FRANCE VOICES CONCURRENCE IN AMERICAN NOTE

Declares in Note to United States Views on Russo-Polish Situation are "in Complete Accord"

JUSTIFIES RECOGNITION OF ANTI-SOVIET LEADER

Expresses Satisfaction with Evidences of Entire Unanimity between Two Nations on Critical Situation

PARIS, (AP)—Plans are under consideration for a renewal of the conference between Premier Lloyd George and Premier Millerand, it was learned today. It was said that others might also attend.

PARIS, (AP)—The French government is sending a note to the United States expressing pleasure that the French and American views on the Russo-Polish situation are "in complete accord," it was learned today.

Claims Identical Conclusion. The note, which is 800 words long and is signed by Premier Millerand, recapitulates the conclusions in the American note to Italy, saying that France "reaches an identical conclusion." It adds that France "never varied in its intention to support the principles so clearly formulated by the government of the United States."

The French note says it was with these principles in mind that France recognized General Baron Wrangel and decided not to approve the Soviet's terms to Poland unless they conform with these principles. It concludes that France is "happy to note once again the most thorough agreement between the American and French peoples when there is at stake the future of civilization."

Principles in Accord. Premier Millerand says that France is "entirely in accord with the principal points formulated" in the American note. A copy was given Leland Harrison, secretary of the American embassy.

APPROVES HIGHER RATES

Commerce Commission Endorses Application of Express Company

WASHINGTON, (AP)—An increase of 12.5 per cent in express rates, was authorized today by the interstate commerce commission.

Request of the American Railway Express company for increases averaging 35.10 were found not justified by the commission with the exception that the rates on milk and cream may be equalized with those contemporaneously applied by the railroad lines between the same points.

British Labor on Side of Russians in Anti-War Stand

LONDON, (AP)—The opposition of British labor to assistance in the war against Russia was voiced today with unanimity at a conference representing all elements of the workers.

Resolutions adopted "hailed with satisfaction the Russian government's declaration in favor of the complete independence of Poland," and pledged the British labor party to resist any form of military intervention.

HARDING TURNS ON CRITICS OF G. O. P. POLICY

Expresses Recognition of Promise of Future by Declaring Nation Must Not Forget Lessons of the Past

MARION, O. (AP)—Replying in a speech today to charges that the republican party is "looking backward," Senator Harding declared that although the future promises great achievements, no progress it would not do for the nation to forget the lessons of the past.

Without referring directly to the acceptance speech of Governor Cox, the republican nominee repeated criticisms of his party made in that speech and replied that if to remember the teachings of the father of the republic was to live in the past, then he was "happy to drink of the past for my inspiration for the morrow."

The senator's address was made before the Ohio republication editorial association, and in it he took occasion to speak for a forest policy that would insure an adequate domestic supply of print paper pulp and fill other home demands. He also advocated an editorial policy "not partisan but patriotic."

OPERATORS WILL MEET MINERS ON WAGE SCHEDULE

Joint Scale Committee of Central Competitive Coal Field Assembles at Request of the President

CLEVELAND, O. (AP)—A meeting of the operator members of the joint scale committee of union miners and coal operators of the central competitive bituminous field adjourned at 2 p. m. after a two hours session with an announcement that the operators would meet the miners in a joint meeting at 3 o'clock to consider a change in wages for day or month labor in the bituminous field.

Speaks for Operators. E. C. Sears, president of the Illinois operators association, announced that the operators would meet the committee of miners and arrange for a joint meeting, probably this afternoon.

Speaking for the Illinois operators, Sears said: "I will come here with an open mind, willing to listen to any plan the miners have to offer. It would be impossible to make any prediction as to the outcome."

At the miners' meeting, President Lewis declared 27 per cent of the men employed in the bituminous coal fields were day workers and that they could not live on their present wages of \$6 per day.

"The men only work about half time and they cannot exist on \$18 a week," he said. "He would not deny that an increase of \$2 a day had been mentioned as the figure that would work at the joint scale committee meeting."

Joint Meeting Brief. The joint meeting convened at 3 o'clock and adjourned after a short session until 10 o'clock tomorrow morning without the miners presenting their wage proposition, to which they had not fully agreed on. Michael Gallagher, Cleveland, Ohio, operator was elected chairman of the joint meeting and William Greco, international secretary-treasurer of the miners, secretary.

At Wilson's Request. At the request of President Wilson, the joint scale committee of union miners and coal operators of the central competitive field, comprising western Pennsylvania, Ohio, Indiana and Illinois, were to convene today to consider a change in wages for laborers employed by the day or month in the bituminous coal mining industries. The scale committee is composed of the central field, new wage scales will have to be drawn up for all the other coal producing sections in the United States and Canada.

President John D. Lewis, of the United Mine Workers of America, who arrived last night, William Greco, secretary-treasurer and Philip Murray, vice president, and 32 state or sub-district officers were to present the miners' case. Only two operators represent the employers.

To Ask \$3 a Day. The miners were expected to request that workers in the central field be given an increase of \$2 a day over their present maximum of \$6 a day. The agreement is reported in the central field, new wage scales will have to be drawn up for all the other coal producing sections in the United States and Canada.

WARSAW IS UNDER STATE OF SIEGE

Russian Soviet Forces Are Attacking North and East Lines Within 25 Miles of Polish Capital

GAINS IN SOUTH COUNTER BALANCE EVACUATION OF MLAWA AND PULTUSK

WARSAW, (AP)—Mlawa, on the Warsaw-Danzig railroad, about fifty miles northwest of here, has been taken by the Bolsheviks, according to reports last night.

Soviet forces are creeping along the Prussian frontier, and are gradually working their way westward toward the Vistula river. They are also making an effort to reach it just west of Warsaw from Ciechanow.

Polish successes on the southern front where the Russians have been pushing for Lemberg, are reported in last night's official communique. The military and industry have been evacuated from Radziszewski, Lopatyn, Stanyatynsk and Toporoff.

These towns are northeast of Lemberg and to the west and northwest of Brest-Litovsk.

Fighting is continuing further south along the Stripsa.

In the north the Poles are still falling back, its statement announcing they have evacuated Mlawa and Pultusk.

Russian soviet forces attacking the Polish lines northeast and east of here Thursday reached a point 25 miles from Warsaw. A state of siege has been declared here by the military governor. Civilians are not permitted on the streets after ten p. m. and cafes must close at 9.

