'Partizan' Forces Now Outnumber Japanese and American Guards over Mines and Railways; Attacks Probable

VLADIVOSTOK (AP) Demands regarding the operation of the far eastern section of the Trans-Siberian railroad have been sent to the all-Russian government by the allied railroad commission in an effort to stave off a transportation debacle in eastern Siberia.

From Virtual Ultimatum These demands form a virtual ultimatum as the commission stipulated that if a favorable reply was not received the commission would assume further responsibility for eventualities relative to the operation of the road.

It is asked that operating rules of the railroad be obeyed by all military officials at all military transportation offices including Russians; discontinue interference with operation of the road; that all cars occupied as living quarters be placed at the disposal of the commission which is given authority to place cars wherever needed, and that the inter-allied railroad agreement be fully carried out.

Litvinoff Says World Must See Red Army Demonstrates Power of Russia

COPENHAGEN (AP)—M. Litvinoff, the Bolshevik representative who has been conferring here with James O'Grady of Great Britain for the purpose of bringing about the repatriation of prisoners of war, declared today that "peace is coming more quickly than is generally believed," according to an interview published in the Social Democrat.

In regard to the military situation, Litvinoff said the Cossacks were the most powerful asset of General Denikin, anti-Bolshevik leader in southwest Russia, but the Cossacks could not be employed in winter service.

"We don't see fewer than sixteen armies against the Cossacks," Litvinoff said. "It is entirely true that the red army is led by a German staff officer. Many officers from the old Russian army are fighting in our ranks for the cause."

"I think both the east and the west have much to see and to think of than war with Soviet Russia. The world wants peace and peace is coming all the more quickly and more thoroughly as the red army demonstrates the power of Russia."

Concerning negotiations, Litvinoff said: "The entire world Russia. An unblockaded Russia means a complete alteration in the economic situation of the world. There are today in Russia four million people of food for export. The British trades union have decided to send a commission to Russia to examine conditions there, and the Russian trades unions welcome that decision. Peace is coming."

Coal Commission Seeks Advice on Wages and Prices

Invents Miners and Operators in Central Competitive Fields to Present Cases at Hearing on Date Set; while Busying Itself in Meantime with Collection of Available Data from Governmental Investigators of Industry

WASHINGTON (AP)—Information for establishing a basis of wages and prices in the bituminous coal industry will be obtained by the three commissioners appointed by President Wilson to represent the public, miners and operators at hearings to be held in Washington beginning January 12.

Representatives of miners and operators in the central competitive fields have been invited to present their cases on that date. In the meantime the commission will collect available data from the governmental departments which have investigated the soft coal industry.

The delay in the opening of the hearings, the commission said, was due to a declared primary in the state of Ohio. The work of their special convention called to meet in Columbus, Ohio, January 5.

Adjourns Sessions "After preparing the way for beginning its investigation the president's commission adjourned its sessions. Bennett Peale, representing the operators and John P. Whittier, representing the miners, left for their homes to spend the holidays, but Henry M. Robinson, representing the public, remained to guide the preliminary work.

Asstians already have assembled statistical data but public hearings will not begin until January 12.

Decides Against Visit Tentatively the commission has decided not to assemble its staff by calling coal miners and coal operators in person to testify at hearings, and it also has decided not to visit the principal coal mining centers.

Other Fields to Be Heard When the data have all been assembled the representatives of the miners and of the operators in each field will be called in to present their arguments in open hearings. The central competitive district will be the first to deal with, but the other fields will be dealt with in like manner so that the commission's decision will be made in the most equitable manner rather than a sectional one.

DOG KEEPS LONG VIGIL OVER BODY OF MASTER

Stands Guard Two Days and Three Nights Against Prowling Animals

PHOENIX, Ariz., (AP)—How a shepherd dog stood guard over her master's body for two days and three nights to protect it from prowling animals is the story told by a woman here by Humane Officer J. W. Canine.

