NAVY'S MORALE NEVER WOBSE, SIMS DECLARES

Admiral Whose Letter to Secretary Daniels Precipitated Controversy over Award of Medals, before Committee

JUSTIFIES CRITICISMS AS DUTY OWED SERVICE

Says Only Contention is Action of Department Head in Changing Recommendations Made by Officers

WASHINGTON, (AP)—Rear Admiral William S. Sims, whose letter to Secretary Daniels recently declining the distinguished service medal awarded him, precipitated the controversy over the award of naval war time honors, was the first witness on the list of those to appear before the senate subcommittee today. It was expected Rear Admiral Sims testimony would take at least two days and would include a resume of the entire subject of the naval conduct of the war.

Motive Misconstrued

Admiral Sims said some newspapers had been mistaken in ascribing personal motives to some of those who had criticised the awards and in assuming that advantage was taken of the incident to make a personal attack on the secretary.

"Nothing could be further from the truth" he said, adding that in "probably the nearly unanimous opinion of officers of the navy," certain mistakes were made in the awards which involved not only the question of justice, but the morale of the fighting force.

"Assuming the existence of these convictions on the part of naval officers" Admiral Sims continued, "it is apparent that it is the duty of the officers, the advisability of whose decorations is in question, officially to present their criticisms and suggestions in accordance with the authorization prescribed for such cases by the regulation issued by the navy department.

"The making of such criticisms is therefore, not only a duty that the officers indicated owe their service, but

MARINES REPEL BANDIT ATTACK

Beat Off Assault of 300 Haitian Revolutionists with Two Casualties

WASHINGTON, (AP)—United States marines and Haitian gendarmarie yesterday repelled an attack on Port au Prince, the Haitian capital, by a force of 300 bandits, more than half of whom were killed, wounded or captured after being pursued outside the city.

The total casualties of the marines was two privates wounded, according to the report of the engagement received at the navy department today from Colonel J. H. Russell, commanding the marine forces and gendarmarie in Haiti.

The bandit force, Colonel Russell said, approached Port au Prince in three columns, which immediately were met and driven back. Certain revolutionary elements of the city attempted to join the bandits in the assault, he said, adding that he believed the fate of the attacking forces should be "sufficient to prevent an early repetition of the assault."

HITCHCOCK PLEASED BY STUDENT TREATY VOTE

Says 40 Per Cent for Unqualified Ratification Exceeds Anticipation

WASHINGTON, (AP)—Deductions to be drawn from recent voting of college students and faculties on peace treaty issues were disputed today in the senate, Senator Hitchcock of Nebraska, administration leader, in presenting the latest results characterizing them as "amazing" in the sentiment for unqualified ratification expressed. About forty per cent of the ballots were cast for ratification without reservations, he said.

"This shows a sentiment for uncompromised ratification much stronger than I had supposed," said Mr. Hitchcock.

Senator Smoot, republican, Utah, replied that he could see no reason for jubilation by Mr. Hitchcock over the college vote, saying: "If it had been taken one month after the treaty reached here, ninety per cent would have been for unqualified ratification. Now after being informed, the vote is reduced from 90 to 40 per cent for the treaty as it stands."

IRISH ON HAND WITH PROTEST AT SHAPING OF NATIONS' LEAGUE

Appointment of Commission to Trace on Spot Frontiers of Territory of Saare Basin First Official Act of Council Organized by Representatives of France, Great Britain, Italy, Greece, Belgium, Spain, Japan and Brazil

MAKES LEON BOURGEOIS PRESIDENT AND PICKS LONDON FOR NEXT MEET

PARIS, (AP)—The council of the league of nations received the first formal protest to be presented to it almost before it came into being with today's initial sessions. The protest was from "the envoys of the elected government of the Irish republic" against "the unreal English simulacre of an international league of peace."

No mention of the protest was made during the meeting of the council, but copies were handed to the newspaper correspondents after they left the foreign office. The document was signed "Quaklaigh Duffy." It registered objections to the "pretended league of nations" and declared the league to be an "engine of empire, designed to secure and perpetuate English hegemony throughout both hemispheres."

The protest insisted that the league was illusory and incomplete, lacking authority and sanction, and declared that the United States stood out in indignation and repudiation of it.

Council Organizes

Representatives of France, Great Britain, Italy, Greece, Belgium, Spain, Japan and Brazil, members of the council of the league of nations, met in the "clock room" of the French foreign office at ten o'clock this morning for the first meeting in the history of the league.

The council organized at 10:30 o'clock by electing Leon Bourgeois chairman and confirming the choice of Sir Eric Drummond of Great Britain as secretary.

The first official act of the council was the appointment of a commission to trace upon the spot the frontiers of the territory of the Saare basin.

Takes Wilson's Place

Leon Bourgeois, French representative, who presided, said:

"The task of presiding at this meeting and inaugurating this great international institution should have fallen to President Wilson. We respect the reasons which still delay final decision by our friends in Washington, but express the hope that their difficulties will soon be overcome and that a representative of the great American republic will occupy the place awaiting him among us. The work of the council will then assume definite character and will have that particular force which should be associated with our work.

"January 16, 1920, will go down in history as the date of the birth of a new world. Decisions to be reached today will be in the name of all nations adhering to the covenant of the league. It will be the first decree of all free nations leaguing themselves together, for the first time in the world, to substitute right for might. But the organization of the league of nations will not be complete until the assembly of all the states meets."

Expresses British Loyalty

Earl Curzon, British secretary of state for foreign affairs, and that nation's representative on the council of the league, said:

"On behalf of the British empire I desire to express the loyalty of my government and the external dominions of the British crown to the spirit underlying the covenant of the league of nations. It is our intention by every means in our power to insure its practical efficiency. It is our firm belief that through its instrumentality alone we can hope to insure that such miseries *that the world has experienced during* the past five years shall not be repeated and that a new era of international relationship shall dawn.

"The league of nations is an expression of the universal desire for saner methods of regulating affairs of mankind, and provides the machinery by which practical effect may be given to the principles of international friendship and good understanding. The success of the labors of the peace conference is a good augury for the future of the league of nations. For the first time an attempt has been made to bring together under the auspices of the league representatives of governments, employes and laborers, and an advance exceeding the results of the entire work of the previous quarter of a century has been made in the field of international action on industrial questions."

All Members Present

All the members of the council called for by the covenant of the league, with the exception of the representatives of the United States, were present when M. Bourgeois called the meeting to order. Besides M. Bourgeois the members were Earl Curzon, the British foreign secretary, for Great Britain; Premier Venizelos for Greece; Carlo Ferraris, Italian minister of industry, for Belgium; Baron Matsui, ambassador to France, for Japan; Dr. Gastoa da Cunha, ambassador to France, for Brazil; Count Quinones de Leon, ambassador to France, for Spain.

