## CAMPBELL FOR HOOVER COSTS OVER \$66,332

Manager Tells Investigating Committee of Expenses Outside of Valifornia for Former Food Administrator

## BARUCH KNOWS NOTHING OF MADDOX'S EXPENSES

Second Day of Inquisition Extends into Candidacies of Governor Edwards, Senator Owen and Senator Franco

WASHINGTON, (AP)—Campaign expenditures in behalf of Herbert Hoover, republican Governor Edwards, democrat of New Jersey; Senator Owen, democrat of Oklahoma, and Senator Franco, republican of Maryland, were inquired into today by the senate committee investigating the presidential campaign financing.

**Enlists Former Associates**  
John P. Lucey told the committee that \$66,332 had been expended for Mr. Hoover, exclusive of the costs of the California contest against Senator John Owen, republican, of that state, and the total contributions had been \$62,185. Many of the contributors are employees of the United States grain corporation and Lucey said he met in Washington with Mr. Hoover, either in Washington or Belgium.

**Denies Aid of Wets**  
Walter W. Vick, testifying to expenditures of \$12,900 in behalf of Governor Edwards, denied that any liquor interests were "underwriting" the governor's campaign. He declared Mr. Edwards' campaign was not a "wet" one in any sense.

**Expenditures in behalf of Senator Owen** have been \$10,410. J. W. Beller, his campaign manager testified, adding that no delegates had been obtained outside of Oklahoma.

**France Spends Nothing**  
Senator Franco, appearing in person, told the committee he had spent no money.

"Another Hoover manager besides Mr. Lucey was examined by the committee. He was Charles P. Hepburn of Philadelphia, a leader of the Philadelphia Hoover club, who testified that in all about \$20,000 was raised in Pennsylvania.

**Senator Reed, democrat, Missouri,** questioned the witness about the much discussed dinner at the New York home of E. M. House last January, at which it has been said the Hoover pro-grad boom was launched. Mr. Hepburn said he was not present; that he had read that Cyrus H. K. Curtis, of Philadelphia was, but that he knew that Mr. Hoover had not met Mr. Curtis until last April in Philadelphia.

**Says Hoover Could Tell**  
Mr. Lucey was recalled by Senator Reed and also questioned about the dinner, but said he knew nothing about it. He suggested that Mr. Hoover could tell about it if called.

## HOOVER SAYS AMERICA MAY BE DEPENDENT ON FOREIGN FOOD SUPPLY

Suggests Creation of Commission of Highly Trained Farmers, Skilled Economists and Financial Experts to Consider Causes of Decrease in Agricultural Production and Remedies for the Situation

WASHINGTON, (AP)—Decrease in agricultural production may result in this country becoming dependent upon overseas food supplies, Herbert Hoover declared today in a letter to Representative Riddick, republican, Montana, setting forth the former food administrator's views "as to practical measures to insure better returns to the farmer for his labor and investment."  
Mr. Hoover suggested the creation of a commission composed of highly trained farmers and skilled economists and financial experts to consider the causes and remedies for the situation.

**Would Protect Farmer**  
Asserting that the present high prices of commodities will "sooner or later" decrease, Mr. Hoover said "this deflation must not begin on the farmer." Shortage in production outside the United States, with extravagance and increase of extended credits for speculation and profiteering and non-essential production are contributing factors in the present inflated prices, he wrote.

Mr. Hoover suggested the creation of a commission composed of highly trained farmers and skilled economists and financial experts to consider the causes and remedies for the situation.

**War deterioration in our transportation facilities** has created periodic shortages in the free flow of food from the farm to the consumer, he pointed out. "This has compelled the consumer to buy during a local shortage and the farmer to sell his product during a local glut. The continued inflation of prices during the war has extended speculation and profiteering by expanding the borrowing facilities to any food distributor who wanted to indulge in such practices and has widened the margin between the farmer and his market, likewise increasing the prices of supplies that the farmer must pay."

**Taxation Wrongly Distributed**  
The burden of taxation is wrongly distributed, Mr. Hoover declared, pointing out that the excess profits tax "is an apportionment to food manufacturers and distributors to collect taxes for the government by shifting the burden of margin between the farmers and the market."

**The whole marketing system in many of our commodities is indirect, expensive, wasteful, obsolete, and increases the margin unduly,"** the letter continued. "Our manufacturing industries have developed in the last few years, and agriculture, and labor is being drawn in thousands from the farm to the town at wages with which the farmer cannot compete with the great commission of farmers met the great economic problems of the food administration during the war, with equal consideration for farmer, distributor and consumer."

## Pre-War Prices for Silks are Predicted

NEW YORK, (AP)—Pre-war prices for Japanese silks with a very slight increase were predicted by M. Seligman, prominent merchant of Osaka, before he sailed today for London.

"February silks were three times higher than they were before the war," said the Japanese merchant. "They are now only half the price they were in February, and the trend continues down."

## GOVERNMENT TAKES STEP AGAINST SUGAR MAKERS

Charges of Profiteering are Pushed Against Utah-Idaho Company in Oregon

MEDFORD, Ore. (AP)—The federal trade commission is hearing here today on a charge of conspiracy in restraint of trade against the Utah-Idaho Sugar company of Salt Lake City. The federal attorney, J. E. Gates of Medford, who told of the effort of Medford business men to secure a sugar factory and its subsequent establishment at Grants Pass.

**PROFITEERING IS ALLEGED IN HEARINGS IN MASSACHUSETTS**  
BOSTON, Mass. (AP)—The federal government today took action against sugar refiners here for alleged profiteering and hoarding.

The Lever Sugar refinery and H. E. Worcester, its vice president, were charged with exacting excessive prices and withholding sugar from the market, and the American Sugar Refining company and W. K. Green, its general manager, were charged with selling sugar at excessive prices. The complainants asserted that the companies had made millions of dollars by hoarding and regulating the price.

## JOHNSON HOLDING LEAD CANDIDATES' SONS MEET

Later Returns in Oregon Election Give California 1,184 Votes Over Wood

**PORTLAND, Ore. (AP)—**Complete returns from 18 counties and incomplete but almost complete returns from 17 counties, with returns missing entirely from Curry county give Senator Hiram Wood, Johnson a lead of 1,184 votes over Governor Leonard. Wood for the Oregon in favor of the republican nomination for president, according to the Portland Telegram's compilation. The total vote in the state: Johnson 43,257; Wood 42,073.

Estimates place the total unreported vote at less than 4,000. Every effort has been made to secure the vote in Curry county, but no results have been obtained from the county seat at Gold Beach.

## BRYAN OBJECTS TO PRESIDENT'S MANDATE PLANS

Declares America Can Do More for Armenia by Entering the League as Friend of All Little Countries

WASHINGTON, (AP)—William J. Bryan, who today is to play with President Wilson on the question of an American mandate over Armenia, declaring in a statement that "any mandate is impossible."  
The United States, Mr. Bryan said, could do more toward making the world safe for democracy, "even for democratic Armenia," by recognizing the Armenian republic, and entering the league of nations, "as the friend of all little countries."

