## GENERAL WOOD LEADS JOHNSON IN NEW JERSEY

Count of Primary Ballots Shows Close Contest with California Running Close on Heels of Leader in Field

## EDWARDS ELECTED HEAD OF DEMOCRAT BIG FOUR

Carrying of Fight on Prohibition to Floor of San Francisco Convention Assured by Result at Polls

NEWARK, N. J., (AP)—Revised returns at 5:30 p. m. with 120 districts missing gave Wood a lead of 87. The vote stood: Wood, 50,929; Johnson, 50,375.

NEWARK, N. J., (AP)—Although 1853 out of 2025 election districts gave General Wood a lead of 874, with a total of 50,765 majority against Senator Johnson, 50,375, the result of the preferential count and alignment of the state's 22 delegates appeared still to remain in doubt.

At present, Wood is sure of one member of the "big four" and five of the 24 district delegates, while Johnson is sure of the support of six district delegates. Incomplete returns indicate that Wood may win seven more, Johnson's and that 5 may go to Chicago unpledged.

NEWARK, N. J., (AP)—Major General Leonard Wood was elected Senator Hiram W. Johnson of California this afternoon in New Jersey's preferential primary contest. The California delegate took the lead on the first returns last night but who was 738 votes behind his opponent at 7 o'clock this morning, managed to cut down this margin at the time to 332, but later the general regained ground of 2025. At 12:45 a. m., revised returns for 1859 election districts out of 2025 gave Wood 49,070 and Johnson 49,237.

Delegate Returns Incomplete. Returns for district delegates still were incomplete. Republican returns were complete for five districts, which elected five Wood delegates, four Johnson and one unpledged. Incomplete returns from six other districts showed a close vote but indicated election of eight Wood, two Johnson and two unpledged delegates.

Complete returns from the Twelfth district showed that Wood had obtained two more district delegates, bringing his total in that district to six as compared to Wood's four in this district. Johnson and Wood candidates far out stripped two unpledged to Senator Harding of Ohio. This was the only district in which the names of Harding and Johnson appeared. Wood's vote was heaviest in the rural districts, while Johnson polled heavily in the industrial districts of the north.

Edwards Heads "Big Four". Governor Edward L. Edwards, who has announced that he would carry the fight against prohibition into the floor of the San Francisco convention, today elected the democratic "big four". Other democratic delegates at large elected all without opposition were James H. McLaughlin, county conservative leader; Mayor Frank Hague of Jersey City, and Mayor Frederick W. Donnelly of Trenton. Democratic voters did not have an opportunity to register their choice for president, there being no candidates' names printed on the ballot, although all of the "big four" and virtually all of the district delegates are pledged to the candidacy of Governor Edwards.

## Harding Carries Ohio Against General Wood

COLUMBUS, O., (AP)—Returns from 8,425 precincts out of 9,522 in Ohio give Harding 118,644; Wood 105,248.

COLUMBUS, O., (AP)—Late returns today from yesterday's presidential primary election in Ohio from all but 682 of the 5282 precincts in the state showed Senator Harding was leading General Wood by 12,321 votes. The vote in 5200 precincts stood: Harding 114,993; for Wood 104,672.

Additional returns late this afternoon indicated that 38 and possibly 40 more votes would be added.

The Great Northern brought 800 casual troops, who comprised almost the last detachment to leave Siberia.

## DISCUSSION ON METHODS MAY DELAY RELIEF BILL

Congressmen on the Opposing Sides Air Views on Raising Funds for Program

WASHINGTON, (AP)—The fight over the method of raising almost two billion dollars for soldier relief legislation precipitated an all-day debate in the house Tuesday during which republicans on one side and the combination of democrats and insurgent republicans on the other explained their proposals.

Representative Johnson, republican, South Dakota, announced that 75 republicans "insurgents" favored a retroactive "war profits" tax instead of a sales tax proposed by republicans. His statement, if borne out later, would indicate a split upset of the republican program to pass the bill Monday without permitting action on the "war profits" tax proposal. Representative Garner of Texas, democratic whip, predicted that the result of the republican caucus Friday night would be to "win the insurgents into line."

Mr. Johnson's associate, Representative Baev, democrat, of Illinois, introduced today the "war profits" tax bill which would pay 50 per cent on any increase of net income during the last four years over that of the pre-war period. The plan was attacked by Representative Cleveland of Ohio, republican, who declared it would "levy taxes on taxes" and that the excess earnings of individuals and corporations during the war had already been taxed more than 50 per cent.

"To accept this plan means there will be no soldier relief," declared Mr. Longworth, Ohio republican, adding that it would "kill the soldier bill." Besides the levy on sales, which he said, "would not raise much," Mr. Longworth said all stock exchange transactions were to be taxed, while the existing levy on tobacco, incomes and real estate sales were to be increased.

Representative Clark, democrat leader and garnet, announced that opportunity be given to amend the bill. Mr. Clark recalled the parliamentary revolution of 1917 and gave "gentle" warning that the republicans were "entering on the same kind of conduct that led to the upset of their machine then."

## U. S. GETS TANKERS FOR TEMPORARY MANAGEMENT

Vessels Occupying Long Discussion by Reparations Commission Awarded Under Stipulation

LONDON, (AP)—The eight tankers which had been under discussion by the reparations commission of the peace conference at which nations should receive them, have been awarded to the United States for temporary management. It is stipulated that they be used for transporting fuel oil to France, Belgium and Italy and for making at least two trips. As the steamers are in bad shape, requiring some time for overhauling, it is believed that the question of their use will be settled upon completion of the second trip.

## ASKS FOR RE-HEARING IN STEEL DISSOLUTION SUIT

Government Argues Precedent Set in Reading Case is Applicable

WASHINGTON, (AP)—The federal government today asked the supreme court to re-hear its dissolution suit against the United States Steel corporation.

The suit recently was decided against the government by a vote of four to three with two members of the court abstaining from participation. Action on the motion will be taken later.

## FRENCH COLUMN AMBUSHED

Official Accounts of Retreat from Urfa Reveal Turkish Treachery

PARIS, (AP)—Official accounts of the French retreat from Urfa, Asia Minor, confirm the reports that the retreating column was ambushed, although the French had an agreement with the Turks which they believed would ensure a safe retirement.

The French left Urfa only when food and water were badly lacking and sustained a sleep of two months. The French losses in the siege are said to have been small, while the admitted Turkish casualties totaled 600.

