REVOLUTIONISTS IN MEXICO PLAN UNITED ACTION

Unity of Military Commands and Aims with Setting Up of De Facto Government Reported First Step in Move

VILLISTAS AGREED UPON AS INSURGENT LEADERS

Present Principle Purpose is to Obtain Control of Mexican Oil Districts as Bid for Foreign Support

EL PASO, TEXAS, (AP)—Mexican revolutionists are working on a plan for unity of military commands and aims with the first step, the setting up of a de facto government, according to well defined reports reaching here today.

Followers of Francisco Villa said he had been agreed upon as military leader by revolutionists on the east coast of Mexico and by southern rebels.

Oil Fields Objective

The revolutionists, it was said, plan their first military movement on the east coast and their chief aim at present is to obtain control of the Mexican oil districts, where they would set up their de facto government.

Strikes at Revenue

The revolutionists are said to have decided that the government they would set up would have the greatest opportunity for success and recognition by foreign governments if they could take the oil districts, put their government into operation, give guarantees and protection to foreigners and foreign interests and then demand that the government off from a source of great revenue and dispute.

SOVIET OFFERS PEACE TO POLES

Denies Bolshevik Preparation for Offensive with Chinese Aid

COPENHAGEN, (AP)—The soviet government at Moscow has sent a formal peace offer to the Polish government by wireless. The message denies that the Bolsheviks are preparing a new offensive against Poland with the aid of Chinese forces.

Geneva advices under date of December 22 said that Leon Trotsky the soviet minister of war, was preparing for a great offensive against Poland next spring.

OBSEQUIES FOR UTAH GENERAL ARE ANNOUNCED

Funeral Services for R. W. Young to Be Held from Mormon Temple with Full Military Honors

SALT LAKE CITY, (AP)—Funeral services for Brigadier General Richard W. Young, U. S. A., who died here last Saturday following an operation, will be held from the Mormon tabernacle next Thursday with full military honors.

All Utah ex-servicemen of the German war and the Spanish-American war, through which General Young served with the rank of major, have been invited to attend the service.

VILLISTAS DENY CAPTURE OF LEADER OF INSURGENTS

EL PASO, TEX., (AP)—The surrender or capture of Nicolas Fernandez, a Villa leader by the Carranzistas as reported by Mexican government agencies, was denied false here today by adherents of Villa.

MATCH FOR STROESSER

OMAHA, Neb., (AP)—Joe Stecher of Dodge, Neb., claimant to the world's wrestling championship, and John Peterson of Shelton, Neb., a contender, will meet in a final match here January 16. It will be their first meeting.

INDUSTRIAL CONFERENCE ADVISES MACHINERY TO AVERT LABOR CONFLICTS

Announces Tentative Recommendations with View to Obtaining Constructive Criticism before Final Plan is Adopted; Proposes Tribunals to Move Toward Settlement of Disputes before the Stoppage of Production

WASHINGTON, (AP)—Tentative recommendations for the establishment of machinery to prevent or retard labor conflicts in private industry were announced today by the president's industrial conference with a view to obtaining constructive criticism before a final plan is adopted.

Recognition is Gompers' Plea

Points Out "Fatal Error" in Industrial Commission's Proposals

WASHINGTON, (AP)—Failure of the president's industrial conference to recognize industrial organizations of workers—trade unions—as the basis for representation is a fatal omission, Samuel Gompers, president of the American Federation of Labor, declared today in a statement discussing the tentative report of the commission.

Must Avoid Compulsion

Mr. Gompers said that any plan to establish or maintain anything like fair relations between workers and employers must avoid compulsory features, declaring that the mass of America's workers were "American citizens and that sovereign citizenship they are free men."

For Employers' Organization

Discussing a statement in the commission's report regarding relationship between employer and employee in large industries, Mr. Gompers declared that both employers and employees must be organized in order to become responsible parties to any system of mediation.

