway in Scandinavian Kingdom

LONDON, (AP)—Bolshevism has not obtained so strong a hold in Denmark as it has in Norway, writes a Copenhagen correspondent of the widely read British weekly, Common Sense. In Denmark the syndicalists strive to play much the same role as do the left-socialists in Norway, who are reported to be supporters of the Russian brand of socialism.

"The syndicalists, however, make no show in the Danish parliament," says the correspondent. "Since the riots in Copenhagen last November, when the Grontry district in the center of the city was wrecked and many scores of citizens and policemen were injured, there has been a tendency to regard them as a mere anarchist rabble. But, as everywhere in Scandinavia, their power over the wage earners is greater than their voting strength, and they have succeeded, usually against the Association of Trade Unions, which has a large majority behind it, in bringing about prolonged strikes."

"The Danish syndicalists, by violent attacks on the majority socialist party and denials of its leaders, Stauning and Borgbjerg, have gained a certain pull among the wage earners. "The syndicalists' connection with the Russian bolshevism has been repeatedly indicated. This gave the cabinet a good excuse for repression so that arrests, press prosecutions and expulsions take place on a scale inconceivable in Sweden or Norway where the left-socialists have the rank of recognized parties.

"Further, the Danish employers are not loathsome. They are threatening a general lock-out and declare that if the wages demanded go beyond a certain point, they will cease manufacturing altogether in Sweden or Norway where they make their profits by importing and selling cheaper foreign goods."

VIENNA SUFFERS FROM ALMS SEEKING SWARMS

Increasing Number of Beggars Becomes Pest; Few Crippled Soldiers

VIENNA, (AP)—This place is suffering from a daily increasing pest of beggars. While a few are crippled soldiers, by far the greater part of the swarms are the homeless, the unemployed, the old, the young and the children of all ages, from tiny barefooted, ragged tots to old men and old women, with their hands in arms and others clutching at their skirts. Little girls and little boys of school age and old persons parade the sidewalks in the hotels and cafe districts and pass in the hundreds through the restaurants and cafes. Some are licensed, but they are few. The Viennese beggar who persistent is never abusive when refused.

BRITISH COUNCIL PERMITS MEMORIAL FOR GERMANS

OSWESTRY, Eng., (AP)—Benares Germans raised no objections to the erection of a memorial to British soldiers in German cemeteries. The Oswestry district committee has decided to permit the building of a memorial to German soldiers buried in a military cemetery here.

DUCKS SEEK SALT WATER FOR ERADICATION OF COOTIES

SACRAMENTO, Cal., (AP)—Ducks arriving from the north during the past few weeks to spend the winter in California stop but a few days in the interior of the state and then seek the salt water about San Francisco.

Many of the birds, experts say, are bothered by crotches and they know salt water baths will rid them of the "cooties."

CLAIMS TREATMENT WILL RESTORE DEAD TO LIFE

RANGOON, India, (AP)—The Rangoon Times has published details of the claim of a Burmese woman doctor to bring the dead back to life. The woman states that when revived the dead person has a new mind and other features, but the treatment must be continued for a month.

Brussels is Scene of Execution in Effigy

BRUSSELS, (AP)—Directors and editors of the Germanophile newspaper Brussels, condemned to death as traitors by the war court a week ago, were publicly executed in effigy before the city hall here Monday morning. The actors in the ceremony were four gendarmes and an executioner, and a scene was witnessed by great crowds, with cinema operators recording the incident.

The death penalty exists in Belgium, but it is carried out only in effigy.

ALLIED DEMAND DAZES GERMANY

Requirements of Military and Naval Commissions Precipitates Problem

BERLIN, (AP)—Germany is fairly dazed by the demands and requirements of the allied military and naval commissions for the housing of their supervisory forces, which according to the peace treaty may have their headquarters at the seat of the German government, and place sub-commissions at any desired point in Germany.

Gives Notice of Requirements
The entente has given notice that it will send a chief commission to Berlin and to sub-commissions to other points. It demands, from Berlin, hotel accommodations comprising 500 rooms, housing for 300 non-commissioned officers and men, and garage facilities for 60 automobiles. These are the requirements for the army and naval forces.

For the air forces the entente wants 200 rooms in a hotel, 100 fire rooms, housing for 450 persons, and garage space for 60 automobiles. The figures look large to Germans, for guests in the big hotels even now are happy to be able to creep into a bathroom and snatch some sleep.

The council of states has decided that the money agreed upon to furnish quarters for the entente missions, \$3,000,000 marks, was not enough. It is, however, rooms, hotels, dwellings, more than money, which is worrying the government.

CASTLES MAY BE USED

The government has made a beginning by announcing that it will confiscate one hotel which has 185 rooms, and use the building in Wilhelmstrasse, now the headquarters of a press division, for office space.

Another hotel has been confiscated for the air division. That, however, leaves a big gap between what can be supplied and what is demanded. The government may perhaps heed the many suggestions made recently for using various former royal and princely castles, which would relieve the strain on the already overstrained Berlin hotels.

MERCHANTS ATTENTION

Champion (Complete) Accountant (fireproof) will be shown to any merchant who is looking for better and direct results in accounting; keeping you close in touch with your current business; giving monthly financial reports, as well as taking care of your income tax records. Will accept appointments for demonstrations for Thursday only.

SHIP SINKING REQUIRES ALL-NIGHT BOMBARDMENT

Portuguese Gun Boat Fires 180 Shells at Target Before Sending Concrete Craft to Bottom

LISBON, Portugal, (AP)—A Portuguese gunboat was kept busy all night recently trying to sink an American steamer built of concrete. The vessel, the Milton, 3000 tons, from New York with a cargo of coal caught fire when lying in the river Tagus.

The whole vessel was ablaze in less than half an hour. It was feared that the anchor chains might snap and the ship be carried away and set other ships on fire so it was decided to destroy the ship by gunfire.

After the gunboat had fired 180 shells at her, the Milton slowly heeled over and disappeared from view. Lisbon's population turned out in their thousands to witness the impressive sight.

NEW AERIAL MAIL ROUTE WOULD ELIMINATE CODEN

WASHINGTON, (AP)—A new aerial mail route between Chicago and San Francisco, including stops at Kansas City, Wichita, Albuquerque and Los Angeles, would be established under a bill introduced Tuesday by Representative Randall, California. The proposed route is 266 miles longer than the postoffice department route by way of Cheyenne and Ogden, but greater mileage is offset, Mr. Randall said, in avoiding high mountains and blizzards on the northern route.

PAPER MONEY CHEAP SUBSTITUTE FOR LABELS

VIENNA, (AP)—A Vienna paper prints a story from Switzerland that Swiss brewers has adopted the custom of placing on its bottles, instead of labels, Austrian one-crown notes, which are valued in Switzerland at something less than seven and one-half centimes. The former label of the brewery cost something like ten centimes.

DELIVERY OF RIFLES MADE TO RUSSIANS

Japanese Interference Permits American Guard to Proceed with Munitions Despite Cosack's Threat

VLADIVOSTOK, (P)—The 49,000 rifles which an American detachment was conveying by train from Vladivostok to Admiral Kolchak's forces at Irkutsk went through intact to that city, despite the demand of General Semonoff, the Cosack commander in central Siberia, that 15,000 of the rifles be handed over to him on route.