## World News Events

PARIS, (AP)—Two merchant vessels flying the Russian anti-Bolshevik flag which were anchored in the harbor of Genoa were seized yesterday by members of the Federation of Port Workers who announced they took over the vessels to return them to the Russian soviet government. The police arrested those who boarded the vessels.

PEKING, (AP)—Students in the Peking schools have declared a strike in sympathy with students of Shanghai and fourteen of the provinces. No violence is reported. The Shanghai strike was caused by refusal of the Peking government to reply to the demands that secret negotiations with Japan relative to Shantung cease and a decree abrogating secret treaties be published.

NEW YORK, (AP)—The Japanese stock exchange will re-open May 1, according to advices received here today by Mitsui and company, a large Japanese import and export company. The silk, rice and cotton exchanges now are open, the advices stated, adding that the silk exchange re-opened April 20.

## GERMANS PLEAD THEIR INABILITY TO MEET TERMS

Economic Situation Bearing on Payments of Reparation and Indemnification to Be Set Out in Memorial

BERLIN, (AP)—Germany's economic situation, in its bearing on further payments the country will be able to make toward reparation and indemnification will be set forth in detail in a memorandum being drafted by the ministries of finance and economic presentation to the allies on May 10.

It will be a candid presentation of the conditions now obtaining and prospects of their improvement in the near future. Information received permits the conclusion that the memorandum will exceed a billion marks, the amount originally proposed as reparation is not considered by the Berlin government as being within Germany's physical capacity to pay.

## Views on Allied Decision

Conflicting French, British and Italian views were compromised in framing the final allied statement issued at the St. Remo conference, according to the views of newspapers here. A member of the allied conference is cited by the Vossische Zeitung as saying that Premier Millerand prevailed upon the matter of fact. This newspaper's St. Remo correspondent says that the allied conference for Germany if the chancellor at the forthcoming verbal negotiations shows more ardor than has been manifested in recent German notes, which he says, "have been deplorable examples of diplomatic awkwardness."

## Millerand Outlines Policy in Occupation

PARIS, (AP)—Premier Millerand, in making a decision to the chamber of deputies on the results of the supreme council meeting at San Remo, said that the Frankfort and Darmstadt treaties would be executed by the French as soon as the allied commissions have established that the German armed forces over the number allowed to be retained as of August, 1919, had been withdrawn.

The whole German forces in the Ruhr region, the premier declared, must be reduced to 30,000 men, and by July 10 all the German soldiers must be withdrawn and replaced by a police force of 10,000 men. "The police must be equipped with the outline already made, but I can say that the treaty in its entirety will be the outline already made in Constantinople and the territories in which they are in the majority."

# RENTS PROBLEM SERIOUS ONE IN MASSACHUSETTS

### State Commission Struggles with Situation but Meanwhile Tenants Obtain Small Portion of Relief

BOSTON, Mass., (AP)—Massachusetts has not yet been able to make up for its shortage of homes and keep rents from skyrocketing. A state commission on the necessities of life is struggling with the problem but meanwhile tenants in this state and elsewhere have obtained little relief. Several tenant unions recently refused to pay advances in rent demanded of them and by their action avoided eviction which would have been legal upon 30 days' notice.

Two hundred tenants at Beverly have formed a corporation known as the Tenant's league to combat rent increases and have announced that they will tolerate no more advances in rent until they have secured aid from the city's local department. The issue there is still in doubt.

An attempt to solve the problem by arbitration has been made in Brockton, a shoe manufacturing center. A board composed of two tenants, two landlords and a fire marshal was selected by the others in to decide whether rents have been unduly advanced when disputes arise between landlords and tenants.

The commission, on the necessities of life has investigated the housing and rent problems and has contributed a number of suggestions for their solution but as yet has made no formal report. It has urged the cities to form housing corporations and to buy, build and improve abandoned tenements and workmen who had moved to better homes. The commission found there were 1000 tenements which were unoccupied because the landlords would not remodel them so as to make them fit for occupancy.

At the suggestion of the commission a bill has been introduced into the legislature that would limit the return from investments in dwelling houses to 3 per cent. The purpose of the bill is to prevent speculation in homes. The commission found many builders had stopped construction because of the high cost of land and materials which had gone to speculating in real estate. The result was that frequent sales of property were followed by advances in rent. In many cases tenants were forced out of their homes so that the landlords might demand higher rates from new occupants. The bill would force corporations to attempt to relieve the housing shortage by erecting community houses. Whole villages of attractive houses are being erected in New Bedford, Lawrence, Lowell and other small cities, and will be rented or sold to employees on easy terms.

## SEISMIC DISTURBANCES PREDICTIONS POSSIBLE

Hawaiian Volcanologist Points Out the Value of Observations' Work in Saving of Lives

HILO, Island of Hawaii, T. H., (AP)—Predictions of volcanic eruptions have been brought within the realm of practical things, while predictions of earthquakes and a consequent great saving of human life are within the range of possibility in the near future, according to Dr. Thomas A. Jaggar, Jr., director of Kilaua volcano observatory near here, who has just left for a tour of New Zealand and other South Pacific lands.

Coordination of the work of volcanic and seismological observatories throughout the Pacific area and further development of the system, together with a study of the causes of volcanic and earthquake activities in the Pacific are the main objects of Dr. Jaggar's tour.

Determination of tides in the rise and fall of lava, similar to the tides of the sea, is one of the achievements of Dr. Jaggar at the Kilaua observatory.

The volcanologist said before his departure that valuable observatory work was being done in Japan and that interest in New Zealand was increasing. More stations, better co-ordination of work and extension of observations are necessary, said the doctor, to obtain the complete data required for exact determination of laws governing volcanic and earthquake activities.

## CLINTON'S FIRE HORSES RETIRE TO RURAL HOME

### Refusal to Depart from Habits Not to Stir at Night Brings Disgrace

CLINTON, Mass., (AP)—"Betty" and "Billy" have gone back to the farm. Clinton's fire department has returned to its motorized efficiency. An upstanding pair of horses, the horses were the pride of the fire-fighters until they became the cause of their disgrace. Stock and fat from a farm in an adjoining town, they were obtained to pull the city's old fire engine while the new motor apparatus was being repaired. The horses were used to their first fire in a manner to make old firemen speak with happy reminiscence of the horse-drawn days. Then came a night alarm. Back on the farm, "Betty" and "Billy" had been accustomed not to stir from sundown to sunrise, and no fire gong or urging by anxious firemen would move them to answer the alarm. All the fire department's split-second aids to a quick start were lost on the horses. They refused to bulge, the firemen had to go to the blaze with chemical lines, and the town folks laughed.

