Palmer State Attorneys General for the government and the packers, Chief Justice Mc Coy presided at the hearing on the decree.

Palmer said the decree had been agreed to by the defendants "not because of guilt, but that the American people are entitled to know that there is not the remotest possibility of a food monopoly by the packers."

Millard Opposes Governmental Intervention in Walkout of Bailmen

PARIS, (AP)—Governmental intervention in disciplinary measures taken by the Paris, Lyons and Mediterranean Railway company toward its employees is opposed by Premier Millerand, who arrived here yesterday and at once plunged into consideration of the strike situation confronting the country.

Delegates of railway workmen's unions conferred with the premier yesterday afternoon relative to some action which would bring about a reconsideration of the dismissal of a workman named Campanaud, which caused the walkout of the men of the Paris, Lyons and Mediterranean line.

Millerand advised the men to submit their case to arbitration. The delegates were impressed by the premier's vigorous language, says the Echo de Paris, and will probably see him again.

Meanwhile, the railway leaders in addition to Campanaud, it has been alleged Campanaud was discharged for having absented himself from duty to attend a union meeting.

Representative Brown contended that the California statement that the Standard Oil had been acquired before the discovery of oil in California was incorrect. Representatives of the department of justice, opposing the bill, said appeal would be useless, as the government was convinced no fraud had been practiced.

It was estimated after numerous sympathizers with the union men had gone over to the United States that the total number of men on strike was apparently 15,000.

SENATE FIGHT DEVELOPS OVER DOMESTIC QUESTION RESERVATION TO TREATY

Democrats Oppose Lodge Proposal to Reserve to United States Right of Decision and Give Support to Hitchcock Substitute Defeated Last November, Limiting Scope of League's Request in Similar Premises

REPUBLICANS ARGUE OPPONENTS FAVOR AMENDMENT TO COVENANT

WASHINGTON, (AP)—The domestic questions reservation to the peace treaty was up for consideration today in the senate, following the defeat of the treaty by a vote of 68 to 4, of the reservation regarding mandatories.

Senator Lodge's draft of the domestic questions reservation would reserve to the United States the right to decide what issues, such as immigration, are purely internal and therefore not subject to the jurisdiction of the league of nations.

Republicans have argued that the Hitchcock draft is an amendment to the treaty instead of a reservation because it affects all nations and therefore would have to be submitted for approval to the other signatories to the pact.

PROVISIONS OF HOME RULE BILL GIVEN TO PUBLIC

Two Parliaments Proposed with Council for Ireland as Nucleus for Eventual Union of Erin

LONDON, (AP)—The government tonight made public the text of its Irish home rule bill introduced in the house of commons on Wednesday night, through its first reading by title. The measure follows closely the outline of the proposals made by the cabinet.

The northern area would be composed of the counties of Antrim, Ormagh, Down, Fermanagh, Londonderry and Tyrone and the boroughs of Belfast and Londonderry.

The bill provides that the united parliament, if formed, would control the executive, legislative and judicial powers of the new state, and also provided for in the bill. The legislative powers of the new council would be only those granted it by the two legislatures, and the franchise of the house will form a nucleus around which would be built one parliament for the whole of Ireland.

At the outset according to the bill the parliament would have full control of education, local government and the land policy, agriculture, roads and bridges, transportation, old age pensions, insurance, municipal affairs, housing, hospitals and licenses, all the judicial offices would be controlled by the Irish parliaments, each body controlling the officers in its own district but there would be a court of appeal for the whole of Ireland, presided over by the lord chancellor.

What the government considers one of the chief advantages in drafting the bill is that the parliament is a provision specifically prohibiting either body from establishing any particular religious creed or penalizing anyone for belonging to, or not belonging to any religious denomination.

AMERICA HOLDS SEVENTH PLACE FOR RISE IN LIVING COST SINCE YEAR 1914

WASHINGTON, (AP)—Living costs have advanced more in six foreign countries since 1914 than in the United States, according to a comparison of retail food prices in nine countries, including America, made today by the bureau of labor statistics. In Australia and New Zealand, however, the advance was less than in this country.

Taking July, 1914, as the base point, the bureau shows that the retail price of the principal food articles in the United States had increased by 88 per cent in September 1919, compared with

advances of 116 per cent in Great Britain and 93 per cent in Canada during the same period. In August 1919 the increase in the United States was 96 per cent compared with 108 in France, 116 in Norway and 121 per cent in Sweden, while in Australia and New Zealand prices climbed but 44 per cent.

In April 1919, the latest report from Italy, showed an advance of 141 per cent since August 1914 in this country. In September food prices had advanced 159 per cent in Paris and 116 per cent in Rome.

PUBLICITY FOR PREMIERS' NOTE WAITS CONSENT

Reply of France and England to Wilson's Communication on Adriatic Settlement is Received

BRITISH WILL PUBLISH OTHER COMMUNICATIONS

Exchanges with Italian and Jugoslav Governments Not Disclosed in America to Be Given to European Public

WASHINGTON, (AP)—The reply of the British and French premiers on the Adriatic question was received today at the state department. It was sent to the White House immediately after being decoded.

