TWIN FALLS, IDAHO, FRIDAY, NOVEMBER 23, 1918

PRICE FIVE CENTS

## ADMINISTRATION UNDERTAKES OPERATION OF BITUMINOUS MINES

### U. S. READY TO DEAL WITH MEXICO

#### CARRANZISTAS ARE ATTACKED IN MEXICO CITY

Fighting breaks out between factious dominated by President and Obregon; Executive takes flight for safety

SAN ANTONIO, Tex., (AP)—Fighting in Mexico City between factions dominated by President Carranza and General Alvaro Obregon was reported in apparently reliable advices received here today from the Mexican border.

It was reported that President Carranza had fled to Queretaro for safety. The chief executive only recently returned to Mexico City from Queretaro, where he had been hiding the lingering, fatal illness of his wife.

General Pablo Gonzalez was reported at the head of the Carranza forces. Details of the reported fighting were not available.

Obregon, formerly minister of war in the Carranza cabinet, resigned recently after announcing himself a candidate for the presidency, to be voted upon next July. Carranza has stated he would not again seek election.

Another potential presidential candidate is General Gonzalez, who it has been stated, intended to leave from the army about December 6 to inaugurate his political campaign.

#### Government Has No Intention of Receding from Position in Jenkins Case, Officials Declare

##### NEXT STEP MAY TAKE FORM OF ULTIMATUM

WASHINGTON, (AP)—James Wallace, American official, was shot and killed by Carranzista soldiers near Tampico last Wednesday.

The state department today was advised of the killing and immediately ordered a thorough investigation.

Details of this latest outrage were lacking, but administration officials did not hesitate to characterize it as "almost the last straw" in the chain of "aggravating" incidents which has occupied the attention of the state department for several months.

The Wallace referred to is believed to be E. T. Wallace of the Gulf Refining company, about forty years old, and one of the company's best men. He had operated for the company in Colombia as well as Mexico, and went recently to Tampico.

If the identification of Wallace is correct he is the eighth official of the Gulf Refining company to be killed in Mexico since July 22, 1918, when the state department warned the Carranza government that more killings of Americans would lead to a change in policy of this government towards Mexico.

WASHINGTON, (AP)—Although further investigation of facts will be made, the American government has no intention of receding from its position in the Jenkins case, administration officials declared today.

The government, they said, is prepared for "the next step," which may take the form of an ultimatum to the Mexican government.

The Mexican reply to the American demand for the immediate release of Jenkins and his associates would stand in contradiction to the trial judge, and this, officials said, must be investigated. Instructions will be given to the American consul at Mexico City.

#### Angelo's Son to Take Up Work for Which Elder Died

##### Dedicates Self to Task of Making Mexico Democracy Deserving Respect

NEW YORK, (AP)—Alberto Angeles, the 22 year old son of General Felipe Angeles, who was executed by a Carranza firing squad at Minahuana City last Wednesday, hopes to take up the work in which his father died—that of establishing in Mexico "a democracy that will respect its international obligations and its own constitution," he said in a statement made public here today.

As newly created head of the Angeles family, the youth said he must first look to the financial welfare of his mother, sister and younger brother. Once he has completed this, he said, he would go to Mexico to take up the fight.

"My father's death will solidify the cause for which he fought," he said. "I can state my conviction that my father's friends will not remain inactive."

Senora Angeles, the general's widow, still was ignorant today of her husband's execution. She is critically ill and relatives fear the shock of the news would cause her death.

#### Socialists of Italy Declare for Soviet

ROME, (AP)—The directors of the socialist party today adopted a motion declaring that "the socialist victory at the general elections is an act of complete solidarity with the soviet republic of Russia, clearly expressing to the Italian government an order to recognize immediately the soviet republic of Russia."

#### REQUESTS QUICK ACTION IN DEPORTATION PROCEEDING

SPOKANE, Wash., (AP)—An appeal for immediate action looking to the deportation of about 100 alleged members of the Industrial Workers of the World held in jail here on charges of violating the criminal syndicalism statute was sent Anthony Caminito, commissioner of immigration, at Washington today by Representative J. Stanley Webster of this state.

### PROTECTION OF PROPERTIES AND USE OF TROOPS TO PROTECT WORKERS PLAN

#### Cabinet Agrees Upon Measures to Meet Situation Resulting from Refusal of Miners to Accept Government's Proposal of 14 Per Cent Wage Boost and Disinclination of Operators to Cooperate in Increasing Production

##### GARFIELD DECLARES PROFITEERING OF CAPITAL OR LABOR INTOLERABLE

WASHINGTON, (AP)—Seizure of bituminous coal mines where the owners do not show a disposition to co-operate in increasing production, and use of troops to protect all miners who desire to work, has been decided upon by the government in an effort to end the bituminous coal strike, it was stated today officially.

In mines seized by the government the 14 per cent wage advance agreed upon by the cabinet will be put into immediate effect, it was said.

These plans of the government were agreed upon by the cabinet last Wednesday, officials said, so as to meet the situation resulting from a refusal of the operators or miners, or both, to agree to the government's wage increase proposal.

Expect Voluntary Action

Cabinet officers expected many mine owners to put into effect voluntarily the 14 per cent wage increase. "Whether the owners will be willing to do so would be decided was not made clear, but it was said there was no general plan for government control; that each individual case would be decided on its merits.

Mines taken over by the government will be operated by the fuel administration, but details as to compensation to the owners were not disclosed. While various federal agencies were preparing to carry out the government's program, Fuel Administrator Garfield reaffirmed in even more emphatic terms his position that "profiteering on the part of either labor or capital will not be tolerated."

For Relief of Public

"The public cannot and will not be asked to bear the increased burden of higher prices of coal nor of the payment of a large sum as wages to any special class of workers," he said.

Pointing out that his conclusion had been reached only after careful and exhaustive research, Dr. Garfield declared neither the proposition of the miners nor the proposition of the operators, nor the insistence of the operators that they be permitted to charge a higher price for coal would induce him to alter his decision that a 14 per cent increase in the price of coal was necessary to bring the miners' wage up to the level of living costs and that the operators could pay this advance without increasing prices to the public.

Confession Leaving

A number of operators and union officials remained in Washington today, but all expected to leave for their homes tonight or tomorrow. Lewis, acting president of the United Mine Workers of America, was closed a large part

### STORMS RENDER FUEL SITUATION MORE CRITICAL

#### Coal Shortage Acute in Many Small Cities and Towns with No Prospect of Immediate Production Resumption

CHICAGO, (AP)—Cold weather, with snow and sleet storms, today had spread over the central and southwest and rendered more critical the fuel situation brought about by the 28 days strike of bituminous coal miners. In many small cities and towns the coal shortage has become acute, fuel being in prospect. Moderation of the cold wave by tomorrow, however, was forecast.

Calls for Volunteers

With no prospect of an immediate resumption of production in sight, efforts of the governor of Kansas to obtain volunteers to mine coal, and the announcement by Frederick D. Garfield, governor of Missouri, that he would call a conference of governors of coal producing states unless the government acted today, attracted chief interest.

In Chicago today there were renewed reports that train schedules would be curtailed further, but there was no confirmation from Walker D. Hines, director general of railroads at Washington.

Virtually all the mines that had remained in operation or where work had been resumed were idle yesterday, it being a usual holiday, but those mines generally were expected to continue production today despite breaking up of the Washington conference.

Would Convene Governors

Should the federal government fail to act today to end the strike, the conference of governors Mr. Garfield said he would call would be held at St. Louis, Chicago or Indianapolis. He declined to say what the probable action of the governors would be, but he indicated the states might take over the mines and operate them. Governor Gardner recently was appointed to head the committee on coal, which means to lower the living cost, by the governor's conference at Salt Lake City.

"Every department of human life is bound up in this issue," said a statement by Henry J. Allen, governor of Kansas, concerning his appeal for volunteers to mine coal to protect the people of Kansas "whose suffering will be unparelleled unless relief is afforded."

Messages were received by the governor from all over Kansas and from Missouri, Illinois and Texas offering to work in the mines.

Miners' leaders said the volunteers would be regarded as strike breakers.

### HOWE REQUESTS HEARING ON CHARGE AGAINST HIM

#### Former Immigration Commissioner Accuses Successor of Telling Untruth

NEW YORK, (AP)—The testimony of Byron H. Uhl, acting immigration commissioner, that he never released a man, woman or child without authority from Washington. The background of this whole situation is the war. When it broke out transportation was impossible and Ellis Island became the catch basin of America.

When informed by newspaper men that a number of persons had interpreted the testimony before the hearing as indicating that he himself held radical views, Mr. Howe said that he was not an I. W. O., but "a single taxer and a free trader." He said he believed in a government ownership and also that the United States should keep out of Russia and Mexico.

After the morning session Mr. Uhl announced that he was waiting to inquire whether the department of justice would furnish him with guards at the island. If they would, he said, he would order one guard to be sent to the island to refuse to attend deportation hearings, forcing them into a separate room and force them to attend the hearings.

A hunger strike which was continued today has split the men island "revolt" into two factions—the left wing, which sprays food, and the right wing, which demands it at every opportunity. The left wing has refused tea meals since last Tuesday.

#### REPORTS FIGHTING NO SUBSIDY TO WASHINGTON

WASHINGTON, (AP)—Reports that Carranza and Obregon forces in Mexico City had clashed were received with no surprise in official Washington. It was said, however, that Carranza had broken had some a little earlier than expected.

General Obregon, according to information here is not in Mexico City. He was last reported as leaving the Pacific coast for the capital with the avowed intention of carrying his campaign for the presidency into the "heart of the enemy's territory."

#### PREDICT GERMAN REFUSAL TO MEET ALLIES' DEMAND

##### Berlin Dispatch Says Germany Will Not Comply with Shipping Requirements

BERLIN, (AP)—It is stated in authoritative quarters here that Germany will not comply with the shipping requirements for 400,000 tons of docks, dredges and logs as an offset to the German warships sunk at Scapa Flow. It was indicated that Germany would stand pat on her position to refer the dispute to the Hague tribunal. It is claimed that Germany would not be held responsible for the actions of the marine forces at Scapa Flow.

#### SUPREME COUNCIL DISCUSSES SINKING OF GERMAN FLEET

PARIS, (AP)—Discussing the sinking of the German fleet in Scapa Flow and the compensation to be obtained therefrom, the supreme council today admitted in principle the demolition of the fleet still in the hands of the allies, but the question of the distribution of scrap iron resulting from the breaking up of the ships was not decided.

France and Italy, whose shipbuilding yards have been idle since 1914, will receive certain units intact as compensation for tonnage lost during the war.

The German delegation today delivered two notes to Paul Dauterive, secretary of the peace conference. One relates to the replacement of German war ships sunk by their crews in Scapa Flow and the other to the repatriation of German prisoners.