The fireman vowed that thing would not happen again and the horses were put through a stiff training. They went to the day fires with spirit, and the fire crew hoped they understood. But another night alarm came, and again "Betty" and "Billy" would not move; once more the firemen went to the foot, hose in hand, and again the town laughed at their discomfiture. The next day "Betty" and "Billy" went back to the farm.

## LINER LEAVING RECALLS HISTORIC PREDECESSOR

### Corporation Sixty-Six Years Ago Purpose Operating Boat Lines by Way of Panama

SYDNEY, (AP)—Departure from here recently of the White-Star liner *Merano* for Liverpool by way of New Zealand, the Panama canal, the West Indies and New York, recalls her historic forerunner of 1854. This vessel, the *Golden Age*, was a wooden, paddle-wheel steamer, belonging to the New York and Australian Steam Navigation company. The intention of the company was to run six vessels "the Panama," the Panama national, capitalized at seven million dollars, being the connecting link on the then unbridled isthmus from South America. The *Golden Age* left Melbourne for Panama via Sydney and Tahiti, May 5, 1854. She reached Sydney on May 11 with 100 passengers. Her cargo included a consignment of gold dust and she reached England in 60 days.

## AUGINALDO PENSIONED BY PHILIPPINE SOLONS

### Leader of Insurrection Who Surrendered to Late General Funston Given Aid in Declining Years

MANILA, P. I., (AP)—Emilio Aguinaldo, one of the leaders of the 1900-1901 insurrection who surrendered to the late Major General Frederick Funston, has been granted a life pension of \$6000 a year by the extra session of the Philippine legislature which recently adjourned.

This action was taken as "recognition of the invaluable services General Aguinaldo has rendered to his country." A similar pension was granted to Cayetano Arellano, who has been chief justice of the Philippines supreme court ever since it was created. Mr. Arellano on account of his advanced age has announced that he will soon retire from the bench.

Frank W. Carpenter, who has just retired as governor of the department of Mindanao and Sulu, was voted a gratuity of \$25,000 in a lump sum in recognition of his work among the non-Christian tribes in the southern islands. Mr. Carpenter was popular with these peoples and with the Sultan of Sulu.

# FOCH RECEIVES GERMAN WITH LACONIC REPLY

## French Biographer Describes Historic Scene of Morning of November 11 When Generalissimo Signs Document

NEW YORK (AP)—Germany's appeal for an armistice on November 7, 1918, met with the laconic reply, "I have no terms," from Marshal Foch to Erzberger and the other plenipotentiaries, according to Raymond Becoul (Captain X), French biographer of Foch and Joffe, in an article entitled "What Foch Really Said," published in the May issue of Scribner's magazine, out today.

Becoul, describing the historic scene of the morning of November 11, when the generalissimo of the allied forces, attended by a few members of his staff, was seated in a railway dining car in a forest near Rheims, a town between Compiègne and Soissons, declared "the sight of him who secured the German envoys with joy."

German Use Radio  
The radio from the Germans asking for "a cessation of hostilities in the name of humanity" was received by Foch shortly after midnight on the 7th and at 1:25 a. m. on the 8th Foch sent back his answer. The German plenipotentiaries who had to go to the outer camp on the main road from Maugegla-Capelle-Guise. From this point they were brought by delayed stages to Rheims, which they reached about 7 o'clock in the morning. Two hours later they were in the presence of the commander of the conquering allied army.

"There was a cold salute," says Captain Becoul, "a bow in return; no presentations. The Germans took their places at the table in the dining car, where their names were written, and remained standing. The officers seemed embarrassed and apologetic. The civilians who did not seem to care at all. They talked familiarly together; it was impossible to believe that their country's fate was hanging in the balance and that they were there to sign the most 'kolossal' capitulation the world had ever seen."

Foch Bearing Impressive  
Foch's piercing eyes, gruff voice and dignified manner were impressive. "To whom have I the honor of speaking?" he asked. The Germans replied, "What is the object of your visit?" he asked. Then followed this dialogue: Erzberger: "We have come to inquire into the terms of an armistice, to be concluded on land, on sea and in the air."

Foch: "I have no terms to submit to you."  
Count Oberndorf, the diplomatist in the German party, interposed: "If the marshal prefers, we may say that we are here to learn the conditions on which the allies will be willing to grant us an armistice."

Foch: "I have no terms."  
Erzberger, drawing forth a greasy paper: "President Wilson has instructed our government that Marshal Foch has been invested with the power of submitting the allies' conditions to the German plenipotentiaries." Foch: "I will let you know the allies' conditions when you have asked for an armistice. Do you ask for an armistice?"  
Erzberger exclaimed Oberndorf and Erzberger together.

Foch: "In that case I will read you the terms drawn up by the allied governments." He sat down and the reading began. It lasted an hour, for the document had to be translated. The Germans pleaded for an immediate suspension of hostilities and for time to permit the Berlin government to examine the terms. Again Foch spoke: "I am but the mouthpiece of the allied governments. It is those governments that have drawn up the conditions of the armistice limiting the delay to 72 hours. I have no power to suspend hostilities without their authorization."

German in Haste  
The Germans at once dispatched a messenger to Spa with credentials and the request that his journey to Berlin be "facilitated." When the messenger reached the German outpost, it is related, the troops were to demoralized flag. Promissive valley firing continued and the emissary was unable to reach his destination until the next day. Meanwhile the German envoys had notified Foch of their difficulty and Foch agreed to permit them to send a German officer to Berlin by

air. A plane was equipped and ready for the flight when word was received that the messenger had reached Berlin.

Captain Becoul declares the armistice was signed because Foch and his staff were convinced Germany was already in the throes of a revolution. While the German government was analyzing the terms the plenipotentiaries remained near Foch in the forest at Rheims. They were permitted to leave their train and, guarded by armed soldiers, exercise in the open air. On the afternoon of the 10th, Foch informed Erzberger, the head of the delegation, that hostilities would be resumed at 11 a. m. the next day. At 7 o'clock on the night of November 10th the following radio message was intercepted by the French:

"German plenipotentiary to German plenipotentiaries (Signed) The Czar, seller of the Empire." Three ciphered figures at the end of the message proved its authenticity. More than 12 hours of deliberation and debate over the "harsh" terms followed. Foch granted some concessions and refused the others.