Premier Lloyd George of Great Britain and Viscount Grey dropped into the meeting at an early stage. Mr. Lloyd George soon retired, however, Viscount Grey remaining. He was invited to a front seat.

OGDEN, Utah, (AP)—General Pershing and party arrived in Ogden this morning in the midst of a rain and snow storm. He gave an address to thousands of school children and others who had assembled in a park, despite the weather conditions, in which he paid tribute to the public school. He stated that many of the qualities which made the American soldier the best in the world were gained from the public schools. He departed at 11:10 o'clock for Salt Lake.

CLEMENCEAU IS REATEN IN RACE FOR PRESIDENCY

Caucus of Senate and Chamber of Deputies to Choose Nominee Give Majority of 19 Votes to Paul Deschanel

PREMIER'S FRIENDS IN SEARCH OF CANDIDATE

Poincare Renews Emphatic Declaration Not to Enter the Race for Re-election; "Tiger" Retires from Public Life

PARIS, (AP) — Premier Georges Clemenceau went down to defeat at the hands of his countrymen today in a caucus of the senate and chamber of deputies to choose a candidate for the presidency of the republic. M. Clemenceau thereupon announced his withdrawal from the contest and asked his supporters to cast their votes for the re-election of President Poincare.

Eliminate "Tiger"

Senators and deputies, after the caucus in which *Paul Deschanel, president* of the chamber, ealed the premier by 19 votes, generally expressed the opinion that the vote means the elimination from public life of "the father of victory," Premier Clemenceau being neither a senator nor a deputy.

M. Clemenceau's friends already are searching for another candidate as President Poincare is reported to have refused to accede to the demand of a deputation of senators and deputies that he be a candidate for reelection. He is said to have stressed emphatically the expression of his determination not to be a candidate.

Attendance Breaks Record

Never before in the history of presidential elections in France has a plenary caucus been attended by such a large number of deputies and senators, 821 out of 924 being present. Heretofore it has been the custom to call a caucus only of the parties of the Left but today M. Deschanel stands as the chosen candidate both of the chamber and senate—all the parties.

Neither Premier Clemenceau nor M. Deschanel were present at the caucus but former Premier Briand, Andre Lefvere and Edouard Herriot, the latter the new president of the radical part,, were conspicuous in marshaling the Deschanel forces, while Georges Mandel, formerly Premier Clemenceau's confidential secretary, and Edouard Ignace were canvassing on behalf of M. Clemenceau. Those presiding at the voting table were fairly swamped by the venerable senators and young deputies anxious to cast their votes before the polling closed at 4 o'clock.

A few bets were recorded with M. Clemenceau the pronounced favorite.

FEDERATION PUTS BAN ON LABOR PARTY PLAN

Pocatello Convention Declares Against Independent Political Action

The State Federation of Labor in convention at Pocatello by almost unanimous vote rejected a proposal for organization of an independent labor party, but is leaving open the matter of political activity on the part of labor while expressions of sympathy with the Nonpartisan league program are quite common in the convention, according to H. L. Locklin, representative of the typographical union, who returned today from attendance at the session.

The "red flag" is not in evidence at the Pocatello meeting, Mr. Locklin states, the concensus of opinion being that while there is plenty of room in this country for evolution, there is none at all for revolution.

BRITISH CABINET CONFERS ON DEFENSIVE ACTION TO STOP BOLSHEVIK ADVANCE

Military Leaders of Empire in Session in Paris to Discuss with Lloyd-George and French Government Measures for Meeting Situation Developing Through Soviet Aggression to Threshold of India, Persia, Mesopotamia and Asiatic Turkey

PERSIAN GOVERNMENT ASKS ENGLISH ADVICE IN EVENT OF RED INVASION

LONDON, (AP)—The impression prevailed here today that in the conference at Paris of Premier Lloyd George, Winston Spencer Churchill, the war minister, Walter Hume Long, first lord of the admiralty, Baron Beatty, commander of the Grand fleet, and Field Marshal Sir Henry Wilson, chief of the imperial staff, it would be decided to take some defensive action against Bolshevik military aggression.

The Persian government has requested Great Britain to state what assistance can be given Persia in the event of a Bolshevikl invasion and what defensive action by Persia would accord with the British policy.

An unconfirmed report from Berlin says that Enver Pasha, former Turkish war minister, who was *recently crowned king of Kurdistan*, has been in Berlin and has proceeded to Asia Minor. This raises the question of whether he was trying to enlist the support of German extremist elements in carrying out co-operation between the Turks and the Bolsheviki.

British People Concerned

Attention of the British people is fixed on the near east where recent Bolshevik successes have carried the red Russian armies almost within the threshhold of India, Persia, Mesopotamia and Asiatic Turkey. Cabinet members and chiefs of the British army and navy are today in Paris, whither they were hastily summoned yesterday and are conferring with Premier Lloyd George on military and naval matters in connection, it is believed, with conditions in southwestern Asia.

Apprehension was aroused by the issuance of a semi-official statement yesterday pointing out the situation that has arisen through the collapse of General Denekine's army in southern Russia and Bolshevik penetration of Trans-Caspia. Not only was it admitted the menace from a Russian Bolshevik invasion of the near east was very real but it was pointed out that internal conditons in Persia, Turkey and Afghanistan were threatening.

In Mesopotamia too the British are forced to contend with difficulties arising from racial dissensions. It was said that a soviet advance that captures the Crimea would make the Black sea virtually a Russian Bolshevik lake, and it was further indicated that Great Britain could hope for little help from the new republics of Georgia, Daghestan and Azerbaijan, which are directly in the path of the soviet advance.

Denikine Debacle Worries

While there is a possibility the Bolsheviki may launch an overwhelming attack against Poland, the statement issued yesterday showed the greatest preoccupation of officialdom was over the debacle of Denikine's armies and the rapid advance of the soviet forces toward the Persian and Afghan frontiers.

The situation which now confronts Great Britain and more or less Japan and China, is not of sudden growth. For the past two months or more the Bolsheviki have had an almost unbroken series of successes which have swept them forward on all fronts where their forces are believed to be formidable.

Situation in Siberia

Admiral Kolchak's army in Siberia seems to have been completely defeated if not dispersed. The reds are today far east of Krasnoyarsk and are moving nearer Irkutsk. While reports from Siberia have dealt almost entirely with operations along the Siberian railroad, occasional advices have indicated the Bolsheviki have moved far south of that line and have established themselves near the Mongolian frontier southwest of Irkutsk.

