## EXPORT FREIGHT EMBARGO HARBOR STRIKE RESULT

Railroads Traffic Control Management Suspends Issuance of Permits for Shipments Abroad Through New York

## DANGER OF SHORTAGE OF FOOD AND FUEL AVERTED

Union Officials Claim Misunderstanding of Orders and Assert Tie-up will Be Complete Before Nightfall

NEW YORK, (AP)—A general embargo on export freight through New York, brought about by the discontinuance of rail lines on account of the harbor strike. At the office of the traffic control manager of the railroads it was said that it was uncertain when the issuance of permits would be resumed.

### Traffic Still Curtailed

Traffic in New York harbor was still curtailed today by the strike of harbor employes, but the ferry lines, except those of the Erie and West Shore railroads, were operating on virtually normal schedules. Railroad officials claimed that all danger of interruption of the food and coal supplies had been averted.

Union officials asserted that the harbor would be tied up before nightfall unless an agreement was reached in orders yesterday had prevented all the workers from joining the strike.

### Recruits Emergency Workers

More than 50 per cent of railroad-owned tug and are being operated by non-union crews recruited from other cities, according to H. L. Joyce, chairman of the associated marine departments of the railroads. He added that additional recruits would be secured.

The walkout spread today to the ferry service of the Erie railroad company, which has been in operation for several hours. Emergency workers, however, were recruited and two boats were in operation.

## DEIVES PART IN REVOLUTION AIM

Former Provisional President of Mexico Says He is Unaware of Move

PARIS, (AP)—Francisco de La Barra, former provisional president of Mexico, today denied knowledge of the proclamation issued on Friday at Aguascalientes, Mexico, announcing the establishment of a new union government in that country.

When informed by the Associated Press that the proclamation was reported to have been signed by him, he said:

"If such a document exists, it is a forgery. I have the greatest esteem for Emilio Rebas (named in the proclamation as secretary of foreign relations to the new government), but am entirely unaware of any such movement as reported."

De La Barra is busily occupied in Paris as a counsel for British, American and French banks. He is an expert in international law.

## GIVES VIEWS ON RETURN OF PROPERTY TO GERMANS

Custodian Declares for Retention Until Security is Furnished

WASHINGTON, (AP)—Before turning back German property seized in this country, custodian should consider the country's security, a custodian said today. Answering Chairman Eash, Mr. Garvan said he did not believe a joint resolution declaring the war ended even if signed by the president would affect the situation respecting alien property.

## SENATE GETS REPORT OF INVESTIGATION OF ARMENIAN CONDITIONS

Wilson Accedes to Second Request and Transmits Statement of American Commission Headed by Major General Harbord, which Makes No Recommendations as to United States Accepting Mandate over Turkey and Armenia.

## HUMANITARIAN OPPORTUNITY OFFSET BY COST AND OTHER CONSIDERATIONS

WASHINGTON, (AP)—President Wilson transmitted to the senate today the report of the American commission headed by Major General Harbord, which investigated conditions in Armenia. The report had twice been asked for by the senate, first, last November and then under a resolution adopted several weeks ago.

The commission made no recommendations as to the United States assumption of the mandate over Armenia, but its report contained extensive arguments for and against such action.

No mandate should be taken, the commission said, without a general agreement with France and Great Britain and also "definite approval" of Germany and Russia. "The intention of the mission," stated, "was to take the mandate first, with Great Britain and France."

The principal arguments advanced in favor of the United States accepting a mandate were that the influence of the United States would tend to avert war and that the United States would give the United States an opportunity to do a great humanitarian work.

First Year Cost \$275,000,000. Reasons advanced against a mandate were that it "would weaken our position relative to the League of Nations," that "humanitarianism begins at home" and that the first year's cost would be \$275,000,000, including \$85,000,000 for the army and navy.

"Better millipias for a mandate than billions for war," said the recommendations favoring a mandate.

The United States should make a mandate for the region visited by this mission," said General Harbord, "it will undoubtedly do so from a strong sense of duty and from the unanimous desire, as expressed at least, of its colleagues in the league of nations."

Should Make Own Conditions. "Accepting this difficult task without previously securing the assurance of conditions would be fatal to success. The United States should make its own conditions certainly before and not after acceptance, for there are a multitude of interests that will conflict with what any American would consider a proper administration of the country."

In our opinion there should be specific pledges in the terms of formal agreements with France and England, and definite approval from Germany and Russia, before any American would consider a proper administration of the country.

World News Events

PARIS, (AP)—German ships seized by Brazil will be taken over by syndicate of French ship owners on payment of \$20,000,000, according to the Journal, which says the matter has been definitely settled.

NOGALES, Ariz. (AP)—Peace between the Yaquis and the Mexican federal forces is near according to trustworthy information received today from Hermosillo, Sonora.

BERLIN, (AP)—Germany during February exported to the United States commodities to the value of \$3,881,000. Her imports from the United States during the same period, comprising mostly foodstuffs with a small amount of raw material totalled \$13,000,000.

BUENOS AIRES, (AP)—Onaaves of the votes cast in the recent Argentine elections shows that out of 168 seats in the next congress, which will convene in May, radicals will hold at least 102. The count is completed with the exception of one province where only one seat is involved. Conservatives and democrats, who were allied in the campaign, will have 45 seats and the socialists 10.

## SEEK WORKING AGREEMENT

Representatives of Railway Trainmen Brotherhood and Operators Meet

CHICAGO, (AP)—Representatives of the Brotherhood of Railway Trainmen and officials of the Chicago, Rock Island and Pacific railroads met today to conclude a working agreement. Differences over which threatened a strike of trainmen employed by the road. Agreement on virtually all points was reached at a creative conference last night and a strike referendum taken by members of the brotherhood would be disregarded, it was announced.

Brotherhood officials said the company agreed to demands for revision of working rules upon which the referendum was conducted. It was reported.

## TAKES STEPS TO PREVENT EXCESS PRICE FOR COAL

Attorney General Instructs District Agents to Receive and Consider Complaints of Profiteering Under Lever Law

## HOLDS 20 CENTS A TON SUFFICIENT INCREASE

Takes Exception to Argument that Anticipated Heavier Export Demand Justifies Profits Boost

WASHINGTON, (AP)—Federal district attorneys were instructed today by Attorney General Palmer to receive and consider complaints of profiteering in bituminous coal, which may arise in your district under the Lever act.

Mr. Palmer's telegram was prepared after some bituminous coal operators have stated that the new wage scale agreed on by the miners in the award by the coal strike settlement commission would result in an increase of from 50 cents to \$1.25 a ton on coal.

Pointing out that the total increase in wages had been estimated at approximately \$200,000,000 a year, Mr. Palmer said that if this entire amount were "added by the operators to the price, it would only make an increase of 14 cents a ton."

"If the operators absorb the 14 cent per cent increase which became effective in December," said the attorney general, there will be left only \$96,000 to be added on to the consumer. In this event the increase in the price of coal at the mine should amount to 23 cents a ton."

Mr. Palmer said he understood operators had estimated the demand for export coal at 100,000 tons, but that port facilities are only adequate for the export of 30,000 tons per annum. This, he said, should not be taken as an excuse for raising the price.

## WOULD ENDORSE HUGE PROJECT

Idaho Governor Heads Committee Favoring Colorado River Reclamation

LOS ANGELES, Cal. (AP)—Dwight B. Clark of Elgin, Idaho, spoke at the morning session today of the League of the Southwest on federal control of public ranges. The convention will adjourn today after the adoption of resolutions.

Frank J. Hagenbach of Salt Lake City is on the program to speak on the livestock industry. William Jennings Bryan and Governor Simon Bamberger of Utah are to speak before the convention closes.

Among the reports to be presented will be the resolutions committee, headed by Governor D. W. Davis of Idaho, which has prepared a report that, if adopted, will put the eight district court today on record as favoring the Colorado river project, which would bring about the reclamation and irrigation of from three to six million acres in Colorado and Arizona with more than 2,000,000 horsepower of electrical energy.

## FALL OF NOVOROSSISK INCREASES DISORDERS

Georgian Government Takes Steps to Defend Borders and Ask Leave to Move Troops

BERNE, (AP)—Radical elements at Batumi have been showing great energy since the fall of Novorossisk and disorders are increasing daily, according to reports received by the League of Nations. The city of Batumi, which was pillaged in 1918, is leading armed bands recruited in Anatolia and is receiving munitions from the Bolsheviks.

The Georgian government has taken steps to defend its northern front and asked permission from the entente powers to place Georgian troops in Batumi as a strategic measure and to restore order.

## DEMPEY CASE POSTPONED

SAN FRANCISCO, (AP)—The case of Jack Dempsey, heavyweight champion of the world, and his manager, James J. Brannan, indicted by a federal grand jury in connection with Dempsey's alleged evasion of the selective draft, were called in the United States district court today and were adjourned two weeks, at which time it was announced the case would be set for trial. Neither Dempsey or Brannan appeared in court.

## MEXICAN RAILROAD RATE INCREASES GIVEN APPROVAL

EL PASO, Tex. (AP)—Permission has been granted the Mexican Northwest railroad by the Mexican federal government to increase its freight and passenger rates 20 per cent.

## GERMAN TROOPS LAUNCH DRIVE IN RUHR REGION

Insurgent Forces Retire Before General Advance of Military Into Troubled Industrial Area

GOBLENZ, (AP)—The Reichswehr captured Duisburg, Rhenish Prussia, and Eubort; the harbor for Duisburg, late this afternoon, after much street fighting, according to advices received this evening.

THE HAGUE, (AP)—The general advance of the German government troops along the entire front against the insurgent forces in the Ruhr and neighboring industrial regions which began at seven o'clock Friday morning, has been very successful, according to well informed Dutch sources. The troops forced the reds to retreat across the Tosterberg, and the government forces have already penetrated Hamborn, the advices state.

At the center of the front the government troops have taken Beckinghausen, 15 miles northwest of Essen, while the left wing is advancing from Hamm westward. Companies of the red army have been named after prominent Russian and other extremists, bearing such names as "Company Lenin," "Company Trotsky" and "Company Karl Liebknecht." The personnel, however, is mostly German.

