SENATE SWEEPS REED PROPOSAL INTO DISCARD

Solons Resume Consideration of Pending Reservations to the Treaty and Reject Missouri's Suggested Qualification

FIGHT REACHES ZENITH IN DECLARATION DEFEAT
Republican Irreconcilables Combine with Democrats in Overturning Statement of American Policy Howard European Wars

WASHINGTON, (AP)—A vote will be taken tomorrow by the senate on ratification of the peace treaty. An agreement to this effect was reached today when debate was limited and the ratification resolution put into final form for a vote tomorrow. During the morning the senate voted down numerous proposed reservations to the peace treaty. About a dozen reservations were to be disposed of during the afternoon under an agreement to limit the debate.

WASHINGTON, (AP)—Resuming consideration of pending reservations to the peace treaty, the senate today voted to accept 46 of 27 a reservation presented by Senator Reed, democrat, Missouri, which would reserve to the United States for decision the question of restoring national honor or its vital interests.

Defeat Policy Declaration
The republican irreconcilables combining with the democrats, overturned the senate floor yesterday the plan of republican leaders to attach to the peace treaty a general declaration of American policy toward future European wars.

HOOPER FAVORS RESERVATIONS

Argues for Acceptance of Qualifications Regardless of the Wilson Attitude
NEW YORK, (AP)—Herbert Hoover in a statement issued from his office here today, advocates early ratification of the peace treaty, "so long as the reservations do not involve action and form constructive development of peace" and other reservations which "should satisfy the most timid as to entanglements. The statement was issued, it was explained, in response to a request of the Washington Star for his views on the subject.

BOLIVIA MAKES ITS APOLOGIES TO PERUVIANS

President Guerra Expresses the Government's Regrets for Attack on Peruvian Legation at La Paz
SITUATION IS VIEWED AS SERIOUS IN WASHINGTON
Strained Relations Occur Between South American Nations, Both Members of the League of Nations

LIMA, Peru, (AP)—The six-day campaign President Guerra of Bolivia called at the Peruvian legation at La Paz yesterday and expressed the Bolivian government's regrets for the attack on the legation last Sunday night.

WASHINGTON, (AP)—Ambient representations to Bolivia not to disturb the peace of South America have been made by the American government as a result of the anti-Peruvian manifestation at La Paz. In connection with the communications it was stated that Peru has sought the good offices of the United States to prevent hostilities.

Dispatches to the Peruvian embassy Wednesday said events in Bolivia resulted from the influence of the Chilean government and the activity of Chilean agents. It is known that this view also is held in other diplomatic and some official circles here.

Embassy officials expressed the belief that there was an effort to force Peru into a war against Chile in the eighties, out of which grew the Arica-Tanna dispute. The Peruvians charge that General Montes, a candidate for the presidency of Bolivia, who is reported to be leading the anti-Peruvian manifestations, is being supported by Chile and is being supplied with arms and ammunition from that country.

The exact situation in Bolivia is somewhat obscured, owing to the rigid censorship reported to have been imposed at La Paz. Reports reaching Peru that General Montes was mobilizing Bolivian reserves caused deep concern. At the Peruvian embassy it was said that if this was true, Peru would be obliged to take action to serve as its standing army consists of only a few thousand men.

Peru and Bolivia are members of the league of nations and if they sever diplomatic relations, the crisis thus provoked would, under the articles of the league covenant be such as to bring the dispute to the official notice of the council of the league.

Restored Ebert Administration Faces Serious Task in Dealing With Disordered Conditions

REDS' ATTACK UPON BERLIN FEARED

Two Hundred Americans Call Army's Help to Leave Leipzig
COBILENZ, (AP)—Two hundred Americans who have been attending the fair at Leipzig have telegraphed and telephoned Major General H. T. Allen, commanding the American army of occupation, urgently asking for help to leave Leipzig where they describe conditions as dangerous to their lives.

(BY THE ASSOCIATED PRESS)
The collapse of the reactionary dictatorship in Berlin has been quickly followed by the resumption of authority on the part of the old government. Its chief task for the moment, it appears, will be to deal with the disordered conditions which the Spartacists are endeavoring to prolong for their own purposes.