INTERNATIONAL COUNCIL OF WOMEN IS CONVOKED

CHRISTIANIA, (AP)—A convention of the International Council of Women, of which Lady Aberdeen is president, will be held in Christiania next September. Three hundred delegates, representing twenty nations, are expected to attend.

ROME, (AP)—Premier Nitti and Camille Barrere, French ambassador, held a long conference yesterday. Vittorio Scialoja, foreign minister, will leave for Paris today.

PARIS, (AP)—Arabian volunteers and French detachments have clashed at Baalbek, Syria, according to a dispatch from Cairo. Losses suffered by both sides are said to have been severe.

PARIS, (AP)—Rivers throughout France, swollen by the continued rains, threaten disaster to many sections. Navigation of the Seine is already difficult and if the inundation continues, traffic will be forced to stop.

NEW YORK, (AP)—One of the biggest roundups of bootleggers and manufacturers of illicit liquor ever made in this country is impending as a result of the wave of deaths and blindness which has followed the sale of poisoned liquor.

Surrender of Former Kaiser to Be Demanded

PARIS, (AP)—Extraction of former Kaiser Wilhelm from Germany will be demanded from Holland as soon as the treaty of peace becomes effective, according to a decision reached by the British and French governments, says the Echo in Paris.

KANSAS COAL FIELDS FREE FROM LABOR TROUBLE

PITTSBURG, Kan., (AP)—Every mine and strip in the Kansas fields was free from labor trouble today except one pit. Work was in progress at every other mine in the district for the first time in more than six months.

WRECK VICTIMS BODIES STREW SHORES OF BAY

At Least Twenty of Crew of Belgian Steamer Lost Lives in Storm Off Newfoundland

ST. JOHN'S, N. F., (AP)—At least twenty of the crew of the Belgian steamer Anton von Driel lost their lives early today when their vessel was wrecked at St. Shotts, west of Cape Race. The shores of St. Mary's bay were strewn with the bodies of the men who had sought safety in small boats.

RAILROAD LABOR DEBATES POLICY ON LEGISLATION

Conference of Union Officials Assembles to Formulate Attitude with Regard to Offensive Clauses of Bill

CONFEREES REACH MINOR DECISIONS ON MEASURE

Congressional Conference Committee Discusses Proposals while General Strike Vote Seems Imminent

WASHINGTON, (AP)—While the joint congressional conference committee was discussing points of difference between the Cummins and Esch railroad reorganization bills today in an effort to conciliate minor disagreements and pave the way to consideration of the all-important anti-strike provisions of the Cummins measure, high railroad union officials were gathering to attend a conference called by Samuel Gompers to formulate a strike policy to be pursued with regard to the tentative labor clauses of the senate bill.

Strike Vote Looms

Officials of several unions affiliated with the leaders strongly indicated their conviction that the conference would adopt a declaration of principles similar to that of the railway machinists union which voted to strike if the more drastic labor provisions of the Cummins bill should become law.

Delays in Prospect

No important decision were reached by senate and house conferees on the railroad legislation. No discussion was had of the labor provisions and some of the conferees believe that negotiations may not be reached for two or three weeks.

STRIKE INQUIRY BOARD CONvenes

Investigation of Wages and Prices in Coal Industry is Inaugurated

WASHINGTON, (AP)—Members of the commission named by President DeWitt to investigate wages and prices in the bituminous coal industry conferred with Secretary Tamm today at the white house. The commission is expected to lay out a program for its work at meetings during the day.

HAPGOOD IS NO LONGER MINISTER TO DENMARK

Commission Expires Automatically with President's Refusal to Give Re-cess Appointment

WASHINGTON, (AP)—Norman Hapgood is no longer American minister to Denmark, it was said today at the state department. Officials explained that the senate had failed to confirm his nomination before the end of the special session of Congress, and that since he was not given a recess appointment by President Wilson his commission automatically expired on that date.

PROSECUTION SCORES VICTORY IN NEW TRIAL

Blocks Attempts of Defense to Introduce Testimony on Sanity of Accused Murderer

LOS ANGELES, Cal., (AP)—The prosecution scored a victory today in the resumption of the trial of Harry New, charged with the murder of his sweetheart, Freda Lesser, when it succeeded in blocking attempts of the defense to introduce testimony bearing on New's sanity or insanity by witnesses not qualified as experts or intimate friends.

