WOOD DEFEATS CALIFORNIAN IN MARYLAND

Wis State's Preference for Republican Nomination for President by Majority of Nearly Two to One

EARLY INDIANA VOTING COMPARATIVELY LIGHT

Special Interest Centers in G. O. P. Contests with Four Leading Aspirants Asking for Support at Primary Election

BALTIMORE, Md. (AP)—Major General Leonard Wood defeated Senator Hiram W. Johnson, of California, in an unusually light vote yesterday in Maryland.

Baltimore, Md. (AP)—Major General Leonard Wood defeated Senator Hiram W. Johnson, of California, in an unusually light vote yesterday in Maryland.

To Vote as Unit General Wood carried all four legislative districts in Baltimore and all but two of the 23 counties—Allegheny, in the mining district, and Washington. Johnson's majority in the state was 801 and 50 in Washington.

United States Senator John Walter Smith, democratic nominee for re-election, has a strong opponent in Irving E. Weller, of Baltimore county.

Republican Contests Feature in Indiana

INDIANAPOLIS (AP)—Early voting throughout the state in the first presidential preference primary in Indiana was comparatively light, according to reports received here up to noon today.

Four Leaders in Race

Fair weather and a deep root interest in the campaign was expected to produce a heavy vote today in the Indiana preferential primary.

World News Events

PARIS, (AP)—The conference of ambassadors this morning decided to postpone the plebiscite in the Teschen district of Silesia for two months.

Today's Games

Japan in Throes of Finance Stringency

WASHINGTON, D. C., (AP)—With banks refusing to make further advances on cargo, Japan's financial situation there and shipping at Yokohama already is congested, according to official advices from Tokyo received today by the department of commerce.

Methodists Oppose Irish Recognition

DES MOINES, Ia., (AP)—Resolutions urging defeat of any proposed session by congress which would recognize Ireland as a separate nation were adopted by the Methodist Episcopal general conference today.

Demonstrations on May Day in Orient

HONOLULU, T. H., (AP)—More than 20,000 Russians, and some Koreans participated in a May day demonstration in Honolulu today, according to a Tokyo cable to the Mitsuji Jiji, Japanese vernacular newspaper here.

Cyclone Death Toll REACHES TOTAL OF 70

Reports of Additional Fatalities as Result of Injuries Come from Stricken Oklahoma Town MUSKOGEE, Okla., (AP)—The death toll of the cyclone that destroyed Peggs, Oklahoma, Sunday night, reached seventy it was indicated today when reports of several additional deaths as a result of injuries reached Muskogee.

STRUGGLE FOR POSSESSION OF KIEV AT HEIGHT

Reports from Front Received at Warsaw Advance Conflicting Claims Regarding Situation at Ukrainian Capital

WARSAW, (AP)—Disorder and confusion prevail in Kiev, according to reports received here Sunday. Some dispatches stating that the Ukrainian capital, Kiev, while others say that General Micezkow, the 25-year-old commander of the Polish army, is making extensive preparations to defend Kiev.

WARSAW, (AP)—The Bolsheviks are entrencing in the hills on the west bank of the Dnieper in a great semicircle with their backs against Kiev, the Ukrainian capital, according to information Monday from the front.

LITIGATION HOLDS BACK \$50,000,000 FARM LOANS

Commissioner Says Situation Confronting Banks and County Associations Retractable

WASHINGTON, (AP)—Farm loans aggregating more than \$50,000,000 have been held up by the litigation over the validity of the farm loan act, it developed today at the conference of farm loan officials here.

BARBERS' UNION OPPOSES HAIR CUT PRICE INCREASE

CHICAGO, (AP)—Attempts of master barbers to increase the price of haircuts to 75 cents because of wage increases granted to hair cutters by the Journeymen Barbers' union, A. B. Raymond, business manager, declared today.

SECRETARY OF NAVY WILLING TO SEND BATTLESHIPS TO MEXICO

Secretary of Navy Would Be Convinced of Necessity for Protection of Americans in Mexico

WASHINGTON, (AP)—Secretary Daniels said today that additional warships would be sent to the east coast of Mexico, "if they are needed."

Reports from the American consuls at Vera Cruz and Tampico that men-o-war be sent there for the protection of the American citizens were received Sunday at the state department, and the navy department was being requested to send destroyers.

Bloodless Revolt of Juarez Brings Relief

WASHINGTON, (AP)—Relief was shown both in government circles and by revolutionary agents here today when Juarez, Mexico, was reported to have been taken by the rebels without a fight.

LABOR AND LEAGUE MAKE UP SLATE IN NEBRASKA

Indications Point to Nomination of Candidates at Mass Meeting

GRAND ISLAND, Neb., (AP)—Conferees between the executive committee of the Nebraska State Federation of Labor, officers of the Non-partisan league and various representatives of railroad brotherhoods with reference to the mass meeting of progressives to be held here this afternoon continued until the noon hour.

BROWNSVILLE, Texas, (AP)—Juan

CALIFORNIA IS MAKING CHOICE OF CANDIDATES

Rival Groups of Delegates Pledged to Hoover or Johnson Offered to Voters at the Primary Election

SAN FRANCISCO, (AP)—Choice between two groups of 26 delegates to the republican national convention, one pledged to United States Senator William W. Johnson and the other to Herbert Hoover, former United States food controller, was offered to voters at the California presidential primary election today.

