## French Troops Restore Order After Skirmish in Frankfurt

### GLASS RESULTS IN KILLING OF SIX CIVILIANS

Assembling of Jeering Crowds Brings on Trouble when the Command to Disperse is Ignored and Guns Play

ALLIES DISAFFECTION REPORT PROVES FALSE Searching Inquiry to Be Made to Determine Facts Regarding Shooting and Cause for Outbreak

PARIS, (AP)—It is reported from Coblenz that there has been a collision of French and German patrols between Bad Mandern and Nieder Wollstadt, north of Homburg. In the exchange of shots a German officer was wounded. The report is not confirmed from other sources.

Reports that Great Britain and the United States had called upon France to withdraw her troops from Frankfurt are entirely without foundation, it was announced in an official note issued today.

MAYNOR, (AP)—Complete order has been restored at Frankfurt, the authorities having succeeded in quelling the riotous behavior. The municipality has posted bills requesting the people to keep calm. The security police who were made useless at Frankfurt will be removed from the occupied territory by rail today.

FRANKFORT, (AP)—Wednesday afternoon a clash was fought between French troops and the population, resulting in the killing of six Germans and the wounding of some two score others.

The firing attracted a great crowd to the square, and the French then proceeded to bring up reinforcements, four tanks between solid columns of soldiers rolling in ready for action.

The German police aided in the action taken to restore quiet, quickly stationing groups at strategic points to control the crowds.

A French staff officer deplored the happening in conversation with the correspondent last night.

Division Is Employed The earlier part of the day was passed by the French in consolidating their occupancy of Frankfurt. It is understood.

CONSTANTINOPLE, (AP)—Turks destroyed the village of Hironiyi, northeast of Adana and burned the American orphanage there. Two thousand Armenians orphans were removed under fire and taken to Adana in safety by William Gilbert, Jr., of Yonkers, New York. They will probably be sent to Cyprus, as the Adana district is much disturbed.

RAILWAY communication has been restored between Adana and Aleppo. Turkish officials have taken over control of the village of Bardizaj, on the southern side of the Gulf of Ismid, about fifty miles from Constantinople, but there are few indications of trouble in Anatolia.

### Surrender of German Warships Inaugurated

LONDON, (AP)—The German battleships Nassau and Ostfriesland arrived at the Fifth of Fort yesterday, this constituting the commencement of the surrender of the German warships under the terms of the treaty of Versailles.

The battleship Ostfriesland was placed in commission in September, 1911. Her normal displacement is 22,900 tons, her length 548 feet and beam 93 feet. The complement is about 1,100 men.

### CONCEDE DEFEAT OF COMPULSORY TRAINING PLAN

Senate Proponents of Measure to Substitute Program for Voluntary Military Instruction of Youths

WASHINGTON, (AP)—Defeat of the compulsory universal military training provision of the army reorganization bill was conceded today by senate proponents of the plan and to staff of a vote on the issue; they planned to substitute a program for voluntary training of four months for all youths 18 or more years old.

Admits Defeat of Plan. When consideration of the army bill was resumed Chairman Wadsworth of the military committee admitted that the opponents of compulsory training were in the majority. It was understood that a canvass of the senate showed fourteen or more Republicans and about forty Democrats in opposition. Senator Frelinghuysen, Republican, New Jersey, condemned opposition to military training founded on the theory that the men who fought Germany can be called upon again. "They have carried their portion of the burden," he said. "It has not been forgotten, and it will not be forgotten. We are inevitable. We are somewhat estranged already with the nations which united with us in the fields of France. Mexico no longer respects us, and some day we may show her too, that the cannot always murder American lives and abolish American property rights."

### VOTE INDICATES DECLARATION OF PEACE ADOPTION

Seven Democrats Join with Republicans in Approval of Rule Limiting Debate on the Measure in House

CAMPBELL OPENS FIGHT FOR WAR END ASSERTION Declares Passage of Resolution is Rendered Imperative by Grave Domestic Questions

WASHINGTON, (AP)—Adoption of the Republican peace resolution tomorrow by the house was indicated today when the rule limiting debate on the measure to nine hours was adopted with seven Democrats joining the Republicans in supporting it. The vote was 214 to 158. Immediately afterwards the debate on the resolution itself was opened. It will continue until five p. m. tomorrow when a vote on the resolution is expected.

Democracy voting for the rule numbered seven, while one Republican, Representative Fuller, Massachusetts, voted against it. The Democrats joining with the Republicans were: Caldwell, New York; Evans, Nevada; Gallivan, Ohio; Olney, Massachusetts; Sherwood, Ohio; Goldfogle and Ganly, New York.

People Weary of War. Mr. Campbell said the people were weary by a year and a half of life under a government which has no time of peace, and longed for the freedom of a government with three separate and independent branches.

### CONVENTION COMMITTEE FINDS NO BASE FOR CHARGES AGAINST TWIN FALLS AND BOISE LEGIONS

Allegations Made by Port Neuf Post Delegates Fall Flat under Investigation of Appointed Board—Apology Follows—Attempt to Inject Politics into Meeting Utterly Squelched

CONVENTION PROGRAM Afternoon Today 9 p. m.—Reports of committees: 1, constitution and by-laws; 2, ritual; 3, budget and state dues. 10 a. m.—Session at Learning pavilion. All Legion men will be admitted but no outside males will be allowed to attend. FRIDAY, APRIL 9 10 a. m.—Report of election committee; election of officers; selection of place of next convention. 9 p. m.—Unfinished business; installation of officers.

