HALF OF MINES OF INDIANA ARE STRIKE BOUND

Illinois Coal Production Virtually Stopped by the Spread of Disaffection in the Neighbor State

WILSON HAS REPORT OF DEPARTMENT OF LABOR
Intimations Point to Official Recommendation for Re-opening of Wage Award of Bituminous Commission

INDIANAPOLIS, Ind., (AP)—Reports received from Indiana mining fields today indicated that at least half the mines in the state are still idle as a result of the strike of "day men" which has spread into this state from Illinois where virtually all mines are idle. Some authorities said that 75 per cent of the state mines were closed.

SECRETARY WILSON'S REPORT IS LAID BEFORE PRESIDENT

WASHINGTON, (AP)—Secretary Wilson's report on the coal situation in general with particular emphasis upon conditions in Illinois and Indiana, was sent today to President Wilson.

OPERATORS ARE CALLED TO CONSIDER COAL SITUATION

ST. LOUIS, Mo., (AP)—Thomas T. Brewster, chairman of the coal operators' scale committee, today called a meeting of operators in the central competitive field to consider the coal situation as a result of the miners' strike.

The operators, at the meeting, Mr. Brewster explained, will consider the advisability of conferring with officials of the United Mine Workers of America on the strike situation, as suggested

DENIES CANADIAN VETERANS ARE EMIGRATING TO MEXICO

NEW YORK, (AP)—General Critchley, widely known in Canadian military circles, today denied the truth of a dispatch received yesterday from Calgary, Alberta, which stated that, with the support of the British government, he was taking three battalions of British and Canadian veterans into Mexico to settle them on a million-acre estate.

"There is not a word of truth in the report," declared the general in a telegram received here from Hot Springs, Va., where he is now staying.

DEMOCRATS PUT NO LIMIT UPON CONTRIBUTIONS

Campaign War Chest Open to Donations of Any Amount, National Chairman George White Announces

"CDXSURE" OF VICTORY WITH SLOGAN ADOPTED

Refers to Illinois, Indiana and Ohio as Battleground, but the Fight may be Carried by Cox to Other States

WASHINGTON, D. C. (AP)—The democratic party's campaign war chest is open to contributions of any amount, George White, chairman of the national committee, announced here today. Party leaders, Mr. White said, "will examine the source rather than the amounts of all contributions."

"Peace, progress, prosperity" will be the three-word slogan of the democratic campaign, Mr. White said, adding that with this slogan the party should be "CDXSURE" of victory.

The new national chairman referred to Illinois, Indiana and Ohio as "the battleground" of the campaign but indicated that as the campaign plans developed, Governor Cox would carry the fight direct to the people and could visit a majority of the states.

Calling Restrictions Useless. Discussing campaign contributions, Mr. White said the restrictions which had been proposed as to the size of the gifts were so easily circumvented as to make them useless and that the national committee therefore would content itself with a scrutiny of all contributions in order that no contributions would be entailed by the acceptance of campaign funds.

Democratic leaders, Mr. White said, are seeking to have the senate committee investigating campaign expenses continue its operations. He added that it was particularly desired to bring to light the contributions to republican state committee, but that thus far a way to accomplish this had not been found.

Before leaving Washington the national chairman expected to confer with Attorney General Palmer, who was a candidate for the democratic nomination for the presidency and probably will seek his aid in the speaking campaign.

New York Campaign Center

Direction of the national campaign will center in New York, Mr. White will go to the headquarters there at the end of this week and will arrange immediately to put the campaign into operation.

A western manager is to be named soon so that the work of arranging speaking tours can be started in the three states where the fight is expected to center. The western manager will have headquarters in Chicago.

World News Events

STOCKHOLM, (AP)—Germany is trying to export by way of Sweden 200,000 rifles and the Swedish government has been asked to consent to their importation on the understanding they are intended for re-exportation to Mexico. Application to this end has been made to the foreign office. Stockholm newspapers declare that this looks like a suspicious transaction.

BUENOS AIRES, (AP)—A revolutionary general strike has been declared in Punta Arenas, Chile, according to information sent by the governor of Santa Cruz and received by the minister of interior. Strikers are reported to have entrenched themselves in the labor federation headquarters which later was taken in an assault by police and soldiers. A number of strikers were killed in the assault. No reason for the strike is given.

MADRID, (AP)—Thousands of persons in Spain are incensed over the action of the wine growers in the Valdepenas and other vineyard districts, who after a meeting, threw large quantities of this year's yield, which is extremely bountiful, into the rivers, in order, it is said, to maintain the high prices of wines. Lack of transportation prevented the producers from exporting wines and fruits.

JAPAN SEEMS NERVOUS OVER U. S. RELATIONS

Tokio Dispatch Says Communication Not Protest But Exposition of American Viewpoint

CONGRESSIONAL INQUIRY AND OTHER INCIDENTS RESULT IN APPREHENSION

TOKIO, (AP)—The Japanese government has received a communication from the United States pointing out, among other things, that America is unable to recognize Japan's occupation of the northern half of the island of Saghalin. The Nichi Nichi says of the nature of the protest, however, that the impression exists here that the communication is not really a protest but rather an exposition of the American viewpoint on occupations of Russian territory, with something of America's attitude towards the territory to be occupied.

It is apparently felt here that any publication of the details of the note should emanate from Washington and not Tokyo. Meanwhile it is considered likely that Japan, after mature deliberation, will forward an answer to Washington in an attempt to clarify official opinion there and remove any misunderstanding of Japan's position.

Another "Nervous Crisis." Appearance here indicate that Japan is passing through another "nervous crisis" concerning her relations with the United States. Numerous interpellations have been made in the diet about the American attitude, and what the important newspapers are circulating their readers to keep cool it is apparent that a certain amount of apprehension exists concerning the result of

ARMED REVOLT LOOMS IN LOWER CALIFORNIA

Governor Cantu Recruits Troops to Repel what He Calls Invasion of State by Mexican Federal Soldiers

U. S. OFFICIALS GUARD AGAINST ARMS SHIPMENT

MEXICALI, Lower California, (AP)—Troops were being recruited here today by Eulogio Cantu, governor of the northern district of Lower California, to repel what he described yesterday as an "invasion" of Lower California by Mexican federal soldiers.

Three recruiting officers here were busy until late last night enrolling men. Governor Cantu hoped to obtain an army of 5000. The advancing federal troops were said here numbered about 3000. The governor expects an attack at Ensenada in about seven days and at a Colorado river point in about four days. The governor was waiting today for an answer to a telegram he sent president President de La Huerta protesting against the invasion. He denied a statement by the under-secretary of the Interior in Mexico that there was open rebellion in Lower California.