Democrats and prohibitionists also were electing today 26 delegates each to their respective national conventions. The prohibitionists, however, held that on the democratic ticket Henry H. Childers of Los Angeles, announcing that he favored liberal interpretation of the national prohibition amendment, qualified as candidate for national delegate in addition to the 26 named by the state committee. The democratic delegates are unpledged. The prohibition group is pledged to the candidacy of Henry Clay Needham of Los Angeles.

Registration for today's election exceeds that for any previous primary election in California. Of the 1,111,392 men and women eligible to vote, 995,767 are registered as republicans, 247,737 as democrats, 15,228 as socialists and 6321 as progressives; 8517 are scattering among 125,328 declined to state their party affiliation.

Regardless of party affiliation, voters at this election may choose the winner of any party they wish, state officials have announced. As a result, it was expected that many democrats and others would vote for Johnson, who is being favored by state officials in the contest between the rival Johnson and Hoover groups of prospective delegates.

The Johnson forces were expected to show their greatest strength in San Francisco and the northern part of the state, while the Hoover forces were expected from Los Angeles and Southern California.

Only delegates to national party conventions will be elected today. The state primary will be held August 24, when candidates for a United States senatorship, eleven seats in congress and long list of state offices will be chosen. California presidential electors will be named by the state conventions in September.

ALTERS POLICY TO LURE VISITOR TO YELLOWSTONE

Park Administration Announces New Features to Add to Attractiveness

LIVINGSTON, Mont., (AP)—In the hope of inducing tourists to extend their visits to Yellowstone national park, a change in policy for next season has been announced by the park administration.

The establishment of a park mail service has been announced; additional trails will be constructed; camps and hotels will be forbidden to serve park trout on dining tables, that fishing for the tourist may not suffer, and a boys' summer camp and school will be established.

Camp Roosevelt, at Tower Falls, is to be devoted almost exclusively to long time visitors, and saddle horses and other special equipment will be made available.

Until private automobile parties began to invade the park in recent years, 95 per cent of all visitors attempted to see its natural wonders on a limited tourist schedule, park officials declare, and it is this tendency that the new regulations are intended to discourage.

Women's Auxiliary, American Legion, Regular Meeting at Parish Hall, Friday Evening, 7:30

Program under direction of Wilton Peck. Social time. Members of American Legion urged to join in meeting. All mothers, wives, sisters and daughters of service men are urged to join the Auxiliary at this time. Membership fee and dues \$2.25. None may enter as charter members after Friday. Anyone unable to attend this meeting may send her dues to the secretary, Mrs. C. H. Krenzel, 354 Third Ave.—adv.

If it can be bought for less the fact will be advertised.

Phone 115, Jerome, Idaho

WOOTTON CASE PRESENTS UNIQUE LEGAL PROBLEMS

Application of Law of Necessity One of Most Important Questions

TOMBSTONE, Ariz., (AP)—Unique in the history of American jurisprudence, the case of Harry E. Wootton, on trial here on a charge of kidnapping in connection with the Biabeo deportations of July 12, 1917, has presented a number of baffling legal problems. Chief of them has been the application of the "law of necessity." This principle has been invoked by the defense in an effort to justify the deportation of 1186 striking copper miners and their sympathizers from Biabeo, Ariz., to Columbus and Hermans, N. M., as being necessary to protect the lives and property of the people of the Warren mining district.

The doctrine of necessity itself is well established in the law. It is only its application in the Wootton case that has been troublesome. In one of his rulings rendered during the course of the trial, Judge Samuel L. Patton of Tucson, quoted the following definition of the principle: "The distinction between necessity and self-defense consists principally in the fact that while self-defense excuses the repulse of a wrong, necessity justifies the invasion of a right. It is therefore essential to self-defense that it should be a defense against a present unlawful attack, while necessity may be maintained through destroying conditions that are lawful."

"No case exactly like the present has been found in which it (the rule of necessity) was invoked." The importance of the legal questions involved, the difficulty attending their application, and the wholesale character of the deportations themselves, are almost certain to render the case of the state of Arizona versus H. E. Wootton a landmark in the case law of the United States.

STREET AND FIELD CARNIVAL FOR BUHL

Mammoth Fete Event Planned to Be Staged May 20—All Sorts of Attractions

BUHL, Idaho, (Special).—A mammoth carnival with the most ingenious attractions ever offered in the west and with all the objectionable features of a traveling organization removed will be staged under the auspices of the Buhl Chamber of Commerce on Thursday, May 20.

Every big feature possible to provide for the multitude of visitors expected has been chartered for the big celebration. The Furcht-Barker Aircraft corporation will be represented by its two big flying machines. Besides offering the opportunity to visitors to ride with Lieutenant Barker, aviator, has consented to test his fragile craft to the limit in performing all of the tricks known to the profession.

The fete will begin at 10 o'clock in the morning with a big parade. The main section of the auto division threatens to rival the Rose carnival of Portland. Elaborate preparation is being made among the ladies of Buhl to have their car take the liberal cash prize offered by Dr. Rice, chairman of the parade committee. Lodges, labor unions, boy scouts and school children, together with the city officials and members of the chamber of commerce will also be present in the lineup. A comic section with clowns and grotesquely decorated floats will be part of the parade.