White House officials would give no intimation as to the nature of the reply, which was drafted within 24 hours after the premier had received President Wilson's note. In that note the president addressed to his general position that unless the Adriatic settlement in principle he would have to consider withdrawing the peace treaty and the French-American alliance from the sea.

It was announced that the terms of the premier's note would not be made public by the American government without the consent of the premier. This is being sought. Officials believe the premier will consent to simultaneous publication of the latest reply on both sides of the Atlantic.

Further Publicity Indicated The state department has learned that the British government is to publish communications they had after December 1919. Wilson's latest communication, which have not been received or communicated to the American government.

WILSON WAS TO BE CONSULTED

Premiers Deny Intention to Make Adriatic Settlement Without America

LONDON, (AP)—The reply made by Premier Lloyd George and Millerand to President Wilson's latest communication on the Adriatic question repeats the assurance that they "never had the intention of making a definite settlement without obtaining the views of the United States government."

The reply, which is dated February 26, states that the absence of an American representative had proved in practice a serious obstacle to the progress of the negotiations.

The premier observes as a fact of the greatest importance that President Wilson expresses a willingness to accept any settlement which is acceptable to Italy and Jugoslav regarding their common frontier in the Rigno region, providing such agreement is not made on the basis of compensation elsewhere at the expense of nationals of a third country.

This, the premier says, would be an ideal way of settling the question and they express willingness to do this, but they do not believe the settlement is on this road. In order to facilitate this process they are ready to withdraw their proposals to December 9 and January 9, because he believes in the principle of the Italian and Jugoslav governments to negotiate an agreement on the basis of withdrawal of all previous proposals.

HUNS EVIDENCE LASTING HATE

Feeling Against England Manifested at Kiel Toward the British Officers

KIEL, (AP)—The intense feeling still existing in Germany against England was manifested toward some British officers who accompanied the inter-Allied commission of control on a recent visit here. The town was crowded with German sailors who were clean and smartly dressed. They passed by with averted faces, but civilians on the contrary showed the keenest interest and stared at the visitors, occasionally remarking "Gott strafe England." The British visitors took no notice and walked on, followed by a train of small boys, many of whom repeated in childish frolic "Gott strafe England" at intervals.

The shopkeepers, however, were quite friendly and trade business very brisk. Further evidence of the present attitude of the Germans was forthcoming at the Kiel canal, where the children gathered on the banks invariably shouted out the old cry of "Gott strafe England."

FURNACE COMET WINTER FEATURE AT PITTSBURGH

Intense Blast Activity with Low Temperature Causes Phenomenon

PITTSBURGH, (AP)—Intense blast furnace activity, combined with low temperatures, has in recent weeks given to the Pittsburgh district some of the most beautiful furnace comets it has ever seen. But they are gradually losing their brilliancy, and with the approach of spring, scientists say, they will vanish until favorable conditions reappear next winter.

Furnace comets are great broad shafts of yellow light which pierce the black background of a murky sky in most spectacular manner. They flash without a moment's pause, and are almost as quickly only to reappear as bright if not brighter than before. Usually there are two of them, at times winged, resembling, but often cutting their way like the beam from a search light.

TERRIBLE BRITISH AIRPLANES ARE REPORTED MISSING

BOOST IN PRICE DOESN'T BOTHER B. B. FAN TODAY

Patron of National Game is Willing to Put Up Price for a Good Seat

By I. E. Sartorius CHICAGO (Special)—Concerning the question of raising the price of professional baseball to the public, there are two sides to it.

The cost of a major league team has increased proportionately to the cost of everything else in the country since the war. The people have more money, and, judging by last season, seem willing to spend more on the national pastime, but they demand more for their money.

There are a lot of the fans who used to be glad to sit in the open faced stands for two bits a game; who are perfectly able and willing to cough up four or six bits to see a ball game now, but they do not want to sit out in the sun or rain and watch the frass at long range as they used to. They object to paying 50 cents for the former quarter seats or 75 cents for the former half dollar location.

Want the Good Seats Last year, in nearly every park of both major league circuits the patronage in the grandstands and higher priced seats was larger than normal and that of the bleachers and pavilions below previous years.

In order to satisfy the patrons, on the basis of last year's standards, a club owner would need to remodel his plant so that he could increase the supply of box and grandstand seats and reduce the space allotted to the cheaper grades.

But in doing this he would have to change his equipment so that 75 cents would entitle a fan to an individual seat instead of a flexible section of a community bench such as has been provided for four bits in the past.

In other words, the patron who has more dough than ever before wants to be more comfortable at a ball game.

Then there is the fellow who didn't buy a seat last year and who used to pay \$10 for a salesman tells him is of the same grade and will soon to take a pair priced at 45 unless he is next door to broke. The \$10 shoe may, or may not be, as good as the guy used to get for a five spot, but he won't know it. You can't fool the baseball fan, however. He knows a two-bit squat when he sees it.