#### FRENCH LABOR LEADER TO HEAD INTERNATIONAL BODY

WASHINGTON, (AP)—Albert Thomas, the conservative labor leader of France, was selected today as the eminent body of the international labor conference as the first director general of the international labor offices under the auspices of the League of Nations. M. Poincaré, premier of France, was selected as permanent chairman of the governing body.

#### SAYS LABOR DEPARTMENT IS NEST OF BOLSHEVISM

WASHINGTON, (AP)—Charging that the department of labor was "honeycombed" with Bolshevism, it was "unfit" to administer the law providing for deportation of radical aliens, Senator Elmer Farmer, Utah, announced today that he had prepared for introduction Monday a bill transferring enforcement of this law to the department of justice.

## WORLD NEWS EVENTS

#### MILAN, Italy, (AP)—At a meeting in which all the socialist deputies of Italy participated here last night resolutions were passed asking the government to energetically suppress Captain Gabrielle D'Annunzio's enterprises in Dalmatia and establish a blockade to prevent food from reaching his troops.

#### MADRID, (AP)—Spain has broken off all relations with the soviet government of Russia, it was announced in the Cortes Thursday by the minister of foreign affairs, who said this step had been taken because the Spanish embassy in Petrograd had been twice attacked and the charge d'affaires forced to leave Russia. Socialist Deputy Savoriti protested against this action, which he declared to be "tyrannical."

#### LONDON, (AP)—The government won a sweeping victory in the house of commons today when the motion of William Brace, a labor leader, calling for the appointment of a committee to inquire into the cost of production, the output and prices of coal, was rejected. The government received 254 votes as against 59 for the measure.

#### BRUSSELS, (AP)—Representatives of France, England, Italy, Belgium, Switzerland, Holland, Sweden, Norway, Portugal, Greece, Poland, China and Japan will meet here on December 1 to discuss the adoption of measures and suggestions for the establishment and functioning of the league of nations.

#### ENGINEERS EXPECT TO REACH TRAPPED MINERS

SPOKANE, Wash., (AP)—Hopes of reaching by Sunday Emil Sayko and Peter Goast, miners imprisoned for two weeks by a cave-in in the Gold Hunter mine at Malibu, Idaho, were held by rescuers today.

WASHINGTON, (AP)—Government mine engineers expected to rescue today ten miners in a mine of the Gold Hunter mine and Smelting company at Malibu, Idaho. Reports to the bureau of mines said the men had been fed through a pipe while workmen were digging a ninety foot tunnel to where the miners were trapped.

#### LETVIA REGARDS SELF AT WAR WITH GERMANY

Recalls Diplomatic Representative from Berlin; Considers Actual Attack at a Risk

BERLIN, (AP)—The Lettish government has recalled its diplomatic representative from Berlin, and in view of the attack of Colonel Avaroff-Bermond troops, Lettish avails herself in a state of war with Germany, according to semi-official sources here today.

The German representatives still in Riga and Libau, it is stated, will therefore be recalled.

#### IDAHO WEATHER

Tonight and Saturday fair, with rain or snow north portions warmer.

#### ROCKY MOUNTAIN REGION IN GRIP OF SEVERE STORM

DENVER, Col., (AP)—With little or no relief promised by the weather bureau, the Rocky Mountain region continues today to be gripped by the blizzard which struck this section on Wednesday, extremely low temperatures and heavy snowfalls being reported from all parts of the territory between the Missouri river and the eastern boundary of California.

#### CALIFORNIA CITRUS CROP NOT DAMAGED THUS FAR

LOS ANGELES, Cal., (AP)—The Southern California "cold wave," involving a temperature around thirty degrees below zero, has not damaged the citrus groves so far, according to growers' reports from various sections.

Some frost was necessary in some localities last night.

#### SNOW FALLS AT PHOENIX

PHOENIX, Ariz., (AP)—Snow began falling this afternoon. Officials of the weather bureau said it was the first November snow since the station was established here in 1892.

#### WHOLE MIDDLE WESTERN REGION BURIED UNDER BLANKET OF SNOW

Suffering in Many Places in Central and Southwest in Prospect Because of Extreme Cold and Almost Fuelless Condition Resulting from Coal Strike; Cattle on Western Ranges Endangered; Heavy Rains Reported in South

CHICAGO, (AP)—A blanket of snow, ranging from a fraction of an inch to two feet, today covered most of the country west of the Mississippi river and extended as far east as Toledo, Ohio, with low temperatures prevailing throughout the area.

South of the snow belt heavy rains fell and floods swept the low lands bordering the Salt and Agua Fria rivers in Arizona, with possible loss of life.

Suffering in many places in the central and southwest was in prospect because of the extreme cold and the almost fuelless condition resulting from the coal strike. Cattle on the western ranges also were reported endangered.

Moderation today was forecast only for the Pacific region of Texas.

Two to four inches of snow are reported from Kansas to the Sierra Nevada mountains, with maximum falls of two feet in northern Arizona and the almost fuelless condition in some places, however, the snow drifted to depth of six feet.

Communication Crippled

In the western plains states trains were delayed and wire communication was crippled.

Lander, Wyo., was the coldest place in the country, according to reports, the temperature there being 26 degrees below zero. At Abilene, Tex., it was six degrees above zero.

Over the interior districts temperatures were from 10 to 28 degrees below the seasonable average.

#### OPERATORS' ORGANIZATION TOTTERS

In some quarters a rift in the clouds of uncertainty was seen in the statement by several of the operators that as an organized body they had ceased to function and that individual necessity and inclination would govern their actions. This was taken as an indication that some of the operators would attempt to resume coal production by dealing directly with their own employees. They were said to be hopeful that their own statistics of the 1917 operations of the mines are in the hands of the government, which they declared would show profits below those of the previous years, and as a result to make such adjustments in selling prices as would permit a fair and reasonable profit.

#### HOWE REQUESTS HEARING ON CHARGE AGAINST HIM

NEW YORK, (AP)—The testimony of Byron H. Uhl, acting immigration commissioner, that he never released a man, woman or child without authority from Washington. The background of this whole situation is the war. When it broke out transportation was impossible and Ellis Island became the catch basin of America.

When informed by newspaper men that a number of persons had interpreted the testimony before the hearing as indicating that he himself held radical views, Mr. Howe said that he was not an I. W. O., but "a single taxer and a free trader." He said he believed in a government ownership and also that the United States should keep out of Russia and Mexico.

After the morning session Mr. Uhl announced that he was waiting to inquire whether the department of justice would furnish him with guards at the island. If they would, he said, he would order one guard to be sent to the island to refuse to attend deportation hearings, forcing them into a separate room and force them to attend the hearings.

A hunger strike which was continued today has split the men island "revolt" into two factions—the left wing, which sprays food, and the right wing, which demands it at every opportunity. The left wing has refused tea meals since last Tuesday.

# TELLS STORY OF PERSECUTIONS

### Sister of Ruling Patriarch of Assyrians Appeals to British for Aid

LONDON, (AP)—There is a woman in London around whose story the minister of old would have no more to be said, says the Daily News.

She is the Lady Surma di Bith Mar Shimon, sister of the ruling patriarch of the Assyrians, the present-day remnant of the once powerful nomadic tribes which inhabited Mesopotamia before the incursions of the Arabs. The country whence she comes has been identified by some with the Garden of Eden.

Traveling by steamer, by train and on horseback, she has come alone some 4,000 miles from a town 400 miles beyond Baghdad to plead, as the agent of her people, for the restoration of lands lost by them when they took arms in behalf of the allies against the Turks and Kurds.

Driven into mountains

Driven further and further into their mountain fastnesses by repeated invasions and massacres, the surviving 200 of her people have gathered together at Bakuba, where they are living under the protection of the British civil and military authorities.

"I came to England to beg for my will," said the Lady Surma, who speaks English perfectly. "I have never been to Europe before. But there was no one else to help my brother, the late ruling patriarch, was killed by Kurd treachery; my younger brother, who succeeds him, is ill and another brother is serving. The people would trust nobody else."

"It may seem strange to you that a woman should be chosen for such a difficult task, but it has been the tradition of our nation that the sister of the heir should take the vow of celibacy and act as her brother's helper during his reign."

### Government is Pre-Occupied with Task of Extending Administrative Functions

BUCHAREST, (AP)—The Rumanian government is preoccupied with the task of extending its administrative functions over the territory that it has just acquired under the peace treaty. With Transylvania, Bukovina and a part of Bessarabia and the Danube added to its domain, the country will be called upon to meet with many difficult problems of organization and control of a country and people grown suddenly triple in area and numbers.

It is regarded as probable that the next Rumanian cabinet will have in it a number of representatives from Transylvania. Indeed some indications are that the next minister will be M. Maniu, now president of the executive council of Transylvania.

Queen Marie has often expressed a wish that she might be able to visit a few able Americans and Englishmen come to Rumania to act as financial and executive advisors to the government. "If we could induce some of your smart Americans to come here and act in advisory capacity to us," she said recently in a visiting American railroad man, "I think it would be a splendid thing. They could give us the benefit of their exceptional training and experience and save us from a lot of mistakes."

### REPORTS BUMPER WORLD CROPS EXCEPT OF WHEAT

WASHINGTON, (AP)—Bumper world crops of corn, potatoes, buckwheat, sugar beets and rice for this year are shown in estimates compiled by the international institute of agriculture at Rome, made public Wednesday by the department of agriculture. The production of wheat, oats, and flaxseed, however, show a decrease from the average for the five years ending in 1917.

Wheat production in 14 countries, excepting the central powers, will reach 2,940,000,000 bushels, 95.3 percent of the five year average. Cows will amount to 3,120,104,000, 14.8 percent greater than the crop produced last year and 4.4 percent greater than that produced for the last five years.

Other crops, the department's cablegram shows, are estimated as follows: Cent five year average.

Corn, 2,985,745,000 bushels, 99.3 percent.

Sugar beets, 10,344,000 tons, 114.9 percent.

You can find a position, fitting your capabilities, through the classified. Others are doing it all the time.

# GREENWICH VILLAGE IS PASSED INTO OBLIVION

### Bohemia of New York Nears Extinction Along with Bowers and Down-Town Residential District

NEW YORK, (AP)—Add Greenwich Village to the list of atmospheres that are no more. Like the Bowery and the old down-town residential district, the Bohemia of the metropolis is about to be passed into oblivion.

Unconventional people still reside in the vicinity of Washington Square, but those who know it in the old days call the present residents posterns.

Struggling artists, living in poverty in cheerless attics or stable studios no more evade notices; laundries by the back stairway. They don't because the same prices and studios now lease for anywhere from \$1,500 to \$3,000 a year, security demanded.

The Bohemian restaurants are everywhere. Out of business and prices range with eating places in the White Light district.

In McDougall Alley and Washington News, where men and women once sacrificed all bodily comforts for art, lions and towns cars now stand without. Nurses care for children. Fresh paint and modern conveniences are everywhere. Out of business who have arrived can give afford a residence in New York's Bohemia.

