MEXICO WOULD MOVE TROOPS THROUGH U. S.

Asks Permission to Transport Soldiers Through American Territory to Attack State of Sonora from North

PINA PREPARES AGAINST INVASION POSSIBILITY

Orders Garrison at Oaxaca, Numbering 800, to Proceed at Once to Defend Agua Prieta on Border

AGUA PRIETA, Sonora, Mexico, (AP)—Troops of the republic of Sonora stationed at Oaxaca numbering 800, have been ordered to proceed at once to defend this port, according to General J. M. Pina, in order to prepare against possibility of invasion of this by Carranza troops from United States territory, in event permission is granted the federal government to route troops through the United States.

WASHINGTON, (AP)—Mexico has asked permission from the United States to move troops through American territory so as to attack the state of Sonora from the north. No action on the request has been taken. The Carranza government wishes to move its forces on the Mexico Central line to El Paso, thence through American territory to Douglas, Ariz., and across the boundary to Agua Prieta from which point a movement against Hermosillo, the capital of Sonora, would be undertaken. The only other point of attack against Sonora is through the Pupillo pass between Sonora and Chihuahua, and it was said that this pass could be defended by a very small force of Sonora troops.

In making known today that Mexico had requested permission to move troops through Texas, New Mexico and Arizona, officials said the United States was under pressure from the Mexican government.

Mexico frequently has asked permission to move its troops through American territory to attack the state of Sonora and on some occasions it has been granted. The American government has been notified officially in respect to the closing of the customs houses on the Sonora-American boundary. The Sonora state authorities have established and are maintaining customs houses.

Blames Wilson Policy for Mexican Trouble

WASHINGTON, (AP)—Mexico's present position is due to "the unfortunate and unwise policy of the Wilson administration," Henry Lina declared today before a senate committee investigating Mexican affairs. Mr. Lina, who was appointed ambassador to Mexico in 1909 by President Taft and resigned soon after President Wilson's first term began in 1913. The former ambassador told the committee that in the six years since his resignation every prediction he made then as to the result of President Wilson's policy had been justified by the events.

"President Wilson's theory that any number of Mexicans are struggling for liberty is erroneous," he said. "It is simply a free for all struggle for loot."

AMEER, China, (AP)—The Chinese troops which mutinied at Anhui recently succeeded in gaining possession of that town, to the northwest of Amoy, in Fukien province. Their success was aided by factional forces from Chang Chow, southern Fukien. Fighting also is reported in other places in the vicinity, with Christian churches being seized for the use of the soldiers. The forces of General Chen are said to be gaining strength. Troops of the northern army have captured several hundred Cantonese (southern forces) near Amoy.

CIVIL WAR IMMINENT OVER CHARGE OF GOVERNORS

SHANGHAI, China, (AP)—Serious disturbances have occurred in the province of Honan and civil war is imminently expected, according to reports by Chinese officials here. This situation is the result of a change of tutelage, or military governors, in the province had been ordered by military authorities. It was announced recently that General Wu Kwan Hain, formerly inspector general of the upper Yangtze province and now inspector in charge in Honan to succeed General Chao Ti. Murmurs against the appointment were at once heard, and after open threats by the Peking government, an open clash between troops of General Chao and those of the appointee General Wu, occurred in the Yang Chow, on the Peking Hankow railway.

General Wu's troops are scattered throughout the northern part of the province in a way calculated to bottle up those of the tuchun. He is seeking to replace the military governor behind him. It is estimated in Shanghai that General Wu commands about 40,000 troops, while General Chao Ti has many more than half that number.

GERMANS GUARD AGAINST THREAT OF NEW REVOLT

Take Precautionary Measures as Rumors Spread of New Attempt to Overthrow Government to Join Soviets

BALTIC TROOPS DEFIANT; HOIST "KAISER'S FLAG"

Administration Armed Forces are Massed in Center of Berlin Following Return of Severeing from Ruhr

PARIS, (AP)—The representatives in Berlin of France, Great Britain, Italy and Belgium will join in a warning to Germany that she must execute the terms of the disarmament and demobilization of the peace treaty, according to press dispatches. It is understood that the charges d'affaires will also say to the German government that in case the insurrectionary movement in Germany is not put under control, it may refuse further deliveries of foodstuffs.