LOS ANGELES, Cal., (AP)—United States officials here have announced sharp watch will be kept to see that no arms or ammunition are shipped across the border into Lower California. Belief here has been expressed that Governor Cantu has attempted to aid Governor

AMERICAN NAVAL FORCES IN NEAR EAST AUGMENTED

Navy Department Dispatches Six Destroyers to Safeguard Citizens

WASHINGTON, D. C., (AP)—American naval forces in the Near East will be augmented by six destroyers the navy department ordered today. The ships sail from Philadelphia, probably within the next ten days.

The six destroyers will increase Rear Admiral Mark L. Bristol's command to ten destroyers, in addition to the cruiser. The navy was waiting today for an answer to a telegram he sent president President de La Huerta protesting against the invasion. He denied a statement by the under-secretary of the Interior in Mexico that there was open rebellion in Lower California.

Lloyd-George Asserts Allies are in Accord Regarding Negotiations with Russian Soviet Government

WARSAW, (AP)—The Polish committee of national defense sent a wireless message to the soviet supreme command on July 27, stating that it would send delegates on July 30 with full power to negotiate an armistice.

The message informed the soviet command that the delegates would appear at 8 p. m. on the road between Brest-Litovsk and Baranovitchi, the time and place requested, where they would meet an advance post of the soviet army.

WARSAW, (AP)—At last accounts the Bolsheviks were within the outskirts of Bialystok, the fall of which is expected here to occur at any minute.

The newspapers are advocating immediate construction of trenches, fortifications and other works for the defense of Warsaw before the Bolshevik advance too closely.

LONDON, (AP)—Continued advances along virtually the whole front against the Poles are reported in Wednesday's official communique from Moscow, received by wireless today. It reported fierce fighting in the Alexanderovsk-Kashchok region of the Crimean sector.

PARIS, (AP)—The Franco-British mission to Poland has made a report of the military situation in that country which it declares is not so desperate, but that it can be retrieved without great difficulty if the mission's three main recommendations are followed.

Poles Argue Invasion Bolsheviks' Purpose

WARSAW, (AP)—Additional French officers attached to the military mission have arrived. All of them will be assigned to various Polish units as technical advisers. A large school for officers, under the supervision of French officers, was opened today at Rembertoff, a suburb of Warsaw.

The newspapers continue to express their contention that the soviets do not want peace, but desire

BATTLE TO END PRECIPITATED IN COAL FIELD

Opposing Sides in West Virginia Mining Controversy Declare Outcome can be Nothing Less than Victory

WILLIAMSON, W. Va., (AP)—The campaign of the United Mine Workers to organize the 100,000 miners in the Mingo county bituminous coal field has precipitated a situation which each side declares can only end when it has won complete victory. In the conflicts growing out of this war, more persons have lost their lives. Wages, apparently, form a secondary consideration, the battle being waged around recognition of the union and the right of mine owners to employ private detectives in and around the mines.

"The men and the operators could get together and settle this thing were it not for the question of the mine guards," said Charles F. Kenney, president of District No. 17, United Mine Workers who is in command of the union forces. "But in their present attitude these men are not to be fooled with. Right now this situation is a powder mill."

Demies Guard Employed.

"There is not a mineguard in Mingo county, and there has not been for years," said George Baasewitz, secretary of the Coal Operators' association of Williamson. "Private detectives are employed as other corporations employ detectives for intelligence work in and around their properties. They are not used for guarding the mines."

The question of wages hinges on the scale paid in the Kanawha field. The union leaders declare that adoption of this scale would increase the earnings of the miners in Mingo, while the operators insist that their miners, under the scale now in force, are being paid more than it is possible for the Kanawha miners to earn. However, little attention is being paid to that phase of the controversy. Recognition of the union is the big issue.

The Mingo field includes all of Mingo county and the mines along the Kentucky side of Tug river, a shallow narrow stream which for miles in this region forms the boundary between Kentucky and West Virginia. High mountains rise abruptly on each side of the river, their sides covered with a heavy growth of bushes. Along the mountain sides are the drifts of coal which comes the coal, and nestling in the narrow valley are the little towns where live the miners and their families.

Mostly Native Born.

Fully 75 per cent of the miners in the region are native born, many of them the descendants of pioneers who entered the county more than 100 years ago, and who are proud of their lineage. Some foreign-born miners can be found in the camps, while numbers of negroes are employed. Often the miner owns a small acreage, for which in the planting and harvesting, he will abandon the mine.

In some places the miners live in brick cottages, each having its garden plot and front porch. Such a village is Bordertown, where early this month miners were fired upon from a mountain, the mine going to work. In other villages the houses are of frame construction, each set in its own garden plot, and for which the miners pay at the rate of \$2 per month per room.

Williamson, the center of the region, is pleasantly placed in the valley, with substantial buildings and good stores. The Mingo county seat is one of the best structures, but the city hall also is a complete office building, while there is in course of construction a theater which will cost \$250,000. The 8,000 residents of the town very generally enjoy the prosperity which has come to the coal trade in the past few years.

Wage Demands Lead to Strike.

Early in the year the movement to organize the United States Mine Workers was inaugurated by President Kenney from a district headquarters at Charleston, and organizers were sent into Mingo county. They met with such success that a dispute was made upon the operators for the enforcement of the Kanawha scale and recognition of the union. This demand the operators refused, and the strike called. The order, mine operators say, was answered by from 1500 to 1800 miners, but the union officials put the figure higher.

The companies, through their lawyers, took the position that the houses built for the miners who had gone on strike reverted at once to the owners. The miners, in turn, held the position that the companies wanted the house of a man they must obtain possession of it by due process of law.

Several Miners Evicted.

Numbers of miners were evicted from company houses, and it was for that purpose private detectives, "mine guards," the miners term them, were sent to Matewan, June 10, and where in the fight which followed the eviction of five families, 10 persons were killed.

Many miners, however, moved from company houses without protest, and the United Mine Workers established for such persons tent colonies along Tug river near the places of their former employment. There the strikers and their families live in army tents, and there they declare they will stay until the strike has been settled and they have returned to work.

AMERICAN INTERVENTION WITH JAPAN IS INDICATED

Tokio Reports "Certain Government" Objects to Baghlin Occupation

TOKIO, (AP)—Four thousand Japanese troops have been ordered to complete the occupation of the northern half of Baghlin island, Major General Tanaka, minister of war today informed the diet.

TOKIO, (AP)—According to the Nichi Nichi the Japanese government has received an inquiry partaking of the nature of a protest, from "a certain country" in connection with Japan's intention to occupy Baghlin, Manchuria, stationing troops in Khabarovsk and elsewhere.