Subsequently the wearied French, English and Germans appended their signatures to the document, and, by postmark, six hours after the signing, or 11 a. m. of the morning of the 11th, operations ceased along all the fronts. Four years of warfare which had cost more than 9,000,000 lives was at an end.

Professor Griggs Says Five Trips are Enough to Explore the Valley

COLUMBUS, O. (AP)—The Valley of Ten Thousand Smokes near Kodiak, Alaska, will see no more of its discoverer, Robert F. Griggs, professor of botany, Ohio State university. Prof. Griggs, who describes the valley, as "hell with the lid off," says five trips to this desolate country atop the earth is enough and that he "felt up" it. During the coming summer Prof. Griggs expects to complete his book describing this valley of mystery and the eruption of Mount Katmai nearby.

## SEEKS CO-ORDINATION OF PLANT QUARANTINE

### Organization to Bar Pests and Disease from West to Meet in Salt Lake

SALT LAKE CITY, Utah, (AP)—Measures to co-ordinate plant quarantine restrictions of 11 western states, the Canadian province of British Columbia, territory of Hawaii and the northern district of Baja (lower) California will be considered at the second annual meeting of the western plant quarantine board to be held here May 11 to 15.

G. H. Heeka, director of agriculture for California, is president of the board and the meeting call came from his office in Sacramento. Governor Blinn Hamberger of Utah has accepted an invitation to address the board. The organization was founded at Riverdale, Cal., in May, 1919, and the membership is made up of quarantine officers. Its purpose, as announced at the time of formation, is to erect a barrier against importation west of the Rocky mountains of plant pests and diseases that have not already found root on the Pacific slope. The best means of accomplishing this purpose, it was agreed, is through uniform quarantine restrictions. Methods of enforcing restrictions will be one of the chief topics at the May conference.

## LAST YEAR'S DROUGHT NO DETERRENT TO FARMERS

GREAT FALLS, Mont., (AP)—Farmers who left this section because of last year's drought are returning in large numbers, according to real estate dealers who have had their property listed for sale. Officials of the state department of agriculture declare they believe virtually all of the farms which were deserted last year will be reoccupied this year. In many instances, farmers left their families on the farms, supporting them by working elsewhere.

## SCHOOL OWES EXISTENCE TO REPLY OF PRISCILLA

### Founder of Reed College Direct Descendant of John Alden, Genealogist's Chart Shows

PORTLAND, Ore., (AP)—Priscilla had not made her famous remark to John Alden, the Pacific coast would have lacked one of its leading colleges as genealogical chart just published by Reed college shows that Annama Reed, the founder, is a direct descendant of Priscilla and John Alden. Had the famous New England maid fallen to say, "Why don't you speak for yourself, John?" Portland would never have had Reed college. Coming to Portland from Quincy,

Mass., in pioneer days, Simon G. Reed started the line of steamships on the Columbia river, which later became the Oregon Railroad and Navigation company. When he died he suggested that his wife use his fortune for some institution of value to the citizens of Portland. In 1894 Mrs. Reed, leaving her entire fortune of several millions for the founding of Reed college.

## Any Wheel Which Does Not Pull Equally With the Others Acts as a Brake

Look again at the drawing! You see four factors necessary in keeping the Big Wheel of continuous telephone service revolving at the proper speed. This Big Wheel must turn smoothly to grind out its daily crop of 80,800,000 calls over 11,795,747 telephones, of which 7,000,000 are Bell-owned.

Industrial progress depends more each day on the telephone to destroy space, save time and increase the efficiency of every worker in every field.

Therefore, the responsibility of each smaller wheel within the Big Wheel increases daily.

It is the duty of the public to pay an adequate rate for adequate service, and to protect the employees supplying the service.

It is the duty of the employees to provide sufficient satisfactory service to the end that the public will pay rates necessary to support the business.

It is the duty of the owners to provide efficient management to operate the property honestly and fairly. The management must co-ordinate the whole effort and conduct the business to the end that:

- the public receives sufficient, continuous and efficient service.
- the employees receive fair wages and protection against a sudden shutting down of the industry. Their positions must be secure through lean and fat years.
- the owners who buy shares of stock receive a fair wage for their savings invested in the business. A stockholder provides money to expand the business which grows daily; he must receive a fair rate of interest on his money invested.

Therefore, the management represents the employees in dealing with the owners and the public. The management represents the owners and the public in dealing with the employees. The management must co-ordinate the effort of each smaller wheel to the end that the Wheel of Continuous Service revolves every hour of every day, every year, at the speed necessary to protect in efficient progress.

# SOCIALISTS MAKE PLEA TO TROOPS

### Members of Chamber of Deputies Support Alleged Effort to Incite Mutiny

PARIS, (AP)—Every united socialist member of the chamber of deputies has come forward in support of Deputy Vaillant-Couturier, who on April 23, published in the newspaper Le Peuple an article in which he incited a large class of recruits, which has been considered an effort to incite the troops to disobedience. The article was republished in L'Humanite today and was subscribed to by the 65 members of the party. Removal of parliamentary immunity so that Vaillant-Couturier may be prosecuted has been demanded.

"Soldiers and comrades," says M. Vaillant-Couturier's article, "you are to be sowers of hatred and new war. You, along with colored troops, are the sole hope of the bourgeoisie, which feels that the only way to escape the mounting, sanguinary litanies always attend the funerals of moribund regimes. It is to be simply a case of mutiny at the end of these funerals. It is incumbent upon you to understand now where lie the interests of the country you love. It is essential to know now if you desire your country to be veritably ours.

"Assassinations at Frankfurt and the execution of the officers of the German east of the Rhine have done more for the cause of German revenge than 20 years of political action led by skillful Germanists. It is a case of revenge, of re-education, of the re-education of re-education which now, under the pretext of obtaining extradition of a still-born treaty seeks to erode the pacific revolution that has been won.

"Remember that on May 1, last year while the Parisian guard, with first-class and second-class recruits, were marching near the Madeleine, pale soldiers, with fixed bayonets, opened their ranks and permitted the red flag to proceed."

## GENERAL WOOD LEADS JOHNSON

(Continued from Page One)

sibly 40 of the 48 delegates from Ohio to the republican national convention may be pledged to Senator Harding on first choice.

The same returns, which may later be altered in some districts, showed that Wood probably would have eight and possibly ten delegates.

Returns showed three of the four delegates at large apparently elected pledged to Harding and one pledged to Wood.

Harding campaign appears to have carried 14 districts and Wood candidates three.

