## PAVE WAY FOR EARLY VOTE ON RATIFICATION

**Gloomy Outlook for Peace Treaty Compromise Induces Party Leaders to Agree to Vote on All Reservations**

## LODGE OFFERS AMENDMENT TO QUALIFICATION-PLANK

**Republican Leaders Predict a Change will Bring Back into Line Some who Opposed the Original Draft**

WASHINGTON, (AP)—So gloomy did the outlook for a peace treaty compromise become today that republican and democratic leaders virtually agreed to vote Monday on all pending and proposed reservations. The result, they predicted, probably would be a ratification vote before the middle of next week.

Although some compromise advocates still cling to hope of success, administration and irreconcilable leaders declared they had positive pledges of enough votes to beat the treaty with the republican article ten substitute as modified today.

## Lodge Offers Amendment

In an effort to reunite the republican senate forces Senator Lodge, of Massachusetts, the party leader, today introduced an amendment to the substitute article ten reservation ofered yesterday.

The change proposed as the suggestion of Senator Borah, republican, Idaho, leader of the irreconcilables, would insert the words, "including all controversies relating to territorial integrity or political independence," in describing the international controversies in which the United States would not interfere.

Republican leaders predicted that the amendment would bring back into line some of the reservation republicans who have objected to the draft presented yesterday.

The change stirred up more trouble on the democratic side, where compromise advocates had not yet completely their poll on the original substitute.

In presenting the amendment Senator Lodge made no statement except to say that it had been suggested by some of his associates.

## STRIKERS CLASH WITH POLICEMEN

**Chicago Authorities Take Hand in Express Strike Following Disorder**

CHICAGO, (AP)—American Railway Express company barns today were under heavy city police guard as a result of a fight between company police and pickets on strike duty, in which one policeman was severely beaten and several others injured as company asked for city police aid.

A police captain reported the fight started when pickets attacked seven clerks in a terminal station. Strike leaders asserted company police ordered pickets to leave their beats and a fist fight began. The pickets remained.

The express company employees are on strike for wage increase of \$35 a month.

## VEILS RESENTMENT AT WILSON'S ALLEGATIONS

PARIS, (AP)—The French government has not and will not send any instructions to Ambassador Jusserand in Washington regarding President Wilson's charge of military aid to Germany. France, it was said as the foreign office this morning. A report received from the ambassador stated that on his own initiative he called upon Under Secretary of State Clegg and told him of the surprise and emotion caused in France by the president's letter. The ambassador added that he had made no representations.

No comment was obtainable in official circles with the exception of expressions of curiosity as to whether President Wilson would take the opportunity afforded by M. Jusserand's visit to the government and by the disagreeable impression his assertions have made here.

## Revolutionary Units Active in Caucasus

NOVOROSISSK, Caucasus, (AP)—Contestations raged among refugees here Tuesday night when revolutionary forces attacked the radio station, wrecking it. A general alarm was sounded and the British ship Empress of India, lying in the harbor, fired her big guns in the direction of the fighting. It was found the attack was made by a small force which was speedily dispersed.

Successful raids by revolutionary or "green" units on communications have created the impression that the evacuation of the city may become necessary any day. It is persistently rumored here that a movement for the restoration of the monarchy is gaining ground in Crimea.

## LONGSHOREMEN STRIKE FOR INCREASE IN WAGE

**Employers Claim Inability to Meet Demand Because of Work by Award**

NEW YORK, (AP)—The strike of local longshoremen, checkers, and dock workers to enforce demands, for an increase in wages and adjustment of working hours, which was unanimously voted last night, became effective this morning.

The unions involved claim membership of between 7,000 and 8,000. Steamship owners said if the full membership walked out, coastwise shipping would be nearly tied up.

Companies affected include the Mallory, Clyde, Morgan, Old Dominion, Southern Pacific and the Oceanic Steamship company lines. Longshoremen are now paid 65 cents an hour for a basic eight hour day with \$1 an hour for overtime. They demand \$1 an hour and \$2 an hour for overtime. The checkers want an increase from \$25 a week to \$30.50 and a reduction of four hours a week. The dock workers want a 25 per cent increase in wages over their present scale of \$25 a week.

Steamship owners declared they were unable to meet the demands because they were bound by the award of the national adjustment commission which went into effect until September 30, 1920.

## FORDNEY MAKES PROMISE

**Says Drafting of Bill for Relief of the Service Men Will Start Monday**

WASHINGTON, (AP)—Drafting a bill to provide some sort of relief for discharged service men will be started Monday by the house ways and means committee. Chairman Fordney announced today that the hearings which have been in progress for two weeks would be closed temporarily.

## IDAHO WEATHER

Tonight and Sunday rain.

## AMERICAN OWES HIS RELEASE TO MEXICAN TROOPS

**Washington Announces Liberation of Ranch Owner Kidnaped Last Week and Held for Ransom by Bandits**

## CAPTORS RAISE DEMANDS AS TIME LIMIT EXPIRES

**Hopes of Sisters are Blasted when Proffered Payment of Sum First Set is Refused by Outlaws**

WASHINGTON, (AP)—Mexican federal troops have brought about the release of Peter W. Summers, American ranch owner, who was kidnaped last week and held for ransom by rebels in the vicinity of Salina Cruz, Mexico.

SALENA CRUZ, (AP)—Ransom for Peter W. Summers, American ranch owner captured near Salina Cruz last week by Mexican bandits under Jose Morellano, was raised from \$500 to \$5,000 and the last day for payment fixed as March 12, according to a message from American consul Burlington at Salina Cruz to two sisters of Summers here.

Informed through the state department that the ransom had been set at the smaller figure, the women said, if Brother Luke D. Summers of Chickasha, Okla., raised the money and forwarded it to Senator Owen of Oklahoma to be turned over to the bandits. Their hopes were blasted, they said, with receipt of the message from Consul Burlington, who added: "One or two thousand dollars, if available, might save him. No funds available here."

The sisters, Mrs. S. K. Switzer and Mrs. J. A. Humphreys, were informed from Washington that the state department was doing everything possible to have Summers released.

## COMMITTEE DISAPPROVES DANIELS NAVAL PROGRAM

**Take Adverse Action on Construction Outlined Contingent on Disposition of Treaty**

WASHINGTON, (AP)—"In the interest of economy," the three naval construction programs recommended by Secretary Daniels depending on disposition of the peace treaty were disapproved today by a house naval sub-committee.

An appropriation of \$72,000,000 for continuing the unfinished 1916 program was decided upon by the sub-committee as the only ship construction funds to be provided for the next fiscal year.

## POWER OF STATE PASSES INTO HANDS OF VON KAPP

**Revolting Troops Enter Berlin and Occupy Wilhelmstrasse Evicting Ebert and Dissolving Assembly**

## SOCIALIST PARTIES DECLARE GENERAL STRIKE

BERLIN, (AP)—A proclamation was issued here at ten o'clock this morning stating the German government has ceased to exist.

The public security guard this morning occupied the offices of Vorwaerts and the semi-official news agency. The services to the provinces and abroad were provisionally suspended. A proclamation issued by the old regime, calling on the people for a general strike, declared that it is the only means against the return of William II.

It is reported that it is intended to proclaim Field Marshal Von Hindenburg "imperial president."

President Ebert and his wife left Berlin at five o'clock this morning.

According to reports reaching here this afternoon the revolutionary movement under the direction of the extreme conservatives has already spread far into the provinces, not only among the regular army forces but among the public security guards.

PARIS, (AP)(Havas)—A proclamation issued in Berlin today declared that the government of the empire has ceased to exist and that the power of the state has passed into the hands of General Director Von Kapp, who becomes chancellor and has appointed General Von Lossow commander in chief of the military forces, Berlin dispatches state.

"The proclamation declares the national assembly dissolved. It is announced that a new government is being formed. The socialist parties have declared a general strike," the Havas added.

"The issuance of the proclamation followed the occupation of the Wilhelmstrasse, where the government buildings are situated, and troops entered in barracks, at Doberitz, in the suburbs. The troops entered Berlin this morning. It is stated.

## Germany in Throes of Monarchist Struggle

The names associated with the new revolutionary movement in Germany indicated by the recent dispatches appear that Germany is in the throes of the frequently predicted counter-revolutionary, monarchist struggle.

Kapp Pan-German Leader

Dr. von Kapp, reported as having assumed the chancellorship, is probably Dr. Wolfgang Kapp, a former conservative member of the reichstag and general director of the German agricultural society. He was one of the men who early in 1918 urged the government to speed up U-boat building. He became president of the Fatherland party, the notorious pan-German organization which urged that Germany carry out the Yerdin front end. After the abdication of Emperor William and the signing of the armistice, Dr. Kapp was one of the men who were prominent in urging the socialists clamored on the ground that he and his associates had been responsible for the continuation of the war and the hindering of peace.

Major General Baron von Luttwitz, who, according to the dispatches, has been named commander-in-chief, was military governor of Belgium in the early days of the war. He later was a reformer of the Yerdin front. When the German treaty came up for action by the government last June he was one of the leaders of the military party prominent in opposing the peace terms. He has an American wife, who was a Miss Cary of Cleveland. He always has been classed as thoroughly Prussian.

General Altes Wornment There has been a strongly held belief that the pan-German monarchist party was merely biding its time and awaiting an opportune moment to seize control of affairs. This belief caught allies worried when they considered the nearness of former Emperor or William's retreat to Holland on the German border and reported their strong representations to America on the danger to the peace of Germany and the rest of Europe of his presence.

The new commander-in-chief's marriage to Miss Cary, took place on July 14, 1922. She was born on January 6, 1869. The couple have two children, Irma and Gustav.

General Altes Wornment There has been a strongly held belief that the pan-German monarchist party was merely biding its time and awaiting an opportune moment to seize control of affairs. This belief caught allies worried when they considered the nearness of former Emperor or William's retreat to Holland on the German border and reported their strong representations to America on the danger to the peace of Germany and the rest of Europe of his presence.