Thomas P. Williams, son of J. H. Williams of Phoenix, died July 25 last, while herding goats and sheep in the mountains about 50 miles north of here. He fell over as though from heart disease, his father heard afterwards.

A Mexican herder called "Ludy," the shepherd dog, to the body and said: "Stay with him." The Mexican walked toward Phoenix until he met an American who telephoned news of the death to the youth's father.

J. H. Williams started from Phoenix at once. Because of heavy rains and washouts, he had difficulty in getting into the mountain fastnesses where the flock pastured. Finally he reached the spot where the body lay. The dog stood on guard. She growled viciously as he approached, he said, but as soon as she saw he meant no harm, she licked his hand. She was very thin, the dog, half starved and gaunt with thirst but when he tried to drag her to a place to drink, she resisted fiercely and ran away. He stayed until neighbors had been summoned from miles away to take the body to Phoenix. Then she consented to be buried with her master.

Dealing with the problem of the high exchange rate, the minister said the United States would sustain serious losses in commerce if it did not open credits to the European countries to counteract the high exchange.

Regarding the loan situation, Signor Schanzer declared that if the wealthy classes should fail to respond generously in the appeal for a loan the government would have recourse to coercion.

AMERICAN TRADE IN CHILE GROWS

Reports Show Enormous Increase in Imports from the United States

VAIAPARAISO, (AP)—Leading imports from the United States to Chile have increased enormously in the last four years as shown by figures made public here. In Chilean currency, they were valued in 1913 at 25,000,000 pesos and in 1914 at 200,000,000 pesos (nominally a Chilean peso equals about 33 1/2 United States cents).

The increase in imports from the United States is attributed to improvement in banking facilities, better information concerning buyers and credit and the possibility of direct negotiation of drafts instead of by way of Europe.

One leading Chilean merchant states that in the past five years North American business men adjusted their methods of doing business so as to comply with the requirements of Chilean buyers. At present, he said, there were no difficulties worth mentioning in the way of this trade which was developing in a manner satisfactory to both buyer and seller.

GRAND VIZIER PROPOSES RUSSIAN REORGANIZATION

Evidence of Bolsheviki Political Charities is Alternative Suggested

CONSTANTINOPEL, (AP)—All Riza Pasha, the Turkish grand vizier receiving the correspondence of the Association of Press December 3 at the palace of the Sublime Porte, expressed the belief that re-organization of Russia into an alternative of this, he said, would be evidence of "political charity" on the part of the soviet Russian government.

The grand vizier was asked whether Bolshevism was likely to change the political correspondence of the political police of Old Russia toward Turkey. "Certainly if Russia is organized along the old lines, if she is big and powerful with hostile aspirations it will not be to our benefit," he declared. "Everything depends, however, on whether Bolshevism has taught the Russian people any political charity and also whether Russia is to be composed of small states."

The grand vizier said he did not anticipate any trouble in Turkey this winter. Pazantism is expected to open within a few weeks. "It is natural that we want peace," said Riza Pasha. "As to terms, we hope to find a solution suggested by President Wilson will be applied so that our independence will be assured."

The grand vizier avoided discussion of American mandates, excepting himself on the ground of his precarious position both with regard to the nationalists and also allied subjects here and also alluded to the idea of an American mandate for Turkey.

SCOTS ASK ELIMINATION OF SHAKESPEARIAN PLAY

Object to "Macbeth" on the Ground that it is a Label on Scotch Nationality

NEW YORK, (AP)—A resolution demanding the elimination of Shakespeare's "Macbeth" from school curricula on the ground that it was a libel on the Scotch is being presented in presenting King Macbeth as a traitor and murderer was adopted here by the League of Scottish Veterans of the World War. The resolution was addressed to the Newark, N. J., board of education, which recently barred "The Merchant of Venice" from the schools because of the alleged slander to the Jewish race.

The resolution was signed by Ian McTavish, captain of the Gordon Highlanders, Malcolm MacPheron, captain of the Black Watch, and Douglas Bailey, lieutenant of the Royal Scotch Fusiliers. "If they have banned Shylock I see no reason why they should not ban Macbeth," said Captain McTavish. "If the Jewish gabelle is to be cleaned they should also remove the stain from the Scottish kilts."