## Troops Out of Hand Government Explains

LONDON, (AP)—A dispatch to the Daily Mail from Dusseldorf dated Friday night said:

"The government troops, disregarding the Munster arrangements of yesterday are advancing rapidly. They may have struck the red troops from Wesel southward and captured Hamborn. They are expected here tomorrow."

The red troops are handing in their arms all over the Ruhr district, according to agreement.

The Essen red council has telephoned Berlin concerning the advance of the troops. The government replied that the troops were out of hand.

Two coal mines are reported already to have been destroyed.

## Berlin Holds Troops Movement Inevitable

BERLIN, (AP)—The German government has announced in a communication to the press that it has resolved to dispatch troops to the Ruhr region as soon as the entente consents to such a move. The decision was reached after three hours' cabinet meeting on Friday.

The statement declared that this action was inevitable in view of the unworkable lawlessness in the regions about Essen, Dortmund, Duisburg and Muelheim, which, it is asserted, has now assumed such proportions that the local authorities and the police leaders admit that they no longer are able to protect the civilian population.

The chancellor said he had received urgent reports from Essen, where terroristic bands were looting food stores and supplies. The looting brigades, the chancellor said, had been disseminated in all parties, even the communists and the independent socialists, in the Ruhr district.

If the entente agreed to the entry of troops, the chancellor continued, they would act purely in a police capacity under the authority of Prussian Minister of the Interior Severing.

The red army's terms are reported to amount to a demand for the complete recognition of the soviet principle.

## Attach Condition to General Strike End

COPENHAGEN, (AP)—Decision to call off the general strike in the troubled industrial region was reached at a plenary session of the executive council of the district yesterday, according to a dispatch from Berlin.

The district yesterday, according to a dispatch from Berlin, the company fails to fulfill obligations entered into with the workers.

## Insurgents' Control Ceases Theoretically

DUSSELDORF, (AP)—Control by the insurgents ceased theoretically at noon Friday throughout the Ruhr district and the peace terms were ratified Thursday night at Essen. The day before the Ruhr district was under the authority of Prussian Minister of the Interior Severing.

The red army's terms are reported to amount to a demand for the complete recognition of the soviet principle.

## PACKERS WOULD OFFER STOCKYARDS TO PRODUCERS AS PURCHASERS FIRST

WASHINGTON, (AP)—Stockyards owned by the "big five" packers will be sold to the livestock producers if possible, the house agricultural committee was told today by M. W. Borders, counsel for Morris and company attorneys for the packers being arguments today which will conclude the committee hearings on proposed legislation for the regulation of the packing industry.

"We are going to give the producers a fair, square and first opportunity to get these yards," Mr. Borders said, "believing that it is to the best good of the industry since the yards must have new ownership under the decree obtained by the attorney general. They should be held by persons who will not be interested in running them solely for a profit."

## GERMANS AGAIN ASK PERMIT TO MOVE MILITARY

Von Mayer Informs Millerand of Unauthorized Advance of the Reichswehr Contingents; Premier Orders Withdrawal

PARIS, (AP)—Dr. von Mayer, German charge d'affaires, visited Premier Millerand again Friday and repeated his former request for authorization for the entry of German troops into the Ruhr district. He informed the premier that some contingents of the Reichswehr entered the neutral zone Thursday north of the line of Wesel-Dulmen. Dr. von Mayer explained this was done without authorization of the government, on the order of Commissioner Severing, and under the same misapprehension it had caused Chancellor Ducloux to believe the French government had authorized the occupation of the Ruhr district. The change of affairs added that the Berlin government had ordered the troops not to continue their march forward and said they would be maintained in the same place the way are if the French authorized it.

According to Dr. von Mayer the Reichswehr contingents comprise three battalions of troops, an engineer's battalion and some batteries.

Later Premier Millerand sent a note to the German charge d'affaires re-stating that he had taken the initiative in informing the French government of the situation and immediately ordered the troops not to advance further.

## Peace Outlook Brings Relief to Essen Folk

ESSEN, (AP)—The city was free from disorder Friday. The populace enjoyed the holiday by promenade on the boulevards. Everybody seemed relieved at the cessation of hostilities.

The red guards were gradually handing in their arms. Otto Bownepain, military commander of the reds, told the correspondent that the Reichswehr troops which had besieged West had gone southward to Dinslaken in the occupied zone. He added that he knew nothing of any other Reichswehr activity.

## STORM SWEEPS NEBRASKA

Snowfall with Low Temperatures Prevail over Extensive Area

LINCOLN, Neb., (AP)—A general snow storm with low temperatures prevailed in Nebraska today. Weather bureau reports said the storm area extended as far west as Salt Lake City and predicted the snow would continue in this state all day and possibly tomorrow. Fears were expressed in railroad circles that traffic may be hampered if the storm continues.

# PALMER GIVES HIS VIEWS IN PACKERS CASE

### Attorney General Justifies Procedure Adopted with Statement that Civil Action Wins Most for People

WASHINGTON, (AP)—Court proceedings against the "big five" Chicago packers were instituted because "it had come to the time for a showdown in the industry," Attorney General Palmer Friday told the house agriculture committee. The attorney general, appearing in connection with pending regulatory legislation reviewed what he called the long campaign against the industry in court and before public opinion.

"It seemed to me that the thing had come to a point where the packers were entitled to a clean bill of health," said Mr. Palmer, "or the public was entitled to a judgement against them."

"The constant decrees, finally agreed upon after the government had instituted suit," he said, was the result.

#### Meets All Just Complaints

"The divorce decree, Mr. Palmer said, "met every just complaint that had been made by consumers, producers or competitors, against the packers."

"It met then by a judgment, with means for enforcing it," the attorney general continued. "The managers and essential stockholders in the packing corporations can be convicted of contempt of court and imprisoned for any violation of its terms. This makes these five great packers, and nothing else. They are no longer a menace to the food tables of America with control of most substitutes and all other foods."

"I got more for people by the civil action than I ever could by proceeding against them as criminals. No business has ever benefited of the violation of the Sherman act in all its history."

#### Books Five Things

"I wanted to accomplish five things: First, to take the packers out of the stock business; second, to take the railroads which enter the stockyards, and out of the livestock or market publications and keep them out."

"I want, then, to be substituted in the ownership of the stockyards and terminal railroads for the packers."

"Mr. Palmer said the other things he desired to accomplish were to take the packers out of the public storage warehouse business, the retail business and all the unrelated lines of business."

"All those things I insisted upon and would not under any circumstances recede from," said he.

#### No Hint As to Future

Mr. Palmer said he had made no suggestion in the hearing as to what his position would be with respect to future legislation by congress or litigation by the government.

"My personal view," he said, "is that I would like to see this tried out. I believe this is a great, long forward step. I believe we have gotten things that have been fighting for years, apparently without hope of getting. I think it will do a great good. I do not promise it is going to mean immediate lowering of prices."

Committee members asked Mr. Palmer whether the recent supreme court decision in the steel corporation case would affect the decree.

"I'm thankful I got this decree signed up before that decision came down from the supreme court," Mr. Palmer said.

He told the committee he had no specific recommendations as to the strengthening of the Sherman anti-trust law.

"It does seem that we are not able to bring cases under it within the judgment of the supreme court, and I haven't quite the faith in the measure I once had."

This implied no criticism of the court, he explained.

## TURKS TO LEARN TERMS

### San Remo Meeting of Peace Conference Expected to Clear Situation

PARIS, (AP)—In French circles the expectation now is that the meeting of the supreme council of the peace conference in San Remo will be called for April 10 to 22. The Turkish peace delegates, it is understood, will be invited to present themselves toward the end of April to receive the peace terms.

It is not anticipated that the session will be long and it is thought that the Turks may be able to begin their examination of the terms of the treaty early in May.

The San Remo conference may have occasion to make the final decision on some questions regarding the Hungarian peace treaty.

# Is She the Next First Lady of the Land?

### Old Fashioned Wife, in Old Fashioned Home With Old Fashioned Furniture—That's Mrs. A. Mitchell Palmer.

### Wife of Fighting Quaker Believes in Votes for Women.

### Swarthmore College Romance Begun in School Days May Lead to White House.

The moment a man becomes a presidential possibility the first thing every woman in the country wants to know is whether he is married and what his wife is like.

An old fashioned wife in an old fashioned home surrounded by old fashioned furniture—that is a thumb nail picture of Roberts Dixon Palmer, who may become the first lady of the land.

Old fashioned she is, in that in a world of women seeking personal glory and furthering individual ambition, she believes that the greatest and most fascinating career is to be a wife and mother, and new fashioned she is in that she also believes in votes for women and a woman's right to make her own place in the world.

This combination might seem paradoxical were it not for the fact that Mrs. Palmer, like the Attorney General of the United States, A. Mitchell Palmer, himself, comes of old Quaker stock, and the Quakers, generations ago, maintained the freedom of women. It is the wife their wives tended the hearth fire with quite as much devotion and skill as other women.

#### Her Quaker Birthright

It is because of this Quaker birthright that Mrs. Palmer can be a suffragist, stand for all that is progressive in woman's affairs, and still be a devoted wife and mother. A Mitchell Palmer and the mother of charming, ten-year-old Mary Dixon Palmer, the most thrilling adventure in her life.

There need be no contradiction in Mrs. Palmer's opinion, between old ideas and new necessities.

Mrs. A. Mitchell Palmer, wife of the Attorney General of the United States, and ten-year-old daughter, Mary Dixon Palmer.

She is neither perplexed nor perturbed by the multiplicity of "movements."

"I cannot understand the point of view of the woman who thinks it sufficient to minister to the material side of her husband's needs," she said. "To me it is quite as essential to understand my husband's views and ideas, his work and his career, as it is to have his home well ordered and his meals properly cooked and served."

"Thought can neither be measured nor bound, and a woman's mind can be just as progressive while she is being a devoted wife and a good housekeeper as it could if she insisted on her right to bob her hair, and refused to cook except on a chafing dish."

"The ideal woman, as I vision her, must be always the woman with brain and hand active in good work."

Mrs. Palmer declares these things in the most matter-of-fact way, with quaint charm and comforting poise. "Surely," comes the thought as one hears her quiet truths, "here is a serenity and strength of spirit in you,

which other women may do something of the secret of her life."