## WHITE HOUSE IS NOT SURPRISED BY EBERT FALL

**Revolution was Inevitable is Comment of Officials at Executive's Residence; Withhold Basis for Opinion**

## ARMY OFFICERS EXPRESS MEASURE OF SKEPTICISM

**Point to Indications that Morale of Forces Under Noke was Good and Able to Cope with Monarchists and Spartans.**

WASHINGTON, (AP)—Press dispatches brought to official Washington this first news of the overthrow of the German government by the military.

"Such a revolution was inevitable" was the comment of White House officials, but officers at the state department would make no statement, preferring to wait for official advice and additional details.

White House officials would not indicate on what they based their expectation of an uprising.

Reports Indicate Unrest

Reports from Germany to government departments, however, have indicated a growing feeling of unrest because of the slowness of reconstruction and a return of world peace.

No reports regarding the revolution have been received either from Ellis Loring Dresel, special United States commissioner at Berlin, or Colonel Edward Davis, American military observer at the German capital. It is known, however, that they have regarded the situation as serious.

Communication with the Vened radio station at Berlin has been interrupted for 48 hours, but it was resumed today. It was assumed that the station had been closed temporarily by the revolutionaries.

Discredit Outlook for Spread

Some high military officers were inclined to regard the uprising as a "palace revolution" which would not spread throughout Germany. Recent reports to them, they said, had indicated that the morale of the army under Minister of Defense Noske was good and that the government would be able to cope with both the monarchist plots and Spartacist discontent.

The Eberhart and Loewenfeld marine brigades, which are reported to have occupied Wilhelmstrasse, were organized at Kiel and Wilhelmshaven early in 1919 and were brought to Berlin in the spring of that year to suppress Spartacist violence. The organizers of the units were officers of the old regime and the troops are regarded as extremely conservative, though not necessarily reactionary.

## JURY GETS I. W. W. CASE

**Begins Consideration of Evidence in Trial of Alleged Centrala Blayers**

MONTESANO, Wash., (AP)—The jury in the case of the alleged I. W. W. charged with the murder of Warren O. Grimes began deliberations today after electing a foreman. The case went to the jury shortly before 1 o'clock last night. The jury retired immediately. It did not begin to consider the evidence until after breakfast today.

## TO OACOH GONZAGO

SPOKANE, Wash., (AP)—George M. Harris, president of the Spokane club in the Pacific Northwest basketball league, and former professional ball player in Spokane, has agreed to coach the Gonzago university basketball team during the coming season. The first call for basketball work at the university will be issued following the close of basketball at the local institution.

## World News Events

PARIS, (AP)—The league of nations council today adopted a resolution for the appointment of a commission of ten members for the investigation of conditions in Russia.

COPENHAGEN, (AP)—The value of the dollar within a week has dropped from seven kronas to 5.75 kronas. The Socialist Democrats attributes the fall to the stopping of the importation of American luxuries.

EL PASO, Tex., (AP)—The state department has instructed border immigration officials to issue border permits good for ten days to American citizens desiring to visit Mexico within the ten mile zone from the American border, according to a dispatch last night from Washington. The present permit allows but one day.

LONDON, (AP)—Following their defeat at Thursday's session of the trades union congress on the question of direct action the Miners' Federation held a meeting at which it was decided by an overwhelming majority immediately to apply for an advance in wages of three shillings per shift for workers over sixteen years of age and one shilling six pence for workers under sixteen years.

## Allied Governments Take Aloof Attitude

PARIS, (AP)—The opinion expressed in official circles at the moment is that the allied governments will take an attitude of aloofness and detachment toward the civil strife in Germany and permit the German people themselves to determine the form of their government. The armed disorders in Germany are looked upon as most unfortunate both for that country and the remainder of Europe at the time when reconstruction had been begun.

## Denies Reactionary Aims of New Regime

COLOGNE, (AP)—The new government established in Berlin is not intended to promote the aims of the monarchists or the reactionaries, it is declared in a dispatch to the Cologne Gazette from Berlin today.

## Allied Missions in Germany Endangered

PARIS, (AP)—The allied missions in Germany have been put in a serious position by the overthrow of the Ebert government and are in danger of molestation, according to a dispatch from Sanbrucken to the Temps. It is expected, the dispatch says, that civil war will break out in Germany.

## OLD GOVERNMENT OFFICIALS FLEE BUT KEEP TITLE

Ebert Administration Refuses to Comply with Ultimatum and Members Leave Berlin without Resigning Posts

PARIS, (AP)—The Ebert government in Germany has established its seat in Dresden, the capital of Saxony, according to advices this afternoon.

BERLIN, (AP)—The members of the Ebert government are retaining their offices, although they have left the capital, according to the Lokal Anzeiger in a special edition just issued. The newspaper says the old government refused to comply with an ultimatum presented by General Eberhart of the naval brigade which expired at 7 o'clock this morning, the government officials leaving Berlin by motor car without resigning their posts.

BERLIN, (AP)—Berlin was threatened during the night by the immediate danger of a violent revolution. It was feared that the might that revolutionary bodies of troops had begun to move on Berlin from Doberitz. Generals Von Oelderhausen and Von Ovan and Lieutenant Colonel Witzel went to meet these troops and warn them of the consequences of their action. Troops from the Baltic have joined in the revolt.

The troops which were concentrated (Continued on Page Four)

## THROTTLE MILITARY DICTATORSHIP, EBERT'S CALL FOR GENERAL STRIKE

BERLIN, (AP)—The proclamation issued by the members of the old government read in part as follows: "We refuse to bow to this military constraint. We did not make the revolution in order to recognize again today the bloody government of mercenaries. We order into no constraint with the Baltic criminals. Workers comrades, we should be ashamed to look you in the face if we were capable of acting otherwise.

"We say no" and again "No." You must endorse what we have done. We carried out your views. Now use every means to destroy this return of bloody reaction.

"Strike! Come to work! Throttle this military dictatorship! Fight with all your means for the preservation of the republic. Put aside all division. There is only one means against the return of the military dictatorship. It is only one means against the economic life. Not a hand must move. No proletarian shall help the military dictatorship.

"Let there be a general strike along the entire line. Let the proletarian act as a unit."

The manifesto was signed by President Ebert, Premier Bauer, Gustav Noske, the minister of defense, Herr Schick, the minister of labor, Dr. Schmidt, the minister of food, Dr. Edgar David, minister without portfolio, and Dr. Herman Mueller, minister of foreign affairs, the social democratic members of the government and by Otto Wels for the executive committee of the German social democratic party.

# NECESSITY FOR BONUS DENIED

### Former Lieutenant Colonel, Now Wall Street Operator, Gives His Views

WASHINGTON, (AP)—Members of congress will support soldier bonus legislation "to a vote," Frank P. Keach, of New York, a former lieutenant colonel in the inspector general's department, declared yesterday before the house ways and means committee. He is doing hearings on relief legislation.

"I consider it an insult for any person to say that I would spend two billion dollars of the public money to be elected to congress," declared Chairman Fordney.

"What was your salary before and after the war?" asked Representative Frear, republican, Wisconsin, after the wrong had been made.

"I don't want to give that," Keach said.

"You are a broker and you speak from the Wall Street viewpoint," said Mr. Frear. "Do you know if boys on the farm who were in the army, as well as the people who lived in New York?"

"From conditions in New York I would say that a bonus is not desired or needed by the average discharged soldier," Keach replied.

The witness added that he was concerned over the predicted decrease in bond values. He objected to the suggestion of Representative Rainey, democrat, Illinois, to place a tax on the 23,000 men who became millionaires during the war.

"Initiative ceases when taxes become high and such an additional tax would be harmful," said he.

# LOSS OF LIVESTOCK IN FORESTS AT MINIMUM

### Damage Caused to Millions of Sheep and Cattle Light in Comparison with Fire Losses

MISSEOLA, Mont., (AP)—Damage caused to the millions of sheep and cattle in the forests of district No. 1 was relatively light in comparison with the unprecedented fire losses of last summer, according to a report issued at the district headquarters here.

The report shows that 10,000 sheep and goats and 600 cattle and horses were lost in the 24 forests of the district during the grazing season. These losses are all that were suffered despite heavy damage by fire, an unusually dry season and frequent raids by fish eating wild animals.

Coyotes were responsible for the deaths of 3,600 sheep and 36 calves, the report says, while bears slaughtered 200 sheep and 16 head of cattle, and 150 sheep and 97 horses were destroyed by timber wolves.

Other causes of death were eating poisonous plants such as larkspur, death camas and loco weed, losses in fires, losses by animal diseases and drought.

# CHURCH CONSOLIDATION MONTANA MOVEMENT AIM

### Protestant Pastors Plan Active Steps to Consolidate New Idea and to Eliminate Waste

HELENA, Mont., (AP)—To make one church grow where two grew before—or rather where two grew because one would have been sufficient—will be the aim of the Protestant pastors of Montana, who, after forming an interdenominational movement will begin, early in April, the active steps to consummate the new idea.

Waste will be eliminated throughout the state by non-sectarian elimination of superfluous churches. Wherever it is found that there are too many congregations for the community, every effort will be made to combine them. It is expected that many more pastors will be needed in the state if every community is to be provided with adequate church facilities.

Every Sunday in April will be devoted to some phase of the movement, the last being given to raising this state's quota of the \$1,000,000,000 sought for the interchurch movement.

# SCHOOLS FOR FORESTERS IN SESSION IN MONTANA

MISSEOLA, Mont., (AP)—Instructions of field men in protection methods, emphasis on the importance of protection fire, and the need of improvement in forest patrols are included in a two weeks' conference of forestry officials which opened at the Savenae ranger station, near Haugan, Monday, March 8. Two representatives of each of the forests in the district, with a number of officials from the local district headquarters, are in attendance. Elers Koch, district chief of the fire prevention bureau, is in charge.

"You can sell any good musical instrument—if the price is right—through the classified."

# FARMERS ARE WARNED AGAINST SEED SALES

### University Field Agronomist Says Auctions Best Place to Get Low Quality

BOISE, (AP)—Beware the seed auction, says B. F. Sheehan, field agronomist of the University of Idaho extension division, who is state seed commissioner.

