Declares Denial of Right for the Majority to Determine Course Would Be Suicidal Move for Democratic Party

WASHINGTON, (AP)—Hastening to clear the way for final action on the peace treaty, the senate today choked off a St. Patrick's day debate on the Irish question by tabling 54 to 21 a proposal to declare by reservation that Great Britain should proclaim Ireland free.

By a motion to table was made by Senator Kellogg, republican, Minnesota, who denounced the proposal as "politics."

The Irish declaration was proposed by Senator Shields, democrat, Tennessee, as an amendment to the Senate Order of resolutions declaring that the British protectorate over Egypt was to be considered a war measure only.

#### MORE FEAR FROM SPARTACANS THAN FROM KAPP ACTIVITY

PARIS, (AP)—News from Berlin and other German points, telling of sanguinary clashes at Essen, Dortmund, Leipzig, Chemnitz, Frankfurt and Brunswick, together with a report that a council of workmen had assumed power at Chemnitz, has given the impression here that there is more to be feared from a revival of the Spartacist movement than from the activities of the Kapp government in Berlin.

#### EXTREME RADICALS RISE WITH COMPELLING FORCE

Increasing Possibility of Disturbed Condition to Establish Soviet Rule Is Factor.

(BY THE ASSOCIATED PRESS)

The Kapp administration at Berlin, realizing the futility of attempting to hold the reins of power, has decided to give up its short-lived dictatorship. At one o'clock this afternoon, Berlin time, Chancellor Kapp decided to resign, according to official advices from the German capital.

Previous to this announcement forces of extreme radicalism asserted themselves in various German centers. There were increasing Spartacian disorders and growing talk among the radicals of the possibility of utilizing the present disturbed conditions to establish soviet rule.

The list of killed reported from numerous German towns and cities in clashes between demonstrators and troops mounted into the hundreds. There has been no direct confirmation of last night's reports of 400 killed in a bombardment of Kiel by a warship, but there are apparently erroneous reports of 100 killed and 300 wounded at Dresden, probably more than 100 killed in Berlin suburb and the killing of from a half dozen to a score of persons in other of the 24 or more German centers where clashes have been reported.

#### Kapp Administration Tenders Resignation

THE HAGUE, (AP)—The resignation of the government of Chancellor Kapp in Berlin was handed in this afternoon. It is announced in a Berlin dispatch from the semi-official Wolff bureau, received here shortly before 4 p. m.

#### Predicts Early Fall of Berlin Government

AMSTERDAM, (AP)—The present Berlin government will not be maintained much longer, the Berlin correspondent of the established Wolff telegraphed to his newspaper, "General Marshal von Hindenburg yesterday sent a telegram to Chancellor Kapp demanding the immediate withdrawal of the Kapp troops and the establishment of a constitutional government. He sent a similar telegram to President Ebert."

Excitement Rife in Berlin

"The excitement in Berlin and in the rest of the nation is increasing. Berlin has been rather quiet up to the present, nevertheless the troops tonight fired upon the population. Yesterday in a clash in front of the palace at Potsdam two persons were killed and many others wounded. In a similar clash at the townhall in Schonberg 12 persons were killed.

The Kapp government is still endeavoring to view the situation with an optimistic eye, but everyone is convinced that the strike will be successful; that both the socialist parties are working together and that military action by the laborers is probably within a few days.

Radicals Banks Increasing

"The number of independent socialists is increasing daily. The final result will be that they will come into power, and then Bolshevism will threaten Germany."

Telephone communication with Berlin was stopped again last evening. The correspondent of the Handelsblad telegraphed that this was done at the order of Chancellor Kapp for the purpose of cutting off all opportunity of uncensored communication.

LONDON, (AP)—Gustav Noske, minister for the interior in the Ebert government, is confident of his ability to restore normal conditions in Germany within a comparatively brief time, according to an Exchange Telegraph dispatch received in an interview with him at Stuttgart.

"Large contingents of imperial defense troops are at our disposal," he said. "I am confident we will succeed in restoring order in Germany within six or eight days."

#### TREASURY EXPERTS ESTIMATE EXTENT OF REVENUE LOSS THROUGH DECISION

WASHINGTON, (AP)—The full fall into the government as a result of the supreme court's decision that stock dividends are not taxable will not exceed \$25,000,000, in the opinion of most treasury experts.

#### SOLDIERS USE MACHINE GUNS ON CIVILIANS

Skirmish Ensues with Several Casualties When Riotous Charge Troops Passing on Berlin Streets

LONDON, (AP)—Machine gun firing was heard in Berlin between eleven and twelve o'clock last night, says a message to the Exchange Telegraph company today from the German capital.

During the day a detachment of soldiers advanced through the Brunnenstrasse, headed by a band playing "Hail Dirck von Stoenkrantz." Workmen immediately fled and the troops and a skirmish ensued in which a number of men were killed and others wounded, the message adds.

At Spandau, 40 persons, nearly all workmen, were reported killed, and the fighting is continuing.

#### RAIL STRIKE HINDERS MEETING OF ASSEMBLY

STUTTGART, (AP)—It is doubtful if the German national assembly will be able to meet here today as planned. Because of the rail-road strike a great many members of the assembly are unable to get in time for the opening of the session, which was set yesterday for four o'clock this afternoon.

In government circles there was much optimism over the situation this morning.

A rumor current among members of the assembly that Field Marshal von Hindenburg is on the way to Stuttgart is arousing interest in view of his reported efforts to quiet the tense situation in Berlin.

# SMITH PROPOSES DEVELOPMENT OF FARM RESOURCES

## Idaho Representative Introduces Bill to Encourage Reclamation Through Federal and State Co-operation

The concluding sections of the reclamation bill lately introduced in the house of Representative Addison T. Smith of Idaho, the first sections of which were published yesterday by The News are as follows:

Section 8. That the district shall pay to the federal farm loan board when due the principal and interest on the bonds of such district, and the federal farm loan board shall receive such principal and interest and shall apply the same to the principal and interest of the corresponding issue of such United States collateral bonds. Should the collection of principal and interest on any district bond issue deposited with the federal farm loan board be insufficient to meet the payment of the principal or interest thereon, then such deficiency shall be paid by such board from the bond guaranty fund herein provided, and when any payments on such guaranteed bonds, principal or interest are collected after payment from such bond guaranty fund, such collection shall be credited to such fund.

Section 9. That upon default of any installment of the principal or interest of any district bond so deposited and accepted the federal farm loan board shall pay such principal and interest from the bond guaranty fund, and such board may declare the entire amount of such bond issue in default, and thereupon such board shall advise the state, or directly upon any of its authorized agencies or officers to levy and enforce the payment of any taxes, forced contributions, or special assessments on such district that may be necessary for the payment of such bonds, and upon failure so to do the federal farm loan board shall cause suit to be instituted and take such legal action as may be necessary to enforce the assessment and collection of such taxes for the payment of the amount in default of principal and interest on such bonds, and the amount of such bond issue, principal and interest. Any district court of the United States in which such property is situated, or directly upon the state is hereby vested with jurisdiction to enforce the provisions of this act.