The determination of the Bolsheviks to proceed toward Warsaw showed itself at various points along the battle line Thursday, there being hand to hand fighting in many instances. The Poles were repulsed from their positions, and contained every foot of ground given up to the invaders.

Struggle for Pultusk. Fighting was reported Thursday within 30 miles of Warsaw. It was said Pultusk changed hands several times and late accounts were that fighting was going on in the streets. The Poles were holding the west bank of the Narwa river at this point, beating off the Bolsheviks from the north and hurling back other units which were trying to cross the river.

Warsaw hummed last night with military activity, but only soldiers and officers were allowed in the streets. Preparations for the defense of Warsaw were made, and lights burned until late in the war offices and the foreign office, where affairs of state were being discussed. The terms and conditions to be carried by the Polish delegates who will meet the soviet representatives on Saturday to discuss peace preliminaries were also being drafted.

Arrange for Correspondents. It was considered late last night that two American and two British newspaper correspondents, as well as several Polish, French, Italian and Spanish journalists, will accompany the peace delegation. Just how long the delegation will remain at Warsaw is not known, but diplomats said last night they expected the conference would last four or five days or longer.

Associated Press will be represented. An effort will be made to send daily dispatches either by the wireless or by the courier to Moscow.

It was announced last night that outgoing persons at Washington, D. C., were accepted at the telegraph offices. This is a military measure to prevent news of troop movements getting out.

PEACE PROSPECT RAISES HOPE OF WARSAW SAFETY

Polish Commissioners with Authority to Negotiate Preliminary Treaty to Meet Soviet Delegates

OFFICIALS REGARD FALL OF CAPITAL IMPROBABLE

Air Raids over Russian Lines Continue Daily Part of City's Defense; American Flyer Wins High Honor

WARSAW, (AP)—Polish commissioners with authority to negotiate a preliminary treaty of peace expected to leave Warsaw early Saturday to meet soviet delegates somewhere on the road between Warsaw and Brest-Litovsk, the foreign office announced Thursday. The meeting will take place between 5 and 7 p. m.

After meeting the soviet delegates the Polish commissioners probably will be taken to Minsk, where the peace conference is expected to take place. The two man mission that went to the front to inform the Bolsheviks that Poland wished to send peace delegates returned Thursday, and there was a more confident feeling than has been prevalent during the past fortnight. High officials said they considered the fall of the city now out of the question.

The Polish mark, which recently has been quoted at \$70 for \$1, rose to 175 today.

Air Raids Continue. Air raids over the soviet lines are a daily feature of the city's defense, aviators flying from the Warsaw aerodrome every 20 or 30 minutes for the front. One airplane caught fire when starting on a raid, the pilot was observed to be killed, and four civilians were killed and six injured by the explosion of bombs when the plane struck earth.

A branch of the American legation has been established by Poles, where it will await developments. John Campbell White, secretary of the American legation, will remain in Warsaw as long as possible.

American Wins High Honor. Edward Noble of Boston, Mass., a lieutenant in the Kosciuszko squadron of aviators, wounded during the Kiev campaign, has been promoted to captain and awarded the highest Polish military decoration.

Consider Jurist for Chairmanship National Board

Judge Charles McDonald May Be Selected "Garry" Herrmann's Successor

CHICAGO, (AP)—Discussion of the peace agreement to August Herrmann for the chairmanship of the national baseball commission sprung up anew today with the mention of superior court Judge Charles A. McDonald, of Chicago.

"I think Judge McDonald would make a good man for the position," said President Johnson, of the American League, when the subject was mentioned on President Heydler, of the National league, to state his preference. Judge McDonald would not say whether he would accept the position were it offered him.

VARDON LOOKS A WINNER

TOLEDO, O. (AP)—Harry Vardon, six times British champion, today bid good-bye to the American open title by scoring 66-35-71 for the third round of the open championship, leading the field with 218 strokes for 54 holes while a dozen competitors were still playing the third round. He was being shipped, Walter Hagen taking 41 strokes for the first nine while Jack Hutchinson took 88. James Barnes, St. Louis, Bobby Jones, Atlanta, and George S. Coe, Chicago, and Bob McDonald of Chicago were next to Vardon with 222.

Tennessee Senate Ratifies the Amendment while Favorable Resolution Meets Approval in North Carolina

INTEREST-CENTERING IN RACE FOR CRUCIAL VOTE

NASHVILLE, Tenn., (AP)—The Tennessee senate today ratified the woman suffrage amendment. The vote was 25 to 4.

The vote came after two hours debate. Adoption of the resolution was moved by Senator Houston, floor leader of the suffragists. The opposition made a point of order that the legislature had no authority under the state constitution to ratify the amendment. An appeal to the members on a motion to sustain the speaker was carried, 27 to 5.

Four members answered "present, but not voting," when the roll was called. Seventeen votes were necessary for ratification and when the required number had been received a tumultuous session followed. Both the senate and house adjourned until Monday. Speaker Walker of the house, announced that the committee (Continued on Page Four)

Transport in San Francisco Harbor Figures in Controversy Involving Two Extinct Russian Governments

SAN FRANCISCO, Cal., (AP)—The Rogday, transport of the Russian Volunteer fleet, which arrived in San Francisco harbor from New York via Manzanillo, for bunkers on January 24, has become the central figure in a now international situation involving two extinct Russian governments, the Kerensky and Kolchak regimes, and the United States.

The Rogday is of aquat and prosaic appearance and her history includes service on the Great Lakes, as well as a freight carrier and transport for the Russian government in the Russian Volunteer fleet. She served on the Great Lakes as the Nevada, and was constructed by the Milwaukee Shipbuilding and Drydock company at Milwaukee, Wis., in 1915 for the Goodrich Transit company of Chicago.

She was sold to Russia in the latter part of 1919. The Rogday is a steel screw propelled steamer with a net tonnage of 1078 tons or a gross tonnage of 2212 tons. She is electrically lighted equipped with wireless telegraph and has three decks. Duluth, Minn., was the home port of the Rogday while under American registry. Her registry was changed to Russian at the time of her sale to Russia.

Following a litigation in federal courts here, the Rogday was ordered handed over to Commander M. Gordinev, representative of the Kolchak government, who was the Rogday's captain when she put into port here.