# NEW PROBLEMS FACE RUMANIA

### Government is Pre-Occupied with Task of Extending Administrative Functions

BUCHAREST, (AP)—The Rumanian government is preoccupied with the task of extending its administrative functions over the territory that it has just acquired under the peace treaty. With Transylvania, Bukovina and a part of Bessarabia and the Danube added to its domain, the country will be called upon to meet with many difficult problems of organization and control of a country and people grown suddenly triple in area and numbers.

It is regarded as probable that the next Rumanian cabinet will have in it a number of representatives from Transylvania. Indeed some indications are that the next minister will be M. Maniu, now president of the executive council of Transylvania.

Queen Marie has often expressed a wish that she might be able to visit a few able Americans and Englishmen come to Rumania to act as financial and executive advisors to the government. "If we could induce some of your smart Americans to come here and act in advisory capacity to us," she said recently in a visiting American railroad man, "I think it would be a splendid thing. They could give us the benefit of their exceptional training and experience and save us from a lot of mistakes."

### MEXICANS DEPEND UPON MISSION TO CLEAR SITUATION

MEXICO CITY, (AP)—Newspapers here assert there is reason to believe that a commission appointed from the Mexican senate will go to Washington some time within the next few months to meet with the United States senate commission now dealing with Mexican affairs. The Democrat states it is informed that some members here believe this is the readiest means to clear away any misunderstanding that may now exist between the two governments.

Finding a position is sometimes a most disheartening task. Just to rely upon friends or upon agencies in making personal applications, often leads to utter discouragement. The quick road to a position is through the classified. Some of this road requires more than one day to travel, but it leads inevitably to the desired goal if followed.

# REFUGEES CROWD CITY OF MEXICO

### Conditions in Republic Force Large Excess Population Into Capital

MEXICO CITY, (AP)—Conditions in the republic which have crowded million persons in Mexico City, or more than 300,000 above its normal population, have greatly increased the number of itinerant mechanics who set up shop where their whim wills. It is impossible to find a street in the city where some vendor has not set up a stall. A person desiring to outfit a house can buy almost everything needed without placing foot in a regular shop. Let a prospective buyer merely list that he is immediately besieged by a crowd of energetic salesmen who dilate in machine-gun Spanish on the words of their wares.

Sunday is the busiest day for these mechanics. They forego their regular work and spend their time for customers. Their numbers are augmented by men and women, boys and girls, all of them selling candles, fruits, shoes, bright-colored ribbons, shoes, hats, dogs, cats, gophers and the dozens of varieties of food of which chili is the most important component. The plaza around them and vicinity was for centuries playing whistles are blowing, nowadays call their editions, a man with a wheel of chance beseeches the pedestrians to try their luck, a boy with a huge bucket balanced atop his head offers sweetmeats at five centavos each, and following him comes a seller of ice cream with his frozen dainties about him and a constable who juggles perilously on his head but never loses a spoonful, and above all shines a glorious sun which gives no hint of howling problems of existence.

Native Leads Happy Life

It is a happy life the native leads on Sunday when with a few centavos he may fill his stomach with sweets, bask in the warm sunshine and listen to music furnished by a Mexican band, than which there is no better in the land.

A man from the United States, who on a recent Sunday morning, took a seat in a plaza, within a few minutes had his shoes shined, his nails manicured, his breakfast ordered, his morning newspapers delivered, his measure taken for a suit of clothes, and was offered an assortment of diamonds and gems at a bargain. He concluded that there may be more modern methods of conducting business, but his certainty is none more picturesque than that employed by the outdoor merchant.

### FRENCH HOTEL MEN PLAN BARRACKS ACCOMMODATION

### Seek Fortunes in Expected Flood of American Tourists Along the Battle Front

PARIS, (AP)—Hotel men, seeing fortunes in the expected flow of American and other tourists next year, are planning to erect "barracks hotels" along the battle front. The National Chamber of Hotelkeepers, co-operating with the government, is seeking private capital to put up such temporary buildings during the winter.

Officers of the association said most of the hostels now operating at towns on the front have patrons "sleeping in halls and even on billiard tables." The first efforts are being directed toward making habitable hotels that were damaged during the war and inducing owners of pieces destroyed to rebuild them.

Are you holding a makeshift job? Sometimes necessity forces people to accept unsuitable employment and to become simply wage-carriers, often without a chance for advancement. If you can do something well, tell about it in a classified ad.

### JUSTICES OF PEACE IN FRANCE THREATEN STRIKE

### Representatives of Law and Order Declare Salaries Less Than Wages of Street Sweepers

PARIS, (AP)—Disatisfied with the salary they are receiving, which they claim is lower than that of the street sweepers in Paris, the justices of the peace have addressed a memorandum to the minister of justice asking for a substantial increase. Failure of the government to comply will bring about a strike, the representatives of law and order say. The minister of justice is examining the claims of the justices of the peace and will give his decision after he has disposed in consultation with the minister of labor of the various strikes now in progress.

# SAYS PROHIBITION MAKES HEAVY DRAIN UPON CIDER

### New York Commissioner of Food and Markets Reports Popularity of Apple Juice

NEW YORK, (AP)—Prohibition has brood a national thirst for cider, an irresistible that apple juice promises to become the great American drink, according to Dr. Eugene H. Porter, state commissioner of food and markets.

But, says Dr. Porter, the supply is small. The present crop of cider apples is about that of former years "and the big dealers are scrambling to get enough to supply their customers."

"Much has been written and said of hard cider," he says, "but in most cases it has been soft cider, wearing a wolf's pelt. Hard cider with a natural kick is difficult to make and more difficult to keep."

He adds that "seeking consolation in year-treated cider is unwise, as its effects on the drinker are far from salutary."

### FRENCH HOTEL MEN PLAN BARRACKS ACCOMMODATION

### Seek Fortunes in Expected Flood of American Tourists Along the Battle Front

PARIS, (AP)—Hotel men, seeing fortunes in the expected flow of American and other tourists next year, are planning to erect "barracks hotels" along the battle front. **DON'T NEGLECT A RHEUMATIC PAIN**

Buy and keep handy a bottle of pain-relieving Sloan's Liniment

YOU need it when the unexpected rheumatic twinges start—the pains and aches following exposure—sciatica, lumbago, neuritis, stiff joints, neuralgia. Forget all about buying another bottle and keep it handy, didn't you? Get it today—play safe—you may need it.

This famous counter-irritant penetrates without rubbing and scatters the congestion. The pain or ache is soon relieved, leaving no plaster, no ointment, no stained skin. Thousands of regular users keep it handy for emergency—they don't ask for needlessly. Three sizes at all drug stores—35c., 70c., \$1.40.

**Sloan's Liniment**  
Keep it handy

**Teach Your Boy the Savings Habit**

and his future success need concern you little.

Strange—but true—that many parents sacrifice unselfishly to give their boy or girl an education, but overlook entirely the very practical value of the habit of saving a little money.

Young America needs training in savings as never before. A little self-denial now and then is the best kind of training in habits that lead to business success.

The First National Bank invites the accounts of boys and girls whether in their own or their parent's name. \$1.00 will start an account.

## CALIFORNIA'S LINE HAMMERED TO PIECES

### The Washington's Lighter Men Drive Through Stiff Line for 7-0 Victory

SEATTLE, Wash., (AP)—Washington hammered through the California line in a 7-0 victory yesterday in the closing football game of the Pacific coast conference championship race. As a result of the victory, Washington, it was announced last night, claimed the coast title.

Ray Eckman, who was picked to play the half back position for the Washington team, was suspended early this week, led his teammates in their attack upon the southerners. Eckman, the lightest man on his team, gained ground around the California line and around the California end. Today's game was the first of the season in which Eckman has started.

A heavy muddy field made play almost impossible and compelled both teams to fight it out at straight line smashing football. Few gains were made by forward passes. Both teams at place kicks failed.

California played a stubborn game and kept the Seattle men from crossing the line until the period. Both California's offense and defense, strong in the first half, weakened in the second. The left side of the visitors' line was the strongest, with Majors, Leackie, starting at left end. Plunk, Murray and Ellis, California backs, who did not start the game, led the invaders' offensive after they got into the play.

The line tally came in the third period. Blake, Washington, kicked to Sprout and the latter fumbled on his own fifteen-yard line. Both sides were for Washington. Butler then went through the California right tackle for six yards. Eckman carried it to within a yard of the goal and Thieson put it away. Faulk kicked the goal.

### Hod Eller Not Worried About Bar on "Shiner"

Redleg Pitcher Says He Has a Number of Other Aces Up His Sleeve

CHICAGO (Special)—It makes no difference to Hod Eller, whether the baseball rule makers make this winter and declare the shino ball spit ball, and all other so-called frink devices illegal.

"I've been throwing a shiner for three years and getting results with it," Hod said. "But that isn't all I've been throwing."

"I have purposely advertised my shiner by continually rubbing the ball on my trousers in order to cover up the best part of my pitching program."

"Has 'Secret' Ball Got Hold of it Made Matters Look Only for Shiners. The real secret of what success I have attained has not been due to the shino ball, but to something which I intend to keep secret for the present."

"No, it's not due to the resin I carry in my hip pocket. That is just to keep my fingers dry. I do not doubt in the least that I will have more success next year than I did this year, even if all the frink pitching is barred, because my skill in throwing ballers does not depend on anything I or any of my teammates do to the ball."

### New Out of Debt

Hod is now at his home in Danville, Ill., selling autos and also is connected with another business venture. Danville citizens did not give him an auto as reported, but gave him one with a fine piano, a year's membership in the Elks, and made him an honorary member of the Danville Rod and Gun club, an organization which has no right to confer this honor on any other man.

Hod said the world's series meant more to him than anything that ever happened in his life. The extra enabled him to get out of debt for the first time in about nine years, and to make a healthy payment on a home. From now on, he said, money he makes will not be for any one except himself and his family.

You can get work in the line for which you are fitted, through a small campaign in the classified.

## BUHL FIGHT FANS SEE REAL SPORT AS MITTS TAKE PLACE OF GREASE

### Copenbarger Lands Dopy Punch on Boise Man's Jaw in Sixth Stanza of a Blood-Thirsty Battle Main Event Decision is Not Well Received, but Sports Got Their Money's Worth.

BUHL (Special)—Buhl's real sports to the number of 07-12—the half being represented by the young hero to the Boyd million—was the town favorite, Ray Copenbarger, knock out Frank Harley of Boise in the sixth stanza of a scheduled ten round contest. Sol Soliman of Salt Lake got the decision over the "Fighting Strong" Sol of Denver in a clover, fast 12-round headliner at Stone Hall Thakagiving eve. Jack Brennan of Buhl refused both contestants. N. Thompson represented the state, and J. J. Boyd and Ralph Morro were judges.

The show was not started until 8 p. m. to give storekeepers and others a chance to see the sport. The contests were apparently for take into their house-style with plenty of gold and knockouts had their taste hugely gratified in the Copenbarger-Harley fight, who to the referee's science, brawling and boxing skill had their appetites antiated to the limit in the classy, extremely clever work of Solomon and Soliman.

