FIFTY MAY TAKE IN AGREEMENT ON MARINE BILL

Difference of Opinion Develops with Respect to Application to Islands of Legislation for United States

MANILA, P. I., (AP)—At a recent meeting of the Philippine Columbian association, composed entirely of Filipinos educated abroad, called for the purpose of discussing the coastwise navigation laws of the United States and their application to the Philippine Islands, there developed a difference of opinion among the speakers. Thomas Confessor, chief of the division of commercial intelligence of the bureau of commerce and industry and lecturer on economics in the University of the Philippines, said:

"Economically the extension of the coastwise navigation laws of the United States to the Philippines would be beneficial to our country because, in the first place, the rates to be established will not soar to the skies as has been intimated, as the law itself states that the rates will be 'reasonable.'"

"It is true that our shipping would be monopolized by the United States, but it is a monopoly which is regulated because prices are under control of law. It is a well-known economic truth that regulated monopoly such as this is better than unrestricted competition."

Manuel L. Quezon, president of the Philippine senate said the extension of the laws to the Philippines would be detrimental to the interests of the country because it would place the shipping of the islands in the hands of a monopoly and would not tend to make Manila a distributing center in the Far East.

"The political welfare of the Philippine Islands is in danger with the extension of the coastwise shipping laws here," he added.

LOFTIS COMPANION FREED

Authorities Release Girl and Placno Following Inquest

CHICAGO, (AP)—Samuel T. A. Loftis, head of the jewelry house bearing his name, who died under mysterious circumstances in his apartment last Friday, came to his death "from injuries suffered in a violent fall on the floor of his apartment after hitting against a door," a coroner's jury decided Tuesday.

Miss Ruth Wood, a 25 year old book-keeper, who was alone with Loftis when he died, and Roy Shayne, her fiancé, were released from custody following the inquest.

SURVIVES SHIPWRECK TO OPERATE DAIRY FARM

GRASS VALLEY, Cal., (AP)—Sixty-eight years after he gave himself up for lost in a shipwreck off Cape Horn, South America, H. B. Nichols is vigorous enough to conduct a dairy here. Nichols was a passenger on the Fannie Major, a sailing vessel which went on the rocks during a storm on July 4, 1852. After a day spent by the crew and passengers in manning the pumps and in prayer, the craft made port, and, being temporarily repaired, managed to reach San Francisco in September of that year.

Nichols is 84 years old.

CHILDREN OF MONTENEGRO TAUGHT TO MAKE OWN SHOES

WASHINGTON, (AP)—Montenegro children are being taught to make their own shoes. Material for 500 pairs of shoes has been sent to Danilovgrad, where orphanage boys will be taught the trade. The Danilovgrad school, founded by the Red Cross, is the pioneer trade school of Montenegro.

"Other Woman" in Poindexter Tragedy

Miss Ora Walters

Miss Ora Walters, of Memphis, Tenn., who is being held by the Chicago authorities following the death of Max Poindexter, wealthy oil and real estate promoter of Michigan, who was found shot in a hotel room adjoining that of Miss Walters. The police theory is that Poindexter committed suicide, but they point to the significance of the unlocked door connecting both rooms. Miss Walters gave the alarm after, according to her story, she heard the shot.

JAPANESE TO ADDRESS FILIPINOS ON POLITICS

Tokio University Bonds Instructor to Island School for Lectures at Its Request

TOKIO, (AP)—At the request of the president of the Philippine university, the Tokio Imperial university is sending Dr. Nishiro Matsunomi, Professor of the University Law college of the islands to lecture on Japanese political organization during the summer session.

In an interview Dr. Matsunomi said that some of his personal Filipino friends, writing recently, expressed their desire for lectures touching on such subjects, also on "loyalty to the imperial throne" and "Genro or Elder Statesmen."

He added: "I am quite at a loss how best to explain Genro to the Filipinos. It requires a great deal of prudence and discretion. I am aware, to lecture in the Philippines on such a subject as the political organization of Japan. So far as I know the Filipinos are quite anxious for an independent government. I am going to deliver my lectures with every consciousness of my delicate position."

INDUSTRIAL ASSOCIATION TAKES HAND IN POLITICS

HELENA, Mont., (AP)—Directors of the Montana Development association have called a meeting in Helena August 2, to be attended also by county and district chairmen, to determine what, if any part is to be taken by the association in the primary campaign. The primaries will be August 24.

The association was originally composed of merchants but now includes persons in other industries. It is avowedly in politics "to elect the best man."

MOST OF TODAY'S CLASSIFIED ads will lead to "business." Sales will be made, jobs will be found. Some will discover, perhaps to their surprise, how economically advertising serves them.

THE WOMAN ON THE FARM

sometimes feels that when her husband has an account, she doesn't need one. As a matter of fact, though, she does.

A Savings Account—many farmers' wives tell us—makes economy a pleasurable pursuit rather than a hardship. A Checking Account—which may well be carried in addition—makes the regulation of household and personal finances an interesting affair rather than a tangled web of figuring.

We value highly the patronage of farmers and their wives.

Twin Falls Bank & Trust Co.

Petticoats

At These Moderate Prices

An unusually attractive showing of saton and heatherbloom petticoats in all colors. The best innovations are included. Every care has been taken to include in this array the best materials and reliable workmanship.

Today's Sporting News

COAST LEAGUE PARKS ARE CLOSED TO RECALCITRANT HAI CHASE WHO IS ACCUSED OF SERIOUS CHARGE

Former Big Circuit Star Charged with Involving Pacific Players in "Throwing" Games; Loses Place on San Jose Independent Club—Babe Borton Suspended; Maggart Released

SAN FRANCISCO, Cal., (AP)—Hail Chase, former Pacific coast and major league baseball player, yesterday was barred by W. H. McCarthy, president of the Pacific Coast league from all the parks of the league. Earl Maggart, outfielder of the Salt Lake club at the same time was released unconditionally by W. H. Lane, president of the Salt Lake club. The action of the executives, it was announced followed investigation of charges of gambling on the games.