Viscount Uchida, foreign minister, has submitted the inquiry to the cabinet, which later will go into special session with the diplomatic advisory council to discuss the subject.

WASHINGTON, (AP)—The known reluctance of the United States to concur in the occupation of Baghlin, Siberia, by Japan, led to the belief here today that the American government was the "certain government" referred to in the Tokyo dispatch as protesting against Japanese intervention.

While state department officials would neither confirm nor deny that the United States had communicated with Japan, it is known that the increasing penetration of Siberian territory by the Japanese has been watched closely by government officials.

RESUME MILK DELIVERIES UNDER ARMISTICE TERMS

Kansas City Daytime and City Officials Reach Temporary Agreement

KANSAS CITY, Mo., (AP)—Milk deliveries to Kansas City consumers were resumed Wednesday under an armistice agreement, after a suspension of 24 hours because of differences between four of the largest dairy companies and city officials over the city milk grading ordinance.

The dairy companies delivered milk in bottles with blank caps, without indicating the grade as provided in the ordinance, the point which caused stoppage of the supply yesterday.

Heads of the four companies were at liberty on bond today after their arrest Tuesday on warrants charging conspiracy to injure the public health. The trials were set for August 9.

TELEPHONE COMPANY BASES

CLAUDE ON RAIL WAGE ROOST

SALT LAKE CITY, (AP)—The recent award of the railway wage board figured in the hearing here before the state utilities commission on whether increased rates allowed the telephone companies during government control should be made permanent. Milton Smith attorney for the Mountain States Telephone and Telegraph company, said this award would increase freight charges the company would have to pay and thus place them under a heavy operating expense. Even the increased schedule, he declared, would not provide the company with adequate revenue.

QUEEN TEACHES LUXURY

BUYING FOLK A LESSON

PARIS, (AP)—The Queen of Rumania taught luxury buying folk a good lesson recently when she entered an antique shop. She picked up an amber statuette and asked the price. "One hundred and twenty pounds," was the reply. "That's too much for me," said the queen and her daughter Princess Elizabeth, who was with the queen added: "They must think we are Americans."

ROOT PREDICTS SOLIDARITY OF ANGLO-SAXONS

Unveiling of Lincoln Statue in London Occasion for American Jurist's Expression of Nation's Friendship

LONDON, (AP)—Elihu Root, former American secretary of state, who recently took part in the work of the commission of jurists at The Hague for the establishment for a permanent international court of justice, Wednesday formally presented to the British people the Saint Gaudens statue of Lincoln in Canby square as a gift from America, and later the statue was unveiled. Premier Lloyd George abandoned pressing official business to deliver the speech of acceptance. The presentation was made in the presence of a distinguished audience in the central hall of Westminster with Viscount Bryce, former British ambassador to the United States presiding. The event was widely heralded in the British press as further cementing Anglo-American friendship.

Contrasts Leaders' Lives.

In the course of his address, Mr. Root declared: "It would be difficult to conceive of a sharper contrast in all the incidents and immaterial things of life than existed between Lincoln and the statesmen whose statues stand in Parliament square."

Later, in his address, however, Mr. Root said: "It is the identical fundamental conceptions in both countries which make it impossible that in any great world emergency Great Britain and America can be on opposing sides. These conceptions of justice and liberty are the breath of life for both. While they prevail, both nations will endure; if they perish, both nations will die. These were Lincoln's inheritance."

"We may disregard all life's prejudices and quarrels that result from casual friction and pin pricks and from outside misrepresentation and detraction, and rest upon Lincoln's unerring judgment of his countrymen and his race. We may be assured from him that whenever trials come, whenever there is need for assurance of the inherent power, truth and triumph of justice, humanity and freedom—then the peace and friendship between Great Britain and America will prove to be the Lincoln desired to make them, perpetually."

Lloyd George Pays Tribute.

In his reply, Premier Lloyd George said that on behalf of the people of the British empire he accepted with gratitude this statue of a great man, and that of the pride and affection with which Lincoln was regarded here, and continued:

"He was one of those giant figures, of whom there are so few in history, who lose their nationality in death; one of those few who belong to mankind. Such men are needed now more than ever in the settlement of this world."

"May I be permitted to say," added the premier, "that this torn and bleeding earth is calling today for the help of the America of Abraham Lincoln's days."

PERNICIOUS SPARROW DESTROYS MUCH GRAIN

Field Agents, Following Inspection, Tell of Farmers' Losses by Birds

Having gathered much detail of a gratifying nature regarding wheat seed in this section of Idaho H. E. Powers, county farm bureau agent, and M. A. Thometz in charge of seed improvement for the local farm bureau, have completed a general inspection of fields in the district. They were accompanied on this trip, which started last Friday and concluded Monday night, by C. E. Ahlson, of the state seed commissioner's office.

The report rendered indicates exceptional wheat growth this year, with promise of bumper yields. The seed produced, generally speaking, promises to be of a high order. Estimates of some fields suggest wheat yields of not less than 80 bushels to the acre.

Throughout the country sparrows are said to be doing vast damage to fields, stripping the maturing grain from heads with the thoroughness of a flail at threshing time. The pest makes the wheat fields their feeding ground during the day, harboring in immense flocks in the roadside woods and sweet clover plants during the night, ready for their pernicious incursions against the grain the next day.

It is eminently probable that out of this pest activity this year will grow an intensive campaign against sparrows this fall, winter and the coming spring.

FIFTEEN YEARS AGO IN TWIN FALLS

Taken at random from The News files this date in year 1905

A. N. Sprague returned to Twin Falls Tuesday evening after a short visit in Pocatello.

S. H. Keel of Waris and Keel is here fromampa to superintend work on the power house and plant of the Shoshone Falls Power company, Ltd., for which his firm has the contract.

Superintendent Ramsey of the Waterworks company has completed the laying of the five-inch pipe from the pump house to the tank. The 12-inch pipe for the water which is to be attached to the pump has also arrived and the wheel is on the way.

Rev. Bastin, minister at large of the Presbyterian church, held services in Twin Falls Sunday. He has postponed organization of the church here until a month later as many of the members have not received their letters from other churches.

C. E. Booth is opening a large dry goods and millinery store in the Pike block on Main street. The fixtures are coming from Chicago and are the best and most attractive manufactured and the store will be ready to open in a few days.

Dr. and Mrs. H. W. Cloucheck and Mr. and Mrs. James Nibley were returned from the Portland exposition a few days ago and did some noble missionary work for Twin Falls in their absence.

