GOVERNOR URGES ENCOURAGEMENT OF GOLD MINING

Explains Endorsement of Bankers' Association Attitude in Urging Congressional Action Favorable to Industry

BOISE (Special)—Explaining his endorsement of a move to urge increased production of gold, Governor D. W. Davis today said:

"As a banker, I have viewed with extreme alarm the vanishing gold reserve and it is with hearty concurrence that I subscribe to the attitude of the American Bankers' association in urging congress to use every possible means to increase the production of gold.

Face Deflation Period.

"We are facing, I have a period of deflation which must be met with the very acme of public confidence. Financial panics, as we all know, have been attributable throughout financial history to fear and we can establish confidence and build it on the rock of stability, should we have a gold reserve which will warrant confidence.

"It may be of interest for us to know more of the conditions of gold production in Idaho, for Idaho typifies the apathy in gold production of other states. It shows that something radical must be done to encourage the production of gold. I favor the method suggested by the American Mining congress of imposing an excise on gold articles to produce a premium to the producers of new gold.

Discourage Development.

"There is absolutely no incentive for capital to invest in the development and equipment of low grade gold-bearing deposits in Idaho with the present fixed price of the metal and with the mining conditions of today. We have huge deposits and extensive resources, but it is necessary that, in some way, a reasonable margin of profit be arranged for. Under the suggested bonus plan, this might be done.

"We have an excellent field in Idaho under the most promising geological conditions for the development of copper ore deposits of large capacity. These all carry relative good values in gold and the by-products composed of that precious metal would prove alluring should the price be worth what it costs to produce. The proposal of giving a bonus would be instantly recognized in this line and would bring an inducement to rapid development in all gold-bearing ore de-

posit production in this and other states.

"I have taken this matter up with the members of our state bureau of mines and geology and particularly with our state geologist, Mr. H. H. Henshaw, who has acted in a substitute capacity as state geologist through a continuous service in Idaho for the past 15 years. Mr. Henshaw has considerable practical experience as a gold miner for an additional 15 years. Mr. Henshaw is probably more thoroughly familiar with our gold resources than any other citizen.

Idaho's Renowned Geologist.

"According to Mr. Bell, the placer gold production of Idaho in about 60 years is conservatively estimated at \$200,000,000, which he considers the actual or most evidence of a much larger permanent resource of gold in the form of lode deposits. While the richer veins have probably largely been discovered and worked, yet we have in Idaho some very extensive deposits of low grade gold bearing veins varying in width from 100 feet to 300 feet, on which considerable preliminary development and experimental testing indicates average values of \$2 to \$3 per ton. This is equal to, or better than, the great mainland low grade gold ore deposits of southeastern Alaska, whose potential capacity, backed by the opinion of the leading geologists of America, was put at a maximum feasible output of \$10,000,000 to \$20,000,000 worth of new gold per year.

"It can readily be seen from these figures what it would mean to gold production here should some encouragement be given the industry allowing a reasonable return for business investment of money in the mining of low grade ore."

BOLIVIA ARRANGES LOAN

Rate of Exchange Favors Retirement of Debt to France with Profit

WASHINGTON, (AP)—Bolivia has arranged with a New York investment concern for a loan of \$10,000,000 to be used in the conversion of the French loans of 1910 and 1913, amounting to \$6,000,000 francs, the department of commerce was advised today.

Present rates of exchange, the advisors said, will enable the Bolivian government to retire both French loans and have a profit of \$1,000,000, which will be used for railroad construction. Bolivia will issue 15-year serial bonds at 6 per cent, worth at the present market value between eight and eight and one-half million dollars.

ROBBERS MAKE HAUL OF BONDS IN UTAH BANK

SALT LAKE CITY, Utah, (AP)—Seven thousand dollars' worth of Liberty bonds and other securities are estimated to have been stolen by burglars who Tuesday broke into safe deposit boxes at armory. State bank of Bonanza, north of here. Deputies up to late this afternoon had discovered no trace of the robbers.

Carranza to Flee Mexico, is Report

President Carranza is preparing to flee from Mexico, according to information which has reached Washington. It is said that the Mexican president will be given asylum if successful in reaching the United States border. The government is so impressed by the report, according to a report from Washington, that intelligence officers have been instructed to watch the border closely for the appearance of Carranza. If the report is true, it clearly indicates that the revolt against the Carranza government which has been spreading rapidly, is likely to be successful.

Exempts Hohenzollern from Tax in Holland

THE HAGUE, (AP)—Decision that the former German crown prince and his fellow exiles shall not pay any rates of taxes has been reached by the minister of the treasury. Their tax at Wieringen is regarded as being involuntary because of their internment there.

Verdi.

He gave poetry to human life and lifted it from sordid ways to hopefulness and enthusiasm, and the people rose to their leader. His first operas were introduced with difficulty, which all began new experience; but the Italian ear, long trained in musical composition, and with inherited taste drew of old, accepted Verdi as a master. When once known he was thereafter loved.—James D. Phelan.

PRINTING OF BANK NOTES FLOURISHES IN GERMANY

Increasing Wages Offset by Overnight Decline in Value of Paper Mark

BERLIN, (AP)—Germany's paper money now in circulation amounts to sixty billion marks and is increasing one billion marks a week declares August Mueller, former minister of economics.

