PRICE FIVE CENTS

## BIG STRIKE TO REACH END IN VERY FEW DAYS

Proposition of President Will Be Accepted Declare Those High in Councils of Government Officials

## INCREASE OF FOURTEEN PER CENT MAIN FEATURE

Commission to Be Appointed to Take Up Details of Adjustment of Reorganization of Wage Scales at Once

**INDIANAPOLIS, Ind. (AP)**—The president's proposal to the striking coal miners, as announced this afternoon by Attorney General Palmer here, provides for immediate return to work by the men under the 14 per cent advance and appointment of a commission to investigate and readjust wages to conform with the increased cost of living.

Settlement within 24 hours of the strike of 400,000 bituminous coal miners of the country which had its inception more than five weeks ago, was confidently predicted today.

At two o'clock this afternoon the executive board and scale committee of the United Mine Workers of America were called to a session already convened a proposal made by President Wilson to John L. Lewis, acting president, and William Green, secretary-treasurer of organization Saturday afternoon. The proposal was approved by the miners' officials, who received it while in conference with Attorney General Palmer in Washington and agreed to urge the executive board to accept it as basis for settlement of the strike. The mine workers officials returned to Indianapolis yesterday.

Investigation Expedited. Attorney General Palmer and C. B. Ames, assistant to the attorney general, came to Indianapolis to confer with government officials in connection with regard to the future action of the government in connection with contempt proceedings, pending against eight-four international and district officials of the United Mine Workers, and with regard to proceedings with a federal grand jury investigation of charges of violation of the Lever and Clegg laws made against both operators and miners. The grand jury investigation yesterday was postponed until today.

## MINERS TO ACCEPT BUT HAVE NOT DONE SO YET

Premature Announcement at Washington Results from Misreading Telegram

**WASHINGTON, (AP)**—A telegram from Attorney General Palmer to Indianapolis received today at the White House saying the miners certainly would accept President Wilson's proposal, a statement which was misinterpreted by officials there as saying the miners had accepted the plan, and led to such an announcement. A correction was made immediately afterward.

Mr. Palmer's statement follows: "The president Saturday was about to make a statement to the country regarding the facts in relation to the strike situation and making an appeal to the miners to go back to work. "Mr. Lewis and Mr. Green called on me that day and I showed them the president's statement. They finally agreed to it inasmuch as they were concerned and called a meeting of their official boards to consider it, at which time they agreed to urge its acceptance."

A memorandum was prepared, its form being agreed upon and myself embodying in brief the president's proposal and the action which should be taken by the miners. The president's statement to the miners this afternoon and I am assured that the action indicated will be taken."

## Greek Army Defeats Superior Turk Force

**SALONKI, (AP)**—Greek troops attacking in the direction of Salonki in Asia Minor which were fixed by the peace conference have clashed with Turkish forces, the resistance of the latter being broken, according to an official statement issued at army headquarters. The Turks numbered about 10,000 men and were equipped with modern killed and a sub-lieutenant and seventeen soldiers wounded, while the losses of the Turks have not been determined.

## BECOMES PEACE SHIP

**BELFAST, Eng. (AP)**—The White Star liner Olympic is undergoing transformation from a war vessel into a peace ship. She is being equipped to use oil as fuel.

## TEMPERATURE RECORDS AT MANY POINTS ARE SHATTERED BY STORMS

Lowest Mercury in 23 Years Reported at Billings, Montana; Suffering for Want of Coal Augmented in Many States; Train Service Badly Crippled Over Much of Middle West

## LENGTHY PERIOD OF SEVERE COLD PREDICTED FOR WHOLE NORTHWEST

**WASHINGTON, (AP)**—A prolonged period of cold weather over the entire country is indicated, the weather bureau announced today, by the abnormally high pressure over the region west of the Mississippi and the low pressure over the Gulf of Mexico, the Ohio Valley and off the North Pacific coast. The cold wave in the west is spreading eastward and southward with zero temperatures as far south as the Texas Panhandle and cold weather is forecast in the east and south tonight and tomorrow.

**LINCOLN, (AP)**—Train traffic, crippled by a heavy fall of snow in Nebraska yesterday and last night was still seriously interfered with today while temperatures which reached as low as 22 below zero forced big reductions in the state's dwindling fuel supply.

The Chicago Burlington and Quincy railroad reported passenger trains detained at Nebraska points while snow plows were being used to clear away snow drifts. With clearing weather today, however, Burlington officials said they expected to have the lines re-opened by the end of the day.

## COLDEST IN 23 YEARS

**BILLINGS, (AP)**—The lowest temperature in 23 years was recorded in Billings last night when the weather observer's thermometer registered 28 degrees below zero. This record was not available prior to 1890. The maximum temperature for the 24 hour period ending at 8 o'clock this morning was 22 degrees below zero.

## NEW RECORD AT DENVER

**DENVER, (AP)**—Setting a record for Denver so far this winter, the mercury dropped to nineteen below zero at six o'clock this morning, according to an official statement issued by the weather bureau. The extremely low temperature in Colorado, Wyoming and western Nebraska interfered greatly with train service, and shipments of fuel in these sections have been brought almost to a standstill. Passenger vehicles were also disrupted, and last night two of the fast trains for eastern points were annulled because of storm conditions between Denver and Omaha.

## CASPER HITS NEW RECORD

At Casper, Wyo., the coldest snap since 1912 brought a temperature of 18 below zero. It was 31 degrees below at Lauder and stock and elk in the Jackson Hole country of Wyoming were reported perishing.

## WORLD NEWS EVENTS

**ROME, (AP)**—Premier Nitti is about to ask England for a prompt solution of the Adriatic question which Premier Lloyd George and the Italian foreign minister are discussing in London, according to the Journal Italia.

**LONDON, (AP)**—Sir Eric Geddes, minister of transportation, today announced the railroad executive committee controlling railroads would cease to exist on January 1 and would be replaced by an advisory board consisting of twelve general managers and four representatives of workers.

**PARIS, (AP)**—Premier Clemenceau will go to London tomorrow night to confer with Premier Lloyd George on "serious questions of the present hour," according to several newspapers.

**WASHINGTON, (AP)**—The main body of the Atlantic fleet will leave eastern seaports for Guantanamo, Cuba, January 8, Secretary Daniels announced today. The flagship Pennsylvania, flying the four starred flag of Admiral Wilson, will lead the force.

## FITZGERALD IS HELD ON SERIOUS CHARGE

Dentist, Well Known Here, is Bound Over to Answer Bribery Accusation

According to advices from Boise Dr. A. Fitzgerald, of the Parker system of dentistry, has been ordered held under bond by the district court for trial on charge of bribery. Fitzgerald was arrested some time ago and is said to have been in collusion with Dr. A. W. Myers, former secretary of the state board of dental examiners, in procuring practice permits for persons not legally entitled to them. Fitzgerald is quite well known in Twin Falls, and was instrumental in opening the Parker system office in this city some months ago. It is said his arrest was caused through the confession of a license holder who admitted he had procured the permit to practice without taking the required examination. Testimony introduced at Fitzgerald's trial is said to have brought out the fact that Idaho has been made the central point of dealing in certificates for the practice of dentistry in violating similar illegal operations in other states.

## PROMISE DEPORTATION OF GOLDMAN, BERKMAN & CO.

United States Attorney Makes Definite Announcement of Pending Action

**NEW YORK, (AP)**—Plans for deporting anarchists from Ellis island are being kept secret by the federal authorities. United States Attorney Coffey when asked today in regard to his announcement in court that the government was ready to send Alexander Berkman, Emma Goldman and other aliens out of the country within two weeks, said that a group of radicals would be deported at the same time but that he did not intend they should learn in advance just when, where and how they would be sent. "I will remain in custody of the immigration authorities at Ellis Island unless released on bail. Judge Mayer refused bail on the ground that they are 'enemies of the country' but suggested that Weinberg could apply for bail to some other court."

## IDAHO WEATHER

Tonight and Wednesday snow; not cold tonight; frost, easterly winds.

## DEPOSITORY IS BURNING ISSUE FOR WATERUSER

Question as to Where Funds of Canal Company Shall Be Deposited Figures Prominently at Meeting of Stockholders

## DETWEILER INAUGURATES DISCUSSION OF QUESTION

Committee to Redraft Corporation By-Laws Prepares Report for Submission to Closing Session

Question as to where funds of the Twin Falls Canal company should be deposited in the future was the central feature of the forenoon session of the annual meeting of stockholders of the corporation convened here this morning for election of directors and transaction of other business.