Section 10. That the unentered and unsettled lands of the United States within the limits of any district within which contract is made by the secretary of the interior under this act shall be subject to the provisions of the act entitled "An act to promote the reclamation of arid lands," approved August 11, 1916 (Thirty-ninth statute, page 566). The unentered lands of the United States within such district shall be sold, at a price to be fixed by the secretary of the interior in farms of suitable size provided in section 11 of this act, to citizens of the United States who are not the owners or proprietors of an area of farm land, together with the area acquired under the provisions of this section, which exceed one hundred and sixty acres, or a less area if the secretary should so decide. The secretary of the interior shall make regulations general in character, or applicable to specific projects, as to residence and cultivation with a view of carrying out the purpose of making such land the permanent home of the settler. Approved applicants shall, at the time of entering into contract of purchase, make a first payment of 10 per centum of the sale price. The balance shall be paid in amortizing payments extending over a hundred and sixty years, or a less period to be fixed by the secretary not to exceed forty years. The amortizing payments shall bear interest at the rate of 4 per centum per annum, payable annually, computed from date of contract. The contracts for the sale of such land shall provide for cancellation and forfeiture of payments under the contract for failure to pay any of the assessments levied against such land by first district. No transfer, assignment, mortgage, or lease of any right, title, or interest under a contract of sale shall be valid at any time without the approval of the secretary of the interior. The secretary of the interior is authorized to issue patents for such lands upon full payment of the purchase price.

Provisions for Transfer

Section 11. That owners of land as herein provided, situated in any district, that may desire to take advantage of the provisions of this act shall enter into an agreement with the secretary of the interior to sell, within a period not to exceed ten years from

the completion of the works of such district, or such portions thereof as may be desired, and reclamation of such lands, all areas of such land in excess of such maximum area as he may, in his discretion, establish for such project, or projects, as he may determine, not to exceed one hundred and sixty acres when, in his opinion, such land is most suitable for agriculture, not to exceed one hundred and sixty acres when, in his opinion, such land is most suitable for animal husbandry, and such excess areas shall be sold in farms of such size as will, in the opinion of the secretary of the interior, be adapted to a family in comfort, at such prices and on such terms of payment as are provided in such agreement; and such terms of payment shall provide for no transfer, assignment, mortgage, or lease made during a period of five years from the date of sale shall be valid without the approval of the secretary of the interior, unless full payment of the purchase price of such land shall have been made. Such agreements shall be executed by the owners of not less than one-half of the total area of all holdings within in such district which exceed the limits so established by the secretary of the interior before such project shall be finally approved by him. Such agreements shall confer an irrevocable power of attorney upon the secretary of the interior to sell such land through an agency as he may designate in pursuance of the terms thereof, or whenever he may deem it for the best interests of the project to effect such sale, and to sell any of land remaining unentered and unsettled of such ten years at such price as it will bring at public auction. If any thereof is the owner of any such excess area of land within such district, the representative of such state or subdivision thereof shall, as custodian of such land agree with the secretary of the interior "in so far as it may be within their power to agree to the sale of such area as herein provided. The agreements provided in this section shall not apply to lands that are provided with complete facilities for reclamation at the time of such agreement.

Section 12. That the secretary shall be authorized to accept, by gift, deed or otherwise, any lands suitable for settlement after its reclamation, and divide such land into farms of suitable size as provided by section 11 of this act, and sell such land to actual settlers at a price to be fixed by him as equitable. The terms of sale of such land shall provide that no transfer, assignment, mortgage, or lease made during a period of five years from the date of such sale shall be made without the approval of the secretary of the interior unless full payment of the purchase price of such land shall have been made. Such lands shall be subject to the same taxes and assessments for the payment of all expenses and charges of such district as other lands in such district.

Section 13. That in addition to the works authorized to be constructed by the secretary of the interior under the reclamation act and acts supplementary thereto, he may, in his discretion, authorize the preparation for cultivation of the lands reclaimed, the maintenance of such lands, and the apportionment against the lands so improved. And the secretary shall be authorized to supervise the making of any other improvements for the settlement of the land which shall be provided by the state or other public agency or the owner of such land in pursuance of the agreement provided herein between the secretary and such owner or between the secretary and the state or other agency.

Favors War Veterans

Section 14. That hereafter, upon the opening of any lands suitable for sale under the reclamation act of June 17, 1902, or acts supplementary thereto, or amendatory thereof, and under the provisions of sections 10, 11 and 12 of this act, the secretary of the interior, or sale shall provide for a period of not less than sixty days before the general opening of such lands to disposal in which service men, and women who have served in the army, navy, or marine corps of the United States in the war with Germany or in any other war in which the United States was engaged, and who have been honorably discharged therefrom, shall have a preferred right of entry or purchase, if duly qualified except that such right shall not apply to any lands against prior existing valid settlement rights. All money received from the sale of land provided in section 12 of this act after deducting the expense of subdivision, appraisal and sale, and any other expenses that may be incurred, shall be paid by the sec-

retary in pursuance of the terms of this act to (a) trust or otherwise, and should any balance remain after making such agreed payments, such balance shall be turned into the bond guaranty fund. In the construction of the works authorized herein, the secretary of the interior, as far as practicable, shall utilize the services of soldiers for such purposes. Section 15. That all expenses to be incurred by the secretary of the interior in the examination of any project prior to a contract by him with any district or proposed district, and all expenses to be incurred by the state or by the district or by the landowners of such proposed district and one-half by the United States, shall be paid for the same by him in supervising and planning the construction of the works of any district under a contract entered into by him with such district shall be paid by such district.

Transfer of Funds

Section 16. That to enable the secretary of the interior to carry on and complete irrigation projects and other reclamation projects and projects approved but not begun for lack of funds, and for the investigation, commencement and completion of such projects as may be deemed feasible to be undertaken, the secretary of the treasury is authorized and directed, upon request of the secretary of the interior, to transfer to him from the credit of the reclamation fund, created by the act entitled, "An act appropriating the receipts from the sale and disposal of public lands within certain states and territories to the construction of irrigation works for the reclamation of arid lands," approved June 17, 1902, known as the reclamation act, such sum or sums, not exceeding \$25,000,000, as the secretary of the interior may deem necessary to complete, construct, operate and maintain such projects or to acquire, perfect and protect water rights pertaining thereto claimed by the United States, and such sum or sums may be required to comply with the foregoing authority are hereby authorized to be appropriated out of any money in the treasury not otherwise appropriated. Provided, That the amount which may thus be transferred to such reclamation fund during the fiscal year ending in 1921 shall not exceed \$20,000,000; during the fiscal year ending in 1922 it shall not exceed \$30,000,000; in 1923, \$40,000,000; and that the amount which may be thus transferred during the fiscal year ending in 1924 shall not exceed \$50,000,000, and that no further amount shall be thus transferred after the fiscal year ending in 1925; Provided, That all sums so transferred shall be disbursed to the treasury from the reclamation fund as herein provided.

