RAILROAD WAGE AGAIN REFERRED TO WHITE HOUSE

Labor Party Expresses Disappointment at Situation Resulting in Deadlock and the Withdrawal of Its Members
DISPUTES CLAIMS FOR PUBLIC PARTICIPATION
Union Officials Reiterate Purpose to Give Transportation Act Fair Trial while Disagreeing with It

WASHINGTON, (AP)—The whole railroad wage controversy was placed before President Wilson today for the third time since railroad labor filed demands for general increases in wages last summer.

In a letter to the president, B. M. Jewell, chairman of the railway committee, which consists of the labor party on the railroad wage board, said he regretted very much "to advise you of your failure to obtain any beneficial results from these conferences."

Expresses Disappointment.
The employees, Mr. Jewell said, were keenly disappointed at the position taken by the railway congress committee which announced last night a deadlock and the withdrawal of the railroad members from the conference.

Mr. Jewell did not ask the president to lay the wage controversy before the railway labor board, which is to be nominated by the president as provided in the transportation act and on which the public will have representation.

Attached to Mr. Jewell's letter was correspondence setting forth the attitude of the men and the executive committee. E. T. Whittier, for the railway executives, writes that the executive did not ask the president to contemplate a settlement involving so great an addition to transportation costs without the public being represented in the conference.

Disputes Manager's Position.
Replying to this letter, Mr. Jewell said he believed the reason given by the managers for terminating the negotiations was not in accord with our understanding of the law.

"The attitude of your committee in failing to carry out the wishes of the president of the United States is a surprise to us," Mr. Jewell wrote to Mr. Whittier.

"We understand from this that your committee has no right to assume the responsibility and perform the duty which is so clearly desired in the public interest, and which the transportation act has clearly contemplated: That of agreeing in conference upon rates of pay for railroad employees which are just and reasonable."

Railroad Becomes Restive.
Union officials reiterated that, at the request of the president, they were going along with the railway management not a fair trial, although they did not endorse its provisions.

"The whole matter was made more difficult since the union membership was becoming restive.

Closed Mouth Good Rule Generally Says Georges Clemenceau

CAIRO, Egypt, (AP)—Georges Clemenceau, former prime minister of France, railing strength and vigor as a result of his vacation in Egypt and the Sudan, tells of hugging a crocodile on the upper Nile as one of the proudest achievements of his four score of years.

"They call me 'The Tiger' in France," he said, "I believe this is the first time that a tiger has killed a crocodile."

The great reptile basking in the warm sunshine, opened its enormously wide mouth, Clemenceau approached. A bullet struck the crocodile inside its mouth, killing it.

"I have always held, said Mr. Clemenceau dryly, "that reptiles as well as human beings should keep their mouth shut."

REPUBLICANS TO PICK DELEGATES IN MASS MEET

Twin Falls County Committee Invites Participation of All Parties Affiliated with Party in Selection

Republicans of Twin Falls county, assembling with the county committee recently called a mass meeting for Tuesday afternoon next in the Twin Falls hotel, will select delegates to represent the county in the state convention to be held at Boise, Idaho, April 25, to name Idaho delegates to the national convention in Chicago.

Executives of the county committee recently called a mass meeting of committeemen on that date in determining the method by which delegates to the Couer d'Alene convention should be selected. A majority of the committeemen already have expressed preference for election of delegates at a mass meeting in which every republican in the county would be invited to participate.

Use here of the method also is advised by John Thomas, chairman of the state committee, who states that it is the wish of the committee that republican committees in most Idaho counties. The state committee at a meeting in February authorized selection of delegates to the state convention by the county committees, acting independently, by convention or by mass meeting.

Announcing the decision of the Twin Falls county committee to elect delegates at a mass meeting Chairman Shad L. Hoaglin, president of the county committee, said it was the earnest wish of the committee to have the fullest possible representation of republicans of the county, and particularly from the country districts, should take part in this meeting.

House Immigration Committee Takes Up Investigation of Delay in Handling Cases of Alien Reds

WASHINGTON, (AP)—Acting Secretary Post denied today that the house immigration committee had taken possession of evidence in the case of a number of aliens recently ordered deported and subsequently released, as announced yesterday by Chairman Johnson of the house committee.