Detweiler Starts Discussion. The discussion was inaugurated by D. F. Detweiler, of Piler, candidate for reelection as director, who interrupted the reading of the report of W. C. Taylor, secretary-treasurer, with a request for his statement of opinion as to desirability of maintaining the platform to explain his position in the matter and was subjected to a cross fire of questioning. He was in standing on the platform when the meeting recessed at noon until 1 o'clock.

**Lawrence, Mass. (AP)**—William M. Wood, president of the American Woollen company, today served notice on retail businessmen of this city that unless prices of commodities essential to living were marked down sharply and within a short time he would set up a retail store in cooperation with a large scale to supply employees of the company with groceries, provisions, fuel, clothing, hardware and other articles.

Referring to the discontent prevailing over existing prices, Mr. Wood said that it was useless to raise wages and demand that effect lost in an increasing cost of living. "I am acting from a Christian point of view," he said, and added that having no wish to drive local merchants out of business he would give them "a reasonable time" to readjust their prices.

## Threatens Action Unless Prices of Necessities Cut

Manufacturer Declares He Will Open Retail Store if Profit-eering Continues

**Calls for Expressions** Prior to recess M. J. Sweeney of Twin Falls, called for an expression from each of the candidates for director with respect to the question, and J. L. Downing, of Hanson, moved suspension of the rules to permit carrying this suggestion into effect. The motion was adopted by H. S. Hobson, of Bull, suggested that decision should be left to directors as expression of confidence given when they were elected.

This afternoon's session, it was expected, would be given over to further consideration of this issue and also consideration of the proposal to amend the constitution of the corporation. This committee, composed of W. W. Mohan, Bull; J. M. Stephenson, Kimberly; Elmer Anderson, Louis Hill, Piler, and A. L. Swim, Twin Falls, has completed its report.

**Cold Cuts Attendance** Attendance at the meeting was much smaller than at similar sessions in recent years. Inclement weather kept many stockholders at home. The bulk of the delegation from the west came from Kimberly, Piler and B. W. Barnett, Bull, who were present at 11 o'clock—some moments before candidates for directors were placed in nomination.

Provisionary organization at the Canal company office which was later made permanent when the meeting adjourned in the evening theatre club. J. H. Barnes, Bull, in the chair and Edwin N. Day, of Twin Falls, in the position of secretary. Both elections were by acclamation.

## Reverse Regular Order

Suspending the regular order of business to permit of early voting by west end delegates, the meeting on motions of Frank DeKlitz, Piler, and J. H. Barnes, Hanson, proceeded to the election of directors. The following tellers were named: J. L. Barnes, Hanson; P. J. Pringle, Twin Falls; Gordon Bennett, Bull; C. A. Adams, Twin Falls; E. C. Davis, Bull; J. W. Dowell.

Candidates for Directorate. Candidates for directors were placed in nomination as follows: C. W. Collier, Hanson; J. L. Downing, Hanson; Chas. Brown, Castleford; Joe Fessenden, Kimberly; Fred B. Wagoner, Twin Falls; D. F. Detweiler; J. H. Barker, Bull; C. F. Carbaugh, Bull; Ivan G. Lincoln, Piler; W. F. Alford, Kimberly; D. B. Peterson, Bull; Louis Hill, Piler; F. A. Kennedy, Kimberly; by T. H. Irwin, Twin Falls.

Barker, Brown, Lincoln and Detweiler are candidates for reelection. Requirement that the number of acres owned by each candidate for director after his name on a blackboard posted in the meeting place was first presented with this year for the first time in the history of the corporation.

## Debate Raises Interest

Interest which had been perfunctory to this point, was stirred when Detweiler called for Secretary Taylor's opinion as to desirability for company funds. Taylor advised in his opinion, a local depository would be more convenient, and would obviate risk of transmission of funds in reply to question. He stated that the company had saved \$275 in interest charges, without taking into consideration expenses of correspondence, as a result of the

(Continued on Page Four)

## RADICALISM IN AMERICA IS DIRECTLY TRACED TO RUSSIAN SOVIET LEADERS

New York Legislative Committee Prepares Report Covering Exhaustive Investigation of Causes Leading Up to Present Orgy of Agitation—Of Forty-six Newspapers Supporting Lawlessness Only Two Discovered to Be Self-Supporting

## INDUSTRIAL CENTERS DECLARED TO BE HOTBED OF BOLSHEVIST PROPAGANDA

**NEW YORK, (AP)**—Radical agitation in this country is due to an organized, artificially stimulated movement under the inspiration of the Russian soviet government. This opinion will be submitted to the New York legislature by the joint legislative committee which has been investigating radical activities, it was learned today.

## LAST WORD TO GERMANY NOW ABOUT READY

Allies Prepare to Announce Compulsory Action if Further Delays are Indulged in as to Signing of Protocol

## ENEMY DELEGATION IS CONSIDERING MESSAGE

Sharp Rejection of German Demands is Put Up to Hun Emissaries—Operation of Treaty Not to be Postponed

**PARIS, (AP)**—Germany's delegation at Versailles today is considering what is looked upon as the last word of the supreme council relative to the signing of the protocol of the treaty of peace. Elimination of the clause providing for execution by the allies in case of Germany's failure to execute the treaty's provisions and alteration of the clause for indemnity for German warships sunk at Scapa Flow are the most important concessions made by the council. Economic effects of the turning over to the allies of German dock and harbor machinery by way of indemnity will be subject of an inquiry to be conducted by the reparations commission along with the reparations, however, the council places on Germany responsibility for the sinking of Admiral von Reuter's interned fleet.

German demand for modification of the treaty clauses calling for the surrender of Germans charged with violations of the laws of warfare as well as the number of international prisoners of war are rejected. The status of America in relation to the treaty is held not to alter the effectiveness of the pact and German objections along this line are described as "pretended rights." Germany is told it is "vain to seek to delay" the operation of the treaty and that the allies await the signature of the protocol without further loss of time.

## BERGER AGAIN NOMINATED FOR CONGRESSMAN

Combined Socialist Vote Larger by Thousands than that Accorded Opponent

**MILWAUKEE, (AP)**—Victor L. Berger, socialist, and Henry H. Rodenstab, republican, candidates, were nominated for congress at a primary election in the fifth Wisconsin district. The socialist nominated Berger with 14,004 votes and the fusionist endorsed Rodenstab with 12,000 votes, according to polling 9,282 votes.

## PROHIBITION REPEAL IS LAID ON THE SHELF

House Agricultural Committee Declines to Consider Any Further Resolutions on Subject

**WASHINGTON, (AP)**—The house agriculture committee has deferred indefinitely today further consideration of various resolutions proposing repeal of the war time prohibition act, after the committee had received a letter from Governor Rainey of Illinois, who declared \$500,000,000 in direct taxes would be paid to the government next month if the act was repealed.

## COMPARES TAX WITH DOPE

**LONDON, (AP)**—"The extent to which a tax is felt by the taxpayer is dependent very much on its newness, and just as a new tax becomes a 'dope' so a taxpayer becomes 'tolerant' to a tax," said Dr. J. C. Stamp, the economist, in a lecture at University college.

## ARMY BOOZE CHARGES TO BE INVESTIGATED

**WASHINGTON, (AP)**—An official investigation will be ordered by the war department into statements attributed to Lieutenant Belya W. Maynard, of the army air service, that the secret of the failure of some of the pilots in the recent transatlantic army air race "can be attributed to too much booze."

# GREAT DEFICIT LOOMS BEFORE ALL-RUSSIANS

## Loss of Perm and Orenburg Districts and Restriction on Sale of Spirits in War Zone Cuts Potential Revenue

OMSK, (AP)—The all-Russian government faces a certain deficit of 14,000,000 rubles for the current year, according to an estimate made by Finance Minister De Hoyer. This may easily amount to 17,000,000 rubles because of the contingencies which it is impossible to foresee.

The total revenue for the year is computed at 4,000,000,000 rubles at the outlet. Expenditures will total 16,200,000,000.

In a recent analysis of the financial status before the budget and finance committee of the government, De Hoyer outlined the budget for 1919. Ordinary revenues, according to calculations made by various departments, should give 4,019,000,000 rubles, he said; but this total is likely to be cut by at least over 3,000,000,000 by the loss of the Perm and Orenburg districts and by restriction of the sale of spirits in the war zone.

Ordinary expenditures he estimated at 8,413,000,000 rubles of which about 3,000,000,000 represents interest on and payment of government debts, extraordinary expenses connected with the war, pensions, subsidies, etc. for the first six months were 93,000,000 rubles and it was estimated that for the second six months this item might increase to 100,000,000. As a matter of fact, the business of caring for refugees, which was included under this head, has already run the total expenditure up to 400,000,000 rubles for the second half year.