"Babe" Borton, first baseman of the Vernon club of the Coast league, was indefinitely suspended by President McCarthy as a result of the investigation which preceded the release of Maggart.

President McCarthy in a statement said Chase last week at Los Angeles approached Charles A. Baum, Salt Lake pitcher, with a proposition to admit some easy money. Chase told Baum the president said that he had some friends who were willing to bet large sums of money on the games.

"I am sure that they had the other," McCarthy declared Baum "to his credit, indignantly refused."

Lane Drops Maggart. Maggart was released, a statement by President Lane said. "Maggart's previous have been aroused and I cannot, in justice to myself or the Salt Lake club, permit him to continue with the club."

The statement added that last week at Los Angeles "Babe" Borton, Vernon player, offered Ralph Stroud, Salt Lake pitcher, \$300 to "throw a game."

"Immediately after this offer was made," Lane said, "Borton left the hotel at Los Angeles with Maggart and paid him at some Los Angeles bank the sum of \$300, which Maggart admitted to have received but which he claimed was for a gambling debt incurred a year before."

Player Earl Maggart has been unconditionally released by me because suspicions have been aroused where I cannot in justice to myself or to the Salt Lake club permit him to continue with the club.

"During last week at Los Angeles it was reported to me that Player Borton of Vernon had offered Pitcher Stroud of our club \$300 to throw a game. The offer was refused even after it had been repeated. Immediately after this offer was made Borton left the Larkemhira hotel with Maggart and paid him at some Los Angeles bank the sum of \$300, which Maggart admitted receiving but which he claimed was for a gambling debt incurred a year before."

"I tried to secure the names of those who participated in this game but Maggart refused to give them and persistently refused to do so. On Thursday of last week, two days after this money had been paid, Maggart, the first man up to bat, deliberately provoked a quarrel with Umpire McGraw and conducted himself so, despite the protests and pleas of his teammates, where there was no alternative but to remove him from the game. His suspension by the president was a certainty."

Maggart Is Mium. "I have tried to give Maggart every opportunity to explain. I made the trip from Salt Lake for the express purpose. Last night I went to Oakland to visit him. This morning President McCarthy, Dr. Charles Strub, and others, including myself, again urged him to give us the full facts and information relative to this game. But the information was refused.

"I am sorry that these circumstances have aroused suspicions, which, whether true or untrue, make it imperative to end Mr. Maggart's connection with the Salt Lake club. I have, therefore, unconditionally released him."

Yesterday's moves were not the first taken this year by Pacific Coast league officials in connection with gambling charges. Early in the season two San Francisco pitchers, Tom Seaton and "Casey" Smith were released when it was charged they gambled on the games.

Chase, who was ordered barred from the grounds, is at present residing in Los Angeles, and playing Sunday baseball with the San Jose club of the Mission league.

MANAGERS LOSE MANY GAMES BY AN OLD FALLACY

Theory that Hurlers Cannot Hit the Ball Refuted in "Bambino" Ruth

By I. E. SANBORN. No statistician living can estimate how many games of baseball have been lost by the superstition of team managers that pitchers can't hit, never did hit, and never will hit.

Babe Ruth is a living, magnificent refutation of the unscientific belief in the impotence of the slugging bat, and he once was a victim of the same mistake. Probably he never would have become the world beater he is if he had not been good enough, as an all around player, to be transformed into an outfielder.

Ruth Always Good Hitter. It is true, Ruth was known to be a good hitting pitcher while he was still such an in-door slugger. He was recognized then as a dangerous man at the plate—for a pitcher—but he never was figured as a world beater in those days. He never was actually taken out of a pinch hitter's job for him so far as he can be recalled, and occasionally he was passed in a pinch where a long fly would score a run which would affect the result of a game.

But he was not hereafter permitted in any park in our league. It is unfortunate that no further punishment can be imposed. Certainly there is no punishment too severe, but perhaps the contempt of men and women who love baseball and who believe in clean sport will prove sufficient penalty.

"The task of keeping baseball clean is not the easy one I had hoped. The contempt of men and women who love baseball and who believe in clean sport will prove sufficient penalty."

Confidence Factor in Batting. Batting is about seven-eighths confidence anyway, and more good prospects have been wrecked by the folly of managers than by their own weakness. For the batsman who is made to know that his manager has no confidence in him will lose a lot of his own courage, thereby making him so much the easier victim for the opposing pitcher.

That is the chief reason for the inability of so many left handed hitters to cope with left handed pitching. They are made to believe they cannot hit right handed pitching, and they lack the necessary confidence to learn how to gauge that kind of delivery.

Scorned in Batting Practice. Pitchers are constantly being impressed with the belief they cannot hit successfully. It is not expected of them, and even their teammates resent it if pitchers who are not expected to work on a given day, try to horn in on the morning batting practice, depriving the "regulars" of a possible swing or two at some rookie pitching.

Of course, it is true to a great extent that a pitcher who works no offense than once in four days or who cannot hit as well as the player who is in the game every day facing the real stuff at least four or five times each game, but the pitcher certainly ought to hit as well as the substitute bench warmer, who is called on to go to bat once in a game occasionally.

That is, the pitcher could develop into as reliable a batsman as the average bench lizard if he were allowed to, and if he were not so constantly impressed with the thought he couldn't make a safe hit without a direct interposition by providence.

Some Hurlers Want to Bat. The pitchers who have been good batmen got their chance to become so by impressing their managers at the outset with the fact they could hit, and on that account were allowed to develop their confidence in themselves by being allowed to bat for themselves, even in pinches, and sometimes being used as pinch hitters themselves.

The strong are made stronger and the weak weaker by the present system

used by managers. And it is often the cause of the loss of games through the folly of yanking a slugging pitcher for the other team at his mercy, so as to stick in a bench warmer on the chance of starting a rally, then putting a second string pitcher in to finish the game.

