SONORA READY TO BATTLE WITH FEDERAL ARMY

Report Indicates Every Possible Precaution Taken to Properly Fortify Frontiers Against Invasion

AGUA PRIETA OBJECTIVE OF CARRANZA REGIMENT

Eight Hundred Government Troops Leave Juarez for the March on Casas Grandes into Seceding State

TUCSON, Ariz. (AP)—General Carlos Plana, second in command to General Calles, who came here today to bring his family, today, appealed to President Carranza to send a commission to Sonora, expressing the belief that it is in the same and understanding can be reached.

EL PASO, TEXAS (AP)—Eight hundred Mexican federal troops in command of Colonel Fox left Juarez today for the Arizona-Northern Mexican railroad for Casas Grandes, Chihuahua. The Carranza troops arrived in Juarez Tuesday from Chihuahua City. Now federal troops are on route to Juarez according to information received there today.

It was stated that the troops which left today for Casas Grandes and which are cavalrymen, will march overland from Casas Grandes into Sonora and to Agua Prieta, opposite Douglas, Ariz.

AGUA PRIETA, Sonora (AP)—That every precaution possible is being taken by the military of the republic of Sonora to properly fortify its frontiers from any possible invasion is evidenced by a report received today at First divisional army headquarters by General J. M. Pina, commander of all general headquarters at Hermosillo.

Give Instructions to Callas The report reviews in detail the details at a meeting of the council held at Hermosillo yesterday at which military body instructed General P. Elias Calles, commander of all Sonora forces, to proceed forthwith to make preparations to properly fortify the Sonora-Sinaloa frontier as well as certain mountain passes on the Sonora-Chihuahua state line.

According to the report the action of fortifying the Sonora-Sinaloa boundary line was decided upon after a communication from Governor Harbo, of Sinaloa, had been read to the war council by General Calles, in which Harbo made it plain to the Sonora government that his state would remain loyal to First Chief Carranza. While absolutely neutral as far as the Sonora situation was concerned, it is a violation of the sovereignty of the state of Sinaloa should any attempt be made by the U.S. Sonora government to enter the state with arms, force, or an attempt to interfere with Carranza forces now operating in Sinaloa.

Release Fleet Notices According to the council's report, the German steamer "Vorweris," recently seized at the port of Guaymas by order of the Carranza government for carrying arms and ammunition to the rebel forces, has been taken over by the republic of Sonora and now is being refitted as a cruiser. She will carry six mounted cannons, and at the same time will be used as an army transport along the west coast of Sonora.

General Pina said today reports reaching first divisional headquarters revealed that during the last forty-eight hours thirty-six hundred recruits have joined the ranks of the new Sonora army, which is reported from Hermosillo that approximately five thousand Yaqui Indians have now associated themselves with Calles.

Turpin Takes to Air to Protest on Strike

TUCSON, Ariz. (AP)—Captain Turpin, in charge of the United States aerial patrol at Nogales, flew to Tucson today to enter protest with Southern United railroad officials because army equipment and supplies are held up here by the switchmen's strike. Passenger crews may be drafted to insure quick delivery at Nogales, it was said.

Calls Grand Jury to Investigate Strikers

NEW ORLEANS, La. (AP)—Federal Judge Foster today called a special session of the federal grand jury to consider the cases of eight "outlaw" strike leaders arrested by Southern United railroad agents on charges of interfering with interstate commerce, violating the Lever act and interfering with the mails. Judge Foster announced that grand jury men would be instructed to investigate every possible phase of the strike here.

REFER MARTENS CASE TO DEPARTMENT OF JUSTICE

Senate Investigators of Self-Styled Bolshevik Ambassador Report Conclusions Reached

WASHINGTON (AP)—Declaring that Ludwig G. K. Martens, self-styled Russian soviet ambassador to the United States, is a German subject, "and in consequence an enemy alien," the senate committee which investigated his case reported today that his activities had been such "as to render him more suitable for investigation and action by the department of justice than by a committee of the senate. Martens is now awaiting a hearing by the department of labor on a deportation warrant issued just before the senate committee concluded its investigation. The investigating committee's report was laid before the senate foreign relations committee today.

ADMITS MEXICAN LABOR IMMIGRANTS TO REET FIELDS

Demonstration Enters Second Day with Fatality as Constable is Shot and Killed by Unidentified Man

DUBLIN, (AP)—Removal of the hunger strikers from the Mount Joy prison was begun at 5 o'clock this afternoon. In the presence of great crowds ambulances carried the first of the prisoners at that hour to the Mater Misericordiae hospital. It is understood that the strike will be declared off tonight.

LONDON, (AP)—Andrew Bonar Law, the government spokesman, said in the house of commons today that the British government had decided to treat those prisoners in Mount Joy prison who were arrested on suspicion by competent military authority differently from other classes of prisoners and they would receive ameliorative treatment.