WILSON TO CALL INITIAL SESSION OF LEAGUE BUT PARIS IS MEETING PLACE

Peace Conference Surmounts Difficulties Incident to Setting the New World Institution in Motion Occasioned by Failure of the United States to Ratify Treaty; Convention Waits but Short Time after Exchange of Ratifications

COUNCIL CONSIDERS POSSIBILITY OF EXTENDING TIME LIMIT TO GERMANS

PARIS, (AP)—Informal notice of the first meeting of the council of the league of nations will probably be given in a day or two after the exchange of ratifications of the treaty of Versailles. Ambassador Wallace cabled the state department in Washington to this effect after this morning's meeting of the supreme council, which had the question under consideration.

PROSPECTS FOR COMPROMISE ON TREATY BETTER

Conferees See Chance for Ratification with Acceptance of Three Modifications to Approved Reservations

WASHINGTON, (AP)—Republicans and democratic senators working for a peace treaty compromise centered their attention today on a plan said to have been accepted by the mild reservation republicans and by a number of democrats for ratification with three modifications in the fourteen reservations approved by the senate majority at the last session.

Party Leaders' Hopes

The three changes, which some senators believe would make the reservations acceptable to two-thirds, deal with the preamble declaration that the qualifications must be accepted in by the other powers, with article ten and with financing. The mild group believe that Senator Lodge, the republican leader, will be willing to make these changes and that Senator Hitchcock, leader of the democrats, also will be satisfied with them. It was said, however, that neither the party heads nor the senate had yet expressed a final opinion.

Suggests Modifications

Under the new preamble suggested, the senate reservations would be regarded as accepted by the other parties to the treaty as specific changes were made within a limited time. The wording of the article ten reservation would be changed so as to eliminate the language which President Wilson said would regard as a rejection of the treaty and to substitute an affirmative declaration that the article's obligations are accepted with the understanding that the future congress shall be at liberty to decide questions of peace and war. Language which some senators have regarded as offensive to other powers will be modified in the financing reservation.

BRYAN TAKES PLATFORM ON BOURBON ATTITUDE

Plans Extended Tour for Discussion of Peace Treaty, League of Nations and Other Issues

OMAHA, Neb., (AP)—William J. Bryan will speak here January 12 on "The Attitude of the Democratic Party for 1920." Friends of Bryan say he plans a tour of several weeks in which he will discuss the league of nations, the peace treaty and other peace campaign issues.

MEXICAN PROBLEM MORE DANGEROUS THAN DELAY IN TREATY ACCEPTANCE

ST. LOUIS, Mo., (AP)—There is possibly more potential danger to world peace and certainly Pan-American peace in the prolongation of friction and misunderstanding between Mexico and the United States than in delay over ratification of the Versailles treaty, John Barrett, director general of the Pan-American union, told the American Association for the Advancement of Science here today.

Mr. Barrett said that in the opinion of many of the Mexican situation, which is the basis of the temporary understanding between the United States and the United States, is the most pressing question of the hour, that comes under the banner of foreign affairs confronting the United States.

# CONTINUE HUNT FOR DEALERS IN POISON POTIONS

### Chicopee Makes Fourteen Arrests in Connection with the Traffic Resulting in Fifty-Nine Deaths During Holidays

CHICOPEE, Mont., (AP)—Search was continued in this vicinity today for persons connected with the traffic in poisonous liquor which has resulted in the last few days in 59 deaths and many cases of serious illness here and in nearby places.

# THREE FACE CHARGES OF DISTRIBUTING WOOD ALCOHOL

NEW YORK, (AP)—Three men, a druggist, a liquor dealer and an undertaker, faced charges before a United States commissioner here this morning in connection with the spreading of wood alcohol as whiskey through five states in the last ten days, death and blindness following in its wake.