PARIS, (AP)—(Havas)—The danger of a new uprising against the Ebert government in Germany apparently has passed for the time being, according to advices from Berlin today. Strict precautionary measures are still being taken, however, the advices say. Recent dispatches have reported a grave situation in Pomerania with rumors of an impending revolt.

The German government decided to place guards around government buildings because of rumors of a new attempt to overthrow the government for the purpose of forming an alliance with soviet Russia to declare war on France, according to advices from Berlin Thursday. The social democrats have issued an appeal, the advices added, calling upon their adherents to resist all attempts of the republic against internal enemies, arms in hand.

APPEARANCE POINT FOR FREEDOM FIGHTERS

LONDON, (AP)—Germany has every appearance of preparing for civil war, says the Daily Mail's Berlin correspondent. The Baltic troops are defiant. They are hoisting the "kaiser flag," says the dispatch.

REPORTS SHOW GENERAL RETURN OF STRIKERS AND IMPROVED SERVICE

Drastic Cuts in Passenger Schedules and General Industrial Shutdown Believed Averted

BROTHERHOOD OFFICIAL CANCELS CHARTERS OF INSURGENT UNIONS

(BY THE ASSOCIATED PRESS). Return of strikers and improvement in service was reported today by railroad in various sections of the country as the newly appointed railroad labor board assembled in Washington for its first session to consider wage demands of rail workers.

In the New York district there were conflicting reports concerning the number of men who had returned after the railroads last night had delivered an ultimatum that their last chance would expire tomorrow noon. Some roads announced that strikers were flocking back but others reported sporadic walk-outs. Some brotherhood officials expressed fear that the men might regard the ultimatum as a challenge and prolong their walkout.

With generally improved conditions throughout the country, increased freight shipments were reported in the New York and New England districts. New England points reported arrival of more freight, including coal, than any day since the strike spread to the east. Proposed drastic cuts in railroad passenger schedules and a general industrial shut down were believed to have been averted.

Cancels Charters of Insurgent Unions

CHICAGO, (AP)—Charters of three lodges, Brotherhood of Railway Trainmen, were revoked today by A. F. Whitney, vice president of the order. The lodges, of which John Grunau, president of the "outlaw" yardmen's union was a member, 697, stockyards, local and 193 of San Francisco. More than 700 strikers in Chicago were thus removed from union membership losing their seniority and all other rights.

All other strikers in the Chicago district have been given until midnight Saturday to return to work, Whitney announced. If they refuse their memberships will be cancelled and their seniority rights lost.

Early Disintegration of Strike is Forecast

CHICAGO, (AP)—Speedy disintegration of unauthorized railroad strikes in the central and far west was forecast today with a serious blow struck by the government at the insurgents' stronghold in Chicago by the arrest of 25 strike leaders. The arrest of the Chicago leaders, some of whom were held under bonds of \$10,000 or arranging for bail, with promises to refrain from participation in strike activities pending the hearing, is believed to have the lever food control act, left local insurgents virtually leaderless.

Federal officials indicated that no further arrests were scheduled. Strikers Are Warned. Warnings were issued in the principal strike centers in the west that unless the men returned to work by tomorrow their positions would be declared vacant and new men employed.

In Chicago 500 switchmen were ordered to return to work, it was announced. Steel mills at Gary, Ind., where 10,000 workers have been idle, were preparing to resume operations.

The situation in Michigan and Ohio where several hundred thousand industrial workers have been forced out of employment remained virtually unchanged. Hopes of railroad officials for early resumption of the freight and passenger coast states were stimulated by an announcement at Los Angeles that the Order of Railway Conductors had agreed with Southern Pacific officials to respond to future calls for train service regardless of strike conditions. The agreement was said to affect all Southern Pacific lines from Portland, Ore., to El Paso, Tex., and Ogden, Utah.

Pacific Coast Service Normal. Passenger service on the Pacific coast was reported practically normal. Southern Pacific officials said freight traffic was rapidly nearing normal.

Strikers were reported returning to work at St. Louis and at Kansas City brotherhood chairman issued an ultimatum to strikers to report to work on or before tomorrow under penalty of losing their seniority rights.

RAILROAD LABOR BOARD TAKES UP WAGES DISPUTE

Temporary Organization Elected at Initial Meeting by Election of Hunt Chairman, Hanger Secretary

WASHINGTON, (AP)—The railroad labor board perfected a temporary organization at its initial meeting today by electing Henry Hunt, former mayor of Cincinnati, chairman, and G. Wallace W. Hanger, of this city, as secretary. Both are members of the public

The wage dispute as it stood with the breaking up of the bipartisan wage conference here two weeks ago was subordinated to the railroad employer announced, and the board will begin consideration of it at once.

