VOL. 3. NO. 87 TWIN FALLS, IDAHO, WEDNESDAY, JULY 21, 1920 FRIED FIVE CENTS

## RESOLUTE WINS HER FIRST RACE AGAINST SHAMROCK

### RAILROAD UNION LEADERS PONDER WHAT TO ADVISE

Reports from Meeting Room Indicate that Conservatives Disposed to Accept Board's Findings will Prevail

### DANGER OF IMMEDIATE STRIKE IS DISSIPATED

Less Dissatisfaction Apparent over Amount of Award and Desire for Peaceable Solution of Problem is Manifest

CHICAGO, (AP)—The United States railroad labor board today notified a committee representing the rail brotherhoods that the wage award case could not be re-opened. An executive committee of five had waited on the board to request a re-hearing in an effort to obtain further increases for some of the unions dissatisfied with the award handed down.

G. W. Hanger, a member of the board, issued the following statement: "The board has given full consideration to matters presented in this case and promulgated its decision in accordance with the transportation act and cannot re-open the case."

CHICAGO, (AP)—Whether to advise their men to accept or reject the \$600,000,000 wage award handed down yesterday by the United States railway labor board continued to be the question in railroad union circles today.

All reports from the meeting room indicated that the conservatives who are disposed to accept the board's decision will prevail. The powerful heads of the big four brothers are siding with the conservative faction, although their men did not face as liberally at the hands of the board as some others.

### Strike Danger Remote

Danger of an immediate railroad strike apparently has dissipated when the 2000 representatives of the 16 railway crafts resumed their conference here this morning to consider the \$600,000,000 wage increase granted by the railway labor board yesterday. There was less dissatisfaction apparent over the amount of the award on the part of the union men and a desire for a peaceful solution of their problem was manifest.

A factor which many believe may have considerable effect in a concerted effort to make toward acceptance of the award was the board's decision to make the increases retroactive to May 1. This feature would give the 1,900,000 railway workers a total of approximately \$150,000,000 to be distributed as back pay in lump sums.

### Strong Elements Favorable

While the general opinion among the representatives had not crystallized, it was reported that the locomotive engineers and shipmen had expressed their approval.

(Continued on Page Four)

### French Ultimatum Terms Accepted by Syrian State Head

LONDON, (AP)—A dispatch from Egypt to the French authorities here today says it is reported that Emir Feisal, head of the Syrian State, has accepted the terms of the French ultimatum. There has not as yet, however, been any official confirmation of this report, and latest dispatches to the British foreign office from Egypt say the French have declared that a state of war exists between the French and Arabs.

### TURKEY DECIDES TO SIGN ALLIED TERMS OF PEACE

Announcement of Decision to Accept Treaty Comes with Advice that Greek Army Has Entered Adrianople

CONSTANTINOPLE, (AP)—Turkey has decided to sign the peace treaty, it was announced officially today.

The Turkish war office was advised today that the vanguard of the Greek army had entered Adrianople.

### Civil Population Leaves

It was learned Tuesday through French sources here that scattered firing in Adrianople, where the Greeks and Turks have clashed, actually began July 19. Artillery and machine guns commencing the attack in which infantry later participated. This civil population, according to the Turkish war office, has been evacuated from Adrianople. The fighting is continuing according to advices to the Greek commission.

A Bulgarian airplane was shot down Sunday near Adrianople and the pilot admitted he was flying to the aid of Colonel Esfer Tavar, the Turkish commander at Adrianople. There is no verification of rumors that the Bulgars are attacking the Greeks.

### Look to Avert Uprising

Wholesale arrests were made here Tuesday in connection with an alleged plot to promote a general uprising of Moslems against foreign occupation. The confession of one of the plotters is reported to have implicated high officials of one of the potent powers in the alleged conspiracy which was directed chiefly against the British.

### Gives Preference to Coal to Northwest

WASHINGTON, D. C. (AP)—Railroads were ordered today by the interstate commerce commission to give preference and priority in the supply of cars for the transportation of bituminous coal consigned to lake ports for transportation to the northwest.

The order is effective July 20 and was issued on the recommendation of the commission of operating and railway executives as a means of providing against a coal shortage next winter in the northwest.

### PROHIBITIONISTS GIVE OVER FIRST SESSION TO TALK

Paucity of Candidates Leads Party to Forget Nominees at Opening of Convention and Devote Time to Speeches

### SUNDAY ELIMINATED BY ENDORSEMENT OF HARDING

Friends of Bryan Make it Plain to Delegates that Nebraska Will Not Accept Nomination if Offered

LINCOLN, Neb., (AP)—W. G. Calderwood, vice chairman of the prohibition national committee late today presented a resolution before the prohibition national convention calling for unanimous nomination of William J. Bryan as the party's presidential candidate.

LINCOLN, Neb., (AP)—Faced with scant official information that neither W. J. Bryan nor "Billy" Sunday would be available for a national ticket, the prohibition party forgot nominees at the opening of its convention today and sweltered through two hours of speech making in an unventilated auditorium.

Speakers spent the morning session in praising their own party and declaring that the democrats and republicans did nothing at their conventions but "throw stones at each other."

### Reluctant to Give Up Bryan

It was made absolutely certain to the delegates today by friends of Mr. Bryan that the Nebraska will not accept the nomination if it is offered him. Delegates apparently were reluctantly coming to the conclusion that his wishes must be respected and it was believed he would not be placed in nomination.

"Billy" Sunday's statement in Hood River, Ore., last night that he was "satisfied with Harding" was considered as eliminating him. Leaders seemed certain, however, that a candidate would be chosen and Henry Ford was being mentioned in many quarters.

### Hinsaw is Non-committal

Virgil Hinsaw, national committee chairman, opened the convention with a speech which was non-committal on the party's future presidential plans but a "powerful ticket" he placed in the field.

About 200 delegates and 300 visitors were present. Platform and other usual committees were appointed and started immediate work.

### Woman Chosen Chairman

For the first time in the history of national politics a woman has been chosen permanent chairman of a national convention. Miss Marie C. Brehm of Long Beach, Cal., was given that honor today by the prohibition national convention.

## Handicap Gives Victory to American Defender of Cup

Lipton's Craft Finishes Course 18 Seconds Ahead of Resolute and Loses by Time Allowance Only

SANDY HOOK, N. J., (AP)—The American defender Resolute today defeated Shamrock IV in their series for the America's cup by her time allowance and not a second more. She must take two more straight victories to prevent Shamrock lifting the trophy.

Taking the lead after the start, the American sloop held first place on most of the first leg, a fifteen miles boat to windward turned the mark first, and held almost to the finish line. Within a mile of the finish Shamrock drew alongside, but Resolute, granted a time allowance of seven minutes and one second was safe.

Today's tie, boat for boat, was the first in the history of the cup races. The finish of the first race won by Resolute in the 1920 regatta not only recalled the famous race between Shamrock II and Columbia in 1901, when the yachts finished two seconds apart.

The next race will be Friday. Had it not been for the time allowance which the challenger had to give she would perhaps have won, because she finished 19 seconds ahead of the defender. She crossed the starting line, however, 19 seconds ahead of Resolute and so lost for boat lost the race by one second plus the seven minutes and one second she had to give the defender.

### Race Boom to Boom

On the race home, with a ten knot breeze behind them, the two yachts with every sail ballooned out in the

breeze made a pretty picture. They raced along beam to beam and from shore looked like twin spires of a great cathedral.

The sea was crested with white caps from the wind, which carried the racers along so fast that many of the smaller excursion craft were much put to it to keep up with the sloops.

Resolute, rounding the turn with two minutes and four seconds to her credit on elapsed time, plus a time allowance of seven minutes and one second, took no chance of losing the race and broke out her spinnaker and later her balloonier with seaman-like speed.

### Tie on Elapsed Time

Starting a long stem chase, Shamrock steadily cut down Resolute's lead until within the last mile she came alongside the defender, passed her and crossed the line 19 seconds ahead of her by official calculation. This, therefore, would mean that the yachts, boat for boat, actually had tied on elapsed time.

### Resolute Fights Hard

Fighting hard to prevent Shamrock IV winning a third victory—which would mean that Sir Thomas Lipton would finally lift the America's cup

(Continued on Page Four)

### EARLY PROSPECT NOT AUSPICIOUS FOR FAST RACE

Flat Calm Prevails when Skippers and Crews of Lipton's Sloop and American Cup Defender Begin to Make Sail

SANDY HOOK, N. J., (AP)—A dead flat calm with a bit of a ground swell in the America's cup racing lanes were prevailing wind and water conditions this morning when skippers and crews of Sir Thomas Lipton's Shamrock IV, and the American defender Resolute swarmed on decks to get up sail for the day's contest which may mean return of the cup to the other side of the Atlantic.

A victory for the Shamrock would end the only series of yachting supremacy of the sea back of Great Britain. Resolute must capture three straight races in order that the cup may still remain in the trophy room of the New York Yacht club where it has resided continuously for well over fifty years.

Early prospects today were not even promising for a drifting match and the hopes of the yachting enthusiasts for at least one good race in a real wind disappeared with the first weather observations.

The streaky winds that favored the Lipton craft yesterday and brought a winner over the finish line vanished entirely in the night.

