

AMERICANS AID IN EVACUATION OF CITY OF KIEV

Turn Automobiles Over to Polish Staff for Feeding Refugees, Aiding Wounded Soldiers and Burying Dead

WARSAW, (AP)—Americans took a prominent part in the evacuation of Kiev. They turned their automobiles over to the Polish staff for use in feeding refugees, aiding wounded soldiers and burying dead where there had been fights with Bolshevik raiding parties. The Americans, among whom was John Gregg of Portland, Oregon, of the American Relief association, arrived in Warsaw Wednesday after six days and nights in captured Bolshevik box cars. When they departed from Kiev on June 10 the Bolsheviks were shelling the city and aviators were dropping bombs.

Utilities Out of Commission. Kiev's water works went out of commission and the electric and gas plants stopped working. The city's population was in a terrible state of confusion and thousands were prevented from leaving by lack of transportation.

Two American automobiles filled with Polish staff officers headed the procession when the evacuation of Kiev began. They were loaned by representatives of the American Relief association and the American railroad union to Poland. A representative railroad commission estimated today that a procession of vehicles of all kinds was strung along the highways for a distance of 25 miles.

Bride Accompanies Commander.

Near the rear were an officer and a woman on horseback followed by a detachment of soldiers. The officer was General Rydzimigly, the Polish commander at Kiev, who was accompanied by his bride of six weeks. She accompanied the general when Kiev slipped from the hands of the Bolsheviks. General Rydzimigly, who had made all plans to defend Kiev from every side, was the very last to leave the city.

Nine trains departed to the northwest on the main line. The trains were conveyed by armored trains ahead and also in the rear.

Travel necessarily was slow, keeping pace with the infantry. Frequently the armored trains and infantry literally fought their way out when attacked by raiding parties.

For three nights before they reached the safety zone the trains were stopped with the coming of darkness.

Capture Browning Guns.

At daybreak the enemy moved again being delayed several times from six to ten hours while the Poles fought off the Bolsheviks or repaired the railroad. The Americans reported that the Poles captured several Browning machine guns from the enemy, captured Bolsheviks explaining that the machine guns had been taken from the forces of Admiral Kolchak. The Bolsheviks had plenty of ammunition in the fighting north and northwest of Kiev. Captured killed and wounded Bolsheviks included many Chinese and Tartars, and also black skinned men.

Many Poles remained in Kiev as it was impossible to evacuate them. The

Americans heard the evacuation order while at dinner in the Continental hotel. The orchestra was playing and some few of them were wearing clothes.

Again in Bolshevik Grasp.

The evacuation started in the morning and was completed in the afternoon when General Rydzimigly and his bride passed through the city gate on the road leading westward and through which his victorious army had passed a little less than five weeks ago.

Kiev and her war time population of about 300,000—and her church domes topped with gold which has not been touched by any of the numerous forces of occupation—were again with the grasp of the Bolsheviks.

JAPAN'S TRADE BALANCE IS "VERY UNFAVORABLE"

General Financial and Industrial Depression Gives No Indication of Improvement

WASHINGTON, (AP)—Japan's balance of trade for the first ten days of June was "very unfavorable" and the general financial and industrial depression showed no sign of improvement, said a dispatch today to the department of commerce from its representative at Tokyo. The Mogi bank at Yokohama which was forced to suspend on May 24, failed to open last Tuesday. The dispatch added that this indicated continued uncertainty in the silk market and the failure of the banks and silk merchants and manufacturers to reach an agreement as to the security value of silk.

LEAGUE FOMENTS BECAUSE OUTLAWS LINE WITH TEAM

Disruption of Southern Ball Circuit Threatened Through Season and Smith

ATLANTA, Ga., (AP)—Managements of the Atlanta, Mobile and Chattanooga clubs of the Southern association, announced yesterday that no further games would be played with Little Rock as long as Casey Smith and Tom Seaton, formerly of the San Francisco team, Pacific Coast league, appeared in the Little Rock lineup. The two players were signed by Little Rock after their release by San Francisco on charges of alleged unprofessional conduct.

Manager Elberfeld declared he intended to use Smith as pitcher in today's scheduled game with Atlanta. "The charge against Smith and Seaton is all hearsay evidence," Elberfeld said. "In justice to these players the charges should be investigated thoroughly."

BIRMINGHAM, Ala., (AP)—A special meeting of the board of directors of the Birmingham club has been called to consider the Smith case.

JAPANESE STILL RESTRICTED IN MATRIMONIAL SELECTIONS

TOKIO, (AP)—The Japanese are not yet legally able to marry Formosans or Koreans. A law was enacted covering all the Japanese, Formosans and Koreans but has not yet been carried into effect. The press considers that following the examples set by the marriage of Prince Yi, of Korea, to Princess Nashimoto of Japan, all discriminations should be abolished.

TOMORROW "JAY BEE" CLARK STORE No. 5 Opens at 243 Main Avenue West

Twin Falls has been chosen as the home of "Jay Bee" Clark's 5th automobile accessory store, thus adding another powerful link to the chain that "Jay Bee" has forged to shackle old "Hi-Cost" and reduce automobile owners' car maintenance expenses twice to forty per cent.

The policy of this new "Jay Bee" Clark Store No. 5 will be the same as maintained throughout the other Jay Bee stores in Salt Lake City, Ogden, Logan and Provo, Utah, which means "satisfaction or money back" to every customer.

Every "Jay Bee" store handles standard goods and sells them for less on account of the immense purchasing power of five stores. "Jay Bee" eliminates the jobber, the traveling salesman, the broker and local dealer profit, by direct representation of manufacturers. When you buy from "Jay Bee" you pay only one profit instead of four.

"Jay Bee" Clark will be here personally to supervise the formal opening of the new "Jay Bee" Clark store No. 5 at 243 Main Avenue West tomorrow.

OUR AIM

We aim to sell you standard goods at cut prices. We buy in large quantities from the manufacturer, thereby eliminating the jobbers and brokers' profits. This gives us a quick turnover of our stock so that you are always sure of good fresh merchandise, right up to the minute and at important savings.

OUR SERVICE

We have what you want or can get it. Drop in and look over the wonderful array of goods we have assembled here for your service.