Following the pageant the crowd will be entertained in the city park where aquatic contests in the municipal swimming pool will be conducted. Lunch will be served in the park. The visitors have been requested to bring their own baskets but coffee and sandwiches will be on sale on the grounds.

At 1:30 the big program of athletic contests will be staged on the Midway. The events range from 50 yard dashes for boys to nail driving contests for the ladies, with pie eating contests thrown in for good measure. The Midway features have been given special consideration. A dozen

shows, each presenting some amusement of high class, will be offered, together with side show attractions.

A Mardi-Gras celebration, with a confetti battle and two big dancing carnivals, will be staged during the evening. One block of the newly paved streets will be given over to dancing with the music furnished by the Buhl municipal band. Another indoor dancing entertainment will be provided in the new I. O. O. F.

The carnival is being handled by committees of business men and all orders will close at noon. The proceeds from the fete event, together with the profit on every article sold at the celebration, will be applied to the purchase of furniture to equip the new chamber of commerce quarters in the recently completed city hall.

An invitation has been extended to the surrounding country and towns to participate and one of the largest crowds which ever visited Buhl during a single day is expected to be on hand at the celebration.

Conscientious Sense of Duty Prompts N. Y. Store to Cut Prices

Attempts to Break Backbones of High Coats with Reduction on Big Stock

NEW YORK, (AP)—One of New York's largest department stores inserted advertisements in today's newspapers announcing that it would attempt "to break the backbone of high prices" by offering its stock valued at \$20,000,000 at a reduction of 20 per cent. The only goods excluded will be about \$50,000 worth of merchandise purchased under price restrictions which cannot be "honorably changed."

The only motive in making this general reduction, said the advertisement is "a conscientious sense of duty" made necessary by the reports of government investigators that prices are still on the upward trend.

For Spring wear. Stoles and cape effect. Soft and fluffy—of best quality workmanship. You'll find a beautiful assortment in our Ready-to-Wear section. Moderately priced.

Swift & Company Does Not Control Its Raw Material

Other industries can buy their raw materials according to need or judgment, and set a selling price. They need manufacture only what they can sell at their price.

Cotton, wool, wheat, lumber, iron, steel, and other non-perishables, can be held either by their producers or their users until needed.

But live stock comes to market every day in fluctuating quantities from scattered sources, wholly uncontrolled and at times without regard to market needs.

An immediate outlet must be found for the perishable products, at whatever price, as only a very small proportion can be stored.

No one can foresee or stipulate what they shall bring; prices must fluctuate from day to day to insure keeping the market clear.

Only the most exacting care of every detail of distribution enables Swift & Company to make the small profit from all sources of a fraction of a cent per pound, necessary for it to continue to obtain capital and maintain operations.

Swift & Company, U. S. A.

POLICE BLOCK RED UPRISING IN ARGENTINA

Reign of Terror Scheduled for Day on which Kapp Revolution in Germany Began is Nipped in Bud by Authorities

BUENOS AIRES, (AP)—New the police of Argentina, before the date set for the "communist revolution" in combination with the recent general strike here, outwitted the police and prevented the uprising has just been revealed to the Associated Press correspondents.

Radical elements, mostly of foreign extraction, had planned the reign of terror for the same day on which the Kapp revolution in Germany began. If the ambitious plans of the communists for murder and pillage had succeeded, the city would have been in control of a government of the bolshevik soviet variety, backed by a red army.

Use Advance Information.

The police, who had learned of the plot long in advance, however, on the night before the revolution was to take place, descended upon the communist resorts, arrested nearly 200 men and women and confiscated several arsenals of bombs, arms and ammunition, together with large quantities of anarchistic literature.

The government, it developed, sent detectives among the communists, some of whom joined their organization and actually helped to manufacture the bombs with which the reign of terror was to be started. They also obtained secret circulars giving instructions as to how the revolution was to be accomplished.

The communists, it is alleged, formed part of a labor organization known as "The Fifth Congress of Anarchism," which some time ago separated from the Argentine Federation of Labor, and which is supposed to control a number of unions.

Plan Destructive Moves.

Instructions had been issued by the committee fixing the date of the revolution for Saturday afternoon, March 28. Groups were assigned to destroy public services, electric lights and water plants, railroads, telephones and telegraphs and others were assigned to capture bombs in public places, seize military stores and assassinate judges and police officers. The plotters planned to place the city under control of a central soviet committee.

Being fully aware of all these plans, the government authorities on the night before the date set for the revolution stationed troops at all places threatened. The police then raided the communist plants and captured a complete bomb factory and a large assortment of arms and munitions.

All was done quietly but the people of Buenos Aires soon realized that they had escaped a real danger when plotters had the collections of death-dealing implements were published in the newspapers and the police revealed the frustrated plans.

Police Patrol Streets.

Squads of mounted police armed with rifles appeared in the streets for several days after the raids. Three radical unions struck and there was an unsuccessful attempt to blow up a railroad bridge and a suburban tramline was forced to suspend until soldiers arrived to protect the cars from attacks on conductors and motormen.

The city, however, is now quiet, awaiting with interest the trial of the alleged anarchists, 23 of whom have been sifted out as ringleaders. Only nine of them are native Argentines.

Socialist newspapers blame profiteers for the unrest here, landlords having trebled rents in many cases and the price of bread having been increased.

