SONORA'S GUARD AT BORDER TOWN IS REINFORCED

Four Hundred Additional Troops Arrive at Agua Prieta after Night March from Naco; 900 More En Route

MEXICAN REVOLT AREA SHOWS RAPID INCREASE

Secession Movement Gains Support of at Least Four Other States Besides Adherence of Individuals

NOGALES, Ariz. (AP)—Leaders of the revolution against the Carranza government will meet in Agua Prieta, Sonora, within a few days to formulate plans for the government of Mexico, according to a statement today by X. L. Gomez, former Mexican consul here who is acting in similar capacity for the Sonora government.

AGUA PRIETA, Sonora. (AP)—Four hundred more Sonora soldiers arrived here early today after a night march from Naco for service on the Sonora-Chihuahua border. Nine hundred more are en route from Naco and Oconango.

The first large movement of artillery also was en route and officers of the staff of General J. M. Pina said the Sonora troops would invade Chihuahua this week. General Carlos Plunk, one of Sonora's military leaders, arrived here last night.

General P. Elias Calles, commander-in-chief of the Sonora forces, arrived at Naco at midnight. Soldiers and the civilian population of Agua Prieta were jubilant last night when news was received that General Alvaro Obregón was in anti-Carranza forces in Michoacan and that further defections of Carranza soldiers had been verified.

Reports Show Spread of Revolt Movement

WASHINGTON, (AP)—Reports both to the state and war departments today continued to support the general idea of dispatches that have told of the rapidly increasing area of revolt in Mexico. Administration officials stated they are carefully watching developments in Michoacan and that further defections of Carranza soldiers had been verified.

Sonora has been practically cut off from communication with the other states in reaching the revolutionary leaders.

Advices today to representatives here of the Sonora state government said General Benjamin Hill has been wounded in a skirmish at Cotacachi, near Mexico City, as reported in a statement given out yesterday by the Mexican embassy. The advices said General Hill was in the state of Guerrero with General Mayrort's forces.

According to the dispatches to the Sonora representatives, President Carranza has ordered a blockade against the entry of American newspapers into all border points.

The advices also said that General Victor E. Bolm supported by the state troops of Hidalgo, was declared in favor of Sonora.

WOULD TAX STOCK DEALS FOR SERVICE MEN BONUS

House Committee Republicans Agree Tentatively on New Levy to Raise Funds

WASHINGTON, (AP)—A tax on all stock exchange transactions equal to the brokers' commission has been agreed to by the committee on ways and means of the house today. The committee is one of the new levies for raising money for the soldier bonus legislation.

Three other levies for raising the money similarly have been adopted by the republicans. These are a 1 per cent levy on the final sales of callables, a new levy on incomes, probably in excess of \$5000 and an increase of approximately 15 per cent of existing taxes on tobacco and cigars.

These four forms of taxes would remain in effect two years and the republicans estimate that they would net approximately \$1,500,000,000 for soldier relief. They will be incorporated in the legislation to be presented in the house for adoption May 1.

Committee members predicted that the four-fold plan of taxation would not be changed.

Committee members declared that regardless of the form, the taxation ultimately would be borne by the consumer. They estimated that more than \$100,000,000 would be raised from the Chicago board of trade and the New Orleans cotton exchange, would be affected by the tax on stock transactions.

ZURICH, (AP)—The city of Darmstadt, one of the German towns occupied by the French in their recent forward movement, has secured a loan of 10,000,000 marks from a bank in the United States, according to newspaper announcements.

STRASBOURG, (AP)—An order putting into effect a general strike here was carried out in part at midnight, the electric current being cut off. The telegraph and telephone service was still in operation this morning, however.

BERLIN, (AP)—Dr. Wirth, minister of the treasury, and Dr. Johannesbell, minister of transport, informed the budget committee of the national assembly today that the demands of the railroad and postal employes for higher wages would be granted.

CAILLAUX FOUND GUILTY CALLS SUGAR REFINERS

Former Premier of France Convicted of Trafficking with Enemy

PARIS, (AP)—Joseph Caillaux, former premier of France, this evening was found guilty of having had commerce with the enemy by the high court of the senate. The vote was 150 to 91.

The charges of high treason and intelligence with the enemy against former premier Joseph Caillaux were eliminated by the high court of the senate today by a vote of 213 to 28. This eliminated the possibility of the death penalty being inflicted.

The court then took up the charge of correspondence, or commerce, with the enemy. Conviction on this count likely entails imprisonment in a fortress for not more than five years or not less than one year, or banishment.

Alleged Organizer of Radical Party in Nabbed by Federal Agents

SALT LAKE CITY, (AP)—L. E. Katterfield, also known as Leslie Kingsley, said to be national organizer of the communist labor party, was arrested here today by government agents shortly after his release from the city jail where he was held on a minor charge.

STRIKERS ARE PAID OFF AT PITTSBURGH OFFICES

PITTSBURGH, Pa., (AP)—More than 300 strikers on the Allegheny division of the Pennsylvania railroad, who did not return to work as the company has stipulated were paid off this afternoon. The Baltimore and Ohio took similar action.

Two Seriously Wounded. Of the 14 men wounded in the fight between sheriff's deputies and assistants and I. W. W. mine pickets last evening, all will recover, it was said today by Sheriff B. C. Levens and Peter Marovich, whose condition is critical. Both were operated on last night. Two bullets were removed from Levens' body. It is impossible to locate the bullet which had lodged in Marovich's lung.

Eleven of the wounded men are at the hospital here and seven of them have lived in this country several years but they are not naturalized.

