

ESTONIA AND SOVIET RUSSIA TO NEGOTIATE

Bolsheviki to Enter First Peace Overtures of Moment Since Historic Brest-Litovsk Conference

DATE SET FOR OPENING OF PARLEYS AT DORPAT

Probabilities Seem Strong that Other Baltic States Including Lithuania and Latvia are Interested

LONDON, (AP)—The Estonian government has announced that peace negotiations with Soviet Russia will be begun at Dorpat on Tuesday next, December 2, according to a wireless dispatch from Moscow.

The Soviet delegates, it is stated, will cross the front in the neighborhood of Pskov.

Although Estonia only is mentioned in the Bolshevik message regarding the impending negotiations at Dorpat, it seems not improbable that both Lithuania and Latvia will join in the parleys, the first peace negotiations of moment to be held by the Bolsheviki since their historic conference of 1917 with delegates of the central powers which led to the peace of Brest-Litovsk.

A Dorpat dispatch November 29 reported that Latvia and Lithuania had definitely decided to join Estonia in inviting the Bolsheviki to send a delegation to Dorpat to begin peace negotiations. The date for the negotiations then mentioned was December 1. Maxim Litvinov, envoy of the Moscow Soviet government was in Dorpat at the time of the negotiations with the representatives of the Balkan states with regard to the exchange of prisoners, arrangements concerning which were understood to have been agreed to.

Later advices on the situation, received in dispatches from Helsingfors, cast some doubt upon the attitude of Latvia and Lithuania toward the Bolsheviki, there being indications that some pressure had been exerted from outside sources upon the Baltic states against any peace negotiations with the Soviet.

It is noted, however, that at any rate Estonia has invited the Soviet to send a peace delegation to Dorpat, and that the probabilities seem strong that the other Baltic states were interested in the proposition.

DEMAND RELEASE OF ALL RUSSIANS

Italian Socialists Accuse Government of Aiding "Czarist Dictators"

ROME, (AP)—The directorate of the socialist party Friday wrote Premier Nitti demanding that Russian prisoners taken over by Italy from Austria Hungary be released.

The socialists say they will undertake to provide work by which the Russians may support themselves, if they desire to remain in Italy. They also demand that the government negotiate with the existing Russian governments for the repatriation of the prisoners.

The Russians are interested on the island of Anzani, off the coast of Sicily. The socialists claim that the Russians are being unjustly treated, Italy not being at war with Russia. It is pointed out besides that these Russian fought with the entente against the central powers.

The letter accuses the government of cooperating with the "Czarist dictators," Kolchak and Denikin, by permitting the Russian military mission in the Black Sea to continue to employ prisoners to enlist in the Kolchak and Denikin armies. The propagandists are charged with using inhuman means to prevent the prisoners from returning.

Occasional snowfall is predicted for next week.

WASHINGTON, (AP)—Weather predictions for the week beginning Monday, issued by the weather bureau today are:

Hunger Strike of Ellis Island Soviet Breaks

NEW YORK, (AP)—The hunger strike of the Ellis Island "Soviet" was broken today. All but five of the sixty-eight radicals who had refused to eat since last Monday evening eagerly answered the call for the dining room for breakfast.

After a five-day fast they were first in the immigrants dining hall. They devoured prunes, mush, bread, butter and coffee and asked for more. Second helpings were refused, however, not only because the food was considered adequate, but the radicals might have mad themselves ill by eating too much.

Quarrels who continued the hunger strike included Ethel Bernstein and Dora Lipkin. They were the only women on hunger strike.

The silence strike of the 68 also had collapsed. Word that the department of justice was providing the island with eight trucks caused to force them to attend immigration hearings before immigration inspectors, was brought to the radicals by their comrades. The guards had not arrived today but the inspectors found no difficulty in getting radicals to go from the detention room to the hearing room.

A. B. C. Group May Mediate Differences

SANTIAGO, Chile, (AP)—The Nation today says it has learned from well informed diplomatic circles that there is a possibility of mediation by the government in the A. B. C. group (Argentina, Brazil and Chile) with the object of composing the differences that exist between the United States and Mexico over the case of Consul Jenkins.

FORBID EXCHANGE DROPS TO NEW LOW LEVEL RECORD

NEW YORK, (AP)—British and French exchange went to new low levels today, the pound sterling touching \$3.89 3/16 while francs were quoted at 9.84 francs per dollar. Sterling exchange later rallied to \$3.99 5/8 on short covering.

WORLD NEWS EVENTS

SARAGOSSA, Spain, (AP)—The general strike here has been called off. The syndicalist labor union leaders, whose arrest and deportation to Barcelona was the cause of the strike and the declaration of martial law, having been released, the workmen decided to resume work today.

GENEVA, (AP)—An unconfirmed report received here from Lugano is to the effect that King Alexander of Greece has been exiled as a result of the recent plot against Premier Vongolios. The report adds that Alexander is expected in Lugano, coming from Italy and will join his father, who is at Zurich.

AMOY, China, (AP)—Reports reaching this city from Fuchow state that many Chinese have been arrested there by detachments landed by Japanese warships. The district is anti-Japanese and feeling is reported to be bitter. Reports from inland also state that the situation there is even more serious.

PARIS, (AP)—A movement looking to the establishment of a republic in Rumania, which is under the direction of General Gofoza Averesco, former minister of war, and Take Jonson, former minister without portfolio, has spread to Bessarabia, Transylvania and Bukovina, according to a Bucharest dispatch to the Oeuvre. The situation is said to be alarming for the dynasty.

LABOR PARTY LOSES IN ELECTION AT WINNIPEG

Candidate Supported by Elements Which Endorsed Recent General Strike is Defeated

WINNIPEG, Man., (AP)—After a great fight the labor party was defeated in Friday's election. Mayor Charles F. Gray, heading the citizens ticket, was re-elected over S. J. Farmer, who was supported by the labor party. The general election of elements which endorsed the general strike last spring by a majority of 3,015 and four aldermanic candidates of the same party were re-elected, as was this element a majority in the new city council. Three candidates of the labor party were elected aldermen of them being: Alderman Johnson, who was among those arrested during last spring's strike.

Labour's attempt to get representation on the school board seems to have failed.

An ordinance making milk distribution a municipal enterprise was defeated.

FIRE COSTS OAKLAND CONCERN HALF MILLION

OAKLAND, Cal., (AP)—Fire that is believed to have started in the assembly room of the Marwan's Calculating Machine company, destroyed the interior of the building, causing a loss estimated by R. H. Marshall, president of the company, to be \$500,000.

GERMANS URGE MODIFICATION OF ATTITUDE

Democrats and Socialists Petition Berlin Government to Reconsider Refusal of Allied Demands

HOLD ADMINISTRATION STAND IS TOO STUBBORN

Argue for Altered Policy Respecting Prisoners of War and Reparation for the Ships Sunk at Soapa Flow

PARIS, (AP)—German democrats and socialists are urging the Berlin government to modify its attitude relative to prisoners of war and reparation for ships sunk by their German crews in Soapa Flow, according to dispatches from Berlin, published by the Prussia Daily.

It is said that members of the parties in the Reichstag have been too stubborn in making the stand evinced by the two notes received yesterday by the peace conference.

WILSON'S MESSAGE TO CONGRESS IS DELAYED

President Prepares Document Under Difficulties Dictating to Stenographer in Sick Room

WASHINGTON, (AP)—President Wilson's message to congress will not be transmitted until Tuesday, it was said today at the White House. It is expected to cover a wide range of subjects, with particular attention to the industrial situation.

The president has been working on the message for two weeks, dictating to a stenographer in his sick room.

"Because of his illness, the president will find it necessary to depart from his custom of delivering his message in person."

FORTHCOMING CONFERENCE INDICATES FIRST ATTEMPT TO BREAK MINERS' STRIKE

Operators in Western Pennsylvania to Meet Governor Sprout to Discuss Means for Protecting Miners Wishing to Return to Work; General Plans for States Included in Highly Organized Central Field Expected to Be Discussed

RAILROAD ADMINISTRATION PREPARES FURTHER PASSENGER SERVICE CUTS

WASHINGTON, (AP)—Operators in Western Pennsylvania will meet Governor Sprout of Pennsylvania, at Philadelphia on Monday to discuss plans for protecting miners wishing to return to work, according to information received here today by the operators' committee.

ST. PAUL, Minn., (AP)—It was admitted in high railroad circles here today that the federal railroad administration is preparing to make drastic decreases in its passenger train service throughout the United States if the coal situation becomes critical. The reduction of passenger services from the Great Lakes may involve 100 trains, it was said.

Jefferson City, Mo., (AP)—Governor Frederick D. Gardner of Missouri today invited the Illinois governor to meet at St. Louis tomorrow to discuss the situation arising from the bituminous coal miners' strike.

Operators in West Virginia, Arkansas, Tennessee, Kentucky and Indiana.

IMMEDIATELY INCREASED PRODUCTION NOT EXPECTED

CHICAGO, (AP)—Immediate results in increased production of bituminous coal were not expected today to follow the government's announcement that it would use mining equipment and plant at the shafts by the operators of notice of the granting of a 14 per cent wage increase.

Operators looked upon the latest steps in the miners strike with optimism, however, and believed that on Monday many workmen would re-enter the mines.

On the other hand, miners' spokesmen, generally predicted that few men would return to work.

Milder weather today over much of the country brought relief. Many small towns and cities were almost featureless and suffering was imminent.