Dispatches stating that Minister of Defense Noske, the strong arm of the constitutional regime is back on the scene in Berlin, have been followed by reports that President Ebert also has returned to the capital from Stuttgart. Pending his return, Vice Premier Schiffer of the Bauer cabinet took over the directions of affairs relinquished by Dr. Kapp when he gave up his effort to establish a new government.

There are reports current in Berlin that ex-Chancellor Kapp had committed suicide but these so far lack confirmation. His prosecution, together with that of other leaders of the reactionary movement, is said to have been ordered by President Ebert.

Announcements by Dr. Kapp as well as statements from the Ebert government, reflect the fear of a radical uprising in Germany. In fact, Dr. Dapp's announcement stated he had resigned so that the country might be enabled to fight Bolshevism.

Throughout Germany radical elements have in many places taken over direction of affairs at least temporarily. Proletarian dictatorships have been set up at Dortmund, Gera, Halle, Ohlig, Unna and Gelsenkirchen, according to reports, while in Leipzig workers have driven government troops from the suburbs of the city and were engaged late yesterday in street fighting. In the Rhenish and Westphalian industrial districts it is said the workers are ready to follow radical leaders.

Ebert Returns to Position in Berlin

LONDON, (AP)—President Ebert arrived in Berlin last night, according to a telephone message received by the Amsterdam correspondent of the Exchange Telegraph from Berlin.

President Ebert has ordered the imperial court at Leipzig to bring action against the leaders of the revolution, Dr. Kapp, General von Luttwitz, Gottlieb von Jagow, Admiral Trosch and Captain Erhardt, the correspondent says.

General Luetwitz Departs from Berlin

AMSTERDAM, (AP)—General von Luttwitz who commanded the troops which supported the Kapp regime, has left Berlin with his armed forces, according to a telephone message received from Berlin this morning.

Calls Upon People to Return to Work

BERLIN, (AP)—Rejoicing over the downfall of the Kapp administration, the executive committee of the democratic party has issued a proclamation calling upon the people to return to work and restore peace. It demands a reconstruction of the cabinet and the election of a president by popular vote.

GROUND IN UGLY HUMOR THROWS BERLIN STREETS

Military Seems Panicky with Many of Baltic Troops Joining Forces with Militant Independent Socialists
VON LUETTWITZ HAND IS DISCOVERED IN DISORDER
Uses Cover of Spartacan Movement as Cover in Effort to Form Coalition Ministry, the French Office Reports

COPENHAGEN, (AP)—General von Luttwitz, former chief of the military forces in Berlin, proposed to Ernst Dammig, the Spartacan leader, the formation of a soviet republic in the military protection, according to a Berlin correspondent of the Politikon.

PARIS, (AP)—Official advices from Berlin today describing conditions there last night said the public places of the city were filled with crowds in an ugly humor. The military appeared to be of a panicky disposition. Many of the Baltic troops, the advices added, had joined forces with the independent socialists, who were reported to have 15,000 armed men at their command.

Serious Fighting in Progress at Leipzig

COBILENZ, (AP)—A telephone message received today from an American at Leipzig said conditions there are very bad. Fighting in which machine guns were being used was proceeding. Food was growing short and the water had been cut off. The government troops supporting Premier Bauer were still holding their own against the revolutionaries.

HOUSTON SAYS TAX REDUCTION IS DANGEROUS

Secretary of Treasury Advises Against Cut in Income and Excess Profits Levies Collected in 1920 and 1921

WASHINGTON, (AP)—Any reduction of income and excess profits taxes to be collected in the calendar years of 1920 and 1921 would be "manifestly unsafe," Secretary Houston declared in a letter yesterday to the House and means committee. Simplification of those taxes was urged, however.

"Unless action is taken at the present session of congress, Mr. Houston said, the taxes must be continued to be collected on the basis of the present law until the close of the calendar year 1922." He added that he could not "contemplate any change without the gravest apprehension."

Suggests Simplification

For the simplification of the taxes, with a resultant "moderate reduction," the secretary first recommended enactment of an amendment authorizing the internal revenue bureau to make a final determination and settlement of any tax claim or assessment which has not been previously ascertained or modified by the government except on a showing of fraud. The particular importance of this change, the secretary said, was that if the present law continues to be applied along with the current taxes are collected in the same year, "the result may be highly disastrous to business" in case of industrial depression.

