

PALMER AVERS DEPORTATIONS CREATE ORDER

Attorney General Gives House Judiciary Committee Views on Necessary Legislation to Curb Radicalism

WASHINGTON, (AP)—Deportation of radicals, country wide arrests of others and the "vigorous enforcement of existing laws has given notice that the United States intends to keep order and has helped improve conditions," Attorney General Palmer yesterday told the house judiciary committee.

The positive intention of the government to punish crimes of "reds" and communists has created a state of order which would have been impossible without arrests and deportations, he added. Says He Is Misunderstood "Some misunderstanding exists in regard to my attitude towards this legislation," he said. "Some said I had a plain case of cold feet, others that I had 'turned tail.' That of course is not correct. I did not attend because I could not give support to the pending rule for the Sterling-Graham bill."

More harm than good would come from repressive legislation, Mr. Palmer said, adding that pending measures were so drastic and far-reaching that they would over-reach the purpose for which they were intended. "The situation calls for legislation of simple character guarding the bill of rights but filling a hiatus in laws which exist in present statutes" said Mr. Palmer.

"There is no federal statute which is adequate to meet the situation. A condition of revolutionary intent exists in this country on the part of aliens and citizens sufficiently widespread in character to merit consideration by congress. Threats are written by persons who would injure and overthrow the government."

"And those threats which are being circulated on the part of such persons are the kind which do not entitle those who employ them to the guarantee of the so-called right of free speech."

Argument Insignificant

Mr. Palmer said he disagreed with those who claimed revolutionary utter-

ances should be met by arguments instead of statutory laws. Declaring that because of apparent dilatoriness in stopping "red" activities last summer, every newspaper in the country had "squeaked" to him, Mr. Palmer said the department by giving advance notice of intended widespread violence against the government had blocked any disturbance. "Order can only be maintained through firm enforcement of laws," he added. "Justice can not come to any part of the population without absolute observance of law and order. There are 50,000 members of the communist party in this country and the communist labor party is even larger."

MARTENS ASKS SOVIETS FOR AMERICANS' RELEASE

Suggests to Litvinoff that Bolsheviks Call Attention to International "Incongruity"

WASHINGTON, (AP)—Ludwig C. A. K. Martens, representative in this country of the Russian soviet government, made public yesterday a statement he had sent to Maxim Litvinoff, assistant commissioner of foreign affairs, now at Coppenhagen, advising that American Red Cross personnel, recently captured in Siberia, be released unconditionally. Pending that action, Martens said in a statement he wished to assure relatives of the Americans that they would be treated with every consideration. Martens suggested to Litvinoff that the soviet government call attention to the "incongruity" of the release of the Americans while "Russian citizens in America are being unjustly arrested and mistreated" and while Martens himself is under "threats of deportation."

ARMENIAN DENIES INTENT TO ALLY SELF WITH SOVIETS

BAKU, Transcaucasia, (AP)—Reports current throughout the Moslem world that the little republic of Azerbaijan would welcome an alliance with the soviet government of Russia against the allied powers are denied by Nakhb Onulbektoff, premier of the republic. He characterized such rumors as "loose talk" and said peace was the only objective of the Azerbaijan people.

TEUTONS FLOCK TO ARGENTINE

Great Increase in Foreign-Born Population Causes Grave Problem

BUENOS AIRES, (AP)—Every steamer arriving here from Latin ports of Europe and from Holland is loaded with immigrants coming here to settle. Most of those on the Dutch ships are Germans. They are attracted by the fact that Argentina is prosperous, untroubled by war and belief that it gives promise to rapid development. A great increase in the foreign population of the Argentine is expected owing to this immigration. Already nearly one-half of the population of Buenos Aires is foreign-born and a majority of these have failed to become citizens, although only two years residence is required. Many have long been residents of Argentina and are large property owners.