Alolph Panarelli, a Manhattan wine and liquor dealer, one of the men arrested, is said to have confessed to fellow agents.

He is quoted as saying: "I am glad you got me. I will tell all I know, but for God's sake don't send me to Connecticut. I don't want to be lynched. My name has been published in all the papers, and it would mean certain death."

Panarelli declared he had been approached by a man named Solberg, of Hartford, Conn., a friend of his, to procure some Christmas "boxes." Panarelli then got into communication with the other men who were arrested with him and procured the liquor.

Panarelli said he believed that twenty barrels of the "whiskey" had been shipped to Hartford, each barrel containing between 40 and 50 gallons. The price paid was from \$1,000 to \$1,500 a barrel, he said.

# PENNSYLVANIA SCENE OF CRUSADE AGAINST TRAFFIC IN WOOD ALCOHOL

HARTFORD, Conn., (AP)—Federal, state and city authorities here have started a crusade against the distribution of wood and denatured alcohol for beverage purposes.

Prosecution will immediately follow where evidence is found that the so-called "liquid death" containing either ingredient is sold as whiskey.

# RECOMMENDS GOVERNMENT CONTROL OF ALCOHOL SALES

CINCINNATI, O., (AP)—The Federated American Societies of Experimental Biology, which met three days session here today will recommend that the sale of wood alcohol be controlled by the government.

# WOMAN IS INVENTOR OF FIRST CARBON GAS MASK

Deceased Wife of Pittsburgh Research Man Perfects Life-Saving Device

PITTSBURGH, (AP)—It is claimed that the first gas mask based upon the use of charcoal for filtering out of highly poisonous gases from the atmosphere, the principle which in actual practice was so valuable to the armies in the world war, was made by the late Mrs. A. B. Garner, of Pittsburgh. This statement is made at the Mellon Institute of Research here.

Mrs. Garner, the wife of the director of research in all important gas mask company here became interested in the experiments her husband was conducting in connection with the gases which are used on the battlefield of Europe when the principle was once established, the Institute declared, Mrs. Garner designed and made a dozen gas masks of the canister type, and in June, 1915, they were handed over to the representatives in America of the British government. They sent to England, and from this first design other gas masks were made.

When the United States entered the war full details of the experimental work, and all apparatus that had been employed were supplied to the government. Mrs. Garner, who lived at the Mellon Institute, died a year ago.

# FRENCH GOVERNMENT TO EXPLOIT SARRRE BASIN

PARIS, (AP)—A large provision of government exploitation of the coal mines of the Sarrre basin was introduced in the chamber of deputies Sunday by Louis Lebeuf, minister of reconstruction, and Louis Klotz, minister of finance. The mines formerly were exploited partly by the Prussian and partly by the Bavarian coal companies. Under the bill, an office will be created to work the mines in the Sarrre basin in competition with private companies, the profits accruing being turned over to the state.

# MINING EXPERTS SOLVE MOVING PROBLEM

### Ten Million Feet of Sacramento Hill, Adjoining Bisbee, Removed with Steam Shovels and Railroad

BISBEE, Ariz., (AP)—Mining engineers have solved the historic problem and have literally "moved" the mountain to the other side of the street. The fact of Sacramento Hill, adjoining Bisbee, is being shoveled by steam and started away by railroad so that the Phelps Dodge corporation can reach 7,000 tons of copper ore which is part of the ramifications of the Copper Queen mine.

It is a gigantic project. All the genius of the engineering department of the organization was required to get into effect the leveling of the mountain, the work of which began in 1917. Care had to be used in blasting to prevent damage to property and life in Bisbee and Warren from buildings hurled down the mountain side into the town.

Where to put the earth covering of this mining treasure was another problem. The steam shovel and the Phelps Dodge corporation had to be used to build railroad tracks into several spur gulches and because of the narrow width these had to be built on the top of the mountain. In spite of these handicaps, the workmen have leveled the top of the hill and removed a large slice from one side of the mountain.