Secretary Hanger's announcement made it plain that the board would not consider separately the wage demands of the railroad men now on strike. The bipartisan conference here today was held to take the matter up where that conference left it.

The newly appointed railroad board which is to consider immediately the wage demands of the railroad employees, held its first meeting here today with six of the nine members present. The three railroad representatives, Horace Baber, J. H. Ewing and William L. Park, were on hand, but J. J. Forrester was the only labor representative present while only two of the public group attended the meeting. They were G. Wallace W. Hanger, of this city and Henry Hunt of Cincinnati. All are expected to be here by tomorrow.

New York Climbs Stairs

Strike of Elevator Operators Causes Revival of Lost Art in Gotham

NEW YORK, (AP)—Revival of the lost art of walking up stairs was forced upon thousands of reluctant persons in New York today by a strike of union elevator operators. The union claims a membership of more than 17,000.

The operators, who voted last night to strike for increased pay and shorter hours, did not show up for work this morning. Women who ran the lifts during war days were being sought as strikebreakers by building owners.

Delay seemed interminable to petulant workers, many of whom already had been held up by transportation difficulties and finally they commenced the long, tedious climb to offices on the tenth, twentieth or 30th floor.

The operators claim their strike has the sanction of the American Federation of Labor. They demand wage increases ranging from \$5 to \$10 per week and the eight-hour day with time and a half for overtime.

Women Are Invited to Join Move in Kentucky

LOUISVILLE, Ky. (AP)—An "overall club" was formed in Louisville today to propose a women's strike in an effort to force down the cost of clothing. Eighty-five members pledged their support to the movement.

CHICAGO SEEKS TO FORESTALL RENT PROFITEER

Regulates Increase in Rates and Organizes Corporation to Build Homes and Sell Them on Easy Payments

CHICAGO, (AP)—This city is attempting to prevent rent profiteering by regulating increases in rates and by organizing a \$100,000,000 corporation to build homes and sell them on easy payments. Meanwhile Chicago's flat-dwellers have been forming unions to wage war on alleged profiteering landlords and committees of the city council have been investigating increases in rents ranging up to 100 and even 200 per cent.

House Boats Offer Solution.

Several hundred families have now solved their individual housing problems by making their homes in house-boats moored in the branches of the Chicago river, the Calumet and lakes in south Chicago. Once in possession of a house boat, the owner only has to pay 1 a month for the privilege of mooring his craft. If he does not like his location he can move his home boat elsewhere. Many of these boats cost \$100 and have five rooms, parlor, dining room, kitchen and two bedrooms.

In some cases groups of tenants have solved the rent problem by forming co-operative companies and buying the apartment houses in which they live.

Plans Model Homes.

The housing corporation, which has been financed by banks and business men, has under consideration a plan to build a row of model homes in Grant park on the lake front. Examples of many types of standardized homes would be erected, furnished and surrounded by settings of trees and shrubbery so that in the future purchasers of a new home could look over the styles before placing his order.

Attempts have been made to check rent profiteering by co-operation of the city council and the Cook county real estate board which investigated complaints and, when increases were found to be excessive, advised the landlord to withdraw his demands. In general the investigators have allowed an increase of about 30 per cent over last year's rentals.

Union Opposes Scheme.

A proposal was made to erect scores of portable houses but the carpenters' union declared its opposition to that plan, even if the houses came from union factories.

The recent tornadoes which destroyed 100 houses and damaged 400 more in Chicago and its suburbs have augmented a housing shortage which had already become acute through suspension of building operations in the war and long drawn builders' contracts.

ANNOUNCES DISCOVERY OF FLUID COAL SUBSTITUTE

ST. LOUIS, Mo., (AP)—Discovery of a new fuel which is greater in heat value than either coal or present fuel oils was related here Thursday at the closing session of the convention of the American Chemical Society.

A paper prepared by Jerome Alexander of New York asserted the fluid would prove valuable to navigation, permitting a wider cruising radius and that it could be used for smoke screens in warfare. The new fuel utilizes coal waste and cheap tars, it was explained, and mixed with a secret process creates a liquid having the heating qualities of coal, and oil.

WOULD TAX GASOLINE TO PAY TEACHERS' SALARIES

Montana School Board Chairman Offers Proposal for Raising Fund to Meet Pay Increases.