"One of the best places to get low quality seed containing many of our most noxious weeds is at an 'auction' sale," says Mr. Sheehan. "Samples examined at various sales indicate this to be true. In many instances a farmer's low quality seed could not be gotten rid of otherwise."

"Farmers must remember that it is unlawful for them to offer for sale seed of alfalfa, timothy or the clovers unless it conforms to the Idaho seed law and is tagged so as to indicate the quality," he said. "If any dealer and individuals purchasing seed should remember to get the best from a source known to be reliable."

"Buying tested seed from a reliable dealer is the safest plan to follow. Stir clear of the non-treated 'auction' seed."

# WASHINGTON COLLEGE TO OBSERVE HEALTH WEEK

### Student Organizations Sponsors for Period Devoted to Study of Hygiene

PULLMAN, Wash., (AP)—The girls' Crimson and the boys' Gray-W clubs are sponsors for the observance of "health week" which will be held during the week beginning March 15 at Washington State college. The Crimson-W includes all girls of the state student body who have won letters in athletic contests. The Gray-W club comprises the young men who have won their letters similarly.

To carry on the work, the activities have been divided into sections, each headed by a committee, or chairman. The divisions are: hygiene of food, hygiene of clothing, hygiene of housing. One day of the week will be designated "patent medicine day," and the program will proceed with this name. Other days will be devoted to "antihygiene," mental hygiene, postures and throat. Several out-of-town physicians have been asked to extend their assistance in the observance.

# HIGH PRICES REDUCE CONSUMPTION OF BEEF

### Consumer Turns to Veal and Mutton as Alternative, Department of Agriculture Reports

WASHINGTON, (AP)—High retail prices in 1919 reduced the per capita consumption of beef in America almost eight points, and caused the consumer to turn to veal and mutton, according to a statement today by the department of agriculture. Slightly less pork was eaten but the total consumption of pork products was much larger than in 1917 and the exports of pork and lard were greater than in 1917, shown in the record of the department. The total meat consumption was less than in 1918, the per capita for 1918 being 160.08 and that in 1919, 149.2.

Beef exports were shown to have fallen off 56.8 per cent, but the shipment of pork and lard to foreign ports showed a great increase. The exports were equivalent to 18,000,000 pounds weighing 200 pounds apiece. The number of hogs slaughtered was a million more than in 1918.

# BANS MINERS' APPEAL TO INDUSTRIAL COURT

### Labor Organization Takes Drastic Action to Circumvent Efficacy of Kansas Tribunal

KANSAS CITY, Mo., (AP)—Steps to prevent any member or officials of the United Mine Workers of America, which includes Kansas here, to appeal a case to the recently organized industrial relations court of Kansas, were taken yesterday at the biennial convention of the district here.

An amendment to the constitution was adopted, placing a \$50 fine on any member of the district who appealed a case to the industrial relations court of Kansas.

If you are a little uncertain about it, read the ads.

# I. W. W. Propaganda Found in Oil Field

SHEREVEPORT, La., I. W. W. literature urging oil field workers to "organize and strike off the chain of wage slavery" because "the wild yearn for the new 'taking,' has found its way into the north Louisiana oil field, where it is said radical agitators have been circulating rumors calculated to stir up trouble among the laborers."

# AMERICA IS MESSA FOR EMIGRANTS FROM SPAIN

### Consulate at Madrid Deluged with Applications for Passport Visas

MADRID, (AP)—The applications for visas for passports for America received at the American consulate in Madrid has, since the beginning of the year, exceeded all recent records. Most of the applicants come from the province of Salamanca, some of the smaller villages of which have been practically depopulated owing to the departure of these emigrants. They are chiefly farm laborers, with a fair sprinkling, however, of skilled artisans, bricklayers, especially, being attracted by the wages in America.

Some of the emigrants take their families with them. The majority, however, either wait until they have prepared a home for them, or gather in little flocks together and return to Spain to live on the income, increased a little by working a small plot of land. Often, however, even those return to the consulate for a second visa to go across and when asked for how long they want it, invariably reply, "forever."

# SETS DATE TO CONSIDER CONDITIONS IN SCHOOLS

### Montana Governor Calls Attention to Menace to Education Through Inadequate Salaries

HELENA, Mont., (AP)—March 15 to 21 has been designated by Governor Sam V. Stewart of Montana, in formal proclamation, as teachers' week. The week is urged to consider the conditions, which, it is declared, seriously menace the future of the schools of the state.

Salaries paid teachers are so low that it is becoming more and more difficult to procure instructors and many of the rural schools of the state did not open last fall, for lack of teachers, the governor says. Other schools were hampered by inadequate forces.

"It becomes apparent," says Governor Stewart in his proclamation, "that we are facing a situation that is little short of calamitous if our children are to grow in knowledge and be fitted to discharge their duties as citizens of tomorrow, they must have the best that is possible in the school department. During school hours, the teacher or takes the place of the parent; and the future of the child is therefore dependent upon the instructions there given."

The press, the pulpit, clubs and other social and educational organizations are asked to aid in the observance.

# UNIVERSITY OF MONTANA TO ERECT MEMORIAL MONUMENT

MISSEOLA, Mont., (AP)—Students comprising the Associated Students of the University of Montana have voted to erect a memorial to the late dean of the state university here and have asked that the university gridiron be named "Dorpblasser field" in honor of Corporal Paul Logan Dorpblasser, an alumnus of the institution and noted football star, who was killed in France while fighting with the American marines.

# DAILY STUNT AUQULAND, New Zealand, (AP)

Norman Ross, the American swimmer, yesterday established a world's record swimming the distance in 6 minutes and 25 seconds. He also swam 100 yards in 60 seconds, equal to the New Zealand record.

# ENCOURAGING REPORT SENT FROM RESERVOIR

### Week's Rainfall Heavy with Gratifying Addition to Storage Supply in Lake

A weekly report of precipitation in the Jackson watershed, and the stage of water in the Jackson lake reservoir shows gratifying conditions all around. Storage is increasing. During the past week ending March 6 was nearly an inch and three-quarters, while the stage of water stored in the lake is being increased. During the past week a total of 5470 acre feet has been added to the lake.

The report reads: Precipitation week ending March 6, 1920, 1.68 inches; 1919, 1.48 inches.

Total precipitation September 1 to March 6, 1920, 13.17 inches; same period 1919, 10.40 inches.

Storage in reservoir, week ending March 6, 1920, 5470 acre-feet; same period 1919, 8040 acre-feet.

Total stored September 1 to March 6, 1920, 12,420 acre feet, same period 1919, 10,350 acre feet.

Total stores in reservoir March 6, 1920, 134,230; same period 1919, 317,040 acre feet.

The week's report preceding showed 309,740 acre feet total stored.

# FRANKIE MASON IS EASY MONEY FOR JIM WILDE

### British Flyweight Takes Things Complacently in Punch-Swapping Match

TOLEDO, O., (AP)—According to newspaper reports gathered at this side last night, Jimmy Wilde, British flyweight champion easily bested Frankie Mason, of Fort Wayne, Ind., American aspirant for the title, after twelve rounds of spectacular fighting here. Wilde, as his share for the fight received \$10,000.

Mason received \$5,000. About 3,700 enthusiasts were present. A number of women were scattered about the hall.

The fight was one of the greatest seen in this country, according to experts who were present, including Ed Smith, the referee, who declared he never saw a more aggressive fighter who was so willing to mix and carry the fighting as was Wilde. Smith, however, said he could not render a decision in the affair, as under the boxing commission rules here, it is forbidden to do so. He intimated, however, that if a decision was rendered, a draw would have been a fair verdict.

Wilde expected to leave here this afternoon for Jersey City.

# PROHIBITION IS BLAMED FOR EMIGRATION BOOST

### Many Foreign Born Leave the United States Under Dry Regime, Congressman Declares

NEW YORK, (AP)—Prohibition is causing so many foreign born to leave the United States that emigration is exceeding immigration, according to Congressman Isaac Siegel, a member of the house immigration committee.

Ellis Island records showed that immigration since January 1 totalled 53,000, while 61,000 persons left the country. Most of the latter have gone back to Poland and Czecho-Slovakia to stay. It is estimated that the figures for March will be 30,000 departures and 24,000 arrivals.

# LONDON POLICE GIVE UP ALL HAMP FOR FLASH LIGHT

### LONDON, (AP)—One of the most picturesque features of the variety outfit of the London policeman, the old fashioned oil dark lantern, is to give place to the electric flashlight.

"The London 'bobby'" has been accustomed when darkness fell to light his lamp and attach it to his belt at the back slightly on the right side. It generated too much heat, was cumbersome and when a policeman engaged in a scuffle with a criminal his clothing was generously sprinkled with kerosene.

# EXPORTS FROM FRANCE TO U.S. SHOW GAINS

### Volume Five Times Greater in January than in Same Period Last Year

PARIS, (AP)—French exports to the United States during January were five times greater than those in the same period last year, according to statistics made public yesterday. The figures were respectively \$15,000,000 and \$3,000,000.

During the seven months ending January 31, imports to France of American goods, decreased \$75,000,000.

There is no better medium in the world than a newspaper for advertising, and the News is a newspaper.

**LARGEST TELESCOPE IN THE WORLD GOES TO VANCOUVER**  
VANCOUVER, B. C. (AP)—A telescope, which, it is claimed, will be the largest in the world; is to be erected here soon. The lens will be six feet in diameter, half a foot larger than a famous telescope at Leipzig.

# SIMS ASSAILS LACK OF TEAM WORK IN NAVY

## Presents Documentary Evidence in Support of Charge that Department Failed to Keep Him Informed as to Its Policies

WASHINGTON, (AP)—Documentary evidence in support of his charge that the navy department had failed to keep him informed as to its policies and plans was presented today by Rear Admiral Sims to the senate investigation commission.

Because of his ignorance of the department's plans, the admiral contended, the allied admirals carried on direct negotiations with the navy department in Washington, and the team work was impaired. American interests suffered as a result, he said.