**WAR EXPENSES HEAVY**  
The total direct expenses for the first half year on account of the civil war was 3,963,000,000 rubles. As for the second half, during July, August and September the army cost the government over 5,000,000,000 rubles.

Thus in Siberia, Mr. De Hoyer pointed out, only approximately twenty per cent of the expenditures are covered by its revenues. The remaining eighty per cent is represented by paper currency issues.

The remedy is, therefore, the minister said; to cut down expenses; to increase revenues; to regulate currency circulation and if possible obtain loans abroad. It is difficult, he continued, to help matters at the present time by cutting down military expense. This he thought might be done later when it became possible to ascertain the actual number of men fighting at the front.

"We must increase the income tax and establish taxation for the professions such as doctors, lawyers, architects," he said. "Property and industrial taxes must be increased. Property owners should not have their taxes increased since the gain would be more than negated by the discount which would necessarily be attendant."

"We must encourage gold mining. Real estate taxes in towns need revising and augmenting. Railway taxes and customs dues should be greatly increased. Goods must be directed into three classes, indispensable, useful, and needless, and must be taxed on an average of two, five and ten per cent respectively."

"Taxes on wines, spirits, kerosene, tobacco, tea, etc., should increase to keep pace with depreciation of the ruble. Government monopoly of spirit sale should be continued. Alaska gave 300,000,000 rubles revenue last year. It may be possible to tax salt."

## HANSEN EXPLAINS ACTION

### Declares Furnishing of Bail for Release of Jenkins on Own Initiative

MEXICO CITY, (AP)—J. Walter Hansen, who furnished the bail upon which W. O. Jenkins, the American consular agent at Puebla, was released Sunday night that he had acted on his own initiative. He issued this statement:

"I wish to say the following: On Tuesday morning last, on account of certain facts that came to my attention which I am in no position to detail, I suddenly realized that war between the United States and Mexico was inevitable unless one of the two governments was ready to sacrifice its prestige and dignity by receding from the dangerous position into which it was forced."

"I therefore took all the steps necessary to effect the immediate release on bail of W. O. Jenkins and relieve the tension. I did it spontaneously and of my own initiative, and I am ready and willing to take upon myself the full responsibility of credit, according to the point of view."

"It was a source of infinite pleasure to me to hear that the news of the release of Jenkins checked our president and I ardently hope that his complete recovery is near."

**MISS OLLIVY McCORMICK**  
will appear in a concert of readings at the high school auditorium Thursday evening, December 11. Miss McCormick has been with Lyceum and Chautauque circuits for a number of years and her talent is well known here. Miss Helene Allmendinger will render several vocal numbers during the evening. We can promise you an enjoyable evening. The concert is given under the auspices of the B. Y. P. U. of the Baptist church. Tickets on sale at Steck-Wiley Drug Store.—adv.

## "WHEN A FELLER HAS A FRIEND"

## EAST OUTBIDS WEST FOR TEACHER STAFFS

### Varsity President Calls Attention to Need of Higher Salaries in Idaho

UNIVERSITY OF IDAHO, Moscow, (Special)—"If Idaho and her neighbor states lose at this time the services of their able teachers, the development of the northwest will be retarded fully ten years. The larger institutions of the east threaten, by outbidding us, to remove to other fields men of science who are altogether invaluable. Those who are willing to pay for education unconditionally have the largest claim on the future, a fact which we must recognize by readjusting adequately the salaries of members of our teaching profession."

This was the warning sounded yesterday afternoon by President Ernest D. Lindley, president of the University of Idaho, who has just recently returned from an eastern trip in the course of which he investigated thoroughly the situation which has resulted from a decrease of the buying power of the dollar unaccompanied by a proportional increase in the compensation granted teachers.

The need for prompt recognition of the economic value of teachers is felt to be imperative," declared D. Lindley. "Alarmingly significant are statistics which show that 143,000 teachers have left the profession in the last year because of economic pressure and certain other causes."

"Business, recognizing the value of the trained man, is withdrawing experts from the faculties of colleges and universities to an extent which imperils the future production of men whose technical training is thorough. The question at stake, then, in the present demand for faculty members is not that of the teaching profession, is not what will the public do with the teachers—rather 'Why will the public do with future losses?' As one prominent educator inquired recently, 'Is it the desire of men of affairs that their sons should have 12 cylinder cars and one cylinder teacher?'"

"Many of the larger universities already have increased their salary budgets from 20 to 50 per cent. The unprecedented enrollment of students in these institutions has necessitated an enlargement of their faculties. As a result, the smaller and newer universities have become the hunting ground for certain of the richer universities. This fact would not require mention if the supply of trained teachers were sufficient, but figures show that the greatest difficulty has been experienced in recruiting college faculties in all parts of the country. The institutions of the northwest must protect themselves by providing adequate compensation for their able teachers or suffer losses which cannot be made good within a decade."

## ALASKAN ROADHOUSES DESERTED BY PROPRIETORS

### KECHIKAN, Alaska, (AP)—Arriving at Fairbanks recently, a member of the Brooks trail says that proprietors of road houses along the trail have "joined the innumerable caravan" which has proliferated in the northwest and travelers have been compelled to carry their own provisions. The houses, they report, have been left open to accommodate wayfarers.

## TRADE BALANCE PASSES RECORD

### Secretary of Commerce in Report Discloses Stupendous Operations

WASHINGTON, (AP)—America's trade balance for the fiscal year ended last June 30 was \$3,978,349,474, a figure never approached in the commerce of any nation in the history of the world, said the annual report Monday of the secretary of commerce. New high marks were established in both exports and imports, exports totalling \$7,407,011,929 and imports \$3,958,870,385. Exports to Europe aggregated \$4,074,816,841; to North America \$1,291,932,342; to Asia \$603,924,548 and to South America \$400,901,601.

Despite its losses, the world's merchant tonnage is larger now than at any other time in its history. The report said, the total tonnage being 50,019,000 gross compared with 49,800,000 in 1914. The average efficiency of the world's merchant tonnage, however, is below that of 1914 "because of inherent reasons in construction and for extraneous reasons such as port congestion, labor troubles and management."

The total gross tonnage of ships flying the American flag on June 30, 1919, was 12,907,800, of which 6,669,720 tons were assigned to foreign trade, 2,635,680 to the Great Lakes area and 3,601,894 to sea and river traffic.

The need for a unified commercial organization to help promote the nation's commerce was urged in the report. It was pointed out that while under the law it was the duty of the department of commerce to "foster, promote and develop the foreign and domestic commerce" of the country, half a dozen government agencies performed functions of vital necessity to this commerce. The department, it was argued, should have representatives in these agencies so that the whole work could be coordinated.

## FAMOUS SAN FRANCISCO BATH HOUSE CLOSED FOREVER

SAN FRANCISCO, (AP)—The famous Lick baths, famous San Francisco landmark, have closed forever.

These baths, erected at a net cost of \$100,000 in 1888 when the lodging houses and hotels of the city did not have adequate bathing facilities for their guests, gradually decreased in value until they were taken over to satisfy a \$14,000 mortgage.

The baths were built by James Lick who brought \$30,000 in Spanish doubloons to California in 1847 and made himself a millionaire by purchasing land in and about the settlement from which San Francisco grew.

## FAVORS MEMORIAL PILE

### Utah to Commemorate Service Men with Erection of Building

SALT LAKE CITY, (AP)—Utah's memorial to her soldiers, sailors and marines who died in the great war probably will take the form of a building, according to present indications. The committee appointed by Governor Simon Ramberg, upon authority vested in him by the last legislature, to investigate and report to the next legislature upon a memorial, is said to favor a memorial building.

Opposition as arises in certain quarters to the erection of a memorial building. Some hold that the proper memorial would be a monument, while others would have a memorial concrete highway. This has led the committee to ascertain the sentiment of other states and cities concerning a memorial to their honored dead.

Telegrams from states and cities where inquiry has been made shows that the majority opinion favors memorial buildings.

## IMPORTANT LEGISLATION BEFORE KANSAS SESSION

TOPEKA, Kan., (AP)—Amendments expected to be introduced at the special session of the Kansas legislature called today to convene January 5 will be: Creation of an industrial court to settle labor disputes and making illegal strikes or lockouts in certain essential industries.

State charters for labor organizations, which would place such organizations under state supervision to the extent that their existence could be granted or denied by the state.

Bringing industrial and labor problems before the state utilities commission—broadening the powers of the commission to make it an industrial commission.

Creating a special commission in connection with the state labor department to handle wages, labor, hours and working conditions disputes.

Declaring coal mines public utilities and to place the fixing of fuel prices under supervision of the public utilities commission.

A new workmen's compensation law.