Since they were married Mrs. Palmer's husband has gone from court stenographer to successful lawyer, Congressional leader, cabinet officer, and finally to a candidate for the presidency which is seriously recognized throughout the nation.

Their marriage might be called a Swarthmore romance. It was at that Quaker co-educational institution that they discovered each other. Mitchell Palmer was a senior when Roberts Dixon was a sophomore.

In those days, when young Palmer was glad to have a job as court stenographer, while his cousin Robert Dixon's fondest dreams included his being attorney general, let alone a presidential possibility.

From Plain Everyday Beginnings. And the Palmers are of that refreshing sort who remember that they came from plain, every-day beginnings. Mrs. Palmer has long been prominent in affairs at the National capital, but she does not forget the days when her husband was establishing his law practice in Swarthmore.

There are a great big lovely garden, two babies, two little boys who died in childhood, leaving little Mary Dixon Palmer to all the sorrow brought by their passing.

Mr. and Mrs. Palmer still live in their home the "thee" and "thou" of their youth, but despite her Quaker derivation and training, Mrs. Palmer, like most women, has one extravagance. It isn't hats, nor Japanese prints, nor anything that may be merely for money. It is flowers, flowers that bloom in every room of her home—and her garden.

"Flowers in pots and vases, lovely as they are," says Mrs. Palmer, "are only substitutes. My real joy is in a garden, a great big lovely garden."

#### An Old-Fashioned Garden.

There are 84 varieties of old-fashioned flowers in the old-fashioned Quaker garden at Stroudsburg, Pa. It is just such a garden, this that the crown-prince Quaker girl loves and tends, as was loved and tended in the long ago by gray-clad, bonneted Quaker maids who did not worry about life's problems because they were solved for them by a beautiful and sufficient philosophy.

There are hollyhocks, and verbena, and pansies and four-locks and live-forever and dahlias and forget-me-nots and moss-roses, and—but if you're ever in Stroudsburg in summer, go and see that garden. Mr. Palmer will be glad to show you.

## NOW DAILY MAKING 600 OVERLAND 4'S

The Willys-Overland company continues its remarkable progress in building Overland 4's, the sensational light car which has introduced a new standard of easy riding comfort in its exclusive feature of the three-point suspension springs.

Word comes from Toledo that the production of Overland 4's has now reached 600 cars a day. The various factory departments are now engaged in a spirited race to accomplish their part of the operations, so that production may reach 600 Overland 4's a day before the first sighting.

Getting production up to 600 a day on this new type of motor car has attracted national attention as an instance of loyalty and intelligent cooperation on the part of a great working force of 12,500 employees.

This record is further interesting in view of the fact that there are now 12,500 workers in Toledo. The citizens at last voted in favor of an outer ordinance. The railway company took the city at its word and sent the street cars into the state of Michigan. Despite this condition, the Willys-Overland factory has had an attendance of 100 per cent from its 3,500 workers since Toledo became a railway city.

"To get them back and forth from their homes each day, the Willys-Overland company organized a complete transportation system of trucks, autos, jitney busses, and other conveyances. But at that, it means long walks and long waits in the hundreds of thousands of the Overland workers. But they get to work every day.

There is so much interest and enthusiasm among the citizens in the Toledo factory over Overland 4's that the company has taken steps to provide a demonstration of the new car's unexcelled easy riding qualities to every man and woman in its employ. The free-ride-for-all program is now being arranged. Nothing like this, it is said, has ever before been attempted by any automobile plant. It is explained that the Willys-Overland management in providing the demonstration is mainly actuated by a general request from the workers in the plant.

The sense of duty and the loyalty reflected in the daily attendance of more than 12,500 workers at the annual pride in the product they are making is a refreshing and encouraging sign during these days of somewhat general industrial unrest. Apparently they do things differently at the Willys-Overland.

## APPROVES REGULATIONS FOR OIL LANDS LEASING

### Secretary of Interior Takes Action Toward Release of Resources

WASHINGTON, (AP)—Rules and regulations governing prospecting for and leasing of coal deposits under the oil, coal and mineral land leasing bill, was approved yesterday by Secretary Payne, of the interior department. They provide for the disposition of all coal deposits owned by the United States, except in national parks, military or naval reservations, and in the Appalachian forest reserve.

Known coal deposits under the regulations are to be divided into leasing units of not exceeding 2,500 acres each, and one person or corporation may hold only one lease in a state. Leases for the units are to be offered for competitive bidding at a royalty fixed in advance, not less than five cents per ton, and awarded to the qualified person bidding the highest bonus.

The secretary of the interior is authorized to grant prospecting permits to qualified citizens to search for unknown coal deposits or to explore undeveloped lands where preliminary work is necessary to determine the existence or workability of the deposits. In such cases the person holding the permit who finds workable coal deposits, may have a lease at the royalty fixed by the interior department. The regulations, as approved do not apply to Alaskan coal deposits.

## OIL PRODUCTION SHOWS LOSS FROM FEBRUARY RECORD

OIL CITY, Pa., (AP)—According to the monthly review of activity in the oil fields of the country, made public here Friday by The Derrick, new production during March amounted to 288, 374 barrels, a loss of 35,894 from the February record. Wells completed, numbered 2,181 or 237 more than in the previous month. There were 432 dry holes and 138 gas producers, the review said. New work at the close of March showed 2,913 rigs and 7,451 wells drilling.

# BALKAN UNION HOLDS SAFETY OF OLD WORLD

Prominent Rumanian Expresses Hope for Formation of Alliance with America Taking Important Part in Foreign Affairs

BUCHAREST, (AP)—Safety for Europe lies in an alliance between Rumania, Poland, Czechoslovakia and Greece, in the opinion of Take Joneanu, who as an editor of a Rumanian newspaper has played a prominent role in the national life of Rumania for a quarter of a century. Talking with an Associated Press correspondent recently, he expressed the hope of seeing such an alliance realized, with America taking an important part in the works of Balkan countries.

## Germany Still Menace

"Unless America shows interest in Balkan commerce," he said, "it is possible we will again fall into the hands of Germany. It only because of the exchange situation, Rumania is determined to operate matters for herself but may not be able to do so. I am very sorry America has refused to occupy Constantinople and I am sure in a few years the people of the United States will realize their mistake and not do us the service of civilization and possible to their own commerce."

"As America will not take a mandate, another solution must be found. I advocate sending Rumanian troops to help the allies in the present scheme of neutralizing Constantinople and the Dardanelles as we have great interest in keeping open that outlet to the sea."

"I think Rumania will not act in accord with her neighbors in the interest of the rest of Europe. Rumania made great sacrifices in the war but the charges that she had disregarded the allies are untrue." On internal political strife must not be taken too seriously. We are democratic and are for freedom and against despotism and internationalism. Rumania is intrinsically wealthy, but we are poor because the Germans took our cattle by the million and our agricultural machinery.

## Idleness War's Aftermath

"One of the worst conditions confronting us is that the people will not work. During the last five years we have produced nothing, but have acquired a taste for higher standards of living. From an economic point of view it is not doing us any good. War means waste and also laziness. Soldiers in the trenches may be brave, but they come home idlers, over 25,000,000, 000 lbs., and the wonder is it is not more."

## FREIGHT RATE RAISE HELP TRUCK BUSINESS

It is said that the return of the railroads to private ownership will soon be marked by a further application to raise freight rates 20 per cent, and to increase passenger fares to six cents a mile.

The railroads have their applications practically drawn up and it is expected they will be filed with the interstate commission within 30 days after April 1, and will ask that new rates be made effective not later than September 1. They point to the fact that the government operating the roads was forced to run up a big deficit and they declare the individual corporation could not possibly shoulder such a burden.

If their request is granted and the higher freight rates are adopted it will be the biggest boost for motor truck transportation could possibly be hoped for, says Mr. E. N. Flory of the Idaho Auto and Supply company, local distributor of Indiana trucks in this territory. It will force thousands of shippers to adopt the motor truck for all short hauls.

E. N. Flory says that numerous Indiana trucks, in practically every section of the country, are already being utilized for short hauls on rural express lines, and on long hauls such as the Overland moving of household goods and various kinds of merchandise of nearly every description and kind are transported over distances of 150 to 300 miles.

Needs Human Sympathy. The Eldorado Times moves that a few kind words be strewn in the path of the man whose wife is squaring up a lot of social obligations by giving a series of parties.—Kansas City Star.

# AMERICANS BIGGEST USERS OF RAILROADS; SERVICE HERE FAR OUTSTRIPS EUROPE

The railroads of the United States in point of actual railway service lead the world. Americans buy more miles of service, and a greater amount of transportation is supplied and used in the United States than in any other country.

According to statistics prepared by the Bureau of Railway Economics, the ton miles per capita carried by United States railroads in 1913 were almost five times the ton miles per capita carried by Germany, which was second to the United States in this respect. The ton miles per capita carried by the United States railroads in 1913 were \$301. In Germany the ton miles per capita carried by the railroads were \$53 and in France \$47.

Since 1913 the increase in ton miles per capita carried by the railroads of the United States was more than the total carried by either of the two other countries in that year. In comparison with the total of 631 carried by the railroads in Germany and the total of 447 carried by the railroads in France the increase carried by the railroads in the United States since 1913 was 709 ton miles per capita.

The chart below shows the transportation supplied in the United States, Germany and France in 1918 and the increase in railroad service in the United States since 1913.

The increase alone since 1913 in ton miles per capita (freight tons carried one mile for every one in the population) on American railroads was more than the total of any of the next leading countries for 1913, the last year for which comparative data is available.

## RIGID SPECIFICATIONS IN MAKING A MAXWELL

"The Maxwell is a car built one thousandth of an inch fine," said E. S. Johnson, who recently visited the great plant at Detroit. The word "fine" has many meanings but applied to a car it may mean that the car looks fine or it may mean the car is built fine. The public usually makes up its mind about the former and hears little about the latter. It is no mere claim of the advertising department that the Maxwell is built to very fine limits. It is the actual standard specified by the engineering department by which all of the thousands of component parts of the car are judged before they are allowed to enter production.

The most expensive and modern machinery and the most scientific methods of production are not alone responsible for the accuracy attained in the manufacture of the Maxwell. The workmen and inspectors play an important part as they maintain a standard of their own which is not governed by micrometers or delicate gages. No part ever gets by them that they would not want in their own car. It is this spirit combined with the latest manufacturing facilities that makes it possible to maintain such a high standard.