The government's policy, it says, "is based on a too narrow conception and is consequently wrong." Emphasis is laid by the Daily Mail on the fact that many of the hunger strikers have not been convicted, in properly constituted courts of justice and therefore should not be allowed to starve.

Federal Agents Disclose Part of Russian Internationale in Abetting Continuing Disorders

INDUSTRIAL CRISES DEVELOPING IN WAKE OF TRANSPORTATION TIE-UP

WASHINGTON, (AP)—Evidence obtained by the department of justice was said today to show that the Russian communist internationale is undertaking to use the railroad strike as the vehicle for the creation of a mass strike in the United States.

Reports from federal agents were said to have disclosed that the communist party was financing and otherwise aiding the strike through the agency of the Industrial Workers of the World.

Evidence which the department has received was declared to justify the statement that the strike was to be merely a step in the well known plan of the communist group and that the end and aim was a mass strike to be followed by a revolution.

CHICAGO, (AP)—Improved freight traffic conditions were reported today in the central west with "insurgent" railroad men returning to work at several points, but the industrial situation in Ohio and Michigan reached a crisis as a result of stoppage of fuel supplies and in the far west a passenger train was reported stalled in southern California. Both insurgent leaders and officials of the "loyal" broadheads predicted the battle of the strikers would be a "lingering affair," but broadhead heads declared the insurgents gradually were losing strength.

Improvement Is General. The railroad strike in Chicago and the west entered its fourteenth day today with additional improvement reported from practically every rail center affected. For five days all reports have indicated a gradual resumption of business throughout the central states.

The Western Association of Railroad Managers today reported passenger and suburban business in their territory being maintained at normal. Livestock receipts at the Chicago yards today showed an increase while trains of fresh meat and live cattle were dispatched to eastern cities, the first in several days.

Half of Chicago Engines Operating

Railroads in the Chicago area declared that 50 per cent of the switch engines in the district were operating, largely with the help of more loyal brotherhood men from other cities. Railroad officials and newly employed men were aiding in moving freight.

Government agents were taking a close check on the strike situation at various rail centers and at New Orleans six insurgent leaders arrested last night in a raid on a strikers' meeting were being held on federal warrants charging interference with the United States mails.

The American Federation of Labor through its railway department today reported that 74,000 members in eight railroad crafts, endorsed President Wilson's appointments on the labor board and declared its belief that the union could confidently expect justice through the law creating the board.

In Detroit 100,000 factory workers were reported idle and between 40,000 and 50,000 industrial workers in other parts of Michigan had been thrown out of work by the strike. More would be jobless by nightfall.

Ohio Mines Shut Down

In Ohio more than 100,000 men were out of work in Columbus industries and virtually every coal mine in the state closed. Food supplies were reported scarce in many cities. A mail train was reported to have been abandoned at Washington and the mail returned to the postoffice.

Hope of ending the switchmen's strike at Columbus faded against midnight today as the train equipped with slight progress was made by strikers who went out at Cincinnati, the railroads announced.

Toledo Confiscates Coal

Coal on tracks at Toledo was being confiscated under a federal court order to maintain operation of street car lines because increasingly serious coal industrial plants announced they would be forced to close unless fuel was forthcoming.

Additional men were reported at work at Cleveland with some freight moving, but the situation apparently remained unchanged. Warnings were issued against attempting long trips east, west or south because of the possibility of the strike spreading to passenger service were issued by the railroads.

Northwestern Situation Better

Serious interference with passenger traffic was reported on the Santa Fe route in southern California and the situation became increasingly serious. Reports from northern Pacific cities showed continued improvement.

SENATE DELAYS ACTION ON RAIL LABOR TRIBUNAL

Discussion of Nominations in Two Hours' Executive Session Results in Deferring Decision Until Tomorrow

CONCLUSION OF CABINET SESSION IS KEPT SECRET

President and Members of Official Family Discuss Strike Situation for More Than an Hour

WASHINGTON, (AP)—The senate today failed to act on the nominations of the members of the railroad labor board after discussing the nominations in executive session for nearly two hours, the senate finally deferred action until tomorrow.

Discussion was said to have centered especially around the labor and the public groups, with special inquiry made concerning J. J. Sewer, the engineer representative, who is president of the Union of Railroad and Steamship Clerks.

WASHINGTON, (AP)—President Wilson and his cabinet discussed the railroad strike for more than an hour today and apparently reached some conclusion for nearly two hours, the senate finally deferred action until tomorrow.

Attorney General Palmer made this statement as he left the White House: "It is fair to conclude that the strike situation was discussed, but I am not prepared to say what conclusions were reached." Mr. Palmer went direct from the White House to his office and immediately surrounded for a conference his assistants who have been keeping close touch with the strike situation.