Fully exonerating Twin Falls and Boise posts of charges brought alleging "padding" of membership rolls, the American Legion convention this morning adopted a credentials committee report which showed the accusations to be baseless.

Charges that "padding" had been resorted to by the posts mentioned were made in open conference yesterday afternoon, Portneuf post presenting the complaint. Specifically it was alleged that both Twin Falls and Boise had paid to division headquarters the greater enrollments than they officially possessed, in order to dominate the convention. The committee found absolutely no evidence of the accusations, and brought a statement into the convention to that effect.

Prior to receiving and taking action upon the charges against the credentials committee, the committee on order of business reported the result of its committee's deliberations. This was adopted.

One of the prime features scheduled for this afternoon's session of the convention is an address to be delivered by Dr. E. H. Lindley, president of the state university. Dr. Lindley will use for his subject, "The American Standard."

The head of the state educational institution reached Twin Falls shortly before noon today and was entertained at lunch immediately after arriving. Besides Dr. Lindley, other guests on this occasion were: Ashur B. Wilson, secretary of the Idaho Educational Council; Hal G. Blue, superintendent of city schools; Burton E. Morse, News-Center editor; and E. J. Conder, editor of the Journal.

A dance will be given tonight at the Learning pavilion for the occasion. To-morrow the convention will adjourn. The opening session of the second annual state convention of the American Legion will be held here today, after short talks of an intensely patriotic nature. The first of these came in the nature of an invocation by the Rev. G. E. Bennett, pastor of the occasion, who, in terms of a most fervent character, decried insidious attempts to disturb the sacred tenets upon which the soldiers of the world are based.

Condition of winter wheat April 1 was 75.8 and rye 88.3 per cent of a normal. Winter wheat production last year was 70,639,000 bushels and the previous year 565,999,000 bushels. Byo production last year was 88,478,000 bushels and the previous year 91,941,000 bushels.

BROTHERHOODS CONTROL HANGS IN THE BALANCE Officials Agree that Day Will Bring Test of Strength Between Union Organizations and 'Outlaws'

WASHINGTON, (AP)—In view of the railroad strike in Chicago President Wilson's advisers urged upon him today to send to the senate the nomination of the nine members of the railroad labor board.

CHICAGO, (AP)—Famine will end the strike if the men refuse to listen to reason," said H. E. Haberman, international president of the Switchmen's Union of North America, declared today before going into a mass meeting to address 3,000 striking members of his organization.

OHIOAGO, (AP)—Today will decide whether the railroad brotherhoods can control their unions where the unauthorized and "illegal" strikes that are sweeping railroad yards from Buffalo, N. Y., to Los Angeles, Cal., have so disrupted the established unions that the latter are left all control.

Production of Winter Crop Estimated at 483,617,000 Bushels WASHINGTON, (AP)—Production of winter wheat this year was forecast today at 483,617,000 bushels, and rye 75,841,000 bushels by the department of agriculture which based its estimate on the acreage planted last December.

Wheat production last year was 70,639,000 bushels and the previous year 565,999,000 bushels. Byo production last year was 88,478,000 bushels and the previous year 91,941,000 bushels.

# IMMIGRATION PROBLEMS PUT BEFORE MEET

### Conference Discusses Shortage of Labor, Cause of Unrest Among Foreign Born and Other Big Questions

NEW YORK, (AP)—The first national immigration conference ever held in America began here Wednesday to discuss naturalization and immigration laws, shortage of labor, the needs of immigrants from America and the cause of unrest among the foreign born with a view to formulating recommendations to congress. The meeting was under the auspices of the advisory council of New York, and delegates included representatives of labor, social groups and professions for industry, agriculture, and commerce.

William H. Barr, president of the international council and spokesman for industry, and General Edmund Dugan, chairman of the board of directors of the international council, opened the conference. A statement prepared by E. T. Moreholt, secretary of agriculture, was read.

### America—Losing Immigrants

"America is 4,000,000 men short as a result of the dwindling of immigration since the war," General Dugan said. "Thousands of immigrants are going back. Other countries are making or ganized efforts to attract immigration. The United States is losing its edge."

"The indiscriminate denougement of the foreign born, which has been taking place in America, is resulting in many of them leaving the country and is resulting also in growing insular stabilities between native and foreign born residents and in a general denougement of industrial and social life."

"The immigrant no longer will come to America to enjoy freedom of worship or the right of free speech, but the 'impelling reason will be economic,'" Mr. Barr said. "Our permanent national prosperity depends upon sound production and one of its essential features is the constant supply of unskilled workmen. For years it is the labor of the immigrant that has supplied this need."

### Meredith Outlines Policies

Secretary Meredith's statement outlined the work of the department of agriculture and with reference to immigration and the farm-labor problem.

"Many thousands of immigrants who came from farms in their home country and who are real lovers of the soil, have been sidetracked in our great cities. Large numbers of the disoriented elements can be transformed into contented agricultural workers if they are told how to make the right move."

Mrs. Swanson's Nervous Were Upset From Years of Tremble—Gains 20 Pounds

"For the benefit of stomachs who are suffering from stomach trouble and a run down condition I want to tell of the wonderful results I have gotten from Tanlac," said Mrs. Lena Swanson, of 1720 North Madison St., Peoria, Ill.

"It was eight years ago that my stomach got out of order and my health began to fail," she continued. "Finally I got to feeling so bad that I lost interest in everything and got no pleasure out of life. My nerves were so shattered even the ringing of the telephone upset me and I had to muffle it. I slept very little and seldom woke up in the morning without a dull, nagging headache."