With radical restrictions on use of fuel in many places, notably Kansas City, Omaha, St. Paul, Indianapolis, state and local officials today considered further means of warding off a famine.

In Kansas Governor Henry J. Allen went ahead with plans for opening up the strip pits Monday. He said 4,000 men had volunteered.

Announcement that all mines in Wyoming were being worked today was among the encouraging bits of news from the production fields. Possibility of settlement of the strike in Illinois also brought encouragement.

New Trouble in West Virginia. New trouble in the West Virginia field, from which most of the coal mined since the strike was called here, today threatened to reduce the approximately 40 per cent of a normal amount the government said had continued to be brought out in all states.

A walkout of engineers and pumpers at some of the Southern Illinois mines also was reported today. If that was true, mine owners asserted, the mines would fill with water and at least ten days would be necessary to pump them out before work could be resumed.

It was the first report that such employees had deserted their posts. Generally they, with sufficient other workmen to protect the property, were left at the mines when the miners' strike was called.

SOUTHWEST IS IN GRIP OF WINTER SNOW AND SLEET IN ALL SECTIONS

icy Precipitation Reported Generally from Missouri, Kansas, Oklahoma and Texas Panhandle with Much Colder Weather Forecast; Shortage of Fuel Threatens to Result in Suffering Despite Drastic Effort to Secure Wood and Coal

KANSAS CITY, Mo., (AP)—With a thin coating of ice over everything and snow or sleet falling in nearly all sections, the southwest is in the grip of winter. Under the weight of the ice, telephone and telegraph wires snapped and communication was paralyzed throughout the section. Heavy traffic was interfered with, but it was said trains were running within a half hour to two hours of schedules.

The storm struck the southwest yesterday in the form of rain which froze as it fell last night, later turning to sleet. Today snow flurries were reported generally from Missouri, Kansas, Oklahoma and the Texas Panhandle. Temperatures ranged well above zero but no reports had been received at the weather bureau from western Kansas, Arkansas, Texas or Colorado. Degrees above zero and Wichita, Kansas 18. At Kansas City it was 24 degrees this morning.

Much colder weather was forecast for tonight.

Coupled with the continued cold weather is a serious shortage of fuel and from many towns come reports of drastic efforts to secure wood or coal.

STRIKE THREAT MENACES COAL OF SOUTHWEST

Two Thousand Railroad Trainmen and Yardmen of Kansas City Vote Walkout Because of Local Grievances

BROTHERHOODS CHAIRMAN ASKS RECONSIDERATION

Indications Point to Activities of Radical Element Among Workers Responsible for Issuance of Strike Order

KANSAS CITY, Mo., (AP)—Two thousand railroad trainmen and yardmen of Kansas City are to go on strike at 4 o'clock this afternoon, according to an announcement by local brotherhood of railway trainmen officials.

All of the railroads entering Kansas City will be affected with the possible exception of the Chicago, Rock Island and Pacific. The strike vote was taken on an early hour this morning.

W. M. Corbett, president of the Kansas City terminal, and the government railroad representative here, said he was doing everything he could to keep the terminal men from striking.

It was said the strike order resulted from a radical element and it was hinted that a radical element among the railroad workers was responsible for its issuance.

Other men working in the yards of the two Kansas Cities are involved in the strike and chairman of roadmen—members of the Brotherhood of Railroad Trainmen working out of Kansas City—are making great efforts today to avert the local walkout.

Whether members of the local switchmen's union will also strike is as yet uncertain.

Lead's Issues Warning. H. A. Carroll, general chairman of the Brotherhood of Railroad Trainmen here, issued the following warning to strikers:

"There has been an unauthorized strike called to take effect at 4 o'clock tonight. It is the purpose of this notice to advise you one and all that a strike of this character is illegal under the laws of the Brotherhood of Railroad Trainmen. Any man participating therein does so on their own responsibility and thereby forfeits any protection otherwise granted them."

(Continued on Page Four)

ARGUES NEED OF COAST DEFENSE

Major General Black, Chief of Engineers, Asks for Heavy-Guns

WASHINGTON, (AP)—Necessity for the maintenance of defensive works against the coast of the United States was less than today than before the war with Germany, in the opinion of Major General Wm. M. Black, chief of Engineers, in an annual report, published today. General Black declared that "sea coast defenses had lost nothing in importance from the lessons of the war."

"Rather was the extreme value of such works demonstrated. The Turkish forts at the Dardanelles were of great value in the war. Constantinople and the opening of a line of supply for Russia. This instance alone, in its far-reaching consequences, proved the worth of sea coast defenses."

General Black expressed the opinion that heavy ordnance on railway mounts, "must be carried singly by any heavy defenses." He recommended the employment of heavier guns to effect the greatly increased range of naval guns, some of which now carry a projectile 28 1/2 miles. The work of modernizing the coast defenses is being continued, the report showed, many years ago, and the science of warfare having been developed. Not the least important of these was a disappearing searchlight tower, the fixed type having proved of great value to the enemy as a "trailing point" for their fire.

The report included a detailed summary of the work done during the fiscal year under the rivers and harbors project. The commission now has under preparation a report on "water control and other facilities of the United States," which is to be the most complete document of its kind ever published.

CLERICAL PARTY DISAVOWS PART IN SUPPERCUT BOOM

BERLIN, (AP)—The newspaper party was disavowed today that the clerical party is not identified with attempts to start a presidential boom for former Crown Prince Rupprecht of Bavaria. The newspaper brands the statement that the Catholic party is favoring his candidacy as a pure invention.

NORTH DAKOTA SOLONS HEAR LEGION ATTACKED

Speaker Tells Legislature "Big Business" Pulled Strings at Minneapolis

BISMARCK, N. D., (AP)—The special session of the North Dakota legislature today devoted its attention to listening to Lester P. Barlow, state organizer of the World War Veterans northwest division, attack America's strategic program in the world war, his accusations of graft and fraud in the management of the war program generally, and to his charges that "big business" pulled the strings during the recent national convention of the American legion in Minneapolis.

The senate referred to its state affairs committee a resolution providing for temporary inspektion of the eight hundred million dollars of war production, while in the house first readings came up on measures regarding syndicalism and court power of board of supervisors to take over control of charitable, penal and higher educational institutions restoring to the state superintendent of public instruction the right to remove and appoint members of the board of directors of the bank of North Dakota in compliance with his recent decision by the supreme court that the bank must take up five hundred dollars from farmers in the drought area according to the newspaper act of the last assembly to permit publication of private processes in other than the newspapers named by the state printing commission empowering Governor Barlow to appoint and pay special attorneys general and county attorneys to investigate the bank.

It was expected that today administration would be asked to make a committee of five, asked by Governor Barlow to investigate alleged illegal acts of state officials and a similar resolution from the supervisors asking investigation of administration departments would be introduced.

DISCREDITS REPORTS OF REVOLT IN MEXICO CITY

Merely Street Fighting Results from Demonstration for Obregon

NOGALES, Ariz., (AP)—A demonstration for General Alvaro Obregon in Mexico City resulted in some street fighting between individuals, but no revolt or mass fighting, according to a message Ignacio P. Gaxiola, manager of Obregon's interests in northern Mexico, said he received from Obregon today.

Obregon, a candidate for president of Mexico, appeared before an organization of named soldiers which made him an honorary vice president, according to Gaxiola, and after leaving the speakers stand the demonstration was over.

IDAHO WEATHER
Tonight and Sunday probably snow.

SEEKS REHABILITATION OF THE SHEEP INDUSTRY

Important Recommendations Expected to Result at Conference Assembled in Chicago

CHICAGO, (AP)—Rehabilitation of the sheep industry, said to be in a sad plight as a result of the war, is being planned at a conference here today. Eighteen experts in sheep raising and wool culture, representing the industry's interests in the same number of states, comprise the assembly.

Important recommendations are expected from the meeting to the department of agriculture on the wool industry as it affects clothing prices.

M. R. Marshall, chief, and G. H. Redell, in charge of extension work of the bureau of animal industries, are attending.

COAL SHORTAGE CLOSURES TOPERA PUBLIC SCHOOLS

TOPEKA, Kan., (AP)—By action of the Topeka board of education at a special meeting today, the public schools here are to remain closed indefinitely on account of the coal shortage. The supplies on hand at the various schools said to range from a day's to two weeks' supply, will be parcelled out to the homeless homes in the city.

I. W. W.'S PERSISTING IN HUNGER STRIKE AT TACOMA
TACOMA, Wash., (AP)—The 22 alleged I. W. W. in the city continued their hunger and strike today and refused to touch the breakfast of regular jail fare placed before them.

IMMIGRANT TIDE FLOWS BACK TO PORTS OF ITALY

Number of Persons Returning from United States Increases Month by Month; Emigrants Are Few

NAPLES, (AP)—About 80,000 immigrants have returned to Italy from the United States through the port of Naples since January. The number is increasing month by month, and the recent release of ships hitherto requisitioned by the allies, it is estimated that 19,000 Italians will greet Vesuvius again every day.

The fortunes brought by the returning Italians are gladly welcomed by their relatives, made needy by the war. The prosperous appearance of the passengers is generally commented on, being probably the result of five years of savings at wartime wages in America, and their well and substantial baggage from a striking contrast to the hags and rags in evidence when emigrants leave for America.