Further to the southwest the soviet forces have passed Akmolinsk and are believed to have moved southward and eastward toward the frontier of Chinese Turkestan. The capture of Bokhara, less than 200 miles from the Afghan border, was announced from Moscow a week ago and it was said Krasnodovsk, on the eastern shore of the Caspian sea was firmly in the hands of the red forces. Thus from the Yenisei river

POSSESSION OF BLACK SEA PORT SOVIETS' CLAIM

Newspaper Dispatches Received in Basle Tell of Bolshevik Occupation of Odessa; Letts Push Gains in North

BASLE, (AP) — Odessa, the chief port of Russian on the Black Sea, has been occupied by the Bolsheviki, according to newspaper dispatches received here.

LONDON, (AP)—Advices to the Lettish legation here from Riga under yesterday's date state that a Bolshevik offensive along the Reschitzka-Krentzburg railway on Wednesday was repulsed. The Letts counter-attacked and captured some prisoners. The Letts took six villages between Dvinsk and Antopol and occupied the station of Pyialovo.

Reschitzka, the advices say, is surrounded on three sides and it is believed that if the Poles create a demonstration from the south a hurried retreat of the Bolshevik forces on this front will be caused.

GERMAN REGION IS UNDER SIEGE

Death Stalks in Towns where Twenty Thousand Miners are Striking

ESSEN, (AP)—Several persons have been killed and wounded in disturbances at Duisburg, Steckrade and other towns in the industrial district where twenty thousand miners are striking. The Duesseldorf region has been declared under a strict state of siege.

Troops have intervened at Frankfort to enforce orders prohibiting an independent socialist demonstration.

RADICAL LEADER'S ATTEMPTS TO PROVOKE STRIKE FAIL

BERLIN, (AP)—Attempts by radical labor leaders to provoke a general strike yesterday as a protest against the shooting of members of the mob which stormed the reichstag building on Tuesday failed completely. At one o'clock this afternoon the inner city presented its usual aspect. A few of the largest shops where radicals predominate were shut down but there were no street crowds visible in the downtown centers.

RAILWAY STRIKERS RESUME WORK IN MOST DISTRICTS

LONDON, (AP)—The strikers on the German railways have resumed work in a majority of the districts, says a Central News dispatch from Berlin today. The men, it is said, received wage increases of 200 marks monthly, while the salaries of officials were increased 150 per cent. These increases, it is stated, will bring about a deficit of an additional 1,500,000,000 marks for the railways, which probably will lead to another rise in rates.

SOVIET RUSSIA OBJECTS TO BEING DUMPING GROUND FOR AGITATORS

HELSINGFORS, (AP)—Radical agitators deported from America will be carefully examined before they are permitted to enter Russia according to a statement made to the correspondent of the Associated Press by Mr. Klishke, secretary of the soviet delegation at Dorpat, when interviewed on the subject a short time ago. M. Klishke and his colleague, M. Reukendorff were asked what Russia would do with the radicals being sent to Europe on board the "soviet ark" Buford. They professed to be uninformed on the subject but said:

"Soviet Russia will not allowed itself to be used as a dumping ground for agitators from America."

Finland, in accepting custody of the party is said to be planning to use the prominent members for the purpose of securing the exchange of Finnish political prisoners held in soviet Russia. As it is regarded uncertain whether the Bolsheviki will consent to receive all members of the party, considerable speculation has been caused by the question whether those denied admission will be turned loose between the Finnish and soviet lines to shift the best they can. It is understood the Buford will not leave Hango until the party has crossed the Finnish border.

WOMEN CHARGE MEXICANS WITH VILE OUTRAGES

Witnesses Before Senate Investigating Committee Recount Vicissitudes of American Colonists

SAN ANTONIO, (AP)—Additional accounts on the hardships endured by American settlers in Mexico since Carranza came into power were given the senate sub-committee investigating the Mexican situation yesterday by three women. Mrs. Mary Wright, Mrs. Willis, and Mrs. Bailey, residing in widely separated regions of Mexico, told of murders and outrage, Mrs. Wright describing how she concealed her daughters for days in order to keep them from the marauding Mexicans.

P. W. Warner, the organizer of the Atascador colony also was a witness. His account of the vicissitudes of the American farmers on that property was similar to that of G. E. Blalock, who testified yesterday about the devastation of the Blalock colony and adjoining property.

Mrs. Wright and her daughters left Mexico when the advice from the state department came "to get out." Before their flight, she and the girls lived for six weeks in a cane brake, subsisting on whatever they could procure. Her husband, an invalid, was back at the ranch in San Luis Potosi.

The first stage of their flight, 18 miles, was made on foot. Before they arrived at a railway station they were attacked but two Americans who accompanied them succeeded in beating back the attacking party. Mrs. Wright's motive for hiding her daughters in the canebrake was explained by telling how the rebels were in the habit of treating women.

"When they occupied our property, which was thoroughly sacked, they brought with them a group of beautiful girls," she said.

"There they were kept in a pen like they would cattle. As the rebel band moved forward the collection of girls was increased."

The Wright family returned in 1916, but again found the conditions such as to make that impossible for them to remain.

The sailors are being cared for by the consul who asked for instructions as to how to return them to the United States.

NURSES BREAK STRIKE OF MEN WHO SELL BLOOD

NEW YORK, (AP)—Men who sell their blood for transfusion operations struck for more money at the Flower hospital. They demanded $55 for a pint of blood, $30 more than they received two weeks ago, since which time the price has increased to $40. Student nurses responded as strike breakers Ten minutes after the strike started one nurse was on the operating table as a surgeon performed a transfusion operation and the hospital received a pint of blood free. Two hours later the nurse was attending a clinic.

The strike was broken. Professional blood donors were on the job today at the old wage.

ONLY LUXURIES ARE PLENTIFUL IN NICE

NICE, (AP)—Feating and dancing are absorbing the attention of Riviera guests this season. The necessities of life are not abundant and there is an actual shortage of sugar, milk and coal, but pate de foie gras, truffles, grain fed fowls and lobster abound. Everything that is luxurious and superfluous is plentiful.

The absence of fuel, visitors are keeping themselves warm by tangoing, fox trotting and appropriating every other variety of terpsichorean exercises, the Riviera having been transformed into a vast dance which absorbs all energies excepting those reserved for feasting. Meanwhile the cost of living continues to soar.

LAUNCHES CAMPAIGN TO LIMIT RULE OF TURKEY

Committee of Englishmen Purposes Liberation of Christian Areas

LONDON, (AP)—A committee has just been formed, with T. P. O'Connor, the widely known member of parliament, as president, to conduct an energetic campaign to the end that the Turks shall never again govern areas inhabited by Christians.

The committee was organized at a meeting which was addressed by W. A. Lloyd, an Australian journalist, who related stories of atrocities attributed to the Turks. Mr. O'Connor, who presided, declared that "not a single Christian subject should be allowed to remain under Turkish mis-government."