Mr. Palmer went direct from the White House to his office and immediately surrounded for a conference his assistants who have been keeping close touch with the strike situation.

Palmer Enters Conference

Soon after the cabinet meeting, the president telegraphed the members of the senate labor board asking them to come to Washington and be prepared to function as soon as their nominations had been confirmed by the senate.

The immediate summoning of the board was one of the matters decided upon at the cabinet meeting, it was learned.

The president had been informed that Senator Cummings, chairman of the senate labor board, had prepared a resolution permitting the board to meet here instead of Chicago and the president's action was said to be the adoption of this resolution.

Lodge Calls Up Nominations

Shortly after convening at noon today, the senate at the request of Senator Lodge of Massachusetts, republican leader, went into executive session to consider the nominations to the senate labor board submitted yesterday by the president.

After a long conference with his assistants, Attorney General Palmer returned to the White House for a conference with Secretary Tumulty as to the strike situation. He still maintained alliance as to the government's policy.

A. F. of L. Directs Members to Hold Job

KANSAS CITY, Mo. (AP)—Telegrams directing members of the railway employees department of the American Federation of Labor to remain at work in the face of the present "outlaw" strike of switchmen were sent today to all locals of the organization affected by the strike. The action was taken at the biennial convention here of the railway employees.

ORDERS ILLINOIS STATE TROOPS SENT TO SCENE OF STRIKE RIOTS

SPRINGFIELD, Ill. (AP)—Acting Governor Ogilby, following a request from Sheriff Wilson of Henry county, today ordered Adjutant General Frank Dickson to send state troops to Keosauqua to assist the sheriff in maintaining order at the plant of the Keosauqua Tube company where strike riots have occurred.

ACTION FOLLOWS ATTACKS ON WORKERS AND OFFICIALS

KEWANEE, Ill. (AP)—Sheriff Samuel Wilson of Henry county today reported to the governor to send troops here to maintain order, following a series of fights between workers at the Walworth Manufacturing company and between 2900 and 3000 strikers.

Employees of the Walworth company, a valve and fitting plant, struck four weeks ago for recognition of their demands, the closed shop and more money.

# HUNS ALLEGE CONSPIRACY ON PART OF FRANCE

### Semi-Official Statement Published in Berlin, Charges Plan for Creation of Buffer State in Rhineland

BERLIN, (AP)—A semi-official statement published here Tuesday states from what purports to be a report of a conference of French officers of high rank, recently held at Mayence, at which it was said to have been agreed that the "line of the Rhine" was necessary for the protection of France against the "average ideas of German military circles."

It was therefore considered, adds the report, that a buffer state must be created which should include the part of the right bank of the Rhine comprising Dusseldorf industrial district, the Ruhr region, and Frankfurt and its neighborhood.

Every embarrasment of Germany should, the report says, be exploited to the best advantage. The statement continues:

"The conference also agreed that it should be best to divide Germany into five or six states or republics in alliance with Belgium. France could then on the basis of the various paragraphs of the peace treaty march into Germany and remain there."

"This definite and clever policy would put France within one or two years in possession of what Marshal Foch wants, namely, an ally on the frontier with strong bridgeheads without any serious opposition on the part of the allies or Germany."

## UNDERTAKES CONTROL OF CONVENTION TRAVELING

### Democratic Committee Offers Plan to Attract Travelers Westward Before San Francisco Session

CHICAGO, (AP)—A new departure in political convention management has been launched by the democratic national committee, which has opened a transportation bureau to care for the delegates, alternates and spectators who will go to San Francisco to attend the convention June 28.

The shortage of railroad equipment and the flood of traffic on all roads is responsible for the innovation.

See America First! tours to points of interest in the west, including Yellowstone park, the grand canyon, Los Angeles and others, are being planned by the democrats as a lure to attract at least a part of the travelers westward two or three weeks before the convention, thereby spreading the burden on the railroads over a longer period.

For the return trip from San Francisco a system has been worked out whereby the visitors can buy east-bound tickets within 36 hours after the convention opens, the tickets to call for return passage eight hours after the convention closes.

A problem in convention transportation has always been the return trip, as the day and hour for the close is always uncertain.

E. K. Bixby, a transportation official of the Pennsylvania railroad system, has been loaned to the democratic committee to take charge of the transportation bureau. He has obtained the co-operation of the association of the western passenger agents, and the Pullman company, promised him first call for his parlor car equipment.

The transportation committee of the national democratic committee, which is directing the work, includes Charles Rosenbath, Illinois, chairman; Isidore B. Dockweiler, California; W. W. Marsh, Iowa; Fred B. Lynch, Minnesota; and Patrick H. Quinn, Rhode Island.