The steam shovels have not yet reached the rich copper veins of the Copper Queen, but they have come into ore containing one half to one per cent copper. It is expected that a means will be discovered to extract this copper at a profit. Experiments have been made in heap leaching of low grade ore, which promise a few cents a ton profit by separating it into piles for leaching by water alone.

In the meantime, the steam shovels are keeping steadily at work in the hope that soon these giant instruments will be able to reach the rich copper veins of the Copper Queen.

This is said to be the first experiment of its kind in the world, and it may mean a revolution in the industry.

# SPECTRE OF TAXATION OVERSHADOWS GERMAN OUTLOOK FOR FUTURE

### Leaders in Financial and Social Circles Divide in Opinions of Measures for National Relief Proposed by Minister of Finance; Count on American Aid

BERLIN, (AP)—The spectre of the enormous emergency levy on property which threatens drastically to reduce German industrial fortunes in the next few months is difficult for Germans to forecast the economic outlook of their country for 1920. Leaders in financial, political and social circles are divided in their opinions of the measures for national relief proposed by Matthias Erzberger, minister of finance.

Financiers' Outlook Gloomy  
There is a widespread belief among financiers, bankers and financial writers in Germany that if Erzberger's plans are put into effect, Germany will face a future overcast with black clouds, if not actual ruin. The most important of these two measures is the emergency levy on property, which financial writers assert will reduce industrial fortunes of 10,000,000 marks to less than 5,000,000 in a decade. The second measure is the income tax, which, it is claimed by some, will "beggar every modest fortune as well as every great fortune."

Count on American Aid  
Bankers say that it all comes down to this: "America must come to our aid."  
They wish a comparatively small, direct credit, and disappearance of the much discussed international loan which, they believe, would saddle the debts of England and France on the United States and thereby, perhaps, reduce the amount of credit Germany might obtain.

Peace Treaty Big Factor  
Berlin writers declare that Germany's political future depends in the last analysis upon the working out of the peace treaty and that until this document has been consummated in all its technical details Germany will be unable to locate her fresh starting point. This is regarded here as the crux of the whole situation and Germans expect the situation to remain neutre until this has been accomplished.

Anti-Bolshevist Gains  
Germany's more conservative political leaders frankly admit Bolshevism gains at the next election. They say the Bols will capture 50 seats instead of the 22 which they won a year ago and that they may poll 5,000,000 in-

stead of the 2,750,000 they obtained in the last national election. The conservatives, however, assert that the Independent, Socialist and Communist elements will become less popular as the opportunities for work increase in Germany.

Political leaders say that indications point to an indefinite postponement of the election of the president of the present government, on the strength of its popular mandate, is entitled to continue with a program of socialization at a pace in keeping with the nation's economic recovery. It is pointed out also that the new liberalism may satisfy itself with a life-long president as a substitute for a constitutional monarchy.

Workers Weary of Striking  
It is agreed by German industrial leaders that the German workers are weary of striking and that the labor situation has been improved so far as the election of coal and raw material permits. The authorities say that German industries are working an average of perhaps four hours daily and that this is the limit possible with the present under-supply of coal. When the coal situation improves it will be possible, they say, to make a real industrial beginning with raw materials.

Germany's recovery and progress during the next year is felt by Germans to depend on a whole succession of "ifs." Many of them believe that if Erzberger drains German industries with his taxes, there is little hope of their recovery. The same critics declare that if the entente does not lighten Germany's load a little bit, the nation may be driven to communism. If German industry cannot "recover" some measure of its former efficiency, they say, the world will be the loser in the end.

That's Strange.  
I met a friend who had been ill and inquired: "How are you now?" She replied: "So you know, I nearly died!" "I'm glad to hear it." She's angry now.—Exchange.

A "sneaky-looking" man may be an excellent man of fine standing among those who really know him; but the casual acquaintance will not believe it. Appearances count for much—in dress and in printing. A poor piece of printing has minus-value all its own. It knocks, silently condemn.