OUR POLICY

Satisfaction or your money back is the policy of all "Jay Bee" Clark stores. We don't want to keep your money if you are not entirely satisfied. Every "Jay Bee" customer is a "Jay Bee" booster. That is why we are so rapidly growing.

LAND QUESTION TROUBLE CAUSE IN WEST ERIN

**Sinn Fein Seeks to Control the
Agrarian Movement to Pre-
vent it Getting Out of Hand;
Ban Put on Sale**

DUBLIN, (AP)—In several of the western counties of Ireland, disturbances are now more agrarian than political. The Sinn Fein seeks to control the land movement and prevent it getting out of hand. It has been decided that nobody shall be attacked or his cattle driven to make him sell part of his land unless he possesses more than 50 acres. This is a very exceptional amount for any tenant to hold so that the agitation in future will be directed solely against landlords and ranchers. Proclamations have been issued in the disturbed counties in the name of their parliamentary representatives forbidding claimants to land to act in the name of the republic. They point out that many of the claims which have been made are without foundation, and only serve to create ill feeling between those who ought to be friends and comrades, which is another way of saying that even good Sinn Feiners are being squeezed.

Courts Settle Claims.
Machinery is set up for the arbitration of claims, which in future are to be sent to the registrars of district courts set up under the authority of the Dail Eireann. Courts on these lines, though without the formal authority of the Dail Eireann, have for some time been functioning in Galway and other counties. Their decisions have not infrequently been in favor of the owner of the land against the claimants. In some cases such decisions were defied. Thereupon the registrars parties were promptly placed under arrest and conveyed by Sinn Feiners to unknown destinations. Such arrests by Sinn Feiners, in pursuance of a policy of endeavoring to maintain public order in property and social matters, are not uncommon. Nobody knows where the prisoners are or what happens to them, but the arrests tend to strengthen popular dependence on Sinn Fein power.

The application of martial law which is so often talked of is a simple matter. Under the defense of the realm act, still in force, it can be applied to any extent anywhere in Ireland. Its general application to the whole country in all its completeness, I believe, not contemplated. But nearly all districts have had it partially applied in some form, and some districts have had it fully applied. At the moment it is only in partial application anywhere.

Curfew Law a Factor.
In Dublin it is manifested principally in the curfew law which has had but little effect on the life of the city. But its drastic application in certain districts is a possibility of the immediate future. When applied to a couple of years ago in Clare it reduced the whole area to an apparent quiet, and disturbance only became possible after its removal. All activity was dependent on the permission of the military commander, and the whole business of buying and selling at fairs and markets was controlled, and in some cases entirely stopped. Any fresh application of martial law is likely to be of this kind, and to be confined to particular areas.

**TEXAS LAWMAKERS COMMENT
MEXICAN PROVISIONAL RULE**
AUSTIN, Texas, (AP)—A resolution by State Senators Strickland and Dudley, both from Mexican border districts, commending the provisional government of Mexico "for its effort to establish a stable government," and the manifested desire to protect the lives and property of foreigners within its borders," was adopted by the Texas senate Thursday.

The resolutions declared the Texas lawmaking body "indulges in the hope" that the citizens of both countries along the border will feel toward each other as neighbors should.

**MAJOR GORGAS' CONDITION
MORE RELIEF THAN ADMITTED**
LONDON, (AP)—The condition of Major William M. Gorgas, former surgeon general of the United States army, is much more serious than his friends heretofore have been willing to admit, it was learned here today.

It is reported that three or four days ago hope for the general's recovery was abandoned but he rallied. While there has been some improvement, however, he is still dangerously ill.

Denies War's Purpose to Make End of Wars

LONDON, (AP)—What was called a "straight talk" was given at the annual meeting of the Union Jack club by Field Marshal Sir Henry Wilson, who described himself as "an old soldier who knows what he is talking about."

"We have been told," he said, "that we went into the war to end war. We did not. We went into it to save our skins. We were told that after the war we would have peace but we have not got it. There are at present between 20 and 30 wars, big and little, going on. We were told that the war would end but it did not and could not."

"We are living in wicked and dangerous times, and our command on us, on land, and in the air is being challenged in various parts of the world."

NEW PREMIER OF ITALY DEFENDS PRE-WAR POLICY

**Giolitti Points Out Influence
Used to Keep Nation in the
Neutral Position**

ROME, (AP)—Giovanni Giolitti, the new Italian premier, in a talk with the Havas correspondent here justified the foreign policy of Italy before the war, and pointed out that his influence was thrown at the outbreak of the war toward keeping Italy, then a member of the triple alliance, in a position of neutrality.

The new premier assured the correspondent of Italy's strong friendship for France. Premier Giolitti declared that the triple alliance treaty was renewed in 1913 with the retention of the provision that one power was bound to support another only if the latter were attacked. The treaty was not altered in a single respect upon its renewal, he declared.

In closing the interview the premier alluded to the difficulties of the situation, and added:

"You must understand that I have taken up a heavy burden. I will do my best."

OUTLINES PROGRAM OF NEW PARTY IN FRANCE

**Remnants of Radical Organization
and National Bloc Elements Combine**

PARIS, (AP)—A new party recently formed in the chamber of deputies, comprising 200 votes, is one which it is expected any future premier will have to take into account in preserving his majority in the chamber.

The party has been recruited from remnants of the radical party and elements of the national bloc holding seats in the center and right center of the chamber.

The new party is called "the alliance republican-democratic of social action and national reconstruction."

The party's program as outlined by Senator Journef in his speech accepting the presidency of the party includes a declaration against a dictatorship no matter from what quarter it might come; a policy of reconstruction of France by unity and hard work; the substitution of the solidarity of the classes for class hatred, and law and order with abolition of the right to strike except for special reasons.

ORDERS ELIA DEPORTATION

**Post Authorities Expulsion of Allen
Held in Connection with Bomb Plot**

WASHINGTON, (AP)—Robert Elia, one of the aliens held in connection with the bomb plots of June 2, 1919, was ordered deported yesterday by Assistant Secretary Post after representations to the department of justice that deportation was not "the proper remedy."