Semenoff Holds Train

Semenoff held up the train conveying the arms at Chita on October 29 and gave the Americans until eleven o'clock on the morning of October 25 to comply with his demand. Details of what happened after Semonoff issued his ultimatum were not known until Nov. 12. The American train was held up for forty hours; the lieutenant commanding the train guard not knowing until after the expiration of Semonoff's time limit that the Japanese had intervened and obtained permission for the train to proceed.

According to members of the Stevens railway commission at Chita after Semonoff demanded the rifles the guard of fifty Americans crept under the cars, using the cases of guns as a barricade. Semonoff ran an armory train on the tracks opposite them.

Americans Plan Attack

The Americans planned to blow up the rails at each end of the armored train as soon as the attack began to prevent the moving of the Semonoff train and then to capture the train by the train being too close for the Americans to use field pieces. After the expiration of the ultimatum the Americans demanded the removal of the Semonoff train from the tracks opposite them.

The representatives at Vladivostok of Admiral Kolchak have informed Major General W. E. Wood, commander of the American forces in Siberia that the Omak government had issued orders for the delivery to Semonoff of 15,000 rifles.

SHORTAGE OF CURRENCY PREVALENT IN MEXICO

"There is No Change" Most Persistent Phrase Encountered by the Buying Public

MEXICO CITY, (P)—The most persistent phrase encountered by the buying public in Mexico at present is "No hay cambio," "there is no change." The silver in the Mexican peso, fifty-cent piece and the five-cent piece is worth more than the face value of the coin so this money has been hoarded by many persons and sold for their silver content.

The result is that "cambio" or change has disappeared and persons who buy or sell are forced to pay from four to seven per cent for pieces of paper or broken. Most merchants refuse to make small sales if they are forced to give change, asserting they would lose money in the transaction.

TROOPS FAVOR INSURGENT

Italian Government Cannot Stop Desertions to the D'Annunzio Forces

ROME, (P)—Desertions from the regular Italian forces to the troops commanded by Capt. D'Annunzio cannot be prevented by the Italian government and recent events appear to justify the belief that the regular forces will be loyal to their officers.

In Death Valley

Death valley is a narrow area between the Panamint and Funeral mountains in California. It is traversed by the Amargosa river, which is usually a dry channel, though probably it was formerly full of water. The level of the valley is covered with salt, supposed to have been brought by the torrents from the surrounding desert and left on the evaporation of the water. Death valley is said to be the hottest and driest place in the United States.

AMERICAN LEAGUE PULLED PRIZE BASEBALL BOMBER IN MAYS' CASE

Whole Thing Seems to Be a Precedent Upon Which Players Will Base Heavy and Frequent Demands for More Money for Their Services—Babe Ruth Gets Wise

BY H. G. SALSINGER

DETROIT, Mich., (P)—The American league is feeling the first effects of its recently inaugurated policy of hanging Babe Ruth. Certain magnates decided that Mr. Johnson was all wrong when he suspended Carl Mays for doing up the Boston club, and they discovered a boomerang in their action, and it will probably be a trifle difficult on the old bank account. The only way to impress the majority of the baseball magnates is to hit their bank account.

Babe Ruth is the first ball player to take advantage of the golden opportunities presented by his own boss, Harry Johnson, and some of the other members of the American league. Seeing that the well known bean ball artist, Mr. Mays, got a good deal richer by saying he would leave the Boston club, and by going somewhere where he could gather more coin of the realm, all because several club owners in the league said he could do it. Mr. Ruth is now making up his mind to do the same thing, and he is being urged to get away with the trick, why should not Mr. Ruth be able to do the same thing? He is playing in the same league as they are.

So Mr. Ruth, as has been recorded far and wide, has told the Boston club that it will have to pay him \$20,000 a year for hitting home runs and if the Boston club will not do that, he will join the American league and play under a similar contract and did not Mays say he would not play with Boston any more, and if he was not traded to some other club he would not play at all. And if not Boston sold him and did not Ban Johnson suspend him and did not the directors of the league (enough of them, at least) say that the suspension order did not apply to him, why should he not go right ahead and play, no matter what Mr. Johnson said? If the suspension order was not valid in the case of Mays, how could it be valid in the case of Ruth? If Mays, which would be doing the very same thing that Mays did!

Some people have maintained for years that baseball owners are shortsighted and narrow minded. Maybe they have not proven it so conclusively before, but right now they certainly have pulled one of the prize cock players out of the league and one that will hit them hard if ball players care to take advantage of the situation, which, according to reports from Boston, at least one player in the American league, and really showed some old-time dope on the ball.

J. B. Brady, sport promoter of Detroit, whose efforts to land the Dempsey-Willard bout for his home town last summer, is now turning his attention to baseball and hopes to have a "big league" team in Detroit next season.

Manager Ernie Johnson, of the Bees, is right on the job every minute. This new coast league pilot wants pitchers for next season and he is getting after them now.

If the Bees had been reasonably well fortified in the box last year, there would have been nothing to the race for the frog.

NOT SHOWING WELL

NEW YORK, (P)—The American national amateur boxing champions touring the Scandinavian countries, recently landed in their first appearance last Saturday at Copenhagen, according to a cable message received at headquarters of the Amateur Athletic Union, from Denmark, where the Danes, 115 pounds, won his bout, but Frank Cassidy of New York, 135 pounds, and John Burke of Pittsburgh, light flyweights were outpointed.

TOWNSHIP UP SPONGE

SOUTH BEND, Ind., (P)—Frank Mason, Fort Wayne, won over Bobby Armstrong of Jackson, Mich., in the eighth round of their scheduled ten round bout last night when Armstrong's second threw the sponge in to the ring.

YANKEE CHALLENGE ACCEPTED

NEW YORK, (P)—America's challenge for the Hinman trophy, emblematic of the world's speed boat championship, has been accepted by the Royal Motor yacht club of England. It was announced today by the American Power Boat association.

BIO PRICE FOR NAG

NEW YORK, (P)—A record price for an American horse was yesterday paid by Gifford A. Cochran of New York for Major August Belmont's stallion, Fair Play, sire of Man O'War and Dan Patch. The animal was sold for \$100,000 in cash and the privilege of breed ten mares to him each year for three years.

BRETON TAKES BEATING

LORAIN, O., (P)—Alvie Miller of Lorain outpointed Jerry Fox, the English featherweight, in a ten round fight, according to newspaper critics.

That spare room is a cash asset—if you can be satisfied. You can rent it to a desirable tenant at a good price, thus lessening your own rent burden.

CHILE PROSPERS WITH NEW TRADE

Sale of Nitrate to Great Britain Exerts Salutary Effect Upon Nation

SANTIAGO, Chile, (P)—Prosperity is coming back to Chile already as a result of the first shipments of part of 400,000 tons of nitrate sold to England by the committee formed in London by the Nitrate Producers' Association. It will all be delivered within the months of October and March and virtually places the control of the nitrate trade for the time being in the hands of Great Britain. British ships are carrying the fertilizer.

