"Maneuvers at San Remo," asserts "Fortune," having the purpose of overcoming French opposition to revision of the treaty are the culmination of conversations which have been going on at Berlin between officials of the German government and certain allied representatives. SUFFRAGE ISSUE COMES TO FORE IN TWO STATES

Fight for Amendment Ratification to Be Carried to South Carolina Regardless of Action in Louisiana

RALEIGH, N. C. (AP)—Action of the democratic state convention recently in adopting a platform plank for ratification of the woman suffrage amendment will be the subject of a special session of the legislature about July 1.

Louisiana is the only state to have a session before North Carolina but suffrage leaders say no matter what action is taken in Louisiana it will have no effect on the fight for ratification in North Carolina.

If Louisiana were to act favorably it would make the thirty-sixth state but on account of some uncertainties over the ratification in Ohio legislature, because of a referendum involved, suffrage advocates are anxious to have 37 states ratify the amendment.

Opinion is divided here as to what action the North Carolina legislature will take in the amendment. It is felt that both political organizations in the state have adopted platforms including the plank favoring suffrage, many party leaders believe the amendment will be ratified. Besides Governor Bickett, many democratic party leaders in the state have come out for the amendment, including Secretary of State Senator Simmons and Congressman Hoey. The legislature is overwhelmingly democratic.

Opponents of suffrage believe the amendment will either be defeated in the legislature or by the voters of the state. In view of the amendment, the following Senator Overman's idea and propose a state constitutional amendment giving women the vote, thus putting the suffrage issue up to the voters, who, they believe, will reject it.

MILLERAND DISCUSSES PEACE CONFAB AFFAIRS

Explains Position of France with Reference to Treaty Execution

SAN REMO, (AP)—Alexandre Millerand, the French premier, Thursday explained the American newspaper correspondents of whom 11 are here, and talked freely about peace conference affairs.

"Our friendship with the American people," he said, "did not begin with 1914 but very long before that and before you brought us the decisive help in the war. Our friendship is a profound recollection."

"I regret we could not have the direct active co-operation of the United States in the preparation of the treaty of the Turkish treaty here, but I am sure America will stand apart always from European affairs."

"I regret much more that the United States does not participate in the discussion of Germany's treatment of the treaty of Versailles."

"I am confident that the Americans, whatever their points of view respecting the Germans are, have also sympathy for the victims of Germany. The policy of France . . . is simple and entirely open. We suffered and Germany pledged herself by the treaty to do certain things. She has not done them."

"Suppose Germany continues to be faithless; what should be done?" the premier was asked.

"Ah, that is the question," replied M. Millerand. "We have just received a German note asking our consent for her to maintain an army of 200,000."

"You have some pacifists who blast of French militarism, but let them look to Berlin. There is Prussian militarism. France cannot disarm until Germany does."

IDAHO

"The Misleading Widow," in which Billie Burke, the famous Paramount-Atterick and stage star, is to be seen at the Idaho theatre today and tomorrow, is as charming and attractive as the pretty actress herself. And that is saying a lot. The picture was adapted for the screen from a play by T. Toney, son Jesse and relates the adventures that befell Mrs. Betty Tardine, a beautiful "widow" when she announced that her missing husband had "died" in South Africa. The purpose of Betty's news was to collect the "deceased's" insurance, but instead it brought the wandering spouse on the scene, with laughable results. James L. Crane, the talented young actor, handles the notable case that supports Miss Burke. John S. Robertson directed the picture.

KENTUCKY LAW MAY PENALIZE CIDER MAKERS

Home-Made Beverages with Alcoholic Content in Excess of Statutory Limit Come Under Ban of State Legislature

LOUISVILLE, Ky., (P)—Farmers in Kentucky who have been accustomed to quenching their thirst with hard cider may be classed as "moonshiners" under the McMillan law which goes into effect on July 1. Under the state-wide dry amendment, adopted by the people last fall, any person having a beverage containing more than one-half of 1 per cent alcohol, including cider or homemade wine, on their premises, may be hauled into court to show whether they manufactured it with or without a permit.

Kentucky in thus assuming "concurrent jurisdiction" with the government of the United States in enforcing prohibition puts more teeth into the Volstead enforcement act and makes every peace officer in the state responsible for keeping the commonwealth "bone dry."