# MARINE PIRATES NOT ALL CONFINED TO STORY BOOK

### Mexican Government is Called Upon to Deal with Outlaws in Pacific

MEXICO CITY, (AP)—Pirates, buccannera and marine freebooters, story-book and legend, are being reported to be active in the Pacific. They are not all dead. A number of them have been found on small islands off the west coast of Mexico and President Carranza has dispatched from Mazatlan a naval expedition equipped for two months' service with the object of rooting the outlaws.

Travelers in the Pacific have told of late of seeing numerous bands of these pirates who have preyed upon tramp vessels when occasion afforded and on the weak vessels in anchorage. Their headquarters are in the almost inaccessible caves on lonely islands where, it is said, they have stored much valuable booty which at opportune moments they carry to the States or South American ports. Most of their plunder is obtained from Mexican vessels.

The Mexican government is determined to rid its islands of the freebooters and its present expedition of driving out the pirates will set up military posts to guard against their return.

# VIRGIN ISLANDER'S BACK IS HIS ONLY WARDROBE

### Marines Garrisoning New American Possession Perplexed by the Native Custom

ST. THOMAS, Virgin Islands, (AP)—United States marines garrisoning these new possessions of Uncle Sam cannot understand the fashions affected by the natives. Why a negro or Chinaman should wear an overcoat when the thermometer stands at 100 in the shade mystifies them.

For some strange reason, the native Virgin Islander believes in wearing a very article of clothing he can lay hands on. All American holidays are now celebrated by the natives, who spend the day parading about the streets, some of them wearing overcoats, capes, two or more pairs of trousers and a red banana handkerchief about the neck. As they are heavily armed themselves with the horns of cows or oxen attached to the head just in front of the ears.

OPTIMISM MARKS ENGLISH VIEWS FOR NEXT YEAR

Faith that Everything Will Work Out for Best Held in Face of Financial and Political Difficulties

LONDON. (AP)—The people of Great Britain look forward to a new year full of financial and political difficulties but with greater optimism than they could have thought possible a few months ago.

The most cheerful optimism of all is France's. The French government is now studying a complete renovation of her financial policy with a view to making such provisions to meet her obligations as will give greatest stability both here and abroad.

FRANCE BEGINS NEW YEAR WITH NEW CONFIDENCE

Results of Elections Stabilizing Internal Politics Offset Formidable Economic Handicaps

PARIS, (AP)—France will begin the new year with far greater confidence than the last. This is in spite of formidable handicaps such as the balance of trade running against her at the rate of about 1,500,000 francs a month, about 50 per cent depreciation of the exchange value of the franc and the consequent difficulty of procuring raw materials and machines, urgently needed for reconstruction.

Trade Establishes Record. Transactions on the Paris bourse which are still confined to cash deals have exceeded on certain days records of pre-war trading when futures entered largely into the totals.

Decentralization Apparent. Decentralization of capital and industry is seen in the establishing in Normandy of textile industries to replace those in the occupied territory destroyed by the war.

Powerful financial groups are at the head of a movement to transfer important industries from the coal region to southeastern France where new power sources will be available.

Public Utilities Problem With regard to public utilities, the conference made the following statement: "The plan here proposed presents greater difficulties in application to certain public utilities than to competitive industry..."

public welfare. As the capital investment is employed in public use, so is the labor engaged in public service; and the withdrawal of either with the result of suspending service makes the people the real victims...

Limits Right to Strike After declaring that the government would not permit its functions, conducted in the interests of all the people, to be interrupted by concerted cessation of work, the conference further affirmed that government employees concerned with the administration of justice, the maintenance of public safety, or public order should not be permitted to affiliate with any organization which authorized the use of the strike...

When President Wilson summoned the conference, of which Secretary Wilson is chairman and Herbert Hoover vice chairman, it was expressly denied the right to consider any existing industrial disputes, which was the question which wrecked the first industrial conference. While no specific references to recent industrial troubles were made, several recommendations and statements of the conference reflected the experience of the steel strike and the Boston police strike.