Export duties on nitrate form the main source of the state's revenues and the present fiscal year had shown a heavy deficit on account of the curtailment of nitrate sales. The present arrangement, however, has had a tonic effect on exchange which, at this writing, has gone up almost two points. Likewise, all stocks related to nitrate also have risen.

Unrest in Chile, due to the high cost of living and the desire of labor for better working conditions, took the form early in September of a small strike among the brewery hands which later called out various other trades in sympathy. The general strike lasted five days and troops were called out in some instances to handle train, street cars, run bakeries and protect union men who continued at work.

PROPOSES MARK FOR BLIND

Petition Suggests Universal Recognition of Symbol of Disability

SAN DIEGO, Cal., (P)—A petition suggesting a national movement that has for its aim the universal recognition of a symbol to be used by blind persons when crossing congested streets, has been received from Jean Elliott Wood, of Portland, Ore., by the mayor of San Diego. The plan is reported to have the approval of the mayors of Portland, Ore., Los Angeles and other cities.

The symbol that is proposed is a black and white flag, eight inches by 12 inches, divided diagonally into black and white halves. A letter accompanying the petition explains its object as follows:

Your signature will be greatly appreciated by all concerned in getting this flag nationally accepted for the assistance, protection and safety of our nation's blind. Their helplessness in crossing the rushed and crowded streets of our large cities, and their unanswered call for help in such places has so touched my very soul that I am persuaded that this flag will be a wonderful comfort to them, as well as a help to the vehicle drivers, motor men, and traffic officers, in assisting the blind.

Classified Ads introduce people to each other. In this city a good many people who are now doing business with each other met first as a result of a classified ad. Some of these, without this introduction, might never have known each other at all. Thus these little ads often have results that are far-reaching.

MINE SWEEPERS FINISH TASK IN BRITISH WATERS

Admiralty Directs Release of Most of Men Engaged in the Hazardous Work

LONDON, (P)—The task of clearing the home waters of moored mines having been finished, the admiralty has directed the release of all but 300 officers and men who have been engaged in this dangerous work. During the war there were 600 officers and 15,000 men engaged in the mine sweeping service.

Drifting mines must still be expected, shipping men have been warned, but it is believed that southern winds will soon drift them into the Heillogland Light.

Afloats were used for "spotting" the moored mines and the highest tides were chosen for sweeping so that the troyers drifted over them. No warship or merchant vessel obeying instructions struck a moored mine in areas under British control, but six or seven fishing vessels were mined.

SILVER WORTH MORE AS METAL THAN AS COIN

NEW YORK, (P)—Silver now is worth nearly five cents an ounce more as metal than it is as coin. Silver for San Francisco delivery was quoted on Tuesday at \$1.34 an ounce as compared with \$1.29 an ounce, which is the basis on which silver in coin is valued. Silver for local delivery was quoted at \$1.32 1/2 an ounce.

A Dead One.

The late Amelia E. Barr, who wrote sixty successful novels, was a keen and original critic.

She was discussing one of her own death scenes with a New York publisher last spring, and expressed profound dissatisfaction with the chapter. "That death," she said warmly, "has no life in it."

GIVES JAPANESE VIEWS

Tokio Newspaper Points Out Difficulties in Reducing Armament

TOKIO, (P)—The Kokumin Shimbun publishes an article pointing out the difficulties involved in the reduction of naval armaments. It says that the fact that the final victory won by the allies was due largely to the great naval power of the British empire will surely be a bar to the solution of the armament reduction problem to be dealt with by the league of nations. Above all, Japan being surrounded by the sea, must depend upon commodities imported from other countries.

The Kokumin adds that even if the present conditions of the navy be made the standard of the reduction of armament, Great Britain and America will not feel danger for their national defense. But Japan has not even a sufficiency for defense and cannot admit that the present condition of the navy is the standard of armament. The Kokumin also expressed the opinion that it would be unfair to make the length of coast line the standard of the restriction of armament.

Invests Against Lack of Boyard German Leadership in War

BERLIN, (AP)—The Taogliche Rundschau publishes a letter from the former Crown Prince Friedrich, in which he complains of the lack of realistic political leadership during the war, and of the failure of Germany to make peace with England on the basis of an economic compromise.

SUBS FOR WAGES

In the probate court this morning was begun trial of the action brought by Gordon Parker, a workman, against the Amalgamated Sugar company, for the recovery of money alleged to be due as wages for work performed.

KEEL IS DELEGATE

J. S. Keel leaves this afternoon for Salt Lake, where he will attend a conference reclamation delegates representing thirteen western states.

LIQUORED TO WED

A marriage license was issued yesterday by the county clerk and register to Willis J. Johnson, aged 27, and Vendia S. Johnson, 21, both of Twin Falls.

CONSTITUTIONALISTS CONTROL

ROME, (AP)—Latest reports indicate the constitutionalists secured 300 seats in the chamber of deputies in the recent election, the socialists 150 and the Catholics 60.

Social Notes

The Episcopal Guild will meet at the home of Mrs. E. B. Williams in the home of Mrs. J. O. S. at 2:30 p. m. tomorrow afternoon at 2:30 p. m.

The last of the series of five club dinners at the Lavering pavilion was given last evening with a large crowd in attendance. A very delightful time is reported.

The Wednesday bridge club will entertain at luncheon at the Hotel Paradise Friday, honoring Mrs. B. A. Hamilton. After luncheon the afternoon will be spent at bridge at the home of Mrs. M. J. Sweeley.

Chapter "D" P. E. O. met at the home of Mrs. Ernest White last evening with Mrs. White and Mrs. Arthur Ostrom hostesses. The evening was spent with a discussion of the work to be done during the winter.

Miss Ollie May McCormick social service worker, who is in Twin Falls for the week, will speak at the afternoon in the high school auditorium to the women of the city. It is hoped that at least five hundred women will be present Sunday evening.

The Daughters of the Revolution are preparing to give a series of afternoon musicals and a silver tea in connection, the offering to educate a French orphan adopted by the chapter and to defray expenses of some local charity work among children.

The Twentieth Century club met yesterday afternoon in the parlors of the Old Fellows hall with the vice president, Mrs. J. R. Conway, presiding. After an interesting business session, a synopsis of the opera of Carmen was given under the leadership of Mrs. A. Guilbert.

Mrs. A. B. Colwell and Mrs. H. E. Deiss entertained at the home of the former yesterday afternoon at a bridge party. The house was most attractive with decorations of yellow and white chrysanthemums.

WASHINGTON CITY SIDELIGHTS

Importance of America's Future Naval Program

WASHINGTON.—Uncle Sam's future naval program is beginning to assume greater importance than ever because of the trend of events in the Pacific. Japan has gained a dominating position in the Orient and by virtue of her exploitation of China is destined to become a power of such proportions and resources that she will be able at any time to challenge the control of the Pacific.

Japan is building a great navy as rapidly as her resources permit. At present her naval strength is estimated at less than half that of the United States, but she is concentrating in the construction of fast battle cruisers, which many naval authorities believe will be the determining factors in future naval warfare.