THROUGHS CROWD FURNITURE SALE

Hundreds of people are taking advantage of the LOW COST on FURNITURE at the close out sale of the Corbett Furniture Store. The store was overwhelmed with purchasers from the time the doors opened, and all were amazed to see the drastic cuts that were made on every article. It is a case of get out quick and the prices indicated every word of it. People came from the four corners of the county which speaks well for the medium of advertising.—adv.

GEORGIANS AROUSED BY ADVANCE OF BOLSHIEVIKI

Russian Seizure of Baku Complicates Situation in Asia Minor

CONSTANTINOPLE, (AP)—The seizure of Baku on the west coast of the Caspian sea by the Bolsheviki on April 23 has aroused the Georgians, who have called for additional classes to arms and announced that they will not permit the reds to enter Georgia through Azerbaijan.

Thus far they have been able to prevent the Bolsheviki from entering through the mountain passes in the vicinity of Vladikavkaz.

The capture of Baku gives the Bolsheviki virtual control of Azerbaijan. Its seizure makes the Armenian situation more precarious, as the Bolsheviki doubtless will help the Moslem Azerbaijanian opposition to Armenia. In this way Mustafa Kemal Pasha's Turkish Mohammedan forces would be able to connect with the Azerbaijanians, forming a connection with the Moslems in Turkey, by way of the Caspian sea and Persia.

MASSACHUSETTS COTTON MILL EMPLOYEES STRIKE

Walkout Affecting 37 New Bedford Mills Results with New Orders on Working Conditions

NEW BEDFORD, Mass., (AP)—A strike of approximately 20,000 operatives went into effect at 37 cotton cloth mills in this city Monday. The walkout was occasioned by the posting of notices relative to working conditions for the loom fixers, who were required to operate more looms than formerly.

The loom fixers struck several weeks ago and their protest received the support of the textile center which ordered today's general strike. Police kept strike pickets moving and no disorder was reported.

The cloth mills affected are operated by 18 corporations with a weekly payroll of \$10,000 and having 59,517 looms and 1,295,662 spindles.

Demands for a fifty per cent increase in wages have been voted by the various unions of the textile center, but are being withheld for the present.

Reports from other textile centers indicated a state of unrest in the industry.

BRUNO STEINDEL

Famous 'Cellist, Gives Five Recitals in Inter-Mountain Section May 4th

Musical lovers will take advantage of the opportunity to hear one of the world's greatest musical artists when Bruno Steinidel, 'cellist, appears here May 4th, at high school auditorium. Twin Falls does not often get a great artist of the price is usually prohibitive for towns of this size, but because Mr. Steinidel and wife are out here visiting, friends and has consented to give five recitals at a very low guarantee it is possible for Twin Falls to hear him.—adv.

The informed shopper will find just as attractive offerings in a period of high prices as when prices are low. For price, after all, is a relative thing—value is a fundamental thing.

BOECKEL'S HIT PUTS AND END TO LONG CONTEST

Former Great Falls Thirteenth Baseman Breaks Up 19-Inning Tilt at Boston

BOSTON, (AP)—Boston and Brooklyn went into the nineteenth inning yesterday before a record crowd of 12,000 fans. Sullivan with the run which gave Boston a 2 to 1 victory. Fillingim and Smith pitched all the way and honors were practically even until Smith weakened in the nineteenth.

Yesterday's game, following the 23-inning tie between Brooklyn and Boston Saturday and Brooklyn's 13-inning game with Philadelphia yesterday, gave Brooklyn the new major league record of 58 innings played in three consecutive games. The previous record was 45 innings, played by Pittsburgh and Brooklyn in 1917.

The game was a duplicate of Saturday's contest up to the final inning. Brooklyn again scoring one run in the fifth and Boston tying in the sixth. Up to this point Brooklyn hit Fillingim freely, while Smith was effective. As the game progressed Fillingim proved invulnerable and Smith gradually lost effectiveness.

WIZARD OF GREEN Baize Table Will Give Exhibitions

Willie Hoppe, Champion Billiardist of World, to Be Seen Here Wednesday

The answers to the success of Willie Hoppe is easy. Hoppe is sincere with himself and the supporters of billiards, gives his best and never trifles. He is one of the most conscientious players of all time.

Hoppe has been playing the game for two decades and in that time does not recall ever letting down in his work.

A leading authority on billiards not long ago made this comment on Hoppe: "I doubt that Hoppe ever made a careless shot in his life. I don't mean that he is cautious or slow but he is never haphazard. He takes nothing for granted. If he were playing a 400-point match and the score stood 395 to 15 in his favor, he would play as hard and as accurately for the last five points as for the first five."

Only recently this statement was brought to the attention of the crowd maker. Here is his reply: "Every shot is the best I can produce. It makes no difference whether I am in a championship tournament or in an exhibition match in some little city, or whether I am playing by myself. It seems to me that everything worthy of attention at all is worth doing well, not merely well but just as perfectly as one possibly can do it."

"Even if there were no other reason I'd play as hard as I could in exhibition matches in order to give the public a square deal. Why if I did less than my best it wouldn't be keeping faith with those people."

Hoppe's record on the American tour—an average of \$3 for 40,000 points—is the greatest mark ever made. "This is the best answer to the close of Hoppe's work on tour."

Hoppe will be seen in this city for one day only, showing afternoon and evening tomorrow at Macaulay's billiard parlors. Charles C. Peterson, fancy shot expert and billiard star, will be Hoppe's opponent.

