

# DECLARES LABOR HAS LOST SIGHT OF OBLIGATIONS

Former Official of Emergency Fleet Corporation Denounces Apparent Intent to Follow Course of Radicalism

ST. LOUIS, Mo., (AP)—Stating that organized labor had lost sight of their obligations to the public, Charles Fitz, former official of the emergency fleet corporation, pronounced as his belief that the red flag of radicalism had been raised above the red, white and blue in the American labor movement. In an address delivered before the final session of the American Mining congress here Friday.

"At this time organized labor is stronger in membership and stronger in solidarity than ever before in its history," said Mr. Fitz.

"There is evident in its methods and its aims none of the care and consideration that attend the exercise of great power. It has thrown caution to the winds and prepared to wreck the state itself in its blind intent to follow the course laid by radicalism."

"The executives of the American Federation of Labor have yielded too much to the desire for numbers, and they have, therefore, before them a large job of house cleaning to re-establish themselves in the public confidence."

**Democracy Before Peace**

"There can be no industrial peace until there is more democracy in industry," John Leitch, of New York, declared in an address at the convention.

Preceding Mr. Leitch, John A. Davis, governor of the congress' Alaskan chapter, warned that unless power be made cheaper in the far north, Alaska would lose its gold mining industry and its population.

"Our industrial government has been too autocratic," Mr. Leitch declared. "It seems to have been content that 'providence in His wisdom has left in our hands the management of the common people.'"

"Do not believe the management needs changing, but I believe the methods of management can be made less unpopular. The management must be made popular or the business cannot be profitable."

"We must work to bring out the spiritual power of man and arouse his conscience as to his duty. This will help, but until there is more democracy in industry there can be no industrial peace in the world."

**World Solves Alaska's Problems**

Mr. Davis said Alaska's problems would be solved if the government created a \$9,000,000 power plant there.

"Electricity for fuel is available in huge quantities," said Mr. Davis, "but the thirty per cent of moisture in it makes it cost excessively high when transportation facilities are lacking. This factor is considered. This transportation is only good between May and October and it is impossible to store or erect stock piles of lignite owing to its moisture."

"But if the fuel is utilized in a central power plant, located in the heart of the lignite fields to avoid all the transportation charges, and employing modern equipment, the cost of the lignite to its best advantage, power can be generated and transmitted electrically to the mining districts at one-fourth to one-sixth of the present cost of generating it at the individual mines."

**Government Should Build**

"This power plant should be built by the government because it is most vitally interested in the future of Alaska. It is today building a railroad from Sitka to the interior at a cost of \$52,000,000 based on a well grounded faith in the development of the district. But the realization of this faith depends on the energy and the future of the mining industry, for which cheaper power is absolutely essential."

"The work must be undertaken quickly, however, because the mining industry of the interior of Alaska is facing a grave crisis. Costs are prohibitive, except for extremely rich bonanzas, and the cream has already been skimmed from most of these. The completion of the railroad will help by reducing the cost of supplies, but it cannot, of itself, solve the problem entirely because it cannot furnish cheaper power."

"It rests with the people of the nation to determine the future course of the interior of Alaska, whether the outcome of the crisis is to be a retarded development, or a rapid and sudden reversion to the conditions of sporadic hunting and fishing that prevailed before the discovery of gold."

Finding a position is sometimes a most disheartening task. Just to rely upon friends, without making personal applications, often leads to utter discouragement. The quick road to a position is through the classified. Sometimes this road requires more than one day to travel but it leads inevitably to the desired goal if followed.

## Students Offer to Serve in Coal Mine

TOPEKA, Kan., (AP)—If the Kansas coal miners refused to go to work on the plan being outlined to them by Governor Allen, 1000 young men of the Kansas Agricultural college are willing to dig coal, said a telegram to the governor from President William Jardine, of the college.

## VAUDEVILLE RELIGION COMMANDS NO RESPECT

Y. M. C. A. Commission Reports on Results of Work of Organization Among Service Men

DETROIT, Mich., (AP)—"Vaudeville religion"—religion sandwiched in between motion pictures or other entertainments—did not command the respect of American soldiers at camp at home or abroad, a special commission of the Young Men's Christian association, investigating relations between the church and the association reported to the fortieth international convention Friday.

"Wherever the association met openly and unhesitatingly in its own right on the principle that its supremacy was building up the kingdom of Christ among men, it met with complete success," the report said. "Service men are ready to accept of evangelism if it is effective and is not Christian."

A plan for pensioning retired secretaries of the association was presented today.

Commander Claud B. Mayo and Lieut. Col. James S. Joy, representing the navy and army departments outlined the government's policy toward continuance of Y. M. C. A. work among soldiers, sailors and marines. The program contemplates establishment of similar to Y. M. C. A. clubs in colleges.

## FAILS TO MEET WILLIAM

Young Man Leaves Anker After Fruitless Effort to See ex-Kaiser

AMERSONGEN, (AP)—A young man who registered as John E. Best, aged 28, of South Portland, Me., has just left Amerongen, apparently to return to America, after spending nearly two weeks here in a fruitless and somewhat mysterious effort to see the former German emperor at Bontine castle.

Mr. Best said he had served in the American army as sergeant in the medical corps. He was questioned closely by Amerongen officials. He insisted that he had something important to tell the exiled ruler. He was allowed to stay until he was satisfied of the failure of his mission and was then given a hint it would be wiser for him to leave Amerongen.

## PREDICTS ELECTION OF CLEMENCEAU AS PRESIDENT

PARIS, (AP)—Interviewed by a representative of the newspaper Oeuvre relative to the political situation, Mr. Best said he had served in the republic. M. Viviani is quoted as denying any intention to become a candidate for president of the chamber of deputies in opposition to Paul Doumergue.

You can rent that house to a good tenant through the classified—perhaps at once!

## PRaises ABILITY AND IDEALS OF YUDENITCH

Representative of the Russian Commander Comments on His Chief

LONDON, (AP)—General Yudenitch, commander in chief of the anti-Bolshevik forces on the Baltic front, is an ordinary army officer who has forced his way upward by his talents and his character, said General Dobrjansky, representative of General Yudenitch in England, in a statement regarding his chief and the latter's ideals.

"As far back as the Japanese war he showed his strategic capacity and initiative as commander of a regiment," continued General Dobrjansky. "He then received the highest of awards—the uniform of the rifle regiment which he commanded and a gold sword, assigned him by a meeting of representatives of the army."

"General Yudenitch's idea is to fight Bolshevism in the last, in close cooperation with General Denikin and Admiral Kolchak, for the liberation of his country from its oppressors and to give the Russian people the possibility of expressing their feelings in a freely elected constituent assembly."

"His staff consists of men faithful to their national ideals and their duties to the allies. They never acknowledged the Russian Revolution as a revolution, all, with out but firm in spirit, they are still fighting the German mercenaries and their Bolshevik agents."

## RAILWAY EXPRESSMEN DETAIL THEIR DEMANDS

Strike Order Withheld until Administration Has Time to Consider the Question is Reported

CHICAGO, (AP)—Members of the Order of Railway Expressmen Friday announced details of their demands for increased wages and improved working conditions which have been prepared by Director General Hines by Grand President A. Bollinger.

The demands are:

- Time and a half for all employees except at stations employing five men or less.
- Express messengers to be put on a 240 hour month instead of drawing time on a monthly wage basis, which means that they will be granted an 8-hour day with time and a half for all overtime including terminal time.
- It was understood there would be no strike until officials of the railway administration had been given time to consider the question.
- The men expect a decision from Director General Hines within a few days.

## JOHNSON DOES EYE

LONDON, (AP)—Three specialists who Friday examined William E. "Burrhead" Johnson, the American anti-saloon league campaigner, whose eye was injured during a student's demonstration against him recently, found Mr. Johnson was utterly unable to see with it.

## ACTUARY DECLARES THIN PEOPLE LIVE LONGEST

Makes Interesting Observations Resulting from Long Study of Life Insurance Statistics

CHICAGO, (AP)—In an address delivered here before the American Institute of Actuaries, H. W. Dutholp, Indianapolis, who has devoted years of study to the statistics of life insurance companies, made these observations: "That thin persons live longer than fat persons."

"That being overweight is not nearly as just a cause for alarm as being overweight."

"That the moderate use of alcoholic beverages is not likely to lessen a person's life span."

"That the high nervous strain under which Americans live has not increased this country's death rate compared with that of Great Britain."

"That farmers live longer than persons who reside in cities."

"That the middle west is the most healthful locality of the United States in which to live."

"That the extreme south is the most unhealthful section of the United States in which to live."

"That negroes have much heavier mortality than either the whites or the American Indians."

"That one-tenth of all insured persons' deaths are due to accident, suicide or murder."

"He said that the government war risk plan adopted for the soldiers during the war had increased the business of private life insurance companies, who are at present enjoying the most profitable year in the history of the business in this country."

## AUSTRALIA WELCOMES U. S. IRRIGATION FLEET

SYDNEY, Australia, (AP)—Commenting on the reported intention of the United States Asiatic squadron to visit Australia, the Sydney Daily Telegraph recently said editorially: "The American fleet may be assured of an enthusiastic and unanimous welcome. Our welcome will show how eager we are to frustrate the work of those who would spread suspicion and misunderstanding between the peoples of the British empire and of the United States."

## ANGRY DEBATE PRECEDES RATIFICATION OF TREATY

Australians in House of Representatives Take Exception to Grant of Islands

SYDNEY, Australia, (AP)—Ratification of the peace treaty and the treaty of guarantee to France by the federal house of representatives at Melbourne, was preceded by angry debate. The chief antagonists were the prime minister, William M. Hughes and three other members of the first labor party who were administration.

The charge that Mr. Hughes was responsible for the cession of the Marshall and Caroline Islands to Japan prompted the use of the words "you lie" and like expressions. Mr. Hughes said that he was not responsible for the allocation of the islands, nor was the Australian government. The government accepted the situation as it found it and as it had to be. But he did not accept it without setting forth the "White Australia" policy.

## IRRIGATION CONFERENCE OF WESTERN STATES IN SESSION

SALT LAKE CITY, (AP)—With approximately 150 delegates present, the first full meeting of the irrigation conference of the western arid states, called by Governor D. W. Davis of Idaho to consider a program of irrigation legislation to be urged before the United States congress was opened here today.

You can get a hearing for your application for employment if you will state it in a classified ad.

# MANY AWARDED ALLIES' HONORS

### The Adjutant General's Report Shows Number of Decorations to Americans

WASHINGTON, (AP)—From the passage by congress in July, 1918 of an act authorizing the acceptance of foreign medals and insignia, 15,384 officers and enlisted men of the American army have been decorated by powers associated with the United States in the world war. The annual report of the adjutant general, Major General P. C. Harris, issued Thursday shows:

France awarded the cross of the Legion of Honor to 909; the Croix de Guerre to 1,084; military medal to 250 and various other decorations to 259.

Great Britain awarded a total of 842 medals, Italy 684, Belgium 630, Montenegro 82, Greece 2, Czechoslovakia 1 and Japan 1.

In addition to these awards to individuals, the French government awarded the Fourragere, or shoulder cord, to four organizations, the Croix de Guerre, with palm, to 51 organizations; the Croix de Guerre with gilt star, to 24 organizations; the Croix de Guerre, with silver star, to 25 organizations; the Croix de Guerre with bronze star to five organizations.

General Harris' reports fix the greatest strength of the American army in the history of the country as 2,079,888, the aggregate strength on November 11, 1918, of whom 1,808,352 were in Europe.

# SUFFRAGE CONTRIBUTES TO MEET SIGNIFICANCE

### Many Delegates to W. G. T. U. World Convention Possess Political Power

LONDON, (AP)—New significance will be attached to the Triennial World's convention of the Women's Christian Temperance Union, which is to be held in London next April. For the first time in the history of the organization, delegates from many countries are available in person, and their power and ability to bring direct political weight to bear on their problems. The British Women's Temperance Association is preparing for the meeting. The last world's conference was held in the United States six years ago. In the years that have elapsed since, it is claimed, the movement has made marked strides and its routine work has been partly checked by the diversion of many members to war activities.

Miss Agnes Black, who is supervising arrangements for the London conference, has been assured that, in connection with the meeting, temperance reforms will be pushed in the United States, Westminster Abbey and Westminster Cathedral. The Salvation Army intends dealing with the organization's work and activities in every one of its halls throughout the world.

The home office has instructed British consuls in South America and other countries to give facilities for the delegates coming to England.

# JUSTICE AMERICAN ATTITUDE ON TREATY

### Manchester Guardian Says Outcome is Not of Narrow Nationalism or Political Maneuver

LONDON, (AP)—The Manchester Guardian, commenting editorially on the American attitude towards the peace treaty says:

"Whatever the result, it is essential for Europe to understand that American opposition is mainly the outcome of a narrow nationalism or lack of imagination and will have political maneuvering. It is rooted in the faults of the treaty itself.

"The covenant was born in atmosphere of passion. Its articles are ambitious, unpractical and inequitable. But dominating as the act is, it has behind it in Europe not the forces of reaction and imperialism but the enthusiasm and aspiration of democracies, who see in it a basis whereon a structure must and will rise, and who expect as a matter of course that America is withheld from that work."

Thomas a Kempis.

"Here in the service of the Lord the imitation of Christ," are the words that appear on the foot of the monument to the author recently erected at Zwolle. In a gentle spot, surrounded by ancient oaks and fir, and with shrubbery around, this monument stands on a site which was presented for the purpose by the van Royen family. The monument is in the shape of a cross with the monogram of Christ and the symbols of the four evangelists. The inscription on the main part is "In Cruce Colus."

Many subscriptions were received for the monument as soon as the plan was suggested in 1910. Queen Wilhelmina was among those who gave.

Coating Iron With Lead.