### Both Crews Determined

The racing crews took one squint at the weather and they went to work making sail. The sailmen of Shamrock were eager at their toil because a victory for them today meant the winning of the America's cup. While the crew of Resolute, determined to turn the tide of victory their way, went to sailmaking with a right good will. Resolute's sailors declare Sir Thomas had a better knowledge of the wind and tide conditions.

The fisher folk hereabouts insist today that Shamrock could never have beaten the American boat without Captain Andrew Jackson Applegate, Senior, N. J. fisherman, who sailed on the Lipton sloop yesterday and imparted to Skipper Burton a better knowledge of wind and tide conditions.

The American had a big hand in turning a trick for the United States, "anyway," say the fishermen, who can not decide whether they should make Captain Applegate a hero or otherwise.

### Ships Jersey Fisherman

Resolute also plans to take aboard a Jersey fisherman for his knowledge of local tide and wind conditions. It was said today that a Red Bank skipper had been shipped.

Colonel Duncan Neill, Sir Thomas' representative on the Shamrock, said today that yesterday's contest was almost a duplicate of that of Saturday.

"We got the wind yesterday and were lucky," said Neill, "while the Resolute held the wind on Saturday, but unfortunately for her, was unable to finish before the time limit."

After getting up sail, Shamrock at 8:45 took a tow for the starting line. Resolute was still at her mooring, getting up her canvas.

Resolute also took a tow for the starting line.

A southwestern wind blowing in the lower bay at 10:30 encouraged belief that a start could be made on time.

At 11 o'clock the wind had dropped to three knots and off Sandy Hook the sea was scarcely ruffled.

Shamrock righted the lightsail at 11:15 and signalled intent to start. Resolute also reached the starting point.

### Signals for Start

The preparatory signal was blown at 12:45 for a start at one o'clock. The wind was very light but the yachts seemed to pick it up and moved fairly fast.

The warning signal was blown at

(Continued on Page Four)

## Republicans Gathering for Ceremony of Notification

Confidence Reflects the Popular Conviction G. O. P. Success Essential to National Welfare, Declares Chairman

### SPECIAL TRAINS CARRY CROWDS TO OHIO TOWN

COLUMBUS, O., (AP)—Members of the executive committee of the republican national committee arrived here today for a meeting to discuss campaign plans before going to Marion tomorrow for the ceremonies at which Senator Warren G. Harding will be notified of his nomination for the presidency.

Among the first to arrive were Will H. Hays, national chairman, and Senator Lodge of Massachusetts.

The notification arrangement committee, headed by Mr. Coleman, of Delaware, planned to meet following the session of the executive committee.

Among those expected at the meeting of the executive committee were Fred W. Upham of Illinois, Charles R. Miller of Minnesota, John T. Adams of Kentucky, Mrs. Corinne Roosevelt Johnson of New York, Mrs. Jeanette A. Hyde of Utah, R. B. Howell of Nebraska, A. T. Hart of Kentucky, John W. Hart of Idaho, J. L. Hanson of Oklahoma, Mrs. Manly L. Fussen of Minnesota, Mrs. Catherine Phillips Edson of California.

Many republicans from all parts of the United States were arriving here today ready to make the pilgrimage to the notification ceremonies at Marion tomorrow. Special trains and traction cars will be run to Senator Harding's home town and hundreds will go by automobile.

In advance of the meeting of the executive committee, Chairman Hays said only general campaign plans would be considered and that nothing of particular interest was expected to arise. He declined to comment on Governor Cox's demand in his speech yesterday before the democratic national committee that the republicans should be "republicanized" as an evasion of duty, but he interpreted as arising from devotion to the integrity of the nation.

Mr. Hays issued this statement: "Republicans everywhere are 'republicanized' to go. This unprecedented republican confidence simply reflects the conviction that the republicans are the only party in national welfare."

### FEDERALS LOCATE VILLA

Troop Movement Begins from Three Points in Attempt to Surround Bandit

EL PASO, Texas, (AP)—Francisco Villa, with 250 men was reported 25 miles east of Conchos station on the Mexican national line Tuesday, according to a dispatch reaching El Paso today. In an effort to surround him, movements of troops have begun simultaneously from El Paso, Pinal and Mesquite.

### Square Meeting of Wilson's Challenge Regarded as Likely

MARION, O., (AP)—Senator Harding's speech of acceptance, to be delivered here tomorrow, is expected by his close associates to give prominence to the foreign policy of President Wilson and the league of nations in such a way as to advance the campaign to break a squarely joined issue between the two political parties.

Those who know the mind of the presidential nominee declared their confidence today that he would make a declaration squaring with the party platform and the party record and bridge the chasm between the two parties.

The exact form of the declaration was not revealed, but it was said authoritatively that it would follow the trend of the senator's recent statements and would be particularly militant in its opposition to the Wilson policies.

In addition to declaring unthinkably the acceptance of the league of nations, it was expected that, however, the senator is expected to express in direct terms his belief that America should not remain isolated and to take the position that the war's sacrifices were in vain unless there is established a new order with added security to peace and civilization.

It is regarded as unlikely that the nominee will enter into a detailed discussion of the league covenant or will make millions of dollars worth of interpretations. He is expected rather to hold his utterances to the broad principles involved, hinging his argument to a plea for American rather than the world ideal.

He is believed certain to couple with this a declaration that the failure of the United States to accept Mr. Wilson's league will not be construed as an evasion of duty, but will be interpreted as arising from devotion to the integrity of the nation.

## WAR DEPARTMENT TO RELEASE MORE CANNED MEATS AT REDUCED PRICES

WASHINGTON, D. C., (AP)—In an effort to combat the high cost of living, the war department soon is to place millions of dollars worth of canned meats on the market at prices below even pre-war quotations said an announcement today from the office of the director of food administration.

The meats, which will be offered for domestic consumption exclusively, are stored in every section of the country and will be disposed of through wholesale and retail stores from one end of the country to the other. The director of sales also announced that it had enlisted in this work the services of 60,000 postmasters, 5000 bankers and

the mayors of every city and town.

Included in the meats are canned cornbeef, corned beef hash, roast beef and corned beef hash.

"Every dealer, from the largest wholesaler to the smallest retailer, is being given an opportunity to make purchases at prices which are considerably below the prevailing market ones," said the announcement.

"The canned meats are the best that the American packers could prepare. Their quality is the highest. They were packed under government supervision and the war department is standing back of every can sent from any army supply depot."

## World News Events

MADRID, (AP)—Tobacco workers revolted Tuesday, declining to labor in shops where syndicalists are employed. The police intervened and the government has threatened to close the factories if disorder continues.

ROME, (AP)—As a result of clashes which occurred on Monday between crowds and tramway men who were resuming work after having been on strike for several weeks, another strike, limited to Rome, has been declared. During Monday's disorders demonstrators entered the offices of the socialist journal Avanti, smashed the printing machinery and burned bundles of papers in the streets.

LONDON, (AP)—Fighting in Avalona, Albania, is reported in a London Times dispatch from Milan. Italian warships and coast artillery bombarded the Albanian positions, which replied with rifle fire. The movement of Italian troops is increasing rapidly.

### ORDER BOX CARS TO WEST

Railway Executives Committee Takes Action to Assist in Moving Crops

WASHINGTON, D. C., (AP)—Movement of 25,000 additional box cars from eastern and southern roads to western lines to assist in handling the new grain crop was ordered today by the commission on car service of the Association of Railway Executives. The movement will begin July 25 and run time for 30 days.

This is the first line with directions issued by the interstate commerce commission and a renewal of orders in effect for the 30 day period ending on July 24.

### NON-PARTISAN LEAGUE IN WASHINGTON NOMINATES

Townley Convention at Yakima Names Former Seattle Port Commissioner for Governor

YAKIMA, Wash., (AP)—Washington members of the Non-partisan league, in convention here, have nominated a ticket for the coming state election, it was announced today. Robert Bridges, formerly a Seattle port commissioner, was nominated for governor.

# RAMADAN TIME OF TRIAL FOR MUHAMMEDIANS

Moslems Do Without Food,  
Drink and Tobacco from Sun-  
up to Sundown During Period  
of Religious Observance

CONSTANTINOPLE, (P)—Moslems have just been observing Ramadan, a month of trials to all classes especially to laboring men, who are supposed to go without food, drink and tobacco from sunup to sundown. Turkish restaurants are watched carefully by Mohammedan policemen, who are instructed to arrest customers and owners alike if any of the followers of Allah violate the laws of the Koran. The Koran is a book of laws, and especially those which have private rooms, become very popular with Mohammedans during the 28 days which are supposed to be given over to fasting and prayer. Big guns are fired in Constantinople to indicate sundown and the rush of Turks to coffee houses and restaurants approaches a riot in Syria and other Turkish sections of Constantinople. Recently evening target practice of the British fleet has frequently been confined—many times intentionally—with the food gun as Moslems have broken their fast ahead of time. Hot weather has made Ramadan especially trying, as the followers of the great prophet are not supposed to drink water during daylight hours. Fasting makes the Turks so irritable and impatient that it is extremely difficult to transact business with them. Ramadan is a time of trial for all. Turkish men and women who are unemployed, as they merely sleep through the day and turn right into a time of fasting. Throughout Ramadan all the minarets of Constantinople are ablaze with electricity. The Turkish streets are crowded at night, bands play everywhere and firecrackers are discharged wherever the allied military officers do not prohibit.