Games Often Sacrificed. How often have you seen this happen, to be followed by a rally later on which carried the team into the lead, but the second rate slugging could not hold it, whereas the original pitcher, if left on the slab would have done so? A rule forbidding the removal of a pitcher for a sub-pitcher would help the managers win a lot of games and would develop a lot of fairly good batting pitchers.

Brief Bits of Sport. With Marty Krug, premier keystone and star slugger, and Earl Maggart out of the game, the Salt Lakes Bees are sure up against Old Man Tough Luck.

Krug, it is explained, was enticed by rival clubs to jump the Bees when the Salt Lakes had the flag within their grasp. Now Prexy McCarthy of the Coast league, has banned Maggart.

A Brazilian won first place in the Olympic at Beverton for marksmanship with a pistol. But he had to resort to the use of an American army type of shooting iron.

Full many a gem of purest ray serene The dark, unadorned caves of ocean Full many a man has planted some machine For cooking raisins underneath the stair.

Pitcher Jones, wizard of the baseball field in other days and leader of the White Sox to a world pennant in the fall of 1906, is dickering with the McGeeley's for the Portland franchise in the Pacific Coast league.

Jones believes he should have and the Seattle franchise last spring but was enticed out of it by D. E. Dugdale whose first trial hand weeks always to appear in baseball of the northwest country.

Boxers weighing from 65 to 85 pounds are the rule in the Philippines. That weight has Jimmy Wilde faded to a frazzle.

Jack Johnson, 42 years of age, must think this country will stand for anything. The convicted black says he is

in championship form and wants a bat with Dempsey. Apparently needs to recoup his fortune. The Cubs bat in flocks. Plack, Terry and Morkle respectively, are hitting .309, .308 and .307.

This latest natural we'd say: Sam McVey and Sam Longford have been matched to box 12 rounds in East Chicago on August 14. Now let's hear from Jim Coffey and Frank Moran. (Continued on Page Ten)

Bring in a Jug. And we will gladly fill it with Perfect Soft Water. You will find this water delightful to drink, and more healthful than hard water. It is soft-ened by Refinite. Nature's Water Softener. Refinite is a mineral, not a chemical preparation to "break" water. The hard water passes through a bed of this mineral in a large steel tank and the hardening elements remain with the mineral. The water drawn out for our use is perfectly soft. We use Refinite softened water for all purposes. It will not weaken the most delicate fibre. It requires less rubbing to lift the dirt. It forms no gummy soap curd. It removes all of the soap in rinsing. This is why linens and other white goods we launder, are whiter; why colored goods are richer in color, why there is less wear and tear, why the wash always is sweet smelling and fresh. Come and see this Softener, and have a drink of delicious Perfect Soft Water. TWIN FALLS STEAM LAUNDRY Phone 788

No Fake Stunts, No Schemes

To the Farmer

It will be worth your while to come many miles to attend this great sale, for the whole stock has been led to a slaughter. Practically every price quoted is less than the present wholesale price by no small margin. You can verify this statement by comparing them with your catalogues and by investigating the market. We give you our word on that. Don't hesitate or delay, but come and come in a hurry. It may be a long, long time before you again see such prices. It's up to you to save. Come, we are quitting for good.

Wanted.

25 Extra Salespeople, those with experience preferred. Apply to the manager Thursday.

We Are Quitting

This sale is for cash. Positively no money refunded, goods charged or sent on approval at sale prices. Your opportunity is the date of this bill. Wake up, get busy!

Store Will Be Closed

All day Wednesday and Thursday in order to complete their final arrangements. Positively no admittance.

Extra Specials

Silk Petticoats, extra quality taffeta, plain colors and changeables. Good style, desirable in every way. Values up to \$10.00, now\$4.98
Men's Cloth Caps; good style, good quality. Values up to \$1.75; closing out price49c

It's Up to You. Act!

BLANKETS

This store has always been noted for its big blanket values, and we are going farther at this time than we have ever dreamed of by giving you the best makes in the kinds most used at prices by the pair as cheap as if you were in business and buying by the case at wholesale. Hotels and rooming houses should supply their wants for six months to come. To all in need of blankets, buy now, buy quick, buy plenty.

Every Article Must Go

To the Merchant

I have looked over this stock and here you will find hundreds of items you could use in your store to good advantage. I want you to read every word of this bill, compare the prices and you will see that we are quoting prices in some instances cheaper than the wholesale price were three years ago. Now while we advertise to sell this stock piece by piece, if you can use any of it go to the telephone and call us up and make an appointment at any time. Remember, this is a bonafide quitting business sale and we doubt if there is an item quoted that could be bought wholesale for the price quoted.

THE PILGRIMS

The series of ceremonies to commemorate the third centenary of the landing of the Pilgrims began very appropriately with a pageant in Southampton, England, depicting the sailing from that port of the devoted voyagers in the Mayflower.

It was a picturesque curtain-raiser, with all the actors in Puritan costume, for the various observances that will engage the attention of this country for some months to come, up to their culmination in the celebrations at Provincetown and Plymouth in December.

'And is there in fact any event in the history of this republic to which Americans could more fittingly devote thought at the present time?
The anniversary occurs at a peculiar moment for the study of the lives and characters of these resolute champions of intellectual liberty who left their homes and crossed the sea to an unknown land for conscience's sake.

The celebration of the coming of the Pilgrims, apart from its historical feature, is an ordained occasion for reaffirming old principles of freedom and for talking stock of moral ideals. The land which they found a wilderness has accumulated with its complex civilization problems of reconstruction quite as difficult as any that confronted them.

CONSERVATION OF RESOURCES

Reports show that Michigan has wasted four times as much timber as she has manufactured into lumber, and the same indictment could most likely be returned against many other states in the union that have had rich timber resources in the past.

