### 50 LIVES LOST IN STORM SWEEP OKLAHOMA TOWN

Rescuers Extricate 44 Bodies from Wrecked Houses in Disaster Destroyed Peggs; 20 from One Building

IMPASSABLE ROADS CUT OFF HELP FROM OUTSIDE

Doctors and Nurses from the Neighboring Points with Hundreds of Volunteer Assistants Leave for Scene

MUSKOGEE, Okla., (AP)—More than 50 persons are known to have been killed and approximately 100 were injured in a cyclone that virtually wiped out Peggs, a small village in the northwest corner of Cherokee county about 9 o'clock last night.

Forty-three bodies have been recovered by rescue workers from Muskogee, Okla., and Logansport, Groves. More are believed to be in the wreckage.

Only three buildings remained standing after the storm had passed by.

Whole families were crushed to death when their homes were torn to pieces by the force of the wind. Nine members of the Levens family were killed; seven of the Littlefield family, eight persons by the name of Frank and five members of the Wilkerson family are numbered among the dead.

The only physician in the town, Dr. W. E. Hill, also was killed.

Forty-two coffins are being sent to the scene of the storm from Tahlequah. This is as many as could be found in the city.

Temporary hospitals have been organized amid the wreckage and scores of severely injured are being cared for. Those who can stand the trip to Tahlequah are being taken there where they will be placed in hospitals.

First Doctors Arrive.

First-aid doctors were the first to reach the scene. Six physicians left there immediately after the storm was sighted last night. Later they sent calls for more assistance. A heavy rain and morning 100 automobiles with men and women relief workers were on their way to aid the injured.

The broken village had a population of about 250.

When the rescuers arrived in Peggs they found only a heap of twisted, mangled debris. A heavy rain and hail accompanied the storm and when the workers began collecting the bodies from the ruins many were so plastered with the mud that they had to be washed off before they could be identified. The dead were collected in showers left by the tangled walls and roofs.

Rescuers Work Without Pause.

President Pilsudski Leads Victorious Army into Capital of Ukraine after Much Stubborn Fighting

WARSAW, (AP)—Public riots and uprisings among the soldiers and the removal of Poles from Moscow upon receipt of news of the Polish successes.

The reports say there are increasing demands for a change of government.

WARSAW, (AP)—Polish forces occupied Kiev on Saturday last, halting according to reports, awaiting the coming up of infantry support.

Stubborn fighting was going on in the open country along the Telow river in the vicinity of Mala.

Chinese mercenaries are being used by the Bolsheviks to stem the eastern sweep of Polish and Ukrainian forces, said Saturday official communications. A number of Chinese have been captured and are being held.

The Polish advance into the Ukraine along a front of 180 miles began early last week for the announced purpose of expelling the "foreign invaders" or Russian Bolsheviks. The Ukraine, an independent republic, would create a buffer state between Poland and the Bolsheviks. Kiev is the capital of the Ukraine, and the outlet for its vast stores of agricultural products.

General Pilsudski, head of the Polish state, announced that after the expulsion of the Bolsheviks the Poles would remain only until an authorized Ukraine government took control.

SAILING OF LINER FOR AMERICA IS CALLED OFF

Publisher Conducting Campaign for Continuation of Walkout is Taken in Custody; Government to Take Hand

PARIS, (AP)—The situation at the railroad stations created by the strike of railway employees was much improved by this evening, especially at the St. Lazare station, and the current opinion expressed was that the strike would prove a failure. The Havre train, bearing many prospective American passengers to the steamer La France, whose sailing was indefinitely postponed this morning, left at 5 o'clock this evening.

PARIS, (AP)—The strike situation in this city was generally stationary at the north and east stations this morning, only about 50 per cent of the usual number of trains being in operation. At the St. Lazare station traffic was affected more seriously. Virtually no freight trains were moving during the forenoon.

Manifesto, managing director of the weekly publication *Labor Life*, which has been conducting a campaign for the continuation of the railroad workers' strike, was arrested this morning. This is the first arrest in connection with the railroad walkout.

Postpones Liner Sailing

Announcement is made of the indefinite postponement of the sailing of the liner La France for New York, which was fixed for today. Officials of the French line believed she would sail this week.