## UNIVERSITY PAYS HONOR TO WIZARD WITH WHEAT

Degree of Doctor of Laws is Conferred  
Upon Man Whose Growing Meth-  
ods Have Created Millions

PRINCE ALBERT, Canada, (P)—Sengor Wheeler, "wheat wizard," whose improvements on growing methods have made millions of dollars for Canadian farmers, has been conferred upon him the degree of Doctor of Laws by Queen's University, Kingston, Ontario. To wheat, Wheeler, his friends say, is what Luther Burbank was to flowers. By selective breeding he originated the Marquis wheat, now western Canada's staple wheat. Red Robs, his latest, ripens ten days earlier than any other wheat, by escaping frost. It is ex-pected to extend the wheat belt from 100 miles north. Wheeler's production of eighty-two bushels an acre is said to be a world record. The research visit Wheeler's Saskatchewan farm yearly to study his growing methods. Although others have profited, he, it is said, has remained a comparatively poor man. "You have added enormously to the wealth of Canada and every settler is a gainer by your researches," R. Bruce Taylor, president of Queen's University, said in conferring the degree. "What you have done can never be undone."

## FOLLOW CRUSOE'S EXAMPLE

Two American Sailors with Native  
Brides Thrown Up on Desert Isle

YOKOHAMA, Japan, (P)—Two American sailors named W. V. Dawson and E. Clifton have reached here after exciting experiences in the South seas. Their term of naval service expiring on the American island of Guam they wedded native daughters of Uncle Sam's island and decided to take a honeymoon trip to Australia. They embarked in a 40-foot launch. Underestimating the distance they soon discovered that their food and fuel were exhausted. They reached the German island of Yap, where later they embarked on a Japanese naval supply steamer for Yokohama.

## MACHINERY ON WAY FOR ALASKA'S FIRST PAPER MILL

JUNEAU, Alaska, (P)—Machinery for Alaska's first pulp and paper mill is reported on its way north from the east. The new mill is to be built on the Skeed river, near here. A sawmill is already at work on the ground cutting timber for the buildings and docks. Water power will be used exclusively.

## PAJAMAS GIRLS' GIFT TO WALES

SYDNEY, Australia, (P)—Six hundred Blythe shop girls have given to Wales a pair of pajamas when he was here recently. The pajamas were made in the shops where the girls are employed. The prince shyly accepted them.

Some price quoted in one of today's ads may mean a saving for you—even today.

# NO HOPE FOR GERMANY IN BEATEN CANDIDATE'S VIEW

Baron Von Richthofen Says the  
Election Put Nation in the  
Hands of Entente

BERLIN, (P)—All hopes of American credits must definitely be abandoned as a result of the outcome of the reichstag elections and the fate of Germany consequently will be completely in the hands of the entente, according to Baron von Richthofen, defeated democratic candidate, who outlines his views in a long article in the Boersen Zeitung. Americans were not unfavorably disposed toward Germany's political and economic future, Baron Richthofen continues, but the defeat of the democratic program at the elections disappointed many fond hopes based on that fact. "We must expect Americans will demand priority for any of their credits over the allied indemnity claims, which means the final decision will lie with the entente," he believes.

## PARISIANS BUILD HOPES ON STATE TRAFFIC PLAN

Vast Improvement in Slow and Inade-  
quate Surface Transportation is  
Expected

PARIS, (P)—Paris' slow and inadequate surface transportation is expected to be vastly improved beginning next year when the department of the Seine, which is Paris and its suburbs, is to take over all systems. Payment is to be made in 30 annual installments now fixed at nearly 40,000,000 francs each but which the authorities hope may be driven a little lower by some more bargaining. There are 117 street cars and 44 autobus lines operating, 2,540 cars and buses. The companies are capitalized for 420,000,000 francs. The city and the department formerly operated the surface transportation systems but the franchises were given to corporations that have evolved a puzzling network of lines but few of which give transfers. The two subway companies are not involved in the deal.

## BRITISH PAPERS LAMENT GIRLS GAMING PENCHANT

Declare it Common Thing for Women  
in All Walks of Life to Lay  
Heavy Wagers

LONDON, (P)—Some of the London newspapers lament that English women and girls have gone "betting mad" and that it is a common thing for girls in offices, on the stage, married women and even school girls to lay wagers varying from six pence to a pound. "Why shouldn't we gamble?" one pretty office girl asked. "Now war is over we must have some harmless excitement, mustn't we?" "Some of us bet on tennis and golf on engagements to carry, and even on what word people will open conversation with." A business man complained his office girls "chatter more about their bets than their work" and another declared the cook seemed "more concerned about odds than ovens." "She has even incited my wife to making bets," he added.

## JAPANESE SUGAR INVADERS HAWAIIAN ISLAND MARKET

Imported Commodity Threatens to Un-  
dersell Native Product; Dealer  
Geta Supply

HONOLULU, T. H., (P)—Japanese sugar has invaded the Hawaiian market and threatens to undersell the local product. On the last voyage of the Japanese liner Siberia Maru, she brought 400 tons of Formosa sugar for a Japanese dealer of Honolulu, who says he can make a handsome profit and still undersell Hawaiian sugar by a large margin.

## CONTINUE SEARCH FOR OIL

VICTORIA, B. C., (P)—Investigations of oil possibilities of the Pence River country of British Columbia are to be continued this summer by the provincial government. T. D. Patton, minister of lands, has engaged Dr. John A. Dresser, Montreal geologist, to head a party into the section to complete work started last year.

# FEHRENBACH TURNS FROM THEOLOGY TO LITIGATION

New Chancellor of German Republic  
Displays Marked Ability as Par-  
liamentarian

BERLIN, (P)—Constantine Fehrenbach, the new chancellor of the German republic, is a Roman Catholic member of the Centrist party. He is 48 years old. He was intended for the church and studied at Freiburg University, but abandoned theology for the law, and established himself as an attorney at Freiburg where he held several local public offices and in 1903 was elected to the Reichstag. As presiding officer of the last Reichstag and of the National Assembly in difficult positions he displayed the ability of an accomplished parliamentarian. His impartiality won the respect of all parties. He is of a portly figure, and is a ready extemporaneous speaker.

## GOVERNMENT PENSIONS AGED INDIAN WHO SAVED WHEATON

ALTURAS, Cal., (P)—Charley Faithful, the Modoc Indian who years ago, saved the remnant of General Wheaton's command from annihilation during the war of the lava beds, still lives on the Klamath Indian reservation here and draws a pension from the government. He is now blind. On January 17, 1873, General Wheaton, on a campaign to drive the Indians, was held in the hands of the Indians, but was rescued by the loss of forty-one of his command. Caught in the mazes of the lava flows, it is believed that every man would have perished but for Charley Faithful. On a pitch-dark night Charley piloted the soldiers to a line of bluffs several miles distant, where they were able to make a successful stand.

## TAHITI ISLANDERS ANTICIPATE INVENTION OF AIRPLANES

PAPEETE, Tahiti, (P)—Tahiti natives used big kites for airplanes long before flying machines were invented, according to native traditions. On a cliff at Taiarapu in Tahiti there is a projecting rock marked round about with deep worn grooves. This is one of the numerous separate rocks from the main island by a wide bay. Here, it is said, the old natives were accustomed, when the wind was in the right direction, to fly enormous kites, attaching the ropes to the projecting rock-kites large enough to support a man and often on favorable days a man would, by using the kite as an airplane, and then as a parachute, accomplish safely the journey across the bay.

## JAPAN COMPLETES LAST BOAT FOR THE U. S. SHIP BOARD

TOKIO, (P)—The Eastern Sword, the last of the 33 steamships to be laid down for the United States shipping board, has been completed at the Uraga yards, according to a report issued by the shipping bureau of the department of commerce. The aggregate tonnage of the 33 shipping board vessels built in Japanese yards is 273,350 tons.

The steel used in the construction of the vessels ordered by the United States shipping board was partly supplied to Japan by the United States in exchange for the construction of the ships.

## DEFECTIVE ORDNANCE STORES ARE DUMPED INTO SEA

HONOLULU, T. H., (P)—Forty tons of condemned hand grenades, primer caps and other defective ordnance material belonging to the Hawaiian department of the army were taken out to sea and dumped overboard recently. During the war regular practice in hand grenade training was held here, but since the armistice this class of instruction has fallen off. As the grenades will not keep indefinitely and are dangerous, they were dumped into the sea.

# SEATTLE POLICE ON TRAIL OF GASOLINE "BOOTLEGGERS"

SEATTLE, (P)—Gasoline "bootleggers," who are obtaining large quantities of gasoline and retailing it at high prices, are being sought by Seattle police. Most of the "bootleggers," as the officers term them, are truck drivers, who under oil company rules, can obtain more gasoline than drivers of pleasure cars. The truck men, it is alleged, sell their gasoline to the pleasure car drivers at big profits, during the gasoline shortage.

## WALES' DANCING PARTNER MOST TALKED OF WOMAN

MELBOURNE, Australia, (P)—Miss Gertrude Courtney Dix is probably the most talked of young woman in Melbourne. Up to June 4 she had danced eight times with the Prince of Wales. At the first federal government house ball, soon after the prince reached Melbourne, she selected her as dancing partner, unaided and without introduction. Miss Dix is the daughter of a public accountant. She "came out" two years ago.