## The Price of Pork Chops and Bacon

Here are reasons why the fine, fresh pork tenderloins and pork chops, or savory ham, or crinkly bacon, which you enjoy for breakfast, cost much more per pound than the market quotation on live hogs which you read in the newspaper:

An average hog weighs 220 pounds.

Of this, only 70 per cent (154 pounds) is meat and lard.

So, when we pay 15¢ a pound for live hogs, we are really paying more than 21¢ a pound for the meat which we will get from these animals, even after taking into account the value of the by-products.

But people show a preference for only one-third of the whole—the pork chops, fancy bacon, and choice cuts from juicy hams.

This means that when we are selling Premium bacon at 43½¢ per pound wholesale and Premium hams at 30¢, there are other parts for which we get as low as 6¢ or 8¢ per pound. The net result is an average profit to us of less than 1¢ a pound.

The choice cuts are higher because of a demand for them.

Another thing: Only 35 pounds of the entire hog—or about 1/6th—is usually marketed at once. The rest must be pickled, cured, or smoked. This takes months, and adds to the costs which must be met.

## ORCHARD INFECTION THING OF THE PAST

### Rot Blight, Prevalent in 1917, Appears to Have Effectively Checked

Boise and Payette valley apple orchards show no further signs of infection, and conditions indicate that the rotting and dying of trees, extensively noticed in 1917, resulted from an epidemic of blight that prevailed in the season of 1915, or of 1916, says a report just received in Twin Falls from E. R. Bennett.

Mr. Bennett is engaged as field horticulturist of the University of Idaho extension division, and in the past few weeks has made extensive survey of orchard conditions throughout Idaho, especially in the districts named. He was accompanied on the tour by Lee M. Hutchins, of the United States department of agriculture. The two paid particular heed to orchards on the Boise bench and in the Emmett, Payette, New Plymouth, Yulehill, Parma and Nampa districts. This work is the continuation of the investigation of the orchard work that was made in 1917.

## PENSIONS BREAK RECORD

WASHINGTON, (AP)—A record breaking sum in pensions was paid by the federal government during the last fiscal year despite the fact that the number of pensioners was the smallest of any year since 1890.

This was revealed by the annual report Monday of the commissioner of pensions, who said \$22,129,282 was paid to 623,427 persons during the year as compared with \$17,835,328 to 640,895 pensioners the year before. The largest number of persons ever on the pension roll was 909,446 in 1902 and they received a total of \$137,505,267.

The net reduction in the pension roll during the year was 22,648, the number of deaths being 32,140 and the number added 9,661.

## GEORGES WANTS TO FIGHT JACK ON OTHER SIDE

**Carpenter Sure of American Sportsmanship but Prefers Battle in France**

PARIS, (AP)—Georges Carpentier, the French fighter, who won the championship of Europe from Joe Beckett, at London, returned to Paris last evening.

"I have signed nothing. I am waiting for offers. I want a little time to think it over," he said.

Carpentier spoke highly of the sportsmanship of the British public, but added that he was sure Americans would be equally fair. Nevertheless, he preferred to meet Dempsey in France.

"I am glad Dempsey does not object to coming to France," he said. "A great show surely can be staged here."

Asked what he thought of his chances with Dempsey, Carpentier replied: "I understand Dempsey is a great fighter."

**JACK SAYING LITTLE**

LOS ANGELES, Cal., (AP)—Jack Dempsey, heavyweight champion, expects to meet Georges Carpentier, European champion, in a twenty round fight for the world's title, either in the United States or in Europe, but he is "sitting tight" awaiting the best financial offer, Jack Kearns, Dempsey's manager, said here last night when told of Carpentier's statement in Paris that he had signed no contract, but was eager to meet Dempsey.

## Internationals Adopt Schedule for Coming Year

**Big Minor League Plans a 154-Game Playing Series—Fultz Elected**

NEW YORK, (AP)—At the annual meeting of the International Baseball league yesterday, the club owners agreed on a playing schedule of 154 games. The season of 1920 will open Wednesday, April 21 and close Monday, September 20. The eight club circuit will be made up of Toronto, Buffalo, Rochester, Syracuse, Baltimore, Jersey City, Reading and Akron.

David L. Fultz, was re-elected president, secretary and treasurer, and it was unofficially said his salary was almost doubled.

The player limit was increased from 16 to 19 and the salary limit from \$3,500 to \$5,000.

You can sell that property through the classified—if it is good value and you make that fact plain in your advertisement.

## Brief Bits of Sport

Rewriter hoped this Wilde chap would display something, don'tcher know?

And just to think a mere American would defeat him, and did it decisively.

Tommy Lipton is next.

If this weather continues a day or two longer some goop will begin agitation for hockey, or some such ice "shlimmy."

Just as we were settling back to have a right merry Christmas Mike Yokel writes he has been signed to cascade Red Tye's in Spokane on December 17.

Thought all these hero grapple gents had either died or been deported.

"Chick" Gandill, first baseman of the Chicago White Sox, says the reason he did not land the berth as manager of the Seattle club was the "insistent report of crookedness in the late lamented world's series."

Sim Smiley, angobush ago, says: "The price o' shoes is still a-riazin' 'cause o' th' scarcity o' leather, but that don't stop th' manufacturer o' skin overca's for fellers wif' bifalutin' notions."

Joe Tinker, president of the Columbus club of the American association, has promised that if his outfit wins the goaulden in 1920 another series will be played on the coast for the minor league championship.

O'mon, sports, let's have a boxing bout or two!

Wotsay?

Bolsa sports writer, addressing his customers on the subject of the Santel Cutler wrestling bout, to be staged in Boise tomorrow, explains that Cutler has a wide experience, having met Gotch, Hackenschmidt, Mahmut, Lewis, Stecher and others.

Yes, yes; quite so. But whine'll did he ever beat?

That gives rise to our diurnal exclamation.

Up comes Portland, Oregon, with a \$100,000 offer for the Dempsey-Carpentier affray.

Now let's hear from Duhl.

**GLADDS TITLE**

MANCHESTER, N. H., (AP)—Waino Ketonen of Worcester, Mass., won the world's middleweight wrestling championship last night from John Kilonis of this city in one fall, which took two hours, fifteen minutes and thirty seconds. The fall was made by the toe grip and wristlock.

## NEBRASKAN IS VICTOR OVER STURDY POLE

**Joe Stecher Flops Zbyszko in Couple of Hours and Claims Championship**

NEW YORK, (AP)—Joe Stecher of Dodge, Neb., threw Wladak Zbyszko of Poland in a catch as catch can wrestling match here last night after 2 hours, 24 minutes and 10 seconds. The match was a flash one and Stecher scored the winning fall with a head scissor and wrist lock.

Announcement was made before the contest that it was for the "heavyweight catch as catch can championship of the world."

A telegram from Earl Caddock also was read stating that he still claimed the title and desired to meet the winner.

Stecher weight 200 pounds and Zbyszko 220.

## Keen Interest Shown in Ball Meetings East

**Fans Focus on New York Where Moguls of Leaders Are Gathering**

NEW YORK, (AP)—The "winter" baseball season was opened today with the annual meeting of the National league. The American leaguers will hold their annual meeting here tomorrow and the minor leagues will dispose of their grip of business later in the week.

The club owners of the National league had a busy session today commencing with the meeting of the board of directors. The principal business was the settlement of various financial matters and the election of a new board. The air was full of rumors of trades of players.

The meeting of the American league tomorrow was the all-absorbing topic of conversation among the baseball fanatics. The announcement that President Ban Johnson and the five "loyal" club owners were on their way here for the meeting was accepted in some quarters as meaning that an end of the internal wrangle in the Junior

organization was in sight. They are due here from Chicago late this afternoon. The sudden decision of Johnson and his followers to call off the annual meeting in Chicago and recognize the authority of the majority members of the board of directors who issued the call for the New York meeting was regarded with satisfaction by American league supporters here.

## COAST BATTLER SHOWS SOME WARES IN EAST

**Joe Benjamin, Lightweight, Lands Hard on Kim Murphy for Knockout**

PHILADELPHIA, (AP)—Joe Benjamin, Pacific coast light weight, last night knocked out Jimmy Murphy, Philadelphia, in the second round of a scheduled six round bout. Benjamin rushed Murphy in the first round and had him groggy when the bell rang. It did not take the western boxer long in the next round to land the blow that ended the bout.

Every person receiving a letter from you on your business stationery forms an impression of you and your business from that bit of writing. If it is distinctive, appropriate, artistic, that impression is of high value to you.

## DON'T BE WITHOUT SLOAN'S LINIMENT

Keep it handy—it knows no equal in relieving pains and aches

SLOAN'S LINIMENT has been sold for 38 years. Today it is more popular than ever. There can be but one answer—it produces results.