The Japanese naval program now under way will provide 73 cruisers of all classes, compared with 47 cruisers of all classes in the American navy.

With the Philippines unfortified at Japan's door, with the Hawaiian islands insufficiently defended, and with Japan acquiring the German archipelagos in between, many statesmen are of the opinion that the United States should not neglect to maintain a greater naval strength than Japan's in all types of craft as insurance against trouble in the Pacific.

Of course such views are not entertained by those who believe that the League of Nations is going to banish war forever.

It is noteworthy, however, that President Wilson deemed it important to send Admiral Rodman to the Pacific with an American fleet stronger in many respects than Japan's present available fleet.

Naval officials estimate that most of the ships authorized in the 1916 program will have been completed by next year and all of them by the summer of 1921. This will give the United States 41 first-class dreadnaughts, 21 battleships of the second class, six battle cruisers, ten scout cruisers, 400 destroyers, and 181 submarines.

To Understand Scenery Now Enjoyed Emotionally

THIS is the day of emotional enjoyment of national park scenery. Tomorrow is to be the day of appreciative enjoyment of national park scenery. In other words, various factors in the national movement have united in a campaign of education of the people so that they may double their enjoyment by having an understanding of the scenery they now enjoy only emotionally.

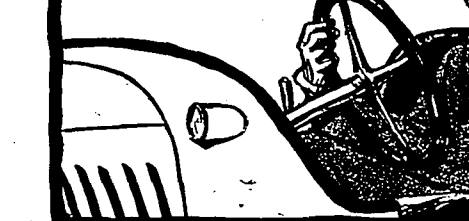

A work of this scope is a large undertaking. Nevertheless, this fact helps to lessen the undertaking. The national parks of America are not only the sublimate areas of natural beauty easily accessible, but are also the completest expression of the history of the earth in its making. More over nature has spread her records, so that anybody with understanding may read; they are accessible to all.

When the day of the understanding of scenery comes and the American tourist views with real appreciation the stream-made Grand Canyon abyss, the giant crater of a vanished volcano that holds Crater Lake, the Yosemite valley glacier-dug; the naked granite core of the Rockies in Rocky mountains, and the old, old ice-carved states of many-colored Glacier, his enjoyment will be greater in proportion to his knowledge. For no man can take out from nature's beauty more than he puts in—which is to say that we enjoy according to our experience and capacity.

Overheard. One evening as two of my girl friends and myself were returning from school we said some things about one of our classmates which were not at all flattering. Upon looking back a moment later I was shocked to find our classmate walking behind us.—Exchange.

That's the Question. "I bought one of those fountain pens I was telling you about today. The price has come down." "But will the ink come down?"—Boston Transcript.

You can win a better job, if you are ready for it, through the classified.

FOR the man who drives his own car the Knit-tex coat is a joy and a comfort. When you throw her into second or make a sudden sharp turn—when you bend forward to turn a switch on the dash board or raise the windshield—there's no binding, no pulling—no discomfort. Knit-tex gives with every movement of the arms or body, but falls back instantly into shape. It never wrinkles, it seldom needs pressing and it will outwear the average coat 3 to 1.

LODGE RESOLUTION OF TREATY RATIFICATION IS PRESENTED TO SENATE

(Continued from Page One)

strikes out the objectionable ones will be made. If the majority of those present indicated a working agreement based on a combination of the Hitchcock and McCumber proposals, modifying the committee reservations, could be reached.

Senator Hitchcock said the democrats were of the belief that the vote on unqualified ratification should be taken after, and not before, the Lodge resolution was disposed of.

"A number of senators are committed to the Lodge reservations," he said, "and it would not be kindly to propose now, when senators are bound by pledges, a resolution of unreserved ratification."

Senator Hitchcock added that after a vote on the Lodge resolution he would be glad to get unanimous consent to offer a resolution of unqualified ratification.

"There have been no pledges by the senators," Senator Lodge added. "The reservations were adopted by free, unaided votes of senators, and, in my opinion, they will not be modified by any talk of withdrawal."

Senator Smith, Democrat, Georgia, opening the debate, said he "declined to allow his views to be controlled by anyone else."

"I will vote for the resolution and the reservations that have been presented, though I would be gratified in many respects to see them changed," he said.

Republican leaders said they would endeavor to prevent consideration of day substitute resolutions from the minority, but would agree to reconsideration of the first vote on the Lodge resolution. Senator Lodge said that on reconsideration the majority resolution would be presented without modification and republican spokesmen insisted that should it be deferred on the second and final vote they would consider it a defeat of the treaty.

Republicans of the "mild reservation" group decried the president's letter but backed the movement to effect a compromise and said most of their group would stand behind the majority leader.

Republican leaders said only 28 democrats had agreed to vote against the majority resolution and that in the democratic conference today a number of democrats advised Mr. Hitchcock they would not vote against ratification.

President's Letter. The president's letter, addressed to Senator Hitchcock and dated yesterday, follows:

Dear Senator: You were good enough to bring me word that the democratic senators supporting the treaty expected to hold a conference before the final vote on the Lodge resolution of ratification and that they would be glad to receive a word of counsel from me. I should hesitate to offer it in any detail but I assume that the senators only desire my judgment upon the all important question of the final vote on the resolution containing the many reservations of Senator Lodge. On that I cannot hesitate for in my opinion the resolution in that form does not provide for ratification, but rather for the nullification of the treaty. I sincerely hope that the friends and supporters of the treaty will vote against the Lodge resolution of ratification.

I understand that the door will probably be kept open for a genuine resolution of ratification. I trust that all true friends of the treaty will refuse to support the Lodge resolution.

Cordially and Sincerely Yours, WOODROW WILSON.

MURTAUGH

MURTAUGH, (Special).—An enthusiastic Farm Bureau community meeting was held Tuesday evening at Murtaugh. Local problems of the community were discussed, and a program of work was decided upon for the coming year.

Seed improvement, field demonstrations and a winter grain grading school will be carried on. Women's work in the community will be carried on in dress form work and poultry improvement. Farm Bureau junior work, boys and girls division will be carried on in a larger way than it was last year.

A feature of the evening was an interesting talk on grain grading and small seed certification by Mr. D. F. Sheehan, state seed commissioner from Boise.

MINERS AT BOCK SPRINGS RESUME WORK DESPITE THREAT

ROCK SPRINGS, Wyo., (AP)—The majority of coal miners in the Bock Springs area returned to work today despite open threats that they would be shut off if they attempted to do so, and mine operators estimate that by tomorrow the mines will be running with nearly normal crews.

REVOLUTION IS QUELLED

WASHINGTON, (AP)—The revolution at Vladivostok has been quelled, dispatches today to the state department said.

Lucid. Little Roy had just returned from a week's visit to his aunt, and was trying to describe the folding bed he had been sleeping in. "It lays down at night, mamma, and stands on its hind legs in the daytime."—Boston Transcript.

FUEL ADMINISTRATION URGES THE NEED FOR COAL UPON THE WAGG CONFERENCE

(Continued from Page One)

figures on the 1919 operations, and was suspicious of partial figures, but that he did have some data which showed that in certain field operations were making less in 1919 than in 1918.

