FIGHT LOOMS IN SAN FRANCISCO ON PROHIBITION

Party Leaders Predict Struggle Over Issue Will Wear Itself Out by Force of Clash in the Committee

WESTERN DELEGATES TO MEET WITHOUT PROGRAM

Discussion is Expected to Define Sectional Questions to be Urged on the National Gathering

SAN FRANCISCO, (AP)—Party leaders here for the opening of the democratic national convention, opening next Monday, predicted today that the fight over the wet and dry issue would wear itself out by the very force of the clashing elements in the resolutions committee.

Those leaders held that if the committee deemed it advisable to ignore the question in its report, any move for a definite statement on the floor of the convention would prove futile.

Discount Wilson Vote Rumor.

There was a tendency among some delegates to discount the rumors that the convention might give a large vote for the nomination of President Wilson as a demonstration of the strength of its support of his policies. This support, they contended, might better be shown in the platform.

Little change could be noted today in the sentiment toward aspirants for the nomination or in plans for organization of the convention.

The conference of delegates from western states to the convention will meet without any schedule of questions upon which agreement is to be sought, Gavin McNab, of San Francisco, announced today.

To Define Western Issues.

Through open discussion they will seek to define clearly the issues they bring to the national gathering, he said. Whether the question of Japanese immigration will be taken up, Mr. McNab was not prepared to say. He assumed, he said, that some western United States senator or governor would be chosen as chairman of the convention.

New Men are Found to Fill Two Posts in German Ministry

New Cabinet is Regarded as Emergency Organization; Socialists Hold Balance

LONDON, (AP)—Formation of a new German cabinet is reported in a Berlin dispatch published in a special edition of the Times this morning. The message saying new men have been found for a couple of posts in the ministry.

This cabinet is regarded as an emergency one, the dispatch quotes the Tagblatt as saying. The Times correspondent asserts the new government's prospect of remaining in office depends upon the willingness of the majority socialists to observe "benevolent neutrality."

An earlier Berlin message to the London Times, received in the news dispatches of Tuesday night, reported the collapse of the previous cabinet because the majority socialists were said to have decided to resign their aid in securing a vote of confidence for it.

MARTENS CLAIMS CANADA SEEKING SOVIET TRADE

Russian Bolshevik Envoy Announces Completion of Preliminary Arrangements for Commercial Relations

NEW YORK, (AP)—Preliminary to establishment of trade relations between Soviet Russia and Canada, have been completed, according to announcement today by Ludwig C. A. K. Martens, Soviet unrecognized "ambassador" here. A mission has just returned from Canada, Martens said, where Soviet representatives were received favorably by manufacturers, bankers and officials of the government.

A contract for \$3,000,000 worth of raw goods with signed bills of lading, he said, Martens said, adding that his government also hopes to buy agricultural machinery, machine tools and drugs.

On signing of contracts with Canadian firms, the Soviet government will provide gold with Canadian banks to establish credit sufficient to cover the total amount of the transactions, Martens declared.

OTTAWA, (AP)—A representative of the Russian soviet bureau in New York, while in Ottawa recently, was informed by officials of the department of trade and commerce that for some time there had been no restrictions placed on exports to Russia but that the Canadian government would assume no responsibility in the matter.

TEXAS WHEAT ON MARKET

FORT WORTH, Texas, (AP)—The first carload of new Texas wheat reached the market today (Tuesday) at Rochester, Texas. It tested 60.7 pounds to the bushel and brought \$2.80 per bushel f. o. b. Rochester.

EVERY GROUP OF PARTY IS GIVEN RECOGNITION

Republican Leaders Generally Express Approval of Personnel of Committee to Conduct Presidential Campaign

AMALGAMATION PRESENTS SOLID FIGHTING FRONT

Precedent is Disregarded in Selection of Seven Women and in Choosing Feminine Vice-Chairman

WASHINGTON, (AP)—Republican leaders generally expressed approval today of the personnel of the executive committee, which will conduct the party's presidential campaign. Twenty-one members, including seven women, will constitute the committee and the names of twenty of these were announced last night by Chairman Will Hays, of the national committee.

The one name, said to be that of a national committeeman, was omitted, because Mr. Hays had not had time to communicate with the appointee.

Leaders claimed that every group of the party is represented in the committee membership and that this amalgamation insures harmony within, and a solid front against the democrats. There was no statement as to what the committee's immediate plans are, or when or where activities will be initiated.

The full membership of the committee was announced as follows: Will H. Hays, chairman; Mrs. Harriet Taylor Upton, Ohio, vice chairman; John T. Adams, national committeeman from Iowa; Clarence R. Miller of Minnesota, secretary of the national committee; Fred W. Upham of Illinois, treasurer of the national committee; H. M. Daugherty, Ohio; Mrs. Katherine K. Edson, California; Mrs. M. L. Fossum, Minnesota; J. L. Hanson, national committeeman from Oklahoma; John W. Hart, national committeeman from Ohio; Mrs. H. H. Hays, national committeeman from Kentucky; Charles W. Hilles, national committeeman from New York; R. B. Howell, national committeeman from New York; J. L. Hyde, Utah; Mrs. Arthur L. Livermore, New York; Senator Boies Penrose, national committeeman from Pennsylvania; J. T. Hov, national committeeman from Indiana; Mrs. Christine Bradley South, Kentucky; former Senator John W. Weeks, national committeeman from Massachusetts; and R. L. Williams, national committeeman from Oregon.

Disregard Precedent.

The party leaders also disregarded precedent in naming seven women as members of executive committee and in choosing a woman, Mrs. Harriet Taylor Upton of Ohio, as vice chairman of the committee. This action was taken it was said, in recognition of the

Communist Party Held Not One of Violence

BOSTON, (AP)—Fourteen persons, awaiting deportation as alien radicals, were ordered released by Federal Judge George W. Anderson today. The court, in announcing this finding in habeas corpus proceedings brought in behalf of the radicals, held that the communist party, of which all are members, is not a "party of force and violence."

Communists Seek to Get Aid for Soviets

WASHINGTON, (AP)—A proclamation issued by "the central executive committee of the communist party of America" copies of which were received today by the department of justice, call on all transport workers in America to force to load and transport any materials for Poland, Japan or any other country "fighting soviet Russia."

The proclamation has been circulated among transport workers in New York, department officials said.

Mexican Revolt Leader Interrupts Traffic Between Jimenez and Parral

EL PASO, Texas, (AP)—Willistas again have cut the railroad between Jimenez and Parral, Chihuahua, according to information received here. Several American mining men on route to Parral are being forced to wait at Jimenez for the reopening of the line.

Villa Movement Only Involved Officially Admitted

MEXICO CITY, (AP)—Reports of revolts in various parts of the country have been held in a statement issued at the foreign office information bureau last night, which said that, with the exception of the Villa movement in Chihuahua, the country was peaceful.

