## BATTLE LOOMS IN VICINITY OF SINALOA PORT

### Mexican Federal Troops are Sent Out to Meet Revolutionists Under General Flores Marching on Mazatlan

WASHINGTON, (AP)—A battle between Mexican federal troops sent out from the Pacific port of Mazatlan to meet the revolutionists marching on that place is imminent, according to advice received here today from Mexico.

Federal Troops Retreating  
The revolutionary army under General Angel Flores is rapidly approaching Mazatlan, the advice said, while the federal forces have withdrawn to within 40 miles of the city. In retreating the federal troops are to have burned bridges and to have thrown up fortifications apparently with the intention of making a stand.

Civil officials here said that sympathizers of General Alvarez Obregon, anti-Carranza candidate for president, who has aligned himself with the revolutionary movement, were in control on general orders of the Carranza government.

Jose Sanchez, a federal deputy, is reported to have joined the revolutionists with 80 men at Puebla.

Sends Troops to Michoacan  
A detachment of federal troops has been sent from Mexico City to Michoacan in an effort to prevent further rebellion among the people of that state. Railway communications between Mexico City and Guadalupe have been interrupted by the destruction of bridges at Irapuato, an important railway junction.

## PRICES SOAR IN GRAIN MARKETS

### Big Export Trade in Breadstuffs Forms Basis for Extensive Buying

CHICAGO, (AP)—Extraordinary soaring of prices in the grain markets today were accompanied by a renewal of speculative purchasing on a large scale. Eye- and the way with a steep rise of the bushel. Corn followed with an ascent of 5c or more for all deliveries, touching at one time \$1.75 7/8 for May as compared with \$1.67 1/4 at the finish on Saturday.

Big export business of late in breadstuffs formed the basis of much of the buying, and so, too, has been the unstable weather making farm work so difficult as to be an evident menace to production.

The day ended, an extreme advance of 6 1/8 cents a bushel had been secured in the July delivery of corn, which touched \$1.66 1/8, with May at \$1.75 7/8. Barley was also at the highest part of the season that owing to the unusually sharp upturn in values British and French export interests had temporarily stopped buying.

MINNEAPOLIS, (AP)—Wheat trading on the Minneapolis grain exchange today had been steady but continuing to the future prices of grain, varying from 2 to 10 cents a bushel.

Unseasonable weather, reports of the grain buying firms for the heavy and unfavorable weather predictions caused one of the most volatile markets in years. Cash wheat went up 4c to 10 cents, barley was up 1c to 2c for the first time this year; oats advanced from 2 1/8 to 2 1/2 cents, and barley rose 1/8 to 3/4 cents under heavy buying orders.

## United States Chamber of Commerce Proposes Americanization Centralization

ATLANTIC CITY, N. J., (AP)—The board of directors of the United States Chamber of Commerce in convention here today proposed the chamber's Americanization program be centralized in a national committee to coordinate and direct the efforts of organizations now engaged in philanthropic and patriotic activities. The proposal was approved at an executive session of the board of directors and referred to the national committee composed of representatives of more than 1,500 trade and commercial organizations, which constitutes the chamber's membership.

A bureau of inquiry and information concerning enterprises operating nationally in philanthropic and patriotic fields will be authorized, and upon recommendation of this bureau, financial support will be given such enterprises or withheld.

A plan would fix responsibility for all Americanization efforts upon the United States chamber of commerce and contributors would be requested to support only such organizations as the chamber approved.

## COURT DIRECTS DISSOLUTION OF TRADE COMBINE

### Government Wins Anti-Trust Suit Against Lehigh Valley and Reading Railroads and Affiliated Coal Companies

WASHINGTON, (AP)—The federal government today won its anti-trust suit against the Reading company and affiliated coal companies in one of the so-called anthracite coal cases.

By a vote of four to three, the supreme court sustained the government's charges that the companies violated the "commodities clause" of the interstate commerce act and ordered the dissolution of the companies.

The Reading and Central of New most dispose of stock ownership, respectively, of the Philadelphia and Reading Coal and Iron company and the Lehigh and Wilkesbarre Coal company.

Justice Clarke rendered the decision for the majority, while Chief Justice White, in a minority opinion in which Associate Justices Holmes and Van Devanter joined, said the minority was in favor of accepting the opinion of the lower court dismissing the government's suit should be sustained.

