SOVIET RUSSIA

National Council of Defense
Dispatches Message to Bol-
sheviki Just Before New Co-
alition Cabinet Takes Charge

UNITED STATES IS ASKED
TO GIVE MORAL SUPPORT

WASHINGTON, (P)—Poland has asked the state department to formally announce to the world "the moral support" of the United States to Poland, in its battle with the Russian Bolsheviks.

The suggestion also was made that a similar expression from President Wilson would be welcomed and would do much to stiffen the morale of the Polish people.

WARSAW, (P)—Poland has sent armistice proposals direct to the soviet government at Moscow.

After these proposals had been dispatched by wireless at 2 o'clock Thursday afternoon by the national council of defense, a new coalition cabinet was formed under the premiership of M. Witos.

The new cabinet has the support of the socialist party. M. Dantekski, the head of the socialist organization, in the view of the cabinet from the two changes, the cabinet remains the same. The Polish message was short and to the point. There was some delay in dispatching the message, owing to the fact that the cabinet was in the organization of a coalition cabinet with the peasant party leader Witos as premier. The council of national defense and Premier Grabzki's cabinet had been considering the question since Wednesday night, and it was known that if M. Witos and M. Dantekski came into power their initial step would be for an armistice. It was noted that further delays would be serious owing to the situation being Bialystok, and a decision was reached to send a wireless note to Moscow at once. A reply is expected by Friday night.

POLISH OUTLOOK APPEARS
INCREASINGLY MENACING

LONDON, (P)—Capture by soviet troops of the fortress of Dubno, one of the Volhynia group of fortifications defending the southeastern Polish border, has been announced in Thursday's official statement from Moscow, received by wireless today.

The Bolsheviks also have taken the railway town of Blum, 70 miles south of Grodno and 25 miles west of Baranovitch.

The Polish outlook appears increasingly menacing to commentators in this country's newspapers. Poland and on is extremely hard pressed by the Bolshevik armies, they say, but her territory is already invaded. One of the papers prints news purported to have been received by the British foreign office, which says the Bolshevik right wing has occupied Bialystok, northwest of Grodno, and about 30 miles from the nearest point on the German frontier. The Bolshevik capture of Grodno is confirmed and the Reds are also reported to have taken Bialystok, 110 miles from Warsaw, while in the south they have entered eastern Galicia.

Is Swept by Flames

CONSTANTINOPLE, (P)—Airplane observers who flew over Adrianople today reported that the city was burning.

The Greeks are reported to have advanced to the east of Sofia and Lake Barga (about 60 miles southeast of Constantinople) encountering virtually no opposition.

Disintegration of Army Hither-
to Opposing Tsao-Kun and
Wu Pei Fu Leaves Chinese
Capital without Defense

PEKING, (P)—There is virtually no military obstacle to prevent the troops of Generals Tsao-Kun and Wu Pei Fu from entering the capital as the army hitherto opposing them has completely disintegrated, some of the troops laying down their arms and returning to their barracks, while others fled to the hills.

Chihli leaders, however, have chosen to withhold their troops in the present line in view of the representations by cabinet members and diplomats that an advance might result in disorder in the capital. The advance guard is stationed at Changtun, a day's march away.

It is represented as the president's plan to accept the proposed resignation of General Tchang-Jui, the army commander and abolish the frontier defense. The president, it is reported will ask Wang Shi-fu to form a new cabinet, eliminating Anfu influence.

INTERNATIONALE HEARS
ATTACK UPON AMERICARussian Bolshevik Leaders the
Principal Speakers at Petro-
grad Session

MOSCOW, (P)—Nikolai Lenin, premier of Bolshevik Russia; G. Zinoviev, Bolshevik governor of Petrograd and M. Kalinin, were the principal speakers at the opening session of the congress of the third internationale at Petrograd Monday.

The sessions, at which 31 countries are represented, will be transferred to the Kremlin palace at Moscow.

One of the crucial matters discussed was the question of admitting representatives of the socialist parties which recently abandoned the second internationale. According to M. Zinoviev, the German independents and the French socialists will be required to do some "house cleaning."

M. Zinoviev also attacked the American democracy for "its persecution of all entering the ranks of revolution by way of the socialist parties."

"The American bourgeoisie," he said, "has laid aside its constitutional guarantees and broken the principles of its much vaunted democracy. It has defined its real position."