Another factor in the production of the Maxwell which makes it possible for the company to control absolutely its own standards is the fact that practically all of the important parts of the cars are made in Maxwell factories. This is a big advantage over

most concerns who have to depend upon outside companies to produce the vital parts of their car.

Any reasonably-priced house or apartment may be rented—through an expensive classified advertising campaign. Test the matter. The "risk" involved is so small that few people would disagree by that name.

# INDIANA TRUCKS

## RESERVE CAPACITY

Do you know—that the 112% reserve capacity, which is built into every INDIANA Truck is like a reserve of physical strength—not to be overtaxed—but there when you need it?

Translated into dollars and cents it means surmounting unlooked for difficulties—pulling through unexpected and bad conditions.

It means carrying the whole load through in safety without strain—without loss of time or money to you. It means hauling loads over roads which ordinary trucks would not dare attempt.

That's why INDIANA Trucks are chosen for hard work.

INDIANA 1 1/2, 2, 2 1/2, 3 1/2 and 5 ton capacities.

## The Same Guaranteed Quality OilPull in a 12-20 Size

THIS is the smallest of the standardized line of Rumely OilPull tractors. It has all the well known features of the larger sizes that for over eleven years have established the Rumely tradition of quality, power, dependability and long life.

**Oil Burning**—Guaranteed to burn all grades of kerosene under all conditions and at all loads to its full rated brake horsepower.

**Oil Cooled**—No overheating—no freezing—proper temperature of motor under all conditions for successful kerosene burning.

**Two-Cylinder Motor**—Low speed, heavy-duty, horizontal, valve-in-head.

**Enclosed Transmission**—Cut steel case hardened driving gears—transmission completely enclosed and running in oil.

**Roller Bearings**—Hyatt heavy-duty, anti-friction roller bearings in transmission and rear axle.

**Two Speeds**—Two forward speeds of 2.1 and 3.25 miles per hour.

**Close Regulation**—Governor controlled—speed of engine automatically adjusted to every change in load.

**Perfect Lubrication**—Combined fresh oil force feed (Madison-Kipp) and splash system—ensures lubrication to all parts.

**Easy to Operate**—Ratchet hand starter—low platform—all levers within easy reach—short turning—short turning.

**Accessibility**—All working parts easy of access.

**All Around Usefulness**—Handles all power jobs—equally efficient in drawbar or belt.

**Large Capacity**—Pulls three 14-inch moldboard plows under ordinary conditions—will operate a 22-inch thresher fully equipped.

And this small size OilPull, the same as the three larger sizes, is backed by an ironclad written guarantee.

In addition to the 12-20, the OilPull is built in the following sizes—10-30, 20-40 and 30-60 H.P.

# BOLSHEVIK USE LITHOGRAPHS TO NURTURE HATE

### Employ Huge Propaganda Posters with Effect in Campaign Against America, England and France

THE HAGUE, (AP)—The bolsheviks are conducting a strong campaign against America, England and France by the skillful use of huge propaganda posters in Moscow, says G. Nijpola, correspondent of the official Russian hand-doubled who visited soviet Russia this winter. He found much to admire from an artistic standpoint in the designs of which he saw many in the railway stations.

"This poster campaign is certainly a very clever piece of work," he writes. "Both the designs and unlettered classes are struck by them, the first by the writing beneath, the second by the drawings themselves. The campaign was directed along three great lines: First to cultivate hatred, loathing and fear for such men as Kerebel and Kerebelian; second, to breed hatred of the entente, especially against the capitalistic triumvirate, France, England and America—nowever Italy; the Poles or Czechoslovaks—but always this triumvirate, pictured as the bourgeois parasitism upon the proletariat; and, third, to prevent desertion among the red soldiers.

## IRISH SECRETARY NAMED

Sir Hamar Greenwood Succeeds Ian MacPherson, Official Announcement

LONDON, (AP)—Sir Hamar Greenwood, under-secretary for home affairs, has been appointed chief secretary for Ireland according to the official announcement. Sir Hamar succeeds Ian MacPherson, who resigned.

Sir Hamar Greenwood, the new chief secretary for Ireland, was born in Canada in 1870 and received his education in that country. He served in the war from 1914 to 1918, and in the latter year becoming attached to the staff of Lord Derby, at that time the war minister.

Sir Hamar has represented the Sunderland constituency in the house of commons since 1910. In January 1919 he was appointed under-secretary for home affairs in Premier Lloyd George's cabinet. He was created a baronet in 1915.

## SHOE WORKERS DEMANDS CAUSE INDUSTRY TIE-UP

Employers Close Shops Rather Than Meet Wage Advances Claimed to Average 100 Per Cent

MARBLEHEAD, Mass. (AP)—Demanded turn shoe workers for increased wages will tie up the shoe industry here, according to announcements by manufacturers. The Parsons Shoe company closed its shops and the Herbert Humphrey and Sons company announced it would shut down tonight. The Union Shoe company has been closed for two days by a strike of the turn shoe operatives. About a thousand workers will be out.

The advances sought, managers said, averaged 100 per cent. Some of the workers now receive upwards of \$60 a week, according to the companies.

## BIRMINGHAM PLUMBERS DECLARE FOR LOCKOUT

Employers Take Drastic Action Against Union Men Demanding \$12 a Day Wage

BIRMINGHAM, Ala. (AP)—Twenty-four of the 33 plumbing establishments in Birmingham Friday declared a lockout against union plumbers, who are demanding a 12 per cent day with double pay for overtime, Sundays and holidays.

The eight shops which refused to join in the lockout have contracts which would not permit suspension of work. The journeymen claim \$10 a day, the rate under which they have been working, is not enough to meet the increased cost of living.

## PERU PLACES SANITATION PROGRAM IN GORGAS' HANDS

LIMA, Peru, (AP)—Major General William C. Gorgas, former surgeon general of the United States army, will start Thursday on his way to New York, Belgium and West Africa, after having accepted a five-year contract with the Peruvian government to direct an extensive sanitation program here. The retaining fee to be paid General Gorgas will be \$15,000 a year. General Gorgas will return to Peru next January.

## THE FORUM

### "DON'T SWEAR—SHOOT!"

Appos to the formation in Twin Falls of a "Leonard Wood club," one is reminded of the characterization of General Wood, written by Theodore Roosevelt and found in his book, "The Rough Rider," than which nothing could better portray the high estimate in which he was held by the writer. Says Mr. Roosevelt of Wood, who was the colonel of the regiment:

"I only met him after I entered the navy department, but we soon found that we had kindred tastes and kindred principles. He had served in General Miles' inconceivably harassing campaign against the Apache, which he had displayed such courage that he had won that most coveted of distinctions—the medal of honor: such extraordinary physical strength and endurance that he grew to be recognized as one of two or three white men who could stand fatigue and hardship as an Apache; and such judgment that he had the close of the campaign he was given though a surgeon, the actual command of more than one expedition against the bands of renegade Indians. Like so many of the gallant fighters with whom it was later my good fortune to serve, he combined in a very high degree, the qualities of entire manliness with entire uprightness and cleanliness of character. It was a pleasure to deal with a man of high ideals; who scorned everything mean and base, and who also possessed those robust and hardy qualities of body and mind, for the lack of which no merely negative virtues can ever atone. He was by nature a soldier of the highest type, and, like most natural soldiers, he was, of course, a man with a keen longing for adventure; and though an excellent doctor, what he really desired was the chance to lead men to some kind of hazard. To every possibility of such adventure he paid quick attention. For instance, he had a great desire to go with him on an expedition into the Klondike in mid-winter, at a time when it was thought that relief parties would have to be sent out here to help the starving miners."

In this same volume Roosevelt relates the following incident of the battle of Las Guasimas, Cuba:

"I had not seen Wood since the beginning of the skirmish, when he hurried forward. When the firing opened some of the men began to curse. 'Don't swear—shoot!' growled Wood, as he strode along the path leading his horse, and everyone laughed and became cool again. The Spanish outposts were very near our advance guard, and some minutes of the hot test kind of firing followed before they were driven back."

Writing of General Wood's work in Cuba, in the Outlook in 1909, Roosevelt said:

"A young man who is high of heart, clean of life, incapable of a mean or ungenerous action, and burning with the desire to honorably distinguish himself, needs only the opportunity to do good work for his country. This opportunity came to Wood with the outbreak of the Spanish war."

In 1902 Roosevelt wrote in the Harvard Graduate's Magazine:

"Leonard Wood four years ago went down to Cuba, has served there ever since, has rendered service to that country of the kind which if performed three thousand years ago would have made him a hero mixed up with a sun god in various ways; a man who devoted his whole life through these four years, who has thought of nothing else, did nothing else, save to try to bring up the standard of political and social life in that island, to teach the people after four centuries of misrule; and though an excellent doctor, what he really desired was the chance

fair play for all men on their merits as men."

## Census Bulletins

WASHINGTON, (AP)—Population statistics announced today by the census bureau included:

Wilkesbarre, Pa., 73,828, an increase of 6,723 or 10.0 per cent over 1910.  
Waterloo, Iowa, 36,230, increase 0,537 or 35.7 per cent.  
Murphyboro, Ill., 10,411, increase 2,620 or 33.1 per cent.  
Long Beach, N. J., 13,521, increase 223, or 1.7 per cent.

You can sell that lot or plot of ground—at a small advertising cost—through the classified.

## High School News

A regular meeting of the Blue Triangle club at the high school Wednesday night was presided over by Dorothy Irwin, president; Lillian Lind, vice president; Violet Holderman, secretary, and Lola McCracken, treasurer. These officers will be installed at the last club meeting of the year.

Thomas Irwin, a graduate of the local high school, has won a place on the debating team of Leland Stanford university, and will debate against Redlands university in the near future. The topic for discussion is compulsory arbitration for the settlement of labor disputes.

### SOUNDS REASONABLE

At Jackson, Tenn.—Boston Americans New York Nationals, no game, rain.

At Birmingham, Ala. (AP)—Philadelphia-Birmingham Southern association, no game, rain.

### Discovered the "Hamac."

Columbus is said to have first discovered the hammock as well as America. In Sag Salvador he found the natives sleeping in what they called "hamacs."