KEEP URIC ACID OUT OF JOINTS

Tells Rheumatism Sufferers to Eat Less Meat and Take Salts

Rheumatism is easier to avoid than to cure, states a well known authority. We are advised to dress warmly, keep the feet dry, avoid exposure, eat less meat, and drink plenty of good water.

Rheumatism is a direct result of eating too much meat and other rich foods that produce uric acid which is absorbed into the blood. It is the function of the kidneys to filter this acid from the blood and cast it out in the urine; the pores of the skin are also a means of freeing the blood of this impurity.

In damp and chilly cold weather the skin pores are closed thus forcing the kidneys to do double work, they become weak and sluggish and fail to eliminate the uric acid which keeps accumulating and circulating through the system, eventually settling in the joints and muscles, causing stiffness, soreness and pain called rheumatism.

At the first twinge of rheumatism get from any pharmacy about four ounces of Jad Salts; put a tablespoonful in a glass of water and drink before breakfast each morning for a week. This is said to eliminate uric acid by stimulating the kidneys to normal action, thus ridding the blood of these impurities.

Jad Salts is inexpensive, harmless and is made from the acid of grapes and lemon juice, combined with lithia and is used with excellent results by thousands of folks who are subject to rheumatism. Here you have a sure relief.

LANE EXPLAINS OIL LAND LAW

Claims Must Be Adjusted Before Filings Can Be Received, Says Secretary

WASHINGTON, (AP)—Lenses of great value on proven oil lands are not to be had by the mere filing of an application, Secretary Lane said yesterday in a statement explaining the oil land leasing bill signed Wednesday by the president.

"Where the government lands are largely covered by claims which must be adjusted before such lands can be leased," Mr. Lane said, adding that the government must first determine whether or not the land is covered under the relief section or by permit, it will be by competitive bidding, ample notice of which will be given.

"The law provides that which is self-operative, and with respect to which a person can take any steps, leading to the requirement of any right, before the regulations of the department are issued or before the department has taken the necessary preliminary steps to offer the lands for lease," continued the secretary, "is that portion which provides for securing a preference right for an oil prospecting permit, by posting a notice on the ground; and this applies only to lands not in the geological structure of a producing oil field. These regulations are in the hands of the department and will be issued immediately they are off the press.

"There can be no doubt as to the very great importance of the legislation which marks a wide departure in oil policy." It opens to development and use large resources that have been virtually locked up as a result of withdrawal or inadequate laws, and will offer a means of settling the claims which have been pending for years, with fairness to the litigants and the public interests."

RUBERT, (Special)—Startling are the revelations concerning conditions in Hungary, contained in a letter recently received by Mrs. H. A. Boyer, of this place; from her brother, Charles Mongold, who is in Budapest. Mr. Mongold says the people of Hungary are starving and that the standard money of the country is worth only seven-tenths of a cent on the dollar. "We don't have food, but the only way we can get it is through the American food administration," Mr. Mongold says. He adds that it is useless to send money direct to individuals, as such packages find their way to the destination. "We are starving," Mr. Mongold says. "Please try and get a draft to me through the American Red Cross. Administration relief departments in New York so that we can get some food."

Mr. Mongold announces that civil conditions could not be much worse, and that murders are daily occurring. The country is seething with revolution, he declares.

At the time of accepting office he shall subscribe to and take the oath of office, and shall take the City of Twin Falls a bond, in such amount as the Council may determine, executed by some reliable surety company, and conditioned for the faithful performance of the duties of his office.

SECTION 8. It shall be the duty of the Meat and Dairy Inspector, or his deputies or assistants, to inspect at least once each month all public dairies, slaughter houses or slaughter yards, where milk, meat, or milk and meat food products are prepared and sold for human consumption, and if the said places are sanitary, and are maintained in conformity with the provisions of this ordinance, he shall issue a certificate so certifying as to the present condition of said places, and said certificate shall be good for a period of one month unless the same be revoked and cancelled for non-conformity with the provisions of this ordinance.

Said Meat and Dairy Inspector shall charge and receive the following fees per head for each of said animals: Beef \$1.00; hogs 25 cents; calves 20 cents; sheep 20 cents; the said fees to be pay-

Extricate Contingents in Syria After Engagement with Hard Fighting

LONDON, (AP)—Official dispatches from the situation at Marash, in the Vilayet of Aleppo, Syria, where French troops have been having a severe struggle with Turkish forces, announce that the French succeeded in extricating their contingents after hard fighting.

A message from the same source confirms the reports of massacre of Armenians in the Marash district, but does not substantiate the statement from Armenian quarters that the number slaughtered was several thousand.

Insurance. Of the three kinds of insurance, marine is probably the oldest. The object of this insurance contract is to indemnify against loss of property in the course of navigation. It ships, her cargo, and the ship's earnings are insured against fire and the many perils of the voyage. Marine insurance was practiced by the Venetians in the fifteenth century. In England it was in active operation in the sixteenth century.