Associate Justices McReynolds and Brandeis did not participate in the decision. Justice McReynolds was attorney general during the time the government prosecuted the suit, which was instituted in 1918.

Another Suit Pending  
Another of the so-called anthracite coal cases, that against the Lehigh Valley railroad company and affiliated rail, coal production and sales companies, is pending and when Justice Clarke rendered his decision in the Reading case today it was at first assumed that this case also had been decided. Examination of the written opinion, however, disclosed that confusion had been brought about by reference in the opinion to the Lehigh and Wilkesbarre Coal company, which the companies attacked in the Reading case.

## CLEARs 700 ROBBERIES

### Death of "Bull Mask Burglar" Leads to Revelation of Operations

CHICAGO, (AP)—Seven hundred robberies, whose toll is believed to total more than \$2,000,000, were cleared today when police examined the effects of Harry J. James, "Bull Mask Burglar," who was killed last night after shooting up the Fox Hall police station, wounding two patrolmen.

In James' private warehouse, where truck loads of rare art works, oriental rugs, jewelers' wares, clothing, trunks and dozens of other articles were found, police uncovered a card index in which the 700 robberies were listed.

In a secret chamber in the basement of the warehouse were 150 oriental rugs appraised by an expert at \$40,000.

When James was killed he was found to be wearing a suit belonging to former United States Senator William Lottimer. The suit was one of 40 stolen from a tailor shop.

## ALLES TAKE STAND FOR FULL FULFILLMENT OF TREATY

### Declare for Military Occupation of Additional German Territory If It Is Necessary

SAN REMO, (AP)—The supreme council today adopted the Franco-British declaration with regard to Germany after inserting a clause declaring its readiness to take all measures, even the occupation of additional German territory, if necessary, to assure the carrying out of the treaty of Versailles.

The adoption of this clause caused some discussion. Premier Nitti of Italy opposed military measures. Premier Millerand and Lloyd George showed him the necessity of considering such an eventuality. Foreign Minister Ryman of Belgium and Baron Matsui, the Japanese ambassador to France, joined him in this point of view, which was adopted.

Will Meet Germans  
Reports from the supreme council that representatives of the allied countries and Germany would meet at Spa, Belgium, on May 25, were confirmed today.

The joint declaration to be published tonight will set forth that an increase of the German armament would be considered so long as the terms of the treaty are not being complied with. It will recall that the Germans have made proposals on the reparations question that insist upon too technical an interpretation of the treaty.

Disavows Annexation Intent  
The declaration will assert the determination of the allies not to annex any part of German territory. It will declare that a direct exchange of views would be preferable to an exchange of articles with the intention of making the allies will not insist upon too technical an interpretation of the treaty.

Many Unions Vote to Join Labor Demonstration by Calling General Walkout  
PARIS, (AP)—This city faces an almost complete paralysis of business on Saturday, May 1, as the result of a large number of unions voting to join the labor demonstration by calling a general strike. Public utility employees and all unionized workers on the payroll of the municipality, with the exception of health officers and a large number of less important branches of labor will participate in the strike. Work in most lines will be resumed after 24 hours but the walkout telephone and telegraph employees will interrupt communication.

Decision of the congress of French railway workers to call a strike to begin May 1 day threatens a new danger, if the men lay down their tools before Saturday.

The government's policy, as regards the labor demonstration, would include an immediate mobilization of the railroad men to break the strike, but this plan has been abandoned. May day demonstrations, it is understood that the government's plans call for even more vigorous action than last year's. No picketing was planned, the streets ended with the troops charging the crowd and firing on the strikers.

Reports that the Adriatic question, including the disposition of Fiume, would be settled by the San Remo council in accordance with President Wilson's program, appeared from San Remo's advice last night to be at least premature. It was stated that the settlement of the Adriatic question varied from President Wilson's proposal by including a constitution for the buffer state of Fiume, to which both the French and British governments objected. Premier Nitti, it was said, was informed by both the French and the British delegations that Italy should not insist upon the constitution of the Adriatic pact of London, which gave Fiume to the Jugoslavians.