WILLIAMSON, W. Va., (P)—Two miners were wounded today when the Portsmouth Solvay Coal company's mine at Freedom was attacked by persons hidden in the West Virginia and Kentucky sides of the river. A detachment of the state constabulary with bloodhounds were immediately sent from Williamson to the scene of the shooting.

Fire from three quarters. According to stories reaching here from Freedom the men were handling coal from the mouth of the mine which is on the Kentucky side of the river to the railroad tracks in West Virginia when the firing began, shots coming from a party hidden in the West Virginia hills and from two parties in Kentucky.

Guards Stationed at the mine are said to have returned the fire, but the attacking parties were not driven off until two of the workmen had been wounded, one seriously. It was estimated by men at the mine that fully 1000 shots were fired.

EVIDENCE IS COMPLETED
IN COMMUNISTS' BEHALF

Defense Calls Only Three Wit-
nesses in Trial of Lloyd and
Associates

CHICAGO, (P)—The defense in the trial of Lloyd and 19 other communist laborers, charged with plotting to overthrow the government by force, completed its evidence today after calling only three witnesses. The prosecution said it will introduce several witnesses to rebut the evidence of the defense regarding the Seattle strike.

Closing arguments in behalf of the state probably begin Monday. Plaintiff's arguments of the prosecution and defense will take about a week.

A. W. Swenson, former labor leader in Seattle, testified today that he attempted to limit the strike, but failed. Swenson and Mrs. Viola Graham, who was the next witness, denied that the strikers were revolutionary or that they advocated taking over the municipal government of Seattle.

Mrs. Graham, a Seattle clubwoman, declared "Seattle was never so quiet and orderly as during the strike."

Ohio Gets Third Presidential
Candidate when Dry Organi-
zation Tenders Nomination to
Aaron S. Watkins

LINCOLN, Neb., (P)—Aaron S. Watkins of Germantown, O., and Leigh Colvin, prohibition party candidates for the presidency and vice presidency today issued statements condemning the stand on prohibition taken by Senator Harding in his speech of yesterday.

"We noticed with regret that Senator Harding mentioned and even emphasized the fact that many dissent from the law and he will, if possible, think, secure its repeal."

"It is all right for Senator Harding to speak of law enforcement," said Mr. Colvin's statement. "Any one would do that. But his broad statement about repeal makes his stand absolutely unacceptable."

Bryan Refuses Nomination.
Ohio got its third presidential candidate today when the prohibition national convention nominated Aaron S. Watkins of Germantown, Ohio, after learning from William J. Bryan that he would not accept the nomination voted him Wednesday.

Mr. Watkins won on the second ballot after 85 votes on the first.

Mr. Watkins is a professor of literature at a German university near Cincinnati. He was a professor in Atlanta, Ohio, for several years and was vice presidential candidate on the prohibition ticket in 1908 and 1912.

Colvin for Second Place.
Leigh Colvin of New York, an author, was nominated for the vice presidency on the first ballot. He was born in Ohio. The convention then permanently adjourned.

The telegraphers refused the award to their membership with a vote of protest. The other 15 unions expressed intention of renewing their cases before the board.

It was estimated today by union leaders that the tabulated return on the referendum vote would not be made before September 1, when all government control of railroads ends.

LABOR DEPARTMENT TAKES
HAND IN ILLINOIS STRIKE

WASHINGTON, (P)—In an effort to settle the strike of the mine laborers in Illinois, the labor department today ordered three of its conciliators to proceed to Illinois to seek a settlement of the strike. The department acted at the request of the White house.

SPRINGFIELD, Ill. (P)—Only four coal mines in the Illinois coal fields are working this morning due to the strike of the laborers. Both operators and miners officials here declare the industry practically tied up.

Shamrock, after a long stern chase around two legs of today's triangular course, overhauled the defender within three miles of the finish, but the American sloop breaking out a big hailstorm, took the lead again within the last half mile and sped first across the finish line, beating the challenger boat for boat, according to unofficial timing.

Led by Sir Thomas Lipton's charter-boat, the Shamrock IV, the defender's chorus of whistles greeted Resolute as she crossed the line.

Official Timing

The official finishing times were: Resolute 4:39:25; Shamrock 4:43:06. The official elapsed times for the thirty mile race were: Resolute, 3:37:52; Shamrock 3:41:10.