Emigration at Low Ebb

Emigration of Italians to the United States by way of Naples, the most important embarkation points of emigrants in southern Europe, is still very far from pre-war levels. Data from the Italian emigration office in this city indicates that only 2,000 emigrants sailed to the United States from Naples during the first eight and a half months of 1919. The great bulk of these were wives, children, and other near relatives of Italians already in the United States, who have hitherto been prevented from leaving by the war because of conditions incident to the war. The number of actual emigrants as the word is ordinarily used, is practically negligible.

Restrictions a Factor

In contrast with this condition, it may be noted that in 1913, the last year before the war, 198,604 emigrants left Naples for the United States. The difference between the two years is ascribed to the results of the operation of the literacy law of 1917, death of ships and abnormally high passenger rates, and the continuance of American passport restrictions.

RUMANIANS AFFECT SCENT

Not Only Women But Men and Army Officers Employ Aids to Beauty.

BUCHAREST, (AP)—The Rumanian, at least the city resident, is extremely fond of perfume, scented soap, rouges, cosmetics and the whole lot of beauty. This applies not only to the women, but to the men.

The average young Rumanian army officer is noted for his appearance, and often, it is said, corrected. His habits mark him for a good deal of railway on the part of foreign officers and visitors. In dress he is as faultless as a Beau Brummel and in manner as polite as a Lord Chesterfield. He is seen at his best on Saturday or Sunday afternoon on the Calea Victoria (the Fifth Avenue of Bucharest).

Dressed in a sky-blue uniform, gaudily trimmed with red, high patent leather boots with silvered spurs that clink musically as he walks, a sword at side, white kid gloves, and many military decorations, he makes a striking figure.

"These are good," remarked a young British officer with mingled sarcasm and humor. "I'm 'sle a perfect lady!"

COLON PROTESTS AGAINST DEY LAWS

DEY LAWS AFFECTEMENT

COLON, (AP)—Protests have been sent to President Poreas by the chamber of commerce of Colon declaring that enforcement of prohibition in the canal zone in the letter of the law would interfere with the rights of the republic of Panama in respect to the transportation of liquor between Colon and parts of the republic controlled by the Panama railroad and not accessible except by passing over canal zone territory. There have been a number of cases of actual interference as yet but dealers are apprehensive of trouble.

It required 15 months to complete the enumeration work for the first decennial census in 1790. In 1920 the Census Bureau plans to complete the enumeration work for the entire country in from two to four weeks and announce the population figures in less than three months from the date the enumeration work is completed.

BOLSHEVISTS-LAY CLAIM TO LARGE GOLD RESERVE

Representatives of Soviet Government Discusses Financial Status

LONDON, (AP)—Russia's gold reserves are unprecedented and the soviet government is prepared to pay 100,000,000 rubles in gold for food machinery and necessities, according to a statement ascribed to colleague of Maxim Litvinoff by the Copenhagen correspondent of the Daily Mail. Litvinoff is noted for his dealings with the allied nations relative to the exchange of prisoners, having been seized there by the Bolshevik government of Russia.

"Litvinoff's mission says an effort will be made to make peace and secure the lifting of the blockade of Russia, the correspondent writes. "Great Britain alone is considered to be preventing peace between the soviet government and the Baltic states as well as Finland, whose independence the Bolsheviks are prepared to recognize."

London is said to eagerly desire peace and a resumption of foreign trade.

SUCCEEDS WITH FARMING DESPITE SMELTER SMOKE

Arizona Physician Conducts Independent Investigation of Benefits to Agriculture

DOUGLAS, Ariz., (AP)—Selection of crops that will resist smelter smoke was made Dr. A. W. Yauerman, a successful farmer in spite of the hardships that face residents of mining towns. Doctor Yauerman has not only looked after the health of the community, but he has also conducted independent investigation in crops so that he can give many professional farmers pointers.

"Asparagus, onions, cabbage, cauliflower and sweet potatoes are the best crops for this district," he said. "This year I had in my acre of sweet potatoes, which did well until the smelter smoke hit it. Then I had a third of a crop."

Other crops in the tract of Japanese honey sorghum which proved smoke resistant. Black amber cane did well and so did milo maize. We had a good crop of corn. Tomatoes were poor.

"I had one tract of three acres which I first planted in Irish potatoes, which failed to develop. About the last of June I planted barley on the same acreage and got a good crop. After harvesting this, I planted millet in August and got a good crop."

Doctor Yauerman said, "Peaches survive the winter, though apples and pears do not do well. Wells dug on the ranch irrigate the place."

FAVORS UNIQUE MEMORIAL

Member of Parliament Proposes Obelisk for Unidentified Soldier.

LONDON, (AP)—Proposal that the body of an unidentified soldier be transferred from France and given burial with due pomp and ceremony in Westminster Abbey as a memorial to Britain's dead was voiced in the house of commons when Colonel W. V. Bailey, a Unionist member, asked whether the government would do this. Andrew Bonar Law, lord privy seal, in reply said:

"In my opinion the feeling on this question, with which not only the government but the whole nation deeply sympathize, is carried out in a more expressive way by the decision to reproduce in a permanent form the cenotaph in Whitehall, which, as its name implies, is a memorial to all those citizens of the empire, of every creed and rank, who gave their lives for their country."

ENGLISH SUBSCRIBING TO MAYFLOW MEMORIAL FUND

BILLERICAY, Eng., (AP)—A fund is being raised here to erect a Mayflower Hall to the memory of three local men and one woman who sailed to America in the Mayflower in 1620.

A "steady-looking" man may be an excellent man, of fine standing among those who really know him—but the casual acquaintance will not believe it. Appearance count for much—in dress and in BEHAVING. A good piece of printing has minus-value all its own. It knocks, silently, countless.

WEST VIRGINIA MINERS WILL CONTINUE STRIKE

Operators' Acceptance of Government Decision Does Not Affect Men, Union Leader Says

CHARLESTON, W. V., (AP)—While coal operators in the unmined fields of West Virginia Friday signified their willingness to abide by the decision of the government in granting a wage advance of 14 per cent to the striking miners, union leaders declared the men would not return to work under the new scale, "troops or no troops."

Kanawha district operators said they were willing in every way to cooperate with the government to increase coal production, and the spokesman for the New River field said they would do all they could to increase production and that notices had been posted in their mines announcing they would pay the rate paid in the central coalfield.

Leaders of the miners were confident the men would not accept the government's proposition.

"The government will not satisfy the men because it is inadequate," said A. F. Keeney, president of district No. 17. "Fourteen per cent virtually means no increase to the great bulk of the miners."

Mr. Keeney expressed the opinion that the strike would go on "without any action on the part of the union officials."

SOUTHERN CALIFORNIA TO LAUNCH PUBLICITY DRIVE

Los Angeles and San Diego Take Lead in Movement to Advertise Climatic and Scenic Wares

LOS ANGELES, Cal., (AP)—Southern California in general and Los Angeles and San Diego in particular are planning greater advertising than ever of their climatic and scenic wares.

Los Angeles has arranged a tentative program for next year that will include a series of fiestas, each of which, it is planned, will extend any of the former fiestas de Las Flores.

To do this, a committee appointed by Mayor Meredith P. Sneider, has begun a campaign for a fund of \$500,000. San Diego has decided to expend a fund of \$150,000.

Other sections of the southern part of the state also are advertising, among them the youngest county in California—Imperial—which is offering its subtropical "altitude" below sea level, its claims to be the "win-or-garden of America" and the Salton sea to tourists and permanent residents.

WARNS WOMEN OF FRANCE

Archbishop of Paris Protests Against Certain Toilettes and Dances

PARIS, (AP)—Cardinal Amette, archbishop of Paris Friday issued a pastoral letter protesting against the latest toilettes of women and indecent dances, saying that Christian women and girls ought to abstain from such dressing and such amusements. This cardinal affirms that these dances are exotic by origin and by name.

Presumably he refers to certain American dances which have become the fashion in Paris in recent months.

Finding a position is sometimes a most disconcerting task. Just to rely upon friends, or upon going about and making personal applications, often leads to utter discouragement. The quick road to a position is through the classified. Sometimes this road requires more than one day to travel—but it leads inevitably to the desired goal if followed.

You can exchange the thing you no longer need for something you could use profitably—through the classified.

FEAR OF ANARCHY IS CLAIMED TURKS' MOTIVE

Prepare to Make Effort to Expel American Interest in Mandate

CONSTANTINOPLE, (AP)—Appeals that early arrangements be made for negotiating a peace treaty, sent by the Sublime Porte to the peace conference in Paris, are said to have been inspired by the fear that Turkey may be plunged into anarchy with no responsible government left to treat with the allies. At the same time the grand vizier is urging country districts to hurry arrangements for elections so that a parliament may meet here and be ready to discuss the terms of peace.

At present the interior of the country is not controlled by the government, which cannot collect taxes and has no funds. This financial situation it is pointed out, is liable to throw the country into the hands of any other which may make it a loan. The Turks are preparing to make an effort to excite interest in America for a mandate over this country and plan to send publicists to America for that purpose.

A heavy concentration on ages ending in five and zero are always reported at a census. The Census Bureau has made many efforts to overcome this inaccurate tendency on the part of people when stating ages.

FRENCH PEOPLE STILL FLEE FROM SHRAPNEL

New Menace Cause by Grass and Swamp Fires in the Devastated Areas

LAON, France, (AP)—Residents of the devastated districts of France are still fleeing from the danger of shrapnel. The new menace is caused by the small grass and swamp fires which frequently set off the shells that have been left up by the hostile army and exploded in some safe place.