**COLUMBUS, O., (AP)—**Additional returns from yesterday's presidential preference primary election in Ohio today gave Senator Warren G. Harding a lead of almost 10,000 votes over Governor Leonard Wood. The vote from 4,677 out of a total of 5,882 precincts in the state showed 5,233 votes for Wood and 9,276 for Harding.

Although their names were not printed on the ballots, Hiram Johnson of California received 1,000 votes and Herbert Hoover of California received 5,233 votes in 3,440 scattering precincts.

The name of Governor James M. Cox of Ohio, was the only one appearing on the democratic presidential ballot. In several districts over the state, however, the name of Cox was written in. All democratic candidates for delegate to the national convention were pledged to Cox.

Returns from 5,882 precincts in the state showed three Harding candidates and one Wood man leading in the race for delegates at large to the republican national convention.

**VOYE GIVEN HOOVER AND JOHNSON CALIFORNIA COMMENT**

CINCINNATI, O., (AP)—While Senator Warren G. Harding carried Indiana yesterday in yesterday's presidential primary by a plurality of 1,817 over Major General Leonard Wood, the vote for Hiram Johnson of California and Senator Hiram Johnson caused comment among politicians here today. Hoover's and Johnson's names were not on the ballot and had to be written in.

Hoover's vote was 3,754 and Johnson's 2,573. Johnson carried one city ward and rate school another. Hoover did not carry any of the wards.

**Massachusetts Elects Organization Slates**

BOSTON, Mass., (AP)—The organization slates of republican and democratic candidates for delegates to the national conventions were elected by substantial majorities in yesterday's presidential preference primary, according to the complete vote today.

Senator Henry Cabot Lodge led the republican "big four" who headed the ballot as a group. He was followed in the order named by Speaker Frederick H. Gillett of the national house of representatives; former Governor William Murray Crane and Edward A. Thurston, former chairman of the republican state committee.

The democratic "regulars" were elected by majorities of three and four to one over former Congressman Joseph P. O'Connell, who made his campaign an anti-prohibition issue. Those elected are Senator David I. Walsh, Richard H. Long, twice democratic nominee for governor; District Attorney Joseph C. Peltier and Daniel F. Jobery.

Of the 35 republican delegates, including those at large, 29 are pledged but several of these have announced their intention to vote for Major General Leonard Wood. Two are pledged to Wood and four were described on the ballot as favoring him. The democratic delegation is unpledged.

# PLAYS FRIENDS OF RADICAL IN HIGH POSITIONS

### Senator Myers Criticizes Government for Failure to Take Adequate Steps to Prevent Spread of Anarchy

WASHINGTON, D. C., (AP)—Declaring that sympathizers with radicals bent on the overthrow of the government must be to be found even "in high places," Senator Myers, democrat, Montana, speaking today in the senate, criticized the government in particular for failure to take adequate steps to prevent the spread of radicalism.

"The activities of those who would undermine and overturn our government are undoubtedly increasing," he said. "It is my opinion, this country is reeling and quivering with the machinations of diabolical sedition and Bolshevism."

Referring to the recent miners' strike in Butte, Mont., Senator Myers said that aside from the government keeping temporary order by the use of troops, he did not know what would be done toward going to "the bottom of this best of anarchy and rooting out the moving force."

"There is one thing," he said, "that the government appears to be extremely reluctant to do and that is to measure strength to a final test with any organized body of persons affiliated with organized labor or calling themselves a branch of organized labor.

"The government may promise to do so, may threaten to do so, may start to do so, but when the time for the actual test comes it seems there is almost certain to be found of avoiding the test."

The senator declared congress was too "subservient to the decrees of organized labor," adding that since Samuel Gompers had said the Sterling antic-trust bill may not be enacted nor anything like it, he did not believe it would be.

Senator Myers declared that congress could remedy the conditions of which he complained.

"We whipped the red skins to obtain possession of this country," he said, "and we whipped the red coats to achieve its independence and we must not let the red-hearted and red-handed overthrow it. Down the reds! has been our practice. It should now be our motto."

**Grains and Provisions**

CHICAGO, (AP)—Bearish sentiment due largely to misgivings in regard to the financial situation had a depressing effect today on the corn market. Declines in sterling exchange and in New York stock quotations tended especially to weaken grain values, and so, too, did the news of the selling of the holding of corn in the nature of liquidation on the part of holders. Opening quotations, which ranged from 7-8 to 3-1/4 lower, with May \$1.71 to 1.73 and July \$1.53 to 1.54, were followed by moderate further setbacks and then something of a rally.

Later the market developed increased heaviness as a result of notice that the Grand Trunk Railway had embargoed shipments of grain destined for New England in sterling exchange, however, led to a sharp rally after mid-day. The close was nervous at the same as yesterday's finish, to 3-4 lower, with May \$1.72 1/2 and July \$1.54 1/2 to 1.55.

Advice that exporters were canceling export sales weighed down the oats market. After opening 3-4 to 2c lower, excessive selling, however, led the market sagged a little more, and then reacted somewhat.

Provisions were weak in sympathy with grain and Application for a receiver for a packing company at Sioux City was also a bearish influence.

# RUSSIAN TRADE AS SUBJECT OF INVESTIGATION

### United States Chamber of Commerce Authorizes Commission to Study Possibility of Resumption of Relations

ATLANTIC CITY, (AP)—The board of directors of the United States chamber of commerce today authorized appointment of a commission to proceed to Europe to investigate the possibility of resumption of trade relations between the United States and the Russian people.

President Henry L. Jürgens was directed to name the members of the commission and given authority to "bring the project to a successful termination."

The foreign commerce group of the chamber previously had unanimously adopted a resolution protesting American trade with Russia be resumed and characterizing the soviet government as a "falling regime."

Denise Labor's Attitude  
Discussion in the convention's general and group sessions today centered about problems of transportation and production as bearing upon the high cost of living and with organized labor's attitude toward recent legislation.

George A. Post, chairman of the chamber's railroad committee, declared "we have the right to expect and insist that the railroad employers will cooperate with their officers and keep the wheels rolling and not paralyze commerce with quarrels among themselves."

"The attitude of organized labor toward the railroad labor board is deeply to be deplored," he said. "So bitter was their opposition that after the passage of the transportation act publication was made by labor leaders of their intention to mark for condemnation at the polls all senators and representatives who voted for the measure."

"The national chamber of commerce represents a large part of the public and it seems entirely proper indeed imperative, that an appeal should be made to this body and to all those whom you represent, to see to it that no congressman or senator is defeated because supporting this."