Sheriff Makes Statement

Sheriff O'Rourke in a signed statement after the shooting last night in which 14 men were wounded, told of attempting to disperse the men prior to the shooting. He said: "They knew that I was the sheriff and they were even asking me to arrest him, saying that he wanted to go to jail."

ANACONDA COPPER MINING COMPANY ANNOUNCES RESUMPTION OF WORK

SPOKANE, Wash., (AP)—A detachment of the twenty-first infantry left Fort George Wright, near here, early today for Butte, Mont., following receipt of orders late last night from western department headquarters.

The troops under the command of Lieut. Colonel A. Mitchell, took with them full equipment with heavy marching packs, it was stated. Their stay, according to Colonel George E. Duncan, commanding officer at Fort Wright, is indefinite. He declined to state how many men were included in the detachment.

At Butte, Colonel Hall, from Camp Lewis, Wash., will assume command of the troops.

SAN FRANCISCO, (AP)—Announcement that he had complied with the request of Governor Brown of Montana that troops be sent to Butte as the result of mine strike disturbances here, was made here today by Lieutenant General Hunter Leggett, commanding the western department of the army. The site of the detachment was left to Major General John F. Morrison, commanding Camp Lewis, Mont.

Full Protection to Workers is Promised

BUTTE, Mont., (AP)—The Anaconda Copper Mining company mines in the Butte district will resume work tomorrow afternoon having been closed since the outbreak of a strike, it was announced today. John Gilie, general manager of the company, said: "I will not expect to work tomorrow. Full protection will be given workers."

Pickets Called Off. Strikers gathered at the headquarters in the I. W. W. hall today but there was no demonstration and no attempt to picket the mines. Strikers and men attempting to go to work clashed in a downtown corner. No arrests were made.

Hugh B. Haran, a guard in front of the Daily Bulletin, said to be the organ of the Metal Mine Workers union No. 800, L. W. W., was shot and killed today by Joseph Papp, another guard. Papp, who was arrested, said the shooting was accidental.

Mystery Surrounds Shooting

Mystery surrounds today's shooting in front of the office of the Daily Bulletin but police said Haran was mistaken for an outsider and shot by Papp by mistake. Haran and Papp were with other armed men and were crowded the Bulletin office in expectation of an attack following a mass meeting last night. At the mass meeting strikers who are seeking higher wages, a six-hour day and release of political prisoners were urged "to arm in self defense."

The Bulletin in an extra edition called on all workers in the Butte county to "lay down their tools and stop the wheels of industry" in protest against the shooting of pickets.

Many special deputies and police-men today patrolled the avenue leading to the mines.

Troops from Spokane are expected to arrive here today. Barracks have been prepared for them.

Washington, D. C., (AP)—Declaring that the anti-dumping bill recently passed by the house would prevent the American consumers from reducing living costs by buying cheaper European goods, Senators Thomas of Colorado and Nugent of Idaho, democrats, filed a minority report today urging defeat of the measure. They charged that the bill would be a "boon to the selfish interests of American manufacturers who desired to hold a monopoly of the domestic market."

POLOKHEPPEH, N. Y., (AP)—Overalls manufacturers in the clothing district here deny the demand for working clothes has doubled in the last week. At the factory of Sweet's & Co., it was said that the whole sale price has not been increased all over retailers everywhere have increased their prices to consumers.

WALKOUT END REPUTATED BY N. Y. STRIKERS

Five Thousand Insurgents in Jersey City Meeting Vote Against Return to Work and Appeal for Sympathetic Move

DISCREDITED LEADERS IN CHICAGO AT WORK

Grunau's Action is Looked to as Next Step Toward Settlement, with Doubt Expressed as to His Influence

NEW YORK, (AP)—Approximately 5000 railroad strikers, meeting in Jersey City today, were reported unofficially to have voted not to return to work with the railroad strike in progress. Many of them were unable to gain admittance due to lack of room and three men were caught in the rush and carried to a hospital in a fatal condition. Intense interest was centered on the expected report of E. A. McHugh, chairman of the union's executive committee, who was expected to make the strikers' grievances before the railway labor board in Washington. It was indicated that little action would be taken until a report from McHugh had been received.

Meeting Is Jammed

Five thousand men crowded into a Jersey City hall today to decide on a future course of action in connection with the railroad strike in progress. Many of them were unable to gain admittance due to lack of room and three men were caught in the rush and carried to a hospital in a fatal condition. Intense interest was centered on the expected report of E. A. McHugh, chairman of the union's executive committee, who was expected to make the strikers' grievances before the railway labor board in Washington. It was indicated that little action would be taken until a report from McHugh had been received.

Two Newspapers

Strikers unable to gain admittance to the meeting, twitted newspapers. "The strike is all over," they called out. "All the men are back to work. Look 'em over."

Improvement in the movement of freight was reported by all the lines in the district today, but it was admitted that absence of switchmen and yardmen was hampering complete resumption of traffic. Passenger service was declared to be almost normal.

Officials Select Program

Proposal of striking engineers and firemen in the Hoboken yards of the Erie railroad that they return to work in a week and the guarantee their security rights was rejected by the railroad officials today.

Railroad officials insisted each striking locomotive be returned to work and let it be known that some of the men now out would not be taken back.

Refuses to Take Lead in Ending Walkout

CHICAGO, (AP)—Hope for an immediate settlement of the switchmen's disagreement with the railroads was lost here today when John Grunau declared he would take no immediate action to end the strike. He is president of the Chicago Yardmen's association and led the strike, which originated in Chicago. He was released last night from jail where he had been arrested for alleged violation of the Lever act.