The influx of new immigrants has prompted a proposal by Dr. Juan Carlos Garay, professor of law in the University of Buenos Aires, to propose enactment of a law making naturalization obligatory without renunciation of citizenship in the country of birth. Professor Garay hopes in that way to solve the problem presented by failure of so many foreign-born persons to become citizens and take part in the affairs and politics of the country. He admits that this is a revolutionary doctrine but contends that for Argentina its advantages would outweigh the disadvantages.

MEXICO PLANS PROTEST AGAINST AIR INVASION

MEXICO CITY, (AP)—Details concerning the landing at Nacozari, Sonora, of Major Walton and Lieutenant Wolf, American aviators, have been requested by the foreign office for the purpose of framing and forwarding an energetic protest to the United States government. Dain has already been collected regarding previous landings in Guerrero and it will be claimed that they have been in effect invasions of Mexican territory by armed American forces.

PRESIDENT UNLIKELY TO LEAVE WASHINGTON SOON

Physician Says Improvement is Steady and Treatment Will Not Be Changed

WASHINGTON, (AP)—President Wilson is not likely to leave Washington for some time, his physician, Rear Admiral Grayson indicated in discussing reports from various sections of the country concerning impending trips. With the president steadily improving, Doctor Grayson said he thought it would be unwise to change his course of treatment. Every possible precaution to prevent the president contracting influenza is being taken, Doctor Grayson said, no one showing any signs of a cold being allowed to enter the president's room. The president's improvement from week to week is noticeable, Doctor Grayson continued. He is allowed to walk from room to room on the second floor with the aid of his cane, but so far has not been permitted to venture below stairs out of his wheel chair.

IMPROVED FREIGHT BARGES TO CARRY OIL IN BULK

PITTSBURGH, (AP)—Freight barges of an improved type are being built in a shipyard here for the United States railroad administration. They will be used on the lower Mississippi river for carrying oil in bulk and for general cargo. Each barge is 230 feet long, 46 feet beam and 11 feet deep. The hold is divided into 18 compartments and has 16 hatches. The capacity is 2,900 tons.

High School News

The University of Idaho Glee club entertained the student body assembly yesterday afternoon with several selections from its repertoire. This short but interesting program was greatly appreciated by the school.

At a special election held yesterday, Marie Leaga, was chosen vice-president of the senior class, an office which is usually filled during the second semester.

enter of the graduating class' last year. The vice-president, however, will not hold a seat in the student senate of the school.

"Lo Cerele Frances" met Tuesday evening and enjoyed an interesting program given by members of the club and others. This program comprised: Piano solo by Beta Osborn. Lecture, by Rebecca Bonwell. Piano solo by Emerson Bolt. Lecture, by George Paulson. Selections by a mixed quartet, composed of Dwight Kubas, Clive Shelby, Doretta Murray and Clara Campbell. Discourse on France by Capt. C. H. Kregel. Games followed this program and a business meeting was held, at which the students decided to admit to membership other students having successfully studied French two or more semesters. About thirty pupils were present at this meeting.

Carrying a Ton a Mile for less than a Cent

Freight rates have played a very small part in the rising cost of living.

Other causes—the waste of war, under-production, credit inflation—have added *dollars* to the cost of the necessities of life, while freight charges have added only *cents*.

The average charge for hauling a ton of freight a mile is less than a cent.

A suit of clothing that sold for \$30 before the war was carried 2,265 miles by rail from Chicago to Los Angeles for 16 2/3 cents.

Now the freight charge is 22 cents and the suit sells for \$50.

The cost of the suit has increased 20 dollars.
The freight on it has increased only 5 1/2 cents.

Other transportation charges enter into the cost of the finished article—carrying the wool to the mills and the cloth to the tailor—but these other charges amount to but a few cents more.

The \$10 pair of shoes that used to sell for \$5 goes from the New England factory to the Florida dealer for a freight charge of 5 2/3 cents—only one cent more than the pre-war rate.

Beef pays only two-thirds of a cent a pound freight from Chicago to New York.