Other Recommendations

Other recommendations included: Extension to all income and profit tax laws of the five-year limitation contained only in the 1918 law, on time for bringing suits for collection of taxes.

Consolidation of the varying exemptions on the liberty bonds issues so as to strengthen the market standing of those securities.

Extraordinary income as compensation from personal service and gains from sales or dealings in property for a period of years should be accrued or been received ratably during the years in which the service was rendered or the property held, and the amount of extraordinary income assigned to any one year be subjected to the surtax rates prescribed by law for that year.

Provision for simplification and fundamental modification or repeal of the excess profits tax should be made now and urged substitution of a flat tax on profits in excess of the distributed earnings instead of the present levy.

It is suggested that this flat rate be 25 per cent for 1921, 20 per cent for 1922, and 15 per cent for 1923, stating it would reduce virtually as much as the present excess profits tax.

HUGE SUNKEN TREASURE RECOVERED BY SALVING

Valuable Worth \$50,000,000 Pounds Busted Since War Began Around British Isles

LONDON, (AP)—Sunken treasure worth \$50,000,000 has been raised since the war began around the British Isles.

The treasure and the British salvaging vessels that were bought by a British concern from the American navy have a new device, an ox-acetylene flame which is worked under water for cutting holes in the sides of submerged vessels.

Each ship has twenty-five electric pumps capable of pumping 1,000,000 gallons of water an hour and carries two divers, searchlights, two thousand feet of electric welding plants, rock drills and other accessories. Each diver is equipped with a telephone.

BRYAN TO MAPE REPLY TO FARMERS QUESTIONNAIRE

Approves Principle of Requiring Candidates to Put Themselves on Record Before Campaign

WASHINGTON, (AP)—William Jennings Bryan received Wednesday the first copy of a questionnaire prepared by committee of the national board of farm organizations, and presentation to all presidential candidates in order to place them on record on matters of interest to farmers.

In accepting the questionnaire, Mr. Bryan said he was not at the time a candidate, but would study the series of inquiries and give the farm board his opinion on them.

Mr. Bryan declared he was as heartily in accord with the principle of requiring candidates to put themselves unequivocally on record before entering the campaign.

City Girl's Gold Tipped Cigarette Has "Snuff Stick" Rival in South

This Young Mountain Matron is Enjoying Her Afternoon Chew While Her Husband Smokes His Favorite Pipe.

Here is an unusual picture of marital felicity. It was snapped by a worker for the Interchurch World Movement during a survey of living conditions in the Tennessee Mountain district. The young woman in the picture, a bride of a few weeks, is using the mountain substitute for the snuff stick—a stick coated with snuff and industriously chewed. The habit has two advantages over the gold-tipped cigarette of the city girl. It is more economical and it lasts longer—a well made "snuff stick" having only one rivet for longevity—the "all day sucker" of school days.

The Interchurch World Movement finds widespread ignorance and poverty among these mountain folks and suggests a new religious program to couple the Bible with practical instruction in agriculture, carry it on model farms, with schools and roads and other community needs as the ultimate goal.

GOOD MATCHES PRESENTED FOR THE ROTARIANS

High School Athletes Display Mitt and Mat Prowess Before Business Men

Exhibitions of boxing and wrestling were presented by the boxing and wrestling club before the Rotary club last evening in the high school gymnasium. Several good wrestling matches were "put on" with one last boxing bout and a few farce matches. The program was as follows:

Watson vs. Epler, both 137 pounds, farce boxing match.

McAfee vs. Garrison, 145 and 150 pounds respectively, 10-minute wrestling match.

Three light wrestlers, Schwarz, 100; Gish, 120 and Dwyer, 127, attempted to throw Nicholson, weight 150, in ten minutes, but were unsuccessful.

Biggins vs. Bydalech, both 100 pounds, 5-minute wrestling bout.

Brown vs. Sparks, 100 pound class, 5 minute wrestling bout.

Schwarz vs. Hodges, both 100, 10 minute grappling match.

Kerr vs. Schmitt, both 125 pound class, 10-minute wrestling match.

Day vs. Irwin, both 145, 3 rounds of boxing.