The printing of bank notes is the only flourishing industry in Germany today, he writes in an article in the Abendblatt. He attributes this activity to printing of money to government subsidies undertaken in a vain effort to reduce the price of food and also to the continual increasing of salaries "to an absurdly growing officialdom who find next day they are no better off, owing to the overnight decline of the buying power of the paper mark."

Germany's indebtedness, says Herr Mueller, is now about two hundred and thirty billion marks. This, he adds, is, perhaps, redeemable at the present low value of the mark but never if it recovers even half its former value.

Herr Mueller is unable to see a remedy except in increasing production which, he says, seems to pre-occupy the present rulers of Germany less than the anxiety to keep in office.

Astronomical Mystery.

The stellar universe has a background of pearly white, which always fade the field of a telescope with a faint luminosity, and astronomers are guessing as to whether this shimmering shroud is made of quadrillions of suns, or whether the universe is immersed in nebulous matter. The pearl shell is torn in places, at least a hundred jet black walls of dark space being shown in the constellation Sagittarius and Scorpio. In one of these dark fields is Antares, which is computed to be at a vast distance from the earth, and to have 80,000 times the mass of our sun.

In a time when prices are unstable, it is important that women should keep informed as to the latest fluctuations that they may solve their shopping problems wisely.

SEEKS BUG PEST ENEMY

Government Entomologist Plans Defensive Warfare to Protect Trees

HONOLULU, T.-H., (AP)—John C. Broadwell, federal government entomologist, will leave for the mainland in the near future in search of an insect which will wage war on pests now threatening to exterminate the albatross trees of the island.

Brought here in the early 50's by a Roman Catholic priest, the first insect scattered its descendants throughout the territory, until now the pest made from the beans they produce is the staple stock food here.

Broadwell will make a thorough search for a pest exterminator in the Imperial valley, California, and in Arizona and New Mexico.

NEW INDUSTRY FOR ALASKA.

ANCHORAGE, Alaska, (AP)—Among the new industries of Alaska and ones that will recover large returns from hitherto wastes are fish fertilizer factories which are being built by large canner plants. These plants are of modern type and will handle the by-products of the canneries.

MOUNTAIN LIONS MENACE CALIFORNIA SHEEP FLOCKS

MARYSVILLE, Cal., (AP)—Mountain lions are dragging the vast herds of sheep in the Spenceville region, according to reports of stock raisers of Yuba county. This season of the year the beasts are particularly ferocious and until waters were placed on all herds the nightly toll was reported to be 25 or 30 sheep.

The New Reo Six

5 Passenger Sedan

Stability of construction and beauty of design are the prime requisites in an enclosed motor car. Nothing is so aggravating as a squeaky body. And logically so, for the noises indicate fragile construction and warn of early dissolution. In designing this new Reo the manufacturers had in mind that beauty of appearance which is demanded by the select Reo clientele—and that degree of stability that is in keeping with the well known sturdiness of the Reo Six chassis upon which they are mounted.

We think you will agree that these two qualities have been combined in an admirable degree in this 5-passenger Sedan.

Don't delay buying your Reo—there never have been enough Reos to go around. To avoid disappointment better see us today.

PREDICTS PERIOD OF LOWER PRICES AND SMALL WAGE

San Francisco Bank Executive Gives Views on Financial Situation to Delegates at the Foreign Trade Convention

SAN FRANCISCO, (P)—A period of depression with lower prices and wages may be expected as a result of the inflation of the money market in the United States, F. L. Lippman, vice president of the Wells Fargo Nevada National bank, San Francisco, told delegates at the national foreign trade convention here today.

"If this change comes suddenly," he said, "it will bring about forced liquidation and consequent failures. But the federal reserve system should prevent such a crisis from degenerating into a panic. It is added that it is probable that the situation in the money market is fundamentally good.

World Encourage Imports

Lippman said he agreed with economists that "our exports can best be stimulated through encouraging imports."

"In its bearing on our foreign trade the international financial situation centers itself in the exchange rates," he said. "The exchange rates are mainly determined by the depreciation of an incontrovertible paper circulation abroad. This argues the importance of a country's having a gold basis if at all possible. It also suggests that the demoralization in exchange can only be remedied through the rehabilitation of currency abroad and that this is necessarily a domestic matter for the nation suffering from such 'inconvertible' conditions."

Shows Bold Policy

In laying the text of his remarks before the senate naval investigating committee, Secretary Daniels said they showed the "bold and vigorous" policy the president has outlined for the navy.

"Do not stop to think what is prudent for a moment," the president said. "You will win by the audacity of method when you cannot win by circumspection and prudence."

"I think that there are will ing trades to hear this in the American navy and the American army because that is the kind of folks we are."

"There will have to come a new tradition into a service which does not do such bold and audacious and successful things."

Only Unsound Feature

In discussing the financial situation of the United States Lippman concluded that "it is probable that the situation in the money market is fundamentally sound in spite of speculation here and there, and the unsound feature, is liberty bonds carried by banks, is only so in respect to inflation, not in respect of intrinsic value and will therefore be relieved when and as liquidation of the bonds takes place. Our trade, whether domestic or foreign, need not fear any restriction to obtain necessary bank accommodations."

CITIZENS OF ARGENTINA TO RESIST BOLSHIEVISM

Patriotic League Calls Congress of Workers in Effort to Free Workers of Radicalism

BUENOS AIRES, (P)—The Argentine Patriotic league, a citizen's organization, has called a congress of workers to be held here in May in an effort to free Argentine laborers from the spirit of Bolshevism which was manifested recently in an attempt to start a communist revolution.

