ARCHANGEL IS IN POSSESSION OF BOLSHIEVIK

Whites Abandon Town and Troops Join Soviet Forces, According to Moscow Dispatch Received in London

REPORTED EVENTS TURN MEANS LINE WEAKENING

Captured City for Long Period During War was Main Port of Entry for Russian Supplies from Allies

LONDON, (AP)—Bolshevik forces have captured Archangel, on the White sea, according to a wireless dispatch from Moscow today. The "whites" abandoned the town and the troops joined the Bolsheviks, the message declared.

The last advice to the British war office on the north Russia situation was on February 18 the red forces were seventy miles south of Archangel. Bolshevik possession of the city would mean a material weakening of the Dvina line.

Archangel for a long period during the war was the main port of entry for Russian war supplies from the allies. A railroad joining the principal Russian rail lines to the south gave ingress for the war material made outside of Russia and supplied to the armies of the old regime and after the revolution to the forces of the Czarist government.

With the advent of the Bolshevik rule in Russia Archangel was mentioned by the allies as a port of contact with interior Russia, and as the supply depot for the north Russia government. The opposition to the Bolsheviks for the allied troops, including a considerable number of American troops, is to help protect the north Russian coast from Bolshevik incursion.

Abandonment of the Archangel expedition by the allied and associated powers was determined upon last year and the British, American and other allied forces were withdrawn during the summer and fall.

London advice bearing Thursday's date reported the beginning of an offensive by Bolshevik forces on the front south of Archangel, the capture of several villages on the Dvina being announced.

STRUGGLE RAGES ON AMUR RIVER

Moscow Reports Fighting Between Insurgents and Japanese in Siberia

LONDON, (AP)—Fighting has been in progress on the Amur river in Siberia between insurgent forces and Japanese, a Moscow wireless message states. "White" troops reinforced the Japanese and a fierce struggle is raging with the dispatch declared.

In regard to the situation in south Russia a Bolshevik communique today says: "Enemy ships have bombarded Genchek (on the sea of Azov). Stubborn fighting is continuing in the neighborhood of Stavropol (on the north bank of the Volga), the Volga."

LOWDEN WOULD ABOLISH INVESTIGATING BODIES

Illinois Governor Says Best Results Come from Individual Work

ABERDEEN, S. D. (AP)—Abolishment of the state of appointing commissions to investigate charges of malfeasance in office was strongly urged by Governor Frank W. Lowden, minority republican candidate for president at the primaries next March, in an address here this afternoon.

"We have gotten into the habit of these commissions and then complaining a commission and then complaining a commission and then complaining a commission."

"This was upon the theory that in the individual who does things, not hundreds or thousands of them, we have put the blame upon the person, where he will deliver an address tonight."

German Peace with Bolsheviki Looms

LONDON, (AP)—A diplomatic dispatch from Berlin today states that "undoubtedly" the forthcoming negotiations regarding prisoners between Germany and Soviet Russia will develop into peace negotiations.

POLAND SEEKS APPROVAL OF PEACE TERMS

Program to Be Submitted to Bolsheviki is to Be Scanned First by Premiers of France and England

WARSAW, (AP)—Poland's peace program to be submitted to the Russian soviet government is nearing completion and will be communicated to France and England for approval before being accepted by Moscow. Premiers Billiam of France and Lloyd George of Great Britain have already been consulted on several of the chief points under discussion.

It is expected an answer will be sent to the Bolsheviks by March 1. Ukrainian Arrested

Members of the former Ukrainian government have been arrested by Polish military authorities, who accuse former Premier Mazepa and others with political cooperation with the Bolsheviks, according to a Lemberg dispatch. At the same time Ukrainian government banks at Komelien and Polon were taken over by the Poles, who contend the banks financed propaganda against Poland.

Charge Favoritism

A motion was adopted in the Polish diet yesterday requesting the Polish government to take measures to petition the allies to recall from Czechoslovakia the interrelated plebiscite commissioners who have been accused of partially favoring Czechs in that region.

QUALIFIES GREAT BRITAIN'S AGREEMENT WITH POLAND

LONDON, (AP)—Great Britain is not committed in any way to come to the support of Poland with men, money and munitions if the "Bolshevik" troops are driven out by Polish or other forces, according to the Bolshevik Premier, Lloyd George declared in the house of commons yesterday in answer to a question.

URGES NEW STATE MONOPOLY

VIENNA, (AP)—The government has created a new state monopoly of all artificial mineral waters.

VIENNA, (AP)—Austria will hold to the treaty of St. Germain and not enter into negotiations with Hungary with regard to a plebiscite in West Hungary to determine its nationality, Dr. Karl Renner, the chancellor, told the national assembly yesterday. The allies, the chancellor said, agreed with this view of the Austrian government.

LONDON, (AP)—The German government is rushing preparations to try Germans accused of violations of the laws of war and examination of witnesses and arguments will begin next week, according to a Berlin dispatch to the Central News. Readings will open before the Leipzig court within the next month, it is said.

BERNE, (AP)—Adherence by Switzerland to the league of nations was recommended by the Swiss government in a message to parliament today. What has been known as the "American clause" by which Switzerland's entry to the league would depend upon similar action by the United States, has been abandoned and if parliament approves the recommendation Switzerland will become a member at once.

ODGEN GIRL IS CHARGED WITH COUSIN'S DEATH

Threat Accompanying Proposal of Marriage Basis for Plea of Self Defense

ODGEN, Utah, (AP)—Jeanie Scandlin, 16 years of age, is accused of shooting to death the son of her cousin, Mike Termon. The girl declares Termon threatened to kill her unless she consented to marry him and that she shot in self defense. The coroner declares Termon's pistol was slung about Termon's lifeless hand.

"The girl says she seemed being shot by hitting Termon's wrist." Then she ran into her house, "I got out her pistol and shot him three times."

TRAINING FOR WAR SERVICE IS APPROVED

Action of House Committee Means Army Reorganization Bill Will Contain General Instruction Provision

ENDORSEMENT IS VOTED ON BI-PARTISAN LINES

Details of Plan Yet to Be Worked Out But Decision is Reached to Inaugurate New System in July, 1922

WASHINGTON, (AP)—The principle of universal military training as a basis for the nation's future military policy was approved today by the house military committee by a vote of 31 to 8. Details for the commission's army reorganization bill will contain a general training provision. Details have not yet been worked out, but it was decided that the commission's proposal would become effective on July 1, 1922.

Party Lines Forgotten

The vote in the committee was along bipartisan lines, three democrats joining with eight republicans in putting the training plan through. Four republicans and five democrats opposed it.

Final action by the committee followed a three-hour executive session in which debate at times became very sharp. So-called were opinions that no details were worked out.

The preponderant view of the supporters, however, was said to have favored the training of all youths of nineteen years for a period of three or four months. Some supporters suggested six months and varied opinions were given as to exemptions, vocational training and other questions.

Refers to Sub-Committee

Finally, the committee decided that the details would be left to a sub-committee.

By its action the committee revived the universal training question, apparently dead since the recent democratic caucus went on record as opposed to any training plan. The committee also indicated that the training plan would be carried into the house, as well as into the senate.

WANTS PROFITABLE CUT

LONDON, (AP)—Agitation against profiteering in America, British West Indies, has become so widespread that the local government has been asked to pass legislation similar to the English profiteering act.

WANTS PROFITABLE CUT

LONDON, (AP)—The prince of Wales will leave on his trip to the Antipodes on March 6, on which date his ship, the dreadnought Renown, will depart from Portsmouth, according to the official itinerary given out today. It will arrive in Colon on March 23. The next day will be occupied in the progress through the Panama canal and then the Renown will turn northward, touching at San Diego, California, on March 31. From this point the trip across the Pacific will be begun and the scheduled port for reaching Honolulu on April 6, the Fiji Islands on April 15, and Auckland on April 17.