No decisions were given in any of the bouts and they will be the best men was rather ridiculous and amused the spectators quite a bit, as did also the Nicholson wrestling match.

Men who are certain of going to Boise are Irwin, Nicholson and Hogg, wrestlers, and Day, boxer. Three of four men are yet to be selected for the trip and they will be the best men available, irrespective of weights, save Coach Robey, Nick Collins, trainer of the Boise men, is desirous of getting at the Boise meet the best men Twin Falls has, so if the behavior men show up better within the next week than the bantamweights, they will be taken on the trip.

TURN HAIR DARK WITH SAGE TEA

If Mixed with Sulphur it Darkens So Naturally Nobody Can Tell

The old-time mixture of Sage Tea and Sulphur for darkening gray, streaked and faded hair is grandmother's recipe, and folks are again using it to keep their hair a good, even color, which is quite sensible, as we are living in an age when a youthful appearance is of the greatest advantage.

Nowadays though, we don't have the troublesome task of gathering the sage and the mossy mixing at home. All drug stores sell the ready to use product, improved by the addition of other ingredients, called "Wyeth's Sage and Sulphur Compound." It is very popular because nobody can discover it has been applied. Simply moisten your comb or a soft brush with it and draw this through your hair, taking one small strand at a time; by morning the gray hair disappears, but what delights the ladies with Wyeth's Sage and Sulphur Compound is that, besides beautifully darkening the hair after a few applications, it also produces that soft lustre and appearance of abundance which is so attractive—adv.

The Idaho-Yellowstone baseball league is strong for big league players.

Idaho Falls has just signed Bill Pierce, rancid-pitcher of the New York Yankees.

There are all sorts of tricks being resorted to in the wrestling game these days. Sometimes a big guy picks up his smaller opponent and lets him drop, falling on him bodily and crushing the wind out of him, and sometimes a grappler twists a chap's leg almost out of socket.

And once John Olin picked Joe Stecher up and dropped him into the press box, thus taking all the ambition out of said Joe.

But it remained for Jim London, a Greek, to do something quite new and entirely unique in bringing about the subjugation of Salvatore Chevalier, French champion, the other night.

London is a strong chap and when he found he could not stop the Frenchman by regular grappling he seized his opponent by one leg, swung him around ten times and while Chevalier was dizzy Jim pounced upon him and crushed him into submission.

A fighter named Casey, who is to box in Salt Lake soon, is mentioned by a sports editor as being an Irishman.

We rather suspected Celtic origin.

Recent performances of Charlie White have attracted attention in the east and there is some talk of matching the Chicagoan with Benny Leonard for New Orleans on July 4.

We insist that a better and more interesting go would be one between White and his arch enemy, Freddie Welsh.

In Twin Falls the boosters are laying no plans; just laying mighty low.

Jack Kearns has added a lightweight scrap cent to his stable. This is Eddie Maloney, who is said to be one of the most promising prospects extant.

Also Kearns says he wants to get his boy matched with Benny Leonard, a statement which will be taken as merely talk of a mentor.

MRS. MABEL S. DESCHANES, a popular and attractive young woman of Lewiston, Idaho, is now an ardent champion of Tanlac, since she began using it a few weeks ago.

Mrs. Mabel S. Deschanes, a popular and attractive young woman residing at No. 7 Bartlett Street, Lewiston, Mo., is now an ardent champion of Tanlac, since she began using the medicine a few weeks ago.

"I prize Tanlac above every other medicine, even that which was prescribed for me," said Mrs. Deschanes in relating her experience recently, "I dislike publicity, but there are so many others who no doubt suffer as I feel that I ought to tell them about it."

"I had had a very bad case of indigestion," and had been under the doctor's care for six months without relief. At the time I began taking Tanlac I was on a very strict diet and at times could not retain food of any kind. Even cold water would cause extreme nausea. I suffered from loss of appetite, severe cramping pains after eating and great nervousness."

"Finally my condition gave me and I simply had to give up and go to bed until I got relief. I was unable to go down town to do my shopping and, although I had been under treatment for six months, there seemed to be no relief for me. Honestly, I don't believe I would be alive now if I hadn't gotten Tanlac, for I was suffering terribly and getting worse all the time."