In this exciting Regatta won by three minutes, eighteen seconds elapsed time plus her time allowance of six minutes and forty seconds, making a corrected time of nine minutes and fifty-eight seconds.

Final Race Tomorrow

Despite announcement from a Staten Island shipyard that the two sloops would be deployed there tomorrow if Resolute won today, the regatta committee at the end of today's contest signalled a race for tomorrow.

Defender Leads at Second Term

The defender led Shamrock IV after 20 miles had been covered.

Making the second mark at 3:25:40, the American sloop dashed along the hazy stretch 70 miles, striving to win the lead over the 1920 series.

Shamrock turned at 3:27:10. After having beaten the challenger to the first mark on a ten-mile thrash, the defender's lead was speeded away on the second leg when the wind, increasing to 15 knots, drove the yachts through the water in a shower of spray. Although the green sloop tried her best to stay ahead, she was unable to do more than cut down very slowly her rival's lead of half a mile.

Green Sloop Trails

Shipping along in front of Shamrock IV, Resolute turned the first mark at 2:34:47 and sped away on the second ten-mile leg, a reach out to sea. The green sloop followed the defender around the first mark at 2:36:58. Resolute, dashed first across the line today at the start of the fourth international yacht race.

Resolute Starts First

With the starting signal sounded at 1:30 p. m., Resolute crossed at 1:01:33, official time, and Shamrock at 1:01:50. Then both plunged forward on the first ten-mile leg of the 30-mile triangular course—a beat to windward down the Jersey coast.

Shamrock was 23 seconds behind Resolute in crossing the line and must give her today a time handicap of six minutes and 40 seconds, she must finish six minutes and 18 seconds ahead of the defender to win and six minutes and 17 seconds to tie.

Fog Delays Start

Fog delayed the start of the race. While the two emp sloop were loitering around the Ambrose channel lightship at 11:30 in a four knot breeze, a thick bank of vapor enclosed them, causing the regatta committee at 11:45 a. m. to order fifteen minute postponements.

At noon visibility about the lightship had been reduced to 100 yards. A perfect chorus of whistles was sweeping the spectator fleet. The breeze was about three knots, and as it was from the south, fog was predicted for the rest of the day.

IDAHO'S POTATO ACRY SEED SCARCITY DIMINISHED GREASE NOT

Crop on an Increased Area of at Least 1,000 Acres is Flourishing Under Almost Abnormal-ly Fine Growing Conditions, Official Report States—Hay Condition Nearly Normal

"Scarcity and high price of seed stocks did not tend to reduce acreage as expected, for 37,000 acres were planted against 35,000 last year. The crop is flourishing. A condition of 85 per cent of normal is in marked contrast to 75 per cent of July 1, 1919, and indicates a total agricultural crop of 6,180,000 bushels compared with 5,400,000 bushels harvested last year.

"Based on 700 bushels to the acre, it is probable that the commercial crop will total 8200 cars if present favorable conditions continue.

"The first carload shipments from the Caldwell district have already rolled, the price realized being 6 cents per pound, Julius H. Jacobson, field agent of the Idaho crop reporting service says in a weekly crop summary.

"It is interesting to note that the railroads reported 6786 cars shipped from Idaho during the season just past," he continues. "The estimate of the 1919 commercial crop, made before harvest last fall, was 6830 cars, 44 cars in excess of the actual number or 0.6 of 1 per cent overestimated. To be able to estimate that closely is a tribute to our many crop reporters and the splendid co-operation of the farm bureau in Idaho.

"The average in Michigan is 3 per cent less than last year, but the present outlook is 4 per cent better than the ten-year average. Minnesota reports a 6 per cent decrease compared with last year and a forecast from condition of 32,343,000 bushels against 26,100,000 bushels harvested in 1919. Wisconsin says many bugs and leaf hoppers are appearing in southern districts. As in the case in the other two states, and also in Colorado, the late crop is progressing favorably.

"In the United States there is a total agricultural crop of 38,558,000 bushels, which is 29,586,000 bushels above the 1919 crop and exceeds the 1914 to 1918 average production by 5,586,000 bushels. The condition is 80.3 per cent of normal compared with 87.2 per cent in July, 1919.

Hay.

"The hay crop shows a condition of 84 per cent of normal, forecasting 2,234,000 tons in contrast to 75 per cent of normal a year ago and a final production of 1,750,000 tons. The first crop of alfalfa was stacked with little loss of quality due to rains. There is much uncertainty as to prices. Some has changed hands at \$15.00 per ton in the stack.