"Get there ahead of the rails if you can" was the message received by George D. Aiken superintendent of telegraph construction from General Superintendent Brickingham of the Short Line. Mr. Aiken was miles below the rails when the message came but he put on a mighty sprint and managed to open the Twin Falls office at 11 o'clock on Thursday night, July 27. The first

telegram sent from Twin Falls was dispatched by George B. Fraser of The News and was addressed to Superintendent R. F. Frobes of the Oregon Short Line. It was a request to file piece dispatches and brought a prompt reply that arrangements would be made at once to place Twin Falls in touch with the outside world.

TURN HAIR DARK WITH SAGE TEA

If Mixed with Sulphur it Darkens So Naturally Nobody Can Tell

The old-time mixture of Sage Tea and Sulphur for darkening gray, streaked and faded hair is grandmother's recipe, and folks are again using it to keep their hair a good, even color, which is quite sensible, as we are living in an age when a youthful appearance is of the greatest advantage. Nowadays though, we don't have the troublesome task of gathering the sage and the mussy mixing at home. All drug stores sell the ready to use product, improved by the addition of other ingredients, called "Wyeth's Sage and Sulphur Compound." It is very popular because nobody can discover it has been applied. Simply moisten your comb or a soft brush with it and draw this through your hair, taking one small strand at a time; by morning the gray hair disappears, but what delights the

ladies with Wyeth's Sage and Sulphur Compound, is that, besides beautifully darkening the hair after a few applications, it also produces that soft lustre and appearance of abundance which is so attractive.—adv.

JONES SHIPPING BILL PROVOKES BRITISH WRATH

Proposed American Legislation is Denounced as "Retaliatory and Discriminatory" and the Product of Jealousy

LONDON, (AP)—The Jones bill, characterized as "America's bid for shipping supremacy," is denounced by the shipping expert of the Sunday Observer as "retaliatory and discriminatory."

He declares that the war has taught other nations the importance of owning a mercantile marine and that jealousy has been aroused throughout the world by the "ability and magnificence" of the British mercantile establishment. "In two countries," he asserts, "in particular, is a feeling of most bitter jealousy against the mercantile marine. These two countries are France and the United States."

"The writer declares that there is nothing to which foreigners can object in the principal provisions of the Jones bill insofar as it is intended to co-ordinate the transport resources of the United States whether ocean, coastwise or inland shipping, railways, ports and docks so as to form an immense undertaking to force American export and import trade into the hands of American ships."

He says, however, that some of the clauses of the bill were intended to be discriminatory against Great Britain and Japan. Among these he mentions those which authorize preferential treatment to American vessels in American ports. The insurance provisions of the bill, he says, impose the most drastic forms of returns, "which are based absolutely upon the methods of the German insurance companies against which America herself protested so bitterly previous to her entry into the war. These have been devised admittedly for the purpose of learning foreign lots of business transacted by foreign companies with a view to passing the same on to American concerns. The object of course is that, having this information, the government may assist the American company entirely to assist British insurance."

"In the same vein is the clause which waives in favor of American insurance companies the Sherman anti-trust law. This is entirely on a par with the methods adopted by the shipping board during the war when it transferred the confidential information given to the shipping board solely for the purpose of the war was being used to enable American shipping to defeat British shipping after the war."

"We in this country know that we are to be faced with the most bitter competition for the supremacy of the seas which we have ever had to meet. We are in for a big fight, but before America can win the fight she must create a national feeling for a mercantile marine. She must prepare to pay considerably higher freight and insurance rates on all her imports and exports and she must be willing to forego profits on her shipping enterprises for many years. The person who is most willing to feel the pinch of America's ambitions will be the American exporter."

YANKS DEFEAT BELGIANS.
ANTWERP, Belgium, (AP)—The American polo team defeated the Belgians 13 to 3 in the Olympic contests yesterday, rolling up a bigger score than the British team did against the Belgians Monday when the score was 8 to 2.

The Belgians were decidedly outplayed. The mallet skill of the Americans was much improved over that in the Sunday game against Spain.

FRENCH FIGHTER HURT.
MONTREAL, (AP)—Georges Papin, French lightweight boxing champion, was injured by a fall through the ropes in the fifth round of a scheduled 10-round bout with "Fighting Ned" Fitzgerald of Australia, here last night and was unable to continue. Papin was knocked unconscious when his head struck the corner of the press table.

AMERICAN TEAM RATED THE BEST PICKED IN U. S.

Eckersall Believes Victory on Olympic Track and Field is Assured

BY WALTER ECKERSALL

The American team which has sailed from New York City to the Olympic games at Antwerp, Belgium, is rated by coaches and close followers of track and field athletics as the greatest aggregation which ever represented this country in the world contests in a single event. The marks established by Uncle Sam's representatives stamp them as practically unbeatable in most events. With such an array of talent, an American victory in track and field is assured.

Shrewd Coaches in Charge

The American team will be in charge of Coach Monckley of Cornell University, Lawson Robertson of the University of Pennsylvania, and Martin Delaney of the Chicago Athletic association. These men are rated the shrewdest in the country and can be relied upon to place the men in events which will bring most points to the American total.

For the most part the coaches will have little to do with the training of the athletes. The men chosen for the American team realize what is expected of them and will leave nothing undone to make strong showings in their respective events. Monckley, however, will command the respect of the athletes who will be duty bound to obey his orders.

British Rivals Dangerous

Although the Yankee team will be fortified in every event with good men, allowances are made for the proverbial dark horses who generally are uncovered in a meet of this kind. The best-laid plans may go awry if the dope is upset in the game, and the coaches will have to switch their men to the extent of making some run two races during the course of the games.

As far as is known on this side, the English runners are the only entrants who command the respect of the Americans. Rudd, the quarter and half-miler, is looked upon as a dangerous contender for honors in both events at Antwerp, while Montague certainly will be a contender in the long runs. Aside from these two sterling runners, England will be represented by others who will make our best runners step right along to win points.

Weak in Marathon

American weakness in the Marathon race is admitted on all sides. Efforts have been made to uncover some long distance stars by holding trials in a number of cities, but nothing out of the ordinary was produced. On two occasions the races were won by men who are not eligible to represent this country in the games.

The Marathon is looked upon as one of the features of the Olympiad. The

course over which the men run is generally lined with thousands of persons, who spur the runners to greater efforts at all times. It is one of the oldest events of the games, and the winner earns more honors than the victor in any other individual event.

Will Tour Europe

After the games the American team will be divided, and some of the athletes already have accepted invitations to compete in open meets in Paris, Stockholm, and other European cities. The men will have plenty of opportunity to see battle scarred Europe and all of them intend to take advantage of the opportunity.

Following the departure of the American team there will be little activity in amateur athletics until the football season opens in the fall. Open meets have been scheduled for early fall in some sections of the country, while the first A. A. U. outdoor track and field championships will be held about Labor day.