Admiral Sims said the first intimation he had that he was not in the full confidence of the department came soon after he submitted his annual reports from London. He learned then, by accident, he said, that an agreement had been reached by the navy department and British and French naval officials in Washington early in April regarding the disposition of American naval forces. The terms of this agreement were called to Admiral Sims' attention by the navy department on April 13, 1917, he declared.

The officer also charged that without notifying him beforehand, the department arranged with the French navy attaché and ten or more yachts to combat submarines off the French coast; arranged to establish two naval bases in France; sent naval aviation forces to that country; dispatched six destroyers from Boston; sent a hundred cannon to France on naval colliers; started a campaign in the newspapers for a North sea mine harrow; dispatched a destroyer squadron from St. Johns to Queenstown and sent four additional destroyers from New York to join his forces.

Some of these vessels, he said, arrived overseas before he knew of their allocation to his command.

Confusion in French Bases That great confusion existed with regard to the establishment of the bases in France. The admiral said he received a letter early in August from the officer assigned to command the Bordeaux base saying "the situation in France is not clear to me," and that when he had asked upon being ordered to the command of the base what his duties had been he was unable to obtain any information.

"After waiting about four weeks I received orders to proceed with a party of eight persons still no instructions," the officer said.

A similar condition existed with regard to American naval aviation forces sent abroad, Admiral Sims said.

# HAWAIIAN RADIO STATION MAKES TRAFFIC RECORD

Handles 24,000 Words in One Day Exclusive of Inter-Island and Ship-to-Shore Messages

HONOLULU, T. H., (AP) (By Mail)—United States naval radio station at Wailupe, six miles from Honolulu, established a world's record for handling trans-oceanic traffic, according to the station records. The Wailupe senders and receivers handled 24,000 words in one day exactly, the total being exclusive of inter-island business and ship-to-shore messages.

Recently the Otter Cliffs station in Maine was reported to have set the pace for the record by handling with 13,000 words handled in one day. The Wailupe station averaged that much during December, averaged 15,000 words in January, and, yesterday, if the present pace is kept up, will run close to an average of 20,000 words daily for February.

# SIX DESTROYERS-GIFT TO AUSTRALIAN NAVY

Battle Craft of Tremendous Power is Presented by British Admiralty to Island Commonwealth

LONDON, (AP)—The flotilla of six destroyers presented by the admiralty as a free gift to the Australian navy has just been taken over formally by the Australian high commissioner, Andrew Fisher, and is timed to arrive in Sydney on Anzac day, April 25. They are the *Tattoo*, *Success*, *Hannibal*, *Anzac* and *Swordman*.

Mr. Fisher states that these new vessels all of which have left the slips since the armistice, differ so greatly in design, armament, manouvering and capacity from the Australian vessels already belonging to the Australian navy that if pitched against them, not one of the earlier vessels could live more than a minute or two.

# HOSPITAL SHIP PREPARED FOR FAR NORTHERN TRIP

JUNEAU, Alaska, (AP) (By Mail)—Laden with medical supplies, the United States coast guard cutter *Algonquin* will leave Juneau within a few days for Yakutat on the southeastern Alaska coast, her summer headquarters. From Yakutat, the *Algonquin* will patrol Alaskan waters to render medical assistance to fishermen and the fishing fleet.

The vessel will hail all ships sighted and receive a report whether there is sickness aboard. But if attention will be given on the spot, if necessary, and in more serious cases, the patient will be rushed by the cutter to the nearest hospital.

A CLASSIFIED AD will find a buyer for your lot, lots or plots—if your offer will stand up under investigation.

# SALMON BANKS NEAR DEPLETED

## Intensive Fishing Makes Great Inroads on Washington Industry

OLMPIA, Wash., (AP)—Washington's salmon industry, once among the leaders in the state's activities, has been almost depleted by the intensive fishing of the Puget Sound by H. Darwin, state fish commissioner, declared in his annual report filed with Governor Louis F. Hart.

Created by the legislature of a fisheries commission to take full charge of fishing operations in Washington waters, was recommended by Mr. Darwin.

He urged that foreigners be barred from fishing in the state waters, because, he said, the destruction, in a large part, has been accomplished by persons not citizens of the United States. During the year he said, foreign fishermen landed themselves together, took the lead in the industry and increased the prices.

Stocking of the waters of the Puget Sound have almost been wiped out by the heavy fishing, the report stated. The Silverado and Chum or Dog Salmon have also been reduced to a minimum. The Douglas salmon runs probably will be attacked by the fishermen next, and, in a few years, the commissioner predicted they, too, probably will be depleted.

Columbia River, Gray Harbor and Willapa Harbor waters of Washington have not suffered to the extent of Puget Sound, Mr. Darwin said, largely because of the better management of the hatchery work. But as the fishermen are beginning to take immature salmon and are preventing the fish from reaching their spawning grounds, the waters of these waters will suffer more soon.

# MONTANA IS STIRRED BY DEVELOPMENT PROSPECT

## Outlook for Acquisition of Natural Wealth Causes Sensation in State

HELENA, Mont., (AP)—Perhaps never since the gold rushes that led to the founding of the state has the prospect of the acquisition of natural wealth so stirred Montana. Two distinct oil fields and a new gold field are drawing the adventurous from far and near.

The Roundup oil field in Little Lost a Mecca than the new Winniet-Mosby field, more recent in discovery. The gold rush is to the Scooby country where yellow metal assays high as \$420 a ton was struck in digging a well, according to reports. More than a hundred claims were staked within a few hours after the announcement of the discovery and the rush apparently is only begun.

Oil seekers who have invaded state lands projects, Governor Clark has announced, must vacate, or he will take steps to force them out. Clashes between ranchers and oil men have been reported.

# SCHLESWIG EXCITED AS ELECTION DRAWS NEAR

## People to Determine Between Dominion of Germany or of Denmark

COPENHAGEN, (AP)—Excitement prevailed throughout the second plebiscite zone of Schleswig, where the people will tomorrow determine whether the province will remain under German control or again shall become a part of Denmark, from which it was divorced in 1864 by the treaty of Vienna. Displaced from Flensburg, the seat of the enthusiastic welcome given to the Danish voters and every ship that leaves here for Flensburg is loaded with Danes.

The district where the people of Schleswig will vote tomorrow is south of the first plebiscite zone, which voted on February 10. Several islands off the west coast will join in the voting.

Lizards Victims of Curiosity. Little boys of the Orient often capture lizards by entering to their curiosity. When one of them spies a lizard that has scurried into a crevice he makes a plink of colored straw and holds it before the hole. After a time he is rewarded by seeing the tiny creature coming out to examine the curious thing before he den and later it actually puts its head into the noose, which is quickly drawn together by the watchful boy.

Many Still Read Dickens. Charles Dickens has been ruled out by a class of the younger literary critics as a decided back number, but the statement by his British publishers that during the past three years the sale of his books has been almost doubled seems to refute that idea. Some of Dickens' novels sell more than 50,000 every year, and he has been dead forty-eight years. His sales during the last ten years have been larger, it is asserted, than those of any three novelists put together.

Let the ads help you to decide where to buy it.

# DADDY'S EVENING FAIRY TALE

of Mary Graham, Dancer, 6-15-20

# THE RAINBOW DANCE

"Come on, blue fairies," called the red fairies. "You come on, too," said the blue fairies. "Of course we will," said the red fairies. "And you come along too, green fairies," they all shouted. "We will," the green fairies shouted.

"And the yellow fairies—you must come too," they cried. "We will," called the yellow fairies. "You see," said the red fairies, "we must all be here today for we're going to give a dance." "Really?" they all said. "When is the dance to begin?" "In just a moment," the red fairies said.

"What are we waiting for?" the red fairies said. "Who will give it to us?" asked the other fairies. "The Sun and the King of the Clouds," answered the red fairies. "But all of us must be ready, hurry now, it will soon be the time."

"All the fairies of the different colors go together, and each make a beautiful song, curving strike by the way you stand," said the red fairies. "And each one will make up part of the beautiful color—everyone take your place in other words, for you all know just how you must go to make up the beautiful dance."

"Ah, now we know," said the green fairies. "We didn't quite understand before just what sort of a dance it was to be. But with all our good friends here we wouldn't have missed it at any rate."

"We're going to have a glorious rainbow dance," said the red fairies. "We're just waiting for the signal from Mr. Sun and the King of the Clouds as we said before."

"That speech of yours made us think it was going to be a rainbow dance," said the yellow fairies. Now all of these fairies were dressed in beautiful soft dresses of the colors after which they were named.

"When the King of the Clouds and Mr. Sun feel like being friendly and having a chat, well really, we have to celebrate it by having a beautiful dance, don't we?" asked the red fairies. "Nothing could be a better idea," said the others.

"Hush," whispered the red fairies. "Now, get ready, for we must begin our dance." They all hurried into their different places, some of the fairies dressed in

different colors standing and blending together and making one lovely color. "Hello, King of the Clouds," shouted all the rainbow fairies. "See, we've come! A beautiful rainbow, made up of so many, many little fairies, who are so glad to see you and Mr. Sun smiling."

"And now we're going to dance. The earth people will not know that we're dancing, for we dance very stately and very quiet dances—not the hop, skip and jump, or one step, two step, a million step kind. Our dance is slow but it is very lovely, and we always take our same positions."

"See King of the Clouds, see Mr. Sun, we're going to arrange ourselves so that the rainbow fairies on either side, at each end will tell our secrets to the earth, of how we love the earth and of how we kiss it with our fairy kisses and say we hope it's quite, quite well and happy."

So the rainbow fairies gave a rainbow dance. Their decorations, their lights, their costumes, everything went together in just the right way to make a most perfect rainbow for the earth people to see. And Mr. Sun chuckled and said to the King of the Clouds, "Well, your Royal Highness, this is a pretty big treat to have a pleasant talk with you and at the same time to see this lovely dance."

And the King of the Clouds answered Mr. Sun by saying, "It's a pretty big treat for me. A very big treat! Just see how my children are sparkling with joy! They love to come along when I talk to you! Everyone sparkles with brightness and happiness when I talk to you, honored sir!"