AMERICAN CAPTIVE OF BANDITS IS RELEASED

NEW YORK, (AP)—Wilson Welsh Adams, an American mine superintendent, has been released by the bandits who kidnapped him for ransom from the Providencia mine in Mexico, and has arrived today at Sanfilippo, according to a telegram received today by the American mining company, limited, his employer. The bandits demanded \$25,000 ransom, but the telegram did not say whether the money had been paid or what day Adams was to be freed. Adams' wife lives in New Orleans.

NEW YORK REPUBLICANS FOR RATIFICATION WITH RESERVATIONS TO PACT

State Convention Adopts Platform Setting Forth Views of Organization; Demands Retention of Right to Withdraw from League on Proper Notice, Declares Against Article Ten in the Present Form and Calls for Protection of Monroe Doctrine

URGES ACCEPTANCE OF AMENDMENT TO PROVIDE FOR WOMAN SUFFRAGE

NEW YORK, (AP)—Immediate ratification of the treaty of peace with the senate reservations retaining for the United States its right to withdraw from the league of nations on proper notice, a declaration against article ten in its present form and demanding protection for the Monroe doctrine "in letter and spirit," were advocated in the platform adopted here today by the New York state republican convention.

The platform says in part: "The republican party of the state of New York, in its unyielding devotion to the constitution of the United States and to the guarantees of civil, political and religious liberty therein contained, will urge all attempts to control the foundations of the government or to weaken the force of its controlling principles and ideals, whether these attempts be made in the form of international policy or of domestic agitation."

For Immediate Ratification

"We favor the immediate ratification of the treaty of peace with such definite reservations and declarations as shall make it clear to all the world that the United States retains the right to withdraw from the league of nations on proper notice, that the United States assumes no obligation, either legal or moral, to send American soldiers or sailors for service abroad if the treaty of peace is ratified, and that the Monroe doctrine is protected both in letter and spirit; that no foreign power or council of foreign powers shall attempt to control whatsoever over the domestic policies of the United States; and that the government and the people of the United States shall not be drawn, by the operation of article ten, into the so-called labor clauses, into the net spread by international socialism."

"Article X of the covenant for a league of nations, in its original form, is hereby opposed and shall be ratified by the senate or accepted by the people of the United States. To do so would not only contract away control by the American people over their own national acts, but would certainly embroil the country in an endless succession of wars, great and small.

"We believe that the proposed covenant for a league of nations is gravely defective in that it attempts to substitute discussion instead of the rule of law, for force in the settlement of international differences. We declare it to be the policy of the republican party of this state to oppose the ratification promptly to take steps for the institution of an international high court of justice to hear and decide, in accordance with the principles of law and of equity, the disputes of nations in character arising between nations, and for an international conference, meeting at stated intervals, to declare and to revise the rules of international law applicable to the conduct of civilized nations as a long step forward in promoting permanent peace, their assent to such a code of law defining the rights and duties of nations, such as the American Institute of International Law at Havana, republic of Cuba, on January 23, 1917, known as the recommendations of Havana."

Endorses Woman Suffrage

"The chief enemy of democracy has been the arbitrary government of a monarch or of a hereditary aristocracy, but the cruel and relentless domination of a class bent upon suppressing the rights and equality of all people, but upon exploiting all who are not of their own kind and vigor. We support and urge the most vigorous measures to prevent by education, by the press and by the courts, the doctrines of this dangerous and undemocratic movement."

"We earnestly urge upon the legislatures of those states that have not yet adopted the proposed amendments to the constitution of the United States, that it be promptly ratified in order that women generally may participate in the election to be held in November next for president, vice-president, the senate and house of representatives."

Would Relocate Strike

"The wage worker is entitled, as a human being, to a proper wage, reasonable hours and healthful conditions of labor, and to a share in determining the circumstances under which his personal life is to be lived."

"We favor the immediate ratification of the treaty of peace with such definite reservations and declarations as shall make it clear to all the world that the United States retains the right to withdraw from the league of nations on proper notice, that the United States assumes no obligation, either legal or moral, to send American soldiers or sailors for service abroad if the treaty of peace is ratified, and that the Monroe doctrine is protected both in letter and spirit; that no foreign power or council of foreign powers shall attempt to control whatsoever over the domestic policies of the United States; and that the government and the people of the United States shall not be drawn, by the operation of article ten, into the so-called labor clauses, into the net spread by international socialism."

Witness at Albany Trial Denies Intent to Dictate to the Unions

ALBANY, N. Y. (AP)—The socialist party never attempts to "dictate" to labor unions when striking, it is called today by a witness striking for betterment of working conditions, may always rely on the assistance of the party, Otis Brammarter, national secretary, testified today at the trial of Warren G. Gribble, Contrived and manipulated socialist assemblyman. The prosecution has charged the party approves the general strike as a weapon for promoting its class struggle.

WILSON'S REPLY CLOSES DOOR TO ALL ARGUMENT

Position of American Government on Adriatic Settlement Said to Have Been Made Plain in President's Message

FURTHER EXCHANGE OF NOTES IS ANTICIPATED

Details in International Controversy to Be Withheld from Public Pending the Allied Acquiescence to Publicity

WASHINGTON, (AP)—The position of the American government on the Adriatic settlement has been made plain in President Wilson's reply to the allied note that administration officials believe the way to further argument on the subject evidently has been closed.

It was said, however, that by this time he did not mean that the door to further exchanges had been shut. On the contrary a reply to the president's latest communication is anticipated and a final agreement between the great powers on the "vexing" question expected.

The president is understood to have made it perfectly clear that the United States cannot accept the settlement reached by the allied premiers and consequently Italy and Greece have made the subject matter of the ultimatum to Jugo-Slavia last month. He also is said to have made it equally clear that enforcement of the Adriatic terms of the secret treaty of London, stipulated before this country entered the war, would be wholly unacceptable to the United States.

The president's note probably will be put on the cables tomorrow. It was stated officially that the question of giving publicity to the settlement of the Adriatic and the delivery of the president's note and the acceptance of the allied governments.

FARMERS PLAN POLITICAL MOVE

Decide to Put Presidential Candidates on Record as to Attitude

WASHINGTON, (AP)—Entrance of the 7,000,000 American farmers as a unit into the political arena was forecast by the national board of farm organizations today, and all the presidential candidates should be put on record as to their attitude toward the questions in which farmers are interested. Each candidate will be asked to answer a questionnaire so that his position will be unmistakable.

Points Out Dangers

C. O. Drayton, president of the Farmers Equity union, of Greenville, Ill., warned the conference to be "careful of the kind of organization adopted. The greatest menace today to the free institutions of America, he said, was the "organized labor union trust" but an even greater menace would be an organized farmers trust.

Officials of other organizations told of the remarkable growth of the co-operative buying and selling idea among farmers in Kansas, Nebraska, Michigan, Wisconsin and the Idaho Farm Conferences.

"While the conference was in session, John W. Bachelor, president of the South Dakota state farmers' association, urged before the house agriculture committee congressional adoption of a resolution calling on President Wilson to call a conference here of delegates representing agricultural labor and capital.

Other conferences have been without representatives of agriculture. Stimulation of the production can be produced only by a working understanding between food producers and the labor employed in the production, he said.

INDEPENDENT WINS ELECTION OVER LABOR CANDIDATE

MEMPHIS, (AP)—The by-election for members of the senate at the meeting of the Wreckin division of Shropshire, recently held, resulted in the election of Charles Palmer, independent, by 638 votes to 571 for the independent candidate, Mr. Bayley, coalition liberal, was defeated. At the last general election Sir Charles Henry, coalition liberal, was returned unopposed. Sir Charles died in December last.