Reading the ads makes shopping both pleasant and profitable. Pleasant, because you know what to want and where to find it. Profitable, because you know what is "the right price."

### Traveling Teachers

Traveling teachers carry education to isolated children along the coast of Maine, remaining in each isolated district a brief time.

A woman will sometimes remark of an acquaintance—not in envy but in admiration—"How does she manage to always dress so well?" The habit of reading the ads is responsible for much of the good dressing we see.

## 80 ACRE RANCH

Lays as well as anything on the North Side Tract.

All in crop, wheat, oats and alfalfa.

Well located, 1 1/2 miles from leading station.

Price \$225 per acre, with half the crop to buyer.

"A mighty GOOD BUY—we will show it to you."

GOVERNMENT IN READINESS FOR IRISH TROUBLE

Takes No Chances of Possible Materialization of Rumored Sinn Fein Plot for Easter Revolution

LONDON, (AP)—Reports from many parts of Ireland indicate that the government is taking no chances of a possible materialization of the rumored Sinn Fein plot for an Easter revolution.

Flourate preparations are being made to handle any possible untoward situation. The British navy at sea with paper reports from Ireland declare that no Sinn Fein plot and that no uprising is expected.

Special patrols posted at airports to midway city. Belfast, (AP)—In addition to pre-arranged military activity in the vicinity of Londonderry today, all the roads about the town are being patrolled by the police.

Unusual activity also was displayed by authorities at Dundalk, midway between Belfast and Dublin, special patrols being posted at all approaches to the town.

Three more candidates open Chicago headquarters. Chicago, (AP)—Three more republican candidates for the presidency are planning to open headquarters and join the Wood and Lowden forces on "presidential road" in a downtown hotel.

Harding makes bid for endorsement in Montana. Helena, Mont. (AP)—The name of United States Senator Whirren G. Harding, as a candidate for the republican nomination for president, was filed today with the secretary of state to appear on the ballot at the presidential preference primary April 27.

Boroughs' anniversary. New York, (AP)—John Burroughs, dean of American nature writers, today varied the quiet routine of his life at Yonkers, N. Y., on the Hudson near Westpark, by inviting a number of friends to help him observe his 83rd birthday.

How about other skates? The first roller skate was patented in 1823.

ACME QUALITY HOUSE PAINT. Look at the eaves of your house, there around the rain spout—look at those shutters and window-sills. They should be protected at once by Acme Quality House Paint. It is cheaper to paint than to repair. Save the surface and you save all. Decay starts at the surface. So should protection. You insure your house against fire. What about decay? Take out a little paint insurance. Have your painter provide you with Acme Quality paint insurance. He can get it for you here. Consolidated Wagon & Machine Co. TWIN FALLS, IDAHO.

Bascher SUNDAY an especially tempting DINNER will be served at the Rogerson Cafe 5 to 8 o'clock Music by the Friedman Orchestra

Try== What a lot of grief results from not trying. Men have brilliant—great ideas. But they fail to try them and the world loses and so do they. But we are talking about another kind of try—the trying of the new ideas that more daring men make tryable. We fail here, quite as much as in the first case, to try. Thus, much grief and hardship continue to grip us because we never try the new thing. We cling to the old when the new is so much better. Family washings, for instance. Hundreds of women have never even tried the service of the modern American Laundry. Think of it! When thousands have forever abandoned home washings, hundreds have never even tried the service. They still go on in the old way. Where do you stand? If you have never tried laundry service, how do you know whether or not you will like it? Try our service now. If we can't please you—if we can't take a great big burden off your mind and hands every week, we certainly won't want you to come back. But try our service—just try it. That much is to your interest as well as ours. Twin Falls Steam Laundry PHONE 788 301 3RD AVE. E. Send it to the Laundry

**CENSUS SHOWS GENERAL POPULATION INCREASE**

**Toledo, Schenectady and Knoxville Lead Among Cities of Various Sizes**

WASHINGTON, (AP)—To date population of 253 of the approximately 14,000 incorporated cities, towns and villages in the country have been announced by the census bureau. Practically all show increases and some have more than doubled in size. Some of the larger cities, including Chicago and New Orleans, are being prepared for announcement, while New York's figures are almost all in.

Figures for only ten of the 50 cities of the group having 100,000 or more inhabitants in 1910 thus far have been made public. Of these Toledo showed the largest increase with 44.3 per cent. Of the 50 cities having 50,000 to 100,000 inhabitants in 1910, six have been announced. Schenectady, N. Y., leads the increase in this group with 21.8 per cent.

Population of 28 incorporated places of the 110 which in 1910 had from 25,000 to 50,000 inhabitants has been announced. Knoxville leads in this group with an increase of 11.1 per cent.

Scott Bluff, Neb., has the highest percentage of increase, 100.000 or more incorporated places thus announced with 295.9 per cent. Other increases over 200 per cent are: Eldorado, Kans., 251.4 per cent; Clearwater, 200.0; Alma, Mich., 173.6; Knoxville, Tenn., 114.1 and Oak Park, Ill., 103.8.

Manitowish, Mich., has shown the lowest decrease with 2.7 per cent. Other decreases are: Shelbyville, Ind., 7.7 per cent; Jeffersonville, Ind., 3.0 per cent.

**Census Bulletins**

WASHINGTON, (AP)—Population statistics announced today by the census bureau included:

Pottsville, Penn., 21,725, an increase of 14.8 per cent over 1910.

Logansport, Ind., 21,624, increase 2,976, or 13.5 per cent.

Connersville, Ind., 9,901, increase 2,183, or 23.0 per cent.

Lorain, O., 37,295, increase 8,412, or 29.1 per cent.

Waukegan, Ill., 10,100, increase 3,100, or 30.5 per cent.

Pekin, Ill., 12,200, increase 2,189, or 22.1 per cent.

Milville, N. J., 14,081, increase 2,840, or 18.0 per cent.

**GERMAN TROOPS**

(Continued from Page One)

ing Good Friday, religious ceremonies were strictly observed. The turning over of their duties to the police in the various cities is expected to be a gradual process.

The general strike was called off Friday morning and resumption of work was to take place Saturday. Street cars, however, were operating in most places Friday.

The workmen's leaders were satisfied that there will be no great difficulty in executing the terms of agreement, virtually all arms in Düsseldorf being already deposited in the barracks and other buildings. Some of the red guards were marching in a happy frame of mind to their quarters to get orders for their service pay. This money will be taken from a joint fund contributed by the workmen, the local authorities and the government.

The central committee apparently believed the reports which have been current that Heisterwehr troops are advancing into the district, as it is announced workmen are again standing ready to demand the mines and the Krupp and other plants, as they have threatened to do. The moderates were confident that cooler council will prevail and expressed the belief that the stories are based on some misunderstanding which the alarmists are constructing as an invasion.

**OREGON FACES DRY SEASON**

SALEM, Ore., (AP)—Oregon irrigators are threatened with the driest season on record, according to Percy A. Cupper, state engineer. Cupper has asked water users to cooperate in the equitable distribution of the depleted supply of water.

You can sell that lot or plot of ground—at a small advertising cost—through the classified.

A dressing sacque to match and of same material for \$1.75

**HOOVER APPRECIATIVE OF TEAM WORK'S VALUE**

Asks Cession of Suggestions that His Name Be Placed Before Any by Republican Party

NEW YORK, (AP)—Herbert Hoover, who has announced he is ready to accept the republican nomination if it is demanded of him, today issued a statement in which he requested he be not further embarrassed by suggestions of some independent that his name be placed before any other party as "a primary sense of team work in any party organization would preclude such a possibility."

Mr. Hoover said in his statement he had no great record of partisan activity and "admitted" that his political activity was confined to membership in a republican club and allegiance to the party over a period of years. He added that because of his profession of a mining engineer, continual shift of residence had prevented him from exercising as much as he desired the privilege of every citizen at the polls.

Assuming that his administrative duties in various relief organizations would prevent him from making a personal canvass for the nomination, Mr. Hoover said he expected Hoover organizations throughout the country would confine themselves to minor subscriptions and would be prepared to open their books to public inspection.

Mr. Hoover requested that men and women of his nomination "bear in mind that personal criticism of the other names before the party is chiefly of service to the opposition."

"All these men," he said, "are patriotic, honorable Americans. They have all served the country well and are entitled to respect."

**AT POCATELLO, TOO.**

POCATELLO, (Special)—Taking the negative Twin Falls debaters won over Pocatello in forensic argument last night. The visiting team won three decisions and proved superior in debating questions as well as in the arguments presented. In delivery and general effectiveness the Twin Falls debaters far outclassed the local opposition. The judges were: Isaac McLaughlin, H. W. Lockhart and G. N. Hoff, all of Pocatello.

At Boise the debate resulted in a unanimous decision for Boise against the Pocatello negative team.

**Local Brevities**

**Daughter Is Born**—Mr. and Mrs. James A. Sinclair are the parents of a daughter born Friday, April 2.

**Home from Coast**—Mrs. T. J. Woods and daughter returned yesterday from an extended visit in Los Angeles and San Francisco, Cal.

**Dance Invitations Issued**—Twin Falls Knights of Columbus have issued invitations to a dance to be held in Coughlin hall on the night of Monday, April 5.

**Church Meetings Postponed**—Plans for holding a series of interchurch meetings in Twin Falls April 8 and 9 have been abandoned on account of conflict with the legion convention, holding here next week. The church conferences will be held one week later.

**Boys May Be Arraigned**—If Judge W. A. Babcock convicts this afternoon Ted Pittenger and C. R. Patton, 20 years who have been accused of forgery and passing worthless checks, will be arraigned. The boys have been in care of the county sheriff about ten days.

**Former Policeman Accused**—In a complaint prepared today by Prosecuting Attorney Frank L. Stephan John Harms, formerly a policeman on the Twin Falls force, is accused of failure to provide for his family. Harms is said to be engaged in trapping, but is also said to have provided no support for his wife and two children.

**Easter Breakfast**—The young people of the Epworth league will start Easter with a breakfast in the basement of the Methodist church at 9:00 a. m. This is an annual event. After an hour around the breakfast table Ensign John Nation of the Salvation Army post will lead the devotional meeting. Special music has been prepared.