Narrow Confines. Hibbs—Eva never runs to the door to meet me any more, wagging his tail. Mrs. Hibbs—I know he'd like to, dear, but in this flat there isn't room for him to wag it.

# MURTAUGH

MURTAUGH—Mr. and Mrs. Nick Johnston are the parents of a girl baby born Saturday, March 6. Mrs. Johnston was able to resume her duties as teacher in the school this week after an absence of two months.

Mrs. Gus Dietrich is in Twin Falls for medical treatment. Mrs. William Johnson, who has been quite ill the past week is reported improved.

Mr. and Mrs. Carl Clairborn, who have been staying at the Hotel, after home, have moved into the rooms above the Hall building. Fergus Briggs, who has spent the past two months in various parts of California returned Tuesday.

Farmers have taken advantage of the nice weather and work on the farms has commenced in earnest. Mr. and Mrs. Merchant of Twin Falls and Mrs. George White of Hoboken, N. J., were guests at a turkey dinner at the home of Mr. and Mrs. Enoch Hall Sunday.

Mrs. Julia Byers, who has spent some time visiting relatives in Salt Lake and Pocatello, has returned to Murtaugh to visit at the home of her daughter, Mrs. Walter Taylor. Lloyd Griffen, who enlisted as mechanic in the aviation corps, is now stationed at Pearl Harbor, Honolulu and the first of the month received a promotion to second class mechanic mate.

Mr. and Mrs. P. J. Fahey and Mr. and Mrs. Elmer Chance motoring to Twin Falls Tuesday intending to attend the Eastern Star lodge.

# MONTANA AUTOMOBILE SHOW ARRANGED FOR GREAT FALLS

GREAT FALLS, Mont., (AP)—The fifth annual Montana Automobile show will open here Monday and continue all week. Many of the leading dealers of the northwest are expected to exhibit and almost all makes of standard automobiles will be shown.

Montana stands third in the nation in per capita ownership of automobiles and the business is predicted by the Montana Automobile Dealers' association, sponsors for the show.

# PAUL

PAUL—Two autos collided about three-quarters of a mile south of Paul Thursday night. One, a large car, owned by Collie MacBee, struck a smaller one and pushed it back about 20 feet and turned it around, smashing three wheels and damaging the body considerably. The big car was into the ditch with but slight injury. The other was owned by a Burley resident who was accompanied by four young men. The larger machine was driven by William MacBee who was accompanied by his sister, Margaret, and Miss Florence Sorine of Heyburn. No injuries were sustained, other than slight bruises.

Last week the 20-months-old son of A. A. Stewart caught his hand in the gears of an electric washing machine, causing two fingers so badly they had to be amputated. Mrs. B. Saddler of Salt Lake is visiting her brothers, Vic and Herman Fullman, for a few days. The Ladies Aid of the Methodist church held a monthly tea at the home of Mrs. A. B. Campbell on Friday.

C. A. Webb, mail route man from Heyburn, has returned from Missouri where he was called to the bedside of his father who was very ill. He reports his father's condition greatly improved. Carl Conway has returned from Nebraska where he was called by the death of his mother.

The Paul city water works is now in operation. The Rev. Frank Shubald of Seattle began a series of revival meetings in the Methodist church of Paul last Wednesday night. Meetings will continue at least on Tuesday, after a week's illness. The Players of the Paul team are beginning to return in anticipation of the coming season.

The box social given in the school house for the benefit of the Paul band netted \$281. Mrs. Anna Dunham, mother of Willis Dunham, died at his home, a mile west of Heyburn, on Tuesday, after a week's illness. The funeral services were held in the Methodist church.

I do not exaggerate when I say I know of no greater mistake in our affairs than the manner in which we permit a small minority of cunning enthusiasts to control to the point of absurdity and danger.

CONGRESS AND THE PRESS

It is at least unfortunate that there should result from the present day definition of "news value" a degree of misconception leading to assumption that developments that are extraordinary or unusual are the ordinary or even the exclusive activities of any person or organization.

It is unnecessary to observe that such misconception is an unnatural one and where manifested it is to be suspected that it is fostered in the interest of some agency that has an ax to grind.

It is unlikely that any organization suffers more from this state of affairs than does the legislative branch of the American government.

To such a pass have things come that an assertion that waste, graft and "soft snaps" are the unusual thing in official Washington is certain to meet with howls of derision in some quarters.

To these it seems impossible that any good thing can come out of Washington, or, more especially, from the halls of congress.

An occasional glance at crowded pages of the bulky Congressional Record, which sets down the daily doings of congress, would prove largely enlightening regarding the course which government takes daily in Washington.

Says the St. Louis Times in this connection: Take the session of last Friday, for instance. The previous night Democratic leaders from all over the country had assembled at an annual celebration of much moment to themselves, the party and the country.

Some sensational happenings had marked the occasion. It would be natural to suppose that both Senate and House would so buzz with excitement aftermath that nothing else could get attention.

Yet in the Senate last Friday there were careful and long considerations of water power problems, industrial legislation, the edition bill, naval affairs, amendments of the rules, recognition of the army, and drainage of certain lands in Arkansas, besides the introduction of numerous petitions. In the House of Representatives that same day the following matters were gone over: Indian affairs, District of Columbia fire department interests, railway legislation, postoffice appropriations and soldiers' pensions, together with the introduction of 23 new bills and the filing of 70 petitions on various affairs.

A full day's work? It would

The Present State of Organized Labor

Editorial in The Union, Indianapolis.

Fears that American labor would be stamped, toward Bolshevism, communism, syndicalism, or any other "ism" by reason of the activities of the radicals, appear to be ungrounded. The reasonable majority of the workers apparently is standing pretty "pat" and is showing a fine spirit of co-operation with capital in solving the pressing industrial problems of the present.

The Union of Indianapolis, the oldest labor organ in the United States, sounds labor's keynote of conservatism in a recently published editorial, which says in part: "More millions of dollars are spent by the employers in the United States every year to promote the physical and social and economic welfare of their employes than are spent for any other purpose aside from the direct promotion of business interests."

"We would like to impress this fact on working men. And we do not refer to the betterment of working conditions prescribed by law and through compulsion. We have in mind the plans evolved and voluntarily carried out by the mass of large employers for better working conditions—and which would be extended to creating better living conditions but for the fear of creating a spirit of resentment among the workers."

"The younger generation of workers takes for granted the new conditions, light and well-ventilated shops; tiled wash rooms and lockers; fans to get rid of the dust that once choked the workers; and modern sanitary arrangements. They take the shorter hours for granted, good pay as a condition precedent to working at all. Men of forty or more remember the old days when they produced by main strength and the full dinner pail was so entirely the objective of labor that a great national party made it a slogan and swept the country. They and their fathers worked longer hours; they were choked with dust; the most elementary needs of nature were satisfied at great cost; they had no surroundings in luxurious fittings in the workshops—and none at home. How many thousands of them died, killed as effectively as though their bodies had been torn by the machinery—which happened not infrequently—we leave to statisticians. Those who live know."

"Times have changed and the customs—but let no man who works think that the change has been wholly wrought by the working body. Of course the employer has profited but his skill in taking a greater profit in money is not to be compared with the stupendous relative profit, mental, moral and physical, of the man who sells the work his hands."

"Capital is not inimical to labor naturally, but the complement of it. Unless we go back to primitive conditions we must live in the world as we have made it. Most of us have to sell the work of our hands or brains in a sharply competitive market. The best we can get is what the market affords. If we are simply 'hewers of wood and drawers of water' we get a better price in kind and in price and in conditions of work than ever before in the world; if we have manual skill we are of noble proportions."

"We vitalize capital. "But capital vitalizes us—that is most important. Left to our own resources we would have as bad working conditions today as our ancestors did when money was in the air. Left to itself, capital would have a multiplicity of petty matters and no capacity to serve labor."

"Labor today commands a great price in that service that has to do with manual skill or brawn; it takes a larger share of its ultimate value than ever before it works under beneficent conditions generally. It has, broadly, the good will of the employer and is much concerned about the health and social and economic welfare of his employes because he has a fine concept of human rights and recognizes certain elements."

"We suggest to our friends who work to contemplate the fact that there is no road to wealth to be made easy by conflict; that nature doesn't change; that improvements in conditions of labor were not brought about by throwing bricks into the machinery. Expediency in some cases, pure humanitarianism in others, have made the shops and factories of the United States the most desirable places of labor from every point of view in the world."

"Contention is, of course, unavoidable as between bargainers for any commodity, and labor and capital will quibble, even fight. But, let us consider the excesses of contention not only under duress—and the tremendous gain in kind for labor. So let us be fair—even accommodating—incidentally throwing the Socialist and Bolshevism into the ditch as a plain nuisance."

seem so. It requires 78 closely printed pages of the Congressional Record to set forth these proceedings. In all this, too, the peace treaty is scarcely mentioned. And it was but an average day in Congress. But who among us all imagined the day following Democracy's big banquet being passed by our national legislators in such businesslike fashion? Certainly the Washington correspondents neglected to say what Congress really did that day.

Certainly it is not to be expected that any news service could undertake to transmit so great a volume of matter as the Congressional Record contains each day, or that the readers of any newspaper would care to wade through so great mass even if it were published; but in this there is no basis for the notion that because little or nothing is said, little or nothing is done.

It is quite frequently the most powerful engine that makes the least noise. In particular, in this instance, it may be said that it is to be expected that only where congress approaches dereliction with respect to discharge of the routine and necessary business that any considerable amount of publicity is to be expected to result, in accordance with generally accepted—and demanded—standards of news value.