"Finally my sister persuaded me to try Tanlac. I improved from the very first and one bottle did me more good than the six months' treatment. Why, I actually gained a few pounds in weight while taking this one bottle. I have now taken four bottles and I feel just like a different person and am enjoying just anything I want; in fact, everything seems to agree with me perfectly. I am now able to do my shopping without becoming fatigued in the least and am no longer nervous like I was."

"Tanlac is simply wonderful, and I can not praise it too highly."

Tanlac is sold in Twin Falls by City Pharmacy and by the leading druggists in every town—Adv.

Infected Teeth Are a Menace to Health

VERY many people have infected teeth without knowing it. The tooth roots are often diseased and still there may be no pain or any outward sign of trouble.

Doctors say that hundreds of cases of inflammatory rheumatism, chronic stomach troubles, Bright's disease, nervous diseases, epilepsy and even insanity are caused by infected teeth. Some go so far as to declare they are the greatest danger to health today.

If your health is not as good as it should be, the cause may be infection at the tooth roots, where poisonous pus forms and is taken up by the blood and carried all through the system. Have your teeth thoroughly examined by Registered Dentists using the E. R. Parker System. Their offices are fully equipped with X-Ray machines for making careful examinations, and their experience fits them to give advice that is well worth having. Your health depends so much upon your teeth that delays are dangerous and costly. Consultation and advice free.

POLES REALIZE ANCHORED HOPE OF OUTLET TO SEA

Tossing of Wedding Ring into Ocean Marks Ceremonies at Puck when Troops March on Own Territory to Baltic

WARSAW, (AP)—Tossing of a wedding ring into the ocean marked ceremonies recently held at Puck, or Putzig, to celebrate the reuniting of Poland to the sea, an event of which all Poles had dreamed for many years.

While Polish ships are to have use of wharves at Danzig, which is to be a free port under the league of nations, the new republic is to begin to make itself at home in the stretch of land northwest of Danzig. This brought Poland to salt water again, after an absence of 148 years.

General Haller, commander-in-chief of the Polish army in France during the great war, is taking more than 10,000 Polish-Americans fought, headed the military expedition which entered Puck to reclaim in the name of President Pilsudski, Poland's gateway to the seven seas.

There was a race of the detachments of Polish soldiers to actually reach the coast first to the water to the Baltic. Speaking at the exercises, General Haller said that from that day henceforth the sea of the world were open to the Polish sailor and that the Polish nation would be able to take its place in it.

Plans for a Polish navy are already under way. The great war was the first time in a century and a half.

ALLIES DECLINE RESPONSIBLE FOR THESE ACTS AND FOR THE CONSEQUENT RESULTS

TURK NATIONALIST GROWING POWER FORBIDS OCCUPATION

WASHINGTON, (AP)—Allied military occupation of Constantinople was forced on the allies by the growing power of Mustafa Kemal over the sultan's government, and the movement of authority in Turkey favorable to acceptance of allied peace terms, according to officials.

Under that plan, the sultan was to be retained in Constantinople, but no military occupation was contemplated. Since the pro-German Turkish nationalist party has exerted such influence as to make Mustafa victor to the Constantinople chamber, however, and even able to break or make cabinets at will, it was said, military occupation for the announced purpose, "strengthening the sultan's power was to be expected."

RAILROAD BOND TO BE DRAFTED

Committee Will Present Document to Rail Line Boosters at Meeting Today

This afternoon a chamber of commerce committee, organized to draft a form of bond indemnity for \$25,000 to be paid to promoters of the proposed Idaho Falls and Lewiston Railroad company, will be drafted for presentation to representatives of the company. J. M. Maxwell, J. R. Buswell and Arthur B. Wilson comprise the chamber of commerce committee.

The \$25,000 is to be paid the company as the first step toward guaranteeing support for the projected railway. It will be used in making necessary surveys of route. Actual construction must be started within 90 days from the receipt of the money.

With the signing of the bond a holding company will be formed to have charge of \$100,000 bonds authorized for the building of the road. These matters will be cared for at this afternoon's meeting.

Yesterday afternoon a form of contract between the business committee was submitted to President George L. Davis of the railroad, and given approval. The contract covers plan of procedure, specifications for construction and time for payment of bonus.