Apples

"Prospects at present are for an agricultural crop of 984,000 bushels smaller than the 4,350,000 bushel 1919 crop. Except in some localities, there was the normal June drop, and unless conditions change materially, the outlook promises to improve, as was the case last year. A special survey of the two important producing counties of Kootenai, Nez Perce, Adams, Washington, Ada, Canyon, Gem, Payette, Gooding and Twin Falls indicates a commercial crop of 82 per cent of last year. This, with small shipments from other counties would mean some 4,000 cars for the state.

The United States crop promises to be much larger than last year, with an agricultural crop of 200,000,000 bushels compared with 147,000,000 bushels and a commercial crop of 30,200,000 bushels compared with 26,200,000 bushels in 1919.

Sugar Beets

The crop is in a flourishing condition. There are 60,800 acres with a July 1st condition of 95 per cent. A year ago the condition was only 68 per cent of normal and only 30,331 acres were harvested. The forecast this year is 508,000 tons against 203,000 tons in 1919. In the United States, 978,500 acres were planted compared with 800,000 acres last year, but only 692,500 acres of the latter were harvested. The July 1st forecast of manufactured beet sugar is 1,003,500 tons against 729,500 tons in 1919.

Wool

The average weight per fleece this year is estimated at 8.1 pounds, while last year it was 8.4 pounds. A bad winter, shortage of feed and unfavorable spring conditions were contributing factors to the decrease.

HINSHAW DISSATISFIED WITH HARDING'S STAND

Prohibition Party's National Committee Chairman Takes Exception to Declaration

LINCOLN, Neb., (AP)—Senator Harding's attitude on prohibition, as expressed in his speech of acceptance at

Marion today, is "entirely unsatisfactory to the prohibition party," Virgil G. Hinshaw, chairman of the national committee, said today.

"Senator Harding will receive no support from prohibitionists because he did not promise to use his veto power over any bill repealing the enforcement act," said Mr. Hinshaw. "On the contrary, he seems to invite such a repeal. His attitude seems entirely unsatisfactory."

DECLARES WAR ON USE OF WATER OF NATIONAL PARKS

Robert Sterling Yard Details
Campaign Plans for Fight on
Alleged Ingression Upon the
Playgrounds

WASHINGTON, (AP)—Amendment of the new waterpower act so as to exclude the national parks from its provisions will be demanded of congress at its next session, it is announced by Robert Sterling Yard, executive secretary of the National Parks association. Mr. Yard also says that a fight will be made to have congress reject pending legislation, which he asserts, opens the way for irrigation projects to draw on the parks for water.

Without amendment, Mr. Yard says the waterpower act is "the death warrant of our national parks system," because all government owned land and reservations are embraced within its terms, making it possible for private interests to erect dams, power-houses, transmission lines and other structures by obtaining leases from the federal waterpower commission.

It was not until the waterpower bill reached President Wilson for approval that discovery was made by conservationists that national parks would be affected, and now the fight, Mr. Yard says, will be made for its amendment.

Besides the effort to change the waterpower act, Mr. Yard says an effort will be made to prevent favorable action on pending legislation, granting permission to private interests to build an irrigation reservoir in an obscure corner of the Yellowstone National Park, miles from any road. This measure, he asserts, would be the opening wedge for a number of irrigation plans for other national parks.

Mr. Yard anticipates that other legislation, including a proposal for damming Yellowstone Lake, will be brought before congress, all of which he contends would tend to destroy the beauty of America's playgrounds.

"The conservation associations and many institutions throughout the country," Mr. Yard says, "are even organizing now for the defense of the parks. Our new national parks system has fairly caught the imagination of this idealistic and very practical people who see in it not only a system of exhibits of the native American wilderness, untouched for all time, but the beginning of a colossal national economic asset which shall enormously spur domestic travel and business, and bring increasing thousands of foreign visitors here every summer to see them. Any legislation which will detract from the value of the name national park on a national trademark in the competition for the world's travel is likely to arouse a mighty storm of popular protest."

MARINES' GRACK SHOTS TO TEACH CIVILIANS TO SHOOT

SAN FRANCISCO, Cal., (AP)—Crack shots of the United States marine corps will conduct a civilian school at Mare Island, near here, from July 26 to August 8 at which students of universities, colleges and high schools will be instructed in use of rifles, pistols machine guns and automatic rifles. Enrollment can be made by mail to the island or by reporting in persons July 26. Men attending will pay their transportation to Mare Island. While there their only expense will be about 50 cents per day for board.