Lead as a substitute for tin as a coating for sheet iron, iron wire and wire gauze was strongly advocated at the Buffalo meeting of the American Chemical Society by Charles Baskerville, who exhibited some specimens of a process worked out by him.

Iron shavings, so treated, have been exposed to the weather in a roof test for two years and eleven months and show no signs of rust. They may be best without cracking and expanding and expanding the iron. Shavings will so treated is quite as good as the galvanized and cheaper to produce.

Wealth.

There is no wealth but life. Life including all its powers of love, of joy, and of admiration. That country is the richest which nourishes the greatest number of noble and happy humans beings.—Boskin.

Buck Hares In Combat.

An Australian correspondent describes "a dinkum stand-up fight" between buck hares. They prop upright on their hind legs and box with their front paws, sparring, ducking, uppercutting in pugilistic fashion, then flying in all directions. When one pugilist gets winded or puffed out he falls on his back and asks his fall.

Not Always Unlucky.

Friday has not been unlucky in history, if it is so considered by many. It was on Friday, August 3, 1492, that Columbus set sail on his voyage of discovery, and Friday, October 12, that he first sighted land; Friday, November 22, 1498, that he reached Hispaniola on his second voyage; Friday, June 13, 1498, that he reached the continent of America. It was on Friday, July 17, 1776, that the motion was made that the United colonies are now ought to be free and independent states. Many more occurrences could be cited.

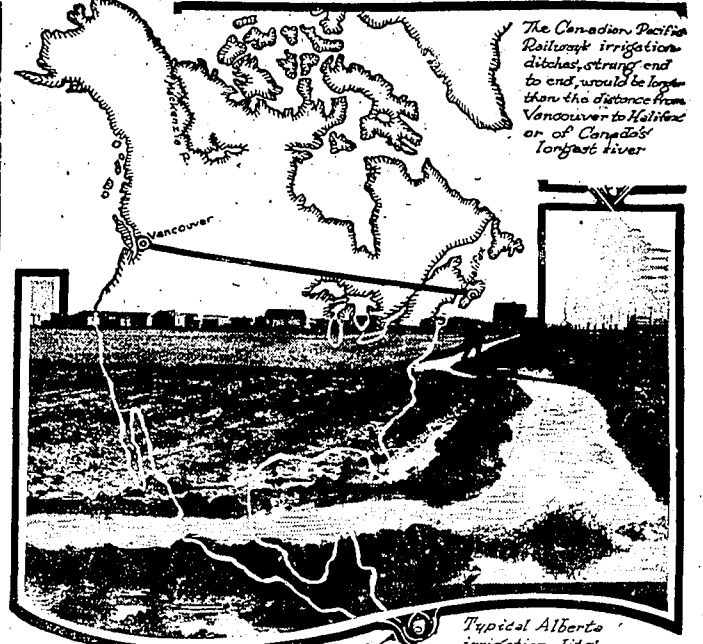

She Had a Different Ambition.

When William Wilberforce, the reformer, was a candidate for parliament his sister, an amiable and witty young lady, offered the compliment of a new gown to each of the wives of those freemen who voted for her brother, on which she was saluted with a cry of "Miss Wilberforce observed" when she pleasantly observed: "Thank you, gentlemen, but I cannot see with you; for really I do not wish to be Miss Wilberforce forever."—Boston Post.

Classified Ads are cheap-effective.

# VAST IRRIGATED AREAS IN ALBERTA TO BE EXTENDED

The Canadian Pacific irritable area exceeds 800,000 acres, while the total length of its canals and ditches is greater than Canada's longest river, the Mackenzie, or the rail distance from Vancouver to Halifax. Surveys originally made by the Dominion government determined that for 150 miles southerly from Calgary and approximately 20 miles north and south of the Canadian Pacific Railway main line, was a district admirably suited to irrigation both in regard to the gentle slope of the land and the character of the soil. The western section of this block is now thickly settled, with settlement on the eastern block being taken up as fast as the land can be placed on the market.

As a result of a recent meeting between Dominion government officials and the farmers of several districts of southern Alberta, the government has likewise promised immediate surveys of 500,000 additional acres, which, added to the 1,500,000 acres already known to be irrigable, will give total irrigable acreage of 2,000,000 acres. This will involve a huge expenditure, but the certainty of the land and the character of the soil makes well paying crops amply justify the outlay.

# STORIES From the BIG CITIES

## Ill, Grippled and Weary Given a 1,200-Acre Farm

MONTICELLO, ILL.—Robert Allerton's gift of 1,200 acres to be used as a tuberculosis sanitarium and home for three mothers and crippled children has been formally accepted by the supervisors of Piatt county. The tract, which lies two and one-half miles to the northeast of Monticello, is one of the most fertile farms in this section of the state. It now is under intense cultivation, and it is expected that profits derived from its operation will make the institution self-supporting.

Mr. Allerton is giving the land to the county as a memorial to his father, the late Samuel Allerton of Chicago, and his friend, the late John Phalen.

The acceptance of the farm was made by a select committee of the board of supervisors, consisting of Roy H. Jages, William Hughes and J. M. Branch. The legal steps preparatory to putting the sanitarium into operation must be delayed until the regular meeting of the full board of supervisors.

A tax levy for the building of the sanitarium and funds will be available for the erection of the buildings early next spring.

## GERMANS CLAIM YANKS SPOILING "FRAULEINS"

Object to Americans Hoarding Luxuries Upon Girls and Spending Money for Presents

WITH THE AMERICAN FORCES IN GERMANY, (AP)—Among the civilians in the American occupied area complaints, originating with the German men, are often heard to the effect that the American soldiers are "spoil the German girls by hoarding luxuries upon them and by spending money recklessly for presents, wines and good things to eat.

Since the anti-fraternization regulations were revoked by army headquarters several weeks ago the cafes in Coblenz have been crowded each night with soldiers and frauleins, and many of the German men have openly asserted that the Americans were entirely too considerate of the German women and girls.

Cafes in Coblenz and other towns in the zone held by United States troops have been doing lately the greatest business of their existence. One in Coblenz which is conducted by two Americans who recently obtained their discharge from the army, seats twenty-two hundred persons. Yet on Sunday afternoons and evenings, the crowd becomes so great, Americans and Germans, all together, that on several occasions the military police had to be called to maintain order.

Classified ads introduce people to each other. In this city a good many people who are now doing business with each other met first as a result of a classified ad. Some of these, without this introduction, might never have known each other at all. Thus these little ads often have results that are far-reaching.

## WORTH OF THE MOTOR SPELLS VALUE OF CAR

W. E. Smith, Chevrolet Agent, Gives Views on Importance of Power

"If it is the motor that makes an automobile from the standpoint of utility," says W. E. Smith of the W. E. Smith Motor Co., local dealer in Chevrolet passenger and commercial cars, "hundreds of dollars may be spent on body comfort and appearance, but in the end, the enjoyment of a car is limited to the worth of the motor.

"Just as the heart is the center of life in a human being, so the motor is the heart of the automobile. It makes it go.

"If a man has a strongheart he is generally capable of doing big physical things. The ordinary tests of everyday do not tax him at all, they do not wear him out. He has endurance. He lives long and is fit and vigorous in his old age.

"In just the same manner the capacity of a car for hard service and the length of that service depend on the character of its motor.

"It is because so many people fail to grasp this important point that they make so many costly experiments before finding real motor satisfaction. It is because of this that so many makes of automobiles are permitted to flourish on the sole strength of attractive surface features before public opinion snuffs them out.

"On the other hand the most successful cars of today are those whose motors have stood up to the tests of time. They are the kind in which the motor has been the first consideration. Then the rest of the car has been built to fit the power of the motor.

"In such cars the motor is not overtaxed by unnecessary weight, strength and flexibility have taken the place of bulk. And the result is greater riding comfort, endurance, freedom from repairs and far more power at far less cost for fuel."

# WOMAN ASSISTANT TO SURGEON ACCUSED OF MURDER

LOS ANGELES, Cal., (AP)—Mrs. Ella Kehr was arrested at her home here Friday on a telegraphic warrant from Delta, Colorado, charging murder.

Officers said they had been told the charge grew out of assistance Mrs. Kehr was alleged to have given a surgeon at Delta in August, 1918, in the performance of a minor operation upon a woman who died.

### JUSTICES ARMY TRAINING PLAN

#### Inspector General in Report, Points to Foreign Adoption of U. S. System

WASHINGTON, (AP)—The army system of military training adopted here and now used at West Point was fully justified by experience in the world war, Major General John L. Chamberlain, inspector general, declared in his annual report. He pointed out that ultimately it was necessary in France to abandon the "defensive tactics" recommended for foreign armies and revert to the aggressive "American system."

"It is safe to say that no nation ever before had available such superior personnel from which to maintain an army," the report continued. "During the first six months of the training period there was a great shortage of clothing and equipment but this condition was to a large extent remedied by the beginning of the second year of the war: At the close of the war they (arms and equipment) were not only abundantly superior to that used by any of the foreign armies."

General Chamberlain strongly recommended that in the future activity of warlike societies be controlled by the military establishment be conducted and controlled by the government.

Adoption of a rolling collar blouse along the lines of the British coat for the army with a collar instead of a cloth instead of metal and of a new trench cap with visor and ear flaps was recommended.

### NEW IDEA IN TRANSPORTATION

#### Trains to Slide on Runners, Separated From Track Merely by Thin Film of Water.

Looking toward the transportation facilities of the future, an American electrical experimenter believes that the chief means of travel will be trains without wheels, running on single tracks, and moving along without friction because they will slide on runners separated from the track by a thin film of water. In short, the fact that one plate of glass will glide practically without friction over another if there is a thin layer of water between them will be applied and worked out in running a train. The idea of a train without wheels is sufficiently surprising, but, according to the writer, a Frenchman had invented such a train just before the Franco-Prussian war, and the project was not resumed afterward, although a later French inventor made some important improvements. The advantage over modern transportation, if such trains become practicable, is prophesied as costlessness of operation, equal carrying capacity, and about twice as much speed. The idea looks visionary; but after all it is not wise to distrust possibilities for that reason.

### Lost Arms Without Pain.

Our story of a man being blown away, unhurt, by the explosion of a bomb which he did not hear must seem incredible to many people. Here is something like an analogy:

King Edward once dined together at his dinner table Ruston Esplin, who had had half his right hand and part of his arm torn off by a bear, and Sir Edward Bradford, who had had his left arm up to the elbow munched away by a tiger.

The two men compared notes. Neither had felt the least twinge of pain at the time. They imagined that their intense desire to save their lives dulled all other senses. — London Chronicle.

### Bismarck's Wine Drink.

In his choice of drinks, Bismarck displayed a somewhat unorthodox spirit. Talking to Mr. John Booth in 1879, Bismarck confessed that when stationed at St. Petersburg, he used to drink two bottles of champagne a day.

He mentioned that although he had drunk 2,000 bottles of champagne and smoked 100,000 cigars.

On another occasion Bismarck declared that beer "makes men stupid, lazy and useless." It is responsible for the demerit nonsense spouted over the tavern tables. A good rye whiskey is very much better.

### Were Hearty Eaters.

Many great musical composers had exceptionally large appetites. When Handel dined alone at a restaurant he usually took the precaution of ordering a meal for two. He was a voracious, yet more voracious, was known to consume a meal that would have satisfied five ordinary appetites.

### Family Secrets.

"What a beautiful mamma you've got," said a guest to his hostess' little daughter.

"Yes, when there's a party," replied the infant, "terrible—Boston Transcript."

### Cattle Eat "Rubber Cakes."

Experiments at Singapore have shown that a feeding cake for cattle and other stock can be produced from the residue of Para rubber seed after the extraction of an oil comprising favorably with linnseed oil.

### Cocoo a "Divine Plant."

Cocoo, from the leaves of which cocaine is produced, was known among the Aztecs as the "divine plant" long before the western world was thought of as the East.

### Will "Gob" Also Be Put in Davy Jones' Locker?

OFFICIAL Washington is smiling over the episode of "Josephus and the Gob." Which is to say that out in San Francisco Secretary of the Navy Daniels felt foul of the word "gob." "It is not like it," said the secretary. "It is a short, ugly word, and I don't like it." And thereupon the honorable secretary consigned gob to the same fate which has already befallen starboard, port, rum, whiskey, frock and dress uniforms.

But out at the Great Lakes naval training station near Chicago the gobs apparently don't agree with Josephus. From the commandant to the newest gobs they agree that the navy, far from disliking "gob" regards it with affection, respect, love, worship, veneration, delight and some other minor emotions. "We are sure the starboard 'gob' right" and still we hold our jobs; but now, by gosh, we quit—we fight—stand fast, there—WE ARE GOBS."

"This 'gob' is not a pretty word," the secretary said. "It is not only too absurd, but doesn't sound well—And so, to me, it has occurred to knock it in the head."

"Ah—ee there, a cry from out a thousand throats."

"Avoise, helly, likewise stand by, and man the second boats; At last this here Josephus guy has got the navy gobs."

"He changed our run to liquids light"—they checked some bitter gobs—"He turned the starboard 'gob' right" and still we hold our jobs; But now, by gosh, we quit—we fight—stand fast, there—WE ARE GOBS."

### DENIES RESPONSIBILITY OF FARMER FOR PRICES

GRANGE Calls for Consideration of Agriculture in Industrial Settlement

GRAND RAPIDS, Mich. (AP)—Opposing any settlement of present day industrial controversies that does not take into account the effect of such settlement on agriculture, the national grange in convention here adopted resolutions Thursday declaring that the farmer can not be held responsible for increased cost of living that will result from increased wages and shorter working hours in industry.

"If industrial wages are increased and hours of labor decreased," said one resolution, "the changes will influence farm wages and hours of farm labor in the same way and still further decrease farm production and increase farm costs."

Exclusion from the United States of any immigrant who does not declare his intention of becoming an American citizen was demanded in another resolution adopted.