PROSPECT FOR BASEBALL 1920 BETTER THAN EVER THROUGHOUT THE LAND, SAYS JOHN FARRELL

Secretary of Minor Leagues Sees a Prosperous Year Ahead for the National Game, Both in the United States and Canada—People More Than Ever Demanding Outdoor Sports

NEW YORK (AP)—In forecasting a successful season for the minor league baseball clubs throughout the United States and Canada, Secretary John H. Farrell of the national association said a few days ago, "I believe the general prospect for 1920 in the various sections of the country and Canada were never better. The people are turning to amusements and outdoor sports for recreation in greater numbers than ever before. Last year the minor league clubs enjoyed their most prosperous season in five years past. This era of prosperity extended to all leagues in every section of the country and is the far off Western Canada, Iowa and Alberta. The minor leagues have flourished under the National association government as never before in the history of baseball."

According to the annual report read at the convention of minor league club owners held at Springfield, Mass., last November 15 league employing nearly 2,000 players began the 1919 season and 13 of these finished their official playing schedules. The International Northwestern league closed down on June 7, but the New England league paid its players in full for the full term of the schedule which ended September 1, although the league closed its season on August 2.

This year the prominent winning league of 1918, Pacific Coast American Association, International, Western, Southern, Eastern Association, Texas, Michigan-Ontario, Three I, South Atlantic, Western Canada, Virginia and Florida State are all ready for the coming season. So are the New England and reconstructed Northwestern organizations and in addition there is great activity in reviving or reorganizing others with every promise of many of them being ready to begin play early in May. Among these are the Blue Ridge, Corn Belt, Cotton States, Illinois-Missouri, Central Association, Oklahoma-Kansas, New Florida, Georgia, Alabama and Nebraska State leagues.

The National Association of Minor Baseball leagues which has been productive of good results and the welfare of the national game was organized 20 years ago. At the outset it was composed of nine leagues, but three years later it had 23 members and in 1912 it reached the top notch

30 leagues in operation and that two years more will finish the national association operating with a membership equal to its banner year.

LANDS 'E. O. TOLEDO, O., Ohio Young of Beaver Falls, Pa., knocked out Young Jarvis of Toledo, middleweights, in the second round in the curtain-raiser.

# PREDICT BETTER RELATIONS FROM TRADE MEETINGS

### Mexico City Newspapers Refer to United States-Mexican Conference as Making for Mutual Amity and Understanding

MEXICO CITY, (AP)—Local newspapers refer to the United States-Mexican Trade conference which recently closed its sessions and agreed that its "concluding importance" and predict that as a result there will be "clearer relations between the two republics, better understanding and mutual aid."

Mexico is a fertile field for American trade expansion was admitted by all speakers and it was agreed that if the United States is to get its share of business there must be a revision of its trade methods. A point insisted upon by persons acquainted with the country is that "each in advance" policy must be abandoned or at least modified. Germany and Great Britain, who appeared to be considered the principal commercial competitors, are liberal with their credits. It was declared, and Latin temperament does not take kindly to a policy that even hints at personal dishonour.

American bankers were severely scored during the discussion for an alleged lack of co-operation with American exporters in the matter of credits and other accommodations that would facilitate business. Representatives of these banks declared in defense that there was no disposition to discriminate and that a suitable credit standing is all that is necessary.

Bankers Appear Trade Credits F. W. Dunkley, local banker and representative of the American Bankers' association, said that Mexican banks are opening commercial credits in the United States, Europe, and Japan and that a system of trade acceptances is being worked out. He urged larger American investments. "The opportunity is here," he declared, "the time is propitious and some one is going to furnish the necessary capital. We hope it will be largely American."

Prospective advertisers in the republic were given many helpful hints by merchants here, all of them complimenting the newspapers upon their general reliability and worth.

Send representatives to Mexico who speak the language—Spanish was another injunction imparted by many speakers. "The reason Germany is strong here," declared one, "is because every business man who comes speaks Spanish as fluently as his native tongue. He has been educated to understand the people he lives as they do and he more than any other foreigner marries into Mexican families. Moreover he has one business policy that few American firms follow. He fills an order exactly as it is given. One of the principal objections Mexicans find with American firms is their consistent substitution with 'something just as good.' The coupled with a harsh credit system makes entry difficult."

Little Formal Business The conference did little formal business. An address by John J. Arnold of San Francisco, representing the American Bankers' association, in which he advocated the calling of an international banking conference and the establishment of an international clearing house, resulted in the appointment of a committee to draft a resolution endorsing this sentiment. The committee, however, failed to report. Another resolution which lacked formal sanction provided for a system of exchange of students between American and Mexican universities.

# Farmer Organizations Welding National Strength

Farm organization activities have resulted in more fruitful unity this winter than at any other time in the history of agriculture in the U. S. Here are pictured a group of leaders in the Board of Farm Organizations Congress which met recently in Washington. Front row, left to right: Clifford Stinchot, director N. B. F. O.; G. S. Barrett, president National Farmer Union; J. H. Kimble, secretary Farmers' National Congress; E. F. Cobhill, Maryland Agricultural Association; C. O. Dreyton, president Farmers' Equity Union. Back row: J. W. Batscheller, president South Dakota Farmer Union; Leroy Nelson, secretary Farmers' Equity Union; Dr. T. B. Symons, Maryland State Agricultural College; and Charles A. Lyman, former secretary N. B. F. O.

# INTERCHANGE OF NEWS IS CALLED MUTUAL BENEFIT

### Connection of South American Newspapers with Agencies of United States Brings About Better Feeling

BUENOS AIRES, (AP)—Interchange of news between North and South American newspapers with the news agencies and newspapers of the United States has brought about a "better and more thorough feeling of commercial and social brotherhood in every nation than would have been possible in anything less than decades under other conditions." Don Jorge Mitro, director of La Nation, told members of the American club, of Buenos Aires, at a luncheon. Speaking as a publisher, Mr. Mitro said, "I consider this to be one of the great missions of journalism."

STOCKMEN INCREASE BOUNTY SHERIDAN, Mont., (AP)—Because wolves and coyotes increase their ravages, the Ruby Valley Stock association has raised its bounty scale. Fifty dollars is offered now for a wolf and half that amount for a pup. Coyotes of all ages, bring five dollars each.

# YANKEE SPIRIT FINDS WAY AROUND BARRIERS

Yankee spirit will find a way. That has been remarkably demonstrated by the Champion Spark Plug company of Toledo, Ohio, which has devised a plan that will enable French dealers to handle Champion spark plugs at a profit despite the 70 per cent import duty on automobile accessories.

The Toledo company determined through actual experience that the disparity in exchange rates and the high import tariff made it unprofitable for dealers in France to buy its products. So the company has offered to reduce the price of its product to French consumers sufficiently to take care of 35 per cent of the import duty, or, in other words, to bear just half of the duty.

Before this reduction was allowed, the cost of a \$1.00 (list price) spark plug in France was approximately \$3.00 in French money. "Our aim in making this reduction," says F. B. Caswell, general sales manager of the Champion, "is to show our friendly spirit toward the French and to contribute our bit to the solution of the problems relating to international exchange which are of mutual interest."

# INADEQUATE SALARIES MENACE TO EDUCATION

### Country Faces Serious Shortage of Teachers; But Conditions Improve in Part

WASHINGTON, (AP)—The country is faced with a serious shortage of school teachers, chiefly through failure to provide adequate salaries, according to reports to the United States bureau of education. Conditions are becoming slightly better, however, the report states, in some sections, compared with those of last October when the National Educational association conducted an inquiry into the situation.

Based on returns from state school officials, the reports show that on February 15, last, there were 18,272 schools closed because of lack of teachers, and \$1,900 being taught by teachers characterized as "below standard." Great or shortages are shown to exist in southern states.

EMPLOYMENT BUREAU FOR STUDENTS AT BOZEMAN BOZEMAN, Mont., (AP)—An employment bureau for the students of the new school of business administration of the state university here, as soon as the new school is fully developed, is planned by Shirley J. Ocon, newly elected dean. An advisory board of five business men of the state of Montana will be appointed by Chancellor E. C. Elliott, it is announced. The employment bureau will aid grad students of the school to obtain positions much the same way as the school of journalism assists its graduates in obtaining places on Montana papers.

# LOCAL CAR COMPANY ENLARGES BUSINESS

The Idaho Automobile & Supply company has just made application to the state of Idaho to allow an increase of their capital stock to \$100,000. This company was incorporated in January, 1918, with a paid up capital of \$20,000 and in December, 1919, they increased their capital to \$50,000. Already they find the growing business demands more capital with the result that they are now asking the state to authorize the increase to \$100,000 and of this amount there has been paid in its amount of \$62,500.

At a recent stockholders meeting this increase of capital was voted for and directors were elected for the year. The directors elected their officers as follows: G. E. Duke, president; R. D. Stover, vice president and E. N. Flory, secretary-treasurer.

The Idaho Automobile & Supply company are agents for the Reo car and Speed wagon for this territory and they always have a larger demand for cars than they are able to fill. They are also distributors for the Indiana truck for southern Idaho and have recently enlarged their territory for this truck by taking over the distribution for the entire state of Nevada. A large number of these trucks have already been placed in this territory. They have just unloaded another carload and have four more carloads to arrive in the next two or three weeks.

This company is also distributor for the United States tires and have increased the output of these tires about 400 per cent in the past three years. They also carry a complete line of

All kinds of automobile accessories. They own and operate a large battery charging outfit in the city and have the agency for the Champion storage battery which carries a full rate guarantee for one year. With the above aggregation of established lines under their control, they rapidly growing company has already outdistanced many of their former competitors in the field. We predict for them many other expansions of capital carrying which will result in increases in their business output in the future.

Our stores were never more attractive. A visit to any of them is a delightful experience. You see the very best things in merchandise—as well as the familiar things—and you get ideal a voice worth listening to!

# Cole Aero-EIGHT

BALANCED TO ZERO

What enables the Aero-EIGHT to be so light and yet possess such strength, endurance and stamina?

Aero-type engineering has solved the problem of obtaining strength without relying on bulky weight. The famous frame work of the Aero-type is able to support almost unbelievable burdens and to withstand the rigors of the most violent strains. Absolute co-ordination of all supporting members is required so that each will share in maintaining the load applied at any point. The entire mechanism is balanced to zero.

These principles of perfect balance are applied in the design and construction of the Aero-Eight and vest its near 3,500 pounds with strapping vigor.