It is proposed to agitate for improved labor legislation and to discuss ways and means of restoring the condition of the workers through pacific methods. Representatives of every union in the country have been invited.

"We must never relax with the exotic element," says an announcement by a labor member of the organization.

VIENNA COMPLAINS AT AGRICULTURIST POLICY

Dwellers in Austrian Cities Charge the Farmers with Refusal to Furnish Provisions

VIENNA, (P)—Complaint that the farmers refuse to supply crops for sale to Vienna and other cities is frequently heard here.

At a meeting of the Vienna Medical association it was charged that the Alpine farmers are confining their planting to just what they will need themselves and that even less produce than just fall will be available for Vienna at the next harvest. One speaker said that while Austria had more milk cows than Switzerland, children were dying here for lack of milk. In the provinces it was being fed to pigs.

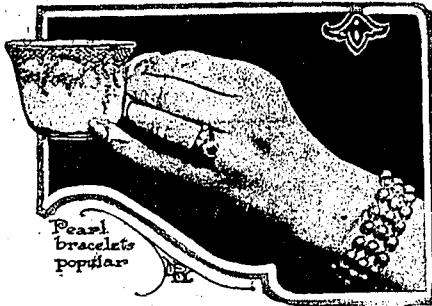

Transports Shortage Delays Departations

WASHINGTON, (P)—Deportation of radicals to Russia has been held up because of political and military developments in Odessa and because of inability to obtain transportation direct to that port.

Deportation of radicals to other European countries by the department announced is going forward steadily through the agency of commercial liners.

To buy the right thing instead of the wrong one may mean to buy satisfaction instead of regret and vexation. Study the ads.

Pearl Bracelets Now Set the Pace in London

The latest fad in England is a string of pearls wound into a bracelet as shown in the picture. The fad is extremely popular with the English social set.

MAKES PUBLIC WILSON'S INSTRUCTIONS TO NAVY

Daniels Lays Before Senate Investigators Text of President's Advice to "Throw Tradition to Wind, Strike Word Prudent from Vocabularies and Do Thing that is Audacious to Utmost Potent of Risk and Daring"

WASHINGTON, (P)—President Wilson's hitherto unpublished war instructions to the officers of the Atlantic fleet, given in person on the quarter-deck of the flagship Pennsylvania on August 11, 1917, and bidding them "throw tradition to the wind" strike the word prudent from their vocabularies and "do the thing that is audacious to the utmost potent of risk and daring," we made public here by Secretary Daniels.

The British admiralty had met American suggestions with what amounted to statements that "it never had been done," the president said, adding: "And I felt like saying 'Well, nothing was ever done and systematically as nothing is being done now.'"

War for Amateurs

In opening his address to the officers, Mr. Wilson said:

"Admiral Mayon and Gentlemen: I have come here to make a speech, but I have come here to have a look at you and to say some things that perhaps may be intimately said, and even though the company is large, said in confidence. "This is an unprecedented war, and, therefore, it is a war in one sense for amateurs. Nobody ever before conducted a war like this and therefore nobody can pretend to be a professional in a war like this. Here are two great navies, not to speak of the others associated with us—our own and the British, outnumbering by a very great margin the navy to which we are opposed, and yet eating about the way in which to use our superiority and our strength."

"Now, somebody has got to think this war out. Somebody has got to think out the way not only to fight the submarine but to do something different from what we are doing."

Avoiding Hornet's Nest

"We are hunting hornets all over the farm and getting the nest also. None of us know how to go to the nest and crush it and yet I despair of hunting for hornets all over the sea when I know where the nest is and know that the nest is breeding hornets as fast as I can find them. I am willing for my part and I know you are willing because I know the stuff you are made of—I am willing to sacrifice half the navy Great Britain and we together have to crush that nest, because if we crush it the war is won. I have come here to say that I do not care where it comes from, I do not care whether it comes from the youngest officer or the oldest, but I want the officers of this navy to have the distinction of saying how this war is going to be won."

"I am willing to make any sacrifice for this. . . . I am ready to put myself at the disposal of any officer in

the navy who thinks he knows how to run this war. I will not undertake to tell you whether he does or not, because I know that I do not, but I will undertake to put him in communication with those who can find out whether his idea will work or not. I have the authority to do that and will do it with the greatest pleasure."

Distinction of Sacrifice

"I wish that I could think and had the brains to think in the terms of marine warfare, because I would feel then that I was figuring out the future history of the political freedom of

making. I do not see how any man can look at the flag of the United States and fall having his mind crowded with reminiscences of the number of unselfish men . . . who have died under the folds of that beautiful emblem. I wonder if men who do die under it realize the distinction they have.

There is distinction in the privilege and I for my part am sorry to play so peaceful a part in the business as I myself am obliged to play, and I conceive it a privilege to come and look at you men who have the other thing to do and ask you to come and tell me . . . how this thing can be better done and we will thank God that we have got men of originitive brains among us.

"We have got to throw tradition to the wind."