**Non-support is Alleged**—In the prostrate court this morning Frank L. Stephan filed an action charging D. J. Potter with failure to provide for his wife and children. Complaint was lodged by Mrs. Susie Potter, who alleges she has received no aid from her husband for some time and has been compelled to work in order to support their two

children, Lora and Derral. Potter is said to be residing in Zettle.

**Dr. Pike Returns**—Dr. and Mrs. W. C. Pike, with their son, with Mrs. C. C. Knolly, have returned from Hawaii, where they spent two months visiting the islands. Most of the chief points of interest were visited. Kilisea, the "pit of fire," was seen and trips were made through forests of ferns 30 feet high. Heavy equinoctial storms encountered on the homeward trip.

**COURT ACTION POSTPONES MEXICAN RAILROAD STRIKE**

NOGALES, Ariz., (AP)—The threatened strike of trainmen on the Southern Pacific of Mexico railroad has been deferred 75 hours through an injunction granted by the federal courts at Mexico City, it was announced here today. The strike was called for today.

**Portugal Ratifies Versailles Treaty**

LISBON, Portugal, (AP)—The senate and chamber of deputies Thursday ratified the treaty of Versailles.

**Macauley's Love of Books.**

If anybody would make me the greatest king that ever lived, with palaces and gardens and fine dinners and wine, and coaches and beautiful clothes, and hundreds of servants, on condition that I would not read books, I would not be a king. I would rather be a poor man in a garret with plenty of books than a king who did not love reading—Macauley.

**Bone Stronger Than Oak.**

A piece of human bone will support half as much weight again as a piece of the best oak of the same thickness.

Let the ads help you to decide where to buy it.

**TILDEN IS CHAMP**

NEW YORK, (AP)—William T. Tilden II, of Philadelphia, won the national indoor singles tennis championship here today. The winner proved superior fast for the young title holder.

**The APEX ELECTRIC WASHER SAVES YOU**

MONKEY, because it reduces the washing bills; no need of liring a laundress if you have an APEX. Cuts the soap bills and cuts the fuel bills because no need of boiling clothes.

Put your dirty clothes and hot water, with soap, into the tub of the APEX, attach the plug to the electric light socket, touch the button, and the washing—the whole family washing—is done in less than two hours, with no labor and at a very small cost for electricity.

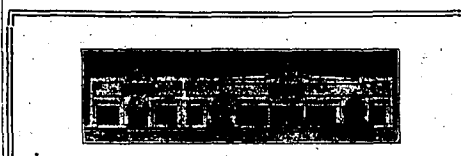

The APEX WASHER is so different, so advanced that you must see and try it to know the great advantages of its improvements. APEX washers have no equals for satisfaction and service.

Before purchasing a Washing Machine, let us demonstrate the advantages of the APEX. Inquire about our Easy Payment Plan.

**BOYS AND GIRLS HERE'S YOUR OPPORTUNITY!**

As a means of bringing the Ensign Remedies to the attention of a greater number of people we intend to conduct a finding contest, but before we can do so it will be necessary to have at least 600 (to make it more interesting we prefer 1,200) empty cartons that the Ensign Remedies are sold in. These are to be solicited from those who use the Remedies—your parents, friends and neighbors.

We are going to conduct a contest to obtain the required number and that contest is to start now. For every carton brought us between now and May 15 inclusive, we are going to give 5 cents apiece. At the end of each week we are going to give \$1.00 additional to the amount paid for the cartons to the boy or girl bringing us the largest number. To the one who brings us the largest number for the entire period we are going to give \$5.00 additional to what they will have already received. The second largest number will be given \$2.50 additional, and the one bringing us the third largest number will be given \$1.00 additional. In event of a tie there will be an equal division of the awards.

Cartons in our hands later than each Saturday must count in the following week of the contest.

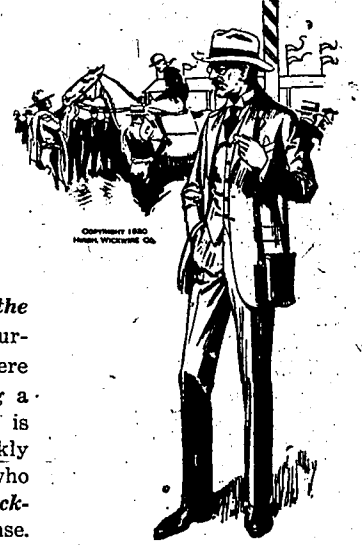

Any boy or girl not over sixteen years of age is eligible to this contest. Patrons regardless of age are permitted to enter, but only upon condition they have no children. The contest is now on. Who will be the first to win the prize given at the end of next week and thus place himself or herself in a fair position to win the \$5.00 awarded at the end of the contest?

# WILSON'S NOTE SHOCKS TURKEY

Unclassified as to Effect on American Teachers and Relief Workers Expressed

CONSTANTINOPLE, (AP)—President Wilson's note to the allies last evening, that the Turks must get out of Europe, came as a shock to all Turkish parties.

Mr. Wilson's note appeared in a slightly censored form which made the position of the United States seem harsher than it appears in the full text of the communication.

The note was equally displeasing to the Greeks, who were much offended at the American president's apparent unwillingness to grant their claims to a large district about Smyrna and his insistence that Adrianople be given to the Bulgarians.

American business men here are apprehensive over the effect of the president's stand and there is considerable uneasiness as to the effect it will have in Asiatic Turkey where 500 American-born teachers and relief workers are considered to be in considerable danger if the protection of Turkish forces should be withdrawn.

## Saving 24 Millions

Representative William R. Wood

This Indiana lawmaker is a member of the House Committee on Appropriations and has been working continuously for months on the legislative, executive and judicial bill. He and his Republican colleagues succeeded in cutting the estimates on this bill more than \$24,000,000. Steps have been taken to reduce the force in the War Department from 21,000 to 3,500 in making these appropriations. The War Insurance Bureau is being cut from an original force of over 17,000 to 7,500 and cuts have been made in other government departments accordingly.

### ROGERSON

ROGERSON—Mr. and Mrs. Orlin Bledsoe of the Shoshone Basin were among the outside visitors that spent the early part of the week in Rogerson. The late Mrs. Orlin Bledsoe, widow of C. M. Cray of Contact, Nev., spent a short time here Tuesday afternoon on his way to Twin Falls where he planned to spend several days looking after business matters.

Mrs. J. E. Boyd motored to Twin Falls Tuesday afternoon for a brief visit.

Al Boss left on Tuesday's train for Barley, where he combined pleasure with a business trip.

Tom Willis of the Shoshone Basin spent Tuesday in Rogerson in the interest of business.

The many friends of Mr. Ira Brackett were shocked on Tuesday to hear of his sudden death, having been ill but a day or two. Mr. Brackett left his old time place of residence, and his many friends to deplore his loss.

Tom Owens returned on Tuesday to his home in this vicinity, after spending a short time in Twin Falls where he transacted business.

Misses Kathryn and Margaret Owens of the Brown Bench were among the outside shoppers in Rogerson from the Brown Bench on Tuesday.

Mr. and Mrs. Frank Clark motored in from Cedar creek on Tuesday afternoon, and spent the night here on their way to Twin Falls.

Mrs. Howard Gibbs and children returned to their Rogerson home on Tuesday evening, after spending some time in Twin Falls.

Will Lako was a Rogerson visitor in Twin Falls Tuesday, returning to his home in the evening.

Mrs. Palast and small daughter, Polly, returned to their Rogerson home on Tuesday evening, after spending some time in Twin Falls.

Will Hines transacted business in Twin Falls on Tuesday.

T. C. Oralg was a Rogerson business visitor at the county seat Tuesday.

W. H. Griffith of Dahl is numbered among the new arrivals in Rogerson, and expects to leave on Thursday for San Jacinto.

Jack Jones of Twin Falls spent Wednesday and Thursday in Rogerson in the interest of business.

Charles Oralg of Twin Falls spent Thursday evening in Rogerson as guest of friends.

Mrs. L. E. Duncan left on Wednesday's train for Twin Falls to remain with her father during his illness.

One of Jack Boyle's celebrated Boston Blackie stories is the "Princess Dean's" latest Universal Special Attractions, "The Silk-Lined Bargain," which will be shown at the Orpheum Theatre today.

"Boston Blackie," safe-blower, confidence man, burglar and gentleman extraordinary, is one of the unique creations of American fiction. "Boston Blackie" has none of that gentleman's hesitation about breaking the letter of the law. But always there is a reason, a justification that sways the mind of the reader to the thought that perhaps in similar circumstances, he himself would do the same.

Beautiful girl models in ravishing positions of the latest and most ultra feminine fashions, will attract the men and bring gales of admiration and envy from the fair sex who see Roscoe Barriacale's latest production, "The Luck of Geraldine Laird," released by Bobbie Cole.

A fashionable Fifth Avenue mediate shop, reproduced in every detail, is the setting for this polarized display which is a veritable feast for the eye. Geraldine Laird (Miss Barriacale), the heroine of the story, is seen as a saleslady putting manuscripts through their paces for the benefit of the wealthy patrons and patronesses of New York's millionaire set—at the Opera today.

SEATTLE, Wash., (AP)—Bobby Harper, Seattle, won a decisive over Joe Mandoli, New Orleans lightweight, in a seven-round bout here last night.

TRY TO GET EVEN. BERKELEY, Cal., (AP)—The University of Illinois track and field team today sought to even the score with the University of California for the defeat the Californians administered five years ago today in the only dual meet between the two universities. Illinois recently won the western indoor track meet.

SHAMROCK III SETS SAIL. SOUTHAMPTON, (AP)—Sir Thomas Lipton's 23-motor Shamrock III, which will be used in the tuning up races with Shamrock IV, the America's cup challenger, off Sandy Hook this spring, was launched here today. The Shamrock III will sail for America on April 7, without escort.

JAPAN LAYS KEEL FOR LAST WORD IN WAR CRAFT. TOKYO, (AP)—The battleship Tosa, the keel of which was laid at the Mitsubishi dockyard in Nagasaki recently, will be the largest of its kind in the Japanese navy. She will be of 40,000 tons displacement and is 700 feet long. She will carry ten 16-inch guns. The Tosa will be launched in 1923 and will embody all the latest innovations of naval warfare.