**Any Mandate Impossible.**  
"Any mandate is impossible," Mr. Bryan's statement said without other reference.

"The one proposed for Armenia if accepted would involve us in an enormous military and financial burden that congress has difficulty in finding the money necessary to do justice to the Armenians who are the victims of the European and world war."  
"It would involve us in the politics of Europe and would compel us to deal with implacable race hatreds."  
"It would involve us in the fierce commercial rivalry of the big nations."  
"But, worst of all, it would compel us to surrender a vital principle of democracy—that all people are capable of self-government."

**Cites Clay's Doctrine**  
"Nearly 100 years ago," continued Mr. Bryan, "Henry Clay set forth the American view on this subject in dealing with the claims of South American republics. Clay declared it to be a reflection on the Almighty to assume that he would create peoples incapable of self-government and leave them to the victims of kings and emperors."

"All the colonial exploitation of helpless peoples is defended on the theory of their incapacity for self-government. It would be injurious to the Armenians instead of a kindness to affirm or admit their incapacity for self-government. If it would be injurious to the Armenians, it would be injurious to the rest of the world. It would be permitted to outgrow the presumption of incapacity because consent to their independence would encourage other subject peoples to ask for independence."

**Lines with Christianity**  
"Christianity does not require us to abandon our ideas of government or to adopt monarchical forms in rendering aid to struggling peoples of the world. Our entire conduct is consistent with Christianity. We can recognize the independence of the Armenian republic and send a minister to Armenia a man who has given us the right to believe that governments should rest upon consent of the governed. He can advise with Armenian officials when they desire to enter into a treaty with the league of nations as the friend of all the little countries and insist on universal disarmament we may be able to make the world safe for democracy even in Armenia."

**Consideration after recess**  
President Wilson's message asking authority to accept a mandate over Armenia probably will not be considered by the house foreign affairs committee until after the convention recess.

## OKLAHOMA GOVERNOR IS ASKED TO SEND TROOPS

Farmers in Open Defiance of Law for Dipping Cattle, Official Reports

OKLAHOMA CITY, Okla. (AP)—Governor J. B. A. Robertson was asked today by the state board of agriculture, to declare martial law in a district of Sequoyia county and send state troops there for the protection of state property.

Mr. Whitehurst, who returned today from Sequoyia county after investigating the destruction recently of several cattle dipping vats, declared the farmers in three townships of the county "in open defiance of the law" in refusing to dip dipping cattle for the eradication of ticks.

## VILLA HUNTED QUARRY OF NEW MEXICAN REGIME WITH PRICE ON HIS HEAD

Bandit Leader Marshals Men and Flees to Safer Haunts Before Expiration of Ultimatum Limit

## CALLES ORDERS LARGE BODIES OF TROOPS TO KEEP FUGITIVE MOVING

EL PASO, Texas, (AP)—General Francisco Villa, bidding defiance to the newest Mexican government, again has become an outlaw among his own people. The bandit with a small force of men was reported today between Parral and Jimenez, Chihuahua, the hunted quarry of de facto troopers, with a price of 100,000 pesos on his head.

Villa had been given until today to decide whether he would be at peace or war with the seventh-third government that has ruled Mexico in ninety-nine days. In an ultimatum served on the bandit by General P. Elias Calles, minister of war for the de facto government.

The ultimatum was delivered to Villa May 20 at his camp at Boquilla, Chihuahua, but before the time limit had expired the bandit chief marshaled his men and fled to what he considered safer haunts. His men and horses were in excellent condition because of the rest they had had in the interim between the war with the Carranza government and the new.

**Leaves Aguila Mines**  
The first thing Villa did after receipt of the de facto government's ultimatum was to assess a levy totalling \$500,000 against the big mining companies of southern Chihuahua, according to reports reaching here.

General Calles has ordered large bodies of troops against Villa. The bandit, he said, would be kept constantly on the move and away from possible source of supply. Villa has threatened to begin another of his notorious expeditions of train wrecking, destruction and murder.

## WILSON GREETED BY WAR VETERANS

Memorial Message is Addressed by President to American Legion Weekly

NEW YORK, (AP)—A memorial message from President Wilson to the American veterans of the world war was received here today by the American Legion Weekly. It reads: "We approach the annual recollection of Memorial day with our hearts filled with tenderest and grateful memories of those who have given their lives for America. The day has by custom been consecrated to the country's heroic dead. This is observed that we were comrades in arms and who shared with the well-remembered dead the experiences, the hardships, the perils and the glory of war. It is celebrated by the people of the country generally who take it as an annual occasion to renew their loyalty to the country and to draw fresh inspiration for the tasks of peace from the memory of sacrifices which were made so freely in times of war. The day is therefore filled with both memories of the past and inspirations for the future. It gathers the traditions of what we have done in order that we may have the courage for what we have to do."

"Progress moves like an army; it has its days of training and preparation, its days of conflict and its days of vindication; it has its camp fires and its memories. To you who were soldiers of America in the great war, we send affectionate greetings. What your arms have done for liberty in France your spirits will continue to do for the world's great democracies make great men, and out of the tragedy of this test a new, heroic quality has come to the American manhood. We are proud and grateful for the affection for what you have already done is only equalled by its confidence in the manly part you are still to play."

## BODY OF SLAIN EXECUTIVE LIES IN MEXICO CITY

The Carranza Funeral Cortège Leaves Home as Congress Convenes to Name Adolfo de la Huerta as Successor

VERA CRUZ, (AP)—Reports of an autopsy performed on the body of Venustiano Carranza at Tlaxcalantongo fall to agree with the claim of Rodolfo Herrera that the president died of a bullet wound rather than being taken captive, it is asserted in official quarters here.

Herrera's friend Carranza had been struck by two rifle bullets, one of which penetrated his breast and the other his abdomen. The report stated that the president it was the conclusion that the president had been assassinated.

**MEXICO CITY, (AP)—**In accordance with his oft-repeated request, President Venustiano Carranza, slain last Monday at Tlaxcalantongo, was buried late yesterday afternoon in Dolores cemetery, where in the shade of Chapultepec, the poorest of Mexicans have for many years found their last resting places.

**Congress Names Successor.**  
As the funeral cortège left the home of the late adored chief, the extraordinary session of congress was being called to order to choose a president ad interim, to hold office until a new president is to be elected September 1, inaugurated. Adolfo de la Huerta, governor of the state of Sonora, was named after congress had been in session for some time.

The body of the slain president arrived in Mexico City at 5:10 o'clock yesterday morning and was escorted by soldiers and a delegation from the diplomatic corps to the family home. Later the body lay in state, thousands looking upon the man who was buried in Dolores cemetery, and whose death occurred under circumstances that wait explanation.

**Eleven Generals Held.**  
In the Carranza camp at Tlaxcalantongo, the telegram stated, 40 prisoners were captured. Some of these were later released but 11 generals, General Manuel Alvarez Bertrán, secretary of the interior, General Carranza's brother-in-law, General Carranza's secretary, General Carranza's body to this city, but were taken off before reaching this city. They are said to have been taken to the prison at Vera Cruz.