On the morning of Saturday, July 24, about 7 o'clock a boarding party under the leadership of Lieutenant Commander A. Benkevsky, an assistant naval attaché of the Russian embassy at Washington, D. C., went aboard the Rogday which was moored in China Basin and seized the transport.

Captain M. Gordinev, deposed commander of the Rogday, in a statement following the seizure of the transport said he "was commissioned by the Kolchak government, known as the old Russian government in October 1919, and was to proceed from New York via the Panama canal to San Francisco thence to Vladivostok. Arriving at San Francisco in January, 1920, I was told to discharge my cargo and send it to Seattle. My cargo was worth \$2,000,000 and my ship \$200,000 but I had no control over the cargo, hence I had no way of refusal to do so on advice from the embassy.

"But in February the embassy wired me that Admiral Kolchak was dead and that the old Russian government had fallen, adding that I was to give up my ship. This I refused to do, as I considered that the ship belonged to the Russian people and not to any party which claimed to be in power.

"Later this year Benkevsky came aboard several times trying to urge me to leave my ship but I refused. He is an assistant naval attaché of the Russian embassy at Washington.

"He came aboard Friday, July 23, the day before the seizure and told me at that time he was going to Del Monte a summer resort near San Francisco, on a pleasure trip. He said that Romanovsky, the Russian consul in San Francisco, was also going out of the city. He told this to throw me off the track, as the next morning he came aboard at 7 o'clock armed."

United States naval officers at Mare Island, Cal., following the seizure of the Rogday by Benkevsky and his

followers, declared that the status of the transport should be determined by the American state department because of the international question concerned insofar as Captain Benkevsky claimed to be a representative of the Kerensky regime, which is the only Russian government recognized by the United States.

Although exact action involved in the controversy has changed the other with being in some manner connected with the Bolshevik government in Russia, each in turn vigorously denied that it sought possession of the Rogday in behalf of the soviet regime.

EXONERATE RUMLER.
SALT LAKE CITY, (AP)—The board of directors of the Salt Lake baseball club of the Pacific Coast league last night adopted a resolution exonerating Outfielder William Rumler of charges made by Babe Borton former Vernon first baseman, concerning the payment of \$200 which Borton said was given to Rumler to throw games to Vernon last season.

PREMIER OF GREECE OUT OF DANGER FROM WOUND

Assaults Act in Revenge for Dismissal from Service, the Police Say

PARIS, (AP)—Premier Venizelos of Greece, who was wounded here yesterday when fired upon by two young Greeks, spent a good night in a hospital and is in no danger it was announced today. The bullet which lodged in his left shoulder was to be extracted this morning.

Georges Thyriakis and Apostolos Iseppis, his assailants acted through purely personal motives, according to the Greek legation. After the fall of former King Constantine, they were removed from the Greek army and navy by the Venizelos government because of their open pro-German sentiments, it is said.

Police officials have found documents in Greek, German and French in the men's rooms.

"The bullet which lodged in his shoulder was extracted this morning. Attending physicians issued this bulletin: 'A ball which was broken into four parts and lodged in the muscles of the rear wall of the armpit has been extracted under the X-ray. The condition of Premier Venizelos is very satisfactory but absolute rest is necessary.' It was expected that the premier will be able to leave the hospital in about three days.

WRISTLER INJURED.
EMPORIA, Kan., (AP)—Joe Schackley of Ogden, Utah, who was injured here Friday when he fell through the ropes to the floor during a wrestling match, was still unconscious tonight and physicians expressed little hope for his recovery. He suffered a concussion of the brain. Officers said tonight that no action would be taken against Jack Fisher of Emporia, his opponent.

ATHLETIC STARS ON THEIR MARKS IN 7TH OLYMPIAD

Dress Rehearsals Being Held Today for Grand Sports Events at Antwerp

ANTWERP, (AP) — Dress rehearsal for tomorrow's opening of the great stadium where the seventh Olympiad will be held was held today. Virtually all contestants are here.

Albert, king of the Belgians, Queen Elizabeth and their sons, Grand Marier and many other notable figures will witness tomorrow's ceremony. The American contingent will be led by Patrick McDonald, who, standing 6 feet 5 inches tall, carries the American flag. The standard bearing the name "United States" will be carried by H. J. Hebrner, a member of the American water polo team, who has been a competitor in three Olympic games.

Ellen Allen the 12-year-old American girl diver, will be the youngest contestant in the parade. Nils Skoglund, a Swedish boy, aged 13 years also is an entrant in the diving event. The oldest competitor will be Mr. Swan, a Swede, who although 72 years old, helped his nation's rifle team to win first place.

America will enter the stadium with a one point lead over her nearest competitor, Norway, as a result of preliminary contests.

More follows:
 America 57; Norway 56; Sweden 39; England 20; Holland 13; Belgium 13; France 10; Finland 7; Denmark 7; Brazil 6; South Africa 6; Switzerland 5; Canada 3; Italy 3; Spain 2; Greece 2; Czechoslovakia 1.

America's edge was gained for the most part, by her riflemen while Norway amassed her total by the work of her men in yachting, skating and shooting.

All contests and disputes on the field will be referred to a jury of appeal appointed by the International Athletic Federation. Protests must be entered within 30 minutes after the event in question is run or, in case where the eligibility of a contestant is questioned before the event is run.

Each nation will start four men in each event. The winner will be given seven points, the second five, third four, fourth three, fifth two and sixth one. M. Ransere, a Belgian, has been chosen as starter.

France won the 170 kilometer road race, the Olympic bicycle classic today. Sweden was second, Belgium third and Denmark fourth.

Stenquist of Sweden made the best individual time, 280 minutes 1 4/5 seconds. Kalenbrum South Africa, was second and Ouellet, France, third.

August J. Nogara, John Otto, Ernest T. Koehler and James B. Freeman, the American entries all finished, but their time was over five hours. Fifteen miles from the finish Nogara went over a rooster and was given a bad fall. His legs and arms were severely bruised and his jaw and chin were cut badly. He finished gamely, however.

GRAND CIRCUIT RACES

CLEVELAND, O., (AP) — Thomas W. Murphy of Poughkeepsie, N. Y., famous harness owner and driver, after having a field day at the Grand Circuit meeting Thursday capturing two big stakes offered in harness which may keep him out of the sulky several weeks.

Murphy drove Day Star, winner of the championship steeple chase, valued at \$10,580, establishing a season's record for 3-year-old trotters and then broke three world's records with Peter Manning which he drove in the Press \$5000 purse, for 2:17 class trotters. In the first heat of the next race he sustained two broken ribs and bruises in a collision.