Criticism Admiralty

"As I have said, gentlemen, I take it for granted that nothing that I say here will be repeated and therefore I am going to say this: Every time we have suggested anything to the British admiralty the reply has come back that it virtually amounted to this, that it had never been done that way, and I felt like saying 'Well, nothing was ever done so systematically as nothing is being done now.' Therefore, I should like to see something unusual happen, something that was never done before; and inasmuch as the things that are being done to you were never done before, don't you think it is worth while to try something that was never done before against those who are doing them to you?"

"There is no other way to win. . . . America is the prize amateur nation of the world and Germany is the prize professional of the world. Now, when it comes to doing new things and doing them well, I will back the amateur against the professional every time. He knows so little about it that he is fool enough to try the right thing. The men that do not know the danger are the safest men."

"Please leave out of your vocabulary altogether the word 'prudent.' . . . Do the thing that is audacious to the utmost point of risk and daring, because that is exactly the thing that the other side does not understand."

Cover Now Ways

"I think that there are willing ears to hear this in the American navy and the American army because that is the

kind of folks we are. We get tired of the old ways and covet the new ones. "I am not discouraged for a moment, particularly because we have not even begun and, without saying anything in disparagement of those with whom we are associated in the war, I do expect things to begin when we begin. If they do not American history will have changed its course; the American army and navy will have changed their character. There will have to come a new tradition into a service which does not do new and audacious and successful things."

RAINBOW CAUSE DAMAGE TO SOUTH DAKOTA HIGHWAYS

SIOUX FALLS, S. D., (P)—Heavy rains in eastern South Dakota Monday night caused considerable damage to rail and wagon roads, according to reports from points east of the Missouri river. In some places the precipitation bordered on a cloudburst.

DUTCH RAISE RENT TO AMERICAN DIPLOMAT

New Minister to Netherlands Considers Himself a Victim of Landlord's Profiteering

THE HAGUE, (P)—The new American minister to the Netherlands, William Phillips, considers himself a victim of an instance of profiteering in rent. A wealthy speculator has purchased the commodious building which for a long time was occupied by the American legation and has notified the American diplomats that they will either have to pay a greatly increased rent or move out.

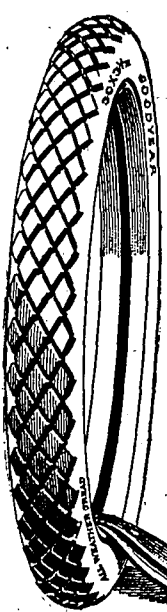

The American charge, Mr. Gunther, has been seeking new quarters but has been handicapped by failure of the American government to provide for the purchase of a legation building.

Goodyear Leadership— and Tires for the Smaller Cars

Enormous resources and scrupulous care have produced in Goodyear Tires for the smaller cars a high relative value not exceeded even in the famous Goodyear Cords on the world's highest-priced automobiles.

In addition to its larger sizes, Goodyear manufactures an average of 20,000 small car tires a day in the world's largest tire factory devoted solely to the 30x3-, 30x3½-, and 31x4-inch sizes.

Last year more cars using these sizes were factory-equipped with Goodyear Tires than with any other kind.

Their extreme worth is available for your Ford, Chevrolet, Dort, Maxwell, or other car using one of these sizes, at the nearest Goodyear Service Station. Go there for these tires and Goodyear Heavy Tourist Tubes.

- 30 x 3 1/2 Goodyear Double-Cure Fabric, All-Weather Tread \$23.50
- 30 x 3 1/2 Goodyear Single-Cure Fabric, Anti-Skid Tread \$21.50

Goodyear Heavy Tourist Tubes are built to protect casings. Why endanger a good casing with a cheap tube? Goodyear Heavy Tourist Tubes cost little more than tubes of \$4.50 less, make. 30 x 3 1/2 size in waterproof bag.

COBB STILL GREATEST OF STAR PLAYERS

Harry Stovey and Mike Kelly of Old Boys Equalled Georgia Peach in Brilliancy; Kelly Much Better Nutured

By AL SPINK

Tyrus Cobb, the Georgia peach, is like Tennessee's brook. He seems to go on forever. In Chicago the other day at the opening of the American league season, he played with the same speed and vim that he displayed years ago...

The titular leader was Eldie Murphy of Chicago, but he played in only 20 games and was at bat only 35 times, mostly as a pinch hitter, and made 17 hits for an average of .485.

Next to Stovey, Mike Kelly was the greatest older I ever saw. Considering his limitations, he was also without a peer as a base runner.

That alone would not have enabled him to be the great base runner that he was had it not been for his ability to get a splendid start. He seemed to have an intuition which told him when to go, and thus he could make a better record than many runners who were a deal faster than he.

in no condition to play and still make good. Kelly, with all his magnificent reputation, had Cobb backed off the boards when it came to good nature. He could keep the umpire and both clubs in a row by his witticisms, and he kept up a fire of small talk from the beginning of the game to the end.

No other games played; four teams traveling.

KOEB HOLDS K. C. DOWN

KANSAS CITY, Mo., (P)—Erald Koeb, Louisville's left handed pitcher, hurled the first no hit, no run game of the season yesterday against the Kansas City American association team. He allowed five passes, hit one batsman and struck out 2, but never was in danger of being scored on during the lone innings. Only one player reached second base.

O'DOWD WINS OVER CLARK

CAMDEN, N. J., (P)—Mike O'Dowd, former middleweight champion, won his ten-round bout with Jackie Clark of Allentown, Pa., here last night. O'Dowd was the aggressor throughout and had the better of eight of the ten rounds, all of which were fast and furious.