The fate of Luis Cabrera, secretary of the treasury is unknown. Some reports state that he was taken to prison in Mexico City to prove his assertion that Carranza killed himself, and it is probable he will be sent for.

The state government of Chihuahua, where Francisco Villa, who recently announced his opposition to the new government, is operating, has prohibited the sale of liquors containing more than 14 per cent of alcohol.

# FOUR ASPIRANTS FOR PRESIDENCY PRESENT NAMES

## West Virginia Voters Chosing Among Rival Candidates for Republican Nomination for Chief Executive

CHARLESTON, W. Va., (AP)—Names of four candidates for president and complete state and county tickets were presented to West Virginia voters when they went to the polls today for the state-wide primary. The election was conducted under the double-voting system which was used in 1916 and the results would be known soon after the polls closed, except in those mountain counties with which communication is difficult.

The presidential candidates on the ticket were all in the republican column. They were Adnan B. Hall of Parkersburg, W. Va.; United States Senator Howard G. Carter of Elkins, W. Va.; William Grant Webster, of Parkersburg, W. Va.; and George Wood. No candidates were listed on the democratic ticket, but it was expected that many democrats would indicate their preference by writing in the names of their favorites.

All candidates for delegates to the national convention are required under the law to say whether they will support the popular choice of the primary election. Of the 23 candidates for delegates at large, 19 have declared that they will obey the mandate of the voters of their party. Nineteen candidates for delegate at large are republicans.

Three republican candidates for the nomination for governor—Fred Paul Groppe of Charleston, W. Va.; Ephraim F. Morgan of Fairmont, W. Va.; and U. Montgomery of Kingswood, W. Va. The democratic candidates are Arthur B. Kootz and Adnan B. Littlepage, both of Charleston.

Candidates for congress in the six congressional districts of the state will be chosen in today's primary. The republican vote is expected by leaders of both parties to be heavy as there are contests for almost every state office among the republicans, there is but one contest in the democratic party, that for governor.

## TO PROBE PLANTATION STRIKER ORGANIZATION

### Japanese Commercial and Professional Men in Honolulu Launch Investigation into Union Affairs

HONOLULU, T. H., (AP)—A number of prominent Japanese commercial and professional men here have organized a Japanese Current Problems Investigating association recently appointed a committee of three leading Japanese to investigate the fair of the Japanese labor organization which late in January instituted the strike of workers on the sugar plantations.

Despite the announcement of the planters that as far as they are concerned, the strike is over and the places of the Japanese who walked out have been filled, the Hawaiian Federation of Labor, which has been the Japanese Federation of Labor, asserts it is prepared to carry the fight for higher wages to a finish.

Originally about eight thousand Japanese and Filipinos went on strike. Most of the Filipinos have returned to work, but figures from Japanese sources indicate that about five thousand workers of that nationality still are holding out.

## MAMMOTH CAVE PROPOSED AS NATIONAL CENTER

LOUISVILLE, Ky., (AP)—Mammoth cave, Kentucky, center of interest to the wanderers of the world, may soon be purchased and transformed into an extensive national park.

Reports from Washington are to the effect that the rules committee of the house of representatives contemplates calling up for passage shortly a measure which would set aside 100,000 acres for the purchase of the great cavern and 32,000 acres of virgin forest land lying around it.

## PREVENTION OF FIRES BEATS FIGHTING THEM

An efficient system of fire protection has been developed on the national forests. The idea underlying this system is that it is better to prevent large fires by putting out small ones than to fight them after they have grown.

Lookout stations are maintained in the forests on high points commanding a wide view of the surrounding region. These are connected with ranger and supervisors' headquarters by telephone, and immediate notification is given when a fire is discovered. A season of special danger, extra men, called "smoke chasers" are employed, whose duty it is to go immediately to the scene of a fire and at hand showing lines of communication, transportation facilities, areas previously burned, location of settlements, and the lookouts of different degrees of danger. Lists of men available for fire fighting are kept and arrangements made to have these men readily available.

Similar protective systems, under the direction of a state fire warden or other official, have been developed in a number of states, including Idaho. In a few states these systems are under the direction of the town or county.

Under the Weeks law the forest service cooperates with states in the protection of their waters and the lookouts of navigable streams. The money allocated for this work by the federal government goes mainly to pay the salaries of fire patrolmen and lookouts. To obtain co-operation a state must at least initiate an efficient fire protection system. Idaho cooperates with the federal government in this work. While the Weeks law money actually furnishes but a small part of the protection for the state, it has given a great stimulus to the protective movement throughout the country.

## BOYS MAKE LONG TRIP AS EXPRESS PACKAGES

Mother of Topeka Sends Lads to Father in Ogden in Care of Railroad Carrier Corporation

DENVER, Colo., (AP)—Two express "packages," each consisting of a little boy, were recently passed through Denver en route from Topeka, Kansas, to Ogden, Utah. Orville Skaggs, eight years old, was package No. 1, while his brother, Lester, six years old, was package No. 2.

Their mother, who resides in Topeka, decided to send them to their father, who is living in Ogden. She decided to forward them by express and, when the company accepts animals of all kinds for transportation, the officials decided that the boys could be accepted.

The company suspended one rule governing the shipment of live animals, however, which undoubtedly added much to the boys' comfort. That rule requires the owning of all animals sent by express.

The boys, though, saw to it that another rule, which provides that animals must be fed at junction points and wherever else it may be necessary, was not suspended.

## HARDING GIVES PRINCIPLES IN HIGH COST WAR

### Individual Economy, Non-Essential Loans Reduction, Increased Production, Improved Transportation Needed

WASHINGTON, D. C., (AP)—Economy in individual expenditures, reduction in non-essential loans by banks, increased production and improved transportation are needed to reduce the cost of living and defuse credits, Governor Harding of the federal reserve board, declared today in responding to a senate resolution of inquiry.

Discriminations as to what are essential and non-essential loans, Governor Harding stated, is a problem for local bankers familiar with local needs.

Governor Harding's letter came in response to the resolution of Senator McCormick, republican, Illinois, requesting information regarding what steps the board contemplated "to meet the existing inflation of currency and credits and consequent high prices."

Discriminations as to what are essential and non-essential loans, Governor Harding said, has checked credit transaction somewhat but "have not been entirely effective in bringing about the reduction in loans desired."

"On the contrary," he said, "commercial loans have steadily increased."

Average Reserves Lower.—The average reserves of federal reserve banks are now a little over 42 1-2

per cent," he added, "as against 45 per cent at the beginning of the year and about 51 per cent 12 months ago."

Speaking of transportation facilities, Governor Harding said: "The board is convinced that if the unsold portions of last year's crops can be brought to market before the new crop matures, the liquidation of the old crops will be sufficient to offset to a considerable degree the credit demands."

In the efforts to reduce non-essential loans, Governor Harding said banks were advised to grant loans stimulating essential production.

"The problem of the banking system of the country," he continued, "is to check further expansion and bring about a normal and healthy liquidation without curtailing essential production and without shock to industry and legitimate commerce."