He Wouldn't Kiss His Beautiful Bride— Yet He Died to Save Her

It would have done your heart good to know Slim Gage. Not much to look at was Slim—in fact, they called him "the laziest and ugliest man in the world." Men scoffed at him, women turned away as he passed, but Slim had something the scoffers lacked—HEART. Then into the life of this victim of jibes and sneers came a young, beautiful girl, though it was not of Slim's choosing. His only friend thought a woman would fix Slim Gage up to look like other men, and advertised for a wife in his name.

Its Emerson Hough's great novel. Presented in a seven part photo feature. One of the finest western stories, powerfully enacted by excellent cast.

ON SOLID FOUNDATION

However far afield William Jennings Bryan may have led his followers in days gone by, there can be no justifiable argument now over the proposition that anyone who believes in the foundation principles of the American government will experience no difficulty and make no mistake in following the lead he outlined yesterday in Washington with these words:

"We have the right to appeal to the people to reverse the action of the majority, but we have no right to prevent the people from speaking through their representatives. The democratic party cannot hope to make much headway combating the fundamental principle upon which it stands."

Mr. Bryan, it will be observed, was prompted to make this observation in relation to the existing status of the peace treaty in the senate, and his statement of principle was included in a recommendation for immediate ratification of the pact.

It is not improbable that Mr. Bryan is prompted by motives of partisan advantage in his desire for the early disposal of the treaty question in order that it may not be projected into the coming political campaign; but it can hardly be urged with justice that Mr. Bryan is appealing to any new doctrine, either in so far as he personally or the great majority of Americans are concerned, in basing his plea on the grounds of justice of majority rule.

It must be evident to everyone who has followed Mr. Bryan's political career that he is a staunch believer in the tenets of popular government. It will be remembered that something more than a decade ago Mr. Bryan engaged in a noteworthy debate presented through the medium of a national publication, wherein he vigorously defended the principle that a representative must conform in all ways to the views of his constituency no matter how much at variance they may be with his own notions.

In the present instance, admitting that Mr. Bryan is moved by what he believed to be the best interests of his own political party, it must be generally recognized that he has risen far above partisanship in an appeal to an American principle which cannot be departed from if America is to continue American.

NATION'S FOCAL POINT

Announcement that more foreign governments are represented by embassies and legations in Washington than in any other capital in the world affords an interesting sidelight on the conception of America as the world's "melting pot."

In all, it is reported, forty-two countries have accredited representatives in Washington. Besides these there are many unofficial representatives of nationalities seeking recognition from the American government. Chief among these latter are representatives of the Irish, Ukrainians, Armenians, Lithuanians and San Marino appear to remain unrepresented.

Albania, whose status is one of the principal points of controversy in the Adriatic problem, has as its "envoy," C. A. Chokroo, a graduate of Harvard University, one of the first of his country ever to appear in America on a proposed governmental mission. Another of the Balkan states, Montenegro, still maintains its legation despite the incorporation of Montenegro in the Serb-Croat-Slovene state and the deposition of former King Nicholas, whom the legation occasionally represented. Bulgaria, a third Balkan state, occupied the position, during the war, of being the only country, at war against the allies, and yet represented here by a legation.

DISCOVERS WALES' DOUBLE

Autograph Hunter Elizabeth J. J. Smith for Her to British Women... LONDON (AP)—The Prince of Wales comes to have a double in England. In the company of two officers, a man entered a West End moving picture theater the other day. A lady sitting near the door arose, bowed and presented the eternal autograph book. The man took the book and, with a serious countenance, wrote "J. J. Smith," and handed back the volume with a graceful bow. It was not the Prince.

AGRICULTURE RIDING PROSPERITY TO RUIN

Higher Prices for Product of Farm or Lower Cost of Goods and Service to Farmer Offer Alternative Remedies for Basic Industry in Precarious Position (Lewiston Tribune)