## SUBSIST FIFTEEN DAYS ON DIET OF DRIED FISH ONLY

LIHUE, Island of Kauai, T. H., (P)—Three fishermen, two Hawaiian and one Korean, recently cast up on the ocean beach here, reported they had been drifting at sea fifteen days. For eight days they were without water and with only dried fish to eat. The men lost control of their boat when their motor gave out while they were deep sea fishing.

## FELL ANOUST YELLOW PINE

QUINCY, Calif., (P)—A yellow pine tree cut near here recently was said by woodmen to be 258 years old. The tree yielded 12,140 board feet. A narrow section was shipped to Washington, D. C., for exhibition in the bureau of forestry.

# RULE CHANGES ARE NOT LIKED BY THE MAJORS

## Ball Magnates Soon Discard Revisions when in Practice They are Not Wanted

By I. E. SANBORN.

Already this season two rule revisions made by the major leagues last winter have been discarded, the explanation being given that they were found impractical. A third one, which is more impractical than the others, ought to be dropped.

The discarded rules are the one that included among dead balls those which connect with the batsman's base, and the one that included among dead balls those which connect with the batsman's base, and the one that included among dead balls those which connect with the batsman's base.

Returns to First Principles. The home run provision was the first to be changed back to its original form, so that a ball over the fence is now called foul or fair, according to where it disappears. Experience proved it was difficult for an umpire to guess when a batted ball cleared the fence unless said umpire was near the fence or screen. Return to first principles did away with a lot of wrangling, which is something base out of play, temporary. That is to say, patrons do not pay increased prices to see.

Next to be abrogated was the rule which absolved the batsman from an unjust strike or an easy out when he was unable to get his bat out of the way of a wild pitch. The decision was left to the umpire's judgment, and produced more wrangling. That was the only reason for not retaining the new provision, which was decidedly a good one. In this case the abrogation was not wise because the wrangling would now have disappeared as the players were supplied because accustomed to the new rule. Any change is provocative of argument in baseball until it is assimilated.

Infield Fly Causes Trouble. Recently a protested game grew out of the new interpretation of the infield fly rule, which still is retained, but which ought to be tossed into the discard. Philadelphia protested a game won by the Giants because of a decision by Umpire Harrison calling out a Philadelphia runner who advanced on a muffed infield fly. On the face of the returns the umpire was correct, according to the new interpretation, which allows the base runners to try to advance on an infield fly, but at their own risk.

Formerly an infield fly, with first and second bases occupied, and less than two out, operated to suspend play by practically putting the ball away from an outfielder. A runner declared a batsman out automatically on a pop fly nothing else could happen until the ball was caught or muffed. Then the runners were released in case of an error, but they had to stay on their bases until the ball hit the infielder's hands or the ground.

Advance at Player's Risk.

Now the runner is permitted to leave his base with the ball in the air, and take a chance that it will be muffed. If the runner is caught, he cannot get back. The argument that put this over was that if a runner could advance on a muffed fly by an outfielder without touching his base he ought to be allowed to do so on a muffed infield fly.

The cases are not at all the same. A batsman is not out on a fly that is muffed by an outfielder, but he is out on an infield fly under certain conditions whether it is caught or muffed. When these conditions exist, the runner is out. When the conditions do not exist, the runner is not out. When the conditions do not exist, the runner is not out. When the conditions do not exist, the runner is not out.

Here's One for Rulemakers.

Here is a tangle that came up once on an infield fly. The batsman was automatically called out, but the pop fly came down exactly over second base and hit the base runner, who was standing on that bag. The contention was that the runner was out, for being hit by a batted ball. But the league decided that both the batsman and base runner could not justly be called out in such a case, since the fly was not actually caught, and the runner was standing in his proper place on the base, where he belonged. So it was ruled that the automatic out on an infield fly put the ball out of play.

The 1920 interpretation changes all that, and we would like to know what the rules of the big leagues should decide in case a base runner should be hit by an infield fly while taking a chance of advancing on a muffed fly. The runner would not be entitled to immunity under the 1920 interpretation, since the ball remains in play, and still there is no provision for calling the batsman out when a runner is hit by a fair ball.

BEFORE THEY GROW BIG and annoying, classified advertising will solve your little worries. If you find it to your immediate interest to sell property, classified advertising will enable you to cut out the worry which fear delay might occasion for you.

### GRAND CIRCUIT RACES

KALAMAZOO, Mich. (AP)—For the third consecutive time in as many years Charlie Valentini piloted a Ford Launched to victory over the stake drivers. He was winner yesterday afternoon in the 20th Park American event, taking the first and third heats, but losing the second to Symbol S. Forrest. It was the first heat in which the Valentini team has failed to finish in front.

"Pop" George had a good day, winning two events handily. He upset the talent by taking the 2:10 trot in straight heats with Herbolyn, thereby decisively defeating Norman Dillon, the favorite. He also won the 2:08 trot with Peter June. The 2:07 pace was won by Princess Mary, driven by Fleming. She finished sixth in the first heat and then came along and took the next two. The crowd was large and the track fast.

### Brief Bits of Sport

There was no fluke about that one, though.

And just for that Resolute will have to show the real stuff on Thursday.

When Georges Carpentier reached the home port of Paris Monday he was given a great ovation by the entire populace.

We don't know what it was all about, unless the home folks were glad to have their hero back safe and sound and altogether.

Which same might not have been the condition if he had met a few of the fellows on this side of the pond.

Al Gould, doughty little flinger, has pitched one game for Salt Lake and won. The former Cleveland joined

# MILITARY PARTY IN CHINA OFFERS TO CAPITULATE

## General Tuan Chi-Jui Submits Terms with Resignation while Terms with the Resignation which is Not Accepted

PEKING, (AP)—Peace terms, amounting to complete capitulation of the military party, have been offered by General Tuan Chi-Jui, the army commander, it was stated here Monday. The terms are being communicated to the leaders of the Chihli faction.

Tuan Chi-Jui, it is said, being confronted with the consideration of unmountable difficulties, tendered his resignation, but President Hui-Shih Chang has not accepted it.

The peace terms, which accompanied the presentation of his resignation, included the punishment of General Hui-Shih Chang, the former resident commissioner of Inner Mongolia who refused to recognize the Chihli faction, the discharge of all troops under the command of Tuan Chi-Jui, the dissolution of the parliament, the dismissal of three Anfu ministers and the suppression of the Anfu club.

## EARLY PROSPECTS DAMPEN HOPE

(Continued from Page One)

12:55, when both sloops were jockeying for position.

Just before the start of the race the two sloops shifted headstails several times. When the warning signal came they were working back and forth to windward of the line.

## Shamrock Crossed First

Shamrock crossed the line 22 seconds after the starting signal had been blown and Resolute followed 41 seconds after the starting signal.

Captain Adams of Resolute made no effort to gain the lead, and let Shamrock cross the line first. Both yachts crossed on the starboard tack within fifty yards of one another. Both tacked a few minutes after the start and 1:10 were hauling away for the Jersey shore.

Resolute worked out about 100 yards to windward, but Shamrock was footing faster and was well ahead. It looked as if Shamrock could cross the defender's bow.

At 1:30 both boats were still holding the port tack for the Jersey shore, with Resolute a quarter of a mile in lead and Shamrock a half mile. Shamrock had increased her lead to three-eighths of a mile.

## Challenger Holds Lead

At 1:40 Shamrock was well ahead of Resolute and it seemed as if she could cross the defender's bow if she went about the starboard tack. It looked as if she would have a margin of several yards in crossing. Shamrock, with her Sea Bright pilot aboard, was evidently holding inshore for a fair breeze. Shamrock was ghosting along in surprising fashion with a small breeze in her teeth as she headed inshore to catch the breeze that came off the Jersey shore. Her crew lay along the weather rail and Captain Burton, at the helm, on the edge of the wind. Far to weather was Resolute, but the defender evidently had been reached on the long port board inshore. At 1:50 Shamrock was within two miles of the shore and seemed to be coming right into the arms of spectators. She seemed to be getting a better breeze than Resolute and to be steadily gaining. On the tack inshore Resolute seemed to have trouble pinching to windward.

## At 1:52 Shamrock Tacked out to Sea

Resolute held onto the port tack and the two yachts began to converge. Then Resolute managed to cross Shamrock's bow at 1:55 and then tacked to starboard.

Resolute tacked to port a minute later, but came about and established herself on Shamrock's weather port.

Resolute was leading by 100 yards.

As the two sloops stood inshore Shamrock again endeavored by footing to force to reach her rival, but Captain Adams kept Resolute higher along the wind and ate further out to weather. Both yachts seemed to lose speed as they shot under the lee of the shore.

At 1:58 Resolute was leading by 200 yards and the wind had breezed up to six knots.

Working down from the Shrewsbury gas buoy, Skipper Burton broke out a tiny baby big top, hardly larger than a woman's handkerchief, over the head of Shamrock went over on the starboard tack and approached Resolute, which was working inshore on a port board. As the yachts approached each other, Captain Adams threw Resolute over on the starboard tack, whereupon Shamrock came about again on the port.