To Use Statutory Powers.—Regarding cooperation of merchandise and traffic, Governor Harding said: "It is true that under existing conditions the volume of credit required in any transaction is much greater than was the case in pre-war times, but it is also true that the resources of the member and non-member banks would be a freer flow of goods and credit if commodities, which are held back either for speculative purposes or because of lack of transportation facilities should go to the markets the resultant release of credit would be most beneficial."

"The board will not hesitate so far as may be necessary to bring to bear all its statutory powers in regulating the volume of credit."

## Meeting the Demand

Meeting the demand for more efficient telephone service is just as difficult as meeting the demand on any other public concern--whether it be an over-crowded grocery store, a popular ticket window, a bargain counter or anything else where supply is running short.

Conditions are unusual throughout the entire manufacturing, mercantile and domestic world. Deficiencies in telephone service which have been quite obvious for some time are directly due to these abnormal conditions.

Materials are scarce--manufacturers are not able to meet the demand--telephone supplies cannot be had--the war diverted all activities in other directions, and they are just beginning to come back. Until the normal level is struck, there is bound to be shortage of supplies and this means unavoidable deficiencies.

The telephone service is probably no better or no worse than the general average of the business and domestic routine.

The telephone management is in a vigorous campaign to get its service back to the old standard of speed and accuracy. Patience and co-operation on the part of the public will greatly aid in bringing about mutual satisfaction.

SEVERAL CITIES MOVE AHEAD TO 100,000 CLASS

Akron, Ohio, Shows the Most Growth Among Larger Cities in Census Statistics so far Completed; Passes Eight

WASHINGTON, (P)—The population rank of the cities will show a large number of changes when the statistics of the 1920 census have been completed.

Several cities have moved up into the 100,000 class in which there were 50 municipalities in 1910. Some of the cities of that class, whose 1920 populations have been announced, have outgrown others in the same class while some having less than 100,000 ten years ago have taken rank well up among the country's 50 largest cities.

Akron, O., has shown the most growth among the larger cities. It has passed eight cities having 100,000 or more in 1910, whose 1920 populations have been announced.

The rank of the various cities cannot be determined until statistics for all have been announced. New York, Chicago and Philadelphia, second, third and fourth cities of the country, will continue to rank in that order but the rank of other cities is uncertain.

Washington, D. C., passed Newark, N. J., Cincinnati and New Orleans. Newark, N. J., passed Cincinnati. Toledo, O., passed Louisville and St. Paul.

Dayton, O., passed Paterson, N. J., Bridgeport, Conn., passed Paterson, N. J., and Spokane, Wash.

Hartford, Conn., passed Paterson, N. J., Albany, N. Y., and Spokane, Wash. Youngstown, O., passed Nashville, Ala., and Spokane and a number of cities of 80,000 or more in 1910.

MYSTERIOUS JYNX SHADOWS DETROIT UMPIRE DECLARES

Ten Years Since Hughey Jennings' Tigers Have Captured a Pennant

By JACK VETLOCK. NEW YORK (Special).—What's the trouble with the Detroit Tigers? It has been ten years since Hughey Jennings' Bengals have captured a pennant in the junior league, though in all that time they have seldom failed to look like sure pennant contenders in the spring, only to falter when the pennant race settled down to a steady trot.

The experting persons have been harping about poor pitching when trying to explain the failures of the Tigers until the old excuse is thread-bare. And while it is a fact that pitching amounts to some 90 per cent of the strength of a winning ball club and that the Tigers have often suffered from lack of good twirling, there must be something else wrong.

Umpire George Hildebrand who was an uncommonly good pitcher in his playing days, says that the Tigers are just plain unlucky.

Just Unlucky. "That's the only way I can account for the failure of Jennings' team to make a better showing," said his uppe recently. "They talk about pitching. Well, maybe the Yanks have been followed by a hoodoo. But what about the Tigers? Haven't they been a consistently good club for years and years? And haven't they flunked out just as consistently? They sure have. They're just naturally unlucky."

Some Whispersings. For a number of years it has been whispered that the owners of the Detroit club would change managers unless the Tigers got into the money. But just as often President Navin and his associates have repudiated the charge.

# JAPANESE BANK CLOSES DOORS

### Demoralization of Silk Industry Cause Attributed for Failure of Institution

TOKIO, (AP)—Demoralization of the Japanese silk industry, in which the institution was heavily interested, is attributed by the Tokio press as the cause of the suspension of the Seventy-fourth Bank of Yokohama, whose affairs are now under investigation.

Soboi Mogi (the bank's principal shareholder, has suffered a loss of ten million dollars through the collapse of the silk market, it is reported.

The closing of the Yokohama bank started a sympathetic run on the Soda bank, the closing of the silk exchange, a slump in the Tokio and Osaka stock exchange and the suspension of the Tokio rice exchange.

NEW YORK, (AP)—The Seventy-fourth Bank of Yokohama, Japan, has been closed for a period of three weeks pending investigation of its books, according to news received by Pan East banking interests here today.

The Mogi bank of Yokohama, controlled by the same interests as the Seventy-fourth bank, also was reported suspended today. Recent inflation and the consequent collapse of the raw silk market were said to have been the cause of difficulties.

WASHINGTON, (AP)—The old controversy between Secretary Daniels and Admiral Fiske was revived today before the senate committee investigating the navy's conduct of the war.

Secretary Daniels said he would insist upon an opportunity to appear before the committee again after the admiral had testified.

Admiral Fiske's plan to reorganize the navy department in 1915 "bored me to exhaustion. He thought the German general staff system was the best in the world."

"I did not want a chief of naval operations who would go to sleep after war was declared."

Asked what Admiral Fiske's position in the navy was when the reorganization was proposed, Mr. Daniels said he was "in a bad position."

# CONGESTION OF FREIGHT STATUS IS IMPROVING

### Reports to Interstate Commerce Commission Indicate Continued but Slow Betterment in Traffic Tie-up Situation

WASHINGTON, (AP)—Reports to the interstate commerce commission today from its agents throughout the country showed a continued but slow improvement in the railway freight congestion situation. The report of the American railway association's car service commission showed a reduction in the number of cars tied up from 200,000 on April 24 to less than 170,000.

## EASTERN GROUP RAILWAYS REQUEST RATE CLAIMS

WASHINGTON, D. C. (AP)—Requests of railroads of the eastern group for increased freight rates again were before the interstate commerce commission today. Arguments in their behalf were to be presented by G. M. Scriber, vice president of the Baltimore and Ohio, and Samuel Rea, of the Pennsylvania system.

An expression of opinion by Daniel Willard, president of the Baltimore & Ohio, that the amount that would be involved in the leveling of rates asked for would not cause an increase in the cost of living, but rather would aid in combating it, through the prompt and speedy transportation of goods now held off the market because of lack of shipping facilities, was one of the statements made yesterday that attracted considerable attention.

## FILE PROTEST AGAINST YELLOWSTONE PROJECT

### Eastern Organizations Object to Plans for Relieving Idaho and Wyoming

WASHINGTON (AP)—Protest against irrigation projects in the Falls River basin, Yellowstone park, to relieve the drought conditions in Idaho and Wyoming, was made today before the senate committee by officers of various national organizations on the ground that it would mean opening all national parks to commercial exploitation. Organizations protesting included the American Society of Landscape Artists, the National Audubon society, the National Parks Association, the American Museum of Natural History and the Camp Fire Club of America.