# AMERICAN WOOL COMPANY REPORTS HIGHER EARNING

### Surplus for Year Practically Three Times, Mark Reached in 1918.

NEW YORK, (AP)—Net profits of the American Woolen company for 1919 amounted to \$12,519,415, less reserves for taxes and contingencies, according to the annual report issued today.

Payment of dividends on \$2,800,000 of preferred stock and \$3,200,000 on common and appreciation of \$5,735,611 left a balance of profit for the year of \$5,778,804.

Surplus for 1919 amounted to \$12,093,894, which added to that of 1918 brings the total surplus to \$31,754,482.

Reviewing the activities of the company for 1919, President William W. Wood said in part:

"The year 1919 has been a successful one considering the very unusual and disturbed conditions and the readjusting of industry to a pre-war or civilian basis. At the first of the year the cancellation of government contracts with no civilian orders to sight left a great deal of our machinery idle."

One of the features of the year has been the great demand for fine wools and cloth made of fine stock. This unprecedented demand for fine wools has resulted in tremendous increases in price of fine stock. Since February, 1919, prices of these wools have risen 80 per cent to 40 per cent and at the close of the year were still advancing."

Referring to the foreign business of the company, Mr. Wood said its export agency and subsidiary had maintained branch offices in Argentina, Brazil, Chile, Colombia, Peru, Cuba, Mexico and the countries of northern Europe as well as in England, France, Belgium, Spain, the Philippines and South Africa.

These earnings by the company show that for the year ending December 31, 1919, the surplus after all charges and the federal tax of \$10,778,804 had been paid, was equal to a dividend of \$20.89 a share on the \$20,000,000 of outstanding common stock, against \$16 earnings of \$5,772,227, or \$13.86 on the common stock in 1918.

the very meagerness of the attendance last night seems to indicate that the nights is slightly more than Twin Falls is ready to support of this major music. Besides the Morsore scene, the outstanding features were the well known "Tempest of My Heart," and "Home to Our Mountains." The scenic effects, all staged in half light, were far below what the opera demands for effectual background.

If a woman hopes to become proficient in music she does not neglect to study music. If she hopes to become more and more efficient as a buyer for the home she will not neglect a regular and interested study of the ads. For study is the price of knowledge; and to know is the first quality in buying.

# MOUNTED "QUEENS" SING AS THEY RIDE

### A. G. Barnes' Shows Has Innovation that Startles Patrons of the Circus

In days of yore, the "stirred business man" was prone to occupy a seat in the front row at the minstrel and minstrel shows. Now he is transferring his attention and avocations to the "bald headed row" at the A. G. Barnes circus, for he it known, the former singing and, and invaded the Barnes white top.

This new departure was started by the Barnes four-ring circus, which exhibits in Twin Falls on May 8, and to him below what the opera demands for effectual background.

They are a chorus of 40 girls of ravishing good looks; sixteen sweet sixteen, all beauties and the other 24 are easy to look at; clad in costumes that cost Barnes thousands of dollars, but it is said that you would hardly notice them; that is, the costumes; it is not a case of wild women and wild animals, but of singing girls on dancing horses.

The front line of this mounted chorus extends 449 feet, and is an operative operetta circus, managed by Miss Bessie Harvey, with her thousands of love birds.

See lions play ball while a chimpanzee umpires the game; canals juggle wrestle tigers, and men fight grizzly bears; surely the Barnes show is a world of wonders.

THE TROVATOIRE  
The second night grand opera audience was notable through sparseness. The evening theater auditorium was probably half filled—not more—for the production of Verdi's "Il Trovatore" by the Sonora Italian Grand Opera company.

The opera was dimmed in comparison with "Rigoletto" given the night previous. Perhaps this is due to the wide difference in the style and action of the plays, but to those who saw the company in the first night performance the failure will be attributed changes, not for the better, in the cast.

For instance a substitute took the part of Azucena, assigned on the program as Speria Castel. The substitute was wholly inadequate both in his tone ability, voice and vocal power against the powerful tenor of Alfred Graziani.

The powerful tenor of Alfred Graziani, soprano of Beatrice Pizzoni, as cutely left.

Evidently disappointed in the alms of the audience the company played a listless and careless part last night, a condition not tending to popularize grand opera as a regular appearance each season here. However,

"Blue and White Day" is being celebrated at the High School today by the Senior Class. The celebration consists of as many of the students as possible attending school dressed in white shirts and middie blouses with blue ties. Thus is the class spirit fostered and encouraged.

As the date of Commencement approaches an air of quiet determination and subdued excitement is taking the place of the old care-free atmosphere among the students. The period which is one of the most important in the lives of many of the local boys and girls gives promise of being of greater general interest than ever this year. Each year sees a steady increase in the size of the graduating class but this year the gain has been greater than the normal growth of the past.

Twin Falls schools have kept pace with the development of town and country in these parts.

More schools will soon be needed if the standards established in the past are to be maintained in the future.

Shan Tung, the Chinese	

Scenario by Marion Fairfax

## RECOGNITION MEANT WHAT?

This vivid and unforgettable story of John Keith seems like something you yourself are living and makes your own life seem like fiction. If John Keith were recognized, upon his return to the river near his boyhood home, he would face the hangman.

You meet people who have always known you and other people who knew only Conniston. They have strange influences upon your life. You feel the shock of things, which, dying, he has had no time to tell you. You are stirred by great passions of hate and love—love for such a woman as you have never met before. To tell her who you are means death, and not to tell her means to lose her love.

James Fairmore Cooper did for the Indian, Curwood has done for the Royal Northwest Mounted Police and Canada.

Do you want to meet strong men whom you will admire and women whom you will love, and watch their high qualities of truth and sympathy expressed in a supremely interesting drama of the wilderness?

Do you want to live for the next few hours an outdoor life of thrilling courage, hope and love, in which you will forget everything else? You can live it constantly anew—as often as you pick up the book.

"The River's End" is a story of the Royal Mounted Police—a tale of adventure and of a wonderful love.

A never-forgettable eight part foto play production; A "First National" Exhibitors' Circuit Attraction. A story that has thrilled millions, Photography marvelous and wonderful scenic effects.