Many to Retire

There are many athletes on the Olympic team who have announced their retirement upon their return to this country. They have been consistent point winners in open meets, while some of them were members of the Olympic team at Stockholm in 1912.

The graying feature of this year's Olympic team, according to Olympic Committee man E. C. Brown, is that all sections of the country are represented by an equal number of athletes, with the exception of the south. The southern Olympic trials at New Orleans were a disappointment, while the marks made in the other three sections were above expectations. The Olympic committee is well pleased with the selections and in the manner in which the American people contributed to the fund to defray expenses of the team.

GRAND CIRCUIT RACES

COLUMBUS, O., (AP)—One world's record was reduced yesterday when Ritz Grande, champion 3-year-old pacing gelding, while winning the American Association Trotting Horse Breeders' purse of \$2500 for 3-year-olds, paced the second heat in 2:04 3/4, lowering his own world's record a second and a half. His was a prohibitive favorite and barred in the betting.

The program was made up of pacing events, the feature being the C. T. Dunkle 2:08 pace, purse \$3000. Symbol S. Forrest won after dropping the mile heat to Elmo Early. In the final heat Symbol S. Forrest, gained victory only at the wire. Calgary Karl led to

the half in 1:01 1/4, but he tired coming home and finished fourth. Symbol S. Forrest was the original favorite, selling for \$100 to \$50 for the field.

The 2:07 pace was won by Eddie China after she dropped the first heat to Drift Patch. This gave Murphy two victories.

The 2:12 pace had Prosser as the auction favorite. He was in a spill in the first heat with Joe McKay and both horses were placed because of the undesirable accident. Mr. Green behind Prosser went down when Joe McKay trampled into his sulky wheel, but he was uninjured. Prosser did not do well and failed to go on and win for his backers. Senator Wilkes won the race after losing the first heat to Baron Russell.

OLYMPIANS DISQUALIFIED.

SAN FRANCISCO (AP)—Charges that Ted Snyder and J. E. Grant, boxers now on their way to represent the army and navy, respectively, in the Olympic games at Antwerp, were disqualified for amateur standing, were last night integrated to the national headquarters of the Amateur Athletic Union. Smith attorney for the Mountain States chairman of the registration committee of the Pacific Amateur Athletic association. Andrus charged that the men had violated the amateurism rules of the A. A. U. by boxing at places where admission was charged, by boxing against recognized professionals and by boxing at tournaments unrecognized by the A. A. U.

McADOO TO TAKE STUMP FOR COX

Former Secretary of Treasury Makes Point of Money Used in Campaign

NEW YORK, (AP)—William G. McAdoo, former secretary of the treasury and a candidate at San Francisco for the democratic nomination for president, announced today that he had consented to deliver some speeches in behalf of Governor Cox, the party's nominee, during what he said would be a vigorous and aggressive campaign.

Wants Spotlight on Expenses.
In a statement issued after a conference with George White, chairman of the democratic national committee, and Governor Cox's secretary, held at Mr. McAdoo's home last night, Mr. McAdoo warned that the proper use of money for a "purchased presidency" and urged that the spotlight of pitiless publicity be turned on campaign expenses during the forthcoming campaign.

Mr. McAdoo stated that at the conference "the formidable campaign fund under control of the republican national committee and its serious menace to the forthcoming campaign," had been discussed.

Mr. McAdoo's statement in part follows:
"A vigorous and aggressive campaign will be undertaken, and no effort will be made to make the people of the country acquainted not alone with Governor Cox's progressive ideas and purposes, but to inform them of the exceptional record made by the democratic administration under President Wilson during the past seven years."

"The formidable campaign fund under control of the republican national committee and its serious menace to the forthcoming campaign were discussed."

"If the senate investigating committee, of which Senator Kenyon of Iowa is chairman, does its full duty, it will hold frequent sessions throughout the campaign and investigate fearlessly the sources from which is drawn the money to finance both the republican and democratic parties and in what manner the money is expended."

Calls Law Evader Easy.
"It is easy for contributors and political committees to evade the federal corrupt practices law. Every subscriber to such an organization, the names of donors and to state committees instead of to national committees, advertising by private individuals or syndicates so as to avoid accounting to the federal authorities, must be brought into the spotlight of pitiless publicity. The people will not stand for a purchased presidency."

"Governor Cox stands for a clear election, for full and pitiless publicity of campaign contributions and their uses, for progressive policies and the league of nations. The democratic platform is the only one that will bring the liberal and progressive elements of the country and for those who believe in universal disarmament and the prevention of war through an honorable association of the world which will substitute arbitration for military force in the settlement of international disputes."

DEMAND LARKIN'S RELEASE

Agitation in Ireland for Liberty for American Prisoner is Renewed

DUBLIN, (AP)—There is a renewed agitation in Ireland for the release of James Larkin, now serving a sentence in America. Some of the new town councils have taken up the matter, and are busy passing resolutions about it.

At Mullingar the town council demanded Larkin's release, and Mr. Brett, a member of the county council, said that, as Larkin was an Irish citizen, any communication with reference to him from the American government should be made through the Irish republican government and he thought that the matter should be placed in the hands of the minister for foreign affairs of the Irish republican government.

Other Irish councils are acting similarly.

FUNERALS

Funeral services were conducted yesterday afternoon at the Church of the Brethren by Elder C. Fahrney for Vera E. Nicholson, year-old daughter of Mr. and Mrs. Lloyd V. Nicholson of Filer. The child died at a local hospital Tuesday morning. Burial was in Twin Falls cemetery with Undertaker J. E. DeWitt in charge.

Today's Markets

New York Stock Market

NEW YORK, (AP)—Pools resumed their bullish operations in selected issues today. Extreme weakness of foreign exchange was offset by easier rates for call money. Sales approximated 550,000 shares.
Price changes were again very mixed and confusing at the opening of today's stock market. The independent steels and automobile issues, including rubber securities, were under further pressure, but rails and equipments responded to moderate covering. Crucible Steel and Chandler Motor lost 1 1/2 points each and Kelly-Springfield 2 1/2 points each. Central Leather recovered part of yesterday's setback and firmness was shown by such leaders as United States Steel, Baldwin Locomotive and Reading. Early quotations for exchange on London denoted more acute weakness.

Liberty Bonds

NEW YORK, (AP)—Closing prices today were: 3 1/2% \$90.08; first 4's \$85.80; second 4's \$84.54; first 4 1/4's \$85.74; second 4 1/4's \$84.78; third 4 1/4's \$85.05; fourth 4 1/4's \$85.10; Victory 3 3/4's \$95.76; Victory 4 3/4's \$95.70.