Steps to preserve are usually not taken until the waste has been accomplished. Not only with timber resources does this hold good, but with most other products which nature freely gives. The game laws of most states are far too lax, and in many communities they are not enforced.

Civilized man differs from the savage in that he takes thought of posterity and its welfare. The savage thinks only of himself and his immediate needs. Surely no greater boon can be handed down to future generations than the preservation of our natural resources and the privilege of seeing nature's children in their native haunts.

A SOUND PRINCIPLE

The chief of police of Cleveland, O., has been sentenced to 30 days in jail or \$100 fine for refusing to open the records of his office to newspapers. This may appear surprising at first, but the court acted upon a sound principle—a principle sound not only in law but in public policy and good morals. Records of public officials must be open to public inspection. Whatever affects the public should be a matter of

public information. No branch of our government should be secret.

There are abuses of newspaper privileges, of course, but no such abuse could be as great as that of a public official who locks the records of his office and refuses to permit newspaper men to ascertain the facts as to what he is doing. Newspaper men know that whenever a public official refuses to make public facts in his possession as to the public business his purpose is for one or two reasons: To hide either corruption or inefficiency.

Anything that is all right will stand the light of publicity. Newspaper men know this, and citizens generally are beginning to recognize it, too. The Cleveland court which fined the police head for contempt evidently realized it, and acted upon it.

HIGHER TRAFFIC RATES TAKE EFFECT AUGUST 28

Railroads Encounter Delays in Preparation of the New Tariffs

WASHINGTON, (AP)—The American traveling and shipping public may expect to begin paying the increased passenger fares and freight rates authorized by the interstate commerce commission August 28, the railroads announced today.

Previous announcements was that the passenger fare increases would go into effect August 29 and the freight advances August 25. The blanket schedule which must be filed with the commission five days before the effective date of the proposed changes, cannot be prepared earlier than August 24.

The increased rates in the opinion of internal revenue bureau officials will increase government revenue approximately \$100,000,000 a year through additional income and various excise revenues.

NEW RICH NOW NEW POOR

Japanese Word Coinage Alters to Suit Changes in Economic Situation

TOKIO, (AP)—When grocery clerks and apprentices about three years ago began to make fortunes amounting to millions, the Japanese coined a word to describe them: Nari-kimari, meaning to become; and kin, meaning money. Today, by the simple change of the "c" to an "h" which makes the original word of the Nari-hin, meaning poor, the Japanese found another word equally understandable. The economic depression in Japan has changed many "new rich" into "new poor."

RUTLEDGE IS TO BE HEAD OF INTERMOUNTAIN SERVICE

OGDEN, Utah, (AP)—R. H. Rutledge, district forester at Missoula, Mont., has been transferred to Ogden where he will be head of the intermountain district of the forest service. It was announced here in an official bulletin today. He succeeds L. F. Kneipp who went to the Washington office of the forest service as assistant forester. Mr. Rutledge will remain in Missoula until the termination of the present fire season.

DE VALERA'S PLANS FOR FUTURE ARE INDEFINITE

WASHINGTON, (AP)—Eamon de Valera, president of the "Irish republic" was at his office here today, and his secretary said plans for the immediate future were indefinite. Asked as to reports that the Irish chieftain was planning to sail for Europe soon, the secretary said people were laughing at them.

Here Is A Real Human Bird

The dream of Darius Green, who was immortalized in verse, to fly like a bird seems to have been realized by H. S. Dixon, inventor of the Ornithopter, or wing-flapping machine, which is propelled by the action of the man's arms and not by an engine. The action of the machine is similar to that of a bird. Mr. Dixon is inventor, patentee and builder. The measurement of the plane from tip to tip of the wings is 23 feet 6 inches; from nose to tail 14 feet. The machine weighs forty-seven pounds and can maintain a speed of from fifteen to twenty miles an hour. The chief parts of the plane are made of Vicker's duralumin.

BERGER

BERGER—Mr and Mrs. F. Wagner of the Hamn Bakery were business callers last week.

W. A. Ducker, auditor of the Boise-Payette Lumber company, was transacting business here Saturday.

Mr. and Mrs. Eugene Olmstead of Genoa, Ill., arrived Thursday for a few weeks' visit with Mr. and Mrs. J. M. Pierce.

Miss Lillian McGregor visited Mrs. C. Stanbury in Twin Falls Thursday and Friday.

H. C. Thomas, who has been manager of the Boise-Payette Lumber company for several years, has resigned that position and is moving his family to Twin Falls where he will be employed by C. W. Stanpou.

Mrs. M. Z. Stanbury and baby daughter returned home Monday from several weeks' visit in Twin Falls.

Miss Mauda Christensen and Mrs. Arthur Parrott entertained the primary and junior Sunday school classes Friday afternoon. Ice cream and cake were served.

Ernest Christ suffered a very painful accident Saturday morning. He stepped in front of a mower when the team started up, cutting his foot severely. He was taken to Twin Falls where he received medical attention.

Richard Gerd and M. O. Gates were Twin Falls visitors Saturday.

FIRE WIPES OUT OHIO RAILROAD SETTLEMENT

DARTON, O., (AP)—Bradford, a railroad center northwest of this city, was wiped out by fire early today entailing a loss of one million dollars, according to reports received here. All wire communication with the town of 2000 population is down.

Retire on Full Pay

If a man whose income remains the same year after year will deposit one-third of that income each month in a Savings Account, he will be able to retire at the end of thirty-five years and receive the full amount of his income.

A quarter of his income deposited in the same way allows him to retire on full pay at the end of forty-five years. A fifth of his income saved and deposited in this way, will enable him to step down on full pay at the end of forty-six years.

To be able to retire on half income, can be achieved in twenty-eight years by the deposit of one-fourth of the wages.

These facts and figures emphasize the value of steady, systematic saving, and the full results of four per cent compound interest.