CALLS UPON HOOVER FOR POLITICAL DECLARATION

ATLANTA, Ga. (AP)—The name of Herbert Hoover cannot go on Georgia democratic presidential preferential primary ballot in April unless he is an avowed democrat, under a recent mandate by a sub-committee of the state executive committee. Petitions in his behalf have been received and the committee secretary was instructed to write Mr. Hoover and ask if he could guarantee under his calling that only the names of avowed democrats can appear on the primary ballot.

Montana Equity Arranges Co-operator's Congress at Great Falls with Townley, Frazier and Plumb as Speakers

GREAT FALLS, Mont. (AP)—Great interest throughout this state attaches to the fifth annual Co-operator's Congress, under the auspices of the Montana Union, American Society of Equity, with farm organizations and organized labor participating. Among the well known speakers at the gathering, which will meet here next Monday, February 23, and continue until February 26, will be Governor Lynn Frazier of North Dakota; A. C. Townley, president of the National Non-partisan League; Glenn Plumb, author of the Plumb plan for railroad control; B. K. Wheeler, former United States district attorney for Montana; W. F. Dunn of Butte, a member of the Montana legislature; Dr. L. B. Craighead, formerly president of the University of Montana, and now publisher of a weekly newspaper at Missoula; S. C. Ford, attorney general of Montana; R. B. Martin, Spokane, organizer for the Non-partisan League, and others.

It is announced that plans have been made for three overflow meetings, as interest in the congress is both unusual and political.

The morning and afternoon sessions of the first two days will be devoted to the annual convention of the Montana Union, American Society of Equity. On Monday evening, with J. M. Barlinggton of Great Falls, as speaker, there will be an address of welcome by Louis Newman, mayor of Great Falls, which will be followed by an address by Dr. E. F. Laidl of Fargo, N. D., president of the Agricultural College of North Dakota; who will speak on "Farm Problems We Are Solving." Glenn Plumb will discuss "The Plumb Plan for Railroad Control and Ownership." Steve Ell, president of the Montana Federation of Labor, will preside at the Tuesday evening session, at which W. S. McCormack of Kalispell, will speak on "Taxation," and General Fraser of North Dakota will tell "What We Have Done and Our Future Alma." With R. C. Anderson, former president, will begin with an address by W. J. Hannah of Big Timber on "Farm Leases at Three Per Cent." Scientific "Problems" will be discussed by A. O. Haste, and C. K. Taylor of Ploutywood will speak on "The Press."

On Wednesday afternoon W. L. Boers of the state division of Montana State colleges will take up "New Ideas on Cooperative Marketing," and President Alfred Atherton of the state college will discuss "Financing Higher Education in Montana." Miss Milgrom Quaw of the state college will talk of "The Farm Bureau at Work and at Play," and Professor W. J. Abbey will speak on "New Demands." Former President Craighead of the state university will preside.

Brings Jefferson in State Senator B. O. White of Buffalo will preside over the Wednesday evening session, while Dr. Craighead discusses "Thomas Jefferson and Where He Would Stand Today." Dr. H. C. Taylor of the federal department of agriculture will discuss "Cooperation, Production and Farm Profits," and there will be an address by J. M. Anderson, president of the Equity Co-operative exchange.

San Hampton, Boseman, Senator White and Ole Sanvik, county assessor of Hill county, will speak on Thursday morning, with H. O. Foldestad presiding.

The Rev. Leo Totten of Great Falls will speak Thursday afternoon on "Cooperation, the Climax of Civilization." J. H. McGoover, manager of the Mill and Elevator association of North Dakota, will talk of "State Owned Flour Mills and Terminal Elevators and What They Mean to the Farmer and Consumer," and W. F. Dunn of Butte will discuss "Reconstruction and the Organized Worker." R. B. Martin, Spokane, B. K. Wheeler, Butte, and President A. C. Townley of the Non-partisan League will speak at the closing meeting Thursday evening. President Townley will speak on "The Organized Farmer and Laborer."

WILSON IS SCOTCHED IN COMMENT OF EUROPEANS

Situation Created by President in Dismissal of Secretary of State Seretnghens Union of Old World Allies, Declares Italian Observer

ROME, (AP)—Commenting on the situation which has arisen since President Wilson sent his note to the supreme allied council relative to the Adriatic question, the Epoca says:

"Old Europe, with all its defects, never needs five years as needed American advice in the conduct of its affairs, while now after victory has been achieved every European action must be submitted to President Wilson. In it possible that even an American public opinion can countenance such an absurdity?"

The situation created by Mr. Wilson pleases El Tempo, which says the president's action "strengthens the union of the European allies." The Popolo Romano expresses its "thanks to Mr. Wilson" saying for the third time he has saved Italy from accepting a solution of the Adriatic question which was a renunciation of rights to which she was entitled.

The Messaggero asks for the publication of the text of Mr. Wilson's correspondence about the Adriatic question, expressing surprise that the American president doesn't abolish secret diplomacy.

The same newspaper publishes a statement from Charles Hitchcock Sherrill, former United States

minister to Argentina, saying: "For the same reason the Panama canal belongs to America, the Adriatic should belong to Italy."

BERLIN NEWSPAPERS GIVE PROMINENCE TO SITUATION

BERLIN, (AP)—Newspapers here are giving unusual prominence to dispatches from the United States bearing on the Wilson-Lansing episode and also the attitude of President Wilson on the Adriatic question. What little editorial comment there is attempts to establish the fact that there is an "insurrection against Mr. Wilson at home and abroad." This is based wholly upon the cabled information throughout Holland and Switzerland to the effect that American newspapers are taking "the part of Secretary Lansing."

The Tagblatt declares that Mr. Lansing's case has been "converted into Mr. Wilson's case, and that while it is a purely internal affair of the United States, outsiders are 'forced' to make the somewhat depressing observation that the annointed of one great nation who was hailed as the herald of world democracy and liberty is closing his career in open contradiction to the will of his people."

DUTCH ATTACH DEMANDS TO PACT RATIFICATION

Second Chamber of Parliament Approves Entrance into the League of Nations

THE HAGUE, (AP)—Decreased armament, speedy institution of a permanent high court of justice and immediate admission of all civilized nations desired to enter, were demands attached to the resolution passed yesterday by the second chamber of the Dutch parliament approving Holland's entrance into the league of nations.

During the debate it was explained that these demands did not constitute reservations, as reservations were not permitted, but were suggestions that the Dutch government would enter with the idea of having these principles adopted. Further procedure is considered more routine, as the first chamber will certainly approve the motion. In connection with the delay of America to enter the league it is learned that several European neutral states which up to some few weeks ago were inclined to wait for the final decision of America have since decided it was desirable to hasten their entrance regardless of any action by the United States.

AMERICAN CAPITAL PLANS AID TO MEXICAN INDUSTRY

MEXICO CITY, (AP)—American capitalists are reported to be planning for the development of cotton growing in the Laguna district of the state of Coahuila. This district has grown large crops of cotton for many years. It is understood also that the Americans will plant thousands of acres in Tamaulipas to wheat. The government is said to look with favor on these projects.

CIGAR OVERTAKEN AND PASSED BY CIGARETTE

Department of Agriculture Reports Smoking Prices for Tobacco Other Than Cigar Types

WASHINGTON, (AP)—The extraordinary European demand for tobacco other than the cigar types and the unusually increased use of tobacco for cigarettes, during 1919 raised the average farm price of the composite chewing, smoking snuff and export types to 41.3 cents on March 1, or greatly above the price of 21.9 cents for cigars, exports of the department of agriculture state.

The price of cigar types of tobacco before last year always has been above that of the other types, and the Cigar tobacco last year was lower in price than it was in either 1918 or 1917, not because of increase of production but because of weaker demand. Further comment on the price, the department of agriculture says the cigar has been overtaken and passed by the cigarette.