MISSOULA, Mont., (AP)—A tax of one cent a gallon on gasoline sales for automobiles is suggested by Frank M. McEliffie, chairman of the board of trustees for the Missoula county high school, as a means for raising funds with which to grant salary increases to teachers in the institution, several of whom have resigned, giving inadequate salaries as the cause. "The people who drive automobiles can afford to pay this tax, and, altogether, it appears to me to be an entirely just method of taxation, though, of course, the law to provide for this taxation would have to be passed by the legislature," said Mr. McEliffie. "A tax of this kind would relieve the present burdensome taxation on real estate."

CHICAGO CLOB PLANS CRUSADE ON GAMBLING

Club's Management Starts Move to Stop Betting Iniquity at Ball Games

CHICAGO, (AP)—Gambling on baseball games will be curtailed, according to officials of the Chicago National League baseball club, who have started a movement against the practice. It is claimed that numerous bets are made on the strength of who the opposing pitchers are to be. This year, Manager Fred Mitchell, declared he will not announce his pitcher until the time his batting order is handed to the umpire, just before the game.

Manager Mitchell, whose home is in Boston, said he knows of numerous instances in which the wagers were placed after the pitchers had been selected. He said he also knows of a certain hotel waiter who paid \$5 a day by a gambler for obtaining from the visiting manager the name of the pitcher who was to perform for the visiting club that day.

"Most of the betting is done in the pool rooms downtown," said Mr. Mitchell, "and I believe if the proprietors of these places would know who is going to pitch they will not be so keen to accept wagers. By withholding the name of the pitcher, I believe much of the gambling will stop."

"If we desire to keep the sport pure, gambling must be eradicated. The Chicago club is to do all it possibly can to stop it," Mr. Mitchell continued, "and if there is the least suspicion of it on my team an investigation will be made and the man or men who are apprehended will not stay a minute."

Brief Bits of Sport

Headline—(Must have one every day) "Jack Johnson Matched to Box."

We are in no manner interested in the matches that are made for the burly black; what we want is to have somebody give the exiled fighter a beating that will hammer some of the impudence and offrontery out of him.

Nobody has ever succeeded in this, not even Jess Willard, and the black pugster stands on the other side of the Rio Grande and makes faces at the Yankee federal officers.

Perhaps that's right, but as we recall those same exports figured the same way, and soe what happened.

Headline (another one)—"Allies Balk at Invasion of Germany by French."

Presidential years have been looked upon by sports as bad years for baseball, but this one seems to be different, with a lot of reverse English on it.

With Joe Bulliet Bush pitching in his real form it looks as though the Red Sox would have at least one winning twirler.

The husky lad who went from the Minnola club of the old Union association in 1912 had a bad season in 1919, but seems to be right back now.

Department of Labor Buies in Case of Alleged Conspiracy Against the British Rule

WASHINGTON, (AP)—Deportation proceedings brought against Wilhelm von Brincken, former military attaché of the German consulate at San Francisco, who was sentenced in 1917 to two years in federal prison for conspiring to foment revolution against British rule in India, were cancelled Thursday by the department of labor.

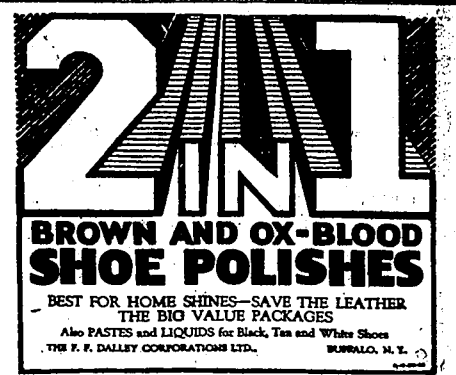

The proceedings were based on the charges that within five years of his entry into the United States, von Brincken committed a crime involving "moral turpitude," but the department of justice ruled that a violation of neutrality was not subject to such an interpretation.

OVERALL CLUB MOVE SWEEPS OVER COUNTRY

Novel Organizations are Formed Throughout Nation with Object of Cutting Cost of Clothing

WASHINGTON, D. C. (AP)—The "overall club" today obtained what amounts to official recognition. The navy department granted permission to members of such a club formed by civilian employees at the Norfolk navy yards and Hampton Roads to purchase the denim garments from the navy at cost price. Two suits of overalls of the standard type worn by the American bluejacket are to be allowed each club member.