Murphy won the steeple chase in two straight heats piloting Day Star to victory after a hot contest in the first heat with Natalie The Great and the second in a whipping finish from Emma Harvestor in 2:06 3/4, a new season record for 3-year-old trotters.

He then took the Press stake with Peter Manning in three straight hard-fought heats. Peter L., which finished second in each heat, was always a stretch contender. Peter Manning won the first heat in 2:05 3/4, breaking the world's record of 2:05 1/4 for 2:17 trotters. He broke his new mark in the second heat, making the mile in 2:01 1/2. The third heat in 2:03 established a new world's three heat record.

The collision occurred in the 2:03 class trot in which Murphy was driving Red Russell. Near the three-quarter mile Betty Thornton driven by Fred Egan fell. Red Russell, close behind, went into the overturned sulky, Murphy being thrown. Ed Geers, driving Manolo Locke, could not turn out in time and horse and sulky went over Murphy who was picked up unconscious. Red Russell finished the heat driverless and was placed seventh.

Peter Geary, second choice, driven by C. Valentine, won the Plain Dealer 2:07 class trot, value \$5000, taking the first two heats from Peter June, who won the third heat. The favorite, Dr. Nick, was down after finishing seventh in the first heat and fourth in the second.

Following the finish of the first division of the 2:13 class trot a three-heat event in which an extra mile was ordered because of three single heat winners, the judges called all bets off on the fourth heat and the race, because they did not like the work of some of the drivers' decisions as to the drivers was received.

ASSOCIATES OF PONZI CAUGHT IN LAWS TOILS

Charges of Conspiracy to Defraud are Made Against Collaborators with Central Figure in High Finance

BOSTON, (AP)—Raymond Meyers and Charles C. Meyers, described as secretary and manager, respectively, of the Old Colony Foreign Exchange company, were arrested today charged with conspiracy to defraud as a result of the investigation of sensational financial methods which started with the inquiry into operations of the Securities Exchange company of which Charles Ponzi was the leading figure.

The Old Colony Foreign Exchange company recently began business with offices in this city and branches in many parts of New England. It followed the lead of Ponzi in promising unusual returns on notes the offer in this case being 100 per cent in six months.

Ponzi in custody.

Ponzi who was arrested yesterday by federal authorities charged with using the funds in a fraud and later was taken into custody by state authorities and released on bail, was surrendered by his husband, Morris Rudnick today. Rudnick had given bonds of \$20,000 for the federal action and \$10,000 in the state court. Ponzi was turned over to the custody of United States Marshal Dunne.

Ponzi accompanied by one of his counsel, reached the federal building about 3:30 p. m. The attorney said that Rudnick had withdrawn his sureties for business reasons.

Seize Market Warrant

A market warrant including 50 counts of larceny against Ponzi was issued by Judge Bennett in the municipal court. The total amount involved is \$24,000. Inspectors went to the federal building to serve the warrant upon Ponzi who was in the custody of the United States marshal.

A third officer of the Old Colony Foreign Exchange company, Charles Brightwell, the president, was arrested on a charge similar to that preferred against the others.

ROOSEVELT SAYS LEAGUE WOULD HAVE SAVED POLES

Denounces American Opponents of Covenant as "Handful of Crooks"

MILWAUKEE, (AP)—Denouncing the opponents of the league of nations as a "handful of crooks" who seek to "defile" the campaign with a "lot of lies," Franklin D. Roosevelt, democratic nominee for vice-president, came to the defense of the league covenant last night in the closing speech of a busy first day on his western speaking trip.

He laid the blame for Poland's plight on "those little, narrow men in the United States senate," and declared the Bolshevik would never have dared attack the Poles if America had endorsed the league and thrown her moral support behind the Polish people.

"I hate fighting crooks," Mr. Roosevelt declared, "and we are being fed up in this country today by a handful of crooks with a lot of lies. Let's avenge them by their right name. A little handful of narrow men are trying to force us to fight this campaign on little, narrow issues.

"There are many sincere people who are honest in their beliefs. My quarrel is with the men who oppose the league of nations dishonestly, who try to befuddle this country by dragging in technicalities. They talk about 'American first.' Is that a proper campaign slogan to flout in the face of one-half, or three-fourths of the people of this nation who want America to enter the league of nations?"

Mr. Roosevelt's attack on the league opponents was precipitated by criticism that he had avoided the issue in his Chicago speech yesterday. "I am not afraid of the league of nations issue," he told his audience here tonight.

COOLIDGE URGES SELF RELIANCE

Troubled Times No Excuse for Failure to do Our Best, the Nominee Declares

BOSTON, (AP)—Governor Calvin Coolidge addressing the Republican club of Massachusetts last night said that in these troubled times "no man and no party ought to be rash enough to promise performance of plans for long in advance," but that "this is no excuse for failure to do our best." He promised to fight the fire of public service, unworried and unafraid.

"We must look to the past for guidance," he said. "But to ourselves, to success. To despise the past is to destroy the future. It is not in a desire for constant change, but satisfaction in the contemplation of established truth, as we are holding effort for improvement, that character in men and parties is revealed.

"It is desirable to restore our government to a more serious business. Representative government ceases to represent when its decisions reflect any opinion but its own or result from its influence, save a desire to promote public welfare.

"There is need of a strong executive, but there is need of a correspondingly strong congress. And the greatest need of all is that each cooperate.

"A government like ours, we have confidence it will be performed because I have seen leaders of our party disregard personal preferences for the public good, by making mutual concessions to honest business. Personally held, to secure agreement to a sound platform and the choice of a wise leader. I believe in Warren G. Harding. He is too much engaged in doing good to his fellow countrymen to find time to abuse any, too intent upon solving his country's problems to pay any attention to the abuse of others. Public information is bound to increase for the public approval.

"Our country must reconstruct itself. The prodigal wastefulness, in private life and public administration must be curbed. The danger of a change of a severe economic reaction. We must have less of government interference in business and more reliance of the people on themselves. Our great war debts must be met, but by a system of taxation that rests evenly on the shoulders of the public.

"The times are troubled. People are in a ferment. Unrest prevails at home. Discord is too prevalent abroad. No man and no party ought to be rash enough to promise performance of plans long in advance. It is a time when all must feel their way. But this is no excuse for failure to do our best.