DEMAND HIGHER PAY FOR WORKER IN PORTO RICO

American Federation of Labor Representatives Complain Wages in Island as Low as 60 Cents for 11 Hours Work

SAN JUAN, P. R.—Complainants that wages for 11 hours work were paid in Porto Rico were made by Peter J. Brady and Anthony McAndrews, representatives of the American Federation of Labor. They are now in Porto Rico, where they are being demanded "a living wage" for Porto Rico workers. Messrs. Brady and McAndrews were sent to the island to investigate labor conditions. In their letter to the acting governor they denounced the situation here as being of such a character as to make Porto Rico a "living grave yard."

Children Employed
The investigators asserted that in some rare instances wages as high as \$1.50 had been paid for 11 hours work but only where the best and strongest men could be secured. "The rate of pay for women for the same number of hours was 30 to 40 cents a day. Children from 10 cents up," they informed children are far below the legal age for Signor Benedetti. "Many of these employment. Necessities of living being so high, it is impossible for these unfortunate people to live as human beings should."

In asking the acting governor to call a conference of the sugar interests, the labor investigators requested that the minimum wage for all male workers be set arbitrarily at \$2.50 per day of eight hours and at \$2.75 for women and boys but that when the work of the latter was equal to that of the men the rate of \$2.50 be paid. They added:

Call Profits Excessive
"The sugar profits are enormous, so there should be no excuse for these soulless individuals and corporations and Porto Rican statehood. This starving condition of the people of Porto Rico should not continue a moment longer. The very men who sit in the Porto Rican legislature are the worst profiteers and the most heartless."

It was after the receipt of the foregoing letter that many of the sugar operators agreed to advance wages 30 to 50 per cent with \$1.00 to \$1.50 a day as a minimum wage.

RUSSIAN SHIP CAPTAIN IS QUANDARY OVER OWNERSHIP
HONOLULU, T. H. (AP)—By mail—Captain E. Yanovsky of the Russian volunteer fleet freight steamer Omak, here for a route from New York to Vladivostok, said he is in a quandary as to who owns his craft now that the Koloahk government is no more. "The Omak is owned by the Russian government—the Koloahk government," explained the captain, "but her home port is Archangel, North Russia."
The vessel is carrying about 6000 tons of cargo to Vladivostok, including Red Cross stores, machinery, food stuffs—but no munitions.

POLICE COMMISSIONER QUIT
PASADENA, CAL. (AP)—Carl Laeg staff has resigned from the Pasadena police at a salary of \$120 a month to go to work as a brickmason in Texas for \$11 a day. Commissioner M. H. Salibury remarked that the resigning brickmason receives more than a Pasadena police commissioner he was tempted to give up his position to become a helper to the former patrolman.

Knew Value of Contrast
For several evenings after school my small daughter persisted in coming home with an exceedingly unkempt-looking child. Upon asking her why she was possessed to go with such a dirty child she replied: "Oh, mother, I like to go with her 'cause it makes me look cleaner than I am."—Exchange.

The White Deer of Casco Forest
In the Casco forest in Glen County, Inverness, Scotland, a white fawn has recently made an appearance in a herd of red deer. The animal has been observed closely through telescope, and is said to be pure white with the exception of a slight bluish mark on the neck.

"OVERTHROW WORLD ORDER" CRY COMMUNISTS

Manifesto of Communist International, Seized in U. S. Department of Justice Raids, Tells "Reds" Own Story of Their Plans for World Wide Plunder.

Excerpta from "Manifesto of the Communist International—Adopted by the Congress of the Communist International of Moscow, March 24, 1919, and signed by Comrades C. Rakovsky, N. Lenin, M. Zinovjev, L. Trotsky and Fritz Platten."

Alongside the detested dynasty of the Romanovs, Hohenzollerns and Hapsburgs, and the capitalist cliques of these lands, the rulers of France, England and the United States stand revealed in the light of unflinching events and diplomatic disclosures in their immeasurable wickedness.

Spurning the half-heartedness, hypocrisy and corruption of the decadent official socialist parties we, the Communists assembled in the Third International, feel ourselves to be the direct successors of the heroic efforts and martyrdom of a long series of revolutionary generations from Babeuf to Karl Liebknecht and Rosa Luxemburg. As the First International foresaw the future development and pointed the way; as the Second International gathered together and organized millions of the proletariat; as the Third International is the international of open mass-action of the revolutionary realization, the international of deeds. Socialist criticism has sufficiently stigmatized the bourgeois world order. The task of the International Communist Party is now to overthrow this order and to erect in its place the structure of the socialist world order. We urge the working men and women of all countries to unite under the Communist banner, the emblem under which the first great victories have already been won.

Proletarians of all lands! In the war against imperialist barbarity, against monarchy, against the privileged classes, against the bourgeois state and bourgeois property, against all forms and varieties of social and national oppression—UNITE!

Under the standard of the Workers' Councils, under the banner of the Third International, to the revolutionary struggle for power and the Dictatorship of the Proletariat, proletarians of all countries UNITE!

The Party of the Communist International, who desert the proletariat at the critical moment in order to come to terms with its open antagonists.

The growth of the revolutionary movement in all lands, the dangers of suppression of this revolution through the coalition of capitalist States, the attempts of the Socialist betrayers to unite with one another (the formation of the Yellow "International" at Berne), and to give their services to the Wilsonian League; finally, the absolute necessity for co-ordination of proletarian actions—all these demand the formation of a real revolutionary and real proletarian Communist International. This International, which subordinates the so-called national interests to the interests of the international revolution, will personify the mutual help of the proletariat of the different countries, for without economic and other mutual helplessness the proletariat will not be able to organize the new society.

Incalculable are the sacrifices of the working class. Their best—Liebknecht, Rosa Luxemburg—they have lost. Against this the proletariat must defend itself, defend it at any price. The Communist International calls the entire world proletariat to this final struggle.

DOWN WITH THE IMPERIAL CONSPIRACY OF CAPITAL!
LONG LIVE THE INTERNATIONAL REPUBLIC OF THE PROLETARIAN COUNCILS!

CHAUFFEURS STRIKE IN PROTEST AT REGULATION

Traffic Rules in Rio-de Janeiro Evoke Manifestation of Disaffection
RIO DE JANEIRO, (AP)—The Chauffeurs' union, members of which operate more than 1200 taxicabs, recently went on strike for one week in protest against traffic regulations and low taxicab tariffs. Many drivers of privately owned cars joined them and while the strike was in force the streets seemed strangely deserted.
The strikers returned to work after the street car employes failed to join them. The city and federal authorities refused to investigate the strikers' claims while they remained on strike.

—And Love.
Like a great poet, Nature produces the greatest results with the simplest means. These are, simply a sun, flowers, water and love. Of course, if the spectator be without the last, the whole will present but a pitiful appearance; and, in that case, the sun is merely so many miles in diameter, the trees are good for fuel, the flowers are classified by stems, and the water is simply wet.—Heine.

Hooped Pots and Jack Cade.
In the Middle Ages in England many drinking pots were made with hoops so that when two or more persons drank from the same pot or tankard, no one of them should take more than his share, each hoop marking a half, a third or a fourth of the contents of the pot, according to its make.

EXPEDITION NEED NOT FEAR 'WHITE CANNIBALS'

Los Angeles People Say Inhabitants of Tiburou Island are Mercely Sullen

LOS ANGELES, Cal. (AP)—Members of the mining expedition Captain Harry de Windt, an English explorer, said he plans to lead to Tiburou Island in the Gulf of California need not fear the "white cannibals" reported there, according to Los Angeles residents who have visited the island.
Persons returning from Tiburou, however, have given it an unpleasant reputation. They have reported that it is overrun with reptiles and that the few Indians living there, while not actively hostile, are sullen and distrustful.

Stories of a strange white tribe, using poisoned darts and an ancient blunderbuss to kill occasional visitors to provide native feasts, are recounted here. Some Los Angeles residents have reported seeing natives carrying modern firearms.