"My brother had gotten such fine results from taking Tanlac that he talked me into trying it and I improved remarkably with the very first bottle—so I could eat and sleep better. Now after taking five bottles my friends tell me I am the picture of health. I can eat anything, even hot meats, cabbage and pickles, without a bit of trouble with my stomach. My nerves are calm and I sleep like a child every night. I have gained twenty pounds in weight and I never grow tired of prating Tanlac."

# WILSON LAUDS NAVY CONDUCT IN WORLD WAR

Department as Well as Fleet Entered into Prosecution of Conflict with Great Energy, Atlantic Commander Avers

WASHINGTON (AP)—The vessels on the active list of the navy were never better prepared for war than when the United States joined the allies and the navy department had "full and complete" plans to combat a German offensive against the coasts of the United States, Admiral H. B. Wilson today told the senate committee investigating the navy department's conduct of the world war. Admiral Wilson asserted that "from the moment war was declared the entire navy, the department as well as the fleet, entered into the prosecution of the war with the greatest energy and its accomplishments deserve the commendation of the nation."

Admiral Wilson, now commander in chief of the Atlantic fleet, commanded the patrol force that patrolled the waters adjacent to the United States and later, based on Brest, France, cooperated in protecting allied convoys in the war zone around the British Isles.

## Asserts Quick Action

Within four days after this country entered the war representatives of the allied admiralties were in conference with Secretary Daniels and naval officers in Washington outlining the means by which the most effective assistance could be rendered by this country, the witness declared. So far as he knew, Admiral Wilson said, every suggestion or proposal put forward by the allied officials was promptly agreed to and efficiently carried out. The fact that the greater part of the American army was transferred over 5,000 miles of water without a life being lost through efforts of the enemy testified to the success of this cooperation, the admiral asserted.

## Mistake the Navy Made during the War

was so "relatively unimportant" that they were hardly worth considering in comparison with its achievements, the witness said.

Refutes Sims Charge

Referring to Admiral Sims' charge that an inoffensive merchant vessel was sent abroad during the first few months of American participation in the war, Admiral Wilson declared that at a conference between Secretary Daniels and the allied admiralty representatives about April 10, 1917, the foreign officials did not express any dire need for help and suggested that the United States take over the work of patrolling the waters adjacent to this country and the representative suggested that the United States send "one destroyer abroad in order that the flag may be shown to let it be known that the United States actually joined the naval forces of the allies."

# COMB SAGE TEA INT DGRAY HAIR

Darkens Beautifully and Restores Its Natural Color and Lustre at Once

Common garden sage brewed into a heavy tea, with sulphur and alcohol added, will turn gray, streaked and faded hair beautifully dark and luxuriant. Mixing the Sage Tea and Sulphur recipe at home, though, is troublesome. An easier way is to get the ready-to-use preparation improved by the addition of other ingredients in a large bottle, at little cost, at drug stores, known as "Wynth's Sage and Sulphur Compound," thus avoiding a lot of fuss.

While gray, faded hair is not painful, we all desire to retain our youthful appearance and attractiveness. By darkening your hair with Wynth's Sage and Sulphur Compound, no one can tell, because it does it so natural and luxuriant and you appear years younger, so evenly. You just dampen a sponge or soft brush with it and draw another application or two over your hair, becomes beautifully dark, glossy, soft and through your hair, jacking one

small strand at a time; by morning all gray hairs had disappeared. After younger.—Adv.

IDAHO

The famous cowboy star, Tom Mix, will make his debut in this city as an author and producer at the Idaho Theatre, where William Fox will present his latest and greatest western thriller, "The Dardevil," today and tomorrow. This playhouse promises to be something new, for Mix is giving the public his idea of what a fast moving, rapid-fire, sure-hit story of the west is, and how he believes real westerners would interpret it.

As in all Tom Mix productions, many thrilling and hazardous deeds of daring are performed by the author-director and his supporting company.

# High School News

The first baseball game of the season for the local nine will come Friday when Deaman's men meet Rupert in a practice contest. Twin Falls is in good condition and has a good lineup.

"Miss and Men" by Madeleine Ryley, is the comedy-drama which the senior class will present toward the close of school this year. The play consists of four acts and was originally produced on the American stage by Charles Frohman.

Characters in the cast have been selected from the senior class by Miss Ida Brown, who will direct the presentation of "Miss and Men." Major characters are Dorothy Scaworth, Lewis Herriman, Theodore Schwarz, Carl Edwards, Nat Williamson, Priscilla Munson, Dwight Kuhns, Helen Willis and Helen Brose. Minor parts are taken by Victor Strobeck, Helen Lind, Crystal Kelly. The plot of the play centers around a bachelor of 40 years, who is of the opinion that the perfect wife must be educated from a state of ignorance and simplicity to the ideal of the man she is about to marry. He accordingly proceeds to impart his views to a girl fresh from the founalling. His young nephew comes on the scene and the other man realizes that nature intended the young to marry the young.

Work is to begin immediately and for the next month members of the cast will be putting in hard work in order that the play may be presented about May 11.

Before the regular meeting of the French club Tuesday evening in the club room on the third floor of the high school, the following program was given:

Piano solo by Lorena Souders. A love lyric by Eric Erickson. Piano solo by Louise McMarrin. Reading, "The Haunted House," by Evelyn Gault. Music by mixed quartette, composed of Ogoritia Murray, Clara Campbell, Dwight Kuhns and Olive Shelby. Last night's session was the last of the year, since the date of the next meeting falls on May 4, a week before commencement when all seniors in the French club will be occupied with other matters.