TWENTY-FOURTH JURYMEN SELECTED AT TOMBSTONE

Beginning of Preemptory Challenges Next Stage in Deportations Trial

TOMBSTONE, Ariz., (AP)—Harry Richards' health seems to be better, as the 24th juror accepted for the trial of Harry E. Wootton, chief of 210 defendants to go on trial charged with kidnaping for participating in the deportation of 1,100 striking copper miners and their sympathizers from Bisbee, Ariz., to Columbus, N. M., in 1917.

Richards selection made the full quota of jurors necessary before preemptory challenges begin, but with his selection the state recalled A. Finney, a retired business man of Bisbee, for further examination in an attempt to disqualify him. The defense also indicated it would request the court to set more jurors without resorting to preemptory challenges and it was considered probable at least two more jurors would be necessary before the trial could actually begin.

Political Notes

LINCOLN, Neb., (AP)—Decision to select the primary April 20 with a list of Nebraskans acting nomination as candidates for various state offices, including the governorship, was reached by the state convention of the Non-partisan league of Nebraska here last night.

MINNEAPOLIS, (AP)—The Herbert Hoover club of Minnesota today sent a list of republican county chairmen throughout the state to provide ballots for the republican primary election March 15 when presidential endorsement will be the issue.

State Chairman Gustaf Lindquist, St. Paul, ruled recently that Hoover's name would not be printed on the official ballot because he had not declared his party affiliation.

United States Senator Hiram Johnson, a candidate for the republican nomination, recently referred to the Minnesota primary as a farce.

Supporters of republican candidates charged that the primary was arranged by state leaders who are supporting the candidacy of Major General Leonard Wood.

TUCSON, Ariz., (AP)—Endorsement by resolution of the candidacy of General Leonard Wood for president by the election of six uninstructed delegates was agreed upon here today at a conference of the chairmen of county delegations—here for the republican state convention which opens Saturday.

BIRMINGHAM, N. D., (AP)—Secretary of the Non-partisan Hall today refused to accept for filing petitions nominating a ticket of republican electors at delegates to the republican national convention, as endorsed last week by the convention of "progressive republicans" at Hillsboro.

This convention included leaders of the Non-partisan league. Hall had been prominent as an opponent of the league. Hall, in his announcement held said that the petitions were not properly prepared.

Patriarchal Yew. An enormous age is attained by some trees—notably yews. At Fountain's abbey, Yorkshire, the yew trees were old in 1182. California has a very ancient tree in Mariposa grove. Baobab trees of Africa have been computed to be more than 5000 years old, and a deciduous cypress at Chapultepec is still older.

Today's Markets

New York Exchange NEW YORK, (AP)—Shorts renewed their aggression in various speculative stocks today at extreme reactions of 5 to 15 points. The railroad group led off this movement however, adding 1 to 2 points to recent gains. Sales approximated 1,800,000 shares. Inroads against high priced specialties were recovered later but standard industrials made substantial recoveries on the further strength shown by rails. The closing was irregular.

Liberty Bonds NEW YORK, (AP)—Prices of Liberty Bonds, 5 p. m. today were: 5-2's \$94.50; first 4-1's \$92.80; second 4-1's \$89.50; first 4-1's \$91; second 4-1's \$89.50; third 4-1's \$92.80; fourth 4-1's \$90.75; Victory 3-4's \$97.45; Victory 4-5's \$97.45.

Grains and Provisions CHICAGO, (AP)—Persistant selling which commission houses fostered on fresh advances in the price of corn today led gradually to a moderate—30-cent—advance in the selling was based on opinions that the recent upturn in values would induce farmers and interior elevator men to let go of holdings more freely. It was also pointed out that the price of the selling was based on opinions that the recent upturn in values would induce farmers and interior elevator men to let go of holdings more freely.

"RUM REBELL" REFERRED TO PEACE COMMISSIONERS

McDonough Demand Open Settlement, to Reveal Phase in "True Light"

IRON RIVERS, Mich., (AP)—A peace conference here today to discuss the cause of the late "Rigor rebellion" in the upper Michigan peninsula, assumed fresh interest when State's Attorney M. S. McDonough, leader of the "Rigor" movement, announced he would demand an "open, public settlement." The peace makers were George F. Ommarrford, chief special agent of the department of justice, bureau of investigation, and S. E. Converse, assistant attorney general of Michigan.

McDonough said Iron county and Iron River had been libelled by "federal agents' reports and he would insist the investigation be open to the public that his county "might be shown in its true light before the country."

ADVISES BRYAN TO JOIN WITH REPUBLICAN PARTY Governor Edwards of New Jersey Proposes Alternative for Political Regularity

NEW YORK, (AP)—Unless William J. Bryan cooperates that the democratic party may "squarely present" the prohibition issue "to all the people of the country," Governor Edwards of New Jersey in an address here last night at a dinner of the Society of Arts and Sciences, declared that "it is only fair to suggest" to Mr. Bryan that he "leave the party and take up his proper place in the prohibition party."

"If my efforts in this matter result in the adoption by either or both parties of a definite policy," he added, "I will be contented, and I will feel certain that in such event the majority of all the people of this nation will compel the restoration of the full portion of personal liberty and self-determination that we all desire, deserve and demand."