# ENGLISH ENLIST FOR EXPANSION OF COTTON AREA

Importance of Increasing Supply of Raw Crop in British Empire is Urged by Growers Upon Government

MANCHESTER, Eng. (AP)—Lancashire's entire cotton trade, at a recent conference here to urge upon the government the importance of increasing the supply of raw cotton within the British empire, heard Lord Derby, president of the British Cotton Growing association, declare that failure of the government to preserve the industry would "turn Lancashire into a howling wilderness."

Sir Herbert Dixon, formerly president of the cotton control board during the war, said the United States could not seriously increase its growth of cotton, and that the demands of the United States for cotton for its own use were becoming greater. It would be a mortal blow to Lancashire, to Great Britain and the United States as well, he said, if prices continued to fall.

Edwin Stockton, president of the Manchester chamber of commerce, presented a resolution, which was unanimously adopted, expressing appreciation of the cotton employers' decision to contribute a levy of sixpence per bale toward the cost of expanding the cotton fields and asking the government to make financial provision which would in combination with the money subscribed in the industry, give effect to the proposals of the Empire Cotton committee to promote cotton growing within the empire.

Vice president Sinto of the Liverpool Cotton association said he believed a well thought out project involving the purchase of land for the cultivation of cotton could be made as an absolutely sound proposition.

## MOTORS SUPPLANTING OF HORSE IS PROBLEMATICAL

Introduction of Truck on Farm Often Indicates Provision for Increased Hauling

WASHINGTON, (AP)—The extent to which motor vehicles are supplanting the horse on farms is problematical, department of agriculture experts declare, after a recent survey, which disclosed that at least 50,000 farmers in the country own motor trucks which they use on their farms. Passenger cars and trailers were excluded. In many cases the introduction of a truck on a farm indicates provision for increased hauling rather than a useful reduction in the number of horses used. Horses on farms reached their maximum in 1913, and since then have been gradually decreasing. Their number on January 1 this year was 21,109,000 a decrease of 37,000 head from January 1 last year. The horse market is regarded as unsettled and the future equally uncertain. The best demand during the last year has been in the south.

## AT LAVERING MARCH 18

Jack Norton and some of the Perfect 36 Chorus, with John Cort's Alluring and Spicy Musical Comedy, "Flo-Flo."

## ALL RANCHERS NEED ELECTRICITY ON FARM

What is a farmer's time worth? What is he worth an hour? Does he charge his business—the business of farming—with the time he gives to it? And does he know how much time he is giving to executive work and productive labor and how much to non-productive labor? The farmer who is not giving these things a little thought is not in the front rank of those who are making of farming what it really should be—a business on a business basis.

The average gross income from a farm of one hundred and fifty acres will be something over \$3,000, and to produce that income between 7,000 and 8,000 hours of productive labor are required. This makes the average productive labor hour worth about 40 cents.

To make every one of these 40 cent hours productive of its share of profit, it is necessary to reduce non-productive labor to the minimum, and in farming as in manufacturing, it has been found that the best way to do this is to use labor-saving machinery. The small electric light and power plants now in use on so many farms accomplish a lot of this labor saving. Instead of spending hours pumping and carrying water for stock and for all household purposes the modern farm family has an electric pumping system installed, which keeps water at a pressure of fifty pounds wherever it is needed in the house or barns. Grindstones, faning mills and many other light power appliances in the barn which used to require the time of two men are now turned by electricity. In the house the pumping, churning, separating, sweeping, washing and ironing are all done by electricity, relieving the farmer's wife of a great part of the burdens which have made her life a hard one. And of course electric light itself makes

the farm home a bright and cheerful place to live.

Where electricity serves the farm family we find the best of living conditions, and we find too that every member of that family makes each hour of labor pay a profit.

## ROAD BUILDERS RECEIVE WAR MOTOR VEHICLES

Department of Agriculture Receives Trucks for Distribution Among Highway Commissioners

WASHINGTON, (AP)—Approximately 24,000 motor vehicles intended for war purposes have been turned over to the department of agriculture by the war department for use in road building, allotments being based on the amount of federal aid for roads which the states receive. Already 19,000 have been delivered to states and the remainder will be distributed as fast as railway cars can be secured for their transportation, which will be probably two or three months. This equipment promises to be of great aid in carrying out the large road building program for 1920.

## LARGEST BLIMP TO BE BUILT AT PHILADELPHIA

Giant Dirigible is Planned to Be Used in Attempt to Fly Across Pacific

PHILADELPHIA, (AP)—The world's largest dirigible will be built at the Philadelphia navy yard. In it a company of navy men will attempt to fly across the Pacific.

Fifty-two draftsmen gave their services to the work of designing the great airship. Work will soon be begun on the plans.

It will be developed along lines similar to the R-34 which made the successful trans-Atlantic flight.

The dirigible will weigh about 33 tons and will have a carrying capacity of 30 tons.

## ARMY CAR STILL DEFYING FLOODS

France has no monopoly on flooded roads and other trying conditions for army motor cars, although soldiers are generally of the opinion that automobiles were never called upon for harder service than they were during the war overseas. Capt. E. D. Davis never questioned this opinion until he was assigned to supervise two big government water projects near Newport News, Va., but the following incident at Dodge Brothers, Detroit, would indicate that he has encountered something that tends to change his viewpoint.

"It would hardly be possible after the reputation that Dodge Brothers cars made in France to say anything that would increase it," the captain writes, "yet I can not help but add a word of praise for what it is doing for us under difficulties as great as those in France."

"The government water projects, the Big Ditch and Harwood Mills, are located respectively 12 and 17 miles from Newport News and are under the direction of my office. The communicating roads are, generally speaking, as bad as any that I ever saw in France. Communication is maintained by means of Dodge Brothers motor cars and they have never failed us yet."

"Recently a storm, which was called the worst in years, swept this locality. During one period of 48 hours it was reported that over 2 inches of rain fell and my presence was necessary at both these projects. Against the advice of everyone that knew the roads, I took a Dodge Brothers touring car and was absolutely astonished at the ease with which it took four passengers on the worst road I ever saw in France or America. The water lay 12 to 18 inches over the top most of the way and I am satisfied that a horse could not have done the job as the Dodge Brothers car did. I am sending you photographs to illustrate these conditions. Congratulations to you for making a real, serviceable car."

This letter, incidentally, will serve as an answer to many questions as to what the government did with the thousands of Dodge Brothers motor cars that were in the army during the war. They are still in the army and in other branches of government service.

Brief Bits of Sport

Maxine Wayne, having decided she does not want the name of Dempsey...

That is according to word coming out of London where the woman is said to have made 'startling statements'...

Maxine is getting brave as she proceeds.

'He said a lot of ball players who used to kick and kick about training table rug, but a lot of the kick stuff after being guests at Uncle Sam's army table in France a few months.

Bob Martin, A. E. F. champion, is scheduled to meet Sergeant Ray Smith at Akron, Ohio, March 17.

This will be the third battle of this pair, with Smith having the edge over the champion army man.

Manager Griffith of the Washington Senators, has managed to make a number of changes in his lineup this spring.

Besides trading Harper, Foster and Menckley to the Red Sox for both Sam Shannon, the 'Old Fox' has obtained Dave Davenport, pitcher, from the Browns, and 'Red' Smith, veteran infielder from the Braves.

According to members of the committee in which was vested authority to canvass Twin Falls for baseball sentiment, the game is absolutely discontinued as far as this season is concerned.

The committee, it is said, had a car pitcher lined up to manage the bunch if a team had been put in the field.

Jimmy Wilde, British flyweight champion here, whipped Frank Mason last night, and apparently displayed marked superiority over the American flyweight champ.

The story of the battle leads the sport reader to conclude that the Briton pulled his punches and made no effort to land a deadly blow, although opinion is that he could have brought the battle to a decisive finish almost any time.

The astute little Welshman may be playing for a further match.

Twin Falls high school grappling artists clamped the scissors on a bunch from Boise last night.

Boise got one draw, forfeited another match when its representative suit to Seavers, while Twin Falls decisively won all other bouts.

FRANKFORT, Ky. (AP)—The ban on pugilistic contests in Kentucky was virtually lifted yesterday by the senate which has provided for the adoption by the house to legalize 12-round, no-decision bouts in the state under supervision of an athletic board of control...

INDOOR MEET (AP)—The national indoor track and field championships of the Amateur Athletic union, here tonight, will bring together the acme of the college and athletic club stars of the country.

RAILROAD TIME TABLE table with columns for Eastbound, Westbound, and Rogerson Branch Trains.

NEW YORK, (AP)—The national amateur boxing champions at P. Kaminia, New York, 108 pounds; Ashton Donze, New Orleans, 116 pounds; William P. Corbett, Somerville, 125 pounds; Frank B. Cassidy, New York, 135 pounds; Dave Rosenberger, New York, 145 pounds; Sam Lagonia, New York, 158 pounds; Al Rocha, Somerville, 176 pounds; and Edward F. Egan, Denver, heavyweight.

O'DOWD SCORES AGAIN DENVER, Colo. (AP)—Mike O'Dowd of St. Paul, middle-eight champion of the world, last night knocked out Tommy Madden of Brooklyn, in the third round of a scheduled twelve-round bout here.

A right to the jaw ended the fight Madden made a poor showing, the champion hitting him as will.

TO MAKE CRIB RULES NEW YORK, (AP)—The football rules committee convened this morning after a five hours session last night in which various proposed changes in the sport were considered, but no action taken.

# SCHOOL HONOR IS UPHELD BY MAT ATHLETES

### High School Wrestlers Demonstrate Superiority Over Boise Men

Twin Falls upheld its high school athletic prowess again last night by defeating the Boise school team in a new athletic field. Six Boise wrestlers met an equal number of local wrestlers and lost, 20 points to 0. Three exhibition matches and six interscholastic bouts were staged at a mat in the high school gymnasium.

An exhibition between McAttee of the local high school and Reucht, a traveling professional, with a weight of 145 and 115 respectively, started off the program. Reucht, a midweight, but very spry, and neither man was able to obtain a fall. Referee, Epier.