"But that is true, why is it that the selling price of coal to the consumer has increased \$1 a ton this year?" asked Percy Tellow, of the miners.

"I do not know us to that," Dr. Garfield replied. "But even if it is so does it enter into our problem here except as it affects the cost of living?"

"Well, it's a question of importance to the consumer," Tellow returned. "Our figures show that the margin to the retailer is more than \$2 a ton on coal. It is important that the public be protected. We realize that one of the greatest problems is that of the profit that is added to coal after it leaves the mine, and that the producer be not receiving a fair proportion of what the consumer pays."

WARNINGS FAIL TO DETER HUNTS U-BOAT ATTACK

Germany Decided on Unrestricted Submarine Warfare Regardless of American Attitude, Investigators Learn

BERLIN, (P)—Germany decided upon unrestricted submarine warfare in spite of warning that such a step would bring the United States into the war. This was proved Tuesday by reports read at the inquiry into war responsibility being conducted by a sub-committee of the national assembly...

Ottawa War for Defense The field marshal declared Germany did not desire war and entered the struggle with her defensive strength impaired. He charged there was a link of cooperation between Germany and a number of other nations...

Military Display Absent The field marshal and his chief aide during the war rode to the Reichstag building behind a squad of newly organized military police, being mounted on shaggy, ill-trained horses...

Heavy Armed Protection It was observed that even the former emperor, in his frequent rides to Berlin was never given the armed protection which today was accorded the benefit of the former army leaders...

DIME NOVELS COMING BACK In Eighteen Months "Nick Carter" Has Had Sales That Have Been Record Breaking...

Nick Carter has come into his own again. The king of the "paperbacks" has made a record-breaking return to popularity. About eighteen months ago...

And Nick Carter was not the only member of the "paperback" tribe to return. All the old favorites—Laurie R. King, Rex Stout, and Agatha Christie...

Five years ago everyone was willing to predict that the movies had killed the production books. Thrillers could be absorbed more quickly from the screen than from the printed page...

The "Happy Ending." "Margie," can you afford to keep a "Mumsey"? "No dear." "So they did not marry and they lived happily ever afterward."

BRITAIN NEEDS PRODUCTION Parliamentary Secretary Advises the Study of Experience in America

LONDON, (P)—England needs to produce a great deal more wealth than she did before the war and she can learn from America how to do it, said Mr. McNary, parliamentary secretary to the food controller...

"Machinery and motive power are the two main things workers fear in business," he continued. "Before the war the American worker was far better equipped in this respect than the British worker..."

GERMANS STUDY COUNCIL SYSTEM National Assembly Committee Proposes Compulsory Employes Organization

BERLIN, (P)—The German industrial world is confronted with a problem of the organization and operation of councils of wage earners on employes in many lines of industry. The national assembly of the Reichstag...

The committee on industrial councils of the national assembly has approved a draft of the proposed law by which a council of employes would be compulsory in every business establishment employing more than 20 persons...

German newspapers express grave doubts as to whether the council system will prove a success and assert that the newspaper industry is threatened with strikes because of personal political differences among their employes...

The council in two of these metal working shops have unanimously voted that members of only one party shall be employed in these establishments. The trend of many of the councils is frankly directed against the employment of women in positions which men can fill...

The council of one of the leading hotels in Berlin is composed of a waiter, painter and a fireman. It recently demanded the dismissal of a married woman who with her husband worked in the kitchen and was paid less than should not draw salaries. After the woman protested the demand was withdrawn, but the council has compelled the manager of the hotel to find more competent women employes and replaced them with men.

There is a certain young officer who, according to his own story, is thanking his stars that General Pershing had a sense of humor. "Some of my men were Polish, and their soldiers never heard of Pershing in Poland life has been one long sad story," said the officer. "Anyway, I never ran across a bunch who took things so literally. One night the Germans sent out a three-inch shell that landed square in the trench. The only man who stayed in the trench, Pete, we called him, to take it away."

"Where shall I take it?" he asked. "Oh, anywhere," I answered peevishly, "but it to bed in Pershing's tent."

"A little later a brother officer came along and said: 'The old man wants you, and there's something doing.' 'I couldn't imagine what was up until I stood before the chief. He eyed me from head to foot and pointed to my bunk, and would you believe it, there was that blined shell. Pete sure had obeyed orders. Well, I thought I was in for it, but Pershing suddenly began to smile. He said: 'I just want to mention you in my report. To capture Berlin until the rest of us are ready to go with him. He might go and do it, you know.'—Rehoboth Sunday Herald."

STORIES From the BIG CITY

How Dr. Frank Billings Got His Bearskin Rug

BOISE, IDAHO—Guests at the home of Dr. Frank Billings in Chicago this winter will be escorted in state to the library. "What do you think of that for a fine specimen?" the host will ask. The company, properly impressed, will gaze on a shaggy glaucous bearskin, the fangs gleaming savagely in the freight.

"Some bear!" they'll say. Then politeness will prompt them to ask the doctor how he bagged it. "Shot the old fellow out in Idaho—from the front seat of an auto," Doctor Billings will chuckle. "Want to hear the story?"

The story will be something like this: A. S. Trude, a noted Chicago lawyer, has a ranch at Red. He was entertaining a party of very prominent Chicagoans, including Doctor Billings, C. K. G. Billings and Roger Sullivan. They were out motoring and were not loaded for bear. Doctor Billings carried a shotgun in case any small game, such as grouse, appeared.

Suddenly a big cinnamon bear jumped from the scrubbrush into the road just ahead of the car. Doctor Billings was in the front seat. He blazed away at him. This is the way Mr. Trude tells the rest of it: "At first the bear galloped on us, though we tore along as fast as the chauffeur could make the car go, but after a while we gained on the bear, and the doctor fired a full charge into his neck, just back of the head. This caused it to fall and roll partly over, but it recovered and resumed its journey, bear fashion, down the trail, with the auto at full speed in pursuit, jumping over banger holes and ruts and with the doctor getting in a shot as often as he could."

If set in the rear seat, hanging on and yelling to the doctor to soak him again, which he did by landing a full charge of shot just back of brain's shoulder."

Some states have laws forbidding shooting game on highways and from automobiles. Evidently Idaho is not one of these states.

ORDINANCE NO. 277

An Ordinance declaring the intention of the City Council of the City of Twin Falls, Idaho, to grade, pave, curb and surface certain streets and alleys within said city; and to assess the costs and expenses thereof by special assessment levied against the lots and parcels of land fronting or abutting on, contiguous or tributary to, the streets and alleys to be improved and benefited by said improvements in proportion to the benefits derived; to pay the expense of said improvement; declaring that the improvement of street intersections and street and alley intersections shall be paid by the City; and declaring its intention to create for that purpose Local Improvement District No. 57 in said City, including all the property fronting, abutting on, or contiguous or tributary to the portion of the streets and alleys to be improved, and the lots or parcels of land benefitted by said improvement...