American freight rates are the lowest in the world.

GIRL'S STORY IS PRESERVED

Testimony Regarding Socialist's Alleged Insult to Flag Remains on Record

ALBANY, N. Y., (AP)—A sensation occurred yesterday at the trial of the five suspended socialist assemblymen when, just before the luncheon recess, Assemblyman Maurice Block, a member of the assembly judiciary committee, sitting as a tribunal, moved there be struck from the records as "obviously impossible" the testimony yesterday of Miss Ellen B. Chivers, 18-year-old stenographer, that she had seen Assemblyman Charles Solgomon, a defendant, spit on the American flag in the presence of a crowd. The motion was denied by Louis M. Martin, committee chairman.

Counsel for the assembly judiciary committee, announced at the opening of the hearing that they would seek to prove Assemblyman Louis Waldman, a defendant, had made a false statement on the floor of the socialist convention in Chicago in 1917. "If I knew we could sway the boys after they get guns to use them against the socialist movement, I would vote in favor of universal military training."

John B. Stanfield made this announcement in connection with the deposition of the witness in Milwaukee, identified by opposing counsel as J. E. Harris, formerly city editor of the Milwaukee Leader—give his testimony by deposition. The witness who is said to have "sworn" at the Chicago convention, is unable to travel to Albany because of the serious illness of his wife.

Seymour Steidman asked what the prosecution sought to prove by the witness, suggesting the defense might be willing to admit the fact and save the expenditure of \$1,000 which would be incurred if the testimony were taken by deposition. When, however, he was informed what the prosecution sought to prove, he agreed to taking of the deposition.

AGREEMENT REACHED ON RAIL BILL PROVISION

Senate and House Conferees Compromise with Substitute for Anti-Strike Clause

WASHINGTON, (AP)—Senate and house conferees reached a virtual agreement yesterday upon the railroad bill, with the settlement of differences growing out of amendments by both houses to the so-called rule-making sections and the labor provisions. The compromise reached provides for elimination of the senate anti-strike clause and substitution there of provisions whereby wage disputes will be settled by wage boards composed of an equal number of employes and railroad officials. In case of a disagreement appeal would be taken to another board upon which the public would be represented.

SEARCH FOR GIRL WITH DUAL LIFE CONCLUDED

Society Rud by Nights and \$25 a Week Cashier by Day is Held in Custody in Canada

CHICAGO (AP)—The search for "blue-eyed Monda Rose", dashing bud of the North Shore society set by night and \$25 a week cashier in a wholesale leather house by day, has ended in Canada.

Monda Rose, whose daytime and nighttime name is Rose Schweitzer, has been missing for several days, and investigation of her books at the leather house is said to have disclosed a shortage of \$10,000.

Her employers announced yesterday they have received a telegram from the missing cashier, filed in Winnipeg, stating that she was about to be married in Canada and later the Canadian police reported her arrest.

While police were searching for the girl there the leather company has caused Monda Rose's \$1,500 saddle horse, \$2,000 automobile and the furnishings of her luxurious apartment to be seized.

Her mother, who works for her living in a factory, told police yesterday that the girl had gone to work when twelve years old to help support the family.

STATE FARM BUREAU MEETS FEBRUARY 9-10

Question of Affiliation with the Federation Comes Up in Boise Monday

BOISE, (Special.)—Dates finally set for a meeting of the Idaho State Farm Bureau, to vote on a proposal to join the American Farm Bureau Federation are February 9 and 10. The executive committee of the county farm bureaus will meet Monday afternoon, February 9, in Boise, and the farm bureau presidents will meet Tuesday. The call for the meeting is issued by L. W. Fluharty, director of the University of Idaho extension division, who is secretary of the state farm bureau. "About 12 states have ratified the American constitution," says a letter to Mr. Fluharty from J. W. Coverdale, of Ames, Iowa, temporary secretary of the national organization. "And we have assurances of 12 or 14 more before the March third meeting. I do not know of a single state that has held its national meeting that has turned the American organization down."