## MUST ENROLL SOON FOR CHICAGO TRIP

### Juniors in 1920 Pig Club Contest Urged to Get in Line by May 1

BOISE, Idaho (Special)—Boys and girls wishing to compete in the 1920 pig club contest for a free trip to the International Livestock Show at Chicago next winter, must enroll by May 1, according to an announcement from the officers of the university extension division. The prize, offering \$175 for the trip and expenses, is offered by Armour's farm bureau, to the farm bureau juniors club members who exhibit the champion club pig over all breeds exhibited in the club department of the state fair at Boise, September 27 to October 2.

A similar prize was offered last year, and was won by William Stuart Weiser, who made the Chicago trip last December.

"The purpose of these prizes," it is announced, "is to increase the knowledge of farm boys and girls in the state and to encourage them to take up the practice of verified farming, thereby maintaining soil fertility and making the business of farming continuously profitable, knowing that upon the prosperity of the farmer depends the prosperity of the whole country and its industries."

Club members entering this contest, it is announced, must enroll in accordance with the regulations of the state club leader. An affidavit of completion of the work must accompany a request to be sent the state leader not later than November 15. The winner will write a story of his experiences on the Chicago trip of from 200 to 400 words.

## ASKS MINE LAW CHANGES

### Yukon Development League Formulates Requests to Dominion Government

DAWSON, Y. T., (AP)—Amendment of the Dominion placer mining laws for Yukon territory, to permit extensive prospecting of sixteen grade placer creeks and valleys for the purpose of inducing developing companies to extend their operations, will be asked of the Dominion government by the Yukon Development league, it was declared recently.

Several large dredging companies have worked out their original ground, but may cease operations unless gold placer mines may be secured, it was said.

The league, which is composed of miners and business men, will also ask the government to abolish the present royalty on gold. These behind the movement claim that gold has lost half its purchasing power and gold mining is the only industry which may not increase the price of its products.

## EASES REGULATIONS FOR PROSPECTOR IN ALASKA

### No Royalty Required for Five Years Unless Wells Produce 100 Barrels

WASHINGTON, (AP)—To encourage prospectors seeking oil and gas in Alaska, Secretary Payne has issued new regulations covering the appropriation of the public domain for that purpose in the territory which give much more liberal terms than are extended in the United States proper.

No royalty will be required for five years, unless wells producing more than 100 barrels of petroleum a day are brought in, in which case the royalty will be five per cent of production. After five years a 5 per cent royalty will be imposed upon production on government land, and after ten years, the royalty will be increased to 10 per cent.

The prospector will be allowed, however, to use one-fourth of the area he leases from the government royalty free, no matter how much oil it produces.

Secretary Payne explained in issuing the regulations that the terms were lightened in view of the hard conditions which oil developers will have to face. Territory where oil indications are abundant is about 200 miles inside of the Arctic circle.

Rentals on gas, if any are produced, are not fixed, but will be prescribed in each lease issued.

## INDUSTRIAL COURT IS PROPOSED IN NEBRASKA

### Institution of Tribunal to Determine Labor Controversies Is Submitted to Voters' Verdict

LINCOLN, Neb., (AP)—Creation by a future state legislature of an industrial court to determine controversies between employers and employees in any business or vocation affected with a public interest will be possible in Nebraska if a constitutional provision is adopted by the voters at a special election next September 21.

This is one of about 40 other constitutional changes proposed by the reform state constitutional convention. The industrial commission, under the proposal's terms, would also have power to enforce laws against "unfair business practices and unconscionable gains affecting the public welfare." Appeals to the supreme court from the commission's final orders would be provided.

## CHINESE NOW CREDITED WITH ORIGINATING TERM YANKEE

CHICAGO, Ill., (AP)—The name "Yankee" came from a Chinese phrase "Yankiang," by way of East India, where the words were corrupted to "Yang Gee," according to Teh Y. Hsieh, Chinese labor leader who recently arrived here to establish relations with the American Federation of Labor. "Yang Gee" means "you are a young foreigner."

Mr. Teh believes the word Yankee was first applied to New Englanders or Dutch sailors who had learned the phrase in the orient.

## SEEKS PROTECTION OF FLORA OF CALIFORNIA

### National Wild Flower Conservation League Calls Conference to Meet in San Francisco

SAN FRANCISCO, (AP)—A conference here April 22 of nature guides, members of outdoor organizations, hiking clubs, Audubon associations and others has been called by Mrs. Bertha M. Rice, president of the National Wild Flower Conservation league, to plan for better protection of the native flora. The matter will be brought before the California legislature next January.

Many varieties of the rarest and most beautiful wild plants have been completely exterminated in some localities and are threatened with extinction in others, it is said. As a result of efforts directed by the Wild Flower Conservation league—action was taken by many local municipalities and by the supervisors of several counties, prohibiting the wanton destruction of these beautiful trees; in many instances imposing fines and in some cases jail sentences.