Elia was arrested with Andrea Salas, who killed himself several weeks ago by jumping from a window in a department of justice office in New York and Mr. Post said he should be tried under criminal laws before his deportation.

Electric Ranges

Clean and Cool

A cool, clean kitchen! What could be more desirable? Always a bright and cheery kitchen with white woodwork, enameled walls, gleaming porcelain sink, and a spotless floor when you use an electric range.

Cool, because an electric range will give you cooking heat by radiation. Clean, because this heat is produced without ashes, without smoke, without soot, or harmful fumes.

Clean kitchen utensils, clean walls and floor, and even clean pure air in the room. In such a kitchen it is a joy to work.

From every standpoint an electric range provides the ideal method of cooking. We will be glad to explain further the economy and helpfulness of an electric range—plan to come in tomorrow.

WASHINGTON, D. C., (AP)—Federal employees who have reached the age of retirement, 70 years, although they have not given the minimum of 15 years service required under the retirement law, must be dropped from the rolls, Attorney General Palmer ruled yesterday. Such employees, he said, cannot draw retirement pensions.

ALAND ISLANDS GLAMORING TO REJOIN SWEDEN

Dissatisfaction Is Expressed
with Peace Conference Rec-
ommendation for Neutraliza-
tion under League of Nations

NEW YORK, (AP)—The natives of the Aland islands which lie between Sweden and Finland, at the mouth of the Gulf of Bothnia, are engaged in a lively agitation for reunion with Sweden, according to the latest news received by representatives of the Swedish government in this country. The population of the island is about 12,000. Formerly they were held by Sweden but they were taken over by Russia 120 years ago. After the world war a delegation from the Aland islands presented to the peace conference a claim for annexation to Finland. A commission was appointed by the conference which recommended that the Archipelago be neutralized under a guarantee of the league of nations.

Apparently this delegation did not faithfully represent the attitude of all the islanders for other Alanders have been agitating for self-determination and permission to join with Sweden since the beginning of the war. The Swedish government has taken up the subject with the powers and has asked the government of Finland to submit the question by referendum to the natives of the Aland islands.

According to a statement drawn up by a Swedish premier, efforts to settle the matter between Sweden and Finland have failed and the Swedish government has appealed to the peace conference in support of the demands of these Alanders. The desire to be annexed to Sweden.

One June 1, a delegation of the county council at Aland, empowered by 95 per cent of the population of the islands, visited Stockholm and was received by King Gustave. This delegation presented the demands of the islanders for their right of self-determination and their intention to reunite with Sweden, declaring that their failure to receive these rights was causing impatience and that they were withheld while being granted to others would cause great apprehension with the Aland population.

The king assured them that Sweden was making all possible efforts to obtain a decision which would be based on the vote of the islands themselves.

Cox Manager Arrives

E. H. Moore, national committeeman from Ohio and manager of the campaign of Governor James M. Cox of that state, arrived with Norman E. Mack, national committeeman from New York.

"Announcement of Wayne B. Wheeler, general counsel of the Anti-Saloon league, that the prohibition forces are going to ask the convention to present a solid front against Governor Cox does not frighten us," Moore said. "Wheeler republican, tried to beat Governor Cox in 1914 and failed to do so."

"Up to the time I left the east, the New York delegation had not decided who they were going to support but we hope to swing them over to Governor Cox."

Wants Dry Law Modified

The New York delegation favors modification of the Volstead act so that each state may decide whether it wants wine and beer, Mack said.

"The poor as well as the rich are entitled to their beer and wine," he said. "They should be permitted to settle the question for themselves."

Some sort of a plank on the Irish question also was favored by the delegation, he said. He announced that the delegation had held no meeting to discuss a candidate and did not expect to do so until it arrived in San Francisco.

expect a wide divergence of view among the members of the party as to the methods by which they are to be followed. It follows, therefore, that if there was to have been unity in the convention, there had to be a large measure of compromise. The compromises on the platform and the candidate are proof that we have not arrived at an era of new political and social tendencies and for this same reason the divergent groups and the attitude of compromise will be found in the democratic convention.

"Nothing could be more disastrous than the development of several party organizations representing the collection of every group in the country. With the legislative and executive functions more widely separated than in any other democracy, the whole process of constructive government will come to an end if we have more than two dominant parties. If we should come to this position, there will be no possibility of an American people securing an expression of the will of the majority and we shall be entirely ruled by log-rolling minorities or sterile political coalitions.

"I am convinced that those of us and I believe they are the majority of the party—who hold more definite views, could not, even were we so inclined, successfully effect the consummation of such views outside the party, and that our duty is to endeavor to bring them to realization within the party organization itself as the issue on which they have arisen. The tendencies of the party will gain their meaning only from actual administration.

"I am convinced that unity of action among liberal thinkers of the party, especially if they exert themselves in the current of congressional elections, will insure the country against legislative reaction.

"If the republican party is not to be irrevocably split I cannot conceive that Senator Harding will for one moment submit the administrative side of the government to the domination of any group or coalition. Furthermore, we have the possibility of having administrative measures and policies determined by full cabinet responsibility and of having cooperation restored with the legislative side of the government. I need not reiterate my conviction that the constructive ability so critically needed for the vigorous business reorganization of the federal government and to meet the many economic issues before us lies in the republican party.

"For all these reasons, I believe that those of us who look upon party organization not from the point of view of partisanship but solely from the point of view of its usefulness as an agency of maximum service to the country, should support the republican party at the polls.

Today's Markets

New York Stock Market

NEW YORK, (AP)—Trading was listless and confusing in the early and middle period of today's stock market session but quickened and strengthened towards the end when shorts rushed to cover. Sales approximated 400,000 shares.

Gains of one to five points in special shares and losses of one to 2 1/2 points in steels, oils and rails dominated the uneven tone of the stock market in the first few minutes of today's trading. Barrett, Endicott, Johnson and American Express represented the construction side with popular equipments and food issues. Republic Steel, Virginia Iron, Royal Dutch and Union Pacific featured the reactionary stocks. Trading was light although early quotations in foreign exchange strengthened the impression of impending gold imports.

On a sudden burst of activity and regardless of former money tendencies, prices mounted to higher levels in the last hour. Some of the oils, motors and shippings registered extreme advances of 3 to 7 points. The closing was strong.