On the basis of a 20,000 membership, Idaho will be entitled to two directors for participation in a national meeting to be held at Ames, March 3, in case the Idaho bureau votes to affiliate. Farm bureau officers in the counties are being urged to make a careful study of the settlement of their territory with regard to joining the national organization.

SPOKANE MAKES INROAD ON CANINE POPULATION

Humane Society Official Reports Decrease in Number of Dogs from 5,000 to 2,000

SPOKANE, Wash., (AP)—Spokane's canine population has decreased in the last two years from 5,000 to 2,000, according to J. M. Harris, superintendent of kennels for the Spokane County Humane society. During the war, due, Mr. Harris said, to propaganda directed against the supplying of useless dogs, 2,000 of the animals were taken away with here. The normal loss of lives among dogs here is about 40 a month, due to automobile accidents, he stated, and this number is increasing steadily.

Increased demand for the better breeds of dogs is expected to have a counteracting influence. So great is this demand that the humane society has found it necessary to exterminate only a small percentage of the dogs it has impounded. Last year 1,221 dogs were taken up by the society for fulling in by license on the part of their owners, and of this number less than 300 were killed. These were either diseased, aged or otherwise useless animals.

The humane society kennels here are a distributing point for nearby parts of Canada, Idaho and Washington, and are now on hand for certain breeds of dogs cannot be supplied, it is stated.

ANTI-BELLUM SLAVE MARKET TO BE MOVING PICTURE THEATRE

NASHVILLE, Tenn., (AP)—The old building in Cedar Street here, in anti-bellum days one of the largest slave markets in Tennessee, and in later years the site of one of the South's most widely known saloons and gambling houses is to be converted into a moving picture theatre for negroes. It has been purchased by a wealthy negro real estate dealer, who as a boy was employed as a "look-on" for the gambling house on Sundays to give warning of impending raids by the police.

ANNOUNCEMENT

In these days of extremely high prices, are you interested in the idea of starting a Rochdale co-operative store? The real center of the Rochdale plan, which has been so successfully carried out for many years in other places, is the return of all net profits above expenditure and interest on stock to the patrons in proportion to the amount of business they have given to the store. The Twin Falls County Farmers' Association unanimously think that the time has arrived to start this movement, and upon the suggestion of the Department of Agriculture are sponsoring the movement. At two recent meetings of farmers held in Twin Falls some \$10,000 was pledged, the general opinion prevailed at both meetings that at least \$50,000 should be collected before making a start.

PREDICTS RAISE IN BOND PRICE

Comptroller of Currency Relieves Banks of Temporary Losses on Securities

WASHINGTON, (AP)—National banks will be permitted to carry Liberty bonds in their lists of assets at the price at which they purchased them and not at the prevailing market quotations, under a ruling today by the Comptroller of the Currency, Williams.

Mr. Williams' ruling was contained in instructions to national bank examiners. It was explained that if a bank had purchased a \$100 bond at \$97 and subsequently the market quotations for that issue was \$95 the bank would not have to absorb the loss in listing its assets.

"There is no cause for anxiety because of the recent decline in the market value of Liberty bonds," Mr. Williams said. "The fall in price is no reflection upon their intrinsic value and desirability, but the lower quotations offer investors an extraordinary opportunity to obtain the best security in the world at very attractive figures."

The comptroller added that the income of the American people was in excess of ordinary living expenses and that income had been accumulated. He said that with an estimated annual income of \$10,000,000,000 the American people soon would absorb all available national securities with the result that higher prices for them would prevail.

Happy Thought.

A married man has to be a brilliant liar to keep peace in the family. One of them talked about Mary in his sleep all night recently, and his wife's name is Sarah. And he got away with it, too.—Arkansas Thomas Cat.

Taking Baby's Picture.