Denies Consideration to Soviet's Proposal

WASHINGTON, (AP)—Soviet Russia's proposal to the United States for peace receives no consideration from the American government, it was said today at the state department. Officials said the proposal did not differ from previous proposals made by the Bolsheviks to the great powers and that it would not be made public as it was regarded largely as an effort to further soviet propaganda throughout the world.

Charming in all its details was the 130 luncheon given by Mrs. P. J. Costello "yesterday" complimentary.

The B. N. A. club was entertained at the home of Mrs. C. A. Emes Wednesday afternoon. The hostess was assisted by Mrs. Erickson and Mrs. Felbusch. The afternoon was spent in sewing and music. Dainty refreshments were served.

FACING BACKWARD In their zeal to bring about the defeat of the compromise railroad bill, it must be generally apparent that the railroad brotherhoods and those interests allied with them in the undertaking, come perilously close to overreaching themselves when they make use of the argument that establishment of the proposed tribunal is an attempt to deprive the railroad employees of their former "inherent right" to determine their wages by negotiation between employer and employer.

In no light can this argument be viewed except it must appear to be inherently reactionary—the direct opposite to progress.

Similar complaint might have been voiced on the almost prehistoric occasion when the matter of personal vengeance was translated into the field of jurisprudence.

Surrender by the individual of his former "inherent right" to settle personal grievances seems to have become simply justified. Surely, a similar transfer of the field of encounter in industrial strife ought to be welcome, and especially so, since it has been pretty generally appreciated by employe as well as employer that something similar to the proposed tribunal has long been lacking in American industrial relations, and that because of this lack strikes and lockouts have too long maintained their status as the only available weapons in industrial warfare.

Strikes and lockouts, as a general thing, are rarely beneficial and too often the employe, who can least afford to engage in struggle in which they are the only weapons, has been the chief sufferer.

It would seem that the employe instead of being the first to condemn, would be first to approve the prospect for a change which is in line with progress in this situation.

It must be generally evident that the brotherhoods and their allied interests, in this matter would have made a better case for themselves if they could have brought themselves to omit this argument from their memorandum presented yesterday to the president.

Their failure to do so, in view of all the circumstances, must lend some sort of color to the assertion of one member of congress who declared lately that opposition from this source was to be expected no matter what sort of legislation, short of the Plumb plan, which might be adopted.

SOLEMN CEREMONIAL IS PLAN OF ORDER OF BATH

Installation of Knights Grand Cross Promises Scenes of Splendor

LONDON, (AP)—A solemn installation of Knights Grand Cross of the Order of the Bath will take place with all the historic ceremonial in Henry VIII chapel of Westminster Abbey during May, says the Express.

The chapel holds 35 stalls and the scene when the king revived the order many seven years ago was one of mag-

ificent splendor surpassed only by a coronation ceremony. An outdoor procession from the Prince's Chamber in the House of Lords, where the Knights and Companions put on their crimson robes and white plumes, to the abbey, will be followed by a complete procession and a rendition of the Te Deum. The solemn Bath Ceremonial in the chapel includes the redemption of their swords by the Knights about to be installed, the placing of the sword on the altar as grand master, and the taking of the solemn oath of the order.

BRITISH ARISTOCRATS TO ENTER WORLD OF FILMS

LONDON, (AP)—Two young aristocrats are going to California to seek fame in the film world. They are Captain Percy A. Tennant, the "O'Donnors," an Irishman who claims to be a descendant on his mother's side from the great Duke of Wellington, and on his father's side from Irish kings; and Arthur L. Guinness, a young man and heir to big estates in Hertfordshire. Both have already played in films here.

LEAGUE STATE CONVENTION CONVENES IN NEBRASKA

LINCOLN, Neb., (AP)—A state convention of the Non-Partisan League convened here today to endorse a ticket of candidates for state officers in the April 29 primary election. The platform selects a committee to have charge of the league's affairs in Nebraska for the next two years. A. G. Towley, president of the national organization, will give the principal address at the league mass meeting tomorrow.

MONTANA PLANS GREAT HIGHWAYS

Parks from Rocky Mountain Parks of Canada to Salt Lake Is Proposed

HELENA, Mont., (AP)—Two new highways, one to extend north and south, and another across the western part of the United States and the other to connect Great Falls and Helena through the canyon of the Missouri river, have been proposed by the commercial clubs of Great Falls and Helena. While discussions thus far have been merely tentative, it is hoped to proceed with the preliminary studies during 1920 in order to be prepared for construction work during 1921.