Authorizes Bond Issue

Section 17. That for the purpose of reimbursing the treasury for such advances to the reclamation fund, the secretary of the treasury is authorized to issue bonds to the United States in such form and in such denominations as he may prescribe, due regard being had for the time and terms of payment of the United States collateral bonds authorized in section 6 herein, but not exceeding 4-1/2 per centum per annum, payable semiannually, to be redeemable at the option of the United States the principal and interest to be payable in gold coin of the United States. The bonds herein authorized may be disposed of by the secretary of the treasury at not less than the price prescribed, giving all citizens of the United States an equal opportunity to subscribe therefor, but no commission shall be allowed. The issues of such bonds during any fiscal year shall not exceed, during such year, the amount of money transferred to the reclamation fund as authorized by section 17 of this act. The aggregate issue of such bonds shall not exceed the amount of all advances made to said reclamation fund, and in no event shall the amount of such issue exceed \$350,000,000. All the bonds of the United States herein authorized shall be exempt from taxes or duties of the United States as well as from taxation in any form by or under state, municipal, or local authority, and a sum not exceeding one-tenth of 1 per centum of the amount of the bonds issued under this act shall be appropriated, out of any money in the treasury not otherwise appropriated, to pay the expenses of preparing, advertising and leasing the same. Section 18. That the amount paid into the reclamation fund under this act shall be expended under the terms and

provisions of the act of June 17, 1902, known as the national reclamation act and acts mandatory thereof and supplementary thereto, subject, however, to the terms and provisions of this act. Provided, That the provisions of this act are hereby extended to all the states and territories of the United States: Provided further, That all projects and units of projects upon which the provisions of this act are to be initiated after the passage of this act shall be organized in the manner provided herein, and all payments made from the reclamation fund on all such work shall be repaid to such fund, with interest in the manner provided by this act.

Section 19. That the secretary of the interior is hereby authorized to perform any and all acts and to make such rules and regulations as in his discretion may be necessary for carrying out the provisions of this act into full force and effect.

BAUER MAKES CHARGE TO INCRIMINATE LUETTWITZ

Quotes Kapp Military Chief to Effect that Versailles Treaty Must Not Be Rescued

GENEVA, (AP)—One of the conditions proposed to the Ebert cabinet by General von Luttwitz was that demobilization of the army of the empire so provided by the Versailles treaty must not be executed and war materials not destroyed, according to Premier Bauer of the old government, says a Stuttgart dispatch to the Neue Zürcher Zeitung.

Premier Bauer also quoted General von Luttwitz as saying that the empire instead should prepare for a new war. The premier added: "After such a condition, what aims Kapp and his accomplices are pursuing can be judged."

It seems probable that the proposals by General von Luttwitz alluded to here were made before the Bauer government left Berlin. General von Luttwitz was dismissed from his command of the first reitewer brigade by Minister of Defense Noake last Friday after his connection with what was then termed a reactionary monarchist plot had been discovered. Negotiations took place between the representatives of the revolting troops and the Ebert government Friday night, the government finally rejecting the terms under which the troops agreed to have their opposition movement. After this President Ebert and his ministers left Berlin and the troops entered the city.

# ANNUAL WEEK STARTED HERE

### Period Set Apart for Consumers was Originated in Twin Falls by Spanglers

Consumers' Week, to be observed in the west during the early part of April, was originated eight years ago in Twin Falls. Mr. and Mrs. Robert W. Spangler, now residents of Salt Lake, were the originators of the plan, which has grown in public favor until it is now adopted by 11 western states for annual observance. It has endorsement of the government and subscription to the extent of \$50,000 or more.

The general observance of Western Consumers' Week throughout the western states is indicated by the endorsement being received by Robert W. Spangler, publisher of the New West Magazine, who, with Mrs. Spangler, originated and started the movement in 1912. Five governors—Davis of Idaho, Stewart of Montana, Shoup of Colorado, Boyle of Nevada, and Bamberger of Utah have given their official approval and have told why, in their communications, the people of the west should encourage the industry of the home states by purchasing the products coming from the factories nearest to them.

Governor Emmet D. Boyle, of Nevada, voices his sentiments as follows: "I am glad to note that the observance of Western Consumers Week will be continued this year, because it has become an established custom in our part of the west and moreover, it is highly opportune this year to bring attention of western consumers to the facts of western production and distribution. These three elements form a trading relation which is the basis of economic independence. Its observance means comparative or absolute dependence and poverty."

Governor H. V. Stewart, of Montana, commends the observance by saying: "Any movement that tends to bring producer and consumer closer together and to impress the people with the idea of closer cooperation with and support of home industries, is worthy of all possible success. It is a great deal of good may come out of the plans for the observance of the week."

Governor Bamberger said: "The call through the New West Magazine for the observance of Western Consumers Week leads to some interesting reflections. We who have the fortune or misfortune to be listed among the consumers have been supplied with ample food for thought during the past twelve months. The constantly advancing costs of practically all necessities of living has aroused the question as to how long we shall be able to maintain our places in the world."

Governor Oliver H. Shoup of Colorado writes: "Whatever can be done to eliminate unnecessary expense in the purchase and preparation of food products is a step toward the reduction of the high cost of living. Next to actual increase in production, economy in spending is the chief factor in restoring normal living conditions, and your Western Consumers Week movement is doing a great deal to encourage wise buying. There certainly is real need for the conservation of our resources by practicing home buying and putting into the well understood advantages in supporting home producers and manufacturers, there is sound economic grounds for carrying out your excellent program."

Governor D. W. Davis, of Idaho, urges the people of Idaho to support the movement in the following terms: "As a people—the consumers—it behooves us to give all the encouragement and cooperation possible to the producer, the manufacturer, the wholesaler and the retailer. Hearty cooperation and understanding along the entire line is the only solution to the present state of unrest. It is my belief that strikes and boycotts are of no avail toward bringing about a pro-

# FIRST JOINT MANEUVERS OF FLEETS GO TO PANAMA

### Cruise for Entire Naval Force to Take in Pacific Coast Ports Indicated

WASHINGTON, (AP)—The first joint maneuvers of the Atlantic and Pacific fleets will be held in Panama Bay early in January, it has been announced at the navy department.

Decision to assemble the two fleets in the Pacific at that time was reached at a conference between Secretary Daniels, Admirals Wilson and Rodman, the fleet commanders, and Admiral Koonce, chief of operations.

Announcement also was made that the annual practice cruise of the midshipmen next summer would include a voyage to the Powhatan Islands and to several ports on the Pacific coast. Six battleships will compose the practice squadron, which will begin the cruise on June 8 with some 600 midshipmen on board. The cruise will end August 23.

Rendezvous of the two fleets in the Pacific will mark the greatest concentration of naval strength that has ever taken place under the American flag. Based on the present makeup of the fleets, it will bring together 16 first line battleships, 11 cruisers, 108 destroyers, a score of submarines and a large fleet of auxiliaries.

The six super-dreadnaughts, the Pennsylvania and New Mexico, flagship of the Atlantic and Pacific fleets, respectively, and the Tennessee, Arizona, Mississippi and Idaho, alone will represent a combined main battery strength of seventy-two 14-inch guns. The Tennessee, to be commissioned in May will represent the highest development in battleship construction.