### Cultivating Sugar Cane.

The methods of cultivating sugar cane in Trinidad are beginning to undergo radical changes through the introduction of American plows and cultivators, hay rakes, moving machines and crushers and pulverizers of feed for mules and cattle.

### Strange Barometer.

The Araucanians of the southernmost province of Chile use a crab shell as a barometer. In dry, fair weather it is white, but when rain is approaching red spots appear on it, and when excessive moisture is present in the atmosphere it becomes red all over.

### Suggestive Sign.

Railway stations in Sweden at which meals are served are indicated by the simple but suggestive picture of a crossed knife and fork opposite the name of the station in the time table.

### The Orchid.

Coming upon the snowy splendid orchids, alone in the dark splendor of the August woods, I have felt as if intruding upon the privacy of a queen, and retreated with the obedience due to royalty.—C. G. Whitting.

You can secure a tenant for that property, without delay or expense enough to "count," through the classified ad.

### MADE RECORD DURING WAR

#### Soldiers Proud of "Stars and Stripes," Official Organ of American Troops in France.

The most remarkable publication born of the war appears to have been "The Stars and Stripes." As it went out of business with the final scattering of its staff in June its record is now open to the public.

The publication was, as is well known, the official organ of the American expeditious forces in France, and there is no doubt that it lived up to its dignity in a handsome manner. It started with a circulation of 20,000 and this was increased to 500,000 in less than a year. It maintained a French war orphan fund, to which 450,000 soldiers contributed 2,000,000 francs, and in 10 months of life the paper cleared 3,500,000 francs.

There are other details of its progress and its work, among which is one to the effect that it printed 500 poems by soldiers and rejected 20,000.

The Editor and Publisher prints an extended review of the accomplishments of the paper, and from it we learn that its staff at one time or another contained something like 250 men. Among them were Sergt. Maj. Philip J. Blum, managing editor, and Sergt. Robert I. Smith, staff contributor, both Clevelanders.

### An American Solomon.

The story is told of a member of the American Red Cross, somewhere on the Syrian side of the African continent, who found himself faced with something of the same problem. The solution of which earned for Solomon, in ancient days, the reputation of being the wisest of men. On this occasion the "child" was that of an Armenian woman, found in the house of a Turk at Aleppo, and who, the mother said, had been taken from her when three years old. The child she claimed as hers was a little girl of seven years and she gave no sign of recognizing her mother. The American was puzzled to know what to do. An idea struck him. He told the mother to sing the lullabies with which she had been used to rock her baby to sleep. The little girl looked astonished and thoughtful; then she smiled. Memory had awakened, and the Armenian woman had recovered her child.

Are you holding a makeshift job? Sometimes necessity forces people to accept unsuitable employment and to become, simply wage-earners, often without a chance for advancement. If you can do something well, tell about it in a classified ad.

### PRINCE OF WALES WILL VISIT ROOSEVELT GRAVE

#### Heir to British Throne Enters on Last Full Day of Stay in New York

NEW YORK, (AP)—Edward Albert, Prince of Wales, began the last full day of his visit to New York today with a trip to the grave of Theodore Roosevelt at Oyster Bay. The prince carried a wreath to place on the late ex-president's grave.

Later he attended a luncheon at the Piping Rock club and in the afternoon played polo to 1,000 school children about the British battle cruiser Henebow.

This evening he will be the guest at a dinner of the Pilgrims at which Charles H. Depew will preside. A visit to the Hippodrome and a reception at the Seventh Regiment armory, arranged by Mr. and Mrs. Rodman Wanamaker, will complete the day's events.

### ENGLISH APPRECIATIVE OF AMERICAN HOSPITALITY

LONDON, (AP)—Appreciation of the welcome extended the Prince of Wales in the United States was expressed today by Earl Carson, secretary for foreign affairs.

"England is deeply touched by the warmth of the reception the United States has accorded the Prince of Wales," he said. "There could be no surer indication of the depth of the real friendship which unites the great English-speaking nations. England has watched the events of the last few days with eager interest and rejoices in this new manifestation of mutual affection and esteem."

### DANGER IN WILD FLOWERS

#### Many Are a Prolific Cause of Hay Fever. According to Expert Who Sounds Warning.

Hay fever is relatively common in children, but the reason that this is not more generally known is that these attacks are commonly mistaken for "colds," writes Dr. William Schupper, of New Orleans, president of the Hay Fever Prevention association, in the Medical Record.

Sometimes a child that seems to have a "cold" is taken into a park or away to the country in the hope that the fresh air will effect a cure, and it is there exposed to further infection from the pollen of the plants that are chiefly responsible.

Besides the ragweeds, which are the principal offenders, there are several other wild flowers that, though quite innocent when left alone, are likely to cause hay fever if applied directly to the nostrils of children. Among these Doctor Scheppergall warns are especially against the daisy daisy, one of the commonest of weeds. It grows from one to two feet in height, has light green almost toothless leaves, daisy-like flowers about half an inch wide, with a large greenish yellow disk, white rays occasionally blinged, shorter than those of the daisy, and sometimes entirely absent.

Other flowers against which Doctor Scheppergall warns are the dandelion, field daisy, black-eyed Susan, and other of the Compositae family. These are harmless unless one sniffs their blossoms, in which case they are likely to start a hay fever that may persist well into the fall.

### Had Wooden Legs.

Artificial arms and legs were, it is believed, used in Egypt as early as 700 B. C. They were made by the priests, who were the physicians and surgeons of those days in the land of the Nile.

You can sell used articles for cash—clothing, fixtures, works of art, furniture, office appliances—through a campaign in the classified.

### College Faces Strike of All Student Body

#### LANCASTER, PA., (AP)—Franklin and Marshall college faced a strike of the entire student body today as a result of the suspension of a number of sophomores for having Charles Duttchenhoffer, a freshman, a week ago. The students voted unanimously to strike and announced that pickets would be placed around the college grounds to pay as a result of the suspension. Members of the football team also struck and the annual game with Gettysburg on Thanksgiving day probably will be called off. Seventeen members of the sophomore class, who are alleged to have taken part in the strike, were held by a magistrate last night in \$200 bail each.

### Etiquette of Walking.

When in the street, especially in daytime, a lady is not supposed to take a gentleman's arm, unless she is infirm or elderly, though she may properly do so at night. When walking with two ladies a gentleman may walk on the outside, or the inside, or, rather, the side from which he can best guard his companion or companions from obstacles or danger. It is not good form to take a lady's arm, unless to assist her in some way.

### Washington Monument.

From foot of shaft to apex, the Washington monument is 555 feet 5 1/2 inches high; the shaft itself is 508 feet 2 1/2 inches, the small pyramid which tops the shaft being 45 feet. The base is 55 feet 1 1/2 inches square. The walls are 15 feet thick at the base of the shaft and taper to 18 inches thick at the top.

### There's a Market for Good Property.

People are able and eager to buy desirable real estate. The home-finding problem is growing more serious all the time. You can sell your real estate if you are willing to sell at a fair price—and to advertise it adequately.

### A FRIEND OF ENTERPRISE

No town, no city, can progress except through the growth of home business. Whether it be in establishing new industries as an outlet for home produce and labor, or assisting the merchant who makes available to this community outside products, needed or desired, this Institution will always be found a friend of enterprise.

## BUHL WINS CRUCIAL CONTEST IN CLOSING MINUTES OF PLAY

### West End Team, Getting Advantage of Locals' Penalization, Puts Over Another Victory by Score of 6 to 3 in Stoutest Battle Played on the Lincoln Field This Season

Plunging Angelow over the goal line in the last ten minutes of play for the only touchdowns of a well played, hard fought game, the boys said to be the season's greatest. Defeated Twin Falls by a score of 6 to 3 on Lincoln field. It was the second defeat of the locals by Buhl, but the West End team had to worry to do so yesterday.

Twin Falls got its score by a drop kick 12 yards from Buhl's goal in the second quarter and from then on both sides tightened up and no scoring was done until shortly after the beginning of the last period. Along about the end of the third quarter it appeared as though Twin Falls had the game won but the Buhl delegation on the north side of the field came to life with a yell when Big Angelow made his score.

Twin Falls had little chance to score the first quarter. Buhl kicked off to Epler on the line who made a yard and a half after receiving the kick. A gain of three yards was made and the locals kicked to Buhl on the 50 yard line. The visitors then gained to the 30 yard mark and found an angle to pass. The locals' line held well and Buhl could make no further gains, the ball going to Twin Falls on the 35 yard line. Putsler plowed through the line for eight yards and kicked the ball with four. Failing to complete a pass, Twin Falls kicked to Buhl's ten yard mark and Buhl was downed after advancing ten. Miller punted back to Krengei who was tackled on the 45 yard line.

Substitutions: Buhl, Baymiller for Guernsey; F. Lough for Miller. Twin Falls, King for Krengei; Watson for Lew; Irwin for Denton; Krengei for Angelow. Touch, Angelow. Referee, Rough, Kimberly. Linesmen, Hines, Bennett, Twin Falls. Score by quarters: 0 0 3 4 Total. Buhl 0 0 0 6-6. Twin Falls 0 3 0 0-3

## RIVAL ELEEVENS ARE AT GRIPS

### Old Elh at Cambridge to Engage Crimson in Great Grid Test of Year

CAMBRIDGE, Mass., (AP)—Harvard and Yale approached the annual settlement of their football claims today with the players primed to the utmost effort. Both teams were reported "fit" by trainers and coaches and the enthusiasm among their adherents ran riot.

Approximately 50,000 football mad spectators streamed out to the Harvard stadium to watch the teams in their first contest since 1916. Thousands of others disappointed because of their inability to procure tickets, awaited the outcome downtown. Boston newspapers, under orders in effect since the state guard has been on police duty there, were not permitted to display bulletins of the game, but arranged to publish extra editions.

Although experts declared that analysis of the odds offered could show no reason for giving Harvard odds, the crimson entered the game as the favorite. The results against Princeton showed Harvard the stronger, but Yale's admirers believe the Blue was due for a big comeback.

Weather conditions appeared to favor the spectators as the day opened fair and mild.

Players remained at their resting quarters until afternoon. Both elevens were confident of winning. All appeared to believe that the final result would be governed largely by individual prowess and "breaks."

The probable lineup:

**HARVARD** Pos. P. .... YALE  
Phinney ..... LE ..... Reinhardt  
Sedgewick ..... LT ..... Dickson  
Woods ..... C ..... Corbin  
Havemeyer ..... G ..... Callahan (capt)  
Clark ..... IG ..... Galt  
Kane ..... RT ..... Walker  
Sawyer ..... QB ..... Kempson  
Murray (capt) ..... QB ..... Kempton  
Humphrey ..... LHB ..... Neville  
Cassidy ..... RHB ..... Lay  
A. Harkness ..... FA ..... Braden

**Brief Bits of Sport**

Shouldpoundit.  
Looks like a case of too much Buhl official.

Up yesterday we have entertained an attitude of tolerant respect for umpires and referees. Today our gentlemen is engaged to one of utter and profound contempt.

Buhl promoters of athletics have only to continue at the present rate of operation to place in jeopardy the inhabitants of that town that wrestling is not a sport.

Another prize bloomer was pulled in the west end town during the week, with George Nelson, of the northwest, and Dan Petroff, claiming to be a Greek champion, pitted.

Nelson was put hors d' combat when the big Grack got a couple of cruel toe holds on him, twisting the Swede's leg almost to the point of dislocation. The Greek is said to have appeared in the ring with his body almost smothered in vaseline.

Can't blame the promoters so much if people will continue to fall for that stuff.

Ted Lewis, once a likely candidate for welterweight champ honors, is tilted to return to his native heath, and play a few rounds with his countrymen. Ted should get by in the minor leagues of England.

Never did think anything of Carl Morris, but we think less of him now.

### MUST BE WRESTLERS

TOLSON, O., (AP)—After Jeff Smith of Haydon, N. D., had regulars on their scheduled 12 round bout last night, Mayor Cornel Schreiber, boxing commission dictator, asked the crowd for a vote as to whether they wanted to see the rest of the program. The crowd replied in the negative and the bout was stopped by the referee. The men are middleweight.

### A REAL BARGAIN IN PIANO

I am leaving town and will sell at sacrifice my piano which is about one year old and as good as new. Would prefer cash but will sell on good terms if necessary. Mrs. John A. Fisher, Gen. Del. Twin Falls, Idaho.—adv

### MAY PLAY ALUMNI

The high school alumni are anxious to play the regulars on next Thursday and will probably do so, since Twin Falls is out of the running for district or state grid honors.

The lineup:

Twin Falls  
Huhle ..... le ..... Newman  
Guernsey ..... rt ..... Kubus  
Carlson ..... lg ..... Denton  
McQuown ..... re ..... Strobeck  
G. Lough ..... re ..... Hasenbalg  
Barriger ..... rg ..... Putzier  
Brennan ..... lb ..... Epler  
Dau ..... rb ..... Krengei  
Angelow ..... qb ..... Phipps  
Miller ..... qb ..... King

## O'Dowd Given Slight Shade

### ST. PAUL, Minn., (AP)—Although opinions of fight experts who last night attended the O'Dowd-Gibbons fight here, varied somewhat regarding the outcome, their opinion seemed unanimous that Gibbons has lost some of the remarkable ability which made him the flashing phantom of a few years ago.

Most of the writers gave the tenuous slugging match to O'Dowd. Their opinions varied from a shade to a fair margin. A few of the experts thought that Gibbons' flashes of cleverness, when he baffled O'Dowd, entitled him to a draw. Some Gibbons supporters admitted he deliberately decided to forget his boxing skill and center his energy on an effort to engage O'Dowd in a slugging match and put over his right cross for a knockout wallop that would make him champion.

