AMERICANS HAVE NARROW ESCAPES IN BATTLE ZONE

Fighting Waged by British and Greek Troops with Bandits Jeopardizes Lives of Educators and Workers

CONSTANTINOPLE, (AP)—Many Americans have had narrow escapes in the fighting which British and Greek troops have kept up for several weeks with the bandits which are harassing the eastern shore of the Bosphorus. Boikos, a summer place 10 miles north of this city reached by hourly ferry service, has been the chief center of the fights between bands of adherents of Mustapha Kemal Pasha, nationalist leader, and the British-Greek soldiers operating under the artillery protection of British warships.

Bullets Chase Workers

An American oil company is erecting two great steel tanks at Boikos which came well within the line of fire between the rival forces. The steel riveters were compelled to flee for their lives and for several days bullets played a tattoo on the tanks which was nearly as constant as the tune of the riveting machines. Many Americans were in summer camps and cottages in the vicinity of Boikos the night the fighting began, but they speedily moved to the western shore of the Bosphorus where it was possible for several nights to watch the fighting on the Anatolian hills by the light of the naval rockets and searchlights used in directing the gunnery. Robert College and Constantinople college for women, the two American institutions of higher learning on the Bosphorus, both commanded an excellent view of the struggle and were safely out of range of the nationalist bullets.

Battle Prevents Survey

Professor F. W. Kelsey, of the University of Michigan, was prevented by the fighting in Anatolia from making a survey of the famous battlefields of Caesar south of Samosun. Professor Kelsey has been in Turkey for many weeks investigating old manuscripts and studying ruins of the Roman civilization. He hoped to make the trip from Samosun to Zile, about which one of Caesar's best known campaigns was waged, and had made all arrangements for motor transportation. But the unsettled political conditions and the activities of the various bands forced him to abandon the expedition.

JAPANESE LACK MODELS

Modern Art in Nippon is Endangered when Girls Refuse to Pose

TOKIO, (AP)—Modern Japanese art is endangered by lack of models. An unusual gathering of 99 girl models and most of the prominent sculptors and painters was held to try to solve the question of the demand for girls to pose. The Art school advertised and received only seven answers. Of these seven applicants only four were willing to pose in the nude and none of them remained very long. They receive a salary ranging from \$2 to \$50 a month and are expected to do two or three two-hour sittings a day.

MEXICAN OFFICE HOLDER WOULD ABOLISH OWN JOB

Governor of Federal District Including National Capital Breaks Precedent

MEXICO CITY, (AP)—Clemente Gasca, former showman, now governor of the federal district which comprises Mexico City, is trying to abolish his own office. Senor Gasca contends that his work is not necessary since there is a city council in existence well able to handle the municipal affairs of the capital. Pointing out the frequent conflicts of authority resulting from the present dual system of administering the affairs of the capital, Governor Gasca said:

"I am planning to submit to the president of the republic a legal project for the abolition of the federal district government. I believe it to be superfluous."

When the news of Governor Gasca's plan spread to the employes of the federal district, dismay is reported to have been expressed. It is pointed out however that most of these employes can be retained under the city council system.

CHINATOWN POPULATION CONTINUES TO DWINDLE

Census Figures Show San Francisco Habitat of Orientals Being Depopulated

SAN FRANCISCO, (AP)—San Francisco's Chinatown, at one time perhaps the largest in America, is reported to have a population which continues to decrease in population, according to statements from the Chinese consulate and the Chinatown police squads. Before the San Francisco fire of 1906 there were over 30,000 Chinese here, it was estimated. Today Chinatown is credited with a population of between 5000 and 7000. Chinese populations of other sections of the United States also are decreasing, according to census figures at the consulate. In 1900, they show, there were approximately 49,000 Chinese in America. In 1910 the number had decreased to about 71,000 and in 1920 to 55,000.

Many reasons have been assigned for the decrease here. The consulate thinks restrictions on Chinese immigration have been the main cause and agrees with officials of the police squad that the ban placed on gambling in the Chinese quarter is another reason. Chinese love to gamble, the police say, and when the ban was ordered many left. Eastern cities have called many San Francisco Chinese where they engage in the restaurant and laundry business. Chicago, it is said, has drawn heavily upon San Francisco oriental quarter.

FRANCE PARES COAL USE

Seeks New Ideas in Economy as Fuel Supply Runs Short

PARIS, (AP)—New ideas for economizing coal and other fuel are sought by the authorities and 100,000 francs in prizes have been offered by the Seine department for ideas and inventions this fall.

Under the provisions of the Spa conference agreement, France will have, from all sources, slightly less than 80 per cent of her needs in coal and now, in the sultry heat of summer, the people are beginning to worry about the shivers of the coming winter.