Let her wear one of her "second best" white dresses, or even a play costume, and she will be more herself than if "all decked up" in her best floor, which is almost certain to give her a self-conscious look.—Exchange.

Appreciation.

Thou hast made me known to friends whom I knew not. Thou hast given me seats in homes not my own. Thou hast brought the distant near and made a brother of the stranger. When one knows thee, then allow there is none, then no door is shut. Oh grant me my prayer that I may never lose the bliss of the touch of the one, in the play of the many.—Engore.

Today's Markets

Grain and Provisions

CHICAGO, (AP)—Grain values dropped sharply today in a general rush to sell. Orders for a ten-day freight cut in the middle west gave promise of a decided increase of supplies of corn here, and this fact together with disturbed financial conditions led not only to a intensified selling pressure in the corn trade but also tended to depress the market of support. Profit taking by shorts, however, checked the decline before losses became radical.

Opening corn quotations, which ranged from 1-14 to 2-7-8c lower, with May \$1.31 to \$1.31 1-2 and July \$1.27 to \$1.28, were followed by many nervous fluctuations, but with only slight further downturns than were shown at the outset.

In the later dealings, there was considerable of a let up in the pressure of offerings. The market closed steady at 7-8 to 2c decline, with May \$1.31 3-4 to 1-21 7-8 and July \$1.28 to 1-28 1-2.

Oats displayed weakness for the same reasons as corn. After opening at 78 3-4 to 79 1-8c, the market rallied a little but then sagged again.

Unusual downturns in the value of hogs forced decided breaks in provision prices. In some cases pork fell \$1.30 a barrel.

New Spring Corsets THERE'S ONE HERE FOR YOUR FIGURE. A full line of the new models for Spring are now in stock, and we feel sure you will find just the Corset you desire for we have taken great care to secure the right styles, suitable for every figure. We take pleasure in announcing that we have secured Mrs. Cora W. Crouse, a thoroughly trained Corsetiere, who will have charge of our Corset Department. Warner's Rust-Proof Corsets When you purchase a Warner's Rust-proof Corset it is not an unknown quantity, but a thoroughly tested Corset—a garment that has been designed by the most skilful designers. They are as popular this season as ever. Why not? They shape well and shape comfortably, and wear well—as long as you should wear a corset. They wash as easily as your under-muslins. And are guaranteed not to Rust, Break or Tear. A Model for Every Need Is Now Being Shown in-- Redfern Corsets Not only are there low-cut, graceful models for evening wear, but there are Corsets, quite as graceful, for the big outdoors—splendidly designed for real comfort and sturdy wear, responding to every play of the muscle and limb. An Individual Nemo Corset Will Give You Distinctive Style and Improve Your Health The Nemo Corset fits so accurately and gives such natural support that it seems a part of yourself; it is so comfortable that you are unconscious of it. A splendid corset for full figure, exceptionally good for style and service. Warner's Perfection Waists For Children and Misses Sizes 2 to 14 years We stock a complete line of Perfection Waists for Misses and Children. They are made of the softest yet most durable qualities of coutils and batistes. The babe is better for the Perfection waist; the young girl needs our assistance in the selection of her first corset; and the careful watching of her figure as it develops. THE LEAGUE'S FRIENDS

It has lately come to light that Lynn J. Frazier, Non-partisan league governor of the state of North Dakota, soon after the conviction of the notorious Kate Richards O'Hare for sedition, wrote President Wilson that "politics and spite work played a major part in the prosecution of this woman," and stating that any action on the petition for her release, would be greatly appreciated.

Mrs. O'Hare is the woman who spoke here soon after the United States entered the world war, under the auspices of the Socialist local organization then in existence. Something more than one hundred Twin Falls people paid twenty-five cents each to hear her, and many of them retain vivid recollection of her statements that the war was being fought in the interests of the capitalists; that the American soldiers engaged in it were fit only for fertilizer of the soil of France and that their mothers were "no better than brood sows."