Calif. among those who will participate at the conference will be: Dr. Harold C. Bryant of the University of California, who will discuss nature guiding in the Yosemite national park; and Miss Elizabeth P. Burnett, its official nature guide of the Rocky Mountain national park. Dr. Frederick W. D. Evoy, president of the Audubon association of the Pacific will discuss native flora in its relation to our wild birds.

### University Specialist Declares Farmer Not Profiteering in Clothing

LAFAYETTE, Ind., (AP)—The Indiana farmer receives \$5.85 for the wool in an average suit of clothes large enough for a man weighing 175 pounds, according to Claude Harper, a university sheep specialist. Mr. Harper has issued a statement declaring farmers are not profiteering in the sale of clothing.

Mr. Harper says that if a suit is made of the very best grade of wool, which is selling at about \$1.00 per pound, the wool in the suit will cost \$7.37.

# FEDERAL BOARD URGES IMPROVED MARKET POLICY

### Trade Commission Declares the Movement of Food Should Be Made Direct from Field to Factory to Cut Costs

WASHINGTON, (AP)—Declaring that the costs of food distribution are too great, the federal trade commission today recommended improved marketing facilities and processes at the great consuming centers as a long step toward lowering the high cost of living.

"The movement of food should be made direct from field to factory," the commission declared in a report on wholesale marketing of food, one of the series in the food price investigation ordered by the president.

"The report asserts that a rapid rise in food prices in recent years is not so significant as 'that the money incomes of large numbers have fallen far short of a proportional increase.'"

#### Income Fall Short

The weekly wage of union organized labor in 1918 bought but 77 per cent (according to the department of labor) as much food as in 1913. The larger number of service incomes do not fall within this organized group and are much slower to respond to the pressure of a higher cost of living.

Moreover, these incomes are for the same reason usually less a statement of follows that for very large numbers of people receiving relatively smaller incomes, a week's wage in 1918 was purchasing much less than 77 per cent of the food it bought in 1913.

"Food absorbs 38.2 per cent of the average American household's income. It therefore constitutes a considerable part of the wage and salary cost in all production. Of two communities whose products enter the same market otherwise equally, that one which supplies its working people with food at a lower community cost either will pay its working people a higher real wage or will have an actual advantage in underpricing the other through lower production costs. Both results may in some measure follow."

#### Suggests Governmental Policy.

"A wise governmental policy to ward the food industries may lower production and distribution costs together with the final sales price without proportionally increasing governmental costs, thus reducing the national cost of food."

## FILIPINOS USE BOLO IN REVIVAL OF DUELLING

### One Combatant Suffers Loss of Hand; Goes to Hospital while Adversary Lands in Jail

MANILA, (AP)—Two Filipinos have just fought with bolos the first duel in Manila since the beginning of the American occupation. One of them suffered the loss of his left hand in the fight.

Angel Umali and Tranquilino Paglinawan met with seconds and friends in a vacant lot near the center of the city just before dusk to settle their quarrel with the favorite no-holds-barred. Umali forced the fight and soon landed the blow that severed his adversary's left hand. Paglinawan fought on and Umali, despite his victory, took to his heels but was caught by a policeman.

Paglinawan was taken to a hospital where he has since been in a critical condition. As there is no law against duelling in the Philippines, Umali will be prosecuted on a minor charge.

## SIXTEEN MAJOR LEAGUE TEAMS ALL TUNED AND READY FOR FRAY BEGIN SEASON'S PENNANT RACE

### This is Championship Race "Getaway Day" for the Best Exponents of the Great National Game — Special Ceremonies Mark Opening Event in Each City — Close and Exciting Scrambles Expected This Year

Tanned and hardened by six weeks of intensive training under southern sun the baseball teams of the National and American leagues open the 1920 season this afternoon, weather permitting. There appears to be every indication that the season will be conducted under favorable conditions.

In the National league, Boston plays at New York; Philadelphia at Brooklyn; Chicago at Cincinnati and Pittsburgh at St. Louis, while the American league clubs will clash as follows: New York at Philadelphia; Washington at Boston; Detroit at Chicago and St. Louis at Cleveland.

In each city special ceremonies will mark the birth of another baseball season and although there do not appear to be any novelties in sight the fan will welcome the parades, band concerts and other formalities with the usual enthusiasm of the hundreds of diamond doings, more important to come. That they will not be disappointed in the prediction of close followers of the national game, for, according to these baseball prophets the big and little leagues are facing the most important and successful season in the history of the sport.

In addition to the pennant races, once the clubs reach their fall playing season and although there do not appear to be closer and more exciting than last year in the case in some past seasons. In both the National and American leagues every team manager has made strenuous efforts to improve the strength of his club during the winter and some have apparently achieved success.