Asked concerning his present attitude on the strike Grunau said: "I have no objection to being arrested if the men have voted. The majority rules."

Grunau this afternoon called a meeting of the locomotive engineers to "clear up the entire situation."

Officials Await Next Chicago Development

CHICAGO, (AP)—Strikers leaders who yesterday were repudiated by their followers when they advocated an end to the walkout of switchmen, today were invited to work followed by small bands of men.

Meanwhile federal and railroad officials awaited the next move of the strikers. The announced several days ago that they would urge calling off the strike, but since the split of the strikers at yesterday's meeting some doubt is expressed as to whether such an appeal would be heeded.

GOVERNOR DAVIS FAVORS CRUSADE

Idahoans Urged to Aid Interchurch Movement for Benefit of State

Governor D. W. Davis has issued the following statement in regard to the Idaho, urging co-operation in the United States simultaneous campaign, which will be put on April 25 to May 2 to raise a gigantic budget for world evangelization. Following is the statement in full:

"When the great drive of the interchurch world movement is launched, a truly gigantic effort to make the world better and happier will be launched. The task which has been undertaken by the brave men and women representing thirty Protestant church organizations, would be impossible were it not for the fact that the task of raising money is not as great as the motive which is behind the movement. It is the principle on which this organization is building its work, and it is the principle which the idea deserves. It is particularly fitting and necessary that the greatest movement of this kind known in all time should come when there is the greatest need. There is no organization of material forces which will meet the restless mentality of today, but a great spiritual revival is the necessary result of the interchurch world movement will meet and conquer with the law of love. Evil is more apparent now than it has been at any other time, but it frightens not when we know that the spiritual awakening of the day will swallow evil up in victory."

"D. W. DAVIS,"
Added to the appeal of Governor Davis, state director R. E. Randall of the interchurch world movement sends to all pastors, deacons, elders and county directors of the united simultaneous campaign the following urgent message:

"Idaho Christians face a tremendous task. The week of April 25 to May 2 will test to the utmost the courage, the loyalty, the spirit of the adherents of the Protestant religious faith and the friends of religion. We are to raise \$302,225 as our quota of the interchurch world movement budget. What do we do? There is only one answer: 'Idaho cannot fail!' Tighten up your organizations, be sure of your plans, let every worker put his back to the wheel or failure on his or her own shoulders—it has been said that Idaho Christians cannot raise this great sum, it has been said that evangelical denominations will not co-operate. Let us prove that we can; let us accept the challenge, and in the name of the cross go forward to victory."

SONORA REBELLION LOCAL MOVEMENT, SAYS EMBASSY

Statement Says Spread of Revolt Would Mean Financial Embarrassment

WASHINGTON, (AP)—The Mexican embassy issued a statement declaring that if the Sonora rebellion spreads it would mean "the stoppage of business, curtailment of wealth and international commerce and the consequent postponement of the payment of the foreign debt."

The statement declared the rebellion was a local movement only and had been given "an importance which is far from deserving." It said that even if the federal government failed to suppress it the central government would remain unshaken and that it was difficult to put down the rebellion wickly because of the distance of Sonora from the capital.

The governor of Michoacan, with "only 100 men by his side," and General Emilio Estrada "with some score of men" were said to be the only sympathizers with the rebel movement in Sonora outside of that state.

The statement concluded by calling attention to the increase in trade between the United States and Mexico under Carranza's regime and of the budget surplus of four million dollars "something not heard of since the days of Porfirio Diaz" and declared the government was nearing the point where it could resume the payment of the foreign debt interest.

Clemenceau's Wish is to Be Left Alone

PARIS (AP)—Former Premier Georges Clemenceau, who has been visiting in Egypt for the past two months, arrived here Wednesday. He was alert and smiling but avoided interviewers and would not be photographed.

He was met at the station by members of his family. Many prominent men were present.

When he landed at Versailles yesterday efforts were made to get the aged statesman to talk, but all were futile.

"The war is over isn't it?" he exclaimed to the correspondent of the Journal. "Yes! Well, all I want is to be left alone."

"What am I going to do? Why, just live until I die."

The "tiger" growled out brief impressions of his visit to Egypt while the elephant tusk and mummy he brought back to his country were said to be the only souvenirs of the Pharaohs being placed on the dock.

"I got a fine case of bronchitis and found myself stuck in the middle of Egypt with both lungs out of commission. That's what comes from believing in miracles. Evidently I shall not die from it, but I am still more sold than my dear friends think, but it prevented me from visiting Palestine as I had planned."

RECONSTRUCTED HUN BOAT

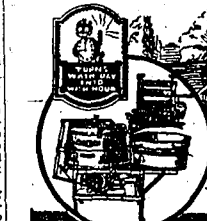

LEAS TRAVELING WAR STROY

HONOLULU, T. H., (AP)—Steamer Wairuna, which recently arrived from Newcastle, N. S. W., with coal, according to her officers, was built in Germany, a sister ship to the German blockade runner Sea Wolf, and had a thrilling war history.

Originally christened the Schneefelle, she was captured on her first voyage by the British and was placed under the British flag. Then a German submarine crossed her train and torpedoed her. She was towed to port in an almost sinking condition and repaired.

The Schneefelle was first renamed Gibraltar by the British, then Polestar and when she went to Australia, which is now her home, she was rechristened again Wairuna. Captain D. Ritchie is her commander.