## Advantage With Defender

Boat for boat, it was a tight race, with the advantage so far lying with Resolute which crossed the line 19 seconds behind the challenger and now was leading by probably ten seconds at this point.

Resolute went about at 2:05 and both yachts stood inshore, making a pretty thrash to windward under the shadows of the Jersey headlands. Both

# FARMER-LABOR NOMINEE WORKS TO FREE DEBS

## Suggests to Harding and Cox Joint Demand upon President for Immediate Release of the Socialist Ticket Head

DENVER, Colo., (AP)—Parley C. Christensen, farmer-labor party candidate for president, today telegraphed to Senator Harding, republican nominee and Governor Cox, democratic candidate, suggesting that all join in a demand upon President Wilson to immediately release Eugene V. Debs from prison.

The text of the message follows: "I have been selected by the farmer-labor party as its candidate for president of the United States. It is my intention to inaugurate as quickly as possible a nation-wide campaign in behalf of the release of Eugene V. Debs, a political and industrial democracy embraced in the platform of that party. But I dislike utterly to start on such a campaign while one of my opponents is in prison, and especially while he is in prison for no crime other than an honest public expression of his political views. I refer to Eugene V. Debs, nominee of the farmer-labor party for president. The war has been over for nearly two years, and whatever justification there might have been on the part of the government for denying Debs his freedom during the war has now been dissipated by 20 months of peace. Mr. Debs may be utterly wrong in his ideas of how best to conduct the affairs of society, and so may be a social no-account, but I believe that he has the right to think wrong. I say to Mr. Debs and to others with whom I disagree, including the candidates of the republican and democratic parties, 'I loathe your ideas as much as I loathe the right to think wrong. I will defend with my life your right to express them.'"

## Does it Not Appeal to you as a matter of simply justice that the president, the candidate of the democratic, republican and farmer-labor parties should join in a demand upon the president of the United States to immediately release the socialist candidate from Atlanta prison? As for me, it shall not be said that I have been a party to the persecution of any man for the opinions he holds, and I should announce my condemnation of the imprisonment of Debs since I have entered a race in which he is a competitor. I have no objection to your having led you, since your nomination, to consider the position of Debs. I beseech an answer from you to this proposal."

## RESOLUTELY WINS

(Continued from Page One)

Resolute rounded the half way mark in today's 30-mile windward and leeward contest, well ahead of Shamrock. Resolute turned the mark at 3:21:21, unofficial time, and Shamrock at 3:23:06.

First Leg Pretty Race.

The first leg, a 15 mile beat to windward, furnished a pretty race as the two yachts headed in until within a mile of the Jersey coast. Then Shamrock crossed the line 19 seconds ahead of her rival and after a short bit seaward, both took a long board inshore. The Shamrock footing faster, crept up three-eighths of a mile ahead of Resolute, but the defender worked better to windward, the challenger apparently stood too far inshore and when they came about on a series of short hitches it was seen that Resolute was in the lead by about 100 yards. This lead she gradually increased.

Skipper Burton tried repeatedly to force Resolute to tack, but Captain Adams of the Britisher under his lee, he held him there. Burton tried to shake off the American repeatedly, but Resolute followed him tack for tack.

Once Resolute cut the wind and caused Shamrock's head sails to quiver, Captain Burton tried to bluff Resolute with two fake tacks, but could not do so.

## Maneuver Costs Ground

This maneuver, however, also lost him ground, for Resolute was a second or two quicker in stays.

At 2:35 the yachts headed for the mark. Rounding the outer mark one hundred 45 seconds ahead of Shamrock by unofficial time, Resolute broke out her spinnaker in a minute and 40 seconds. Shamrock's crew took 2 minutes and five seconds to boom out their spinnaker.

## Defender Gains Advantage

In elapsed time, therefore, Resolute had an advantage of two minutes and four seconds in beginning the second and last leg, plus a time allowance of 7 minutes and 1 second, which the challenger must give her.

A mile after the turn both yachts were back of the mark. Resolute seemed covered with bulging canvas.

## BRYAN HOLDS SILENCE ON PROHIBITION CONVENTION

CROOKSTON, Minn., (AP)—William Jennings Bryan arrived here today, en route to a Minnesota summer resort for a short vacation. He declined to make a statement relative to the prohibition party convention at Lincoln, Neb., which has been mentioned as a possible choice for the convention for president.

## UTAH PIONEER DIES

SALT LAKE CITY, (AP)—Word of the death of a pioneer home in Kanab, Utah, of Edward Wilbur Woolley reached here today. Mr. Woolley, who was born at Nauvoo, Ill., 75 years ago, crossed the plains as a child with an early party of members of the church of Jesus Christ of Latter Day Saints.

# THREATENS GOVERNMENT CONTROL OF COAL MINES

## National Association Official Urges Increased Production and Co-operation

WASHINGTON, D. C., (AP)—Bituminous coal operators were warned today by H. B. Morrow, vice president of the National Coal Association, that their failure to meet the urgent fuel needs of the country at this time, would mean continuous government control of the industry. He urged immediate increased production and co-operation with the interstate commerce commission.

Mr. Morrow cited statistics to show that the northwest is short 5,000,000 tons of coal and added that New England and New York state points also were short. He referred at length to the plan which the interstate commerce commission accepted yesterday, giving priority in coal supply and coal movement to the coal industry.

"Failure would justify federal control which would be fastened upon the coal industry permanently," Mr. Morrow said. "There will be no failure. This effort deserves the gratitude and assistance of every coal operator in the United States."

## RESOLUTE WINS

(Continued from Page One)

Resolute rounded the half way mark in today's 30-mile windward and leeward contest, well ahead of Shamrock. Resolute turned the mark at 3:21:21, unofficial time, and Shamrock at 3:23:06.

# UNAUTHORIZED STRIKE MAKES 2000 COAL MINERS IDLE

## BELLEVILLE, Ill., (AP)—More than 2000 coal miners are idle in southern Illinois today as a result of an unauthorized strike of many laborers, according to reports reaching here.

## Today's Markets

New York Stock Market

NEW YORK, (AP)—Despite incessant professional pressure, today's dull stock market evinced a tendency to improve under guidance of standard transportation issues. Sales approximated 300,000 shares.

Rails lifted the market out of its rut in the last hour, Reading again assuming leadership. Elsewhere prices eased on renewed selling of sugar shares. The closing was irregular.

A firm undertone ruled at the opening of today's stock market in which the short interest contributed by further easing. These were represented by Sloss, Sheffield, Studebaker, Pan-American Petroleum, Invaluable Oil, Baldwin Locomotive and United Fruit.

## Liberty Bonds

NEW YORK, (AP)—Liberty bonds firm in prices today were: 3 1/2's \$90.90; first 4's \$85.10; second 4's \$84.84; first 4 1/4's \$86.10; second 4 1/4's \$85.05; third 4 1/4's \$86.10; fourth 4 1/4's \$85.20; Victory 3 3/4's \$95.80; Victory 4 3/4's \$95.82.

## Grains and Provisions

CHICAGO, (AP)—Fresh breaks in the price of wheat took place today chiefly owing to a big increase of the estimated yield of wheat in Kansas. The Kansas gain was regarded as more than offsetting losses by black rust in the north-west. Besides, Canada reported rains over the drought district. Opening prices, which varied from 3c to 6 1/2c lower, with December \$2.52 to \$2.61 and March \$2.55, were followed by a setback to 2 1/2c for December and then by a substantial rally all round.

Subsequently persistent buying on the part of the principal retail selling made prices harder. The close was nervous, at half cent net decline, with December \$2.50 1/2 and March \$2.61.

Indications that there would be no rail strike had a bullish effect on the corn. After opening 3 1/2 to 3 3/4c, including September at \$1.48 3/4 to \$1.49 3/4 and December \$1.50 1/2 to \$1.51, the market underwent a further sag before beginning to recover.

## Covering by shorts forced a decided advance later.

Oats were weak in sympathy with other grains. The market opened at 1 1/2c to 1 3/4c higher, with September \$2.12 to \$2.14 and December \$1.38 7/8 to \$1.39.

Oats were weak in sympathy with other grains. The market opened at 1 1/2c to 1 3/4c higher, with September \$2.12 to \$2.14 and December \$1.38 7/8 to \$1.39.

70-1.8 to 70-1.4c, reacted a little, and then descended lower than at first. Provisions reflected the decline of cereals.

## Cash Quotations

CHICAGO, (AP)—Wheat: No. 1 mixed \$2.80.  
Corn—No. 2 mixed \$1.51 to \$1.52 1/2; No. 2 yellow \$1.52 to \$1.53 1/2.  
Oats—No. 2 white \$0.95 to \$0.96 1/2; No. 3 white \$0.94 to \$0.95.  
Rye—No. 2 nominal.  
Barley—No. 2 \$1.12 to \$1.20.  
Timothy seed—\$9 to \$12.  
Clover seed—\$25 to \$35.  
Pork—Nominal.  
Lard—\$18.85.  
Ribs—\$10 to \$17.

## MINNEAPOLIS, (AP)—Flour unchanged.

Brans \$40.  
Corn No. 3 yellow \$1.54 to \$1.56.  
Oats No. 3 white \$2 to \$4c.  
Barley \$2 to \$1.15.  
Rye No. 2 \$2.20 to \$2.22.  
Flax No. 1 \$3.30 to \$3.40.