"There will be doubt, there will be hesitation, there may be local disorders, but the heart of America is sound. Her people, as a whole, understand and believe in her institutions with a faith and a loyalty never surpassed.

"The danger of this election will turn, not on an attitude toward world politics, but on the attitude toward the home. The wives and mothers are going to exert a mighty influence on the result of this campaign. They believe in patriotism and common cause. Ultimately they will make their choice and they will make it according to the republican standard."

Today's Markets

New York Stock Market

NEW YORK, (AP)—Concentrated driving against shorts on growing conviction that temporarily at least the market had been thoroughly liquidated, and indifference to foreign news, advanced prices materially on light buying. Sales approximated 400,000 shares.

Many of the influential shares such as United States Steel and Baldwin showed very little variation from yesterday's final prices at the opening of the stock market today. Movements were toward higher levels with buying of special stocks in considerable volume. Reports that the long pending merger of various chemical companies would be consummated, influenced an active inquiry for the group. National Amunio advanced five, General Chemical four, and Barrett company 2 1/2 points. Investment aids also were stronger, Mexican Petroleum rising 1/2 and Shell Transport 2 1/2. United States Rubber and Endicott Johnson gained a point each and American Woolen 3. Railroads were neglected. Maxwell Motors first preferred sagged 1 3/8 and Central Leather 3/4. Sterling Exchange, Lackawanna dropped 15 points in the continued hour, but the tendency elsewhere continued upward on a six per cent money rate. The closing was strong.

Liberty Bonds

NEW YORK, (AP)—Closing prices Liberty Bonds today—averages: 3 1/2's \$90.34; first 4's \$94.70; second 4's \$94.34; third 4's \$95.00; fourth 4's \$95.76; Victory 3 3/4's \$95.58.

Grain and Provisions

CHICAGO, (AP)—Chances of an armistice being arranged between Russia and Poland had a bearish effect today on the wheat market. Word that the British commission had again withdrawn from the market as a buyer continued also as a depressing factor. Pit transactions were of only moderate volume. Opening prices, which ranged from the same as yesterday's finish to 1/2-1/8 higher, with December \$2.45 to \$2.40 1/2 and March \$2.40 to \$2.50, were quickly followed by a sharp break all around.

Any lasting rally was prevented by notice that the port of Galveston was congested with grain and that railroad landings for there had been stopped. The market closed heavy, 3 1/4 to 4 1/4 net lower, with December \$2.41 to 2 1/4 and March \$2.44.

Corn, like wheat, was depressed in value by talk of the probability of an armistice. After opening unchanged to 3/4-1/2 lower including September \$1.51 3/4 to \$1.52 1/2 and December \$1.20 3/4 to \$1.27, the market underwent a decided general setback.

Subsequently rains had a further bearish influence. The close was weak, 1 3/8 to 3 7/8 net lower, with September \$1.48 5/8 to 1.49 and December \$1.53 5/8 to 1.55 7/8.

Oats reflected the weakness of other cereals, starting unchanged to 3/8-1/2 down and sagging still more prior to any sign of a rally.

Higher quotations on hogs lifted provisions. Trade, however, was small.

NORTH CAROLINA GOVERNOR URGES SUFFRAGE VOTE

Calls Upon Legislature in Special Message to Accept Inevitable and Ratify Amendment Giving Women Ballot

RALEIGH, N. C. (AP)—Declaring that women should have "the first right to speak when the issue is whether or not the world shall henceforth be ruled by reason and righteousness or by blood and intrigue," Governor Bickett, in a special message, urged today upon the North Carolina legislature to accept "the inevitable and ratify the federal woman suffrage amendment."

Warns Democratic Friends

The governor warned his democratic friends that the most they would be able to do by defeating the ratification resolution would be to delay for six months a movement you are powerless to defeat. He urged them to accept it as the part of wisdom and of grace, adding that within the period of a few months "some other state will open the door and women will enter the political forum."

"We must just as well realize, gentlemen," the governor continued, "that this country is no longer an association of states, but a nation. Whatever a majority of the people of the nation want is going to be the supreme law of the land."

Effect on Race Relations

Discussing 35 years after the Civil war its political energies of our people were absorbed in the struggle to maintain in our borders a white government. I greatly fear that woman suffrage would force us to fight again the battle for a white government."

HARDING TURNS ON BRITISH

(Continued From Page One)

Anticipate Criticism

"I suppose some people will say I am 'looking backward,'" said Senator Harding after declaring his faith in old time standards of patriotism and morality. "But if I have any doubts as to clear our vision we may look forward more confidently."

Go to Causes for Relief

Permanent and ample relief must come by going to the underlying causes. It is obvious that we must have a forest policy which shall make us self-reliant once more. Forest conservation is a necessary accompaniment to printing expansion, and a matter of common concern to all the people.

BOLSHEVIK LOOT MAKES WAY INTO UNITED STATES

Evidence in Martens Case Indicates Many of Famous Jewels of Russian Royal Family Brought to America

WASHINGTON, (AP)—More than 100 diamonds, supposed to have been a part of the famous jewels of the Russian royal family and addressed to Count von Martens, have been intercepted by customs officials while en route from Soviet Russia to the United States, according to evidence introduced at the department of justice inquest August 12. C. A. K. Martens, self-styled soviet ambassador to this country.

Details Courier Service

Details of a regularly established courier service between Bolshevik agents in Sweden and soviet representatives in New York by which large quantities of jewels have been transported to this country has been introduced in the testimony by the government, it became known today at the department of justice.

The diamonds, numbering 121 in all, were seized July 22 by the customs authorities in New York from a Swedish sailor, Neil Jacobson, who attracted suspicion as he was leaving the Swedish steamer "Stokholm" for this country, and said to have had in his possession a package containing a large amount of communist literature including an "appeal of the executive committee of the Third International at Moscow to the U. S. W. W."

To Further Propaganda

The diamonds were described by federal officials as mainly "fictitious." They are believed to have formed a part of the imperial Russian crown collection which the Bolsheviks are said to have confiscated.

DISCLAIMS KNOWLEDGE OF DIAMONDS ADDRESSED TO HUN

NEW YORK, (AP)—Ludwig C. A. K. Martens unrecognized Russian soviet ambassador to the United States, today disclaimed any knowledge of diamonds addressed to him which it was brought out at his deportation hearings had been intercepted in New York by customs authorities.