"Present military movements," the statement continued, "are following pre-conceived plans of the war department regarding garrisons."

League Forces Close Contest in Minnesota

Townley Organization Assured of One Congressional Nomination

ST. PAUL, Minn., (AP)—With one congressional nomination on the republican ticket assured, Nonpartisan league candidates were forcing a close race for the gubernatorial election and the congressional nomination in another district in returns from Monday's state wide primary elections today.

Rev. O. J. Kevale of Boston increased his lead over Congressman A. J. Volstead, author of the prohibition enforcement act, who sought re-nomination in the seventh district, returning from 341-out of 375 precincts giving Kevale 15,850 and Volstead 13,987 in the unofficial count.

In the ninth district Congressman Halvor Steneberg had only a slight lead over N. E. Thorsdorn, Nonpartisan league candidate, 405 precincts out of 524 giving Steneberg 2,880 and Thorsdorn 12,033.

When 2,825 precincts out of 3195 in the state had been heard from, the republican gubernatorial nomination, J. A. O. Preus had 127,708 votes as against 110,483 polled for Dr. Henrik Shipstead, the Nonpartisan league candidate.

Fire Destroyed Baltimore District Scene of New Blaze

BALTIMORE, Md., (AP)—Starting with several blocks of what was the great fire of 1904, which wiped out Baltimore's business district, flames early this morning practically wrecked a one-story store building, and quickly spread to four other structures.

The damage, according to insurance men, will likely reach \$1,000,000.

NO CESSATION IN FIGHTING IN LONDONDERRY

Rival Factions Keep Up Hostilities Which Keep Irish City in Continuing State of Terror

LONDONDERRY, (AP)—There was no cessation today in the battle between unionist and nationalist factions which has kept Londonderry in a terror stricken state for some days past.

During the night the rival factions erected additional barricades from which they kept up a continuous fire. At times the shooting reached the intensity of a battle.

Malcontents in Charge.

The malcontents today were in entire charge of most of the city and it even was impossible to learn the number of casualties. Reports were that several bodies had been seen lying along the street, but it was worth one's life to attempt to go to Bishop street to verify the reports.

The military remained passive, troops watching armed men pass along. Considerable fighting occurred on the war front, which was cut off from the rest of the town. It was rumored that a force of Sinn Feiners was gathering outside the city and also that the Irish volunteers were being sent to the city to fight with the British.

No more troops had arrived in Londonderry up to this afternoon.

As many persons as are finding it possible to do so are leaving Londonderry.

Military Restrains Citizens

Londonderry was again the scene of rioting today. At 9:30 o'clock this morning fighting was going on between opposing parties of unionists and nationalists who shot over barricades that had been erected at various strategic points. The night was filled with the sound of gunfire as the British troops were sent to the city during the night.

KANSAS CITY LUMBER PRICES HIT TOBOGGAN

General Reduction of About Ten Per Cent is Made Effective in All Retail Yards

KANSAS CITY, (AP)—A general reduction of about 10 per cent in lumber prices today was made effective in all retail yards in Kansas City. The reduction ranges from \$5 to \$15 a thousand.

Southern pine was quoted at \$25 a thousand, a reduction of \$5 a thousand of the grade most commonly used are priced at \$7 a thousand, aggregating a total drop of about 10 per cent in the lumber market. Pine lath has declined from \$21 a thousand to \$10 a thousand in that time.

Hardwoods generally are also selling at reduced prices, the only exception to the general reduction in lumber by express lumber.

PRICE OF FLOUR DECLINES

Minneapolis Millers' Product Responds to Lower Wheat Market

MINNEAPOLIS, Minn., (AP)—A low or wheat market the first few days this week was responsible for a decline of 20 to 30 cents a barrel in the price of flour today. Flour dealers here, however, for family patents were down 20 cents, flour dropped to \$14 a barrel and \$14.25 was the price obtained for mill that sold flour at a 30-cent reduction.

COLONEL PATCH ASSEMBLES AND CONVENTION

Friends Throughout State Active and Many Will Seek Election as Delegates in His Behalf

BOISE (Special).—Candidates promise to bloom thicker in the forthcoming primary election in Idaho than dandelions on a lawn as a result of the changes wrought by the last legislature in the general election laws, it was said here today at state headquarters of the Patch-for-Senator clubs where attorneys have been busy with the revised statutes.

Under the primary law, the public was accustomed to voting direct for favorite candidates at the polls, but under the new system it is no longer possible for the people to select the candidates for state offices and for the United States senate in that manner. Candidates for county offices and for the legislature will be selected in this primary, however, under the old system.

Responsibility on Delegates. The changes in the election laws is going to force candidates for the higher offices to find men and women in the precincts who are willing to go to the county conventions and vote for them. That is the reason the attorneys in the Patch headquarters believe that delegates will spring up in every precinct like wild flowers in May. The precinct delegates in the county conventions will assemble on August 17 and name delegates to the state conventions. To the delegates in the state convention will fall the task of naming the candidates for both the republican and democratic tickets for senator and all state offices.

The new law is expected to have the result of stimulating interest in party politics since every candidate for a high office in the state must endeavor to build up small organizations in each precinct for it is there that political fortunes will be determined this year. The nominations for precinct delegates close July 3. The primary elections will be held August 3 and the county conventions will convene August 17. Candidates for county offices and delegates to the county conventions must have their nominating papers in the hands of the county auditor not later than July 3, it was pointed out by the attorneys in the headquarters of Colonel Patch. The delegates will be elected at the primaries, while the candidates for county offices will only be nominated.

Colonel's Friends Active. In some counties where two or three candidates for the republican nomination of United States senator and a like number of candidates for governor are seeking a favorable vote from the public it is not improbable that a number of tickets may be placed in the field with the result that whole neighborhoods will be electrified.

Some of the candidates for the higher offices have been active for weeks building up organizations in the precincts. The friends of Colonel Patch are active throughout the state in his behalf and according to reports which are reaching headquarters how men and women in hundreds of precincts will seek election to the county conventions with a view of selecting delegations friendly to his candidacy to the republican state convention at Pocatello late in August.

DAYLIGHT SAVING MAKES TROUBLE FOR AUSTRIANS

Provinces' Annulment of Clock Changing Decree Results in Endless Confusion

VIENNA, (AP).—Austria is undergoing a revolution over summer (daylight saving) time. The law was enacted at the instigation of the foreign representatives to save fuel and over the protest of the agricultural regions. Recently Salzburg province issued a decree annulling it, now the Tyrol has followed suit while scattered communities and districts all over the country still stand aloof. It is resulting in endless confusion in train schedules where the lines cross provincial frontiers and in connections between main line trains and local.