Mrs. Linda Harrod Endorses Chamberlain's Tablets

"I suffered for years with stomach trouble and tried everything I heard of, but the only relief I got was temporary until last spring I saw Chamberlain's Tablets advertised and procured a bottle of them from our druggist. I got immediate relief from that dreadful heaviness and pain in the stomach after eating. Since taking two bottles I can eat anything I want without distress," writes Mrs. Linda Harrod, Ft. Wayne, Ind.—adv.

GRAND CIRCUIT RACES

KALAMAZOO, Mich., (AP)—A monster crowd turned out for "Kalamazoo day" at the grand circuit races and the onlookers witnessed a slaughter of favorites in three of the four events. In the 2:05 pace, Lons Grattan, after winning the first heat, was decisively beaten by Johnnie Quick in the second heat and by Guidle Todd in the third and fourth.
Royal Palm, son of Peter the Great, driven by Charlie Volante, won the \$3000 purse for 2:13 trotters, outstepping Alta Donovan, and a field of eight others in straight heats. The average time for the three miles, 2:06 was fast for the class.
Don de Lopez, driven by Geers, was heat liked in today's 2:05 trot. He failed to win a heat. Baron Gogantle

took the first and then Murphy came along with Charlie Roax and captured the second and third heats. The time

SKAGGS' GROCERY SPECIALS

"Skaggs' Stores" do not offer grocery specials. We do not believe in grocery specials, we cannot conceive the logical reason why a dealer in foodstuff should be able to offer a special premium for business on special days only.

We can only view such methods as carrying a catch which is exposed to every intelligent food buyer, we would consider such practices as an insult to the good judgment of our trade.

Our honest, straightforward method of dealing, and our consistently low prices and small profits, continue to gain in favor and patronage, which is good evidence of their soundness.

Today's Markets

New York Stock Market
NEW YORK, (AP)—Heavy selling of foreign exchange, based mainly on fresh complications in central Europe, provoked further professional pressure in the stock market today. Sales approximated 450,000 shares. Notwithstanding the optimistic views of leaders of industry, prices were again very mixed at the opening of today's stock market. On the constructive side the feature was Houston Oil, in which a two-point initial advance soon extended almost to five points. Other oils were steady to firm, excepting Royal Dutch, which declined 2 points. Lumber hardened slightly, but the general movement of industrial prices, including sugars, textiles, rubbers and leathers, continued reactionary, losses ranging from large fractions to one point. Foreign exchange, especially rates on London, Paris and Berlin, were extremely weak, reflecting latest developments in central Europe. Bears began a more extensive raid against the popular industrial leaders, steel, equipments, oil and motors, leaving most affected. The closing was weak.

Liberty Bonds
NEW YORK, (AP)—Final prices today were: 1 1/2% \$91; first 4 1/2% \$85.00; second 4 1/2% \$84.80; first 4 1/2% \$86.10; second 4 1/2% \$85.04; third 4 1/2% \$86.08; fourth 4 1/2% \$85.10; Victory 3 3/4% \$95.80; Victory 4 3/4% \$95.78.

Grain and Provisions
CHICAGO, (AP)—Unfavorable weather in the northwest gave an upward tendency today to the wheat market. The hot, moist conditions prevailing were such as to increase damage from black rust. A leading expert, however, said that nothing like the virulent attack of 1904 was likely except in the wet lands. Opening prices, which varied from unchanged figures to 1-2c higher, with December \$2.50 and March \$2.63 1/2, were followed by a moderate general advance.

Smoking ruins in western Canada served to ease the market later. Prices closed weak, half to 1c net lower, with December \$2.58 and March \$2.62 1/2. Corn developed strength owing to continued buying on the part of a big elevator company that has late been conspicuous as a purchaser. After opening 5-8c off to 1-2c advance, with September \$1.53 5/8 to \$1.54 1/4, corn fluctuated nervously but scored substantial gains.

Oats went higher with corn. The market opened unchanged to 1-2c lower, September 77 1/8 to 77 1/4c, sagged a little more, and then rose well above yesterday's finish. Provisions were without any aggressive support.

To the Stockholders and the Friends of
The United Silver Mining Company of
Twin Falls, Idaho.