PAPIN TO MAKE DEBUT

JERSEY CITY, N. J., (P)—George Papin, the French lightweight boxing champion, will make his first appearance in an American ring here tonight in a 15-round bout with Lew Fendler of Philadelphia. The American pugilist is about ten years younger than his opponent.

CALIFORNIA TO SEND TEAM

CHICAGO, (P)—The University of California will send a team of ten athletes to the western conference outdoor track and field championship meet to be held at Ann Arbor, Mich., June 4 and 5, it was announced last night.

Brief Bits of Sport

The Hick. The rookie joined the ball club, As green as grass was he; And that he was from the sticks, was not. So very hard to see.

He was such a hick that when they hit the first big place He craned his neck so much that he, On his teammates brought disgrace. But now this ruben has made good In the majors just the same. And now like all the rest, he wants A million bucks a game.

Grand Rapids Central league team has a new manager in the form of Charlie Muller, formerly manager of the Seattle outfit.

We'll always remember Charlie as the guy with the keen sense of humor. Last fall Charlie got married and took his bride on a honeymoon with the Seattle team.

Can you imagine taking a bride on a trip with a seventh place gang? Jimmy McAuley is one lucky guy

and at the same time the highest salaried man in the minors.

As a member of the Los Angeles "Angels" he is to get 10,000 iron men for his season's work.

The Phillies and Athletics seem to have hit their mid-season stricture—they're now in sixth and seventh places respectively.

President Hickey of the A. A. fined Jack Hendricks and the Indianapolis club \$400 for Jack's antics on Sunday, April 25.

As far as the A. A. is concerned, Jack is now as popular with everyone in said A. A. as Venice of the Coast league is with Kelly of St. Paul.

It Depends Who's Up. When the ordinary batter Takes three swings at the ball And strikes out—the crowd, Doesn't say a word a-tall.

In fact they 'bout expect it, Every now and then Cause batters can't hit every trip, They're only ordinary men.

But put the champion slugger there Dare he fan! Just let him try it, And if he fans out at any time Then the crowd begins to riot.

Babe Ruth had a poor (1) day yesterday. Only two homers, a triple and a free ticket to first in his four trips to the plate.

Miller Huggins, manager of the Yanks, tells a good one he heard while the team was playing an exhibition game in Winston-Salem. "Babe Ruth had clouted a homer on his first trip

up," says Huggins, "and on the next trip he missed the third strike a city block. That strike cut the plate in two. A Carolina farmer, sitting on the front row couldn't understand how Babe fanned after hitting a homer. You can't tell me this game is on the level, he said to Pipp. He meant to miss that one. Nobody could hit a home run and then strike out on a ball comin' right down the main line. I've heard it called lots of things, says Huggins like 'grove,' 'alley,' 'cut,' but main line was a new one on us."

Old Joe McGlinity, former famous "Iron Man" of the New York Giants is now coaching the pitchers at the University of Illinois.

Joe McGlinity, you will remember, according to your ancient history, exhibited great sorrow when his old battery mate Mothusalem died.

A lot of birds have tried to follow in the footsteps of old Joe, as "Iron Man," but few ever succeeded as he did.

Most of them proved to be "Iron Men" only from the shoulders up.

The Akron team of the International looks like a "dinger." On the batting list are Jimmy Walsh, former Athletic performer, Jim George, Indiana star athlete; Hobbitel, former major league first sacker and not so long ago on the head lines of sportswid; Purcell, former White Sox third sacker, and Spike Shannon, former major league outfielder.

Not such a bad lookin' outfit, what! Ought to be on the rag, if individually counts for anything.

INDIANA TRUCKS RESERVE CAPACITY. Do you know—that the 112% reserve capacity, which is built into every INDIANA Truck is like a reserve of physical strength—not to be overtaxed—but there when you need it? Translated into dollars and cents it means surmounting unlooked for difficulties—pulling through unexpected and bad conditions. It means carrying the whole load through in safety without strain—without loss of time or money to you. It means hauling loads over roads which ordinary trucks would not dare attempt. See our Display at the Auto Show and have our salesman explain the many Superior Qualities of the Indiana Idaho Automobile & Supply Co. TWIN FALLS, IDAHO. G. E. DUKE President, R. D. STOVER Vice-President, R. N. FLOYD Sec. Treasurer. Image of an Indiana truck.

Ford THE UNIVERSAL CAR. The Ford Sedan with electric starting and lighting system and demountable rims with 3 1/2-inch tires all around, for every day in the year has no equal as a family car. Just as popular on the farm as it is in the city. In fact, it fits the family demands in every vocation of life. Large, roomy seats, finely upholstered, plate glass windows make it an open car in pleasant weather, while in rainy and inclement weather it becomes a closed car, dust-proof and rain-proof. It is ideal for social functions, the theatre, or parties; carrying the children to school, or for touring. It is not only comfortable, but really cozy, and above all, economical in operation and maintenance, and has all the Ford merits of strength and durability. We solicit your order for one. Come in and see it. WESTERN AUTO COMPANY 142 2nd Avenue North Phone 129 TWIN FALLS, IDAHO. Image of a Ford sedan.

BATIFACOONS FROM FRANCE

One thing you can say for the reviving export business of France with the United States, it is not wasteful of cargo space. Another thing, we are not draining the land of our sister-republic of commodities she needs to sustain herself.