City Lighting Modern.
Lighting up a whole city at night is quite a modern invention, although illumination was used in some of the ancient cities. Paris and London dispute the priority in the matter of modern street lighting. London claims to have lighted its streets with lanterns as early as 1414, but this contention is disputed. During the sixteenth century lanterns for street lighting were provided at the public cost in Paris.

SPRING HATS

The new ones are here, men, and you should be just as much interested in what is correct for this season as the ladies are in regard to their new bonnets for Spring.

A glance at our window will show you the new STETSON HATS in all the latest shapes and colors. The colors are especially fresh and will harmonize nicely with most any suit you may have—Olive Green, Dark Green, Seal Brown, Hickory Brown, Pearl, and Grey Black, are all among the newest colors.

Come in and try on and see how you like them. You'll enjoy a chat about new things and the fellows in this department are always glad to see you.

The Greater
IDAHO DEPARTMENT STORE Ltd.

SKAGGS' SUMMARY

In reviewing our business records of the past several months, the one outstanding feature is the splendid co-operation given us in our efforts to combat high prices.
Provisions and Groceries (we are told) are from an economic necessity very high, yet with our MODERN, SMALL MARGIN, CASH AND CARRY SYSTEM we have been able to maintain lower retail costs than those prevailing in other sections. We feel, and are told daily by our patrons that we have saved consumers of this community hundreds of dollars from what they would have been required to pay the old-fashioned, extravagant, non-competitive credit stores—those standards of merchandising DEEMED JARGON profits.
We are conscious of the very liberal patronage we have enjoyed—our appreciation is extended to you in form of still cheaper prices. Prices based on our experience with an intelligent buying public—in anticipation of a still greater volume.
If the mill grinds to continued full capacity, the operating cost is cheaper. THE SAME IS TRUE OF A RETAIL STORE.

TURKS-CARRIED AWAY MANY CHRISTIAN GIRLS

Sickening is Record of Lustful Ogre During Last Five Years

More than 100,000 Christian girls have been dragged away during the Mohammedan orgy of rapine, butchery and lustful excesses that have made the last five years a sickening nightmare in Western Asia, must go on living their enforced lives in Moslem harems until the Near East Relief organization can come to their rescue.

This is the information sent out by the national headquarters of the Near East Relief in New York to H. G. McPike, 316 Yates building, Boise, who is directing south Idaho's part of the great rescue effort now being carried on by the Near East Relief funds, now at its height.

"Rescue of Armenian and Syrian girls held as slave wives in the harems of the persecutors and murderers of the ones they loved was the appalling mission of many Nervy American girls in the service of the Near East Relief," states Mr. McPike, "until famine's death toll beckoned and compelling effort and available funds had to be concentrated on the relief of the starving."

How he had seen scores of these rescued slaves brought to the Near East Relief stations, while he was abroad, with their once beautiful features hideously distorted for all time by their own efforts to escape with their loved ones, the despised, dark marks with which all such captives were branded to prevent their escape, is told by Major G. K. Weston, traveling auditor of the Near East Relief, who has recently passed through Idaho; inspecting the records of the relief concern.

With the cry of hunger now echoing up and down the whole Near East, this week a new and more appalling picture must have food fed at once or perish. Even now the death by starvation of more than 500,000 of these sufferers cannot be prevented, it is declared. South Idaho is asked to feed about 700 of the unbelivered, little orphans among those refugees at a cost of \$60 apiece per year. These are on the very edge of death, Mr. McKie reports. When these have been cared for, the noble work of rescuing those Christian women and girls from their torments of shame and disgrace will be resumed."

Today's Markets

New York Exchange
NEW YORK, (AP)—Balls were once more the market today but industrial, as represented by motors, oils and steels also registered substantial advances. Popular issues, including motors and steels, closed at the highest prices in years but profit taking reduced many gains at the end. The closing was steady. Sales, approximately 1,100,000 shares.

Liberty Bonds
NEW YORK, (AP)—Prices of Liberty bonds at 2:55 p. m. today were: 3 1/2's \$90.85; first 4's \$90.30; second 4's \$90.20; third 4's \$89.75; fourth 4's \$89.70; Victory 3 3/4's \$89.74; Victory 4's \$89.70.

Corn and Provisions
CHICAGO, (AP)—Wheat advances in the price of corn took place today as a result of a briek upturn in foreign exchange and owing to various orders likely to bring about a radical change in the price of railroad cars. On the advance however, sales to realize profit are broadened out, and the market reacted. Announcement of a sharp cut in the price of flour tended further to depress the wheat market. The close was heavy, 1-8 to 3-16 net lower, with May \$1.18 1/4 to \$1.20 and July \$1.20 7/8 to \$1.21 1/8, followed by moderate advances in other grades by a decided setback.

In the last hour, pronounced weakness developed, owing in some degree to reports that country offerings were increasing and Argentine advances. The close was heavy, 1-8 to 3-16 net lower, with May \$1.18 1/4 to \$1.20 and July \$1.20 7/8 to \$1.21 1/8, followed by moderate advances in other grades by a decided setback.

BLACKSMITH'S SON MAY BE PRESIDENT

Governor Lowden of Illinois, Leading Republican Candidate, Had Humble Start.

WON OVER MANY OBSTACLES

A Schoolmaster at Fifteen—Worked Way Through College and Law School—From Law to Politics—Farming His Big Interest.

Gov. Frank O. Lowden of Illinois, one of the prominent candidates for the Republican presidential nomination, won success in life by grit and hard work, son of a village blacksmith, confronted by the privations of an undeveloped country, enjoying only such advantages as he could earn by unremitting work and sacrifice—it was not the kind of beginning to promise a brilliant future. But by determination, ambition and ability Lowden traveled the obstacles that rose about him and made success look his way.

Governor Lowden was born near Sunrise, Minn., on January 23, 1861. His father was Lorenzo Lowden, who ran the village blacksmith shop. The Lowdens left Sunrise when Frank was seven years old, barely out of the primer class at the school which Lorenzo helped to build, and moved to Hardin county, Iowa. There the elder Lowden took up farming. The boy farmed, too, but did more. He made spare time for himself and demanded an education. So well did he succeed that at fifteen he was master of the country school, saving his few dollars for college. At twenty he entered the University of Iowa. By outside work he could enough money to complete his course at the head of his class.

Then he went to Chicago. He wanted to be a lawyer. By the same program of work and sacrifice that had advanced him thus far Lowden worked his way through the Union college of law, completing a two-year course in one year—again at the head of his class.

Now came more years of hard work, but blessed with greater rewards than the young man had before known. In 1890 he was married to Miss Florence Pullman, daughter of one of America's greatest business men. Four children have been born to them, a son and three daughters.

Lowden began to take an active interest in politics. He was a delegate to the national convention that in 1900 nominated McKinley and Roosevelt. Four years later he was a candidate before the Republican gubernatorial convention, but a combination of the Yates-Deneen forces defeated him. Lowden took the stump and helped elect his successful rival, Charles S. Deneen.

Two years later he was elected to congress from the Thirtieth Illinois district. He retired voluntarily after two and a half terms. On quitting congress he went to his farm near Oregon, Ill., and devoted himself to making that one of the finest properties of its kind in the state.

Menville in 1904 he had been made a member of the Republican national committee from Illinois, on which he served until 1912. In 1910 he entered the gubernatorial primary and was nominated for that office. He was elected and took his seat the following January to begin what has proved one of the most constructive and successful administrations recorded in the history of the state.

In brief, the chief events of Governor Lowden's life are as follows:
1861—Born, Sunrise, Minn.
1868—Moved to Hardin county, Ia.
1885—Graduated from University of Iowa.
1887—Graduated from law school.
1890—Married to Miss Florence Pullman.
1898—Entered law partnership of Lowden, Estabrook & Davis. Appointed lieutenant colonel, first Infantry, Illinois National Guard.
1904—Defeated for Republican nomination for governor.
1906—Elected to congress.
1911—Retired from congress.
1916—Elected, governor of Illinois.

cooperation shall be given. The strike is a weapon of industrial war and should be made increasingly unnecessary and infrequent by the better organization of industry and by the establishment of a commission or commissions on industrial relations.