Peterson opens the program with a 15-minute lecture on billiards and after the game, entertains with his fancy shots.

Probably the purchase you have planned to make "soon" ought to be made now. Get light from the ads.

—THE WEST'S GREATEST INDUSTRIES—

IDAHO POWER CO. 7% PREFERRED STOCK

Become an investor in the progress of the west's greatest states, Idaho and Oregon, by investing in Idaho Power Company 7 Per Cent Cumulative Preferred Stock.

A MOST ATTRACTIVE INVESTMENT

This is one of the safest and most attractive investments on the market today, for our 10 big electrical generating plants serve industries and homes of 60 communities and their adjacent farms and mines. You become a part owner of our huge system which covers the entire southern part of Idaho, and runs into Oregon on the west and Nevada on the south. We generate electricity at the following hydro electric power plants which are situated at Ox Bow, Oregon, and Horseshoe Bend, Barber, Swan Falls, Malad River, Lower Salmon, Thousand Springs, Shoshone Falls, American Falls, and Arrowrock, Idaho.

MORE THAN 31,000 CUSTOMERS
We are now serving more than 31,000 customers, an increase of 60 per cent in the last four years. During 1919 the Idaho Power Company supplied power service for pumping water to irrigate about 90,000 acres of land, and the pumping of water for irrigation, next to the railroads, has been the most important factor in the up-building and growth of Idaho. We supply the power for the operation of the interurban and city electric railway lines operating in and out of Boise, Nampa and Caldwell.

A NECESSARY PRODUCT
Our product is a vital necessity in this great irrigation, mining and timber country. Without electrical energy thousands of fertile acres would be desert; great wealth-producing mines would be practically valueless; enormous flour mills would have to seek elsewhere for their power, and thousands of Idaho homes would be without electrical conveniences.

BUY ON PAYMENT PLANS
Idaho Power Company 7 Per Cent Cumulative Preferred Stock can be purchased for \$100 a share plus the accrued dividend to date of payment for stock, or on a ten-payment plan of \$10 per share monthly. While buying your stock you receive 6 per cent interest on the partial payments.

Management of the Idaho Power Company is very conservative, and by investing in its Cumulative Preferred Stock you receive 7 per cent per year, payable quarterly, for money loaned to a business already substantially and permanently established, yet having a large field for growth.

IN DEEP

With the announced purpose of "saving a great industry in the United States and to provide that production of newspaper may be increased and the price of newspaper to the consumer may be lowered and stabilized, Senator Underwood the other day took the floor to urge favorable action on his resolution for the appointment of a commission to seek the removal of restrictions imposed by Canada upon exports of pulp wood from which is made newspaper or the paper on which newspapers are printed.

Functions of the proposed commission would not end with mere presentation of a request to the Dominion provinces, if the views of the senator were carried out. Unless the provinces can be won through friendly efforts, he declared, congress should use the "big stick of retaliatory legislation."

The proposal is significant as a sidelight on the ultimate results of an initial mistake. Several years ago when the price of paper began to rise, American consumers began to cast envious eyes on Canadian paper sources. Agitation centered on demand for reduction in tariff rates as against lower priced paper. The demand was heeded. Two results were attained. Interest in development of the American paper industry was discouraged, and Canada, not being persuaded to supply both herself and the United States, laid an embargo on export of materials Ameri-

can consumers sought to entice across the border.
The situation thus precipitated has not improved, but, rather, has increased in seriousness so that Senator Underwood's resolution is likely to be resolved with considerable attention when it makes its appearance before the senate.
Whether this latter proposal can prove any more beneficial than its predecessors in this direction is a question, of course, for future developments to determine.
It is quite certain that the proposal neither contributes anything to stimulation of interest in development of the paper industry within the United States, nor, if it is carried to the lengths suggested by its author, is it likely to make for increased harmony between the Dominion and this country.

ADMINISTRATION FACTION WINS VICTORY IN TEXAS
Additional Returns from Precinct Conventions Show Bailey Forces Given Meager Support

DALLAS, Texas, (AP)—Meager additional returns from Saturday's democratic precinct convention, held to elect delegates to county conventions on May 25, further emphasized the overwhelming victory of that element of the party favoring the national administration. The unofficial returns, with 141 precincts missing, gave the forces endorsing President Wilson's administration 1,210 of the 1,400 votes in the state convention while the figures for the anti-administration element headed by former United States Senator Joseph W. Bailey remained at 49 state convention votes.
Today democrats in the more than 250 Texas counties will meet in county convention and select 1,400 delegates to the state convention, instructed to endorse the national administration and its policies.
In none of the available returns, however, was preference expressed for any candidate for the democratic presidential nomination.

NICARAGUAN CONSERVATIVES NAME CIAMORRO CANDIDATE
MANAGUA, Nicaragua, (AP)—Diego Manuel Chamorro, former Nicaraguan minister to the United States, Monday was nominated the presidential candidate of the conservative party. Notwithstanding this action of the conservative convention, Martin Bernard insists he is the party's candidate, and apparently has official support.