GOVERNMENT WARD STARTS SUIT

Demanding settlement in full on the purchase of land Roy S. Hart and Lucy L. Hart, his wife, have instituted action in the district court against E. L. Turner, H. J. Weaver and W. F. McFarland. The suit is for the recovery of \$7500 alleged to be that portion of the purchase price of farm land due Mrs. Hart. In the complaint statement is made that some time ago agreement was entered into for the sale to defendants of the property in question at a total sum of \$18,000. Of this amount \$10,000 has been paid Hart but it was necessary to procure permit from the government before the woman, who is an Indian ward of the government, could make sale of her equity in the land. Defendants are said to have entered the land and permit has been obtained by the woman to sell.

MANUFACTURES OFFENSE DECLINE IN FOODSTUFFS

National City Bank of New York in Statement Deals with Current Trend in American Foreign Trade

NEW YORK (Special).—The shortage in our exportable surplus of food, to which British Ambassador Goden has just called attention, is evidenced by a statement by the National City Bank of New York, by the figures of our export record, both present and past. Of course, the stimulus of war demand, coupled with guarantee of high prices, somewhat increased production during the active war, but aside from this exceptional period, our surplus of food products for exportation has been gradually but steadily dwindling for several years. Foodstuffs continues the bank's statement, formed 55 per cent of our exports in 1880; 42 per cent in 1890; 40 per cent in 1900; dropping to 27 per cent in 1910, and 18 per cent in the year immediately preceding the war, 1914. Of course, the demands of the war, and especially when the United States became a party to it, intensified our willingness to "skim" at home for the sake of supplying Europe's requirements, and especially those of the men in the field, and our recorded exports of foodstuffs jumped from \$430,000,000 in the fiscal year 1914 to \$600,000,000 in 1915, \$1,000,000,000 in 1916, and \$1,200,000,000 in the fiscal year 1917, (half of which fell within the war period) and even this high figure did not include certain material sent on government transports for our army abroad.

War Time Increase Temporary.

This war-time increase was, however, temporary. The quantity of fresh beef for instance, exported from the United States, which jumped from 6,000,000 pounds in the fiscal year 1914 to 231,000,000 pounds in 1916, and 514,000,000 pounds in the calendar year 1918, dropped to 174,000,000 pounds in 1919, and is now running at the rate of about 150,000,000 pounds per annum, as against 514,000,000 pounds in the closing year of the war. Of bacon, for which the foreign world still clamors, the exports in the 10 months ending with April 1920, are only about two-thirds as much as in the same months of the preceding year; what two-thirds as much as in the 10 months of last year; corn in the 10 months of the fiscal year 1920, only 13,000,000 bushels against 65,000,000 in the same period of 1918; and oats a little over one-third as much as the same period of 1919-1918. In month of April, 1920, the latest for which detailed figures of exports are available, foodstuffs form only 21 per cent of the exports, against 43 per cent in April, 1919, and practically 40 per cent in the corresponding month of 1918.

This fall off in exportation of food stuffs, both in quantity and in the percentage which they form of the total exports, is offset, says the bank's statement, by our increasing increase in the share which manufactures form of the total of outgoing merchandise. Manufactures formed in April, 1920, 62 per cent of the total value of merchandise exported from this country, against 43 per cent in April, 1919; 47 per cent in the full year 1914; 45 per cent in 1910; 35 per cent in 1900; and 15 per cent in 1880. The value of manufactures exported from the United States in the year which ends with this month will approximate \$3,750,000,000 as against \$1,100,000,000 in the year preceding the war.

Manufactures Take Place.

Thus while our surplus of food which can be spared for the outside world is declining, manufactures are taking the place of the food in the export trade of the country which will total about \$3,000,000,000 in 1920 against \$7,000,000,000 in 1910, and \$6,500,000,000 in the highest war year, 1917, manufactures more than offsetting the fall off in value of foodstuffs exported.

RUMANIA SEEKS TO GET LOAN IN UNITED STATES

Urges Need for Reorganization of Finances as Most Pressing of Problems Confronting the Nation

BUCHAREST, (AP).—Rumania is seeking to place a loan in the United States and wants to give as security her six per cent national bonds, without lien on her forests or her oil properties. According to Le Progres the country's most pressing problem is the reorganization of finances, which are in a confused condition, partly due to the dumping in Rumania of several billions of Austria-Hungarian crowns, Russian and Ukrainian rubles and other worthless monies. Within the past ten months the value of the lei has decreased from ten to the dollar to \$5.80 to the dollar, according to the fluctuations of the market.

This depreciation is also due, it is stated, to an illegitimate influx of paper money from Germany. During the German occupation, the Germans established the General Bank of Rumania and issued large quantities of paper money bearing the name of this bank. It is suspected that since the armistice the Germans have smuggled into Rumania sums of this money printed up in Germany.

Le Progres states that at the beginning of the war the Rumanian national debt was only 300,000,000 lei and, that now it is more than thirty billion, with no means of estimating the exact amount of paper money in circulation. The most serious problem of the country at present is that issued by the National Bank of Rumania.

In June, paper money printed in the United States will go into circulation and all other moneys will be withdrawn. It is believed, through the Rumanian government, since it has taken over the new provinces of Transylvania and Bukovina and Besarabia where crowns and rubles are in circulation, has not yet been decided how it will solve note circulation problem or what value will be given to these old moneys.

Meanwhile the Rumanian government is making a determined effort to stamp out the new industries of running cheap moneys over her frontiers and trading it for lei. At times men have been arrested with four, five or six billion notes of Austria-Hungarian notes. Some of the men arrested have been Americans ostensibly on automobile tours from Hungary. Whenever captured these motorists are arrested and the money in their possession confiscated.

ZIONISTS WANT CO-OPERATIVE COMMONWEALTH

Public Ownership of Land, One of Principles in Social Program Urged by Americans Seeking Jewish Homeland

LONDON, (AP)—Public ownership of land, a co-operative commonwealth, and equal rights for all, were advocated here today as the three leading principles in the social program American Zionists desire incorporated in the project for a Jewish homeland in Palestine by Jacob de Haas, executive secretary of the Zionist organization of America. Mr. de Haas arrived in London today with United States Supreme Court Justice Louis D. Brandeis, honorary president of the Zionist organization of America; Judge Julian W. Mack, president; Nathan Suss, Mrs. Mary Fole Professor Felix Frankfurter, Captain Abraham Gulin, David Rosenbloom and Louis Lipkay, organization secretary. These are the advisers and equals of the delegates of American Zionists to the world Zionist conference, convening in London, July 4.