Since Gibbons returned to the ring several months ago, after months of service as a cantonment boxing instructor, it has been noticeable that he lost some of his old time speed. On the other hand O'Dowd, who served in France and who is only 24 years old, has shown improvement in every fight.

## MAGNATES START WAR TO DUST BAN JOHNSON

CHICAGO, (AP)—Open warfare between President Ban Johnson of the American league and the faction composed of Charles A. Comiskey, owner of the Chicago club, Harry Frazee of Boston and Colonel Jacob Ruppert of the New York club, flared up last night when Comiskey issued a statement charging President Johnson with endangering the integrity of baseball.

"We have reached the conclusion," Comiskey said, "that Mr. Johnson has endangered not only the value of our properties but the integrity of baseball, and we therefore intend to do everything possible to rid organized baseball of the impediment which we believe is now attached to it."

Comiskey said the board of directors and attempted to inquire into President Johnson's "perpetual franchise" to act as president of the league, but that President Johnson at no time appeared before the directors.

The annual meeting of the league, which the board of directors issued a call to be held in New York December 10, was issued, Comiskey said, "because Mr. Johnson had not seen fit to issue a call for the meeting."

## Big Ten Title is Fought For

Stagg and Badgers Toe Mark to Settle Championship—Other Grid Games

CHICAGO, (AP)—Second place in the "Big Ten" conference standing was at stake when the Wisconsin football team met the University of Chicago eleven here today. Wisconsin displayed its best football of the season last Saturday when Ohio State was held without a touchdown and with the offensive and defensive strength Chicago has displayed since its single defeat by Illinois, a hard fight was looked for.

## GOPHERS ARE FAVORED

ANN ARBOR, Mich., (AP)—Minnesota ruled the favorite for today's grid-iron battle with Michigan, the first meeting of the old time rivals since 1910. While the Gophers were confident of victory, the Wolverines went into the game determined to fight it out to the finish, for Coast Year, with a corps of old Michigan football stars, has been working to imbue the squad with something of the old fighting spirit. Today's game was the final contest for eight of the Michigan veterans—Spurks, Weston, Knudsen, Cress, Froemke, Peach, Glenn Dunn and Cress.

## TRUSTS TO BRITISH NAVY

Admiral Jellicoe Argues for Preparedness Until League is Proved

AUCKLAND, New Zealand, (AP)—Admiral Jellicoe declared in a speech the other day that until the league of nations had proved itself, the British empire would be wise to trust to the might of the British navy, which was insurance of its safety. He declared that if a portion of the empire desired to help in naval defense, it should help now.

The admiral said that were unknown problems in the Pacific which might in future lead to trouble. It was devoutly to be hoped that the league of nations would lessen any possible danger of war. Nevertheless, he said he did not think there were many members of the British empire who were prepared to stake their all upon the efficacy of a body which had not yet really come into being.

EASTERN REPRESENTATIVES... George B. Davis Co. Inc., 171 Madison Ave., New York, N. Y.

Member Audit Bureau of Circulations

THE LEGION'S STAND

That there was extended debate preceding the adoption of a resolution denouncing certain radical elements which have lately engaged themselves upon the body of organized labor.

And the significance of this fact inheres entirely in that, it is reliably reported, difference of opinion was not expressed as to the necessity for or desirability of the resolution but was wholly upon the question of phraseology.

The Legion men, in their resolution, sought to make perfectly clear that they were and are in hearty sympathy with organized labor as organized labor was known prior to about the beginning of the war when certain radical elements entered its ranks.

And where are these individuals to be found? It is planned to close the convention Tuesday night.

Where were Foster and Margolis found?

Was it not in the executive councils of the organized workers in the steel industry? In their denunciation of the Fosters and Margolies within labor organizations, the Legion men are but expressing the convictions of a vast majority of thinking Americans.

That un-Americanism has, to a greater or less extent, gained a degree of ascendancy within labor organizations is not to be doubted.

The situation now calls for repudiation of this un-American element and this is a task in which probably ninety per cent of law-abiding union members are ready and willing to take the initiative.

It is to be noted that the Legion men's resolution is addressed primarily to this ninety per cent.

The Legion men's resolution is plain in its terms. It calls upon labor organizations to purge themselves of the disloyal element fastened upon them and promises its co-operation in this undertaking.

LABOR PARTY MAKES DEBUT INTO POLITICS (Continued from Page One)

Fights Democrats First... The two major parties would be attacked, McPatrick said, with the intention of rendering them impotent.

Among resolutions delegates said would be presented to the convention were those advocating, "free speech and the right of free assembly," "removal of the allied blockade of the soviet government of Russia," and an endorsement of the Bolshevik government.

Accuse "Money Powers"... Circulars signed by eight delegates accusing the "money powers" with having bribed law-makers to take from the workman the privilege of drinking beer and wine by the enactment of constitutional prohibition were distributed.

The convention will be in session all day Sunday and a mass meeting will be held tomorrow night to discuss the coal strike.

That spare room is a cash asset—if you use the classified. You can rent it to a desirable tenant at a good price, thus lessening your own rent-burden.

HITCHCOCK IS CONFIDENT OF COMPROMISING

Replies to Declaration of Republican Leader that Peace Issue Should Be Settled in Coming Campaign

WASHINGTON, (AP)—Democratic Leader Hitchcock in a statement replying to the declaration of Republican Leader Lodge that the peace treaty issues should be settled in the coming campaign, said today that he was content by a compromise would be worked out by which ratification could be secured.

Question Stir Interest... Whether further compromise efforts are to be made to ratify the peace treaty, or the whole controversy thrown into the 1920 presidential campaign for decision, was a question which aroused lively speculation today in official and political circles.

It was agreed everywhere that the statement issued last night by Senator Lodge, the republican leader, declaring the time for compromise had passed and that it was his desire that the majority reservation program be carried into the campaign, had advanced materially the movement to leave the treaty situation as it is for the present and give the people a chance to decide the issue next year.

First Expressions Defiant... The first expressions of administration senators regarding the statement were defiant in tone, though they still were confident that before the campaign the republicans would come into line on the treaty situation that would make ratification possible.

Senator Hitchcock, the netting administration leader, declared that while the democrats would be loath to see the treaty made a political issue, they would accept it, if the republicans insist, with entire confidence of the outcome.

"If the republican leader wants to make a political issue," said Mr. Hitchcock, "of course he will not compromise. But if he really wants the treaty ratified, he will make a reasonable effort to compromise. The question is one of partisanship or patriotism."

Predicts Early Re-submission... Senator Hitchcock predicted that President Wilson would re-submit the treaty at the beginning of the next session of congress on December 1, and that a compromise would result.

It was admitted by the administration leaders, however, that they had no definite assurance the president would prefer that course to a postponement of further action until the people had spoken in 1920.

CENTRALIA MARGAORE SUSPECTS PLEAD NOT GUILTY

CHEWALDS, (AP)—Pleas of not guilty were entered in the superior court here yesterday by ten alleged Industrial Workers of the World charged with the murder of Lieut. Warren O. Grimm, one of four former American soldiers killed when an Armistice day parade here was fired upon.

Today's Markets

Cash Quotations... CHICAGO, (AP)—Corn No. 2 mixed nominal; No. 2 yellow \$1.60. Oats No. 2 white 75 to 76; No. 3 white 75 to 76.

Chicago Livestock... CHICAGO, (AP)—Hog receipts 8,000; 25 to 50c higher; bulk \$13.70 to 14.15; top \$14.25; heavy \$13.50 to 14.15; light \$13.55 to 14.20; heavy packing sows, smooth \$13 to 13.40; packing sows, rough \$12.50 to 13; pigs \$13 to 13.50.

NEW YORK, (AP)—Liberty bond final prices today were: 3 1-2's \$100.10; first 4's \$94.30; second 4's \$93.30; first 4 1-4's \$94.50; second 4 1-4's \$92.00; third 4 1-4's \$94.25; fourth 4 1-4's \$92.50; Victory 3 3-4's \$99.25; Victory 4 3-4's \$99.24.

NEW YORK Exchange... NEW YORK, (AP)—Dealings on the stock exchange today were light and limited almost entirely to traders. The customary week-end closing of accounts was indicated by the course of most leaders.

KANSAS City Produce... KANSAS CITY, (AP)—Butter, eggs and poultry unchanged.

Grains and Provisions... CHICAGO, (AP)—Government moves to cut cost of living had a bearish influence on the corn market. Additional shutdowns of cereal food manufacturing establishments owing to the coal shortage tended also to depress values.

WANTED—Position as stenographer, 435 Ash St.

Subsequently anticipations of settlement of the coal strike had decided upon. The close was unsettled 1-4 to 1-7-8 higher, with December \$1.31 5-8 to \$1.31 3-4 and May \$1.25 3-4 to \$1.25 7-8.

Omaha Livestock... OMAHA, (AP)—Hog receipts 4,000; fairly active, 15 to 25c higher, including \$14.25; bulk \$13.00 to 14.15; heavy weight \$14 to 14.25; light weight \$14 to 14.15; heavy packing sows, smooth \$13.90 to 14; packing sows, rough \$13.75 to 13.90; pigs \$13 to 14.50.

CATTLE receipts 1,500; compared with week ago; good and choice bred steers nominally steady; others mostly 50 to 75c lower; best steers and canners and cutters fairly steady; others 25 to 25c lower; bulls and veals steady; stockers and feeders generally steady; common kind dull, 25 to 50c lower.

Sheep receipts 1,000; compared with week ago; lambs and ewes 50 to 50c lower; yearling wethers steady; best feeding lambs 25c higher; others steady.

Potatoes... CHICAGO, (AP)—Potatoes steady; arrivals 40 cars; Northern Whites sacked, \$2.85 to 3; bulk \$3; Nebraska Early Omasa bulk \$3; Western Russets sacked \$3.40.

CINCINNATI, O., (AP)—President August Herrmann, of the world champion Cincinnati Nationals, today announced that waivers had been asked for and accepted on five members of the Reds. He would not divulge any names, but it is believed that outfielders Sherwood Magee and See and infielder Schreiber are slated to go. Infielder Jimmie Smith was claimed by the Giants.

FOR SALE—A room modern house with large sleeping porch. Garage. Possession at once. Price right. Phone 6373 after 5 p. m.

FOR SALE—Estate property on 8th avenue north; six room house; corner lot; \$2000 cash; balance terms. M. J. Sweley, Office, First National Bank Building.

FOR SALE—Hughes 40 electric range, electric toaster, coffee percolator, and various kitchen utensils. Underwood No. 5 typewriter. Phone 979.

FEDERAL COURT HOLDS WAR TIME DEY LAW VALID

MILWAUKEE, Wis., (AP)—The prohibition enforcement act is constitutional, Judge Geiger of the United States district court held today. He enjoined the J. P. Kissinger company, wholesale liquor dealers from using its premises for the sale of liquor until the civil suit against the company is tried.

KNOWLEN IS ACCUSED... Accusing Fred Knowlen of defrauding an insurance company has been filed by the prosecuting attorney in the probate court. The allegation is that Knowlen owes Mrs. Mayne Boehm the sum of \$25 for lodging.

DENY THE CHARGE... Earl, Chester and Sherman Saxton were arraigned in the probate court this morning on charges of having assaulted O. G. Brooks. Each denied guilt and was placed under bond for later-appearance for trial.

### NORWAY SUFFERS FROM GERMANS' COMPETITION

**Finished Product from Germany Costs Only as Much as the Raw Material**

CHRISTIANIA, (AP)—Norway is beginning to suffer from German competition by leading Norwegian business men. Prices for machinery and steel construction are said to be 60 per cent cheaper in Germany than in Norway. The finished product imported from Germany costs only as much as the raw or unfinished product would cost in Norway.

Reports from Germany say that industry there is growing rapidly. The low cost of German exchange, it is pointed out, makes Germany's competition in foreign markets much keener. Norwegian electrical power plants now are being bought by Germany for their turbines in Germany because they are so much cheaper there that they cannot afford to buy them at home. It is claimed that at present Germany is able to produce here on the products for which she herself can furnish raw materials. Lack of shipping facilities is said to be the only thing that prevents Germany from dumping her products on Scandinavian countries at prices so low as to kill all competition. Leading Norwegian business men have become rather pessimistic by this condition.

### CONVENES LEGISLATURE OF COLORADO TO VOTE SUFFRAGE

DENVER, Col., (AP)—Governor Shoup today sent letters to members of the Colorado legislature, notifying them that a special session of the legislature would convene Monday, December 8. Ratification of the woman suffrage amendment to the federal constitution will be included in the formal order of business.

### FOR PROBEBY

George Davis and John W. Chapman confessed forgers, were in the district court this morning for sentence. Judge W. A. Babcock ordered the men confined in the state prison for an indefinite period of from 1 to 15 years.

### Personals

R. O. Walters of Filer was a business visitor in Twin Falls yesterday. Charles K. Ostello of Buhl, was a visitor in this city yesterday. Mrs. H. P. Gibbs of Bogerson was a Twin Falls shopper yesterday. J. M. Pierce of Berger, transacted business in Twin Falls yesterday. C. M. Hall was in from Hollister yesterday. Mrs. L. D. Roberts has gone to Burley to visit at the home of relatives. C. E. Helmer is in the city from Rupert. Mrs. Guy Shearer of Filer was a visitor in Twin Falls yesterday. Miss Mildred Jenkins is in the city from Castleford where she is teaching. Mr. and Mrs. Arthur W. Ostrom, of Behl, were in Twin Falls yesterday for a brief visit. Mr. and Mrs. Roy Wheelwright have rented the C. W. Hillyer place in East Lawn for the winter months. Mr. and Mrs. J. T. Douglas of Haggard, were visitors in Twin Falls yesterday. Jesse O. Eastman of Buhl, was a business visitor in Twin Falls yesterday. Mr. and Mrs. L. H. Waldron of Kimberly were Twin Falls visitors yesterday afternoon. C. A. Torbane, of Burley, was a business visitor in Twin Falls yesterday. A. A. Sleomb, of Buhl, motored to Twin Falls yesterday to look after business matters and visit with relatives. The Misses F. Wyman and M. Lay and Messrs. and Madames Henne, and Fitzgerald, are Kimberly visitors in Twin Falls.