Many Americans had booked passage and expected to depart this morning by a special boat train from the St. Lazare station. They found to their surprise that owing to the strike the train had been cancelled.

Will Protect Workers

Workers throughout France will be protected by the government against aggression by strikers, according to an interview with Yves Le Troquer, minister of public works, printed in this morning's *Matin*. The minister declares all measures to furnish necessities of life to the people have been taken.

### VACANT APARTMENTS New Development in Chicago Rent Move

Landlords Left in Doubt by Unexpected Vacating of More than 1,000 Quarters

CHICAGO, (AP)—More than 1,000 vacant apartments were thrown on the market over the week-end, and real estate dealers are in a quandary as a result.

Hundreds of families whose rentals had been raised moved out May 1 without warning. Rents have advanced in many cases from 50 to 300 per cent, the agents pleading the law of supply and demand justified the increase.

Real estate agents estimate that 10,000 families who had received notice to move May 1, refused to do so, defying the landlords because they could find no place to move.

The unexpected vacating of more than 1,000 apartments has left the landlords in doubt. Many families doubled up, two to an apartment, and others moved to hotels rather than pay increased rentals.

# PACHYDERMS TO FOREFRONT AT COEUR D'ALENE

### Tactics of Persons Prominent in Republican Convention Re-ministered Commentator of Webster's Definition

### BORAH BOUND AND GAGGED HEADS STATE DELEGATION

### John W. Hart Defies Returned Soldiers but is Likely to Be Re-elected Idaho Member of National Committee

(BOISE, Idaho (Special to The News))—Pachyderms, says Noah Webster, are creatures of a large mass and little sense. He gives the rhinoceros as an illustration, but surely he was thinking of some of our modern politicians. There were a large number of pachyderms at Coeur d'Alene this week.

They displayed all the characteristics of their species; but gave them credit for one big accomplishment—their lack of id. If there was a hell, they were brewing down below nobody in or around the republican convention got a whiff of it, and under all the circumstances that was first and foremost.

Then, too, everybody got something out of the convention and that is an accomplishment worthy of no hero.

**Borah Saves Own Hide**

Senator William E. Borah heads the delegation to Chicago. He goes bound and gagged in large measure, but he goes. The delegation is unstructured, but the personnel looks bad for Senator Borah and his alter ego, Hiram W. Johnson. Senator Borah is not at all downy the law as to the Chicago delegates—so the story goes—but he saved his own hide and that was about all. Luckily for him he had the political bite of a pachyderm.

John W. Hart defied the American Legion and all the forces in the state in sympathy with the American Legion. He is charged with being a man of his power and influence as a member of the state military exemption board during the world war to save his own sons from military service. He refused to step aside and later refused to have the matter thrashed out on the floor of the convention. Hart will be re-elected Idaho member of the republican national committee, and he will serve. Could there be a finer example of the political pachyderm?

**Ustulable Claims for Wood**

Friends of Leonard Wood claim five members of the delegates to Chicago. But enemies of the major general charge that whenever he got at the Coeur d'Alene convention was due to the liberal use of a slush fund, and that his delegates will not stay with him anywhere in Chicago when William E. Borah throws the glamour of his magnetic personality over them. It is asserted that it would have been far better for all concerned had this matter been settled in the Coeur d'Alene convention, that instructed delegates would have exerted far more influence than a bunch of mavericks wandering about in Chicago until some manipulator rounds them up.

Former service men secured two places on the delegation. These places are looked upon as consolation prizes handed out to the service men for their surrender in the John W. Hart matter. These prizes were held back until all the plans of the managers of the convention had been made and made sure. Then north Idaho named two American Legion men as delegates. The big bonus passed resolutions about "100 per cent Americans."

But the pachyderms showed to best advantage in their treatment of the women of the state. It is estimated that at least 40 out of every 100 votes cast at the election, and in Idaho, who will be cast by women. Women have been voting since Idaho entered the union as a state. They have been taking an active part in public affairs all this time. They have borne and borne their full share of the burden of government. They are vitally interested in many of the issues to be fought out in the coming campaign. And the republican party at Coeur d'Alene could not find, in all Idaho, a woman fitted to serve on the delegation to Chicago. And to emphasize this the women who pleaded for representation were snubbed and rebuffed with brutality.