PROBLEM OF EDUCATION

A wave of interest in education is sweeping Mexico and even the most lowly classes of the people are eager for enlightenment, a news dispatch from that country says. This is a gratifying symptom. Mexico needs education more than any other element of civilization. When the school house is substituted for the barracks, the barracks will be unnecessary.

In the meantime, it is worth while to note that the United States is moving ponderously toward those education reforms that recent months have disclosed as imperative. Nevertheless, in broad view, we are still halting deplorably. The Smith-Towner bill, which sincere friends of education count upon as essential to intelligent progress, still faces an uncertain fate after months of congressional buffeting. There is, in some quarters, misunderstanding of the purpose of the legislation, and fear has been expressed that it is designed to throttle the states in their long exercised control of the public school system.

Of course, the Smith-Towner bill proposes to do no such thing. It establishes a federal department of education, whose secretary would be a member of the president's cabinet, and would appropriate \$100,000,000 to the states in fixed ratio upon their appropriating dollar for dollar to achieve certain well-defined purposes. Among these items are:

- The education of 8,000,000 illiterates.
- Americanization of the foreign-born.
- Furthering of physical education.
- The training of teachers.

How desperately the country is in need of progress in these fields recent events have made painfully clear. The states would welcome federal co-operation in ministering to these national needs.

Education is one of the greatest domestic problems the nation must face within the next two years and the attitude of the political parties to the school and the teacher deserves the consideration of the thoughtful voter.

PITY THE CENSUS TAKER!

Since the days when King David numbered the children of Israel the taking of the census has always been productive of trouble. David's enumeration was for military purposes and was expressly against the divine command because it was tantamount to an expression of distrust in the power that established the chosen people as a nation. As far as our advice goes there has been no decree of the Almighty directed against census taking in the United States, but that is practically the only source from which complaints against the last census have not emanated.

Civic pride is exceedingly sensitive, and when the citizens of a community have read the estimates of real estate men and various civic bodies showing how a place has doubled in population since the last census was taken, they are very naturally disappointed when the cold figures are presented to them.

SECRETARY-MANAGER OF NEW ASSOCIATION

GUY FLENNER

ASSOCIATION PLANS TO BRING ABOUT CLOSER RELATIONSHIP BETWEEN DEALERS AND OWNERS

Automotive Trades Association Proposes Collection of Statistics Relating to Auto Industry in State that will be of Benefit to Various Elements Connected with Motor Business

By **GUY FLENNER**,
Secretary-Manager Idaho Automotive Trades Association.

I have been asked to contribute an article on the correlated industrial aspect of the auto business, more especially as affecting Idaho.

The absence of detailed statistics on the industry in Idaho renders it difficult at this time to avoid generalities. Steps have been taken to collect this data, which will be available shortly and which will show conclusively that very large part the auto plays in the industrial life of our state.

We have figures covering the nation and what is true of the country is relatively true of Idaho. There are approximately 7,500,000 motor vehicles registered in this country. Last year there were manufactured 1,657,692 passenger cars valued at \$1,401,736,925 and 310,364 trucks valued at \$423,326,021. There was \$1,015,443,388 invested in manufacturing autos and probably that much more invested throughout the country in distribution establishments. When we add the investment in accessory houses, etc., the figures mount into first place industrial proportions, for the tire and necessary business of the nation last year amounted to \$3,167,834,594.

Many Employes.
More than a million employes are associated in this auto business in the country, with an average of five per-

sons dependent upon each—five million people make their living in this industry.

In Idaho, as I have stated, detailed figures are at this time not available. There are, however, over \$43,000 outstanding auto licenses. This would indicate that about 8 per cent of the people of the state owned motor vehicles. That is not literally true, because many establishments own several apiece; but the license figures denote the wide use of the auto in our state.

There may be those who argue that the auto is to a large extent an extravagance, and for that reason its purchase generally should be discouraged. The fact is, however, that the auto is a positive necessity in this day and age of the world and in no state to a greater extent than in Idaho, where other transportation facilities are totally inadequate.

Millions of dollars of the output of Idaho comes from sections that have no direct railroad transportation. The auto is the business. But where railroads are available, it is found the passenger car and the truck are necessary to anything like a satisfactory expeditious handling of business. It is unnecessary to go further into that phase of the subject. It is a matter of common knowledge; and as the state grows, the demand for autos will proportionately increase.

Don't Need Them.
Any extravagance, therefore must

exist merely in the case of passenger cars owned by those who have no other use for them than for joy-riding purposes.

No doubt there are some such cases, but they are the rare exception rather than the rule.

Go down the list of auto owners and you will find a necessity for cars in the light of modern business methods.

If we are to keep up with the procession we cannot travel in the one-horse shay.

Of course, it is puerile to argue against a vital industry because a comparatively few utilize it purely for pleasure. And at that, if they did not blow their money for gas it would go, perhaps, for far more deleterious indoor extravagances and excesses. At least they get health out of doors.

To argue against the auto industry from the standpoint of isolated cases of extravagance is tantamount to condemning the church because of the expensiveness of a rascally elder or to demanding suspension of the banks because of an occasional defalcation.

Cannot Go Backward.

We can't go backward. It isn't the American way. The people of this good old U. S. A. figure they are entitled to about the best there is going. They can't use the flintlock, nor the saddle, nor the shack with the punch-stick floor, nor the stocking for a bank. They have advanced to the automatic, the power thrasher, the cozy cottage, and strong, progressive mercantile and financial institutions.

And so it is with the auto. The old means of transportation will not do. For business and pleasure combined, which is the dominant use, the auto has performed a notable service for humanity. It has brought communities into closer relationship. It has made prompt interchange of ideas possible. It has become one of the very large factors in development along all lines.

Twin Falls Title and Abstract Company

The automobile industry, including the associated lines, such as accessories and tires, has a payroll in this state running into the millions. In Ada county alone it is around a million dollars a year. Many people in this state draw their pay checks every week from the auto industry and distribute large sums into the channels of trade in a steady stream. It is easy to understand how general conditions would be affected by any injury to this industry.

No industry in this state can be hurt without harming every man, woman and child in the state.

IN BUILDING A HOME OR A CHICKEN COOP WE CAN HELP YOU

We have found that if we can save a man money on a bill of lumber, it usually brings him back next time he wants to buy building materials. We have found that it pays to look after our customers' interests just as carefully as we look after our own.