Applied without rubbing, it penetrates to the afflicted part, bringing relief from rheumatic twinges, sciatica, sore stiff, strained muscles, lame back, and other exterior pains and sprains and the result of exposure. It leaves no mussiness, stain, clogged pores.

Get a large bottle for greater economy. Keep it handy for use when needed. Your druggist has it. Three sizes—35c., 70c., \$1.40

Member Audit Bureau of Circulations

THE TWIN FALLS WAY: During and as long as the present shortage shall continue there is just one way to handle the coal situation in Twin Falls and that is the way it is now being handled. The permit system is fair and just.

and while it may inadvertently result in some hardships it is better calculated to eliminate coal troubles than any other system which could be devised. As long as there shall be coal there can be no discrimination under the permit system, and as long as there is no discrimination there should be little ground for complaint.

DEPOSITORY IS BURNING ISSUE FOR WATER USES

(Continued from page one) transfer of funds to the Salt Lake institution.

Calls for "Motives" Detweiler asked Taylor to explain the "motives" for moving the depository to Salt Lake. Taylor referred the subject to Detweiler, who was called to the platform to make this explanation.

Detweiler declared that he had acted with the consent of other members of the board when he negotiated the transfer of the depository to Salt Lake in order to secure both more favorable interest rates and adequate funds upon which to draw. He was refuted by Taylor in his statement that a large creditor had reduced interest rates as a result of the transfer. Taylor said this reduction had been made prior to the transfer. He said that subsequently he had discovered a local banking house which would offer equally as advantageous terms and had proposed the transfer of the depository back to Twin Falls. He said this proposal had been opposed by members of the board. Claud Brown, explaining opposition to the proposal, said that he favored transfer back to Twin Falls, but that he would not consent to making the matter a political football by consider-

ing it at the last meeting of the board before the annual meeting.

Finances in Good Shape Secretary Taylor in comment on his report, declared in his estimation the Coal company had achieved a remarkable record for close collections considering the amount involved and the number of persons from whom collections were made. He said that the company would need to borrow less than \$70,000 to meet expenses until the next maintenance charges were payable, and that substantial reductions had been made during the year in indebtedness of the corporation.

WE FIDDLE WHILE ROME BURNS

(Reprinted from the Chicago Tribune of November 10, 1919).

THE World is Hungry for the things we eat, wear and use. Stark hunger, cold and misery are the lot of the masses. Prices mount to staggering figures and the cry of our worker is—more pay; shorter hours—and then a shortage shoots the price of things up another notch; again the cry—more pay; less hours. Ye Gods! Must the vicious circle continue? Shall we never see that it is among hours we need, that to reduce the cost of the things we use, we must produce not less but more? I just received a cablegram from my brother in London, reading, "Market bare, prices awful, hopeless, sailing home. Oh, if Americans would grasp their opportunity."

Prices had gotten so high in this country and merchandises so scarce, we sent two of our firm abroad, hoping to find what we needed and at lower prices. The cable message is the answer! Merchandise is even shorter on the other side than here. They have nothing to sell and their shelves are bare. They want to buy—to buy from America—to buy the things that Americans make—and the answer of our workers is—reduce our hours—14 hours a week instead of 60—a cut in production of 25 per cent.

The writer sympathizes with those who work. He understands what hard work, privation and the struggle of life is—he has lived it. He has walked eight miles a day to earn fifty cents, carrying water for the workers who built the town of Pullman. He has gotten out of bed at 3:00 o'clock to milk 16 cows on a winter's morning. He has put in 16 hours a day in a store. He is not a natural born plutocrat; rather—he is the son of a steel worker.

He feels that he knows the needs of those who struggle, but anyone would be indeed foolish who failed to see that the waste of time by carpenter, plumber or other worker in turn raised the price of rent, raised the price of the very clothes that he himself wore, and everything used by him or his fellow worker.

Short hours in the city has made the farm worker restless; he, too, wants short hours and increased pay. May kind Providence preserve us if farm workers ever insist on 44 hours per week, or an eight hour day. You and I, my friend, will go hungry. I farm 800 acres and I know what short hours in the city is doing for the farm.

We may keep high wages, we may keep our present scale, and still reduce the cost of living by a simple remedy—work—good, hard, honest, faithful service—not 8 hours, rather 10 and then some. Let us for one year, at least, resolve to work like H—!

JNO. S. CAPPER.

PREMIER AVOWS FAITH IN FUTURE OF ITALY

Nitti Expresses Assurance Revolution is Not Impending in Nation

ROME, (P)—Faith in the future of Italy and assurance that a revolution was not impending in this country were expressed by Premier Nitti in the chamber today while the answer to the speech from the throne was being discussed.

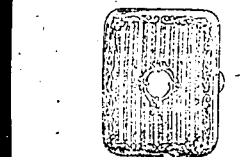

"I protest," he said, "against the campaign abroad tending to represent Italy on the eve of a revolution. The conditions relative to public order are not different here than those prevailing in the majority of the countries of Europe. All necessary measures have been taken by the government."

The premier declared the fight which took place between troops under the command of Gabriele D'Annunzio and detachments of Jugo-Slavs was "without importance and free from all possibility of complications."

# LIBERALS SEEK MEETING PLACE

### Charges of Alleged Disloyalty Prevent Opening of National Convention

ST. LOUIS, Mo., (AP)—The conference of liberals, known as the committee of 48, was unable to open its first national convention here today because it had no meeting place as the result of charges of alleged disloyalty brought against it by certain posts of the American Legion. Whether the conference would be deferred was a matter for conjecture.

### Delegates Protest Loyalty

Hundreds of delegates, from all sections of the country, who had gathered to protest the loyalty of the organization.

Should the convention be held here, all sessions will be attended by departments of justice operatives, a committee representing St. Louis posts of the American Legion.

Delegates asserted the principal object of the conference was to formulate a program to solve the economic and social problems confronting the country and to improve the international relations of the United States and to adopt a definite plan of political action to enforce the program.

A referendum held by the committee showed that fifty per cent of the members favored the organization of the committee, the non-partisan league, and the newly organized labor party, to make the program a national program, 23 per cent favored a new political party; and 17 per cent a league to work through existing political parties.

The majority of the members disapproved of espionage laws, compulsory military training, and curtailment of freedom of speech and the press, the referendum showed.

### Foener, Progressive Chairman

J. A. H. Hopkins, of New York, formerly national treasurer of the extinct progressive party, is chairman of this organization.

## SALT LAKE HEAVY LOSER FROM AUTOMOBILE THEFT

SALT LAKE CITY, (AP)—More automobile are stolen in Salt Lake by "joyriders" than in any other city of its size in the world, according to W. D. Hishel, secretary of the Utah State Automobile association.

The enforcement of the law passed by the last Utah legislature making the stealing of an automobile, even by juveniles, a felony, Mr. Hishel says, is the best response for the auto-jacking machine-stolen. He urges strict enforcement of the law and co-operation by all civic officers as the one method to curb the stealing of automobiles here.

## UTAH CHURCHES UNITE IN CO-OPERATIVE MOVE

SALT LAKE CITY, (AP)—Co-operation methods to be carried out by Utah churches regardless of denomination will be studied at a three-day inter-church conference which opened here Monday. Approximately 100 delegates from Utah, Colorado and Nevada were in attendance at the opening session. R. A. Shuler, secretary of the movement, and who made all arrangements for the conference, claims it to be the first of its kind ever held in Utah.

## OFFERS SHORT COURSE FOR WATERMASTER TRAINING

LOGAN, Utah, (AP)—A special intensive short course for watermasters will be given at the Utah Agricultural college here from February 9 to 21, according to an announcement by Prof. O. W. Israelson of the department of irrigation and drainage. The course will aim to put the watermaster in close touch with the most approved irrigation methods. Many prominent irrigation and drainage experts are scheduled to address the classes.

## CLAIMS TRANSMUTATION OF MATTER SOLUTION

PARIS, (AP)—Sir Ernest Rutherford, since 1907 Langworthy professor and director of physical laboratories at the University of Manchester, England, has solved the riddle of transmutation of matter, the secret sought by the ancient alchemists, according to the Matia.

## SUCCEEDS BEZDEK

PITTSBURGH, Pa., (AP)—George Gibson, former catcher for the Pittsburgh National league baseball club, today accepted an offer to become its manager. He succeeds Hugh Bezdek, noted as a football coach as well as in baseball circles.

You can sell that lot or plot of ground—at a small advertising cost—through the classified.