## Chicago Livestock

CHICAGO, (AP)—Cattle receipts 9,000; slow, early sales good and choice yearlings and handyweight steady; weighty and plain cattle dull; handy butcher cattle steady; others tending lower; calves 60c higher.

Hog receipts 15,000; early trading fully steady with yesterday's average. After 10 to 15c lower; early top \$13.05; bulk light and light butchers \$13.50 to \$13.65; bulk packing grades \$14.25 to \$14.50; pigs strong, desirable kinds \$13.50 to \$14.50.

Sheep receipts 16,000; uneven, mostly steady to lower; very good western lambs \$15.50; top native lambs \$15.75; bulk light and light butchers \$15.50 to \$15.75; top ewes \$8; choice feeding lambs \$14.

## Omaha Livestock

OMAHA, (AP)—Hog receipts 15,000; mostly 25c lower; bulk \$14.15 to \$15.25; top \$15.85.

Cattle receipts 3,500; killing classes steady; best beefs \$16.30; stockers and feeders steady to 25c lower.

Sheep receipts 20,000; lambs slow to steady; best range lambs \$15; sheep and feeders steady.

## Chicago Produce

CHICAGO, (AP)—Butter unsettled; creamery 44 to 55 1/2c.

Eggs unsettled; receipts 17,500 cases; firsts 43 1/2 to 44 1/2c; ordinary firsts 40 to 40 1/2c; at mark, cases included 42 to 43 1/2c; storage packed extras 40c; storage packed firsts 45 to 45 1/2c.

Strawberry live lower; fowls 31c; broilers 40 to 48c.

## Potatoes

CHICAGO, (AP)—Potatoes weak; receipts 47 cars; Virginia \$9.75 to 10.25; barrel; Kentucky Early Ohio \$4.90 to \$5.10; Missouri Cobblers \$5.90 to \$6.10.

## COX WILL SPEAK FIRST IN EAST

Tentative Plans for Democratic Standard Bearer are Announced

COLUMBUS, O. (AP)—The central and eastern states will comprise the initial speaking tour of Governor Cox, democratic standard bearer, according to tentative plans announced today. Almost immediately after his notification, now set for August 7, the governor plans to spend the three last weeks in August in these states and then start a western tour early in September.

### Roosevelt to Tour West

It also was announced that the vice presidential nominee, Franklin D. Roosevelt, probably would tour the west, including the Pacific coast states, while Governor Cox is in the east. Mr. Roosevelt will transfer his activities to the east while his chief is west.

The candidates' itineraries were gone over hurriedly today by George White, former Ohio congressman, chosen yesterday as chairman of the democratic national committee.

### Under Nearly Full Sail

The democratic campaign craft was under nearly full sail today with what Governor Cox, the presidential standard bearer, characterizes as a new "captain"—George White, a former Ohio congressman and assistant manager of the Cox convention campaign, was elected late yesterday, succeeding Homer B. Cummings of Connecticut.

"Fair weather" and strong democratic tides, were leaders' predictions today as many returned home to organize local campaigns. Expressions of confidence of results when the final flag field were general.

### Leaders Map Out Details

Governor Cox, Chairman White, Treasurer Wilbur Marsh of Iowa and other leaders remaining over today were to map out further organization details including appointment of the special campaign committee authorized by the national body, location of several major headquarters, arrangements for notification ceremonies and finances.

## ALASKA-BOUND AIRPLANES AT SECOND STOP STATION

All Four Members of Army Squadron Flying from Minnola to Nome at Grand Rapids

GRAND RAPIDS, Mich. (AP)—Two of the Alaska-bound army airplanes, Nos. 2 and 4, arrived here shortly before noon today from Erie, Pa., having covered the second leg of their long flight in four hours and fifteen minutes. Engine trouble forced plane No. 1 to land near Erie. No. 3 reached Grand Rapids yesterday.

Machine No. 4 arrived at this afternoon. The plane bucked a strong headwind throughout the flight and was out of sight of land more than an hour crossing Lake Erie.

Captain Street plans to attempt the third jump to Winona, Minn., tomorrow.

ERIE, Pa. (AP)—United States army airplanes 1, 2 and 4, members of the squadron flying from Minnola to Nome, Alaska, got away for Grand Rapids, Mich., this morning. Plane No. 3 arrived here yesterday.

## COMMUNISTS STATE CASE

Clarence Darrow Opens for Defense of Alleged Conspirators

CHICAGO. (AP)—The state rested its case at noon today in the trial of 29 members of the communist labor party on conspiracy charges. Clarence Darrow, who opened for the defense, presented the constitution and by-laws of the communist party, already introduced by the state as evidence.

Testimony of former Ole Hanson of Seattle, and an article written by L. E. Katterfeld, one of the defendants, were presented by the state today. The Katterfeld article stated that "the communist labor party has adopted the hammer and sickle of the Bolsheviks as the party's official emblem."

### ADVANCES PRICE OF LEAD

NEW YORK. (AP)—The American Smelting and Refining company advanced the price of lead from \$8 to \$8.50 today.

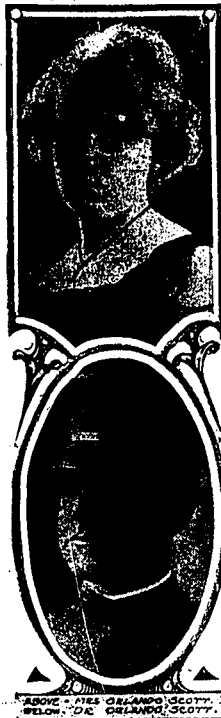

### New York's Indian Reservations

There are Indian reservations at Erie, Cattaraugus county; Onondaga reservation at Onondaga; Onondaga reservation, Syracuse; St. Regis reservation, Franklin county; Shinnecock reservation, Southampton, L. I.; Tonawanda reservation in counties of Erie and Genesee, and the Tuscarora reservation in Niagara county. Some of these reservations are quite large, running up to 7,500 acres. They are open to visitors almost any time.

### Superstition Concerning Diamond

The losing of a diamond is considered, apart from its material value, an omen of mishap. To be efficacious as a talisman the diamond should be given freely, never sold, never lent, never coveted, and never taken by fraud or force.

## Doctor Grafts Own Flesh to Wife's Body

After slicing twelve square inches of flesh from his own body and grafting it upon that of his wife in an effort to save her life, Dr. Orlando Scott, of Chicago, was able to announce that both he and his patient were doing great. The pain must have been almost unbearable, but the doctor went through the ordeal without the aid of even a local anesthetic. Mrs. Scott had been injured in an auto accident and part of the flesh had been torn from the calf of her leg. Grafting of flesh was the only thing that would have saved her limb and possibly her life.

### Feeding the Bedridden.

Administering liquid food or medicine to persons lying on their backs in bed is difficult, even for a trained nurse. A novel hospital drinking glass overcomes this difficulty, says Popular Mechanics Magazine. The lower portion of the vessel is similar in shape to an ordinary tumbler. On top of this is a tapering hood, which is provided with an eccentrically placed, slanting opening. If not more than half filled the device can be held in a nearly horizontal position without spilling the contents.

## THE KITCHEN CABINET

Are is an opportunity no less Than youth itself, though in another dress; And as the evening twilight fades away, The she is filled with stars, invisible by day.

### SAVORY DISHES.

Often a cupful of two cold left-over fish will make a most appetizing and nourishing dish.

**Savory Fish.**—Cut a two-inch cube of salt pork in dice and try out. To three tablespoonfuls of pork fat add three tablespoonfuls of flour, stir until well blended, then pour on gradually one and one-half cupfuls of cold milk. Boil and add one cupful of flaked halibut or haddock, three-fourths of a cupful of potato cubes, which have been cooked, the pork scraps, and the yolks of two eggs. Season and serve hot.

**Mock Crab.**—Melt four tablespoonfuls of butter, add one-half cupful of flour, one and one-half cupfuls of salt, three-fourths teaspoonful of mustard, one-fourth teaspoonful of paprika. When well blended pour gradually while stirring constantly one and one-half cupfuls of scalded milk. Bring to the boiling point and add one can of cornet, one egg lightly beaten, three teaspoonfuls of Worcestershire sauce. Turn into a buttered dish, cover with a cupful of buttered crumbs and bake until brown.

**Head Lettuce With Peas.**—A most attractive and appetizing salad is this. Arrange the crisp heart leaves of lettuce on the salad plates and fill each nest with eighths of carefully peeled peas. A few strips of red pepper placed over them as a garnish adds to the appearance, but paprika may be used, sprinkled over the dressing. If French dressing is used, add a bit of onion and a dash of cayenne.

**Coffee-Date Pudding.**—Soak a box of gelatin in one-half cupful of cold coffee. Add a pint of boiling coffee, one-half cupful of sugar and a pinch of salt. Strain and cool. When beginning to thicken add one-half pound of quartered dates and a half cupful of walnut meats. Serve with cream.

**Pineapple Custard.**—Add a cupful of diced, sugared or preserved, pineapple, to any good recipe for custard and bake as usual.