### Social Notes

Mr. and Mrs. Willard McMaster entertained a few friends for a delicious supper after the theater Wednesday evening at their home in East Lawn.

The Women's Friendly class of the Presbyterian church were entertained yesterday afternoon at the home of Mrs. J. M. Spackman. The afternoon was spent quilting. There were about twenty in attendance and light refreshments were served.

The tea and musicale given by the D. A. B. in the Presbyterian church was a very enjoyable affair. Vocal numbers were given by Mesdames Wilton Peck, Duval and Evers and an instrumental solo by Mrs. Merline Bailey. After the program tea with sandwiches and wafers were served with Mrs. Kennedy Packard and Mrs. Mary T. Noyes presiding at the table. Mrs. Wilton Peck gave some delightful instrumental numbers during the serving.

The members of the Wednesday bridge club entertained at luncheon at the Hotel Perrine yesterday, honoring Mrs. B. A. Hamilton. The table had as a centerpiece a large orange pumpkin filled with fruit. The place cards were decorated with miniature turkeys, while the menu was made up of the good things used for Thanksgiving. After luncheon the club members at the home of Mrs. M. J. Swesley where bridge was played, and Mrs. Hamilton was presented with a beautiful hand kerchief from each member of the club. Those present were Mesdames Hamilton, Larned, Swesley, Lewis, Wright, Morse, Burton, Levinger, Spafford, Bealer, Hill, Clois, Greenhaw and Miss Cora Greenhaw.

### LEGIONERS TENDER SERVICES FOR RIDDING STATE OF ALL RADICALS

### Twin Falls Post of Returned Service Men Denounce I. W. W. and Extremist Agitators in Labor Unions and Condemn Propaganda Dispersed Through Certain News Mediums

Twin Falls post, American Legion, at a meeting last night in the Elks' hall attended by 100 of its members, went on record in denunciation of the Industrial Workers of the World and of radical agitators in the ranks of organized labor.

Resolutions adopted accepted the challenge of the I. W. W., approved the action of Idaho state and county officials in apprehending the arrest of I. W. W. members and their sympathizers, tendered the services of legion members in the campaign to rid the state of radicals, denounced "certain paid agitators and organizers in the conduct of strikes now called in Twin Falls, condemned the "propaganda dispersed through the columns of the Twin Falls Times," official organ of local labor organizations, as insidious and un-American, unfair to the public at large and particularly inimical to the very organizations whose interests it professes to serve," denounced the agitators and organizers who have disclosed themselves and are disclosing themselves to be un-American and undemocratic."

**Rotary Club Takes Hand**

Representing the Twin Falls Rotary club, H. G. Blue, superintendent of schools, appeared before the Legion meeting and presented resolutions adopted by the Rotarians deploring the Centralia massacre, tendering sympathy to the Legion in its loss and pledging "its every effort in behalf of clean citizenship as represented by the American Legion and its membership."

Taylor Cummins, a delegate from Idaho to the Legion national convention at Minneapolis, reported in detail on the work and accomplishments of that meeting.

Appointment of a committee to draft resolutions for the consideration of the meeting was an early order of business. Tom Harrington, post commander, named as members of this committee, Carl L. DeLong, H. J. Bennett, L. P. Bracken, A. J. Myers and Taylor Cummins.

Adoption of the resolution in denunciation of the I. W. W. was by unanimous vote and without preliminary discussion.

Apprehension that the intent of the resolution relating to radical members of labor organizations and the local strike situation might be misunderstood resulted in extensive debate, continuing for nearly two hours. Finally it was read and adopted clause by clause and then as a whole by unanimous vote.

Selection of a committee to investigate charges possibly constituting

to investigate all charges possibly constituting criminal syndicalism, and to cooperate with the officers of our county and state in the filing and prosecution of such charges, to which end this post will lend its full and complete cooperation;

It demands an immediate adjustment of present differences, and calls upon all true American citizens to cooperate with it to that end.

**Denounce I. W. W.**

The resolution denouncing the I. W. W. and kindred elements follows:

Whereas, It has come to the knowledge of Twin Falls Post No. 7, American Legion, that on the 11th day of November, 1919, at Centralia, Wash., an organization known as Industrial Workers of the World without cause lawlessly murdered, through premeditation, four members of the American Legion;

Therefore, Be it resolved that the Twin Falls Post No. 7, American Legion, hereby condemns and denounces the I. W. W. and all their sympathizers in all of their actions; and that, We heartily approve of the action of the governor of this state and all the officers of the law in apprehending and arresting all of the I. W. W.'s and their sympathizers in this state.

Be it further resolved that we tender our services in this campaign to rid this state of all radicals.

Be it further resolved that we, as members of the American Legion hereby accept the challenge of the I. W. W.'s always abiding by our cardinal principles of law and order, and that we consider them as our common enemies, a menace to mankind and an almost unopposed to the principles of true Americanism.

Be it further resolved that a copy of this resolution be forwarded to the governor of the state of Idaho, the state headquarters of the American Legion and to the public press.

**Rotarians Resolution**

The resolution presented by Mr. Blue is as follows:

Twin Falls Rotary club in session today passed the following resolution:

Whereas, It is learned with grief and poignant regret of untimely death at the hands of lawless men of four service men, members of the American Legion at Centralia, Wash., and

Whereas, we deplore the act of lawlessness and criminality evidenced by the murder of these men; and

Whereas, we believe that this out-

### Local Brevities

**Patient Recovering**—Mrs. J. R. Diebolt is recovering at the county general hospital after an operation Monday for appendicitis.

**Home for Visit**—Miss Pauline Ripley is spending the week-end with her parents, Mr. and Mrs. M. G. Ripley. Miss Ripley is teaching at Berger.

**Here for Week-End**—Miss Margaret Gourley of Filer, is spending the week-end at the home of Mr. and Mrs. Harry Alexander.

**Making Overland Trip**—A. H. Ostrander left today by automobile for Santa Barbara, Cal., where his wife and children are spending the winter. Mr. Ostrander has been here for several weeks looking after business interests.

**Will Go to Coast**—Mrs. Rosalyn Putnam Elliott, and little daughter, who have been guests at the home of Mrs. Elliott's mother, Mrs. M. C. Putnam, left this morning for a brief visit with relatives and friends at St. Anthony. From there they will join Mr. Elliott in Oakland, Cal.

**Hears of Brother's Death**—Mrs. W. H. Greenhaw received the sad news last evening of the death of her brother, Ernest Wheat, at Valdez, Alaska. The funeral will be held Sunday. Mr. Wheat was well known at Hillyer and Ketchum where he spent the early days of his life.

break is directly connected with a part of the present campaign of unscrupulous agitators in favor of a soviet form of government in America; and

Whereas, such efforts are inimical to the constitution of the United States; and

Whereas, the time has come for the forces of loyalty to American institutions and traditions to assert their loyalty and regarding as we do the American Legion as representing the best and cleanest single element in American citizenship; therefore, be it

Resolved, That the Rotary club of Twin Falls tenders to the American Legion its heartfelt sympathy in the loss of the men who fell at Centralia and pledges its every effort in behalf of clean citizenship as represented by the American Legion and its membership.

COMMITTEE.  
Twin Falls, Idaho, Nov. 12, 1919.

Licensed to Wed—Yesterday a marriage license was granted to Glenn F. Hansen, of Reno, Nev., and Willa Thompson, of Twin Falls.

**Minidoka Pays Bridge Share**—The county recorder yesterday received from the commissioners of Minidoka county a check for \$7,839.83 representing that district's share of the extra cost of constructing the Hansen bridge. The check covers a court judgment against Minidoka county for \$7,800, \$12.50 court costs and \$77.29 interest.

**Books Administration**—Carl Miller, through his attorneys, Walter and Hoggan and C. A. Bailey, has filed his petition in the probate court for letters of administration in the estate of William L. Stewart, deceased. The estate consists of both real and personal property of the value of approximately \$50,000.

**Evangelical Services**—Special services will be held in the Brothers church tonight and tomorrow, with Evangelist E. D. Krohn in charge. Tonight's sermon subject will be "The Path of Eternal Life"; tomorrow morning "The Coming of Christ"; tomorrow evening "The Great Invitation."

**EXAMINING CANDIDATES**  
Examination of candidates for teachers' certificates was continued today in a room at the high school. Eighty candidates have written tests during the three-day period.

### When Better Automobiles Are Built Buick Will Build Them

This is the slogan of the big Buick factory. We, as agents for the Buick car in southern Idaho, have built a business that makes a steady payroll in the city of Twin Falls of over sixty thousand dollars a year. In keeping with this slogan we have always aimed to follow the gold dollar standard of value. Our shop equipment is of the latest improved type. Here you may be assured of the best quality of workmanship, and when better machinery is built you will find it at the Lind Automobile Co.

- The following Buick sales and deliveries have been made this week:
- E. H. Ferry, City, Five Passenger Buick
  - Meritt Bellinger, Buhl, Seven Passenger Buick
  - William J. Bellinger, Buhl, Five Passenger Buick
  - P. L. Sheneberger, City, Five Passenger Buick
  - Otis Kelley, Filer, Five Passenger Buick

# SETTLEMENT OF STRIKES VEXES

### England Has Difficulty in Attempts to Establish Arbitration Tribunal

LONDON, (AP)—Great Britain, like the United States, is having great difficulty attempting to establish an arbitration tribunal to avert nation-wide strikes.

There is yet no adjustment of the dispute arising out of the government's refusal to include certain classes of workers under the provisions of the hours of employment bill which was introduced just before parliament's recess in August. And on an adjustment of this difficulty, according to labor leaders, depends the success or failure of efforts to establish in Great Britain a national industrial council which, it was hoped, would obviate such troubles as the recent railway strike.

The legislation in question would grant a forty-eight hour week to all workers, but the government objected to deprive agricultural workers and seamen from its application. The trade unionists have steadfastly insisted upon the inclusion of the debarred workers and the employers have intimated their acquiescence.

The trade unionists have intimated to the government that, in accordance with the resolution passed by the full industrial conference on April 4, they were unable to proceed with the formation of the national industrial council as long as the government persisted in its refusal to give effect to some of the important provisions of the agreed report.

The government has reaffirmed its attitude and refused to make any concession. The workers' representatives, therefore, decided to first meet the employers' delegation and then, if no progress could be made, to demand that the full industrial conference should be recalled in order that they might confer with it and receive a further mandate.

Neither side shows indications of willingness to give way. Many persons in touch with industrial affairs believe it will end in the whole scheme for the setting up of a national arbitration body falling through, leaving the government to proceed with the forty-eight hour bill on its own responsibility and without the weight of employers and trade unions behind it.

The situation is further complicated by the fact that the Trade Union congress, in accordance with a resolution passed at its Glasgow meeting in September, has decided to proceed at once in the house of commons with a bill establishing a universal working week of forty-four hours. It is likely that the two bills will appear before parliament at the same time if the labor party can find opportunity for its bill to be discussed.

# CADILLACS PROMINENT IN THE FOLLIES CAST

### Important Members Bring Cars Almost Onto the Stage

It is said that actors bring every phase of their personality to bear in their conduct on the stage. If such is the case, Cadillac will soon play a role on the Follies stage, for they are a part of the personality of every star.

Ned Wayburn, past master of all that is beautiful and harmonious, particularly in motor cars, in the painting of stage scenery is a faithful exponent of the virtues of the Cadillac.

Marilyn Miller, "the daintiest of them all," who is the very essence of good taste on and off the stage, rides in her own Cadillac, and parks it within a step of the stage door at each performance.

Besides Mr. Wayburn and Miss Miller, eight other stars of the Follies have Cadillac cars. Irving Berlin, Eddie Cantor, Johnnie Doolley, Ben Ali Haggin and Gene Buck are among them, and all use Cadillac, and praise it with good art and workmanship, are users and boosters of Cadillac.

Among the beautiful women who compose the Follies there are many notable beauties. Olive O'Brien, Florence Crane, Mildred Sinclair, Betty Brown, Diana Allen, Pearl Eaton, Ethel Haller, Dorothy Lewis, and Dottie Alda, Prime Diamond, drive their own.

The usual array of Cadillacs outside the stage door of the New Amsterdam Theatre, reminds one of the lineup of Cadillacs in front of the building in Versailles, France, where the peace conference was held.

# SAYS GERMAN UNCHANGED

### Australian Premier Swears Eternal Hatred for Late Enemy

SYDNEY, Australia, (AP)—When Premier William Mc. Fisher returned from a speech at Melbourne:

"Germany stands today the best organized nation in the world for the purpose of waging war. It has many trade relations with Germany, got somebody else. The Germans have been guilty of every crime on earth. They have a sadistic spirit that even the Hohenzollerns were, but what does it matter whether it is Ebert or Wilhelm? They are the same Germans they were in 1914. So far as our country is concerned until they have expiated their crimes in deeds, not words, I will not shake them by the hand and call them friends."

Any reasonably-priced house or apartment may be rented—through an inexpensive classified advertising campaign. Fast the matter. The "risk" involved is so small that few people would dignify it by that name.

Classified Ads are cheap—effective.

# BIG NUMBER MOTOR CARS ARE MADE IN FIVE YEARS

### Dodge Brothers Again Achieve Record for Rapid Development of Great Industry

When Dodge Brothers motor car number 400,000 rolled from the assembly line and swung around the factory test track for a final inspection before delivery, it marked a manufacturing achievement of exceptional importance in the history of the motor car industry.