Increased production, stimulation of enterprise, reduction of industrial waste and waste, and the reduction of public expenditures are a national necessity. Our system of taxation and of business regulation should be made more rational by the definite purpose to promote rather than to prevent enterprise and production.

Urges National Budget
"We urge the prompt passage of legislation to authorize a national budget. The principle of a national policy not only for use in maintaining American standards of labor and industry when present conditions change, but in order to ensure the nation's economic independence."

Opposes Plumb Plan
"We are absolutely opposed to government ownership of the railroads and to the so-called Plumb plan for their management. The transportation of the country should be privately owned and privately managed under strict government regulation."

"We think that both the national defense and proper care for our foreign commerce require a mercantile marine of the best type of modern ship flying the American flag, manned by American seamen, owned by private capital and operated by private energy."

"We change that the federal trade commission as at present constituted has deliberately prostituted its proper function." It has persecuted trade instead of promoting trade.

"We are opposed to a large army of professional soldiers. We favor the democratic policy of a small standing army, with a trained citizen reserve."

Forced into Opposition
The platform calls attention to the election of a republican congress in 1918 over the protest of the people for the election of men of his own party.

"Still the president persisted in his course," the platform says. "Both in his conduct of the peace negotiations abroad and in his advocacy here at home of ratification by the senate of his own individual work, he has assumed a purely personal and partisan attitude. He has forced the republican party to take an attitude of sharp opposition to his recommendations in order to protect the independence and to promote the highest interests of the people of the United States, as well as to open the way to the adoption of a real instead of an illusory plan for securing the peace of the world."

"We shall appeal to the people to support a policy of liberal and constructive progress both at home and abroad, one which will secure international co-operation for the preventing of war and the reduction of armaments without sacrificing love of country and American life to a false and harmful form of internationalism."

Reaping Machines.
Over two hundred different reaping machines have been patented. The first one was invented in the eighteenth century but failed through its intricacies. The Rev. Patrick Bell appeared to have originated the first practical machine of this class in 1823, and it was first used in 1827, the principle being that on which the best machines are now constructed.

Political Notes

SALT LAKE CITY, (AP)—April's been set as the date for the meeting of the Utah democratic state central committee here for the purpose of choosing the date and selecting the city for the holding of the democratic state convention at which delegates to the national convention at San Francisco June 28 will be named.

Utah's congressional representation allows this state eight full votes at the national convention. W. R. Wallace, state chairman, believes that the meeting of the state body will be held about May 10.

The republican state central committee will meet Feb. 23 to fix the convention date for the selection of delegates to the republican national convention.

Madagascar Turtles.
Some of the turtles of Madagascar are oval in form and very fat and plump; others are much thinner and flat. In order to catch them, the natives go out to sea in the early morning when the ocean is very smooth, and the turtles come to the surface to enjoy their morning nap.

Again, Swat the Fly.
The number of bacteria capable of being carried by one house fly varies from 500 to 6,000,000. Hence a crusade against this pest which is most numerous during the season of the year when epidemics are likely to occur will play a great part in prevention and spread of any malarial.

Trees.
Individual taste has much to do with the ornamental character of a tree. What one person would call an ornamental tree might not be considered such by others. Or a tree may be ornamental in one place and unattractive in another.

DEATH CLAIMS ADMIRAL PEARY

Discoverer of North Pole Succumbs at Home from Long Illness

WASHINGTON, (AP)—Rear Admiral Robert Edwin Peary, retired, Arctic explorer and discoverer of the north pole, died at his home here today from pericarditis, from which he had suffered for several years. Arrangements for the funeral have not been completed, but he will be buried with full naval honors.

Admiral Peary submitted a blood transfusion at a hospital here ten days ago. He later was removed to his home and his condition then was reported as somewhat "improved." He gradually grew weaker, however, and the end came early this morning. Dr. H. F. Strine, the admiral's physician, disclosed that the transfusion this month was the thirty-fifth to which Admiral Peary had submitted within two years.

Lured by Arctic
Admiral Peary was 64 years old and entered the navy as a civil engineer on October 20, 1881. He was assistant engineer, Nicaragua ship canal, under government orders 1884-85. Returning to the United States he became interested in Arctic explorations and 34 years ago he made his first trip to the north, making a reconnaissance of the Greenland inland ice cape east of Disco bay.

Two years thereafter he was engineer in charge of the Nicaragua canal surveys and invented rolling lock gates for the canal, but the lure of the Arctic was on him and he again turned northward in June, 1891, he led his first big polar expedition, being head of the Arctic expedition of the American museum of natural science, Philadelphia. Admiral Peary made seven other expeditions into the Arctic before he officially was successful in reaching the pole, returning in 1909 to find that Dr. Frederick A. Cook was being praised as the discoverer.

Thanked by Congress
In 1918 he was promoted to the rank of rear admiral in the navy and given the thanks of congress by a special act. Turning his attention to aviation, Admiral Peary became a strong advocate of aircraft development by the government and time and again urged adequate coast patrols in this country, especially during the war period.

Stays when Charged a Quarter for Socks

CHICAGO, (AP)—Richard Putz, aged 16, walked into a haberdashery store and asked for a pair of socks. F. F. Burchan, the clerk, showed him a pair. Putz offered a dime in payment. The clerk asked a quarter. Putz drew a gun and shot the clerk twice. Burchan died this morning and the boy was booked for first-degree murder.

GIRL WORKERS INJURED IN FIREWORKS EXPLOSION

Strove Upsets in One of Buildings of Pennsylvania Powder Factory and Flames Spread

NEWCASTLE, Pa., (AP)—Three girls were injured and three small buildings of the Conitt Powder company were burned here today following an explosion of fireworks caused when a stove was upset in one of the buildings and fire spread to the others. The loss is estimated at \$5000. Six girls ran home after the explosion, and it was first reported that they had been killed.

MEXICANS SEEK TO TAKE BROTHERS OF REBEL LEADER

EL PASO, Tex., (AP)—Two columns of federal troops from Chihuahua and Coahuila are moving upon Palomas, southeast of Ojita opposite Presidio, Texas, in an attempt to surround a force of 300 rebels under Hipolito Villa, brother of Francisco Villa, according to an announcement today by Alberto Landoval, acting consul general for Mexico at El Paso.

FOOTBALL GOES TO STATE

SAN FRANCISCO, (AP)—The \$35,000 estate left by Harry Hastings, a writer at the Elks club here, will go to the state because the public administrator has been unable to locate any relatives. Hastings came here from the east 25 years ago.

"Dead Fruit"

Leaving baseball, football and boxing aside, there is no longer a great disparity between woman's and man's athletic prowess. But whether the women should be permitted to compete with the men in the golf, tennis, shooting, and other championships is debatable ground. If the men oppose it, one can hardly blame them, for it must be years before victory over a woman will be regarded as anything but "dead fruit," and defeat as anything but a disgrace.

Subjugu.

When an army was conquered in Roman times, it was obliged to "pass under the yoke" as an evidence of defeat at the hands of the enemy. This "yoke" was sometimes made by setting up two spears and putting a third across the top. Our English word subjugu (derived from Latin sub, "in order, and iugum," or yoke) thus contains in its composition a spectacular custom from the military life of the Romans.

YOUNG CHICAGO GUNMAN HANGED IN COUNTY JAIL

"Smiling Jack" O'Brien, Slayer of Patrolman, Goes to His Death

CHICAGO, (AP)—John "Smiling Jack" O'Brien, 21-year-old gunman, was hanged in the Cook county jail this morning for the murder of Patrolman Richard Harris.