**HEATED CONTEST LOOMS IN OHIO PRIMARY VOTE**

**Wood Fights for Endorsement in Home State of Senator Harding**

COLUMBUS, O., (AP)—One of the hottest fights waged within the ranks of the republican party in Ohio in years is expected to be decided in the state-wide presidential primary tomorrow when Warren G. Harding, senior United States senator from this state, and Major General Leonard Wood, contend for republican preference and the delegation to the Chicago convention.

The Harding candidates for delegates-at-large are former Governor Frank B. Willis and Myron T. Herrick; Mayor John Galvin, of Cincinnati and H. M. Daugherty, an attorney of Columbus. The Wood delegates-at-large candidates are former Attorney General Edward C. Turner, of Columbus, and Attorney William H. Boyd of Cleveland. Four are to be elected.

In general the Wood campaign is headed by men who were prominent in the progressive party in 1912. Senator Harding's campaign for the most part is in the hands of men affiliated with local party organizations.

While there are no distinct sets of Wood candidates for delegates in the two Cincinnati districts, the candidates in these districts are pledged to Harding as first choice and to Wood as second choice. In the three Cleveland districts the Harding candidates are pledged to Senator Hiram Johnson as second choice while the Wood delegates are pledged to James H. Garfield as second choice.

So far as the democratic party is concerned Governor James M. Cox has a clear field without opposition, for all candidates for delegates are pledged to him. Local conditions, however, have resulted in certain districts delegates in a few districts. In the sixteenth district (Canton) the wet and dry question was brought forward as an issue and resulted in several candidates being entered.

The plan has been endorsed by the state board of administration.

**How much should I give to make this a better world?**

**A CERTAIN** men in New York filled out his income tax report.

It showed an income so large that his tax was 53%. And his total gifts to church and charity for the year were \$148.

Think of it—thousands spent for luxuries and pleasure for himself; and \$148 to leave the world a little better than he found it!

Most of us do better than that; but not so very much better.

- Our average daily gift for all church causes is
  - less than we spend for daily papers.
  - less than a local telephone call
  - less than a third of the day's car fare
  - less than 3 cents a day

No wonder that 80% of the ministers of America are paid less than \$20 a week. No wonder that the church hospitals turn away thousands of sick people a year. No wonder that China has only one doctor for every 400,000 people. No wonder that every church board and charity society is forever meeting deficits, forever passing the hat.

It isn't because we are selfish; it isn't because we don't want to help. It's just because no one has ever put up a great big program to us, and asked us to think of the work of the church in a systematic businesslike way.

The Interchurch World Movement represents the united program of thirty denominations. They have surveyed their whole task, no business could have done it better.

They have budgeted their needs; no business could have a more scientific budget. They have united to prevent the possibility of waste and duplication. At least a million dollars will be saved by the fact that thirty individual campaigns are joined in one united effort.

And they come to the men or women who love America—to you—this week asking you to use them as the channel through which a certain definite part of your income can be applied to make this a better world.

Only you can determine what part of your income that should be.

It's a good time right now to answer that question. We're passing through the world just once; how much better will the world be because you passed through?

Traffic Congestion Forces Ohio Manufacturers to Resort to Old Methods

CINCINNATI, O., (AP)—Shipping by barge down the Ohio river is "coming back," according to river men. A few years ago indications were that freighting by barge would soon be a thing of the past because of the quick transportation by rail. However, the tables have turned.

Since the beginning of the war, the freight congestion, coupled with acute car shortage, has forced manufacturers to seek every known means of transportation.

Automobile manufacturers were particularly hard hit. Last year a few enterprising dealers along the Mississippi as far south as New Orleans began driving their cars overland from Detroit and other cities to Cincinnati where they loaded them on barges to be pushed by tugs to their destination. The cost is said to have been about the same as shipping by rail and to have been much quicker.

# Opening Announcement of Our Downstairs Store

Not many weeks after we took over this business we realized that more room was necessary. The business was increasing rapidly and we did not have the room to carry the many lines of merchandise for which we were having daily demands. We looked for another location, but found everything tied up in leases that would not meet our requirements. The only thing to do was to grow up or down and having a large, roomy basement we decided to fix it up as a salesroom.

For weeks the carpenters and painters have been busy and we are proud of the work they have done. It looks so nice that we never intend to use the term "basement." It is our DOWNSTAIRS STORE.