Queer Time Measurement.
In the mountains of Montenegro, distance is often measured by the time it takes to smoke a cigarette. They are moderate and presume that a normal cigarette smoker lights one every half hour or so. Consequently, a cigarette's walk would be from one and a half to two miles.

DREAM OF MILLION POPULATION FOR IDAHO STATE BY YEAR 1930

Reclamation of Land by Impounding the Now Wasted Waters Expected to Bring People Flooding to Gem State in Next Decade—Figures are Introduced Supporting Theory—Not a Flight of Fancy

If Idaho's big reclamation project is successfully and speedily developed, as is ardently hoped, and the waters that are now running to waste are impounded and diverted to open a material part of the arid and available for them, a population of a million people by 1930 will not be an extravagant dream. The present rate of increase will account for three-fourths of a million people by the end of the decade without any increase in irrigated area. During the past year Idaho has received a good irrigation but it has not been evenly distributed. The irrigated districts have received the bulk of it. The school census provides the most reliable information of the number of people who have come and where they have located. A comparison of the school census of 1919 with that of 1918 indicates an increase in Canyon county of 29.3 per cent, as compared to 2.2 per cent for Bear Lake county. An increase of 37.7 per cent is shown by Lincoln, Oshosh, and Malheur counties combined, as compared to a very small increase in the counties with limited irrigated areas. Malheur county shows an illustration of the development of the irrigated districts of southern Idaho. By the creation of Jerome county, Malheur county lost a large irrigated area containing three small villages, but notwithstanding this loss the 1919 school census shows 83 more children than were contained in the county before the division a year before.

With practically no increase in the irrigated area during the past ten years the school census indicates an increase in population of the state of about 68 per cent. Most of this increase has come in southern Idaho. The southern counties have shown an increase of about 85 per cent as compared to about 20 per cent for the ten northern counties. What the increase would be with the American Falls reservoir constructed, an abundance of water provided for the lands in the older irrigated districts and water made available for new lands, is indicated by the development of Twin Falls county, which with a very small increase in the irrigated area the population during the past ten years has increased almost four-fold or from 15,500 to about 60,000.

Bingham county presents a typical instance of the development of the older irrigated districts during the past decade. In 1910 the population of Bingham county was 23,000. Bonneville county had not then been created. The combined population today of Bingham and Bonneville counties is estimated at 40,000, an increase of 21,000. Bingham county has almost idically the same number of acres of cultivated land and the same population that was shown ten years ago before Bonneville county was created. Thus all the people and wealth of Bonneville county may justly be considered to have come within the past ten years. The counties of Gem and Payette show only about 80 per cent of the increase in wealth and population of the

territory included in Canyon county ten years ago.

Washington county has more people and more wealth by far than were shown ten years ago before half of her territory was taken to create Adams county.

Idaho irrigated land provides a safe and profitable investment for capital. The growing of seed and potatoes and other remunerative products is increasing in many districts and if development/continues along these lines it will be an easy matter to support a population many times greater than we now have without becoming crowded. Land values are rapidly increasing and will continue to increase. The farms are becoming smaller in size and more intensive cultivation is being adapted.

The production records of the Twin Falls and Malheur irrigated tracts, is a good illustration of the productivity of Idaho's irrigated land. In 1918 the 301,000 acres in crop in these projects produced \$23,908,467, exclusive of livestock and dairy products. The cost up to that time of the irrigation systems supplying water for these lands was \$10,024,375, or \$10,374,002 less than the products of 1918 alone.

DIFFERS WITH SIMS ON MAIN OBJECT OF NAVY

Former Assistant Chief of Operations Gives Views in Controversy to Investigators

WASHINGTON, (AP)—Rear Admiral Sims' criticisms of the navy's conduct of the war were based on the false assumption that combating the German submarine campaign was the main object of the United States navy, Captain Frait, former assistant chief of operations testified Wednesday before the senate investigating committee. The chief mission of the American navy, Frait declared was to organize the service of supply transportation in conjunction with the army and to get American troops overseas safely and swiftly.

The British get the submarine situation under control in 1917 before the United States could have assisted, the witness declared, and held it to the end.

"The United States navy was a contributing factor but never the deciding one in defeating the submarine," Frait told the committee. "The department had to adjust the total naval effort so as to use our forces to the greatest advantage against the enemy as a whole. It is not the general conduct of the war that is difficult to see wherein the plan of campaign could be changed if we had it all to do over again."

BURL PLAYERS TAKE SHORT END OF ERRORFUL ROMP WITH LOCAL HIGH SCHOOL, SORE RUNS 24-4

West-Enders Never Have Chance Against Denman's Academic Diamond Warriors—Kregel's Flinging Features While Stiff Breeze Plays Pranks with High Flies—Fix and Watson Clouting Heroes

Trouncing the Buhl high school team in wild and woolly contest yesterday afternoon at Lincoln park, the local scholastic athletes won the first game of the season by a score of 24 to 4. Errors were plentiful on both teams and in part cause the large score. The day was unfavorable for good baseball the wind being both some most of the time. The game was called after six and a half innings had been played.

Lough, hurling for Buhl, had poor control and handed out seven walks, five of which were the source of an equal number of tallies. With Kregel on the mound for Twin Falls, Buhl went for five innings with but two hits and three walks. Kregel pitched good ball for his first game and gives promise of developing into a real pitcher with experience. Jameson, who finished the last two stanzas, toyed with the visitors and let them have four hits. Parry, Buhl center fielder, pitched a fraction of an inning to allow Lough to rest his arm.

Twin Falls opened the third with three runs. Kregel beat the batter and stole second. King went out, Barker to pinch. Fix took a healthy swing and dropped the pellet over the right field fence for a home run, scoring Kregel. Thometz sent a clean single to left and later scored.