CHATEAU THIERRY IS TO RECEIVE LEGION OF HONOR. PARIS, (AP)—Chateau Thierry is to receive the Legion of Honor, it was announced Friday. French and American celebrations are being prepared for the day on which the president bestows the decoration on the city. It was at Chateau Thierry that the American machine in June, 1918, halted the Germans in their march on Paris.

VETERAN PLAYER DIES. DETROIT, (AP)—Matthew McIntyre, life holder for the Detroit Americans from 1905 to 1910, died here last night of influenza. He was 40 years old. McIntyre also played with the Chicago White Sox and after leaving the majors managed clubs in the Western and Southern leagues.

TO MANAGE ST. JOE. ST. JOSEPH, Mo., (AP)—John Kellher, shortstop for the St. Joseph team of the Western league, will manage the team this year, Edward Hanlon, owner, announced yesterday. Kellher played in 1915 with the St. Louis American league team.

HAGEN'S WEEKLY WHIPPING. PACATELLO, Idaho, (AP)—Jack Collins of Portland, won a referee's decision over Romeo Hagen of Seattle in a 12-round bout here last night. The men are middleweights.

## The Latest in Finishing and Designs

When it comes to handsome, substantial furniture suitable for every room in the house—at reasonable prices—we have it. A few of our many lines are:

*Upholstered Rockers, Chairs, Nufolds, Leather Rockers and Chairs, Dining Room Tables and Chairs, Beds—Wood and Brass, Springs and Mattresses.*

## Why Don't You Buy Her The Best Range?

You buy the very best tools to work with for your farm, shop or office. You do this as a matter of economy. You know it pays. When you find yourself annoyed by some poor tool you get rid of it at once and replace it with the best you can find in the market.

The important part of a home equipment is the cooking range. Look at the range your wife or mother is using. Ask her if she is perfectly satisfied with it. Then come and see us. We will show you.

THE SOUTH BEND Malleable Range  
All-ways Preferable

You know a good thing when you see it. You know how to make comparisons between the high grade and that which is just ordinary. You will find *The South Bend Malleable Range* above the ordinary. We have found it the triumph of range construction. We are sure there is nothing like it on the market today. If you will buy one of these ranges for your home you will make your wife or your mother the happiest woman in your vicinity. Take as much interest in your home equipment as you do in that which has to do with your comfort and efficiency in your work.

 Easter Morning.  
 Prelude, Prelude No. 15, (Chopin).  
 Anthem, "Serenade D'Amour."  
 Solo, "I know that My Redeemer Liveth," (Handel), Mrs. O. P. Duval.  
 Postlude, "Priests' March," (Mendelssohn).  
**Brening.**  
 Easter cantata, "The Risen King," (Schnecker).  
 Chorus, "This is the Day Which the Lord Hath Made."

**Kimberly M. E. Church.**  
 G. E. Mangus, pastor.  
 10:00 a. m., Sunday school.  
 11:00 a. m., Easter morning worship.  
 6:30 p. m., Epworth league, Mammie Silling, leader.

MAN SHOULDERS RIFLE FOR HIS BAY

Uncle Johnny Shell, 132 years old, of a racy Kentucky, still has a bit of fight in his make-up, according to reports. When his 32-year-old wife, his fourth, recently died, it is said relatives attempted to take Uncle Johnny's 8-year-old son away. One by one his 100-year-old flint lock rifle, Uncle Johnny mounted a music and rode across the mountains to recover his boy. At the point of a gun—it is said—Shell got his boy and returned home. Shell will be 133 years old next 7.

7:30 p. m., program of music and song.  
 Sunrise prayer meeting at 6:30 a. m. followed with breakfast.  
**Lutheran Church.**  
 J. Gihring, pastor.

REFINEMENT IN NEW TYPE 59 CADILLAC

A new model, the type 59, is presented by the Cadillac Motor Car company for the coming season. With the car, the Cadillac company completes its sixth year of eight cylinder production with more than 80,000 8-cylinder cars on the road.  
 The new model shows a continuation of substantial Cadillac construction features. The refinements and progressive improvements introduced in the type 59 have prompted its makers to declare, unhesitatingly, that even the Cadillac works have not produced a car which equals it.

The ten standard body styles, seven standard and three open models. New body lines are most evident in the familiar touring model. This year's car has been lengthened and placed on a 123-inch wheelbase, eliminating body overhang at the rear and providing a roomy rear compartment, as well as excellent road qualities. Extra rear seats are available in size and well upholstered.  
 There are two other standard open models besides the touring car, a phaeton, the Cadillac four-passenger model, and a two-passenger roadster. Both have the low lines and medalling of semi-sport cars without departing from substantial Cadillac characteristics.  
 Besides the three open cars there are seven standard enclosed models being built this year. In addition to the well known four-passenger Victoria model, there will be a smaller two-passenger coupe on the same floor.  
 A four-passenger Sedan on the 123-inch wheelbase and a seven-passenger Suburban on the 130-inch wheelbase are continued from last year.  
 Three limousines will be built this year. Besides the standard model, there is a town limousine with custom built lines without the roof over the driver's seat; and an inside drive limousine. The partition between the riding and driving compartments may be partly lowered should the owner wish to drive.

A Year's Abuse In 7 Days

All Light Car Road Records Smashed

At Indianapolis recently an Overland 4 stock car was driven 5,452 miles continuously in seven days and nights, over frozen country roads.

This is an average of 778 miles per day—more than the distance between Toledo and New York City. This is another tribute to the cushioning effect of Triplex Springs and the quality of material in Overland 4.

TWIN FALLS, IDA. BROWNING AUTO CO. SALT LAKE CITY, U. IDAHO FALLS, IDA. BROWNING AUTO CO. OGDEN, UTAH

THE ovation accorded the Type 59 Cadillac here, and everywhere, is a priceless compensation to Cadillac craftsmen for years of patient and painstaking devotion to an ideal.

MAGEL BROS. PHONE 95

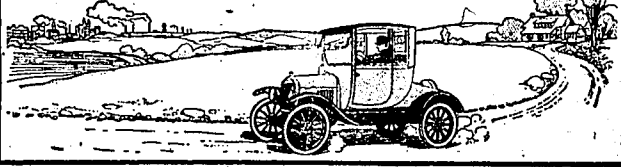

CADILLAC

Ford THE UNIVERSAL CAR

Here's the Ford Coupe, deservedly a very popular motor car because of its all-round serviceability. Equipped with electric starting and lighting system and demountable rims with 3 1/2-inch tires front and rear. Large plate glass windows. Generous sized doors—roomy seat, upholstery deep and substantial. Dust-proof and water-proof. Breezy and cheery in fine weather, cozy and dry in bad weather. All the established Ford merits of dependability, with small cost for operation and upkeep. For business and professional men who drive it is ideal and for touring and other pleasure driving it is the one car that delivers all expectations. The demand is large so orders should be left with us without delay.

### COURT DENIES RIGHT OF LABOR UNION TO PICKET

Holds Fundamental Error in the Assumption that All Peaceful Measures Lawful

JEFFERSON CITY, Mo., (AP)—The supreme court of Missouri ruled against the right of a labor union to picket a place of business in an opinion handed down here Thursday.

The issue was raised by John P. Hughes, operating the Emerson Theater company in Kansas City, after he had been refused a permanent injunction against the Kansas City Motion Picture Operators' union, by the circuit court in Kansas City, to prevent picketing of his establishment.

In rendering the decision the supreme court overruled the lower court and directed that the writ be granted the permanent injunction.

The opinion was rendered by Judge Good, Judge Graves, Woodson and Williamson concurring.

"The fundamental error consists in the assumption that all measures that may be resorted to are lawful, if they are peaceable, that is, if they stop short of violence or coercion through it," the opinion states.

"In one opinion, any violation of the plaintiff's legal right, contrived by the defendants for the purpose of inflicting damage or having that as its necessary effect, is as plainly inhibited by the law as a breach of the peace."

Musical instruments of insects. Buzzing or humming of insects is mainly due to the rapid vibration of the wings, which often strike the air more than 100 times a second, but there is sometimes a special quivering instrument near the base of the wings. Chirping or trilling is due to some sort of "vibrating" organ, one hard part being scraped against another, as the bow of a fiddle—it may be leg against wing.

Date of Christ's Birth. The Christian era, first used by a monk, Dionysius Exiguus, in the year 533 A. D. and adopted by Christian nations at a later period, was intended to begin with the birth of Christ. Dionysius is believed, however, to have made an error in fixing that event in the year of Rome 754 instead of 753. Christ's birth is now considered to have taken place in or before the year 4 B. C.

Walking Snakes. It is supposed that the early ancestors of modern snakes walked on four legs. Some big serpents, such as the boa, even now have rudimentary hindlegs. But the "feet" on which all snakes do their walking today are the continuous extremities of their ribs. To preserve these is the greatest difficulty in the preparation of an ophidian skeleton.

Don't over-stress to your friends. Let your pride in local enterprises and achievements become contagious.

### FILIPINO "SIAMESE" STICK TOGETHER

The little Filipino "Siamese twins" who now live at Washington, D. C., do not want to be separated. Their guardian, Commissioner Yaugco of the Philippine Islands, a surgeon at the John Hopkins Hospital, says an operation cutting the muscular wall which binds the two little bodies together would be a very simple surgical feat. But both and their parents say they are happy as they are—and the picture above indicates that it is so.

### MEXICAN CALLS MONROE DOCTRINE REAL DANGER

Points Out Various Interpretations with Changing Administrations

BUENOS AIRES, (AP)—Aaron Saenz, Mexican minister to Brazil declared Friday in an interview that the Monroe doctrine constituted a real danger to the nations of the American continent because its application by the United States has been made according to the point of view of each one of the administrators who have ruled the destinies of that country, according to a dispatch to La Prensa from Rio Janeiro.

"Don Elio Root the doctrine is the right the United States has of protecting itself as a sovereign independent nation," Senator Saenz declared. "President Wilson on his part, declared two years ago that the doctrine did not exist, while Senator Lodge thinks it ought not to remain the exclusive charge of the United States."

After referring to the recent request of the government of Salvador for an interpretation of the Monroe doctrine because of the "disparity of judgments," Senator Saenz continued:

"Mexico, which does not accept any doctrine contrary to its sovereignty never needed other protection or aid than its own forces."