HERE IS A FACT. We are paying the same rental for the whole store, including downstairs that we paid for the one floor only. We now have 2,500 square feet additional floor space for the same rent. This means that we can continue to give the values that have characterized our policy in the past. In fact, in the downstairs store you will always find values that make the extra effort of going down to get them, worth while.

**Today's Markets**

**Grain and Provisions**  
**CHICAGO.**—All grain ran up rapidly in price today on account of a tonnage bulge in the soy market. Indications that a huge export business had been done of late in rice and wheat were largely responsible for the spectacular action of rice. Wet cold weather continues to interfere with farm work at a critical time counted also as a bullish factor and led to buying on a large scale. Opening prices, which ranged from 1.2 to 4¢ higher for corn, with May \$1.71 and July \$1.63 to 1.65, were followed by rapid declines before any official trade took place.

The climbing of prices was finally checked by word that exporters had withdrawn from the market. Closing quotations notwithstanding were strong, at 4.75 to 6¢ net advance, with May \$1.73 and July \$1.65 3/4 to \$1.66.

**Cash Quotations**  
**CHICAGO.**—Wheat: No. 2 Hard, 1.75; No. 3 mixed 1.71 to 1.71 1/2; No. 2 yellow 1.76 to 1.78.

**Chicago Livestock**  
**CHICAGO.**—Cattle receipts 11,000; beef and butcher cattle strong to 50¢ higher; bulk steers 11 to 12.25; most cows 8 to 10.50; bulls and canner strong vealers 4 under Friday.

**Omaha Livestock**  
**OMAHA.**—Hog receipts 10,000; market generally 25¢ higher; top \$14.85; bulk \$12.75 to 14.50.

**Chicago Produce**

**Today's Markets**

**Grain and Provisions**  
**CHICAGO.**—All grain ran up rapidly in price today on account of a tonnage bulge in the soy market. Indications that a huge export business had been done of late in rice and wheat were largely responsible for the spectacular action of rice. Wet cold weather continues to interfere with farm work at a critical time counted also as a bullish factor and led to buying on a large scale. Opening prices, which ranged from 1.2 to 4¢ higher for corn, with May \$1.71 and July \$1.63 to 1.65, were followed by rapid declines before any official trade took place.

The climbing of prices was finally checked by word that exporters had withdrawn from the market. Closing quotations notwithstanding were strong, at 4.75 to 6¢ net advance, with May \$1.73 and July \$1.65 3/4 to \$1.66.

**Cash Quotations**

It is to be hoped that, now that the auto season is apparently open for the rest of the year, drivers will exercise extreme caution in passing through the streets of the City. In the past, ninety per cent of all motorists have been consistently careful at all times, but always there is a small minority who willfully disregard the city ordinances and the laws of common sense as well when it comes to auto driving. The streets of Twin Falls are never quiet. All day long literally hundreds of vehicles are in motion and on the principal streets actual congestion obtains during certain hours of the day. It should be the duty of each driver not only to keep to the rules himself but to assist in seeing that others do the same. Only in this way can the City keep its record clean in the matter of auto accidents.

**FRAMING THE PLATFORM**

Democratic critics have tried to poke fun at the unusually comprehensive plans being made this year for the framing of the Republican national platform, one reason to be found, perhaps, in the fact that Democrats are not in the habit of taking their own platforms seriously. A platform, to their minds, is a good deal like the street car conductor's definition: "Something to get in on, not to stand on." One is reminded of the plank calling for a single term of the presidency and other principles laid down by the Democrats in recent national platforms which may have helped them to "get in on," but which they certainly did not "stand on" after the election.

The advisory committee on policies and platform of the Republican national committee has sent out its first questionnaire to leading Republicans, asking their views on important suggestions. Some of the questions are: "Did you approve the passage of the Federal farm loan act? Did you approve the passage of the Federal reserve act? Do you believe the Federal government should license all corporations organized for profit and engaged in interstate commerce? Assuming that child labor should be regulated, should such regulation be extended as a Federal function or should it be developed more largely by the states? Should the Federal government have a housing policy and assist by providing model homes for wage earners? Do you approve extension of the policy of Federal aid to education in the several states and, if so, to what extent and in what particular directions?"

The trend of these inquiries is obvious: The question of increasing centralization of Federal powers is one of the most important of the day. And the country looks to the Republican party for a vigorous declaration of sane progressive policies.

Some price quoted in one of today's ads may mean a saving for you—even though it may be a transient opportunity.