The Company invites you to its "open house" Saturday, July 24th, Room 16, Perrine Hotel, to inspect large blueprints, just out, of the property of the Company. Also to view a panorama photo, four feet long, and other pictures taken on the property last week, and last but not least, to read the report on these mining claims showing the development made since April 1st. Work has been continuous with four men under the direction of Mr. George H. Marshall, our President and Superintendent.

The report referred to was made by Walter Hovey Hill of Boise, Idaho, and includes his field work which required 13 1/2 days. He is a United States Deputy Mineral Surveyor and Mining Engineer of High Standing in his profession.

We have numbers of letters from satisfied stockholders who have inspected the property and in every case the visitors to the property increase their holdings from 100 per cent to 500 per cent.

We leave Twin Falls with at least three autos on Tuesday, July 27th, at 5 a. m., with some of our prominent citizens. The trip requires three days and is always enjoyed.

All stock sold has been placed with our own people. All our directors are home folks. The property has real merit. It will pay you to investigate fully. Our officers are all men of large mining experience. Such men as J. T. May, Theodore Parks, George H. Marshall and S. Henry Bolton need no introduction in Twin Falls County. Proof is abundant that this company will make a success and that their five claims are all heavily mineralized. Assays have been taken as high as 665 oz. silver with some gold.

You are each and every one invited to see specimens of the ore and our overwhelming proof that we are a going concern. Only a small block of stock is for sale at 25c per share, par \$1.00. The price will be advanced to 50c or \$1.00 without notice in a very short time.

If interested call at Room 16, Perrine Hotel, any time prior to Tuesday July 27th.

S. Henry Bolton,
J. T. May.

P. S.—If you cannot come in, write. You will receive in return our printed matter by early mail without charge.

HAS THE HONOR SYSTEM FAILED?

A dream of idealists and humanitarians that failed. So Warden Murphy of Joliet penitentiary brands the honor system in state prisons. There is not a prison in the country in which the honor system has fulfilled expectations aroused by claims made for it, he says.

But there is a point in the failure of the honor system—if it has really failed—which needs to be cleared up before it is condemned. No system is likely to work as the originators proposed if the administration is placed in the hands of men who are either hostile or tolerantly skeptical of success.

Probably the warden of Joliet prison who succers at the dream of idealists and humanitarians embodied in the honor system did not intend to betray one of the chief underlying causes of the failure he discusses. But the "I told you so" attitude is so plain that he unwittingly does. The world is moving forward, and those who dream of ideals and follow humanitarian impulses are helping it to move upward, too.

The honor system cannot be a success unless specific and easily recognizable differences between the convict and the citizen at liberty are wiped out. The honor system recognizes that the difference that distinguishes them most is directly traceable to prison environment, and it seeks to remedy it. And before setting down the final conclusion it is just as well to considerably weigh all the elements that enter into big prison discipline. To expect men, convicts or otherwise, to complacently compose their minds to acceptance of any program of discipline and maintain cheerfulness under it is expecting too much.

SPANISH WARSHIP VISITS CUBA

A Spanish warship is again in Cuban waters, the first to visit Havana since Spanish-American war days.

The vessel, instead of being greeted by shells, was given a cordial reception, and a long list of entertainments has been arranged for the officers and the crew. Attention is called to the change that has occurred in Spain by the friendly feeling thus shown for the Spaniards by the people who only a little more than two decades ago hated them with such good reason.

Freed from the difficulties that surrounded her attempt to govern rebellious colonial subjects, Spain has given

more thought to the condition of her people at home, with the result that much progress has been made toward the advancement of their happiness. Her colonial empire destroyed, Spain has given her attention to home affairs and ceased to disturb her neighbors. So the defeat the Spaniards suffered at our hands in 1898 was a blessing not only for the colonies that were liberated—Cuba, Porto Rico, the Philippines and Guam—but for Spain herself.

That Mexican leader who was reported to have Villa bottled up evidently forgot the stopper.

Anyway, there's no need for any man to be without a party these days.

DUNCAN CLAIMS CREDIT FOR SEATTLE STRIKE END

Labor Leader, Testifying for Communists, Assailing Hanson's Laurels

CHICAGO, (P)—James A. Duncan, Seattle labor leader, testified today at the trial of 20 members of the communist labor party, charged with plotting to overthrow the government by force, that the Seattle general strike last year was settled largely through his efforts.