TELLS STORY OF AERIAL ESCAPE

Head of Lithuanian Air Forces Describes Liberation of Turks

STOCKHOLM, (AP)—Colonel Dubbeck, a Swedish officer at the head of the Lithuanian air force, who has just returned from Rovno, has related a story of the escape by airplane of Enver Pasha and Talat Bey, former Turkish ministers, now in exile, after they were captured by English officers and Lithuanian troops a few weeks ago.

One day, said Colonel Dubbeck, an unusually large airplane built entirely of aluminum appeared over Dunaberg, but was obliged to descend in the neighborhood owing to motor trouble.

Besides the pilot and the engineer the airplane contained two passengers. All were arrested but later were allowed to move freely under a guard in the town.

The next day a German flight officer, Rother, then in the Lithuanian service, asked permission to fly the machine. This he was allowed to do, but the airplane soon descended some miles outside the town.

Two men, apparently strolling with an armed guard, appeared. "Rother managed to smuggle loaded revolvers into the hands of the two men and the guardmen suddenly felt the revolvers being pressed to their heads.

The airplane with the two passengers flew away. The two men, who are said to be in constant wrangling to return to Moscow, were Talat and Enver, as Rother admitted in a telegram he sent asking to have his baggage forwarded to Germany.

SAN FRANCISCO, Cal., (AP)—A will written on a table cloth was officially refused probate here recently by Judge Thomas E. Graham of the superior court because Mrs. Helen Scott, who had written it just before she committed suicide November 3, 1919, neglected to put a date on it.

The will read: "The trunk in the hall to Fred Green, the chair to Mrs. Alex. You will find money in the bank to pay all expenses. Put my black dress on me. Love to all."

"HELEN." The will was offered by William M. Varney, a brother of Mrs. Scott.

BYRAN TO THE FORE

Recent activities of William Jennings Bryan, three times candidate for the presidency of the United States and former secretary of state, contribute largely to interest in the present political situation...

There are manifold possibilities just at present, but the question that bulk largest in the political horizon is the question of the treaty of peace with its covenant for the league of nations.

Quite general acceptance is accorded the opinion of Senator David I. Walsh of Massachusetts, progressive democratic leader of New England, expressed recently, that there will be only one issue in the campaign unless the treaty is disposed of, and that will be Americanism as opposed to internationalism...

It is to be overlooked that Mr. Bryan still an influence to be reckoned with in the councils of the democratic party. It is generally known that Mr. Bryan had a great deal to do with securing the nomination for President Wilson when he withdrew his support of Champ Clark in the Baltimore convention.

There is no dearth of potential candidates on either side of the political fence, but among democratic leaders and prospective nominees the attitude seems to be one of "after you," with respect to the present incumbent of the office. Bryan seems to loom as the single exception to this rule. There is no doubt that he will figure prominently in the next democratic convention, but whether as Warwick or candidate remains a matter of interesting conjecture.

Today's Markets

New York Exchange NEW YORK, (AP)—The year in the stock market ended with a broad demand for steels, equipments, oils, motors and specialties at gross advances of 2 to almost 50 points. Sales approximated 1,400,000 shares.

Liberty Bonds NEW YORK, (AP)—Prices of Liberty bonds at 2:55 p. m. today were: 3 1/2's \$99.90; first 4 1/2's \$93; second 4 1/2's \$91.50; first 4 1/4's \$93.50; second 4 1/4's \$92; third 4 1/4's \$94.75; fourth 4 1/4's \$92.30; Victory 3 3/4's \$99.02; Victory 4 3/4's \$98.90.

Grains and Provisions CHICAGO, (AP)—Fresh strength showed itself in the corn market today largely as a result of continued scantiness of receipts. Besides, export demand for wheat, rye, barley and oats tended also to lift the value of corn. Profit taking sales which became quite free on the market failed to bring about any important reaction. After opening 1.8 to 1.18c higher, with January \$1.35 to 1.35 3/4 and May \$1.33 1/8 to 1.33 1/2.

the market sagged a little, but then advanced to above initial top prices.