SAN FRANCISCO, (AP)—Overall clubs gained new members today in the coast cities. Whittman college freshmen and sophomore students appeared in Walla Walla, Wash., wearing old clothes and "shaki" garments. The Lewiston, Ida., high school students signed 200 members in their overall club. The Lewiston students announced they will enlarge the field of the club that all young men of the city can become identified with the movement. The leading men of Blaine, Ore., began wearing overalls yesterday after signing the membership roll of an overall club. The petition bore the signatures of bankers, professional men, some merchants and other citizens. County officers started the petition for the club.

For more than a month the office force in the Northern Pacific freight house at Spokane, Wash., has been wearing overalls in an effort to cut down the high cost of mens suits.

MOVEMENT SPREADS OVER

SOUTHWEST LIKE FLAME
KANSAS CITY, Mo., (AP)—The "overall club" movement, intended as a protest against the high prices of clothing is spreading rapidly throughout the southwest. Diapatches said clubs had been formed in numerous places in Missouri, Kansas, Arkansas, Oklahoma and Texas.

The movement in Missouri began at Jefferson City, where state house officials and employees are signing pledges to wear denim until clothing prices are reduced.

Kansas City, Kan., Salina, and Wichita, all report large followers of the movement. The inaugural "outfit" of the Rev. Joseph Brogan, mayor-elect of Emporia, Kan., and president-elect of the Emporia Overall club, will be overalls, according to his announcement. The Emporia club reports several hundred members.

In announcing the organization of an overall club at Kansas university Chancellor Frank Strong said he would lead the membership among the young men in wearing overalls and that Mrs. Strong would set an example for the young women of the university by adopting the cottage apron as the ap-

Today's Markets

New York Exchange

NEW YORK, (AP)—Tight money exerted a restraining influence over the early and intermediate period of today's stock market, but the list rallied substantially later when the rate eased. Sales approximated 1,500,000 shares. Trading became active in the last half hour, steels and equipments mounting to best prices of the day as call money dropped to 3 per cent. The closing was firm.

Liberty Bonds
NEW YORK, (AP)—Final prices today on Liberty bonds were: 3 1/2's \$93.52; first 4's \$90.10; second 4's \$86.70; first 4 1/4's \$90.29; second 4 1/4's \$86.70; third 4 1/4's \$91.50; fourth 4 1/4's \$86.74; Victory 3 3/4's \$90.08; Victory 4 3/4's \$90.

Grains and Provisions

CHICAGO, (AP)—Corn prices darted higher again today, and once more surmounted top records for the season. General commission house buying accompanied the advance. Bulls urged that notwithstanding the quotations we far above the feeding value of corn, it must be remembered that contracts for future delivery could only be filled by corn at terminal markets and not by corn on the farms. Open-

ing quotations which ranged from 3-3/4 to 1 3/4c higher, with May \$1.70 to 1.71 and July \$1.64 to 1.64 3/4, were followed by slight setback in some cases but then by a rally.

Oats reflected the action of corn. After opening 1 1/4 to 1 1/8c up, including July \$1.28 1/2 to \$1.29, the market sagged a little, and then resumed its tendency to climb. Big re-selling of oats which had been purchased for export and afterward to a sharp setback in the corn market. The close was unsettled at the same as yesterday's finish to 1 1/8c higher, with May \$1.29 1/2 to 1.29 3/4 and July \$1.64 1/4 to 1.64 3/4.

Provisions were dull but firm. The strength was derived chiefly from the grain.

Have You Stopped to Consider?

That the Regular, Every-day prices at The United Stores are lower than the "Special Sale," "Close-Out Sale," "Saturday Special," etc., etc., that are imposed on the public these days?

You Have Only to Stop and Think—

It is the merchant that makes his lowest price first, and has only one price, that you can depend upon. When a merchant offers you so-called cut prices for certain days, is it not sufficient proof that his regular prices are TOO HIGH? Such is the condition, or someone is paying the high price, that he may offer the reduction. No merchant is swamping dollars. No, neither are we, but here's—

Wherein The United Stores are different—

We have one and only one price, every day so long as the article lasts, to you, your neighbor, everybody alike. No favorites, no biased concessions. The same fair treatment to all alike. One price and that the lowest we can figure. You are guaranteed satisfaction. We stand back of every sale. You will find that

Mrs. W. B. Dano and family, who resided on a farm two miles northeast of Acquia, was entirely destroyed by fire Thursday. The fire originated from an overheated stove and Mrs. Dano who was home alone, did not discover it until it had gained such headway that she was unable to save anything. There were three rooms full of fifty sacks of seed potatoes, a barrel of packed meat and a good supply of groceries, but purchased, were destroyed. The loss was about \$3000 with no insurance.