In 1918 goods declared for shipment to the United States at the Paris consulates general were valued at \$28,243,989; in 1919 they were valued at \$105,440,887, while for the whole of France shipments to the United States were in 1918 to the value of \$55,689,400, as against \$165,750,332 last year.

Details for only the Paris declarations are available, but they show that while during the war year covered only 71 per cent of the exports to us were of baubles and luxuries, in 1919 this class of goods comprised 41 per cent of our takings.

SOMETHING BETTER WANTED

A New York banker asserted the other day that strikes have done more than proflitering to increase the cost of living.

Without speculating on what the indirect costs may have been, is not the authoritative statement made startling enough to cause inquiry as to the worthlessness to anybody?

SERVICE MEN SHOULD JOIN THE LEGION

(Des Moines Capital) The future welfare of the United States is, and will be, in the hands of the service men. These young men have not asserted themselves very distinctly.

service to the country will be greater in peace than in war, though in war their services were beyond estimation in money. Every community should have an organized post of the American Legion, and halls for their meetings should be furnished by the community, and the halls should permit social gatherings.

ORATORY IS FIRST DAY FEATURE OF CONVENTION

Indiana Republicans Convene Session for Election of Delegates to Chicago; Contest Expected

INDIANAPOLIS, Ind., (AP)—Indiana's four delegates at large to the republican national convention will be for Major General Leonard Wood for president, according to a statement made at the opening of the state convention here today by Senator James E. Watson, temporary chairman of the convention.

INDIANAPOLIS, Ind., (AP)—Edward M. Wasmuth was unanimously re-elected republican state chairman at a meeting of the state central committee here this morning.

SENDS HINES TO EUROPE TO ACT AS ARBITRATOR

Wilson Appoints Retiring Railroad Administration Director to Determine Ships Ownership

WASHINGTON, (AP)—Walker D. Hines, who retires Saturday as director general of the railroad administration, will leave this morning for Europe to act as arbitrator in determining the ownership of a number of vessels under the German flag operating on the Danube, Elbe, Rhine and Oder rivers.

DATE SET FOR DEMPHY TRIAL

SAN FRANCISCO (AP)—The date for the trial of Jack Demphy, heavy weight champion of the world, and his manager, Jack Kearns, on selective draft evasion charges was set for Monday, June 7, in the United States district court here today.

REJECT CHINESE LABOR PROPOSAL

Farm Organization Delegates Oppose Suggestion for Meeting, Help Shortage

CHICAGO, (AP)—Delegates attending a meeting of the national board of farm organizations today refused to endorse a movement to bring Chinese labor into the United States to meet the shortage of labor at the present time. The plan was proposed by a representative of the national industrial and agricultural development committee, which has offices here.

PREPARE FOR RENEWAL OF WHEAT FUTURES TRADING

OMAHA, Neb., (AP)—Olis M. Smith, president of the Omaha Grain Exchange and E. S. Westbrook, have been appointed as representatives of the exchange committee of 10, which will make recommendations in the resumption of trading in wheat futures after May 31.

Mr. Smith said today the Omaha exchange favors resumption of trading in wheat futures but will not recommend resumption until a movement of cars clears up the old stock on hand.

BIG EATERS GET KIDNEY TROUBLE

Take Salts at First Sign of Bladder Irritation or of Backache

The American men and women must guard constantly against kidney trouble, because we eat too much and all our food is rich. Our blood is filled with uric acid which the kidneys strive to filter out, they weaken from overwork, become sluggish; the eliminative tissues clog and the result is kidney trouble, bladder weakness and a general decline in health.

When your kidneys feel like lumps of lead, your back hurts or the urine is cloudy, full of sediment or you are obliged to seek relief two or three times during the night; if you suffer with sick headache or dizzy, nervous spells, aching stomach, or you have rheumatism when the weather is bad, get from your pharmacist about four ounces of Jad Salts; take a tablespoonful in a glass of water before breakfast for a few days and your kidneys will then act fine.

OPENS BOUREON BOMBARDMENT

(Continued from Page One)

were matched by this side. I offered compromise reservations, one drawn by a former republican president. They were rejected. We on this side offered all the compromise. You offered none."

Today's Markets

New York Exchange

NEW YORK, (AP)—Contractive credits and reports indicating a slowing down in various lines of industry gave impetus to further price depression in today's dull and professional stock market. Sales approximated 750,000 shares.

Omaha Livestock

OMAHA, (AP)—Hogs, receipts, 11,000; steady to strong; top, \$14.30; bulk of sales, \$13.25 to \$14.

Chicago Quotations

CHICAGO, (AP)—Wheat, No. 2 North-Corn Spring 53 1/2. Corn No. 2 mixed 42 1/2; No. 2 yellow 43 1/2 to 2 1/3.

Omaha Livestock

OMAHA, (AP)—Hogs, receipts, 11,000; steady to strong; top, \$14.30; bulk of sales, \$13.25 to \$14. Cattle—Receipts, 5,000; beef steers, 15c to 25c higher; bulk of sales, \$12 to \$13; sheekesteady; bulk of sales, \$9 to \$11; stockers and feeders, steady.