SEVEN ACCORDED FAVOR OF ANTI-SALOON LEAGUE

Prohibitionists' Organization Endorses Seven Presidential Candidates
WESTERVILLE, O., (AP)—The Anti-Saloon League of America, through Dr. F. A. Baker, its general superintendent, today placed its stamp of approval on seven presidential candidates. They are Hoover, Wood, Lowden, Meadlo, Hughes, Pollock and Bryan.
Mr. Baker's statement says the "prohibitionists of the country can safely support any of these men if nominated."
The statement is taken by league men to mean that no other candidates mentioned as possibilities up to date have the league's approval and that the dry organization will fight all others heretofore mentioned by it and not included in this list. They are Harding and Johnson, republicans, and Cox and Edwards, democrats.

Announcement also was made that further investigations of other possible candidates will be made. Today's statement also reaffirms previous declarations that the anti-saloon league has no special candidate to offer to either the republican or democratic national conventions.

HOUSE AUTHORIZES SALE OF LAND TO POCATELLO

Protection of Water Supply of Idaho City is Purpose of Bill Approved by Congressmen

WASHINGTON, (AP)—The senate bill enlarging the Oregon national forest to include Larch Mountain, the watershed of streams which supply Omeets, George and Multnomah Falls, was passed Monday by the house.
The house also passed bills to enlarge the Targhe and Nez Perce national forests in Idaho forty-six thousand acres in the Blitter Root mountains to be added to the former and thirty-four thousand in Idaho country to the latter.
Sale of 2,800 acres of land to Pocatello, Idaho, so that city may protect its water supply is authorized in another bill approved by the house.

CHICAGO HOTELMEN DECLARE NO SURRENDER TO STRIKERS
CHICAGO, (AP)—The Chicago Hotelmen's association declared Monday it would not yield to the demands of 3000 striking union waiters and cooks. Non-union employees, chiefly girls, were being used.

The Central Labor council of the Chicago Federation of Labor adopted a resolution to call out all union employees from non-union restaurants and hotels to aid the striking waiters and cooks.

THREE GREAT MOVEMENTS BRING CHURCHES CLOSER

Dr. Bennett's Sermon Ushers in Inter-church Campaign in Twin Falls

"Three great movements today are bringing the American churches together, and they all are evidently inspired from heaven," declared the Rev. Dr. A. G. Bennett, to a congregation that filled the large auditorium of the Methodist church. The subject of the sermon was "Will the Churches Get Together?"
"The World Alliance for International Friendship came into being the very day the great world war began, August, 1914. Through this alliance the churches are becoming apostles of world reconciliation."
"The united churches of America movement, started by the Presbyterians in 1915, a decisive and historic step toward actual organic union and the complete disappearance of sectarian lines, with 17 Protestant denominations now participating, is a second significant got-together movement."
"The inter-church world movement, a co-operative activity of 30 leading denominations, is the unity now being brought to national attention, and appeals to all men and women of the forward-look and world-wide interest. It proposes to harness fact-power, prayer-power, money-power, man-power, to perform the Christian task set by the world's need."
After the service representatives of the different churches in Twin Falls met to arrange for the local inter-church financial campaign this week. E. L. Macvicar and Charles E. Munson are in charge. United teams from the local churches will do the calling. A fine spirit of co-operation prevailed.

EXPLAINS POLLOCK'S MOVE

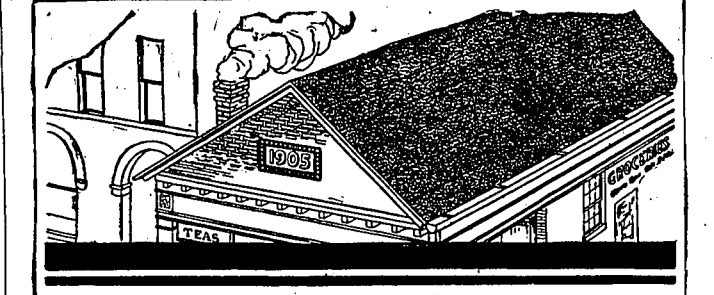

WASHINGTON, (AP)—Senator Pollock's cancellation of his tour of Oregon for the republican presidential nomination, it was explained today at his headquarters here, was so he could return to Washington to press his anti-strike bill.

Why You Should Buy Guaranteed Roofing

When you buy roofing you want durability as well as shelter. You want to know that it will last long enough to make its average cost per year a reasonable figure.
That is why Certain-teed should appeal to you. For, when properly laid, Certain-teed Roofing is guaranteed for 5, 10 or 15 years, according to weight.
The guarantee adequately protects your investment, but it does not accurately measure Certain-teed's life. In fact no one knows just how durable Certain-teed is, because in no case has it

ever been known to wear out on the roof.
And Certain-teed is more than durable. It is weather-proof, fire-retarding and spark-proof. It effectively shelters your property.
With all these advantages, Certain-teed Roofing costs less to buy, less to lay and less to maintain, than any other type of good roofing.
See your dealer about Certain-teed. He either has it or can get it quickly from a nearby Certain-teed distributing center.

SPRINKLER REQUIRES INDIVIDUAL GARAGE

Council Must Solve Problem of Housing Expensive Motor Apparatus

Eight thousand two hundred dollars is the actual bid down cost of the new motor flushing and sprinkling apparatus. The cost of the machine was announced last night around the council table.

The price of the machine, however, is not excessive, as prices for this sort of equipment go, it was explained by Alderman L. L. Brockenkridge, chairman of the finance committee. In fact, there was some saving in the purchase, due to judicious argument on the part of the purchasing board.