Mrs. O'Hare repeated these assertions in a middle western city and was taken in custody. She was convicted by a jury and had the right to appeal, and did appeal; but the verdict was sustained and she was sentenced to a five year term of imprisonment in the Leavenworth penitentiary.

Since then successive efforts have been made to secure her release. A petition for this purpose, signed by Governor Frazier, has been brought to light in North Dakota.

Needless to say a furor resulted from this revelation. American Legion posts and women's organizations of the state have adopted resolutions condemning the governor's attitude in the matter; petitions protesting against any pardon for the woman have been circulated generally and the whole case has been given wide publicity.

The significant feature of the affair, however, is that the powers that be in the Non-partisan league, far from attempting a disavowal in the premises, have inspired a mighty howl that is carried on through the medium of the league "kept press" against these petitions against pardon for her.

This evidence of friendship for the ultra-radical is not the first to be charged to the account of the Non-partisan league. The propensities and predilections of its leaders have been noted quite frequently since it first made claim to prominence. Its adherents have lacked no opportunity to learn of the condition of affairs existing in the dictatorship of the organization, and a diminishing membership attests to their capability of accepting the truth.

Those who remain in the league are not "sticking" because they have not been amply warned.

Francis and Everett Jain, who have been quite ill the past week, are reported improving.

LABOR DELEGATION FROM GERMANY JUMPS AHEAD

Last Quarter of 1919 Shows \$90,000,000 Trade Balance in Favor of the United States

WASHINGTON, (AP)—How the volume of trade between Germany and the United States jumped ahead during the last quarter of 1919, following the institution of the general license system and eliminating in a \$90,000,000 trade balance in favor of this country is shown today in the official foreign commerce statistics prepared by the department of commerce.

In August of 1919 exports from the United States to Germany were valued at \$1,009,820 and imports at \$8,893, but in September exports jumped to \$8,830,993 and imports to \$1,589,903. October doubled the September trade volume of the two countries while November was the high month of the year, exports reaching \$23,044,142 and imports \$3,228,910. A falling off came in December with exports of \$17,297,077 and imports of \$2,480,523.

FIFTEEN YEARS AGO IN TWIN FALLS

Taken at random from The News; What this date is like in 1905

C. W. Hawk's family arrived Saturday from Boise to live here permanently.

Truman O. Boyd, a physician and surgeon, has opened an office in the Jones building on Twelfth avenue.

The firm of Hill and Taylor will be ready for business next week. Mr. Hill is from Gray Eagle, Minn., and Mr. Taylor is from Sauk Centre, same state.

The firm will do a general real estate business, loans and insurance.

Martin Barry arrived Tuesday with his shoe shop. The house was built in Halley and placed on the running gears of a wagon, it took him just ten days to make the trip.

The Pioneer Harness Shop has moved into the Pike building on Main street.

TURN HAIR DARK WITH SAGE TEA

If Mixed with Sulphur It Darkens So Naturally Nobody Can Tell

The old-time mixture of Sage Tea and Sulphur for darkening gray, streaked and faded hair is grandmother's recipe, and folks are again using it to keep their hair a good, even color, which is quite sensible, as we are living in an age when a youthful appearance is of the greatest advantage.

Nowadays though, we don't have the troublesome task of gathering the sage and the mossy mixing at home. All drug stores sell the ready to use product, improved by the addition of other ingredients, called "Woolly's Sage and Sulphur Compound."

It is very popular because nobody can discover it has been applied. Simply moisten your comb or a soft brush with it and draw this through your hair, taking one small

strand at a time; by morning the gray hair disappears, but what delights the ladies with Woolly's Sage and Sulphur Compound is that, besides beautifully darkening the hair after a few applications, it also produces that soft lustrous appearance of abundance which is so attractive.—adv.

Credited Sub-Tropical Spider. The myale is one of the best known of the large and heavy spiders. It is a native of tropical and sub-tropical America. It is said that it catches and kills small birds with its poisonous bite, and then sucks the blood of its victims. The body of this spider is dark black and is covered with long reddish-brown hair. It possesses eight eyes, placed close together in the front of its head.