American Zionists will make a united effort to have the Pittsburgh program, which they adopted in 1918 as the guiding social principles for the Jewish homeland, approved by the world conference, in the program it will formulate for the policy to be carried out in Palestine. Mr. de Haas in the statement he gave out on the eve of what is considered the most significant Jewish world conference ever held, stressed the progressive tenets of the Pittsburgh program, declaring:

"The Zionists are not going to be satisfied with a Palestine or land of Israel, which will be a mere duplicate of the numerous states of Europe or South America. They believe that the 2000 years of suffering and martyrdom of the wandering Jew has given to our race a wealth of experience, added to the ancient heritage of the Jew can be made fruitful in the creation of a model settlement in the land of our forefathers."

"The Pittsburgh platform may be summarized as follows: (1) Public ownership of land; (2) the co-operative commonwealth; (3) equal rights. The first is expressed in the phrase that the land of Palestine shall be owned or controlled for the benefit of the people of Palestine as a whole. The Zionists of America have resolved that the benefits which come through increasing land values will not go into the pockets of land speculators, but will always remain 'community values,' which will go into the public treasury."

"The second principle indicates that the Zionists of America are resolved to encourage co-operative enterprise to the largest extent possible, so that a co-operative commonwealth may be gradually evolved, without however, crushing individual initiative. There is no simple formula by which the co-operative commonwealth can be achieved; it must be a development through struggle and experimentation. In any event we have set the goal."

"The third principle is one with which all Americans are familiar—at least in theory, though we may fall short in actual practice. Whereas, we confine our program of 'equal rights' to the narrow field of politics, the Zionists of America would apply it to all of Palestinian life—to politics and economics, to law and industry, to man and woman, to every sect and every creed."

EFFECTIVE WAY SOUGHT TO BEAT OFFSIDE BOXERS

Entry of Southpaws in Fistic Circles Starts Campaign to Batter Down Defense

By RAY PEARSON.
Everybody who knows anything about the game of pugilism knows that these southpaw boxers, especially when they happen to have class, as in the case of Johnny Francis, which is the honest goodness name of Johnny Wilson, middleweight champion, and Lew Tendler, the Philadelphia lightweight, are mighty tough fellows to handle. It isn't because they wallow harder or possess greater skill, but because they don't do things in the stereotyped way. They're an awkward class, any right handed scrappy would admit.

Having watched this Tendler person engage in a ten rounder with Pinkie Mitchell and beat him by a margin that could not be disputed and also having watched Richie Mitchell, Pinkie's brother, scrap the Philadelphia son'paw more than ever convinces us that son'paws are tough 'uns.

Now's a Question.
Having come to this conclusion, the writer has quizzed several boxers, the principal question asked being:

"What's the best system to use against a left handed boxer and how is a right handed man to beat a son'paw?"

Now, as a rule, boxers don't do any considerable amount of studying out of these things unless they happen to be matched to scrap one of the fellows who jab with the right hand, but as these matches come so rarely because son'paws seldom get very far in the gloves game, we found little success in getting a solution to this problem. Most of those with whom we talked didn't know of any way to beat a classy left hander and simply shook their heads, indicating the question was a bit too deep for them.

Solution Offered.
But we did manage to find one fellow and a lightweight, too, who offered something in the way of a solution. He didn't care to have his name mentioned, but the way he would beat a son'paw is interesting. Perhaps his system may be O. K.; perhaps no good at all, but at any rate there seems to be some logic in the way he has figured it out. Here's the way he puts it:

"I've never had a battle with a son'paw opponent but it seems to me a right hander should be able to find a way to beat those awkward fellows who jab with the right hand and cross or hook with the left. Now I think that the thing to do when meeting this type is to let him jab with his right, I mean not try to stop him from landing his jab, for jabs don't do any damage. It's pretty nearly a cinch that after he has found that he can plant his right where and when he wants to he will quickly follow the right with his left cross or hook. Then is the time for the right handed fellow to bring into play the stuff that does the work."

Make Son'paw Miss.
"He should take the jab, but always keep his eyes watching for the left and when it comes over without his son'paw miss with it. Then after missing the son'paw would have shot all his head and the chances are he would be off his balance which should give quick and alert right handed person the chance to speed in with a hard wallop."

"But what if the son'paw didn't miss?" we inquired.

"Oh, he might not always miss, but some time he's going to and that's the time to send over the stuff that makes the birdies sing," was our informant's reply.

Leo Flynn, the New York manager of scrappers, who has Bill Brennan and several others under his wing, also has in his stable a young fellow who Flynn says is the eighth wonder of the boxing world. Flynn doesn't mention his name

but admits he knows nothing about the art of glove wielding.

Does Everything Wrong.
"But this fellow certainly can fight," says Flynn. "He does everything just as it shouldn't be done in the ring, but the funny part of it is he is so awkward that none of the fellows he meets can solve him. He beats all of them and even the spectators can't figure out how he does it. Why, he's such a riddle that he can't even climb through the ropes without getting tangled in the hemp and requiring some one to help extricate him. When he's boxing he never does anything right, but he just keeps on winning."

"A ringsider once asked me why I didn't take this chap and teach him how to box. For the love of Mike, if I did that everybody in the world would lick him. No, I'm going to let this bird go along in his own way."

BRITISH PLAYER
WINS OVER YANK
AT TENNIS NETS

Johnston Has An Off Day and Parke, Outsider, is Victor in Singles

WIMBLEDON, (AP)—The unexpected victory of the British tennis expert J. C. Parke, over William N. Johnston, United States singles champion, during yesterday's play in the British championship tournament here, is commented on by the press today as likely to give a fresh stimulus to the game in the United Kingdom.

As to the merits of Parke's victory itself, however, the English experts generally agree that Johnston had no off day, putting up a game that was far below his standard in the Queen's club tournament last week.

CHANCE ON CHALLENGE.
SANDY HOOK, N. J., (AP)—Eight alterations on Sir Thomas Lipton's Shamrock IV challenge for the America's cup, which were decided upon last night, resulted in the postponement of the scheduled race with the 23 metre Shamrock tomorrow. The nature of the alterations was not revealed.

MICHIGAN DEFEATS CALIFORNIA.
ANN ARBOR, Mich., (AP)—The University of Michigan defeated the University of California at baseball here yesterday, 2 to 0.

Shamrock Speeds Over Line Ahead of Try-Out Yacht

Lipton's Challenger Has Eight Minutes Time to Good at the Conclusion of Race

SANDY HOOK, N. J., (AP)—When the cup challenger Shamrock IV and the 23-metre yacht left their anchorage yesterday at 11 a. m. the weather was fine.

The ten-mile race began in a tell tale breeze west, northwest. The challenger started at 2:10:40 and the trial yacht at 2:12:35. Shamrock IV, doused her club topsails and set working top sails when the breeze became fresher. Cleverly skilful handling on the 23 metre boat in a fairly heavy ground swell enabled her to overhaul the challenger but Shamrock IV rounded the first mark at 2:29:38 and the trial boat went around at 3:30, the 23-metre yacht making one minute, 24 seconds better actual time on the run.