Participating in the maneuvers with these premier ships, will be the four 27,000-ton dreadnaughts Oklahoma, New York, Texas and Nevada; the two 20,000-ton Wyoming and Arkansas and the first of the dreadnaughts, the Delaware, Florida, North Dakota and Utah, in addition to second line battleships of both fleets.

While the schedule for the assembled fleets have not yet been worked out, it probably will include a cruise for the entire force that will take in all larger Pacific coast ports.

The primrose is an oracle in love affairs. Let youth or maid pull the flower, and, after cutting off the tops of the stems, lay it in a secret place. Let youth dream through the night of his sweetheart. Upon looking at it the next day, if he find the stems shot out to their former height, success will attend; if not, disappointment.

**Revival of the Troubadour.**  
The troubadour is imagined as a leonardine creature with a big lute. But the real meaning of the word is one who "finds out" his own song. In Provençal the word is spelled "troubaire" or "trouvador." It comes from the verb trobar—trouber—to find.

## High School News

St. Patrick's day was observed by the seniors as a class today, members of the class of '20 wearing as much green attire as was possible. No other classes took the same action, particularly in the case of the freshmen, who needed no decorations of a greenish hue.

Ida Hogg, Ogretta Murray and Theodore Keniston, declaimers who go to Filer Friday night for one of the two sub-district declamatory contests held on that date, gave their selections before the student body at its regular assembly this morning. These assemblies now commence at 9:05 o'clock Wednesday mornings, due to change in the school schedule.

Miss Esther Stamets, instructor of French and Spanish, is leaving tomorrow morning for Ft. Wayne, Indiana, where her mother is seriously ill. Miss Stamets does not expect to return here this year. An instructor to take her place has not yet been obtained.

Victor Wold, 19, a former member of the junior class, has enlisted in the signal corps of the army and has gone to San Francisco for a six-months' period of training, after which he will go to New York for an 18-months' course of instruction.

Baseball candidates are now working out in the gymnasium for a short time. Yesterday about 15 men were out for initial training, while 5 men on the basketball team now at Moscow will be out for diamond positions this year.

**Fitting a Bear With New Teeth.**  
A grizzly bear may wear out his teeth, just the same as a human being. When he needs new ones he gets them, particularly in America. More animal dentistry has been done here than in any other country. Once, when an old pet bear belonging to the owner of a well-known menagerie was fitted with a complete set of false teeth, it was necessary to glue the plates to the bear's mouth to keep them in place.

## CAMERA MEN REWARDED WITH WILSON PICTURES

Photographers are permitted to take First Snaps of President Wilson Return from Western Trip

WASHINGTON, (AP)—Photographers were permitted to take their first pictures of President Wilson today since his return from his western trip last September. The president was photographed as he left the White House grounds on his fifth automobile ride since he went to bed in October 'a very sick man.'

Under instructions from the White House, the police allowed moving picture operators and photographers to get up their machines at the southwest gate and as the president's automobile came out the chauffeurs slowed down.

The camera men had been waiting many weeks for these pictures. The president was accompanied on his ride today by Mrs. Wilson and Rear Admiral Grayson, his physician.

## WOOD GIVEN LEAVE OF ABSENCE FOR CAMPAIGN

Major General George Bell to Command Central Department of Army in Interim

WASHINGTON, (AP)—Major General Leonard Wood Tuesday asked for and was granted a two-months' leave of absence to conduct his campaign for the republican nomination for president.

Major General George Bell, Jr., now commanding Camp Grant, Ill., will act as head of the central department of the army with headquarters at Chicago during General Wood's leave of absence. General Wood's leave of absence will begin on March 20 and consequently will expire eighteen days before the opening of the republican national convention at Chicago on June 8.

Secretary Baker said General Wood would be permitted to wear civilian clothes during his leave if he so desired.

America's Foremost Tractor

## A Big Proposition for a Big Man

A BIG MAN can now secure America's Foremost Tractor contract in this local territory. But the man must be big—big in vision, in initiative, in executive ability. He must be the same type of man, who, ten or more years ago took the local distributing franchise for one of America's leading automobiles.

To such a man the Wallis contract offers opportunities no less filled with possibilities for success than those of leading automobile makers a few years ago.

To such a man the Wallis contract offers a tractor backed by a big institution of many years standing—a tractor that has proved its dependability by twelve years of successful performance on American farms.

It also offers a tractor backed by sales, advertising and service policies—both national and local—such as have no equal in the tractor field.

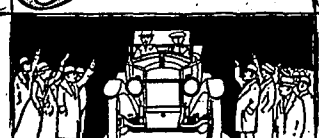

If you are in a position to handle a successful tractor business of the dominant Wallis type, we want to hear from you. Tell us your reasons for believing you can represent this institution in your local territory.

# SIMS UNITY OF COMMAND ADVISE IS DISREGARDED

## Naval Officer Continues Statement Before Senate Committee Bringing to Light More Inefficiency Charges

WASHINGTON, (AP)—Unity of command of the allied and American naval forces overseas similar to that which obtained on the western front was recommended by him to the navy department as early as July, 1917, but was not approved, Rear Admiral Sims today told the senate committee investigating the navy's conduct of the war.

Admiral Sims to efforts to direct a large force of American ships and men by cable and letter from a point 3,000 miles away, gave too many opportunities for misunderstanding of messages and for their interception by the enemy.

The enemy secret service proved itself to be extraordinarily efficient, he said.

Nearing the end of his long statement to the committee, Rear Admiral Sims today charged the inefficiency and inadequacy of his staff abroad, prevented for several months maximum efficiency in the United States navy participation in the war. He testified that he was unable to bring the navy department to the realization of the importance of his post and necessity for providing a large staff at the outset to complete an urgent allied naval information and direct the early details of American co-operation on the seas.

Kept in Dark as to Policy

Admiral Sims said he arrived in April 1917, with but one aid and immediately realizing the magnitude of the task confronting him, called the department requesting that three additional assistants be sent him at once. Before he received any reply he was placed also in command of the destroyer force abroad, and thereupon asked for three more aids.

The last of April one officer arrived and was assigned to the destroyer base at Queensdown. Throughout June he remained in ignorance of the department's plans and objectives, he further said, the officer said. An American civilian who had resigned from the navy in 1914, to enter in business in London, was directed to assist him, the admiral said, and this man with his one aid comprised his entire London staff.

Aid Dispatch Long Delayed

In June a medical officer was ordered to his staff, the admiral said, and about the same time Secretary Daniels called him authority to employ clerical assistants and to assign any sums needed for the discharge of his duties, but nothing was done regarding the officers he had asked sent to assist him in his technical duties.

On July 7 Captain N. C. Twining was detailed to be his chief of staff, the admiral said.

## CHICAGO'S LABOR WAR BREAKS OUT ONCE MORE

Body of Enright Lieutenant is Found Lying in Street in South Side "Badlands"

CHICAGO, (AP)—Chicago's labor war, dormant since the murder of Maurice "Boss" Enright on February 3, broke out again today with the finding of the body of the Enright labor leader and Enright lieutenant, lying in the street in the south side "badlands."