Liberty Bonds

NEW YORK, (AP)—Liberty bonds final prices today were: 3 1/2's \$92.06; first 4's \$85.60; second 4's \$85.55; first 4 1/4's \$85.98; second 4 1/4's \$85.92; third 4 1/4's \$86.18; fourth 4 1/4's \$85.76; Victory 3 3/4's \$95.70; Victory 4 3/4's \$95.78.

Grains and Provisions

CHICAGO, (AP)—Strength developed in the corn market today after a hesitating start. Important commission houses were the chief buyers. The fact that crop reports were less favorable had a good deal to do with stimulating demand. Opening quotations which varied from 1 1/8 to 1 3/8 decline to 1 1/8 advance, with July \$1.70 1/4 to 1.70 3/4 and September \$1.67 1/4 to 1.67 3/4, were followed by a rise all around to well above yesterday's final.

Subsequently, with shippers and industries competing, the market continued to advance. Country offerings were not large. The close was strong, 1 3/4 to 2 3/8 net higher, with July \$1.70 1/8

to 1.70 1/8 and September \$1.69 1/8 to 1.69 3/4.

Oats paralleled the action of corn. After opening 1 1/8 off to 1 1/8 advance, including September at 84 1/8 to 84 3/8 the market scored a moderate upturn all around.

Provisions were firmer with grain and hogs. Business, however, lacked volume.

DETROIT IS NOW FOURTH LARGEST AMERICAN CITY

Michigan Metropolis Achieves Numerical Increase and Rate of Growth Larger than Chicago's and Second Only to New York's

WASHINGTON, D. C. (AP)—Detroit, with a numerical increase and rate of growth larger than Chicago's and second only to New York's during the last ten years, is now fourth largest city of the country, displacing St. Louis and San Francisco, Cleveland, Baltimore and Pittsburgh, all of which were larger than the Michigan city ten years ago. Detroit's 1920 population, announced today by the census bureau is 993,730, an increase of 227,973, or 11.9, per cent.

Detroit is the only city of 100,000 or more which has more than doubled its population in the last ten years.

Cleveland in fifth place.

Cleveland, also with a large increase, has outstripped St. Louis and Boston and takes rank as fifth largest city of the United States.

Its increase during the last ten years has been exceeded only by New York, Chicago, Detroit and Los Angeles.

With an increase of 1,000,000, the population of Detroit and Detroit, the Detroit ranking of the country's 18 largest cities has been established. New York and Chicago remain first and second largest cities, respectively. Philadelphia is the only one of the 18 whose 1920 population has not been announced, but it is not likely that the Pennsylvania city's rank as third largest in the country will be changed. Detroit has jumped into fourth place and Cleveland into fifth position, forcing St. Louis into sixth, Boston into seventh, Baltimore into eighth and Pittsburgh into ninth place.

Los Angeles Big Advance.

Los Angeles with a largest rate of growth, advanced from seventh rank to tenth and displaced Buffalo as well as attaining the honor of being the largest city west of St. Louis. San Francisco retained eleventh rank and Buffalo dropped from tenth to twelfth while Milwaukee was forced into thirteenth place.

Washington, D. C., moved from sixteenth to fourteenth position, displacing Newark, N. J., which dropped into fifteenth position. Cincinnati, the thirteenth largest city in 1910, now ranks as sixteenth.

New Orleans, through the advance of Los Angeles and Washington, was forced from fifteenth rank to seventeenth position, while Minneapolis retained its rank as eighteenth largest city.

BACK FROM LONG TRIP.

Charles Bullock and Charles Reiter returned this week from an auto trip lasting ten days. They left Twin Falls nearly a month ago, going to Los Angeles via Tonopah and Elly, Nev., returning by way of the inland route to Portland and Seattle and on home. Both report a most enjoyable outing.

Deaths

The body of Sam Watson, 40 years of age, lies in the Grassman morgue awaiting some word from relatives as to disposal. Death occurred last night in an isolation ward at the county hospital where the man had been a patient about a month. Death resulted from tuberculosis. An army service registration card, found in his effects, given him place of residence as Madrid, Idaho. Efforts are being made to locate relatives who may be at that place.

Social Notes

The Social Circle of the Baptist church met at the home of Mrs. C. R. Wheeler yesterday afternoon. Mrs. Henry Nussmacker had charge of the program which was given by Mrs. C. Kenistat and the Misses Juanita Dean, Mildred Tracy and Ruby Warg. Delicious refreshments were served at the close of the afternoon. The hostess was assisted by Mesdames T. H. Smith, Conover and Frank Warrington. The guests of the circle were Mesdames M. B. Son, Campbell and Cole and O'Leary of Kimberly.

Jim Ball, son of Mr. and Mrs. Fitch Ball, celebrated his eighth birthday on Wednesday afternoon. Games were played and a luncheon served, the table having as a centerpiece a white birthday cake containing eight yellow candles, the flower and menu carrying out the same color scheme. The guests were Alice, Helen and Ruth Taylor, Katherine Larned, Jennie and Morgan Heston and Frank Peavey, Bert Woods, Patie Kall and Billy Thomas.

dren and Mrs. Mary Glenn of Elmer were guests at dinner Thursday evening at the home of Mr. and Mrs. O. T. Bunce.

Misses Jane Maxwell and Miss Eula Fox entertained at a handkerchief shower and bridge party last evening. The party was given by Miss Maxwell. DeWitt Young, guest who is leaving tomorrow for Fort Collins, Colo., where he will spend the summer. Mrs. E. F. Young, the hostess for high score, a beautiful bunch of roses. The guests were Miss Edith Dyer, Mrs. W. Ludwig, Miss Jessie Fryer, Mrs. Alice Taylor, Mrs. DeWitt Young, Mrs. Earl Folb and Mrs. J. A. Dyer.

The Presbyterians had a most enjoyable picnic in the church parlors last evening. A program in charge of Mrs. J. W. Epler was given consisting of congregational singing of old-time songs. DeWitt Young recited "Waiting for the Cat to Die," by James Whitcomb Riley, and Mrs. M. W. Kunkely sang an interesting article on "How to Manage a Husband."