Mr. Lloyd fought against the Turks and said he had seen much of their methods since, having only just returned from an investigation of the results of Turkish rule. He stated that there was now, more than a year after the signing of the armistice, a well-equipped, well-organized Turkish army in the field, murdering wholesale unarmed Christian men, women and children.

"Only a few weegs ago," he said, "I helped to gather the mutilated bodies of some 300 or 400 little Christian children for Christian burial in Asia Minor."

BIRTH RATE IN PARIS IS BELOW PRE-WAR LEVEL

PARIS, (AP) — Traditions that the birth rate of a country always increases after a war have proved fallacious in this city at least. Statistics of the perfecture of police show the rate is still sinking. The number of births in Paris in recent months has been higher than ever but this is due to the fact that the population of Paris has been augmented by 500,000 persons during the last year. The number of births per thousand of population, the vital test, is lower at present than it was befor the outbreak of the war in 1914.

Poorer quarters of the city show a higher percentage than sections containing the home of the wealthier citizens.

CUBAN SUGAR SHIPMENTS TO GALVESTON ARE DELAYED

GALVESTON, Tex., (AP)—No more shipments of crude or raw sugar from Cuba are expected to arrive in Galveston before the latter part of January, it is announced by officials of the sugar refinery at Sugarland, to which shipments are consigned. Several cargoes had been expected to reach here early in January but these are said to have been delayed and will not reach here until the latter part of the month. During the first week of December 28,000 bags of new Cuban sugar were delivered through this port.

CABRERA IS INVITED TO APPEAR BEFORE COMMITTEE

SAN ANTONIO, Tex., (AP)—Luis Cabrera, minister of finance in President Carranza's cabinet, will be invited to appear before the United States senate sub-committee investigating Mexican affairs as an ordinary witness but the committee will not go to Mexico.

Senator Fall, of New Mexico, chairman of the sub-committee Thursday received Cabrera's invitation to go to Mexico City, to find out what Mexico really is and he announced he would reply with the counter invitation.

PROPERTY VALUE INCREASE MEETS LIQUOR REVENUE LOSS

LOUISVILLE, Ky., (AP)—Loss of revenue from whiskey, beer and wines will not decrease the revenue of Kentucky for 1920, according to the state tax commission. The commission's annual report stated that normal increase in property values and in growing industries will offset the loss in taxes on liquor.

BODIES OF VICTIMS OF MEXICANS BROUGHT HOME

Steamer Docks at Houston with Remains of American Oil Man Slain in Tampico District

HOUSTON, Texas, (AP)—The oil steamship Trinidadian arrived here yesterday with the bodies of P. J. Rouey of Houston and arl Boles of Thorndale, Texas, Americans killed recently in the Tampico, Mexico, oil district.

The bodies were accompanied by Patrick Heeney, an oil contractor at Tampico. He declined to make anEy statement beyond describing the finding of the slain men.

A member of the crew of the Trinidadian, who asked that his name be witheld, as he made frequent trips to Mexico, asserted that investigations made by the consul at Tampico, and other Americans, established that the men were killed by Mexican federal soldiers. He asserted that a bullet extracted from Boles' foot proved to be a type used only by federal troops in that district.

DISTILLERS OF KENTUCKY STILL HOLDING BOOZE

Whiskey Interests Wait Too Long for Hoped-For Reprieve Before Undertaking to Export Product Under Ban

LOUISVILLE, Ky., (AP)—Kentucky distillers still held several million gallons of liquor today, the last day before constitutional prohibition was initiated notwithstanding attempts to export it. Last unofficial figures were that 35,000,000 gallons valued at approximately $400,000,000, remained in bonded warehouses. Its fate was in some doubt. Unless confiscated by the government, it was said, much of it probably will be sold for medicinal purposes.

Whiskey interests of this state waited until early December in the belief that the president, the supreme court or congress would life the wartime prohibition ban. When the supreme court held the law constitutional and neither the president or congress raised the ban, they prepared for shipment of their stocks to foreign countries, but were said to have been only nominally successful.

About that time some Kentucky interests announced, following a similar announcement in Chicago, that they would institute a suit in the court of claims, Washington, late this month or early February in an effort to secure reimbursement from the government for the whiskey that remained in the country after today.

One almost immediate result of the permanent ban clamped down today may be the closing for good of the 300 Louisville saloons that survived the war time law by conversion into soft-drink dispensories. A number of the proprietors declared today that they cannot operate under present profits and therefore expect to begin now businesses.

Meantime, the real work of prohibition enforcement officers began today. They were said to be ready to suppress all violations of the law in this state.

BANKING INTERESTS SELL LIBERTY BONDS HEAVILY

NEW YORK, (AP)—Banking interests have been selling Liberty bonds heavily since January 1, it was learned Thursday. Much of this liquidation was said to have been by institutions seeking cash for business loans and unwilling to borrow it because of the high interest and discount rates fixed by the federal reserve bank. Stock traders caught on the wrong side of the market also have been realizing on their Liberty holdings to protect accounts it was stated.

The selling movement has been more general at interior points throughout the country than in New York, it was said.

LIQUOR FORMULAE BANNED BY MASSACHUSETTS LIBRARY

SPRINGFIELD, Mass., (AP)—The city library anounced yesterday it had removed from its shelves all volumes dealing with the manufacture of alcoholic liquors. The librarian believes this action is in keeping with the spirit of the prohibition amendment by tending to prevent manufacture.

VOCATIONAL WORK FOR SERVICE MEN IS BOON

University of Arizona Reports Splendid Progress Made by Former Soldier Students

TUCSON, Ariz., (AP)—There are now 138 former service men in training at the department of government vocational work at the University of Arizona, and about 200 others have been schooled since the beginning of the school year, according to the report of Prof. W. L. Darrow, in charge of the department.

The majority of them are getting a vast amount of good out of the instruction after they become adjusted to the new conditions. Most of them are improving in health, some of them recovering sufficiently to return to the east for replacement training that the government furnished to all disabled service men. Many of the men go to California after completing their course, Prof. Darrow says.

A number of new courses have been added to the list of studies and classes in mathematics and English have been formed to give the students a more solid basis on which to build their present lines of training.

The government hospital, which is to be located at Tucson, will work in conjunction with the vocational department at the university, and the two units will make the city a center for disabled ex-soldiers and a larger number of men can be trained in this way. Many of the slightly disabled veterans have come here at their own expense in order to take advantage of the government's training and the climate of southern Arizona.

MEXICAN BANDITS HIDE AWAY VAST TREASURES

American Mining Men's Reports Tend to Confirm Rumors Circulated Among Peons

BROWNSVILLE, Tex., (AP)—Vast treasures of silver and gold, stolen by bandits over a period of many years, are cached in the mountains of Chihuahua, Mex., and in the remote and wild sections of the Mexican states of Durango, San Louis Potosi and Zacatecas, according to American mining men who have been investigating operation of foreign-owned mines in bandit-ridden sections of the southern republic.