### Draw Seemed Right

The decision in the main event did not seem to be popular. The judges' decision on Solomon's aggressiveness and the fact that he appeared to hit Soliman regularly, though they apparently for take into consideration a knockdown of Solomon for the count of eight and the fact that Soliman's blocking and boxing were the best seen in this section. Soliman, without a doubt, is a master boxer and boxer, and it would seem to the writer, voicing his own opinion, of course, that the bout should have been declared a draw. Many of Solomon's blows which appeared to hurt the referee were with the head or arms of Soliman—in fact, the hand of Solomon was badly swelled after the bout by connecting with the door of the "Fighting" one time after time.

### Good Preliminary

The first preliminary was a five minute blindfolded boxing contest between Chad Goldsberry and Eddie Bell, both of Boise. The second preliminary was the Chad claims a foul because of the fact that Eddie hit him in a rounding swat in the southern exposure that sounded like a dollar hitting a Salviatore. The third preliminary was the Frank Harley of Boise—the toughest, gamest boy who ever swung a padded mitt in Idaho—met his conqueror in the "Bucking Buckaroo," for whom the writer predicts a future if he will take care of himself and learn to box. In the bout last night, Copenbarger demonstrated beyond a doubt that he was a dangerous bird to get in a ring with. To begin with, Cope is so compact and awkward that a fighter doesn't know what to expect, or where to expect it from. He has a fighting heart—loves to take several minutes in his work. He goes out to win and has been doing it with regularity.

### "Cope" Goes Strong

In the first stanza, the boys felt each other out a bit, "Cope" having been tipped off by his usual practice of sailing through the air at the foot of the first gun, and going into action with both forward guns. In the second stanza, Harley had a trifling bit of "Cope" being bothered with his shins which he removed before the next tilt. In the third, "Cope" evened up matters a bit by hitting Frank in the head and several times in the body, connecting with his biting apparatus. The fourth found "Cope" cutting loose. During this muss, he spilled Harley for the count of seven and generally mowed him up.

In the fifth, "Cope" cleared for action and reproduced the battle of Sangu on a small scale. In this round, "Cope" put up into high and dropped Harley for the count of eight. The gong saved Harley for "Cope" was strong or than XXX brandy and hitting Frank with everything but his five-gallon hat.

Sixth Harley's Finish

The sixth saw the finish of Harley. "Cope" put up into high and dropped Harley for the count of six right

off the bat. He went down again for the count of eight, again for seven, again for eight, again for six, another time for nine, and again for eight. Harley showed gameness that was exceptional—each time "Cope" dropped him with a hard jolt, he would come up again and try to land on the buckaroo's knees. Had he started down for the count any one time of the seven, the 07-12 would have admired him but he showed remarkable gameness and came back. The last time "Cope" snatched a mortgage lifter from somewhere, down by his heels, caught Harley flush on the jaw and dropped him, the blow spinning Harley around like a top. Harley managed to get to his feet again, but his seconds throw in the towel, and Buhl's "Buckaroo Champen" had won his first real battle and demonstrated his courage and fighting ability to a full extent. He was principally to see him get whipped and awake from their surprise to learn that in "Cope" the town has a tomer who will be heard from if he takes the right path.

The battle was typical slaughter house affair, with a total absence of science because neither possessed it, every blow a powerful swing and both boys fighting their best all the way. "Cope" deserves credit for his feat, but Harley deserves equal honors for his exceptional gameness.

The headliners were feather weights and faster than a Stutz four with pie-in-the-face in the tank. Solomon outweighed Soliman.

### Feathers Clever

The first round, honors were even, likewise the second and third rounds. The boys were very clever and fast, and showed some real science. The fourth round, Soliman had a trifling bit of the tilt. The fifth round all Solomon, while Soliman grabbed off the toe of the eighth. The sixth stanza was a draw. In the eighth stanza Soliman knocked Solomon down for the count of eight, but could not land a haymaker, giving him the round. Solomon lost the ninth tilt. The tenth round was Solomon, that getting in several good licks. The eleventh and twelfth rounds were draws.

### Points for Each

According to the writer, based on points allowed for 15 rounds and a half-point each for draws, the count would be as follows:

|         | Round | Soliman |
|---------|-------|---------|
| Soliman | 1-2   | 1-2     |
|         | 1-2   | 2-1     |
|         | 1-2   | 3-1     |
|         | 1     | 4       |
|         | 0     | 5       |
|         | 1     | 6       |
|         | 1     | 7       |
|         | 1     | 8       |
|         | 0     | 9       |
|         | 0     | 10      |
|         | 1     | 11      |
|         | 1-2   | 12      |

The evening's entertainment, as a whole, was as good as that to be seen in Kansas City, Chicago or New York for \$5 a throw, and should have been patronized. Last night's show concludes the booking of the Bull Athletic association.

### ADVANCE GUARD

NEW YORK, (AP)—Nearly one hundred football players, forming the squad of the United States naval and military academies, arrived here this morning for the annual game, to be played here tomorrow afternoon. Buhl and Salt Lake will play at the Polo grounds during the day.

### Brief Bits of Sport

William (Bill) Evans, dean of ball umpires, says frank deliveries are due for legislation into the discard.  
Evans says pitchers pay more attention now to queer chucking than to developing real ball pitching.  
Disgusted with ineffectual attempts to get fistic medicine in England, Fred Fulton, Minnesota plasterer, has returned to his native land and will spend his time racing around after second-rounders in this country.  
Wild Bill Ridgers has decided to stick to the Sacramento Coyotes another year, and has signed a contract to run the club in 1931.  
Apparently Clyde Ware, new manager of the Seattle Billieums, does not want a lot of Hibernalia on his club. He has offered to sell Mike Regan, Jimmy Walsh and Ed Sweeney.

Having no use for Jack Johnson—any man who, for money will engage in fistic endeavor, we can only earnestly hope that both Johnson and Carl Morris get a whaling fine flogging when they fight in Mexico.

Hank Severid, catcher for the Cubs, is said to be near death from appendicitis.

From out the coffee east comes word that a "critter" valued at \$50,000, dead from eating a rail—once bull.

### CADETS GET SEND-OFF

WEST POINT, N. Y., (AP)—The army football squad, fifty five strong, was given a rousing send-off by the cadet corps when it left for New York this morning. Shouts of "make it five straight" rang in their ears as they boarded the train. The men were in excellent condition and confident of victory. The squad will receive its final workout at the Polo grounds this afternoon in preparation for the navy game there tomorrow. The cadet corps and other local moters will leave for New York tomorrow morning.

## Three I League Looks Eastward for Territory

TERRY HAUTE, Ind., (Special)—Now that the Three Eyes league managers are back from the miners' meeting it is known that Ryan of Bloomington and President Torney, the two men who shaped up the circuit of six clubs for last year, have in mind taking in Richmond, Ind., and two "Ohio cities" and by dropping Moline have an eight club circuit.

It is therefore taken for granted that the projectors of the new Central league have not got control of the Central territory to the exclusion of the Three Eyes, for Richmond is a Central town and the two "Ohio cities," probably Dayton and Springfield, were in the old Central. The new Central did not seem to be getting on its feet at last accounts. Joe Dunn made it known to the Bloomington people that he was willing to return for next season, but it was up to the Park-Springfield to boost his salary. The amount is said to be the largest ever paid in B class for a manager. The fans at the home of the champions will be anxious to retain Dunn "at any cost" and promise to make good the additional salary by a larger attendance.

### FARGO'S ON FIGHT MAP

FARGO, N. D., (AP)—Ed Saffro of Fargo, well-known, knocked out Mark Moore of Minneapolis in the ninth round of a scheduled ten round bout yesterday. Moore was counted out by the referee, but the crowd was disappointed with the decision. Saffro recovered the ring and, in the tenth round, knocked Moore through the ropes just as the bell rang.

### ANOTHER MEAL TICKET

CALGARY, Alberta, (AP)—Tommy Gibbons of St. Paul easily defeated Mike Klag, Australian light heavy weight in his fifteen-round match here last night. The St. Paul boxer showed decisive superiority in every round.

## Boyd Hospital LABORATORY

Twin Falls, Idaho

Established 1905

A new department of the hospital, fully equipped to lend valuable aid toward making a diagnosis.

Without a proper diagnosis, no disease can be properly treated.

Diseases, such as typhoid, syphilis, malaria, tuberculosis, anemia, influenza, obscure diseases of the blood and nervous system, Bright's disease, and cancer, can be diagnosed by laboratory tests alone.

In nearly every disease known, valuable diagnosis, as well as prognostic aid can be given by careful examination of the blood, urine, sputum, gastric contents, specimens of tissue, such as cancerous and tuberculous glands, bacterial examinations of pus spinal fluid contents, and inflammatory exudates, such as pus in the lung, etc.

No disease is of such minor importance that the patient is not justified in demanding every means toward an accurate diagnosis.

CITY REPRESENTATIVES
George B. David, Co. 171 Madison Ave.
New York, A. E. Keator, 1411 Harvard Building, Chicago.

LET'S DO THIS
No time is more opportune for the consideration of arguments for the building of a rim-to-rim bridge to span Snake river canyon north of Twin Falls than the present, when the danger attendant to attempt to negotiate the several grades down the canyon walls is most immediately apparent.

It is not necessary that one should experience narrow escape on the grades for himself to appreciate the danger. Every one who drives a car, even on the level, during this season with the roads coated with slippery sheets of ice and snow must entertain a very keen appreciation of the threat that lurks in every passage of existing avenues for travel between Twin Falls and the section immediately to the north.

Possibilities for accident are bound to increase with the building of an adequate system of highways in the Twin Falls district serving to attract a much larger volume of travel.

Actual occurrence of accidents with almost certain fatalities in consequence ought not to be required to drive home the arguments for building of the bridge.

Building of such a bridge not only will benefit the interests of every one now here and yet to come to the Twin Falls country, but it will safeguard the lives of an ever increasing number of people who have occasion to make direct use of it.

The sooner it is accomplished the better it will be for everyone.

U. S. READY TO DEAL WITH MEXICO

(Continued from Page One)

go forward to the embassy at Mexico City today to investigate this charge and also obtain copies of the indictment and charges against the consular agent.

Administration officials indicated that the negotiations with Mexico would not be prolonged if unsatisfactory; that the American government had decided upon a course of action and was prepared to carry it out should that become necessary.

Legal officers of the state department today were studying the new Mexican constitution, which provides that "the federal tribunals shall have jurisdiction over all cases concerning diplomatic agents and consular officers."

Deny Jurisdiction
The Mexican government in its reply to the American note demanding Jenkins' release said his case was in the state courts at Puebla and that consequently the federal government could not interfere. Since Jenkins is a consular agent of the United States, officials are inclined to the opinion that under the Mexican constitution the state courts have no jurisdiction in his case.