Grains and Provisions

CHICAGO, (AP)—All grain tended upward in price today, influenced largely by apprehension that dry weather might injure the corn crop. In the wheat pit the financial situation. The close was heavy, 1c to 1 1/2c net lower, with December \$2.33 1/4 and March \$2.36 1/2.

Rallies ensued, but after midday the market underwent a material sag, influenced more or less by bearish moves of the financial situation. The close was heavy, 1c to 1 1/2c net lower, with December \$2.33 1/4 and March \$2.36 1/2.

Corn traders gave special attention to reports that some corn in Illinois was already damaged by lack of rain and that moisture must come in the next few days or the yield would be much reduced. Official figures showed that since June 1 the rainfall in Illinois had been less than a foot of normal. At opening 5 1/2 to 4c higher, including September \$1.43 1/2 to \$1.44 5/8 and December \$1.28 1/2 to \$1.29, the market moved some additional upturn.

Subsequently absence of buying for rural account led to speculative selling and to a decided setback in values. The close was weak, 1c to 2 1/8c net lower, with September \$1.40 3/4 to \$1.40 7/8 and December \$1.25 1/2 to \$1.25 7/8.

Oats sympathized with corn, starting 1 1/2 to 2 1/4c higher, September 71 to 71 3/8c, and then continuing to harden.

Higher quotations on hogs and grain lifted provisions.

COUNTY DIVISION?

NO! NO! NO! NO! NO! NO!

Once more some of the citizens of Buhl are attempting to divide our splendid County; and one of our own people, honored and trusted by us in the past, in the extremity of his political necessity, has joined hands with them to that end. Of course, reference is had to Ex-Senator M. J. Sweeley, who has become their candidate for renomination in the Republican primaries, and who, in public addresses both at Buhl and Twin Falls, has declared himself for County division.

Don't be misled by Sweeley's smooth arguments or camouflage. He attempts to capitalize your dissatisfaction with road work and other matters of local interest. Will his election to the Senate hurry the road work, or get us more miles of paved roads? Ask him how. He complains of taxes. Will it lower the taxes to divide this County and make the same territory support two court houses and two sets of county officials instead of one? No, most emphatically no! It is an admitted fact that the creation of the new county would, through the burden of maintaining an additional county government in all its branches, increase our taxes, and we all know they are high enough now.

Mr. Sweeley argues that because our representatives and senators have in the past repeatedly voted to divide other counties, we are not fair or consistent in resisting the division of this County at this time. The huge counties first organized in sparsely settled Idaho, as Mr. Sweeley well knows, had to be divided as population grew, and the divisions were made with the consent and approval of everyone interested, constituting no precedent for the case of a compact and convenient County like Twin Falls, more than two-thirds of the Citizens of which are as hostile to division as were the people of the North when it was proposed to divide our Nation.

Does Mr. Sweeley really believe that the proposed division is for the best interests of our County? By no means. His action in the past, uniformly opposing division, shows him to either have been insincere then or now. The plain facts are believed to be that Mr. Sweeley desires to go to the Senate for other reasons, and perhaps thinks that his only chance to do so is by securing the votes of the Buhl divisionists.

It has been "doped" that the Buhl people will vote for Sweeley because he represents their desires and that we in Twin Falls and vicinity will support him through loyalty to a fellow-citizen. Loyalty is a true test of citizenship, but the right to benefit by it has, in Mr. Sweeley's case, been forfeited by utter disregard for local convictions, feelings and interests.

As a plain matter of fact, Mr. Sweeley is not entitled to the vote of any Citizen of Twin Falls, or of Twin Falls County, who does not desire to see his County dismembered and broken up.

Senator J. H. Seaver is a candidate for re-election. Mr. Seaver served the county well as Senator in the last legislature, stood firmly against County Division, and was a strong and valued member in every way. You make no mistake when you vote for him. The fight for the Republican nomination is between Sweeley and Seaver, and a vote for any other candidate for State Senator in the Republican primaries is a half vote for Sweeley.

Saturday is the last day for registration. You must register for this election, no matter whether you moved from your last voting precinct or not. See that you are registered, then get out and vote for Seaver on election day.

NEW YORK, (AP)—Three all metal
monoplanes, carrying the first trans-
continental aerial mail, left the flying
field at Central park, Long Island, at
10:08 o'clock today for San Francisco.
Elves airplanes escorted the trans-
continental machines in a farewell
flight over New York before the jump
westward on the pathfinding trip to
establish an aerial mail route between
here and the Pacific coast.

Curry Mayor's Letter.
The monoplanes carried letters from
the mayor of New York to the mayors
of San Francisco and other cities along
the route, which will follow in general
that of the transcontinental flight of
army planes last year.

Cleveland is the first scheduled stop.
Other stops will be made at Chicago,
Omaha, Cheyenne, Salt Lake City, Reno
and San Francisco.

The trip not only is expected to make
possible the establishment in September
of regular aerial mail service from
coast to coast, but to yield information
of value to the war department.
Regarding this proposed extension to
the Pacific coast of the air mail route,
which now ends at Omaha, Major L. B.
Leak, general superintendent of the
mail service, said:

Through Service Planned.
"The through service, which will be
started in September, will cut in half
the time required to deliver mail from
San Francisco. At the start, the New York
Omaha end of the run will be covered
by all-metal planes and the western
half by De Havilland. As soon as we
are able, we plan to put the all-metal
monoplanes on the entire run from
coast to coast."

The party includes Colonel H. E.
Hartney, chief of training group, army
air service; Major Leut. John M. Ler-
son, owner and designer of the all-metal
planes; Captain "Buddy" V. Ricken-
backer; Lieutenant Charles R. Colt;
William E. Stout, chief designer
of airplanes; Gould Dietz of Omaha;
E. W. Allayne of Cleveland; army and
civilian photographers, pilots and me-
chanics.

Two of the planes will be left on the
coast and one is to be used for forest
fire patrol by the air service.

MISSION ADVISES

(Continued from Page One)

to invade Poland. They say it is
clear from what is transpiring in
the northeast that the Bolsheviks
are aiming directly at Warsaw and
that in the south they are marching
on Lemberg.

The Gaceta Warszawskia declares:
"Poland is fully aware that negotia-
tions may be broken off any minute and
that while they last soviet Russia will
make all efforts to cause an outbreak
of Bolshevism and civil war in Po-
land. Therefore, Poland must, in order
to safeguard an honorable peace, gather
all her patriotic spirit and energy."
The Russian patriot Barzow now in
Warsaw is quoted by the Corrier Fran-
cais as saying:

"I do not believe peace will be made
between Poland and soviet Russia. If
they sign peace, it will be put the soviet
propaganda to establish a soviet government in Poland.
"Peace with Bolshevism would be the
greatest calamity for Poland and Rus-
sia—this Russia—this Russia is being
apparent and that will be neither a czarist
Russia nor a Bolshevik Russia. We
Russian democrats will neither stop
fighting Bolshevism as we believe its
victory means the end of civilized Eu-
rope."