AUSTRIA ADOPTS TAX ON WEALTH

Assembly Approves Bill with Amendments of Reparations Commission

VIENNA, (AP)—The tax on wealth bill has been adopted by the assembly after including in it the amendments proposed by the reparations commission. These amendments which caused much criticism, were designed to prevent the bill contravening terms of the peace treaty or conflicting with the emperor's proposal of May 21, 1920, for a loan issue to cover present or future debts to Austria.

Chancellor Renner, in presenting the amendments, said he did so because national interests forced the country to comply with allied demands.

Foreign Minister Bauer said with bitterness that it was the first time in history a foreign power ever drafted and forced acceptance of amendments to legislation pending in the legislature of another state. He was cheered loudly.

Social democrats during the debate charged that Christian socialists had attempted to defeat the measure by inspiring bankers and representatives of "big business" to go to the reparations commission to point out the dangers of the bill. When Deputy Friedmann admitted doing so and began a defense of his course there were cries of "Traitor—Hung him!" A group of members made a rush for Friedmann but he hid under a desk and finally was rescued by officials.

Austria's tax on wealth is expected to produce one billion crowns.

INDIANS GATHER SNAKES FOR ANNUAL CEREMONIAL

Hopi Reservation in Arizona to be the Scene of Tribal Dances Attracting Many Visitors

FLAGSTAFF, Ariz., (AP)—Indians of the Hopi reservation have been gathering snakes and making other preparations for months for their annual snake dance to be held August 23. Tourists from many parts of the United States have attended the dances in the past.

The date and place of the dance is not revealed until shortly before the event is to occur. The date depends upon the moon, which must be in a certain position, at the time of the dance, to make it a success. Elders of the tribe have announced they think the moon held at Hotevilla, a village on the Hopi reservation 130 miles north of here.

Advices have been received that about 1000 tourists will attend. Indian agency officials will have a representative at the reservation to issue permits.

CRITICISM OF HIS SUPERIOR COST GERMAN COUNT HIS JOB

BERLIN, (AP)—Count Munster, who was first secretary to the former king of Saxony and since has held an important position in the republican ministry for agriculture, has been summarily dismissed.

The explanation given on behalf of the government for his dismissal is that the count had said in public that Herr Schwarz, his chief, the present minister for agriculture, formerly a metal turner, "didn't know anything about agriculture," only in less respectful terms.

OVERLAND CAR BREAKS ANOTHER U. S. RECORD

Across the United States, 3442 miles from New York to San Francisco, with an average of 27.2 miles to the gallon of gasoline! Twenty-five, different drivers handled the car.

That's the new trans-continental economy record established on Monday morning, July 26, when the Overland "How Much Gas" car found the end of its trail before the Overland store in Van Ness avenue, San Francisco.

The run was started from 211th street and Broadway, New York, at midnight, July 18. Just 170 hours later or roughly seven and one-half days, this light weight car had completed one of the most interesting and unusual trans-continental journeys in recent automobile history. Eleven states crossed with all their variety of rough country roads, broken mountain trails, stretches mud and weary wastes of desert land yet the car arrived in San Francisco ready and fit to make a return trip.

This great record is all the more remarkable because of the conditions of this economy test. Spanning the continent has usually been a contest against time. The Overland run was directed against high costs of gas, oil, tires and upkeep.

The object of the run was to determine a national standard of economy and stamina for the light-weight car, a class in which the Overland has created a sensation because of its many new features, including the triplex springs, designed to ward off the jars and jolts of the roughest roads and thus prolong the life of the car while protecting passengers from the usual road discomforts.

GERMANY DROPS SCHEME FOR PORCELAIN COINS

Experts of Reichsbank Advise Government Against Adoption Because of Unworkableness

BERLIN, (AP)—The proposal to manufacture porcelain coin to the amount of 60,000,000 marks for the German republic has been abandoned. Some attention had been produced at the Meissen but of faultless artistic imprint. Experts of the Reichsbank, however, advised the government against their adoption, mainly on the ground that they would be unwieldy in the pocket or purse, could not be easily distinguished by touch and could not be counted with existing counting machinery.

One of the most important points raised in opposition to their use was that they might be imitated without particular difficulty except for a degree of hardness which could only be ascertained by tests by experts in porcelain.

PREDICTS WYOMING FARMERS WILL REAP BIGGEST CROPS CHEYENNE, Wyo., (AP)—Farmers in Wyoming this year will produce the largest grain crops in history, according to Professor F. B. Parsons, agronomist of the University of Wyoming, who has just completed a tour of the entire state. The farmers, Professor Parsons says, are finding the importance of using standard tested seed. He declares cattle throughout the state also are in excellent condition.