While officials have not yet seriously considered the question of Jenkins' release on bail, they said there might be advantages technically in his refusing to accept bail. In its reply the Mexican government pointed out that Jenkins could obtain his liberty by furnishing the 1000 pesos bail demanded.

Would Use Army
Equipment of the army to release Jenkins, unless the Mexican authorities authorities comply with this country's demand upon 24 hours notice, was urged today by Senator Adams, Democrat, Arizona.

"Mexico," said he, "should be given 24 hours to release Jenkins. If he is not released at the end of that period of time, the American army should proceed to Puebla and release him."

Senator Adams said he assumed every thoughtful man knew that our state department would do as it has been doing throughout all this miserable Mexican question—that it is a bluff with a "bolitail flush."

TACOMA COUNCIL GRANTS TO W. W. EBBERTS TO HARVEY
TACOMA, Wash., (AP)—The city council today agreed to let the 22 alleged I. W. W. who are on hunger strike in the city jail scavo if they were to follow a report from Attorney City Attorney Frank Carahan that the city cannot be held responsible.

REPORT OF CONDITION OF THE Reserve District No. 12

First National Bank of Twin Falls

AT TWIN FALLS, IN THE STATE OF IDAHO, AT THE CLOSE OF BUSINESS ON NOVEMBER 17, 1914.

Table with columns for Assets and Liabilities. Assets include Loans and discounts, Overdrafts, U.S. Government securities, etc. Liabilities include Capital stock, Surplus fund, etc.

Of the total loans and discounts shown above, the amount on which interest and discount was charged at rates in excess of those permitted by law (Sec. 2197, Rev. Stat.) (exclusive of notes upon which total charge not to exceed 50 cents was made) was None. The number of such loans was None.

State of Idaho, County of Twin Falls, ss:
I, J. M. Maxwell, Cashier of the above-named bank, do solemnly swear that the above statement is true to the best of my knowledge and belief.

Subscribed and sworn to before me this 26th day of November, 1914.
J. M. MAXWELL, Cashier.
E. B. FOX, Notary Public.

CORRECT—Attest:
H. L. MAXWELL,
A. BURMAN JOHNSON,
L. E. SALLADAY, Directors.

LADY ASTOR IS VOTERS' CHOICE

PLYMOUTH, (AP)—Lady Astor, American-born wife of Viscount Astor, was elected to parliament from the Sutton division of Plymouth in the balloting of November 17. The result was announced after a count of the ballots here this afternoon.

The vote stood:
Lady Astor, unionist, 11,465.
W. T. Day, labor, 9,292.
James Post, liberal, 4,129.

The ceremony attending the counting of the ballots began in the historic Plymouth Guildhall at 9:30 o'clock.

Takes Popular Stand
Lady Astor's philanthropic endeavors here during the last ten years brought her considerable support, as well as her removal of anti-liquor legislation, which won her a large vote among the women. She drew about the constituency on a speech-making tour this afternoon and evening.

The campaign attracted wide attention, due in large measure to Lady Astor's nationality, her unorthodox electioneering methods and her barbed and witty replies to questioners. Mrs. Lloyd George and other prominent political personages spoke in her behalf.

Lady Astor became a candidate after the death of Viscount Astor of Hereford had left her husband heir to the title and necessitated his retirement from the lower house of parliament.

Mother of Six
Lady Astor, who was formerly Miss Nannie Langhorne of Virginia, is the mother of six children, a fact of which she boasted on one occasion during her canvass.

"Here's a Friendly Tip" says the Good Judge

Men who know tobacco, chew the best without its costing them any more. They take a little chew and it's amazing how the good taste stays in a rich, high grade chewing tobacco.

For lasting tobacco satisfaction, there's nothing like a small chew of that rich-tasting tobacco.

THE REAL TOBACCO CHEW put up in two styles
RIGHT CUT is a short-cut tobacco
W-B CUT is a long fine-cut tobacco
Weyman-Burton Company, 107 Broadway, New York, Cty.

Today's Markets

New York Exchange
NEW YORK, (AP)—Another heavy selling movement swept over the stock market today, losses of five to almost 25 points being recorded in many speculative issues. The reaction was mainly attributed to tense conditions arising from the coal strike situation and further disturbing news from Mexico.

Chicago Produce
CHICAGO, (AP)—Butter, creamery 58 to 71c. Eggs unsettled; receipts 953 cases; firsts 72 to 73c; ordinary firsts 68 to 66c; at mark cases included, 62 to 72c; storage, packed firsts, 78 to 74c. Poultry alive, unsettled; springs 23c; fowls 14 to 23c; turkeys 30c.

Grains and Provisions
CHICAGO, (AP)—Corn prices went upward today, influenced largely by absence of any urgent pressure to call for any urgent pressure to sell and by the fact that country offerings to arrive were light. Besides, the opinion generally prevailed that no big movement of supplies from rural sources could be looked for at present.

Cash Quotations
CHICAGO, (AP)—Corn No. 2 mixed old \$1.50 to 1.53; No. 2 yellow, old \$1.55.

Chicago Livestock
CHICAGO, (AP)—Hogs, 47,000; slow; bulk \$13.00 to \$13.50; top \$13.55; heavy \$13.00 to \$13.50; light \$13.00 to \$12.00 to \$12.50; pigs \$12.00 to \$12.75 \$13.50; heavy packing sows, smooth \$12.50 to \$12.65; packing sows, rough, \$12.00 to \$12.50; pigs \$12.00 to \$12.75.

OMAHA, (AP)—Hog receipts 5,000; market 35 to 39 cents higher; top \$13.25; bulk \$12.75 to 13; heavy \$12.75 to 13.10; light \$12.75 to 13; heavy packing sows, smooth \$12.60 to 12.75; packing sows, rough \$12.40 to 12.60; pigs \$12 to 15.

Cattle receipts 6,000; killing classes 10 to 15c higher; stockers and feeders steady; beef steers, medium and heavy weight, choice and prime \$18.25 to \$18.55; common \$9 to 11; heifers \$6.75 to 13; cows \$6.50 to 15; canners and cutters \$5 to \$5.50; veal calves \$12 to 14; feeder steers \$7 to 13; stocker steers \$6.50 to 11.

Chicago Cattle
CHICAGO, (AP)—Potatoes weaker; arrivals 87 cars; Northern Whites, sacked \$2.70 to \$2.80; bulk \$2.60.

Chicago Produce
CHICAGO, (AP)—Butter, creamery 58 to 71c. Eggs unsettled; receipts 953 cases; firsts 72 to 73c; ordinary firsts 68 to 66c; at mark cases included, 62 to 72c; storage, packed firsts, 78 to 74c. Poultry alive, unsettled; springs 23c; fowls 14 to 23c; turkeys 30c.

CHICAGO, (AP)—Butter, creamery 58 to 71c. Eggs unsettled; receipts 953 cases; firsts 72 to 73c; ordinary firsts 68 to 66c; at mark cases included, 62 to 72c; storage, packed firsts, 78 to 74c. Poultry alive, unsettled; springs 23c; fowls 14 to 23c; turkeys 30c.

Grains and Provisions
CHICAGO, (AP)—Corn prices went upward today, influenced largely by absence of any urgent pressure to call for any urgent pressure to sell and by the fact that country offerings to arrive were light. Besides, the opinion generally prevailed that no big movement of supplies from rural sources could be looked for at present.

Cash Quotations
CHICAGO, (AP)—Corn No. 2 mixed old \$1.50 to 1.53; No. 2 yellow, old \$1.55.

The Priebe Force

We haven't An Axe to Grind
It isn't a selfish motive that prompts us to steer you away from poor quality clothing this winter.
It's a duty that we owe to our customers and to our competitors.
We are in sympathy with any other good store in this or any other city that maintains a high standard of quality in these uncertain times but we detest any set of underhanded methods that tend to lower the good name of the retail clothing business at large for we are retail clothiers and happy to say, we are as proud of our profession as a professor is of his prefix.
A cheap suit today isn't as good as the cheap suit of yesteryear, and the advertisement that quotes good clothing this winter at 1914 prices is the worst kind of an insult to American intelligence.

### SWISS DEBATE OFFER TO FURNISH SEAT OF LEAGUE

#### Opposition Develops to Proposal for Geneva by the Peace Conference

GENEVA, (AP)—The Swiss government has not yet accepted the offer of the peace conference to make Geneva the seat of the league of nations. When the offer was made it was thought here that the Swiss would gladly accept it without parley. The reason why the Swiss have not done is that action upon Switzerland's adherence to the league has been so long delayed. Another reason is the opposition to the location of the seat of the league in Geneva on the part of Swiss Germanophile socialists and radicals who are strongly opposed to the league.

The principal argument is that if Germany and Austria are excluded from the league even temporarily, it would not be a league of nations but a league of allies "based on an imperial foundation and that to locate it in Geneva would be against Switzerland's interests.

If the league is located here, its members probably will find the cost of living high but not so dear as in Paris. This is attributed in part to a great influx of strangers since the war.

### Local Brevities

**Will Meet Tonight**—The Neighbors of Woodcraft will hold their regular meeting tonight at the I. O. O. F. hall at 8 o'clock.

**Visiting Daughter**—Mr. and Mrs. Asa Holt of Longmont, Col., arrived Tuesday to spend Thanksgiving at the home of their daughter, Mrs. L. L. Brockbridge.

**Came to California**—Mr. and Mrs. Fred Holifich and little daughter left yesterday morning for Berkeley, California, to remain there through the winter months.

**Spent Holiday in Boise**—Mr. and Mrs. M. J. Swooley and Mrs. E. S. Lewis returned to Boise Wednesday to spend Thanksgiving at the home of Mr. and Mrs. Everett Swooley. They will return Sunday.

**Holds Meeting**—The Rotary club held its regular weekly luncheon at the Masonic temple Wednesday. Asa Holt of Longmont, Col., a visiting Rotarian, was a guest of the club.

**Mrs. Dubois Here**—Mrs. Fred T. Dubois, wife of former Senator Dubois, arrived Wednesday evening from Blackfoot to visit at the home of Mr. and Mrs. Charles L. Hart for a short time.

**Thankgiving at Shoshone**—Miss Mildred Burgo, sister of Mrs. E. A. Walters, was in Shoshone Wednesday to spend Thanksgiving with her parents.

**Barrett Sells Farm**—J. A. Barrett, manager of the Studelaker Brothers company house here, Wednesday completed the sale of his farm property of 120 acres in the vicinity of Hanesco to David Knudsen of Hanesco for \$26,000. Mr. Barrett purchased the property three years ago for \$13,000.

### BALTIMORE IS SCENE OF MILLION DOLLAR BLAZE

#### Buildings Formerly Occupied by Johns Hopkins University and Other Structures Destroyed

BALTIMORE, Md., (AP)—The group of buildings formerly occupied by Johns Hopkins university and about score of other structures in the square bounded by Howard, Ross, Monument and Enoch streets were either destroyed or were struck by fire today, estimating a loss roughly estimated at \$1,000,000, of which about \$700,000 falls upon the university.