Mr. Post said that without making any previous request the committee, accompanied by the house sergeant-at-large, appeared at the department yesterday and asked to see the evidence. He told them, he said, that the department would co-operate with them in their examination of the documents relating to aliens. The secretary added that to remove from the department of labor any files relative to deportation matters.

Chairman Johnson has announced that the department of labor will convince the committee that the I. W. W. are allied with the communists and that they should be deported. HARBOR STRIKE MENACES CITY'S FOOD SUPPLIES

Eight Per Cent of Railroad-Owned Tugs and Lighters Serving New York Consumers Tied-up by Walk-out

NEW YORK, (AP)—All but 20 per cent of the railroad-owned tugs and steam lighters which railroad representatives assert bring to New York 90 per cent of its food supplies are held up by a walk-out of the men working the strike, J. J. Mantel, railroad managers representative, announced today.

The railroad-owned ferries on the Hudson river, the crews of which also have called out, are apparently not seriously affected. Mr. Mantel stating that all but one line are running on regular schedule. Reduced travel today due to the Good Friday holiday, has enabled the railroads to use ferries in the transportation of food and milk.

The strike was called, union men assert, to maintain the eight-hour day which they declare, was threatened by the reported transfer of railroad floating equipment to municipal ownership. The railroad managers claim the strike was called in support of striking coastwise longshoremen who walked out several weeks ago.

Mantel said later the strikers on all railroad boats totaled 1,000. The union claimed 6,000 were out.

BRITISH STORES AMALGAMATING

Tendency Toward Concentration in Commercial Enterprises New Development

WASHINGTON, (AP)—Amalgamation of department stores in England is noted in official trade reports received here as the latest development of a tendency toward consolidation in each branch of England's national industries. Big stores, especially those in the more important cities, are combining through purchase or consolidation and already it has become apparent to some observers that "the business world will be concentrated in the control of a few big interests."

The American chamber of commerce in London reports that one of the largest department stores in that city recently absorbed three competitors and has branched out in South America through the opening of a large establishment in Buenos Aires.

"The value of advertising as a selling force is becoming more realized in England," the report said. "This movement toward amalgamation is not expected to destroy competition, though it may tend to narrow its scope."

CHARGES INDIFFERENCE IN DEPARTMENT POLICY

Secretary of Navy Deaf to the Pleas of Preparedness, Fullam Testifies

WASHINGTON, (AP)—Because of the navy department's policy of "indifference," no effort was made to bring the navy to a state of preparedness before the war, Rear Admiral Fullam, former commander of the Pacific reserve fleet, declared Thursday before the senate naval investigating committee.

The admiral said that in 1915 when he went to the Pacific coast to take command of the reserve fleet the ships had so small complements that they could not be moved from the docks. The navy was "fatally short of men," he said, "but the department failed to advocate sufficient personnel increases and was totally indifferent to the possibility of a state of war being forced upon it."

The only persons in the navy department who would listen, to his pleas for more men and material preparedness were the assistant secretary and members of the general board, the officer declared.

Admiral Fullam said he addressed letters commenting on defects in the navy to Assistant Secretary Roosevelt because he thought Secretary Daniels was not interested. He added that Admiral Benson, chief of operations, was powerless to overcome the "inertia" of the department.

When Admiral Fullam concluded, the committee adjourned until Monday when Admiral Hugh Rodman, commander in chief of the Pacific fleet, probably will appear.

FREIGHT LOOTING GOES UNCHECKED

Well Organized and Armed Robbers Fly Activities Throughout Austria

VIENNA, (AP)—Looting of freight trains, particularly of foodstuffs and wearing apparel, goes on unchecked throughout Austria. Unless checked, it is said, a shipment stands little chance of coming through intact. The robbers seem well organized and armed and often so numerous as to resist arrest.

Gift cargoes from other European states seem the favorite plunder and, according to report, much of the stolen goods has been found for sale in the open market.

A large shipment of this character from Sweden arrived this week and when the well arranged food parcels, containing flour, fats and other staples, were opened, it was found that a portion of the fat and flour had been skillfully removed from each package and a sack of Austrian salt substituted to make up the requisite weight.

HOUSE TO GET RESOLUTION TO DECLARE PEACE

Republican Leaders Discuss Provisions of Bill to Assert End of War Including Emergency Acts Repeal

WASHINGTON, (AP)—The republican leaders' resolution declaring the state of war between the United States and Germany at an end was reported Thursday by the house foreign affairs committee by a strict party vote, 12 to 6.