Mrs. J. A. Griffith entertained the Shamrock club at her country home yesterday afternoon. A short business meeting was held followed by a program. Mrs. C. J. Cordis read an interesting paper on "Chicago" and Miss Pauline Griffith gave several musical selections. Red and white poinsettias and roses were used for decorations. Eighteen members were present and Mrs. France, mother of Mrs. E. L. France, was a guest. The next meeting will be held July 1 at the home of Mrs. E. L. France.

Arthur Boisch, son of Mr. and Mrs. John Boisch, living south of Kimberly, and Miss Beulah Butler, daughter of Mrs. Ellen G. Butler of Kimberly, were quietly married at the home of the bride's mother at noon, Wednesday, June 10. Both young people are well known in and around Kimberly and Twin Falls. The bride was given in white voile and chiffon. The bridegroom's suit being of a dark brown. Miss Gray, an intimate friend of the bride, acted as bridesmaid and Ralph Boisch, a brother of the groom, as best man. The bridesmaid was beautifully dressed in pink while the groomman suit was of gray. Promptly at twelve o'clock the contracting parties marched out and took their places under a decorated arch while the ceremony was performed by the Rev. G. Mangum, pastor of the Methodist church of Kimberly. After the congratulations the bride and groom were ushered to the dining room where a three-course luncheon was served by the bride's mother. Only the immediate relatives and close friends were present. Later in the afternoon the couple motored to Twin Falls, leaving in the evening for Salt Lake City, where the honeymoon will be spent. They will later make their home on the groom's farm near Hazelton.

OUR OPPORTUNITY IN MEXICO

If bubonic plague, reported in Vera Cruz, gets out of control of the Mexican authorities the country cannot be saved from a disastrous epidemic without assistance from the United States. Our efforts would be not altogether altruistic, either, it may as well be confessed; we could not afford to have pestilence raging at one of our doors. We should go in from selfish as well as from benevolent motives and the fruits of our labors assuredly would be not merely the sanitary organization of the neighbor republic.

It has been demonstrated in other places where our sanitarians have operated to the benefit of native populations as well as to our own safety that enduring foundations of good relationships, political and commercial, have been laid. It is not inconceivable—it is, rather, to be expected—that intervention in Mexico to eradicate pestilence and teach the people how to be healthy would completely eliminate from the Mexican breast hatred of Americans. That is a consummation much to be desired. It is worth risking much in the beginning to achieve.

The new government below the Rio Grande may not be deterred by pride from asking assistance of the United States but, should it be, our government might not to delay in tendering its services and if need be dispatching forces to rescue Mexico from the plague and relieve of menace which its unchecked progress would be to the United States. Having accomplished its mission, the American sanitary corps would leave the Mexicans as established a people as were the Europeans when we departed from France without having exacted material reward for our decisive participation in the great war. Then we should begin to draw enormously valuable dividends of gratitude and respect from the Mexican people. That is worth performing much to obtain. And in any event, the bubonic plague must not be permitted to thrive in Mexico.

NUTS TO BE HIGH

Now it is the British profiteer who has seized an opportunity to wring a bunch of dollars from the American consumer. He has chosen Brazil nuts as the commodity in which to operate. Wholesale nut dealers in New York have received information that the Brazilian

nut crop has been bought up by a London syndicate, with the result that the prices have been raised and the supply for New York has been arbitrarily cut to one-fifth the normal quantity, in spite of the fact that the crop is much larger than the year before. Prices in Brazil are said to have been increased from 20 cents a pound to 40 cents.

American nut eaters could easily resolve to eat no imported nuts, if they have to pay exorbitant prices for them, but this would afford no guarantee that American nut growers would not base their asking price on figures fixed by the English syndicate for the Brazilian product. The consumer must exercise discretion. If Brazil nuts are too dear let him eat "English" walnuts from California, pecans and peanuts from the south, and hickory nuts from the forests of the middle and northern latitudes. We really can dispense with Brazil nuts without experiencing much deprivation.

EUROPEAN ELM SCALE DANGEROUS TO TREES

Director of Bureau of Plant Industry Orders Spraying to Kill New Disease

The attention of those who have elm trees on their premises is called to the European elm scale which is rapidly gaining a foothold in the city. According to W. H. Hines, director of the bureau of plant industry of the state department of agriculture, this scale was imported on some trees planted on Grove street about 17 years ago and has been spreading ever since until now it has infected nearly all of the elm trees.

Spraying with certain fluids positive, by kills this scale, but the spraying must be done in the city, intended for fruit trees, will not reach the spray high enough to reach the tall trees. Those whose trees are young can and should have them sprayed at once.

The only hope for the older trees among the most beautiful in the city, Mr. Hines says, is for the city to purchase a high pressure sprayer for the purpose. The cost would be in the vicinity of \$1200 but he feels that certainly the shade trees of a city like Boise should be worth that sum. He hopes that sufficient pressure may be brought upon the city fathers to purchase one of these high pressure pumps and tend to its own tree spraying.

LOCKEFELLER FOUNDATION FIGHTS PLAGUE IN FRANCE
PARIS, (AP)—Donations averaging 8,000,000 francs per year have been made by the Rockefeller foundation since 1917 for the purpose of carrying on the campaign against tuberculosis in France, according to a statement made by Maurice de Rothschild in the chamber of deputies.

RENEWAL OF SPANISH LOAN TO FRANCE IS ARRANGED
PARIS, (AP)—Renewal of the Spanish loan to France of 25,000,000 pesetas has been arranged by a Spanish bankers consortium, according to Madrid dispatches quoting gossip in financial circles there. It is said this step was taken with the authorization of the Spanish government.

WHALE HUNTERS USE PLANES
COPENHAGEN, (AP)—Business men at Alnæsund, north of Bergen, Norway, intend during the coming summer to use airplanes for seal and whale hunting in Denmark strait, between Iceland and Greenland, says the National Tidende.

Chamberlain's Colic and Diarrhoea Remedy

Every family should keep this preparation at hand ready for instant use when needed. Severe attacks of colic and cholera morbus often prove fatal before medicine can be procured or a physician summoned. The uniform success that has attended the use of this remedy and the prompt cures which it has effected have made it a staple article of trade—adv.