This achievement is unique because 400,000 motor cars were produced and marketed during the first five years of operation, which is a record in the automobile industry.

Less than five years ago, on December 4, 1914, to be exact, the first motor car bearing the Dodge Brothers name plate was shipped to a bona fide purchaser. It was the first material evidence of Dodge Brothers' determination to devote their wide manufacturing experience to the production of complete motor cars. Since that day the shipments have been growing in volume until, a few days ago, the 400,000 mark was reached.

The first Dodge Brothers works covered approximately twenty acres of floor space, and even then was considered one of the large manufacturing plants of America. But after uniting with the Chrysler Corporation (regularly until the original twenty acres have grown to ninety, and the number of employees to more than 18,000.

The first hundred thousand car was completed October 31, 1916, the second on October 31, 1917, and the third on December 13, 1918.

Car number 400,000, which is a four-door sedan, was allotted to Thomas J. Doyle, Dodge Brothers dealer in Detroit.

# EXPORTS SHOW INCREASE

### Outgoing Traffic Volume Greater While Imports Drop for Month

WASHINGTON, (AP)—American exports in October, 1919, were valued at \$632,000,000, an increase of \$25,000,000 over those in September and of \$130,000,000 over those in October a year ago, according to a statement by the bureau of foreign and domestic commerce. Exports for the ten months ended with October were valued at \$6,501,000,000, an increase of \$1,440,000,000 compared with the corresponding period last year.

October imports totalled \$410,000,000, a decrease of \$20,000,000 from the high peak of September, but an increase of \$169,000,000 over those in October, 1918. For the ten months period imports amounted to \$3,113,000,000, a gain of \$543,000,000 over the corresponding period of the year before. The figure for the first ten months was higher than that recorded for any previous fullcalendar year, the statement said.

# GREAT RECORD MADE BY MAXWELL TRUCK

### E. S. Johnson Tells of Record-Smashing Drive Made in Long Tour

The lightest, lowest priced 1-2 ton entry in the National Motor Truck Development Tour which ended at Milwaukee several weeks ago after traveling over 3,000 miles through the six richest farming states of the middle west, made the best average for consumption of gasoline, oil, and water, according to E. S. Johnson of Johnson Auto Sales company. It travelled the same rough roads as the other participants. The truck was a Maxwell.

A stock 1-2 ton truck was taken from production without preliminary "tuning up" and placed in the long demonstration tour in competition with the best in America. It traversed some of the roughest roads in the country, over plow fields and is country lanes, at times hauling many hundred pounds in excess of its rated capacity and made a remarkable record.

The Maxwell came through without the need of mechanical adjustment and the big 35x5 pneumatic tires which carried the truck looked at the finish as though they had not been run over one hundred miles.

Records available show that the Maxwell averaged slightly under 19 miles to the gallon of gas, over 1,200 miles to the gallon of oil, and 393 miles to the gallon of water.

"These gas and oil records which I understand were from one to five gallons higher than the average, are good under the most favorable conditions," said Mr. Johnson, "but I consider them exceptional when it is considered that the truck carried loads of potatoes out of soft fields to market, hauled stacks of wheat from field to threshing, hurried overloads of milk from farm to shipping points, and otherwise demonstrated its usefulness under all conditions to all the needs of the American farmer. Over smooth stretches of prairie road the Maxwell made as high as 17 miles to the gallon of gas which is as good as the consumption of the average pleasure car."

Near Fargo, N. D., Percy Gibbs, driver of the truck, made his most difficult demonstration. From the Schroeder Brothers farm two loads of potatoes each weighing 3,700 pounds were taken from a soft plowed field, where the wheels of the truck sank hub deep in the mire, to the depot five miles away. Groceries, grain, flour, milk, furnaces, potatoes, pop, gasoline, oil, baggage and general merchandise were carried at different times during the tour proving the Maxwell's versatility.

The ability of the truck to pull through muddy stretches of gumbo road and over slippery hills that the natives claimed were impassable, on

its own power is a matter of pride with driver Gibbs who has travelled some of the worst roads in the country and who asserts that some of those traversed by the truck train were as bad as any he has seen.

"Real interest was extreme at all points along the 3,000 mile trail where demonstrations were held and many subsequent sales resulted," said Mr. Johnson. "This confirms my belief that when the American farmer realizes the advantages of motorizing his acreage he will be one of the largest purchasers of motor trucks in the country."

# AMERICAN SQUADRON IN ACTION AGAINST BOLSHIEVITS

LEMBURG, (AP)—The Koshinake squadron, composed of American aviators serving in the Polish army, has begun active operations against the Bolshieviki. Patrols over the Bolshieviki lines have been made by Major Cedric Fauntleroy, formerly of the La Fayette Escadrille and American air service, who commands the squadron, and by Captain Cooper of Jacksonville, Fla., Captain Corsi of Brooklyn, and Lieutenant Graves of Hoboken.

# ARGUMENTS CONCLUDED ON WAR TIME DRY LAW

WASHINGTON, (AP)—Arguments on the constitutionality of the war-time prohibition and the Volstead enforcement acts were concluded Friday in the supreme court. There was no indication when a decision would be rendered, but because of the importance of the question, court officials said they would not be surprised to see the cases decided on December 8, when the court reconvenes after a two weeks recess.

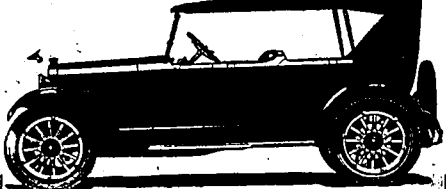

In resuming his argument today before the court, Elmer Root, appearing for Jacob Ruppert, New York brewer, again attacked both acts as a violation of the federal constitution and a usurpation of power by congress.

Mr. Root told the court that Mr. Ruppert and members of the brewers' association had more than \$1,000,000 worth of beer made under authority of the Lever act and before the Volstead act was enacted which they now were unable to sell.

It's no longer necessary to go into the details describing the practical merits of the Ford car—everybody knows all about "The Universal Car." How it goes and comes day after day and year after year at an operating expense so small that it's wonderful. This advertisement is to urge prospective buyers to place orders without delay. Buy a Ford car when you can get one. We'll take good care of your order—get your Ford to you as soon as possible—and give the best in "after-service" when required.

## WESTERN AUTO CO. TWIN FALLS, IDAHO

"THE GOLD STANDARD OF VALUES"

# THIS NEW "REO SIX" ENJOYS A TREMENDOUS VOGUE

No other model ever turned out by the REO shop has met with such an enthusiastic reception as this new Six.

Its beauty of outline and excellence of finish; that wonderful oiling system and the general mechanical quality of this product, has made it first choice of discriminating buyers.

As a result, our one problem is—to obtain enough of any model to supply the local demand.

Our quota is proving almost hopelessly insufficient.

The factory must allot the output impartially among its many distributors—so we must be satisfied.

So only the alert—those who order early—can hope to be of the elect who will possess REOS.

Tardy buyers must be denied.

If your order is in our hands at once, we can promise you a definite and a reasonably early date of delivery.

But don't delay—today won't be a minute too soon.

WORLD'S LARGEST TRAILERS USEFUL IN TRANSPORTING SUGAR BEETS TO MILLS

Tremendous Load of Sugar Beets Being Hauled to Mills.

It is trailers of the type shown in the illustration, the largest in the world, that are used daily for the transportation of overloading loads of sugar beets from the fields near Solidad, Cal., to the sugar mills. In spite of the excessive loads carried by the trailers, loading and unloading is extremely simple. The rear wheels are equipped with self tires.

COMMUNITY HOUSING SOLVES BIG PROBLEM

Haynes Official Brings to Fruition Plan for Living Condition Betterment

Among the many welfare projects entered into by progressive industrial institutions, the community housing plan has taken its place as one of the most promising and as the one which offers the greatest opportunity to the country's industries for bettering the living conditions of the working man. Today, with the entire nation facing a serious shortage of houses, the community housing plan looms big as a partial solution to this difficult social problem.

The community housing plan, briefly stated, is a plan whereby the factory purchases a tract of land, lays it out in streets and lots, erects a sufficient number of houses to provide homes for those of its employees who need them, and then sells these houses, without profit, to the employees on a very liberal payment plan so that the man without a large amount of ready money can purchase a home.

The Haynes Automobile Company, Kokomo, Indiana, realizing the benefits that would accrue to its employees from such a project, have instituted and begun active work on a comprehensive community housing plan which will give almost instant relief to the housing difficulty so far as it affects the men and women employed in the big Haynes factory.

The plans include the immediate construction of forty-two cottages, on a choice and picturesque tract of land on the south side of the city and convenient to the factory. Actual work on these dwellings has been going on for several weeks and already some of the new houses are partially completed. Half a score of contractors are directing the work and are under orders to push things to the limit in order that the employees may occupy their new homes as soon as possible.

The need for speed in the construction of these new homes has been made imperative by the fact the new Haynes factory building, now almost completed, will, when put into operation, require the services of many hundreds of additional men. These men must be provided with suitable homes. The man who conceived and brought to fruition this gigantic piece of welfare work, which has for its object the bettering of living conditions for all Haynes employees, without profit to the Haynes company, is A. G. Seiberling, vice president and general manager of the Haynes company.

Hindu Children Mechanic. Hindu children are remarkable for their precocity. Many of them are skillful workmen at an age when the children of other nations are learning the alphabet. A boy of seven may be a skillful wood carver, while some of the handsomest rugs are woven by children not yet in their teens.

Victory Belongs to the Able. The winds and waves are always on the side of the ablest navigators.—Gibson.

Office Furniture and Appliances, if in condition for use, are marketable. Don't just "store" things that you no longer need—for they will bring cash if advertised in the classified.

AUTO CAR DISPLACES CUBA'S FAMED MULES

Two-Wheeled Cars Give Place to More Modern Conveyance in Antilles

"Goodbye to two wheeled mule carts and welcome motor truck," is the way Senor Silva, a prominent Cuban Automotive dealer, now visiting the United States, expresses the adoption of the motor truck on the Cuban Isles.

Cuba is home of big sugar industry—mule carts too slow and costly. American motor truck more speedy and costs little—saves much time and money," is Senor Silva's reasons why Cuba is rapidly becoming motorized.

Senor Silva, who distributes Klean passenger cars and trucks at home, makes Havana his headquarters. He states that American methods of selling automobiles has been adapted on the islands, even to granting of service to owners on the same broad basis common in the United States.

Cuba is the home of good roads. Wide, white streets, plazas, boulevards and avenues—in the country as well as the cities, fairly cover the islands.

It did not take the Cubans, especially the sugar plantation owners, long to realize that they were producing sugar faster than their transportation methods could deliver the sugar cane to the mills or the finished product to shipping points.

Tourists, as well as representative of business interests from the United

States began telling of the wonderful economies in time, labor and money, motor trucks made possible in the States, resulting in a few trucks being ordered for demonstration purposes. It wasn't long before the advantages of the truck over the slow moving mule cart were seen by the Cuban business interests, and since then motor trucks have become the most popular means of transporting materials, goods, etc.

BERGER

BERGER—Before a large and enthusiastic audience of farmers in the Berger district, B. F. Sheehan, state grain inspector, gave a most interesting talk on grain standards and grain grading, on Thursday evening.

The meeting was called at the Berger school for the purpose of organizing the community for farm bureau work for the coming year. Farmers' problems on the tract were discussed and a definite program of work for the coming year was outlined, which will include a winter grain grading school, seed improvement, and a poisoning campaign. Women's work will consist of dressmaking and poultry improvement and culling demonstrations.

Those assisting at the meeting were B. F. Sheehan; Miss Edna Ludwig, home demonstration agent; and L. W. Coleman, county agent. W. W. Powell of Ingersoll valley was elected community chairman and J. M. Pierce, secretary.

ELIMINATING BODY SQUEAKS

Thick Leather Straps or Washers, Held in Position by Bolts, Will Stop Noise.

Motorcar frames are not at all rigid under the distorting influences of an irregular road surface, whereas the body work is very much less free to bend and give. This gives rise to slight rubbing at various places where the frame is in contact with the body sills, and, since these points of free contact are not lubricated, squeaks result. The remedy is to insulate the body from the frame with thick leather straps or washers, so placed as to be held in position by the bolts securing the two. In like manner the filler board used with some types of windshield to make it conform with the outline of the car dash, can be prevented from squeaking by the insertion of a strip of leather or felt.

When using the self-starter be sure that the spark is retarded, as a back-kick may wreck the mechanism.

The usually recommended substance for putting out gasoline fires is sand, which certainly has many advantages.

The fabric is the life of a tire. Small cuts in the rubber let sand in which soon loosens the rubber from the fabric, and the water which enters, rots it.

A leading American automobile manufacturer has found it advantageous to install a compressed air device for driving wood screws and machine screws and nuts.

The body of the car should be cleaned with castile soap and water. Mud should not be rubbed off, but rather should be washed off by flowing a gentle stream of water over the spot.

The small rods which are part of the ordinary pocket lamp battery can be filed and trimmed down to make a very acceptable temporary replacement for worn-out carbon brushes in the magnets.

Lion's Head in Fountains. The original reason for the choice of a lion's head in public fountains where the water comes out of a lion's mouth was, remarks an exchange, that among the ancient Egyptians the rising of the waters of the Nile, which was the most important event of the year, meaning life and prosperity to the whole nation, always took place when the sun was in the constellation of Leo. The lion's head on fountains is a symbol of the life giving waters of the Nile.

You can exchange the thing you no longer need for something you could use profitably—through the classified.

BEAUTY, STRENGTH, POWER, COMFORT—in the NEW HAYNES

POWERFUL, roomy, strikingly handsome, the new series Haynes more than ever comes up to the expectations of the thousands who have waited for it.