Chicago Livestock

CHICAGO, (AP)—Cattle: Receipts 8,000; medium and best, light and medium weight steers strong to 15c higher; other cattle mostly steady; bulls and light calves slow; bulk beef steers \$11.50 to 10 1/2; canners largely \$5.25 to 5.75; hogema bulls \$8 to 8.50; best vealers \$12.50 to 13; medium and light around \$11.

Chicago Quotations

CHICAGO, (AP)—Wheat, No. 2 North-Corn Spring 53 1/2. Corn No. 2 mixed 42 1/2; No. 2 yellow 43 1/2 to 2 1/3. Oats No. 2 white \$1.15 to 1.16; No. 2 white \$1.15 to 1.16. Rye No. 2 \$2.20 to 2.27. Barley \$1.05 to 1.00. Timothy seed \$10 to 11.50. Clover seed \$25 to 35. Pork nominal. Lard \$21.10. Hides \$18 to 19.

Omaha Livestock

OMAHA, (AP)—Hogs, receipts, 11,000; steady to strong; top, \$14.30; bulk of sales, \$13.25 to \$14. Cattle—Receipts, 5,000; beef steers, 15c to 25c higher; bulk of sales, \$12 to \$13; sheekesteady; bulk of sales, \$9 to \$11; stockers and feeders, steady.

New York

NEW YORK, (AP)—Liberty bonds final prices today were: 3 1/2's \$91.94; first 4's \$85.70; second 4's \$85.00; first 4 1/4's \$87; second 4 1/4's \$85.20; third 4 1/4's \$88.98; fourth 4 1/4's \$85.54; Victory 3 3/4's \$90; Victory 4 3/4's \$90.64.

Grains and Provisions

CHICAGO, (AP)—Fresh strength developed in the corn market today, and the highest prices yet this season were touched by the May delivery. Absence of any aggressive selling had much to do with the advance. Unsettled weather counted also as a bullish factor.

Subsequently word of active export buying of wheat at the topmost figures of the year gave a new stimulus to the advance in corn. The close was unsettled, 1 3/8 to 2 1/4 net higher, with July \$1.77 1/4 to 1 7/8 1/2 and September \$1.04 to 1.04 3/8.

Oats were governed by the action of corn. After opening unchanged to 1-2c higher, including July at 93 5/8 to 94c, the market continued firm.

Provisions hardened a little with grain and hogs. Demand, though, was inactive.

LEE GOES TO SALEM TO FACE ROBBERY CHARGES

Alleged Gang Leader Released at Gooding and Sent to Oregon

After being held in custody at Gooding for two weeks and brought to trial yesterday at that city, Charles (Jack) Lee was released to answer charges brought against him at Salem, Oregon. Lee was arrested a fortnight ago when authorities believed him connected with an organized group of thieves, operating in southern Idaho and several places on the coast.

Local Brevities

Burial Clubs to Meet—The Federation of Rural clubs will meet Saturday, May 16, in the farm bureau office. Weather Report—Yesterday's highest mark in temperature was 65 with a minimum figure of 39, says the local weather observer. Goes to Boise—E. J. Ostrander and nephew, Louis Dingle, left for Boise where Mr. Ostrander will spend a few days on business.

Personals

Wright and little son, Billie, are leaving this evening for a visit with friends and relatives in Salt Lake.

Social Notes

Mr. and Mrs. I. A. Appell entertained at dinner last evening for some of the teachers who are leaving soon for the summer vacation. The guests were, Miss Henrietta Jenkins, Miss Mary Hampton, Miss Ruth Hewett and Miss Nord. Mr. Thomas M. Robertson will entertain the Episcopal Guild tomorrow afternoon at her home on Ninth avenue north. The Business Women's association met at the home of Mrs. H. J. Youngs last evening for the final dinner of the season. Covers were laid for 38.

A brief business meeting was held where it was decided the association would meet only once each month during the summer. The Missionary Society of the Presbyterian church will meet at the home of Mrs. W. H. Johnson, 630 North Main tomorrow afternoon. The Home Missionary society of the Methodist church will meet in the church parlors tomorrow afternoon at two-thirty. We take this means of expressing our deep appreciation of the kindness and sympathy shown us in the loss of our wife and daughter, Edith Clark Hagar. Roy A. Hagar, Mr. and Mrs. W. C. Clark.

DR. BENNETT TO DISCUSS CENTRAL EUROPEAN CONDITIONS

"The True Condition in Central Europe" will be the message of Rev. A. G. Bennett, in the Methodist church tonight, as Bishop John L. Nuesen has reported to the general conference at Des Moines. He was in charge of the Methodist work in Germany, Austria and Switzerland, all during the war. This denomination is now doing much relief work in those lands, and is reconstructing 32 villages in France around Chateau Thierry.

\$1,000 TO \$6,000 TO LOAN I will lend \$1,000 to \$6,000 on first class real estate security. The rate is reasonable. HENRY J. WALL Classified Ads are cheap-effective.

WILSON'S HEALTH PERMITS RESIGNATION OF DIPLOMATS WASHINGTON, (AP)—President Wilson today began receiving foreign diplomats who have been waiting improvement of his health in order to formally present their credentials. Arrangements were made for the foreign representatives to visit the White House in the order of their arrival here. Baron de Carrière de Marichien, the Belgian ambassador, was the first to be received. Later the Uruguayan minister, Dr. Jacobo Varela, who came to Washington in October, saw the president.