Later the advance was more than wiped out. High rates for call loans had a depressing influence, and so did prospects of fair sized deliveries on December contracts. The close was heavy, 3.8 to 3.78c net lower with January \$1.33 1/8 to \$1.33 7/8 and May \$1.33 3/4 to \$1.32.

Oats rose with corn. Opening quotations, which ranged from 1 1/4 to 6-8c higher, including May at 33.5-6 to 64, were followed by slight further gains. Strength in hog values and in cereals made the provision market firm. The best inquiry was for lard.

EXPULSION OF CHINESE FROM SONORA IS STAYED

Mexican Government Stands Ready to Prevent Deportations with Military Force

MEXICO CITY, (P)—Chinese will not be expelled from the state of Sonora on January 1 under the state labor law, according to announcement Tuesday evening by the Chinese legation and the Mexican foreign office which stated the federal government was preparing to send military force to prevent deportations should such action become necessary.

Petitions from Chinese residents of Sonora and communications by the Chinese charge to the supreme court and congress have been answered by official assurances that the Chinese-Mexican treaty of friendship and commerce was still effective and that the contemplated action of the Sonora state authorities would be prevented.

The supreme court debated for hours today over the constitutionality of the Sonora labor law under which the deportations were to be carried out. It was reported that a vote taken by the court resulted in a decision that the law was constitutional, but formal announcement of this determination has been withheld until January 2.

TESTIFIES TO MEXICAN HATE

Witness Before Senate Committee Says Officials are Hostile

WASHINGTON, (AP)—Conditions in the hemp producing sections of Yucatan, Mexico, resulting from the actions of Mexican government officials, are alarming, Michael J. Smith, of New York, a hemp merchant, testified at a hearing conducted Tuesday by Francis J. Keefe, counsel, for the senate subcommittee investigating Mexican affairs.

Smith said the planters had been robbed by the Mexican authorities and were on the verge of bankruptcy.

Salvador Alvarado, former governor of Yucatan, Smith charged, is a "regulator" formed to control the hemp output, had accumulated large sums of money, much of which had been used to promote anarchistic propaganda in the United States and South America and to aid Alvarado in his candidacy for the presidency.

Smith also testified that Luis Cabrera, minister of finance in Carranza's cabinet, had said that Americans had exploited Mexico long enough and should be driven out of the country.

Similar testimony was given before the committee recently and Cabrera denied that he had made such a statement.

Mr. Smith said Alvarado was "much more violent in his expressions against Americans than Carranza."

"Alvarado told me," the witness said, "that if he had his way, he would drive all Americans out of Mexico immediately."

Under the Alvarado regime, the witness said, hemp production in Yucatan declined 30 per cent. The 1919 crop, he added, will not reach 700,000 bales.

ECCLIASTICAL PARTY IS MOVING WESTWARD

Episcopal Dignitaries Start to Coast for Nation-Wide Church Campaign

The Rev. Dr. Robert W. Patton, national director of the nation-wide campaign of the Protestant Episcopal church, accompanied by a party of distinguished members of that faith, is on his way west and is expected to arrive in California during the coming week.

Dr. Patton left New York on December 26. On his way west, he will attach to his staff Bishop Wilton D. Doane, of Denver, the Rev. Byron Holley, of Biloxi, Mississippi, Bishop Will of Kansas, and the Rev. Dr. Craig Stewart, of Evanston, Illinois.

The purpose of Dr. Patton's visit is to inaugurate, early in January, an intensive campaign in the western division of the church.

The larger dioceses of the western states have completed their campaigns and so splendid have been the results financially and in revival of the church spirit, that there remains no doubt in the minds of the officers of the national office of the whole campaign, once the Pacific coast dioceses have been "mopped up."

The churchmen who are accompanying Dr. Patton considered the most efficient campaigners that have been developed by the national-wide movement.