School Superintendent Blue has received from Pres. E. H. Lindley of the University of Idaho a letter complimenting the local varsity basketball team upon its work at the high school tournament at Moscow a few weeks ago. Pres. # Cedar Posts Should be set NOW

This is cedar post time. Frost is out of the ground and the spring rush of work not yet started. If you wait two or three weeks you will find you have no time for this important work.

By setting new cedar posts now in place of the rotted, broken posts in your fence lines you will save yourself many wearisome trips next summer from your cultivating, irrigating or hay-making to drive stock from fields in which they do not belong.

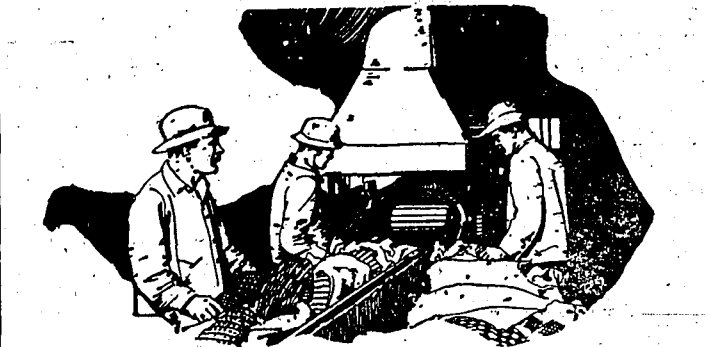

Cedar posts resist the rigors of the most severe weather. They withstand the damaging effects of irrigation water.

The Boise Payette Yard carries Cedar Posts, cut from live trees—every one true, straight and of best quality; round posts for corners. Our cedar posts are axe split and we guarantee them full size and of uniform grade.

# MALTHOID and RU-BER-OLD

## READY ROOFINGS

Here you see one of the shredding machines preparing rags for making into the tough, long-fibre felt which is the "base" or body of Malthoid and Ru-ber-old Roofings.

Good ready roofing is simply a long layer of felt, saturated with a waterproof material and coated with a heavier weather-proof composition.

It can be seen then that the protection afforded by any roofing against sun and rain is in proportion to the quality of the materials that go into it. Thus the great importance of good, tough, long-fibre rag felt.

All the felt that goes into Malthoid and Ru-ber-old Roofing is manufactured in our own mill. And because we are large consumers, we have the pick of the rag market. From this we carefully select exactly the rags we need to make quality felt.

Malthoid and Ru-ber-old are made to last. Starting with the felt, quality is built-in. Every step in the manufacture of Malthoid and Ru-ber-old is carried on within our own mills and factories—under the care of experts—by means of the most modern machinery and facilities.

When you buy roofing buy the best—the safest protection you can get. It pays in fewer repairs and less cost per year of service. Malthoid and Ru-ber-old Roofings have been making good for years, under all sorts of extreme conditions. Malthoid and Ru-ber-old are sun, rain and fire-resistant.

# DEINKINE IS FUGITIVE ON BRITISH SHIP

### Former Commander of Anti-Bolshevik Forces in Southern Russia Takes Refuge on Warship at Constantinople

CONSTANTINOPLE (AP)—General Denkin, former commander of anti-Bolshevik forces in southern Russia, arrived here Monday night and is today a fugitive on board a British warship. Immediately after he landed he went to the Russian embassy with General Romanovsky, his former chief of staff, and it was while he was there that the latter was assassinated. General Denkin is believed to be in danger because of the high feeling that prevails among Russians here, and went on board the warship under a guard of British soldiers. General Romanovsky's murder has not been approached and the little chance he will be caught as attaches at the Russian embassy say, so far as they can determine, nobody saw the tragedy. General Denkin and Romanovsky were talking with Prince Gergarin and several other Russian officials in the room at the embassy and the latter left to arrange for a motor car to bring his luggage from the steamer. A few minutes later Romanovsky was seen and General Romanovsky was found in a dying condition in the billiard room. General Romanovsky was unpopular with the officers and soldiers.

# LENINE REVIEWS STATUS OF BOLSHEVIKI REGIME

### Soviet Must Draw on Deposed Class for Help, Dictator Declares

MOSCOW (AP)—Nikolai Lenin, premier of the soviet government, addressing the members of the all-Russian communist party March 29, outlined peace proposals received by the Russian Bolshevik government, restated some of the principles which he said the soviet republic stood and revealed some concessions to the former governing classes. "We are neither at peace nor war and are neither cognized nor unrecognized," he said. "Let us have made formal peace proposals and Finland's proposals regarding the fixing of a demarcation line are equivalent to peace overtures. Regarding Poland we must be very careful because we are dealing with a government which does not know what it will do tomorrow." Discussing internal problems, Lenin said centralization or decentralization was the main question before the convention. While the soviet republic demands unaltered for certain principles, such as the abolition of private property, he said history has shown that when the change from a feudal to a bourgeois government was made, the latter availed itself of administrators from former governing classes. "We are undergoing the same experience," he continued, "and must have capable people to administer the state who understand technique of administration, while we are preparing proletarian workers for administrative positions." Tremendous enthusiasm greeted the address.

# FLAMES MAKE SWEEP OF ARMY AVIATION STATION

Several Planes, Lumber Supplies and Buildings are Destroyed in Blaze at Dallas, Texas

DALLAS, Tex. (AP)—Several airplanes, large supplies of lumber, the engine house building and the unloading sheds at the army aviation repair depot, north of Dallas were destroyed by fire early this morning. The loss was estimated by army officers at one million dollars. Thirty-six airplanes valued at approximately \$238,000 were at the station. The planes were packed and were to be shipped to various flying fields. The fire was discovered shortly before daylight by a sentry. The blaze had made good headway by the time the alarm was given. The commanding officer at the field was unable to say how the fire originated.

stood that an entire division is employed in Frankfurt and vicinity, but the plans were to reduce this force later to the size of a regiment. The city appeared to be continuing its normal life, although the newspapers were not permitted to appear. Editors of the daily journals decided that the newspapers would not be published even if permission were granted, so long as the French maintained their censorship.