# LOST GOLD MINE OF UPPER SALMON RIVER AREA REDISCOVERED

### Mysterious Object of Twenty Years' Search by "Legatee" of Original Discoverers is Located by Lewiston Men; Ledge Carries Streak in Which Yellow Metal is Plainly Visible

SPOKANE, Wash., (AP)—The "lost" gold mine of the upper Salmon river district of Idaho, source for years of mysterious wealth of its original discoverers and cause of the death of one of them, and the object of a 20-year fruitless search by their "legatee" has been rediscovered, according to a report reaching here, according to a report reaching here.

For many years two prospectors named Hughes and Swan went every spring on a mysterious journey to the hills of central Idaho and every fall returned with quantities of raw gold which made them the envy of every miner to whom ears word of their great good fortune had come. So skilful, however, were they in eluding pursuit upon their journeys into the hills, that the spot of the location of the treasure-laden quartz veins remained their own.

Then one fall Hughes, perhaps as a result of his summer's work in the mine, fell sick, and Swan, his partner, left home next spring on the annual pilgrimage to the source of their wealth. Traveling along, again he eluded pursuit, but he was not so fortunate on the return journey, for he was waylaid, murdered and robbed of his summer's toil in the hidden mine.

That was the last, until a few days

ago, of the rich spoils removed from the famous mine. Hughes, jealousy guarding the secret of the hidden wealth, against the day when he should receive his wealth and continue its exploitation, died at length in poverty in this city.

Shortly before he died, however, he endeavored to give his golden secret to C. H. Roff, a former Spokane policeman who had befriended him. With his failing strength he drew a crude map of its location, as nearly as he could remember it, and gave it to Roff with directions for finding the treasure.

Practically every summer since then Roff has spent in a fruitless search for the lost mine. For twenty years he has continued his quest, but so many have been the maps that it never succeeded. Roff's last hunt for the mine was made last summer.

The mine has been located, according to a report from Lewiston, Idaho, by two Jensen brothers, of that city. It is located on a tributary canyon of Ramey creek, in the upper Salmon river district of central Idaho.

The ledge proper is declared to be from four to six feet wide, with a run streak of quartz, in which the gold is easily visible to the naked eye, four to six inches in width.

## We Eat Little Rice

Scarcely six pounds of rice is consumed each year by every resident of the United States, as compared with a per capita consumption in England of twenty-seven pounds, in France of thirty-four pounds, and in Italy of 101 pounds.

## Word of Many Meanings

What does not that word cheerfulness imply? It means a contented spirit; it means a pure heart; it means a kind and loving disposition; it means humility and charity; it means a generous appreciation of others, and a modest opinion of self.—Thackeray.

## NOTICE TO CITY WATER USERS

Until further notice the water department will have a trouble man at its office until one o'clock h. m. All persons having trouble with frozen water pipes and want the water turned off at the mains should call Phone 37.

J. J. PILGERRIM, Superintendent.

A "seedy-looking" man may be an excellent man, of fine standing among those who really know him—but the casual acquaintance will not believe it. Appearance counts for much—in dress and in PRINTING. A job piece of printing has minus-value all its own. It knocks, silently condemn.

A CLASSIFIED AD will find a buyer for your lot, lots or plots—if your offer will stand up under investigation.

# PUNCTURES CLAIMS OF AVIATOR TO HEROISM

### Daniels Approves Sentence of Dismissal of Chamberlain from Service

WASHINGTON, (AP)—Sentence of dismissal imposed by a naval court martial on Captain Edmund George Chamberlain, an aviator in the marine corps on charges growing out of his sensational claims of having defeated a vastly superior force of German airships on the western front was approved Monday by Secretary Daniels.

The case came to President Wilson for final decision.

Chamberlain is a native of San Antonio, Texas. His case became one of unusual interest to the service and officials of the navy department and marine corps were sent overseas to investigate every point.

Chamberlain claimed that on July 25, 1918, on a trip over the British front he had fought with twelve German planes, destroyed five of them, damaged two others and sweeping scattered a detachment of German soldiers. He said that after landing he took a German prisoner by pretending that a compass was a bomb and then carried a wounded French officer back to safety.

Denial of the exploit by British officers led to an investigation. Chamberlain contended that the British flyers would not corroborate his story because admission that an American officer had used a British machine would have resulted in their arrest. Witnesses in Chamberlain's behalf testified that he had landed in a British plane on the date mentioned in his official report.

After the court martial at London, Chamberlain was returned to this country and pending review of the case remained under arrest, being confined in the District of Columbia.

The case attracted widespread attention due to the publicity which Chamberlain's story received and his recommendation for both the congressional medal of honor and the Victoria Cross of England. He attended Princeton and the University of Texas.

## Value of Salt

You can clean your teeth with it, keep your eyes bright and strong by applying salt to the eyelids with salt water to strengthen your throat, throw a handful of common salt into your bath for toning up the system generally, and bathe your feet in salt water to prevent chilblains.—London Tit-Bits.

## Humility

The only true independence is in humility. . . . But humility is not the virtue of a fool; since it is not consequent upon any comparison between ourselves and others, but between what we are and what we ought to be.—Washington Allston.

Does your printed matter DO FULL JUSTICE TO YOUR BUSINESS? Is not of business—and that incident it "in keeping" with the character of your concern? If it is not it is not highly desirable that you should correct the blunder!

Her Wish. Wee Wee on being told that she would have to eat condensed milk on her conjugal exclaimed, "I wish that old condensed cow would die."—Boston Transcript.

Comfort for the Last Ride. The horse is painted a silver color and has platform springs, making it a particularly easy-riding machine.—Las Vegas (N. M.) Optic.

A CLASSIFIED AD will uncover a market for your used furniture or fixtures.

A CLASSIFIED AD should tell the exact truth. If you are seeking a job don't exaggerate either your experience or ability. Frankness alone wins.

# Boyd Hospital LABORATORY

Twin Falls, Idaho

Established 1905

A new department of the hospital, fully equipped to lend valuable aid toward making a diagnosis.

Without a proper diagnosis, no disease can be properly treated.

Diseases, such as typhoid, syphilis, malaria, tuberculosis, anemia, influenza, obscure diseases of the blood and nervous system, Bright's disease, and cancer, can be diagnosed by laboratory tests alone.

In nearly every disease known, valuable diagnostic, as well as prognostic aid can be given by careful examination of the blood, urine, sputum, gastric contents, specimens of tissue, such as cancerous and tuberculous glands, bacterial examinations of pus spinal fluid contents, and inflammatory exudates, such as pus in the lung, etc.

No disease is of such minor importance that the patient is not justified in demanding every means toward an accurate diagnosis.

Famous Sundial Broken. A sundial known as "Neil Gwynn's Sundial," which for years has been in position in the terrace at Lauderdale house, Highgate, England, was broken beyond repair while workmen were trying to change its position. A London dispatch says: There is still in the house Neil Gwynn's original bath, which is much older than the sundial, and was placed there when she was installed in the place by Charles II.

You can get results from your "Situation Wanted" ad if you will tell what you can do—and tell it interestingly.

WANTED CLEAN RAGS NEWS OFFICE

RUPERT

RUPERT—L. R. Humphries arrived last Friday morning from Salt Lake City, and spent a few days here attending to business affairs. He stated that his daughter, Miss Phoebe, has been taking a winter vacation at a noted resort since going there.

Mrs. T. N. Richards of Halley, who spent a week here visiting a number of friends, departed last Friday evening for Oakland, California, where she will spend the remainder of the winter. Representatives of Swift and Company say that Rupert's new cheese factory is putting out the best new cheese in the state and that they want to contract the entire output. The factory is receiving about 1300 pounds of milk daily now and cheese is being made every other day.

The annual farm bureau meeting will be held in Rupert on December 17. An instructive program will be presented and a big dinner served. Election of officers for the ensuing year will occur. Those interested are planning on making this the biggest county-wide mass meeting ever held here.

Rupert is to have a real play-house. D. W. Wilson plans to erect a modern theatre on the triangle across from the Court house. The theatre will be 112 by 150 feet, with stage large enough for all road shows. Mr. Wilson will begin construction early in the spring. The building will be equipped with forced air ventilation system and will be steam heated and is to have an elaborate lighting system.

David J. Borup of the Jarrett shop sold his new farm one and one-half miles south of town to J. G. Schorfield of Spring City, Utah, for \$3,500.

Mr. and Mrs. Walter Atkinson returned last week from a honeymoon in Salt Lake City. They left the first of the week for Twin Falls, where they will make their home.

B. Wilkins of the Wilkins Real Estate company sold an eighty-acre farm one and one-half miles east of town to W. C. Johnson of Downey, Idaho, for a consideration of \$29,000. The deal was made last Friday.

HOLLISTER

HOLLISTER—Mr. Buhinin, who was dangerously ill with pneumonia pneumonia last week, is improving. Miss Simmons of the local teaching staff spent Thanksgiving with home folks at Godwin.