Harley had been shot in the back, dying instantly.

A trail of blood led from the body to a nearby saloon, noted as a gathering place for labor leaders.

Harley was a pal of "Sonny" Dunn, brother-in-law of Enright, who recently forfeited his bonds in a grand larceny case and disappeared.

## DAKOTA VOTES CHANGE IN LAW

FARGO, N. D., (AP)—Four constitutional amendments that were voted yesterday have been adopted, on the face of meagre returns available from the state-wide primary.

They return entirely from cities residing the amendments have majorities of about five to one.

The constitutional amendments provide for the recall of public officers, reduce the residence requirements of voters, permit the cultivation of state owned coal lands and permit cities to mortgage revenue producing utilities without respect to the bonded debt limits otherwise provided by the constitution or by laws.

Returns on the presidential preferential election, and on the election of the legislature, were also counted and returned entirely to a few of the largest cities.

The few returns from the cities gave majorities for the anti-Nonpartisan ticket in both the democratic and republican primaries.

The city of Bismarck gave Johnson 589; Wood 89; Lowden 41 and Hoover 29. The republican ticket was favored on the democratic ticket for Bryan. The city voted almost three to one in favor of repealing the blue laws.

POOR WIRE COMMUNICATIONS HAMPER ELECTION RETURNS

BISMARCK, N. D., (AP)—Only meagre returns from yesterday's presidential preference primary were available here early today because of poor communications and prospects for any definite figures for more than a week are slight.

Although Senator Hiram W. Johnson is the only candidate for president to enter the race in this state, scattered reports said that the names of Frank O. Lowden and Major General Wood had been written on some ballots.

First returns on the proposed repeal of the laws prohibiting sale of alcoholic beverages, being, baseball and football tickets, showed four to one majority in favor of repeal.

## SENATE SPIES WAY (Continued from Page One)

with the "irreconcilables" in defeating the repeal of the laws. It is unthinkable in advance of its being actually accomplished and it would be unappealing afterwards."

Mr. Bryan said it would be "unofficial" for the democratic party to deny the right of a majority of the senate to declare the senate's policy.

"We have the right to appeal to the people to reverse the action of the majority," he said, "but we have no right to resist that majority to prevent the people speaking through their representatives."

"The democratic party cannot hope to make much headway coming back to the fundamental principle upon which it stands."

**Census Bulletins**

WASHINGTON, (AP)—Population statistics for 1920 announced today by the census bureau included:

Milwaukee 457,147, an increase of 33,290, or 22.3 per cent over 1910.

Milwaukee is the fifth big city the census department has announced. It ranked 13th in 1910 with 373,857, an increase of 31.0 per cent over 1900.

The count gives Orwego, N. Y., 23, 624, an increase of 68, or 1 per cent.

Charlottesville, Va., 10,688, an increase of 3,223, or 28.0 per cent over 1910.

# HOOVER ALTERS FORMER VIEW ON U. S. POLICIES

## Favors Representation for America on Reparations Commission for Protection of the National Interests

NEW YORK, (AP)—Herbert Hoover today issued a statement in which he said he had modified his opinion, expressed in a letter to President Wilson last April that the United States should not be represented on the reparations commission provided to enforce peace in Europe. He now favors this country having a representative on the reparations commission in order that America's interests may be protected.

He protests against the publication of his letter to President Wilson on the ground that it was not issued from the White House and he had not consented to its publication.

"I have seen in some of this morning's papers a copy of a memorandum of mine that was prepared in the course of the peace conference on the subject of our participation in the large number of international commissions set up in Europe. As to the views expressed in the memorandum, they are entirely correct and I am particularly of our having a representative on the reparations commission itself because of the large economic interests finally given to it over a great part of Europe and the grave necessities for the United States to be represented thereon at once in order to protect American interests."

"Regardless of my personal point of view in this matter, there is to me nothing that is such a breach of good taste or the very foundations of confidence among government officials as for them to issue to the press correspondence that may have passed between them and their superiors in the course of their service without approval on both sides. I am informed that it was not issued from the White House. It is scarcely necessary for me to say that it was not issued by me and that a serious inquiry into the matter would disclose that it had not come from my staff."

**Oppose Wider Participation**

In his letter to President Wilson published today, Mr. Hoover expressed opposition to the continuance of the United States membership on various commissions set up under the peace treaty, saying that such allied relationship could only lead to vast difficulty and militate against the league of nations. Representation of the United States on the commissions, he said, would mean the country lending itself to the political and financial interests of other governments during peace, "a situation that must be entirely repulsive to our national interests, traditions and ideals." He added that he was not sure that the revolution in Europe was over and that "our people are not prepared for us to undertake the military policing of Europe while it boils itself."

The letter concluded:

"It grows upon me daily that the United States is the one great moral reserve in the world today and that we cannot maintain that independence of action through which this reserve is to be maintained. We allow ourselves to be dragged into detailed European entanglements over a period of years. In my view, if the interests of our government and peace on the basis of the four points, we should retire from Europe, lock, stock and barrel, and should lead to the whole world our economic and moral strength and the world will swim in a sea of misery and disaster, worse than the dark ages. If they cannot be brought to accept peace on this basis, our national honor is at stake and we should have to make peace independently and retire."

## Today's Markets

**New York Exchange**

NEW YORK, (AP)—The stock market was hesitant during the greater part of today's session but registered substantial advances at the final dealings. The recovery was coincident with the announcement that the secretary of the treasury had recommended postponement until 1921 of a tax on undivided profits. Equities, metals and oils lead the vigorous rally of the last hour, other leaders recovering the greater part of the decline. The closing was strong.

Sales approximated 1,000,000 shares.

**Grains and Provisions**

CHICAGO, (AP)—Reports of bubonic plague in Argentina brought about high prices here today for corn, but selling to realize profits led soon to a soft back. Moreover, bears contented that owing to the recent big rise of the corn market the feeding of the cereal to hogs was no longer remunerative. Much noise was taken of the fact that since February 9 there has been an extreme bulge of 32 cents. Opening prices, which varied from unchanged figures to 1c higher, with May \$1.36 to 1.38 1-4 and July \$1.45 1-2 to 1.46, were followed by dealers all around to below yesterday's finish.

Later the corn market rallied sharply owing a good deal to the fact that No. 2 white oats here had changed from \$1.37 1-2 to a new top record for Chicago. Corn closed strong, 1 1/4 to 3 1/4 c higher, with May \$1.37 1-4 to \$1.37 1-4 and July \$1.50 1-8 to \$1.50 1-8.

Oats were governed by the action of corn. After opening 1-8 to 1-8 c higher, including July 78 5-8 to 78 3-4, the market secured an additional upturn, but then lost all the advance and more. Higher quotations on hogs gave additional strength to provisions. Trade, however, lacked volume.