Mr. and Mrs. William Treiber, who reside on their farm west of town, have returned from California, where they spent four months and a half visiting friends.

THE STRIKE IN POLYMER.
(Lewiston Tribune.)

The use of the general strike to accomplish a political purpose has become rather common in Europe. The recent instances in Germany and Denmark are distinctive only by the circumstance that the strikers brought about their ends. In the attempt, German labor put the Ebert government back into authority after it had become fugitive, and Danish labor overthrew the royal government and extorted large political concessions from the throne. But if in no other European country has labor effected such direct results by the use of the general strike weapon, it has in nearly every European country employed that weapon against a disident government. Even Spain and France are no exception, the strike has been main tool on the nationalization of the coal mines has been deferred for the general election.

which the labor party expects to win by collecting with other parties, such as the Irish and the Liberal. Except for the hope of carrying the forthcoming election, England would doubtless now be in the throes of a coal strike and perhaps other great strikes.

While the strike has not yet been deemed to procure or to influence a political purpose in this country, it has been threatened, as the demand for modification of the prohibition law, and when the chief of one of the railroad brotherhoods declared that every train would be stopped if the decision to return the railroads to private operation was not rescinded. That threat was not executed because the executive officers of the other brotherhoods withheld their support from the demand. It would, however, be rather too sanguine to expect that the United States will continue immune to the experience of Europe in this respect. Labor is steadily becoming more self-conscious as a class group, and the success of the strike in European countries must increase the temptation to use it as a means of accomplishing what it fails to accomplish by the use of the ballot.

However, as a political weapon the strike will lack much of being as powerful in the United States as it has been shown to be abroad. Organized labor, and even all industrial or crafts labor, is a much smaller percentage of the population here than is probably any European country except Russia. A basic reason for this is that labor, as such, has no distinctive dividing line in the United States as it has in the old countries. Nor is the country so abjectly dependent on the uninterrupted employment of labor in its accustomed ways as is probably imagined by those who propose the use of the strike for political purposes. It was shown rather clearly during the railroad strike in England, where the

percentage of industrial labor to the total population is much greater than it is here, that the unorganized forces of society can make shift to subsist during the prostration effected by labor strikes. Organized labor can put the country to immeasurable inconvenience and inflict incalculable financial losses, but it cannot starve the country, or any part of it, or coerce any element of it except the shifty and demagogic politicians. That fact will be demonstrated if the country should ever be put to the test of demonstrating it, and as developments suggest it may have to do, before we are very much older.

DENIES COOK ISLANDERS PLEA FOR INTOXICANTS
Head of New Zealand Parliament Mission Disappoints Thirty Ones of South Seas
PAGO PAGO, American Samoa (AP)—Plea of the white residents of the Cook Islands that limitations on the importation of alcoholic liquors be removed was denied by Sir James Allen, head of the New Zealand parliamentary party which is touring the South seas, it was reported on arrival of the party here this month.
The demand of the whites for representation on the legislative council of the islands was granted.
At Apia in western Samoa both the white settlers and natives set forth objections to New Zealand acting with mandatory authority from the league of nations, it was reported. Direct control from London was preferred, it was said.

This is all that Swift & Company's profit cost the average American family in 1919.

Here are the figures and authorities for them.

The average consumption of meat per person for a year is about 180 pounds (U. S. Government).

The average American family is 4 1/2 persons (U. S. Census).

Swift & Company's profit from all sources in 1919 averaged less than 1/4 cent per pound on all products including meat.

This averages for the family less than the price of—

1 cigar per week for father, or 1 street car fare per week for mother, or 1 package of gum per week for the children.

The complex service which we furnish the public is efficient and economical. The cost to the public in the shape of profit is too small to be noticeable in the family meat bill.

THE GOAL
Gradually as the facts come to light the sinister nature of the unauthorized walkout of railroad men becomes apparent. Slowly but surely the public is being offered the proof, proof beyond the peradventure of a doubt, that the germ of the movement is the same as that which finds lodgment in the hearts of the alien rods whose presence contaminates Ellis Island. Destruction of the American government through the operation of a pseudo labor demonstration, no less, is the goal at which the moving spirits aim.