Among the peons rumors run of buried treasure, stored in Chihuahua and Durango mountains by the bandit, Francisco Villa, rivalling the riches Cortez found among the people when the Spaniards conquered Mexico.

CROWDED ITALY SOUNDS APPEAL FOR TOURISTS

Cities with Amazingly Swollen Populations Cry for More Visitors

ROME, (AP)—The cry for the tourists of America, England and France is heard throughout Italy. It is as strong in Venice, Florence, Naples and Genoa as in Rome.

But Italian cities have increased their population at such an amazing rate during the war that there seems to be no room for tourists. Hotels in all the larger cities are crowded to overflowing at all times. Apartments and houses are not available at any price. Rents have been kept down by law and municipal authorities are hard-pressed to find shelter for the population that has flocked to the cities.

Rome had only 550,000 inhabitants before the opening of the war. It now has 800,000 and seems to be growing daily. There are few foreigners. One seldom hears anything but Italian spoken in hotels, cafes and theatres. But the streets are crowded day and night.

In its palmist days Rome had 3,000,000 inhabitants. But in the thirteenth century, when the papacy moved to Avignon, in France, the once grand capital of the ancient world became a deserted ruin with only 13,000 inhabitants.

Finding a position is sometimes a most disheartening task. Just to rely upon friends, or upon going about and making personal applications, often tends to utter discouragement. The quick road to a position is through the classified. Sometimes this road requires more than one day to travel—but it lends inevitably to the desired goal if followed.

HE DREADED TO SEE NIGHT COME

Felt Worse in Morning Than When He Went to Bed—Gains 20 Pounds Taking Tanlac

"It sure was a lucky day for me when I began taking Tanlac," said Leo Prettner, an employe of the Hammond Lumber Company, who resides at 175 Astor Street, Watts, Cal., recently. Continuing, he said:

"About four years ago I began to suffer with stomach trouble. Everything I ate would sour and gas would form and I would have the worst sort of pains. I would become terribly nauseated and soon got so I could not retain a thing, not even water or milk. I would have vomiting spells after every meal that would leave me so weak I could scarcely get around. Often when I went home from work my wife would have tempting dishes prepared, hoping it would induce me to eat a little something, but I would have to leave the table without eating a mouthful, for the very sight of the food would make me sick. I went on a milk diet for a while, but that did me no good, as I could not keep it down. I never know what it was to get a good night's sleep, for I was so weak and nervous I could not sleep but a few minutes at a time. At this time I was mining in Yellowpine, Nev., and when I had fallen off from 185 to 165 pounds I gave up my job, for I was so weak and run-down I could not work. I was afraid I had tuberculosis and came here to California hoping the change would do me good, but it did not, for I was just as bad as ever and was so weak and nervous I would just tremble like a leaf, and I would dread to see night come for I would get up feeling worse than when I went to bed. I had taken all sorts of medicine, but they seemed to make me worse instead of better.

"Before I left Yellowpine I had a friend who had been in a condition similar to mine, and he told me Tanlac had saved his life, and urged me to try it, but I did not, for I was discouraged and disgusted with all medicines. Well, one night after coming here I read a statement of a man who was relieved by it who had been in the same condition I was, and then I remembered my friend's advice, and next day I started taking Tanlac and by the time I had finished two bottles I was a great deal better, and when I had taken three bottles I knew I was getting well, I began to eat again and my stomach was in fine shape. All the gas and nausea left me entirely. I began to sleep well again and all my nervousness disappeared. I have used seven bottles now and am back at work feeling as strong and good as I ever did in my life. I have gained twenty pounds in weight and feel ten years younger than I did a year ago. If I had only taken my friend's advice when he recommended Tanlac I sure would have been saved a lot of suffering."

Tanlac is sold in Twin Falls by City Pharmacy, in Rogerson by Thompson Drug Co., in Murtaugh by Murtaugh Drug Co., in Filer by A. B. Woolley, in Buhl by A. D. Boring Brothers Co., and in Kimberly by A. L. Stowe.—adv.

NOTED AMERICAN COMPOSER DIES

Reginald deKoven Succumbs to Attack of Appoplexy in Chicago

CHICAGO, (AP)—Reginald De Koven, American operatic composer and conductor died here early today of apoplexy.

Mr. De Koven graduated from Oxford in 1880 and studied music in Stuttgart, Florence, Paris and Vienna.

Besides writing music he served as musical critic on various New York publications.

Mr. De Koven, who had been here for several weeks superintending the production of his opera, "Rip Van Winkle", was attending a dinner at the home of Mrs. Jacob Fish, when he became suddenly ill. He died within a few minutes. The body was taken to the home of a brother-in-law, Robert G. McGann.

Mrs. De Koven had been with her husband until three days ago, when she returned to their home in New York. A daughter, Mrs. H. K. Hudson, lives in New York.

Mr. De Koven was the founder of the Washington Symphony orchestra, of which he was also conductor. He was the composer of a number of operas, and also had written various music for orchestra and piano. He also had written a large number of songs, including "Oh, Promise Me" and "A Recessional".

Among De Koven's best known operas are "Rip Van Winkle," which had its premier in Chicago two weeks ago, and "Robin Hood", "The Mandarin", "Her Little Highness" and "The Wedding Trip."

De Koven was born at Middletown, Conn., April 3, 1861.

NAVY'S MORALE NEVER WORSE

(Continued from Page One)

it is perfectly legal and perfectly proper, and does not involve, as some press comments have stated or implied, any flavor of insubordination.

Medals Source of Trouble

Admiral Sims said medals were only a source of trouble and the service in general would be glad if all could be withdrawn and the government "call it square." The "unfortunate and unnecessary" controversy, he said, had arisen because "a policy defined by the secretary" had not been written into instructions to the Knight medal award board as he and other officers had urged.

He had recommended, he added, three out of 80,000 for medals of honor and "all got something else," the only honor medal awarded going to Lieutenant Isaacs, captured by a submarine after the sinking of the transport President Lincoln.

General decoration of officers who lost their ship was without precedent in the history of the navy, Admiral Sims said. Commanders in such cases earned "the medal of honor or nothing" he added.

Gives Only Contention

"My sole and chief contention is that the action of the secretary and the Knight board in changing the recommendation made by commanding officers was absolutely without justification," continued the admiral. "The immediate superior in command is the only one who knows what each officer did."

Failure to recognize this, Admiral Sims said, "has been extremely destructive to the morale of the navy, which is already shot to pieces."

Admiral Sims had verbal tilts with several senators, particularly Senator Pittman, which caused laughter among the spectators.

"We people who have worked all our lives in the navy know that if morale is not right the navy is not right", Admiral Sims said, "and the Lord knows it has never been worse than it is now."