Whereas, it is deemed necessary and beneficial by the City Council of the City of Twin Falls, Idaho, to grade, pave, curb and surface certain streets and alleys within the corporate limits of said City hereinafter particularly described, and

Whereas, the cost of said improvements is to be levied and assessed upon the property benefitted, to-wit: On the lots, blocks and parcels of land abutting, fronting, contiguous or tributary to such streets and alleys so to be improved, and in proportion to the benefits derived; Provided, that the expense of all such improvements in the spaces formed by the junctions of two or more streets, or the spaces formed by the junction of street and an alley, or spaces opposite alleys, or wherein one main street or alley terminates on or crosses another main street, and also all street crossings or cross walks shall be paid by the City.

Whereas, the City of Twin Falls, Idaho, on the 13th day of October, 1919, adopted Ordinance No. 273, being an ordinance declaring the intention of the City of Twin Falls, Idaho, to grade, pave, curb and surface drain certain streets and parts of streets within the City of Twin Falls, Idaho, hereinafter specified, and for that purpose to create and establish said City of Twin Falls as a part thereof Local Improvement District No. 37, constituting the streets and alleys or parts of streets and alleys as follows: Main and Avenue North. One block from Shoshone Street to Second Street North, 400 feet in length, 10 feet in width, making said proposed improvement 50 feet in width instead of 40 feet, as provided by Ordinance No. 250 1-2 of the City of Twin Falls, establishing Local Improvement District No. 34.

Third Avenue East: One block, from Shoshone Street to Second Street East, 400 feet in length, 10 feet in width, making said proposed improvement 50 feet in width instead of 40 feet, as provided by Ordinance No. 250 1-2 of the City of Twin Falls, establishing Local Improvement District No. 34.

Section 2. The property to be included in said district and assessed as hereinbefore provided, shall include all the property fronting or abutting on, contiguous or tributary to the said streets, avenues and alleys to be improved, and between the points herebefore specified, and to the distance back from such points as may be specified, platted in blocks to the center of the block; if there be lots to the center of the lots; and if not platted, to the distance of 125 feet.

Section 3. The general character of said improvements shall be the grading, surface draining and paving of the said streets and alleys, to the width herebefore set forth, between the points herebefore specified, said paving to conform to the general plans now on file in the office of the city engineer and the city clerk, and the construction of a concrete curb along the sides of the said portion of the said streets as herebefore specified where a concrete curb is not already constructed, extending the concrete curbs which are already constructed, along the said portion of the said streets downward where they are found to be not deep enough for the purpose of paving, except across roadways or intersecting streets. Said improvement is an original improvement.

Full plans and specifications for said proposed improvement to be filed in the office of the city clerk of said City on or before the day on which the mayor and council will receive protests against making the said proposed improvements.

Section 4. The cost and expense of said proposed improvement shall be taxed and assessed upon all property in said improvement district in proportion to the number of feet of such lands and lots fronting thereon, or abutting, contiguous or tributary thereto, and in proportion to the benefits derived by said improvement.

All property within said improvement district to be assessed as aforesaid for the cost of said proposed improvement except that the expense of the improvement in the space formed by the junction of two or more streets, or the space formed by the junction of a street and alley, or the space formed by the junction of alleys, or spaces opposite alleys, or where one main street terminates on or crosses another main street, and also all necessary street crossings or roadways at corners and intersections of streets, and the expense of making and repaving streets shall be included in said assessments; but shall be paid by the City of Twin Falls.

When work is done on one side of the street, on one side of the center line, the property on that side only shall be assessed. The total cost and expense of said improvement, according to the estimate returned by the city engineer, is the sum of seven thousand three hundred thirty seven dollars and eight hundred ninety eight cents (\$7,337.88) dollars, divided as follows: Front footage of property owners \$10,325.37 Twin Falls intersections \$2,493.67

Total \$12,819.04 Therefore, he it ordained by the mayor and council of the City of Twin Falls, Idaho, as follows: Section 1. The City of Twin Falls, Idaho, does hereby declare its intention to grade, pave, curb and surface drain certain streets and parts of streets and alleys within the City of Twin Falls, Idaho, hereinafter specified, and for that purpose to create and establish said City of Twin Falls as a part thereof Local Improvement District No. 57.

Section 1. The City of Twin Falls, Idaho, does hereby declare its intention to grade, pave, curb and surface drain certain streets and parts of streets and alleys within the City of Twin Falls, Idaho, hereinafter specified, and for that purpose to create and establish said City of Twin Falls as a part thereof Local Improvement District No. 57.

Section 2. The property to be included in said district and assessed as hereinbefore provided, shall include all the property fronting or abutting on, contiguous or tributary to the said streets, avenues and alleys to be improved, and between the points herebefore specified, and to the distance back from such points as may be specified, platted in blocks to the center of the block; if there be lots to the center of the lots; and if not platted, to the distance of 125 feet.

Section 3. The general character of said improvements shall be the grading, surface draining and paving of the said streets and alleys, to the width herebefore set forth, between the points herebefore specified, said paving to conform to the general plans now on file in the office of the city engineer and the city clerk, and the construction of a concrete curb along the sides of the said portion of the said streets as herebefore specified where a concrete curb is not already constructed, extending the concrete curbs which are already constructed, along the said portion of the said streets downward where they are found to be not deep enough for the purpose of paving, except across roadways or intersecting streets. Said improvement is an original improvement.

Full plans and specifications for said proposed improvement to be filed in the office of the city clerk of said City on or before the day on which the mayor and council will receive protests against making the said proposed improvements.

Section 4. The cost and expense of said proposed improvement shall be taxed and assessed upon all property in said improvement district in proportion to the number of feet of such lands and lots fronting thereon, or abutting, contiguous or tributary thereto, and in proportion to the benefits derived by said improvement.

All property within said improvement district to be assessed as aforesaid for the cost of said proposed improvement except that the expense of the improvement in the space formed by the junction of two or more streets, or the space formed by the junction of a street and alley, or the space formed by the junction of alleys, or spaces opposite alleys, or where one main street terminates on or crosses another main street, and also all necessary street crossings or roadways at corners and intersections of streets, and the expense of making and repaving streets shall be included in said assessments; but shall be paid by the City of Twin Falls.

When work is done on one side of the street, on one side of the center line, the property on that side only shall be assessed. The total cost and expense of said improvement, according to the estimate returned by the city engineer, is the sum of seven thousand three hundred thirty seven dollars and eight hundred ninety eight cents (\$7,337.88) dollars, divided as follows: Front footage of property owners \$10,325.37 Twin Falls intersections \$2,493.67

Total \$12,819.04 Therefore, he it ordained by the mayor and council of the City of Twin Falls, Idaho, as follows: Section 1. The City of Twin Falls, Idaho, does hereby declare its intention to grade, pave, curb and surface drain certain streets and parts of streets and alleys within the City of Twin Falls, Idaho, hereinafter specified, and for that purpose to create and establish said City of Twin Falls as a part thereof Local Improvement District No. 57.

Section 2. The property to be included in said district and assessed as hereinbefore provided, shall include all the property fronting or abutting on, contiguous or tributary to the said streets, avenues and alleys to be improved, and between the points herebefore specified, and to the distance back from such points as may be specified, platted in blocks to the center of the block; if there be lots to the center of the lots; and if not platted, to the distance of 125 feet.