MOTT GIVES HIS VIEWS ON NEEDS OF EUROPEANS

Y. M. C. A. General Secretary Says "Too Many Holidays" Retard Work of Reconstruction Following War

BUDAPEST, (AP)—John E. Mott, general secretary of the International Y. M. C. A., in outlining the organization's plans for helping to reconstruct war-ravaged lands, says "there are too many holidays in Europe."

Poland, according to Mr. Mott, has 30 holidays a year, besides Sundays, and Rumania has probably twice that number. "This means idleness leading to political upheavals," declared the American.

In giving the first details of the Y. M. C. A. and World's Student Christian Federation's proposed new efforts to help broken-down Europe, Mr. Mott said: "It isn't by giving bread but work that reconstruction will be possible. One of these tasks on which I am now engaged is to attempt to devise the wisest way to help the schools and universities of Europe from the decadence into which they were plunged by the war. Otherwise education will be lost through the poverty of professors, and also through lack of students."

"The keynote of my talks in Poland, Czechoslovakia and Hungary has been self-help. The students must learn to work their way through colleges as in the case in the United States. From the Y. M. C. A. point of view we are establishing model branches as we hope to show the new nations their way back to work and to self-help."

"It is not by saying 'Thou shalt not' that the world can be bettered; it is by showing the way. The Y. M. C. A. will help men to spend their holidays profitably. It will adapt itself to those nations and give them something permanent. There will be model Y. M. C. A.'s for universities, for railways, for industrial centers, and for the country for the peasants. It is easier to get money than to spend wisely so we go slowly on that score. We are getting ready to spend their holidays. Americans are profoundly anxious to help them."

"I have been in Europe among prisoners, otherwise than during the war, and for 30 years have been working in foreign countries. I believe the Russian question, owing to the desire of the people there to end their troubles, will be settled if foreign countries cease to fight for six months on the same policy."

Startles Newport by Anti-Irish Appeal

Mrs. Paul F. Simmons, formerly Mrs. French-Vanderbilt, of New York, and Newport has started a campaign against the United States recognition of the Irish republic, according to reports received here. Mrs. Fitz Simmons has sent circulars to members of the Smart set asking them to aid in influencing members of congress against aiding Erin, it is said. She also has written letters to congressmen urging them to vote against recognition.

NEW DISAPPEARING BED APPEALS IN MANHATTAN

Residents of Crowded Island Greet Innovation to Conserve Space

NEW YORK, (AP)—Residents of Manhattan island, in their eternal fight for space, have perked up their ears at the announcement by a New York realty syndicate that it will build a \$460,000 apartment house, whose distinguishing feature will be "disappearing beds." Officials of the syndicate are silent as to what form the "disappearing beds" will take during the day time. They dismiss the matter by saying that "disappearing beds and many other interesting devices will be installed."

Architects however, have given their opinion on the proposed innovation. "The beauty of 'disappearing beds,'" the architects say, is that the bed can not disappear while the occupant is lying on it on his back, with his knees up and his mouth open. This was the chief drawback to the old-fashioned folding bed. The architects made this statement to quiet the fears of many New York residents who had inquired

FIFTEEN YEARS AGO IN TWIN FALLS

Table of random from The News Here this date in year 1905

The gates of the city have been unlocked and propped wide open, and the kees have been thrown into the Snake river canyon. Twin Falls awaits the coming of the multitude on Monday, August 7 and is prepared to feed and entertain every man, woman and child which the railroad company can bring to the city. Nothing that would add to the comfort or delight of the guests has been overlooked and if the weather man will only be on his good behavior "Embraud day" will be a Christmas. New year's and Fourth of July rolled into one. The first thing on the program will be the barbecue which will be served in the Hotel Furine. The two beevies which were donated by Mr. Terrell of Dry creek and Jones and McComb of Rock Creek and the six sheep donated by Fred W. Gooding of Kimberly will be roasted in huge pits across the street from the hotel. Baker Harder is cooking 400 loaves of bread for the occasion and if this is not enough will make another batch. Barrels of jamonds will be set on every corner of Main street. United States Senator W. B. Heyburn, Congressman Barton L. French, Governor Frank E. Gooding and Major Fred R. Teed and staff will be the guests of honor.

Max Pink is putting up a store building 25 by 30 feet, on his lot next to Smith's furniture store on Main street. He will occupy the building himself.

E. A. Milner of Chicago, is visiting with his brother and sister-in-law, Mr. and Mrs. H. O. Milner. He thinks Twin Falls is the most progressive city of its age in the country.

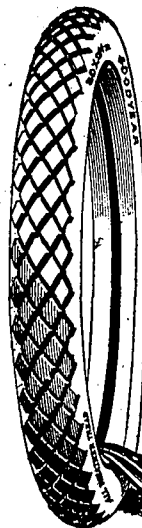

Mrs. Charles M. Hill and children have arrived from their former home in Minnesota. They are comfortably settled in their new home on Fourth avenue.

Mrs. Sep Watkins of Machier Wash., who has been visiting her father, A. L. Boswir, has returned to the coast. She thought so well of Twin Falls that she and her husband will probably locate here.

Within half a day's drive of Twin Falls is one of the grandest stock ranges in America. It is located in Shoshone Basin the source of all the creeks in Cassia county. In the heavily timbered gullies and on the grass-covered slopes are thousands of well-bred cattle. For the most part they are owned by Cassia county stockmen. J. E. Bower, A. D. Norton, John E. Hansen, Lawrence Hansen, Herman Strickler, Terrell and McComb, Robert Brown and others are the fortunate owners of these herds.

The Economy of Using Goodyear Small Car Tires

So-called bargain tires, made up for sensational sales and offered at ridiculously low prices, do not attract careful buyers.

They are far more concerned with what they get than with what they pay because they know that in the end it is performance and not price that delivers actual tire economy.

The popularity of Goodyear Tires, of the 30x3-, 30x3½- and 31x4-inch sizes, is based on the fact that they deliver exceptional mileage at exceedingly low cost.