The blaze started in McCoy hall of the Hopkins group, from an undetermined cause. An explosion followed almost instantly and heavy explosions occurred in the building from time to time.

Nine firemen were injured, but none seriously.

A number of rescues were made by firemen, including a blind girl who was taken from a third story, and several families.

High winds swept the sparks a half mile away to the center of the city, and hundreds of men were sent to the roofs of department stores to stamp out incipient flames.

A rigid investigation to determine the cause of the fire has been begun. The explosions which occurred in McCoy hall are unexplained. No explosives were stored in the building, it is believed.

### Personals

R. D. Churchman is in the city from Pocatello looking after business affairs.

C. E. Stanley and Dick Clark of Buhl spent the day here yesterday.

J. M. Hutton was in from Hollister to spend Thanksgiving in Twin Falls.

This place is doing a fine business and is the best bargain we have ever heard of in this kind of a proposition.

Our price and terms are \$11,000. Terms, \$4,500 cash, with very easy terms on the balance.

This place is all steam heated and you will have to get a move on if you want the very best money maker for about half price.

If you will call phone 1240 they can tell you more about this bargain.

### Social Notes

Mrs. Marion Betty is entertaining at a large party in Burley this afternoon honoring her mother, Mrs. J. R. Conway of Twin Falls.

The formal ball given by the Elks was a most enjoyable affair. The beautiful gowns worn by the ladies made it a brilliant one. A large crowd was in attendance and punch was served throughout the evening.

Mrs. A. W. Hoated was hostess to the Hoover bridge club Wednesday. A delicious two course luncheon was served at one o'clock at which covers were laid for twelve. Mrs. Blakeley of Ocean Park was a guest for the afternoon.

Mr. and Mrs. A. Guibert entertained at a Thanksgiving dinner for a large party of friends, a custom they have followed for several years past. Mr. and Mrs. W. R. Priebe, Mary and Melchior Priebe, Mr. and Mrs. F. E. Chamberlain, Misses Anderson, Eckert, Dehn, Eskine, Hagar and Chamberlain.

Mr. and Mrs. George R. Bealey were hosts at a Thanksgiving dinner at the Hotel Perrine last evening. The table was decorated with yellow chrysanthemums with place cards in the same color. After a delightful five course dinner the guests regaled to the Elks hall where dancing was enjoyed for the remainder of the evening.

Mr. and Mrs. Wilbur S. Hill entertained at an informal dinner Wednesday evening, honoring Mr. and Mrs. B. A. Hamilton. The table had as a centerpiece a beautiful bowl filled with yellow chrysanthemums. Covers were laid for twelve. After dinner pinquely was played. Mr. and Mrs. Charles H. Burton won first prize while Mrs. Hamilton was presented with a beautiful spoon.

### GERMANS SEEK CAPTURE OF BRITISH COMMERCE

LONDON, (AP)—The Germans are making a very big effort to capture the British trade in certain articles. Already silk, cotton and other manufactured articles are arriving in large quantities. Samples of German toys have also been received and it is believed the object of the samples is to test the markets before risking delivery in bulk.

Bradley Cheesman, general secretary of the National Union of Manufacturers, says:

Although the popular idea is that German goods are still marked "made in Germany", there is good reason to believe that enormous quantities of German made goods are being shipped here through neutral countries, without anything to indicate the country of origin.

Mr. Cheesman suggests that to overcome the difficulty all foreign goods might be marked "Not British Manufacture."

In business, as in war, it often happens that a blunder is as destructive as a crime. If your business has character and your printed matter does not indicate this fact, you are making a costly blunder.

### MEXICAN PAPERS PRINT SECTIONS IN ENGLISH

MEXICO CITY, (AP)—For the benefit of readers who may have difficulty with the Spanish language, three Mexico City newspapers are publishing daily a section of their papers in the English language, giving comprehensive reports of Mexican affairs and the world news in general. The newspapers, El Universal, El Heraldico de Mexico and Excelsior are members of the Associated Press.

LONDON PLANS USE OF FOG PENETRATING LAMPS

LONDON, (AP)—London is planning new measures against the dense fogs which, several times each winter, seriously interfere with street traffic and cause many traffic accidents. Men equipped with fog-penetrating lamps are to be stationed at points about the city where traffic is most congested.

**IT PAYS TO TRADE AT THE BIG WHITE STORE**

# JAPAN SHARES COMMON UNREST

### Protests Against High Costs and Demand for Higher Wages Figure

TOKIO, (AP)—Protests against the high cost of living and demands for increased wages are as emphatic in Japan as in other nations. The newspapers attack the government, charging it with maintaining a policy of procrastination in dealing with these economic problems. From all parts of the country, from offices, factories and schools come urgent appeals for advances in wages to meet the mounting cost of everything.

Japanese laborers have started a popular movement to secure a reconstruction of the cabinet, believing that a ministerial change is necessary to secure economic reforms. The newspapers denounce the cabinet, stating that seven laborers made to Marquis Okuma, the venerable former premier. The delegates included two coolies, three farmers, and a fisherman. The cabinet, all attired in homespun dress, some members of the delegation attributed their economic distress to the lack of government action—and denounced the cabinet for alleged failure to halt the mounting cost.

Marquis Okuma also asserts that the difficulties under which the nation is suffering are largely due to the fact that the cabinet has taken no effective remedial steps. He says he fears that unless some important reforms are undertaken, there will be a general uprising. To this he adds a vehement denunciation of the luxuries of the rich.

The house of peers has suggested that steps should be taken to control the prices of the necessities of life. At an official conference called by Premier Hara, it was decided that a public market should be established in each city with a population of 50,000 and that money should be advanced to the people at a low rate of interest for the building of houses, the material to be obtained from crown forests. Another idea is to remove the customs tax on imported goods.

The economic situation of the country is causing grave concern to industrial leaders and bankers. The extraordinary increase in Japan on the labor market at Yokohama, and the fear that an eight-hour day for Japan would reduce Japan's output and so increase the cost of production that Japan would find greater difficulty in competing with other nations in world commerce.

# SOARING QUOTATION FOR SILVER BOOMS DISTRICT

### Famous Colorado Camps Take On New Signs of Prosperity Favor White Metal

ASPEN, Colo., (AP)—High prices for silver have brought a mining boom to the famous silver camps, and activity every project is being worked and the four tunnels under operation are being pushed with feverish activity in an effort to reach the ore bodies while the price remains high.

Most of the properties were closed during the early part of the present decade when silver dropped to 47 cents, but now even low grade propositions are being operated with profit. In one of the mine operations say sufficient ore has been located that it is in operation for many years. A flotation mill has been erected at the entrance of the tunnel of this property. One streak of pay ore was found to weigh as high as 30,000 ounces in silver.

Some of the Aspen properties have needed millions of dollars to their owners in past years. In Leadville mining activity is reported, promoters searching actively for new leads. None of the older properties have been reopened, it is reported.

# SIMPLIFIES ROAD MAKING

### Present from Federal Government Reduces Expense of Work to Arizona

TUCSON, Ariz., (AP)—Because of a \$2,000,000 present to Arizona by the United States government, road making in this state has been simplified and the expense reduced to a minimum.

Hot tar, trucks, cranes, steam shovels, pumps, rock crushers, motor graders and tons of high explosive form the gift of the government to Arizona. The \$2,000,000 program of state highway construction which the state is to carry through in less than 18 months. It is all war department material being distributed to all states for road building.

# MEXICAN STATE VISITED BY STORMS AND FLOODS

MEXICO CITY, (AP)—The Toluca district in the state of Chiapas was visited by the first week in November by severe storms and the level of the river practically everything left by an inundation in the previous month. Crops were destroyed, property damaged and many lives lost. A number of life due directly to floods was small. Government aid has been extended to the stricken district.

# STORIES From the BIG ONES

## Chaloner's Mission Now to Fight "Lunacy Trust"

NEW YORK.—Branding alienists as "head hunters who, for a price, will send any man to the madhouse," John Armstrong Chaloner, secretary of "The Lunacy Trust," has announced his intention of fighting his life to fighting "bogus lunacy laws."

Summoning a group of newspaper men, whom he insisted upon addressing as "Gentlemen of the Fourth Estate," Mr. Chaloner said that five years of warfare would be necessary to defeat the "lunacy trust" in the United States and then only two years in Europe before there, too, he would be victorious.

The "lunacy trust" here "is rich and entrenched," he said, but asserted he was willing to devote to his campaign both his time and his income, which amounts to \$12,000 a year.

On Sunday morning, November 9, at 7:45 o'clock, Mr. Chaloner will begin a series of lectures to which the public will be invited. He will continue the series for five months, under the title, "The Philosophic Aspects of Christianity."

"The lunacy laws of this state, New Jersey, Pennsylvania, Ohio, Indiana, Illinois, Missouri and New England are rotten," he said to organize a "lunacy trust" here.

Mr. Chaloner (originally Chanler) is a grandson of John Jacob Astor and the owner of an estate valued at more than \$1,500,000. He was adjudged insane in this state in 1897 on the petition of several of his relatives, and was confined in Bloomingdale asylum. Two years later he escaped and took refuge in Virginia.

The courts have now declared him sane and restored his fortune.

# USE WIRELESS WITH PATROLS

### Aerial Border Observers are Guided by Means of Improved Telephony

SAN FRANCISCO, (AP)—Wireless telephony sending apparatus is now being used to guide the aerial border patrol of the Mexican border line, according to Col. J. E. Hemphill, chief signal officer of the western department, who is soon to leave for the border to inspect the wireless equipment. Four new sending stations have been installed, Colonel Hemphill says, each with a radius of 100 miles.

"The object of the wireless," said Col. Hemphill, "is to enable the authorities to keep in momentary communication with the border patrol of airplanes that is constantly maintained. The Mexican border line within the jurisdiction of the western department of the army is now completely equipped with wireless telephony sending apparatus that will reach army airplanes at any place along the border."

"The wireless will reduce to a minimum the chances of a pilot becoming lost, as the position of an airplane and its general direction from the land station can be fairly accurately gauged with the army's telephone equipment. As soon as the signal corps of the southern department completes the installation of its wireless telephony sets the army will have a row of stations from the Pacific to the Gulf of Mexico."

# BOOZE VENDOR MISTAKES OFFICER FOR CUSTOMER

### Offer to Sell Whiskey to Sheriff of Arizona County Leads to Grievous Restaurant

PRESCOTT, Ariz., (AP)—Sheriff Warren C. Davis, of Yavapai county, and Grant Carter, one of his deputies, one evening recently found themselves in a restaurant. Entering a small restaurant, they ordered supper. Half way through the meal, according to the officers, the proprietor came around the counter, leaned over confidentially and said: "Want a little nip?"

"Well, don't know but what I do," the sheriff replied. The sheriff said the man disappeared, returning from the kitchen a moment later with a pint of whiskey.

"Fine," resumed the sheriff. "How much for the bottle? Only \$61. Have you got any more?"