While it will be close to June before the true strength of the clubs can be accurately gauged it is the consensus of opinion among baseball sharps that Cleveland, New York, Philadelphia and Washington are all stronger in the American league than was the case a year ago, while Detroit, St. Louis and Chicago can be expected to equal their 1919 form. The Boston club is considered an uncertainty. In the National league, Philadelphia, Chicago and Brooklyn are thought to be more powerful and better balanced than last year. New York, Pittsburgh and St. Louis appear on a par with their tactical strength a year ago, while Boston and Cincinnati do not appear to have improved as perceptibly as other teams in the senior league.

Clubs of the American association also will swing into action today for the start of the nineteenth annual pennant race. Toledo will take the field at Indianapolis, Minneapolis at Kansas City; St. Paul at Milwaukee, and Columbus at Louisville.

## Brief Bits of Sport

Of all the days in the year this is the BIG DAY in baseball.

The barrier was raised for the start of 16 major league clubs in the two top circuits.

According to Red Sox news, Pitcher Leaseur has ample time to devote to baseball training.

Having trimmed the Cincinnati Reds the New York Yankees are the spring world champions.

It is said that Barber, of the Pirates, is not yet a smooth outfielder. Perhaps a close shave if he gets by.

Men have endured untold hardships in the pursuit of fame, but only Jimmy Austin has fastened ten years with the Browns.

With a pair of "Bannys" on the team, Bunny Brief and Danny Falcou, cabbage must be a favorite diet with the Kansas City Blues.

With admission tickets to a ball game bringing \$15 a throw, they must have to sell a lot of chewing gum in Yuetan to get the price of a pastime.

Bryan Harris, the Athletics' young pitcher, stands 6 feet 0 inches well. He'll have to keep his hinges well oiled in order to fold himself in an upper berth.

Sim Smiley, sagebrush sage, says: "No, practical joke is a good one often. It suits on you."

The Braves proved to be easy picking for the Columbus team, but Joe Tinker's troupe of ancients will have to do better than that to win the American association pennant.

Maybe those American league batters who declare that Edlio Cicotte, the White Sox pitcher, has seen his best days as a heaver, are right. "nuckers" is starting his thirteenth season in the big show.

The Chicago Cubs and the Vernon Pacific Coast league team played a series of games for the Wright trophy. The only reason they played for a trophy is that their salaries don't begin until the regular season opens.

Gossip on the Pacific coast has it that Buck Weaver of the White Sox, wants to be traded to New York. Buck may have a hunch that Gotham is the right place to get in on another world series.

If the Walker bill permitting 15-round boxing bouts in New York passes Gotham will be in position to bid on the Carpenter-Dempsey bout, thus adding a lot to the keenness of rivalry for the big match.

The last cook did not last, the latest cook will be the late cook and the coming cook will quickly be gone. Ahem.

## NOTICE TO CONTRACTORS

### A House on Wheels

By T. B. ALDERSON

Copyright, 1919, by the Western Newspaper Union.

Lucia Trever feared Aaron Walters because he held over her absolute control and power. When her father, leaving her a large estate, selected Walters as her guardian until she was eighteen. His wife had been a flashing beauty of the footlights and their first born, Hector, had inherited her vivacity and love of excitement. He had not her sterling worth of soul and character, however, had gone to the dogs swiftly, and after both mother and son died and John Trever himself was stricken with a fatal disease, he thought gloomily of the uncertain future of his remaining child.

"I have made a will giving you entire charge of Lucia," Mr. Trever told Walters. "I can confide in you that I fear the gypsy, Bohemian traits which only made my dear wife charming, but in Hector developed into reckless vagabondage. Lucia must marry before she is eighteen or the bulk of my fortune goes to charity."

For five years Lucia lived with the Walters people. It was a lonely, depressed existence. Everything was kept from her that could develop a longing for change, entertainment or companionship. When Lucia was fourteen Mrs. Walters died. For the next months there was a housekeeper. Then Walters sent Lucia to an old aunt of his who kept a small boarding school. Lucia was just past seventeen when Walters took her for a week's vacation to his gloomy home. While Lucia was there a cousin of his, a young man named Jasper Trull, repellant to Lucia in every way, came and went, and essayed to make an impression upon her. The day that Walters took Lucia back to the school he said:

"Lucia, you will not have to remain much longer here. Then you will be eighteen and my guardianship of you ends. As you know, you must marry before your next birthday, and I have agreed in accordance with the wishes of your dead father. I have selected an estimable young man as your husband—Jasper Trull."