## Excitement Prevails

It could be noticed early in the afternoon that there was a strong undercurrent of excitement among the population and hostility to the "invaders," as they were called here, could be plainly observed on every hand. Intense curiosity was manifested in the Senegalese and the Chinese troops which arrived today. "The invaders were white yesterday; they are black today," was the cynical comment of some of the by-standers. The early behavior of the French troops was conservative, however, and no serious incidents were heard. In mid-afternoon some of the French detachments marched out to take up positions in the suburbs and they reported immediately gaining circulation that Great Britain and America and Italy as well had discountenanced the occupation and that the French had been forced to clear out. The rumor spread like a prairie fire and gained instant credence.

## Council Against Strike

Excited pedestrians ran to the street corners to join the crowds watching the soldiers pass. It is understood that a movement was started to call a strike of short duration as a protest against the occupation, but the correspondent was informed shortly after noon that the leaders of the social democrats had been secretly gaining a firm feeling that the presence of idle workmen in the streets might lead to disorders. The Germans refer satirically to the French as "the conquerors of Frankfurt," declaring that the French secretly surrounded the city and swooped down upon it as if they expected to meet armed resistance. A number of tanks which had been placed in front of the railway station yesterday were removed during the early hours today. Fervish excitement prevailed in the city after the shooting of a number of policemen wearing civilian clothing and carrying carbines were sent out on patrol to prevent the gathering of crowds.

## Shooting to Be Investigated

At military headquarters one of the French officers admitted that an official report in the square when the blacks, who come from the French possession Senegal in western equatorial Africa, fired upon the crowd. He said a searching inquiry would be made to determine the facts regarding the shooting and the cause for it. The protective measures taken by the French after the incident included the sending of caissons of munitions to various strategic points where the troops were stationed.

domestic questions made the proposed action imperative. "The war is over," he declared. "That is known by everyone. Congress is therefore within its rights in declaring a state of war no longer exists. Autocratic war powers are falling to a free people in time of peace. \* \* \* It is the duty of congress to withdraw from the president the powers granted to him for war purposes. We take no powers from him that belonged to him in time of peace. "No one has suggested a possible justification or excuse for rearming a state of war with Germany or for continuing war powers in the president. It is left with the utmost freedom to negotiate a treaty with the advice and consent of the senate as provided in the plain terms of the constitution."

## Pen Opens Opposition

Representative Pen, North Carolina, ranking Democrat on the rules committee, made his first address in opposition to the resolution, which he characterized as the "peace humbug" to be debated for two days. Passage of the measure, he declared, "would be playing Germany's hand." Mr. Pen charged that the Republicans were seeking to make political capital for the next campaign and were offering the resolution as an excuse for broken party pledges. Howls from republicans greeted his statement that the measure was designed to embarrass President Wilson and they renewed when he said the president "had no selfish ambitions." "A few members of the house believe anything will ever come of the resolution," Mr. Pen declared. "It is another stunt of the steering committee and the autocratic power which has ruled the house during this congress."

## Predicts German Pleasure

News of the passage by the house of the "miserable, makeshift" peace resolution, he declared, would be more welcome in Germany than any since the announcement of the senate's failure to ratify the treaty. The resolution is "a business proposition from start to finish," Representative Snell, Republican, New York declared. "It is what the American people demand." "If it were not for outside political oppositions there would not be a single vote against it."

A PROCLAMATION BY THE GOVERNOR

Whereas, "Eternal vigilance is the price of liberty," and the necessity of exercising such vigilance is increasingly evident, if the solidarity of our citizenry is to be maintained, and our principles be preserved for future generations, and

Whereas, the loyalty of our fundamental institutions on the part of our citizenship generally is unquestionably sound, but less fervently expressed than is the radical sentiment of a militant minority, and

Whereas, May 1 has long been observed as an occasion for radical celebrations subversive of good citizenship, and

Whereas, it is planned to observe May 1, 1920, throughout the United States as American Day, in a manner that will provide for enthusiastic demonstrations of good citizenship and good-will, and

Whereas, various committees and organizations are already committed to the furtherance of such observance of American Day in Idaho,

Now, therefore, I, D. W. Davis, governor of the state of Idaho, do hereby designate Saturday May 1, 1920, American Day, and proclaim it a holiday after 3:30 p. m., that date, and request that all business houses, public and professional offices, be closed for the day at that hour, and that fitting recognition of the purpose of the holiday be observed.

In witness whereof, I have hereunto set my hand and caused the great seal of the state of Idaho to be affixed.

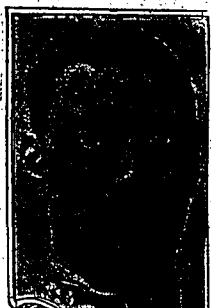

Done at Boise, the capital of the state of Idaho this fifth day of April, 1920.

(Signed) D. W. DAVIS, Governor of Idaho. (Signed) ROBERT JONES, Secretary of State.

Suggest Means of Celebration That "American Day" should be widely commemorated in Idaho is the hope of Governor Davis.