Gary Larson went to Logan, Utah, Tuesday, to attend college until spring work opens here.

E. M. Webb of Inkom, Idaho, arrived this week with two carloads of emigrant movables. He is to farm on Deep Creek.

G. M. Hull of Salmon City arrived Monday with a car of emigrant movables. He has made some arrangements. He bought one of the Gold Farms.

L. J. Townsend is reported seriously ill of pneumonia at one of the Twin Falls hospitals.

Civilians are getting quite bad, coming into town at night.

Mrs. J. G. Schwing is recovering from an attack of tonsillitis. Mrs. N. J. Xogis has just recovered from an attack of the same trouble. Mrs. L. J. Townsend is also suffering from an attack of throat affliction.

Bicycle for One-Legged Riders. A French firm has devised an ingenious method of adapting a bicycle to the one-legged rider. The chain is cut and one end attached to the sprocket, while the other end is secured to a coil spring from a lower frame. In this way the rider simply pushes the pedal down, and the spring draws it up again, and the usual rotary motion so difficult for the one-legged rider is eliminated.

HEAD STUFFED FROM CATARRH OR A COLD

Says Cream Applied in Nostrils Opens Air Passages Right Up. Instant relief—no waiting. Your clogged nostrils open right up; the air passages of your head clear and you can breathe freely. No more hawking, snuffling, blowing, headache dryness. No struggling for breath at night; your cold or catarrh disappears. Get a small bottle of Ely's Cream Balm from your druggist now. Apply a little of this fragrant, antiseptic, healing cream in your nostrils. It penetrates every air passage of the head, soothes the inflamed or swollen mucous membrane and relieves instantly. Don't stay stuffed up with a cold or nasty catarrh—adv.

STORIES from the BIG CITIES

Patriotic Woman Buys League of Nations Stock

BIRMINGHAM, ALA.—If you want the League of Nations to be a success you have got to support it by subscribing for stock. That was the argument used by "Miss Sarah Benson of Chicago" in Birmingham. "Miss Benson" called at the home of Mrs. Blank the other morning. Mrs. Blank, who refused to give her real name, told the case before the police in the afternoon. Here is Mrs. Blank's story.

"I am just an ordinary woman. I read the papers occasionally, but generally just glance at the headlines; so when this woman came to my house and said that great men like President Wilson and William Howard Taft were backing the league and offered me stock at \$150 a share I considered it a good business venture. She pointed out to me that the purpose of the League of Nations was to buy up all the material used by the different nations and make farming implements of it. I am a religious woman and she quoted me a verse from the Bible about men beating their swords into plowshares, and it impressed me as an admirable plan.

"When I informed her that I would take two shares she explained that 'stock with reservations was \$6 a share and without them was \$150.' "Which way is President Wilson taking his?" I inquired. "She informed me that the president was taking his without the reservations, so I invested what money I had with the woman.

"When my husband came home I told him what I had done. He took about two hours explaining the League of Nations to me. I feel like a silly old woman, and people will tease me to death about it if my name is used."

Mrs. Blank thought that this woman should be caught. That is the reason she notified headquarters and reported the matter.

OUCH! PAIN! RUB OUT RHEUMATISM

Stop Suffering—Relief Comes the Moment You Apply Old St. Jacobs Liniment

Rheumatism is "pain only." Not one case in fifty requires internal treatment. Stop drugging! Rub the misery right away! Apply soothing, penetrating "St. Jacobs Liniment" immediately upon the "tender spot" and relief comes instantly. "St. Jacobs Liniment" conquers pain. It is harmless rheumatism liniment which never disappoints and can not burn the skin. Rubber up! Stop complaining! Get a small trial bottle of "St. Jacobs Liniment" at any drug store, and in just a moment you'll be free from rheumatism, neuralgia and stiffness. Don't suffer! Relief awaits you. "St. Jacobs Liniment" is just as good for sciatica, neuralgia, lumbago, backache, sprains and swelling—adv.

DRINK HOT WATER BEFORE BREAKFAST

Says you really feel clean, sweet and fresh inside, and are seldom ill.

If you are accustomed to wake up with coated tongue, foul breath or a dull headache; or if your meals sour and ferment, you have a real surprise awaiting you.

Tomorrow morning, immediately upon arising, drink a glass of hot water with a teaspoonful of limestone phosphate in it. This is intended to first neutralize and then wash out of your stomach, liver, kidneys and thirty feet of intestine; or if your meals sour and ferment, sweetening and purifying the entire alimentary canal.

Those subject to headaches, backache, bilious attacks, constipation or stomach trouble, are urged to get a quarter pound of limestone phosphate from the drug store and begin enjoying this morning inside bath.

Just as hot water and soap cleanse, purify and freshen the skin, so hot water and a teaspoonful of limestone phosphate act on the stomach, liver, kidneys and bowels. Limestone phosphate is an inexpensive white powder and almost tasteless—adv.

Something to Be Proud Of.

Some folks wipe the drops of sweat off their faces as if they were really ashamed of them. Manly, drops of sweat that come from good honest work are finer than any gems that ever sparkled in the crown of a king. And their greatest beauty is that they make the whole world happier and better. This cannot always be said of the stars on the monarch's brow.—Exchange.

# SCHOOL BOARD DEMANDS CASH

### Half of City's Collections in Fines Wanted for Educational Purposes

"Rather expected something like that," they were told at street in front of the Bicket school.

Thus spoke Alderman L. L. Brockenridge with reference to a claim for a couple of thousand silver dollars, made in by the trustees of Independent School District No. 1 for consideration at last night's public session of the municipal legislature.

"I will say that paying of money collected in fines and penalties by the city department. The state statute allow one half of these collections to educational boards for school purposes."

When the bill was read at last night's meeting considerable consternation was depicted upon the countenances of the aldermen present, the claim dropping like a bomb of T. N. T. in the quiet of the august assembly.

"Where do they get these figures," demanded one of the administrators, speaking to the council as a whole rather than to any one person.

"For the information of the council I will say that during my tenure of office I have paid nothing to the school board, although I am aware that the law of this state requires that half the amount collected in fines should be paid to that board," explained City Clerk W. A. Minnick.

It further developed that since June 30, 1918, the school board has collected a sum total of \$4,498. In that period only \$247 has been paid of the school board's fifty per cent. There is due on the school board a sum of \$2,025, which amount is demanded in the school trustees' appeal.

"Well, what are we going to do about it?" questioned Mayor W. H. Eldridge.

Then Alderman Brockenridge made the statement appearing as the opening paragraph hereto, adding that everything else was being raised, he would recommend a 100 per cent boost in all fines collected of manufacturer in order to recoup.

"We've spent the money, we understand it," quoth Mayor Eldridge.

"In that case I'd say let 'em wait until we get it back," announced Mr. Brockenridge. And thus the matter stands.

## First Aid Doc for Frostbite Is on the Job

### City Water Department Has Man on Night Shift to Answer Frozen Pipe Calls

Sam Wilbur, trouble doc. If your pipes (water pipes we mean) clog, clog or congeal during this frosty spell, tell Sam he'll bring aid and assist you in the troublesome time.

Call 87 between 5:30 o'clock p. m. and 1 a. m. if the pipes freeze. Wilbur is on the job with a little first aid tool for preventing a Johnstown disaster on a miniature scale in your home. He'll shut off the flow at the service end of the water system, and the very next day John J. Piggerton will send the thawing machine to do the rest of the job.

Sam Wilbur's services have been engaged for the seasonal period because the city water department is just now getting a lot of S. O. B. calls from residents of the municipality for expert help in remedying frost bite in the water piping system of houses. Many of these "bites" are experienced during the late hours of the evening, or early hours of the morning, and it is then that service is required.

Hence Sam Wilbur with his little emergency implement.

Don't be afraid to call 87.

300 acre sub-irrigated ranch on Wood river near Ganagan, Idaho. 120 acres farm land, balance pasture. Fine stock proposition. Price \$25,000.00. \$5,000.00 payment will handle. Easy terms at 7 per cent on balance. Address owner, Idaho State Life, Boise, or Executive Agent, J. W. Felt, Halley, Idaho.

# NOTICE GIVEN OF FIGHT AGAINST SUNDAY OPENING OF FILM HOUSES

### B. H. Dean, Patriarch, Tells Councilmen He Will Devote All of His Time to Compiling a Petition Counter to Purposes of "Open Sabbath" Element—Dooley Attacks Ordinance Wording

Giving notice of impending battle B. H. Dean, an aged resident of Twin Falls, last night appeared before the board of city legislators as self-appointed representative of the opposition to the Sunday theatre opening movement.

"I don't do what we can to save the youngsters," Mr. Dean urged.