DATES OGDEN STOOK SHOW. OGDEN, Utah, (AP)—The annual Ogden livestock show will be held January 6-8, 1921, according to announcement following a recent meeting of the show directors. Charles H. Barton of

Ogden was unanimously re-elected president.

STUCK TO JOB AND BECAME A REAL VAULTER

Walt Eckersall Tells what Made Frank Foss Champion at High Bars

By WALTER ECKERSALL. Frank Foss of the Chicago Athletic association, one of the stars of the American track and field team competing in the Olympic games at Antwerp, Belgium, and who won the Olympic pole vault, is an example of a self-made athlete, a performer who has reached the pinnacle of his career by perseverance and determination.

Star at Cornell

Foss broke into the athletic spotlight at Cornell university where he was rated one of the best vaulters in the eastern colleges. When he entered college he was a frail sort of athlete who did not have the strength to pull himself up while attempting extreme heights in his chosen event. He had the necessary speed to get up in the air, but his shoulder muscles were not strong enough to do the rest of the job.

Leaps Nearly Thirteen Feet

By the time he left college, Foss was able to clear the bars at heights close to 13 feet. He came west and went into business with his father at the stock yards in Chicago. He did not lose his interest in athletics and joined Martin Delaney's track team.

Makes Record Here

Foss made his record breaking vault at the Sears, Roebuck & Co. meet last year. Conditions were not any too favorable, as the ground was soft in the take-off hole in the pole, while a strong cross wind did not help any. It was a clean attempt as Foss did not even tick the bar.

Vaults with Boll on Back

Foss contracted a boil on his back a few days before this year's championships or Olympic tests. The boil could vault without having it lanced because such an operation would impair his chances of making the Olympic team. The affliction was so painful the night before the games that it was necessary to call a physician, who immediately lanced the boil. Hot applications were applied during the night, with the result Foss was not at all affected.

WHO ARE THEY?

SIoux CITY, Ia. (AP)—Johnnie Nichols of Sioux City, knocked out George Dempsey of Chicago in the third round of a scheduled 10-round bout here last night. The men are welterweights.

BLUES BUY PLAYER

KANSAS CITY, Mo. (AP)—Pat Scott of the Vancouver club of the Pacific international league, has been purchased by the Kansas City American Association team, it was announced today.

YANKEE ATHLETES HAVE LONG LEAD IN POINTS MADE

ANTWERP. (AP)—The American team at the conclusion of event in championships or Olympic tests, had a point score of 158, with England, her nearest rival, having 66. Yesterday's scores were made with two firsts, two seconds, one third, two fourths, one fifth and one sixth. At the end of the first day the Americans were leading in the decathlon events.

RUMLER IS DONE IN COAST LEAGUE AVERS MCCARTHY

President of Pacific Circuit is Firm in Stand Taken Against the Bee Flyer

SAN FRANCISCO, Cal. (AP)—A statement that "as long as I am at the head of the Pacific Coast baseball league, Bill Rumler shall not play in the organization," was made by William H. McCarthy, president of the league yesterday, following an endeavor of William Lane, president of Rumler's club, Salt Lake, to lift an indefinite suspension against the flyer for betting on the outcome of the pennant race last year.

Lane holds a different opinion from my own and says that my suspension of Rumler was unnecessary, but that this has not influenced me in the slightest," McCarthy said. McCarthy explained that Rumler may be signed up in any other league providing the club which desires his services secures his release from the Salt Lake club.

Huggins Declares Mays Will Pitch Against Detroit

Manager to Use Pitcher who Caused Chapman's Death in New Series

NEW YORK. (AP)—Manager Miller Huggins of the New York Americans, said today that Carl Mays, pitcher, would be used in the series with Detroit, opening here and there last Monday when he threw the ball that fatally injured Ray Chapman, Cleveland shortstop.

JOHNSON WON'T ACT

CLEVELAND, O. (AP)—An official action antagonistic to Carl Mays, the New York American league pitcher who pitched the ball Monday which resulted in Ray Chapman's death, will be taken by President R. B. Johnson of the American league. The case is ended as far as he is concerned, Johnson declared here yesterday.

GRAND CIRCUIT RACES

PHILADELPHIA. (AP)—The downfall of world's record holder featured the Grand Circuit races yesterday at Narberth. The best Rifle Grenade, which hung up a new world's record for 3-year-old pacing geldings this season, could do in the 3-year-old race for the Holmes stake was to win the third heat in the slow time of 2:08 1/4. Priceco June won the first two heats; Rifle Grenade was lame and the heavy track was not to his liking, but he was a favorite with the big crowd and his defeat, was surprise.