Greedy for Wasps. The common green frog has been discovered to possess an insatiable greed for wasps. This extraordinary appetite does not seem to be in the least checked by an occasional sting. The protecting color of the frog, which lies motionless upon leaves, no doubt deceives the most wary of insects into sense of security.

When Death Cools His Sting. There is in the West Indies a very curious superstition regarding death. When a death occurs in a house all the water in it should be regarded as poisoned and at once thrown away. The idea is that death after claiming his victim will cool his "sting" in the first water he reaches, which thereby becomes a deadly poison. No one can tell what water has been touched, so the safe thing to do is to get rid of all that is within his reach and do it at once.

Hawks Not All Enemies. The department of agriculture says that of the 50 principal varieties of hawks 47 are of benefit to the farmer since they catch great numbers of rodents that injure crops. It is even said that a hawk on the farm is as valuable as a cow. There are three varieties of hawks that are deadly to chickens and should be shot on sight.

The Business Part. A dog had bitten a child in our neighborhood, and we were discussing the incident. One neighbor informed us that the dog was part poodle and part bull. Frank, who had listened eagerly to the conversation, turned to his mother and asked: "Mother, which part 'bit him'?"—Exchange.

Our stores were never more attractive. A visit to any of them is a delightful experience. You see the newest things in merchandise—as well as the familiar things—and you get ideas a voice worth listening to!

### WITHDRAW WILSON'S NAME

Three Candidates for Georgia Democratic Presidential Preference Primary

ATLANTA, Ga., (AP)—Withdrawal of President Wilson's name by a number of Democrats who entered him in the Georgia democratic presidential preference primary to be held April 20, only three candidates were left in the race when the entries closed Monday. They are Attorney General Palmer, chief of the state administration; United States Senator Hoke Smith, of Georgia, who partially endorses the administration and who desires the treaty and league ratified with reservations; and Thomas E. Watson, former populist candidate for president, who stands squarely against the league of nations.

Ten Minutes with this Elegant New Chalmers Tells You the Story

**YOU** find it starts at once; that it is running with amazing sweetness in a few seconds. You note no vibration. You call for speed and you get results. You tone it down and you detect a willing and perfect servant obeying every wish.

Ten minutes gives you a recast opinion on motor cars. Your admiration for a Chalmers deepens. You search for the cause and you find it in Hot Spot and Ram's-horn. You may or may not know that "gas" is worse this year than last, that it is becoming heavier and heavier and harder and harder to "burn."

Few engines have met this serious condition. The great Chalmers engine has. It takes the low grade "gas" throws it against the Hot Spot, which vaporizes the "gas" into a "cloud," and makes it "fine for fuel."

Ram's-horn, minus sharp corners and abrupt bends, rushes it to the cylinders at a velocity of 100 miles an hour. Thus the cylinders get a fuel that they can "burn," can "digest," instead of "lumpy" or "rainy" kind of "gas."

Not only can you note results in a distinguished smoothness of action, but in your repair bills.

For Hot Spot and Ram's-horn provide against thinned out lubrication and consequent burned bearings, scored cylinders, frequent fouling of spark plugs, and wasted "gas" through the exhaust.

Ten minutes will tell; and then you, too, will say Chalmers is one of the few great cars of the world.

### QUARRY MEN INJURED BY ROCK FROM BLAST

One Worker Has Log Broken While Another Hurt on Head at Dinner Time

John Irwin and a companion were injured at the highway quarry at noon today. The men were struck by a flying rock, crashing through a shaft in which they were cutting track. Irwin sustained a cut on the head while his companion has a broken leg. They are at the county hospital for treatment.

According to information provided by officials of the highway district, the rock was carried through the building when a "coyote" hole was shot in the side of the hill. The hole is said to weigh not more than a few pounds, but was hurled with considerable force. It struck Irwin after having injured his companion. The men were taken to the office of Dr. H. W. Wilson for first aid and then to the hospital.

### TWIN FALLS WINS FORENSICS WITH BOTH ITS TEAMS

Affirmatives Best Boise Here and Negatives Play Pocatello Affirmatives

In debate last night the Twin Falls affirmative team won over Boise. The score was two to one.

The subject used was, "Resolved: That Board of Arbitration is the only remedy. Force should be appointed by the Government to settle all Labor Disputes."

While the Twin Falls affirmatives were winning against Boise here the negative team was winning over Pocatello at the latter place, while the Pocatello negatives are losing in Boise to the Boise affirmatives.

### GOODING PROFESSOR IS SEEKING STATE OFFICE

Professor Leona W. Logue Announces Candidacy for Position of State Superintendent

Professor Leona W. Logue, the head of the English department of Gooding college, Gooding, Idaho, and a resident of Twin Falls area, has decided to enter the race for state superintendent of public instruction on the republican ticket in the coming election.

Professor Logue is a native of Missouri and was graduated from the New Mexico state normal university where in 1912 and 1913 she received the degrees of both bachelor and master of pedagogy. In 1918 she received the Ph. D. degree from the University of Chicago. Here for two years she had extensive work in school administration.

### Social Notes

Mrs. G. E. Bryant entertained the New Aid of the Christian church Thursday afternoon at her home on Tenth avenue north.

Mrs. Oliver Harstad entertained the Fortnightly club yesterday afternoon at her home on Sixth avenue east. Bridge was played and a dainty luncheon served. Those present were: Mrs. James L. E. Ballard, H. E. Barber, C. H. Krenzel, M. C. Mitchell, W. L. Eldridge, Earl Pelt, A. H. Vincent, F. W. Bronough, Mrs. Walter DeFrenn and Mrs. D. F. Sweet were guests of the club.

Mrs. H. B. Lewis entertained at dinner last evening at the Hotel Rogerson, complimenting Mrs. R. M. Sweeney of Boise. Pink roses made a charming centerpiece for the table and the place cards were also decorated with pink roses. Covers were laid for eight.

The D. A. R. will meet with Mrs. J. W. Epler at 127 Eighth avenue north at 2:30 Monday afternoon.

### SOCIALISTS TO DEMAND SPECIAL ELECTION CALL

Favor Way for Attempt at Rescuing Outcast Assembly Through Re-election

NEW YORK, (AP)—Officials of socialist party organizations in New York city, meeting today to plan their campaign for rescuing of the five socialist assemblymen ousted from the lower house this week on charges of disloyalty, decided to demand that Governor Smith call special elections to fill the vacancies caused by this action. It was announced that if the demand was granted, the quietest would run again for office and were confident of being re-elected.

## TWIN FALLS CHURCHES READY FOR RESURRECTION FESTIVAL OCCASION

Easter Day Will Be Observed with Songs of Praise Throughout the City, Fraternity and Sect Indulging in Exercises Fitting and Appropriate to the Season

The Easter festival in Twin Falls will be widely celebrated in song and praise. This community has probably never in its history made as extensive or elaborate preparations for a like festival celebration.

Churches and Sunday schools of all denominations have prepared to chant the glad tidings of the risen Lord, all singing most appropriate hymns for the occasion. Resurrection music will comprise church and Sabbath school programs in all places, and in many sections of the city and recitations will mark the festival time.

A resurgence of cantatas is noted this Easter, at least four church choirs, directly and indirectly, will present the story of the Resurrection in spiritual song form.

Even a fraternal organization enters into the general scheme of Easterlike observance. The Knights of the Ku Klux of Twin Falls engaging in special services during Easter Sunday afternoon.

### Twin Falls Wins Honors in Cross Country Racing

King is First Man in, Followed by Skooney of Gooding—Fight Hard Wind

Braving inclement weather Twin Falls and Gooding high school cross-country runners engaged in a road race yesterday afternoon. Twin Falls won.

The course covered was two and a half miles from the high school to a point east of the athletic field. On the return the runners battled a strong northwest wind, preventing fast time.

Phillip King of Twin Falls, was first; Skooney of Gooding, second; Bailey of Twin Falls, third, and Hertz and Hoag of Twin Falls tied for fourth place.

### Personals

L. M. Steger is in Twin Falls from Pocatello looking after business affairs.

B. S. Champlain of Pocatello is in Twin Falls looking after business affairs.

Mrs. Frank Parks of Burley was among yesterday's arrivals in Twin Falls.

M. B. Skaggs of Pocatello attended to business interests in this city yesterday.

A. D. Pollock motored down from Hansen yesterday on a brief business visit.

Mrs. James E. Penny of Filer was among the out-of-town shoppers in Twin Falls yesterday.

B. H. Trull of Jerome, a pioneer resident of this section, transacted business in Twin Falls yesterday.

Ray M. Bushnell of Burley, secretary of the Salmon River Settlers association, is in Twin Falls on business.

COLLECTIONS

Merchants' Protective Association, Boise, 15 years' experience. Debtors interviewed personally.

Re-dedication of the church edifice will be attended by attractive services tomorrow at the Church of the Brethren. The church has been enlarged and will be ready for service tomorrow.

At Ascension Episcopal church there will be a festival of high-grade music at the morning meeting, the program carrying selections of an extraordinary appropriate Resurrection character. In the evening, beginning at 7 o'clock children's exercises will be held. The evening schedule of music is particularly ambitious, and will be given by a choir equal in all respects to that which rendered Handel's Messiah at Christmas time.

The Baptists are to have an Easter cantata at 5 o'clock in the afternoon, "The King of Glory." In the morning

### Easter Basking in Warm Sun is All Called Off

JUST it rained an' then it blow; Then it friz an' then it snow; Then there was a shower o' rain; Then it friz an' snow again.

Far be it from us to want to sink this craft with rhyming metre, but what's to be done under the hectic circumstances that exist at this season's occasion.

Every sort of weather was on the menu yesterday, the rhythmic passage that captivates this effort being explanatory. Nineteen degrees from serf last night.

And tomorrow—ah, what of tomorrow!

Our visions of an Easter Sunday spent basking in a warm April sun, somewhere in a leafed shade, (that's ambiguity himself, but what care a poet?) or in a primrose grove, (show us one of them things) are all souped up by a discriminatory weather provider who vaticinates thus for the morrow and robs us of a chance to adorn our self in vestal pumps and pants:

"Tonight and Sunday fair, continued—well."

Well, up to now 'tis fairly promising, though Aelus, commands the boggan forces in the northwest skies.