It was explained by attaches of the governor's office the reason for calling it a holiday for the day at that hour is because of the fact that during the past year there had been such a number of official holidays that it is now to be observed rapidly. Governor Davis believes that by setting the time at 3:30 suitable parades and exercises

Danes Defy King Christian. Shout for Republic.

King Christian

The refusal of King Christian, of Denmark, to renounce the Zabin Cabinet on the demand of the social democrats, resulted in wild demonstrations in the streets of Copenhagen and a threat by the Ivarsen Union Federation to call a general strike. The situation has reached the stage where mobs of workers are roaming the streets of the Danish capital shouting "Long live the Republic," "Down with the King!"

The king, according to dispatches, defends his action in dismissing the ministry because it no longer had a majority in the lower house.

may take place later without interfering in any way with business.

Several different ways of celebrating the day in the proper manner are suggested by the governor. Parades will be held in many of the cities and towns of the state.

Public school children, civic organizations and other organizations will take part. He advises that some well informed orator be chosen in each community to deliver an address on constructive citizenship, and suggests the speaker look up the historical significance of the day.

The state superintendent of public instruction, Miss Ethel E. Redfield, has designated April 30 as the day for exercises in the schools. It is suggested that school children hold Maypole exercises at sundown on "American Day" and children and grown people be asked to recite "The American's Creed" in concert, and everyone who can should participate in the parade. That the churches should take a prominent part in the belief of the governor to be necessary and he suggests sermons be preached on the morning of May 2 by pastors throughout the state.

In a concert, and for the people who would be brought out in clear relief, say those who have promoted the idea through the National Security League, and the nations colors be followed out.

The American's Creed

I believe in the United States of America—a government of the people, by the people, and for the people, whose powers are derived from the consent of the governed; a democracy in a republic; a sovereign nation, inviolable and inseparable; established upon those principles of freedom, equality, justice and mercy which shall guarantee the rights which God has given to all men; and in the sacredness of the individual life and fortune.

I therefore believe it is my duty to my country to love it; to support its government; to obey its laws; to respect its flag, and to defend it against all enemies.

DECISION GOES TO BOISE MAN IN HAMMER AND TONGS BATTLE AGAINST WOODHEAD-PIERCE K. O.

Two Good Fistic Tilts Mark Inaugural Bill Re-opening Boxing in Twin Falls—Big Fellows Put Up Tame Bout but Little Men are Willing Mixers and Thrill Audience

One knockout and two referee's decisions were the sport morsel marking the inaugurating of boxing as a public performance last night. Three contests were staged totaling 17 1/2 rounds of battling.

Alexander of Twin Falls lost by a wide margin to McClary of Boise in a four-round preliminary. "Kid" Pierce, claiming Twin Falls as his home, beautifully stimulated a knockout in the second round of his battle with Walloping Wallock of Boise in the middle of the second stanza.

Woodhead, handicapped 11 pounds, went the limit of 13 rounds with Al Nelson of Boise. Woodhead sealed the rounds, rightside, while Nelson weighed 135. Nelson was accorded a deserved decision by the referee after the two judges had disagreed, one favoring the home boy, the other the invader.

The main event, Woodhead against Nelson, was a battle from the start, with the lighter man looking it along and excess poundage of his opponent, not to proceed. Woodhead put up one of the gamest of fights but was unavailingly beaten down by the rugged, middle-aged, or to penetrate the Boise man's excellent defense until the last round of the scrap.

Nelson took six rounds by a shade, three were even. Woodhead took one by a slight margin and won by a mile in the other, the twelfth. Early in this strif, the Boise man's weight advantage was decidedly marked. At its-fighting the sturdiness of the invader told its own tale, body punches in the elitches weakening Woodhead perceptibly.

The local featherweight, however, wincing under the punches he took, with his face heaped up the agony of the blows, never for a moment retreated, exchanged punches with Nelson whenever they came to together, but his blows lacked the weight carried by those of the Swede. At long range Woodhead excelled, his stretched left invariably finding its mark. Nelson's over some stiff straight blows to the face in the earlier rounds and started blood flowing freely from Woodhead's nose. He peppered the dapper fighter with good margin, another by a mile, in addition, doubled the attenuated local boy with crashing blows to the mid-section.

In the final rounds Woodhead's extraordinary condition began to be evident. He stood off the sturdy Swede with a good margin, but the fore and back beat the Boise lightweight to a punch. Woodhead stanned Nelson with a rain of blows to the body and face throughout the remainder of the fight.

The Boise man by a burst of speed which, had it been employed earlier, would have won for Bill the decision by a wide margin of points. The crowd was partisan to a marked degree in this encounter, Woodhead's gameness winning for him round after round of applause. The battle throughout was replete with action, hard punching, cleverness and gameness. Nelson won the second, third, fourth, seventh, eighth, ninth and eleventh rounds, Woodhead taking the fifth and twelfth, the rest being even.

The set program for the evening was junked a bit when Alexander and McClary were sent forth as preliminary fighters. Alexander outweighed McClary 16 pounds, according to the examining physician's scales, but proved a weak opponent for the Boise man. Both played a cautious game, and neither was hurt during the scrap.

In the second affray "Kid" Pierce went into the ring on short notice against Walloping Wallock. He carried excess girth and a roll of adipose tissue around the neck, while his antagonist showed superb condition. Pierce gave a good exhibition while he lasted but succumbed early. The local boy went to the canvas several times, but usually from his own exertions, or for breathing spells. In the first round he caught Wallock with a stiff left on the head, and thereafter the left hand did no damage. Wallock had the advantage to the finish. The last blow struck was a stinging right to the jaw. Pierce going down to stay. He was hurt and down, all right, but not out. Later he came to the ring with his left hand bandaged in adhesive tape.