Landslide. The fourth inning was a landslide for Twin Falls. A couple of walks started the fireworks. Fix, who had just cleared away nine runs had been slipped over. Buhl came across with six first run in the fifth when Finch was hit and was worked around circuit by the aid of an error and a pass.

Four more scores were recorded for the locals in the fifth, when Fix, Putzier, Tucker and Watson cavorted around the four bases. Jameson's poor throw to King at first let Cox on, and he scored with Buhl's second run a few minutes later.

For a final cleanup in the sixth, Denman's men wielded the big stick more readily and scored the visitors no more. Watson duplicated Fix's home run act by dropping another over the right field fence, scoring Thometz and Barker. Five more runs worked around the line and raised the total to 24. In the first of the seventh Barker, Snyder and Cox made clean singles, the former two scoring.

Prove Their Class. Outfield men did errorless work the entire game, while the infield did as good as was possible with the weather. It was "The win" prevented perfect fielding and was a serious handicap for the players. Yesterday's hitting disproves any ideas there have been that the locals were weak at the bat and the game shows that Coach Denman has a real high school bunch this year. Owing to inclement weather at Boise the two games scheduled there for this week have been called off, perhaps permanently, by mutual agreement, so no Boise trip will be made this week. The locals' next game is at Wendell next Wednesday.

BRIEF BITS OF SPORT

One of the Salt Lake papers plays up the fact that the Bees and the Oaks engaged in a glorious pitchers' battle Tuesday. But what's the use of a twisters' tily if you lose it? William Harrison Dempsey, heavy weight title holder of the flitic world spent a couple of days in his Salt Lake home. Salt Lake papers merely mention the fact that he was there, adding it is understood he is on his way to an overseas port on theatrical business.

This from Whitefish, Mont., isn't so bad: "J. J. Cremons is running for mayor on a platform that has a police department reorganization plank. The police department says he doesn't care whether he gets reorganized or not."

Because Manager Killefer thought the Los Angeles ball club was overstocked with southpaws he has sold Paul Feyer, formerly of Salt Lake, to the Sacramento Yippers. The most easily broken things we know of just now are aquatic records. Of all the pleasing comebacks of the baseball season that is being staged by Joe Bullitt Bush, now with the Red Sox, brings the real smiles of satisfaction to fans and managers alike. Don't worry, dear fight fan, there will be a flitic card pretty soon. The powers behind the local game are preparing a neat program for early presentation. While our back was turned the joker in the establishment platers on the running board of our typewriter a legend admonishing us to "Please Smile."

We sooner like the "smile awhile" joke things, but the smile we'd rather is one with a couple of congenials in the cellar. TOMMY COMING OVER LONDON, (AP)—Captain Turner and 23 members of the crew of the yacht Shamrock IV, Sir Thomas Lipton's challenger for the American cup, will sail for New York tomorrow on board the steamer Lalande. The new 23 metre Shamrock which is to act as a "trial horse" for the Shamrock IV, and which sailed several days ago from Dartmouth for New York, met with unfavorable weather in the Atlantic and had to put back to Dartmouth, where she arrived today. The yacht has been ordered to remain at Dartmouth until weather conditions improve.

BATTLE TO A DRAW SALT LAKE CITY, Utah, (AP)—Leo Morrisey, Idaho Falls, Idaho, lightweight, fought a fast six-round draw last night with Tommy O'Brien of Los Angeles. In a scheduled four-round contest Kid Ross, Luak, Wyo., featherweight, was knocked out in the second round by Willie Wise, of Salt Lake City.

New Ethics in Dentistry

THE health of the people is one of the most important questions of the day. Anything which conceals information about health is little short of criminal. People are entitled to know all about their teeth—all about dentistry—for infected teeth cause widespread sickness, disease and suffering. People cannot know of these things unless they are told, and the best way to tell them is to advertise. That is why Registered Dentists using the E. R. Parker System advertise—because advertising educates and tells where good dentistry can be had at moderate prices. Dr. Parker is thus making new and better ethics for the dental profession. He is opposed to any ethics that keep people ignorant of the dangers of infected teeth. Under the new ethics, the great masses are now getting good dentistry, while under the old style only the favored few knew about it and could afford it. Your health depends much upon your teeth. You are invited to call and have a free examination made. Registered Dentists Using the E. R. PARKER SYSTEM DR. E. R. BOBY DR. M. E. DOUGLASS DR. B. A. LOCKHART DR. A. E. SEEKING FIGHTS CHICAGO, (AP)—Jack Dempsey has signed for his first fight since he won the world's heavyweight championship from Jess Willard at Toledo last Fourth of July. Manager Jack Kearns came to terms with Floyd Fitzsimmons, Boston Harbor, Mich., promoter, for a match at the Michigan resort on July 5. Dempsey's opponent will be chosen within ten days. Fitzsimmons already has opened negotiations with Fred Luton, Billy Miske and Bill Brennan. WHY NOT A REAL FIGHT? NEW YORK, (AP)—George Carpentier, champion European heavyweight boxer, will make his first appearance in ring togs in America on May 2 when he will box four exhibition rounds here with one of his sparring partners. It was announced today. The exhibition will be held in the Seventy-first regiment armory for the benefit of a war veterans' building in this city. BOLLER RECORD ST. LOUIS, Mo., (AP)—Roland Clifton of Akron, O., won the two-mile professional roller skating race at a local rink tonight over a field of six contestants. His time was 5:54. It was announced the event was for the American championship. (Continued on Page Eleven)

COTTON VS. WOOL

It isn't so much that a thirty dollar
suit of a year or so ago now costs
eighty dollars as that the suit which
the buyer gets for his eighty wears
about as long as would one that cost
ten dollars under the old conditions. It
isn't so much the money as it is the
fact that you don't get what you pay
for, even at the prices which now pre-
vail.