Thirty-four other states and the District of Columbia have state law enforcement measures as follows: Alabama, Arkansas, Colorado, Delaware, Florida, Georgia, Idaho, Illinois, Indiana, Iowa, Kansas, Maine, Michigan, Minnesota, Mississippi, Missouri, Montana, Nebraska, Nevada, New Hampshire, New Mexico, North Carolina, North Texas, Virginia, Washington, West Virginia and Wyoming. Ohio has not adopted a complete enforcement code. Three codes having been passed by the legislature and held up by the popular referendum.

Eleven states which so far have not passed law enforcement codes are: Massachusetts, Rhode Island, Connecticut, Vermont, New York, New Jersey, Maryland, Pennsylvania, Louisiana and Wisconsin. Three of the 11, Rhode Island, New Jersey and Wisconsin, have adopted beer bills. The Wisconsin legislature, in enacting a two and one-half per cent law provided that if the United States statute and the Volstead act, the statute shall not go into effect. Rhode Island will license places selling beverages containing not more than one per cent of alcohol by weight on the ground that it is non-intoxicating. New Jersey in legalizing the manufacture, sale and transportation of three and one-half per cent beer awaits the formal declaration of peace and the end of war prohibition.

Massachusetts legislators proposed a 3.12 per cent beer bill which was passed by the house but defeated in the senate. A 3.12 per cent bill is now pending in the Massachusetts and New York legislatures. Delaware is considering an amendment to the state prohibition code providing for the sale of liquor for "medicinal purposes" in harmony with the federal code. The drys oppose it on the ground that it nullifies much of the state enforcement law.

GENT JIM BRITT WAS ORIGINATOR OF FAMED CROUCH

There is one thing that followers of the ring know and, in justice to Jimmy Britt, it should be told. You have heard of the Jeffries crouch and the Dempsey crouch. These two men get the credit of being among the first to use this famous pose in the ring.

As a matter of fact, Jimmy Britt is the originator of the man wrecking posture. Out on the coast the fans, when they first saw Britt come from his corner like a crouching panther, gave him the laugh.

But after he whipped men like Gans, Nelson, Young Corbett, and a score of others with crushing blows started from this posture, they began to tout the crouch as Jimmy's main asset. Tommy Ryan, who trained Jim Jeffries, went after Britt and got pointers on the crouch and instructed the former heavy king how to use it.

Britt also gave Dempsey "the inside" stuff on the crouch. Well, did it work out for the present champ? His knockdowns in the first round in the bout with Willard is the answer.

Jimmy is the epitome of gentlemanliness, and is the best argument in the world against reform and to those who declare the game is filled with roughness.

ANOTHER BRITAIN DROPPED
LONDON, (P)—Jeff Smith, the Bayonne, New Jersey, middleweight, last night knocked out "Banaman" Rice in the second round of what was to have been a 20-round bout. The men met in the Holborn stadium.

DOPE POINTS TO DEMPSEY WINNER OVER CARPENTER

Physique and Puncturing Power Favor Salt Lake Man in the Match with European

By Ray Pearson. With all this talk of a world's heavyweight championship battle between Jack Dempsey of America, the titleholder, and Georges Carpentier, champion of Europe, it is interesting to note facts and figures. Of course, figures in the game of pugilism do not always mean much. A fine one may look back to that fracas of July 4 last when Dempsey demonstrated that conclusively by upsetting and winning the prize...

Tapo Line on Fighters. But now with a battle approaching at Long Beach, California, Dempsey and Carpentier, there will be a lot of argument and some of the fans who simply doze on allowing the tongue to wag will even open their eyes. They believe that the European champion has even better than an even chance against the champion of the sport. They are sure they will be able to judge for themselves what will happen when this championship is staged.

When they clash in the ring Dempsey will have an advantage of something like 17 pounds, and that poundage will materially help him. But even were Dempsey not heavier than the Frenchman, he would have a decided difference, for this year should not be one in which weight counts.

The thing that will count in the force behind the punch, and any one who knows anything about this boxing game will readily agree that Dempsey has it all over the Frenchman in this respect. As one fellow pugilist recently drew attention to the game, remarked in a conversation in which the relative merits of these two heavyweights were being discussed...