The four factors of car-character—beauty, strength, power and comfort—are wonderfully combined in each model. Time-tested excellences in motor-strength, the latest appointments—luxuries—all these are presented. From the chassis through to the least detail, the Haynes—America's first car—satisfies its expectant friends.

There are twenty-six years of success behind the Haynes, and this means everything to its owner. He can pin his faith to the organization that builds his car.

1919 finds the Haynes more popular than ever. To protect yourself against delay in getting your new Haynes, please be prompt.

### OVERLAND ADOPTS NEW SYSTEM OF CAR TESTS

#### Over 250,000 Miles of Rough and Rugged Roads Machines Go to Prove Quality

The testing of motor cars, like the building of motor cars, has undergone marked advancement during the last few years. Now, standards have been created and new mechanical testing devices have been perfected to keep pace with the development of the automobile itself, according to J. R. Taylor, of the Browning Auto company.

It remained for the Willys-Overland company, however, to supply the accurate test to its latest model Overland 4 which has just been announced. This test, it is believed, has established new standards of testing and refinement of details in a car which is mechanically perfect before it goes to an owner.

During the two years of test, Overland 4 was given 250,000 miles of actual road demonstration. This is ten times around the world before a single car went on the market.

These tests were of great value to the engineering and the production departments of the Willys-Overland company and, finally, to the man who buys the car. A staff of engineers studied the car during these 250,000 miles of test to determine every refinement and improvement that might be necessary to make the car when it went on the market free from service troubles and of assured economy in operation and perfect ease of riding because of new three-point springs.

The section of the country picked for these tests was in nature's laboratory of the southwest—Colorado, New Mexico and Arizona. There nature seems unfinished, a rough, rack-straw, tortured country. It was there that the engineers decided that the new three-point suspension springs could be given a supreme test to develop the unequalled ease of riding which they have now introduced.

Accordingly a fleet of Overland 4s were sent into this section. A staff of engineers accompanied the cars to watch every hour of performance. In Colorado the cars were sent to work scaling mountain sides, twisting and turning around the hairpin turns of the precipitous cliff and mountain sides and rolling over the boulder-strewn roads. There was plenty of mud—some of it, thick and stick as glue, hub and turning board deep.

In New Mexico, there were great stretches of deep shifting sand which threaten to rack and twist the frames of ordinary motor cars. In Arizona, there were great stretches of plain, innumerable rivers and streams to ford, worse mud than ever before and stretches of road that were so rough and tortuous that they resembled saw-tooth blades of scraggy, sharp rocks.

Over these roads, Overland 4 was pushed to the utmost. Days were spent in mud, in streams, twisting through rocky defiles, scaling boulder-sprinkled hill and mountain sides.

The three-point springs had saved the cars, had given a new ease and comfort to the drivers; the balanced light construction had conquered the worst of the roads; the power of the car itself had pulled it out of road situations in which horses were found hopelessly mired and dozens of automobiles were passed, sunk deep and immovable.

### Denies Report J. Willys Owns Garford Plant

Recently there have appeared in various issues of the press throughout the country items stating that John N. Willys of the Willys-Overland company owns control of the Garford Motor Truck company, Lima, Ohio, one of the leading motor truck manufacturers of the country.

The Garford Motor Truck company has given out a statement in which rumors are unfounded. They advise that neither Mr. John N. Willys, nor the Willys-Overland company are financially interested in the Garford company.

The statement of the Garford company goes on to say that on January 13, 1915 the interest of the Willys-Overland company, and all other interests in the Garford plant were purchased by the present organization, since which date the present management has been in charge. The Garford Motor Truck company is an independent corporation, and has no affiliation with any other automobile or motor truck interests.

### Credit Out of Favor.

A detail of colored engineers who were working on the roads in the vicinity of Boucq were growing at the long hours, the scarce mails and the back pay. The sergeant, to comfort them, said: "But, think of all the credit you get." "Yeah," came the answer. "Dat's all we do get—credit. Never see no cash around here."—American Legion Weekly.

### Remarkable Tattooing.

Perhaps the most extraordinary tattooing idea ever carried out was that of a French coachman, who, at the time of the celebrated Dreyfus trial, had his body covered with no fewer than 120 illustrations of the case, including portraits of the leading persons. The work occupied nearly two years.

### Why She Seeks a New Home.

Tillie Clinger, says that the reason she is looking for another home is because the star boarder at her present place is a railroad engineer who wants the government to take over all the boarding houses and let the boarders run them.—Galveston News.

You can find a tenant for that furnished room—the right one, willing to pay a right price—through the classified.

### KILTS PROPER DRESS SUIT

Picturesque Scotch Garb Source of Wonderment to Americans

EDINBURGH, (AP)—Scores of American visitors to Scotland have wondered by whom and on what occasions the picturesque native dress of Scotland, kilts, are worn nowadays.

Upon inquiry it is learned that apart from actual Highland gatherings, where everyone is expected to "dress the part" there are only four classes of kilts worn without comment in Scotland. In the north, the head of clans and sept, the "gentry" which includes Englishmen, Welshmen, and anyone who owns land or uses land as a playground; in the south, the public piper; and all over Scotland, the soldier. As an evening dress it also has a degree of general popularity.

### HAYNES ADVERTISERS WINNING NEW TITLES

Gilbert U. Badayo has been made director of advertising of The Haynes Automobile company, Kokomo, Ind., according to A. G. Seiberling, vice president and general manager.

Mr. Badayo for the past year, in the capacity of advertising manager, conducted the successful world-wide advertising campaign to merchandise Haynes character cars. This advertising program was the biggest ever attempted during the twenty-six years' history of the Haynes company. Walter P. Hanson, well known newspaper man and writer, became assistant director of advertising.

### VOTERS CHOOSE DESERTER

Delegate Elected to Italian Parliament Under Sentence of Military Court

ROME, (AP)—Signor Misiano, a socialist, has been elected to the chamber of deputies from both Naples and Turin. At the beginning of the war he went to Switzerland, it is alleged, to evade service in the army. He was later expelled from Switzerland and went to Germany. A socialist military court condemned him to be shot for desertion and the question now rises whether he can be arrested or enjoys parliamentary immunity.

You can count upon the classified to sell your real estate—and the cost of the advertising will figure surprisingly small.

### FILER SCHOOL SERVES HOT NOON LUNCHEONS

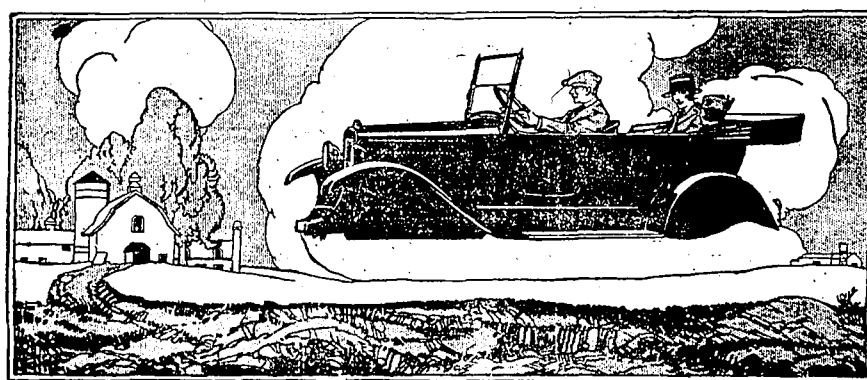

Investigation of Midday Meal Plan Proves the Value of Scheme to Pupils

Mrs. R. F. Moseley of Maroo and Miss Edna M. Ladwig, home demonstration agent, were in Filer yesterday visiting Mrs. George Patton of the domestic science department of the public schools, who has started serving a hot lunch to the school children. The Maroo Women's club is to serve one hot dish to the school children of Maroo and Mrs. Moseley is interested in getting all the ideas she can which will be of aid to the club.

Mrs. Patton and her girls serve from

85 to 105 children a day. A full lunch is served for 10c and is quite a substantial one judging from the menu yesterday which consisted of sandwiches, fried potatoes, creamed spinach and baked apple. Showers for the lunch work have been started by Mrs. Patton and at one time 83 quarts of fruit were given to the department. It was interesting yesterday to see the pleased expression of the children as they passed in cafeteria style and were served. The menu is put upon the board each day but it is evident that some of the younger children have trouble in reading it for one little girl from the beginners said, "They don't serve what they have on the board." When asked how that was she replied, "They had 'mon' on the board and I didn't see any. I support it was something to eat on the carrots."

## With Three-Point Cantilever Springs New Overland 4 Seems to "Sail Over The Roads"

**T**HE new Three-Point Cantilever Springs of Overland 4, by their special construction and design, protect car and passengers from ordinary road jolts. Bumping, twisting, swaying and vibrating are wonderfully lessened. The blows of the road seldom reach you. There is less tendency to bodily fatigue after long rides.

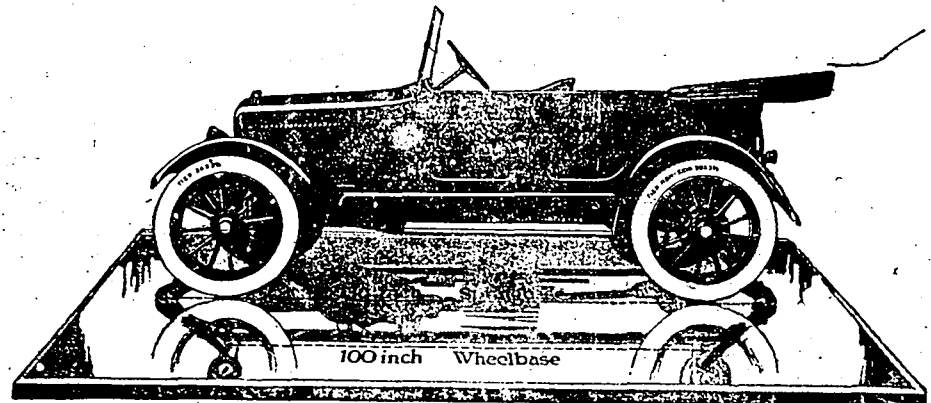

Three-Point Cantilever Springs protect the car from the hammering and wear of road blows. They lengthen its life and reduce upkeep costs.

Equipment of Overland 4 is dependable and complete from Auto-Lite Starting and Lighting to Tillotson Carburetor.

250,000 miles of test have made the strength and endurance of this car a matter of record.

See Overland 4 at the first opportunity. Ask for booklet: Overland 4 Touring, \$845; Roadster, \$845; Coupe, \$1325; Sedan, \$1375. Prices f. o. b. Toledo.

The springs of Overland 4 attached at the ends of a 130-inch Springbase give the riding comfort and road steadiness heretofore possible only with cars of long wheelbase and great weight, yet Overland 4 retains the light weight and economy advantages of 100-inch wheelbase.

JAPANESE ROBIN HOODS WARN OF LABOR UNREST

Representatives of Unique Clan Seek Governmental Aid for Their Followers.

TOKIO, (AP) - An almost forgotten chapter in the history of old Japan was revived by the arrival at Tokio, the other day, of seventeen so-called Japanese Robin Hood, or "men of the sword" who came to seek governmental aid for their followers. In the Tokugawa days, those men known in Japan as "kyokaku" came into existence to oppose the tyranny of the samurai class and to defend the interests of the common people. Their motto was to crush the strong and help the weak. Many of these people still exist in the country districts where they are now regarded as political bosses or band leaders. They have many followers who have come to be looked down upon by the masses of the people. Many of these followers desire to carry an honest living but find difficulty in securing employment. The situation was brought to the attention of members of the Diet who are now investigating in behalf of the modern Robin Hood. At the same time the "kyokaku" have come to Tokio to warn the government that labor unrest is increasing throughout Japan and to voice their fear that it will assume a graver aspect if it continues to spread among the poorer people. Used pianos, if in good condition, may be sold at good prices. If yours is a "salient" instrument, why not find a cash buyer for it? The classified ads will take it to market for you.

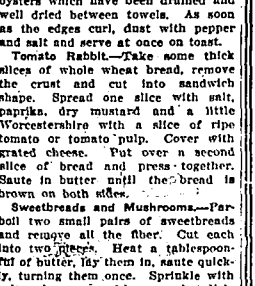

Classified Ads are cheap-effective.

The KITCHEN CABINET. "Just for life the universe were nothing, and all that has life requires nourishment." OUT OF THE CHAFING DISH.

When entertaining a few guests with a chafing dish, summer, or hurried for time, much of the food may be prepared beforehand and kept warm in the chafing dish. One of the charms of the chafing dish, however, is seeing the food prepared and cooked at the table.

Panned Oysters - This is a dish which will be safe for the least delicate as it is cooked so quickly and is something well liked by the average person. Melt two tablespoons of butter in the blazer and when blazing hot turn in twenty nice large oysters which have been drained and well dried between towels. As soon as the edges are just seared with pepper and salt and serve at once on toast. Tomato Rabbit - Take some thick slices of whole wheat bread, remove the crust and cut into sandwich shape. Spread one slice with salt, paprika, dry mustard and a little Worcestershire with a slice of ripe tomato or tomato pulp. Cover with grated cheese. Put over a second slice of bread and press together. Sauté in butter until the bread is brown on both sides. Sweetbreads and Mushrooms - Parboil two small pairs of sweetbreads and remove all the fiber. Cut each into two pieces. Heat a tablespoonful of butter, lay them in, sauté quickly, turning them once. Sprinkle with salt and pepper and lay on a hot dish. Have ready half a can of mushrooms (or fresh ones, cooked in butter). Add them with a cupful of rich cream, thicken by dredging with a level tablespoonful of flour and cook until smooth. Pour the mixture on the hot platter around the sweetbreads. Crab Flakes with Red Peppers - Chop the whites and mash the yolks of four hard-cooked eggs. Mix with two tablespoonfuls of fine soft bread crumbs and a half a minced red pepper. Melt four tablespoonfuls of butter; stir in the cream. Add slowly a cupful of cream and last a cupful of crab meat. When hot put in half a tablespoonful of salt, a dash of nutmeg, and a teaspoonful of lemon juice. Let it cook until smooth and serve in small dishes or on toast.