But the idea that a condition of this
sort can be corrected through the for-
mation of a club whose members pledge
themselves to eschew wool and take up
cotton, in other words quit buying or
ordinary clothes and wear overalls, can
hardly be accepted as likely to occur
by a prominent place among those which
history will record to the credit of the
country.

To begin with Midland cotton of the
kind of which overalls, dungarees, gar-
age suits, etc., are made, commands a
higher price per pound on the Atlantic
seaboard today than does clothing wool.
Add to this the fact that in the most
expensive suit made the actual wool
content does not exceed six or seven
dollars in value and you have a situa-
tion which a little thought will indi-
cate to be pregnant with possibilities
but not the possibilities dreamed of by
the sponsors of the Overall Club.

In England during the war a little
group of enthusiastic but misguided
people sponsored a movement having
for its object the encouragement of a
one hundred per cent use of cotton
stockings among women. The result
was that silk stocks were exported
out of the country and cotton stockings
soon became so scarce that those who,
prior to the movement were compelled
to wear cotton stockings, were forced
to buy them at prices three and four
times as high as formerly.

The movement may be accepted as
the host of all evidence that people are
sick and tired of the eternal chase af-
ter the elusive dollar while the pur-
chasing power of said dollar continues
to shrink overnight. They are willing
to grasp at any straw which seems to
even remotely promise a curtailment of
living costs. On the surface the overall
movement seems to promise such re-
lief but the relief will be gained at an
economic cost which will outweigh the
advantages in states such as Idaho
where the sheep industry ranks second
among all the states of the union and
where a falling off in the price of wool
just at this time would spell a loss
which would be reflected on every farm
and in every line of business in the
State.

**FORMER TEXAS GOVERNOR
IN RACE FOR PRESIDENT**

TEMPLE, Tex., (AP)—James F. For-
guson, former governor of Texas, an-
nounced his candidacy for president of
the United States on the platform of
the American party, which was organ-
ized at Fort Worth, Texas, last August
by a faction of the Texas democratic
party.

In his announcement, Mr. Forguson
expressed unalterable opposition to the
league of nations, national woman suf-
frage, national prohibition and com-
pulsory military training. He declared in
favor of light wines and beer until the
"national prohibition amendment is re-
pealed," promised recognition of the
principles of trades unionism and pledged
himself, if elected, to grant full pardon
to Eugene V. Debs, the socialist
leader under conviction for alleged con-
spiracy to obstruct the draft. War, he
said, often causes reason to give way
to passion and sometimes intemperate
expressions are provoked. He would
"forget and forgive" and restore Debs
to full citizenship.

Denouncing compulsory military
training, the former governor declared,
"we need an army to take the corn
field far more than an army to take the
battle field; just now the world needs
an army to raise hogs far more than an
army to kill Hunns."

**SENATE NOMINATION FOR
UNITED STATES SENATE**

ALBERT H. CONNER

Albert H. Conner, familiarly known
as "Bert," is a resident of Sandpoint,
Idaho, and has been for a number of
years. A lawyer by profession, he has
served as speaker of the Idaho house of
representatives and for years has been
a prominent worker in the republican
party.

When America entered the war Mr.
Conner entered the first officers'
training camp at the Presidio, emerging
with the rank of captain. He was
sent overseas almost at once, saw active
service on the firing lines and was
eventually wounded and sent home
with one arm gone.

Since his return he has held a gov-
ernment position in the adjutant gen-
eral's department at Washington,
which connection he gave up a month
or two ago and returned to resume his
law practice at Sandpoint.

**PALMER HOLDS LEAD IN
GEORGIA PRIMARY VOTE**

Unofficial Returns Give Attorney Gen-
eral Furrall's Over Watson
and Hoke Smith

ATLANTA, Ga., (AP)—Complete un-
official returns from Georgia's demo-
cratic presidential preference primary
held Tuesday showed today that At-
torney General Palmer would have 140
votes in the party's state convention,
a ten vote plurality over Thomas E.
Watson, his nearest opponent. Sena-
tor Hoke Smith, the third candidate,
on the basis of the same returns, will
have 114 votes.

Some official leaders today said
the official tabulation might change
the relative standing of the candidates.
Watson ran a close second in most
of the large counties, and on unoffi-
cial returns from 117 counties led
the field on the popular vote, the figures
being Watson 43,197; Palmer 40,412,
and Smith 37,018.

Wright's
A GOOD PLACE TO TRADE

For the past two weeks we have not been in a position to say much about ourselves. With the noise of hammers and saws, the painting, moving of fixtures, etc., we felt that it would be better to wait until we were finally moved. The Downstairs Store is just about ready and in a few days we will announce the opening of some new departments that will be of interest to the people of Twin Falls. The store is just a little disarranged, but we cannot let this week go by without offering some special inducements.

DADDY'S EVENING FAIRY TALE

By MARY GRAHAM BOWEN

THE REDPOLL FAMILY.

"Ah," said Mrs. Redpoll, "how glad I am I have a mate who is distinguished looking."

"Of course it is when I say I'm glad you look that way," said Mrs. Redpoll.