That certainly looks like the logical way to reason things out, but the gent who "released" the above, contained a bit farther with: "Carpenter is not just as long as he isn't hit by the champion. When Dempsey lands one solid smash, whether it is on the shin or in the mid-section, the fight usually ends in a knockout. Those who are willing to believe that Carpentier has a chance to defeat Dempsey have reached their opinion simply because of one thing, and that is the element of cleverness. They seem to be under the impression that the Frenchman is far more clever than Salt Lake Jack, and that he will be able to outpoint the titleholder, and possibly open him up for a shot at the jaw with his knockout right hand, the one that spoiled Joe Beckett, champion of England."

BEAN-BALL MAY BECOME POPULAR IN COMING YEAR

Its Use Likely as Camouflage for the Intention of Pitcher to Pass Batter

Without legislating the international pass out of existence, the rulemakers have adopted a camouflage that will satisfy the great majority of the baseball fans. Absolute abolition of the pass as a strategic play was opposed by managers a not altogether practical, although any one of a hundred different ways...

Danger of Wild Pitch. Instead the batsman will have to stick to his normal tracks both in the plate until the ball leaves the pitcher's hand, then he may go out as far as he can, just as in case of a wild pitch. But that is not far enough to make it safe for the batsman to hurt the ball very far wide of the plate. It will not do under the new rules to risk making wild pitch, which will be a disastrous as a base hit ordinarily. And the catcher cannot move very far after the ball is delivered even if he knows it is going wide of the plate.

Possibly some hurlers may make a joke of the new rule by deliberately tossing slow balls out of all reach of the batsman, which would be a way to get behind them, but that can be checked by a good runner on third because he can steal home on that kind of pitching.

Attempt to Beat Rule. What probably will happen when a dangerous slugger comes up with runners on third or second and the score close will be a lot of fast balls close to the batsman's head. That is the way most of the managers will try to get behind them, but that can be checked by a good runner on third because he can steal home on that kind of pitching.

Advantage to Pitcher. It will really work to the advantage of a wise slinger, for there are slingers of the Ruth type who will take a swing at a bad ball rather than accept a pass which works one way or the other. And the percentage is all against even the crazy swatter if he hits a bad ball that is too close in or too far out to be squarely squared. It will be better to dispose of some of these sluggers in that way in a pinch than to give them a deliberate walk to first, as has been the rule almost invariably.

The fan, of course, would like to see a rule compelling the slinger to deliver a ball to the home run boys—unless he is betting on the opposing team—but that is an impossibility. No umpire in the world can enforce a rule which works one way for a slugger and the other way for a weak hitter.

Louis is 15 years old and volunteered his services to the American relief committee. He arrived in New York several days ago and is making a stirring address on the frightful conditions in Hungary.

ARREST OF STRIKERS (Continued from Page One)

In New York and Jersey City waited today for the "next move" in the struggle, which their leader, E. A. McHugh, declared must come from the railroad managers. More than 3000 men are out and several thousands are waiting to remain out until the railroad labor board had acted on demands for a general wage increase. This may take several weeks. The railroad managers met McHugh's challenge for a "next move" by redoubling their efforts to hire new men to replace the strikers and retarding their determination to take strikers back only as new employees with loss of their seniority rights. Government of freight continued to improve today, according to J. J. Mantel, spokesman for the managers, and he predicted that the strike would have "thinned itself out" by the end of the week.

New Organization of Railroad Men Formed

WASHINGTON, (AP)—Formation of a new national organization of railroad men has been undertaken by representatives from the striking workmen in Chicago, New York, Cleveland, St. Louis and other cities. R. J. Mitchell of Chicago said efforts would be made to organize the strikers and retarding their determination to take strikers back only as new employees with loss of their seniority rights. Government of freight continued to improve today, according to J. J. Mantel, spokesman for the managers, and he predicted that the strike would have "thinned itself out" by the end of the week.

This is the measure which will attach ultimate benefit to the relief, making it a burden which it cannot support.