**Twin Falls Can Not Afford to Permit The Dehydrating Company to Suffer for Want of Adequate Finances**

With a payroll of \$35,000 per annum, and with payment of a similar sum for fruit and vegetables which would otherwise go to waste, the Dehydrating company is of vital concern to Twin Falls.

Not only does this institution bring in vast sums of money which would not otherwise come to the community, but it makes a market for fruit and vegetables which would otherwise go to waste, and in this manner raises the standard of grade of the fancy pack of the growers.

It advertises Twin Falls as no other industry can advertise the community.

It promises a growth which will develop an institution famed throughout the world. Even now Everready products are being marketed from Alaska to Australia. In the wide places far from a base of supplies, men can have the savory fruits and vegetables they crave, less the water and freight. And every package is an advertisement of the Twin Falls country.

Housewives know the delicious and savory merits of Everready products. Neither canned goods or evaporated fruits preserve the flavor as does the system of dehydrating employed in the manufacture of Everready products.

Hence is apparent that—  
Twin Falls cannot afford to lose this industry. It converts waste into money. It advertises our country. A small block of the stock must be sold to complete financing the institution. The experiment has been made, and the merits of the enterprise established.

It will not do now to permit the industry to die. Do your part when the committees come to see you.

Brief Bits of Sport

Georges Carpentier has started on a training junket. The French champion boxer says he is taking this method of training for a championship scrap with Jack Dempsey.

Seems to us that the last George Carpentier was about preparing for a fight with Dempsey, until that man is exonerated by the federal courts of the charge of slackerism, the more popular his tour will be.

There are several men whom Carpentier might match himself with. One of them is the reigning and, if he will just say he is preparing for these fellows it will probably boost his own popularity in this country.

Dempsey may be the recognized best fighter in this land but that fact does not clear him of the charges now laid against him by his government of a serious offense against the country in the country's hour of need.

The Yankees won a game from Philadelphia Saturday, but B. Ruth had nothing to do with the winning.

The successful manner in which Eddie Cicotte is twisting baseball this spring makes one wonder if that "whisper" about the "fix" is true. He has won for the past few seasons what was psychological bunk mostly.

The "shiner," with the "splitter" and other freak stunts has been legislated out of baseball, but the loss of his favored trick does not seem to have dampened the Sox star-finger's effectiveness.

This sounds probable—and is referred to C. F. Green for corroboration. A young woman-telephone operator was at a local church last night, it is rumored. During the course of the discourse the minister said: "We will not sing hymn 341-341. With the announcement of the number '341' and said: 'Lino's busy.'

Slim Smiley, sagebrush say, says: "The newspaper is a wiser fellow than 'av'rage politician; he allus 'light' somethin'."

Also the Salt Lake Bees won from Oakland Saturday by a goodly count, 4-0. Manager Ernie Johnson was the luminary of the various denunciations during the soiree.

If Georges Carpentier is really looking for fights and not a fortune in good American dollars he will hasten to take on Fred Fulton, just as a try-out, you know.

New York fight fans have come into their own; the state legislature has passed a 15-round boxing bill.

MILTON BRABER RECORD

DAYTONA, Fla., (P)—Tommy Milton, driving a 16-cylinder automobile, broke the world's record for the quarter mile in the 2-1/4 mile race at Daytona Beach Saturday. Milton made the mile in 23.60 seconds against the former best time of 24.02 set by the American Automobile association. In the two-mile event Milton's time was 47.10 seconds, the previous record being 48.54.

YALE'S COLORS AHEAD

DEBBY, Conn., (P)—The blue of Yale was carried triumphantly to the regatta on the Connecticut river Saturday night. A new record for the two-mile course was established by Yale in the venture, with a mark of 19 minutes 2 1/2 seconds. With a mark of 19 minutes 2 1/2 seconds, 10-13, which also was made by Yale last year.

BOXING FOR NEW YORK

ALBANY, N. Y., (P)—The assembly today passed the bill which would permit 15-round bouts to a decision in New York state. The bill, which was introduced in the senate by Senator F. J. Walker, now goes to the governor. It was drawn by the army, navy and civilian board of boxing control.

CANADIANS WIN

ANTWERP, (P)—The Canadian hockey team won the world's championship Saturday night by a 5-0 victory over the United States.