The resolution will be taken in the house Monday, and democratic members of the committee said the fight against it would be continued there.

As reported by the committee the resolution was in virtually the form it was when introduced Wednesday after a conference between republican leaders and members of the foreign affairs committee.

Repeals War Time Acts.

Republican leaders said the most important war time acts and powers which would be repealed automatically with passage of the resolution included: War time prohibition; Lever food and fuel control law with provisions against profiteering; espionage act; selective service law; authorization for loans of ten billion dollars to allies; complete control over all shipping; authorization for president to use armed forces to prevent interference with interstate or foreign commerce; licensing the use of explosives; authorization of a system of priority shipments; authorization of an employment service in labor department; control over patents; war housing act; a moratorium protecting civil rights of men while in the service; and authorization of an embargo on imports in the discretion of the president.

The trading with the enemy act would be continued until Germany agrees to provisions of the resolution. The emergency shipping act, the Overman act, giving the president power to distribute executive powers as he desires, and the act creating the war finance corporation and the capital issues committee expire six months after a declaration of peace.

CLASSICAL PROGRAM FOR EPISCOPALIANS

Easter Music for Morning Service of Especially Inspiring Nature Prepared

A musical festival of unusual breadth and merit has been prepared by the choir of Ascension Episcopal church for Easter Sunday morning. Besides the regular processional, chant and canticles and festival hymns there will be selections of an extraordinary character sprinkled throughout the entire period of morning prayer. The especially elaborate program has been prepared to fill the void caused by the lack of a rector.

Four anthems, all of a superior type, will be sung during the morning service. These include Dudley Buck's festival Te Deum in B minor, a composition rated with the greatest of this great composer's musical achievements. Donnan's "Unfold," a magnificently stately number, will be sung on the traitor anthem, while at the conclusion of the first part of morning prayer the choir will sing an inspiring marching anthem, "Christ Is Risen," by Pratt. Buck's Jubilate will be sung at the opening of the service and Handel's Hallelujah chorus will bring the service to a close.

As the offertory number Mrs. M. E. Tucker will sing, "I Know That My Redeemer Liveth." The service, in the main, will be chanted, and a special intoned setting of the Nicene creed will be used. The benediction will be followed by an unusually impressive sevenfold Amen. All the hymns will be especially appropriate to the Easter occasion. Soloists will be Mrs. M. E. Tucker, Miss Emma Smith, D. A. Salmon, Einar Olden and Nelson Haysward.

TAKES UP NEGOTIATION OF HARD COAL CONTRACT

United Mine Workers Executive Turns Attention to Anthracite Wage Scale

NEW YORK, (AP)—The new wage agreement of the bituminous mine workers disposed of, John L. Lewis, international president of the United Mine Workers, Thursday turned his attention to the negotiation of a new contract for the anthracite miners. He declared that steps would be taken to bring about a "satisfactory" adjustment in the hard coal industry, without further delay.

More than 400,000 mine workers will receive the 27 per cent wage increase in the new contract signed Wednesday which went into effect Thursday and continues two years.

T. L. Lewis, secretary of the New River Coal association of West Virginia, said despite the new wage agreement there would be little increase in production until operators were assured an "adequate car supply."

STATE HEALTH OFFICER ALARMED OVER RABIES

Dr. E. E. Laubaugh Issues Instructions to People on Typhophobia Treatment

Steady increase of rabies in the state, spread from coyotes to dogs and farm animals, and in many instances transmitted to human beings, has caused Dr. E. E. Laubaugh, head of the state bureau of public health service, to issue the following instructions to residents of this state:

Do not kill the animal that bites you unless it is impossible to imprison him.

Do not shoot the animal through the head.

Do not become hysterical if bitten or scratched by a suspected animal. Several weeks are required for the disease to develop.

It is not necessary to come to Boise for pasteur treatment. Your physician can obtain and administer the virus.

Do not use the milk of a cow suspected of rabies. Wait to see if the disease develops.