That's why we are anxious to discuss your building problems with you at any time. That's why we place at your service our Architectural Department to draw plans and specifications for any improvements you wish to make. We make it our business to see that you get fact value for every dollar you spend in building. We consider that part of our job.

A Money-Saving Tip

You are losing money on your automobile if it isn't properly protected from the weather. The depreciation on your car in a single season, if it is not taken care of, will more than pay for a garage. Let us furnish you with blue prints and simple instructions for building an inexpensive garage for your car, now.

Low-Cost Mileage—Get It in Goodyear Small Car Tires

There is no economy in buying so-called bargains in tires offered at sensationally cheap prices when a well-made tire delivers mileage at a considerably lower rate of cost.

Add the time and trouble occasioned by frequent replacements and it is fully apparent why tire users, seeking real mileage economy, are not attracted to very cheaply priced tires.

The popularity of Goodyear Tires, of the 30 x 3, 30 x 3 1/2 and 31 x 4-inch sizes, is based on the fact that they are built to deliver exceptional mileage at low cost and consistently do so.

If you own a Ford, Chevrolet, Dort, Maxwell or other car taking these sizes, goto your nearest Service Station for Goodyear Tires—for true Goodyear mileage, value, economy.

SPORTS

(Continued from Page Three)

Brief Bits of Sport

The Salt Lake Bees seem to thrive on adversity.

Yesterday the club went back into first place, dislodging the hated rival Vernon club.

Can you beat that "Babe" Adams comeback?

Ruth wasn't much help to his team yesterday but the Yankees managed to make it three in a row from the Indians.

The White Sox are not gaining any on the Yankees, but both Sox and Yanks are gaining on the Cleveland Indians, thank goodness.

And it's anybody's old race up to the present time of writing.

Whenever there's gambling, whether in wrestling, fighting or baseball, there is also crooked words, a gambler must win somehow.

There's a harvest to be reaped out of the Pacific Coast crop of bribery trouble, and when it's all over, "nose like, both the Vernon and Salt Lake clubs will be minus a swell coterie of stars.

John Burke until the other night was known about Pittsburgh as an amateur lightweight champion. Then he made his debut in pro ranks with considerable pep, snapping a professional mittman to sleep in a single round.

Burke's first regular victim was Jack Kelley, a San Francisco who recently determined he would have to leave the home town and find other worlds to conquer.

On Saturday afternoon of this week the two black Sams McVey and Langford, will mix in mortal (?) combat in an East Chicago ring.

And on that occasion Jack Dempsey will be at the ringside to see how those ancient-Senegambian rivals perform in the ring.

In the box score of last Tuesday's game between Salt Lake and Sacramento "Butch" Tyler is credited with three blows in four chances.

The summary has been referred to the official scorer for either confirmation or correction. The Salt Lake official statistician always maintained Tyler could not hit the ball.

Sam Smiley, anglo-brush sage, says: "Them what hez met Georges Carpentier in the ring admit he's the most strikin' Frenchman that ever visited our beloved country."

Some fellers pay you compliments, But never pay you money; They say our talk is full o' sense, They say our story's funny, They say, they say, they say, they say— But folks who do are fewer, Don't be a sayer all the way, Just sometimes be a doer.

Marty Krueger got back into the Doc lineup this week with more or less of a crash. He got three hits in four times up on his initial appearance and three out of five on the second. Besides this he did quite reasonable shagging about the keystone position.

All of which appears to indicate that a rest does a fellow good any old time.

A rival of the democratic party insists Cox is badthing for Wilson.

Has anybody heard anybody say anything about a boxing carnival for Twin Falls on Labor day?

Aw, c'mon!

STEVENS HELD; DOUBLE CHARGE

Alleged Bootlegger also Faces Counts of Drunkenness and Resisting Officer

L. W. Stevens, of 401 Third avenue north was yesterday evening arrested by Traffic Officer Frank Milton and stands accused of two offenses against the law. The county prosecutor proposes to file a complaint charging drunkenness while it is said a complaint charging resisting an officer will be entered in the police court.

Stevens, who some time ago paid a fine in the district court for illegal possession of liquor after having been a fugitive from justice some months, was placed under arrest by Officer Milton in an alley back of the machine garage about 6 o'clock last evening. The arrest is said to have followed an attack by Stevens against the officer when the latter attempted to search Stevens' car on suspicion that the machine was being used in an illicit traffic.

According to the policeman other officers had been watching Stevens during the afternoon in the belief that the suspected man possessed a supply of intoxicating liquor. Stevens is said to have eluded the other police officers but was detected by Milton as he drove into the alley. Milton today declared that he asked Stevens for information concerning the contents of the car and was ordered to mind his own business. The officer says that Stevens had intended to send the car to the garage, but he attempted to carry out this design Stevens struck him. A fight, according to Milton, ensued in which Stevens was subdued.

Milton is said to have escorted Stevens through the alley in search of another officer, the traffic man intending to deliver his prisoner and then return to search the car. Upon his return Milton found no illegal goods in the machine, but upon investigating a nearby office claims to have found a quart of whiskey in a garage. Occupants of the building declare they had no knowledge of the presence of the liquor. It is not expected a charge of illegal possession will be preferred against the occupants of the office.

Stevens was held in jail all night and will probably be so held until he is taken out for arraignment.

HOT WEATHER OVER STATE DID NO DAMAGE TO GROWING CROPS

Departmental Report of General Weather Conditions Tells of Fine Maturing Conditions in All Sections — Wheat Harvest a Record and Spuds are Expected to be Big Yield

Although the weather over the entire state of Idaho was averaged more than ordinarily hot crop growing and maturing conditions are reported to have been excellent with all crops making splendid advancement.

This information comes in the form of a crop reporting statement by Clinton E. Norquest, state meteorologist of the U. S. department of agriculture.

Concerning the immediately district of Twin Falls Mr. Norquest notes the week was hot with plenty of sunshine, and that all growing crops look excellent and give promise of abundant yields. He also tells of wheat and alfalfa harvest in full swing with reports of record runs for grain at the elevator points. Corn, too, gives great promise and is expected to produce a record crop. Some alfalfa has been threshed showing good returns.