The execution was delayed nearly an hour when a last minute request was received from the grand jury, asking to see O'Brien. The jurors remained in the death chamber and watched the hanging.

DETROIT-DENVER HIGHWAY ASSOCIATION ORGANIZES

DES MOINES, Iowa, (AP)—The Detroit-to-Denver Highway association perfected its organization at a meeting here yesterday afternoon. Michigan, Indiana, Illinois, Iowa, Nebraska and Colorado were represented. Plans were discussed for starting work immediately on establishing a reliable and permanent highway from Detroit to Colorado Springs.

Derivation of "Hoodlum."

Hoodlum now means a young, rough rowdy. The term is derived from a gang of toughs in San Francisco, under the leadership of one Muldoon. They were called for the name of their leader, the syllables of whose name, out of contempt, were reversed and slightly modified. Instead of Muldoons they were called Hoodlums.

Newly Painted Windows.

To prevent newly-painted windows from sticking, open and run them up and down two or three times a day for three or four days. Unless this is done the windows are almost bound to stick. Always paint them as early as possible in the day so as to give them a chance to dry before you fasten them at night.

TO BUILD BIG LABOR TEMPLE, \$90,000 COST

E. M. White Takes Out Construction Permit for Union Hall on Third Avenue

A temple to cost \$90,000 for construction is the plan of labor in Twin Falls.

This morning E. M. White, acting as agent, took out a building permit in the name of the Twin Falls Labor Temple association. The structure is to be erected at the corner of Third avenue east and Second street. It will stand on foundation walls 100 by 125 feet and is to be two stories of brick construction.

Deaths

Mrs. T. D. Conner, former Shoshone county treasurer, died at her home in Filer last night. Funeral services will be held at 2 o'clock tomorrow afternoon at St. Peter's church.

The infant daughter of Mr. and Mrs. J. A. Cox died at a local hospital yesterday afternoon. The child was born four days ago. Funeral services will be held this afternoon at DeWitt's. Burial will be in the Twin Falls cemetery.

Alce Hampton, wife of J. M. Hampton of Berger, died at 11 o'clock yesterday morning of the home in Berger. Death was the result of pneumonia following influenza. The body is to be forwarded to Bozworth, Missouri, for burial. The husband and three children survive. Decedent was 30 years of age.

Returning to Earth: Discussing evidence of dawning appreciation in Europe of the underlying significance of reconstruction problems.

The plain fact seems to be that consideration of the economic welfare of Europe is being more and more subordinated to national aspirations.

Perhaps as interesting as any new rule adopted by the army, navy and civilian board is that which concerns the champion who stalls for indefinite periods at the rate of a defended title.

Such on things which have been a great annoyance to everybody concerned at a boxing contest is that in which the second is "played as the big card."

There always has been an argument after a contest by one of the principals that he was beaten by a referee prying him apart from his antagonist.

Free Hot Water: Free hot water for hot drinks at picnics or for any other use is served to the public at a recreation park in Toronto from a gas water heater placed on the grounds by the city.

First Motion Pictures: The motion picture was experimented with and test exhibitions were privately given in both this country and Europe in the early nineties.

Lon Long Life: Authorities differ as to the age limit of a man. Some biologists fix the normal span of a man's life at about twenty-two years.

It must be apparent that before the American producers and traders can be in position to take advantage of trade agreements no matter how favorable, they

must be equipped therewith to use these advantages; and it should be as plainly evident that even conditions in Europe, if they are as favorable for American trade as the New York institution avers, can be of no advantage to America so long as Americans permit the situation described by the comptroller of the currency to exist.

The only solution, as Europe already is finding out, is to increase production and reduce consumption of non-essentials until such time as the stores of the world, so sadly depleted by the war, are built up again.

Although huge laboratories turn out 36,000 bottles daily thousands of dealers cannot be supplied.

NEW WRITING CODE OF A-N. BOARD TO HELP SPORT

By Ray Pearson: If the rules which the army, navy and civilian boxing board has promulgated are accepted there should be considerable improvement in the glove sports in this country but throughout the world.

The Marquis of Queensberry rules have been followed year after year in boxing contests in this country, but they have not been maintained.

Perhaps as interesting as any new rule adopted by the army, navy and civilian board is that which concerns the champion who stalls for indefinite periods at the rate of a defended title.

ALMOST IMPOSSIBLE TO SUPPLY ENORMOUS DEMAND FOR TANLAC

40 CARLOADS SOLD IN JANUARY ALONE: After shipping 838,400 bottles of Celebrated Medicine in One Month Factory is Still 380,000 Behind with Orders

Although the big Tanlac laboratories at Dayton, Ohio, and Walkerville, Canada, have been running at top speed for months, it has been a physical impossibility to supply the phenomenal and every increasing demand for this celebrated medicine.

During the first ten weeks of last year One Million Three Hundred and twenty-seven thousand bottles of Tanlac were sold, breaking all world's records for the sale of proprietary medicines in that time.

Of the orders received during January it was possible to ship only eight hundred and thirty thousand bottles, and thousands of dealers scattered throughout the United States and Canada have been unable to obtain the medicine for weeks.

"Phenomenal and bewildering" is the way one of the big drug jobbers of the country describes the marvelous demand for Tanlac.

"We know that the day of miracle has passed, and we all know that there are no unattractable mysteries in the drug business, but this Tanlac proposition smacks of both," writes another leading wholesale druggist.

Think of one retail firm selling one-third of a million bottles of any one medicine right over the counter direct to consumers in only four months!

Think of one retail firm in a single city of 200,000 population, selling approximately eighty-eight thousand bottles, an average of over two bottles for every family in only four months!

Think of one retail firm giving a single order for an entire carload, twenty-three thousand and forty bottles, and agreeing to pay cash for the goods promptly on arrival.

When the magnificent new laboratories at Dayton, Ohio, and Walkerville, Canada, with a combined floor of several thousand square feet, and a combined capacity of thirty-four thousand bottles were completed, it was thought that the production would be sufficient to supply the demand for years to come.

Tanlac has now been on the market for five years. It has stood the acid test of time. It is known and honored in every city, town, village, and hamlet on the American Continent from Key West, Florida, to the Northern wilds of Canada.

It is enormous and ever-increasing popularity is the one great outstanding proof of its wonderful merit. No medicine, no matter how extensively advertised, could sell and continue to sell and establish new world's records year after year if it did not produce actual and positive results.

That is why Tanlac has become the real sensation of the drug trade all over America. Tanlac is sold in Twin Falls by City Pharmacy, in Rogerson by Thompson Drug Co., in Murtaugh by Murtaugh Drug Co., in Ellier by A. B. Wood, in Buhl by C. D. Boring Brothers Co., and in Kimberly by A. L. Stowe—adv.

RECIPE TO CLEAR A PIMPLY SKIN

Examples are Impurities Seeking An Outlet Through Skin Pores

Pimples, sores and boils usually result from toxins, poisons and impurities which are generated in the bowels and then absorbed into the blood through the very ducts which should absorb only nourishment to sustain the body.

It is the function of the kidneys to filter impurities from the blood and pass them out in the form of urine, but in many instances the bowels create more toxins and impurities than the kidneys can eliminate.

The surest way to clear the skin of these eruptions, says a noted authority, is to get from any pharmacy about four ounces of Jad Salts and take a tablespoonful in a glass of hot water each morning before breakfast for one week.

Jad Salts is inexpensive, harmless and is made from the salt of grapes and lemon juice, combined with lithia. Here you have a pleasant, effervescent drink which usually makes pimples disappear, cleanses the blood and is excellent for the kidneys as well—Adv.

BISHOP TOURET IS STRICKEN, CANNOT COME HERE NOW

Head of Episcopal Diocese Stricken and Confined to His Room in Boise — Services Will Be Conducted Sunday by Archdeacon Stoy and Dean Chamberlain—Receptions and Baptisms Tomorrow Afternoon

Although all regular and extraordinary services planned by the vestry and members of the Episcopal church will be carried out as scheduled, Bishop Touret will not be present to officiate. Information reaching Twin Falls today tells of the illness of Bishop Touret at Boise. The archbishop of the Episcopal diocese of Idaho is said to be suffering from an attack of grip and is unable to leave his room.