The four great railroad brotherhoods are conservative organizations along side the group of radical gangsters who are responsible for the plight of the entire Eastern half of the country. Gomper appears in the role of capitalist's generous and trusted friend when he holds up to view with Red Foster.

General Wood, in a recent political speech, replied to a question as to his views on the red-malace, something after this fashion: "As to Government action with respect to the imported agitator and alien rods, there can be but one answer. There is no room for argument. Such men should be shipped or shot."

Some there may be who will not agree with General Wood but it begins to look as though the proposed program should be carried a step farther than the original proposition. Even citizenship should not protect downright treason.

Some day the American people will awake to a full sense of the menace which threatens their country and much of this awakening will be on the part of the very men who have been misled into becoming part and parcel of the movement.

As to that little group of spiritual enclaves who refuse to see anything at all out of the ordinary in existing conditions and who go blindly about the business of life declining absolutely to exert their piddling mentalities one way or the other, or even to recognize the occasion for exertion, those we have always with us—and will continue to have.

BRINGS LONELY ISLANDERS INTO WORLD RELATIONS

Pitcairn Island Inhabited by Descendants of British Sailors on Route of New South Pacific Lane

PAGO PAGO, American Samoa, (AP)—The opening of a new ocean lane has brought into communication with the outside world Pitcairn Island, situated in the eastern part of the South Pacific, an island which, before the construction of the Panama canal, was perhaps, one of the most rarely visited places in the Seven seas.

The Great Circle route from Panama to Australia passes directly by Pitcairn Island now and in consequence the once lonely island has become a salvia suddenly in close touch with world events whereas, in times past they accounted themselves fortunate if in a year one or two ships visited their shores.

Pitcairn Island is inhabited by the descendants of the British sailors who more than 100 years ago found and seized the ship "Bounty," and setting their commander, Captain Bligh, and his officers adrift in an open boat returned to Tahiti and, having induced a company of natives to accompany them, sailed away to Pitcairn where they remained undiscovered for 85 years.

There are now forty families living on the island, all of them direct descendants of these mutinous white men and their Tahitian wives.

The island, lying just to the southward of the tropic of Capricorn, has a semitropical climate and in consequence many of the fruits of the tropic. This fact makes it a grateful stopping place for vessels.

DENIES HOWAT NEW TRIAL Kansas Court Overrules Motion Presented by Miner's Attorney

PITTSBURGH, Kan. (AP)—Judge Andrew L. Curran of the Crawford county district court Thursday afternoon overruled a motion for a new trial in the case of Alexander Howat, Thomas Harvey, August Dorechy and R. B. Foster, officials of the United Mine Workers, sent to jail last Friday for contempt of court in refusing to testify before the court of industrial relations. The motion was presented by Phil H. Callery, attorney for the miners.

For a Severe Cold Chamberlain's Cough Remedy cured my daughter Anna of a severe cold and cough a few years ago and ever since then I have never missed an opportunity to recommend this medicine to anyone suffering from throat or lung troubles. I can speak too highly in praise of it," writes Mrs. D. J. Shelby, Earlville, N. Y.

Chamberlain's Cough Remedy contains no narcotic and may be given to children with perfect confidence. It is a pleasant syrup so they do not object to taking it.—adv.

BADGER REFUTES CHARGES

Registers Emphatic Denial of Allegations of Admiral Sims WASHINGTON, (AP)—Rear Admiral Badger, head of the navy general board since the death of Admiral Dorey told the senate investigating committee Thursday that he wished to make "emphatic denials" of Rear Admiral Sims' charges that the navy was unprepared for war, had no war plans or policies in April 1917, and pursued a vacillating policy for six months after war was declared.

"I had plans, well considered ones," he declared. "The trouble is that the plans and the execution of them did not meet with the approval of the critics."

"Despite the adverse criticisms that have recently been widely circulated I may confidently be maintained that the navy met, and stood the stress of a great war."