Shamrock IV crossed the finish line eight minutes, ten seconds actual time ahead of the 23-metre trial yacht. The summary:

Shamrock IV started 2:10:40, finished 4:53:29. Elapsed time 2:42:40. Trial boat started 2:10:00, finished 5:02:50. Elapsed time 2:50:50.

LEONARD IN CHICAGO.
CHICAGO, (AP)—Benny Leonard, the lightweight champion arrived here from the coast yesterday to finish training for his championship contest with Charlie White of Chicago at Benton Harbor, Mich., July 5. He plans to train here for two or three days before going on to Benton Harbor. White already has established training quarters at the Michigan resort. There were two hands and a throng of admirers at the station to greet the lightweight champion.

BRITISH WOMEN COMING.
NEW YORK, (AP)—Several leading British women golfers, including Miss Cecil Laitch, the title holder, are coming to America this year and may compete in the women's national tournament at Cleveland, according to a letter received here from Miss Marion Hollins of Westbury, N. Y. Miss Hollins is participating in the French title tournament and expects to sail for America July 7.

MUST PLAY GAMES OVER.
NEW YORK, (AP)—President Dave Fultz of the International League has ruled that the two games between Toronto and Jersey City at Jersey City last Sunday must be replayed, the first contest to be resumed at the point where Umpire Corcoran was escorted from the field by the police. At the time Toronto was leading, three to nothing with five innings played.

SCHOOLS MAKE FOR REDUCTION OF POLYGAMY

Plural Marriages in Philippine Islands Show Marked Decline Through Education of Native Girls

MANILA, P. I., (P) — Practice of polygamy in the Philippine Islands is being reduced through education of girls of the leading families of the entire provinces, according to Frank W. Carpenter, retiring governor of the department of Mindanao and Sulu.

Mr. Carpenter is here to turn over administration of the interior who will act through the bureau of non-Christian Tribes in accordance with a new territorial law. This law leaves in effect a treaty under which the Sultan of Sulu renounced all pretensions to temporal sovereignty but gained recognition as ecclesiastical head of the Mohammedan church in the Sulu archipelago. The treaty guarantees to the Sultan and his people the same religious freedom and by all adherents of all other religious creeds, the practice of which is not in violation of the basic principles of the laws of the United States.

"It is important to note," said Carpenter in one of his messages written as governor, "that this includes a limitation as to religious practice which necessarily includes the abandonment of polygamy. There can be no question that it will operate as the religious conversion of persons of the two sexes reach an approximate natural equality."

"An effort to impose upon the people of the Sultan at this time the invalidation of polygamous marriages heretofore contracted, the prohibition at this time of polygamy or the discontinuance of divorce must undoubtedly result in the active resistance of a people imbued with fanatic determination to die rather than submit to a private life of their religious liberty in matters they believe to be fundamental and sanctioned by divine authority."

Mr. Carpenter said that girls of prominent families in Mindanao and Sulu are being sent to Manila public schools where they associated with Christian girls and gradually and unconsciously result in the active resistance of a people imbued with fanatic determination to die rather than submit to a private life of their religious liberty in matters they believe to be fundamental and sanctioned by divine authority.

Tramway Chief Denies Intent to Call Strike

CLEVELAND, O., (P) — Rumors that railroad unions will call a strike this week affecting all unions were denied today by the chief executives of the four transportation brotherhoods, engineers, firemen conductors and trainmen here.

"Simply strikers' propaganda," said W. G. Lee, president of the trainmen.

IST ADD CONVENTION — JENKINS WILL DISREGARD

MADDOX'S EXPRESSED DESIRE
KANSAS CITY, Mo., (P) — In a telegram sent from Pueblo, Colo., from the train bearing Missouri delegates to the democratic national convention, Burdette A. Jenkins, Kansas City clergyman and publisher, announced that he has definitely decided to place the name of W. G. McAdoo before the democratic national convention for the presidential nomination.

TEXAS DELEGATES ANNOUNCE

FIRST VOTES GO TO McADOO
DALLAS, Texas, (P) — Declaring their intention to cast Texas' forty votes on the first ballot for Wm. G. McAdoo for the presidential nomination, the Texas delegates to the democratic national convention left here last night for San Francisco. The party, which includes six women delegates, is traveling by special train.

EASTERN CANDIDATE CANNOT WIN, SAYS BRYAN'S BROTHER

OMAHA, Neb., (P) — Nebraska's delegate to the democratic national convention at San Francisco left this morning in special cars attached to the Overland Limited.

"It is evident that an eastern democrat cannot be elected this year," said Charles W. Bryan. "The democratic candidate must be a western man and if the right one is chosen he can be elected."

Bryan Rejects Offer of Committee of 48

committee, however, is hopeful that an agreement can be reached which will expedite the contest.

World Avoid Lost Time.

With a fight over expression of the party's attitude on the Volstead prohibition enforcement act now generally expected to be carried to the floor of the convention it was pointed out that the resolutions committee probably would be tied up for a long time in reaching its conclusions. During that period, if adoption of the platform is to precede the nominations, the convention would be making little headway.

It has been argued that if balloting could proceed as to nominees while the committee was hammering out its platform recommendations, time could be saved, and the conference of campaign managers will be called to see if this cannot be arranged for in the report of the rules committee fixing the order of business.

Women Given Attention

Democratic leaders are preparing to give attention during the national convention to the question of adequate representation of women both in the party councils and in the shaping of platform issues of particular interest to women.

Platform suggestions of this nature, dealing for the most part with social questions, are being referred to the women's bureau of the national committee to be put in convenient form for the resolutions committee of the convention. A meeting of this bureau has been called by Mrs. George C. Baum, Chicago, chairman of the women's democratic bureau, for Friday night to hear proposals of various suggestions. The date gathered will be turned over to the resolutions committee.

Equal Rights Urged

Of greater importance, however, are steps in contemplation for extending to women equal rights in the national committee. It is expected the convention will authorize a project of this kind to replace the present associate committee of women by resolution of the national committee.

One suggestion strongly advocated is an increase in the size of the national committee to include two or three women members from each state, a man and a woman. It was pointed out that the effect would be to exert influence on states holding out against equal recognition of women.

If they did not appoint their women members they would lose one vote in the national committee.

COX SPECIAL TRAINS PASS

THROUGH SALT LAKE CITY
SALT LAKE CITY, Utah, (P) — Two trains of cars each, known as "Cox specials," carrying about 400 residents of Ohio to the democratic convention at San Francisco, arrived in Salt Lake today. After a 30-hour stop the party, which includes the Ohio delegates to the convention, will proceed to Los Angeles.

COLBY DENIES SERVING AS

WILSON'S DICTIONARY READER
CHICAGO, (P) — Bainbridge Colby, secretary of state, and delegate to the democratic national convention, who stopped off in Chicago today on his way to San Francisco, denied that he was taking any of President Wilson's dictations to the convention.