THE ENSIGN REMEDIES F. G. GLOYNEBIR 360 3rd Ave. N. Twin Falls, Idaho

"It was a hard life, but a good life, and a life that built MEN"

THE 14 ARMS OF THE SERVICE The Recruiting Sergeant can give you the information that will help you decide which branch fits you best. INFANTRY—The men who have made the name of "doughboy" feared and respected throughout the world welcome you to the comradeship. CAVALRY—When the horses are clamping at the bit and the "yellow legs" mount up and the troop rides forth, there is a thrill that no old cavalryman can ever forget. FIELD ARTILLERY—"Action Front" comes the command—then watch the boys with the red hat cord snap into it. CORPS OF ENGINEERS—Army engineering is known the world over for its excellence and an settlement in the engineers can be the start of a young man's training in the various branches of engineering and in any of the mechanical and building trades. COAST ARTILLERY—Living on the sea coasts, guarding big cities with big guns, getting time for study and a wide and good technical training. AIR SERVICE (including BALLOON CORPS)—The men who give the early edge in experience with aeroplanes and balloons has a chance to cash in big on his army training. ORDNANCE DEPT.—The ordnance is appealing to the students of the Army. SIGNAL CORPS—Whether it's laying a wire line or a red-hot at a gallop or installing a wireless station that will flash its message half around the world, the Signal Corps is there. MEDICAL DEPT.—Good experience, good pay, and a chance to do hospital work. TANK CORPS—The men who know gas motors and tractors or who want to know them in relation to the Tank Corps. QUARTERMASTER CORPS—The Corps that feeds and clothes the Army offers a valuable training for future business. CONSTRUCTION DIVISION—Practical work in the many trades is part of the every day life of the Construction Division. CHEMICAL WARFARE SERVICE—For a man with a little knowledge of chemistry or for any ambitious young man who would like to get that knowledge, there is interesting work and rapid advancement in the C. W. S. MOTOR TRANSPORT CORPS—A thorough practical training in motors and their accessories, and in driving as well, is given in the well-equipped schools of the Motor Transport Corps.

WHEN I got out of the Army, I raised my right hand over my derby and said, "Never again, I hope!" And I am here to state that I was just one of about 3,000,000 who felt like that—only stronger. I was my privilege to kick and believe me, I did. I couldn't get out too quick—I wanted a feather bed, restaurant food and trousers that flapped around my ankles. But now that I'm out, civil life is not all that we cracked it up to be! I've been and seen and done things that I wouldn't give up my memories of, for anything. I had a fine crowd of buddies—two-fisted men with a regular man's outlook on life. I learned how to take care of myself and all corners—to hold my own with the best and with the worst. And I learned the sort of discipline that makes a man able to handle men. I got pretty fair clothes—not as good as the Army gives in peace time but warm and plenty of them—and they didn't set me back sixty a suit, either. Meals—well, did you ever see a hungry looking soldier? We all kicked then. Some of the rear-rank generals will always kick. The Army never was a bed of roses—it was not meant to be. But the man who does his duty, who snaps into the spirit of the game, who stands on his own feet, who plays hard and plays clean—there is the chap who gets along and eats up the Army life. He learns how to handle men, he rises in rank as fast as he proves himself. He is entrusted with important and interesting work. He gets more money clear than he could save in civil life. He comes out with a better education—he has a real time with a good crowd of regular he-men. He's seen something and been something and done something for the little old U.S.A.

Where the U. S. Army Serves American troops are serving in Panama, Hawaii, the Philippines, Alaska, China, Germany, Siberia and here in the U. S. A. The Recruiting Sergeant will gladly give you all the details. Like every one else in the Army from General to Buck Private, you're under orders and if your outfit moves and you're needed elsewhere, your duty is to go. The Nearest U. S.