Threats are All the Weatherman Has Sent Forth

M.R. Convention President! Climatic conditions have been no worse than they have been, although you know they could be, a motion is in order commending the weatherman for his conduct during the American Legion conference; I offer such a motion.

Being regularly adopted, a copy of the motion is ordered sent to the weather functionary for his records.

At this he couldn't keep his manilles off the rain valve altogether. It sprinkled a few drops this morning, but no harm was accomplished.

One more day and then it might pour all it please. But the weatherman has played a charitable part splendidly—this far.

Yesterday's temperature was the top of the season with 67. Didn't freeze any last night either. But—

"Tonight and showers Friday." Still, that's much the same as yesterday's prognosis for last night and today.

INKKPPER SURE Gladys Ashlock and Hazel Ashlock, sisters, are made defendants in an action filed in the probate court today by the prosecuting attorney, Frank L. Stephan. The complaint charges defrauding an inkkeeper. The amount involved is alleged to be \$10.00. Mrs. O. A. Navin is the complaining witness.

MURPHY UP AGAIN

Tom Murphy made his monthly appearance at the police court this morning for trial on charge of drunkenness. Guilt was acknowledged and a fine of \$10 assessed. The fine was paid.

Keep Up the Good Work Did you see the parade yesterday? If not you missed something. The fact that all the stores in the City closed up for the occasion enabled everybody to be on hand and the crowds which lined the streets as the service men moved past showed plainly that there is no lack of interest in the American Legion and its doings, in the Twin Falls country anyway. One more day of entertainment for the visitors. Let's all do our bit towards showing them as good a time as we can. Let's send them away with the conviction firm in their minds that not only was the convention a big success but that Twin Falls is the finest little old town in the west when it comes to providing a stamping ground for conventions and similar gatherings. IDAHO DEPARTMENT STORE, Ltd. 124-126 TWIN FALLS, IDAHO. Do any of the visitors want to see Shoshone Falls? There are plenty of cars in Twin Falls whose owners would be delighted with an opportunity to take members of the Legion on a sight-seeing trip.

Twelve Million Teeth Lost IT is estimated that twelve million decayed teeth are pulled out every year by dentists in the United States. Every one of the twelve million teeth had to be taken out because of neglect. If the people who lost these teeth had gone to a dentist soon enough, all could have been saved. Think how many kinds of aches there must have been in these twelve million teeth! Think how much suffering and sickness were caused by neglect! Why not have Registered Dentists using the E. R. Parker System examine your teeth and tell you what ought to be done to save them? It will cost nothing to find out. Registered Dentists Using the E. R. PARKER SYSTEM DR. M. E. ROBY DR. M. S. ROOSEVELT'S WAY

Formulation of an adequate foreign policy is a major responsibility incumbent upon the United States during the next few months.

What these principles are may well be given careful re-consideration at the present time as well by citizens not in official positions as by those upon whom the burden of determining the nation's foreign policy falls.

Not the least among contributors to the common fund of experience in this regard was the late Theodore Roosevelt.

My course with him (Emperor William) during the last five years has been unique. I admire him, respect him and like him.

PRESENT-DAY BOXERS PULL NOVEL TRICKS

White Modern Pugilists Develop New Punches and Styles They Lack Force

By AL SPIVAK The fighters of today are always developing some new blow or trick, and the art of boxing is advancing in these days as are all other arts and sciences.

I don't think fighters of today have any more force to their blows than the old-timers. They simply know where to land, and they don't have to waste a lot of energy.

Your boxer of today, in fact, is a very lucky fellow. He has no kick on earth coming, and he thanks his stars for the opportunity he is often given to show his skill as a boxer in brief four-round bouts with six-ounce gloves as protectors.

Arab Flyweight Boxer's Coming TO U. S. A. SOON

"Brown Battler from Bagdad" Threatens to Invade this Country Immediately

LONDON, (AP)—America is soon to receive a visit from Hussein Abbas, a young Arab boxer of the flyweight class who now in London and who has expressed a desire to cross the Atlantic to meet the best American boxer at his weight.

There is a wonderful romance in the story of Hussein Abbas, who came to England. A few years ago the assistant provost marshal of Bagdad, Capt. Victor McLaglen, chanced to be standing on the banks of the muddy river which flows through that city, waiting for a boat to take him across, when he saw a big Arab making off from a date garden with a heavy branch of dates.

Clinging to the long skirts of the giant was a boy of about 11, who was fighting for all he was worth to recover the stolen fruit. The lad's face was flushed from heat and he had received and his body was bruised with kicks and punches, yet still he refused to give up the struggle.

However, McLaglen engaged the boy first as a rover, and then as a battler. He was taught boxing by his master, and when he had been taught the first rules of the game he would spend hours in sparring before a mirror.

When he arrived in London he was given a chance at the National Sporting club. He boxed well but, as he was matched against a high-class British professional, he lost the decision on points.

When the Whistle Blows

"I live so close to town," said a farmer the other day, "that we can hear the whistle blow at night. And the few hands we can get listen for that whistle and quit work just as if they were working in a factory." That, says

is what the farmer is up against this year. He can't get help. What shall he do? Well, Harry R. O'Brien discusses the question in an article next week that you surely must not miss.

Fulton Gets K. O. Against Gunboat Smith in Second Former Championship Aspirant Dropped for Count after Severe Punishment

PORTLAND, Ore. (AP)—Fred Fulton of Minneapolis knocked out Gunboat Smith of New York in the second round of a scheduled ten-round fight here last night.