The proposed north and south highway is an ambitious project. It is proposed to build an automobile road from Banff, Lake Louise and the Rocky Mountains parks of Canada to Salt Lake City and probably thence to Zion national park and the north edge of the Grand Canyon. As proposed, the highway would have one of its termini at the Canyon, Canyon, Great Salt Lake, Yellowstone Park, the Lewis and Clark national monument, the Gate of the Mountains, Missouri River Gorge, the Great Falls of the Missouri, Glacier Park, Banff, Lake Louise and other nationally known wonders. It would tap the National Old Trails road of Southern California, the Lincoln Highway, the Pike's Peak road to Ocean Hill, the Rainbow Route, the Midland Trail across the continent, the Yellowstone Trail, the Geysers to Geysers Trail, the Yellowstone-Grand Teton Line, the Yellowstone-Grand Teton Highway, the Yellowstone Memorial Highway, National Parks Highway, Central Montana Highway and other tourist routes.

Their Appearance. "It is remarkable," philosophically said Old Coder, "that the man who does not know much of anything and knows that little all akew," usually assumes the tone and attitude of one who knows everything and is aware of what when he departs this life wisdom will be his. This appearance is most often found in horse doctors, grocery store sagas and trifling sons-in-law, such as mine."—Country Gentleman.

Marmot Skins in Demand. A large business is done in Manchurian marmot skins. The marmot is very much like a woodchuck, but it possesses a finer coat than does our woodchuck. RUPERT

RUPERT—Dona Marie, fifteen months old daughter of Mrs. J. M. Thomas Peck, died on Monday of pneumonia. The child was ill for six weeks. Mr. and Mrs. W. F. Frankbank have arrived in Rupert from Burley. They left here last September and have spent most of their time in the Boise valley, although during that time they traveled all over Oregon and California. Mr. Frankbank has gone back on the road and his wife will stay here for the present.

Mrs. J. J. Bryant arrived Tuesday from St. Johns, Idaho, and is visiting in Rupert with her sister, Mrs. William M. Brown, Mrs. George E. Ryan and other relatives. Elton Pruitt of Caldwell has arrived from Missoula, where he spent the past two weeks ago an extended visit with relatives.

Harry Dunn, who recently purchased the residence of Harvey Harris on E. D. Street, will move all the old buildings and erect a new house. Newton F. Shilling of Pocatello has sold his eighty-acre farm one mile east of Rupert to Edward G. Lamberson. Mrs. B. Stowell and two daughters, Misses Winnie and Viola Stowell, who have been seriously ill for the past two weeks, are slowly recovering. Two weeks prior to their recent illness they all had the flu, which they apparently recovered from.

E. H. Lundy arrived in Rupert from St. Eliego, California. He left here three weeks ago for Eldora, Iowa, where he spent a short time on business, later going to Texas and California.

A son was born to Mr. and Mrs. F. D. Goff on February 22. On that day the grandparents, Mr. and Mrs. L. F. Goff, celebrated their wedding anniversary.

Mr. and Mrs. J. R. Elchey spent last Sunday in Pocatello visiting the latter's brother, Harold Bonfield, who is convalescing from a serious illness. Mr. and Mrs. Elchey had a baby arrived Monday from Ogden, Utah, and are spending the week with Mrs. Lewis' cousins, Mr. and Mrs. J. O. Johanson. They may decide to make Rupert their home in the near future.

Mr. and Mrs. Clifford Lewis arrived in Rupert recently from Malad, Idaho, and are planning on making this their future home. Mrs. B. Butterfield and children arrived from Salt Lake Monday and will remain here awhile. Mr. Butterfield is feeding sheep near here.

Nick and Edna, the baby sister-in-law, Miss Grace Roberts, returned to Rupert last Friday, after a three weeks buying tour in the east.

ENTERS RACE FOR SENATE ON TICKET WITH GONZALES MEXICO CITY, (AP)—Felix Palavicini, a newspaper owner here, has accepted the offer of the democratic league who is supporting General Pablo Gonzalez for the presidency, to become the party's candidate for the national senate from the federal district in the elections to be held next June. In an offer he stipulated that this action would not obligate him to support any presidential candidate.

DITCHING TALENT ST. LOUIS, (AP)—The St. Louis Nationals last night announced the release of the following players: Tom Kelly, pitcher, to the Houston club of the Texas league; William Brown and James Bottomly, to the Joplin and Sioux City teams of the Western league, respectively, and Fred Mollwitz, to the Sherramonto club of the Pacific coast league. The latter three are first basemen.

Otherwise Occupied. "Nobody," said Mr. Groucher, "is generous enough to sympathize honestly with other people's troubles when he has a toothache of his own."

Bad for the Debtor. People of Stiam are cautious about getting into debt. When a debtor is three months in arrears he can be seized by the creditor and compelled to work out his indebtedness. Should the debtor run away, his father, his wife or his children may be held in slavery until the debt is cancelled.

Peruvian Rain Tree. It is estimated that one of the Peruvian rain trees will on the average yield nine gallons of water each day. In a field of an area of one kilometer square, that is, 5,250 feet each way, can be grown 10,000 trees separated from each other by twenty-five meters. This plantation produces daily 335,000 liters of water.

WAS IN BED FOR SIX LONG MONTHS

Was Able to Be Up in Three Weeks After Taking Tanlac—Gains 20 Pounds.