The spread of rabies is reflected in the number of heads of animals sent to the state laboratory for examination.

tion for rabies. Since October 1, 1919, there have been 45 specimens examined. It was found that 50 of the animals actually had rabies while 25 were false alarms. But 10 of the rabid animals were killed in the month of March, as many in one month as were in four months previous. This caused the state officials to take notice of the situation.

REJECT SOVIET TERMS

Return to Consider Proposal for Opening Peace Negotiations in Estonia

WASHINGTON, (AP)—Poland has rejected proposals of the Russian soviet government to conduct peace negotiations in Estonia and to declare an armistice while the negotiations are in progress, according to official advice today to the Polish legation.

The Polish government, the official stated, has taken the position that negotiations could not be conducted in Estonia without outside pressure. Objection also has been made by Poland to negotiations on the ground that Estonia negotiated a treaty with the Russian soviet and violated the terms of its treaty with Poland.

Rejection of the bolshevik proposal for an armistice is considered by Polish officials here as indicating that the Polish general staff is confident of its ability to withstand the Russian attacks.

RE-DEDICATION OF CHURCH ON SUNDAY

Special Services Will Be Held Commemorating Opening of New Brethren Edifice

On Easter Sunday services for the dedication of the reconstructed Brethren church at the corner of Third avenue north and Fourth street, will be conducted. In less than a month the church building has undergone many changes, including remodeling and the addition of a greater operating area. The structure has been modernized in all details and is now one of the handsome houses of worship in this city.

The following history of the Church of the Brethren in Twin Falls has been contributed by one of the staunch supporters of that denomination.

The first services by the Church of the Brethren in Twin Falls were conducted by Elder J. W. E. Stivers on January 11, 1906. In all there were five sermons. There were living on the entire Twin Falls district at this time only five members, J. E. Steinhilber and wife, J. E. Steinhilber and wife, Mrs. Moon. Others followed shortly afterwards.

In order the better to care for and to place it on a firm working basis the mission board held the house of worship donated by the city for this purpose late in 1906. During the intervening time services were held at the Methodist church. Elder L. E. Keltner was the first pastor located by the mission board.

On February 3, 1907, the members, then nine in number, were organized into a working body by Elders J. W. E. Stivers and L. E. Keltner, the latter being placed in charge. In April, 1907, J. E. Steiner was elected to the ministry and H. A. Swab was elected deacon. Others followed by immigration until the membership numbered 23. Among those who came were O. A. Swab, the Rev. S. S. Neher, E. N. Flory, Elder C. F. Fahney, the Rev. Fred Flory, J. S. Flory and John Wolfe each with their families.

Added workers placed the work on a much stronger footing. For this reason Elder Keltner was removed from the mission board to Boise and Elder C. Fahney was placed in charge. The church continued to grow and by 1913 the membership numbered 97. Among those moving in were A. M. Flory and wife, who are at present the oldest members of the congregation. In the meantime the church property was purchased by the local church from this mission board.

The church was not satisfied to plan only for the present. There were in the membership three spiritual young men qualified for the ministry. They were called by local church in this office. They realized the need of further preparation so they enrolled for work in Bethany Bible school in Chicago. At present three men each have a pastorate; the Rev. B. D. Karlin is in Indiana, the Rev. J. S. Flory is in Patavia, Ill., and the Rev. H. E. Fawcett is at Weiser, Idaho, the Rev. S. S. Neher is at present at Kingsley, Iowa and the Rev. Fred Flory is at Moscow, Idaho. After these men all were located outside the services of Elder Charles W. Hoak was secured for the pastorate here. He took charge the first of the present year.

During the latter part of 1919, in an evangelistic meeting conducted by the Rev. Long of Weiser, 19 were added to the church by baptism. Several have moved away leaving the membership now numbering 103.

The work at present looks very encouraging. During the early months of

Mrs. Charles H. Robbins entertained the Thursday Luncheon club yesterday. A color scheme of yellow and green was used. Ostrander, Mrs. E. L. Larned, Mrs. M. J. Sweeley, Mrs. Wilbur Hill, Mrs. L. Cloe, Miss Jane Maxwell and Mrs. E. M. Sweeley of Boise.

The Presbyterian Aid met at the home of Mrs. G. E. Rexroat yesterday afternoon. After a short business session an interesting program was given with Mrs. A. K. Seaver in charge. The reading time started with green C. Mitchell, Mrs. G. M. Simpson, Mrs. Spielberg and Mrs. J. C. Deuchamp—served delicious refreshments to the 36 ladies in attendance.