## NAVY DEPARTMENT LETS FUEL OIL CONTRACTS

### Prices Average More Than 150 Per Cent Higher, Demand Good Grade Specifications

WASHINGTON (AP)—Contracts covering 5,200,000 barrels of fuel oil for Atlantic and Gulf coast delivery for the navy have been awarded at prices that average more than 150 per cent above contracts for this year denominated in qualified grade specifications, the department announced today.

Cochran, Harper & Co. of Boston were awarded a contract for three million barrels of Mexican oil at \$2.24 for delivery at New England points.

The Standard Oil company of New Jersey was awarded a contract for 4,000,000 barrels at \$2.25, the company 800,000 barrels, with delivery at Atlantic ports based on \$2.35 at Port Arthur, Texas. Fuel supplied under these contracts will be Mexican oil, Mexican oil and light American distillate.

## GOLD PRODUCTION MENACE

### Mining Company Executive Testifies on Strife of Industry

WASHINGTON, (AP)—Gold production in this country, already greatly increased, will continue to increase, according to testimony before the speedy financial relief is given the mining companies, H. W. Seaman of Chicago, president of the Trojan Mining company, testified today before the house ways and means committee. Every ounce of gold now produced costs the companies \$8 to \$10 more than the government price of \$20.67, he said.

Immediate passage by congress of a bill levying an excise tax of \$10 a ounce on the gold used in jewelry and other trades with the money so raised to be a subsidy for the miners, was urged by Mr. Seaman.

## LILY WHITE FACTION IN CONTROL OF TEXAS SESSIONS

AKRON, O. (AP)—Rev. James M. Hanley, the fighting chaplain of the 6888th central Postal Directory, died here this morning of pneumonia after a week's illness.

## CITY'S MILK SUPPLY IS BEING IMPROVED

### Dairymen Giving Earnest Cooperation with Inspectors in Remedying Defects

That dairymen, supplying Twin Falls residents with milk, are giving hearty cooperation in remedying the requirements of the city's health department of a report made last night by Mayor W. H. Edwards. The mayor made the statement at a meeting held at the office of Milk Inspector Hoag, who recently took up the work of regulating the quality of the city's milk supply.

Mayor Edwards explained that the work of inspection is being carried out along educational lines rather than those of drastic law enforcement, and that dairymen quickly learned that the ordinance is devised for their own help and protection as well as for the protection of the consumers. The city chemist E. R. Dooley, during the milk discussion, advised the council that the greatest trouble he had found in the city's milk was due to souring and conglomeration. He explained that this defect has been due to loose sterilization, measures in the matter of piping for containers such as cans and bottles. He said the defect is rapidly being remedied through the installation of steam sterilization methods where these are required.

## JURY IS IMPANELED FOR RAMSEYER TRIAL

### Defense and Prosecution Decide upon 12 Men to Hear Evidence in Murder Case

Concluding an entire day of examination yesterday in a jury room, the morning completed to hear evidence in the state's case against H. F. Ramseyer, accused of the murder of J. R. Abel. The jury is composed of the following: D. E. Clark, J. M. Steep, A. R. Scott, P. H. Weller, T. J. Irwin, W. O. Kearby, S. P. Yantis, J. F. Denny, A. J. Wilcox, H. Gill, A. A. Gillette, A. M. Barnette.

## WHILE EXTRAINING MITT MIXERS TO DISPLAY PROWESS

### Contests start on Friday's Card will do Their Conditioning at Laving Area

Bag punching, shadow boxing, rope skipping and title with the gloves will be featured at the Laving training camp during every afternoon up to Friday night, when the exhibition matches will be put on by boxers who are training for the coming Friday night show of the Twin Falls Athletic club.

All of the contestants in the city and this afternoon started conditioning for the big bouts on the weekend card. First and foremost of these are Al Nelson, Frank and Frankie Reagan of Pueblo. The others are Fighting Rae Rose of Boise, and Tom Norris of Butte.

This is an array of talent of unusual merit, especially for this section of the country. Every man has heretofore displayed his wares before the Twin Falls fight fan public, and each share in favoritism.

While the Nelson-Reagan battle is scheduled as the "steak and eggs" and is awaited with keen anticipation by fans who love mixing mixed with fist art, the real interest centers in what Nelson and Norris will do to each other. Both of these boys are fighting fiends, and each is after the decision. They are featherweights, but men of battling spirit. Norris has a startling record back of him, while Rose has shown that "Fighting Dick" Hyland never had anything on him in the matter of persistent attack and willingness to meet the foe foot to foot. There will be a curtain raiser of merit, but the participants have not yet been announced.

E. E. Bohler, a Twin Falls expert, will referee the bouts, but decisions will remain with the city's sport paragraphers.

## CITY TO CLING TO SPRINKLERS FOR THIS YEAR

### Outsiders Will Not Be Able to Buy Old Equipment—Town Needs the Service

Chances are the city of Twin Falls will not be able to accommodate corporations and municipalities seeking to dispose of old street sprinkler equipment during the present year. The city itself needs all the sprinklers and flushers it can muster for command.

Appearing before a "no-quorum" council Monday night City Engineer E. V. Berg made a statement of needs that put a quietus upon the disposition to sell old sprinkler equipment to the town of Eden and to the county fair board. A week ago the city had made official appeal for two of the horse-drawn water wagons, and plans were at that time almost perfected for the sale of the machines. Last night Mr. Berg explained that all the equipment is in service working double shift and that there is little chance for disposing any of the apparatus this season.

It appears that with the streets and avenues forming up for paving the master motor flusher finds a lot of trouble getting over the territory, while the lighter cars have no difficulty. The motor flusher is being operated two shifts of 40 hours each at present, while the five horse-drawn sprinklers are run for at least 10 hours during the 24 of the day. This plan of operation will be continued throughout the season, or until there is no further need for the extra apparatus.

A STALKING HORSE: The political situation in North Dakota at the present time affords abundant proof in support of the contention of The News that the vaunted program of the Non-partisan league is not a bona fide declaration of principles...

The league program sets forth certain propositions as the goal of the ostensible league movement. The News is quite ready to concede that the most radical of these propositions is as fully entitled to place as a political issue as is for instance, the tariff question...

The league has been in complete control of the government of North Dakota for nearly two years now. Certainly, if it had made an honest effort to carry out the provisions of its published program, it might still expect a measure of opposition; but in pursuance of such policy it could not have been brought to face a situation where a rival candidate for the Republican nomination for governor—the league operates under the Republican banner in North Dakota—is making his fight on a platform declaring for each and every one of the proposals of the league program...

This is the situation as it exists today in North Dakota.

The league program declares for state owned packing plant, terminal elevators, flour mills and sugar factories. The league's Republican rivals in North Dakota advocate the same things, with "the placing of the control of state elevators and mills already established by a vote of the people in the hands of non-political experts" and limitation of the use of state funds for construction purposes to approximately \$2,000,000 "as long as such business remains in the experimental stage."