Nellie Maxwell

**That Busy Stork.** Elizabeth is a clever, observing little girl. A few months ago a baby brother came into the family, and it was duly explained to her that the stork brought it. On her birthday, when she was admitted to the room where her gifts were displayed, she spied a large doll sitting on a little chair. She regarded it attentively for a moment, then remarked as to herself: "If that stork hasn't been here again!"

**Or Treasure.** Those who marry for business may repent for pleasure!—Cartoons Magazine.

## GENERAL STRIKE ON BEHALF OF LARKIN FIZZLES

Few Workers Participate in the Demonstration Staged before American Consulate in Dublin for Irishman's Release

CORK, Ireland. (AP)—A sensation was created here today by the issuance of a proclamation by Major General Brickland, commander in southern Ireland, prohibiting meetings, assemblies and processions within a three-mile limit of the Cork general postoffice.

DUBLIN. (AP)—A demonstration was staged here today in an effort to help the movement for the release of James Larkin from prison in America. A general strike was ordered but the response was not general.

A procession, planned to demonstrate in front of the American consulate, was participated in by comparatively few workers. It passed the consulate at 1:30 o'clock. No untoward incident occurred there, the demonstrators confining themselves to cheers for Larkin. A strong police force was on guard there.

A general strike was called in Dublin today in pursuance of the movement to secure the release of James Larkin, head of the transport workers' union, who is serving a sentence in New York on conviction of criminal anarchy.

Labor here is divided on the strike question, even the liberal hall chiefs regarding as futile, it is said, such a method of applying pressure to the American government. The order to lay down tools was not generally obeyed, but the extreme wing of the labor men were reported this morning to be forcing the withdrawal of laborers from buildings on O'Connell street.

At the city market armed men caused the workers to cease their tasks, while

R. F. Bodman, candidate for the office of sheriff of Twin Falls county, subject to the will of the republican voters at the primary election to be held Tuesday, August 3, 1920. Mr. Bodman is now deputy sheriff of Twin Falls county.

In a time when prices are unstable it is important that women keep informed as to the latest fluctuations that they may solve their shopping problems wisely.

vehicles were stopped and attacked in the streets.

## INCREASING VIOLENCE IN IRELAND ALARMS LEADERS

LONDON. (AP)—The Sinn Fein and the British government are prepared to discuss, if they are not already discussing a basis of probable settlement of the Irish question, according to a statement recorded by the Daily Mail's Dublin correspondent, who says the Irish political circles where this report is current are usually well informed about important moves at Westminster.

Both Sinn Fein and labor leaders in Dublin are very busy, add the correspondent, and important statements are expected to be made at Thursday's debate in the house of commons.

The alarming increase of violence in Ireland, the correspondent says, is frightening the responsible leaders of the Irish republican party, many of whom appear to be inclined to listen to any generous offer from Downing street. But it is understood the home

rule bill now being considered by parliament must first be shelved before the leaders will enter into negotiations.

### Monster Sharks.

Inhabiting the deep are two gigantic sharks, either one of which may reach a length of 40 feet. The basking shark is found in northern seas, occasionally straying southward to our coasts, and the whale shark seems to have its principal habitat in the Indian ocean, though stragglers have turned up as far away as the shores of Florida. One such monster is on exhibition at Miami and will repay a visit to anyone who chances to be in that vicinity.

### A Secret.

"Why, yes," said Miss Pertie Goodwin to her intimate friend, "Harry and I are going to have a secret wedding. Not a soul is going to know of it till it's over. Haven't you heard?"

## GERMAN EVASIVENESS.

To the average person who has not  
followed the meetings of the Spa con-  
ference more closely than the headlines,  
their real significance cannot be as  
clear as importance warrants.

The way in which Germany is placing  
all sorts of obstacles in the way of mov-  
ing the terms of the peace treaty was  
perhaps most strikingly brought out by  
Premier Lloyd George, who said there  
are at present 3,000,000 rifles in Ger-  
many, instead of the 200,000 allowed by  
the peace terms, and there are six times  
as many machine guns as the treaty per-  
mits. This is a wide difference between  
promise and performance.

The allies, the British premier said,  
not only insist on the strict enforce-  
ment of this clause of the treaty be-  
cause they recognize difficulties Ger-  
many has encountered, but because for-  
bearance seems to have been mistaken  
by the Germans for weakness. The Ger-  
mans still understand force, and force  
only, and when force is not applied they  
are prone to disregard the non-applica-  
tion as an evidence of cowardice. It  
was therefore necessary to tell the Ger-  
man representatives, and tell them em-  
phatically, that "if on October 1 the  
German army is not reduced to 100,000  
men the allies will proceed to occupy  
German territory and will not vacate  
it until all the conditions of the  
peace treaty have been fulfilled."

The intention of the German govern-  
ment to keep as many men under arms  
as possible was apparent, as well as to  
keep available as much war material as  
they could induce the allies to let them  
have. How much of this machination  
is due to efforts of those who would, if  
they could, place the Hohenzollern dy-  
nasty back in power is an interesting  
conjecture. The former emperor is said  
to have been very impatient when dis-  
cussing the Spa conference with a vis-  
itor, a man formerly connected with  
the German navy, and to have used em-  
phatic language in telling how he  
would handle that conference.

No doubt is felt in any quarter as to  
how Wilhelm would handle the situa-  
tion in case the positions of the nations  
were reversed. There would be no miti-  
gation of the terms of the treaty he  
would have imposed on the defeated  
countries, and no forbearance based on  
consideration of difficulties encoun-  
tered in carrying out the terms.

## BUSINESS CONDITIONS IMPROVE

Banking conditions show a marked  
improvement. Money is tight, but not  
nearly so much as a few months ago.

The rate of interest is again slowly re-  
ceding. That, in itself, is one of the  
most hopeful signs.

It is announced that the government  
is finding a market for its certificates  
of indebtedness at a lower rate than a  
few weeks back, and there is nothing  
on the horizon to indicate a reversal of  
present tendencies.

That we have been able to weather  
so easily the strain that began to make  
itself felt early last spring is a good  
sign. There were those then who talked  
of a financial panic. There is little  
likelihood now of such a contingency.

There has been much heartful defla-  
tion and some suffering, but withal the  
readjustment period through which we  
are passing, and which promises a re-  
turn to something more nearly like nor-  
mal, with the business of the country  
sound and money in sufficiency to meet  
actual needs, has been a very beneficial  
regardless of the anxiety it has caused  
thousands of businessmen.

There was no doubt in the mind of  
anyone all along that was prices would  
have to come down, sooner or later.  
There was a wide difference of opinion  
as to how the descent would be made.  
If it can be brought about without more  
serious results to business and industry  
than have followed price reductions so  
far made, the country should consider  
itself fortunate.

THE VALUE OF TOLERANCE  
(Fargo Forum)

Tolerance is a characteristic that is  
acquired with age.

Advancing years bring a growing dis-  
inclination to fight for absolute domi-  
nance of one's own opinions, and an in-  
creasing willingness to give and take  
a little. Intolerance is the weakness of  
new parties and young men.

The truth of this was never better  
evidenced than in the recent "third  
party" convention at Chicago. Instead  
of a "third party" it looks as if there  
might be a fourth, fifth and sixth party  
because each faction in the convention  
appeared bent on seeing how much of  
its program it could force the whole  
convention to accept, rather than how  
much it could yield and still remain  
within the organization.

First the single-taxers left.  
Then the farmers of the Nonpartisan  
league seceded, or rather they were dis-  
severed as official delegates of the Non-  
partisan league and had no more stand-  
ing in the convention than so many in-  
dividuals who have.

Then the more conservative members  
of the Committee of Forty-eight with-  
drew and the Labor party was left vir-  
tually alone. Later the Committee of  
Forty-eight delegates suffered a fur-  
ther division of forces.

The whole convention, in fact, appear-  
ed to be governed by a centrifugal  
rather than a centripetal force. A few  
weeks earlier the republicans met. They  
had differences almost as great within  
their party, but the whole tendency  
there was to get together. The whole  
tendency of the third party was to fly  
apart. The difference was caused by  
the presence of tolerance in one case,  
and the lack of it in the other.

Tolerance and a policy of compromis-  
ing may seem like weakness. Often it  
may be. But it gets results where in-  
tolerance merely succeeds in going down  
to more or less glorious defeat-fighting  
for a lost cause. The world, after all,  
progresses only through a series of com-  
promises.

**COLORED FUGITIVE TO GO  
TO CHICAGO IN CUSTODY**  
LOS ANGELES, Cal., (AP)—Jack  
Johnson, negro, former heavyweight  
champion pugilist, will leave for Chi-  
cago tonight in custody of federal of-  
ficers, according to plans announced  
today. Johnson, who is under sentence  
in Chicago for violation of the Mann  
act, surrendered to officers on the Mex-  
ican border yesterday.

**DEATH RESULTS IN GIRLS'  
REVOLVER DUEL OVER MAN**  
DETROIT, Mich., (AP)—Eleanor Greer,  
33, is dead, and Birdie Bradford, 18 year  
old girl, is held by police following a  
revolver duel which the officers say re-  
sulted from a quarrel over a man at a  
rooming house here early today.

You can make your buying problems  
"come out right" if you study the  
ads.

At the

GEM.

A quaint touch of humor is added to  
the picture, "In Old Kentucky," for-  
turing Anita Stewart, which will be  
shown at the Gem theater today, by an  
elderly colored couple spooning on the  
lawn.