"I was in bed for six months with stomach trouble and rheumatism," and Tanlac alone deserves the credit for my recovery and present fine health. I have gained twenty pounds, enjoy working hard every day and I feel like I had never been sick in my life. This remarkable statement was made by Mr. George Gregoire, a popular longshoreman who resides at 2718 Third Ave., Northwest, Seattle, recently. Mr. Gregoire has lived in Seattle for twelve years and is well known to hundreds of people. Continuing he said:

"My trouble started a year or more ago and got gradually worse all the time. My appetite left me and what I forced myself to eat would not digest, always causing a severe pain in my stomach, and shortness of breath. I had never been sick in my life. I got so bad that I had to get up a kitten and then the rheumatism laid hold of me so bad, especially in my knees, that I could hardly drag myself about any more. I tried to get up, but I had pains in my back so bad I could not stop over. My head ached so it seemed like it would simply split in two and I would get so dizzy I would have to hold on to something to get so bad off I finally got completely down and out. As I said before I had been in bed for six months and no kind of medicine or treatment seemed to do any good. I was just about to give up when I decided to give Tanlac a trial and it got me out of bed in three weeks and has made a different man of me. Tanlac alone did it, as I said before. I have now taken six bottles and every one of my former troubles are gone entirely. I eat three big meals a day, and never have the least trouble with my stomach. My kidneys seem to be working fine and the rheumatism is a thing of the past. I do my work so easily now I surprise the men who work with me, and I will never cease to be grateful to Tanlac for the wonderful way it has put me on my feet.

"I can't over say enough good for this great medicine." Tanlac is sold in Twin Falls by City Pharmacy and by the leading drug-gist in every town.—adv.

COUNTLESS RABBITS ARE LURED TO DEATH

Poisoned Hay Medium of Destroying Hordes of Pests in Pleasant Valley

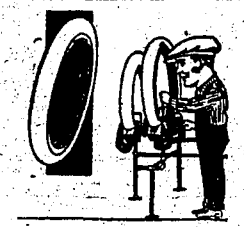

From Pleasant Valley comes the statement, through the farm bureau, that poisoned hay, placed in rabbit-infested districts, has proven most efficacious in exterminating many thousands of the destructive pests. Forty sacks of the poisoned hay were scattered throughout the valley, practically all being consumed. No estimate has been made of the number of "bunnies" destroyed, but the report says the whole countryside is littered with dead rabbits.

SECONDS' WORK MORE DAMAGING THAN FIGHTING

Tom Dunn Completes Old Methods with New to Disadvantage of the Latter

BY RAY FEARSON OREGON. (AP)—The head of boxing follows not of the present generation but of the long ago gathered together his boxing day at Springfield, Ill., where a hardy show was staged. It was a sort of revival affair for these old timers to see how these boxers of today perform in the ring.

There were just three of them—Johnnie Connors, once a great light fighter, himself and the man who promoting the shows at Springfield; Tom Dunn of Peoria, who years and years ago was prominent in ring affairs and traveled with Tommy Ryan, one of the greatest middleweights that ever lived; and on a hand, Jimmy Barry of Chicago, the famous light bantamweight champion, who retired with the title because he never found any one who could defeat him.

Compares Old and New Methods Added to this was the writer, who found a great chance to use an attentive ear rather than a tongue. The old timers started talking about the ring battles of twenty, thirty and even forty years ago. It was an earnest that he got, but the conversation did not deal entirely with the boxing of long ago. There were times when a comparison was made of the past and present methods in the ring. That is always interesting.

Some Tough Stuff "I watched one follow the other night and just as soon as the boy came to his corner after a tough first round, the second got underway. There was a boxer between rounds and why that does to him. Why, the treatment that is handed to a scrapper now is worse than going through ten rounds of hard fighting.

He Boxed Dempsey but Wants to See Him Well Whipped Frank Beverly is a policeman in Dallas, Texas. "Three years and two months ago he was a boxer, good enough to hold Jack Dempsey a draw before the Jersey A. C. He was a New Orleans boxer then. He is still young and in fine trim, but he never has been a boxer since. He is still young and in fine trim, but he never has been a boxer since. James Murphy broke the speedway record when he covered a lap of a mile and a quarter in 39.14 seconds. Other drivers covering under 40 seconds were Ralph Mulford and Tommy Miller.

BRITAIN SENDS OVER ONE MORE FOR SLAUGHTER

Low Edwards, Whipped to a Frame in First Bout—Mitchell all His Conqueror

MILWAUKEE, Wis. (AP)—Ritchie Mitchell, Milwaukee, last night scored a technical knockout over Low Edwards, lightweight champion of Australia, at the start of the seventh session of a ten round no decision contest. Mitchell floored the Australian for a nine count in the second and sixth rounds and tipped him over for a count of two in the eighth.

The Milwaukee boy had the better of every round. He left the Australian out in the first session, easily winning the bout. In the second, Mitchell planted a right to Edwards' jaw, flooring him for nine seconds, and almost closed the Australian's left eye. Third session and Mitchell appeared merciful. Edwards showed his best efforts in the fourth, but did no damage. Mitchell knocked Edwards repeatedly in the fifth with rights and lefts and had his opponent groggy at the bell. The Milwaukee boy toyed with Edwards in the sixth after knocking him down for nine seconds early in the session. Edwards was groggy and when the bell summoned him for the seventh round his seconds announced that the Australian had gone. Mitchell weighed 134-14 and Edwards 138 pounds.