TEXT FROM DENVER MINT REVEALS IN FAVOR HARRINGTON DENVER, Colo., (AP)—Orville Harrington, former employe of the Denver mint, was sentenced to 10 years in the United States penitentiary at Leavenworth, Kansas, today, following a plea of guilty to stealing \$30,000 in gold nuggets from the mint. The gold was recovered. Harrington begged Judge Robert E. Lewis, presiding, for mercy, because of a wife and two children. A merchant advertises because he has news for you.

We told you so! If you didn't see "Mice and Men" by the High School Seniors last night you missed something. Before a crowded house and with a degree of finish and artistic attainment rarely witnessed in amateurs, the class produced a performance well worthy of serious consideration. Those present enjoyed it, as well as the various interpolations of Commencement Week activities which were a part of the program. It was a success. Thursday night is perhaps the main event of the week. The Commencement program, with the distribution of diplomas to the graduating class. Friday is the last day of school, perhaps the final day for some members of the graduating class.

DAKO DEPARTMENT STORE LTD. This week closes perhaps the most successful school year in the history of the City.

An Eventful Week of White

With all plans completed and all merchandise assembled and ready, we are conducting a White Event for one week beginning Thursday morning at 8 o'clock. White goods of many descriptions will participate in this event and every warm weather need is cared for in a manner that is typical of everything we do. This event comes at a time when every woman is busy figuring on supplying her wardrobe with white wear for the present and during the sunny days to come. As a consequence this week of white comes at an opportune time and every woman should avail herself of this chance. The goods offered are new and fresh and beam with the style ideas of the moment. You'll find some splendid values and we urge that you come in and look over our dainty assortment of white goods.

Dainty White Footwear in the Favored Styles of Summer

The fastidious woman requires the same exclusiveness in her footwear as in any other article of attire. Our models conform to this standard. In this white event we are featuring white foot apparel of highest quality. Perfectly fitting and of such diversity that you will experience no difficulty in finding your favored style. You'll find pumps and oxfords in white kid and canvas.

DADDY

The Sugar Bowl doesn't appreciate me... "Who do you love when you say 'me'?" asked the Sugar Bowl.

"I will admit it" said the Salt Cellar and the Pepper Shaker have good work to do.

The Sugar Bowl, "I think I should measure and things am glad we've had."

I felt that I was so... But I wasn't. I thought things aren't to be taken the trouble way to do nice Sugar Bowl can't.

He likes to add to... He likes to add to... He likes to add to...

The Greatest Change... "When water becomes ice," asked the teacher, "what is the greatest change that takes place?"

THE KITCHEN CABINET

Those who bring sunshine to the lives of others cannot keep it from themselves.

EASY DESSERTS.

Rice is not holding its place as a wholesome dessert. Take one-third of a cup of well-washed rice, add a scant half cup of sugar (brown sugar adds a pleasing flavor), a little salt and two quarts of good, rich milk.

Fruit Puffs.—Beat the yolks of two eggs until thick and light colored, then add three-fourths of a cupful of sliced ripe peaches or bananas; add a tablespoonful of melted butter, third of a cup of milk and a tablespoonful of sugar.

Granberry Pudding.—Put a quart of berries over the fire to stew with sufficient water; when boiling hot drop small spoonfuls of butter.

Fifteen-Minute Pudding.—Make a batter of one cupful of flour, half a cupful of milk, a teaspoonful of baking powder, half a teaspoonful of salt. Butter custard cups, drop in a spoonful of the batter, add a heaping tablespoonful of any juicy canned fruit like cherries or strawberries, add another spoonful of batter and place the cups in a pan, add boiling water to come up to the sides, cover closely and steam 15 minutes, boiling all the time. Serve unmolled with cream and sugar.

To Make Mirror Brilliant. To clean a mirror in such a way as to bring it to the highest state of brilliancy, very fine whiting, or, better, precipitated chalk, is one of the best-known agents.

Time Measured by Candles. The Chinese, besides using water clocks, also invented joss-sticks, which burned uniformly. The joss-stick is somewhat similar to what good old King Alfred of England is said to have used way back in the eight hundred.

WOOL P. J. PLAISTED PHONE 148 BUHL, IDAHO WOOL

Aids to Home Life and Happiness

There is no one thing that will bring you so much genuine comfort, and reduce the drudgery of housework, as an electric range.

A turn of the switch brings the radiated heat to the broiler, oven or hot plate. Cooking is simplified for this steady heat may be absolutely regulated at low, medium or high.

Waiting for the fire to come up, the constant adding fuel, the nuisance of ashes, soot, smoke and poisonous vapors, are completely eliminated.

The result is a neat, constantly clean kitchen that is always cool. The radiated heat is absorbed by the contents of the cooking vessel, and the oven and broiler are so insulated that the heat is contained, and not distributed in the room.

Electrical Appliances for Many Purposes

Doing your work electrically is economical from every point of view. It is the ideal of the modern housewife to add one appliance after another until her home is so equipped that housework is remarkably simplified.

We will gladly explain the method and cost of operation of all electrical appliances if you will call at the Shop.

The Electric Shop Idaho Power Co.

The Farmer's Opportunities

for the practice of thrift are many. In the handling of the soil, feeding of live stock, care of barns, fences and machinery, thrifty management results in successful farming.

We are interested in the welfare of the farmer; never too busy to discuss with him his problems, plans and opportunities.

This is truly the farmer's bank; our officers the farmer's friends.