Lucia said not a word, and Walters supposed that she had meekly, miserably submitted to fate. He chuckled and shuddered whenever she thought of Trull, with his grim, awkward ways. She set her lips firmly in defiance as she outlined a plan of escaping the fate her tyrant guardian had in store for her. He asked her how she intended an old wreck of an automobile. "You are to come home with me," he said. "I have employed a lady to act as a housekeeper and help you prepare for your new life."

Firmly Lucia made up her mind to escape. Fate favored her. They had proceeded about 20 miles when, at the edge of a slough, the automobile sank to its hubs. Walters hailed a farmer driving with a team of mules, the team was at once harnessed to the machine. Walters pushing behind the auto and the farmer at its side.

"Gently pull that lever just enough to give the auto a start," Walters directed Lucia. There was a jar, the frightened mules made a spring. Stating off Walters hit the mud and wearing the laces from the grasp of the farmer, they dashed out of the rut and down the road, a runaway indeed!

It was at the end of a mile that Lucia leaped from the auto, darted into a stretch of woodland, and felt that she was free at last. She hurried on and on, thinking only of evading recapture. As she reached a country road it began to rain. Lucia was wet and chilled when a wagon overtook her. It had a man leaning top on it; a young man was its driver, and a woman appeared at the door of the tourist vehicle.

"Get in if you want a lift," suggested the young man, and there began a new and delightful chapter in Lucia's young life. The driver of the car were brother and sister, Roland and Marcia Brooke, both artists, taking their summer outing.

There seemed to arise a mutual liking between them. Lucia told only enough of her story to appeal these sympathetic friends that she was fleeing from persecution and forced marriage with a man she despised. There was room in their house on wheels and in their hearts for this homeless wanderer, and the glories of the universe burst upon her radiant vision amid the sylvan beauties of scenes they passed through.

"Oh, I have something to tell you!" exclaimed Lucia one day in her impetuous way, and she told them that Roland was fishing. "I almost forgot. Tomorrow is my birthday, and I must get married."

"Why! what are you talking about, Lucia?" he inquired, started at her impetuous exclamation.

"Oh, I must, you know, because—"

She hesitated as to making a full explanation, and added simply: "So those two men cannot make me go back. You must find me a husband, Mr. Brooke, oh, surely you must! And right off—today."

Find her a husband! He was already her lover! He took her hand and looked her intently in the face. "Lucia," he said, "would you take me for better or worse?"

"Oh, if you could say anything but for better!" she whispered, and it was not until later, after the marriage ceremony, that Roland Brooke knew he had been an heiress for a wife.

### Chicago Mermaid to Represent Uncle Sam at Olympics

Betty Grimes.

Miss Betty Grimes, of the Illinois Athletic Club, one of the greatest women divers in the country, will in all probability represent the United States in the aquatic events at the Olympic games at Antwerp. Miss Grimes is shown here executing a perfect "jack-knife" dive at a recent water carnival in Chicago. She is twenty years old.

### COMMUNISTS USE (Continued from Page One)

Sania Fe officials at San Bernardino, Calif., said: "Ten or twelve" trains were stalled between Barstow and Albuquerque, N. M., and three passenger trains were reported abandoned at Winslow, following refusal of trainmen to do switchmen's work.

Five eastbound trains on the Santa Fe, including the California Limited, were tied up at Needles and San Bernardino were reported at Needles, San Bernardino and Barstow, Cal.

### Fruit Growers Alarmed

Announcement of a stringent embargo on all perishable fruits at San Bernardino caused alarm among growers of oranges and lemons.

At Los Angeles 175 freight handlers and clerks walked out increasing the seriousness of the freight tie-up.

Strikers at Hilliard, Wash., near Spokane met today to vote on ending the walkout and the insurgents at Everett, Wash., returned to work last night. Return of strikers at Sparks, Nevada, opened the Southern Pacific's channel from Sacramento. At Ashland, Ore., a new walkout occurred but was said to involve only a few men.

### Strike Leaders' Meeting

A meeting of all strike leaders on the Pacific coast was called for today in San Francisco.

Slight relief from freight congestion was reported at Kansas City and at St. Louis the situation was pronounced unchanged. Railroad executives predicted that the strike would be settled by the end of the week. A strike of the switchmen on all roads at Wichita, Kansas, was set for today.

Seventy-five freight conductors and brakemen went out at El Paso, Texas.

### New Mexico Traffic Suspension Broken

ALBUQUERQUE, N. M., (AP)—The Atchison, Topoka and Santa Fe railroad this afternoon began moving the strike-bound passenger trains west upon advice that strikers at Gallup, N. M., had returned to work.

The Atchison, Topoka and Santa Fe railroad today suspended all traffic west of here because of the switchmen's strike. Three westbound passenger trains were being held here.