The league program declares for rural credit banks operated at cost. The league's Republican rivals in North Dakota advocate amendment to the law establishing the Bank of North Dakota "so that the bank may become a farm loan bank and furnish first mortgage farm loans, at a minimum interest rate to the farmers, and that the same may be placed under strict regulation and examination by at least two elective departments of the state."

The league program declares for the taxation of all property on an equitable basis. The league's Republican rivals in North Dakota charge the league legislators with having "passed tax laws imposing far greater burdens on some classes of individuals and property than upon others. The proportion of taxation borne by the farms in comparison with that borne by other classes of property has been largely increased, and moneys and credits to the amount of millions of dollars have been exempted from bearing their share of the burden. We call attention to the fact that no excuse or explanation for such tax laws can be found except that they are a step toward confiscating of farm lands with the purpose of practically abolishing private ownership, in conformity to socialistic principles."

The league program declares for a workable initiative, referendum and recall. The league's Republican rivals in North Dakota "condemn the governor for refusing to allow the people of the state to exercise their rights to initiative measures as provided by the constitution, and favor the enactment of

Heleneus was one of the names of the inhabitants of ancient Greece, and the word Heleneus meant one who affected Greek manners, especially a person of Jewish extraction who used the Greek language as his mother tongue, as did the Jews of Asia Minor, Greece, Syria and elsewhere. Many of the Jews scattered through the provinces of Asia Minor during the first century of the Christian era were Heleneus.

This Hustling Age. Of course we are all the creatures of our age. The luxuries of yesterday become the needs of today. If we were suddenly transported into the days of our grandfathers, we would find the manner of life unbearable. They traveled by stage or on foot, and arrived in time. Today the fastest express trains scarcely meet our needs, and we are continually seeking for faster means of transportation and communication.

Origin of the Word Canada. The word Canada is derived from the Huron-Iroquois Indian word "Kanata," meaning a collection of huts. In Jacques Cartier's time the territory on the north side of the St. Lawrence river, from Hochelaga, now a suburb of Montreal, to the gulf, was apparently divided into three districts—Hochelaga, Canada and the Sagouay. It is here for the first time we meet the name now borne by the Dominion.

Periodic Bilious Attacks. Persons afflicted with bilious attacks at regular intervals know when to expect an attack. They find that they have no desire for food when an attack is due, but usually eat because it's meal time. Slip one meal and take three Chamberlain's Tablets and you may be able to avoid the attack. Persons subject to periodic bilious attacks should not drink tea or coffee at any time.—adv.

Secretary Baker Dedicates Arlington Amphitheatre to Men who Fought for Nation

Secretary of War Newton D. Baker, addressing the huge throng that crowded the vast enclosure of the Arlington Amphitheatre, Washington, D. C., on the occasion of the dedication of the memorial to the men who fought for the United States. President Wilson was to have made the address.

such laws as shall restore the functions now exercised by the chief executive of this state to the officials to whom they rightfully belong.

Truly, the issue presented in the North Dakota primary elections this year bespeak a situation that argues precious little for the ability or desire of the Townley league to fulfill its heretofore pledges.

Least there be misunderstanding on this score, it ought to be taken into consideration that the Republican candidate opposing the league's selection for the gubernatorial nomination is one William Langer, a member of the league now serving as attorney general of the state; and, furthermore, that under the terms of a law passed by the last North Dakota legislature, Langer or any other state official making false statements as with respect to the state government is subject to penalty of both fine and imprisonment.

It may very well be that a considerable number of Idaho electors would choose to adopt the published program of the league for this state; but so long as the North Dakota dictatorship remains in control of the league its program cannot be accepted at its face value in Idaho or anywhere else.

Writes to Beethoven. A letter addressed to the composer Beethoven was received in Vienna the other day from a woman in the province. She wrote she had recently heard some of his music and was anxious to place her daughter under his tuition. The postal authorities delivered the letter at the house in which Beethoven lived and where he died 92 years ago. The conductor said no such man resided there, so the postman sent it to the dead letter office.

Heleneus. Heleneus was one of the names of the inhabitants of ancient Greece, and the word Heleneus meant one who affected Greek manners, especially a person of Jewish extraction who used the Greek language as his mother tongue, as did the Jews of Asia Minor, Greece, Syria and elsewhere. Many of the Jews scattered through the provinces of Asia Minor during the first century of the Christian era were Heleneus.

This Hustling Age. Of course we are all the creatures of our age. The luxuries of yesterday become the needs of today. If we were suddenly transported into the days of our grandfathers, we would find the manner of life unbearable. They traveled by stage or on foot, and arrived in time. Today the fastest express trains scarcely meet our needs, and we are continually seeking for faster means of transportation and communication.

Origin of the Word Canada. The word Canada is derived from the Huron-Iroquois Indian word "Kanata," meaning a collection of huts. In Jacques Cartier's time the territory on the north side of the St. Lawrence river, from Hochelaga, now a suburb of Montreal, to the gulf, was apparently divided into three districts—Hochelaga, Canada and the Sagouay. It is here for the first time we meet the name now borne by the Dominion.

PORKY PIG'S SURPRISE.

"Two a great surprise for you," said Porky Pig.

"What is the surprise?" asked Brother Bacon. "What kind of food?"

"How do you know it is food?" asked Porky Pig.

"Your voice is so happy," said Brother Bacon. "That's an easy question to answer."

"Yes, anyone could tell it was food you were talking about," said Miss Ham.

"Anyone at all," said Sammy Sausage.

"Without a doubt," agreed Mrs. Pink Pig.

"Grunt, grunt, that is right," said Pinky Pig.

"Squeal, squeal, it is most certainly right," said Myster Pig.

"Tell us," said Brother Bacon. "Where have you got this food?"

Porky Pig laughed, a loud and grunting sort of laugh. He put his hand on his fat tummy and still he laughed.

"You'll split your sides laughing," said Miss Ham.

"Nonsense," said Porky. "No one ever really did such a thing."

"There might be a first time," squealed Miss Ham.

"Porky Pig Laughed."

"How careful you are," squealed Porky.

"And," he added, "you're much too personable."

"What does that mean?" asked Miss Ham.

"You shouldn't speak of your neighbors and friends in such a way, or speak to them in such a way. When you say to a lady that her hair isn't pretty that's making a personal remark."

"Or," continued Porky, "if you told a gentleman his side whiskers were very queer that would be personal, or if you asked a small boy how he got so many freckles that, too, would be personal."

"At least I'm pretty sure of it," Porky finished.

"Well," said Miss Ham, "I wouldn't speak to a lady in such a way as I don't bother about ladies. They eat too daintily to suit me. And I wouldn't bother about their hair, whether it was pretty or not, or about a gentleman's whiskers or a boy's freckles."

a pretty good joke. I said nothing of the kind—that is, about your being fat. Of course, I may have thought it! But you felt guilty. Oh, Porky Pig, you did! The shoe fit you and you put it on."