Major H. C. Greene, of Boston, Mass., had a thrilling ride and narrow escape from a front of shrapnel on his way from St. Quentin to Laon as a result of one of these fires. A French woman working in a field near Bouconville was gassed and considerable damage has been done.

In the vast, desolate fields, thousands of unexploded shells have been picked up by German prisoners and through their care details heading them away and exploding them in remote valleys every day, there are still long ranks of them everywhere. Sparks from locomotives and up to the hills where battlefields rubbish is being burned, occasionally set fire to patches of dry woods and the accidental bursts are numerous.

Batfests More Numerous Than in 1913 Season

Either Pitchers are Weaker or Slugging is Coming Back, Records Say

BY I. E. SANBORN
More dope confirming the suspected superiority of the pitching in the National league this year, compared with that in the American league, is supplied by the season's crop of slugfests and high scores.

In both circuits there were more games in which one team made fifteen or more hits than last year, but part of that difference can be explained by the fact that the 1914 campaign was nearly a month shorter than that in 1913. The contrast in the American league was too great to be accounted for in that way.

American Hurlers Hammered
Last year, the battles in which a team piled up fifteen or more swats in nine innings were more numerous in the National and twenty-nine in the American. This year there were sixty-eight such games in the American circuit and forty-nine in the National. In both leagues the fifteen hit mark was reached or passed in several extra inning games, but in the official records are for purposes of comparison the use of only regulation games is counted.

Records show that American league hurlers were much less effective than those in the older circuit. It might be possible to attribute the American league's better record to the fact that the American league's season was more powerful than those in the other organization. If the world's series had not proved otherwise.

Twenty-five Hits Top Mark
The heaviest total of swats for this year was twenty-five in the American league, Boston made the mark when Grady of the Athletics in September. The biggest slugfest in the National was twenty-four hits made by the Giants off the arm of McQuinn of the Braves near the end of the season.

Last year the high total in the National league was twenty-five in a nine inning scrap, and twenty-five in the American league. There were nineteen games of fifteen hits in the National league and twenty-three in the American this year.

ADRIATIC QUESTION TO RECEIVE EARLY ATTENTION
LONDON, (AP)—Great Britain has given Jugo-Slavia assurances that the Adriatic question will soon be settled by the supreme council and that Great Britain's influence will be used to secure a just and equitable settlement in accord with the life and interests of Jugo-Slavia, according to private dispatches.

MUDDY FIELD FAVORS ARMY IN BIG GAME

Weather's Bad for Football in New York but Enthusiasm is at High Mark

NEW YORK, (AP)—Unsettled weather early today, with prospects of rain, failed to dampen the enthusiasm of the 45,000 ticket holders for the annual football battle between the Army and Navy at the Polo grounds this afternoon. A light rain that fell during the night made the gridiron heavy and slippery—a condition that handicapped the lighter eleven from Annapolis.

The game, the first to be played between Uncle Sam's rival service schools since 1910 on account of the war, attracted the usual colorful crowd. High officials of the army and navy and representatives of the diplomatic corps were among the rosters. Army army and Navy blue predominated in the grand grandstands. The Army manager, Scotty Monteith, for the morning from West Point and Annapolis, respectively, and marched to the field, headed by their bands.

The mascots of the eleven (Annapolis) great interest. The army's goat, attired in a costly robe of blue, had an "edge" on the army's mule because he had spent the evening in a room all his own. The cost of the rival mascots of one of New York's best hotels, while the braying pet of the army had to content with sleeping quarters in a stable. The contest of the rival mascots were waged on the outcome of the contest.

The army ruled the favorite in the hitting, six runs ranging from five to four and 2 to 1.

The probable line-up:
Army—Kiefer, lf; Travis, lf; Brehm, cf; Greener, rf; Daniel, 3b; Blake, 2b; Wildho, qb; Lystadt, lf; Schabacker, rf; McQuinn, (captain), fb.
Navy—Woodruff, lf; Murray, lf; Denfeld, lf; Larson, cf; Moore, rf; King, rf; Ewen, (captain), rf; Koehler, qb; Clark, lf; Cruise, rf; Waiters, fb.

POLO LEAGUE FOR THE ARMY

Plans Complete for the Outdoor Sport Among U. S. Regiments of the East

WASHINGTON, (AP)—A military polo league in which various regiments will be represented by individual teams, is expected to be the outcome of an order issued today making polo one of the approved athletics for the military establishment. Complete equipment, including mounts, will be furnished to the regiments, which are expected to obtain good "dividends" in the improved physical condition of those who participate and the training in horsemanship.

A central polo commission will be established here to co-ordinate all matters pertaining to polo activities throughout the army. Commanding officers of every camp, division, or station where the practice of the game is possible, will designate a representative to handle the sport in his command.

CHIP FOUND SOMETHING
NEW ORLEANS, La., (AP)—George Clark, of Newcastle, Pa., scored an excellent knockout in the tenth round when Martin Burke of New Orleans, quit in the scheduled 15 round lightweight-weight boxing bout last night. Burke said he had a bone in his chest was broken. Odds were two to one on Burke.

PHILLEO Has 400-Gallons New Cider. Bring jugs or barrels. PHONE 872

Bookies Swamp British Tracks

In England early in the present racing season about 10,000 unskilled workers, whose high wages enabled them to have plenty of money, fancied when they had to give up their way jobs that a more easy and pleasant way of making money would be to become bookmakers. The presence on the courses has added considerably to the chaotic conditions prevailing. But it is not likely to be stayed. It is computed that they were washed out at the rate of 500 a week and had almost disappeared by the end of September. Not more than thirty survivors were then in action and half of the thirty were on financial straits.

Brief Bits of Sport

Even Dolan is waking up to this meat-sneaking business. Instead of staging K. O. Bonomoff as a grappler after the athletic club management now uses him as a referee of other bouts.

The Minnesota boxing commission fined Sam Langford and Jack Thompson \$500 each for stalling through a bout in Duluth. Then the Wisconsin commission suspended Mel Googan and his manager, Scotty Monteith, for an indefinite period for the same stunt.

That's good stuff for the boxing game, but why not extend the respect to the athletic club management of reformation and include wrestlers?

Never did hear of a grappler getting his just dues, and generally, speaking, he is some offender against the law.

Pocattello is going to have a boxing bill on December 2. K. O. Brown of California and Gordon McKay of Mackay, Idaho, are scheduled to meet in the principal affair.

Mobbe Twin Falls will wake up, sportively, some day. What say!

A blizzard, probably a piece of the one that hit this section couple of days back, swept Channing field, Salt Lake, Thanksgiving day and upset the plans for a big football game between the U and the Aggies. The conflict is to be staged today.

Sam Smiley, grapebrush says, says: "Them there shrimkin' violets found in a local front yard this week must be the 'real shrunken kind by this time.'"

Wheels do revolve in baseball. Frisvance there's that Babe Prindle deal, which has some queer twists and angles. "Babe" was one of the best third basemen in the Pacific Coast league last year and he belonged in Sacramento. Portland would him, but of course, Sacramento wouldn't sell him to a competing club.

The McCreolins are friendly with the Nevins of Detroit but last fall the Detroit club went its limit on drafted players and it should get in a bid for Finelli. President Nevins got the bosses of the Yanks to draft the Sacramento player for Detroit, which club, in turn, will turn the star over to Portland in the spring.

FIVE VICTIMS FOR FOOTBALL DURING YEAR

Statistics Show Roughest American Outdoor Sport Took High Toll

CHICAGO, (AP)—Football, the roughest of American outdoor sports, claimed five victims during the 1913 season, which closed with Thanksgiving day games, according to reports to The Associated Press today. The number of deaths—the lowest in years—was five less than in 1912 and seven under the toll of two years ago. There were eighteen lives lost during the 1910 season and sixteen in 1915.

Development of the open style of play, to supplement the dangerous mauling game, is mainly responsible for the decreasing number of fatalities.

All victims of the 1913 season, with one exception, were high school players without expert physical training. The list of victims follows:

Paul Johnson, 19, Wynzatt, Minn., died November 27 from concussion of the brain after being tackled in a high school game.
Lewis Moulton, Neodesha, Kan., member of a high school team, died November 5, as the result of a broken neck while in a practice game.
Calvin Libshier, 17, Urbana, Ohio, died September 29 from concussion of the brain after being tackled in a high school game.
Gardner Dawe, New Haven, Conn., member of the Connecticut Agricultural college, died from concussion of the brain, injured playing against New Hampshire October 16, Moine, Ill., died October 30, of blood-poisoning which developed from an injury sustained in a neighborhood game.

Hoosiers Hold Contracts For 'Big Ten' Games

Purple, Gophers, Purdue Already on Schedule for the 1920 Season

BLOOMINGTON, Ind., (Special.)—Now that this year's football season is over talk has already started about the schedule for next year. When the local coach Enoch O. Stehm goes to the "Big Ten" powwow to be held in Chicago next month, he will have three conference games already booked.

Indiana has a two year contract with Northwestern which calls for a game at Bloomington next year. The Hoosier eleven will also play Minnesota at Minneapolis, this year's contest having been staged at Indianapolis. Purdue is to be met at Lafayette, as the last game between the two schools was staged here, after which athletic relations were broken off until recently, when they were renewed.

Likely to Meet Notre Dame
It is also expected that Indiana will meet Notre Dame at Indianapolis again next season, as a game between the two schools always draws well in the capital city. There will likely be another big inter-sectional contest with some eastern school.