Spelling Contests are the order of the day at all the schools just now, the idea being to select by means of these matches, 72 boys and girls who will have the privilege of entering the final contest on Wednesday, April 28, to be held in the High School Auditorium.

The sum of \$45.00 in gold will be awarded the winners in the final contest, this sum having been donated for the purpose by Asher B. Wilson, president of the Chamber of Commerce.

Time was when spelling contests were one of the most popular features of school days and the benefits derived from these were of real and lasting usefulness both to those who took part and to the spectators. Such contests are just as useful today as they were twenty years ago and the City Schools are to be congratulated upon inauguration of a school feature which in the past has been too often neglected.

NOT A PARTISAN ISSUE
Certain phases of developments in connection with Georgia's presidential primary election ought, perhaps, to be called to the attention of Chairman Cummings of the Democratic national committee...

It is not to be overlooked that the votes in the convention are the direct vote of the electors in expression of preference would have placed not Mr. Palmer, but Mr. Watson, the opponent of the league in any form, in first place with 51,806 votes as against 47,006 for the attorney general, according to latest complications.

There can be no misrepresentation of the fact in the face of the election returns, that the people of Georgia are not in favor of the league of nations as prescribed by the administration.

Interest generally attaches to the Georgia elections where the issue was so clearly presented, because of the president's decree practically necessitating the submission of the question of ratification of the covenant to a "solemn referendum" in the coming general elections.

PRESIDENT OF URUGUAY URGES AMERICAN LEAGUE

Would Provide for Common Action Against Aggression and Arbitration

MONTEVIDEO, (AP)—Formation of an "American league" on a basis of absolute equality between American nations for common action against aggression threatening any one of them from outside nations had for subject of inter-American disputes was proposed by Dr. Baltazar Brum, president of Uruguay, in addressing students of the University of Montevideo last night.

Dr. Brum declared other American countries should make a declaration similar to the Monroe doctrine and secure the solidarity of the American continent. He said should any member of the "American league" have a controversy with the league of nations, that nation should ask for the co-operation of the "American league" in settling the controversy.

Referring to his scheme for an "American league" as the same as anticipated Wilson proposed organizing, Dr. Brum thought it could be the league of nations without difficulty.

JAPANESE ENTER DENIAL OF FIRING ON AMERICANS

WASHINGTON, (AP)—An official dispatch from Tokio today to Major General Inouye, Japanese military attaché here, said reports that Japanese troops had fired on the barracks of American engineers at Hailar, Manchuria, were erroneous.

The message said the fighting at Hailar was between Japanese troops and crowds, mostly Czech and Chinese soldiers, who sought to rescue six Bohemians being transferred to Manchuria for trial by court-martial.

Dehydrating Plant Pays Out \$35,000 Per Year For Labor and an Equal Amount For Fruits and Vegetables
The employes of the Dehydrating plant receive during the year salaries aggregating \$35,000.
There is paid for fruit and vegetables during the season an equal sum.
These two sentences tell a story of the importance of this young institution to the community. With the record of but a single year in operation, it is contributing \$70,000 to the wealth of the community, money all brought in from outside points and distributed throughout Twin Falls county.
This season, the company hopes to be able to manufacture more than \$150,000 worth of dehydrated fruits and vegetables, and these to be sold throughout the country. And bear in mind, the fruits and vegetables so disposed of would be WASTE ON THE HANDS OF THE GROWERS were it not for the Dehydrating plant.
There is now an organized sales force selling IN ADVANCE OF MANUFACTURE, the output of the plant for this season. When the time comes to receive the fruit and vegetables and pass them through the process which eliminates the freight costs for the consumer, makes them retain their savory individuality and preserves them indefinitely, there will be no delays about shipment or orders. The goods will go out by railroads, to make more famous this splendid county and to add to the wealth of our community.
Who can visualize this institution ten years hence? Who will say how far the Everready Products will be traveled, in their march forward?

Brief Bits of Sport: The American League, up to the present moment, seems to be all Sox, of one color or another.

Both classes of hose are going the limit, and each is presenting a real "copback" pitcher.

The Chicago Sox have Faber, a former star, and the Boston Red Sox have Joe Bush. Both are showing former class.

The Boston Braves recently paid \$2,500 to the Pirates' management for Joe Miller, outfielder, only to be told by the player that he had quit the game.