**STRIKING LONGSHOREMEN ATTACK NEGRO WORKERS**

Police Witness Disturbance But No Arrests Made as Work is Forced to Stop

NEW YORK, (AP)—Striking coastwise longshoremen today attacked 25 negro strike breakers, and after knocking down two of them dispersed the remainder. The policemen witnessed the attack but no arrests were made.

The embargo against coastwise freight shipments was extended today to ships of the New England Steamship company.

Merchants were notified that they would be held accountable for storage charges unless they moved from the wharves freight assigned to them. Sympathy of teamsters with striking longshoremen had prevented removal of this freight, it was said.

# JOHNSON FLAYS G. O. P. PRIMARY IN MINNESOTA

## Charges Republican State Machine in Complete Control and Conducting Fight for General Wood

DETROIT, Mich., (AP)—The Minnesota republican primary was characterized as "a pretense" and the "first strong arm tactics of the 1920 campaign," by United States Senator Hiram W. Johnson, in a signed statement issued here this forenoon.

He charged that the "republican state machine is in absolute control" of affairs in Minnesota. "The machine," the statement declares, "has been conducting the Wood fight."

"Although the state's presidential preference primary law has been signed," Senator Johnson said, the republican organization in Minnesota called what it termed a primary, with a preferential vote for president. Fixing the time of voting between 7:30 and 9:30 p. m., with county chairmen empowered to fix the hours so as to give the alleged means in the county districts to primary at 11 p. m. in the middle of the night, out of the doors," he added, "it was the disfranchisement of the farmer."

Physicians say the lad died as the Kuykendall lad, suffering from severe injuries, was taken to a hospital. He died an hour afterward. The police, after withholding the names of the boys who are under arrest.

## DEFENSE CLOSES CASE IN NEWBERRY'S TRIAL

Final Summing Up of Government Starts This Afternoon; Lengthy Argument Forecast

GRAND RAPIDS, Mich., (AP)—Martin W. Littleton, of New York, today closed the case for the defense in the Newberry election conspiracy trial, pleading for some three hours with the jury which is to decide soon the guilt or innocence of Senator Truman H. Newberry and 34 other state political leaders.

The day's proceedings opened with a brief conclusion of the plea which James O. Murfin, chief counsel for the defense, started yesterday.

The final summing up of the government starts at 2 p. m. with Frank C. Dudley, special assistant attorney general in the role of last orator. It was understood this morning that unless Mr. Dudley concludes by tomorrow noon, the court will not instruct the jury until Friday morning. This would put the case in their hands about noon that day.

# Social Notes

The meeting of the Twentieth Century club yesterday afternoon was attended by a large audience. The meeting was held at which Newell B. Wight, secretary of the chamber of commerce, made a short talk on the proposed park plan, which was endorsed by the club. The program, which was in charge of Mrs. W. E. Aaron, was a gem in every way and in a year of splendid progress none has exceeded this. The feature of the afternoon was an Irish drama, "The Four Gals," by Mrs. Aaron. The several parts she acted showed her wonderful versatility in the dramatic field and was one of the most finished productions the club has ever had. The large audience were spellbound during the reading of the play. Mrs. Robert Lewis gave a clever little snake story. Miss Sandquist in her interpretation of the Irish goddess was a graceful and dainty as any Irish lass of the "old sod." The Irish songs were charmingly rendered in Irish and solo by Mrs. F. S. Bell, Mrs. W. H. Dwight, Mrs. J. B. White and Mrs. Zenas Smith.

The Pythian Sisters will hold their regular meeting Friday, March 19, at 2 o'clock in I. O. O. F. hall.

Mrs. L. E. Brocknbridge and Mrs. L. E. East entertained Chapter "D," P. E. O., at the home of the former last evening. A short business meeting was held and the new president, Mrs. Carl J. Hahn, installed. Mrs. Frank S. Bell gave the vocal solo after a social hour refreshments were served. Those present were Mesdames T. E. Warner, F. S. Bell, M. O. Heap, M. L. Haviland, C. J. Hahn, W. E. Nixon, A. R. Caldwell, Harry B. O'Connell, Misses Alma Benoit, Harriet Warner, Edith Dygert, Jessie Fraser, Boss Glenn and Olive Hartsell.

Mrs. Frank Winsor gave a show-er at the occasion being the sixteenth wedding anniversary. Pink carnations and violets in a crystal bowl were used for centerpieces. The guest list included Mr. and Mrs. W. O. Teyson, Mr. and Mrs. John Crabbe, Judge E. A. Walters and Dr. and Mrs. H. W. Wilson.

The Episcopal Guild will be entertained at the home of Mrs. E. C. Cole, 748 Second avenue north, tomorrow afternoon at 2:30.

The Business Women's association held their weekly dinner at the home of Mrs. H. J. Youngs last evening covers being laid for thirty.

The King's Daughters will have a cook-forenoon Saturday morning, beginning at 10:30, in the window of J. C. Beauchamp's office.

Miss Orpha Markle entertained the Camp Fire Girls Monday afternoon. A business meeting was held and Mrs. Theodore Rantow was elected temporary guardian, as the guardian—Miss Geneva Stafford—is out of town. The girls will go on a "hike" Saturday to Pillar falls.

Mrs. H. H. Hedstrom and Mrs. George Hallett entertained at a 1:30 luncheon yesterday. The house was beautifully decorated in the colors appropriate for St. Patrick's day. Green carnations were used for a centerpiece, and also for favors, the color scheme being carried in the place cards and nut cups and in the delicious cur-cure luncheon. The guest list included Mesdames John Taylor, Sam Osgood, Merriam, C. W. Grimes, J. F. Johnston, A. R. Anderson, G. M. Simpson, Chas. Larson, Chester Olmstead and D. A. Salmon.

# MURTAUGH

Lloyd-George's Plans of Fusing Two Wings of Coalition are Checked

LONDON, (AP)—Premier Lloyd George's plans of fusing two wings of the coalition into a new party met an unexpected check yesterday, according to the London Times, when he privately addressed Liberal members of the ministry and urged that it was impossible at present to establish a purely liberal government and that if the Liberals were to share in making events at this critical time they could only do so in association with others.

## WOOD DECLARES AGAINST EXCESS PROFITS LEVIES

Says Taxes Paralyze Initiative at Time When Nation Stands in Need of It

REDFIELD, S. D., (AP)—The excess profit tax and certain other taxes must be eliminated because they are "paralyzing initiative at a time when we need it," General Leonard Wood declared in an address here today. The war debt, he said, should be distributed over a longer period of years in order to assist the development of American business through lessening its present burdens.

American business both at home and abroad must be encouraged if it is to meet English competition, he said. Recalling his experiences in Cuba and the Philippines, General Wood advocated general teaching of the Spanish language to prepare American salesmen to enter the South American markets.

## Pleasure is Just an Incident--- Happiness is a State of Being

How many of us know the difference between pleasure and happiness? How many of us, indeed, actually confuse these two things to our own detriment? We throw away our good money for a moment's pleasure. We may save money for a lifetime of happiness. Yes, we all like pleasure, rightly and properly. But the deepest craving of our nature is for happiness. We can have happiness and pleasure, too, if we seek happiness first. We can have our money and enjoy it, too—if we save it. Pleasure alone, stands for an empty purse. Happiness INCLUDES a growing Bank Account.