Call for Varsity Wrestling Candidates to Report One Week from Next Monday for the first official workout of the season. Captain Munby who wrestles in the 125 pound class, has been in the football team all season, and is in fine shape for next year. Wiley, who wrestles in the 155 pound class, was a guard on this year's varsity football team.

strong effort to have the next conference intercollegiate meet held in the city here. The date of the meet is next March.
Indiana hopes to have a fine swimming team this year. Swimming is very popular among the students and there will be an abundance of good material out of which to pick a good varsity team. Last year's freshman team, which won the intercollegiate swimming meet with a margin of 60 points, is eligible for the varsity. Model are to be scheduled with other aquatic teams of the conference. G. L. Rathbun will coach the sport.
Every census has disclosed the fact there are more men in the United States than women.

Ford THE UNIVERSAL CAR
Ford cars are more useful today than ever before; a necessity in village, town, city and country; the utility of farmer, merchant, manufacturer, architect, engineer, contractor, salesman, doctor, clergyman, a profitable factor in the life of the nation. GETTING THE MONEY

Secretary of the Treasury Glass again rises to call attention to the rapidity and cogency with which Liberty Bonds continue their onward march towards the coffers of the get-rich-quick man.

Warnings innumerable have been issued in the past, but apparently without the slightest effect. All over the country the stock salesman plies his merry trade, and in that everybody has either money or bonds or both, his path is strewn with flowers and his head rests among the clouds of the roiciest dreams that ever served to enlighten the path of his kind.

Of course, not all properties in which stock is offered to investors are fakes, but it is a safe bet that the bulk of them would bear a good deal closer investigation than is generally accorded them.

In years gone by the proposition of glass sand used to be a favorite among the fake promoters. Glass sand, he it understood, is that particular kind of sand from which glass is made.

So far as known no glass sand production company has made its appearance among the representatives of high finance with which most communities are infested, but if sales keep up it is not impossible that the old scheme will be revived, rejuvenated and handed out to fill the insatiable maw of the suckers.

The average man has no business to make up his mind on an investment which somebody else has suggested to him, particularly when the suggesting party is a trained salesman whose business it is to sell. It is an uneven game.

And it is so very easy and simple to be sure, all in the world a man has to do is to ask his banker, or his lawyer or some friend in whom he has confidence. Ask anybody who does not happen to come within the charmed circle of the salesman's influence. In some cases it is not even necessary to step outside the family. A man with a ten year old son might consult him with excellent results.

REASSURANCE

Once again the cause of law and order has triumphed in the new world. After a great fight, press dispatches advise, the labor party was defeated in yesterday's election in Winnipeg, Manitoba. Mayor Charles F. Gray, heading the citizens' ticket, was re-elected over S. J. Farmer by a majority of 3,013 and four alderman candidates of the same party were returned, assuring this elec-

Winnipeg

Expression of satisfaction over the defeat of Farmer and his colleagues in Winnipeg does not have its source in the contensible fact that the defeated candidates are laboring men and that their defeat carries with it silencing of the just demands of labor; but it does arise from the fact that Farmer and his colleagues were supported by the labor element which endorsed the general strike in Canada last spring.

Success of the labor party in Winnipeg would have been comparable to the success of the opponent of Governor Coolidge in Massachusetts, and the friends of law and order irrespective of party united in expression of satisfaction and relief when returns showing the reelection of Coolidge were announced.

Results of the election in Massachusetts and Winnipeg are reassuring. So long as such results are to be expected as the ordinary and not the extraordinary, public officials generally will take heart and rigid enforcement of the law is to be expected, because these election results are sure indication of the essential soundness of the great bulk of public sentiment throughout North America.

KING ADMITS CHARGE AND PAYS HIS FINE

In District Court Bootlegger Accepts Penalty—Partner Denies Guilt

Although F. D. King, the man arrested with him, has entered a plea of guilty to a bootlegging charge, W. V. Fox yesterday denied the accusation. He is held for trial in the district court on December 8.

Fox and King were arrested last summer on the Blountine bridge, the car they occupied being freighted with considerable contraband liquor. King admitted guilt on arraignment in the district court yesterday and was fined \$100 and sentenced to a 30-day confinement in the county jail, part of the penalty was ordered suspended pending complete behavior.

F. C. Sinclair, sent up from the probate court on charge of larceny of seed from the Hill Seed & Grain company, which he occupied being freighted with contraband liquor, was ordered up for trial on December 8. In the absence of Hellen Holmstrom against Hazel Holmstrom a default decree was entered. Harry D. Atwood was granted a divorce against Minnie D. Atwood.

There is printing—and printing. There is singing—and singing. You buy the record of a song—a great singer—sent you notes when the same song is rendered by a more famous printing is an art which some printers never learn.

STRIKE THREAT MENACES COAL OF SOUTHWEST

(Continued from Page One)

under the laws of the brotherhood. It is necessary that the underground operate what has been said to some, if not all of you on former occasions, and that is:

"This is a most inopportune time for a strike such as contemplated and I again urge that you give this matter your most earnest and serious consideration, keeping in mind the law a rail strike at this time would increase the suffering of the people who are now facing famine and suffering brought about on account of the coal strike.

(Signed) "H. A. CARROLL, General Chairman."

National Issues Not Considered

Union officials of the trainmen said the national issues of the railroad being discussed at Cleveland had no part in the strike.

A strike of trainmen here would tie up a great part of the coal of the southwest.

ing, W. Va. As she stood in his embrace Gordon fired a revolver shot through her body. After his arrest last night, Gordon was told that Mrs. Robinson would die unless some one volunteered to submit to blood transfusion. He offered himself and requested only that if the patient still were conscious that she be told of his action. Physicians today said that it was too early to say whether the operation would save Mrs. Robinson's life. In the meantime the police were wondering what the effect would be should the woman whom Gordon had tried to kill be saved from death through his own sacrifice of blood.

GIVES BLOOD TO SAVE YOUNG WOMAN HE SHOT

Youth and Matron Principals in Remarkable Crime Incident

WASHINGTON, (P)—Mrs. Phoebe Robinson, comely young nation living near death in a hospital, and Grover Gordon, little more than a youth, who, because he said he loved her, yesterday shot the woman, and who for the same reason twelve hours later kept her alive by giving his blood for transfusion to her veins—today were the principals in one of the most remarkable crime incidents in Washington police history.

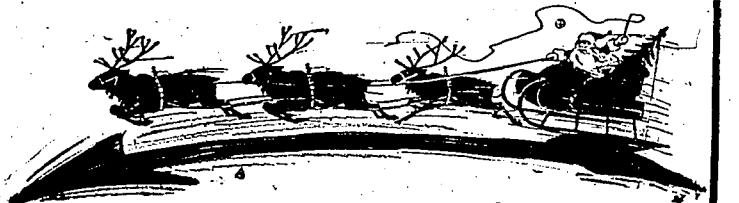

Following a quarrel recently, Gordon yesterday shot to the home of the woman, who had separated from her husband, to bid her good-bye, as he expected to leave for his home in Wheel-

VOLUNTEERS TO WORK IN MINES

Kansas Governor Announces Arrangements Completed for Coal Production

TOPEKA, Kan., (P)—Transportation of the volunteer coal diggers to the Cherokee-Crawford counties coal field will begin Sunday night, it was announced by Governor Allen today. Special trains for the volunteers will be provided at Wichita, Emporia, Topeka and Atchison. Their schedule calls for their arrival at the coal field early Monday morning and it is expected they will go to work at once. The workers will include 25 trained steam shovel crews, a number of experienced miners and probably 200 students including 75 each from the state agricultural college and the state university.

The list of volunteers today climbed to more than 9,000 men, it was declared by the governor. It is planned to increase the corps of workers gradually until the daily output of the strip mines reaches 100 carloads a day or more.

Each of the special trains carrying volunteer coal diggers leaving Wichita, Emporia, Topeka and Atchison tomorrow night, will carry members of the fourth regiment, Kansas National Guard, it was said today by Governor Allen. The guardsmen will occupy the former students army training corps barracks at the Pittsburgh state normal school.

FORTHCOMING CONFERENCE INDICATES FIRST ATTEMPT TO BREAK MENBERS' STRIKE

(Continued from Page One)

Strikers Under Arrest
At Gallup, N. M., twenty-five striking miners today were under arrest. Military authorities ordered them taken into custody when they attempted to hold a union meeting without obtaining a permit. Three wagon loads of arms, ownership of which had not been established, were seized.

The sixty-two miners arrested in Wyoming by the military in connection with state and federal officers today were an liberty to return to work.

Oklahoma Asks Troops
Secretary of War Baker today had before him a request, from J. B. A. Robertson, governor of Oklahoma, for troops to be sent into that state to protect miners who desired to re-enter the mines.

The governor sent the message after he had broken off negotiations with the operators.

KANSAS PREPARES QUARTERS FOR TROOP ACCOMMODATION
PIPERVILLE, Kan., (P)—The stables taken over for housing and quarters of the state manual training normal for the accommodation for soldiers ordered to Haysburg in connection with the operation of the coal mines.

Colonel P. M. Hollington of the Kansas National Guard, reached Pittsburg today and took charge of arrangements for the troops.