The information was delivered by Archdeacon Howard Stoy when an effort was made by telephone to reach Bishop Touret with a request that he preside at Sunday's memorial meeting. The bishop's Legion in the high school auditorium.

Illness of the bishop will not, however, interfere with reception plans made for tomorrow night's services, except the form of confirmation, which will be conducted according to plans. Archdeacon Stoy and Dean Alward Chamberlain will take at the Episcopal church Sunday morning, and it is probable that these dignitaries of the Episcopal church will participate in the Legion memorial services Sunday afternoon.

Tomorrow's schedule, devised for the entertainment of the church party, includes formal receptions at the Hotel Ferris and baptismal services at the church during the afternoon. At 5:30 o'clock supper will be served in Parish hall by the Women's guild, with reception of Archdeacon Stoy and Dean Chamberlain afterward. A business session will follow when the proposed plans of Bishop Touret will be submitted to the people of this parish. It is expected that a personal message from the bishop relating to the early filling of Ascension church pulpit.

Arriving today both Archdeacon Stoy and Dean Chamberlain arrived in Twin Falls and will spend today and tomorrow acquainting themselves with church conditions here and preparing for tomorrow night's services with the church people. Tonight at 8 o'clock these churchmen will meet the men of Ascension parish for a discussion concerning matters and things in general as they relate to church work, but the session's most important topic will be with relation to the nation-wide campaign now being conducted. Every man member of the church here, as well as all persons interested, is asked to attend tonight's session.

RELIEF DRIVE TEAMS FALL SHORT OF QUOTA

Total Result of Morning's Carves for Near East Fund is \$700 Short of Allotment

Out of a quota of \$3000 allotted the city of Twin Falls to be subscribed to the Near East Relief fund, \$2000 was gathered at this morning. Twenty-one teams canvassed the business section, where that amount was obtained. Final reports were made at 1 o'clock. This afternoon the drive will be intensively pushed to get the remaining amount.

"We are not discouraged with the amount so far gathered, but I am personally convinced that we will go over the top by tomorrow night," said Chairman E. L. Ashton of the general committee at the conclusion of this morning's work. He added, however, that volunteer response had not been what was expected.

The residence district has not been canvassed yet, according to the chairman, who urges that any person who has not been approached for subscriptions send their checks to his office early so that a check on the entire situation can be made without delay.

NO INTEREST SHOWN IN BASEBALL PLANS

Freedom of Twin Falls Falls to Have Representation at Officers Meeting

In an attempt to stimulate interest in league baseball in Twin Falls C. J. Moss and R. H. Gibbs of Buhl, organized in this city a meeting of business men and executives of the chamber of commerce. Mr. Moss is secretary of the South Idaho Baseball league. With other members of the club here, he met with members of the chamber of commerce last night and outlined a proposed league circuit plan, together with a playing schedule to cover the season. There was no representation from the local fan element at the meeting.

The question of furthering interest in baseball here for the coming season has been left with the members of the chamber of commerce, who will make a more intensive canvass of the situation in order to get a true index of the feeling here. Buhl officers have designated for the operation of the league, and indicate an intention to play the game according to business principles.

Snow Comes But Soon Passes in Face of Old Set

As how fell the snow, mantling green with a shade of white, And, ah, some more, how came a glinting sun with keen blaze blasting that crystal cover until it ran in liquid stream all about us, a smoky higher and mud that crawls up higher and higher the farther one traipses.

A third time, for that is the magnitude of the weather, tonight and tomorrow, which cannot be believed in the face of the glowing gleams of the sun's orb. Get these hints away behind us, for we believe the prognosis not a whit.

Temperature thermometer was 49 yesterday and 56 was low last night. There fell one and a quarter inches of snow, bringing 18-100 inch of moisture.

COMMITTEE FOR PROHIBITION OF SALE OF SHIPS

Orders Favorable Report of the Jones Bill While House Members Take Hand in Controversy and Call Payne

WASHINGTON, (AP)—The senate commerce committee today ordered favorably reported Chairman Jones' bill prohibiting the sale of the 26 former German passenger liners except as may be provided by congress.

While no record exists on the bill, the committee previously adopted a motion, 10 to 3, proposing that the sale be prohibited.

House Takes Hand

The house merchant marine committee also took a hand in the ship controversy when Chairman Payne appeared to repeat testimony already given on the same subject before the senate commerce committee. Some of his evidence was supplementary, questions by committee members bringing out the fact that President Wilson had formally approved the board's decision to sell the vessels, writing "action of the board approved" on a copy of the resolution referred to him.

Navy officials had appraised the 30 ships at "substantially less" than the sealed bid of \$38,000,000 received for the Leviathan and twenty other ships of the fleet, Mr. Payne said. An appraisal by navy officials on 10 ships, including the Leviathan, he added, was approximately \$20,000,000.

Urges Heavy Bond

While the committee hearing was in progress, the board's decision to sell appeared before Associate Justice Bellamy in the district supreme court to urge that William Randolph Hearst, on his taxpayer petition a temporary injunction against the sale as been issued, should be placed under \$5,000,000 bond to cover possible losses to the government due to the tying up of the craft by legal proceedings. They estimated the daily prospective loss at \$20,000 and also pointed out that a contract to sell the Swamse for \$2,000,000, held up by the injunction, expired today.

Argues Public Interest

Counsel for Mr. Hearst contended that only nominal bond should be required, as board officials told congress all bids had been rejected and that no sale would be made without specific permission of congress.

The Hearst suit, it was stated, not for his personal gain but in the public interest to prevent loss to the government and counsel added that a bond of \$5,000,000 required of a single taxpayer would prevent public-spirited persons in future from applying to the courts in similar cases.

Justice Calloway said he would be prepared tomorrow to fix the bond and indicated that the process already incurred as to the proposed sale probably would govern the amount of the bond.

MILITARY HONORS PAID VETERAN OF CIVIL WAR

Comrade of G. A. R. Conducted Funeral Services for Late Ensign Eagle of Hazelet

Military honors were paid by Dan McCook post, Grand Army of the Republic to the late Ensign Eagle of Hazelet, who died here Tuesday morning after several years of failing health, and for whom funeral services were held here yesterday with interment in the Twin Falls cemetery.

Mr. Eagle was born in 1841 in Miami, Mo., and served in the 21st Infantry, 15th Regiment of Kansas Infantry volunteer, falling in the army September 18, 1862, at a farm, during the war or the period of the war, and was honorably discharged at Little Rock, Kan., June 13, 1865. He served in the army under General Sherman, fighting in many of the "hardest battles" of the war and participating in Sherman's march to the sea.

Mr. Eagle was first united in marriage to Evaline Halling and this union one child was born. Both the mother and child died. In 1869, at Willow Creek, Kansas, he married Marjaret Freeman, who, with seven children, three sons and four daughters, survived him.

Mr. Eagle with his family resided in Trinidad, Colorado, until 1912, when they moved to Hazelet, Idaho.

Surviving children are Mrs. Lulu Berry of Gunnison, Colorado; Jeff Eagle, Lateral Falls, Oregon; Mrs. Elva Stearns, Santa Ana, California; Mrs. Beattie Triplett, Oregon; California; Mrs. David Robinson, Hazelton; Ralph Eagle, Twin Falls; Elmer Jule, Jerome.

MURPHY PAROLED

Mr. H. Murphy recently paroled on charge of robbery, has been ordered paroled by Judge W. A. Babcock after a penal sentence of from one to 13 years servitude had been imposed. Murphy has been granted time to assist his family here and will then return to his old home in Ohio.