EASTERN REPRESENTATIVES... Then as now, the reservations proposed by the senate foreign relations committee...

WORDS

There is nothing to indicate that there is any nearer approach now to American ratification of the Gorman peace treaty than there was last November...

Then as now, the reservations proposed by the senate foreign relations committee and commonly known as the Lodge reservations, had been given the endorsement of the senate.

Then as now, the reservations received the votes of so-called "irreconcilable" enemies in the senate of the peace pact, and again as then this element may be expected to cast its vote against any sort of ratification.

Then as now, the president had declared his abiding opposition to ratification of the treaty with the reservations attached, and had made his threat to "pocket" the treaty unless he were given his way—a threat which seems not to have been withdrawn in the light of Senator Hitchcock's statement Monday that Mr. Wilson found the adopted article too subtle and objectionable as the original reservation that in Gall Lake and elsewhere, he declared would "cut the heart out of the treaty."

It is not difficult to understand the attitude of the "irreconcilable" element, which is perhaps over cautious in its determination to keep the United States out of anything that might be construed as an "entangling alliance."

But it is much more difficult to appreciate the president's viewpoint in his seemingly fixed objection in particular to any sort of reservation with respect to article ten.

The president has declared that he has no objection to any "interpretative reservation." He has stated also that the right of the United States congress to declare war was so thoroughly understood by the authors of the pact that although the treaty itself bears no reference to the state of affairs, a reservation defining it would be something rather unnecessary.

The text of article ten, which manifestly is the crux of the whole treaty fight, comprises just two compact sentences in the midst of an eight-thousand word document. This is its phraseology:

"The members of the league undertake to respect and preserve as against external aggression the territorial integrity and existing political independence of all members of the league. In case any such aggression or danger of such aggression, or danger of such aggression, the council shall advise upon the means by which this obligation shall be fulfilled."

And here is the text of the senate reservation to which the president takes such serious objection:

"The United States assumes no obligation to preserve the territorial integrity or political independence of any other country by the employment of its military or naval forces, its resources, or any form of economic discrimination, or to interfere in any way in controversies between nations including all controversies relating to territorial integrity or political independence, whether members of the league or not, under the provisions of Article X, or to employ the military or naval forces of the United States, under any article of the treaty for any purpose, unless in any particular case congress, which, under the constitution, has the sole power to declare war or authorize the employment of the military or naval forces of the United States, shall, in the exercise of full authority of ac-

tion by set or joint resolution so provided." Ordinarily, and in view of constitutional limitations admitted by the president, it would seem that the conflict between the covenant provision and the reservation might be dismissed as negligible. At least there must be some further light than has yet been shed on the subject before this nation will be dispelled from the minds of a good many Americans.

It is becoming increasingly evident that the treaty is going to be injected into the coming political campaign. Whatever difference of opinion there may exist now as to the meaning of words contained in the covenant provision and the senate reservation, it may be confidently anticipated, will be magnified and intensified many fold before the issue is finally disposed of at the polls.

It might be observed in this connection, too, that similar differences of opinion as to the meaning of words very probably would be a conspicuous factor in any real test to which the operation of this particular provision might be put by the league of nations in the regular discharge of its affairs.

NATIVES OF INDIA JOIN SONS OF ERIN IN MARCH

Traditional Wearing of Green in New York Gives Place to Display of the Irish Republic Colors

NEW YORK, (AP)—The traditional "wearing of the green" in St. Patrick's day parades on Fifth avenue gave way today to the wearing of the green, white and yellow—the tri-color of the Irish republic—in honor of the "Irish republic" in honor of the 1919-20 season, and of the unrecognized government which reviewed the 25,000 marchers from St. Patrick's cathedral. The parade was a "free Ireland" demonstration, the like of which New York has never before witnessed. It also took on a "free India" aspect, for more than 1,000 representatives of that race marched with the sons of Erin.

While the colors of the emerald Isle naturally predominated, the stars and stripes led the parade, followed by the "Fighting Irish 89th," formerly the 69th United States Infantry. Every Irish-American organization here was represented. Between the Gothic towers of the stately cathedral floated the American flag and the tri-color of the republic. In addition to "president" De Valera, Governor Alfred E. Smith, former Governor Glynn, Mayor Hylan, Archbishop Hayes and a host of Catholic dignitaries were invited to the reviewing stands. Previous to the parade a pontifical mass was celebrated in the cathedral.

CANADIAN LANDS OPEN FOR SOLDIER FARMERS

Large Area in Western Reserve is Made Available Through Cancellation by Crown

OTTAWA, (AP)—Canadian soldier-farmers will soon be able to settle in a large area of western reserve land which has been thrown open through cancellation by the crown according to announcement by the soldier settlement board. Action has been taken to dispose of 75,000 acres of Hudson's bay reserve lands situated in the provinces of Saskatchewan and Alberta and 10,400 acres of Doukhobor reserve lands near Kansas, Saskatchewan.

A portion of the land will be sold April 15 and the proceeds given to a reserve fund to offset settlement losses and to aid returned men physically disabled whose condition and circumstances necessitate their being settled on land. The remainder of the area will be thrown open about April 30 for soldier grant only. Assistance in the form of farm loans for stock and equipment will be given to those men whose knowledge of farming will enable them to proceed with the development and operation of their lands.

The KITCHEN CABINET

Within the somber realm of least... The russet year inhaled the dreary air. Like some dazed reaper in his hour of ease. When all the fields are lying brown and bare.—Thos. Reid.

BREAKFAST DISHES.

Of all breakfast cakes the griddle cake is the one most favored; the edible varieties are easily distinguished from the dark, soggy, leaden varieties found in eating houses and even in private kitchens.

Batter for griddle cakes should be thoroughly beaten, and an egg or two will be found quite an addition to the texture of the cakes. Use a cake turner and never turn a cake but once, as a soggy cake is sure to result. A perfect pancake batter will be smooth elastic and will keep its shape when spread on the griddle.

Sukowheat Griddle Cakes.—For the colder months these cakes are more common than the wheat and are used quite freely. Be sure to get a good brand of buckwheat flour. Make a batter of cold water and buckwheat flour with a softened yeast cake, or if home-made yeast is used, a half-cup, then set away in a warm place to rise overnight. In the morning, take out a cupful of the batter to use for the next day's cakes. Add water and more buckwheat flour to make a thick batter and set away. To the batter which is to be used for the morning's cakes add sour or sweet milk and a bit of soda; beat and mix to a good batter; then cook as usual. A thin batter makes a more tender cake. This original batter will be good for several weeks if the breakfast batter is never added to that to be used the next day.

Rice Pancakes.—Mix two cupfuls of boiled rice with two cupfuls of milk and let stand in a cool place overnight. In the morning add three cupfuls of sifted flour, one teaspoonful of salt, one tablespoonful of melted butter and one tablespoonful of sugar. Beat until thoroughly mixed with two cupfuls of milk, a tablespoonful of baking powder and three eggs; the stiffly-beaten whites added last.