Of the situation over the state in general the report reads: The week was generally hot and dry throughout the state although local thunder showers afforded some relief from the heat in scattered districts. Sunning was practically uninterrupted every day and this with hot drying winds did some damage to late ripening wheat and to prunes. All day farm crops were affected adversely but in irrigated districts crops made phenomenal progress. Corn, potato, sugar beets, and garden and truck crops grew rapidly. Beet seed is maturing in the Idaho Falls section with excellent prospects for a large yield in the second cutting of alfalfa is down and in the stock for curing. Under the present conditions of heat and sunshine it is necessary to handle this crop as expeditiously as possible.

Except that prunes in some orchards were injured by hot winds, fruit generally made good progress. Thinning of apples has been finished in some commercial districts. Appricots are ripe and the orchards are ready for picking. Melons are plentiful and of good size and quality. The potato crop is making satisfactory progress in most of the big commercial districts and a large crop is in prospect, but in some sections the yield is small on account of planting inferior seed. In the Deseret district digging of the early crop has been suspended on account of the low prices offered.

Pastures and ranges are drying over extensive areas and are badly in need of rain, but range feed is still adequate and livestock are in excellent condition.

SUIT FOR GROUND RENTAL. Asking judgment for \$200, together with such other relief as the court may see fit, Frank Croner and Pearl Croner, of Fairfield, Idaho, have entered an action in the district court on change of venue against Barker and Larson, sheep men. The claim is that plaintiffs and the defendant company entered into a contract whereby the latter acquired right to graze sheep on the plaintiffs' land. The claim is that the company charged for the service. It is alleged there is yet \$200 to be paid. The case is transferred from Hailey.

STEVENS AND WIFE SUED. Suit was filed in the local district court this morning by Mrs. George Dow against L. W. Stevens and Mrs. L. W. Stevens to recover judgment for \$470 on a promissory note, alleged to have been given last April, no part of which, it is claimed, has been paid. Interest and fees are asked in addition to the original amount of the note.

DESERPTION IS CHARGED. Ida Belle Baxter is seeking a divorce from Charles W. Baxter, to whom, according to the complaint, she was wedded in Chehalis, Wash., July 2, 1910. The principal allegation is desertion which the complaint says occurred in August, 1918. There are three children of this union, custody of which plaintiff asks, with certain division of property and the payment of fees.

JEROME COUNTY TO HOLD A FAIR

Mayor Anderson Selected Manager of Exposition—Program Being Made Up

"We are going to break into this county fair business right and expect to profit by the experience of Twin Falls and other neighbors who have held county fairs in other years. The first exposition of Jerome county products should be top-notch and we expect it to be. The dates are September 16-17-18."

Anders Anderson, mayor of Jerome, chairman of the Jerome board of county commissioners, contractor and manager of the first Jerome county fair, voted for the exposition, while in Twin Falls today arranging details for the fall exposition at the north side county seat. Mr. Anderson tells of extraordinary efforts to line up the best possible array of produce from the north side districts, with live stock and poultry as well as some extraneous attractions of an entertainment variety.

The Jerome county exposition will be held on a site set apart by the commissioners for fair purposes. There are 13 acres in the tract, with needed buildings already in course of progress. With Mr. Anderson at the helm, the fair is composed of seven Jerome business men. The directors are now employed devising a program for the fair.

Stevens Must Serve Prison Term—Forgery

Young Man who Broke Parole Ordered Sent to State Prison on for Offense

James E. Stevens, 22 years of age, was this morning ordered committed by the state court to serve a penal term of one year to 14 years. Judgment was pronounced by Judge W. A. Babcock of the district court.

Stevens, more than a year ago was arrested and convicted on a charge of forgery, having issued a number of fraudulent checks. The circumstances of the case seemed to warrant a degree of clemency and Judge Babcock after fixing an indeterminate term to be served at the state prison, permitted the young man liberty on parole, the defendant being required to report to the juvenile officer at stated intervals. Instead of complying with this phase of the order Stevens ran away to Washington and was arrested there soon after arrival for issuing bad checks. He served a term of one year in the state prison at Walla Walla and was then delivered into the custody of John B. Anit to be brought to Twin Falls for further examination on the old charge. He will be taken to Boise tomorrow to enter prison.

Nocturnal Trip Made by Mother to Lower Drauer

The weather department did not have a great deal of cool stuff in stock, and is rapidly substituting the old "continuing warm" goods. That is the prediction for tomorrow, with fair added for Saturday, too.

Last night's coolness was the feature of the past 24 hours' temperature, it being 47 degrees for low, causing mother to arise and supply a demand for another cover. Top temperature yesterday was 87 but today is hotter.

SUPERINTENDENT BLUE TO ADDRESS AUDIENCE

Head of City Schools Will Talk Sunday Night on Education and Christianity

Speaking on the broad subject of the public schools of America as relates to their importance to the nation and Christian civilization Hal G. Blue, superintendent of Twin Falls city schools will give an address to take the place of the regular service, at the time of the union services in the city park Sunday night. The address should have a particular interest for people of Twin Falls who have children of school age. At this meeting the Rev. W. A. Moore of the Christian church will preside with other ministers of local churches participating in the service. The choir of the Methodist church will give special music for this occasion.

SETS NEW RECORD FOR TRANSCONTINENTAL TRIP

Touring Car Carries Mail from Coast to Coast in Four Days and Fourteen Hours

NEW YORK, (AP) — Announcement was made today that a new unofficial record for a transcontinental automobile trip was established when a five passenger touring car carrying United States mail from San Francisco to New York arrived here late yesterday after a run of four days, 14 hours and 43 minutes.

An official of the American Automobile association said today that this was at least one day faster than any previous unofficial record. Post officials declared that the automobile's time compares well with that of all except the fastest through mail trains.

The trip was the first eastward run of a scheduled series of five or more round trips. These cars have made the eastward journey. The route traveled by the machine is 3,247 miles long, stops being made and drivers changed at Elv, Nevada; Cheyenne, Wyo.; Council Bluffs, Iowa; Dubuque, Iowa; Valparaiso, Indiana; Lima, Ohio; Wheeling, W. Va.; Cumberland, Md., and Easton, Pa.

Seeing the Inside

"You can't judge a book by its binding nor a woman by her clothes."—Palmetto Parker.

You have to go below the surface to find the facts. The outside doesn't show much, but the inside the X-Ray permits us to see through the jawbones to the tooth roots. Many diseased conditions are thus found and then cured.

Perhaps an X-Ray picture of your teeth would tell you something you ought to know.

When you think of TEETH, think of PARKER.