### Four other passenger trains due to arrive later were to be held. "Stub" trains were being run east.

Reports received here were that switchmen and yardmen were on strike at Gallup, N. M., Winslow, Ariz., and Seligman, Ariz., and at Barstow, Cal.

The passenger trains now held up here were two sections of No. 1 of last night and No. 9 of this morning. Train No. 3, No. 7 and two sections of No. 1, due here this afternoon and tonight, was not to be moved west.

### Early Improvement View in Pittsburgh

PITTSBURGH, Pa., (AP)—Railroad officials today were confident that the peak of the yardmen's strike had been passed and that the next 24 hours would see further improvement in the situation. This sentiment, they said, was not based on reports that strikers had returned to work, but on the failure of the "outlaw" organization to add trainmen and engine men to their ranks. There was no change in the freight situation, and additional mills and mines were closed today for lack of raw materials and cars for finished products.

### Today's Markets

**New York Exchange**  
NEW YORK, (AP)—The aggressive operations of the pool contributed largely to the further advance of speculative issues in today's stock market. Public interest also proving a factor. Sales approximated 1,500,000 shares.

**Wheat**  
NEW YORK, (AP)—Final prices today on Liberty bonds: 3 1/2's \$95; first 4 1/4's \$90.50; second 4 1/4's \$87.44; third 4 1/4's \$81.50; fourth 4 1/4's \$87.54; Victory 3 8-4's \$90.48; Victory 4 3-4's \$90.50.

**Grain and Provisions**  
CHICAGO, (AP)—Bullish sentiment predominated in the corn market today and prices advanced, to a moderate extent. It was a widely accepted opinion that receipts were likely to be small for a considerable time even after the switch strike came to an end. Much notice, too, was taken of the fact that exporters were paying 60 cents or more above the established minimum for wheat. Opening corn prices, which ranged from 1-4 off to 7-8c advance, with May \$1.07 to 1.07 1/8 and July \$1.00 to 1.00 1/2, were followed by gains all around.

A temporary reaction took place on account of reports that a purchase of 350,000 bushels of oats for France had been cancelled. It was said, however, that the purpose of cancelling was to use the ocean tonnage to ship wheat and rye to France. Corn closed nervous, 1/8 to 1 1/8c net higher, with May \$1.67 5/8 to 1.67 3/4 and July \$1.60 1/4 to 1.61.

In oats, as well as in corn, offerings were light. After opening unchanged to 1-4c higher, including July at 85 1/4 to 85 7/8, the market continued to harden.

Higher quotations on hogs helped to lift provisions. Grain strength was likewise a stimulating factor.

ILLINOIS GIVES PREFERENCE TO HER GOVERNOR

Lowden Wins in State-Wide Primaries but Loses Cook County to Wood; Johnson Surprises Leaders

CHICAGO, (AP)—With 5324 out of 5890 precincts in Illinois, including Cook county based from the presidential vote stood: Lowden, 228,646; Wood, 188,626; Johnson, 48,656.

CHICAGO, (AP)—According to latest returns today Governor Frank O. Lowden, of Illinois, won the Illinois presidential preference primary in his home state yesterday by a plurality of 64,374, a return from all but 430 of the 10,000 precincts in the state.

MAYOR William Hale Thompson, of Chicago, republican national committeeman for Illinois, carried every ward except one for committeeman, thereby gaining complete control of the Cook county organization for four years.

THE surprise of the primary, according to supporters of both Governor Lowden and General Wood, was the large number of voters who wrote in the name of Senator Johnson, who had made no speeches in Illinois and had no organized supporters.

OFFERS SUBSTITUTE FOR JOINT PEACE RESOLUTION

Senator Mcumber Would Provide Only for Resuming the Trade Relations

WASHINGTON, (AP)—A substitute for the republican joint peace resolution adopted last week by the house was introduced today by Senator Mcumber, of North Dakota, leader of the republican mild reservationists in the peace treaty fight.

Under the Mcumber resolution commercial relations between the United States and Germany would be resumed to the same extent and under the same limitations as though no war had existed.

HOUSE AND PREVENTION

The House of Representatives after some debate Tuesday adopted a resolution directing that evidence obtained by its special committee...

It would be difficult to quarrel with the decision of the House in this regard. The proposal is simply one for punishment of the guilty and certainly there is none who would shield the guilty ones in this respect.

The matter goes farther. Seemingly the House, in its initial action in the premises, has stressed this particular one of the recommendations of the investigating committee.

One criticism might be urged in connection with this proposal. It affords a tedious method for arriving at a situation where the end sought may be attained.

With respect to prosecution of the guilty in connection with war time expenditures, the initiative must needs be delegated to the Attorney General.

With respect to legislation designed to prevent recurrence of the crimes alleged the initiative lies with Congress.

Competition between the Attorney General and Congress with the attainment of action along these lines as the goal would be applauded by most Americans.