Cement for China. Mix a cupful of milk with a cupful of vinegar; separate curd from whey with the whites of five eggs, beating the whole thoroughly together. When it is well mixed, stir in a little quicklime and stir until it is of the consistency of thick paste. With this broken china, glass and cracks of all kinds may be mended. It dries quickly and resists the action of water and heat.

Messie Maxwell

Perhaps a realization of these things is responsible for the attitude of some of the White Sox players toward their contracts this spring. Those who were implicated in the gossip of the gamblers last fall were informed of it and that would be sufficient to make any innocent player disgusted with the outlook. That may be one of the chief reasons why several White Sox regulars have announced themselves as holdouts. By announcing Babe Ruth they perhaps imagine they may gain Ruth's reward—a transfer to now and more fertile pastures.

If Gleason stands out and tries to whip his disorganized team back into winning shape again, he faces a task taller than the Masonic temple, and with no better foundations. Cometary Disappointed. In order to get satisfactory salaries for the holdouts the White Sox manager must obliterate to a great extent the disappointment felt by Owen Comiskey in the poor showing of his men last fall, for the owners, and not the manager, has the final word in the matter of stipends. In addition, Gleason will have to inject a lot of new spirit into his men to enable them to live down and silence out the scandal every time anything goes amiss in a ball game. The alternative is to start building the team over from the ground up by

MORALE OF SOX SHOT TO PIECES AS TEAM STARTS

Gleason Faces Big Task in Molding His Squad Into Serious Contenders. By L. E. SANBORN. CHICAGO—Compared to what he is up against this year, Manager Gleason's task in 1919 was soft, and we all allowed the White Sox boss had his hands full last spring.

When Gleason tackled the new job he took control of a team that was all shot to pieces by the previous season's campaign. Some of its members were exceedingly unpopular with the south side patrons because of defections to the slivars and elsewhere which wrecked the team. Some of them were so unpopular with the club owner that he had notified them never to show their faces at the south side park again, and in general the morale of the White Sox a year ago was lower than that of a Wilsonian cabinet.

Battle Into Fans' Graces

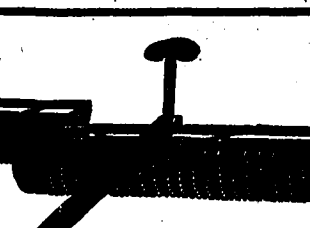

Gleason talked Comiskey into taking back control of a team that was all shot to pieces by the previous season's campaign. Some of its members were exceedingly unpopular with the south side patrons because of defections to the slivars and elsewhere which wrecked the team. Some of them were so unpopular with the club owner that he had notified them never to show their faces at the south side park again, and in general the morale of the White Sox a year ago was lower than that of a Wilsonian cabinet.

By constantly injecting his own fighting spirit into their hearts Gleason drove the White Sox into a present victory, only to be bitterly disappointed in the world series. That post-season upset and the consequent gossip concerning some of the players make Gleason's task for this year doubly difficult. The team's morale is lower even than last spring, and it does not look possible or even advisable for him to try to hold the outfit together.

Shining Marks for Gossip

Some of the men who were exceedingly unpopular in the spring of 1919 are among those attacked by the scandal mongers last fall. Others who stuck to the team to the end of the disastrous finish of 1918, made such a poor showing in the 1919 world series that they were shining marks for the purveyors of scandal. This season they will have to open the pennant race on their own grounds, before fans who will have several reasons for hostility to the 'desertions' of 1918, the form reversal of 1919, and the increase in prices of admission—which will affect all classes of patrons and tend to make them more critical and peevish. There will be no opportunity to make a swell start away from home. The music must be faced at once.

Perhaps a realization of these things is responsible for the attitude of some of the White Sox players toward their contracts this spring. Those who were implicated in the gossip of the gamblers last fall were informed of it and that would be sufficient to make any innocent player disgusted with the outlook. That may be one of the chief reasons why several White Sox regulars have announced themselves as holdouts. Brief Bits of Sport

Owner Jim Dunn of the Cleveland club has decided to enlarge the seating capacity at the Indian park, and a new stand, to seat about 5,000, will be erected before the opening of the season.

Report has it that Jim Thorpe has flatly refused to play with the Akron (Ohio) team. Jim does not object to playing football in Akron, but in baseball has higher ambitions.

Hal Chase recently left the call for California. He has decided, it is said, to retire from the game and will not play first base for the Giants. Chase received a new contract from the New York National league club recently, but he turned it down, declaring that he intended to go into business on the coast.

Zinn Beck, who was with the Yankees for a time during the 1918 campaign, has obtained his release from Yonkers, and is expected to be in the camp of the Pirates at Hot Springs, Pa. Beck will manage the Columbia, a team of the South Atlantic league.

Barney Dreyfus comes to the front with the announcement that he has signed player will play in the camp of the Pirates at Hot Springs. Some of the other owners decided this spring to do away with this rule.

George Decker, coach of the Penn boxing team, holds a unique record in the ring sport. Since 1909, when he first took charge of boxing at the university, Decker has coached punches with 4,000 Penn students, three rounds each, for a total of 12,000 rounds. This is said to be a record unequalled in boxing circles.

The Indian battery is not to be a reality after all. Chief Myers has retired from baseball, so when Chief Bender pitches at New Haven this season he will have to pair up with a new catcher.

Hank Sovard, whose work behind the bat for the Browns last season was affected by poor health, is again in fine trim. That means that other catchers will do little work with the Browns this season.

Bradley Hogg, who retired almost entirely on the 15th of this month, says he will retire rather than waste another year, after which he will have to quit. Hogg will not join the Phils, but will devote his attention to his law practice at Amerlus, Ga.

Sim Smiley, agebruhl sage, says: "They're a lot of business men who claim 'buy cash' but check they have it get time for them their wisdom."

Southern and western training camps have no dearth of phonemes. Every club in the south for the year's training has its quota of sensations, and every club will have the same number to drop when the cooling period comes off.

Wraslers travel in bushes of two, always. One will drop in on the sports editor and proclaim he is ready to tackle the sport in the world at his weight limit.

The sports editor falls for this article, bank and the challenge is issued through the sport for the year's training has its quota of sensations, and every club will have the same number to drop when the cooling period comes off.

Two or three days elapse and then the challenger will stroll into the sport editor's office to find a letter from some neighboring town. A grapple has twiggled the deft and eagerly accepts. Then the match-making is on.

Henry Jones, a waterwreath grapple, thus starts at Preston, Idaho, and, after the usual wait, Dick Cox, at Salt Lake, accepts.

Rancher's Lucky Find. Some years ago a French-Canadian rancher was rambling about a distant part of his land when he noticed a piece of rock which glistened in the sun. Out of curiosity he picked it up and took it home with him. Its weight convinced him that it was mineralized rock and he took it to a specialist, who found it to be almost pure silver. Since then that ranch has yielded between 50,000,000 and 60,000,000 ounces of silver.