Brief Bits of Sport Word from down south indicates that Pal Moore, bantamweight, is dead anxious to fight Jimmy Willie, British flyweight.

Georges Carpentier, who is reported to have said: "America is the home of fair play; you Americans fight; Americans are all fair fighters in the ring, on battlefields or in business."

Gosh, you'd think the French public was getting ready to run for public office.

Jimmy Willie is billed to take on another easy mark on April 21. The Briton

is to battle "Battling" Murry, who-over he is.

This scrap is to take place in Philadelphia and looks very much like a set-up for the English flyweight.

The first stanza in Jack Curley's sternal wrestling narrative will be enacted on April 16 with Joe Stecher and "Strangler" Ed Lewis on the mat.

The Con League is away to a good start, with all clubs playing on the opening day. The two majors begin the season's activities on April 14, which is a week hence.

Locally the baseball season ain't 'til Sim Sudley, sagbrush sage, says "Nohahy ain't got no respect for the other 'what ain't got no self-respect."

We are asked by J. J. to explain what Linbeck is.

This is an exceptionally hard one, but having referred to all the local professors, encyclopedias and the grand boy we are able to say that Linbeck is the country in a strange district of horse and chickens. In town it is the name of humans, mostly men, watching funds and elections.

"Wing" Lear, substitute first baseman of the Cubs, is said to be somewhat handicapped this spring by a weak right arm. But this has not seemed to interfere with his ability to tackle the keys of the piano in every locality the team has put up at during the training season.

Lear is thought to have wrecked his baseball career reaching for the best chord.

After the Boston Braves won a game from the Detroit Tigers a couple of weeks back it was discovered that it was not the Tigers at all. He wasn't in uniform and a rookie played center field.

Graver Alexander says he of the game makes real baseball players.

Quite so, but it goes with the bit of stiped that take with playing the game there wouldn't be nearly so much to be infatuated with, over or about, hey!

It's a great sports world for sure. Every ball manager has the best team he ever lined up and every fight man has a world-beating batter.

Oh, hum!

MISFORTUNE FOR PIRATES SHREVEPORT, La. (AP)—Water Barber, shortstop of the Pittsburgh National league baseball club, was severely injured yesterday afternoon when he was struck on the jaw by a pitched ball. His jaw was fractured in two places and several teeth were knocked out.

CADDOK WHIPS TUBE SIOUX CITY, Ia. (AP)—Earl Cadlock, former world's heavyweight wrestling champion, won in straight falls from Gus Hunsaker here last night. The first fall came in one and a half minutes as the result of a head scissors and wrist lock. The second came in nine minutes with a head lock.

**Filer Post Gets First Honors in Reputation**

In the following report prepared by the committee selected for the purpose of determining and reporting winners of awards, of which committee C. L. Longley was chosen chairman, the Filer post, American Legion, is awarded first prize for number in line. Buhl post gets second award. The report is addressed to the committee on the relative merits of the post units participating in the parade yesterday afternoon before the appearance of the marchers, as to line and cadence and the evolutions of all. Considering lack of opportunity for practice and unfamiliar command, it was very creditable.

"Of the two posts that also command appreciable difference in appearance of movement and are therefore, under our instructions from your committee, expected to have the award upon the proportion of the total post membership appearing in line. Filer, with a membership of 78, president, American Legion, with 592 members, had 40 in the parade or a percentage of 24. The committee therefore awards the first place to Filer."

**Rupert Baseball Team Comes Here for Game Friday**

Tomorrow afternoon at 3:15 o'clock Twin Falls baseball fans will have the opportunity of seeing local high school diamond men in action for the first time. Rupert's high school nine will invade Lincoln park and meet Demman's hopes at that time.

Promising material is being turned up every day. Yesterday the first practice game was played with the regulars winning 15 to 6. All men turning out were in the game some of the time and most of them did good work. Several hitters with a mauler for awaiting out homers and three-base hits were in evidence. Fix showed good form on the mound. Behind the bat Flynn, Fortyece and E. Tucker worked most of the game. Other positions are being filled satisfactorily.

Rupert will probably have a good team here tomorrow and a real season opener is in prospect for fans of the diamond.

**YOUNG MAN ACCUSED OF STORE BREAKING**

Glean France, aged 23 was arrested yesterday afternoon on charge of burglarizing Coleman's store, a retail house in the suburban section. On preliminary examination the prisoner denied guilt and has been released from custody on bonds of \$500, furnished by relatives. France will be in court tomorrow morning.

According to the prosecuting attorney, Frank L. Stephan, felonious entry of the Coleman store was effected on Tuesday night.

**Deaths**

At the family home, 255 Sixth avenue north, at 4 o'clock this morning, was recorded the death of Mrs. Maria Meach. Demise brought to an end a period of suffering covering a number of years. Arrangements for the funeral are being made. Last rites will be said at the Catholic church either Saturday or Sunday. Decedent is survived by her husband, Fred W. Meach. She was born at St. Germaine, Paris, France September 6, 1872. The body is at DeWitt's chapel.

Funeral services were conducted at DeWitt's chapel this morning for Viola, the three-month-old baby of Mr. and Mrs. Bufus Leary, 510 Third avenue west. Death culminated an attack of pneumonia yesterday morning. Burial was in Twin Falls cemetery.

William Hesley, aged 70, of Bogeros, died early this morning at a local hospital of complications following an operation. The body, now at DeWitt's, is to be forwarded to Ogden for burial. Decedent is survived by three sons, J. N. Hesley, W. F. Hesley, both of Bogeros, and C. H. Hesley, of Twin Falls. Four sisters, also survive.