He Boxed Dempsey but Wants to See Him Well Whipped

Frank Beverly is a policeman in Dallas, Texas. "Three years and two months ago he was a boxer, good enough to hold Jack Dempsey a draw before the Jersey A. C. He was a New Orleans boxer then. He is still young and in fine trim, but he never has been a boxer since.

He went across and was gassed and he was a boxer for Bob Martin. "I'd rather read an account of Dempsey being whipped than to read a pay check with a 50 per cent increase," he says. Of course, Beverly doesn't believe he could hold Jack Dempsey even today.

Twin Falls Post Team Will Meet Comets Tonight

Ambition of Local Hoopsters is to Wipe Out Stain of Former Defeat

Thought on the high school gymnasium floor the Post basketball quintet met the Rupert Comets. These boys, wearing red and white, were being in favor of Rupert. To wipe out this stain is the ambition of the local five, and a desperate encounter is anticipated.

It is said the championship of Southern Idaho depends upon the outcome of tonight's game. The Comets have been defeated in only one game this year. Both winners are met once, the contest being by two points. Twin Falls will put its strongest array in the field. Following is the line-up: Neuman and McCain, forwards; Bennett and Ickard, center; Eberly, Kleffner and Lavender, guards.

Brief Bits of Sport

Eddie Alnath, Detroit catcher, has reached the training camp, and has sent out a halloo for the other fellows to hustle along. It is estimated Tommy (Toa) Lipton has spent \$3,000,000 since 1899 in attempts to lift that American yacht cup.

While Johnny Kilbane had physically to Benny Valzer he won financially, that means a lot to fighters nowadays. But we will lay odds Johnny will not risk his featherweight crown in another fight with the sturdy New York Frenchman.

The champion is too canny for that. The management of the Salt Lake club says it has no information relating to Bill Rumble's jump to the Rexburg club in the Yellowstone bush league. President Bill Lane says he's not worrying, however. Salt Lake has lost a fighter. He is Jim Bates and he has been missing since last fall. He was missed when Hardy Downing wanted to get him for a scrap exhibition last week.

FEZZED THROG OF MERRY NOBLES WILL BE TURNED LOOSE ON BURLEY

Twin Falls Will Send Jolly and Large Delegation to Spring Ceremonial of Mystic Shrine Tomorrow—El Korah and El Kalah Patrols to Be Present—Special Entertainment for Visiting Ladies

Shriners of Idaho, reinforced by those of neighboring states, will invade Burley in force Saturday. The occasion is the spring ceremonial of El Korah temple, located at Burley, and the Mystic Shrine. The event, according to the program, is scheduled to set Burley ablaze with hilarity from sun-up to the death of the day—then come.

While the special accommodations will be the major portion of the crowd, it will be made up of members of other members of the order will leave on the afternoon train, while yet others will go by automobile, providing roads are passable. The rail car, or cars, will be met by trucks moving the order's insignia, so that there will be no mistaking to what gang the cars belong. All nobles will wear the fez, the special badge of the order. At Burley, the order will be met by a delegation of El Korah and El Kalah Shriners at all times. Berths will be made up so that they can be occupied for the homeward trip which will start at 6 o'clock Sunday morning.

Twin Falls will send a band along no band this year, but the delegation's program is replete with "stunts" that will be entertaining enough without concert or bass drum accompaniment. This cord will also announce the arrival of the representative class of novitiates, whose feet have for some time been undergoing special preparation for the tour of the hot desert sands of El Korah's Sahara.

Report comes from Pocatello that by special designation two coaches have been placed in gold for this occasion, and that even the engine set apart to pull the Pocatello Shrine special will be decorated with gold.

Boise is expected to send the pre-delegation in gold, but including the El Korah patrol, with a band for this occasion. Representing El Kalah temple, of Utah, some 100 Shriners are expected, headed by the El Kalah patrol, noted as one of the best drilled units in the west.

Extraordinary arrangements have been made for caring for ladies accompanying Shriners to the place of the ceremonial, the Burley Shrine club having the particular care in hand. Boise Man Says He Will Jazz Our Weather For Us

THE Idaho weather service continues to demonstrate fantastic tendencies. At least he is lenient in his attitude toward the south section of the state.

Looking through our casement we see no evidence of immediate bad weather in the offing; do you? No, of course not! Yet the supreme office who maps out the climatological condition for this zone says "Probably snow in the south section tonight."

Any way the colonel of this little red fez and his himself Burleyward, overland, too, with out-ward "fox-shed" perilous prognostication of the weather dispenser. The mercury took a change for the better yesterday, reading 33 for top, with 19 for low at night. The former figure is two markers higher than on the preceding day, while the latter is five points over and above the best of the former night.