"President Wilson has too much respect for his party to attempt to intrude his ideas or force his ideas upon the party in an open convention," Mr. Colby said. "I have had many conferences with the president, but we have not discussed a third term for him, nor candidates for the presidency."

"Personally, I believe the convention will be singularly free from any attempts from any quarter to influence the deliberations or to give direction to its action."

Mr. Colby said he was sure there would be some allusion made to the treaty of Versailles and the league of nations. "As far as I am concerned personally, I believe that the party should go before the people with a definite stand for the league of nations," the secretary said.

"I am for the league of nations without any reservations, because the language of the declaration is quite clear."

Secretary Colby is a delegate at large from the District of Columbia. He emphatically denied that he was taking along a second place boom in his own behalf.

"There is absolutely nothing in any talk that I may be a vice-presidential candidate," he declared.

If it can be bought for less the fact will be advertised.

BAN TO REMAIN AGAINST SHEEP

Uncle Sam Declines to Issue Permits for Antipodean Mutton Imports

The embargo against the importation of Australian cattle and sheep into the United States will not be lifted until the Australian authorities succeed in eradicating contagious pleuro-pneumonia in that country, according to a statement made by Edwin T. Meredith, secretary of the department of agriculture, in a recent letter to an inquirer upon this subject.

The inquirer called attention to an article published in an Australian trade paper purporting to contain a statement by the chief inspector of stock of New South Wales, to the effect that there is no foot-and-mouth disease in Australia, and that as contagious pleuro-pneumonia is purely a disease of cattle, and can be carried only by them, its existence in Australia is not a good reason for the embargo against sheep.

While agreeing that sheep are not subject to pleuro-pneumonia of cattle, the secretary pointed out that "there is no positive evidence that they may not serve as carriers." The disease, he said, was "only finally eradicated from this country in the early '90s, after the inauguration of methods of operation which include the elimination of possible indirect sources of infection, one of which was believed to consist in the possibility of sheep carrying the infection in their droppings."

"The department, therefore," the secretary said, "having in view the responsibility imposed upon it by law, of protecting the cattle interests of the United States, has felt compelled to decline to issue permits for the importation of cattle, sheep or other ruminants from countries in which either foot and mouth disease, rinderpest or contagious pleuro-pneumonia of cattle exists, and as it is considered that until such time as the Australian authorities succeed in eradicating contagious pleuro-pneumonia from such country, favorable consideration cannot be given to the importation of other cattle or sheep from Australia."

DETAINED STOWAWAYS ESCAPE

NEW YORK, (P) — Four men detained at the Ellis Island immigration station for deportation as stowaways, escaped to the mainland today in a row boat. A general alarm had been sent out for their capture. Immigration authorities declined to reveal the identity of the men.

Today's Markets

New York Stock Market

NEW YORK, (P) — Trading on the stock exchange today was extremely dull and devoid of special features. Variable changes marked the sluggish course of leading issues. Sales approximated 300,000 shares.

Steel and equipment displayed further heaviness at the quiet opening of today's stock market, oils and motors also receding. Harvester fell 1-3-4, and General Motors 1-4-8. Steel field lost large fractions with United States Rubber. Crucible Steel made an initial gain of 1-4-8, but lost it, which was soon forfeited and industrial alcohol rose one point. Rails were neglected in the early dealing, the few transactions among leaders showing only trifling changes.

Price tendencies became more mixed in the last hour when call money repeated its recent big break of 11 per cent. The closing was irregular.

Liberty Bonds

NEW YORK, (P) — Liberty bonds final prices today were: 3 1-2's \$92.00; first 4's \$85.50; second 4's \$85.50; first 4 1-4's \$86.50; second 4 1-4's \$85.50; third 4 1-4's \$86.50; fourth 4 1-4's \$85.75; Victory 3 3-4's \$95.64; Victory 4 3-4's \$95.68.

Grains and Provisions

CHICAGO, (P) — Prices dropped sharply in the corn market today owing to lack of support. Favorable crop advices about corn and other grain as well did a good deal to make the selling side popular. The fact, however, that receipts were not so liberal as expected was unfavorable to something of a rally. Opening prices, which ranged from half to 1 3-4 lower, with July \$1.77 3-4 to 1.78 1-2 and September \$1.67 1-2 to 1.68 1-4, were followed by additional losses, and then by a moderate upturn.

Subsequently a decided upturn in the quotations resulted from news strikes of switchmen on western roads. The close was strong, 1 5-8 to 2c net higher, with July \$1.80 3-4 to 1.81 and September \$1.70 7-8 to 1.71.

Corn, after opening 5-8c to 1-5-8c off, including September at 84 1-4c to 84 1-2c, the market sagged a little further, and then recovered somewhat.

Packers selling weakened provisions. Lard in particular was under pressure.

Cash Quotations

PAUL SMITH, Clerk

BRYAN DECLARES McADOO IS UNDER HEAVY HANDICAP

Commoner Asserts Close Relationship to Wilson Hindrance to Former Cabinet Member; President Out of Running

LINCOLN, Neb., (AP)—Discussing possible democratic candidates for the presidency, W. J. Bryan in an article in his newspaper, The Commoner, published here, declares that former Secretary of the Treasury Wm. G. McAdoo is handicapped as a candidate "by his close relationship with the president" while President Wilson himself, he says, "need not be considered."

Asserting that Mr. McAdoo is also handicapped by "his silence on the peace treaty," Mr. Bryan declares Mr. McAdoo is unable to call to his support "those to whom the president's candidacy appealed with special force" and that he would "furnish an easy mark for all of the president's enemies." The article says, however, that Mr. McAdoo has considerable strength among wage earners.

Wilson Suggestions Vague

Referring to President Wilson Mr. Bryan says that "while vague hints and suggestions have been thrown out occasionally, no one claiming to speak for the president or near enough to him to be assumed to express his wishes has announced his candidacy."

Herbert Hoover is eliminated from the list of candidates whom Mr. Bryan considers "available" while Senator Owen of Oklahoma and Secretary of Agriculture Meredith are described as being "among the few available men thus far mentioned." To be available this year, Mr. Bryan asserts, a candidate must be "able to claim to speak for the president or near enough to him to be assumed to express his wishes has announced his candidacy."

As to Attorney General Palmer Mr. Bryan says he entered the campaign in a position "to deal sternly with the profiteer and an expectant public stood ready to applaud, but the profiteer seems to have things all his own way and the attorney general is suffering from the reaction." He adds that the attorney general is "unfortunate," too, in having to espouse the ratification of the treaty "without reservations."

Clark is Mentioned

Former Speaker Clark of the house of representatives is mentioned as having his own state behind him, while opposition to Governor Edwards of New Jersey and Governor Cox of Ohio is reiterated.