Source of Happiness The secret contains not one single object that might not be a source of happiness. Sorrow springs from this, that man outdoes himself in mistaking everything. He turns against his own body or his own spirit all sorts of things that seem well made for his joy—Georges Duhamel in the Century Magazine.

Lines to Be Remembered. Every wanton and causeless restraint of the will of the subject, whether practised by a monarch, a nobility, or a popular assembly, is a degree of tyranny.—Blackstone.

Today's Markets

New York Exchange NEW YORK, (AP)—On the further flurry in call and time money today's stock market recorded many extreme declines of 2 to 6 points. Sales approximated 2,500,000 shares. A maximum of one per cent was established for all money in the last hour but some stocks rallied substantially when the rate receded to 20 per cent. The closing was heavy.

Liberty Bonds NEW YORK, (AP)—Prices of Liberty bonds at 2:55 p. m. today were: 3 1/2's \$99.92; first 4's \$93.20; second 4's \$91.70; third 4's \$94.38; fourth 4's \$91.64; Victory 3-3's \$99.22; Victory 4-3's \$99.30.

Chicago Grain and Provisions CHICAGO, (AP)—Hoisting of wheat prices in Canada led to a sharp advance today in the corn market here. The jump in Canadian quotations amounted to fifty cents a bushel, and was accompanied by notice that permits would be issued for the importation of flour from the United States into Canada. Strong commission houses were free buyers of corn at a rate of 1.12 to 1.14, but little activity was given to other factors. Opening prices, which ranged from 1-1/4 decline to 2-1/4 advance, with January \$1.27 1/2 to 1.28 and May \$1.27 1/2 to 1.27 3/4, were followed by pronounced gains all-around.

Warts Are Contagious Warts are contagious, as is proved by experiments on their own fingers made by Drs. Udo J. Wile and Lylo B. Klngery of the University of Michigan Medical school. These physicians seem to have proved that warts are caused by some sort of a virus that passes easily through a filter and therefore through the sound human skin.

Russian Villages Prey of Fire The Russian village is built principally of wood and roofed with wood, or with straw and staves. For this reason there are so many fires that, according to statistics, one-fifth of all the peasant cottages burn down every year, or putting it in another way, every house burns down after five years. This seems improvable, but it is reliable information.

Overcoats

Any good tailor will tell you that it is mighty difficult to produce good looking, well fitting overcoats—particularly from heavy fabrics.

The two thousand pound kick of a pressing machine will pound style lines temporarily into an Overcoat, but it takes careful hand stitching to produce permanent results.

HIRSH, WICKWIRE OVERCOATS are hand cut and hand stitched from the finest overcoat fabrics.

The inside workmanship is not excelled, from a quality standpoint, by any other ready-to-wear overcoats offered in America today.

A little girl of six was screaming out in a transport of mingled grief and fright, sobbing as though her heart would break. A brave-faced lad supported her with one arm, while he shook the fist of the other at a grizzled, sullen-faced old man who held the bridle of a horse he had just led across a neatly planted space about twenty feet square at the edge of a vacant lot.

Women as Special Agents Under Food Control Act

OFFICIAL consideration is to be given the appointment of women as special agents for the department of justice in the enforcement of the food control act.

The department of justice has employed women agents previously. A number of them did spy work in this country during the war.

As the food administration acts during the war clothing and food prices would be interesting to watch the effect on clothing and food prices should women agents be named.

BAPTIST CHORUS GIVES AN INSPIRING CANTATA

"Salvation of Israel" is Well Given and Draws a Large Audience

A well drilled and efficient chorus of some 20 voices, under the direction of L. L. Wood, gave a tuneful and inspiring Christmas cantata in the Baptist church last night.

The cantata, "Salvation of Israel," by Wilson, filled the order as a general rule, contains many choruses and solos of a calibre ranking with the better class of church anthems and solo selection.

Boleints taking part are: Miss Edna Graham, soprano; Miss Juanita Dean, contralto; Mrs. W. O. Smith, mezzo; Clarence Beatty, tenor; L. L. Wood, baritone.