**Dodge Real Issues**

In the platform two real issues were touched upon—touched upon but not met. One was a national issue, the other state—the language of nations and the administration of Governor D. W. Davis. All parties agree that the coming campaign must be fought out largely on these two issues, the issues that separate republicans from democrats.

Where do the pachyderms of Coeur d'Alene stand on the league of nations? Listen: We recognize that Senator Borah is in opposition to the league of nations, as presented by President Wilson, has rendered to the nation a great service. Note the wailing words that ruck the blood out of that sentence: "As presented by President Wilson." Why inject that phrase? Why not be either for or against the league of nations? Senator Borah was not against the league of nations "as presented by President Wilson," but he was against a league of any kind or form. Then why not meet the issue honestly and either go with Senator Borah to whole way or locate the line of cleavage?

**Equivoical Platform**

Reference in the platform to the administration of Governor Davis is just as equivocal just as lacking in courage

and candor. Every citizen of Idaho who takes interest in public affairs knows that Governor Davis' administration is to be attacked in the coming campaign on two material points above all others—radical increase in state expenditures, the establishment of the cabinet system of government without any commission of any kind from the voters for making the change.

Nobody knows this better than did the pachyderms at Coeur d'Alene. Did they meet the issue? They did not approach within 1,000 miles of it. They were not in a convention in the administration at all in a convention intended to deal wholly with national affairs and the direction of the statehouse. They "comment" on the vigor and efficiency of the state administration. They "feel" that the interests of the state have been carefully and guarded. Never a word about high taxes; never a word about the cabinet system of government; never a word about the state administration that are now and will be under fire till the close of the campaign.

**Judgment Premature**

It is too early to try to discuss the Coeur d'Alene convention dispassionately. It may work out better than seems possible at this time. The national delegates chosen are strong men and fairly representative of the parties in the state. In a close fight and prolonged deadlock at Chicago they might cut an important figure. Being free from instructions might make them all the more potent in a crisis. It may give them the benefit of the doubt and suspend judgment for the present.

The real outstanding feature of the state convention, in the opinion of the man up a tree, was the virtual humiliation of Hiram W. Johnson. With Hiram W. Johnson apparently sweeping on to victory as he moves westward through Michigan, Illinois, Nebraska and Montana, the home of Senator Borah, his chief backer and friend. That is what will be difficult for Borah to explain to Johnson when the two meet to make their final plans for the Chicago convention.

**May Hammer Plans**

There has been much talk lately about Senator Borah for temporary chairman of the Chicago convention. Senator Borah, with Hiram W. Johnson, was said to be making their fight right at the start in the national convention and beat Hiram W. Johnson, elected on the spot for temporary chairman, with Senator Borah and in this way take possession of the convention in the interest of Johnson. Senator Borah to explain to Johnson when the two meet to make their final plans for the Chicago convention.

## PLAQUE OF BEGGARS IS DECREASING IN MADRID

Spanish Capital Now One of Most Rapidly Developing Cities in Europe

LONDON, (AP)—The "plague of beggars" seems to be decreasing in Madrid now one of the most rapidly developing cities in Europe. The only city in Spain with a fast railway service in all directions, Madrid apparently is acquiring control of the business of the whole country and money is being spent lavishly on improvements. The correspondent of the Daily Mail writes: "Great avenues are being driven through the old narrow streets. The rapid growth of her population and widening of thoroughfares mean displacement of residential streets. New buildings being erected are said to be among the finest structures in Europe. Middle-class Madrid, the correspondent says, is moving to the outskirts and in the arid desert is arising a garden city."

BAD HEALTH IS GIVEN AS CAUSE OF YOUTH'S ACT

Richard Chandler, 17, Living Near Buhl, Suicide Victim—Parents Find Body

Buhl, (Special).—Dependent because of constant ill-health, the result, it is said, of a bad fall some months ago, Richard Chandler, aged 17, committed suicide yesterday at the Chandler farm six miles south of this place. The suicide took place some time between 11 o'clock Saturday morning and 4:30 in the afternoon, the dead body being discovered by the young man's parents, Mr. and Mrs. J. D. Chandler, on their return from a visit.