"It is nice for you to dress so simply," said Mr. Redpoll, "and it is fine and fitting that we should have made the family name, for the Mr. Redpolls about the time that it was kept up and that we always live up to it by wearing rose-colored waistcoats."

"There are our cousins, the Holbein Redpolls, and though they are somewhat larger, they aren't as distinguished looking. There are our cousins, the Greenland Redpolls, and they are larger and wear more white feathers. They live far, far north and I suppose they like to have a snow-looking costume to match their suits. There are still more cousins of ours, the 'Eonry Redpolls, and they are smaller and darker than the other Greenland Redpolls, but lighter, than us, in the color of their costume."

"Now, we strike a happy, gay between. We don't come out all in white, or all in dark feathers. We're well feathered birds, and you get ideas about it. And a well-feathered bird means the same in our language as when they say, in the children's world, that a child is well-dressed, or attractively dressed."

"We like to build our nests low and we have the loveliest of little pale green eggs with brownish specks. Sometimes there are three eggs, sometimes four, and sometimes five. There is great excitement when there are five eggs!"

"Ah," said Mr. Redpoll, "it is good to be so pleased with life and with your mate, and to think that I am handsome. I will sing you a song, and then we will gather seeds and have a little meal."

"Let us see how well you fly quickly far up North, where we live, but for the time being we are to be in a slightly warmer climate."

"Yes, I will sing for you one of my best and nicest songs, and will you accompany me?"

"It will do so gladly," said Mrs. Redpoll. So she hummed and chirped softly and gently while Mr. Redpoll sang trills and glorious notes and beautiful words known by the birds. His song sounds something like a canary's, but Mrs. Redpoll thinks it is unlike anything in the world, and it is quite by itself in glory and in perfection.

"It's not every bird who has a mate who wears a rose-colored waistcoat," said Mrs. Redpoll, "and who has a beautiful voice a voice sweeter than any other bird's."

Viscount French May Be Governor-General of Canada

Lord French.

The resignation of Field Marshal Viscount French as Lord Lieutenant of Ireland and his subsequent appointment as governor general of Canada, is predicted in a report from Dublin. Lord French, husband of the former Miss Virginia Gould, daughter of George Gould of New York, will succeed Viscount French as Lord Lieutenant of Ireland, added the report.

English Judges' Robes.

There is no much difference in the gowns worn by British legal dignitaries there is in their wigs. The robes of a high court judge are gorgeous and imposing. They are made of rich silk and trimmed with ermine. Then, too, high court judges carry, but never wear, large three-cornered hats. Judges who preside over lower courts wear much less gorgeous robes, and do not carry three-cornered hats. A barrister's gown is made of black alpaca or some similar material known as "stuffs" in the legal profession. It is only when a barrister has become a K. C. that he may don a gown of silk. For this reason a king's counsel is often referred to as a "silk."

TERRORIZING TRIPLETS

BOLSHEVISM I.W.W.I.S.M SOCIALISM

By PETER W. COLLINS (Editor's Note: Mr. Collins was for eight years secretary of the Brotherhood of Electrical Workers and is a member in good standing of that union today. He has represented labor on various important commissions.)

Article I When a man's home is in danger from any cause whatever, if that man is a wise man AND A REAL MAN, he will take every necessary reasonable and rightful precaution to protect his home from every enemy that may threaten it.

And when a man's country is in danger, his duty and responsibility are not a bit less than when his home is in danger.

No one who reads the signs of the times can deny that there is danger today to both home and country of a very serious nature, danger that must be met with the united loyalty, wisdom and sturdy American backbone of the American people.

In this country of Washington, of Jefferson, of Lincoln, the sword of an alien enemy is raised to cut the bonds that unite Americans with their institutions, and a scientific system of deception for the betrayal of our government and our constitution is carried on to such an extent as to be a real menace to our future.

Water Distillation in Desert. In the big desert of Chile there is a considerable amount of brackish water, but no water that either human beings or stock can drink. Science, however, has come to the aid of this rainless section of the country in the form of an ingenious desert water works, consisting of a series of frames containing 20,000 square feet of glass.

By far, the greatest source of supply of bristles is the hog. China supplies more than any other country, and is followed by Russia, Germany, France and Belgium. Smaller and finer artists' brushes, etc., are made from the hair of other animals, such as the badger, goat, camel and sable.

FIFTEEN YEARS AGO IN TWIN FALLS

Taken from issues of The News from this date in year 1905.

The Twin Falls city council has been organized by the election of Paul S. Bickel as chairman of the board of trustees and mayor of the city. E. B. Darrow, city clerk; E. B. Critchlow, city attorney; and J. M. Maxwell, city treasurer; city marshal, Albert S. Grogan; deputy sheriff, Fred E. Ramsey; constable, and S. A. Bickel, S. T. Hamilton, P. D. Bradley, R. M. McCollum and F. W. Eickhoff.

Before the meadow larks begin to build their nests Twin Falls will have a beautiful city park. The new grounds occupy four blocks, two on each side of Shoshone avenue between Sixth and Eighth avenues. The town-site company donated the ground and is now beautifying it.

Late advices from Hurley are to the effect that the pile dredge over Snake river was completed on Wednesday afternoon and the falls will be laid to Hurley by the middle of the week.

Mr. and Mrs. S. D. Burton and Mrs. H. Strong, of Milner, visited with Mrs. J. B. Perrine at Blue Lakes for two days this week. They returned by way of Twin Falls, where they were the guests of Mrs. H. O. Milner.

W. W. Corey and A. B. Corey, of Corey Bros., were in the city during the week. They are working 250 horses and 350 mules on the low line canal and state that the canal will

surely be completed to Cedar Draw by June 1.