Duncan continued his statement yesterday, in which he denied that Ole Hanson, former mayor of Seattle, who was a government witness, had any part in the settlement, and pictured Hanson as appealing to him for aid.

Duncan denied the strikers intended or attempted to take over the government or start a revolution.

COLORADO MOUNTAINERS SCALE LONG UNCONQUERED PEAK

DENVER, Colo., (P)—Crestone Needle, long an "unclimbed" peak of southern Colorado, was scaled recently by four members of the Colorado Mountain club. The four reported nothing was found on the top to indicate the peak had ever been climbed before.

Before they reached the summit, the climbers reported, they were forced to fight their way upward through deep snow banks and to climb cliffs hanging high over deep canyons. At one place they passed through an electrical storm.

In the second mile, 2:04 1-4, is a son's record for trotters.

In the 3-year-old trot, Great Britton, the Dodge entry, made good by taking the first and third heats. The Great Miss Morris won the second heat, but broke badly in the third and was distanced.

STUNK IS DROPPED.

PHILADELPHIA, (AP)—Amos Strunk, outfielder of the Philadelphia Athletics, has been released by Connie Mack by the waiver route, but whether Strunk goes to the Chicago White Sox or the Boston Red Sox was apparently an open question late last night. Strunk announced he was going to the western team, but a message from Boston said he was claimed by Manager Ed Barrow of the Boston Americans.

"BABE" RUTH OF THE MINORS.

LITTLE ROCK, Ark., (AP)—By hitting the ball over the fence in the eleventh inning of yesterday's game at Chattanooga, Outfielder "Babe" Miller of Little Rock, got his sixteenth home run of the season and broke the Southern Association record four-bases hits. The previous record of 15 was set by Jacobson now with the St. Louis Americans.

TOMMY WINS THIS.

MINNEAPOLIS, Minn., (AP)—Tommy Gibbons of St. Paul outbatted Left Turner of New York, in a ten round, no-decision bout here last night, according to newspapermen. The men are light-heavyweights. Turner, of the St. Paul, heavyweights, won from Tommy McCarthy, Lawton, Mont., in a six-round bout.

KRUG QUITS BEES.

SALT LAKE CITY, (AP)—Second Baseman Marty Krug of the Salt Lake club of the Pacific Coast league jumped the team at the conclusion of the game yesterday with Omaha in the Western league and joined Salt Lake in 1919. Krug refused to give out a statement as to why he quit.

GOES UP.

KANSAS CITY, Mo., (AP)—Glenn Meadows, a pitcher with the Oklahoma City club of the Western league, reported for duty with the Kansas City American Association team here yesterday. He accompanied the team when it left tonight for Milwaukee.

SCHAUER IS OUTPOINTED.

COLORADO SPRINGS, Colo., (AP)—Hajo Schuman of Denver, was given the decision in a 12-round catchweight bout with Johnny Schauer of St. Paul here last night.

WON ON POINTS.

KALAMAZOO, Mich., (AP)—Tony Melchior, Chicago heavyweight, won on points, according to newspapermen, in his ten-round bout here last night with "Chuck" Wiggins of Indianapolis.

Brief Bits of Sport

Jack Johnson appears to be making an appeal for public sympathy when he declares he did secret service for the U.S.A. during the war.

Also the black attempt to square himself with the public by lauding the country from which he exiled himself to dodge a federal prison term.

Perhaps some people will be galled by Johnson's new attitude, but the authorities will probably remember him as the man who made a public announcement that he could "have any white woman he wanted."

Salt Lake fans were talking about giving Ernie Johnson, manager of their team, a house and lot just to show their appreciation.

But that was before the Portland team rammed the Bee twirlers about a week back.

Sentiment changed after that game and yesterday the same fans donated a dozen silver knives and forks to Johnson's better half, who does not play ball a-tall.

Jack Johnson seems to be flitting to get some of the easy money floating about where dub fighters meet.

Johany Kilbane, the "over retiring" featherweight champion, is grooming Jack Wolfe of Cleveland to wear the featherweight crown.

Johany says Wolfe is his logical successor, and the champ is just perfecting a couple of punches for the Cleveland, which he says will just about fix everything all right, all right.

Breaking crowd records is not confined to the Polo grounds of New York entirely. Everywhere the Yankees go they sack the customers in the stands like cardinals.