In destroying himself young Chandler used a .22-caliber rifle. He shot twice, once placing the muzzle at his breast in an ineffectual attempt. The second attempt was successful, the bullet passing through the head from the left temple. Examination shows that the first missile fired was deflected by a rib, the bullet passing into the shoulder. The young man reloaded the weapon and discharged the second shot with fatal effect. He was found dead on the floor of the residence by the parents.

Monster "Hippo" One Attraction with Big Circus

Thick-Hided Brute from Darkest Africa will be Seen Here with Barnes Shows

The valley of the Nymanza, in darkest Africa abounds in strange animals, but the most one feared and at the same time revered by the natives, is the hippopotamus.

There was one massive specimen in particular, very elusive and seldom seen, but in whose wako nature's bounties seemed to follow, that was known in their vernacular as "Lobhalala," which in plain English is Lotus.

At G. Barnes, whose touring circus comes to Twin Falls on May 3, recognized the possibilities in Lotus from an exhibition standpoint, and had a bunch of blacks on the lookout for eight months, and when finally Lotus did appear, the blacks were loath to assist in his capture; nothing daunted, Barnes secured a squad from another district, and using the peculiar power that he possesses, Barnes and the blacks enchained Lotus without resorting to firearms or traps.

Now, Lotus shimmies around to the music of an elephant band, and seems to like it; she has increased in value like everything else, and now is worth \$30,000.

With performing zobras, zobus, jaguars, llamas and other little known animals, the Barnes wild animal circus lives up to its name.

BUHL FARMER'S SUICIDE HAS NO APPARENT CAUSE

William Popp Ends Life by Hanging—Body Found by Wife in Early Morning

Buhl, (Special).—For no cause at present known to the authorities William Popp, 35, a farmer living one and a half miles east of Buhl, early this morning committed suicide by hanging. The suspended body was found in a barn by Mrs. Popp soon after the dead had been done.

According to statements made by Mrs. Popp the fatal act was the culmination of a number of attempts at self-destruction on the part of her husband in the past few days. On one occasion three or four days ago she discovered him with a rope and revolver, prepared to end his life. On this occasion, as on others previously, she dissuaded him from carrying out his purpose.

At about 1:30 this morning Popp is said to have slipped from his bed without his wife's knowledge. In the darkness he made his way to the barn where he hanged himself. The body was still warm when Mrs. Popp found him. The Popp's are fairly well off and have had no domestic or health worries. Besides the wife he is survived by a baby.

Such action will prove of tremendous encouragement to both the school authorities and the members of the graduating class.

Miss Harriet Smith, Y. W. C. A. Student Secretary in China, Relates Amazing Story of How 20,000 Students Organized Themselves.

By BERNICE GRISWOLD.

Miss Harriet Smith, for ten years a student secretary of the Young Women's Christian Association in Shanghai, China, relates the amazing story of how 20,000 Chinese students organized themselves to oust the militarists from Government offices in Peking and how they succeeded in becoming the leaders of China.

Fearing that China was not to be protected from the aggression of other nations by the Peace Treaty, as she had expected to be, some 20,000 students, all of them between the ages of twelve and twenty-one and including 8,000 girls organized themselves into the Chinese Students' Patriotic Society immediately after the publication of the first draft of the Peace Treaty to fight for Chinese rights.

Their first move was to strike from school, rather than from lectures, as they remained in their respective schools and spent so many hours daily in private study. They then organized into bands for setting out propaganda literature and for public speaking in the country and small towns and in the tea shops in poorer districts of the cities in order that they might reach the vast numbers of people who could not read.

Immediately upon organizing, the students published their demands, four in number: (1) that the militarists, who as a party were pro-Japanese and practically controlled government at Peking, be put out of office; (2) that Shantung be returned to China; (3) that the twenty-one demands made by Japan in 1915 be cancelled; (4) that there be freedom of speech and of the press. They also insisted that the Chinese constitution be finished.

An immense amount of literature was put out, much of it in the new phonetic script which is being launched in China, and the indoctrinated classes might be said to be happening. Students lectured everywhere on the demands, stirring the people to patriotism. When many of them were arrested while parading in the streets of Peking they formed an association of imprisoned students within the prison and refused to be released, picking the stockade themselves when Government guards were taken away, until the Government submitted a proper apology for having imprisoned them in the beginning.