But the question now arises how to stable the thing. It is a monster of construction, and takes up a goodly share of space in an average garage. It is too expensive an installation to leave outside to the mercurial of the elements and human mischief. To "garage" it in private station would add to the expense of upkeep considerably, and at present it does not seem a feasible plan to build a sanitarium for the machine.

After pondering all the elements connected with the problem of housing for the sprinkler, weighing all arguments and giving heed to the numerous suggestions of enlightenment on the subject the council decided to let the matter rest for the immediate present. It is probable that a brick building will be set up for the sprinkler on the grounds near the old standpipe on South Main avenue.

BANKER PLEADS FOR SMALL LOAN FROM THE CITY

W. E. Nixon Makes Eloquent Prayer for Aid in Time of Distress—For Library

An anomalous situation presented itself at last night's meeting of the city aldermanic body when a banker appeared for the purpose of borrowing money.

The banker in question was W. E. Nixon of the First National bank, who stated he was in dire need of \$500 for immediate use. His statements were supported by Stuart H. Taylor, who appeared with the banker. Mr. Nixon made his plea orally, but none the less emphatically, conclusively, impressively, eloquently and also successfully. Mr. Taylor declined to address the council except in the meagerest of cryptic terms and phrases, but he did say the plea was genuine and for a worthy object.

Had it not been for the fact that during the rendering of his prayerful plea Mr. Nixon quoted passages from an annual report of the public library to the aldermanic body, it is known that the plea was for a loan in behalf of that institution. The report, in itself, however, was sufficient evidence that the fund was merely an advance loan against the coming year's budget to carry on the work of the library. Mr. Nixon's request was granted by unanimous consent of the council. The \$500 is to meet current expenses until the year's budget is made up and the money regularly set aside for this purpose.

Mr. Nixon appeared, it should be explained, as the official representative of the city library board.

GILLESPIE JOINER

In the chambers of the probate court this morning, Judge O. P. Duval officiating, Sordie E. Gillespie, aged 23, and Beaula Violet Toyer, 20, both residents of Twin Falls, were united in marriage.

Treatment of Common Colds

"If all who catch cold could be persuaded to remain in bed for the first twenty-four hours of such an attack," says a well known physician, "there would be fewer cases dragging on with distressing symptoms for weeks and often ending in some serious disease." To make sure of a prompt recovery you should also take Chamberlain's Cough Remedy. Whether sick or well the bowels should move each day.—adv.

CITY COUNCIL OPERATES UNDER FORGED DRAFT, ADJOURNS 10 P. M.

"Pep" is Operative Watchword of Hebdomadad Administrative Session—Curb Lighting Feature is One Big Item of Business—Will Cost About \$16,000 to Install Post Plan

"Pep" was the operative watchword of the city council at the regular session of that body last night. In fact, with Mayor W. H. Eldridge leading the cortege of municipal legislators the business moved along more speedily than usual, and at exactly eight minutes ten Alderman L. L. Brockenkridge's motion to adjourn, seconded by Aldermen Channele, McMartin and Bussole, found quick favor.

Somehow the board seemed to go into session with speed as its beacon light. Controversies over municipal matters, usually profligate in the extreme, were curbed to the minimum and hastened through to ultimate conclusion without unnecessary ranting. Callers with grievances and others with requests were given ample opportunity to tell their stories, but there was a note of dispatch about the way the council handled all these matters.

The figures were last night's city of Twin Falls something like a total of \$16,000 to install and put into operation a curb lighting system in the business district, or to be more explicit, along four blocks of Main avenue, from the O. S. L. railroad station grounds to the court house and park squares.

The figures were obtained from R. B. King, general manager of the Idaho Power company at last night's legislative session. Mr. King appeared in the capacity of special representative of the power company with authority to sign of light standards, equipment and installing with "juice" for illumination enter into a contract for the furnishing operation.

Symmetrical Standards

The city board has decided upon what is known as the Arcadian style of lamp post. This post is of cast iron, like our filigree on any portion, but is said to be substantial. Illustrations of the standard show symmetry of outline and grade of design. The posts will be standard for light standards, equipment and will be surrounded with sufficient ornamentation to add attractiveness to the post sustaining the illumination fixture.

There will be, in all, 108 of these standards. The approximate cost of each, ready for equipment, is \$92.75. Installed they will each cost \$150, or \$162,000 for the entire job. Four posts will be placed on the railroad station grounds, the remainder to be scattered along Main avenue and the various streets, north and south. The contract is to be prepared today for official acceptance.

The only thing the city tourist park now needs is sanitation accommodation for transient visitors. The city council has agreed to supply the want. The work on a building suited to the purposes will be started immediately at 10 P. M.

The request for these facilities was made last night by Newell S. Wright, secretary of the Twin Falls Chamber of Commerce, who told the city administration that the park is now complete in detail for the service of tourists with the sanitation exception. He urged expediency in the installation so that the foundations scheme will be complete when the first big landing of excursionists is made here this week.

Doesn't Want Contract

Something has occurred to change the mind of George H. Huffman, sheriff's deputy, concerning the advisability of handling the city garbage contract in partnership with H. H. Dietrich, an other attaché of the sheriff's force. Mr. Huffman appeared before the council last night with a request for permission to withdraw from the contract in favor of B. H. Patton, who formed a partnership with Mr. Dietrich. Permission was granted with the understanding that the new firm assume all the obligations of the old one, and performance of the garbage contract.