OKLAHOMA OPERATORS TO OPEN TO NON-UNION MEN
OKLAHOMA CITY, Ok., (P)—Dorset Carter, president of the Oklahoma coal operators association, announced

ALABAMA MINERS TO RESUME STRIKE TONIGHT
BIRMINGHAM, Ala., (P)—Announced with the 14 per cent wage advance offered them, miners of this state will resume the strike at midnight tonight, union officials said today. A mass meeting of the miners will be held here tomorrow to discuss the situation.

to the state council of defense today that Oklahoma coal operators would throw open their mines to non-union labor immediately and would defray expenses of the state guard protecting non-union workers should the state's request for federal troops be refused.

WYOMING TOWNS APPEAL TO GOVERNOR FOR COAL
CHEYENNE, Wyo., (P)—Governor Carr of Wyoming today received appeals from citizens of Maeville, Lusk and Fort Laramie for coal. The supply of fuel in these towns, according to the messages, is practically exhausted. The governor said he had been unable to get action on his request for coal made to railroad fuel administrators at Omaha since Chicago.

FARMERS FIND BODY OF NEGRO HANGING TO TREE
LAKE CITY, Fla., (P)—Farmer coming to this place today found the body of a negro hanging to a tree by the roadside. An investigation disclosed that the man, Sam Moody, had been lynched last night by a party of white men. It was claimed that he insulted a young white woman.

Dwight to Enter Mercantile Line

Highway District Man to Be Executively Employed at Castletford

C. F. Dwight, who for some time has been connected with the executive department of the Twin Falls Highway District, has resigned that position to engage in mercantile pursuits. Mr. Dwight will be connected, as manager, with the "Brooks Brothers" mercantile institution at Castletford, taking up his new work next Tuesday.

Mr. Dwight, who is a brother of Dr. W. H. Dwight, of Twin Falls, has been a resident of this district several years, coming here from Marcus, Iowa. He has acquired considerable farm property on the north side, making the purchase of 80 acres in the past week to add to his other land holdings. Mrs. Dwight, with her mother, Mrs. Mary Huntington, will remain in Twin Falls until apartments are completed for occupation at Castletford.

To succeed Mr. Dwight in connection with the highway district John Jewett, of the highway engineering department, has been selected by the board of commissioners.

MAXWELL STOOD TEST IN HARD ROAD WORK

E. S. Johnson Tells How Los Angeles Driver Traveled 50,000 Miles

The supreme test of road service has been administered by Eugene F. Cox of Los Angeles, who has driven a 1916 Maxwell over more than 50,000 miles of good, bad and indifferent highways in the territory lying between the Mississippi river and the Pacific coast, according to E. S. Johnson of the Johnson Auto Sales Co., who has just received word of the remarkable record established.

Cox declares that the car is still in good condition, and that he will turn it in at Los Angeles for a 1920 model. Mr. and Mrs. Cox are musicians and give entertainments on the saxophone and other instruments, and claim to have visited every village west of the Mississippi. Their car is especially equipped for touring, with seats that can be converted into beds and boxes and cabinets built on the fenders and runningboards. When weather conditions permit they camp by the roadside at night.

"We have covered an average of 17,000 miles each season for the past three years," said Mr. Cox while in good condition, and "the only serious troubles we have had were when the car was a broken spring while passing through Fourth of July canyon between Coeur d'Alene and Wallace, Idaho. This is the poorest stretch of road we have encountered during three years' wandering across mountain ranges and deserts." For two miles of the distance the grade is full of holes and the road is full of sharp rocks and chuck holes. We wore out a set of tires going through the canyon."

Johnson's companionship with the Maxwell on all kinds and conditions of road, Mr. Cox is thoroughly satisfied, he declares, and will continue his wanderings in his 1920 for the next season. Many special conveniences and built-in lockers will be added to the equipment of the new car and provisions will be made for carrying an extra supply of gas.

FIFTEEN YEARS AGO IN TWIN FALLS

Taken at random from The News files this date in year 1904

The Twin Falls postoffice will be made a money order office on January 1, 1905. At present all remittances for this place by money order must be made payable at the Shoshone postoffice. The growth of the town is such that this additional privilege will be gladly welcomed by everyone here.

Thanksgiving day passed off quietly in Twin Falls. Everyone apparently had sufficient of the good things to appear in well cultivated and well-stocked tables. The turkey, corn and meat market scarce, seemed able to fill all the orders received for turkey, meat, cranberries, rice, apples, vegetables, etc., but by persistent effort no one went home empty handed. Because of the distance to freight by wagon from Shoshone it is not altogether possible to keep grocery stocks up to equal the demand.

S. H. Hays of Boise and F. F. Johnson, president of the First National Bank of Wallace, were in town Wednesday and Thursday attending to matters pertaining to the establishment of a First National Bank at this place.

The school house is rapidly nearing completion and next week will be ready for occupancy. The seats are expected to arrive at any time, and as soon as a teacher can be secured school will be opened. The last census of the district shows pupils of school age to the number of 301. Quite a showing for a town so young. But then all things are possible with Twin Falls.

W. A. Childers is building a comfortable dwelling on his ranch, one mile east of town.

RUPERT

RUPERT—The Shimer Brothers, contractors of Paul, have purchased the Ellis hotel at Paul, paying \$17,000 for it. They took possession at once. The hotel contains 21 rooms.

Mrs. J. W. Cunningham of the Big Bend country, who went to Salt Lake City two weeks ago for an operation, is reported improving and is expected home in the near future.

The new road from the Big Bend school house west to Burley, meeting the Heyburn-Paul highway, under the supervision of E. C. Maynard, is nearing completion.

T. E. Tallant and R. E. Sherr, dry farmers of Hockaday, arrived in Rupert Tuesday looking for a place to house and feed for their stock. They expect to drive the cattle here soon.

The Rev. G. W. Barnes, assisted by Mrs. Barnes, entertained his Sunday school class of boys at his home Friday evening. The time was spent playing interesting games, after partaking of very appetizing refreshments the boys went home feeling that they had been royally entertained.

Class "A" of the eighth grade gave a party in the high school gymnasium Friday evening, entertained by the teachers. They served refreshments and had a very enjoyable time.

Mrs. Mary Richards of Hatley, who has been visiting with Mrs. Ross on the B. E. Acuff farm, is now the guest of Mrs. Bertha Troeger at her home.

Mrs. H. W. Cargill received a telegram Friday evening telling of the serious illness of her mother, Mrs. Ollie Starmer at Salt Lake City. Mrs. Cargill has

gone to Salt Lake and will stay at the bedside of her mother. Mrs. C. G. Newton went to Boise last Friday, where she spent a few days visiting friends. Her daughter, Miss Margaret Newton, who has been attending school at St. Margaret's academy for the past two years, returned home with her mother Sunday. Margaret has come home to stay and will attend school here.

HOLLISTER

HOLLISTER—H. Malgreen received a car of feeder cattle last Thursday. This is a new idea for this section.

School vacation two days last week for teachers' examination and two days this week for Thanksgiving.

George Frelath and John Troendley, Jr., took the civil service examination before Postmaster Morehouse this week for census enumerators.

Eric Lawrence is nursing a badly sprained wrist, injured in cranking an auto at Ammerville last week.

The box social at Ammerville last Saturday night was a success, netting over \$110 for the school athletic equipment fund.

On account of the storm and extreme cold the Royal Neighbors have postponed their Thanksgiving dance indefinitely.

"Back" Joiner and family are returning to Texas this week after a residence here of some two years.

If you are getting the kind of printing you want, stick to your printer. If you don't like him and he can't give it to you, find another one.

Directors.

BATTERY ESSENTIAL TO GOOD OPERATION

Cells Must Be Kept Up to the Standard or Poor Service is Inevitable

"A battery that is run down for lack of proper charging is like a man who has been weakened by a lack of proper food," says George M. Dow, local Willard expert. "The battery is too weak to take the charge in the normal way, just as the man who has not had sufficient nourishment may be too weak to work for a meal. For this reason it is useless to try to charge the battery by running the engine of the car."

The proper method to follow with such a battery is to put it on charge at an extremely low rate for a short period and then gradually increase the rate until the normal charging rate has been reached. This can only be done at some service station which is properly equipped for this sort of work.

"Occasionally some one asks us if this job cannot be done by running the engine slowly at first and letting the battery charge in that way for several hours; after this process had been allowed to proceed for some time the idea would be that your engine should be speeded up so that normal charge would proceed. Of course, this process is not a workable one. The one thing that stands in the way of such a charging process is that the generator is so constructed that it supplies current at nearly normal voltage as soon as it begins to supply it at all. No matter how fast or how slow the engine runs the current supplied will be just about the same, and instead of charging and helping the weakened battery, it will heat and probably injure it."

You can secure a tonner for that property, without delay or expense enough to "count," through the classified.

Some Great Bargains in Oriand, California. Where Uncle Sam furnishes water for 20,000 acres. Good soil, no rock, no hard pan. Cravily system and plenty of water. WORK WITH D'ANNUNZIO IN DALMATIAN SCHEMES

PARIS, (AP)—Admiral Enrico Millo, commander of Italian occupation forces along the eastern coast of the Adriatic, is working hand in hand with Captain Gabriele D'Annunzio, according to information received here, from an authoritative source. All along the Dalmatian coast it is said the people believe the Italian fleet and D'Annunzio's army are co-operating for the purpose of occupying all of Dalmatia.

In Jugoslav official circles here it is felt that the excitement among the population may result in uprising which will make Sorbian intervention necessary. The department of agriculture assisted the census bureau in preparing the list of questions to be asked of every farmer at the coming census.