"You bet," answered the safe proprietor, according to the sheriff's version. "Lots of it."

"You must be the man I'm looking for then," said the sheriff, displaying the star of Yavapai county. "Come along. If we hurry we can make the train for Prescott."

You can sub-let that apartment through classified advertising—to the right person, at the right rental.

# PLAN RECLAMATION OF LARGE ARIZONA TRACTS

### State Commission with Federal Co-operation, Investigates Projects

PHOENIX, Ariz., (AP)—Reclamation of more than 800,000 acres in Arizona by means of irrigation projects became a strong probability when the state land commission, acting in conjunction with officials of the United States reclamation service, decided on an investigation and a final report on salient facts concerning five irrigation projects. There are in San Carlos, San Francisco river and Red Rock river projects. Two others are to be reported later, the commission announced. A \$300,000 appropriation was made available for the investigation and report.

The San Carlos dam site is located on the Gila river, in Arizona, and the project contemplates the reclamation of an estimated 100,000 acres, possibly more, chiefly in Pinal county between the towns of Florence and Casa Grande.

The Red Rock site is located in New Mexico in a position commanding ir- riable lands in Arizona on the south mouth of Franklin, Greenlee county.

The San Francisco dam site also is in New Mexico, near Alma, and it is proposed for development as an auxiliary to the San Carlos project.

The state's part in these enterprises is one of co-operation with the United States reclamation service.

# RAINS CURTAIL HARVEST

### Mexico Faces Food Shortage as Result of Downpour, Says Reports

MEXICO CITY, (AP)—Exaggerated pessimistic reports of crop and harvest conditions in Mexico have been received by the department of agriculture. The unusually heavy and persistent rains have destroyed at least forty per cent of corn and bean crops, the two national staples, and unless immediate measures are taken both as to conservation and replanting the department says there will be a real shortage of those foods. Prior to the long season of wet weather crop reports indicated the biggest harvest in many years.

# TRANSFER ORPHAN ARMY

### Polish Waifs are Moved from Decimated Regions to New Hospital

POSEN, Western Poland, (AP)—Poland's "Orphan Army" is being moved from large units, from the eastern front to western Poland. The first group of 500 orphans, gathered in the decimated regions east of the River Bug, has just been brought across the country to a new children's home in Posen equipped by the American Red Cross.

Other large orphanages here in Western Poland are being prepared by the Polish authorities, with American help, to receive the orphaned children who are now taxing the capacities of homes along the east front.

# HOUR REDUCTION TEST DISCOUNTS PREDICTIONS

LONDON, (AP)—When the British miner's work day was reduced from eight to seven hours it was estimated by experts that the change would cost the nation ten per cent of its coal production. Comparisons made by the American Chamber of Commerce in London show that the reduction has been less than 6.2 per cent.

# HAVE US VULCANIZE

Your inner tube and repair your outer tire so it will be good for many more miles of service. The rising cost of rubber makes new tires a very expensive proposition. Why go to that expense when our vulcanizing and repairing will make your old tires as good as new ones in looks and service.

GEM STATE VULCANIZING CO. 119 2nd St. East

# IRRIGATION CONGRESS EVOLVES GREAT PLANS

Tolling of extensive plans discussed at a recent meeting of irrigation delegates, held in Idaho Falls, representatives to that congress are again in Twin Falls enthused over the prospects of early reclamation of vast tracts of arid lands contiguous to the Snake river.

The meeting was called in Idaho Falls to continue discussions inspired at the Salt Lake meeting last week, and seeking to bring about final conclusions relating to extended reclamation of the Idaho lands. Local delegates return with outlines of plans evolved and perfected at the Idaho Falls session, plans they believe are sure to work to the great advantage of the entire section of southern Idaho.

The meeting heard a report, which stated the requirements were 744,025 acre feet, and that this water could be secured only by storing the surplus water of the river by building dams for the purpose, and recommending that reservoirs be built at Jackson Hole, Henry lake, Fall River meadows, Island Park and American Falls be secured.

The reservoir at American Falls, which would cost approximately \$60,000,000, was decided upon as the most favorable site in lands that the lower valley country embraced within the Twin Falls, Minidoka and the proposed Bruneau tracts might be taken care of.

One stretch of pay ore was found to weigh as high as 30,000 ounces in silver. The report urged that the upper valley country cooperate in the buying of the American Falls reservoir and the exchange of water rights, the upper country taking the Jackson lake water.

# STOCK SHOW INTERESTS

### Industry of Several Foreign Nations to Be Represented at Chicago

CHICAGO, (AP)—Interest in the Twentieth International Livestock Exposition, to be held here November 29 to December 6, is international in character. A large delegation is coming from the Canadian northwest, headed by the Hon. Duncan Marshall, minister of agriculture of the province of Alberta, while the Japanese government is sending Iseo Tsunamura. W. J. Grant of Argentina, considered one of the best-known stock judges in South America, will serve as a judge here, and William Smith and J. J. Cridland of England also will judge the Chicago exhibits.

One thousand of enthusiasts will come all the way from Washington and Oregon.

In 1914, the year the last manufacturing census was taken, there were 275,000 manufacturing establishments reported. The Census Bureau expects about 300,000 establishments to be listed in 1920.

# BEGY'S MUSTARINE ASTONISHES ALL

### Money Back, Says Druggists, if Begy's Mustarine Isn't by Far the Best Mustarine Preparation

### A BIG YELLOW BOX FOR 30c

Ask your druggist to show you a box of Begy's Mustarine; he and every other druggist in America is authorized to return your money if it does not do as advertised.

Doctors have prescribed it for 19 years. It's the original, and best improvement on the old-fashioned Mustard plaster, and quickly stops rheumatic pains, neuritis, neuralgia and numbness, and instantly relieves tonsillitis, pleurisy and bronchitis.

Just rub it on, and over night you have your throat, coughs and chest colds.

For sprains, swellings and all aches and pains, it has no equal, while for sore feet nothing yet discovered can compare with it. It's the quickest pain killer on earth. Be sure it's Begy's, all ways in the yellow box.

B. C. Wells & Co., LeRoy, N. Y.

# The More You Delay The Better It Raises

If you can shut yourself up in the kitchen and avoid all interruptions most any baking powder will give good results. But with Crescent delays do not make a particle of difference—in fact, best results are obtained by allowing the dough to stand for five or ten minutes before placing in the oven. Griddle cakes or biscuits raised with Crescent can stand hours if necessary before baking. Neither is a very hot oven required for Crescent. Crescent produces sweet, wholesome baking. Your grocer can supply you.

## Crescent Baking Powder

CRESCENT BAKING POWDER CO., CHICAGO, ILL.

# Raise Your Calves on this World-Famed Milk-Substitute

BLATCHFORD'S CALF MEAL is the original milk-substitute. It was the first on the market. For over one-third of a century it has been successfully used in raising calves by the most progressive farmers and dairymen in this country. It is the only calf meal backed by so remarkable a record.

# Blatchford's CALF MEAL

The success of this milk-substitute is due to three things. First—its quality. Blatchford's is above all a quality calf meal. Only the best materials are used in its manufacture. It contains no waste materials or by-products of low feeding value. Second—it contains all the nutritive and growth-producing properties required by the calf. The finest and healthiest of calves can be raised upon it. Third—it is economical. A pound makes a gallon of pure milk-substitute and it can be used at less than half the cost of using milk.

Saves both Milk and Money

Blatchford's Calf Meal raises calves from babyhood. It is extremely palatable. It is easy to feed. It saves both milk and money. It will pay you to use it.

MANUFACTURED BY BLATCHFORD CALF MEAL CO. (INCORPORATED) WAUKEGAN, ILL.

Handled, Recommended and Guaranteed by Darrow Bros. Seed & Supply Co.

FEARED HE'D HAVE TO GIVE UP WORK

Hayes' Health Badly Run Down when He Began Taking Tanlac—Gains 18 Pounds

"I was worried all the time with the fear of getting to where I couldn't earn a livelihood," said J. Hayes, a well known employe of the Seattle Great Northern Railway company, living at the New Center Hotel, Seattle, Wash., in a statement at the Barriell Drug Store, recently.

"But a few bottles of this Tanlac," he continued, "have turned things right about for me, for I am now enjoying as good health as I ever did. I had gotten in such bad shape on account of stomach trouble and rheumatism that I had to stop work. The rheumatism was so bad in my right arm and shoulder that I lost all use of them. I couldn't even pick up my tools while trying to work and I simply suffered agony. I asked so bad I could scarcely get out of bed in the morning and when I did manage to get on my feet I felt worse than you going to bed. My stomach was in such a bad fix that nothing would agree with me and at times I would have cramping pains that would almost double me up. I would heat up my legs and have such a pressure around my heart that I would nearly suffocate. I was badly constipated and constantly taking something for it, as well as for my other troubles, but kept getting worse.

"Finally I just got right down to where I couldn't stand at all, and was worried because I could not hope of getting any better. Why, at the time I got Tanlac I had been unable to work for a month and it looked like I was going to be disabled for good. I had dropped down in weight from one hundred and forty-six pounds to one hundred and twenty-eight. But since taking Tanlac I have gained eighteen pounds and am now up to one hundred and forty-six. I could feel good results almost as soon as I began taking Tanlac, and it was only a few days until I was back on the job. I have taken four bottles now, and all my ailments have left me, and I mean by that, that the rheumatism, stomach trouble, constipation and everything else is gone. I can now pick up my tools and go about my work as only a strong, well man can. When morning comes I get out of bed like a sixteen year old and am just feeling fine all the time. Tanlac has certainly been my friend and there's nothing too good for me to say for it."

Tanlac is sold in Twin Falls by City Pharmacy in Holgren by Thayer Drug Co., in Murtagh by Murtagh Drug Co., in Filer by A. B. Wood, in Bull by C. D. Borling Brothers Co., and in Kimberly by A. L. Stovewick.

RUPERT

RUPERT — Thewen Huggins building, which is to be erected in the near future, will be 60 by 120 feet with large display windows. It is to be finished by April. Plans have been drawn and the contract is ready to be let for the building on the Huggins property on the south side of the square. When completed this is expected to be one of the best stores in the city. It will have fifty feet of plate glass display window, two large entries, and is to have its own heating plant housed in a building in the rear of the building. Lyman Huggins, owner of the new building, has leased it for a number of years to the J. C. Penny Co., for a department store. This company has a number of stores over the country. At present Mr. Huggins will have but one store built, but it will be put up in such a way that another may be added. The building will be of brick. It will be five acres in alfalfa produce. The farm three miles west of Paul for \$350 per acre. This land was purchased four years ago for \$100 per acre, and has produced some bumper crops. Thirty-five acres in alfalfa produce. The crop at present is in alfalfa produce. The crop at present is in alfalfa produce. The crop at present is in alfalfa produce.