POTATO GROWING HAS BIG FUTURE

Finer Points of Industry in the State of Idaho are Thoroughly Explained

There is no industry in Idaho which has a more attractive future than potato raising, if caution is taken to keep it on a proper basis. Idaho has for several years past been reckoned as an important factor in the potato markets of our country, and the popularity of our superior spuds has been constantly growing until a seeming glut was reached in the season of 1919 and 1920, when potatoes from the Gem state sold for the highest price on practically every market. It is not new for this state to present to the consuming public a superior product, but, due to slackness in grading, sacking and loading of cars, our potatoes have never been fully appreciated until the past season, and this is due more particularly to the rigid standard which has been established and to the inspection service.

The tendency is when we are successful in obtaining superior prices for that we have reached the goal, but a year of adversity and poor prices with keen competition from other important potato centers will soon convince us that we still have much careful work to do. All purchasers are guided by the appearance of their contemplated purchase and it is not enough to have our product carefully graded and true to name, but we must hold it up to the public gaze in an attractive and suitable package. It has taken the severe criticism of the buyers whom we must please, through traveling representatives of our railroads, to make us feel the importance of new, clean sacks lightly sewed so that no potatoes are visible, and of packing our potatoes as near to a uniform weight as possible.

We always know a loosely-packed sack was mean to handle and now we find that it doesn't sell well—even though the contents are good. A further consideration which does not affect the producer so directly is the careful loading of cars so that they will remain throughout their travel in the same position as when loaded. Many a car loaded carelessly at its point of origin has been cast aside in the eyes of buyers because of its jumbled and generally poor appearance when it reached its destination, and many a car has received the same treatment from the buyer when he has opened the door and seen innumerable sacks split open with their contents scattered over the car.

Too much emphasis cannot be laid upon the making of the article which we have to sell presentable and attractive. Wenatchee, Yakima and Hood River districts have been made famous by an attractive presentation of their apples—nearly branded as an advertisement of the respective towns. This same practice of branding is being followed in the potato game in some of the older growing sections. There is no better advertisement for a town or community than the branded product. The New Sweden district near Idaho Falls and several large growers near Parma will ship their 1920 crop in branded sacks. This is an experiment so far as Idaho spud growers are concerned, but the merits of an attractive brand with a reliable producer or organization behind it are well known.

LONDON SEEMS ON EVE OF UNPRECEDENTED BUILDING
LONDON, (AP)—London, which travelers maintain changes more slowly than any other great capital, is yielding to the necessity of providing for continued surges of population. There are many indications that the city is on the eve of an unprecedented era of rebuilding.

Instead of stretching further into the beautiful country lying immediately outside its bounds, the predicted building boom is likely to be a process of tightening up and levelling up by better utilization of wasted spaces and acceptance of the American skyscraper idea. Evidence of the last-named influence are to be seen today along London's newest downtown thoroughfare—Kingsway—near the Strand. Here a number of buildings, either built by Americans or designed for American occupancy, are in the process of construction. Shortage of skilled men in the building trade and hindrances due to England's loss of hold system are the main handicaps, but the fact remains that London is verging toward marked physical changes.

Idaho Game Breeder's Association Membership For the Farmers of Twin Falls County

To the Farmers of Twin Falls County—Greetings:

From the rapidly with which the memberships in the Idaho Game Breeders' Association are now being sold it will be but a short time until every one of them is disposed of. In discussing these matters with Mr. A. H. Hult, General Manager of the Association, and who recently conducted the campaign for membership in Twin Falls, I learned that the reason why the Association was not visiting the farmers with a view of selling them memberships was because of the amount of time and expense that would be involved in conducting such a campaign. Conditions which we can all appreciate. Nevertheless, the farmers should be given an opportunity to join so that they and their families can better enjoy the benefits to be derived through the ownership of these memberships in this Association, and, as a result, I opened up negotiations with the Association for the purchase of one hundred memberships at par on condition that I would personally guarantee that they would be sold exclusively to the farmers of Twin Falls County, and was successful in securing them. They will be on sale at my store at exactly the same price that I paid for them. Interested parties should send me their applications accompanied by Ten Dollars at their earliest possible convenience for even this supply will not last long, and it is very doubtful if any more can be had.

Yours very respectfully,

Fisher Drug Company

Brief Bits of Sport

The Cleveland Indians have a club batting average of .304.

Which is a remarkable percentage for aggregate batting, and has probably never been beaten by any major league outfit in the history of modernized baseball.

In this connection, too, there are 44 American league players, enjoying exalted places in the 300-class list. And Cleveland has one-fourth of the positions.

Next on the list is Washington with six hitters in the coveted rank; White Sox and Browns, 5 each; Detroit, 4; New York, 3, and Red Sox, 2.

Either the American leaguers are harder hitters than those in the National or else the latter's pitchers are more effective. The old circuit has only 27 300-class hitters.

Of these the Reds have 5, St. Louis 4, Chicago 5, St. Louis 4, and Philadelphia 3.

About the jumper— They gave him lots of money, The park and city hall. That's why the famous diamond star. Plays independent ball.

A few days ago an ambitious minor club manager, Walter Cravath, manager of the Phillies, asking: "Have you a pitcher to whom you could make good in Class B?" Cravath answered: "I have six or eight Class B pitchers, but I have to use them myself."

Report has it that spiltball pitchers have formed a union and will go before the national commission to state their grievances.

The man who has a pop-pudding in a certain minor league ball park recently adopted a tight-waisted style of bottle and then charged 20 cents per for them.

Fans put a boycott on and the concession man came off his profligate high horse.

This is mentioned merely to show how it can be done if the people just get together and try.

It is reported that the Chicago National club management is considering entry of the sardine packing business.

On Memorial day these same jammed 23,346 paid admissions into a park originally made to hold 15,000.

It is said Pocatello folks are so confident of Gordon McKay's winning from Mike O'Dowd when they come together with the mitts on July 4, that should the reverse prove true and Pocatello folks will have to circulate in Nature's garb, unless they can find sackcloth and ashes in which to adorn themselves.

Matchmaker Harry McKinley of the local boxing club, is still negotiating.