Not First Cost, But Long Service, Is the Test

The letters below are from Kewanee users, who have had Kewanee Water and Light Systems installed for five, nine and ten years.

Costs Little to Run

April 5, 1917. Your electric light and water plant is giving fine satisfaction. Would not do without it. It gives the country home city advantages and at a minimum cost. The first nine months I supplied water and light for my house and five hundred chickens at a cost of 70 cents—five gallons of gasoline and a few cents worth of oil.

Yours, H. B. REAGLE
Only Repairs After Nine Years
Gentlemen: I am shipping you today by express the upper valve out of my No. 240 pumping outfit which I purchased from you through Green and Higson, nine years ago. You will see that the yoke is broken. You had better ship me the entire new valve complete. Those are the first repairs I have had since the plant was installed and I have used it continually and it has given entire satisfaction.

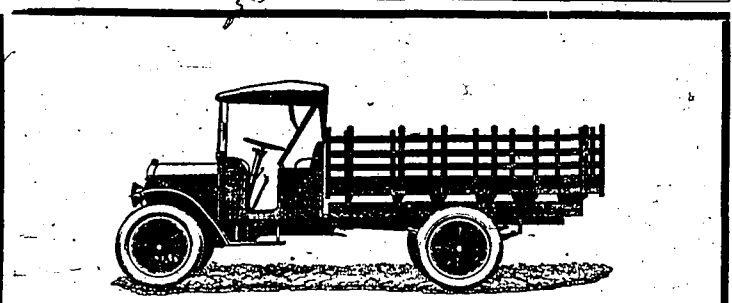

F. S. TANEY, R. F. D. No. 1 Pocatello, Idaho.

Ten Years of Satisfaction
I have a No. 240 Kewanee System installed on my ranch in Hagerman Valley and during that time it has given entire satisfaction and I have never been out of the use of the plant. The system was installed ten years ago.

FRED C. MARINER, Hagerman, Idaho.
Nov. 22, 1919.

PROTESTANT CHURCH IN BRAZIL PASSES CENTURY

Oratio of Religious Liberty in South American Country Plans Celebration
RIO DE JANEIRO, (P)—Christ church of this city which soon will celebrate its centenary is said to have been built in South America. It was erected to provide a place of worship for the English community here. Two restrictions were placed on the church, the other was to resemble a dwelling house and not a temple, and no bells were allowed. Out of this concession grew the religious liberty which is now a reality in South America. Today there are two Anglican dioceses and 40 churches in South America. One diocese includes Argentina and Brazil with a bishopric in Buenos Aires; the other includes the Falkland Islands and the west coast countries. In addition to the Anglican churches, there are many other protestant churches scattered throughout South America.

LONDON CONSIDERS PLAN FOR TRAMWAY DEVELOPMENT

LONDON, (P)—A new plan for tramway development in the London district, involving an outlay of \$10,000,000, is under consideration. The proposal contemplates the construction of ninety miles of new tramways, along with a plan to link up with existing lines and systems outside the city.

LEGAL ADVERTISEMENTS

NOTICE TO CONTRACTORS
Sealed proposals will be received by the Commissioner of Public Works of the State of Idaho, at the office of the Commissioner, Boise, Idaho, until 2 o'clock p. m. on the first day of December, 1919, for the grading and surfacing of approximately two miles of the Sawtooth Park State Highway between Jerome and Shoshone in Jerome county.

All proposals must be made on the forms furnished, and must be signed by the bidder with his address. The commissioner reserves the right to award the contract for gravel surfacing separately from the contract for grading, or to award the entire work to one bidder as he may deem for the best interests of the State of Idaho. The right is reserved to reject any or all bids, or to accept the bid or bids deemed best for the State of Idaho.

No bid will be considered unless accompanied by a certified check, on some bank of Idaho, made payable to the Commissioner of Public Works, in the amount of five per cent of the total amount of the bid. This certified check is to become the property of the State of Idaho, not as penalty but as liquidated damages, if the bidder, upon acceptance of his bid, fails or refuses to enter into a contract, or to furnish the required surety bond, within ten days (not including Sunday) after presentation of the contract by the Commissioner of Public Works to him for execution.

A bond with a surety company, authorized to do business in the State of Idaho, and satisfactory to the Commissioner of Public Works, will be required for the faithful performance of the contract, in the sum of fifty per cent (50%) of the total amount of the contract price.

It is the purpose of the commissioner to build the road in the shortest time consistent with good construction, and complete and well designed equipment and effective organization will be insisted upon.

WM. J. HALL,
Commissioner of Public Works.
Dated Nov. 24, 1919.

RELIEVES, TIRED ACHING MUSCLES
Buy a bottle of Sloan's Liniment and keep it handy for emergency
IF I only had some Sloan's Liniment! How often you've said that! And then when the rheumatic twinge subsided—after hours of suffering—you forgot it! Don't do that! Keep it handy

LOCAL DISTRIBUTORS TO ATTEND CONCLAVE

G. E. Duke and E. N. Flory Will Go to Indiana Truck Event in December

The Idaho Automobile Supply Co., local distributing agency of Indiana trucks in this territory, has just received an invitation from the Indiana Truck corporation, manufacturers of the Indiana truck, at Marion, Indiana, to attend the annual convention which the Indiana truck people will hold at their factory in December for the benefit of distributors and salesmen.

The Indiana truck people are keen to realize the mutual benefit to their sales organization in getting together and rubbing elbows with the other fellows for the purpose of talking over the problems and plans for the expansion of the business.

E. N. Flory, of the Idaho Automobile Supply Co., says that an unusual program has been planned for this convention to make the occasion profitable to their distributors and salesmen who attend, and that they have not overlooked features that will also make the occasion one of pleasure and interest. It is said that one feature of the convention will be a big barbecue—an outdoor celebration—which will be pulled off in true Indiana style, and this feature alone will contribute to make the convention remembered by all Indiana distributors long after the convention is over.

G. E. Duke and E. N. Flory will be the delegates from here who will be the factory's guests at the convention.

ENGAGEMENT ANNOUNCEMENT CREATES MUCH INTEREST

LONDON, (P)—The engagement has just been announced of Miss Ivy Jarvis, only daughter of Lord St. Vincent, to Major W. A. Whittemore, son of Mr. and Mrs. L. H. Whittemore, of Evanston, Ill., and Assata, Ontario. Miss Ivy Jarvis is also niece of Lady Harris, wife of the well-known cricketer. The engagement has created much interest here. The St. Vincent title originated with Admiral Sir John Jarvis, victor in 1797 at Cap St. Vincent. He was made an earl but he had no sons and the earldom became extinct.

THE VICOUNTY DESCENDING TO A NEPHEW

named Rickotts, who assumed the name of Jarvis. Lord St. Vincent's seat is in Sutton Down. He also has a residence at Blanklin, Isle of Wight.

FILM MAKERS APPOINTED ON CENSORSHIP BOARD

PARIS, (P)—A new film censor will be in office in France beginning January 1 next. An standing committee, which takes the place of the old police censorship, has been appointed. Senator Maurice Faure, some leading theatrical and literary authorities, are Pathe and Gaumont, the leading French film makers, are members of the board.

The New Reo Six
Reo is the recognized schoolmaster of the industry. How to so design a part and to so treat the metal to obtain the greatest possible strength and life from the least pounds of steel—much of this knowledge emanated from the Reo laboratories.
We maintain, therefore, that no car of equal passenger capacity but lighter in weight than a Reo can possibly last as long, withstand as hard usage and show as low an upkeep cost as a Reo.
The point we desire to make is that mere lightness has never been a fetish to Reo engineers. Our idol is endurance, if we may be permitted the figure. Nor has it ever been necessary to cut weight in the chassis and body to the danger point in order to achieve speed, hill climbing and other phases of performance.
Instead we design the power into the motor. No stunt power, but lugging capacity. Strangely enough, those things that the present day public have been taught to clamor for—speed and power—are the easiest and cheapest qualities to supply.

IRRIGATION INVESTIGATION BOARD MAKES REPORT OF STORAGE NEEDS

Special Committee, Appointed at Idaho Falls Congress, Finds Requirements are for Further Impounding of 744,625 Acre Feet to Cover All Demands in Snake River Valley

That storage for 744,625 acre feet of water is required to meet all present and prospective needs for irrigation schemes covering the entire Snake river valley, is information contained in a report made by a committee chosen at the recent Idaho Falls irrigation congress. The committee report has just been completed and its figures and facts, given herewith, are of a particularly illuminating nature.

"We, your committee, appointed to investigate the feasibility and cost of providing additional storage for present projects and extensions thereof in Snake River valley, exclusive of the North Fork, respectfully submit the following report:

"To ascertain the storage requirements of the various organizations, blank forms of applications for storage were circulated from the returns of which the following information was obtained:

Organization Requirements

Poplar, 800;	Progressive, 15,000;
Farmers Friend, 10,000;	Enterprise, 10,000;
Harrison, 45,000;	Idaho, 6,000;
Burgess, 20,000;	Sunnydell, 8,000;
Lanroot, 6,000;	Boyd, 2,000;
Reagan, 8,000;	Dills, 1,700;
Island, 6,000;	Bigby, 8,000;
Butte and Market Lake, 20,000;	New Sweden, 20,000;
Idaho, 25,000;	Woodville, 3,000;
River Valley, 20,000;	Blackfoot, 10,000;
New Laramie, 4,800;	Peoples, 32,000;
Alberden-Springfield, 57,315;	Corbett Slough, 6,000;
Trevo, 2,000;	Twin Falls North Side, 300,000;
Twin Falls South Side, 100,000;	Grand total, 744,625.