IRISH RAIDERS TAKE GUN

Explain Action as Protest Against the Taking of British Permit

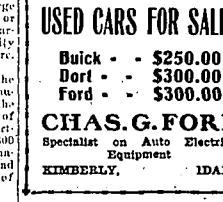

DUBLIN, (AP)—The Star Fein raids for arms continue. A notable case has occurred in County Kerry, where a sportsman going out for a day's shooting was held up by men with revolvers and a machine gun. The sportsman, who is a well known sportsman, stated that their action was a protest against his having accepted a permit to shoot from the English government.

In June a farmer, who was on his way to mass at Coonclare with his daughter, was held up by ten masked men and made to deliver up two guns and revolvers. What he was doing with these on the way to mass is not revealed in the accounts received.

REMBRANDT HELPS FOR \$80

DRUMSBLE, (AP)—An art sale here as a amateur collector bought a picture for the equivalent of about \$80. Experts have examined it and pronounce it a genuine Rembrandt, for which a Dutch museum has made an offer of \$125,000.

# SLAKE RIVER VALLEY VERGING ON IMMENSE DEVELOPMENT PERIOD

## Maj. Fred R. Reed, of State Reclamation Association, Tells of an Inter-Community Co-Operation that Spells Success for the Greatest of Plans for Land Restoration in Idaho

That the entire Snake river valley is about to enter a great constructive period is the belief expressed by Major Fred R. Reed, executive head of the Idaho Reclamation association, who is here for a business call with men of Twin Falls. Major Reed, looking into the future, sees vast fields of opportunity for southern Idaho through reclamation of lands in this section, and calls attention to the ever growing co-operative and friendly spirit of all communities interested. He voices the sentiment that through this co-operative feeling will grow the development predicted.

In the following statement, submitted by Major Reed to The News, the Idaho reclamation booster gives many logical reasons for the great importance in the big future for Idaho:

**Sure of the Future**  
"I believe that the entire Snake river valley, I mean by that the upper and lower reaches, are on the eve of a great constructive period of development. There is a different spirit of co-operation and good will than I have ever seen since I have been in Idaho. I consider this a mighty step in the right direction. When the public begins to forget its political, social and commercial differences and begins to look forward to the development of their town, county and state, in fact, I see the hope of great activities in this Idaho land.

"A little more than 15 years ago I stepped on the spot where the Perino dam now stands, and took my breakfast and supper and picked my team for the night. At that time, commencing at Minidoka, extending south to the mouth of the Snake, north to Goodfield, back to Shoshone and east to Minidoka, the point of beginning, including the people in the little hills in the Goodfield valley and the little mountain towns adjacent, the entire population covering the territory described would not represent 4000 people. Fifteen years ago, however, I think that it is conservative to say that 55,000 people are living in this section.

**Down to Business**  
"The meeting of the 13 far western states, held in Salt Lake last week was the biggest convocation in its scope, and the most possible activity that has ever occurred in the far west. The uniting of those 13 states in an association of states representing a population of 8,000,000 people and the holding down to a one purpose—the reclamation of the west, was a tremendous start in the right direction. Governor Davis of Idaho was honored by being made president of the association of states, and it is now the purpose of the organization to have the governors of the 13 constituent states put up to Congress in the shape of a bill that should be very effective and produce practical results.

"The meeting held at Idaho Falls last Monday, at which Director A. P. Davis, chief of the United States reclamation service, in a very able manner explained to the meeting what had been done, what is being done and what can be done if a fixed purpose is arrived at, and the people would work in harmony. Governor Davis made the statement from the platform that there would never be any more Carey Act projects allowed by the state of Idaho until it has been demonstrated that the farmers had the ability to meet their construction obligations and pay their bills, and that nothing will be done until all contracts of all contracting parties are made in full, honorably, and to all concerned, and that the mistakes of the Carey Act of the past will never be repeated in Idaho.

"The Idaho Reclamation association,

# FIRE DESTROYS FRAME BUILDING

## Blaze, Caused Probably by a Torch Finding Gasoline, destroys Repair Shop

The building on Second avenue south, occupied by Earl Vance in the operation of his radiator repair plant, was destroyed by fire this morning. The blaze broke out instantly in the repair room where two men were employed. Neither man would, this morning, offer a theory or assign a cause for the outbreak. Probabilities are that fire from a gas torch communicating with gasoline used for cleaning purposes, as a torch was being used in the repair work at hand, while the admission is made that there was gasoline not far distant. No sudden winds the conflagration, and so rapidly did the blaze spread, that the workers were unable to save any of the stock from the place, the goods being destroyed with the building. The structure is a one-story frame affair with a small portion set apart by partitioning the building. Some insurance was carried. Immediately to the south of the radiator repair shop is a gun, lock and bicycle repair plant, operated by W. F. Moore. Extraordinary efforts of the fire department saved this building from damage. To the north there is no structure within 20 feet.

# Modest Posey Rouses Wrath of Old Boreas

## THIS record that in Idaho nothing is impossible.

"It is a far cry," but not impossible for Twin Falls, for in 24 hours the fulsome went from fields of violets to fierce freezing. Bringing a breath of spring-time a modest bunch of sweet-scented violets was found on a Twin Falls lawn one day this week; the next day the blizzard of the season gripped the community and that night the cold weather in more than a year was recorded. "It is a far cry," but not impossible for Twin Falls. The drop in temperature Wednesday night was sharp and snappy. The low point reached during the night was seven below zero, but even this record was eclipsed last night, when the eight point was reached. Wednesday's high was 29 above, while the top for Thanksgiving was eight degrees lower than that. For tonight and Saturday the joint prognosticator in the capital community predicts "Fair in the South."

# THANKSGIVING MARKED BY QUIET OBSERVANCES

## Congregations Gather at Their Churches to Commemorate Annual Festival

Under the spell of extraordinary cold weather Twin Falls passed a particularly positive Thanksgiving. Outside of church observances, appropriate to the season, held during the morning, there were no assemblages of any particular moment, commemoration of the day being confined to home socials, mainly dinner parties. Union church services were conducted by the Evangelical denominations in the First Methodist church, the observances drawing a gratifying attendance. The Rev. C. L. Owen, pastor of the First Baptist church, preached the occasional sermon, other members of the local ministerial association assisting in the conduct of the various departments of the service. Special music marked the occasion. At Avonview Episcopal church there was a large congregation at the lay services. Thanksgiving music was given by the choir, including Barnby's master anthem, "O Lord How Man-

fold," and De Koven's setting of Kipling's "God of Our Fathers," sung by Hilary Burdick, director. Special services were held morning and evening at the Brethren church, and Thanksgiving exercises attracted the attention of the L. D. S. sect and at the Catholic church.

### DENIES RESPONSIBILITY

Judge John E. Davis, city attorney, has filed an answer in the district court to the claim of Amos Wright, an attorney, seeking recompense for damage for the death of Mrs. Della Wright. The original complaint explains that Mrs. Wright was killed during a celebration on November 7, 1919, and alleges that the city is responsible on account of negligence. The answer denies responsibility on part of the city.

### LEGION TO MEET

Twin Falls post, American Legion, has completed plans for a social meeting to be held next Monday night in Elks' temple. One of the important matters scheduled for discussion pertains to a permanent home for the post here.

### FROM NEW YORK

Mrs. Fred T. Dubois of Washington, D. C., is spending a few days in Twin Falls, the guest of Mr. and Mrs. Charles Hart.

## AMUSEMENTS

**GEM**—Monroe Salisbury in "The Man in the Moonlight"; Mack Sennett comedy, "She Loved a Sailor"; Special orchestra.

**IDALIO**—"Woman," a fascinating photoplay; also Harold Lloyd comedy.

## DENIES AERIAL DELIVERY

**Mexican Publisher Refused Permit to Use Airplane Service**

**MEXICO CITY, (AP)**—A request by Felix D. Paladini, editor of El Universal, that he be allowed to deliver newspapers to nearby cities by airplane has been denied by the secretary of communications and public works who declared it is "not convenient to authorize such service at this time." It is understood that Rafael Alducua, editor of Excelsior, during a recent visit to the United States made tentative contracts for three airplanes which were to be used to deliver his newspapers to the cities of Puebla, Pachuca and Oaxaca. In view of the action of federal officials this form of service will be abandoned for a time.

## FLOPS "STRANGLER"

**BOSTON, (AP)**—Wladek Zbyzsko threw "Strangler," Ed Lewis in 31 minutes in a one fall finish match last night.

## High School News

The date of the presentation of the Junior class play has been advanced from December 12 to an undecided date after the holiday season, because manuscripts for the drama have not yet arrived. Rehearsals are being postponed until this material has been received.

Students of the first-year public speaking class staged a Hiawatha pantomime before the student body Wednesday morning. Though the program was not originally intended as a farce, the play was kept in a continual uproar of laughter and the sketch was a source of much entertainment.

Country students and others eating lunches in the school building during the noon period are given the opportunity to use the gymnasium for basketball practice. Boys have the ball three days and the girls two days of every week.

The weekly meeting of the High School Boys' club, which was to have been held last evening in the school building, conflicted with Thanksgiving activities and hence was postponed until Thursday evening of next week.

Miss Ollie May McCormick, state worker of the W. C. T. U., addressed a large assembly of high school girls in the auditorium Wednesday afternoon.

If you are getting the kind of printing you want, stick to your printer. If he can't give it to you, find another one.

## COMING TO TEACH IMPROVED DANCING

### Miss Taylor of Salt Lake Is Employed by L. D. S. Young People

In an effort to improve dancing in general the authorities of the Young Ladies' and the Young Men's Mutual Improvement associations, of the Church of the Latter Day Saints have arranged the employment of Miss Mina Taylor, of Salt Lake, who is to come here to conduct classes in dancing instruction. Miss Taylor will be here from December 1 to 5 inclusive. Classes will be conducted each evening on these days from 6:30 o'clock in the Laverne pavilion.

Efforts to improve dancing is taken up by the mutual improvement departments of the Mormon church with Frank A. Webb and Ben E. Mason as executives in charge. These officers announce that in choosing Miss Taylor as instructor they have selected the best of all available instructors in the west to come here. Miss Taylor is president of the Dancing Masters' association of Utah, and a member of the national association of dancing masters. She has been conducting classes at the Deseret gymnasium at Salt Lake some years.

### CARLSON PATRICK

Yesterday at the Patrick ranch home two miles south of Twin Falls the wedding of Lawrence V. Carlson and Miss Zella Patrick was celebrated, the Rev. A. G. Bennett, pastor of the First Methodist church, officiating. Mr. and Mrs. Carlson will reside in Twin Falls.

Classified Ads are cheap—effective.

# EXPLANATION

## So the People May Know—

I hereby announce my candidacy for a directorship on the Board of the Twin Falls Canal Co.

I stand for the highest efficiency obtainable in all employes, especially with respect to the position of general manager. If at any time a more competent man presents himself for this position and can convince the board of his superiority, I stand for that man. Until such time I am not in favor of disturbing the present management.

D. F. DETWEILER.