If you own a Ford, Chevrolet, Dort, Maxwell or other car taking these sizes, go to your nearest Service Station for Goodyear Tires and Goodyear Heavy Tourist Tubes.

30 x 3 1/4 Goodyear Double-Cure Fabric All-Weather Tread \$23.50

30 x 3 1/2 Goodyear Single-Cure Fabric Anti-Skid Tread \$21.50

Goodyear Heavy Tourist Tubes cost no more than the price you are asked to pay for tubes of less merit—why risk costly castings when such sure protection is available? 30 x 3 1/4 size \$4.50 in waterproof bag

DADDY'S EVENING FAIRY TALE

OF MARY GARRAM BONNER

THE POLICE HORSES.

"It's a hard job," said the police horse, named Jack, to the police horse, named Bill, "but all the same I like it."

"Do you mean our job?" asked Bill. "That I do," said Jack.

"What do you mean by saying, 'That I do'?" asked Bill.

"I mean yes," said Jack, "but I thought I would say it in a fine way."

"Oh, I see," said Bill, "only it was such a fine way that I didn't quite understand it. Perhaps I am not so bright as I should be."

"Nonsense," said Jack. "I just talk sometimes to hear myself talk. I believe all of us do at times, even the best of us."

"Now, now," said Bill, "you are only trying to make me feel less stupid. You are very modest, really. You don't talk to hear yourself talk. If there ever was a modest horse, you're one."

"Well, I have nothing to be proud of," said Jack.

"Nonsense, you have. Think of the lives you've saved."

"Well, haven't you saved lives, too?" asked Jack.

"Well, who wouldn't save a life when he could? It's nothing so fine when I've done it, because it has just come my way. I mean the opportunity has just come my way when I save a life. I just couldn't help but do that. When you've saved lives you've gone out of your way to do so."

"So have you," said Jack, "and you are a very modest horse."

"Well," said Bill, "I think it is so foolish to be conceited. And Bill tell you something else, Jack," continued Bill.

"Pray, continue," said Jack.

"I've discovered that those creatures who were conceited had very little to be conceited about. So I don't want a conceited horse for I was conceited and feel very foolish."

"I would think how absurd I was. I think that I had nothing to be liked about compared to lots and of people who save many more than I do. Take the firemen, for instance. They're always saving lives, hey don't go around boasting it."

"I've not much use for a conceited person. A conceited person is a bossy person—both of them to be the whole show. And no creature could be the whole show, a creature at all, to my mind, any one creature were the whole of it."

"I think what a world it would have been hobnobbing and bowing person and not getting anything life at all."

"I've so," agreed Bill.

"I've so," he continued after a moment, "you were saying how much you loved your job."

"Yes," said Jack. "It is so nice of help and to do one's part. I will never disappoint the man I'm supposed to keep the crowds parades—those who crowd the and would get into a terrible jam if we didn't keep or."

"I love my job," said Jack.

"So do I," said Bill. "It's a job such as any horse would like to have and we are fortunate to be fit on these jobs. We feel they trust us and have faith in us and so we never want to break that faith that is in us."

"We are loved and admired and when one is loved and admired one doesn't feel conceited about it. One just feels happy. At least that is the way I feel."

"So do I," said Jack. "Any other way to feel about it would not be worthy of police horses."

"Good enough."

"There is little hope of any girl who begins to make use of the formula, 'Good enough.' The surest way to fall short in achievement, in character, in success of every kind, is to introduce these two words to your life motto. When you feel like naming yourself that the half-learned lesson or the clumsily written letter or the slightest household task is 'Good enough,' just take this thought to heart, that nothing is good enough as far as you are concerned, while it is possible to make it better.—Girls' Companion.

der. My master tells me where I should go and I go and push the crowd back ever so gently.

"But I never step on anyone's foot, though feet are all about me. The master wouldn't like it if I did, so I don't. And you do the same thing. But it is nice to have a job like this and to have a policeman riding one. I love my job."

"So do I," said Bill. "It's a job such as any horse would like to have and we are fortunate to be fit on these jobs. We feel they trust us and have faith in us and so we never want to break that faith that is in us."

The KITCHEN CABINET

"Virtue is in a manner contagious; more especially the bright virtue known as patriotism, or love of country.—Dickens.

A SYMPOSIUM OF BREAD PUDDINGS.

A bread pudding may be as dainty and as acceptable as the most fancy of fancy dishes, but if one has a member of the household who has an aversion to them, it will be better to rechristen the pudding and leave out the word. Human nature is a good deal alike all over the world, and if we think we don't like a food, it is a sign of weakness to admit that we were mistaken. Emerson says changing one's mind is not a sign of weakness, but of progression. Just try these on the family that won't eat bread pudding:

Pineapple Pudding.—Dry until crisp three slices of bread in a hot oven, then roll with a rolling pin until fine. To the bread crumbs add one cupful of sifted flour, one tablespoonful of melted fat, one-half cupful of sugar, one cupful of milk, one-half cupful of pineapple juice, two teaspoonfuls of baking powder; mix and pour into a buttered baking dish and bake in a hot oven 20 minutes. Use this sauce: One pint of boiling water, one tablespoonful of sugar, one tablespoonful of butter, one tablespoonful of flour; stir and mix the sugar and flour, then cook until all is well blended. Remove from the fire and add two tablespoonfuls of grated coconut and half a teaspoonful of lemon juice. Serve round the pudding. More acid may be used if liked, or vinegar may be substituted for lemon juice.

Spiced Pudding.—Take two cupfuls of Graham bread crumbs, one well-beaten egg, one pint of sour milk, one cupful of sugar, one cupful of chopped dates, one cupful of nut meats, one teaspoonful each of soda and cinnamon and one-half teaspoonful of cloves, one tablespoonful of melted butter. Bake 30 minutes in a moderate oven and serve with whipped cream flavored with vanilla and lightly sweetened.