Reds' Drive Slackens, Lloyd-George Reports

LONDON, (AP)—Questioned in the
house of commons today as to whether
the Bolshevik advance against Poland
had ceased, Premier Lloyd George stated
he had just received a message from
the British military mission, saying the
Bolshevik advance in the north had
slowed down and it did not appear it
was being pushed with great vigor. Mr.
Lloyd George said he was not sure about
the situation in Galicia.

France, Italy and Great Britain
are in complete agreement regard-
ing negotiations with the Russian
soviet government, despite state-
ments to the contrary, made by
sensational and inaccurate news-
papers, declared Premier Lloyd George
in the house of commons today, in
replying to questions concerning the
Boulogne conference.

The premier read the message dis-
patched to the soviet government by
Great Britain on behalf of the allies.
The message called attention to the
fact that the soviet government had
sent two messages which conflicted con-
cerning participation of the allies in

the proposed London peace conference.
The first Russian message, the ally
communication pointed out, seemed to
reject such participation, while the last
message appeared to agree to it. Great
Britain's message continued:

Peace First Object

"The British government considers
that if the allied governments are to
meet delegates of the soviet govern-
ment with any chance of success, dele-
gates of the Polish government and of
the other border states concerned must
also be present. The conference must
have as its essential object re-establish-
ment of the peace of Europe and in the
first place between Poland and Russia
on conditions which will secure the in-
dependence of Poland and the legiti-
mate interests of both countries."

"The conference should also consid-
er questions which are still outstanding
between soviet Russia and the border
states which have not yet signed
definite peace with Russia. After the
settlement of these questions, the con-
ference will deal with matters in dis-
pute between the governments of sov-
iet Russia and the allies, and the re-
establishment of normal relations be-
tween them."

WOULD CALL HALT

(Continued from Page One)

ment issued here today that this coun-
try has "reached a point where we
should not permit any unassimilable
race to fill up our Pacific states or any
other states of this country. The "privilege
of entry of any and all immigrants
should be predicated upon their ability
and desire to become real, loyal, patri-
otic Americans."
The sub-committee will report to the
house committee when congress assem-
bles in December. Mr. Swope declined
to say what recommendations will be
made.

Opens Eyes of East and South.

"It is rather difficult for the people
of the east and the south to fully ap-
preciate the Japanese immigration ques-
tion and its effect upon the Pacific
coast," he said. "The Japanese view
realize that about 100,000 of the ap-
proximately 150,000 Japanese in this
country live in California, we can read-
ily see why the Californians view with
great alarm a continued Japanese im-
migration. Washington, Oregon and
California in particular seem to re-
present an earthly paradise to the Jap-
anese because of their favorable climate
and fertile soil. As a result, about four-
fifths of the Japanese population in the
United States live in these three states."
The Californians allege, Mr.
Swope said, "that the 'gentleman's
agreement' is being violated and that
thousands of Japanese immigrants are
entering this country surreptitiously
every year by way of the Mexican bor-
der. And in support of that statement
they offer the fact that the Japanese
population in California has doubled
since 1913."

Charges Law Evasion

Congressman Swope told of the ac-
quisition of large tracts of land by
Japanese and said the anti-land laws
of California were being evaded by
Japanese forming corporations with
white "dummy" directors and through
purchase by aliens of property in the
names of their American-born children.
Inter-marriages were infrequent, he
said, because the Japanese love their
traditions.
"We witnessed the arrival of a con-
signments of 'picture brides' who came
to this country already 'married' to
white 'dummy' directors," he continued.
"Marriage was arranged
by correspondence and an exchange of
pictures. Such a protest against that
practice was raised but the Japanese
called a halt on the 'picture bride' so
that after August of this year, the Jap-
anese men will be compelled to find an
other method of consummating their
marriages with women in Japan."

JAPAN SEEMS NERVOUS

(Continued from page one)

the congressional inquiry in California.
The Japanese, however, seem convinced
that it is being conducted with the ut-
most fairness and attitude is being
called to statements that a number of
Americans have come forward sponta-
neously to testify in favor of the Jap-
anese.

Other Incidents Told.

Among the incidents which have
tended to fan anti-American feeling
was the publication here of the reports

that the burning of Japanese stores in
Marysville, Cal., was near the act of
anti-Japanese elements. Articles
also have been printed declaring that
Americans were engaged in attempts to
steal Japanese maps, and these have
resulted in increased surveillance of
American tourists.

Council's Report Exonerates

With regard to the Marysville affair,
the foreign office Wednesday gave out
a cable message from Consul General
Ota in San Francisco stating that the
fire started July 21 in an automobile
garage owned by an American and that
three or four Japanese houses and
stores were burned. The consul gen-
eral called attention to reports that
were current classing the case as in-
cendiarism due to underselling of white
merchants by Japanese merchants in
Marysville, and consequent resentment
on the part of the former, but he added
that the police denied that this was
the fact. The consul general concluded
by declaring:

"It is unbelievable that the case was
one of incendiarism connected with
anti-Japanese agitators."
To the consul general's message the
foreign office in its statement added
a denial that any of its officials had
made statements to the Japanese press
that they thought the fire was the work
of anti-Japanese agitators.

Raises Question Among Peers

Japan's intention to occupy Saghalin,
Siberia, stationing troops at Khabarov-
sk and elsewhere, over which it is re-
ported protest has been made by "a
certain country," was the subject of
interpellation recently in the house of
peers. Ichizo Hatatori, former governor
of Iiyama, declared that he wanted to know
if Japan intended to occupy Saghalin
permanently in event of failure to ob-
tain satisfaction for the Nikolaevsk
massacre from such a government as
Russia eventually be established in
Russia.

Country of Possibilities.

Hattori declared that nothing caused
deeper and more sustained resentment
than when a nation's territory was par-
tially occupied by another nation. He
said Russia was in a predicament now,
might prove easy to deal with, but that
the fact should not be lost sight of that
Russia was a country of great possibili-
ties.

Her strong latent power in Si-
beria, he added, offered a field for
peaceful and economic expansion
by the Japanese, whose migration
there was a possible solution of
Japan's overpopulated condition.
But this, he asserted, would meet
with a serious check if bad blood
existed between the Russians and
Japanese.