The Twin Falls school closed for the summer on Thursday, April 30. The autumn term will open the first Monday in September, by which time the new brick school building will be completed. The enrollment on the closing day was 138. It would have been more had 200 had Professor Thurston; not been obliged to refuse dozens of applications for lack of room.

Just Where and How Is the Money to be Spent? A businesslike Answer to a businesslike Question. THIRTY denominations cooperating in the Interchurch World Movement have budgeted their needs. No business could have done it more scientifically. They have united to prevent the possibility of duplication or waste. At least a million dollars will be saved by the fact that thirty individual campaigns are joined in one united effort. Each denomination has arranged its budget under six main heads:

1 FOR THE CHURCHES WORK AT HOME. 2 FOR HOSPITALS AND HOMES. 3 FOR BIBLES, EDUCATION, OF THE SILENT. 4 FOR RELIGIOUS TRAINING. 5 FOR THE CHURCHES WORK ABROAD. 6 PUBLISHING BULLETINS. Each denomination has its own detailed budget, and will administer its own funds. United Interchurch Campaign. April 25th to May 2nd. The Interchurch World Movement of North America.

Some Costly Mistakes Men are Making on Tires

Men who buy tires on a guess, or on claims, are making some costly mistakes. Large tire users make tests and comparisons. And the results in late years are amazing.

Hudson Taxi Co. of Detroit, for instance, made a long test on Miller Cords. And the average was 15,000 miles.

Miller dealers get hundreds to compare Miller mileage with others. And they find an increased mileage of 50 per cent to 75 per cent.

Large truck users are comparing Miller Cords, passenger type, with all others. And they are coming in large numbers to Millers.

Miller Tires. The Most Talked About Tires in America. Cords or Fabric. Guaranteed-to-the-Road. Gordon-Davis Auto Co. New Fess Building, Second Ave. S. Phone 593W.

Best of 22

The Eldorado Stage Co. of Los Angeles tested 22 leading makes on 12-passenger Packard buses. Not a tire was found to match the Millers in that extreme service.

The Way to Know

At the Miller factory over 1,000 tires yearly are worn out in tests and comparisons. They constantly prove that Miller is the best tire built.

In extreme rear-wheel tests they require an average of 15,000 miles on Cords. They prove that the new Miller tread outwears the best of others by 25 per cent.

Such tires should be tested by every owner of a car. See what they give you. Compare with any tire on opposite rear wheels.

Miller experts, in late years, have doubled average tire mileage. Old-times figures do not apply today.

You will fix new requirements for your tires when you try a Miller. Do it now.

COLLECTS BALLOTS CAST IN FORD-NEWBERRY VOTE

Senate Sergeant at Arms Takes Initial Steps Toward Count in Michigan Senatorial Contest

DETROIT, Mich., (AP)—Initial steps in the collection of ballots cast in the Ford-Newberry senatorial contest of 1918 in which a recount has been ordered by the senate, were taken here today by David S. Barry, sergeant at arms of the senate.

Mr. Barry expected to swear in today 20 citizens, ten chosen by representatives of Senator Newberry and ten by Mr. Ford. These men will go to the county clerk's office to collect the ballots, to be forwarded to Washington. They will start May 3.

Mr. Barry estimates that three weeks will be required to collect the ballots and another three weeks to complete the recount at Washington.

TOOK DAUGHTER OUT OF SCHOOL

Mrs. Uhlemann Was Unable to Do Housework—Gains Thirty-five Pounds

"I am one of the healthiest and happiest women in the state and I owe it all to 'Tania,'" said Mrs. W. E. Uhlemann, who lives at 4446 Scarritt Ave. Mrs. Uhlemann's husband is foreman of Jackson's, one of the largest jewelry stores of the middle west. "Several times my neighbors expected me to die, but I am so changed now they hardly know me," continued Mrs. Uhlemann.

"I suffered from nervous indigestion a year and for the last three months was unable to do anything at all and I had to take my daughter out of school to care for me. Even a drink of water would sour on my stomach and cause the gas to press against my heart until I could hardly breathe. Six days and nights I would lie in bed unable to do anything at all and I fell off until I was almost skin and bones. I was so weak and dizzy I could hardly walk and when I would leave my room of indignation the neighbors would have to come in and work with me and I would just gasp for breath. Nothing did me any good until I knew to stand the attacks much longer.

"One day my husband brought me some 'Tania' but I was so lard off I could not eat anything. I was doing me much good. I have now taken thirteen bottles and my health is perfectly wonderful. My appetite is fine and I eat and enjoy. I have gained thirty-five pounds and feel so well and strong I now do all the work required to take care of my family and the more I eat the more my nerves feel trouble. I want the public to know what 'Tania' has done for me, for it may help others back to health."

'Tania' is sold in Twin Falls by City Pharmacy and in all leading druggists in every town.—adv.

Deaths

Funeral services were this afternoon conducted by J. L. Ward, whose death occurred last yesterday at the home on Sixth street east. Death was the result of a slight ailment of some kind, but few days' duration. The Rev. A. W. Moore officiated at the funeral, with P. J. Grossman in charge of burial. The casket is carried by wife, Mrs. Flora Ward, and three daughters, Mrs. Orpha Taylor of Twin Falls; Mrs. J. E. Atchison and Mrs. R. Watrous, both of Athens, Ill.

Have of Education. I am engaged in education. It makes women concerned and unkind. And it makes men dull and pedantic. Frederick Harrison in 1904 to Lady Dorothy Nevill.