If puddings and pies become slightly cool before the meringue is put on there will not be any drops of liquid forming over the meringue.
Water which is sixty to seventy per cent of the body weight aids digestion and carries off waste.

Nellie Maxwell
Early United States Coins.
The office of the director of the mint says that the earliest coins were authorized by act of congress of April 2, 1792. This act authorized the manufacture of the ten dollar gold eagle, half eagle, quarter eagle, and the silver dollar, half dollar, quarter dollar, dime and half dime. It would be impossible to state which were minted first, as they were all coined at the same time.

der. My master tells me where I should go and I go and push the crowd back ever so gently.

"But I never step on anyone's foot, though feet are all about me. The master wouldn't like it if I did, so I don't. And you do the same thing. But it is nice to have a job like this and to have a policeman riding one. I love my job."

"So do I," said Bill. "It's a job such as any horse would like to have and we are fortunate to be fit on these jobs. We feel they trust us and have faith in us and so we never want to break that faith that is in us."

"We are loved and admired and when one is loved and admired one doesn't feel conceited about it. One just feels happy. At least that is the way I feel."

"So do I," said Jack. "Any other way to feel about it would not be worthy of police horses."

"Good enough."

"There is little hope of any girl who begins to make use of the formula, 'Good enough.' The surest way to fall short in achievement, in character, in success of every kind, is to introduce these two words to your life motto. When you feel like naming yourself that the half-learned lesson or the clumsily written letter or the slightest household task is 'Good enough,' just take this thought to heart, that nothing is good enough as far as you are concerned, while it is possible to make it better.—Girls' Companion.

GENE MELADY, "The Master Man" of the Live Stock Trade

They used to call a man a "sport" when he bought an automobile

Everybody owned one—or could, if he wanted to.

There was a lot of waste about motoring in those days. A man spent a lot of money on his car and never thought very much about *what* he was getting in return.

When a man buys a tire nowadays he has a pretty definite idea of what he expects to get out of it.

The dealer who sells him one that gives him less than he expects isn't likely to get any more of his business.

That's one of the reasons why we handle U. S. Tires—and recommend them to the

The U. S. reputation for quality is not built on any one tire.

There is not one standard for large U. S. Tires and another standard for small ones.

Every tire that bears the name "U. S." is built the best way its makers know how to build it. The oldest and largest rubber concern in the world cannot afford to play favorites in seeking its public.

Come in and tell us what you are looking for in tires. We can probably tell you whether you need a U. S. Nobby, Chain, Usco, Plain, or a Royal Cord.

Select your tires according to the roads they have to travel:

- In sandy or hilly country, whatever the going is apt to be heavy—The U. S. Nobby.
- For ordinary country roads—The U. S. Chain or Usco.
- For front wheels—The U. S. Plain.
- For best results—everywhere—U. S. Royal Cords.

SWEELY ROSES RUN FOR SENATE

County Division Advocates Split Out of Senate but Name Representative

With complete unofficial returns reported today from practically all Twin Falls county precincts the fact is evident that M. J. Sweeley has been defeated by Senator W. H. Greenhow for the republican nomination for state senator. The count in 21 out of the 20 precincts gives Sweeley 518 and Greenhow 50. L. E. Allen, third candidate for the nomination, received 159 votes on the face of available returns. Less than 50 votes, it is estimated remain to be accounted for.

Divisions Elect One

In the defeat of Sweeley, advocates of county division lost their spokesman in the senate; but in the democratic primaries J. M. Shank of Buhl, who is committed to the division program, won the seat on the legislative council as a candidate for state representative. J. A. Crisman, the fourth candidate with three to be elected, was defeated. The figures follow: J. M. Shank, 278; W. F. Pike, 275; J. W. Porter, 274; A. W. Sowle, 177.

Service Men Favored

Service men generally among the candidates were favored by the voters, there being no instance of defeat of a former soldier candidate for either state legislative or county office with the exception of Mr. Lauterbach.

Local Brevities

Going on Vacation—Mr. and Mrs. E. B. Williams will leave Thursday morning for a ten-day visit at Halley. Return from Springs—Mr. and Mrs. George H. Shaley have returned from a ten days' outing at Coyer Hot Springs. For Vacation Visit—Mrs. W. E. Crozier and children left this morning for Minnesota, where they will visit relatives. Birth—Born last midnight to Mr. and Mrs. D. W. Undergrad, a daughter. Mr. Undergrad is local manager of the Boise-Payette Lumber company. Goes to Murtaugh—Miss Rosetta M. Grail, Red Cross county nurse, will spend today and tomorrow in Murtaugh on business connected with her department. Masons Will Meet—The regular monthly communication of Twin Falls Lodge, No. 45, A. F. & A. M. will be held in Masonic temple at beginning of 7:30 o'clock this evening. Membership petitions will be acted upon. Divorce Papers Withdrawn—Attorney Turner E. Ackerman this morning notified an application for divorce for Earl Harbert from Willis Harbert. The papers in the case, with the bill of partition, were withdrawn immediately after filing. Oil for Highway—The highway district has received a large quantity of asphaltic oil to be used on the penetration macadam roads hereabouts on which the rock base has been laid. Oiling operations will be recommenced immediately. On Old Stamping Ground—Joe F. O'Byrne, a former mining engineer of Jarbridge and now an instructor at Colorado School of Mines at Golden, is in Twin Falls on route to Jarbridge where he will spend a month looking after business affairs. Mr. O'Byrne was married last month at Golden. Has Appendicitis—J. D. Sineola, resident engineer employed with the Twin Falls highway district, was operated upon for appendicitis at a local hospital, it is said to have been eminently successful. Today the patient is reported making steady progress. Leak Causes Damage—A water leak, said to have been caused through defective plumbing on an upper floor, made a considerable accumulation of water in the basement of the United Stores last night, and caused an amount of damage to the United Stores grocery stocks. The water was pumped out this morning. Return to Boise—Mr. and Mrs. Everett M. Sweeley of Boise, with Mr. and

Latest Returns From Republican Primary Elections

Table with 2 columns: Candidate Name and Vote Count. Includes names like J. A. Crisman, W. F. Pike, J. M. Shank, etc.