The awarding of some thirty medals of honor in connection with the landing at Vera Cruz, Mex., when only one or two had been recommended by commanding officers, he said, affected service morale.

Gives Committee's Aim

Opening the hearing, Chairman Hale said congress intended that the award of honors won by naval officers and men in time of war should be "beyond the influence of friendship, patronage or politics," but that there was a feeling over the country that the intent of congress had been violated.

The purpose of the committee's investigation was summed up by the chairman as follows:

To throw the full light of publicity on any person or persons responsible for lowering the value of naval wartime decorations to the recipients and thus lowering the morale of the navy by allowing friendship or politics to influence such awards and to obtain full vindication of any persons who might have been placed in a false light before the public as the result of recent charges.

HAMMOND ARRESTED

A. L. Hammond was arrested yesterday by a sheriff's deputy on complaint filed by the county prosecutor, Frank L. Stephan. Hammond is accused of disposing of property including livestock and farm machinery, to which the Bank of Kimberly claims title through a mortgage. The property is said to be valued at something over $800. Hammond is in the county jail awaiting trial.

IRISH ON HAND

(Continued from Page One)

opened the proceedings by nominating M. Bourgeois for chairman. Lord Curzon seconded the nomination and M. Bourgeois was unanimously elected. After speeches by M. Bourgeois and Lord Curzon, Signor Ferraris, on behalf of Italy, said his nation was glad to respond to the invitation "of the president and the great American people." He mentioned the skepticism amongst which the league was born and said this was a fact to be neither exaggerated nor ignored. He added that among the duties of the league would be to give attention to the high cost of transportation, the high cost of living, and the state of international finance.

Pledges Brazil's Co-Operation

Ambassador Dacunha, for Brazil, said his country would devote herself with fervor to the work of peace and fraternity among the nations. He referred to the fact that he was the only representative from America present and said he was proud to have the honor of bringing assurances of the co-operation of Pan-America in the operation of the league.

After the delivery of the speeches, M. Bourgeois announced that the only item on the order of the day was the appointment of three members of the commission to fix the boundaries of the Sarre valley, together with one member appointed by the French government and one by Germany. The council named as its members Colonel Waco, an English officer, Major Lambert, a Belgian, and Major Kobaish, a Japanese.

Meeting Date Open

After the appointment of the commissioners M. Bourgeois proposed London as the place for the next meeting of the council and this was approved. Lord Curzon suggested leaving the date and the order of business open, to be decided by the chairman and the secretary, since, he said, "It will be necessary to consult the United States on a great many questions likely to arise."

Gives Swiss Position

The Swiss federal council has made public the latest negotiations between the supreme council and the Swiss government concerning the entry of Switzerland into the league of nations. "A memorandum requests the supreme council to allow sufficient time for a referendum, and also that decisions be given concerning Swiss neutrality whether it is absolute and without reservations, according to the treaties of 1915.

Switzerland, it is added, could accept no abridgement of its neutrality.

to the Caspian; a distance of more than 2,200 miles, the Bolsheviki seem to be quite firmly established. From this line it would appear they might be able to easy incursions toward China to the southeast, or Afghanistan and India to the south. Persia lies south of the Caspian sea and Bolshevik agents are said to be active there.

Odessa Hemmed In

Odessa is virtually hemmed in by the Reds, who have moved southward until they have drawn their lines across the base of the Crimean peninsula from Nikopol to Melitipol.

Thinly veiled threats to resort to methods of terrorism should the Bolsheviki be opposed by the entente are contained in a wireless message received here from Moscow. It is said capital punishment will be inflicted upon enemies of the soviet government only when sentences are approved by the all-Russian extraordinary commission, but a return to wholesale executions was hinted should the entente nations take steps to combat Bolshevism.

FILES AMENDED COMPLAINT

In an amended complaint, filed by Sweeley and Sweeley, attorneys for the defendants, C. A. Robinson, and the Idaho Auto Supply company, charge that Minnie L. Hays, who seeks to recover possession of an automobile held by the defendants, never was owner of the property. The case involves a car taken by Robinson as the result of an election bet, the machine being staked by J. W. Hays, the loser. Mrs. Hays filed action in the district court claiming the automobile was her property.

Today's Markets

New York Exchange

NEW YORK, (AP)—A confident short interest dominated today's stock market effecting declines of 2 to 10 points in various issues, particularly oils and motors. Sales approximated 1,100,000 shares. Although call loans dropped to six per cent, a broader selling movement marked the later dealings, many stocks recording lowest quotations of the sessions. The closing was weak.

Liberty Bonds

NEW YORK, (AP)—Prices of Liberty bonds at 2:55 p. m. today were: 3 1-2's $99.12; first 4's $92; second 4's $90.94; first 4 1-4's $92.90; second 4 1-4's $93.46 fourth 4 1-4's $91.30; Victory 3 3-4's $98.50; Victory 4 3-4's $98.50.

Grain and Provisions

CHICAGO—Considerable weakness manifested itself today in the corn market owing to depression of foreign exchange rates. The fact that both British and German exchange were selling at new low records counted especially with the bears in corn. In this connection a good deal of notice was given to messages which told of export purchases of oats being canceled. Opening quotations, which ranged from 1-8 to 3-4c lower, with May $1.33 to $1.33 3-8 and July $1.31 5-8 to 1.31 3-4, were followed by a slight rally, and then by downturns lower than before.

Increased selling pressure developed on all upturns in the later trading. The close was nervous, 3-4 to 1 3-8c net lower, with May $1.32 3-8 to 1.33 1-2 and July $1.30 7-8 to 1.31 1-8.

Oats were easier with corn. After opening a shade to 1-4 to 3-8c down, with May 82 3-8, the market hardened somewhat, and then underwent a fresh sag.

PLAYING THE REDS' GAME

It is the verdict of creditable observers that the apparent bolshevik movements in parts of southern Asia and the East Indies as well as in Turkestan, Afghanistan and Baluchistan, is not so much genuine bolshevism as it is a movement directed against Great Britain.

It is evident, these people say, that those who seek aid from the Russian bolsheviki almost invariably are those elements which have fought British rule in India or British control in other parts of the world.

Their aim is simply to get Russian backing for their anti-British campaigns, but in this undertaking they are putting their heads in the bolshevist noose and sooner or later they will find themselves bound hand and foot under this outstanding example of the "dictatorship of the proletariat."

Similarly, it is hardly to be supposed that Berkman, Goldman and others of their ilk already deported or yet to be removed from this hemisphere, were prompted in their expressions of affection for the Russian soviet regime by any real respect for what they must have known it to be—a dictatorship more absolute than the regime of any czar in the history of that nation. But they choose to play the bolshevists' game—with ultimate results that may prove interesting after their destined encounter with the order of affairs which stirred their professed admiration.