Mrs. William Scott entertained at a quilting party Wednesday afternoon at her home on Third avenue north. The guest list included Mesdames Bert Magel, W. O. Smith, Charles Jones, M. Simpson, Roy Scott, Oliver Harstad and Arthur Scott of Hansen. Dainty refreshments were served.

GAINING WHOSE ENDS?

Evidence of the disposition of the po-
litical organization built up by and for
A. C. Townley to be "all things to all
men" is to be found in Minnesota
where the so-called Non-partisan league
has nominated an attorney for the In-
dustrial Workers of the World as its
candidate for justice of the state su-
preme court.

Of course, the nomination is frankly
a sop to the political labor vote of the
Twin Cities, but, coming, as it does, on
the part of an organization purported to
represent the farmers essentially, it
would be difficult to imagine a more
brazen sell-out of the farmer's inter-
ests.

At the same time the choice of such
a candidate is scarcely more amazing
than other developments in the activi-
ties of the organization in Minnesota.
Efforts are being made to unite the
most radical labor elements with the
farmers.

That means a combination of the ad-

vocates of the six-hour day with the
farmer who works fourteen.

It means a combination of the men
who want public ownership of land
with the land owners of the state.

It means a combination of socialists
with the small capitalists of the state.

If such widely separated factions can
work well in double harness, then the
farmers can be expected to vote for an
I. W. W. attorney for justice of the
supreme court.

MAYBE CONVINCING

It is barely possible that popular
ownership of communication systems
may some day be revived in this coun-
try to an extent where the subject may
regain its place in student forums, in
which event it is probable that refer-
ence may be made to the experience of
foreign nations in this field. In this
connection the existing state of affairs
in Vienna ought not to be disregarded,
and a superficial glance at the situa-
tion as revealed in the following press
dispatch ought to prove quite convinc-
ing one way or another.

American who may sometimes be
dissatisfied with the telephone, tele-
graph or postal service in America
should come here if they want to see a
really disorganized means of communi-
cation.

So demoralized is the telephone ser-
vice of Vienna that a great mass meet-
ing of business men has been held and
has demanded that this service be tak-
en from the government bureaucracy
and turned over to private control.

It is almost impossible to get central
and, once secured, the line is usually
cut after less than one minute's conver-
sation. The telephone employees claim
they are overworked, undernourished
and the whole equipment run down. The
minister of communications admitted to
the mass meeting that the telephone
and post and telegraph systems gener-
ally had failed and that the post office
had paid more than 15,000,000 crowns
last year for stolen packages. Armed
guards are now placed on all mail
transport.

The worst factor in the situation is

declared to be inability of officials to
enforce discipline under the present
government where various councils of
workmen and soldiers operate to make
the employees lax and independent.

One man who attempted to telephone
from a postal sub-station was told by
the attendant, the other day, to "go to
a public automatic station and don't
worry me."

RECIPE TO CLEAR A PIMPLY SKIN

Pimples are Impurities Seeking An Outlet Through Skin Pores

Pimples, sores and boils usually result from toxins, poisons and impurities which are generated in the bowels and then absorbed into the blood through the very ducts which should absorb only nourishment to sustain the body.
It is the function of the kidneys to filter impurities from the blood and cast them out in the form of urine, but in many instances the bowels create more toxins and impurities than the kidneys can eliminate, then the blood uses the skin pores as the next best means of getting rid of these impurities which often break out all over the skin in the form of pimples.

Rather like that thought, don't you?

Cracked Poet Memorizes the Keelbreast

Alas, the world is glad and gay
When Edwin comes to town,

Robin in his best of red
And squire (bedraggled) suit of

"Cheer up, cheer up." "Just hear
him (poor fish).
Far down that leafy lane,
And down that leafy lane,

A crimson-breasted (rusty they

blowing through his feathers
in the rain (albeit,
snow and snot).
Never a whole note, (how do

Nature's (philosopher) be a hard-
boiled singin' avian,
In his rusty old brown coat,

The weather-o'-it is constrained to pen an epic on the aloofness of spring, but what's the use? Or we might indie an horrid story addressed to weather prophet on the satirical guinness of climatic circumstances obtaining heretofore.