**Big Yellows Draw**  
Francis Mottig, 172, and Bob Nicholson, 154, of Twin Falls, went 4 minutes to a fall for Mott. Some argument ensued over the referee's decision and the two men met later, where Mott in nine minutes, 43 seconds, making a fall apiece. Lewis, referee. In a third match the wrestlers went 10 minutes to a draw, neither man got the evening decision.

**Shorty** Reynolds of Twin Falls and William Barry of Boise, weighing 133.3 and 125 pounds respectively, tussled for 10 minutes to a decision. In their second match, Reynolds pinned Barry to the mat in 6 minutes, 29 seconds. Nick Collins refereed both matches at the high school, and Harris, professional, exhibited wrestling skill in a 10-minute no-decision match. Patz and George, both of Twin Falls, then put on a three-round boxing bout, which ended in a draw. Collins, referee.

**Quick Fall**  
Floyd Lanson of Boise met defeat at the hands of Jake Irwin in 2 minutes, 55 seconds, Irwin having a rather easy time pinning his opponent. Weights were: Lanson, 148; Irwin, 150. Lewis, referee.

A midweight match between Frank Seaver and Budie Egan, the latter of Boise, ended in Hughes being thrown. Schwarz outweighed Hughes, 100 pounds to 80, and was handicapped this difference the time of the fall was 6 minutes, 34 seconds. This was an extra match and had no influence on the tournament result.

**Out of Condition**  
The announced match between Cliff Lewis and an opponent was called off because of Lewis being unable to walk the preceding day. A crowd of about 150 persons witnessed the evening's program, which was not concluded until 11:15 o'clock. The local athletes will go to Boise for a return tournament about the last of the month. Coach Bobey deserves credit for the victory of last night as he has had his men in good condition and will likely trim Boise again.

## High School News

School hours will be changed back to old schedule on Monday, when the roll will be called at 9 o'clock and 1 o'clock. A full hour at the noon intermission will be retained and school will close at 4 o'clock every day, beginning Monday.

The declaimers representing the high school will go to Flor Friday night for a sub-district declamatory contest in which the schools of Kimberly, Elmer, Bluff and Twin Falls will compete. At the same time another sub-district contest will be held in the eastern part of the district with Eppert, Gooding and Burley competing. On the night of March 26 the district contest will be held at Burley, when two winners from each class of declamation from each sub-district contest will participate. At the March 26 contest, one winner from each class will be chosen to participate in the state contest a few weeks later.

# CAVALRY TROOP FOR TWIN FALLS IS MORE THAN A MERE PROSPECT

### Ambitions of Local Boosters for Stationing the Army Unit in This City Receive Encouraging Consideration in the State Department—Dr. Deane Outlines Program Designed to Institute Army Here.

Twin Falls as headquarters for a cavalry troop of the National Guard is more than a mere prospect or vision. It has the stamp of surety and permanence, according to Dr. H. C. Deane of this city.

Dr. Deane, a former service cavalry man some time ago inaugurated a silent campaign for establishing a mountaineering unit in Twin Falls, and, taking the question to L. V. Patch, adjutant general of Idaho, has received considerable encouragement for the project. Dr. Deane will enlist co-operation of local business men in the furtherance of his object.

The project purposes locating a troop of National Guardsmen here with mounts. This is the number for emergency times. It means the stabling and feeding of the troop for the entire year, the state to furnish one-half the number required, and the federal war department the other half.

There is an important social as well as a military feature attached to the stationing of a cavalry troop anywhere, entertainment functions in connection with the military being, as a rule, leading affairs in all station communities. The troop's coming will mean a need for an armory, where all social affairs will be carried out, along with the regular business of the army section. The members of the troop are eligible to spend a two weeks' vacation period annually at maneuvers encampments at government expense.

The federal government urges sports as a part of the training program in any of its war training departments. Should a troop be stationed here it should mean a quickening of the moribund sports quietening in Twin Falls. The members of the troop are eligible to spend a two weeks' vacation period annually at maneuvers encampments at government expense.

It is the intention of Dr. Deane to line up a strong, well-to-do favor of the troop and then call upon the adjutant general to come to Twin Falls and investigate the conditions.

"Prospects are particularly bright," Dr. Deane summarizes.

Dr. Evans, the optician, is at his office this week and will remain until Wednesday, March 17, when he will be gone for a few days. Headaches and nervousness often come from eyestrain. We get relief in such cases with properly fitted glasses. J. T. Evans, Optician. Office over Fisher's Drug Store on South Main St.—adv.

Not "how cheap," but how good—Adv.

was defeated by the local girls' quintet yesterday afternoon at the high school gymnasium, 16 to 2.

Boys in the manual training department have been renovating old track equipment and have it now looking in fine condition. Active training for track will start in a week or two to prepare for the cross-country run with Gooding high school. It is also expected that a track meet between Boise and Twin Falls to take place about April 15 will be arranged soon.

| Auto and trucks account   | 17,460.03     |
| Local taxes   | 540,058.34    |
| Balance on hand   | \$ 941,132.23 |

# ROTARY CLUB APPROVES SYSTEM OF EMPLOYERS

At the regularly weekly meeting of the Twin Falls Rotary club held on Wednesday, the following resolution was adopted:

"Resolved, That the Twin Falls Rotary club hereby endorses the broad principles as outlined in the aims and aspirations of the Twin Falls Employers' association, and known as the 'American Plan' of employment.

"We heretofore go on record as approving the inherent right of each and every employer to employ whom he pleases without reference to the membership or lack of membership of any employee in any church, lodge, union or other organized institution, and, 'We believe that every employer is entitled to a complete individual right of choice as to whom and under what circumstances he shall accept employment."

# TRACTOR DEMONSTRATION

At the McConnell place east of Bull the county farm bureau is today demonstrating the use of a tractor as to depth of plowing, economy of fuel consumption, speed and quality of plowing. Several machines have been entered and the demonstration is proceeding satisfactorily, according to reports received by the local farm bureau office. A good crowd is present at the demonstration.

# SCRUTINIZING BIDS FOR ROAD-BUILDING

### Proposals for Bridges and Roads Considered Today by Highway Commission

Several bids are to be opened this afternoon for construction work on roads by the highway district. The bids are to be based on 27 1/2 miles of unimproved roads tributary to the main highway.

Bridge bids are to be opened also by the highway district board. About six bids are to be received by the highway commission, divided between road and bridge construction work. Representatives of companies bidding for the contracts arrived in the city this morning today and are to be present at the meeting of the district board this afternoon.

**OPEN REALTY OFFICE**  
E. E. Crabtree and J. W. Joesse have opened a real estate office in the Addison T. Smith building on Shoshone street south. The firm will handle life, fire and automobile insurance as well as city and country real estate. Mr. Joesse has been in the insurance business in Twin Falls for some time. Mr. Crabtree was in charge of the labor farm bureau last year.

**NOTICE OF APPEAL**  
Homer C. Mills, attorney for Joseph Ononwein, today filed in the district court notice of appeal to the district court of the case of Ononwein vs. Richard Hausing.

# RAILROAD BOOSTING COMMITTEES CHOSEN

### Asher E. Wilson Heads Board to Draft Contracts for Walls Line Support

To work out details and arrange for contracts between the Twin Falls Chamber of Commerce and the proposed railroad company which plans to build a line to Wells, Nevada, from Twin Falls, two sub-committees were appointed today. The first committee, which is meeting this afternoon with the railroad backers, for the purpose of drafting a contract, is composed of Asher E. Wilson, ex-officio chairman, E. H. Gray, W. E. Craven, E. A. Walters, J. M. Bothwell, E. M. Wolfe, S. A. Shober, Charles Mall and E. V. Berg.

A second committee to work out cooperation and a sub-contract involving \$500,000 and to prepare contracts for subscribers has as its members, J. S. Bassett, W. E. Erickson, C. J. Robinson, A. Kestor, Taylor Cummings, E. A. L. Hodgin, A. R. Hicks and J. D. Kinney.

## THE APEX ELECTRIC WASHER Saves You

MONEY, because it reduces the washing bills; no need of hiring laundress if you have an APEX. Cuts the soap bills and cuts the fuel bills because no need of boiling clothes.

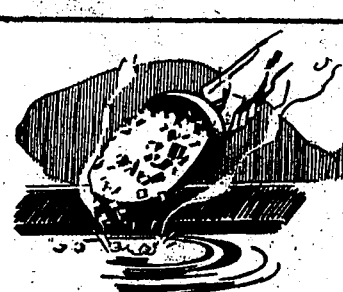

Put your dirty clothes and hot water, with soap, into the tub of the APEX, attach the plug to the electric light socket, touch the button, and the washing—the whole family washing—is done in less than two hours, with no labor and at a very small cost for electricity.

The APEX WASHER is so different, so advanced that you must see and try it to know the great advantages of its improvement. APEX washers have no equals for satisfaction and service.

Inquire about our easy payment plan.

## How the Public Has Learned a Lesson from the Laundry

Advertising campaigns calling the attention of housewives to the value of soap flakes in laundering have been appearing in the press for a number of months.

Yet in adopting soap flakes for household purposes womankind is only learning a lesson from the laundry.

Chipped soap and soap flakes—with soft water—are what we use when we do your family washing. Our soap flakes are of a well known make, rich in pure vegetable oils, that whip up into billowy suds.

It is this combination of fine flakes and silky, soft water that enables us to give your family washing a cleansing that can scarcely be improved upon in your own home.

Let us do your washing for you in these days of rain, sleet and winter winds.

Ours is the twentieth century way of laundering. Just telephone and we will send our driver for your family bundle.

## Our Story Today is Short and Sweet

It isn't the sweetest story ever told because it's too real to be romantic.

The new Stetson Spring Soft Hats are here and anything we said about the Stetson fashions last Fall is but a molehill to the mountain of adjectives we could say today—if we had time.

Get out and get under—

The prices are \$8 to \$10 and if 8 is a little early—make it 10—we're open until 6.