Turmoil is the element in which these servants of bolshevism thrive—which must be furnished or which they must create before their base talent can be brought into play.

To their astigmatic vision the source of the disturbance is of minor consequence so long as their own immediate ends are served—and because they are so short-sighted, they are easy prey for the red monster.

The instances presented might be multiplied indefinitely to show from what a diversity of elements springs the support of the bolshevist regime, a support that is none the less real because it is insincere. The dictatorship is taking no chances with possibility of defection. It even sets guards to watch its own guards, and from such a machine for rule through fear there is little possibility of escape.

It is time that professing or non-professing friends of the bolshevik idea should give careful consideration to their position, to see whether or not they really want to pursue the course they are following to its inevitable conclusion.

TOWNLEYITES SEEM IN DIRE NEED FOR MONEY

Financial Affairs of Nonpartisan League Apparently Not Rosiest

GRAND FORKS, N. D., (Special.)—The financial affairs of the National Non-partisan league in North Dakota apparently are not in the rosiest condition.

This week there have been two interesting developments to indicate that the money which workers are collecting in other states is badly needed in North Dakota.

In Fargo, the Scandinavian-American bank, the league bank which recently was closed by the state banking board, increased its capital and surplus from $60,000 to $100,000 instead of going through with the originally announced program of increasing the working capital to $600,000, as was declared for at the league mass meeting held in Fargo when the bank was closed.

At Grand Forks, where the State Bank of Fordville, N. D., sued the League Exchange, Ltd., a subsidiary corporation of the Non-partisan league, and A. C. Townley, personally, for $3000 it was announced by counsel for the plaintiff bank that the League Exchange had paid $1000 of the account and had promised to pay to other $2000 by June 1, and in case of failure to pay, it has been stipulated that default judgment shall be returned against the defendants.

In the case of the Fargo bank, a gigantic campaign to sell stock in the bank was organized by President Townley of the Non-partisan league. The fact that only $100,000 of the proposed increase of $440,000 was finally approved by the stockholders of the bank is indicative of the results Townley's men obtained when they carried their appeal for money to the farmers of North Dakota, Minnesota, Nebraska, South Dakota, Montana and Idaho.

On Friday night, Jan. 16, the Knights of Pythias will induct a class of some forty Neophites into the mysteries of the Rank of Page, also a small class in the Rank of squire. All Knights requested to be present. Visitors welcome.

KRAMER READY FOR BEGINNING OF DRY REGIME

Prohibition Commissioner Completes Machinery for the Enforcement of Law Becoming Effective Midnight Tonight

WASHINGTON, (AP) — Prohibition Commissioner Kramer has completed organization of the machinery for the enforcement of constitutional prohibition after the amendment and the enforcement law become effective at midnight tonight. Commissioners have been appointed for practically all states as well as for the districts into which the country has been divided for purposes of enforcement of the law.

The export of intoxicating liquors will cease with the coming into force of the amendment. An enormous amount of whiskey has been sent out of the country within the past few weeks, but large stocks still remain in bonded warehouses and its disposition will be watched closely to prevent illegal sales.

Liquor held in warehouses and elsewhere for private account must be moved in homes or other places of residence by the owners before tonight at midnight. Any remaining in storage will be subject to seizure.

Home brewing of beverages containing more than one half of one per cent of alcohol also will come under the ban.

Enforcement of the new liquor law will be left largely to state, county and municipal officials, but Commissioner Kramer has given warning that where these fail to use due diligence the federal authorities will step in.

Resolutions urging "loyal citizens" to remind those who are indifferent or hostile that unless the national prohibition law is enforced lawlessness will be encouraged, were adopted yesterday by the executive committee of the Anti-Saloon league of America.

Federal authorities were urged to see that the law is upheld in those states hostile to prohibition.

ROBERTSON SAYS HE'LL PLAY HIS BEST THIS YEAR

Former Giant Gets Over Peevish Spell and Promises to Work to Win for Cubs

CHICAGO, (Special.)—Presentiments are sometimes nice things to have, especially when they work out and have served to tip one off to what is coming, but when they are all wrong they are quite likely to make one feel humiliated and sorry for having given away to anything so intangible as a mere "hunch." After all, presentiments are only "hunches."

Dave Robertson, Chicago Cub outfielder, had a hunch he was not going to like it in Chicago. When he was first shipped to the Windy City by McGraw, he declared he would quit the game. Chicago club representatives got after him and soon convinced him he should get in line.

Robertson thought he had a grievance. He was not exactly satisfied with the money offered. This was cleared and then he reported. Although he did not show to anything like what was expected of him, the Cub officials simply killed him with kindness, as did the other players. Several bonehead plays were smoothed over with the most sincere variety of sympathy. Dave felt ashamed he had entertained presentiments about the Cubs.

When the season was over Robertson sought out a private conference with Managare Mitchell. Mitchell thought Dave was on the hunt of another boost in salary. But nothing like it. Dave merely wanted to express his thanks for such royal good treatment, and at the same time whisper to the boss that he would "play his head off" in 1920, if given a chance.

Manager Mitchell, somewhat of a diplomat himself, got Dave's trend of thought at the start. He told the former Giant slugger he had confidence in his ability, assured him he would be given every consideration in 1920, then sent Dave home to Norfolk, Va.; a real Cub booster. Since the season closed, Robertson has been doing light work every day. He has already come to terms with Mitchell and is eager to get started. "This bunk about the Cub officials being slave drivers is a crime" said Robertson. "They knew how to treat a man there, and you can take it from me I am going to play my head off for Mitchell this year. I had the wrong dope on the Cubs, and it has taught me a lesson I will never forget."

NET EXPERTS OF TWO CONTINENTS TIED IN JOUSTS

England and Australian Tennis Players Stand Even at End of First Day

SYDNEY, Australia, (AP)—England and Australia broke even here today in the first round of the Davis cup tennis matches for the world's team championship. Gerald L. Patterson, the Australian racquet star, defeated his English opponent, the veteran A. H. Lowe, three out of four sets by scores of 6-4, 6-3, 2-6 and 6-2. In the other singles match Lieutenant Colonel A. R. F. Kingscote won from the youthful Australian expert, Anderson, in straight sets at 7-5, 6-2, 6-4.

Play will continue Saturday and Monday with two singles and one doubles match still to be decided. The conditions of the Davis cup matches call for four singles and one doubles match with the winner to capture three of the five contests. Australia is the defending nation, having won the international trophy from the United States at Forest Hills, N. Y., in the matches of 1914. England won the right to challenge the present holders by winning the preliminary round from France, Belgium and South Africa in 1919.