The investigating committee has received a letter from Morris Blum, assistant to the federal director of construction, replying to an application for additional storage on the Snake river, in which it is clearly stated that co-operation may be expected from the federal department of reclamation in the matter of construction of controlling works. The letter reads:

"The director has approved your recommendation that you be authorized to advise the parties interested of the result of preliminary estimates and that this service will construct storage works provided they advance the money under arrangements similar to those made with the Twin Falls companies for the enlargement of Jackson Lake reservoir."

AMERICAN'S IDENTITY IS STILL UNREVEALED

Relatives and Friends Unable to Learn Whether Murdered Man is W. T. Wallace

R. B. King, manager of the Twin Falls branch of the Idaho Power company and a close personal friend of William T. Wallace, this morning expressed himself as doubtful over the identity of the "Jim" Wallace reported killed by Mexican soldiers at Tampico. Mr. King wired New York officials of the Gas Oil company with which William T. Wallace is connected, for definite confirmation of the identity of the man killed. So far as King, Wallace, William T. Wallace was not known as "Jim" Wallace either in Idaho or elsewhere, but the information available here is so meagre and contradictory that it is impossible to reach a definite conclusion as to whether William T. Wallace, formerly of Twin Falls and Boise is the man referred to in the dispatches or not.

Up to the time of going to press Mr. King had received no reply to his wire of this morning asking for definite confirmation of the identity of "Jim" Wallace.

This morning Mrs. R. S. Lewis, of the Perrine hotel, a relative of W. T. Wallace, has the following message from Harry W. Donovan, a son in law of William T. Wallace, residing in New York:

"We have no further news regarding identity of American Wallace killed near Tampico. Every effort is being made to learn facts. Will wire you if we obtain any news."

SEISMIC DISTURBANCES REPORTED FROM FRENCH CITIES

PARIS, (AP)—A slight earthquake shock lasting seven seconds was felt at 9:40 o'clock last night at Cannes in the Riviera. A heavier shock was felt previous half an hour after midnight at Foix, 45 miles south of Toulouse, at the foot of the Pyrenees. Only slight damage was done at either place.

You can sell that lot or plot of ground—at a small advertising cost—through the classified.

ALDERMEN INFORMED OF FUEL SITUATION

Chamber of Commerce Board Urges Equitable Distribution of Coal

Seeking an equitable distribution of fuel supplies in Twin Falls the chamber of commerce last night, at a meeting of the board of directors, addressed resolutions to the mayor and members of the city council urging action that will preclude possibility of undue storing, and see that all consumers are treated alike in the matter of distribution. The resolutions are based upon complaints reaching the chamber of commerce accusing Twin Falls residents of adding to fuel supplies already sufficiently large for immediate wants.

The resolutions read:

"It having been brought to the attention of the executive board of the Twin Falls chamber of commerce that people who have coal are increasing their stores of it while others who are without it are unable to secure any, we respectfully petition you that you immediately take steps to secure an equitable distribution of supplies by requiring those who would purchase coal to apply to some central agent of the city and make affidavit stating the quantity on hand. The amount purchased should be restricted to conform to supplies available."

Mr. Fred B. Reed, executive head of the Idaho Reclamation association, appeared at the meeting of directors and addressed the body on the work of the association, past, present and in contemplation.

GRANTED TEMPORARY ALIMONY

In the district court this morning Grace Baxter was granted \$50 temporary alimony per month during pendency of the divorce action brought against her by George F. Baxter. In addition the court awarded the defendant the sum of \$100 attorney's fees.

Better Be Safe Than Sorry, Car Operator Warns

AUTOISTS using the Blue Lakes grade are warned to employ chains when making the ascent on either side of the canyon. The precaution may prevent a catastrophe.

The warning is issued by Dr. W. H. Dwight and followed a near disaster to Dr. Dwight on the grade during the present week.

"I used one chain, thinking that would be sufficient, but it was not," the dentist explains in warning that all tires should be equipped with chains if a safe ascent is to be made. "I had reached the steepest part of the incline when the wheels began to lose grip and the car fell back to the narrowest possible margin of the cliff edge. I managed to guide the machine back into the roadway and then held it under control as much as possible until it slid down to a less steep declivity. Then I put on all the chains and came through without further mishap. I mention this occurrence so that my experience may be of benefit to other drivers on the grade."

ARRESTED FOR BURLEY

W. H. Robinson is temporarily lodged in the county jail awaiting the arrival of the sheriff from Burley to take him in charge. Robinson was arrested here last night on charge of being implicated in the theft of a Buick automobile from Burley. Byron Miller was arrested here during the past week in the same connection and is now in jail at Burley.

RED CROSS SEAL AGENT OF HAPPINESS FOR ALL

Beginning December 1 All Letters and Packages Should Bear Mercury Stamp

EVERY LETTER, PACKAGE OR BILL MAILED DECEMBER 1ST SHOULD BEAR A RED CROSS CHRISTMAS SEAL.

The Red Cross seal, on millions of Americans know it today, is an agent of happiness and health. It was originated in 1907 by Miss Emily P. Biswell of Wilmington, Delaware, who learned through Jacob Biss of somewhat similar seals that were sold in Norway for the purpose of raising funds with which to fight tuberculosis.

Miss Biswell persuaded the American Red Cross to take up the idea with the result that seals were sold in a limited number of communities in 1908. The sale yielded a revenue of approximately \$3,000. The Red Cross then decided to issue the seal each year and turn the proceeds over to the National Tuberculosis association and its affiliated societies for the purpose of financing the campaign against tuberculosis. The number of seals sold in America, increased by leaps and bounds until in 1917 the total reached 180,000,000.

This year two seals are again on sale, beginning December 1st. More than half a billion seals have been printed for distribution to state and local agents. In addition to the seals "Health Bonds" in denominations ranging from \$5.00 to \$100.00 are to be sold in lieu of seals to large contributors who do not send out a sufficient quantity of mail in December to make use of all the seals they would like to purchase. The combined quotas of all the state organizations call for

more than \$3,500,000 to carry out the intensive educational campaign being conducted by the National Tuberculosis association and its 1000 affiliated societies.

F. F. Johnson of Boise will act as state chairman in Idaho for the Christmas seal trade, and Joel J. Priest as state campaign director.

STRIKE IN TUNNELS OF CHICAGO TIES UP TRAFFIC

CHICAGO, (AP)—Traffic in the boxes of the Chicago Tunnel company used to deliver coal and remove ashes from office buildings in addition to the transfer of railroad freight, was tied up today by the strike of several hundred employes who demand increased wages.

BARTRAVELERS ACCOMPANY COLLAPSE OF KILAUEA PIT

HILO, T. H., (AP)—The fire pit of Mount Kilauea, which for months was level with the main crater and overflowed frequently, collapsed early yesterday and fell four hundred feet. Ten earthquake shocks accompanied the collapse.

DALEY EXPECTS HERE

F. R. Gammeck, army specialist of the University of Idaho, is in Twin Falls for a couple of days in the interest of the state cow-testing association. Mr. Gammeck will devote his attention, while here, to reviving interest in the business of the association for next year.

Christmas Gift Stocks Are Ready

The Store That Fairly Breathes The Spirit of Christmas Cheer

FRRIENDS who were in the store Saturday, and who come to the store again Monday, will wonder. Saturday you saw the store in its very ordinary dress—the bare walls and just the ordinary wares of every day use.

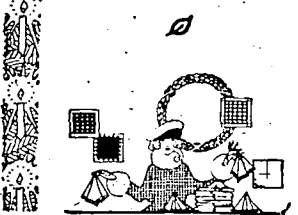

But on the morrow! How everything has changed. Thousands of white handkerchiefs flutter in the air. Bits of green and red poinsettia peep through. Never did the first heavy snowstorm coming overnight more completely transform the earth into a thing of white beauty than have the Christmas decorations transformed this store.

And Christmas shopping will begin early this year—earlier this year than in the past—for worthy merchandise has been scarce, stocks are not so full and complete as we would like to have them, and the demand for sensible gifts will be greater than ever before.

Ribbons

and think of the number of gifts that can be made from our large assortment.

Handkerchiefs

The most welcomed of Christmas gifts are here in Plain and Fancy silk and linen.

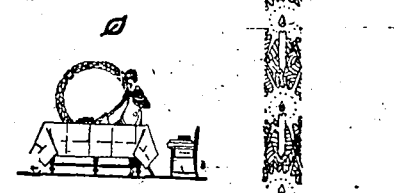

Jewelry

The gift supreme. This is destined to be a very busy section from now on, as these new arrivals of smart novelties suggest so many attractive gifts.

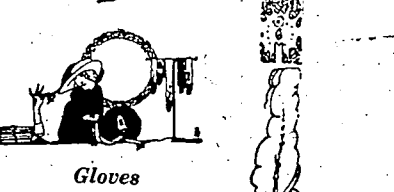

Hand Bags

are very acceptable and our new stocks just received give us a wonderful assortment.

Holiday Linens

Satin finished, 70 and 72 inch Damasks as well as Pure Linen cloths with napkins to match are, especially featured.

Gloves

are always appreciated and just now we have received a new shipment of the Real French Kids. In black, white and color. Fancy embroidered backs.