"Governor Cox's friends," the article declares, "will urge him as a compromise between the wets of the Edwards type and the bone drys." Vice-President Marshall is accused of making "a feeble bid for the wet vote."

Judge Gerard's candidacy has South Dakota's support and he has many personal friends among other delegates, Mr. Bryan says.

Increasing activity of women in politics.

Mrs. South, who is a daughter of former Senator Barlow of Kentucky, also was appointed assistant secretary of the national committee, an office created by the Chicago convention.

Following the announcement of the committee membership, Senator Harding and Chairman Hyde each issued statements, the former praising the organization work already accomplished and the latter declaring that a complete amalgamation of party groups had been brought about in the appointment of the committee.

Women Members

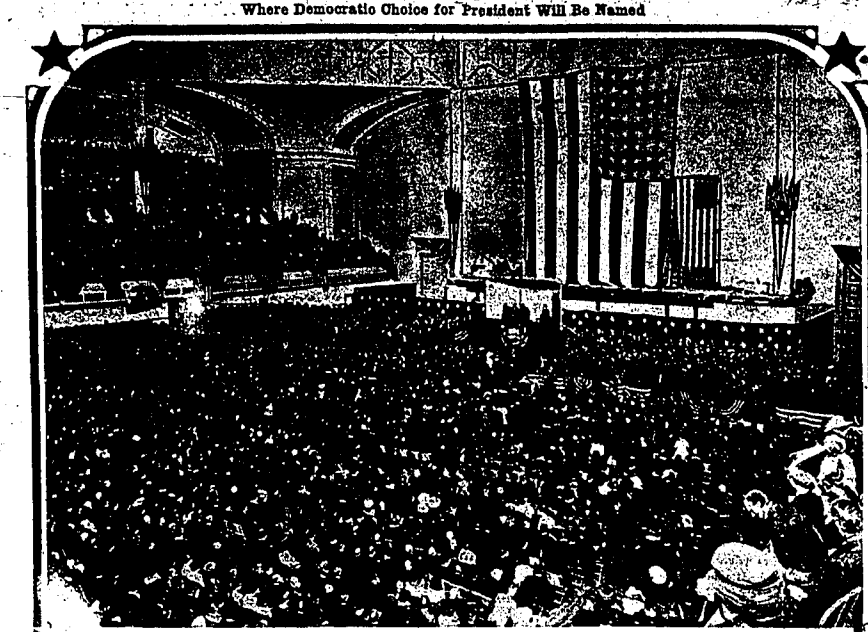

Of the women members of the executive committee, Mrs. Edison was active in supporting Senator Johnson of California for the presidential nomination, while Mrs. Foster is chairman of the Minnesota republican organization of women. Mrs. Robinson, a sister of former President Roosevelt, made the opening speech for Major General Wood at the Chicago convention. Mrs. Hyde has been active in organizing republican women in Utah, while Mrs. Livermore was described by officers of the national committee as being in great demand as a speaker.

NEW EVIDENCE LEADS TO NEGROES' ARREST FOR MURDER

ST. JOSEPH, Mo., (AP)—Parts of an iron bedstead, corresponding with the rails attached to a woman's headless body found in Lake Canby several days ago, have led to the arrests of 17 negroes. The bed parts were found in the negroes' rooming house district and the police made a general raid on the section. The 17 are held for investigation.

WILL ATTEMPT NON-STOP OMAHA TO NEW YORK FLIGHT

OMAHA, Neb., (AP)—A non-stop flight to New York will be undertaken on the return trip of the all-metal airplane which arrived here yesterday. John M. Larsen, the owner said today. Mr. and Mrs. Larsen came to attend a wedding.

An interior view of the famous Civic Auditorium at San Francisco which will be the scene of the 1920 democratic national convention, which opens June 28. The famous hall has a seating capacity of 12,000. Democratic leaders have almost completed the seating arrangements and it is thought that between 14,000 and 15,000 persons will jam the auditorium on the opening day of the convention.

BRYAN PREDICTS FIGHT ON PLATFORM POLICIES

Says Chances Favor Ratification with Reservations—Against Saloon

LINCOLN, Neb., (AP)—Prediction that the democratic national convention at San Francisco will witness fights over the peace treaty, the profiteer and the liquor issue, is made in an article by W. J. Bryan in his newspaper, The Commoner.

"The overwhelming opposition to the policy of ratification without reservations as shown by the vote at the primaries," he asserts, "will probably defeat any effort to make the treaty an issue in the campaign."

The article also says the democratic platform is likely to declare against universal compulsory military training, that the convention will have to deal with the subject of "private monopoly" and that the party will "insist upon the tollers right to equal treatment" and that woman suffrage will be endorsed.

JUSTICE DAY'S DECISION TO REPEAL LEVER ACT PROSECUTIONS

WASHINGTON, (AP)—Application for temporary injunction and stay in the proceedings instituted by the government under the Lever act against O. A. Wood, and the Sultzbach Clothing company, both of New York, has been denied by Associate Justice Day, of the United States supreme court, the department of justice was advised today.

Officials of the justice department declared today that "vigorous prosecution of violations of the Lever act would continue as a result of Justice Day's decision."

NEBRASKA LAUNCHES SUIT TO OUST PACKING COMPANY

LINCOLN, Neb., (AP)—A quo warrant proceeding against the Nebraska state supreme court by the attorney general, is designed, it was said at the attorney general's office today, to oust the Shiner Packing company of its position from the state and pave the way for its reorganization. Violation of the terms of orders issued by the state railway commission under authority of the state blue sky law is charged. A temporary order designed to preserve the status quo of the company while the case is pending, was issued.

SAN FRANCISCO CONVENTION CITY FOR PROGRESSIVE CHINESE

SAN FRANCISCO, (AP)—Leaders among Chinese from all sections of North America gathered here today in the first great national convention of the Chinese in this country devoted to the purpose of establishing better understanding between Chinese and Americans and cementing the friendship between the two peoples. The convention is under the auspices of the Chinese National Welfare Society of America.

FRENCH OIL ESTABLISHES NEW RECORD FOR AVIATRIX

PARIS, (AP)—Louise Favier, a well-known French aviatrix, today broke the record for altitude by flying to a height of 6,500 meters (21,325 feet).

Piloted by Lieutenant Bessoutout, the record was broken while en route for continuous flight in the airplane Goliath, Mademoiselle Favier in 35 minutes reached the greatest altitude ever attained by a woman.

WIFE'S ATTEMPT TO SAVE HUSBAND COST HER LIFE

COUNCIL BLUFFS, Ia., (AP)—Andrew Liddell died yesterday from injuries suffered when she attempted to rescue her husband from being gored by a cow. Mrs. Liddell grasped the tail by the horns and was herself attacked. Little hope is entertained for Mr. Liddell's recovery. Mrs. Liddell was nearly 80 years old.