On this coast Dr. Patton will cooperate with the Rt. Rev. John H. Huntington, of Nevada, and the Rt. Rev. Bishop Conductor Parsons of California.

BIG GOLD PRODUCTION IN NEW DISTRICT LOOMS

Government Officials at Alaska Mines Predict Output of Millions of Dollars

JUNEAU, Alaska, (AP)—New quartz properties in the Kuskoquim country, long believed to be one of the richest mineral sections of Alaska, will produce several millions of dollars in gold this winter, according to telegrams received here by Governor Thomas Blaine, Jr., from government officials at the mine.

Gold quartz recently discovered on the Nixon Fork of Kuskoquim will run as high as \$2,000 a ton with big "tonnage" in sight for over a mile, one telegram to the governor said.

Steam hoists and compressors are being installed.

Several old time Alaska miners are interested in the new Kuskoquim properties. Most of them have been operating for several years in the Iditarod district.

RUIN OF RHEIMS NOT NECESSARY

German Officer Explodes Theory of Military Leaders Justifying Attack

BERLIN, (AP)—Rheims cathedral was damaged by German shells first time on September 1, 1914, when the "Prussians" guarded the city for two hours, even after it had been occupied by Saxon troops, according to Wolff, General Baron von Hausen, then commander of the Saxon Third Army, who has published his reminiscences. The baron calls attention to the fact that an entire year had passed in which no attempt has been made to establish the responsibility for the bombardment of the cathedral city. He explodes the theory of the military leaders who declared the firing on Rheims was forced by military necessity.

Baron von Hausen says that on September 3, 1914, he advanced against Rheims, at the same time that General von Buelow at the head of the second army also was attacking the city. On September 3 von Hausen learned by airplane courier that Rheims had been evacuated. He discusses his operations and the military necessity of the bombardment.

"I decided to make a sally against the fortifications and took forts Vitry and Nogent L'Abbesse without opposition and later other forts. At noon on September 3, Rheims was taken by the Saxons. A few hours later the city was being bombarded by the Prussian guard. It was regarded as a sensational report which nobody believed until shells actually fell. The guard had fired ostensibly because three couriers had failed to return.

On September 4, the guard bombarded Rheims for the first time, after the cathedral. After the bombardment, von Buelow sent word that he had imposed a fine of 50,000,000 francs, which would be increased to double if the couriers were not released in two days.

Baron von Hausen's reminiscences say General von Buelow imposed the fine without knowing whether the couriers had arrived at Rheims and that the fact was they did not reach Rheims. General von Buelow is said to have ordered the bombardment of the city without knowing whether it was defended.

DEPARTMENTS TO BE CLOSED

Business in Administrative Sections Will Be Suspended on New Year's Day

Federal, county and city administrative departments will be closed all day tomorrow, for the holiday inauguration of the New Year. The Twin Falls News will observe the beginning of the year 1920 by resting from labor.

The local postoffice will observe a new scheme for this important occasion and will be closed all day and no deliveries will be made in any part of town.

The only county department functioning in any degree will be that of the sheriff, where a deputy will be on hand to answer riot, battle, murder or sudden death calls, that is all.

The municipal stations will close tonight, and will transact no official business at all on New Year's day, 1920.

Mercantile institutions, with a very few upstate exceptions, mark the holiday by refraining from conducting business. Barber shops, too, will be closed, so that the citizens shave, and their "take" at home, will be a little belated.

A few social functions of more or less importance are scheduled for the night as welcoming affairs for the new year. One of the most important of these is the soiree scheduled for the Hogerson hotel. This affair is planned to be the "big" "watchnight" occasion of the community. There will be a program of dancing, both for the masses and by artists engaged for this special occasion. One or two church congregations will watch the old year out and welcome the new.

CANAL COMPANY SUES TO FORECLOSE LIENS

The Twin Falls Canal company has instituted proceedings against the Oakley State bank and 71 other defendants for the foreclosure of 1917 water rights liens. If foreclosure is ordered the rights will be offered at sheriff's sale to the highest bidder.