With a fast man from the coast to meet McKenna here on the night of July 5.

The Salt Lake Bees in the past week raised the club's hitting average eight points, putting the aggregate outfit in the 300-class.

Sheeley, Johnson and Maggott lead the league's regulars, with .331, .350, and .353, respectively. Rumber is hitting .333, giving Salt Lake four 300-class batters.

GIANTS WOULD SIGN JOHNSON, BEES' MANAGER

SALT LAKE CITY, (AP)—The New York Nationals are negotiating for the services of Ernest Johnson manager and shortstop of the Salt Lake club of the Pacific Coast league. It became known here last night when Johnson announced that he had received an offer to join the Giants. If satisfactory arrangements could be made with the owners of the Salt Lake team to leave here.

Johnson is second in hitting with .354, fourth in the greatest number of hits, leads in base stealing and is regarded as one of the best infielders in the coast league. He came to Salt Lake from Brooklyn two years ago.

WRESTLING MATCH.

GRAND RAPIDS, Mich., (AP)—In a heavyweight wrestling contest here last night Tom Drak defeated Gene Romano in straight falls, the first fall in 30 minutes and the second in 18 minutes.

Both falls were the result of a body scissor and further arm lock.

ROPER-JAMIESON DRAW.

MADISON, Wis., (AP)—Captain Bob Roper of Chicago and Tod Jamieson of Milwaukee, heavyweights, fought to a draw in a ten-round bout here last night according to newspaper men at the ringside.

Report has it that spiltball pitchers have formed a union and will go before the national commission to state their grievances.

The man who has a pop-pudding in a certain minor league ball park recently adopted a tight-waisted style of bottle and then charged 20 cents per for them.

CONVENTION TO ENDORSE LEAGUE

Mark Sullivan Predicts San Francisco Meeting Will Adopt Wilson's Views

The democratic national convention at San Francisco will accept President Wilson's wishes and endorse his form of league of nations.

The platform adopted at the republican national convention at Chicago is purely anti-league of nations and means a complete overthrowing and scrapping of all that has been done toward formation of the league of nations and a revival of the Hague tribunal as an instrumentality for prevention of war.

The league of nations is apparently the main issue of the coming campaign with the lines drawn somewhere between the stands taken by the two national conventions.

These are the opinions and predictions of Mark Sullivan, veteran American political writer, expressed here last night in a lecture delivered at the lecture theater under auspices of the Twin Falls lyceum management.

About 400 persons heard the lecture. The speaker was introduced by Dr. A. G. Bennett.

Not An Argument.

The lecture was not an argument either for or against the league of nations. The closest Mr. Sullivan came to expressing an opinion on the subject was his statement that the American attitude at the peace conference would have been one of assertion that Europe needed the league more than America, but that America, with its good will and desire to end war, would join league as a sort of limited party. "President Wilson was so anxious to get the league of nations that he admitted certain mistakes which were discovered by unfriendly eyes in America," the speaker said.

The lecture in the main was a story of the peace conference with stress upon America's part in its proceedings. Mr. Sullivan was one of 112 American newspaper men gathered in Paris to report the proceedings.

Antagonism in Europe.

"President Wilson encountered in Europe a deliberate and adroit determination to undermine his capacity for being disingenuous," Mr. Sullivan said. "The purpose of the Europeans in the peace conference was to back Wilson and to overcome his 14 points which they accepted with good will and President Wilson was unable to stand against European diplomacy bent on this end. In my judgment, advantage was taken of President Wilson by the European diplomats. I would even go so far as to endorse the statement of a British delegate that President Wilson was bamboozled."

Defeat Points.

"He was forced first of all to surrender his first point declaring for 'open covenants openly arrived at.' Then his declaration against punitive expeditions was defeated by adoption of the term 'reparations' to cover the same institution. In general President Wilson was forced into positions which he found it difficult to defend here."

"This result was brought about, first, through deliberate delay in the proceedings; second, through enormous applause and heaping of honors upon the president in the several European capitals; third, through taking advantage of the president's erroneous conviction that his relations toward the peace conference would be similar to his relations toward an American congress; fourth, through secret imposed upon the conference sessions."

Is Campaign Interest.

"The league of nations apparently is to be the principle issue of the coming campaign. President Wilson is the central figure in American politics. It might go farther and say that President Wilson's health is the central fact in American politics. If his health had remained as it was prior to the end of the war, the course of politics in this country would have been a very different thing. The fight for the senate against the league of nations as advocated in the Chicago convention has been 100 per cent successful. It would not have been so successful if President Wilson had retained his health."

TWIN FALLS SHRINERS READY FOR PILGRIMAGE TO PORTLAND

Fezzed Men of Masonry Leave Saturday for Imperial Council Starting June 22 — Nobles of Mystic Order from Many Points to Gather in Boise Sunday to Form Great Caravan

The Camels are coming;
Ho, ho, ho, ho, ho!
The Shriner are with them,
But don't you tell Pa—
The chances are dollars
to a dime that they, we guess,
That Pa will be there
With the belles and his Pao.

Next week Portland will entertain fezzed members of the Mystic Shrine from all parts of the country. Thousands will be there for the annual national ceremonial of the Imperial Council and Twin Falls will be well represented.

The local delegation starts for the continental point at 4:30 Saturday afternoon in a special coach set out here for the accommodation of Twin Falls Shriner. This coach, besides being set apart for Twin Falls Shriner and for the journey to Portland, will also be placed at the disposal of the junketeers during the stay in the Oregon city from June 25 to 26, inclusive.

The Twin Falls delegation will arrive in Boise early Sunday morning and will join the vast caravan assembled there for the journey to Portland, Me. Throughout Sunday the visitors will be special guests of El Korah temple, Boise. The home delegation will be in charge of El Korah temple, vice president of Twin Falls Shrine club, on the pilgrimage. There are some accommodations in the special coach not yet taken, but the demand is said to be eager.

Extraordinary arrangements have been made by railroad officials of the O. & N. for handling special trains from east, south and north through Boise to Portland. El Korah temple delegation train will be made up of a baggage car and three coaches at Pocatello, picking up one sleeper from Twin Falls at Minidoka, and arriving in Boise as the second section of train No. 17 on June 20.