**CENSUS INACCURACIES**  
 As populations are being announced complaints are heard that the census was inaccurately and carelessly taken. Such charges may be well founded, or otherwise. Cities that are disappointed in the population gain as shown by the count might naturally be disposed to lay the situation to carelessness on the part of the enumerators. Where rivalry exists between urban communities the loser in a contest for population seeks an excuse and to charge that there were gross errors in the count offers an explanation. On the other hand, padding the census is not unknown, though just what is gained by resorting to that is not apparent. To claim that a city has a greater population than it actually possesses does not make it better in which to live and carry on business. Size is by no means the only standard by which a city should be judged, though its enterprise and resources are likely to be gauged by its growth from decade to decade on the principle that a live town grows, a dead one stands still. Since war work gave a great boost to those cities in which the manufacture of munitions was carried on to the greatest extent, it is natural that cities which failed to participate in that industry should suffer in comparison, and to this may be due the disparity between what the citizens thought the census should show and what it does show. That there are inaccuracies in the

counts is doubtless true. It would be too much to expect that it were otherwise, but those who believe it grossly inaccurate will have to present tangible evidence in support of their case. Errors and omissions are likely to be pretty generally distributed and to affect about all alike.

**SALTS FINE FOR ACHING KIDNEYS**

**We Eat too Much Meat which Clogs Kidneys, then the Back Hurts**

Most folks forget that the kidneys, like the bowels, get sluggish and clogged and need a flushing occasionally, also we have backache and dull misery in the kidney region, severe headaches, rheumatic twinges, torpid liver, acid stomach, sleeplessness and all sorts of bladder disorders.

You simply must keep your kidneys active and clean, and the moment you feel an ache or pain in the kidney region, get about four ounces of Jod Salts from any good drug store here, take a tablespoonful in a glass of water before breakfast for a few days and your kidneys will then act fine. This famous salts is made from the acid of grapes and lemon juice, combined with lithia, and is harmless to flush clogged kidneys and stimulate them to normal activity. It also neutralizes the acids

in the urine so it no longer irritates, thus ending bladder disorders.

Jod Salts is harmless, inexpensive, makes a delightful effervescent lithia-water drink which everybody should take now and then to keep their kidneys clean, thus avoiding serious complications.

A well known local druggist says he sells lots of Jod Salts to folks who believe in overcoming kidney trouble while it is in pain trouble—ad.

DOZEN PLAYERS IN THE MAJORS OUTCLASS RUTH

Every Team This Year Has Batter to Put Across the Winning Stroke

By Al Spink. Both stands out this year as the hardest hitter in the American league.

It will be a long while before his 20 home runs for a single season record is beaten.

But there are 12 men in the American league who stand higher than Ruth in the 1919 American league batting averages.

Three of the 12 are pinch hitters, but the other nine are crackcracklers, like Cobb, Veach, Slater and Cravath.

Cravath, Therp, Roush, Hornsby, Barber, Young and Groh were the leading batmen of the National league in 1919, and they will probably increase their mark this year.

It is men like them that give the club they are with the winning quality and it is too bad there are not scattered around and given a chance to do a lot of good.

Every club in the big leagues has some one or two great batmen on whom it places its sole dependence when the winning stroke is needed.

They Cobb saved the Detroit club from defeat many and many a time and without him what would Detroit do?

Speaker brought home the bacon for the Boston Red Sox last year when he left Boston for Cleveland but seemed to carry the pennant away with him.

Gabby Cravath is the clean-up man for the Phillies, and Maranville with bat and brain combined has won many a game for the Boston Braves.

Jack Daubert will help Cincinnati stay in front in the National league race and the bats of Knuff, Doyle and Burns will be a great assistance to the New York Giants this year.

Washington has Johnson as her great mainstay and with his pitching the club seldom loses a game.

Cincinnati in Roush, Groh and Kopf has three great players who help her out in many a tight pinch.

On the Cardinals, St. Louis Hornsby is the real brains and brains of his team, while for the Browns, Slater, Toledano and Jacobson are the winning trio.

For the New York Giants, Ruth now is clean-up man.

This year the Chicago Cubs started out looking like a real winner, but one accident has injured their chances greatly.

That was the injury to Charlie Herzog, who it was thought would be a great help to the Cubs this year.

Brief Bits of Sport

'Sarge' Clark, who looks after the elastic destinies of Young Ketchel, well-earned his bonding shanty of the state says his man will take on Al Nelson of Boise any old time, but not at 140 pounds.

'Oh, no!' exclaims manager Clark. 'That's too much to ask, Ketchel will make 145 but never 140, for Mr. Nelson.'

By the way Ketchel battered a young man named Kee St. Johns into hysteria the other night in Lewistown. The Bull had scored eight knockdowns in two plus rounds, five of them in the first session.

The authorities stopped the affray to save St. Johns, whoever he is.

The White Sox percentage column today does not look just the same as it has heretofore. The initial numeral with its outgrowth of ciphers, has changed in aspect since the Sox met the Indians.

Fact is the Indians played stellar ball than Kid Gleason's men, and put the winning clucker over in the ninth after the Sox had bubbled a couple.

Urban Faber pitched good enough baseball, but not quite as good as his opponent, Stanley Coveleski.

Sim Smiley, sagebrush sage, says: 'Just 'cause 't' cat allus 'lights on her feet don't make 't' process 'o' her chin chucked later 't' air no more pleasant for 't' cat.'

Trouble for Jack Dempsey is cumulative. Now they have found his marriage to the woman who is said to have 'peached' on the champion, was illegal according to the laws of Utah.

Perhaps they will find now, that even his divorce from his illegal wife was illegal, too.

Do you remember 'way back when a nickel was worth something as a purchasing medium?

A Twin Falls resident had an overcoat stolen while he was attending Bible class.

A word to the wise should be sufficient.

This reminds one of the young man who had a bible in his breast pocket while a riot was on. A bullet hit him over the palpitation but the bible saved his life.

If said young man had been reading his bible, as he should have been, he would have been killed, wouldn't he?

GRAPPLERS DRAW AT OGDEN

OGDEN, Utah, (AP)—The wrestling match between Ad Santel, light-heavyweight champion, and Jack Harbertson, of Ogden, went to a draw after each man had scored a fall and wrestled 12 minutes on the third fall and stopped within the two-hour limit.

The first fall was won by Santel in one hour and four minutes with a body toss and arm lock hold, and the second fall went to Harbertson in 44 minutes with a headlock hold.

# WILL EXAMINE ALIENS' CLASS

### May Day Fixed as Time for the Hearing of Citizenship Applications

Applications of ten aliens for admission to citizenship will be examined on May 1 by W. Tomlinson, of the federal naturalization service. Mr. Tomlinson, according to word received by County Clerk C. O. Higgins, will come to Twin Falls from Portland.