Mr. Dean made an appeal to the council to vote down any proposal looking to the opening of playhouses in Twin Falls on the Sabbath, declaring the welfare of the youth of the city as well as the city itself would be in jeopardy.

After long and earnest address Mr. Dean was informed that no petition had as yet been filed with the city clerk by the forces said to be engaged in accumulating signatures for petitions for the Sunday opening of picture show houses. He said he was conducting a personal campaign in this connection and declared he would devote every moment of his time to obtaining signatures to a petition counter to that now in effect.

### It's a Proxy Meeting

The appearance of Mr. Dean was about the only feature of pushing motion picture opening on the opening of the council board. The session was fraught with nothing much, and rather than leave a hot stove and a comfortable chair, a satire over a lengthy list of figures pertaining to something or other not designed for publication, for the present, at least.

E. E. Donley, a chemist, who has been functioning as analytical expert for the city in various matters, such as testing elder and milk, appeared with a complaint against the phraseology of the milk ordinance section re-

ferred to selection of a "registered chemist" in the examination of lactical fluid.

"There are no registered chemists in Idaho, and no board provided by the state for the registration of such," Mr. Dooley explained. The fact was proved that the ordinance meant "the one" chemist when it said "registered." The city health inspector is to be instructed to ignore the "registered" feature, and accept in lieu thereof, the services of any licensed chemist in the work of his department.

Application was made for permission to remove a gas tank from beneath the sidewalk at the Morrill Auto company's place on Second avenue. The council granted permission with the understanding that the sidewalk is to be replaced at the supervision of the city engineer.

### Nothing Doing

The O. B. L. again "kicked in" with a demand for a signed contract covering city operations on its property. The council decided to "forget" it for the present, at least. The controversy is the result the construction by the city water department of a water main under the railroad company's tracks on Second street some time ago, the work being done without having first obtained permission of the railroad people.

A second annual statement of the city treasurer and clerk, showing the financial status of the municipality, was read and approved. The report covers a period from May 1 to November 1 and shows a deposit with the bank of \$47,272.88 with receipts in the half year of \$275,819.20; disbursements, \$114,021.78. Balance on hand, distributed by deposit with the banks of Twin Falls, is \$22,770.30.

## DENTISTS COMPLETE STATE ORGANIZATION

### Dr. Coleman Re-elected Head of Society—Pocatello Convention Place

The first regular meeting of the Idaho State Dental Association since the history of the charter, was held last night at the Perrine hotel. Officers and an executive committee were elected. The convention began with a banquet in the hotel dining room.

The charter meeting was held in the office of Dr. F. F. McAtee last August, when Dr. C. H. Coleman, of Buhl, Dr. M. J. Goude of Filer and Dr. J. F. Johnston of Twin Falls were named president, secretary and treasurer respectively. At last night's organization meeting those officers were confirmed by resolution and will continue in office during the year to come.

The executive committee is composed of Dr. A. A. Jessup, Boise; Dr. B. H. Hudson, Blackfoot; Dr. A. R. Hipsley, Pocatello; Dr. R. H. Ewing, Rexburg; Dr. G. M. Smith, Idaho Falls; Dr. A. B. Altre, Burley.

Immediately after the selection of officers Pocatello was named the next convention place. Plans are already in the making for an extensive program of clinics and a week's post graduate course in modern dentistry at this convention.

Last night's banquet was provided by members of the association from the Twin Falls district. Representatives numbering 30 were present from American Falls, Pocatello, Blackfoot, Twin Falls, Buhl, Filer, Idaho Falls, Jerome, Nezberg, Montpelier, Downey, Kimberly, Boise and Idaho Falls.

A CLASSIFIED AD will find a job for any man or woman who is capable and efficient and who really wants to work.

## High School News

The class of '20 has adopted as its emblem a design showing the Twin Falls high school, with the words "Twin Falls High School, 1892" inscribed on the engraving. This design will appear on class rings and pins, for which an order has been placed with a Los Angeles jewelry firm. Twenty-three members of deposit with the banks of Twin Falls, is \$22,770.30.

## APPOINT COMMITTEE

Committees appointed to make plans for the Sophomore class party to take place on December 19 are busy engaged in preparations for the event. It is intended that the Sophomores will dress in children's clothes on that night and that the social will be in the nature of a Christmas juvenile frolic.

## SUSPEND CONSTRUCTION

Work on the construction of the addition to the high school has been suspended owing to weather conditions but will be resumed when warmer weather appears.

You can sub-let that apartment through classified advertising to the right person, at the right rental.

**Don't Forget**

The Illuminated Ball given by the Electrical Workers

—TUESDAY, DEC. 9TH—

at Lavering Pavilion

## Mercury Sees Lowest Point of This Year

KERPLUNK, and blam! Meaning something awful.

The reaction was in the temperature, the mercury slamming the bottom with a terrific bang during last night.

Fifty below, and that awful!

The "oldest inhabitant," today gathered in considerable number about the steam-spouting radiator, wherever said radiator steam-spouted, related to the tenderfoot that this is the worst ever seen in this district.

Unusual indeed very unusual; also invigorating, what!

But there's hope. The weather man says "not so cold tonight."

Trust he knows. Fresh easterly winds, too, he avers, which isn't inviting, as we see it.

And while last night was the coldest of the year yesterday at noon! Last wasn't particularly hot, was it!

Twenty-one degrees above zero is all; which might be considered weather to bank in upon in Alaska, but not down here where we frizzled like an egg in a skillet all last summer and fall.

## Local Brevities

Extension Worker Here—Miss Amy Kelley, who is in the University Extension work in Idaho, is in Twin Falls on business. She expects to remain until Thursday.

Dr. Murphy Ill—Dr. J. H. Murphy, of Buhl, is quite ill with rheumatism and has been taken to Lava Hot Springs.

Goos East on Vacation—Ellsworth Fernal left last evening for Duluth, and Crookston, Minn., where he will spend the holidays.

Return to Downey—Percy and Eli Deckstead left for their home at Downey yesterday. They have been spending some time in the Twin Falls district buying stock of all kinds.

Action Settled Up—Through error an account of a civil suit against John Visser by the Overland Building company of Boise was made to read Overland Automobile company. The action grows out of an old matter which Mr. Visser states has been more or less in dispute and which has now been settled.

Arranging Annual Meeting—A special meeting of the board of directors of the Twin Falls Building and Loan association, was held at the office of

the secretary, Frank G. Lechleiter to perfect arrangements for the holding of the annual meeting of stockholders which will be held around the first of the year.

In Advance of Christmas—Born to Mr. and Mrs. James A. Griffith at the county hospital, December 4, a son.

Omaha Livestock

OMAHA, (AP) — Hog receipts 5,200; market steady to 25c lower; close weak; top \$13.50; bulk \$12.75 to 13; heavy weight \$12.75 to 13; light weight \$12.60 to 13; heavy packing sows, smooth \$12.50 to 12.75; packing sows, rough \$12 to 12.50; pigs \$10.75 to 12.75.

Cattle receipts 6,000; killing grades 15 to 25c higher; stockers and feeders steady; beef steers, medium and heavy weight, choice and prime \$10 to 12.25; common \$8.75 to 10.75; heifers \$9.50 to 12.50; cows \$8 to 11.50; canners and cutters \$5.75 to 9; year calves \$13 to 14.50; feeder steers \$7 to 13; steer calves \$6.50 to 11.

Night Morning

Keep Your Eyes

Good for the eyes and the face.

## DOBBIN MUST BE BANISHED FROM SERVICE

Goodye Dobbin; farewell old boss; the hour has struck and thy knell is tolled; we must part forever—farewell, farewell!

As a medium of power in municipal service the horse must go. It is needed. Gas motor machines will supplant the grain and forage devouring quadruped.

While not a positive order this is the will of the city legislature which sees constantly increasing expense to the operation of its street wagon service by horses. A motor machine for sprinkling and flushing streets will do the work of a score of Dobbins in two-tenths of the time it takes a horse to get started, or something like that.

"It has come to a showdown in the matter of economy and I am favorable to early purchase of motor sprinklers and the discard of horse-drawn vehicles," said Alderman L. L. Brockenridge last night. The discussion was engendered through some complaint concerning the expense of sprinkling during the past year. Mr. Brockenridge recommended the purchase of motor-drawn sprinklers explaining that the saving in expense would more than pay for the motor car in a couple of years.

"A motor sprinkler will do ten times the amount of work a team of horses will do in ten times less time," Mr. Brockenridge more or less ambiguously stated.

Somebody else suggested the economy of the thing in the retirement of work for the "white wings" with horses removed from street service.

You can use the classified in teaching that next employer of yours.