One additional baggage car and six sleepers will be added to the train at Boise. The conductor will give the high sign to leave town promptly at eight o'clock Sunday night.

Following is the general schedule of Temple trains arriving in Boise for the pilgrimage:

Holla temple of Dallas, Texas, arrive Boise 8 a. m. June 10.
El Karubah of Shreveport, La., arrive Boise 10-12 a. m. June 10.
Abou Ben Adhem of Springfield, Mo., arrive Boise 9:30 a. m. June 20.
Mirza of Pittsburgh, Kan., arrive Boise, 9-10 a. m. June 20.
In addition to the above Shriner's trains the following trains will pass through Nampa, if on schedule, approximately as follows:
Kappa of Davenport, Ia., 1 p. m. June 19.
Al Koran of Cleveland, Ohio, 3 p. m. June 19.
Abdallah of Leavenworth, Kan., 8 a. m. June 20.
Za Ga Zig of Des Moines, Iowa, 2 p. m. June 20.
El Kalah of Salt Lake, 5:30 p. m. June 20.
Ils of Salina, Kan., 4 p. m. June 20.
Telekah of Hastings, Neb., 7 p. m. June 20.
Moolah of St. Louis, Mo., 5 p. m. June 20.
Mellash of Chicago, Ill., 10 p. m. June 20.
Maskat of Wichita Falls, Texas, 2 p. m. June 21.

INVETERATE RUNAWAY BOY IN CUSTODY AGAIN

Harold Myers Leaves Home and is Being Held for Arrival of Parents

Harold Myers, 8 years old; is in the county jail again awaiting the arrival of his parents who are some distance in the country. The boy was delivered into the custody of the juvenile authorities early this morning by relatives.

Young Myers is known throughout this district as an inveterate tramp. For the past two years he has spent most of his time running away from home, and much of it in the county jail. Several months ago he was consigned to the state home for children in the hope that the mania for travel could be cured. A few weeks since he was brought back and given into the custody of his parents who, while the boy was in the state home, had taken up residence on a farm. Yesterday was the lad's first "French leave" since coming home. He told the authorities this morning he had no intention of running away, and was merely hunting his dog, which he said had left home.

WATER CORPORATION SEEKS INJUNCTION

Elm Park Company Wants Restraining Order Against the Twin Falls City

Alleging the city of Twin Falls, through agents, has attempted to restrict the company's operations if serving patrons, the Elm Park Water company has appealed to the district court for a restraining order and to quite claimed title in certain water mains and pipe lines on Fourth avenue east.

The suit, filed by Turner K. Hackman, grows out of action taken a short time since by contractors employed in city paving construction, to prevent mining under city street curbs for the laying of water pipes, the company being ordered to do no further excavation.

In papers recorded this morning the court is urged to issue an injunction restraining the city or its agents from interfering with the company's water mains, pipe lines, rights and easements and right of way along Fourth avenue east in Elm Park addition. The statement is made that the city contends the company has no rights in the pipe line and no power or franchise authority to maintain such a line and system. The statement is also made that the city has served notice upon the company that it water mains of the company were to be dug up and removed to some other location that may be designated by municipal agents. If this is not done, the statement declares, the city itself will remove the pipes.

\$600 RAISED TO BRING PUSSYFOOT

Money for Expenses of Prohibitionist Deposited with the Chamber of Commerce

The Furcht-Barker Aircraft corporation of Gooding, will bring "Pussyfoot" Johnson to Twin Falls on July 6. The contract was closed yesterday and \$600 deposited with the secretary of the chamber of commerce. This money will be paid over on the safe arrival of Mr. Johnson.

The airplane will go to Granger, Wyo. on the afternoon of July 5 and await the Denver train, which arrives there at daybreak. Mr. Johnson expects to eat his breakfast in Twin Falls. A big meeting will be held in the Lavering theater during the day and then "Pussyfoot" will take the aerial route to Gooding, where he will catch the same train he left in the morning.

This will be Mr. Johnson's first ride in an airplane and the World Dry league will feature this ride all over the world. Arrangements have been made for them to take photographs of Mr. Johnson while in the airplane. These photographs will be used in their publications and give Twin Falls much free advertising. It is expected to be able to bring the airplane near the city park so that the surrounding in the picture will do justice to Twin Falls.

The fact that Twin Falls was to furnish Pussyfoot Johnson with an airplane was published in all the big metropolitan papers and if it can be brought to a successful conclusion there will be few people in America who will not know about it.

A luncheon is being planned in Mr. Johnson's honor and it is expected that July 6 will be a big day for Twin Falls country.

The committee in charge of all the arrangements is E. L. Ashton, J. W. Jesse, H. J. Kingsbury, W. S. Parrish and C. E. Munson.

European Taste in Architecture Lost on Yankee

ANOTHER bucolic one for you: Among the rookies on an American transport passing the coast of Scotland during the late war, was a mid-west farmer lad. Attention was attracted to a castle set on a high hill in this world, and the words "That's a h—l of a place to put a silo," disgustingly remarked the rustic from the west.

It was more than a trace of precipitation in the past 24 hours. The total moisture, according to local report, was .006 of an inch. High for the day was 77 and low for the night 45.

Warmer weather and fair, is promised for tonight and Saturday.

IDAHO.

If you were posing as the widow of a soldier killed in action and had been taken in by his family and had fallen in love with your "husband's" brother and if, just as everything had been going along lovely, said "husband" returned, perfectly whole and sound—I well, what would you do? We don't want to get personal but wouldn't it be a rather ticklish situation? That's the predicament that Gloria Gray found herself in in "Widow by Proxy."

"Widow by Proxy" is from the stage play by Catherine Chisholm Cushing and Marguerite Clark is the star. Now playing at the Idaho theater. Don't miss it.

A FIRE SALE

We don't like the idea of shouting "Fire Sale"—or any other of the sensational "sales" that are frequently featured. Only a bona fide reason can justify the use of such sensational head lines.

The people of this tract, however, need no argument to convince them that we have just reason for this kind of announcement. But this sale will soon be over—we know the magic of low prices—and surely there was never a time when prices were so low—values so high as those now offered in our effort to close these damaged stocks out completely.