That leaves the Braves holding an empty sack, all right.

Johnny Evers has a notion present-day pitchers are poor punks and he just simply plans to confront some of them with a wagon topus.

Tom O'Rourke, manager of lots of fighters, seems to have succeeded in viciously up Fred Fulton considerably. Time was when Fred just lasted along against an opponent, but now it's different.

The Minnesota plasterer is putting them out in a peck of following in Dempsey's footsteps.

Johnny Griffiths, Akron fighter who recently knocked the lightweight for the welter class, says there's only one thing he wants more than a fight with Britton. That is Britton's crown as title holder.

Of course, though, Britton isn't giving the skydiver away without a fight.

Then, too, there's Benny Leonard, to reckon with before there can be much talk of the permanent holder, or make the lightweight limit, and may, forsooth, go up.

light. Mack walloped the Utah all about the place until near the close of the third, and then put a crashing blow on the jaw.

During the week Leo and Eddie White, the latter a lightweight of Salt Lake, went 12 grueling rounds against White, getting a hatline decision over the Salt Laker.

WORKERS RETURNING TO THEIR POSITIONS

Coterie of Heinecke Men Said to Have Reputated Union and Go to Work

Outside of extension of the labor outlook to several more concerns, some controversy between union workers employed on contract jobs concerning finishing contracts and the return of some men locked out yesterday to work there is little change in the local labor situation. Each side claims to be making gains.

The Brassie Sheet Metal works has closed its doors against union men, and is operating on a non-union basis. The American Electric Co. too, is said to have followed the lead and has refused work to card men. It is reported that a considerable coterie of workers, comprising the electrical contractors, the Construction company, returned to their jobs this morning, having, according to announcement, reputated affiliation with the union.

TOURIST PARK READY MONDAY

Camping Area About Prepared for Service; Commerce Club Official States

Practically every detail of cleanup and construction for the Twin Falls tourist park has been completed. The site should be ready for service by the beginning of the coming week.

"We have about completed the task we set out to accomplish and we hope to give the camping park over to tourists by Monday," said Everett E. Wright, secretary of the chamber of commerce, today. The work of preparation has been in charge of the chamber of commerce, executives of which have directed forces of workers during the past few days.

Yesterday's activities at the park, which is located at the east end of Fifth and Sixth avenue's east, resulted in the completion of five brick and concrete camping stoves and a good start on the construction of camp tables. These are being made by high school students of the manual training school. There will be five of the tables, each four feet by five feet in size. A driveway has been opened to the grounds and sign-painting is in progress. City forces are employed in supplying up mains for water and sewer service, and the same forces will fill in trenches dug yesterday by volunteer forces. Caretaker Elliott Lamb has moved out to the park and will be stationed in a nearby cottage. The park site covers an acre of ground and includes a fine locust grove.

Figleaf Society Has Fat Chance to Get By Here

The governor of Idaho is strong for the economy staff and has adopted the overall idea of help, aid-and-assistance to the country-wide movement designed to reduce the cost of clothing.

This governor also announces that if the cost of overall advances under demand pressure may be induced to start an Adam and Eve club.

That statement will be taken, by reserved persons, with a grain of salt that is, of course, unless, said so forth.

Anyway a fat chance a figleaf society would have with the present dispenser of climatic things on the job in Boise.

Unless the governor fires that guy pretty soon we'd like to see said governor doing a shirking shlimy with a leaf as his sole covering.

Wonder if the "weatherman" could possibly predict "bright and better" occasionally.

Still the promise for tomorrow isn't so bad, as promises from the statistical station go. He says "Warmer Saturday," but—

The concrete contractor will not be permitted to pour his dope tonight, because there's going to be "light to heavy frosts," if you get the meaning.

Yesterdays low temperature was 43 with 24 low last night, and four one hundredths inch precipitation during the twenty-four hours.

GROWLIER TO RE-ENLIST

Sergeant K. M. Growlier, who has been in charge of the local army recruiting station some time, left yesterday for Salt Lake to re-engage in service for the war department. Sergeant Growlier has been in service five years, his term being now about to expire. He will sign up for another years activities as recruitier.