It is the night of the great ball in  
celebration of the winning of the Ken-  
tucky handicap. Their service in the  
house over, the old couple slip out while  
the white folks are dancing, for their  
own amusement.

The couple who play the part are  
typical southern dukes and carry out  
their little side play with the natural-  
ness and simplicity of real life. Their  
sincerity in their love making, the old  
negro's good natured grin, and the shy-  
ness of the old negress, stir the ribbions  
of all.

## IDAHO.

May Allison, the captivating Metro  
star in "The Cheat," is announced  
as the feature attraction at the Idaho  
theater for today and tomorrow. This  
is described as one of the photoplay  
sensations of the year, presenting this  
fascinating actress in an intensely dra-  
matic role.

"The Cheat" is a screen version  
of "Judith," the notable stage play by  
Henry Arthur Jones. Mr. Jones, with  
whose work, American theatergoers  
have long been familiar, is the author  
of "The Silver King," "The Liars,"  
"Mrs. Dana's Defense," and more  
than a score of other distinguished dra-  
matic compositions. "Judith" was pre-  
sented on the stage at the Shaftesbury  
theater in London with E. S. Willard  
in the titular role.

NOTICE TEACHERS' EXAM-  
NATIONS

The regular teachers' examinations  
for all classes of Idaho Teachers' Cer-  
tificates will be held at the office of  
the County Superintendent of Schools,  
Twin Falls, Idaho, beginning Thursday,  
July 22, 1920. All persons expecting to  
teach in Twin Falls County, not hold-  
ing a valid Idaho Certificate, must pre-  
sent themselves at this time.

Signed  
BRITTON M. WOLFE,  
County Superintendent.

Store competition operates now as a  
way to keep prices of merchandise  
down to the lowest possible basis. This  
law of trade is considered so essential  
in our business life that laws are made  
to prevent combinations whose object  
is to boost prices through agreement.  
To profit fully through the competi-  
tion of the stores you must keep in  
close touch with store advertising.

Buy in your home city—and buy at  
verified goods.

## MEN AGREE ON THIS:

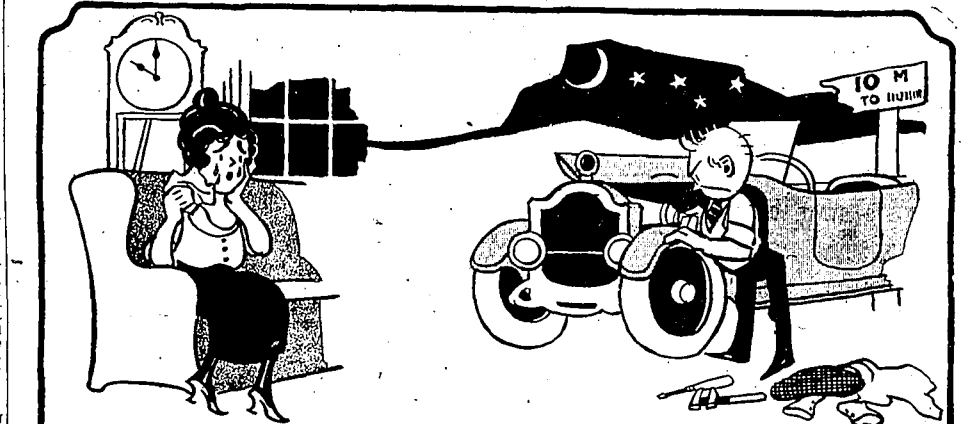

When men who differ in their views  
on politics, religion and social prob-  
lems, and agree on the wisdom of sav-  
ing money, of being thrifty and econ-  
omical, there must be something abso-  
lutely right and dependable in their  
conclusion.

From men of all ages, nations and  
professions, we get the example and  
direct command to SAVE MONEY.

## A sad occasion

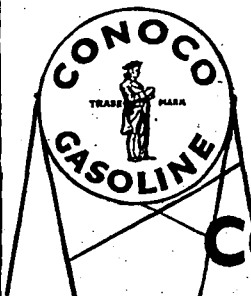

When you can't get a bark out of the exhaust—and you're overdue for an im-  
portant engagement—and you can't locate a telephone! Well, that is a sad occasion.

Then Mr. Goodfellow comes along—and gives you a little real Conoco Gasoline—  
and your exhaust roars like a machine gun—and you tear along hitting only the  
high spots! Boy, howdy!—as George Patullo would say.

Wouldn't you be strong for Conoco? Wouldn't Conoco Service Stations and  
garages be put on your calling list?

You won't find a cleaner, harder-hitting, more uniformly dependable motor  
fuel than Conoco, or a better motor oil than Polarine. Both  
are sold everywhere in the Mountain States where you see  
the Conoco Sign.

For convenience in buying supplies of oil and gasoline, use a  
Conoco Coupon Book. Buy one today.

Shedding  
Ignorance

"It's a good rule to shed a  
little ignorance each day."  
—Painless Parker.

There is an appalling ignor-  
ance about dentistry. Many peo-  
ple still think it will hurt them if  
they have their teeth fixed up.  
They don't know how Dr. Pain-  
less Parker and his associates  
have taken the fear of pain out  
of dentistry, and how they do  
very much dental work without  
any hurting at all.

If you are neglecting your  
teeth because you are afraid of  
the dentist, you are making a  
mighty big mistake.

When you think of TEETH,  
think of PARKER.

Registered Dentist Using

REPORTS FAVOR SALMON SCHEME

Boosters of Project to Bring the Bruneau Water This Way Discover Possibilities

With reports of a favorable character the company of men interested in the Salmon irrigation district returned last night from a visit to the east fork of the Bruneau river. The party, comprising 70, returned shortly before midnight after spending the greater part of the day investigating possibilities of bringing Bruneau water into the Salmon reservoir.

SMALL BOY IS HURT BY PASSING MACHINE

John Denton, at Play with Companions, Runs in Front of Car—Knocked Down

More or less severe injuries were sustained by John Denton, 10 years old, when he was knocked down by an automobile on Shoshone street north, between Main avenue and Second avenue, last evening. The child is reported resting fairly easily today.

LEGIONNAIRES ASKED TO GREET COMMANDER

Franklin D'Olier to be in Pocatello July 27—Local Men May Meet Him

Franklin D'Olier, national commander of the American Legion, who is touring the west in behalf of that organization, will be the guest of Pocatello Post Tuesday, July 27. As many as possible of the local men who can make the trip have been requested to be present at both the dinner and meeting to be held in his honor, at which time he will talk on the subject of insurance to the welfare of the American Legion.

FUNERALS

Funeral rites will be conducted today for Dorothy Parr, a 7-year-old daughter of Mr. and Mrs. W. S. Parrish, who died as the result of an accident Monday. The services will be held at the Parrish home on Shoshone street this afternoon, the Rev. W. Moore, of the Christian church, officiating. Burial will be in Twin Falls cemetery, with J. E. DeWitt, undertaker, in charge.

BEARS MAY FIND CONSOLATION IN THIS JULY CROP STATEMENT

Report Indicates Idaho Wheat may be Four Million Bushels Greater This Year than in 1920—Potatoes Run Close to Million Bushels Increase—Better Prospects All Along the Line

Crop prospects July 1st indicated a total wheat production of over 4,000,000 bushels more than in 1919 of corn, oats, barley and rye; a potato crop close to a million bushels above last year's; and a prospective crop of over 500,000 tons more than in 1919.

In addition, there is a sugar beet acreage of 60,800, double that harvested in 1919; the largest prune crop ever raised in the state and a bumper apple crop that shows improvement each month.

MUST PROTECT NARROW PAVING

Special Engineer Warns Council Against Probabilities of Traffic Damage

Special measures must be taken to protect the edges of paving on streets where the entire breadth is not surfaced, according to W. L. Hoffeditz, city paving engineer. Unless these special measures are taken in instances where streets and other arteries are only paved on the crown and portions where the traffic is heavy also edges are likely to curl and cause an infinite amount of damage to the improvement at a constant extraordinary expense to the city.

Wheat

The total crop now indicates a production of 22,737,000, a decline of 397,000 bushels from last month, caused largely by heavy rain in non-irrigated sections of southern and southeastern counties. Production last year amounted to 18,705,000 bushels. Correspondents estimate that 2 per cent of last year's crop was still in the hands of farmers July 1st.

Oats

A gain of 254,000 bushels over the June prospect is noted, bringing the total crop up to 9,430,000 bushels, which compares with 7,700,000 bushels harvested in 1919.

Barley

Improvement since June 1st is also noted in this crop. A total of 4,061,000 bushels is forecast, or 701,000 bushels more than last year's crop. Winter barley in Idaho county is in splendid condition.

Corn

As expected, this crop shows a substantial gain in acreage over previous years. The Twin Falls region, Boise and Payette valleys, and North Idaho all show increased acreage. A total of 25,230 acres compares with 24,000 acres grown last year. A cool spring held the crop back, but recent hot weather caused amazingly rapid development.

BAND CONCERT

Following is the schedule of numbers comprising the program of the regular weekly band concert to be given in the city park Thursday evening:

connected with the clerical department of the local postoffice, has been transferred to a similar capacity in Salt Lake.