When it became evident that economic pressure was all that would be effective both the bankers' and merchants' guilds were called upon to back the students. "In less than two hours," Miss Smith said, "the shutters were up at every shop in that great city of Shanghai, where telephones are few and communication difficult. Every shop, where large or small, was closed. The laboring people, feeling as patriotic as the bankers, merchants and students, also joined the general strike. For a week everything was closed—shops, money exchanges, fish markets, shipping, everything. The students struggled to keep public utilities running. The telephone service was stopped for a short time, but the students soon had it running again. They held meetings day and night, trying to keep the strike going.

Not Fast Color. Human nature is likely to become somewhat overenthusiastic as it presses on in some worthy undertaking and we imagine some of the reds now awaiting the sailing of the next ark aren't much more than pink—Ohio State Journal.

If it can be bought for less the fact will be advertised.

Real Joy Giving. Joy giving comes within the reach of everybody. Sometimes people make failures of their first attempts. That's because they are too mechanical. People want to know how to do it. That's not the way it's done. You must be genuinely in earnest and put yourself into it if you are to get results that count. You must not think of the effects. You must not think of the thing you do—you must do it for its own merit. It must be so completely lost in spontaneous good will that motives never suggested themselves.

Have Same Speech. The old Gaelic or Celtic languages of the people of Scotland and Ireland still speak in places of English in the south and west of Scotland, in parts of Wales and other places, but the great majority of the people of both Scotland and Ireland speak English. They have their own dialects of speech due to brogue or dialect, just as different sections of England and America have, but to all essentials their language is ours.

New Photograph of Mrs. Richard Croker in Indian Costume

Dr. Ralph N. Green, alienist, has begun the examination to determine the mental state of Richard Croker, of New York, aged ex-husb of Mammy Hall, whose children have brought suits to have him declared an incompetent and to tie up his great fortune, estimated at \$10,000,000, according to a report from Palm Beach, Fla. This striking photograph of Mrs. Richard Croker, formerly Miss Buela Edmundson, a Cherokee Indian princess, whom the aged ex-political chieftain married in 1914, shows her in Indian costume. The children allege that the present Mrs. Croker completely dominates their father's affairs. A sensational legal battle is expected when the case has a hearing in the Circuit Court at West Palm Beach. The hearing is expected to begin in about two weeks.

## JAPANESE-RUSSO TERMS ARE PURELY MILITARY

Ambassador Denies Nippon Condemns Political Recognition of Bolshevik Before Allies Act

WASHINGTON, D. C. (AP)—The Japanese-Russo agreement which the Tokyo war office announced yesterday was soon to be signed, was described today by Kijuro Shidehara, the Japanese ambassador, as being purely military and framed solely for the purpose of preventing collisions between the Japanese and Russians in Siberia. The agreement was said to define precisely the territory to be occupied by the Japanese troops and that to be left entirely under the control of the Russian government at Vladivostok. Ambassador Shidehara said emphatically that Japan was not contemplating any political recognition of the Moscow Bolshevik regime in advance of a perfect agreement on the subject with her allies in the world war.

## PROPOSES LEGISLATION TO STOP SUGAR SPECULATION

WASHINGTON, D. C. (AP)—A bill designed to prevent speculation in sugar was introduced today by Representative Howard, democrat of Oklahoma. It would prohibit re-sale of sugar by dealers without "reasonable justification."

The department of justice, Mr. Howard told the house, has been unable to meet the present emergency because of inadequate legislation.

They Speak No More. My cousin was visiting me from out of the city. We were sitting in the living room one afternoon when we heard a knock at the door. Thinking it was an agent, we decided to sit still, when suddenly a louder rap came, and that at furious blow the door came open, as it was just pushed to, and there stood my next door neighbor, who had recently moved in. We were so embarrassed we couldn't speak, and she was, so mad she went home and has never spoken to us since.—Exchange.

Not Fast Color. Human nature is likely to become somewhat overenthusiastic as it presses on in some worthy undertaking and we imagine some of the reds now awaiting the sailing of the next ark aren't much more than pink—Ohio State Journal.

If it can be bought for less the fact will be advertised.