JOHNSON BITTER OVER DEFECTION

Would Hold Up to Public Scorn Those who "Broke Faith" at Chicago

LINCOLN, Neb., (AP)—Frank A. Harrison of Lincoln, manager for Senator Hiram Johnson's Nebraska presidential preference campaign, who recently charged that "the treachery and desertion of the delegates from instructed states broke the heart of the Johnson movement," today made public a personal note from the senator in which the latter says he wishes to take steps to "hold up to deserved public obloquy and scorn" those who he said "broke faith" at Chicago.

Senator Johnson said he was going to do this in every state where the "crime" was done "so that the people may be protected in the future when they express their choice for president."

"To be frank with you I never doubted what the Nebraska delegation would do, but I knew you were exerting yourself to the utmost to prevent the betrayal. Let's make it impossible by branding these scoundrels and prevent a recurrence of such treachery."

In his recent charges against delegates from instructed states, Mr. Harrison declared that "just two men on the Nebraska delegation at all times tried to obey the instructions of Nebraska when the roll was called."

FRENCH RESTORE PRE-WAR ORDER IN WEST THRACE

Civil Administration is Pointed to in Adrianople as Example of Benefits to be Expected from Mandate

ADRIANOPLE, (AP)—The French administration, accompanied by a small army of occupation, in western Thrace, is being pointed to here as an example of the benefits a mandate would accomplish under the league of nations.

The French civil administration began its work in the latter part of last November, and in a country full of warring bands of various nationalities, it has brought peace and order, permitted the planting of crops, and the normal pre-war life of the country to be pursued.

When the French took over the country every man's hand was raised up against the other. Alarmist rumors about the arrival of the British and Greek, Bulgarian and Turkish troops were circulated frequently. The French took over the Bulgarian administration, and for the most part the Bulgarian civilian employees, whom the French found efficient. In order to insure the honesty of these officials, the French have adopted the system in many localities where the Greeks are in majority, of putting alongside of a Greek chief official, a Bulgarian secretary and vice versa in localities where the Turks or the Greeks are in majority.

The French have in all, including constabulary, not more than 500 of their own chief administrators. These are generally officers detailed from the army who have had experience in the French colonies. Thus with the skeleton French staff, the French have been able to obtain a reasonable efficiency.

When the French came they had 1,500,000 francs put at their disposal by their government for administrative ex-

penses but so far they have not spent one franc of this sum. They immediately levied indirect taxes and for the period they have been in the country these have been practically double the expenses of the civil administration.

Public order has been so easily maintained that in the district of Karagatch only three French gendarmes, each with 12 local men under him, were required. According to the French, the country would be reasonably prosperous, in view of its fertile soil, if order were maintained and the various nationalities were prevented from fighting.

INDICTS TAMMANY CHIEF ON INTIMIDATION CHARGE

Murphy One of Six Men Informed Against by Extraordinary Grand Jury

NEW YORK, (AP)—Chas. F. Murphy, Tammany leader, was one of the six men secretly indicted yesterday by the extraordinary grand jury, which has been investigating alleged attempts of Mr. Murphy to intimidate Louis V. Hartog, a manufacturer, into returning \$125,000 which he invested with Hartog's company during the war.

With Mr. Murphy were indicted Assistant District Attorney James E. Smith; John A. McCarthy, former business partner of John Murphy, brother of Charles F. Murphy; Arthur V. Baldwin, a lawyer; Ernest B. Walden, vice-president of the Corn Products company, and the Corn Products company itself.

The indictments, it was learned today, charged that the defendants conspired to coerce Hartog to settle a suit for \$700,000, which Mr. Murphy brought against Murphy after the latter is alleged to have withdrawn his support from Hartog's company. Bail for each defendant was fixed at \$1,000.

JAY AUTOISTS

The proposition of driving cars about
the streets of Twin Falls in the even-
ings with headlights blazing and blind-
ing everyone in the path would be less
ridiculous if Twin Falls had a street
lighting system commensurate with the
size and needs of the City, but at that
it is a foolish and dangerous habit.

In a majority of cities cars are com-
pelled to traverse city streets at night
with only the dimmers showing. Spot
lights are permitted not to all. In
Twin Falls the idea seems to be to get
the best of your fellow driver by using
a light more powerful than that of any
one else. It remains for some ambitious
driver to borrow the searchlight from
the Lavington theatre.

The practice is not only foolish but
positively dangerous. As to country
driving, there is probably no ground
left for hope. Not one driver in twen-
ty exercises the common courtesy of
dimming his lights upon the approach
of another auto, and no individual is
to be blamed at that for the reason that
the approaching auto probably would
not pay the least attention to such ac-
tion anyway.

A town does well not to acquiesce
a reputation for "jay" driving. Tourists
and visitors pay much attention to such
matters. But apart altogether from the
reputation of the City as a center of
auto popularity there remains the ques-
tion of public safety. And glaring
headlights are a menace to life and
limb to all concerned.

DISAPPEARING FORESTS

Consumption of timber is four times
present production in the United
States, according to a statement of Sec-
retary of Agriculture Meredith. This
is an alarming condition of things, es-
pecially in connection with the addi-
tional fact that three-fifths of the origi-
nal timber of the country has been cut.

Of course, there was a time when for-
ests had to be cleared to provide room
for crops, and when it was highly de-
sirable to get at least a portion of the
woods in any given district out of the
way of the plow, but that was a long
time ago. Since the early days of the
country uses of timber have increased
largely, including the great demand for
wood pulp for the purpose of paper
making.

Now we are compelled to find substi-
tutes for wood, to preserve our forests
by intelligent treatment, and to adopt
a national policy of reforestation. Sev-
eral states have gone into forest pre-
servation on an encouraging scale, but
the position taken by the forest ser-
vice, that a reforestation plan applying
to the whole country is needed, is the
correct attitude.

We can learn much about conserva-
tion of forests from the way in which
woodlands are preserved in England
and on the continent of Europe.

IDAHO.
Presumably taking a hint from the
song, everyone is looking out for "Alas"

Jimmy Valentine? In this case it is
Metro's screen version of the famous
Paul Armstrong drama with Bert Lytell
the star; and it is showing today at
the Idaho theatre.
As may be recalled, Jimmy Valentine
is a prisoner in Sing Sing on a charge
of bank robbery, who has earned the
sanctity of the brutal warden because
he always "plays" the gentleman.
Jimmy has the reputation of being a
master crackman who opens safes with-
out burglar's implements, relying upon
his extremely sensitive touch to feel
the slight jar of the tumblers in the
combination of safes. What followed
the effect of Jimmy's reputation and
the possession of this odd skill on his
after life—forms one of the most thrill-
ing, breath-catching melodramas ever
written.