STOCKHOLDER IN TIMES WANTS HIS NOTE BACK

J. W. Hays Sues Local Newspaper and D. M. Denton for Return of Security

Suit to recover possession of a promissory note of \$1000 made by J. W. Hays and given to the Times but used by the latter in helping to finance the Twin Falls Times was commenced yesterday by Hays in an action directed against the Times and Denton jointly. According to the complaint the note was secured by Denton to be used by him for the benefit of the Times but was to be returned to Hays intact when due, it apparently being the understanding of Hays that he would not be called upon to pay the note. The note was given the capital stock of the Times amounting to \$5,000 but since that time, the complaint avers, the anti-trust law has been increased to \$75,000 and the value of the shares thereby exceeded until they are worth not to exceed ten cents on the dollar in a statement made in its column December 23 last the name of J. W. Hays appears as a stockholder along with 127 others who presumably had contributed to the financing or upkeep of the institution. The government required statement of the paper as of April 1, however, contains stockholders on the names of D. M. Denton, L. G. Hill, I. E. Finney, D. F. Detweiler, Peter Erickson and Frank DeKintz. A discrepancy which will be accounted for by Mr. Hays' allegation in the complaint in effect that when he gave the note he received an option to take stock in the Times to the amount of it, which stock he elected not to take. An interesting sidelight is shed upon the situation through the trip taken by Mr. Hays, Turner K. Haseman and some others to the scene of D. M. Denton's present operations in oil and oil lands in Oklahoma. It appears that a group of local men decided to secure a quantity of leases and empowered Denton to obtain these. The trip to Oklahoma was necessary, it is said, to compel Denton to turn over the leases, it is said. It is stated that further trouble is brewing among Times stockholders, dissatisfaction with financial arrangements and sharp criticism of the policy of the paper being the two principal contributing factors.

OVERALL OLIVE MOVE

(Continued from Page Five.) proved garb for both home and street wear. The movement in Oklahoma is of state-wide proportions, Oklahoma City reports. Dallas and Amarillo, Texas, and Pine Bluff and Hot Springs, Ark., were among the towns in those states reporting the foundation of the clubs. LOWLY OVERALL SUPPLIERS FINCH BAKED IN BIRMINGHAM BIRMINGHAM, La., (AP)—The lowly overall today supplanted the "pinch back" in Birmingham. Rainy weather served to fortify the wavering intention of those who had resolved "to see what the other fellow did" before they donned denim to themselves. As a result the pledge to put 'em on today was universally kept. City commissioners functioned in denim; judges applied the law in the same uniform; bankers, doctors, lawyers and merchants wore their overalls with an assurance which could only have been acquired after long practice before the courts. The women had quietly "organized" at home. Towards noon many appeared in denim of calico and gingham and the weather, the cheerfulness of the downtown section, the appearance of a carnival. Retail clothing have advertised "knights" sales in men's wear and lower price marks were observed in some store windows. The cost of overalls is six dollars and there seems to be no likelihood that they will be sold for less than \$6 for a suit," said J. W. Hays. "The movement of the street court. This movement of clothing will bring down the cost of clothing."

GRAND OPERA ALMOST SURE FOR TWIN FALLS

Tentative Arrangement for Honora Company to Appear on April 26 and 27

While all arrangements have not been definitely made the fact is pretty well established that the Honora Grand Opera company will appear in Twin Falls on Monday and Tuesday, April 26 and 27. The company first attempted to get a date here on Sunday, April 25 but the city administration declined to grant special permission for a Sunday show in Twin Falls. Since the meeting of the city council Monday Manager F. O. Smith, who has been here since the decision of the council was made, has had long and earnest communications with the booking office in Chicago relative to a change in the schedule. The result has been a tentative agreement to make such a change so that Twin Falls can have grand opera. On the first night Rigoleto will be produced, if Travatore the second night. The company is European and South American and carries about 100 people. The principals are: Beatrice Pizzoni, soprano, from La Scala, Milan; Consuelo Medina, coloratura, of the Colon, Buenos Aires; Speria Castel, mezzo, from Regio, Turin; Rosa Carli, soprano of Covent Garden, London; Carlos Mejia, tenor, from the National, Havana; Alfred Graziani, tenor, from the Metropolitan, New York; Eduardo Lejarza, baritone, from the National, Havana; Francisco Cruz, basso, from the Liceo, Rio Janeiro. The company's repertoire includes such operas as Aida, Manon Lescaut, Ballo in Maschera, Navarrais, Barber of Seville, Pagliacci, Carmen, Rigoleto, Cavalleria Rusticana, Somnambula, Faust, Tales of Hoffman, Favorita, Traviata, Lucia Di Lammermoor, Il Trovatore. If the company comes here there will be an entire change of principals in the two operas produced.