Section 3. The general character of said improvements shall be the grading, surface draining and paving of the said streets and alleys, to the width herebefore set forth, between the points herebefore specified, said paving to conform to the general plans now on file in the office of the city engineer and the city clerk, and the construction of a concrete curb along the sides of the said portion of the said streets as herebefore specified where a concrete curb is not already constructed, extending the concrete curbs which are already constructed, along the said portion of the said streets downward where they are found to be not deep enough for the purpose of paving, except across roadways or intersecting streets. Said improvement is an original improvement.

Full plans and specifications for said proposed improvement to be filed in the office of the city clerk of said City on or before the day on which the mayor and council will receive protests against making the said proposed improvements.

Ignated as the date on which the mayor will receive protests against the making of the said proposed improvement on all persons affected by the same are hereby notified to file their protests in writing with the city clerk on or before or at the time of said meeting. Place where protests will be received and heard will be at the office of the city clerk of said city.

Section 6. That the city clerk be, and he is hereby ordered to forthwith cause publication of this ordinance to be made in the official newspaper of said city in at least two consecutive issues thereof, after which protests may be filed against the creation of said improvement district, as hereinbefore set forth.

Passed by the City Council of the City of Twin Falls, Idaho, this 17th day of November, 1919.

W. H. ELDRIDGE, Mayor

Attest: W. A. MINNICK, City Clerk. (Seal)

Thirst of Sea Birds. Some species of sea birds frequently spend weeks at sea and are believed to quench their thirst partly from the falling rains. The keen eyesight of birds is well known, and sea birds have been observed flocking toward a storm cloud about to burst.

Chinese Locomotive Engineers. Chinese engine drivers have the greatest sense of touch with the air brake of any in the world. A break in tow is almost unbearably, and there is very little damage to cars in Shanghai on Chinese railways.

Extraordinary. When little Junior saw six jet black baby kitties the other day, he was so surprised to see them exactly alike, he said, "Oh, mother, come and look; why each one is a twin."

NEGLECTED GOLDS ARE DANGEROUS!

Dr. King's New Discovery soon brings a cold and checks a cough

CHILLS—fever—sneezes—and then a hard cold develops. Take a little Dr. King's New Discovery when the sniffles start. It will soon check the cold; the cough-brooding throat-ache. Used everywhere by people who know why it has been on the market for half a century. Relieves cold, cough, gripe, croup. No disagreeable after-effects. All druggists—5c. and \$1.20 a bottle. Give it a trial.

Bowels Behind Schedule? Liver acting lazy? Bring them into line with Dr. King's New Life Pills. Gentle but sure-acting system cleansers that are tonic in action until pleasing in results. Still 25c a bottle at all drug stores.

Teach Your Boy the Savings Habit

and his future success need concern you little.

Strange—but true—that many parents sacrifice unselfishly to give their boy or girl an education, but overlook entirely the very practical value of the habit of saving a little money.

Young America needs training in savings as never before. A little self-denial now and then is the best kind of training in habits that lead to business success.

RECLAMATION OF STATE'S LANDS WILL BE IDAHO CONCLAVE THEME

Booster Associations are Urged to Send Delegates to Attend Specially Called Irrigation Conference in Idaho Falls, November 24—National Figures Have Been Invited

Urging that delegates be sent to a general state reclamation convention to be held in Idaho Falls, November 24, W. G. Swenson, state reclamation commissioner, in a general letter to all booster and commercial organizations of the state, tells of the extreme importance of early action toward the reclaiming of many thousands of arid acres in Idaho without delay.

Mr. Swenson in his letter calls attention to an important reclamation convention to be held in Salt Lake November 21 and 22, for the purpose of discussing various reclamation questions and projects, and says the importance of early action toward the reclaiming of many thousands of arid acres in Idaho without delay.

SCHOOL AUTHORITIES FROWN ON "SCALPING"

Haircutting is Taboo at High School—Class Feeling Gets Rebuke

The haircutting practice is taboo at the high school here this year. This was decided at an assembly of male students yesterday when leaders of the two upper classes, Principal Mitchell and Football Coach George Demmon, addressed the boys on the need for more school spirit and less class feeling during the remainder of the football season.

Principal Mitchell said the class war which has been going on since the beginning of the year has been discontinued and asked that it be discontinued. Other speakers from both upper classes expressed the hope that the assembly would be the last of the "scalping" of the football team's remaining contests and to discontinue all "scalping" until the games were played. A vote was taken and the students decided that since cold weather would likely interfere with haircutting next month, the practice should be entirely discontinued for the rest of the year.

Plays Rheumy Ache Against Paid Prophet

THE News' weather editor will back a lumbago hunch to the limit as a weather prognosticating vehicle or conveyance against any blowing-in-the-bottle prediction sent forth by a hired prophet.

"Fair today, tonight and Thursday," says the hired man in Boise.

Cloudy today; threatened rain and other things "Thursday," says we.

On those two predictions the public may pay its money and take a choice, as for the editor he will lay odds on that dull ache to be nearer right than all the figured climatological charts in the federal weather bureau.

Fifty-eight points marked the spring weather of yesterday with 24 degrees for low during the night.

Clouds of a threatening character formed this morning, prepping a break in the "generally fair" system for the past 10 days.

MOONSHINER'S ATTEMPT FAILS

Crude "Still" Outfit Fought by Deputies in Deserted Ranch Cabin

From a deserted cabin on the William Beckwith farm eight miles south of Rock Creek town sheriff's deputies yesterday confiscated a private whisky still.

The outfit was brought to Twin Falls and is now a part of "musee" collection of exhibits at the office of Sheriff A. N. Sprague.

The capture was made by George F. Huffman, a regular deputy of the office, assisted by A. Holland, specially deputized for this adventure.

This pair, with a private citizen, lay in wait for the operators two days and three nights. The moonshiners failed to appear.

The "still" is probably the most uniquely crude outfit ever brought to the attention of prosecutors of prohibition law violators in this section. So crude is it that every indication points to failure of the attempt to manufacture contraband liquor with the apparatus. The mash container is a 40-gallon iron barrel, from an improvised bung there leads a long piece of galvanized iron water pipe, bent in three circles at one point to form a worm. At the far end is attached a brass faucet. A stone jug and an old-fashioned coffee mill were found with the crank and worm lead pipe, the mill being required to grind corn and other cereal elements forming the ingredients to make a distiller's mash.

FORGERS ADMIT CRIME CHARGE AGAINST THEM

Davis and Chapman Will Be Sentenced Saturday—Court Takes Rest

This was a day of rest and quietude in the district court, there being no prisoners introduced for arraignment on criminal charges. Yesterday, too, was markedly less hectic than on Monday, although several accused men were in court for hearing or arraignment.

Yesterday afternoon George Davis and John W. Chapman were arraigned on charge of uttering forged checks. They admitted guilt and will be sentenced by Judge W. A. Babcock, Saturday.