DEMPSEY WON'T GO TO FRANCE, DESCAMPS SAYS

French Promoter Quite Sure Champion Will Decline to Meet Carpentier Abroad

PARIS, (AP)—M. Descamps, manager for Georges Carpentier today said that he had received nothing definite with regard to an offer for a fight between Carpentier and Jack Dempsey. He added that so long as he was bound under contract to C. B. Cochran, the English promoter, he could give no reply to the propositions he had received. Among these he mentioned one from Tex Rickard for $200,000 for Carpentier.

"I am under the impression," said Descamps, "that the match will be fought in America for the sole reason that I do not believe Dempsey will agree to fight in our country. Carpentier would prefer to fight in France, for a much smaller purse not only on account of the climate, but through friendship for the organizers, and because of the benefit that would accrue to France. Carpentier would be willing to sacrifice half of his purse to bring ten or fifteen million francs to France."

Diamond Artists Finding Golf is Rare Conditioner

Many Ball Players Take to the Links to Keep in Shape for Coming Season

LOS ANGELES, (AP)—Golf keeps baseball players and pugilists in condition, according to a number of athletes in both classes who are making use of the Los Angeles municipal golf links in Griffith park.

"Bill" Pasica and "Toots" Shultz, of the Los Angeles club of the Pacific Coast baseball league; "Ken" Penner of the Vernon club, and "Dinnond Jim" Furnace and "Steve" Dalton are among the ball players and pugilists who have become enthusiastic golfers.

FILM MAN AFTER FIGHT

LOS ANGELES, (AP)—Jack Kearns, manager for Jack Dempsey yesterday announced receipt of a new bid from William Fox of New York for a Dempsey-Carpentier fight. Fox offers a $550,000 purse, Kearns said, to be split 75 per cent to winner and 25 to loser, and 50 per cent of the profits to be divided 35 and 15.

Brief Bits of Sport

Boxing, through the commission form of handling, returned the state of New York the sum of $300,000 last year.

Of course a small amount like that means nothing to wealthy Idaho.

—But anyhow, why not a bout or two in this Lalliwick?

Frank Moran says he is through with the ring forever.

Thanks for them kind words, Frank.

Now if Charlie Cutler, Bill Demotral and a few rasslin' guys will announce retirement, and can do it, the country will have occasion for another peace celebration.

This will make Boise fight fans mad: A Seattle item says, "Harry Gillum of Salt Lake won a decision over Al Baker of Pittsburgh."

Nothing like claiming a prominently large town for your home, you know.

Sim Smiley, sagebrush sage, says, "Many a gal goes tew college to get a "bachelor's" degree and comes home with just his ring."

Al Spink, a sports writer of St. Louis provides the illuminating information that Carl Morris is "nearly through."

That may be news to Al and to Carl, too, but not to the public at large.

Great Falls, Montana, has adopted a "practice what you preach" slogan for 1920. First off it will cease to boast in its booting.

Snowy Baker, fight promoter of Australia, says promoters in America are acting like wild men in the offers they are making for the championship battle.

And Snowy is right, too, Jack Dempsey isn't worth anything like the price offered, and it is about time the fans of the country set the stamp of disapproval on the whole hectic business, for it is the fan who foots the bill in the long run.

The profoundest, patriotism for "home stuff" does not warrant one iota of the idolism accorded the former Salt Lake resident. Neither his home record nor that since he left Utah bring much credit to the fighter.

We don't know who will be the next chairman of the National Baseball commission, but this we know full well he has our sympathy.

TO FIGHT FRENCHMAN

CHICAGO, (AP)—Johnny Coulon, former bantamweight champion, has been matched to meet Charles La Deaux, champion of France, in a 12 round contest in Paris, March 3, according to a cable received from Coulon's representative in Europe last night.

SOME FANS

OMAHA, (AP)—Joe Stecher of Dodge, Neb., and John Pesek of Shelton, Neb., will meet in a finish wrestling match at the auditorium here tonight before the largest crowd in wrestling history here. Advance seat sales are well over $20,000.

FOOTBALL PROFITABLE

SEATTLE, Wash., (AP)—Football at the University of Washington returned a record profit of $18,333.67 during the season just closed, according to a final report of Darwin Meisnest, graduate manager.

SEPARATE ROOM FOR ENGINEERING FORCE

Carpenters are Constructing a New Section to the Municipal Building

For the housing of the city engineering department a room 24 feet square is being constructed in the storage section of the municipal building. The room will face on Second avenue north and will be used by the regular engineering staff, together with the extra forces employed for the outlitional work to be done the coming year.

It is expected the city's surveying force will be increased about eight or ten men for the new paving alone. All engineering and office fixtures will be removed from the city clerk's department as soon as the new room is complete. It is the plan of the city administration to devote the new section to the purposes of the water department as soon as the excess engineering work is disposed of in the fall of this year. The engineer will probably take over the present water section of the administration building.

K. Hackman, married in Clinton, Illinois in 1885, and in 1913 Mrs. McBride deserted the plaintiff and has not returned. Five children are the issue of this marriage, four of these being over 21 years of age, the other being 16.

Weather Hits Fuel Dealers Plexus Wallop

STEADY there, old chap; the coal dealers must live, you know!

Higher than has been recorded for some time ran the mercury yesterday, with all indications pointing to a still further excelsior movement tonight and tomorrow.

In fact the official weather fixer has read the symptoms and is falling over himself in a vain attempt to catch up.

"Tonight and Saturday probably rain," he murmurs, having lost a lap or two through his standpat policy of "fair and continued cold."

The correctness of the new theory is told in low clouds hanging heavily with the private barometric gauge declining with perceptible rapidity. The atmosphere is murky with moisture and it—but one never can tell; can one?

Yesterday's temperature didn't have much of a range, and what variation there was tended over upward. The high during the day was 34 degree above zero, with 27 above for low during the night.

If the weather man's guess of "rain" for tonight is correct the nocturnal temperature should be still higher, so you can push back the extra bed cover and yank forth the mackintosh and galoshes for tomorrow.

Rupert Quintet Noses Out Twin Falls 31 to 33

Last Minute of Play Ends Brilliant Contest Against the Local Team

RUPERT, (Special.)—The Twin Falls high school basketball quintet last night suffered defeat 31 to 33 at the hands of the Rupert high school team. The contest was the fastest and most brilliantly played ever recorded here between two scholastic organizations.

The first half ended in an even score but from the starting whistle of the second half it was a battle of strength, speed and wit, with the Ruperts holding a slight edge at the finish. Carter, center for Twin Falls, was the brilliant star for the visitors.

MACHINERY IS INVOLVED

Asking restoration of a piece of machinery valued at $1250 the Filer Hardware company has instituted proceedings at law in the district court against R. W. Steele. The complaint specifies that the machinery was sold to the defendant who has failed to pay for it. The action was filed by Attorneys Hazel and Benoit.