Premier Hara, replying, said it would
be detrimental to Japan's interests to
disclose what the government proposed
to do, if no satisfactory settlement of
the Nikolaevsk massacre was found.
Hattori fears occupation of Russian
territory by Japan might leave indel-
ible resentment on the part of the Rus-
sians," declared the premier. "I share
his fear, but think it impossible that
Japan will do nothing to obtain satis-
faction for a massacre in which 700
Japanese lost their lives, even though
action is taken that may be productive
of Russian resentment."
"As there is no stable government in
Russia at present, there is no alterna-
tive but to occupy the necessary points
in Saghalin province pending establish-
ment of a legitimate government. The
diplomatic world and history provides
ample precedent for an injured country
to take the steps it thinks proper. I
am desirous that such a government
as will give Japan satisfaction shall be
established in Russia as quickly as pos-
sible."

This represents the total resources of Twin Falls fi-
nancial institutions at the time of making report, June 30,
1920. Take a second glance at the figures, six millions of
dollars.

As time passes the resources will grow, for financial
growth of banks comes with the material growth of the
town in which located, and goodness knows, Twin Falls is
growing, and so is all of this great and glorious surrounding
country.

When writing to some prospective friend it might be
well to mention among other things the resources of Twin

WEISER JURIST UPHOLDS BANKS

Judge Bryan Rules Method of Assessment Discriminates Against Institutions

The county commissioners are in a quandary because of a perplexing problem arising from assessments made against certain commercial property and holdings.

The commissioners may be ordered not only to change their plan of assessing values, but may be forced to restore a good amount of money already collected as taxes, or at least expunge indebtedness for such from county tax rolls.

This perplexity comes about through action taken in courts in places other than Twin Falls, where judicial minds have decided in favor of bankers who have contended against assessment methods.

It appears that in many counties of Idaho the plan of assessors has been to assess banking institutions 100 per cent on capitalization. Stores are being assessed at 50 per cent and other properties at 70 per cent. The banks balked and took the matter into court. Resulting from this judicial action at Weiser Judge E. L. Bryan has rendered a decision against the board of equalization of Washington county in the matter of assessing banking institutions 100 per cent on the total capitalization. Judge Bryan declares the system disproportionate in its application to banks and other institutions subject to taxation. Copy of the ruling has been received by the chairman of the local board of tax equalization. The decision will be submitted to legal authorities for advice as to future procedure in this county.

STRIKE OF SILVER ONE IS REPORTED

Heavy Vein Encountered on Castle Creek, According to Announcement

BULL (Special)—Discovery of a rich vein of silver in the mine in Owyhee county on Castle Creek, is reported by the United States Silver Mining company of Twin Falls.

The strike was made at the 300-foot level, after tunneling only 40 feet, and the four-inch vein shows rich in ruby and horn silver, according to announcement.

Walter Hovey Hill, a mining engineer, was on the ground at the time the strike was made and is now en route to Twin Falls with a party of mining men, directors and stockholders of the company. They have samples of ore with them.

MAKE MINIATURE PLANES.

Demonstrating mechanical and copy ability of no mean order Edward A. Walters, Jr., and Melcher Priebe have on exhibition in the Priebe jewelry show window on Shoshone street replicas of two airplane types most prominent on the allies' side during the war. Mechanical prowess is amply demonstrated in both models, each being a perfect pattern of the machine mentioned most prominently in recent war operations. Young Walters produced a copy of a De Havilland battle plane, while that completed by Priebe is a Nieuport scout machine. The examples are interesting specimens of handiwork and ability to follow pattern.

PROTEST AGAINST SPEEDING

Protesting against what is alleged to be an ever growing menace residents along Blue Lakes boulevard have petitioned the county commissioners to take action toward the enforcement of speed laws on that avenue after it leaves the city limits and enters the county jurisdiction. Petitioners aver that a speed in many instances of one mile a minute is made by some demons. The extreme limit on state and county highways is 30 miles an hour, petitioners declare.

WILL QUARANTINE DISTRICTS TO SAVE STATE SHEEP FLOCKS

Drastic Measures to be Taken Against Spread of Scabies Throughout Twin Falls as well as Other Menaced Idaho Sections—Owners Expected to Establish Authorized Dipping Facilities

"It is conceded by all sanitary officers and flock masters in all sheep range counties that where scabies has become prevalent, in order to eradicate the disease, it is necessary to make a general dipping of all of the sheep in the exposed area," says Dr. J. D. Adams, bureau of animal industry at Boise.

"Following the policy of the state bureau of animal industry in quarantining infected districts, and enforcing a general dipping of all sheep within the quarantined area, a quarantine has been issued, taking effect July 15, 1926, covering Twin Falls county," he continues. "This is deemed necessary on account of the dip on the small ranches as well as the range sheep, have become so thoroughly exposed to the disease."

The announcement is made in a general statement directed to persons in Twin Falls county interested in the upbuilding of the sheep industry. The statement continues:

"This plan has been very successfully worked out in four other infected areas in this state during the past two years, and the disease practically eradicated in these districts.

"Mutual sheep for immediate slaughter, after a rigid inspection by state or federal inspectors, and free from diseases, will be allowed shipment to recognized slaughtering centers without dipping. All other sheep in Twin Falls county, whether on ranch or range, shall be dipped between July 15 and September 1, 1926, in accordance with bureau rules and regulations, and under supervision of state or federal inspectors; unless, however, they have already been dipped within a recent date by such inspectors.

"Where the disease is manifest the sheep shall be subjected to two dipplings, the second dipping following the first within a period of ten days to 14 days.

"Each individual sheep owner will be expected to arrange for his own dipping vat, or arrange to dip his sheep at some other public private or community vat, using one of the permitted dips; and arrange with one of the local inspectors a time most convenient (within the time stated in the quarantine) to dip his sheep and notify the inspector when he is ready to dip.

"The dipping will be supervised by state and federal inspectors, who will have headquarters at Buhl, Piler, Twin Falls, Rogers and Kimberly, Murtaugh or Hansen and can be reached by telephone at these places.

"All range or other sheep coming into Twin Falls county after July 15 must be dipped before coming into the county, or arrangements made to dip them immediately after coming into the county; unless, however, they have been recently dipped by a state or federal inspector, prior to coming into the county.

"Sheep owners will not be charged for inspection nor the dipping of sheep found free from disease.

"Where sheep are actually diseased, the law requires that the owner of the sheep shall pay the sum of \$5 per day, and the actual expenses of the inspector while supervising the dipping.

"We ask that all sheep owners co-operating with the inspectors in the field in order to facilitate the work of eradicating this most insidious disease.

which is menacing the sheep industry in Idaho.

"For further information concerning the arrangements for vats, and the dipping consult Dr. John McBriney, deputy state veterinarian in charge of sheep scab eradication, at Twin Falls, Idaho.