PLATTUDINOUS ANSWER SAVES TOWN COUNCIL

Diplomacy of Mayor Eldridge Prevents Another Cow Controversy at Session

Shool shool said Mayor W. H. Eldridge, and what looked like a perfectly good and interesting cow controversy was served the city council, at least for last night.

The shooing process was not a part of the city legislative proceedings; it was not set to that stage, for the mayor met the foe in the offering and turned it back by diplomatic words and untenuous grace of command.

The battle array was formed of women; about six in number, apparently eager for the fray about the "bossie." They bore down on the municipal temple long ere the board of authorities had appeared; took possession of the outer broadworks and were ready for the final rally when Mayor Eldridge varied forth to meet the impending onslaught.

"You see, it is like this," said Mayor Eldridge, and in exactly those words, but oral expressions to that effect. "We have temporarily disposed of the cow matter and are carrying on investigations which will lead us to one or another definite conclusion ere long. We shall make an intensive survey of the situation and with the data as procured in hand will be able to more intelligently proceed."

Special Dispensation

Permission was granted a representative of the chamber of commerce to line up automobiles alongside curbs on Main Avenue at a fixed period, and for minute duration, during the visit of the Salt Lake trades excursionists on Thursday.

Special Paving Engineer W. L. Hoffediz called the attention of the administration to some delinquencies in paving improvement district outlines, showing that in several instances some intersection "skips" have been found. These skips occur in the joining of thoroughfares in the original townsite with bordering avenues, leaving a sort of hiatus between paved lines. The gaps will be lined up in one district and will all be paved.

The annual sprinkling ordinance was presented and adopted on final passage. The district is more extensive than in former years, and includes a large number of alleys not heretofore taken into account in the sprinkling plan. This is made necessary through the expected excessive use of alleys this summer while street paving operations are being carried out.

KIMBERLY MEN START GOLD MINES COMPANY

B. W. Tilley Heads Concern to Work Gold Claims Next to Longlake at Jarbridge

Showing capitalization of \$150,000, a fair share of which has been paid in, articles of incorporation of the Kimberly-Jarbridge Mines company have been filed with the county recorder in Twin Falls. The company will operate six gold claims at Jarbridge, Nev., it is stated.

The principal place of business of the Kimberly-Jarbridge Mines company is at Jarbridge, but a branch executive office will be maintained in Kimberly. The principal officers of the new company, all Kimberly men, are: E. W. Tilley, president; B. F. Train, vice president; E. E. Washburn, treasurer; W. P. Brecken, secretary.

The company's claims, it is stated, immediately adjoin the Longlake property which is owned and operated by the Guggenheim interests. Operations, it is expected, will start about June 15.

CRANKY METER Makes Commish Awful Peevish

FOR a part of the month of March the water meter at the county courthouse rang up charges of \$67 for water alleged to have been consumed in the big administration building.

The commissioners demurred, and declined to pay.

Also they said "we'll let the campus grow up dry and the city water works folks go hang." For the entire month of April the same little meter rang up water fares amounting to less than \$25.

"That's the answer! The commissioners would pay a suitable reward for the correct one. But with receipt of the latter bill and assurances that the March fares would be adjusted the "commish" has started to slake the thirst of the parched lawn, which had largely become a yellowward instead of the romantic greenward.

But the weatherman was off his canoodle again last night. He predicted a heavy frost. The first line was lowest for the night. Yesterday's high was 61. "Tonight and Wednesday fair; heavy frost in the morning."

So you see, he's a man of intense habit.

BINGOS VERDICT OF SUICIDE

Death from the effects of a gunshot, discharged with suicidal intent, was the verdict of a coroner's jury, impaled last evening by County Coroner E. J. Grossman in the case of James Richard Chandler.

The latter shot and killed himself on the Chandler ranch south of Buhl while his parents were absent Sunday. Ill-health is the cause attributed.

ALLEGES DEBRIETION

Mary Watson has filed an action in the district court against LeRoy Watson asking divorce. The suit is in charge of Frank L. Stephan, attorney.

According to the papers the pair married in Gravelle, Texas, on August 14, 1892. Description is alleged in September, 1917. Custody of two minor children is asked with the divorce.

POPP WAS DEMENTED

Dementia is given as the primary cause leading William Popp to commit suicide by hanging early yesterday morning, according to Coroner E. J. Grossman. The man is known; it is said, to have made attempts upon his own life on other occasions.

STUDENTS BEAR STEINDEL

School students can bear Steindel his wonderful "cello" for \$100, May 4th.—adv.

LIBRARY MEMBERSHIP GAINS 1,777 IN YEAR

Annual Statement Shows Increase of Interest in Book Circulation Section

Gain in membership of the Twin Falls public library last year was 1777. The total number of volumes on the shelves at the library was 5285 and the total circulation for the year was 49,550.

These figures are obtained from an annual report submitted to the members of the city administrative board last night by W. E. Nixon, of the library board. The statement also shows total receipts from the pay shelf of \$434.85 with an operating expense of \$405.65.

Of the total circulation fiction was overwhelmingly in demand, adults taking out 20,488 books, and juveniles 14,775, making a total of 35,263.

BLISS SHORTLY WED

Nuptial bliss was decidedly short in the case of Mary and Frank H. Howsick, according to a divorce bill of particulars filed in the district court today by Attorney Guy L. Kinney. The pair married here on March 29, 1920. Divorce is now asked on the charge of cruelty.