"I haven't put any shoe on," grunted Porky. "And I've seen none to fit me and what is more I've not tried to see them. I've never taken them off people who've come around me."

"That's but a saying," Porky said. "Miss Ham," meaning that when a creature is guilty and sees himself in what is said or what he thinks another thinks, he fits that case."

"Absurd," said Porky. "But," squealed all the other pigs. "Porky had a surprise for us. Where is it, Porky?" they all asked.

"In my tummy," grinned Porky. "What?"

"Of course."

"But you sounded happy."

"I was."

"Oh, we see now," they said. "We see only too well what you mean."

"It was a surprise to me—I found food I didn't expect to find," said Porky. "and I thought I would tell you about it. Of course I made sure first to eat it."

"Well, aren't you the big pig!" said Miss Ham.

"I am," said Porky, squealing proudly. "I'm a big pig and I'm proud of it. So would you have been if you had been surprised by food."

"It was a mean trick," said Brother Bacon, "but I guess all of us would have done the same."

"That's so," said Sammy Sausage. "Perfectly, absolutely true," said all of the others.

"I would never disgrace the family name of Pig," ended Porky.

Grandmother Was Needed. Little Alice looked thoughtfully at a splinter friend of her mother's who had just requested Alice to call her "Auntie." Said Alice: "But you know I have plenty of aunts and lots of uncles. I am short on grandmothers. Couldn't you be a grandmother to me?"

City Dwellers Flat Footed. Defects of vision and flat feet were found more among city dwellers than those in the country, by army physicians examining those entering the service during the war.

WHEN ALL ADVERTISERS demand

their money's worth, all publications will provide circulation reports verified by the Audit Bureau of Circulations.

It is one of the mysteries of the advertising world that while all manufacturers demand verification of weight and quality in the material purchased, some of them still buy advertising space without knowing what they are paying for.

Such advertisers, however, are now exceptional. Most of them demand verified A. B. C. circulation statements before placing contracts.

In the case of the NEWS, the demand is immediately met. The News is a member of the Audit Bureau of Circulations.

MRS HARRIS HAS 30 POUND GAIN

Was so Run Down Could Hardly Get About—Is Well and Strong Now

"I have not only gained thirty pounds in weight, but I am enjoying so much better health than I have in years. I feel just like a new creature," said Mrs. Rosa Harris, 444 Twenty-sixth Ave., North Seattle, Wash., recently. Continuing she said: "For the three years past I suffered so much from stomach trouble and had become so badly run down, that I had given up hope of ever getting any better. My appetite was extremely poor, and I had to force down my food. I was so fatigued and most of the time I could not get to my feet, and I would have such intense cramping pains in my stomach they would nearly kill me. I was also being constipated and had to take some sort of laxative almost every day. My kidneys bothered me a great deal and I suffered with pain across the small of my back. In fact, had pains all through my body nearly all the time. My head ached and had nearly all the time I thought it would burst wide open and at times I would become so dizzy I would have to grab hold of something to keep from falling, and I would feel just like I was going to faint and black spots would dance before my eyes. This was very nervous the least little thing would upset me, and at night I was so restless I could get but little sleep as I would roll and toss from side to side and to the other all night long, and in the morning I would feel so tired and exhausted it was all I could do to get out of bed. I lost my weight rapidly, and because so weak I could not do any housework, it being all I could do to get about at all."

"I had seen so much about the good Tanlac was doing others, and had heard many of my friends had praised it so highly I decided to try it. Well, as I had given up all hope of ever finding anything that would help me, you can imagine my surprise when I began to get better as soon as I had taken only a few doses of Tanlac. My appetite improved until it was soon better than it had ever been, and I was able to do my housework, it being all I could do to get about at all. # DANCE QUESTION COMES UP AGAIN

Mayor's Right to Go Over City Boundary to Enforce Ordinance Presented

Last night's session of the city legislative body, though not official, was nevertheless, filled with action and interesting matter.

The session was more or less one of problems to be solved and since it was quite appropriate to give consideration to these problems, even in the face of a "no quorum" situation, the members of the board present attacked the questions with vim that brought about solution in many instances.

There were two problems of importance, however, that went undetermined, at least for the time being. Both pertained to dance halls and pavilions, the administration deeming it prudent to avoid the issues in favor of legal procedure.

**Powers Defined.**

One question pertained to the powers vested in the city mayor outside the limits of the city as in violation of city ordinances and restrictions. It was shown that the mayor possesses the authority to enforce a health ordinance and that he can invoke city laws in other respects within a half mile of the boundaries of the town.

What Mayor W. H. Eldridge will do in the matter of employing his official prerogative against the operation of an open air dance pavilion, now being constructed by C. D. Lyon, in Hook Creek canyon near the highway crusher plant, is a question that will probably only be determined as time proceeds and necessary requires. Information that Mr. Lyon is at present erecting a pavilion a couple of hundred feet over the city line was presented to the mayor last night.

**Here's Another One.**

The other dance hall problem was presented by a young man whose parent desired to erect same property on the west side which, he explained, "isn't working." The young man explained that he had a permit for an open air dance hall prohibition law with respect to how little enforcement would be required to conform with the demands of municipal law. The petitioner was instructed to seek the advice of a legal counselor.

# STREET LINES TO BE DECIDED IN LAW COURT

Boundaries of the Washington Thoroughfare Can Only Be Determined Judicially

Only a law suit can determine the status of street boundaries along Washington avenue, in the western section, according to expert opinion provided by the city's legal adviser last night.

The street lines, on both sides of the thoroughfare, in the western section, a number of years ago and have created a difficult problem for both abutting property owners and the city of Twin Falls. The present municipal board to pave in that direction has brought the question to a head which may lead to court action.

It is recalled that when the original townsite was laid out the surveyed line which later became known as Washington street failed to agree with the government survey. The fact of the matter proved the government survey to be wrong and the new survey was accepted as the established line.

Citizens who had established residences along the government line, however, declined to move their homes to conform with the new line, which leaves them in the middle, or near the middle of the surveyed street. Property owners on the other side took advantage of the new line survey, and as a consequence almost the entire street is taken up with residences in places.

Of the first settlers in the district is Alex White, a pioneer who clings to the theory that use of the old roads as a custom established it as a regular road, and he declines to move back. In addition he wants the street paved, and as a matter of fact is regularly assessed on the city's tax rolls for such improvement.

The matter must be judicially decided before any definite action can be taken by the city administration.