WIGGINS SHADED

KALAMAZOO, Mich. (AP)—Harry Greth of Pittsburgh, won the newspaper decision over "Cluck" Wiggins of Indianapolis in a 10-round boxing match here last night.

TITLE ASSURED

BOSTON, Mass. (AP)—California v. awarded of the national doubles tennis championship today when the first round for the title was played today. William M. Johnston, national champion and C. J. Griffin met Willis Davis and Roland Roberts for the honor of taking the trophy to California, the home of the members of both teams.

RAIN SPOOLS ROADS

ELGIN, Ill. (AP)—The Elgin national road race, scheduled to start at noon on account of rain. Officials announced that the rain had so flooded the course that a start would be impossible even should the weather clear up by noon. The same hours will be infected next Saturday.

Brief Bits of Sport

In Thursday's game against Cleveland, Babe Ruth hit the ball so hard that a spectator fell over dead.

That constitutes another record for the Bull Busting Bambino of the Yankees.

When the opposing twirler lets the Bee club down with two hits only Salt Lake paragraders declare it is an episode wholly lacking in human interest.

Still and all there is some interest in a game even if it is fraught with only two hits if one player makes 'em both.

Earl Sheely copped both blows of the memorable tilt between the Bees and Seals Thursday.

Billy Miske says if condition counts for anything he will whip William Harrison Dempsey of Salt Lake in a walk.

Oh, very well!

It may be the state boxing commission does not know what it is about when it suspends Ray Hess, is suspended from participation in arena frays in this state. Art says he will fight Spug Meyers in Poncellito on Labor Day without a lick of doubt.

Nothing more has been heard about that proposed strike of American League players against Carl Mays. Perhaps there won't be.

Mays, by the way, is reported suffering from a nervous breakdown as the result of the Chapman fatality.

Apparently the big blonde twirler will not be of very much use to the Yankees the rest of this season.

By beating Brooklyn 3 to 2 in 13 innings Thursday the Reds proved what their adherents have claimed for them all along—that they are better "stay-ers."

Soldier Bartfield, aspirant for welterweight boxing honors, fractured a wrist hitting Bryan Downey on the coco in Detroit Thursday night. Bartfield insisted upon finishing the bout, sparing his man to the finish. The accident happened in the tenth and last round of the fray.

Did the state boxing commission wait until Twin Falls fought Gordon McKay before it found the fighter was due for an investigation because of something that happened at Poncellito on July 5?

It surely does take a Big Ben of extraordinary power to awaken some folks.

Sam Smiley, scrubbrush sage, says: "The country ain't as excited as it used to be now over one thinganother since Col. Roosevelt changes 't' national bird 'em an' eagle to a stork, because 't' former util' screams while 't' latter de-livers 't' goods."

Every minor league club manager in the country, it seems, has heard of Salt Lake's predilection for outfielders and is offering consolation in the way of players, for a price, of course.

Frank Guigni (June), former Port land pitcher who jumped the Beavers fortnight ago, joined the Salinas club of the Mission (Calif.) league, and by so doing has caused the dropping of the Missions from the outlaw league.

These outlaws surely do have a lot of troubles.

SELLING REAL ESTATE Is a classified advertising task. Why waste time with signs and placards attracting little attention in the immediate neighborhood? Your logical buyer undoubtedly reads the ads—but he may not even know about your property through any other means.

HOT WEATHER HINTS ON CARE OF BATTERY

"Nobody expects a man to stop his car a half dozen times on a boiling hot day just to see if his battery is getting too hot," says Joseph H. Seaver, West Service station dealer.

"But it pays to keep an eye on overheating when hot days and long runs are the rule."

"At noon and at night the careful driver feels of the battery terminals, if the terminals seem hot he turns on the lights for an hour or two. This relieves the battery of its surplus charge. Under this precaution is taken the battery plates may be warped so that repairs will be necessary."

"Another thing to remember in that summer heat increases the evaporation of water from the cells. This water must be replaced. Many drivers make a habit of putting a little distilled water into each cell every week. Of course precautions must be taken against overflowing in too much. If a cell is overfull some of the solution will slip out through the tiny vent at the top of the jar, and will cause rotting of the battery case, corrosion of connectors, terminals and so on."

What the finish of your motor car must do

Your automobile is "dressed" for ALL seasons in its varnish coats and these coats must meet every emergency of heat and cold, weather and wear!

A few little films of varnish! They are all you have to protect your car! Your car's beauty is largely dependent on the ability of these thin films to stand up under the extremes of heat and cold, weather and wear. No wonder these films of varnish should be properly applied—and good materials used.