J. R. Annis, accused of forging W. S. Starr, at the point of a gun, to sign a check for several hundred dollars, entered a plea of not guilty. Trial has been set for December 1.

DROUGHT HITS AUSTRALIA

Stocks and Crops Destroyed; Prospect for Hood Wheat Doubtful

LONDON, (AP)—Australia, especially New South Wales, is suffering the most devastating drought since white men have roided there, according to a Sydney dispatch to the Daily Mail.

Stocks and crops have been destroyed and it is doubtful if there will be seed wheat enough for next season. Hundreds and perhaps thousands of settlers have been ruined. Northwestern New South Wales is described as a desert, stripped of everything green. Feed-stocks are littered with the skeletons of cattle, and even rabbits are dying in vast numbers.

CORN FOR SILAGE

A recent inquiry revealed the fact that 9,800 acres of corn were cut in Idaho for silage this year. With an average yield of 10.4 tons per acre, the total production of ensilage was 102,688 tons. Most of this is grown in the Boise-Payette and Weiler Valleys; the Rupert-Twin Falls region; and Nez Perce, Latah, Clearwater and Kootenai counties in the panhandle.

CORN GOOD YIELD

Idaho corn for grain averaged 25 bushels per acre which is well above the United States average this year of 23.3 bushels, but lower by 5 bushels than the state yield last year. Eighty-nine per cent of the crop matured without frost damage and the quality is placed at 90 per cent.

Local Brevities

Had No Car License—In the probate court yesterday afternoon Clarence King entered a plea of guilty to the charge of operating an automobile without having first procured the necessary state license. He was fined \$10.

Requires Personal Service—In the divorce action filed by Frank Garrison against Myrtle Garrison, Judge W. A. Babcock yesterday filed an order for personal service on defendant, who is said to be a resident of an outside state.

Accused of Fighting—Olaf Nelson was arrested yesterday by the police on charges of disturbing the peace by fighting. The complaining witness was Melvin Rile. Nelson denied the accusation and will be formally tried tomorrow.

Heavy Snow in Jackson Hole—W. B. Wolfe who has been in the Jackson Hole country for the past several weeks writes that two weeks ago the snow measured 42 inches on the level and there have been two big snows since.

Fine Action—Fred Wilson has filed action in the probate court against E. J. Murray claiming damages amounting to \$100. The suit is the result of an alleged collision by defendant's automobile with a carriage owned by Wilson.

Elks to Serve Elk—A game dinner, with a nine-point elk carcass of the piece de resistance, will be the feature of tomorrow night's meeting of the lodge B. P. O. E. The dinner will be served in honor of P. B. Vesoble, district deputy of Moscow, who is to make an official visit to Lodge No. 118. Intuition will be exemplified on this occasion.

Feast for Masons—At the conclusion of a Third Degree meeting of Twin Falls lodge, No. 64, A. P. & A. M., next Monday night a "feast" dinner will be served in the Masonic temple dining room. The occasion is planned to be one of the most momentous fraternal affairs of the season. The Temple quartet will provide entertainment music.

Goes to Rochester—E. H. Larned left this morning for Rochester, Minn., where he will enter Mayo Bros. hospital for treatment.

Goes to Oklahoma—Mrs. Lydia Schott, who has been visiting at the home of her daughter, Mrs. Mary M. Shea, for the past few months, left this morning for Oklahoma where she will spend the winter.

Pythian Sisters to Meet—The Pythian Sisters will hold their next regular meeting Friday afternoon, November 22, at 2 o'clock in O. O. F. hall. As there is to be initiation all members are requested to be present.

TO MEET AT CHURCH
The Women's Missionary Society of the Presbyterian church will meet Thursday afternoon at 2:30 in the church parlors.

BABCOCK ORDERS VENIRE DRAWING

Solections Will Be Made Tomorrow of Men who Will Serve on Jury

This morning Judge W. A. Babcock, of the district court, issued an order for the draft of 30 veniremen, to compose juries needed for the term of court just initiated.

According to the terms of the court order a drawing of names must be conducted tomorrow afternoon so that legal service may be obtained in time for the opening of the court calendar, December 1.

TEACHERS' EXAMS

Teachers' examinations, covering a period of three days, will open here tomorrow. The first two days' programs of tests will probably be conducted in some room at the courthouse, while on Saturday, it is quite likely, papers will be written at the high school.

DROUTH EFFECT FELT

The effect of the severe drought this year is reflected in the average weight per measured bushel of small grains when compared with last year. Winter wheat averaged 58.9 lbs.; spring wheat, 62.2 lbs.; oats, 34.6 lbs.; and barley, 48.5 lbs. Last year showed winter wheat 59.7 lbs.; spring wheat 59.0 lbs.; oats 34.6 lbs.; and barley 48.3 lbs.

DON'T FORGET—SHERMAN'S SALE ON NOV. 20, IF YOU WANT A GOOD COW—adv.

CLOVER BELOW 1918

Both acreage and average yield per acre of clover seed are under last year's. With an average yield of 5.7 bushels per acre, the red clover production is placed at 51,785 bushels. Some yields in Canyon county were exceptional, running as high as 14 and 16 bushels per acre. Average yields in important counties follow: Ada 6 bushels, Canyon 8 bushels, Cassia 6 bushels, Gooding 4.5 bushels, Minidoka 6 bushels, Twin Falls 5.5 bushels. The state average of 5.7 bushels compares with 6 bushels last year.

REAL ESTATE

Eight room house, on good location, on a corner lot, furnace, sleeping porch, large basement, good garage, plenty of shade trees, and lawn in excellent condition. Possession can be given December 1st. In order to make a quick sale, the price will be \$6,000, \$1,000 cash, and the balance the same as rent on a house of this size.

Close in, five room bungalow, bath and sleeping porch, large garage, good lawn and shade trees. This is practically a new house, in perfect repair, and several good features, such as a well arranged kitchen, etc. \$4,000. Terms can be arranged satisfactorily.

Wright's A GOOD PLACE TO TRADE FORMERLY HART'S

A Two Day Sale of Millinery

Friday and Saturday are to be Millinery Days at this store. Coming directly from our eastern millinery shops are fifty smart, new midwinter hats. These hats are sent to us for a Two Day Sale. Any of the hats that remain unsold by closing time Saturday night are to be returned to our Ogden Branch. Our Twin Falls customers are to have first choice.

In the offering are hats for every occasion—street hats, dress hats, large hats and small hats—all of them handsomely trimmed and the products of our expert trimmers.

The assortment comprises models that were designed to sell at from \$10 to \$20. As this is our first attempt to sell millinery in Twin Falls, we have decided to make one low price for choice of the entire assortment. The hats are now on display in our windows and will be on sale from Friday morning to Saturday night only.

Choice \$5.95

MOUNTED POLICE FORCE PROPOSED FOR ALASKA

VALDEZ, Alaska, (By Mail)—Establishment of a mounted police force in Alaska similar to the Royal Northwest Mounted Police of Canada was urged in a federal grand jury report filed here recently.

Thos. Riggs, Jr., governor of Alaska, in his message to the last Alaska legislature, declared Alaska should have a similar force.