**CASE UP THIS EVENING.**

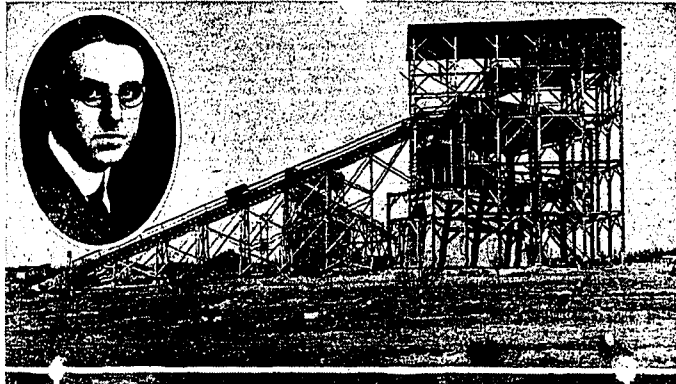

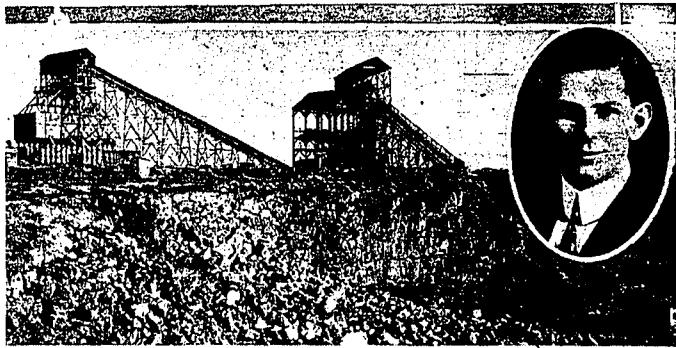

Trial of a municipal case against the management of Skaggs' Grocery, on charge of violating the city meat inspection ordinance, has been called for the police court at 6 o'clock this evening. The complaining witness in the case is Dr. W. A. Faloon, city meat and milk inspector, who charges the importation of uninspected meat. The store management declares the supplies were shipped by mistake, and expects to be able to prove this to be the case when the trial is held. The meat was shipped from Postville, it is claimed.

# TWIN FALLS' MONSTER ROCK CRUSHER HAS NO CAPACITY EQUAL HEREABOUTS

Picture is a representation of two scenes at the Twin Falls Highway district crusher plant. Upper shows the breaker and tramline running to the floor of the quarry. The inset is W. L. Johnson, chief engineer of the highway district.

Lower is a "close-up" of the plant showing tram cars, or skips, on the skipway. The inset is Stuart H. Taylor, secretary of the Twin Falls Highway district.

The plant started Monday of this week on a long day shift, operations beginning at 4 o'clock a. m. and continuing to 8 p. m. The plant has successfully solved for this immediate district the problem of securing material for concrete building purposes, both for structures and highway. It also provides a sharp sand much in demand for mortar and fine concrete. This institution will be required to supply crushed aggregate for the

paving of 54 miles of highway, and 274,000 square yards of paving for the city of Twin Falls, as well as for minor concrete structures and buildings in this vicinity. The crushed rock it produces is said to be ideal for road-building purposes. The fine material in one-quarter inch is admirably adapted to take the place of any sand or concrete plastering or other building purposes.

# Alderman Finds Many Bad Holes in Line of Walk

C. S. McMartin Reports Dangerous Condition Along Side of Building Site

During an informal discussion of city matters in general, conducted by Mayor W. H. Eldridge, C. B. Chano and C. S. McMartin around the regular deliberation altar of the town administration last night, Alderman McMartin asked the next item question: "Is the Elks lodge higher and higher than the law of the city?"

Mr. McMartin, it appeared later, had traversed that portion of the sidewalk along second avenue north from Shoshone street to the alley and had discovered numerous holes of considerable size. The alderman asked why the fraternal society was not required to maintain a safe walk around its work, at least to keep the holes covered.

Explanation was given that the contractor in charge of the work expects soon to start active construction operations.

# SATURDAY'S FIRE MAKES PROBLEM FOR COUNCILLORS

Unfortunate Owners Demand that City Employ Guards for Damaged Property

Last Saturday morning's blaze, which destroyed valuable buildings and store stocks on Main avenue, has brought up some problems which the city administration has been called upon to consider. One of these was presented yesterday, and involves the question of the municipality's obligation to hire and pay watchmen to protect private property.

The problem was presented by one of the burned building owners, together with an owner of a damaged stock

Mayor Eldridge received the petition, which he told his associates on the council last night, developed into a demand. It appears that the two unfortunate business men requested that the city assume the responsibility of employing an official watchman to guard the burned buildings and damaged stocks at municipal expense. Mayor Eldridge declined to place this burden upon the city and was sustained in his attitude by the aldermen present for deliberative session last night.

More than one out of ten cases of rheumatism are either chronic or muscular rheumatism, neither of which require any internal treatment. All that is required is to massage the affected parts freely with Chamberlain's Liniment. You will be surprised at the relief which it affords.—adv.

# Skypieces Soar When Nocturnal Simon Blusters

In last night's simoon hats were higher. The editor of this publication, the editor of the News learned that by bitter experience. Will the fluder please return it so that the editor may pay back the one he has borrowed?

A sudden rise in yesterday's temperature is said to be the cause of the simoon. Top was 72. But the weather man's prediction of frost did not come to pass. Low last night was 32.

Young plants and shoots should, however, be tenderly cared for tonight as light to heavy frost is promised. Tonight and Wednesday fair.

# Company's Claim For Damages May Not Reach Court

E. F. Walton Suggests Compromise of Suit Against the City for Water Harm

The claim of the Elite Millinery against the city of Twin Falls for alleged damage to property and stock through broken water mains, may yet be settled without recourse to the courts. E. F. Walton, manager, has appealed to the city administration for consideration of settlement.

The appeal was submitted in a typed statement for the city council's consideration last night. No definite action was taken, since the board lacked an official quorum, but the statement of damage was referred to a committee for checking. In case no settlement results are brought about the question of just amount to settle the claim will be determined in court.

Although settlement out of court has been requested by Mr. Walton there is still a wide difference between the amount demanded by the milliner and that considered equitable by the members of the city board and Judge J. E. Davies, municipal lawyer. The original claim was for \$3000. The city sticks to a \$1000 compromise.

# VOLUNTEERS ARE TO BE PAID FULL WAGE

Men who Assisted in Fire Fighting Will Receive City Warrants for Services

Regular wages will be paid all who gave volunteer service during the period of fire fighting last Saturday morning.

This is a decision recorded by members of the city council last night following a highly commendatory discussion of the proficient and valuable work done by those men who lent their aid to the regular fire-fighters in the aid to the streets. The discussion was led by Mayor Eldridge who highly praised the department under Chief W. R. Worrell, as well as the volunteers.

**ANDERSON PAYS FINE.**

In the police court this morning, Magistrate W. A. Minnick presiding, E. W. Anderson was arraigned on charge of having driven an automobile over a line of fire hose, employed in directing a stream of water against the Smith-Rice building blaze last Saturday morning. Anderson entered a plea of guilty and was fined \$20. The assessment was paid.

AN ARTCRAFT SPECIAL

FRANK LANNING and LEWIS SARGENT from "HUCKLEBERRY FINN" A NEW MARK TWAIN PARAMOUNT ARTCRAFT PICTURE

All you have ever loved, or "crused," in a boy! And a lot about men and women! As only Mark Twain himself could see it and set it down.

The tale of a lad who "fled from civilization," boarded a raft on the Mississippi, floated down, down, adventuring—with a "King" and a "Duke" and Old Black Jim.

The tale that will live as long as the world can smile, and men can remember youth. Made into a picture in the truest sense great.