The addition of Bambino Ruth, the Behemoth of Bust, to the Yank roster appears to have hypodermicked the Huggins into a "You Can't Kick Us" crowd.

William Harrison "Jack" Dempsey says there are only two rules in the fight game that a champion needs to observe. They are hit and keep from being hit.

A philosophic guy that Salt Lake messenger boy is becoming, for sure.

"He's a fine fellow, all right, and he can have anything I have in the world, but he must stay away from my corner hereafter," Benny says.

Pact is Charlie came near getting Benny disqualified during the scrap with Charlie White on July 5, when the brother shoved Benny back in the ring after White had knocked him out of it.

SENATOR BORAH HERE TUESDAY

Statesman will Come to Twin Falls to Give Address on Many Issues

Senator William E. Borah is to be in Twin Falls on Tuesday evening to address an audience in the Lawing theatre on foreign policies of the United States, the league of nations and kindred issues according to announcement made today by E. L. Hodgins, chairman of the republican county central committee.

Senator Borah's address here is expected to follow lines similar to his addresses on this subject which he has heretofore delivered at other points in the state since his return to Idaho following the national convention at Chicago.

Comment on Senator Borah's addresses elsewhere is highly favorable, his friends declaring that he has never spoken to better advantage and his critics giving him credit for lucid and temperate analysis of the issues under discussion.

PRACTITIONER HELD TO DISTRICT COURT

Claim is Made Osteopath Operates without Having the Proper Right

Dr. H. W. Sawyer of Twin Falls, was late yesterday bound over by Probate Judge O. P. Duvall for trial in the district court on a charge of practicing medicine and surgery without proper state license. The charge was preferred by the state department of law enforcement which was represented at the trial by Charles Darling of Boise.

The fact that Dr. Sawyer is a licensed osteopath and a graduate of a medical school is admitted, but it is the contention of the state department of law enforcement that Dr. Sawyer's certificate of graduation from a medical school was issued by a school which is not recognized under Idaho statute, and that his license as an osteopath does not permit him to perform surgical operations or issue prescriptions which he is alleged to have done.

Dr. Sawyer contends that his osteopathic license is sufficient to warrant his performing these acts.

Mr. Darling today denied that the state department of law enforcement was directing prosecution especially at osteopaths or at Dr. Sawyer in particular.

WATERUSERS OPPOSE SWEETLEY CANDIDACY

Canal Company Stockholders Take Stand Against Rival Firm's Representative

Candidacy of former Senator M. J. Sweetley of Twin Falls for the republican nomination for state senator from Twin Falls county was last night condemned by a meeting of between 200 and 300 waterusers of the west end of the county at a meeting at Castelford at which Claud Brown, a director of the Twin Falls Canal company, acted as chairman.

Objecting to Mr. Sweetley's candidacy was based on the fact that he is a legal representative of the Twin Falls Land & Water company.

There was no discussion at this meeting, it is said, of the county division issue.

The following resolutions were adopted by unanimous vote:
Whereas M. J. Sweetley, attorney for the Twin Falls Land & Water company, is a candidate for the nomination of state senator on the republican ticket; and

Whereas, This representative gathering of West End water users feels that it would be extremely unwise to

Cooler Weather Comes Along on Time Scheduled

ONE item of the weather prognostication sent forth yesterday, dealing with today's climatic conditions, was correct. It is cooler.

The weatherman, however, seems to be overlooking bets daily of late.

Not since last spring has rain been as imminent as it is today, but the prophet mentioned it not; neither does he speak of it in the guess for the next 24 hours, merely suggesting it will be fair tonight and Saturday.

There was a drop of 15 degrees noted in yesterday's high heat as compared with that of the previous 24 hours, 81 being the top of the day. Fifty was low last night.

Send to the legislature a man who is legal representative of a corporation whose interests are directly opposed to those of the Twin Falls Canal company. Therefore, Be It Resolved: That we hereby condemn the candidacy of the aforementioned, M. J. Sweetley.

CHURCH WINS PENNANT

The Rev. and Mrs. A. H. Brand, with others who attended the Presbyterian annual outdoor convention, have returned from Bellevue, where the past week was spent discussing church matters. The Twin Falls church was again awarded the pennant for attendance. A movement has been started to have the regular annual church meeting synod held in 1921 at the same time as the summer outdoor convention and at the same place. This will be decided at the general meeting in October at Idaho Falls.