Information, general and particular, is all to the effect that the farming industry is reaching a precarious position, in spite of its prosperity under \$225 wheat and proportionate prices for other products. The development of agriculture has simply failed to keep pace with the development of the manufacturing industry. More men are engaged in manufacturing than ever before. Power men are engaged in farming at any time within five, and possibly within ten years. The output of manufacturers is greater than ever before by the measure of volume. The output of the farms is being measured by the measure, but a little over normal, and it reached that extent only because of extraordinary effort, stimulated by assured high prices, and extraordinarily favorable weather. This year the production promises to be considerably below normal. At the most, it can not be said that agricultural production is keeping pace with the growth of population. The cause of this condition is obtrusive rather than obscure. Capital and labor alike have found more profitable employment in the cities than the country affords. Labor commands a higher price in the shop than in the field. It is inevitable that the shop should receive the benefit of the fact that the production of the farm owner should be reduced to the capacity of his own labor and that of the family. The support of labor that can hire is steadily diminishing, and the cost of that which remains is correspondingly increasing. If this tendency is to persist, the country must, before long, import either farmers or farm products in great volume. In the one event, we should

give our rural population the cast and character of an alien peasantry, and in the other, make the present agriculture a reaching a precarious position. To an extent, on foreign supplies for its bread and meat. Neither outcome can be contemplated with equanimity. The remedy must reverse the cause of the condition which threatens one of these outcomes. The well-being of those who work in the fields must be brought to a parity with the well-being of those who work in the shops. The old balance between these two somewhat competitive interests must be restored. Either the products of the shops must be cheapened by means of the tariff, or the products of the farms must be increased either by means of higher prices to him or greater production per man power. This is a slow process; it involves the greater use of machinery and the practice of more scientific methods of cultivation. It can not be made to serve the immediate need. It should, therefore, that the city must make up its mind to pay more for what it gets from the farm if the profits of farming are to be great. NOTICE TO CONTRACTORS

Sealed proposals will be received at the office of the Twin Falls Highway District, 7 Power Building, Twin Falls, Idaho, up until 3 o'clock, March 29th, 1920, for the construction of approximately 27 1/2 miles of bituminous macadam pavement and culverts. Proposed work will be let in two contracts, approximately as follows: Contract No. 3. ROADS—12.25 Miles. 28,800 cu. yds. earth excavation. 116,000 sq. yds. 5-inch macadam base course. 116,000 sq. yds. 3-inch penetration macadam top course. CULVERTS 763 cu. yds. concrete culverts. 50,700 lbs. reinforcing steel. 380 ft. 12-inch cast iron pipe culvert. 1,270 ft. 18-inch corrugated iron pipe culvert. 150 ft. 24-inch corrugated iron pipe culvert. 33,600 lbs. structural steel. 12,000 ft. B. M. timber floor. ROAD No. 4. ROADS—15.30 Miles. 35,200 cu. yds. earth excavation. 144,000 sq. yds. 5-inch macadam base course. 144,000 sq. yds. 3-inch penetration macadam top course. CULVERTS 790 cu. yds. concrete culverts. 65,800 lbs. reinforcing steel. 630 ft. 12-inch cast iron pipe culvert. 660 ft. 18-inch corrugated iron pipe culvert. 90 ft. 24-inch corrugated iron pipe culvert. 1,000 lbs. structural steel. Alternate bids for 2-inch asphaltic concrete top course, with standard bitulithic and Topexa type will be received on both contracts. Crushed rock, cast iron pipe, reinforcing steel and cement will be furnished

to the contractor by the Highway District at cost.

The Highway District also has for lease to contractors several graders, trenchers, wheel tractors, etc., one Duffalo 12-hp roller and one scarifier. The Allen Oil Co. of Twin Falls, Idaho, will contract for delivering asphaltic oil on the road, hot. But little equipment will be required by the contractor, considering the size of the contract. Complete set of plans and specifications may be seen at the office of the Twin Falls Highway District, or a set for private use will be furnished, upon application by making a deposit of \$15.00, \$10.00 of which will be refunded upon return of the plans and specifications within 10 days after letting of contracts. Proposals shall be submitted upon blank forms provided for the purpose by the undersigned and shall be accompanied by certified check, payable to Stuart H. Taylor, Treasurer of the Twin Falls Highway District, in the sum of 5 per cent of the amount of the contract. The Board of Commissioners reserves the right to reject any or all bids. TWIN FALLS HIGHWAY DISTRICT. By C. B. Channel, President. Stuart H. Taylor, Secretary. W. L. Johnson, Chief Engineer.