This proceeding in the district court occurs annually in the case of defendants for non-payment covering maintenance. Occasionally the defendants make settlements before the matter is set upon by the court, and the rights full restored. Among the defendants in this instance are the Owyhee Shop and Land company and School District No. 18 of Twin Falls county.

BANK'S NEW HOME WILL BE MODEL IN DESIGN AND UTILITY FITTINGS

Idaho State Financial Institution to Install the Latest of Counting-House Features in Building to Be Occupied March 1 — Denver Firm Takes Lease on Perrine Store Quarters

On March 1, if prevailing plans carry through, the Idaho State bank will move into quarters which will be equipped with the latest of banking furniture, fixtures and devices. Quarters will be established in the building at the north corner of Blushouse street and Main avenue.

At the present time the building is occupied by the Skeels-Wiley pharmacy. This institution moves out January 1.

Plans for the furnishing of the new bank quarters contemplate installation of devices and furniture said to be the latest word in bank equipment. The main floor is to be laid with tile; and all windowing will be Tennessee and Alabama marble. All woodwork will be oak, finished either in fume or gray. Public writing desks will be provided together with built-in seats for citizens. Cornice and sill pilasters will be finished in bronze, while gratings will match this finish.

In the counting department a great vault will be installed, with a safety deposit section of considerable size. There will be five service windows. Safes and vaults will be fire and burglar proof, as far as it is humanly possible to make them so. The institution will be entered from a main entrance at the corner of the structure. Heavy and attractive adornment is contemplated along with general utility in the installation of fittings and fixtures and the general arrangement of the banking house. Remodeling operations are to be started immediately after January 1, contract for the work having already been awarded. Fixtures will be shipped from an eastern point.

It is understood the stock of the Skeels-Wiley pharmacy has been taken over in lump by the proprietors of the Majestic pharmacy, which concern will install it in the store at the opposite corner.

The present quarters of the Idaho State bank will be re-fitted for mercantile business purposes, a Denver concern having taken over the lease. The new firm will start operations as soon as the bank moves out. Cans and other fittings and fixtures, now in the Skeels-Wiley pharmacy, have been sold to the new firm.

NO MEETING
There will be no meeting of the Brotherhood of American Yeomen until Friday, January 9, 1920.

To Err is Human But Even Erring Can Be Overdone

THE well-laid plans of mice and men gang at a gallop a popular Scottish poet, and wheezer once wheezed, and wheezed right.

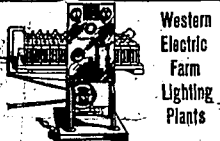

At least he was right as far as he went. He might have done in planning weather things in Idaho they gang always a-glee.

With the paid prognosticator guessing fair and warm, when it looks most like storm, and rain or snow and probably colder when the sky is clear and the sun shoots sharply warmed rays earthward, and the weather guesser of the city adormanic body falling as lamentably in his "snow melting" affairs as does the regular state official, how can the "ultimate consumer" have confidence in humankind?

For the benefit of contemplative "hip-pocket" parties New Year's eve is to be colder, though fair; the weather man makes this an official announcement.

Last night the temperature was one degree more torrid than on the previous nocturnal occasion, when it was 18 above. The top of the temperature yesterday was five degrees lower than of the preceding day, yesterday being 33.

Happy New Year, anyhow. Let's hope the cop doesn't catch you tonight.

CARRANZA WINS VICTORY IN STAND ON BULL FIGHT

MEXICO CITY, (P)—The spirited fight between congress and the executive department relating to bullfighting in the federal district ended Tuesday with a victory for President Carranza, with government adherents absenting themselves from the senate and thus preventing a vote on the bill which would permit the conducting of fights.

Prohibited by presidential decree several years ago, bullfighting seemed likely to return when both houses recently voted to rescind the decree. President Carranza objected, however, and returned the measure to congress. The chamber of deputies again passed it, but the senate failed because of the lack of a quorum.