Thirteen applications were scheduled for examination at the hearing conducted with the present term of the district court. Three of those have not been reported on by investigators, and will probably be held over to another sitting of the naturalization court.

Of the persons applying for citizenship were six other Americans, Germans whose applications have been on file since the speaking of armed hostilities between Great Britain and the central powers in the late war. Most of those composing the class are from Duhal.

The persons are: Joseph Knoepf, Hugo Vater, James Kadoak, Kadoak Martens, Johannes Peter Lorenson, Anton Buchan, John Baker, all of Duhal; Mark George Kottler, Fred Peder Nelson, Magnus; George Elishardson, Tulsa, Okla.

At the hearing the naturalization officer will also act as the matter of naturalization of aliens who entered the United States army for service in the last war.

In a letter written to the county clerk announcement is made for the benefit of such persons are interested in the soldier naturalization which is required in the way of credentials for this examination and reception as a United States citizen is proof of honorable discharge as required by two reputable citizens of this country. No fee will be required, as declaration of intention, certificate of arrival or proof of residence in this country.

The following statement of the naturalization agent, J. Speed Smith, with relation to this phase of citizenship, is: Soldiers desiring naturalization will be required to appear before the examiner at the county clerk's office on the morning of May 11 with two citizens who can vouch for them, and it is desired that those guarantors be persons who know the applicant longest. The examiner suggests that such applicants appear before the county clerk earlier and make out their papers as a means of expediency for the general examination in court.

# PURE-BRED SEED RECOMMENDED FOR POTATO CROP IMPROVEMENT

### Washington Bureau Tells of Light Shipments from Twin Falls and Urges Change in Marketing and Seeding Systems—Heavy Billing During Harvesting Weeks Cause of Shortage

Of a total of 7407 carloads of potatoes consigned for shipment at various shipping points in the state from July, 1919, to the end of February this year the Twin Falls district was responsible for but a small percentage of the shipments. That is judged by the production ability of the district. The shipments amounted to 384 cars, according to a bulletin sent out by the Washington bureau of markets, dealing with Idaho's potato production in the past year.

Of the 63 stations reported as shipping spuds Twin Falls stands sixth, Idaho Falls, with 1374 cars, topping the list. The other big shippers, in order, are: Caldwell, 1097; Burley, 935; Shoshone, 760; Blackfoot, 507.

Close on the heels of Twin Falls are Pocatello and Hagerman, with 259, 237 and 231, in order named. Kimberly shipped 141 carloads.

In a cursory sort of way the publishers of the bulletin estimate that judgment prevails in the matter of distribution of potatoes during the harvesting season. Through fast and figure it is estimated that best shipments are made as potatoes are being harvested in August, September and October, with a continued heavy output during the months of November. Last year shipments from the field were as follows:

August, 1158 carloads; September, 1218 carloads; October, 1948 carloads. In November the total shipments amounted to 1102. These figures include potatoes led in slight shipments. Following the rush in the months indicated a decided decline is noted in the total movement in December, while in January the shipments are slight. Another failure occurring in February. Last December shipping dropped off 701 carloads over November, but in January the movement was 958 carloads. In February only 461.

Compared with the same shipping months of 1918-1919 the output from Idaho last year showed a total increase of 2080 carloads of potatoes.

During the months of March, April, May and June last year the potatoes stored during the winter was put on the market, the total late shipments being 2294 carloads. In April 892 carloads were sent out; in May 875; in June 532 and 183 in July. This brings the total shipments for the year to 7725.

The Idaho white potato crop last season was much better than indicated in early-season reports, according to the bureau's bulletin, which notes that "adverse" conditions throughout the growing and well into the harvesting seasons indicated that the Idaho White Potato Deal would not be a success. There was scant moisture at seeding time, prolonged drought, excessive heat during the summer and a shortage of irrigation water with irregular supply. However, the general shortage of potatoes in the United States caused a steady advance in prices from the beginning to the end of the season and generally growers and dealers, too, expressed satisfaction with final results.

Publishers of the bulletin are not inclined to spare the literary rod of correction in dealing with alleged misapprehensions among Idaho potato growers in "pure bred seed." In this connection the bulletin pointedly remarks: "Probably one of the greatest dan-

gers to the Idaho potato industry is the very inferior seed generally used. The use of pure bred seed is not customary and very few growers will 'bother' with it. Many growers sell their best potatoes and select seed from what is left. Others actually buy culls, paying little or no attention to their origin, so they are cheap. Even the best growers get their seed from the bin, selecting as they sort and sack. It is to be wondered at that fusarium wilt was so bad in some localities that the fields could not be dug? In other sections stem rot to the extent of about 40 per cent of the individual fields had to be sorted out. Bristle-neck is also giving serious trouble in some districts."

The bulletin also deplores the prevailing tendency to flood the markets at the country with potatoes hauled direct from fields to billing stations. This custom not only has the direct tendency to depress the market during those periods, but is the primary cause of shortage of potatoes during the latter end of the year. The bureau authorities are in favor of construction of extended storage facilities in an effort to ward off shortage of potatoes in late season, and as a means of equalizing market prices during the marketing season.

The members of the committee will meet at the Hotel McAlpine, New York, where, after a general preparatory session to be held in the form of a banquet, a special train will convey the Idaho potato growers to the general acceptance of her election by the General and Idaho Federations of Women's clubs.

About two weeks will be taken up by the trip, which was planned and carried out under the auspices of the Congress of Women Voters.

Thirty-five states have already ratified the suffrage amendment and it is planned to make Connecticut the thirty-sixth or final state necessary to ratification of the amendment.

A LITTLE raining, now and then, is helpful to crops, weather men.

But not the one in Boise. In fact nothing helps him one whit. You may roast, you may rave, you may scorn if you will, But that Idaho weatherman's oratory still.

That's one place where the power of the press is unavailing. We've tried wooing to an almost subordination of our pride and principles, and we have resorted to curses, but what good has it accomplished. Still it blows.

Trials all morning to get into communication with the observer or at the domestic kiosk but all we received was a sweet: "Iain's busy."

"I didn't believe, it but what can one do, we ask; just let it be!"

The state laddypuck of the weather works has added a new adjective to his collection of words and things. It is "occasional."

Occasional rains tonight and Thursday," he pronounces, adding as a sort of sop, "warmer."

P. S. etc.—Later, too: Finally got our private climatological expert who relates that high yesterday was 67 and low last night 43.