ASKS FOR FRANCHISE FOR WOMEN OF INDIA

Young Woman Graduate of University of Bombay Arrives with Mother in London.

LONDON, (AP) - Miss Mithalbat Tain, a young Indian graduate of Bombay university, has come to England with her mother, Mrs. Merabai Tain, to ask for the inclusion of women in the new franchise scheme for India. Miss Tain represents Bombay women and 43 branches of the Indian Women's association. Because they arrived too late to give evidence before the parliamentary committee on Indian affairs their full statement is being published as an appendix to the report. "We feel that this is the great chance for Indian women to obtain the franchise," says Miss Mithalbat Tain. "Postpone the measure now and it means that we shall be actually driven backward, and barriers will have been raised in the way of our progress which will with difficulty be surmounted." She does not ask that all women be enfranchised but only that those who have the same qualifications as men should have the same right and she wants the Indian women to have the education that comes with the possession of responsibility. "We feel very strongly," she adds, "that if differentiation is made now between the sexes it will be much more difficult to get back to the opportunities that exist today."

Tree Trunks Made Cisterns. The gigantic baobab tree of central Africa, the trunk of which sometimes attains a diameter of forty feet, often serves as a natural cistern, retaining rain-water in large quantities in a cavity formed at the top of the broad trunk. The hollow thus afforded by nature, the Arabs artificially hollow out the huge baobabs and fill them with water during the prevalence of rains, as a provision against the dry season. These cisterns are in many cases twenty feet in height and eight or ten feet in diameter.

HOLDS 2.75 PER CENT BEER NON-INTOXICATING

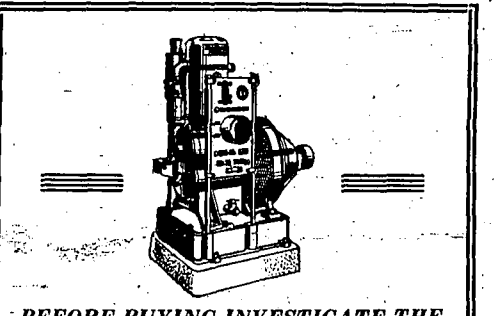

Federal District Judge Pollock Repeals Officials from Enforcing Dry Law

ST. LOUIS, Mo., (AP) - Beer of 2.75 alcoholic content was declared to be non-intoxicating in a decision handed down Friday by Judge John C. Pollock of the United States district court, in which he granted a temporary injunction restraining United States District Attorney Hensley and Internal Revenue Collector Moore from enforcing the war-time prohibition act against St. Louis brewers. The decision does not deal with whiskey or any liquors or beverages of greater alcoholic content than 2.75 per cent beer and covers only the specific grounds on which the validity of the law was attacked in the injunction suits brought by the brewers who sought to establish their right to make and sell 2.75 per cent beer. Judge Pollock did not rule on the constitutionality of either the war-time prohibition law or the Volstead enforcement act. The plea made by the brewers in the suits for an injunction was that 2.75 per cent alcohol in

beer was not intoxicating and asked that the defendants be enjoined from enforcing the law as it affected 2.75 per cent alcoholic beer. Kenan's Display Collection of Art China designed and painted by Mrs. C. L. Longley is now on display in the window of the Majestic Pharmacy, where for a few afternoons Mrs. Longley will be present to answer inquiries.-adv.

You can sell that lot or plot of ground - at a small advertising cost - through the classified.

OH FUDGE!

# AMSBARY WAS BANDIT VICTIM

### President of Local Chamber of Commerce Held Up by Carlisle in 1918

At least one Twin Falls resident entertains an abiding though not altogether pleasant recollection of W. L. Carlisle, train bandit who, during the present week, held up and robbed a Union Pacific passenger train near Medicine Bow, Wyoming.

The local resident is W. B. Amshary, realtor and president of the Twin Falls Chamber of Commerce. Mr. Amshary met Carlisle in April, 1918 under circumstances almost identical with those engaging attention near Medicine Bow this week. It was a train hold-up with Carlisle operating the job single-handed, and with Mr. Amshary one of the passengers on the train. The holdup was near Laramie, Wyoming, and the desperado served time for it.

With Mr. Amshary on this occasion was the late H. J. Failing, then president of the Twin Falls Bank & Trust company. The former at the time was connected with the Twin Falls-Deerp Creek Orchard company. Both men were returning from business engagements in the east when their train was held up.

Twice before, in a short space of time U. P. trains had been held up by Carlisle, according to newspaper records on file in The Twin Falls Daily News office, which say the bandit had given railroad officials warning that he intended to rob a passenger train on April 20. The records show that the threat was ultimately carried out, but not on the date originally designated, the robbery being staged on April 21, one day later than the scheduled date.

Carlisle was captured in the Wyoming wilds soon after the performance and was serving a term of penal servitude for the offense when he succeeded in making his escape.

Of the affair the Twin Falls News, a weekly publication at that time, has the following explanatory account:

"Carlisle boarded the train in the morning at Greeley, Col., and rode all day without attracting attention. At about 6 o'clock, when Amshary and other passengers had finished dinner and gone out onto the platform of the observation car, Carlisle revealed the nature of his business. He did not make a mask, but drawing two 38 calibre revolvers from a valise that he carried, pressed them into the stomach of the train guard, ordered him and the passengers to throw up their hands. Amshary was near the door through which he made his way into a Pullman car where Failing was seated. The passengers of the holdup. Amshary left his purse under a seat in the Pullman, then returned to the observation car. The door to the train was locked by the porter. A man meeting with the robber Amshary was ordered

# MEMBERSHIPS MORE THAN ARE REQUIRED

### Subscriptions to the Commerce Club Warrant Organization Meeting

While actual subscribers number 282 pledges to membership in the Twin Falls Chamber of Commerce number considerably more than the required 300 to complete the charter. The necessary 18 subscriptions, and more, will be in the hands of the commerce committee Monday night, according to W. E. Priebe, general chairman in charge of the enrollment campaign.

"Confident that the membership is 'over the top,'" Chairman Priebe has ordered a call for a meeting of members of the chamber of commerce for next Tuesday night, beginning at 7:30 o'clock. This is to be a regular organization session, when permanent officers will be named and installed. The meeting will be held in Eika's club. By-law will be submitted by a regularly authorized committee chosen to have this draft in charge. Besides the president there are a number of directors to choose to lead various departments of the club.

# LEASING BILL OPPOSITION DEVELOPED IN CONFERENCE

SALO LAKE CITY, Utah, (AP)—Vigorous opposition to approval of the coal and land leasing bill now before congress, provided for in the report of the resolutions committee, presented here today, was voiced at the early session and it is expected the fight will be carried to the floor of the conference at the late session today.

# TWO NATURALIZED

In the district court this morning Judge Babcock held an examination of applicants for naturalization, passing favorably upon two applications out of five. The other three hearings were continued. The applications passed upon were from Percy Date Kingsbury, aged 34, and Frank Hicks, 34, both former subjects of Great Britain.

to turn over his purse. He gave up about \$4 in change. Completing his spoliation of the observation car the robber turned his attention to the Pullman, but was turned back by the brakeman. He made no effort to break the lock, but signalled the train to stop, and left.

Carlisle took nothing from the Amshary, but offered his purse, noble from women passengers. He said he wanted nothing from people who worked for wages. Before leaving he handed the train guard a watch which he had taken in a previous holdup, and which he had daringly promised to return in an advertisement inserted by him in a Denver newspaper.

"Press dispatches from Denver indicate that Carlisle has served a term in the state penitentiary. He is credited with having spent the proceeds of his robberies on street waltz, roses and music."

# Tautological Reiterations Are Justified

WILTH dandelions blooming on the courthouse campus and scotwood trees scuffling for a second crop of leaf buds, with sparrows nesting and pullets prating, how can the weather man be blamed (much) for his diurnal iteration "Tonight and tomorrow fair!"

Even nature is fooled by climatic conditions hereabouts, and since the Boise bureau boss is, after all, human, his tautological statements may not be consistently quarreled with.

So let him repeat.

Yesterday the mercury climbed to the same point for high as on the day before, 44 degrees, and with there was a heavy white frost blanket all about this morning the mercury did not descend to a particularly low degree during the night. Twenty above zero was the record at the domestic kiosk.

# Gridiron Results

HARVARD STADIUM, Cambridge, Mass., (AP)—The Harvard team, versatile in attack and sturdy in defense, today turned back by a score of 10 to 3 Yale's football invasion. The crimson victory came as a result of a strong offense in the early periods and a stiffened defense later. Harvard at the outset scored by touchdown, and field goal, with Casey and Ralph Horowan as the individual performers. Yale obtained its three points by a remarkable kick for field goal by Braden in the final period. He kicked the ball 52 yards cleanly between the posts. Yale errors had robbed the blue of many chances to score, some of which were turned to Harvard profit, and the record of the game will be one of Harvard success plus Yale errors.

# LETITISH FORCES CAPTURE GERMAN'S HEADQUARTERS

Continue Victorious Advance after Fall of Mitau; Eberhardt Asks Truce

LONDON, (AP)—Letitish forces yesterday captured Mitau, capital of Courland, according to the Letitish legation here. The Letts continued their victorious advance.

Mitau was the headquarters of General von Eberhardt, who was sent by the German government to relieve Colonel Avaloff-Bernhardt of command of the German Baltic forces and supervise their orderly return to Germany. The Letts were reported in a Copenhagen dispatch of November 15 to be encircling the town.

# GERMAN COMMANDER ASKS LETTS TO OBEY TO TRUCE

COPENHAGEN, (AP)—General von Eberhardt, who has assumed command of the west Russian army, has asked the Lettish commander in chief to accept a truce pending the conclusion of armistice, according to a Biga dispatch. Von Eberhardt's telegram declares the west Russian army has placed itself under German protection.

No reply has been sent by the Lettish commander, who, however, points out that von Eberhardt's action makes the campaign against Biga a German affair.

# PERMIT TO BUILD

This morning E. A. Moon took out a permit for the erection of a residence on Eighth-avenue east to cost \$5000.

# COUNTY DISPOSES OF TAX TITLE PROPERTY

Twenty Lots in Various Places, Sold at Auction, Bring \$2,340

On the courthouse steps this morning Frank Lynch, deputy recorder, conducted a sale of property, owned by the county, to private individuals. The property consisted of 20 lots located in Twin Falls, Kimberly, Buhl and Hillister. The proceeds amounted to \$2,340.

The lots involved in the sale were acquired by Twin Falls county through the delinquency, sheriff's tax titles being vested in the county. Among the lots were two on Main avenue west, Twin Falls, those selling for \$750. Bidding was fairly spirited.

# BERGER ANNOUNCES HIS CLAIMS AS CANDIDATE

### Platform Provides for Peace Against Wilson's "Alliance of Capitalists"

MILWAUKEE, (AP)—The platform of Victor L. Berger, socialist candidate for congress in the fifth district, as announced today follows:

For representative government, and against the impertinent presumption of any clique or party of the house of representatives to dictate whom the district is to elect as its representative.

Against militarism and imperialism.

Against government by injunction, and against any law that would enslave labor, and against using the army of the United States to intimidate the working class.

Against prohibition.

Against the so-called "espionage" act.

Against meddling in the internal affairs of any foreign country—Russia, Germany and Mexico.

Against national bankruptcy and national hunger.

For old style liberal Americanism and against 100 per cent profiteering, manufacturing as "100 per cent Americanism."

For freedom of speech, press and assemblage.

For compelling the profiteers to pay the cost of the war.

For the right to use any language in church services, and also for the right to teach, besides English, any language in public or church schools that the patrons insist upon.

For national ownership of trusts and for the public ownership of public utilities in nation, state or city as the case may be.

For an early, lasting and democratic peace and against President Wilson's alliance of international capitalists to guarantee each other loot.

**LOANED TO WED**

A marriage license was today issued to James E. Wright, aged 22, and Nancy Beam, 23, both of Buhl.

Piano Tuning—S. G. Hull, Phone 84, Rogerson Hotel. Ad.

# AMUSEMENTS

GRIM THEATRE—Mary Pickford in "The Hoodlum." Extra added attraction, Evelyn Elaine, lyric singer; Mutt and Jeff cartoon comedy.

IDAHO—Wallace Reid in "The Roaring Road"; Pollard comedy, "Giving the Bride Away."

(Incorporated Under the Laws of Idaho)

# An Independent Co-operative Sugar Company

**Value of Sugar Stocks**

Sugar stocks are considered one of the safest and best investments, and doubly so, when placed on a co-operative basis with the growers. Sugar Factories have always paid most excellent dividends even when not run to full capacity.

It is commonly reported that the earnings from the farmers' beets will repay the cost of building a sugar factory every three years, and in some instances two years.

THE IDAHO CO-OPERATIVE BEET SUGAR COMPANY  
400-TON DAILY CAPACITY FACTORY

**THE REASON**

is easily understood. The United States is using 1-4 of all the sugar produced in the world. Yet we only produce 1-4 the sugar we use. \$500,000,000 worth of sugar is imported from Cuba each year. The demand, then, is already created, which insures to the investor in sugar stocks a good, safe, and steady income.

**WHY**

help build roads, schools, and other institutions for foreign countries by sending money out of the United States for their

sugar when we have enough proven sugar beet lands in 12 Western irrigated states to produce all the sugar necessary for domestic consumption? Why not keep our money at home to build our own government, our own roads, our own schools? Solve this problem by helping to build *your own* factories at home.

**GRASP**

the *opportunity now*, and invest in the Idaho Co-operative Beet Sugar Company. Come in or write and let us explain the *Real Merits* of this Company.