Note—Precincts from which no returns are available are Amsterdam, Murao, Deep Creek, Shoshone Basin, which probably will cast about 577 votes in the aggregate and cannot change the results.

Democratic Vote in Primaries by Precincts

Table with 2 columns: Precinct Name and Democratic Vote Count. Includes Twin Falls No. 1, 2, 3, 4, 5, 6, 7, Buhl No. 1, 2, etc.

Note—Precincts from which returns are not available are Murtaugh, Amsterdam, Berger, Clover, Marao, Shoshone Basin, are unlikely to change the results. No election was held at Hogerson. Thirty-two votes were cast in the democratic primary election at Murtaugh.

Home Owning Great

In these modern days homes are wrought through industry and thrift. We have progressed to the modern standards, outside the great cities, where home owning is the first step toward comfort and wholesome environment. The American system, with its equality of opportunity has opened the way, and the American constitution gives the guaranty of civil liberty makes home ownership a right which every citizen should possess. A home owning people might well be the great goal of the republic, because at every freiside center, all of hope, all of ambition, all of education, all of aspiration. The big thing in our land is this offering of opportunity and the republican party means to maintain a government and make sure conditions which will guarantee a fair chance to every citizen and bid him drink of our freedom and know its rewards.

Weather Mogul Cracks Beneath Hi-Heat Strain

ALTHOUGH the weatherman made a near-record for hi-heat Monday he failed to maintain the pace yesterday, slipping under the strain of steadily holding up the mercury. Monday's top was 96, or one degree below the season's record; yesterday the heat for the day was 90. The nocturnal temperature also took a dip, getting down to 59 as against 53 the night previous. Unless the chief heat at the bureau has junked the dope cooler and fair weather will prevail tonight with fair scheduled for Thursday.

REGULAR BAND CONCERT AT THE CITY PARK One of the features of the band concert, scheduled for tomorrow night, is found in "Roaring Volcano," a descriptive march by E. T. Paul. This selection comprises almost an entire evening's entertainment in itself, and is said to be an especially dramatic instrumental production. The complete program is: March, "Trooper's Tribunal" (Fillmore) For Two, "Base of Washington Square" (Handley) Overture, "Echoes from the Metropolitan Opera" (Tobani) (Excerpts from the greatest operas) Trombone Smead, "Mr. Thomas Cat" (Hall) Patrol, "Blue and Gray" (Dalbey) Descriptive March, "Roaring Volcano" (E. T. Paul) Synopses: "Synopses of the greatest operas" and crowning of the victors; ringing of Angoulet bell and peoples' vesper hymn; distant rumbling of volcano; rumbling increases; volcano bursts in full fury of eruption; people fleeing in terror; death and destruction. March, "Iverson" (Lithgow) Star Spangled Banner

Today's Markets NEW YORK, (AP)—Technical conditions canceled substantial rallies aided by earlier money and investment buying of railway stocks and bonds. Sales approximated 850,000 shares. Today's Wall Street session opened in unimportant fashion with the majority of important stocks and bonds showing a downward tendency. A further drop in sterling exchange of six cents on the unfavorable foreign news induced liquidation and short selling which counteracted supporting orders and effected a mixed offset produced by yesterday's late relaxation in call money rates. Mexican Petroleum, Baldwin, the steels, Central Leather, United States Rubber, Corn Products, Great Northern preferred, Chesapeake and Ohio, and New Haven were depressed 1 to 2 points. Buying of influential stocks and a five-cent rally in sterling facilitated the late price movement in some shares. The closing was irregular. Liberty Bonds NEW YORK, (AP)—Liberty bond final prices today were: 3 1/2's \$91.02; first 4's \$85.50; second 4's \$84.00; first 3 1/4's \$85.50; second 4 1/4's \$84.80; first 4 1/2's \$85.54; fourth 4 1/4's \$85.12; Victory 3 3/4's \$95.60; Victory 4 3/4's \$95.68. Grains and Provisions CHICAGO, (AP)—Wild fluctuations in price with trading on a large scale made the wheat pit today the unimportant center of interest today on change. Heavy selling in wheat started to disturbing financial reports, including a sharp fresh break in sterling exchange, and the prices down as much as 1 1/2. The apparent absence of the British war commission, a buyer had a further depressing effect. However, of large export sales to other European countries led soon to a decided rally. Opening prices, which ranged from 8 1/2 to 12 lower, with December \$2.16 to 2.23 and March \$2.23 to 2.24 were followed by upturns to \$2.27 bid 2.30 respectively and then by a sharp decline to 2.24. A decided rally in selling pressure later was accompanied by a gradual recovery in price, influenced by acceptance of Canadian crop figures and talk of increased European diplomatic activity. The close was nervous, 1 1/2 net lower to 1 1/2 advances, December \$2.29 to \$2.30 and March \$2.32. Corn was kept within normal limits. Offer opening 1 1/4 off to 7-8 advance, including September at \$1.42 to \$1.43 and December \$1.25 to 1.26, the market under a normal term sale. Later, the smallest receipts together with reports of car scarcity made the September delivery harder. The close was unsettled, 2 1/4 net lower to 1 1/4 advance, September \$1.42 to 1.43 and December \$1.23 to 1.24 and 1 1/4 net. Oats followed corn, opening 1 1/2 to 1 1/4 net, with September 71 1/2 to 73 1/2, and then developing weaker, 1 1/4 net. Strength of hog values sustained provisions. The market though was neglected. Cash quotations. CHICAGO, (AP)—Wheat—No. 2 red \$2.25; No. 3 hard, \$2.22 1/2. Corn—No. 2 mixed \$1.40 1/2 to \$1.49 1-2; No. 2 yellow \$1.47 to \$1.49 1-2.