Service THERE is undoubtedly no public service that touches directly so many individuals and enters so completely into the social and commercial life of the people as does telephone service. More business is transacted over the telephone than there is through face to face conversations. More social activities are planned, more invitations sent, more engagements made or cancelled by telephone than by any other means. This places a tremendous responsibility upon those charged with the duty of rendering telephone service. Any failure of the service would have a disastrous effect upon both the business and social relations of a community. A general cessation of the service would cause nationwide confusion. Telephone employees realize their responsibility and recognize their obligation. It is this loyalty to duty that makes it possible for the Telephone Company to render service even under the most difficult conditions. Quite generally there are at this time inadequate facilities causing congestion and confusion, a condition from which there can be no immediate relief. Sometimes the elements rage in a mad fury, but men and women brave the storms that the public may be served. Occasionally a scourge of sickness depletes the ranks, adding to the burden of those who escape, but who perform their more difficult tasks with smiling determination to continue the service. With such a spirit in the telephone organization, the service will at all times be the best that human effort can produce, in the face of whatever adverse circumstances may prevail.

PUMPING UNIT SHOWS DEFICIT

South Side Section of Minidoka Project Must Raise Rates to Meet Expenses

According to a statement from executive headquarters of the South Side, or pumping unit of the Minidoka project, in spite of an advance in charges for water delivered to farms under the South Side or Pumping unit of the Minidoka project each year the cost of operating and maintaining the irrigating system has increased. The deficit amounted to \$13,840. Last year rates were raised to such a point that it was thought the revenues would not only pay the 1919 operating and maintenance charge, but would cover the deficit.

Due to the general shortage of water last season the higher rates did not bring in sufficient revenue to cover the year's costs. In fact, the deficit for 1919 was \$24,321.35, the largest in the history of the project. The total cost of operating and maintaining the South Side Pumping unit of the Minidoka project has been \$38,171.35 more than has been collected.

In order to comply with the reclamation law it has been found necessary to increase the rates per acre foot for 1920 so as to cover the deficit for past years as well as the costs for this season. The charge for water this year will be \$1 per acre foot for all water delivered on or before June 5, and \$1.50 per acre foot for all water delivered after June 5, with a minimum charge of \$2.50 per acre.

WITHHELD JUDGMENT

In the Probate Court yesterday afternoon a suit, instituted by the Nibley Channell Lumber company against the Twin Falls Steam and Ice company, before Judge O. P. Duvall. The case involves an alleged unpaid account for merchandise. Judgment will be rendered this afternoon or tomorrow.

Stamped with the enthusiastic approval of Emerson Hough, "The Sagebrusher," the vivid painting of the first of the famous novelist's works to be transferred to the screen, is unquestionably the greatest achievement of that master producer, Benjamin Hampton. "The Sagebrusher," a W. W. Hodkinson special release, showing at the Gem theatre, beginning today, depicts the soul-stirring events in the life of Mary Warren, a beautiful, refined girl, who, having lost her sight, is forced by circumstances to wed Jim Gage's shiftless Montana rancher.

STUBBORN YOUTH LODGED IN JAIL

High School Youth, Accused of Delinquency, is Held Pending Filing of Complaint

Occupying a cell in the county jail today is a 16-year-old high school lad, placed there to ponder over certain alleged misdemeanors. He was ordered into confinement by Judge O. P. Duvall, of the probate court, this morning. Juvenile Officer John E. Ault will lodge formal complaint in the probate court against the lad today.

The youth is to be formally charged with smoking cigars and other forms of delinquency. The first named specific offense is said to have been committed yesterday with Mr. Ault as a witness.

According to Judge Duvall the youth was found on the business streets yesterday afternoon during school hours smoking cigars. He was accosted by Mr. Ault and after a few questions were asked he was ordered to appear in the juvenile court at a certain hour. After giving a promise that he would present himself before Judge Duvall for interrogation the youth was liberated. He defaulted, the appointment. The default led to an investigation at the high school, the boy being taken before Superintendent Hal G. Blue and Mr. Ault. He stubbornly, it is said, declined to answer questions, and continued in the contumacious attitude when taken before Judge Duvall. This led to incarceration. Parents have been advised of the case. A package of cigars taken from the lad is held as evidence. He refused to tell where he got the cigars.
